Subject: Notice Fee Required – Administrative Protection Framework

Community Trade Mark Registration (EUIPO)

IPC-Intellectual Property Consulting

Legal & Regulatory Affairs Division

[redacted]

Dear Sir/Madam,

We hereby notify you regarding the post-registration administrative requirements for your Community Trade Mark, registered by the EUIPO – European Union Intellectual Property Office on [redacted] under registration number [redacted] for the following mark:

[redacted]

This registration is recorded in the official EUIPO Register of European Union Trade Marks and includes the following official details:

- Filing Date: [redacted]
- Expiry Date: [redacted]
- Nice Classes: [redacted]
- Publication Date: [redacted]

Following the formal entry of your registration, the EIPD – IPC-Intellectual Property Consulting has initiated the activation procedure of the Administrative Protection Framework.

[redacted]

This framework provides:

• continuity of administrative safeguarding

• monitoring of validity and procedural status

• support for enforceability in cases of opposition or infringement

• alignment within the European Trade Mark Network (TMDN)

Please note that the EUIPO – European Union Intellectual Property Office registration alone constitutes only the procedural act.

Continuous administrative protection requires confirmation through settlement of the applicable EIPD – IPC-Intellectual Property Consulting service fee.

REQUIRED PAYMENT

To maintain uninterrupted administrative protection, the following fee is due within 7 calendar days:

Amount Due: EUR 2,445.00

PAYMENT DETAILS:

• Beneficiary: IPC-Intellectual Property Consulting

• Bank: Victoriabank

• IBAN: MD40 VI02 2512 6000 0113 5EUR

• SWIFT/BIC: VICBMD2X

• Reference: [redacted]

Regulatory Context (Informative Reference)

Although independently administered, the following EUIPO – European Union Intellectual Property Office regulations highlight the importance of fee maintenance:

• Article 178 EUTMR: EUIPO – European Union Intellectual Property Office fees must be paid in advance; non-payment results in loss of rights

• EUIPO Guidelines 2.2.3: Missing a required fee causes the step to lose legal effect

• EUIPO Guidelines 6.11.3: A lapsed fee may render the act not validly completed

(These do not govern the EIPD – European Intellectual Property Directorate service directly; they highlight the importance of administrative safeguards.)

Consequences of Non-Payment (EIPD Administrative Framework)

Failure to settle the above service fee may result in:

• termination of administrative protection services

• discontinuation of monitoring and compliance safeguards

• reduced enforceability in disputes

• increased exposure to third-party objections

• interruption of administrative continuity

Your EUIPO – European Union Intellectual Property Office registration remains formally intact; however, without administrative protection, the procedural robustness and enforceability of your trade mark may be materially weakened.

Activation of the service will be confirmed immediately upon receipt of payment.

Required Action

We strongly advise completing the payment within the specified timeframe to avoid any disruption to administrative safeguarding of your Community Trade Mark.

Should you require clarification or administrative support, please contact the Legal & Regulatory Affairs Division of the EIPD - Intellectual Property Consulting.

Yours sincerely,

Office of the Finance Director

EIPD - IPC-Intellectual Property Consulting
