INFORMATION CONCERNING PRACTICES OF NATIONAL (AND REGIONAL) OFFICES

PRACTICE WHICH UNITED STATES PATENT AND TRADEMARK OFFICE ACCEPTS IN CASES WHERE THE UNITED STATES OF AMERICA IS DESIGNATED AND THE INVENTOR IS UNAVAILABLE OR UNWILLING TO SIGN THE INTERNATIONAL APPLICATION.

This information was last published on pages 2647 and 2648 of PCT Gazette, No. 24/1982.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION (PCT UNION)

ASSEMBLY

Ninth Session
(6th Extraordinary)

(Geneva, September 10, 1982)

Note*

The Assembly of the International Patent Cooperation Union (PCT Union) held its ninth session (6th extraordinary) in Geneva on September 10, 1982.

Nineteen of the 32 Contracting States were represented at the session: Australia, Austria, Belgium, Brazil, Denmark, Finland, France, Germany (Federal Republic of), Japan, Liechtenstein, Luxembourg, Monaco, Netherlands, Norway, Soviet Union, Sweden, Switzerland, United Kingdom and United States of America.

Four other States participated in the session as observers: Ivory Coast, Mexico, Republic of Korea and Trinidad and Tobago.

One intergovernmental organization, the European Patent Organisation (EPO) and the following three international non-governmental organizations were represented by observers: Committee of National Institutes of Patent Agents (CNIPA), International Association for the Protection of Industrial Property (IAPIP) and International Federation of Industrial Property Attorneys (FICPI).

The list of participants follows this Note.

New amounts of the fees set out in the Schedule of Fees annexed to the PCT Regulations were fixed by the Assembly as from January 1, 1983. They are, in Swiss francs, approximately 7 1/2% higher than the fees applicable in 1982. The amended Schedule of Fees appears on page 2975. The Assembly decided that the equivalent amounts in other currencies would, in respect of all currencies concerned, be established on the basis of the exchange rates applicable in Switzerland on October 1, 1982. The new equivalent amounts are published on page 2979.

---

* This Note was prepared by the International Bureau.

LIST OF PARTICIPANTS

I. Member States

Australia: K. Widdows. **Austria:** N. Marterer. **Belgium:** P. Ceuninck. **Brazil:** E. Cordeiro. **Denmark:** J. Dam. **Finland:** E. Häkli. **France:** G. Rajot. **Germany (Federal Republic of):** U.C. Hallmann. **Japan:** H. Goto; S. Ono. **Liechtenstein:** A. F. de Gerliczy-Burian. **Luxembourg:** F. Schlesser. **Monaco:** E. Franzi. **Netherlands:** S. de Vries. **Norway:** P. T. Lossius; I. Lillevik. **Soviet Union:** S.N. Afanassiev. **Sweden:** G. Borggård; E. Tersmeden; P. Lindh; B. Sandberg. **Switzerland:** M. Leuthold. **United Kingdom:** A. Sugden; J. Sharrock. **United States of America:** L. O. Maassel; H. D. Hoinkes.

II. Observer States

Ivory Coast: K. Zobo. **Mexico:** F. J. Cruz González. **Republic of Korea:** S. H. Kim. **Trinidad and Tobago:** M. Lashley.

III. Intergovernmental Organization

European Patent Organisation (EPO): U. Schatz.

IV. International Non-Governmental Organizations

Committee of National Institutes of Patent Agents (CNIPA): R. P. Lloyd. **International Association for the Protection of Industrial Property (IAPIP):** G. R. Clark. **International Federation of Industrial Property Attorneys (FICPI):** H. Bardehle.

V. Officers

Chairman: G. Borggård (Sweden); *Secretary:* F. Curchod (WIPO).

VI. International Bureau of WIPO

A. Bogsch *(Director General);* K. Pfanner *(Deputy Director General);* F. Curchod *(Director, PCT Division);* B. Bartels *(Head, PCT Legal Section);* M. Lagesse *(Controller, Administrative Division);* N. Scherrer *(Head, PCT Fees, Sales and Statistics Section).*

SCHEDULE OF FEES

Fees	Amounts
1. Basic Fee: (Rule 15.2*(a)*)	
if the international application contains not more than 30 sheets	566 Swiss francs
if the international application contains more than 30 sheets	566 Swiss francs plus 12 Swiss francs for each sheet in excess of 30 sheets
2. Designation Fee: (Rule 15.2*(a)*)	136 Swiss francs
3. Handling Fee: (Rule 57.2*(a)*)	174 Swiss francs
4. Supplement to the Handling Fee: (Rule 57.2*(b)*)	174 Swiss francs
Surcharges	
5. Surcharge for late payment: (Rule 16*bis*.2*(a)*)	Minimum: 215 Swiss francs Maximum: 540 Swiss francs

PCT COMMITTEE FOR ADMINISTRATIVE AND LEGAL MATTERS

First Session

(Geneva, September 6 to 10, 1982)

Note*

The PCT Committee for Administrative and Legal Matters, of which all States party to the PCT as well as the International Searching Authorities and the International Preliminary Examining Authorities are members, held its first session in Geneva from September 6 to 10, 1982.

The following members of the Committee were represented at the session: (i) the following 19 States, members of the International Patent Cooperation Union (PCT Union): Australia, Austria, Belgium, Brazil, Cameroon, Denmark, Finland, France, Germany (Federal Republic of), Japan, Liechtenstein, Luxembourg, Netherlands, Norway, Soviet Union, Sweden, Switzerland, United Kingdom and United States of America; (ii) the European Patent Office, in its capacity as International Searching and Preliminary Examining Authority.

The following five States, members of the International Union for the Protection of Industrial Property (Paris Union), participated in the session as observers: Ghana, Mexico, Republic of Korea, Spain and Trinidad and Tobago.

The following six international non-governmental organizations were represented by observers: Committee of National Institutes of Patent Agents (CNIPA), European Federation of Agents of Industry in Industrial Property (FEMIPI), International Association for the Protection of Industrial Property (IAPIP), International Chamber of Commerce (ICC), International Federation of Industrial Property Attorneys (FICPI) and Union of Industries of the European Community (UNICE).

The list of participants follows this Note.

The Assembly of the PCT Union, at its seventh session, held in Geneva from June 29 to July 3, 1981, asked the International Bureau to carry out a study of possible improvements to the Patent Cooperation Treaty, particularly the PCT Regulations (see PCT Gazette No. 19 of August 6, 1981).

The Assembly, at its eighth session, held in Geneva from November 16 to 24, 1981, noted with approval a communication by the Director General of WIPO that the program would not provide for the convocation of a diplomatic conference. Consequently, no proposal was made for any amendment that would require decision by a revision conference. The study was limited to possible modifications of time limits (fixed in Articles 22(2) and 39(1)(a) of the PCT) which may be effected by the Assembly without a revision conference and to amendments to the Regulations, whose amendment is the Assembly's responsibility.

For preparing the session of the Committee, the International Bureau discussed, in a meeting with representatives from interested non-governmental organizations, held in Geneva on April 1 and 2, 1982, the first results of the study undertaken by it. In making its proposals to the Committee, the International Bureau took into account proposals received in particular from those organizations.

---

* This Note was prepared by the International Bureau.

The most important proposals which were put before the Committee are intended to achieve the following goals:

(i) making the procedure during the international phase under Chapter I of the PCT safer and simpler for the applicant; for example, some proposals are aimed at giving the applicant the means to ensure, in a simpler way than under the existing Rules, that he will not lose his international application because the record copy has not reached the International Bureau in due time; other proposals are aimed at allowing the extension of time limits fixed by the receiving Office and at obliging that Office to excuse trivial errors whose correction it asked for but did not receive; further proposals, dealing with the procedure under which the applicant may amend the claims during the international phase, are aimed at giving him more time to do so, at giving him the possibility to file the amendments through the intermediary of the receiving Office or the International Searching Authority, at giving him the possibility to state more in his explanations of amendments and at permitting him to submit the amendments in the language of publication only; certain other proposals are aimed at making more liberal the rules concerning the rectification of errors and mistakes in documents;

(ii) making the procedure during the international phase under Chapter II of the PCT more attractive for the applicant; for example, some proposals are aimed at giving the applicant more opportunities to present arguments to the International Preliminary Examining Authority and at making longer the time limit for establishing the international preliminary examination report in certain cases;

(iii) simplifying the tasks of the international authorities running the operation under the PCT;

(iv) making it safer and simpler for the applicant to enter the national phase; for example, some proposals are aimed at fixing at 20 months from the priority date the time limit for entering the national phase in designated States where the International Searching Authority declares that no international search report will be established, and at fixing at 30 months from the priority date the time limit for entering the national phase in elected States; other proposals are aimed at making it clear that certain requirements for entering the national phase are not allowed under the PCT, and that certain other requirements to be complied with during the national phase must be complied with by the applicant only after entering the national phase and only after being invited to so comply; further proposals are aimed at reducing the scope of the translations that the applicant has to furnish when entering the national phase; still other proposals are aimed at making it clear in which cases Contracting States must excuse delays in meeting time limits;

(v) including certain patent documents published in the Spanish language into the PCT minimum documentation and including the Spanish language among the languages of international publication of international applications;

(vi) simplifying the wording of certain Rules and deleting some obsolete Rules.

Altogether, the proposals put before the Committee affect two Articles of the Treaty and more than 40 Rules of the Regulations.

The Committee considered the proposals and advised the International Bureau on them.

The Committee will be convened for a second session in early 1983 and will receive for that session a revised set of proposals from the International Bureau. The revisions will take into account the recommendations of the participants of the Committee. They will also include proposals concerning the transfer of some Rules or parts of Rules into the Administrative Instructions.

Depending on the results of the second session of the Committee, the Assembly of the PCT Union could probably be convened in late 1983 for a special session to consider the proposals for amendment of the Treaty and the Regulations emanating from the ongoing study.

LIST OF PARTICIPANTS

I. Members of the Committee

Australia: K. Widdows. **Austria:** N. Marterer. **Belgium:** P. Ceuninck. **Brazil:** E. Cordeiro. **Cameroon:** N. Fomekong. **Denmark:** J. Dam. **Finland:** E. Häkli. **France:** G. Rajot. **Germany (Federal Republic of):** U.C. Hallmann. **Japan:** H. Goto; S. Ono. **Liechtenstein:** A. F. de Gerliczy-Burian. **Luxembourg:** F. Schlesser. **Netherlands:** S. de Vries. **Norway:** P. T. Lossius; I. Lillevik. **Soviet Union:** S.N. Afanassiev. **Sweden:** G. Borggård; E. Tersmeden; P. Lindh; B. Sandberg. **Switzerland:** M. Leuthold. **United Kingdom:** A. Sugden; J. Sharrock. **United States of America:** H. D. Hoinkes; L. O. Maassel. **European Patent Office (EPO):** U. Schatz; L. Gruszow.

II. Observer States

Ghana: A. J. B. McCarthy. **Mexico:** F. J. Cruz González. **Republic of Korea:** S. H. Kim. **Spain:** J. Delicado Montero-Rios; S. Jessel. **Trinidad and Tobago:** M. Lashley.

III. International Non-Governmental Organizations

Committee of National Institutes of Patent Agents (CNIPA): R. P. Lloyd. **European Federation of Agents of Industry in Industrial Property:** F. A. Jenny. **International Association for the Protection of Industrial Property (IAPIP):** G. R. Clark; G. E. Kirker. **International Chamber of Commerce (ICC):** J. M. W. Buraas. **International Federation of Industrial Property Attorneys (FICPI):** H. Bardehle; F. W. Lenz. **Union of Industries of the European Community (UNICE):** F. Thrierr.

IV. Officers

Chairman: G. Borggård (Sweden); *Vice-Chairmen:* H. D. Hoinkes (United States of America), S. N. Afanassiev (Soviet Union); *Secretary:* B. Bartels (WIPO).

V. International Bureau of WIPO

A. Bogsch *(Director General);* K. Pfanner *(Deputy Director General);* F. Curchod *(Director, PCT Division);* J. Franklin *(Deputy Head, PCT Division);* B. Bartels *(Head, PCT Legal Section);* D. Bouchez *(Head, PCT Publications Section);* N. Scherrer *(Head, PCT Fees, Sales and Statistics Section);* V. Troussov *(Senior Counsellor, PCT Legal Section);* T. Hirai *(Examination Procedures Officer, PCT Examination Section).*

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

NEW AMOUNTS OF FEES ESTABLISHED UNDER RULES 15.2(b) AND (c) AND 57.2(c) AND (d)

New amounts as indicated below have been established for the fees specified, pursuant to Rules 15.2(b) and (c) and 57.2(c) and (d) of the Regulations under the PCT. The new amounts are applicable as of January 1, 1983.

Country **Currency**	**Basic Fee where no Additional Amount Payable for Sheets in Excess of 30 Sheets** **Rule 15.2(a)**	**Amount Added to Basic Fee for Each Sheet in Excess of 30 Sheets** **Rule 15.2(a)**	**Designation Fee** **Rule 15.2(a)**	**Handling Fee and Supplement to Handling Fee** **Rules 57.2(a) and 57.2(b)**
Australia *Australian dollar*	276	6	66	85
Austria *Austrian Schilling*	4660	100	1120	1430
Belgium *Belgian franc*	12900	270	3100	4000
Denmark *Danish Kroner*	2350	50	565	–
Finland *Markka*	1455	30	350	450
France *French franc*	1890	40	455	580
Germany (Federal Republic of) *Deutsche Mark*	660	14	160	205
Japan *Yen*	71000	1500	17000	21800
Luxembourg *Luxembourg franc or Belgian franc*	12900	270	3100	4000
Malawi *Kwacha*	237	5	57	–
Monaco *French franc*	1890	40	455	580
Netherlands *Dutch Guilder*	725	15	175	220
Norway *Norwegian Kroner*	1840	40	450	–
Soviet Union *Rouble*	195	4	47	60
Sweden *Swedish Kronor*	1925	40	460	580
United Kingdom *Pound Sterling*	156	3.30	37	48
United States of America *US dollar*	265	5	65	–

Note: For payments to the European Patent Office, the amounts, if not in Swiss francs, are those appearing in the table above in the following currencies: Austrian Schilling, Deutsche Mark, Pound Sterling, French franc, Dutch Guilder, Swedish Kronor, Luxembourg franc or Belgian franc.

NEW AMOUNTS OF FEES

The **Netherlands Patent Office** has notified new amounts of fees payable to it as designated (or elected) Office. The new amounts apply **as from October 1, 1982**, and are as follows:

Kind of Fee	**New Amount** *(Dutch Guilder)*
Filing Fee	280.-
Page fee for each page	6.50

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979, April, June and December 1980, January and July 1981, January and July 1982.

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979, April, June and December 1980, January and July 1981, January and July 1982.

A separate volume of the *PCT Applicant's Guide* (this Volume is referred to as Volume II, Volume I being the *PCT Applicant's Guide* as originally issued in 1978) contains separate chapters dealing with the procedure before each of the designated and elected Offices. The chapters issued to date are:

Australian Patent Office
Austrian Patent Office
Brazilian Patent Office
Danish Patent Office
Finnish Patent Office
German Patent Office
Hungarian National Office
Invention Committee of the Democratic People's Republic of Korea
Japanese Patent Office
Luxembourg Patent Office
Malawi Patent Office
Monaco Patent Office
Netherlands Patent Office
Norwegian Patent Office
Romanian Office for Inventions
Sri Lanka Patent Office
Swedish Patent Office
Swiss Patent Office
United Kingdom Patent Office
United States Patent and Trademark Office
USSR State Committee for Inventions and Discoveries
African Intellectual Property Organization
European Patent Office.

The *PCT Applicant's Guide* in English or French may be ordered from WIPO or, in the case of purchasers from North, Central and South America, from WIPO's sales agent. The addresses of WIPO and the sales agent appear on the inside cover of this Gazette.

The *PCT Applicant's Guide* in German (new loose leaf format) may be ordered from Carl Heymanns Verlag KG, Postfach 275, D-8000 Munich 22, Federal Republic of Germany.

The *PCT Applicant's Guide* in Japanese may be ordered from AIPPI Japan, C.P.O. Box No. 1457, Tokyo, Japan.

---

* The price (1982) of a single Volume of the *Guide* (Volume I may be bought alone) is 85 Swiss francs, including updating/replacement sheets issued in 1982 and earlier years. The additional charges for airmail delivery are: Europe, 10 Swiss francs; other places, 15 Swiss francs.

The subscription price (1982) for the *updating service* for either Volume (only for those who purchased the Volume before 1982) is 50 Swiss francs; the additional charges for airmail delivery are: Europe, 5 Swiss francs; other places, 10 Swiss francs.

The price for a combined order for the purchase of both Volumes I and II or the Guide in 1982 is 150 Swiss francs; the additional charges for airmail delivery are: Europe, 20 Swiss francs; other places, 30 Swiss francs.

The combined subscription to the updating service for Volumes I and II (only for those who purchased both Volumes of the Guide before 1982) is 90 Swiss francs; the additional charges for airmail delivery are: Europe, 10 Swiss francs; other places, 20 Swiss francs.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979, April, June and December 1980, January and July 1981, January and July 1982.

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979, April, June and December 1980, January and July 1981, January and July 1982.

A separate volume of the *PCT Applicant's Guide* (this Volume is referred to as Volume II, Volume I being the *PCT Applicant's Guide* as originally issued in 1978) contains separate chapters dealing with the procedure before each of the designated and elected Offices. The chapters issued to date are:

Australian Patent Office
Austrian Patent Office
Brazilian Patent Office
Danish Patent Office
Finnish Patent Office
German Patent Office
Hungarian National Office
Invention Committee of the Democratic People's Republic of Korea
Japanese Patent Office
Luxembourg Patent Office
Malawi Patent Office
Monaco Patent Office
Netherlands Patent Office
Norwegian Patent Office
Romanian Office for Inventions
Sri Lanka Patent Office
Swedish Patent Office
Swiss Patent Office
United Kingdom Patent Office
United States Patent and Trademark Office
USSR State Committee for Inventions and Discoveries
African Intellectual Property Organization
European Patent Office.

The *PCT Applicant's Guide* in English or French may be ordered from WIPO or, in the case of purchasers from North, Central and South America, from WIPO's sales agent. The addresses of WIPO and the sales agent appear on the inside cover of this Gazette.

The *PCT Applicant's Guide* in German (new loose leaf format) may be ordered from Carl Heymanns Verlag KG, Postfach 275, D-8000 Munich 22, Federal Republic of Germany.

The *PCT Applicant's Guide* in Japanese may be ordered from AIPPI Japan, C.P.O. Box No. 1457, Tokyo, Japan.

---

* The price (1982) of a single Volume of the *Guide* (Volume I may be bought alone) is 85 Swiss francs, including updating/replacement sheets issued in 1982 and earlier years. The additional charges for airmail delivery are: Europe, 10 Swiss francs; other places, 15 Swiss francs.

The subscription price (1982) for the *updating service* for either Volume (only for those who purchased the Volume before 1982) is 50 Swiss francs; the additional charges for airmail delivery are: Europe, 5 Swiss francs; other places, 10 Swiss francs.

The price for a combined order for the purchase of both Volumes I and II or the Guide in 1982 is 150 Swiss francs; the additional charges for airmail delivery are: Europe, 20 Swiss francs; other places, 30 Swiss francs.

The combined subscription to the updating service for Volumes I and II (only for those who purchased both Volumes of the Guide before 1982) is 90 Swiss francs; the additional charges for airmail delivery are: Europe, 10 Swiss francs; other places, 20 Swiss francs.

* Etat non lié par le chapitre II du Traité de coopération en matière de brevets.

1) Les nationaux de cet Etat ainsi que les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales depuis le 1er juin 1978, et cet Etat peut être désigné dans les demandes internationales depuis cette date.

2) Les nationaux de cet Etat et les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales à partir de la date indiquée, et cet Etat peut être désigné dans les demandes internationales à partir de cette même date.

OFFICES NATIONAUX ET REGIONAUX, BUREAU INTERNATIONAL: LEURS NOMS, ADRESSES, ETC.

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1803 à 1807.

RENSEIGNEMENTS CONCERNANT LES ADMINISTRATIONS CHARGEES DE LA RECHERCHE INTERNATIONALE ET DE L'EXAMEN PRELIMINAIRE INTERNATIONAL

ADMINISTRATIONS CHARGEES DE LA RECHERCHE INTERNATIONALE : LISTE ET CERTAINES DONNEES LES CONCERNANT

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1808 et 1809.

ADMINISTRATIONS CHARGEES DE L'EXAMEN PRELIMINAIRE INTERNATIONAL : LISTE ET CERTAINES DONNEES LES CONCERNANT

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1810 et 1811.

DROIT DE DEMANDER DES ECHANTILLONS DANS LE CAS DES DEMANDES INTERNATIONALES CONTENANT DES REFERENCES A DES MICRO-ORGANISMES DEPOSES

Ces renseignements sont publiés à la page 1952 du présent numéro de la Gazette du PCT.

OFFICES RECEPTEURS

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1812 à 1818 sous les intitulés suivants:

- Offices récepteurs compétents

- Offices récepteurs: leurs exigences en ce qui concerne les langues dans lesquelles doivent être déposées les demandes internationales ainsi que le nombre d'exemplaires à déposer, et administrations chargées de la recherche internationale et de l'examen préliminaire international compétentes spécifiées par ces offices.

TAXES PAYABLES EN VERTU DU TRAITE DE COOPERATION EN MATIERE DE BREVETS (PCT)

TAXES PAYABLES A L'OFFICE RECEPTEUR

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1819 à 1823.

TAXES PAYABLES A L'ADMINISTRATION CHARGEE DE LA RECHERCHE INTERNATIONALE

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, page 1824.

Taxes payables en vertu du Traité de coopération en matière de brevets (PCT) (suite)

REMBOURSEMENT DE LA TAXE DE RECHERCHE PAR LES ADMINISTRATIONS CHARGEES DE LA RECHERCHE INTERNATIONALE AU CAS OU UNE RECHERCHE INTERNATIONALE OU DE TYPE INTERNATIONAL A DEJA EU LIEU

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1825 et 1826.

TAXES PAYABLES A L'ADMINISTRATION CHARGEE DE L'EXAMEN PRELIMINAIRE INTERNATIONAL

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1827 et 1828.

TAXES ET DROITS PAYABLES AU BUREAU INTERNATIONAL

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, page 1829.

RENSEIGNEMENTS RELATIFS AUX ETATS DESIGNES (OU ELUS)

EXIGENCES DES OFFICES DESIGNES (OU ELUS) EN CE QUI CONCERNE LES LANGUES DE TRADUCTION DES DEMANDES INTERNATIONALES ET DES RAPPORTS D'EXAMEN PRELIMINAIRE INTERNATIONAL

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1830 à 1833.

CONDITIONS REQUISES PAR LES OFFICES DESIGNES (OU ELUS) EN MATIERE DE TAXES NATIONALES ET DE DELAIS

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1834 à 1839.

OBLIGATION D'INDIQUER LE NOM AINSI QUE CERTAINES AUTRES DONNEES CONCERNANT L'INVENTEUR

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1840 à 1843.

LISTE DES INSTITUTIONS DE DEPOT AUPRES DESQUELLES DES DEPOTS DE MICRO-ORGANISMES PEUVENT ETRE EFFECTUES POUR CERTAINS OFFICES DESIGNES (OU ELUS)

Ces renseignements ont été publiés dernièrement dans le numéro 26/1980 de la Gazette du PCT, pages 2068 à 2071.

OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE APPLICABLE PERMET DE FAIRE REFERENCE AUX DEPOTS DE MICRO-ORGANISMES; LES INDICATIONS (EVENTUELLES), OUTRE LES INDICATIONS PRESCRITES, CONCERNANT CES DEPOTS DEVANT ETRE INCLUSES DANS LES REFERENCES EN VERTU DE CETTE LEGISLATION; LES DELAIS (EVENTUELS), PLUS COURTS QUE LE DELAI PRESCRIT DANS LESQUELS CES REFERENCES ET INDICATIONS DOIVENT ETRE FOURNIES; ET LES INSTITUTIONS DE DEPOT AUPRES DESQUELLES, EN VERTU DE CETTE LEGISLATION, DES DEPOTS PEUVENT ETRE EFFECTUES

Ces renseignements ont été publiés dernièrement dans le numéro 26/1980 de la Gazette du PCT, pages 2069 à 2071.

Renseignements relatifs aux Etats désignés (ou élus) (suite)

LISTE DES OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE NE CONTIENT AUCUNE DISPOSITION CONCERNANT LE DEPOT DES MICRO-ORGANISMES

Ces renseignements ont été publiés dernièrement dans le numéro 26/1980 de la Gazette du PCT, page 2072 .

OFFICES NATIONAUX QUI ONT RENONCE, TOTALEMENT OU PARTIELLEMENT, A LA COMMUNICATION SELON L'ARTICLE 20 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, page 1844.

DISPOSITIONS DES LEGISLATIONS DES ETATS CONTRACTANTS PARTIES A UN TRAITE DE BREVET REGIONAL RELEVANT DE L'ARTICLE 45(2) DU PCT.

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, page 1844.

AVERTISSEMENT ET RENSEIGNEMENTS CONCERNANT LA NECESSITE D'INDIQUER L'INVENTEUR EN TANT QUE DEPOSANT AUX FINS DE LA DESIGNATION DES ETAT-UNIS D'AMERIQUE

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1845 et 1846.

DISPOSITIONS DES LEGISLATIONS NATIONALES DES ETATS CONTRACTANTS RELATIVES A LA RECHERCHE DE TYPE INTERNATIONAL

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1847 à 1850.

RENSEIGNEMENTS CONCERNANT LES EXONERATIONS ET REMBOURSEMENTS (OU REDUCTIONS) DE TAXES PAYABLES AUX OFFICES NATIONAUX (OU REGIONAUX) EN LEUR QUALITE D'OFFICES DESIGNES (OU ELUS)

Ces renseignements ont été publiés dernièrement dans le numéro 24/1980 de la Gazette du PCT, pages 1851 et 1852.

NOTIFICATIONS REÇUES EU VERTU DE LA REGLE 16 *BIS*. 3 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 26/1980 de la Gazette du PCT, page 2073.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 80.6 b) DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 26/1980 de la Gazette du PCT, page 2073.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 26/1980 de la Gazette du PCT, page 2073.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais
– l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées du mois d'août 1979 et du mois d'avril 1980.

en français
– l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées du mois d'août 1979 et du mois d'avril 1980.

Des suppléments au *Guide du déposant*, traitant de la procédure à suivre devant les offices désignés et, le cas échéant, devant les offices élus précisés ci-après, ont été publiés **en anglais et en français aux dates suivantes:**

Office allemand des brevets (en anglais, février 1980; en français, avril 1980),
Office autrichien des brevets (août 1980),
Office japonais des brevets (mai 1980),
Office des brevets suisse (mai 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office néerlandais des brevets (août 1980),
Office suédois des brevets (juin 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant* en anglais ou en français à l'OMPI, à l'adresse indiquée au verso de la couverture de la présente gazette.

Le *Guide du déposant* en langue allemande est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours de la seconde moitié de l'année 1980. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, République fédérale d'Allemagne.

RENSEIGNEMENTS CONCERNANT LES ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE ET DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL

ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE: LISTE ET CERTAINES DONNÉES LES CONCERNANT

Désignation de l'administration chargée de la recherche internationale (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	**Objet à l'égard duquel l'administration ne procèdera pas à la recherche**	**Pour être acceptée aux fins de la recherche internationale, la demande internationale doit être rédigée dans l'une des langues suivantes**
Australie		
Office australien des brevets (31 mars 1980)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, Nº 09/1980, pages 601 et 605).	Anglais
Autriche		
Office autrichien des brevets (23 avril 1979)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT, à l'exception des méthodes de diagnostic ne s'appliquant pas au corps humain. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 06/1979, pages 227 et 231).	Allemand Anglais Français
Etats-Unis d'Amérique		
Office des brevets et des marques des Etats-Unis (11 avril 1978)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT. (Voir l'article 6 de l'accord, qui stipule que l'Administration «n'est pas tenue de procéder à la recherche» à l'égard d'un tel objet, ainsi que l'annexe B dudit accord, Gazette du PCT, No 02/1978, pages 124 et 127).	Anglais
Japon		
Office japonais des brevets (1er octobre 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT, ainsi que les programmes d'ordinateurs. (Voir l'article 7 et l'annexe C de l'accord, Gazette du PCT, No 04/1978, pages 215 et 220).	Japonais

* Aucune administration chargée de la recherche internationale n'a l'obligation de procéder à la recherche à l'égard d'une demande internationale dont l'objet, et dans la mesure où l'objet, est l'un des suivants:

i) théories scientifiques et mathématiques;

ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;

iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;

iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;

v) simples présentations d'informations;

vi) programmes d'ordinateurs dans la mesure où l'administration chargée de la recherche internationale n'est pas outillée pour procéder à la recherche de l'état de la technique au sujet de tels programmes.

Administrations chargées de la recherche internationale; liste et certaines données les concernant (suite)

Désignation de l'administration chargée de la recherche internationale (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	Objet à l'égard duquel l'administration ne procèdera pas à la recherche	Pour être acceptée aux fins de la recherche internationale, la demande internationale doit être rédigée dans l'une des langues suivantes
Suède		
Office royal des brevets et de l'enregistrement (17 mai 1978)	Objet spécifié aux rubriques i) et v) de la règle 39.1* du PCT, à l'exception des méthodes de diagnostic. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 140 et 144).	Anglais Danois Finnois Français Islandais Norvégien Suédois
Union Soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT et programmes d'ordinateurs. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 111 et 115 et No 07/1978, page 349).	Russe Allemand Anglais Français
OEB		
Office européen des brevets (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT et programmes d'ordinateurs. (Voir l'article 7 de l'accord, Gazette du PCT, No 02/1978, page 131).	Allemand Anglais Français Néerlandais**

* Aucune administration chargée de la recherche internationale n'a l'obligation de procéder à la recherche à l'égard d'une demande internationale dont l'objet, et dans la mesure où l'objet, est l'un des suivants:

i) théories scientifiques et mathématiques;

ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;

** A compter du 1er février 1981.

REMBOURSEMENT DE LA TAXE DE RECHERCHE PAR LES ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE AU CAS OÙ UNE RECHERCHE INTERNATIONALE OU DE TYPE INTERNATIONAL A DÉJÀ EU LIEU *

Administration chargée de la recherche internationale	Conditions de remboursement	Montant du remboursement
Autriche		
Office autrichien des brevets *(Gazette du PCT No 06/1979, pages 225 à 232)*	L'administration peut utiliser la totalité ou la majeure partie du rapport de recherche antérieur	75%
Japon		
Office japonais des brevets *(Gazette du PCT No 04/1978, pages 213 à 222)*	1) Remboursement sur requête du déposant et 2) L'administration a été en mesure d'utiliser une part substantielle du rapport de recherche antérieur	12 000 yens
Union soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes *(Gazette du PCT No 02/1978, pages 109 à 117)*	L'étendue de la recherche antérieure était telle que seule une recherche de mise à jour de portée réduite est nécessaire, ou	90%
	La recherche antérieure se rapporte pratiquement à la même invention mais les revendications de la demande internationale en cause sont différentes, de telle sorte qu'il est nécessaire d'effectuer une recherche dans un à trois sous-groupes supplémentaires de la CIB, ou	70%
	La recherche antérieure permet d'économiser la moitié du travail nécessaire pour effectuer la recherche internationale, ou	40%
	La recherche antérieure ne couvre que quelques sous-groupes de la CIB	20%
Suède		
Office royal des brevets et de l'enregistrement (Stockholm) *(Gazette du PCT No 02/1978, pages 138 à 145)*	L'administration peut utiliser le rapport de recherche antérieur	90% 75% 50% ou 25% selon la mesure dans laquelle ledit rapport peut être utilisé

* Le présent tableau résume les cas dans lesquels, et indique dans quelle mesure, les différentes administrations chargées de la recherche internationale remboursent au déposant la taxe de recherche lorsque la recherche internationale peut être fondée, en tout ou en partie, sur une recherche internationale ou de type international effectuée précédemment par l'administration en cause. Le tableau résume les dispositions prévues à cet effet dans les accords conclus entre l'OMPI et chacune desdites administrations (chacun de ces accords est identifié sous le nom de l'administration en cause par un renvoi à la Gazette du PCT dans laquelle il a été publié). On trouvera des renseignements complémentaires dans les notes afférentes au présent tableau. Les remboursements selon les accords précités sont prévus dans les règles 16.3 et 41.1 du règlement d'exécution du PCT.

Remboursement de la taxe de recherche par les administrations chargées de la recherche internationale au cas ou une recherche internationale ou de type international a déjà eu lieu * (suite)

Administration chargée de la recherche internationale	Conditions de remboursement	Montant du remboursement
Etats-Unis d'Amérique		
Office des brevets et des marques des Etats-Unis d'Amérique *(Gazette du PCT No 02/1978, pages 123 à 128)*	L'examinateur constate que l'un des critères suivants a été observé:	
	1) recherche antérieure très complète, ne nécessitant qu'une mise à jour ou qu'une recherche complémentaire succincte	90%
	2) recherche antérieure assez utile, mais ne justifiant cependant pas un remboursement à 90%	45%
Organisation européenne des brevets		
Office européen des brevets *(Gazette du PCT No 02/1978, pages 129 à 137)*	L'administration peut utiliser le rapport de recherche antérieur	100% 75% 50% ou 25% selon la mesure dans laquelle ledit rapport peut être utilisé

Notes

1) ***Office des brevets et des marques des Etats-Unis d'Amérique.*** Une recherche sur l'état de la technique effectuée à l'occasion d'une demande nationale (Etats-Unis) antérieure est considérée comme une recherche de type international pour déterminer s'il y a lieu de procéder à un remboursement. Des remboursements sont aussi effectués selon les mêmes critères et les mêmes pourcentages des taxes de recherche acquittées pour des demandes internationales lorsque les recherches sur l'état de la technique effectuées au cours de l'examen ultérieur des demandes nationales (Etats-Unis) sont entièrement ou partiellement fondées sur des recherches internationales (antérieures) portant sur des demandes internationales.

2) ***Office européen des brevets.*** Les recherches sont admises comme recherches de type international du point de vue des remboursements lorsqu'elles ont été effectuées par l'Office européen des brevets

i) pour une demande de brevet européen (antérieure);

ii) pour une demande nationale (antérieure) (en Allemagne (République fédérale d'), en France, aux Pays-Bas et en Suisse);

iii) comme recherche «type» demandée à titre privé à l'égard d'une demande (antérieure) dont la priorité est revendiquée dans une demande internationale ou européenne ultérieure.

Les critères suivants ont été adoptés pour déterminer le montant du remboursement de la taxe de recherche:

- remboursement à 100%: aucune recherche complémentaire nécessaire;
- remboursement à 75%: recherche complémentaire effectuée dans la documentation relative à une ou plusieurs subdivisions consultées lors de la recherche antérieure *ou* étendue à une ou plusieurs subdivisions n'ayant pas encore été consultées;
- remboursement à 50%: recherche complémentaire effectuée dans la documentation relative à une ou plusieurs subdivisions déjà consultées *et* étendue à une ou plusieurs subdivisions n'ayant pas encore été consultées;
- remboursement à 25%: recherche complémentaire dans la documentation relative aux subdivisions correspondant à un nouvel aspect de l'invention revendiquée. (Par exemple, lorsque la demande européenne est fondée sur plusieurs demandes antérieures dont une seule a fait l'objet d'un rapport de recherche antérieur.)

TAXES PAYABLES À L'ADMINISTRATION CHARGÉE DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL

Administration chargée de l'examen préliminaire international (et monnaie)	Taxe de traitement Δ	Taxe d'examen préliminaire	Taxe d'examen préliminaire additionnelle*	Taxes pour la délivrance de copies des documents cités dans le rapport d'examen préliminaire international*	Taxes pour la délivrance de copies des documents contenus dans le dossier de la demande internationale*

1) Lorsque la priorité d'une demande antérieure est revendiquée dans la demande internationale, 20 mois à compter de la date de dépôt de la demande antérieure; sinon 20 mois à compter de la date de dépôt de la demande internationale.

2) Si les données concernant l'inventeur manquent à l'expiration du délai fixé à l'article 22, paragraphes 1 et 2 ou à l'article 39, paragraphe 1.a) du PCT, l'Office invitera le déposant à fournir ou à compléter les données manquantes dans un délai qui sera fixé dans l'invitation.

3) Lorsque la priorité d'une demande antérieure est revendiquée dans la demande internationale, 20 mois à compter de la date de dépôt de la demande antérieure: sinon, 20 mois à compter de la date de dépôt de la demande internationale et, s'il n'est pas établi de rapport de recherche, 2 mois à compter de la date de la notification avisant le déposant qu'il ne sera pas établi de rapport.

Obligation d'indiquer le nom ainsi que certaines autres données concernant l'inventeur (suite)

Etats désignés	Offices désignés	Délai dans lequel le(s) nom(s) et adresse(s) de l'inventeur (des inventeurs) doivent être communiqués	
		Au moment du dépôt de la demande internationale	S'ils ne figurent pas dans la requête, indication ultérieure
Tchad	Organisation africaine de la propriété intellectuelle (Yaoundé)	Doivent figurer dans la requête	Non admise
Togo	Organisation africaine de la propriété intellectuelle (Yaoundé)	Doivent figurer dans la requête	Non admise
Union Soviétique	Comité d'Etat de l'URSS pour les inventions et les découvertes	Doivent figurer dans la requête	Voir note 1)

1) Si les données concernant l'inventeur manquent à l'expiration du délai fixé à l'article 22 paragraphes 1 et 2 ou à l'article 39, paragraphe 1.a) du PCT, l'Office invitera le déposant à fournir ou à compléter les données manquantes dans un délai qui sera fixé dans l'invitation.

OFFICES NATIONAUX QUI ONT RENONCÉ, TOTALEMENT OU PARTIELLEMENT, A LA COMMUNICATION SELON L'ARTICLE 20

Etats-Unis d'Amérique

Office des brevets et des marques des Etats-Unis

Ont renoncé à la communication en ce qui concerne les demandes internationales déposées auprès de l'Office des brevets et des marques des Etats-Unis en sa qualité d'office récepteur.

DISPOSITIONS DES LÉGISLATIONS DES ÉTATS CONTRACTANTS PARTIES À UN TRAITÉ DE BREVET RÉGIONAL RELEVANT DE L'ARTICLE 45.2)

La *France* est le seul Etat partie à la fois au Traité de coopération en matière de brevets et à un traité de brevet régional, à savoir la Convention sur le brevet européen, dont la législation nationale prévoit que toute désignation ou élection dudit Etat sera considérée comme l'indication que le déposant désire obtenir un brevet régional.

L'article premier de la Loi française No 77-682 du 30 juin 1977 relative à l'application du Traité de coopération en matière de brevets s'énonce comme suit:

«Lorsqu'une demande internationale de protection des inventions formulée en application du traité de coopération en matière de brevets fait à Washington, le 19 juin 1970, comporte la désignation ou l'élection de la France, cette demande est considérée comme tendant à l'obtention d'un brevet européen régi par les dispositions de la convention sur la délivrance des brevets européens faite à Munich, le 5 octobre 1973.»

AVERTISSEMENT ET RENSEIGNEMENTS CONCERNANT LA NECESSITE D'INDIQUER L'INVENTEUR EN TANT QUE DEPOSANT AUX FINS DE LA DESIGNATION DES ETATS-UNIS D'AMERIQUE

Avertissement

Les effets de la demande internationale dans un Etat désigné peuvent dépendre de la question de savoir si la personne indiquée dans la demande internationale en tant que déposant aux fins de cet Etat est habilitée, selon la législation nationale de cet Etat, à déposer une demande nationale.

Renseignements

Les *Etat-Unis d'Amérique* sont le seul Etat partie au Traité de coopération en matière de brevets dont la législation nationale stipule qu'une demande de brevet nationale soit déposée par l'inventeur et dont l'office national rejettera donc, en tant qu'office désigné, toute demande internationale dans laquelle une personne autre que l'inventeur est indiquée comme déposant aux fins des Etats-Unis d'Amérique.

Les sections 111, 115, 116, 117 et 118 du «United States Code», titre 35 - Brevets, partie II - Brevetabilité des inventions et délivrance des brevets, chapitre 11 - Demande de brevet, s'énoncent comme suit (traduction préparée par le Bureau international):

111. Demande de brevet

La demande de brevet sera déposée par l'inventeur, à moins qu'il ne soit prescrit autrement par le présent titre, par écrit et adressée au «Commissioner». Cette demande comprend: 1) un exposé de l'invention comme prescrit à la section 112 du présent titre; 2) un dessin, comme prescrit à la section 113 du présent titre; et 3) un serment du déposant, comme prescrit à la section 115 du présent titre. La demande doit être signée par le déposant et accompagnée par la taxe prescrite par la loi.

115. Serment du déposant

Le déposant déclare sous serment qu'il estime être le premier et original inventeur du procédé, de la machine, du produit, ou de la composition, ou de son perfectionnement, pour lequel il sollicite un brevet; il déclare de quel pays il est le ressortissant. Cette déclaration sous serment peut être effectuée sur le territoire des Etats-Unis, auprès de toute personne autorisée par la loi à recevoir de telles déclarations ou, si elle est faite dans un pays étranger, auprès des autorités diplomatiques ou consulaires des Etats-Unis qui sont autorisées à recevoir de telles déclarations, ou auprès de toute personne possédant un sceau officiel et autorisée à recevoir des déclarations sous serment dans le pays étranger où peut se trouver le déposant, et dont l'autorité sera établie par un certificat émanant d'une autorité diplomatique ou consulaire des Etats-Unis; cette déclaration sous serment sera valable si elle est conforme aux dispositions de la loi de l'Etat ou du pays où elle est effectuée. Lorsque la demande est déposée comme prescrit par ce titre par une personne autre que l'inventeur, la déclaration sous serment peut être modifiée dans sa forme afin de pouvoir être effectuée par cette personne.

116. Co-inventeurs

Lorsque deux personnes ou plus font conjointement une invention, elles demandent un brevet de façon conjointe et chacune d'elles signe la demande et effectue la déclaration sous serment requise, sauf prescription contraire dans le présent titre.

Si un co-inventeur refuse d'apparaître en tant que tel dans une demande de brevet ou ne peut être trouvé ou atteint en dépit d'efforts diligents, la demande peut être déposée par l'autre inventeur, agissant en son propre nom ainsi qu'au nom de l'inventeur manquant. Le «Commissioner», sur production de la preuve des faits pertinents et après notification à l'inventeur manquant telle qu'il peut la prescrire, peut délivrer un brevet à l'inventeur déposant la demande, sous réserve des mêmes droits dont l'inventeur manquant aurait bénéficié s'il avait été co-inventeur. L'inventeur manquant peut devenir ultérieurement co-inventeur.

Lorsque, par erreur, une personne est indiquée comme co-inventeur dans une demande, ou lorsqu'un co-inventeur n'est pas indiqué dans une demande et qu'une telle erreur a été commise sans intention frauduleuse le «Commissioner» peut autoriser une modification de la demande en conséquence, dans les conditions qu'il prescrit.

Décès ou incapacité de l'inventeur

Les représentants légaux des inventeurs décédés ou frappés d'incapacité juridique peuvent déposer une demande de brevet sous réserve de satisfaire les exigences applicables à l'inventeur et dans les mêmes termes et sous les mêmes conditions.

Dépôt par une autre personne que l'inventeur

Lorsqu'un inventeur refuse de déposer une demande de brevet, ou ne peut être trouvé ou atteint en dépit d'efforts diligents, une personne à qui il a cédé - ou stipulé par écrit de céder - l'invention ou qui invoque, autrement, un intérêt suffisant pour justifier une telle action, peut déposer une demande de brevet au nom de l'inventeur et à titre de mandataire de celui-ci, à condition de fournir la preuve des faits et de montrer qu'une telle action est nécessaire pour préserver les droits des parties ou pour prévenir des dommages irréparables; le «Commissioner» peut délivrer un brevet à un tel inventeur, après notification jugée suffisante, et sous réserve de satisfaire aux règles qu'il prescrit.

La section 373 du «United States Code», titre 35 - Brevets, partie IV - Traité de coopération en matière de brevets, chapitre 37 - Phase nationale, s'énonce comme suit:

373. Indication à titre de déposant d'une personne n'ayant pas qualité pour être déposant

Une demande internationale désignant les Etats-Unis ne sera pas acceptée par l'office des brevets aux fins de la procédure nationale si elle a été déposée par quiconque n'a pas qualité, en vertu du chapitre 11 du présent titre, pour être déposant aux fins du dépôt d'une demande nationale aux Etats-Unis. Une telle demande internationale ne pourra pas être utilisée pour bénéficier d'une date de dépôt antérieure, selon la section 120 du présent titre, dans une demande déposée ultérieurement, mais peut servir de base à une revendication du droit de priorité en vertu de la section 119 du présent titre, dans la mesure où les Etats-Unis n'étaient pas le seul Etat désigné dans la demande internationale.

DISPOSITIONS DES LÉGISLATIONS NATIONALES DES ÉTATS CONTRACTANTS RELATIVES À LA RECHERCHE DE TYPE INTERNATIONAL

Le Danemark, les Etats-Unis d'Amérique, la Finlande*, la Hongrie, la Norvège*, les Pays-Bas, la Suède et la Suisse sont les seuls Etats parties au Traité de coopération en matière de brevets dont les législations nationales contiennent des dispositions concernant la recherche de type international.

Danemark

La section 9 de la Loi sur les brevets du Danemark et la section 5 de son Règlement d'exécution s'énoncent comme suit (texte en langue anglaise fourni par l'Office des brevets et des marques, Copenhague, et traduit en français par le Bureau international):

Section 9 de la Loi

Si le déposant le demande et paie la taxe prescrite, l'administration compétente en matière de brevets, en vertu des règles établies par le Ministre du commerce, fait en sorte que la demande fasse l'objet d'une recherche effectuée par une administration chargée de la recherche internationale selon les dispositions de l'article 15.5) du Traité de coopération en matière de brevets, fait à Washington le 19 juin 1970.

Section 5 du Règlement d'exécution

1) Si le déposant désire que la recherche mentionnée à la section 9 de la Loi sur les brevets soit effectuée, il doit déposer auprès de l'administration compétente en matière de brevets une requête écrite à cet effet et payer la taxe prescrite par l'administration de recherche dans les trois mois suivant la date de dépôt de la demande ou suivant la date à laquelle ladite demande a été considérée comme déposée. Si la demande de brevet n'est pas rédigée dans une langue acceptée par l'administration de recherche, la requête doit être accompagnée d'une traduction de la demande dans une langue prescrite par l'administration compétente en matière de brevets.

2) Si le déposant désire que la recherche selon le premier paragraphe soit effectuée par une administration déterminée choisie parmi les administrations chargées de la recherche internationale possibles, il doit indiquer l'administration choisie dans la requête.

3) Ladite requête sera considérée comme retirée si la demande de brevet et la traduction prescrite ne remplissent pas, à l'expiration du délai fixé au premier paragraphe, les conditions de forme auxquelles doit satisfaire une demande internationale de brevet.

Etats-Unis d'Amérique

Les sections 1.104 *c)* et *d)* et 1.21 *w)* du «Code of Federal Regulations», titre 37 - Brevets, Marques et Droits d'auteur, sous-chapitre A - Généralités, Brevets, partie I - «Rules of Practice in Patent Cases» s'énoncent comme suit (traduction préparée par le Bureau international):

1.104 Nature de l'examen; Notification émise par l'examinateur

.....

c) Toutes les demandes nationales déposées le 1er juin 1978 et après feront l'objet d'une recherche de type international.

---

* Les dispositions de la législation nationale de cet Etat concernant la recherche de type international seront publiées dans un numéro ultérieur de la Gazette du PCT.

d) Toute demande nationale peut également faire l'objet d'un rapport de recherche de type international au moment de l'examen national quant au fond, sur requête expresse et paiement de la taxe à régler pour ce rapport. Voir la section 1.21 *w)* en ce qui concerne le montant de la taxe pour la préparation du rapport de recherche de type international.

Note: L'Office des brevets et des marques n'exige pas que la recherche de type international donne lieu formellement à un rapport de recherche de type international pour qu'un remboursement de la taxe de recherche puisse être obtenu pour une demande internationale déposée ultérieurement.

1.21 Taxes et droits relatifs aux brevets et autres

.....

w) Pour l'établissement d'un rapport de recherche de type international résultant d'une recherche de type international effectuée lors de l'émission de la première notification quant au fond relative à une demande de brevet national: 25 dollars E.U.

Note: L'Office des brevets et des marques n'exige pas que la recherche de type international donne lieu formellement à un rapport de recherche de type international pour qu'un remboursement de la taxe de recherche puisse être obtenu pour une demande internationale déposée ultérieurement.....

Hongrie

1) Le déposant peut demander, en vertu de l'article 15.5)a) du Traité, qu'une recherche de type international soit effectuée à l'égard d'une demande hongroise régulièrement déposée auprès de l'Office national des inventions. La recherche sera effectuée, selon l'article 15.5)c) du Traité, par l'administration chargée de la recherche internationale compétente pour effectuer la recherche internationale sur les demandes internationale déposées auprès de l'Office national des inventions en tant qu'office récepteur.

2) L'Office national des inventions adressera à bref délai à l'administration chargée de la recherche internationale compétente, en même temps qu'elle transfère la taxe de recherche payée par le déposant lors du dépôt de sa requête, un exemplaire de la traduction de la demande hongroise préparée par le déposant dans la langue prescrite et dont les conditions de forme sont en conformité avec les exigences prescrites pour les demandes internationales.

Pays-Bas

La section 221 de la Loi sur les brevets revisée en 1978 et la section 17.5) du Règlement sur les brevets revisé en 1979 (tous deux entrés en vigueur le 1er février 1979) s'énoncent comme suit (texte fourni par l'Office néerlandais des brevets, Rijswijk):

221. - 1) Si le déposant le requiert par écrit, l'Office des brevets effectue une recherche sur l'état de la technique relative à ce qui doit être considéré comme l'objet de la demande, conformément aux dispositions de l'article 5A ou découlant de cet article.....

.....

3) Si le déposant le requiert par écrit, l'Office des brevets soumet la demande à la recherche de type international visée à l'article 15.5) *a)* du Traité de coopération. Cette recherche est réputée constituer une recherche sur l'état de la technique au sens du paragraphe 1).

4) La présentation de la requête visée aux paragraphes 1), 2) ou 3) est soumise au paiement d'une taxe qui sera prescrite par la voie réglementaire.

.....

Section 17.5) du Règlement

5) La taxe due en vertu des articles 22G.1), 22H.1), 221.4) et 9) et 22J.1) de la Loi du Royaume sur les brevets d'invention lors de la présentation d'une requête visée à ces articles est:

..... pour une requête tendant à faire procéder à une recherche sur l'état de la technique ou une recherche de type international, ou à faire poursuivre une telle recherche: 800 florins;

.....

Suède

La section 9 de la Loi suédoise sur les brevets revisée en 1978 et la section 5 du Décret portant application de la Loi s'énoncent comme suit (texte en langue anglaise fourni par l'Office royal des brevets et de l'enregistrement, Stockholm, et traduit en français par le Bureau international):

Section 9 de la Loi

Si le déposant le demande et paie la taxe spéciale, l'administration compétente en matière de brevets permet, dans les conditions déterminées par le Gouvernement, que la demande fasse l'objet d'une telle recherche de nouveauté par une administration chargée de la recherche internationale telle que mentionnée à l'article 15.5) du Traité de coopération en matière de brevets signé à Washington le 19 juin 1970.

Section 5 du Décret

Afin de bénéficier de la recherche telle que définie à la section 9 de la Loi sur les brevets, le déposant doit soumettre à l'Office des brevets, dans les trois mois suivant la date de dépôt de la demande de brevet ou, selon le cas, suivant la date à laquelle ladite demande a été considérée comme étant déposée, une requête écrite à cet effet et payer la taxe prescrite par l'administration de recherche.

Si la demande de brevet n'est pas rédigée dans une langue acceptée par l'administration de recherche, ladite requête doit être accompagnée d'une traduction de la demande dans une langue prescrite par l'Office des brevets.

Si plusieurs administrations peuvent être envisagées pour l'exécution de la recherche mentionnée au premier paragraphe et si le déposant désire choisir celle de ces administrations qui effectuera la recherche, il mentionne cette administration dans ladite requête.

Ladite requête sera considérée comme retirée si la demande de brevet et la traduction prescrite ne remplissent pas, à l'expiration du délai fixé au premier paragraphe, les conditions de forme auxquelles doit satisfaire une demande internationale de brevet.

Suisse

Le Titre neuvième de l'Ordonnance relative aux brevets d'invention, entrée en vigueur en Suisse le 1er janvier 1978, s'énonce comme suit:

«Titre neuvième: Recherches de type international»

Art. 126

Conditions

1) Une recherche de type international au sens de l'article 15, 5e alinéa, du traité de coopération peut être requise pour une demande de brevet suisse.

2) La requête doit être présentée à l'Office dans les six mois suivant la date de dépôt. La taxe de recherche internationale (art. 121, 2e al.) doit être payée en même temps.

3) Si la langue dans laquelle est rédigée la demande de brevet n'est pas une langue de travail de l'administration chargée de la recherche internationale, compétente pour la Suisse, une traduction dans une langue de travail doit être présentée simultanément.

4) L'Office n'examine pas si la demande de brevet et la traduction satisfont aux autres conditions fixées dans le traité de coopération, notamment aux prescriptions de forme valables pour les demandes internationales.

Art. 127

Procédure

1) Si les conditions prévues à l'article 126, 1er à 3e alinéas, sont remplies, l'Office transmet les documents requis à l'administration chargée de la recherche internationale, qui est compétente.

2) L'Office adresse le rapport de recherche au requérant; une copie est versée au dossier de la demande de brevet.»

RENSEIGNEMENTS CONCERNANT LES EXONÉRATIONS ET REMBOURSEMENTS (OU RÉDUCTIONS) DE TAXES PAYABLES AUX OFFICES NATIONAUX (OU RÉGIONAUX) EN LEUR QUALITÉ D'OFFICES DÉSIGNÉS (OU ÉLUS)

Ministère de l'économie nationale, Service de la propriété industrielle (Luxembourg)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office des brevets lorsque ce dernier est l'office désigné si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Ministère d'Etat, Service de la propriété industrielle (Monaco)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office des brevets lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Office allemand des brevets

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office allemand des brevets lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Taxe de demande d'examen. La taxe de demande d'examen d'une demande de brevet, que le déposant est tenu de payer à l'Office allemand des brevets, *est ramenée* à 250 deutsche mark (au lieu de 400 deutsche mark) lorsqu'un rapport de recherche internationale a été établi pour sa demande (en tant que demande internationale désignant la République fédérale d'Allemagne aux fins d'un brevet national).

Office national des inventions (Hongrie)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office national des inventions lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Office néerlandais des brevets

Taxe de demande de recherche. La taxe de demande de recherche (de 800 florins) est remboursée à 25%, 50%, 75% ou 100% si un rapport de recherche internationale a été joint à la demande internationale, le montant du remboursement dépendant de la mesure dans laquelle l'Office néerlandais des brevets peut utiliser ce rapport de recherche internationale.

Office des brevets du Royaume-Uni

En vertu de la disposition 102 du règlement de 1978 sur les brevets, le déposant peut, dans les conditions indiquées ci-après, demander par écrit le remboursement total ou partiel des taxes suivantes:

La taxe de recherche (correspondant au formulaire brevets 9/77) lorsque la demande (en tant que demande internationale désignant le Royaume-Uni pour l'obtention d'un brevet national) a fait l'objet d'une recherche internationale de la part de l'administration chargée de la recherche internationale.

La taxe d'examen quant au fond (correspondant au formulaire brevet 10/77) lorsque la demande (en tant que demande internationale désignant le Royaume-Uni) a fait l'objet d'un examen préliminaire international effectué par l'Office des brevets du Royaume-Uni en sa qualité d'administration chargée de l'examen préliminaire international.

La décision de procéder à un remboursement (le cas échéant) à la suite d'une telle requête est toujours laissée à la discrétion du Comptroller-General.

Office européen des brevets

Taxe de recherche*. Aux termes des décisions prises en vertu de l'article 157 de la Convention sur le brevet européen, la taxe de recherche due à l'Office européen des brevets pour une demande de brevet européen

i) ***n'est pas exigible*** si un rapport de recherche internationale a été établi à l'égard de la demande (en tant que demande internationale déposée selon le PCT) par cet Office ou par les Offices des brevets autrichien ou suédois;

ii) ***est réduite de 20%*** si un rapport de recherche internationale a été établi pour la demande (en tant que demande internationale déposée selon le PCT) par l'Office australien des brevets, l'Office japonais des brevets, l'Office des brevets et des marques des Etats-Unis d'Amérique ou le Comité d'Etat de l'URSS pour les inventions et les découvertes.

Taxe d'examen*. En vertu de la règle 104.b)5) du règlement d'exécution de la Convention sur le brevet européen et de l'article 12.2) du règlement relatif aux taxes, la taxe d'examen payable à l'Office européen des brevets pour une demande de brevet européen est réduite de 50% lorsqu'un rapport d'examen préliminaire international a été établi par cet Office pour la demande (en tant que demande internationale selon le PCT pour laquelle une demande d'examen préliminaire international a été soumise à cet Office).

---

* Article 77.2) de la Convention sur le brevet européen.

** Article 94.2 de la Convention sur le brevet européen.

DESIGNATION (OU ELECTION) DE MADAGASCAR

D'après les renseignements communiqués par le Ministre des affaires étrangères de Madagascar au sujet des demandes internationales désignant Madagascar, le projet de législation sur la propriété industrielle soumis aux autorités compétentes prévoit, entre autres, la prorogation des délais selon les articles 22 et 39 jusqu'à la date à laquelle la nouvelle législation sur les brevets permettra, après son entrée en vigueur, l'instruction des demandes de brevets à Madagascar. Après la publication de la nouvelle loi, les délais ainsi prorogés seront précisés par les autorités compétentes. Le Gouvernement de Madagascar a souhaité que ces renseignements soient communiqués aux déposants qui utilisent la voie du PCT et qui désignent ou élisent Madagascar, ou qui ont l'intention de le faire, afin qu'ils puissent avoir connaissance de la possibilité qui leur est ainsi offerte de désigner ou élire valablement Madagascar et de différer les mesures prescrites pour aborder la phase nationale aux termes des articles 22 et 39 jusqu'à ce que la nouvelle législation soit entrée en vigueur et que les délais à observer en vertu de cette loi aient été fixés.

NOTES

Numéro de référence de Note	Aux fins de la procédure en matière de brevets auprès de l'Office européen des brevets, seuls les dépôts des genres de micro-organismes spécifiés ci-dessous sont admis
(1)	Descendances de souches de bactéries, de levures, de moisissures et d'actinomycétales intéressant les secteurs agronomique et industriel, sauf:

a) Actinobacillus (toutes les espèces), Actinomyces (toutes les espèces anaérobies et micro-aérophyles), Arizona (toutes les espèces), Bacillus anthracis, Bartonella (toutes les espèces), Bordetella (toutes les espèces), Borrelia (toutes les espèces), Brucella (toutes les espèces), Clostridium botulinum, Clostridium chauvoei, Clostridium haemolyticum, Clostridium histolyticum, Clostridium novyi, Clostridium septicum, Clostridium tetani, Corynebacterium diphtheriae, Corynebacterium equi, Corynebacterium haemolyticum, Corynebacterium pseudotuberculosis, Corynebacterium pyogenes, Corynebacterium renale, Diplococcus (toutes les espèces), Erysipelothrix (toutes les espèces), Escherichia coli (tous les types entéropathogènes), Francisella (toutes les espèces), Haemophilus (toutes les espèces), Herellea (toutes les espèces), Klebsiella (toutes les espèces), Leptospira (toutes les espèces), Listeria (toutes les espèces), Mima (toutes les espèces), Moraxella (toutes les espèces), Mycobacterium avium, Mycobacterium bovis, Mycobacterium tuberculosis, Mycoplasma (toutes les espèces), Neisseria (toutes les espèces), Pasteurella (toutes les espèces), Pseudomonas pseudomallei, Salmonella (toutes les espèces), Shigella (toutes les espèces), Sphaerophorus (toutes les espèces), Staphylococcus aureus, Streptobacillus (toutes les espèces), Streptococcus (toutes les espèces pathogènes), Treponema (toutes les espèces), Vibrio (toutes les espèces), Yersinia (toutes les espèces);

b) Blastomyces (toutes les espèces), Coccidioides (toutes les espèces), Cryptococcus (toutes les espèces), Histoplasma (toutes les espèces), Paracoccidioides (toutes les espèces);

c) Blasidiomycètes ou autres moisissures impossibles à conserver par lyophilisation (dessication par sublimation à très basse température);

d) Tous les agents tels que virus, rickettsies et chlamydobactéries;

e) Agents susceptibles de communiquer ou de disséminer toute maladie contagieuse ou infectieuse de l'homme et des animaux, notamment de la volaille, et dont l'introduction ou la distribution aux U.S.A., ou les deux, nécessitent une autorisation;

f) Agents classifiés comme parasites des cultures et dont l'introduction ou la distribution aux U.S.A., ou les deux, nécessiteraient une autorisation;

g) Mélanges de micro-organismes;

h) Micro-organismes qui ont besoin de substances nutritives spécifiques et qui exigeraient (de l'avis du conservateur de l'autorité de dépôt) des soins par trop vigilants au stage de la manipulation et de la préparation de la culture lyophilisée;

i) Phages de toutes sortes;

j) Plasmides et cultures similaires.

Institutions de dépôt (liste, accompagnée de notes), (suite)

(2)	Bactéries (y compris les actinomycètes), bactériophages, champignons, algues, protozoaires, virus (animaux et végétaux), cellules de cultures de tissus, plasmides et recombinants ADN
(3)	Champignons, levures et bactéries (principalement les actinomycètes)
(4)	Bactéries, mycoplasmes, rickettsies, champignons microscopiques, levures, virus et cultures cellulaires
(5)	Bactéries, levures, bactériophages et champignons, à l'exception de certaines espèces pathogènes
(6)	Mycobactéries, levures du type Candida et Torulopsis, Nocardia, streptomyces
(7)	Champignons, levures, bactéries et actinomycètes qui ne sont pas pathogènes pour le corps humain et qui n'exigent pas de moyens extraordinaires pour leur conservation à long terme
(8)	Bactéries, y compris les actinomycètes, à l'exception des pathogènes dangereux.

OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE APPLICABLE PERMET DE FAIRE REFERENCE AUX DEPOTS DE MICRO-ORGANISMES; LES INDICATIONS (EVENTUELLES), OUTRE LES INDICATIONS PRESCRITES, CONCERNANT CES DEPOTS DEVANT ETRE INCLUSES DANS LES REFERENCES EN VERTU DE CETTE LEGISLATION; LES DELAIS (EVENTUELS), PLUS COURTS QUE LE DELAI PRESCRIT DANS LESQUELS CES REFERENCES ET INDICATIONS DOIVENT ETRE FOURNIES; ET LES INSTITUTIONS DE DEPOT AUPRES DESQUELLES, EN VERTU DE CETTE LEGISLATION, LES DEPOTS PEUVENT ETRE EFFECTUES

Office désigné (ou élu)	**Indications (éventuelles) qui doivent figurer outre celles exposées dans la règle 13*bis*.3.a)i) à iii) (notifications reçues conformément à la règle 13*bis*.7a)i))**	**Délai (éventuel) plus court que celui spécifié dans la règle 13*bis*.4 dans lequel le déposant doit fournir A) les indications dont il est fait référence dans la règle 13*bis*. 3a)i) à iii) B) toute indication supplémentaire spécifiée dans la colonne adjacente de gauche (notifications reçues conformément à la règle 13*bis*.7a)ii))**	**Liste des institutions de dépôt auprès desquelles des dépôts peuvent être effectués (identifiées par les numéros de référence indiqués dans la liste précédente des institutions de dépôt) (notifications reçues conformément à la règle 13*bis*.7b))**
Allemagne (République fédérale d') Office allemand des brevets	Aucune	Aucun	Aucune liste fournie (voir note 2), ci-dessous)
Etats-Unis d'Amérique Office des brevets et des marques des Etats-Unis	a) Une déclaration stipulant que le dépôt a été effectué pas plus tard que la date de priorité* de la demande internationale (lorsque la date de dépôt antérieure à cette date n'a pas été indiquée, conformément à la règle 13*bis*. 3.a)ii)) b) Dans la mesure du possible, une description taxonomique du micro-organisme.	Dans le cas de A), le nom et l'adresse de l'institution de dépôt au moment du dépôt (voir également note 7) ci-dessous) Dans le cas de B), au moment du dépôt	1, 2 et autres institutions non énumérées dans la liste (voir note 6), ci-dessous; la note 1), ci-dessous, s'applique également
Hongrie Office national des inventions	Dans la mesure où elles sont disponibles au déposant, les caractéristiques des micro-organismes et une description taxonomique	Dans le cas de B), lors du dépôt	17 et d'autres institutions non énumérées dans la liste (voir note 3), ci-dessous); la note 1), ci-dessous, s'applique également
Japon Office japonais des brevets	Renseignements concernant i) les caractéristiques qui identifient le micro-organisme ii) son procédé de production, iii) son utilité	Dans le cas à la fois de A) (à l'exception de la date de dépôt du micro-organisme) et B): lors du dépôt	11; la note 1), ci-dessous, s'applique également

* Se réfère à la date de priorité telle qu'elle est définie à l'article 2 xi) du PCT.

Offices désignés (ou élus) dont la législation nationale applicable permet de faire référence aux dépôts de micro-organismes; les indications (éventuelles), outre les indications prescrites, concernant ces dépôts devant être incluses dans les références en vertu de cette législation; les délais (éventuels), plus courts que le délai prescrit dans lesquels ces références et indications doivent être fournies; et les institutions de dépôt auprès desquelles, en vertu de cette législation, des dépôts peuvent être effectués (suite)

Office désigné (ou élu)	Indications (éventuelles) qui doivent figurer outre celles exposées dans la règle 13*bis*.3.a)i) à iii) (notifications reçues conformément à la règle 13*bis*.7a)i))	Délai (éventuel) plus court que celui spécifié dans la règle 13*bis*.4 dans lequel le déposant doit fournir A) les indications dont il est fait référence dans la règle 13*bis*. 3a)i) à iii) B) toute indication supplémentaire spécifiée dans la colonne adjacente de gauche (notifications reçues conformément à la règle 13*bis*.7a)ii))	Liste des institutions de dépôt auprès desquelles des dépôts peuvent être effectués (identifiées par les numéros de référence indiqués dans la liste précédente des institutions de dépôt) (notifications reçues conformément à la règle 13*bis*.7b))
Pays-Bas Office néerlandais des brevets	Aucune	Aucun	1, 2, 3, 6, 8, 9, 11, 15, 16, 21
Royaume-Uni Office des brevets	Dans la mesure où elles sont disponibles au déposant, renseignements se rapportant aux caractéristiques du micro-organisme	Dans le cas de A), à l'expiration de deux mois à partir de la date de dépôt international Dans le cas de B), lors du dépôt	Aucune liste fournie (voir note 5), ci-dessous); la note 1), ci-dessous, s'applique également
Suède Office royal des brevets et de l'enregistrement	Aucune	Aucun	1, 2, 3, 4, 5, 10, 14
Suisse Office fédéral de la propriété intellectuelle	Aucune	Dans le cas de A), lors du dépôt pour l'identification de l'institution, et dans les deux mois qui suivent pour les autres indications	1, 2, 3, 4, 5, 6, 7, 8, 10, 11, 12, 13, 14, 16, 18, 19, 20
Union soviétique Comité d'Etat de l'URSS pour les inventions et les découvertes	Aucune	Aucun	Aucune liste fournie (voir note 4) ci-dessous)
Organisation européenne des brevets Office européen des brevets	Dans la mesure où elles sont disponibles au déposant, renseignements se rapportant aux caractéristiques du micro-organisme	Dans le cas de B), lors du dépôt	1, 2, 3, 4, 5, 10, 12, 14, 16; la note 1), ci-dessous, s'applique également; voir aussi la note 8)

Offices désignés (ou élus) dont la législation nationale applicable permet de faire référence aux dépôts de micro-organismes; les indications (éventuelles), outre les indications prescrites, concernant ces dépôts devant être incluses dans les références en vertu de cette législation; les délais (éventuels), plus courts que le délai prescrit dans lesquels ces références et indications doivent être fournies; et les institutions de dépôt auprès desquelles, en vertu de cette législation, les dépôts peuvent être effectués (suite)

Notes

1) L'office concerné est un office de propriété industrielle selon le sens donné dans le Traité de Budapest sur la reconnaissance internationale du dépôt des micro-organismes aux fins de la procédure en matière de brevets. En conséquence, le dépôt peut être effectué auprès de toute institution de dépôt ayant acquis le statut d'autorité de dépôt internationale en vertu de ce Traité.*

2) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution reconnue scientifiquement dans le pays et à l'étranger» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

3) L'office concerné a informé le Bureau international que, aux fins de la procédure en matière de brevets devant cet office, des dépôts peuvent être effectués auprès de (outre l'institution identifiée dans la liste) «toute institution de dépôt bien connue sur le plan international». Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

4) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

5) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt partout dans le monde» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

6) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt étrangère ou nationale tenue en vertu d'une loi, d'un traité ou d'un contrat d'accepter, de conserver et de remettre des échantillons sous les conditions stipulées dans la jurisprudence des Etat-Unis», aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions recons par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

7) L'office concerné a informé le Bureau international que, si les mêmes indications ne sont pas aussi incluses dans une demande antérieure dont la priorité a été revendiquée, la priorité de la demande antérieure ne sera pas accordée.

8) L'office concerné a informé le Bureau international que, si le déposant désire que, jusqu'à la publication de la mention de la délivrance du brevet européen ou jusqu'à la date à laquelle la demande est rejetée, retirée ou réputée retirée, l'accessibilité au micro-organisme prévue au paragraphe 3 de la règle 28 du règlement d'exécution de la Convention sur le brevet européen ne soit réalisée que par la remise d'un échantillon à un expert désigné par le requérant (Règle 28, paragraphe 4 dudit règlement d'exécution), il doit en informer le Bureau international avant l'achèvement de la préparation technique de la publication de la demande internationale.

---

* Au moment de publier le présent numéro, aucune autorité de dépôt internationale n'a encore été nommée. Ces nominations seront mentionnées dans «La Propriété Industrielle», probablement à partir de la première moitié de l'année 1981.

LISTE DES OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE NE CONTIENT AUCUNE DISPOSITION CONCERNANT LE DEPOT DES MICRO-ORGANISMES

Etats contractants	**Désignation de l'office**
Australie:	Office australien des brevets
Autriche:	Office autrichien des brevets (1)
Brésil:	Institut national de la propriété industrielle
Danemark:	Office des brevets et des marques
Finlande:	Office national des brevets et de l'enregistrement (2)
Luxembourg:	Ministère de l'économie nationale, Service de la propriété industrielle
Madagascar:	Ministère de l'économie et du commerce, Direction de l'industrie et des mines
Malawi:	Ministère de la Justice, Département du Registrar General
Monaco:	Ministère d'Etat, Service de la propriété industrielle
Norvège:	Office norvégien des brevets
Roumanie:	Office d'Etat pour les inventions et les marques (3)
Organisation intergouvernementale:	Organisation africaine de la propriété intellectuelle

Notes

(1) L'office concerné a informé le Bureau international que, tandis que la législation nationale en vigueur ne prévoit pas les dépôts de micro-organismes, cette même législation ne contient aucune interdiction sur ces dépôts.

(2) L'office concerné a informé le Bureau international que cet office n'exige pas "mais seulement recommande fortement de déposer les micro-organismes qui ne sont pas accessibles au public et qui sont relatifs aux inventions concernées".

(3) L'office concerné a informé le Bureau international que la législation nationale ne contient aucune disposition concernant des institutions de dépôt, mais qu'en pratique l'office "reconnaît des dépôts effectués auprès des institutions spécialisées des états contractants, ou à l'étranger, et accessibles à toute personne physique ou morale intéressée".

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 16BIS. 3 DU PCT

Le Bureau international a reçu des notifications en vertu de de la règle 16*bis*. 3 du PCT excluant l'application de la règle 16*bis*. 1 et de la règle 16*bis*. 2* du PCT aux offices, en tant qu'offices récepteurs selon le PCT, des quatre pays suivants:

Australie
Autriche
Hongrie
Japon

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 80. 6b) DU PCT

Le Bureau international a reçu des notifications en vertu de la règle 80.6b) du PCT, qui ont pour effet d'exclure l'application de la règle 80.6a) du PCT, deuxième phrase**, aux offices, en tant qu'offices récepteurs selon le PCT, des six pays suivants:

Australie
Danemark
Finlande
Japon
Norvège
Suède

*NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT****

En vertu de la règle 92.4 du PCT, les offices nationaux des douze pays suivants ainsi que l'organisation intergouvernementale indiquée ci-dessous sont disposés à recevoir des documents (y compris des dessins) -- postérieurs à la demande internationale -- adressés par les moyens indiqués ci-après:

Allemagne (République fédérale d'): télégraphe, téléimprimeur
Autriche: télégraphe, téléimprimeur
Brésil: télégraphe, téléimprimeur
Danemark: télégraphe, téléimprimeur
Etats-Unis d'Amérique: téléimprimeur
Finlande: télégraphe
France: télégraphe, téléimprimeur
Hongrie: télégraphe, téléimprimeur
Luxembourg: télégraphe, téléimprimeur
Malawi: télégraphe
Monaco: télégraphe
Norvège: télégraphe, téléimprimeur
Pays-Bas: télégraphe
Roumanie: télégraphe, téléimprimeur
Suède: téléimprimeur
Suisse: téléimprimeur
Union soviétique: télégraphe, téléimprimeur
Bureau international de l'OMPI: télégraphe, téléimprimeur, télécopieur (copies facsimile par l'intermédiaire du Service postal suisse).

Des renseignements relatifs aux adresses télégraphiques et de téléimprimeur de tous les offices nationaux et organisations intergouvernementales sont publiés dans le présent numéro de la Gazette du PCT.

** Voir la note de bas de page accompagnant la règle 80.6b), publiée dans le numéro 18/1980 de la Gazette du PCT, page 1369.

*** La liste reproduite dans le texte qui suit fera l'objet de mises à jour périodiques dans des numéros ultérieurs de la Gazette du PCT

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant* (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office autrichien des brevets (août 1980),
Office japonais des brevets (mai 1980),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/ mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, page 197.

STATISTIQUES CONCERNANT LES EXEMPLAIRES ORIGINAUX REÇUS PAR LE BUREAU INTERNATIONAL

NOTE EXPLICATIVE CONCERNANT LES STATISTIQUES

Certains codes sont utilisés dans les tableaux de statistiques pour identifier les offices récepteurs et les Etats désignés. Ces codes sont extraits du "Code d'identification des Etats et des organisations" constituant l'annexe B* des instructions administratives selon le Traité de coopération en matière de brevets (PCT). Les codes et les Etats qu'ils identifient sont reproduits au bas de cette page.

Dans le cas des offices récepteurs, les codes indiquent l'Etat contractant du Traité de coopération en matière de brevets (PCT) pour lequel l'office récepteur est l'administration nationale de propriété industrielle de cet Etat, sauf dans le cas de l'Office européen des brevets qui agit (ainsi que l'administration nationale de propriété industrielle) en qualité d'office récepteur pour les Etats contractant du PCT qui sont également parties à la Convention sur le brevet européen. Dans le tableau relatif aux désignations d'Etats, les chiffres indiqués se rapportent aux indications des désignations contenues dans les exemplaires originaux reçus par le Bureau international de l'OMPI et notifiées par ce dernier aux offices désignés. Le code de chaque Etat désigné est accompagné de l'abréviation "NAT" et/ou "OEB" et/ou "OAPI". Cette abréviation signifie que, pour l'Etat désigné considéré, c'est un brevet national ("NAT") qui est demandé, ou un brevet européen ("OEB") ou un brevet de l'Organisation africaine de la propriété intellectuelle ("OAPI").

PCT–GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office autrichien des brevets (août 1980),
Office japonais des brevets (mai 1980),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/ mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

* Etat non lié par le chapitre II du Traité de coopération en matière de brevets.

1) Les nationaux de cet Etat ainsi que les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales depuis le 1er juin 1978, et cet Etat peut être désigné dans les demandes internationales depuis cette date.

2) Les nationaux de cet Etat et les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales à partir de la date indiquée, et cet Etat peut être désigné dans les demandes internationales à partir de cette même date.

INSTRUCTIONS ADMINISTRATIVES DU TRAITE DE COOPERATION EN MATIERE DE BREVETS (PCT)

MODIFICATION

Le Directeur général de l'Organisation Mondiale de la Propriété Intellectuelle (OMPI) a modifié les instructions administratives du PCT, en vertu de la règle 89.2 du règlement d'exécution du PCT, comme indiqué ci-après. Les modifications prennent effet le 19 février 1981.

Instruction 311

Nouvelle pagination de la demande internationale

a) [Sans changement]

b) Les feuilles de la demande internationale sont provisoirement repaginées de la façon suivante:
i) [Sans changement]
ii) lorsqu'une feuille est remplacée, l'office récepteur inscrit au milieu de la marge inférieure de la nouvelle feuille la mention "feuille de remplacement" ou son équivalent dans la langue de la demande internationale;
iii) [Sans changement]

c) [Sans changement]

Instruction 401

Annotation des feuilles de l'exemplaire original

a) Le Bureau international doit, selon la règle 24.1), indiquer la date de réception de l'exemplaire original à l'emplacement prévu du formulaire de requête et apposer son timbre dans le coin inférieur droit de chaque feuille de l'exemplaire original.

b) Si l'office récepteur a omis de porter l'indication prévue dans l'instruction 311 sur une feuille, le Bureau international a le droit d'insérer l'indication omise.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, page 197.

STATISTIQUES CONCERNANT LES EXEMPLAIRES ORIGINAUX REÇUS PAR LE BUREAU INTERNATIONAL

NOTE EXPLICATIVE CONCERNANT LES STATISTIQUES

Certains codes sont utilisés dans les tableaux de statistiques pour identifier les offices récepteurs et les Etats désignés. Ces codes sont extraits du "Code d'identification des Etats et des organisations" constituant l'annexe B* des instructions administratives selon le Traité de coopération en matière de brevets (PCT). Les codes et les Etats qu'ils identifient sont reproduits au bas de cette page.

Dans le cas des offices récepteurs, les codes indiquent l'Etat contractant du Traité de coopération en matière de brevets (PCT) pour lequel l'office récepteur est l'administration nationale de propriété industrielle de cet Etat, sauf dans le cas de l'Office européen des brevets qui agit (ainsi que l'administration nationale de propriété industrielle) en qualité d'office récepteur pour les Etats contractant du PCT qui sont également parties à la Convention sur le brevet européen. Dans le tableau relatif aux désignations d'Etats, les chiffres indiqués se rapportent aux indications des désignations contenues dans les exemplaires originaux reçus par le Bureau international de l'OMPI et notifiées par ce dernier aux offices désignés. Le code de chaque Etat désigné est accompagné de l'abréviation "NAT" et/ou "OEB" et/ou "OAPI". Cette abréviation signifie que, pour l'Etat désigné considéré, c'est un brevet national ("NAT") qui est demandé, ou un brevet européen ("OEB") ou un brevet de l'Organisation africaine de la propriété intellectuelle ("OAPI").

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office autrichien des brevets (août 1980),
Office japonais des brevets (mai 1980),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/ mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

SECTION IV

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 193 à 195.

LISTE DES OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE NE CONTIENT AUCUNE DISPOSITION CONCERNANT LE DEPOT DES MICRO-ORGANISMES

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, page 196.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 16BIS. 3 DU PCT

Le Bureau international a reçu des notifications en vertu de de la règle 16*bis*. 3 du PCT excluant l'application de la règle 16*bis*. 1 et de la règle 16*bis*. 2* du PCT aux offices, en tant qu'offices récepteurs selon le PCT, des quatre pays suivants:

Australie
Autriche
Hongrie
Japon

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 80. 6b) DU PCT

Le Bureau international a reçu des notifications en vertu de la règle 80.6b) du PCT, qui ont pour effet d'exclure l'application de la règle 80.6a) du PCT, deuxième phrase**, aux offices, en tant qu'offices récepteurs selon le PCT, des six pays suivants:

Australie
Danemark
Finlande
Japon
Norvège
Suède

*NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT****

En vertu de la règle 92.4 du PCT, les offices nationaux des dix-sept pays suivants ainsi que les organisations intergouvernementales indiquées ci-dessous sont disposés à recevoir des documents (y compris des dessins) -- postérieurs à la demande internationale -- adressés par les moyens indiqués ci-après:

Allemagne (République fédérale d'): télégraphe, téléimprimeur
Autriche: télégraphe, téléimprimeur
Brésil: télégraphe, téléimprimeur
Danemark: télégraphe, téléimprimeur
Etats-Unis d'Amérique: téléimprimeur
Finlande: télégraphe
France: télégraphe, téléimprimeur
Hongrie: télégraphe, téléimprimeur
Luxembourg: télégraphe, téléimprimeur
Malawi: télégraphe
Monaco: télégraphe
Norvège: télégraphe, téléimprimeur
Pays-Bas: télégraphe
Roumanie: télégraphe, téléimprimeur
Suède: téléimprimeur
Suisse: téléimprimeur
Union soviétique: télégraphe, téléimprimeur
Office européen des brevets: télégraphe, téléimprimeur
Bureau international de l'OMPI: télégraphe, téléimprimeur, télécopieur (copies facsimile par l'intermédiaire du Service postal suisse).

Des renseignements relatifs aux adresses télégraphiques et de téléimprimeur de tous les offices nationaux et organisations intergouvernementales sont publiés dans le présent numéro de la Gazette du PCT.

PCT - GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981)
Office autrichien des brevets (août 1980),
Office japonais des brevets (mai 1980),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/ mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

* Etat non lié par le chapitre II du Traité de coopération en matière de brevets.

1) Les nationaux de cet Etat ainsi que les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales depuis le 1er juin 1978, et cet Etat peut être désigné dans les demandes internationales depuis cette date.

2) Les nationaux de cet Etat et les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales à partir de la date indiquée, et cet Etat peut être désigné dans les demandes internationales à partir de cette même date.

3) Conformément aux termes d'une notification adressée au Bureau international, notification qui se réfère à l'article 62.3), le Traité de coopération en matière de brevets deviendra applicable à Hong-Kong à partir du 15 avril 1981.

TAXES PAYABLES EN VERTU DU TRAITE DE COOPERATION EN MATIERE DE BREVETS (PCT)

NOUVEAUX MONTANTS DE TAXES ETABLIS EN VERTU DES REGLES 15.2 d) ET 57.2 e)

De nouveaux montants, indiqués ci-dessous, ont été établis pour les taxes spécifiés, en vertu des règles 15.2 d) et 57.2 e) du règlement d'exécution du PCT. Les nouveaux montants sont applicables à compter du 19 mai 1981.

Taxe	Montant		
	Dollar australien	**Livre sterling**	**Dollar US**
1. *Taxe de base* (Règle 15.2 a)) si la demande internationale ne comporte pas plus de 30 feuilles	190 dollars A.	95 £	215 dollars E.U.
si la demande internationale comporte plus de 30 feuilles	190 dollars A. plus 3,50 dollars A. par feuille à compter de la 31e	95 £ plus 1,8 £ par feuille à compter de la 31e	215 dollars E.U. plus 4 dollars E.U. par feuille à compter de la 31e
2. *Taxe de désignation* (Règle 15.2 a))	46 dollars A.	23 £	50 dollars E.U.
3. *Taxe de traitement* (Règle 57.2 a))	58 dollars A.	29 £	-

RENSEIGNEMENTS UTILES CONCERNANT LES PRATIQUES QUE SUIVENT LES OFFICES NATIONAUX (ET REGIONAUX)

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE

Phase internationale

La législation des Etats-Unis d'Amérique en matière de brevets exige qu'aux fins de la désignation de cet Etat, le ou les déposants soient le ou les inventeurs. Si cette condition n'est pas remplie, la désignation des Etats-Unis d'Amérique est considérée comme n'ayant pas été effectuée et l'Office des brevets et des marques de ce pays peut, en qualité d'office désigné, rejeter la demande (article 27.3) et règle 18.4.b)).

Lorsque l'inventeur ne peut être atteint pendant une période ne dépassant pas le délai fixé dans la règle 26.2, la demande internationale peut être déposée sans sa signature. L'absence de la signature de l'inventeur ou d'un pouvoir signé par lui est une irrégularité qui peut être corrigée en vertu de l'article 14.1)a)i) et b) et à laquelle on peut remédier en déposant une copie de la requête (ou du pouvoir, lorsque la requête a été signée par un mandataire), dûment signée par l'inventeur, dans le délai précité.

Lorsque la signature de l'inventeur ne peut pas être obtenue dans le délai fixé dans la règle 26.2 ou lorsque l'inventeur n'est pas disposé à signer la requête d'une demande internationale aux fins de la désignation des Etats-Unis d'Amérique, la procédure est la suivante:

i) Lorsqu'un *co-inventeur* refuse de s'associer à une demande internationale qui désigne les Etats-Unis d'Amérique ou ne peut être trouvé ou atteint après des recherches diligentes, la demande internationale peut être signée par le ou les autres inventeurs en son nom (ou en leur nom) et au nom de l'inventeur n'ayant pas signé.

ii) Lorsqu'un *inventeur unique* refuse de signer une demande internationale qui désigne les Etats-Unis d'Amérique ou ne peut être trouvé ou atteint après des recherches diligentes, une personne à qui il a cédé ou accepté par écrit de céder l'invention ou qui peut faire la preuve d'intérêts suffisants de propriété en la matière justifiant son action peut signer la demande internationale au nom de l'inventeur et en tant que mandataire de celui-ci. Cette règle joue aussi lorsque tous les co-inventeurs refusent de signer ou ne peuvent être trouvés ou atteints après des recherches diligentes.

Dans les deux cas, la personne qui dépose la demande internationale (et qui signe la requête ou un pouvoir distinct) est considérée comme un "autre représentant" au sens de la règle 2.1.

Lorsque l'inventeur n'est pas disposé à signer ou ne peut être atteint, son représentant doit fournir une déclaration explicative sur les raisons pour lesquelles le formulaire de requête ou le pouvoir n'est pas signé de l'inventeur aux fins de la désignation des Etats-Unis d'Amérique. Cette déclaration doit être fournie en même temps que le formulaire de requête ou dans le délai fixé par l'office récepteur en vertu de la règle 26.2 pour la correction de l'irrégularité selon l'article 14.1)a)i) et les règles 4.15 ou 90.3 (défaut de signature de l'inventeur sur le formulaire de requête ou absence de pouvoir séparé signé de l'inventeur, lorsque le formulaire de requête a été signé par un mandataire). En cas d'absence de signature d'un inventeur unique ou d'un co-inventeur (cas i) et ii) ci-dessus), cette déclaration doit indiquer la dernière adresse connue du ou des inventeurs n'ayant pas signé. Lorsque le représentant n'est pas un co-inventeur, cette déclaration doit indiquer que le représentant de l'inventeur possède un intérêt de propriété suffisant sur l'invention pour faire une demande de brevet et que cette action est nécessaire pour sauvegarder les droits des parties ou pour empêcher que ne soient causés des torts irréparables.

Phase nationale

Lorsque la demande internationale aborde la phase nationale à l'Office des brevets et des marques des Etats-Unis d'Amérique (articles 22.1) et 23) et que l'inventeur refuse de signer ou ne peut être trouvé ou atteint après des recherches diligentes, le serment ou la déclaration exigé de l'inventeur doit être fait par la personne ("l'autre représentant" au sens de la règle 2.1) qui fait la demande pour l'inventeur n'ayant pas signé mentionné dans les cas i) et ii) ci-dessus; ce serment ou cette déclaration doit être accompagné d'une preuve des faits en cause et indiquer la dernière adresse connue de l'inventeur n'ayant pas signé. Dans le cas ii) ci-dessus, il faut en plus apporter la preuve que cette action est nécessaire pour sauvegarder les droits des parties ou pour empêcher que ne soient causés des torts irréparables. Il faut aussi déposer à l'Office des brevets et des marques des Etats-Unis la cession, promesse écrite de cession ou une autre preuve d'intérêt de propriété ou une copie certifiée de ces pièces.

- Offices récepteurs: leurs exigences en ce qui concerne les langues dans lesquelles doivent être déposées les demandes internationales ainsi que le nombre d'exemplaires à déposer, et administrations chargées de la recherche internationale et de l'examen préliminaire international compétentes spécifiées par ces offices.

TAXES PAYABLES EN VERTU DU TRAITE DE COOPERATION EN MATIERE DE BREVETS (PCT)

TAXES PAYABLES A L'OFFICE RECEPTEUR

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 154 à 158 et dans le numéro 06/1981 de la Gazette du PCT, page 535.

TAXES PAYABLES A L'ADMINISTRATION CHARGEE DE LA RECHERCHE INTERNATIONALE

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, page 159.

Taxes payables en vertu du Traité de coopération en matière de brevets (PCT) (suite)

REMBOURSEMENT DE LA TAXE DE RECHERCHE PAR LES ADMINISTRATIONS CHARGEES DE LA RECHERCHE INTERNATIONALE AU CAS OU UNE RECHERCHE INTERNATIONALE OU DE TYPE INTERNATIONAL A DEJA EU LIEU

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 160 et 161.

TAXES PAYABLES A L'ADMINISTRATION CHARGEE DE L'EXAMEN PRELIMINAIRE INTERNATIONAL

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 162 et 163 et dans le numéro 06/1981 de la Gazette du PCT, page 535.

TAXES ET DROITS PAYABLES AU BUREAU INTERNATIONAL

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, page 164.

RENSEIGNEMENTS RELATIFS AUX ETATS DESIGNES (OU ELUS)

EXIGENCES DES OFFICES DESIGNES (OU ELUS) EN CE QUI CONCERNE LES LANGUES DE TRADUCTION DES DEMANDES INTERNATIONALES ET DES RAPPORTS D'EXAMEN PRELIMINAIRE INTERNATIONAL

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 165 à 168.

CONDITIONS REQUISES PAR LES OFFICES DESIGNES (OU ELUS) EN MATIERE DE TAXES NATIONALES ET DE DELAIS

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 169 à 174.

OBLIGATION D'INDIQUER LE NOM AINSI QUE CERTAINES AUTRES DONNEES CONCERNANT L'INVENTEUR

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 175 à 178.

OFFICES NATIONAUX QUI ONT RENONCE, TOTALEMENT OU PARTIELLEMENT, A LA COMMUNICATION SELON L'ARTICLE 20

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, page 179.

DISPOSITIONS DES LEGISLATIONS DES ETATS CONTRACTANTS PARTIES A UN TRAITE DE BREVET REGIONAL RELEVANT DE L'ARTICLE 45(2).

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, page 179.

AVERTISSEMENT ET RENSEIGNEMENTS CONCERNANT LA NECESSITE D'INDIQUER L'INVENTEUR EN TANT QUE DEPOSANT AUX FINS DE LA DESIGNATION DES ETAT-UNIS D'AMERIQUE

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 180 et 181.

Renseignements relatifs aux Etats désignés (ou élus) (suite)

DISPOSITIONS DES LEGISLATIONS NATIONALES DES ETATS CONTRACTANTS RELATIVES A LA RECHERCHE DE TYPE INTERNATIONAL

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 182 à 185.

RENSEIGNEMENTS CONCERNANT LES EXONERATIONS ET REMBOURSEMENTS (OU REDUCTIONS) DE TAXES PAYABLES AUX OFFICES NATIONAUX (OU REGIONAUX) EN LEUR QUALITE D'OFFICES DESIGNES (OU ELUS)

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 186 et 187.

LISTE DES INSTITUTIONS DE DEPOT AUPRES DESQUELLES DES DEPOTS DE MICRO-ORGANISMES PEUVENT ETRE EFFECTUES POUR CERTAINS OFFICES DESIGNES (OU ELUS)

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 189 à 192.

OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE APPLICABLE PERMET DE FAIRE REFERENCE AUX DEPOTS DE MICRO-ORGANISMES; LES INDICATIONS (EVENTUELLES), OUTRE LES INDICATIONS PRESCRITES, CONCERNANT CES DEPOTS DEVANT ETRE INCLUSES DANS LES REFERENCES EN VERTU DE CETTE LEGISLATION; LES DELAIS (EVENTUELS), PLUS COURTS QUE LE DELAI PRESCRIT DANS LESQUELS CES REFERENCES ET INDICATIONS DOIVENT ETRE FOURNIES; ET LES INSTITUTIONS DE DEPOT AUPRES DESQUELLES, EN VERTU DE CETTE LEGISLATION, DES DEPOTS PEUVENT ETRE EFFECTUES

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, pages 193 à 195.

LISTE DES OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE NE CONTIENT AUCUNE DISPOSITION CONCERNANT LE DEPOT DES MICRO-ORGANISMES

Ces renseignements ont été publiés dernièrement dans le numéro 03/1981 de la Gazette du PCT, page 196.

NOTIFICATIONS REÇUES EU VERTU DE LA REGLE 16 *BIS*. 3 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 06/1981 de la Gazette du PCT, page 539.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 80.6 b) DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 06/1981 de la Gazette du PCT, page 539.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 06/1981 de la Gazette du PCT, page 539.

PCT - GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981)
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

SECTION IV

NOTIFICATIONS ET INFORMATIONS DE CARACTERE GENERAL

ETATS CONTRACTANTS

Etats parties au Traité de coopération en matière de brevets (PCT)

	Date d'entrée en vigueur du PCT à l'égard de l'Etat
Allemagne (République fédérale d')	24 janvier 1978 [1]
Australie	31 mars 1980 [2]
Autriche	23 avril 1979 [2]
Brésil	9 avril 1978 [1]
Cameroun	24 janvier 1978 [1]
Congo	24 janvier 1978 [1]
Danemark *	1er décembre 1978 [2]
Etats-Unis d'Amérique*	24 janvier 1978 [1]
Finlande	1er octobre 1980 [2]
France **	25 février 1978 [1]
Gabon	24 janvier 1978 [1]
Hongrie	27 juin 1980 [2]
Japon	1er octobre 1978 [2]
Liechtenstein *	19 mars 1980 [2]
Luxembourg *	30 avril 1978 [1]
Madagascar	24 janvier 1978 [1]
Malawi	24 janvier 1978 [1]
Monaco	22 juin 1979 [2]
Norvège*	1er janvier 1980 [2]
Pays-Bas	10 juillet 1979 [2]
République centrafricaine	24 janvier 1978 [1]
République populaire démocratique de Corée	8 juillet 1980 [2]
Roumanie	23 juillet 1979 [2]
Royaume-Uni	24 janvier 1978 [1][3]
Sénégal	24 janvier 1978 [1]
Suède	17 mai 1978 [1]
Suisse *	24 janvier 1978 [1]
Tchad	24 janvier 1978 [1]
Togo	24 janvier 1978 [1]
Union soviétique	24 janvier 1978 [1]

---

* Etat non lié par le chapitre II du Traité de coopération en matière de brevets.

** Sera liée par le chapitre II du Traité de coopération en matière de brevets à compter du 12 juin 1981.

1) Les nationaux de cet Etat ainsi que les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales depuis le 1er juin 1978, et cet Etat peut être désigné dans les demandes internationales depuis cette date.

2) Les nationaux de cet Etat et les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales à partir de la date indiquée, et cet Etat peut être désigné dans les demandes internationales à partir de cette même date.

3) Conformément aux termes d'une notification adressée au Bureau international, notification qui se réfère à l'article 62.3), le Traité de coopération en matière de brevets deviendra applicable à Hong-Kong à partir du 15 avril 1981.

RENSEIGNEMENTS CONCERNANT LES ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE ET DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL

ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE: LISTE ET CERTAINES DONNÉES LES CONCERNANT

Désignation de l'administration chargée de la recherche internationale (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	**Objet à l'égard duquel l'administration ne procèdera pas à la recherche**	**Pour être acceptée aux fins de la recherche internationale, la demande internationale doit être rédigée dans l'une des langues suivantes**
Australie		
Office australien des brevets (31 mars 1980)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, Nº 09/1980, pages 601 et 605).	Anglais
Autriche		
Office autrichien des brevets (23 avril 1979)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT, à l'exception des méthodes de diagnostic ne s'appliquant pas au corps humain. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 06/1979, pages 227 et 231).	Allemand Anglais Français
Etats-Unis d'Amérique		
Office des brevets et des marques des Etats-Unis (11 avril 1978)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT. (Voir l'article 6 de l'accord, qui stipule que l'Administration «n'est pas tenue de procéder à la recherche» à l'égard d'un tel objet, ainsi que l'annexe B dudit accord, Gazette du PCT, No 02/1978, pages 124 et 127).	Anglais
Japon		
Office japonais des brevets (1er octobre 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT, ainsi que les programmes d'ordinateurs. (Voir l'article 7 et l'annexe C de l'accord, Gazette du PCT, No 04/1978, pages 215 et 220).	Japonais

* Aucune administration chargée de la recherche internationale n'a l'obligation de procéder à la recherche à l'égard d'une demande internationale dont l'objet, et dans la mesure où l'objet, est l'un des suivants:

i) théories scientifiques et mathématiques;

ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;

iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;

iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;

v) simples présentations d'informations;

vi) programmes d'ordinateurs dans la mesure où l'administration chargée de la recherche internationale n'est pas outillée pour procéder à la recherche de l'état de la technique au sujet de tels programmes.

Administrations chargées de la recherche internationale: liste et certaines données les concernant (suite)

Désignation de l'administration chargée de la recherche internationale (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	Objet à l'égard duquel l'administration ne procèdera pas à la recherche	Pour être acceptée aux fins de la recherche internationale, la demande internationale doit être rédigée dans l'une des langues suivantes
Suède		
Office royal des brevets et de l'enregistrement (17 mai 1978)	Objet spécifié aux rubriques i) et v) de la règle 39.1* du PCT, à l'exception des méthodes de diagnostic et programmes d'ordinateurs, pour autant qu'ils ne soient pas comparables à des méthodes mathématiques, à des présentations d'informations ou n'aient pas un caractère abstrait ou intellectuel. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 140 et 144).	Anglais Danois Finnois Français Islandais Norvégien Suédois
Union Soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT et programmes d'ordinateurs. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 111 et 115 et No 07/1978, page 349).	Russe Allemand Anglais Français
OEB		
Office européen des brevets (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT et programmes d'ordinateurs. (Voir l'article 7 de l'accord, Gazette du PCT, No 02/1978, page 131).	Allemand Anglais Français Néerlandais**

* Aucune administration chargée de la recherche internationale n'a l'obligation de procéder à la recherche à l'égard d'une demande internationale dont l'objet, et dans la mesure où l'objet, est l'un des suivants:

i) théories scientifiques et mathématiques;

ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;

iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;

v) simples présentations d'informations;

vi) programmes d'ordinateurs dans la mesure où l'administration chargée de la recherche internationale n'est pas outillée pour procéder à la recherche de l'état de la technique au sujet de tels programmes.

** En ce qui concerne les demandes internationales déposées auprès du Service central de la propriété industrielle des Pays-Bas.

ADMINISTRATIONS CHARGÉES DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL: LISTE ET CERTAINES DONNÉES LES CONCERNANT

Désignation de l'administration chargée de l'examen préliminaire international (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	**Objet à l'égard duquel l'administration ne procèdera pas à l'examen**	**Pour être acceptée aux fins de l'examen préliminaire international, la demande internationale doit être rédigée dans l'une des langues suivantes**
Australie		
Office australien des brevets (31 mars 1980)	Objet spécifié aux rubriques i) à vi) de la règle 67.1* du PCT. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, Nº 09/1980, pages 601 et 605).	Anglais
Autriche		
Office autrichien des brevets (23 avril 1979)	Objet spécifié aux rubriques i) à vi) de la règle 67.1* du PCT, à l'exception des méthodes de diagnostic ne s'appliquant pas au corps humain. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 06/1979, pages 227 et 231).	Allemand Anglais Français
Japon		
Office japonais des brevets (1er octobre 1978)	Objet spécifié aux rubriques i) à v) de la règle 67.1* du PCT et programmes d'ordinateurs. (Voir l'article 7 et l'annexe C de l'accord, Gazette du PCT, No 04/1978, pages 215 et 220).	Japonais
Royaume-Uni		
Office des brevets (11 avril 1978)	Objet spécifié aux rubriques i) à vi) de la règle 67.1* du PCT. (Voir l'article 6 de l'accord, Gazette du PCT, No 02/1978, page 119).	Anglais (mais seulement lorsqu'il s'agit de la langue du dépôt ou de la publication).

* Aucune administration chargée de l'examen préliminaire international n'a l'obligation de procéder à l'examen préliminaire international à l'égard d'une demande internationale dont l'objet, et dans la mesure où l'objet, est l'un des suivants:

i) théories scientifiques et mathématiques;

ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;

iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;

iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;

v) simples présentations d'informations;

vi) programmes d'ordinateurs dans la mesure où l'administration chargée de l'examen préliminaire international n'est pas outillée pour procéder à un examen préliminaire international au sujet de tels programmes.

Administrations chargées de l'examen préliminaire international: liste et certaines données les concernant (suite)

Désignation de l'administration chargée de l'examen préliminaire international (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	Objet à l'égard duquel l'administration ne procèdera pas à l'examen	Pour être acceptée aux fins de l'examen préliminaire international, la demande internationale doit être rédigée dans l'une des langues suivantes
Suède		
Office royal des brevets et de l'enregistrement (17 mai 1978)	Objet spécifié aux rubriques i) et v) de la règle 67.1* du PCT, à l'exception des méthodes de diagnostic et programmes d'ordinateurs, pour autant qu'ils ne soient pas comparables à des méthodes mathématiques, à des présentations d'informations ou n'aient pas un caractère abstrait ou intellectuel. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 140 et 144).	Anglais Danois Finnois Français Islandais Norvégien Suédois
Union Soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 67.1* du PCT et programmes d'ordinateurs. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 111 et 115 et No 07/1978, page 349).	Russe Allemand Anglais Français
OEB		
Office européen des brevets (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 67.1* du PCT et programmes d'ordinateurs. (Voir l'article 7 de l'accord, Gazette du PCT, No 02/1978, page 131).	Allemand Anglais Français

* Aucune administration chargée de l'examen préliminaire international n'a l'obligation de procéder à l'examen préliminaire international à l'égard d'une demande internationale dont l'objet, et dans la mesure où l'objet, est l'un des suivants:

i) théories scientifiques et mathématiques;

ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;

iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;

iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;

v) simples présentations d'informations;

vi) programmes d'ordinateurs dans la mesure où l'administration chargée de l'examen préliminaire international n'est pas outillée pour procéder à un examen préliminaire international au sujet de tels programmes.

OFFICES RÉCEPTEURS

OFFICES RÉCEPTEURS COMPÉTENTS

Etat contractant dont le déposant est un national ou dans lequel le déposant est domicilié	**Office récepteur compétent**

* Les taxes indiquées dans le tableau ci-dessus ne sont dues que dans certains cas particuliers.

** A compter du 1er février 1981.

REMBOURSEMENT DE LA TAXE DE RECHERCHE PAR LES ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE AU CAS OÙ UNE RECHERCHE INTERNATIONALE OU DE TYPE INTERNATIONAL A DÉJÀ EU LIEU *

Administration chargée de la recherche internationale	Conditions de remboursement	Montant du remboursement
Australie		
Office australien des brevets *(Gazette du PCT No 09/ 1980, pages 599 à 605)*	L'administration peut utiliser la totalité ou la majeure partie du rapport de recherche antérieur	75 %
Autriche		
Office autrichien des brevets *(Gazette du PCT No 06/ 1 979, pages 225 à 232)*	L'administration peut utiliser la totalité ou la majeure partie du rapport de recherche antérieur	75 %
Japon		
Office japonais des brevets *(Gazette du PCT No 04/ 1 978, pages 21 3 à 222)*	1) Remboursement sur requête du déposant 2) L'administration a été en mesure d'utiliser une part substantielle du rapport de recherche antérieur	12 000 yens
Union soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes *(Gazette du PCT No 02/ 1 978, pages 1 09 à 1 1 7)*	L'étendue de la recherche antérieure était telle que seule une recherche de mise à jour de portée réduite est nécessaire, ou	90 %
	La recherche antérieure se rapporte pratiquement à la même invention mais les revendications de la demande internationale en cause sont différentes, de telle sorte qu'il est nécessaire d'effectuer une recherche dans un à trois sous-groupes supplémentaires de la CIB, ou	70 %
	La recherche antérieure permet d'économiser la moitié du travail nécessaire pour effectuer la recherche internationale, ou	40 %
	La recherche antérieure ne couvre que quelques sous-groupes de la CIB	20 %

* Le présent tableau résume les cas dans lesquels, et indique dans quelle mesure, les différentes administrations chargées de la recherche internationale remboursent au déposant la taxe de recherche lorsque la recherche internationale peut être fondée, en tout ou en partie, sur une recherche internationale ou de type international effectuée précédemment par l'administration en cause. Le tableau résume les dispositions prévues à cet effet dans les accords conclus entre l'OMPI et chacune desdites administrations (chacun de ces accords est identifié sous le nom de l'administration en cause par un renvoi à la Gazette du PCT dans laquelle il a été publié). On trouvera des renseignements complémentaires dans les notes afférentes au présent tableau. Les remboursements selon les accords précités sont prévus dans les règles 16.3 et 41.1 du règlement d'exécution du PCT.

Remboursement de la taxe de recherche par les administrations chargées de la recherche internationale au cas ou une recherche internationale ou de type international a déjà eu lieu * (suite)

Administration chargée de la recherche internationale	Conditions de remboursement	Montant du remboursement
Suède		
Office royal des brevets et de l'enregistrement (Stockholm) *(Gazette du PCT No 02/ 1978, pages 138 à 145)*	L'administration peut utiliser le rapport de recherche antérieur	90 % 75 % 50 % ou 25 % selon la mesure dans laquelle ledit rapport peut être utilisé
Etats-Unis d'Amérique		
Office des brevets et des marques des Etats-Unis d'Amérique *(Gazette du PCT No 02/ 1 978, pages 1 23 à 1 28)*	L'examinateur constate que l'un des critères suivants a été observé:	
	1) recherche antérieure très complète, ne nécessitant qu'une mise à jour ou qu'une recherche complémentaire succincte	90 %
	2) recherche antérieure assez utile, mais ne justifiant cependant pas un remboursement à 90 %	45 %
Organisation européenne des brevets		
Office européen des brevets *(Gazette du PCT No 02/ 1978, pages 129 à 137)*	L'administration peut utiliser le rapport de recherche antérieur	100 % 75 % 50 % ou 25 % selon la mesure dans laquelle ledit rapport peut être utilisé

Notes

1) ***Office des brevets et des marques des Etats-Unis d'Amérique.*** Une recherche sur l'état de la technique effectuée à l'occasion d'une demande nationale (Etats-Unis) antérieure est considérée comme une recherche de type international pour déterminer s'il y a lieu de procéder à un remboursement. Des remboursements sont aussi effectués selon les mêmes critères et les mêmes pourcentages des taxes de recherche acquittées pour des demandes internationales lorsque les recherches sur l'état de la technique effectuées au cours de l'examen ultérieur des demandes nationales (Etats-Unis) sont entièrement ou partiellement fondées sur des recherches internationales (antérieures) portant sur des demandes internationales.

Remboursement de la taxe de recherche par les administrations chargées de la recherche internationale au cas ou une recherche internationale ou de type international a déjà eu lieu * (suite)

Notes (Suite)

2) ***Office européen des brevets.*** Les recherches sont admises comme recherches de type international du point de vue des remboursements lorsqu'elles ont été effectuées par l'Office européen des brevets

i) pour une demande de brevet européen (antérieure);

ii) pour une demande nationale (antérieure)
(en Allemagne (République fédérale d'), en France, aux Pays-Bas et en Suisse);

iii) comme recherche «standard» demandée à titre privé à l'égard d'une demande (antérieure) dont la priorité est revendiquée dans une demande internationale ou européenne ultérieure.

Les critères suivants ont été adoptés pour déterminer le montant du remboursement de la taxe de recherche:

- remboursement à 100 %: aucune recherche complémentaire nécessaire;
- remboursement à 75 %: recherche complémentaire effectuée dans la documentation relative à une ou plusieurs subdivisions consultées lors de la recherche antérieure *ou* étendue à une ou plusieurs subdivisions n'ayant pas encore été consultées;
- remboursement à 50 %: recherche complémentaire effectuée dans la documentation relative à une ou plusieurs subdivisions déjà consultées *et* étendue à une ou plusieurs subdivisions n'ayant pas encore été consultées;
- remboursement à 25 %: recherche complémentaire dans la documentation relative aux subdivisions correspondant à un nouvel aspect de l'invention revendiquée. (Par exemple, lorsque la demande européenne est fondée sur plusieurs demandes antérieures dont une seule a fait l'objet d'un rapport de recherche antérieur.)

TAXES PAYABLES À L'ADMINISTRATION CHARGÉE DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL

Administration chargée de l'examen préliminaire international (et monnaie)	Taxe de traitement Δ	Taxe d'examen préliminaire	Taxe d'examen préliminaire additionnelle*	Taxes pour la délivrance de copies des documents cités dans le rapport d'examen préliminaire international*	Taxes pour la délivrance de copies des documents contenus dans le dossier de la demande internationale*

OFFICES NATIONAUX QUI ONT RENONCÉ, TOTALEMENT OU PARTIELLEMENT, A LA COMMUNICATION SELON L'ARTICLE 20

Etats-Unis d'Amérique

Office des brevets et des marques des Etats-Unis

Ont renoncé à la communication en ce qui concerne les demandes internationales déposées auprès de l'Office des brevets et des marques des Etats-Unis en sa qualité d'office récepteur.

DISPOSITIONS DES LÉGISLATIONS DES ÉTATS CONTRACTANTS PARTIES À UN TRAITÉ DE BREVET RÉGIONAL RELEVANT DE L'ARTICLE 45.2)

La *France* est le seul Etat partie à la fois au Traité de coopération en matière de brevets et à un traité de brevet régional, à savoir la Convention sur le brevet européen, dont la législation nationale prévoit que toute désignation ou élection dudit Etat sera considérée comme l'indication que le déposant désire obtenir un brevet régional.

L'article premier de la Loi française No 77-682 du 30 juin 1977 relative à l'application du Traité de coopération en matière de brevets s'énonce comme suit:

«Lorsqu'une demande internationale de protection des inventions formulée en application du traité de coopération en matière de brevets fait à Washington, le 19 juin 1970, comporte la désignation ou l'élection de la France, cette demande est considérée comme tendant à l'obtention d'un brevet européen régi par les dispositions de la convention sur la délivrance des brevets européens faite à Munich, le 5 octobre 1973.»

AVERTISSEMENT ET RENSEIGNEMENTS CONCERNANT LA NECESSITE D'INDIQUER L'INVENTEUR EN TANT QUE DEPOSANT AUX FINS DE LA DESIGNATION DES ETATS-UNIS D'AMERIQUE

Avertissement

Les effets de la demande internationale dans un Etat désigné peuvent dépendre de la question de savoir si la personne indiquée dans la demande internationale en tant que déposant aux fins de cet Etat est habilitée, selon la législation nationale de cet Etat, à déposer une demande nationale.

Renseignements

Les *Etat-Unis d'Amérique* sont le seul Etat partie au Traité de coopération en matière de brevets dont la législation nationale stipule qu'une demande de brevet nationale soit déposée par l'inventeur et dont l'office national rejettera donc, en tant qu'office désigné, toute demande internationale dans laquelle une personne autre que l'inventeur est indiquée comme déposant aux fins des Etats-Unis d'Amérique.

Les sections 111, 115, 116, 117 et 118 du «United States Code», titre 35 - Brevets, partie II - Brevetabilité des inventions et délivrance des brevets, chapitre 11 - Demande de brevet, s'énoncent comme suit (traduction préparée par le Bureau international):

111. Demande de brevet

La demande de brevet sera déposée par l'inventeur, à moins qu'il ne soit prescrit autrement par le présent titre, par écrit et adressée au «Commissioner». Cette demande comprend: 1) un exposé de l'invention comme prescrit à la section 112 du présent titre; 2) un dessin, comme prescrit à la section 113 du présent titre; et 3) un serment du déposant, comme prescrit à la section 115 du présent titre. La demande doit être signée par le déposant et accompagnée par la taxe prescrite par la loi.

115. Serment du déposant

Le déposant déclare sous serment qu'il estime être le premier et original inventeur du procédé, de la machine, du produit, ou de la composition, ou de son perfectionnement, pour lequel il sollicite un brevet; il déclare de quel pays il est le ressortissant. Cette déclaration sous serment peut être effectuée sur le territoire des Etats-Unis, auprès de toute personne autorisée par la loi à recevoir de telles déclarations ou, si elle est faite dans un pays étranger, auprès des autorités diplomatiques ou consulaires des Etats-Unis qui sont autorisées à recevoir de telles déclarations, ou auprès de toute personne possédant un sceau officiel et autorisée à recevoir des déclarations sous serment dans le pays étranger où peut se trouver le déposant, et dont l'autorité sera établie par un certificat émanant d'une autorité diplomatique ou consulaire des Etats-Unis; cette déclaration sous serment sera valable si elle est conforme aux dispositions de la loi de l'Etat ou du pays où elle est effectuée. Lorsque la demande est déposée comme prescrit par ce titre par une personne autre que l'inventeur, la déclaration sous serment peut être modifiée dans sa forme afin de pouvoir être effectuée par cette personne.

116. Co-inventeurs

Lorsque deux personnes ou plus font conjointement une invention, elles demandent un brevet de façon conjointe et chacune d'elles signe la demande et effectue la déclaration sous serment requise, sauf prescription contraire dans le présent titre.

Si un co-inventeur refuse d'apparaître en tant que tel dans une demande de brevet ou ne peut être trouvé ou atteint en dépit d'efforts diligents, la demande peut être déposée par l'autre inventeur, agissant en son propre nom ainsi qu'au nom de l'inventeur manquant. Le «Commissioner», sur production de la preuve des faits pertinents et après notification à l'inventeur manquant telle qu'il peut la prescrire, peut délivrer un brevet à l'inventeur déposant la demande, sous réserve des mêmes droits dont l'inventeur manquant aurait bénéficié s'il avait été co-inventeur. L'inventeur manquant peut devenir ultérieurement co-inventeur.

Lorsque, par erreur, une personne est indiquée comme co-inventeur dans une demande, ou lorsqu'un co-inventeur n'est pas indiqué dans une demande et qu'une telle erreur a été commise sans intention frauduleuse le «Commissioner» peut autoriser une modification de la demande en conséquence, dans les conditions qu'il prescrit.

Décès ou incapacité de l'inventeur

Les représentants légaux des inventeurs décédés ou frappés d'incapacité juridique peuvent déposer une demande de brevet sous réserve de satisfaire les exigences applicables à l'inventeur et dans les mêmes termes et sous les mêmes conditions.

Dépôt par une autre personne que l'inventeur

Lorsqu'un inventeur refuse de déposer une demande de brevet, ou ne peut être trouvé ou atteint en dépit d'efforts diligents, une personne à qui il a cédé - ou stipulé par écrit de céder - l'invention ou qui invoque, autrement, un intérêt suffisant pour justifier une telle action, peut déposer une demande de brevet au nom de l'inventeur et à titre de mandataire de celui-ci, à condition de fournir la preuve des faits et de montrer qu'une telle action est nécessaire pour préserver les droits des parties ou pour prévenir des dommages irréparables; le «Commissioner» peut délivrer un brevet à un tel inventeur, après notification jugée suffisante, et sous réserve de satisfaire aux règles qu'il prescrit.

La section 373 du «United States Code», titre 35 - Brevets, partie IV - Traité de coopération en matière de brevets, chapitre 37 - Phase nationale, s'énonce comme suit:

373. Indication à titre de déposant d'une personne n'ayant pas qualité pour être déposant

Une demande internationale désignant les Etats-Unis ne sera pas acceptée par l'office des brevets aux fins de la procédure nationale si elle a été déposée par quiconque n'a pas qualité, en vertu du chapitre 11 du présent titre, pour être déposant aux fins du dépôt d'une demande nationale aux Etats-Unis. Une telle demande internationale ne pourra pas être utilisée pour bénéficier d'une date de dépôt antérieure, selon la section 120 du présent titre, dans une demande déposée ultérieurement, mais peut servir de base à une revendication du droit de priorité en vertu de la section 119 du présent titre, dans la mesure où les Etats-Unis n'étaient pas le seul Etat désigné dans la demande internationale.

DISPOSITIONS DES LÉGISLATIONS NATIONALES DES ÉTATS CONTRACTANTS RELATIVES À LA RECHERCHE DE TYPE INTERNATIONAL

L'Australie, le Danemark, les Etats-Unis d'Amérique, la Finlande*, la Hongrie, la Norvège*, les Pays-Bas, la Suède et la Suisse sont les seuls Etats parties au Traité de coopération en matière de brevets dont les législations nationales contiennent des dispositions concernant la recherche de type international.

Australie

Le règlement 87 du Règlement de brevets et l'article 30 de la loi sur les brevets s'énoncent comme suit (traduction préparée par le Bureau international):

Règlement 87 du Règlement de brevets

.....

2) Lorsque le Commissaire fournit des renseignements à un déposant en vertu de l'article 30 de la loi et que la fourniture de ces renseignements fait intervenir une recherche de type international mentionnée dans l'article 15.5) du traité, cette fourniture de renseignements donne lieu au paiement d'une taxe de 300 $.

.....

4) Dans le présent règlement, on entend par "déposant" la personne qui –

a) après l'entrée en vigueur du présent règlement, dépose une demande de brevet autre qu'une demande internationale et

b) requiert, dans les trois mois suivant le dépôt de sa demande de brevet, que des renseignements lui soient fournis par le Commissaire en vertu de l'article 30 de la loi.

.....

Article 30 de la Loi

Le Commissaire peut, conformément à la présente loi, fournir des renseignements sur une question intéressant ou concernant:

a) un brevet;

b) une demande de brevet qui a été ouverte à l'inspection publique; ou

c) tout autre document, résumé, description ou publication conservé à l'Office des brevets ou à la bibliothèque de l'Office des brevets.

Danemark

La section 9 de la Loi sur les brevets du Danemark et la section 5 de son Règlement d'exécution s'énoncent comme suit (texte en langue anglaise fourni par l'Office des brevets et des marques, Copenhague, et traduit en français par le Bureau international):

Section 9 de la Loi

Si le déposant le demande et paie la taxe prescrite, l'administration compétente en matière de brevets, en vertu des règles établies par le Ministre du commerce, fait en sorte que la demande fasse l'objet d'une recherche effectuée par une administration chargée de la recherche internationale selon les dispositions de l'article 15.5) du Traité de coopération en matière de brevets, fait à Washington le 19 juin 1970.

---

* Les dispositions de la législation nationale de cet Etat concernant la recherche de type international seront publiées dans un numéro ultérieur de la Gazette du PCT.

Section 5 du Règlement d'exécution

1) Si le déposant désire que la recherche mentionnée à la section 9 de la Loi sur les brevets soit effectuée, il doit déposer auprès de l'administration compétente en matière de brevets une requête écrite à cet effet et payer la taxe prescrite par l'administration de recherche dans les trois mois suivant la date de dépôt de la demande ou suivant la date à laquelle ladite demande a été considérée comme déposée. Si la demande de brevet n'est pas rédigée dans une langue acceptée par l'administration de recherche, la requête doit être accompagnée d'une traduction de la demande dans une langue prescrite par l'administration compétente en matière de brevets.

2) Si le déposant désire que la recherche selon le premier paragraphe soit effectuée par une administration déterminée choisie parmi les administrations chargées de la recherche internationale possibles, il doit indiquer l'administration choisie dans la requête.

3) Ladite requête sera considérée comme retirée si la demande de brevet et la traduction prescrite ne remplissent pas, à l'expiration du délai fixé au premier paragraphe, les conditions de forme auxquelles doit satisfaire une demande internationale de brevet.

Etats-Unis d'Amérique

Les sections 1.104 *c)* et *d)* et 1.21 *w)* du «Code of Federal Regulations», titre 37 - Brevets, Marques et Droits d'auteur, sous-chapitre A - Généralités, Brevets, partie I - «Rules of Practice in Patent Cases» s'énoncent comme suit (traduction préparée par le Bureau international):

1.104 Nature de l'examen; Notification émise par l'examinateur

.....

c) Toutes les demandes nationales déposées le 1er juin 1978 et après feront l'objet d'une recherche de type international.

d) Toute demande nationale peut également faire l'objet d'un rapport de recherche de type international au moment de l'examen national quant au fond, sur requête expresse et paiement de la taxe à régler pour ce rapport. Voir la section 1.21 *w)* en ce qui concerne le montant de la taxe pour la préparation du rapport de recherche de type international.

Note: L'Office des brevets et des marques n'exige pas que la recherche de type international donne lieu formellement à un rapport de recherche de type international pour qu'un remboursement de la taxe de recherche puisse être obtenu pour une demande internationale déposée ultérieurement.

1.21 Taxes et droits relatifs aux brevets et autres

.....

w) Pour l'établissement d'un rapport de recherche de type international résultant d'une recherche de type international effectuée lors de l'émission de la première notification quant au fond relative à une demande de brevet national: 25 dollars E.U.

Note: L'Office des brevets et des marques n'exige pas que la recherche de type international donne

lieu formellement à un rapport de recherche de type international pour qu'un remboursement de la taxe

de recherche puisse être obtenu pour une demande internationale déposée ultérieurement.....

Hongrie

Article 8 du Décret

1) Le déposant peut demander, en vertu de l'article 15.5)a) du Traité, qu'une recherche de type international soit effectuée à l'égard d'une demande hongroise régulièrement déposée auprès de l'Office national des inventions. La recherche sera effectuée, selon l'article 15.5)c) du Traité, par l'administration chargée de la recherche internationale compétente pour effectuer la recherche internationale sur les demandes internationale déposées auprès de l'Office national des inventions en tant qu'office récepteur.

2) L'Office national des inventions adressera à bref délai à l'administration chargée de la recherche internationale compétente, en même temps qu'elle transfère la taxe de recherche payée par le déposant lors du dépôt de sa requête, un exemplaire de la traduction de la demande hongroise préparée par le déposant dans la langue prescrite et dont les conditions de forme sont en conformité avec les exigences prescrites pour les demandes internationales.

Pays-Bas

La section 221 de la Loi sur les brevets revisée en 1978 et la section 17.5) du Règlement sur les brevets revisé en 1979 (tous deux entrés en vigueur le 1er février 1979) s'énoncent comme suit (texte fourni par l'Office néerlandais des brevets, Rijswijk):

Section 221 de la Loi

221. - 1) Si le déposant le requiert par écrit, l'Office des brevets effectue une recherche sur l'état de la technique relative à ce qui doit être considéré comme l'objet de la demande, conformément aux dispositions de l'article 5A ou découlant de cet article.....

.....

3) Si le déposant le requiert par écrit, l'Office des brevets soumet la demande à la recherche de type international visée à l'article 15.5) *a)* du Traité de coopération. Cette recherche est réputée constituer une recherche sur l'état de la technique au sens du paragraphe 1).

4) La présentation de la requête visée aux paragraphes 1), 2) ou 3) est soumise au paiement d'une taxe qui sera prescrite par la voie réglementaire.

.....

Section 17.5) du Règlement

5) La taxe due en vertu des articles 22 G.1), 22 H.1), 221.4) et 9) et 22 J.1) de la Loi du Royaume sur les brevets d'invention lors de la présentation d'une requête visée à ces articles est:

..... pour une requête tendant à faire procéder à une recherche sur l'état de la technique ou une recherche de type international, ou à faire poursuivre une telle recherche: 1100 florins;

.....

Suède

La section 9 de la Loi suédoise sur les brevets revisée en 1978 et la section 5 du Décret portant application de la Loi s'énoncent comme suit (texte en langue anglaise fourni par l'Office royal des brevets et de l'enregistrement, Stockholm, et traduit en français par le Bureau international):

Section 9 de la Loi

Si le déposant le demande et paie la taxe spéciale, l'administration compétente en matière de brevets permet, dans les conditions déterminées par le Gouvernement, que la demande fasse l'objet d'une telle recherche de nouveauté par une administration chargée de la recherche internationale telle que mentionnée à l'article 15.5) du Traité de coopération en matière de brevets signé à Washington le 19 juin 1970.

Section 5 du Décret

Afin de bénéficier de la recherche telle que définie à la section 9 de la Loi sur les brevets, le déposant doit soumettre à l'Office des brevets, dans les trois mois suivant la date de dépôt de la demande de brevet ou, selon le cas, suivant la date à laquelle ladite demande a été considérée comme étant déposée, une requête écrite à cet effet et payer la taxe prescrite par l'administration de recherche.

Si la demande de brevet n'est pas rédigée dans une langue acceptée par l'administration de recherche, ladite requête doit être accompagnée d'une traduction de la demande dans une langue prescrite par l'Office des brevets.

Si plusieurs administrations peuvent être envisagées pour l'exécution de la recherche mentionnée au premier paragraphe et si le déposant désire choisir celle de ces administrations qui effectuera la recherche, il mentionne cette administration dans ladite requête.

Ladite requête sera considérée comme retirée si la demande de brevet et la traduction prescrite ne remplissent pas, à l'expiration du délai fixé au premier paragraphe, les conditions de forme auxquelles doit satisfaire une demande internationale de brevet.

Suisse

Le Titre neuvième de l'Ordonnance relative aux brevets d'invention, entrée en vigueur en Suisse le 1er janvier 1978, s'énonce comme suit:

«Titre neuvième: Recherches de type international»

Art. 126

Conditions

1) Une recherche de type international au sens de l'article 15, 5e alinéa, du traité de coopération peut être requise pour une demande de brevet suisse.

2) La requête doit être présentée à l'Office dans les six mois suivant la date de dépôt. La taxe de recherche internationale (art. 121, 2e al.) doit être payée en même temps.

3) Si la langue dans laquelle est rédigée la demande de brevet n'est pas une langue de travail de l'administration chargée de la recherche internationale, compétente pour la Suisse, une traduction dans une langue de travail doit être présentée simultanément.

4) L'Office n'examine pas si la demande de brevet et la traduction satisfont aux autres conditions fixées dans le traité de coopération, notamment aux prescriptions de forme valables pour les demandes internationales.

Art. 127

Procédure

1) Si les conditions prévues à l'article 126, 1er à 3e alinéas, sont remplies, l'Office transmet les documents requis à l'administration chargée de la recherche internationale, qui est compétente.

2) L'Office adresse le rapport de recherche au requérant; une copie est versée au dossier de la demande de brevet.»

RENSEIGNEMENTS CONCERNANT LES EXONÉRATIONS ET REMBOURSEMENTS (OU RÉDUCTIONS) DE TAXES PAYABLES AUX OFFICES NATIONAUX (OU RÉGIONAUX) EN LEUR QUALITÉ D'OFFICES DÉSIGNÉS (OU ÉLUS)

Ministère de l'économie nationale, Service de la propriété industrielle (Luxembourg)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office des brevets lorsque ce dernier est l'office désigné si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Ministère d'Etat, Service de la propriété industrielle (Monaco)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office des brevets lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Office allemand des brevets

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office allemand des brevets lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Taxe de demande d'examen. La taxe de demande d'examen d'une demande de brevet, que le déposant est tenu de payer à l'Office allemand des brevets, *est ramenée* à 250 deutsche mark (au lieu de 400 deutsche mark) lorsqu'un rapport de recherche internationale a été établi pour sa demande (en tant que demande internationale désignant la République fédérale d'Allemagne aux fins d'un brevet national).

Office national des inventions (Hongrie)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office national des inventions lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Office néerlandais des brevets

Taxe de demande de recherche. La taxe de demande de recherche payée est remboursée à 25 %, 50 %, 75 % ou 100 % si un rapport de recherche internationale a été joint à la demande internationale, le montant du remboursement dépendant de la mesure dans laquelle l'Office néerlandais des brevets peut utiliser ce rapport de recherche internationale.

Office des brevets du Royaume-Uni

En vertu de la disposition 102 du règlement de 1978 sur les brevets, le déposant peut, dans les conditions indiquées ci-après, demander par écrit le remboursement total ou partiel des taxes suivantes:

La taxe de recherche (correspondant au formulaire brevets 9/77) lorsque la demande (en tant que demande internationale désignant le Royaume-Uni pour l'obtention d'un brevet national) a fait l'objet d'une recherche internationale de la part de l'administration chargée de la recherche internationale.

La taxe d'examen quant au fond (correspondant au formulaire brevet 10/77) lorsque la demande (en tant que demande internationale désignant le Royaume-Uni) a fait l'objet d'un examen préliminaire international effectué par l'Office des brevets du Royaume-Uni en sa qualité d'administration chargée de l'examen préliminaire international.

La décision de procéder à un remboursement (le cas échéant) à la suite d'une telle requête est toujours laissée à la discrétion du Comptroller-General.

Office européen des brevets

Taxe de recherche*. Aux termes des décisions prises en vertu de l'article 157 de la Convention sur le brevet européen, la taxe de recherche due à l'Office européen des brevets pour une demande de brevet européen

i) ***n'est pas exigible*** si un rapport de recherche internationale a été établi à l'égard de la demande (en tant que demande internationale déposée selon le PCT) par cet Office ou par les Offices des brevets autrichien ou suédois;

ii) ***est réduite de 20%*** si un rapport de recherche internationale a été établi pour la demande (en tant que demande internationale déposée selon le PCT) par l'Office australien des brevets, l'Office japonais des brevets, l'Office des brevets et des marques des Etats-Unis d'Amérique ou le Comité d'Etat de l'URSS pour les inventions et les découvertes.

Taxe d'examen*. En vertu de la règle 104*ter*5 du règlement d'exécution de la Convention sur le brevet européen et de l'article 12.2) du règlement relatif aux taxes, la taxe d'examen payable à l'Office européen des brevets pour une demande de brevet européen est réduite de 50% lorsqu'un rapport d'examen préliminaire international a été établi par cet Office pour la demande (en tant que demande internationale selon le PCT pour laquelle une demande d'examen préliminaire international a été soumise à cet Office).

---

* Article 78.2) de la Convention sur le brevet européen.

** Article 94.2 de la Convention sur le brevet européen.

DESIGNATION (OU ELECTION) DE MADAGASCAR

D'après les renseignements communiqués par le Ministre des affaires étrangères de Madagascar au sujet des demandes internationales désignant Madagascar, le projet de législation sur la propriété industrielle soumis aux autorités compétentes prévoit, entre autres, la prorogation des délais selon les articles 22 et 39 jusqu'à la date à laquelle la nouvelle législation sur les brevets permettra, après son entrée en vigueur, l'instruction des demandes de brevets à Madagascar. Après la publication de la nouvelle loi, les délais ainsi prorogés seront précisés par les autorités compétentes. Le Gouvernement de Madagascar a souhaité que ces renseignements soient communiqués aux déposants qui utilisent la voie du PCT et qui désignent ou élisent Madagascar, ou qui ont l'intention de le faire, afin qu'ils puissent avoir connaissance de la possibilité qui leur est ainsi offerte de désigner ou élire valablement Madagascar et de différer les mesures prescrites pour aborder la phase nationale aux termes des articles 22 et 39 jusqu'à ce que la nouvelle législation soit entrée en vigueur et que les délais à observer en vertu de cette loi aient été fixés.

NOTES

Numéro de référence de Note	**Aux fins de la procédure en matière de brevets auprès de l'Office européen des brevets, seuls les dépôts des genres de micro-organismes spécifiés ci-dessous sont admis**
(1)	Descendances de souches de bactéries, de levures, de moisissures et d'actinomycétales intéressant les secteurs agronomique et industriel, sauf: a) Actinobacillus (toutes les espèces), Actinomyces (toutes les espèces anaérobies et micro-aérophyles), Arizona (toutes les espèces), Bacillus anthracis, Bartonella (toutes les espèces), Bordetella (toutes les espèces), Borrelia (toutes les espèces), Brucella (toutes les espèces), Clostridium botulinum, Clostridium chauvoei, Clostridium haemolyticum, Clostridium histolyticum, Clostridium novyi, Clostridium septicum, Clostridium tetani, Corynebacterium diphtheriae, Corynebacterium equi, Corynebacterium haemolyticum, Corynebacterium pseudotuberculosis, Corynebacterium pyogenes, Corynebacterium renale, Diplococcus (toutes les espèces), Erysipelothrix (toutes les espèces), Escherichia coli (tous les types entéropathogènes), Francisella (toutes les espèces), Haemophilus (toutes les espèces), Herellea (toutes les espèces), Klebsiella (toutes les espèces), Leptospira (toutes les espèces), Listeria (toutes les espèces), Mima (toutes les espèces), Moraxella (toutes les espèces), Mycobacterium avium, Mycobacterium bovis, Mycobacterium tuberculosis, Mycoplasma (toutes les espèces), Neisseria (toutes les espèces), Pasteurella (toutes les espèces), Pseudomonas pseudomallei, Salmonella (toutes les espèces), Shigella (toutes les espèces), Sphaerophorus (toutes les espèces), Staphylococcus aureus, Streptobacillus (toutes les espèces), Streptococcus (toutes les espèces pathogènes), Treponema (toutes les espèces), Vibrio (toutes les espèces), Yersinia (toutes les espèces); b) Blastomyces (toutes les espèces), Coccidioides (toutes les espèces), Cryptococcus (toutes les espèces), Histoplasma (toutes les espèces), Paracoccidioides (toutes les espèces); c) Blasidiomycètes ou autres moisissures impossibles à conserver par lyophilisation (dessication par sublimation à très basse température); d) Tous les agents de type viral, ou analogues aux rickettsies et chlamydobactéries; e) Agents susceptibles de provoquer ou de disséminer toute maladie contagieuse ou infectieuse de l'homme et des animaux, notamment de la volaille, et dont l'introduction ou la distribution aux U.S.A., ou les deux, nécessitent une autorisation; f) Agents classifiés comme parasites des cultures et dont l'introduction ou la distribution aux U.S.A., ou les deux, nécessiteraient une autorisation; g) Mélanges de micro-organismes; h) Micro-organismes qui exigeraient (de l'avis du conservateur de l'autorité de dépôt) des soins par trop vigilants au stade de la manipulation et de la préparation de la culture lyophilisée; i) Phages de toutes sortes; j) Plasmides et cultures similaires.

Institutions de dépôt (liste, accompagnée de notes), (suite)

(2)	Bactéries (y compris les actinomycètes), bactériophages, champignons, algues, protozoaires, virus (animaux et végétaux), cellules de cultures de tissus, plasmides et recombinants ADN
(3)	Champignons, levures et bactéries (principalement les actinomycètes)
(4)	Bactéries, mycoplasmes, rickettsies, champignons microscopiques, levures, virus et cultures cellulaires
(5)	Bactéries, levures, bactériophages et champignons, à l'exception de certaines espèces pathogènes
(6)	Mycobactéries, levures du type Candida et Torulopsis, Nocardia, streptomyces
(7)	Champignons, levures, bactéries et actinomycètes qui ne sont pas pathogènes pour le corps humain et qui n'exigent pas de moyens extraordinaires pour leur conservation à long terme
(8)	Bactéries, y compris les actinomycètes, à l'exception des pathogènes dangereux.

OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE APPLICABLE PERMET DE FAIRE REFERENCE AUX DEPOTS DE MICRO-ORGANISMES; LES INDICATIONS (EVENTUELLES), OUTRE LES INDICATIONS PRESCRITES, CONCERNANT CES DEPOTS DEVANT ETRE INCLUSES DANS LES REFERENCES EN VERTU DE CETTE LEGISLATION; LES DELAIS (EVENTUELS), PLUS COURTS QUE LE DELAI PRESCRIT DANS LESQUELS CES REFERENCES ET INDICATIONS DOIVENT ETRE FOURNIES; ET LES INSTITUTIONS DE DEPOT AUPRES DESQUELLES, EN VERTU DE CETTE LEGISLATION, LES DEPOTS PEUVENT ETRE EFFECTUES

Office désigné (ou élu)	**Indications (éventuelles) qui doivent figurer outre celles exposées dans la règle 13*bis*.3.a)i) à iii) (notifications reçues conformément à la règle 13*bis*.7a)i))**	**Délai (éventuel) plus court que celui spécifié dans la règle 13*bis*.4 dans lequel le déposant doit fournir A) les indications dont il est fait référence dans la règle 13*bis*. 3a)i) à iii) B) toute indication supplémentaire spécifiée dans la colonne adjacente de gauche (notifications reçues conformément à la règle 13*bis*.7a)ii))**	**Liste des institutions de dépôt auprès desquelles des dépôts peuvent être effectués (identifiées par les numéros de référence indiqués dans la liste précédente des institutions de dépôt) (notifications reçues conformément à la règle 13*bis*.7b))**
Allemagne (République fédérale d')			
Office allemand des brevets	Aucune	Aucun	Aucune liste fournie (voir note 2), ci-dessous); la note 1), ci-dessous, s'applique également
Etats-Unis d'Amérique			
Office des brevets et des marques des Etats-Unis	a) Une déclaration stipulant que le dépôt a été effectué pas plus tard que la date de priorité* de la demande internationale (lorsque la date de dépôt antérieure à cette date n'a pas été indiquée, conformément à la règle 13*bis*. 3.a)ii)) b) Dans la mesure du possible, une description taxonomique du micro-organisme.	Dans le cas de A), le nom et l'adresse de l'institution de dépôt au moment du dépôt (voir également note 7) ci-dessous) Dans le cas de B), au moment du dépôt	ARCC, ATCC et autres institutions non énumérées dans la liste (voir note 6), ci-dessous; la note 1), ci-dessous, s'applique également
Hongrie			
Office national des inventions	Dans la mesure où elles sont disponibles au déposant, les caractéristiques des micro-organismes et une description taxonomique	Dans le cas de B), lors du dépôt	HNCM et d'autres institutions non énumérées dans la liste (voir note 3), ci-dessous); la note 1), ci-dessous, s'applique également
Japon			
Office japonais des brevets	Renseignements concernant i) les caractéristiques qui identifient le micro-organisme ii) son procédé de production, iii) son utilité	Dans le cas à la fois de A) (à l'exception de la date de dépôt du micro-organisme) et B): lors du dépôt	FRI; la note 1), ci-dessous, s'applique également

* Se réfère à la date de priorité telle qu'elle est définie à l'article 2 xi) du PCT.

Offices désignés (ou élus) dont la législation nationale applicable permet de faire référence aux dépôts de micro-organismes; les indications (éventuelles), outre les indications prescrites, concernant ces dépôts devant être incluses dans les références en vertu de cette législation; les délais (éventuels), plus courts que le délai prescrit dans lesquels ces références et indications doivent être fournies; et les institutions de dépôt auprès desquelles, en vertu de cette législation, des dépôts peuvent être effectués (suite)

Office désigné (ou élu)	Indications (éventuelles) qui doivent figurer outre celles exposées dans la règle 13*bis*.3.a)i) à iii) (notifications reçues conformément à la règle 13*bis*.7a)i))	Délai (éventuel) plus court que celui spécifié dans la règle 13*bis*.4 dans lequel le déposant doit fournir A) les indications dont il est fait référence dans la règle 13*bis*. 3a)i) à iii) B) toute indication supplémentaire spécifiée dans la colonne adjacente de gauche (notifications reçues conformément à la règle 13*bis*.7a)ii))	Liste des institutions de dépôt auprès desquelles des dépôts peuvent être effectués (identifiées par les numéros de référence indiqués dans la liste précédente des institutions de dépôt) (notifications reçues conformément à la règle 13*bis*.7b))
Pays-Bas			
Office néerlandais des brevets	Aucune	Aucun	ARCC, ATCC, CBS, CYD, CMI, CCM, FRI IF, NLM, NCIB, SRIA

Offices désignés (ou élus) dont la législation nationale applicable permet de faire référence aux dépôts de micro-organismes; les indications (éventuelles), outre les indications prescrites, concernant ces dépôts devant être incluses dans les références en vertu de cette législation; les délais (éventuels), plus courts que le délai prescrit dans lesquels ces références et indications doivent être fournies; et les institutions de dépôt auprès desquelles, en vertu de cette législation, les dépôts peuvent être effectués (suite)

Notes

1) L'office concerné est un office de propriété industrielle selon le sens donné dans le Traité de Budapest sur la reconnaissance internationale du dépôt des micro-organismes aux fins de la procédure en matière de brevets. En conséquence, le dépôt peut être effectué auprès de toute institution de dépôt ayant acquis le statut d'autorité de dépôt internationale en vertu de ce Traité (la liste de ces institutions est publiée de temps à autre dans "La Propriété industrielle", revue publiée par l'OMPI).

2) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution reconnue scientifiquement dans le pays et à l'étranger» aux fins de la procédure en matière de brevets devant cet office, et ceci comprend toutes les institutions dont la liste est publiée dans cette Gazette.

3) L'office concerné a informé le Bureau international que, aux fins de la procédure en matière de brevets devant cet office, des dépôts peuvent être effectués auprès de (outre l'institution identifiée dans la liste) «toute institution de dépôt bien connue sur le plan international». Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

4) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

5) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués, en plus des institutions énumérées dans la liste, auprès de «toute institution de dépôt partout dans le monde» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

6) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt étrangère ou nationale tenue en vertu d'une loi, d'un traité ou d'un contrat d'accepter, de conserver et de remettre des échantillons sous les conditions stipulées dans la jurisprudence des Etat-Unis», aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions recons par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

7) L'office concerné a informé le Bureau international que, si les mêmes indications ne sont pas aussi incluses dans une demande antérieure dont la priorité a été revendiquée, la priorité de la demande antérieure ne sera pas accordée.

8) L'office concerné a informé le Bureau international que, si le déposant désire que, jusqu'à la publication de la mention de la délivrance du brevet européen ou jusqu'à la date à laquelle la demande est rejetée, retirée ou réputée retirée, l'accessibilité au micro-organisme prévue au paragraphe 3 de la règle 28 du règlement d'exécution de la Convention sur le brevet européen ne soit réalisée que par la remise d'un échantillon à un expert désigné par le requérant (Règle 28, paragraphe 4 dudit règlement d'exécution), il doit en informer le Bureau international avant l'achèvement de la préparation technique de la publication de la demande internationale.

LISTE DES OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE NE CONTIENT AUCUNE DISPOSITION CONCERNANT LE DEPOT DES MICRO-ORGANISMES

Etats contractants	**Désignation de l'office**
Australie:	Office australien des brevets
Autriche:	Office autrichien des brevets (1)
Brésil:	Institut national de la propriété industrielle
Danemark:	Office des brevets et des marques
Finlande:	Office national des brevets et de l'enregistrement (2)
Luxembourg:	Ministère de l'économie nationale, Service de la propriété industrielle
Madagascar:	Ministère de l'économie et du commerce, Direction de l'industrie et des mines
Malawi:	Ministère de la Justice, Département du Registrar General
Monaco:	Ministère d'Etat, Service de la propriété industrielle
Norvège:	Office norvégien des brevets
Roumanie:	Office d'Etat pour les inventions et les marques (3)
Organisation intergouvernementale:	Organisation africaine de la propriété intellectuelle

Notes

(1) L'office concerné a informé le Bureau international que, tandis que la législation nationale en vigueur ne prévoit pas les dépôts de micro-organismes, cette même législation ne contient aucune interdiction sur ces dépôts.

(2) L'office concerné a informé le Bureau international que cet office n'exige pas "mais seulement recommande fortement de déposer les micro-organismes qui ne sont pas accessibles au public et qui sont relatifs aux inventions concernées".

(3) L'office concerné a informé le Bureau international que la législation nationale ne contient aucune disposition concernant des institutions de dépôt, mais qu'en pratique l'office "reconnaît des dépôts effectués auprès des institutions spécialisées des états contractants, ou à l'étranger, et accessibles à toute personne physique ou morale intéressée".

DOCUMENTS DE PRIORITE: APPLICATION DU DELAI DE PRESENTATION

Offices qui ne tiendront pas compte (en qualité d'offices désignés ou élus) d'une revendication de priorité si le déposant n'a pas observé le délai (expirant à la fin du 16e mois à compter de la date de priorité de la demande internationale) en ce qui concerne la présentation du document de priorité

(liste établie par l'OMPI sur la base de renseignements fournis par les offices concernés)

Etat contractant	**Office national**
Danemark	Office des brevets et des marques
Finlande	Office national des brevets et de l'enregistrement
Hongrie	Office national des inventions
Japon	Office japonais des brevets
Malawi	Ministère de la justice, Département du Registrar General
Roumanie	Office d'Etat pour les inventions et les marques
Royaume-Uni	Office des brevets
Suède	Office royal des brevets et de l'enregistrement
Suisse	Office fédéral de la propriété intellectuelle
Union soviétique	Comité d'Etat de l'URSS pour les inventions et les découvertes

Note: Aucun autre office national n'applique de sanction si le déposant n'a pas présenté le document de priorité comme le prévoit la règle 17.1.a) et b). Toutefois, plusieurs de ces offices insistent pour que le document de priorité leur soit présenté pendant le traitement national s'ils ne l'ont pas déjà reçu dans le cadre de la procédure prévue dans la règle 17.1; mais aucun d'eux n'applique de sanction si le document n'a pas été présenté avant ce moment.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 16bis. 3 DU PCT

Le Bureau international a reçu des notifications en vertu de de la règle 16*bis*. 3 du PCT excluant l'application de la règle 16*bis*. 1 et de la règle 16*bis*. 2* du PCT aux offices, en tant qu'offices récepteurs selon le PCT, des quatre pays suivants:

Australie
Autriche ****
Hongrie
Japon

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 80. 6b) DU PCT

Le Bureau international a reçu des notifications en vertu de la règle 80.6b) du PCT, qui ont pour effet d'exclure l'application de la règle 80.6a) du PCT, deuxième phrase**, aux offices, en tant qu'offices récepteurs selon le PCT, des six pays suivants:

Australie
Danemark
Finlande
Japon
Norvège
Suède

*NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT****

En vertu de la règle 92.4 du PCT, les offices nationaux des pays suivants ainsi que les organisations intergouvernementales indiquées ci-dessous sont disposés à recevoir des documents (y compris des dessins) -- postérieurs à la demande internationale -- adressés par les moyens indiqués ci-après:

Allemagne (République fédérale d'): télégraphe, téléimprimeur
Autriche: télégraphe, téléimprimeur
Brésil: télégraphe, téléimprimeur
Danemark: télégraphe, téléimprimeur
Etats-Unis d'Amérique: téléimprimeur
Finlande: télégraphe
France: télégraphe, téléimprimeur
Hongrie: télégraphe, téléimprimeur
Luxembourg: télégraphe, téléimprimeur
Malawi: télégraphe
Monaco: télégraphe
Norvège: télégraphe, téléimprimeur
Pays-Bas: télégraphe
Roumanie: télégraphe, téléimprimeur
Suède: téléimprimeur
Suisse: télégraphe, téléimprimeur
Union soviétique: télégraphe, téléimprimeur
Office européen des brevets: télégraphe, téléimprimeur
Bureau international de l'OMPI: télégraphe, téléimprimeur, télécopieur (copies facsimile par l'intermédiaire du Service postal suisse).

Des renseignements relatifs aux adresses télégraphiques et de téléimprimeur de tous les offices nationaux et organisations intergouvernementales sont publiés dans le présent numéro de la Gazette du PCT.

---

* Voir la règle 16*bis* du PCT, publiée dans le numéro 17/1980 de la Gazette du PCT, pages 1275-1276.

** Voir la note de bas de page accompagnant la règle 80.6b), publiée dans le numéro 18/1980 de la Gazette du PCT, page 1369.

*** La liste reproduite dans le texte qui suit fera l'objet de mises à jour périodiques dans des numéros ultérieurs de la Gazette du PCT

**** Conformément à la règle 16*bis*.3a), deuxième phrase, l'Office autrichien des brevets a déclaré qu'il retirait sa notification excluant l'application des règles 16*bis*.1 et 16*bis*.2 du PCT. Le retrait de cette notification prendra effet le 1er mai 1981.

RENSEIGNEMENTS UTILES CONCERNANT LES PRATIQUES QUE SUIVENT LES OFFICES NATIONAUX (ET REGIONAUX)

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE

Phase internationale

La législation des Etats-Unis d'Amérique en matière de brevets exige qu'aux fins de la désignation de cet Etat, le ou les déposants soient le ou les inventeurs. Si cette condition n'est pas remplie, la désignation des Etats-Unis d'Amérique est considérée comme n'ayant pas été effectuée et l'Office des brevets et des marques de ce pays peut, en qualité d'office désigné, rejeter la demande (article 27.3) et règle 18.4.b)).

Lorsque l'inventeur ne peut être atteint pendant une période ne dépassant pas le délai fixé dans la règle 26.2, la demande internationale peut être déposée sans sa signature. L'absence de la signature de l'inventeur ou d'un pouvoir signé par lui est une irrégularité qui peut être corrigée en vertu de l'article 14.1)a)i) et b) et à laquelle on peut remédier en déposant une copie de la requête (ou du pouvoir, lorsque la requête a été signée par un mandataire), dûment signée par l'inventeur, dans le délai précité.

Lorsque la signature de l'inventeur ne peut pas être obtenue dans le délai fixé dans la règle 26.2 ou lorsque l'inventeur n'est pas disposé à signer la requête d'une demande internationale aux fins de la désignation des Etats-Unis d'Amérique, la procédure est la suivante:

i) Lorsqu'un *co-inventeur* refuse de s'associer à une demande internationale qui désigne les Etats-Unis d'Amérique ou ne peut être trouvé ou atteint après des recherches diligentes, la demande internationale peut être signée par le ou les autres inventeurs en son nom (ou en leur nom) et au nom de l'inventeur n'ayant pas signé.

ii) Lorsqu'un *inventeur unique* refuse de signer une demande internationale qui désigne les Etats-Unis d'Amérique ou ne peut être trouvé ou atteint après des recherches diligentes, une personne à qui il a cédé ou accepté par écrit de céder l'invention ou qui peut faire la preuve d'intérêts suffisants de propriété en la matière justifiant son action peut signer la demande internationale au nom de l'inventeur et en tant que mandataire de celui-ci. Cette règle joue aussi lorsque tous les co-inventeurs refusent de signer ou ne peuvent être trouvés ou atteints après des recherches diligentes.

Dans les deux cas, la personne qui dépose la demande internationale (et qui signe la requête ou un pouvoir distinct) est considérée comme un "autre représentant" au sens de la règle 2.1.

Lorsque l'inventeur n'est pas disposé à signer ou ne peut être atteint, son représentant doit fournir une déclaration explicative sur les raisons pour lesquelles le formulaire de requête ou le pouvoir n'est pas signé de l'inventeur aux fins de la désignation des Etats-Unis d'Amérique. Cette déclaration doit être fournie en même temps que le formulaire de requête ou dans le délai fixé par l'office récepteur en vertu de la règle 26.2 pour la correction de l'irrégularité selon l'article 14.1)a)i) et les règles 4.15 ou 90.3 (défaut de signature de l'inventeur sur le formulaire de requête ou absence de pouvoir séparé signé de l'inventeur, lorsque le formulaire de requête a été signé par un mandataire). En cas d'absence de signature d'un inventeur unique ou d'un co-inventeur (cas i) et ii) ci-dessus), cette déclaration doit indiquer la dernière adresse connue du ou des inventeurs n'ayant pas signé. Lorsque le représentant n'est pas un co-inventeur, cette déclaration doit indiquer que le représentant de l'inventeur possède un intérêt de propriété suffisant sur l'invention pour faire une demande de brevet et que cette action est nécessaire pour sauvegarder les droits des parties ou pour empêcher que ne soient causés des torts irréparables.

Phase nationale

Lorsque la demande internationale aborde la phase nationale à l'Office des brevets et des marques des Etats-Unis d'Amérique (articles 22.1) et 23) et que l'inventeur refuse de signer ou ne peut être trouvé ou atteint après des recherches diligentes, le serment ou la déclaration exigé de l'inventeur doit être fait par la personne ("l'autre représentant" au sens de la règle 2.1) qui fait la demande pour l'inventeur n'ayant pas signé mentionné dans les cas i) et ii) ci-dessus; ce serment ou cette déclaration doit être accompagné d'une preuve des faits en cause et indiquer la dernière adresse connue de l'inventeur n'ayant pas signé. Dans le cas ii) ci-dessus, il faut en plus apporter la preuve que cette action est nécessaire pour sauvegarder les droits des parties ou pour empêcher que ne soient causés des torts irréparables. Il faut aussi déposer à l'Office des brevets et des marques des Etats-Unis la cession, promesse écrite de cession ou une autre preuve d'intérêt de propriété ou une copie certifiée de ces pièces.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant,* (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office norvégien des brevets (février 1981),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

* Etat non lié par le chapitre II du Traité de coopération en matière de brevets.

** Sera liée par le chapitre II du Traité de coopération en matière de brevets à compter du 12 juin 1981.

1) Les nationaux de cet Etat ainsi que les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales depuis le 1er juin 1978, et cet Etat peut être désigné dans les demandes internationales depuis cette date.

2) Les nationaux de cet Etat et les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales à partir de la date indiquée, et cet Etat peut être désigné dans les demandes internationales à partir de cette même date.

3) Conformément aux termes d'une notification adressée au Bureau international, notification qui se réfère à l'article 62.3), le Traité de coopération en matière de brevets deviendra applicable à Hong-Kong à partir du 15 avril 1981.

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE.

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, pages 904 et 905.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office norvégien des brevets (février 1981),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

SECTION IV

NOTIFICATIONS ET INFORMATIONS DE CARACTERE GENERAL

ETATS CONTRACTANTS

Etats parties au Traité de coopération en matière de brevets (PCT)

---

* Etat non lié par le chapitre II du Traité de coopération en matière de brevets.

** Sera liée par le chapitre II du Traité de coopération en matière de brevets à compter du 12 juin 1981.

1) Les nationaux de cet Etat ainsi que les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales depuis le 1er juin 1978, et cet Etat peut être désigné dans les demandes internationales depuis cette date.

2) Les nationaux de cet Etat et les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales à partir de la date indiquée, et cet Etat peut être désigné dans les demandes internationales à partir de cette même date.

3) Conformément aux termes d'une notification adressée au Bureau international, notification qui se réfère à l'article 62.3), le Traité de coopération en matière de brevets deviendra applicable à Hong-Kong à partir du 15 avril 1981.

"DOCUMENTATION MINIMALE" SELON LA REGLE 34.1b)iii) DU REGLEMENT D'EXECUTION DU TRAITE DE COOPERATION EN MATIERE DE BREVETS (PCT)

A la réunion du 24 octobre 1980 à laquelle toutes les administrations chargées de la recherche internationale étaient représentées, il a été convenu que les deux périodiques suivants seraient ajoutés à la liste des articles publiés de la littérature autre que celle des brevets, établie selon la règle 34.1)b)iii) du PCT:

Identification Number/ Numéro d'identification	Title of the periodical / Titre du périodique Publisher / Editeur Address of the publisher / Adresse de l'éditeur	ISSN	Language/ Langue
170	Bulletin de la Société chimique de France Masson 120, boulevard Saint-Germain 75280 Paris Cedex 06	0037-8968	F
171	L'Onde électrique Masson 120, boulevard Saint-Germain 75280 Paris Cedex 06	0030-2430	E*F

La liste complète des articles publiés de la littérature autre que celle des brevets, telle qu'adoptée par les administrations chargées de la recherche internationale, a été publiée en dernier lieu par le Bureau international dans le numéro 27/1980 de la Gazette du PCT (pages 2173 à 2186). Le périodique suivant a été omis par inadvertance:

Identification Number/ Numéro d'identification	Title of the periodical / Titre du périodique Publisher / Editeur Address of the publisher / Adresse de l'éditeur	ISSN	Language/ Langue
115	Measurement Techniques (Izmeritelnaya Tekhnika) Plenum Publishing Corporation, 227 West 17th Street, New York, NY 10011, USA or Izdatelstvo Standartov Ezdakov Pereulok, 1, 117334, Moscow, USSR	0543-1972	E R

(Suite à la page suivante)

"Documentation minimale" selon la règle 34.1)b)iii) du règlement d'exécution du Traité de coopération en matière de brevets (PCT) (suite)

Les modifications suivantes du périodique qui a reçu le numéro 43 dans ladite liste sont publiées ci-après:

Identification Number/ Numéro d'identification	Title of the periodical / Titre du périodique Publisher / Editeur Address of the publisher / Adresse de l'éditeur	ISSN	Language/ Langue
43	Comptes-Rendus Hebdomadaires Séances Académie des Sciences (Séries A-B-C-D: -DISCONTINUED) (A-Mathematical and Physical Sciences) (B-Mathematical and Physical Sciences) (C-Chemical Sciences) (D-Natural Sciences) Séries I-II-III, as from January 1, 1981: I -Mathématique II -Mécanique, Physique, Chimie, Sciences de l'Univers, Sciences de la Terre III-Sciences de la Vie Centrale des Revues Dunod/ Gauthiers-Villars, 24, 26, boulevard de l'Hôpital 75005 Paris, France	 (0302-8429) (0302-8437) (0567-6541) (0567-655X) 0151-0509 0567-6541 0567-655X	F

OFFICES NATIONAUX ET REGIONAUX, BUREAU INTERNATIONAL: LEURS NOMS, ADRESSES, ETC.

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, page 903.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, page 903.

RENSEIGNEMENTS UTILES CONCERNANT LES PRATIQUES QUE SUIVENT LES OFFICES NATIONAUX (ET REGIONAUX)

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE.

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, pages 904 et 905.

CORRECTIONS APPORTEES AU TABLEAU DES TAXES PAYABLES A L'OFFICE RECEPTEUR

Les renseignements indiqués à la page 858 de la Gazette du PCT Nº 10/1981 en ce qui concerne l'Office des brevets et des marques du Danemark font l'objet des corrections suivantes:

- A la colonne 2 (Taxe de base) lire: "1840 C.D. (dans le mois suivant le dépôt)"
- A la colonne 5 (Taxe de transmission) lire: "300 C.D. (dans le mois suivant le dépôt)"
- A la colonne 6 (Taxe de recherche) lire: "3050 C.D.*** ou 4700 C.D.**** (dans le mois suivant le dépôt)"

Le montant de 4700 C.D. indiqué à la colonne 6 sera porté à 5400 C.D. à compter du 1er juin 1981.

CORRECTION APPORTEE AU TABLEAU INDIQUANT LES CONDITIONS REQUISES PAR LES OFFICES DESIGNES (OU ELUS) EN MATIERE DE TAXES NATIONALES ET DE DELAIS

La note de bas de page reproduite à la page 874 de la Gazette du PCT Nº 10/1981 et identifiée par deux astérisques doit se lire comme suit: "** Taxe additionnelle pour chaque revendication à compter de la 11e: 125 C.D.".

STATISTIQUES CONCERNANT LES EXEMPLAIRES ORIGINAUX REÇUS PAR LE BUREAU INTERNATIONAL

NOTE EXPLICATIVE CONCERNANT LES STATISTIQUES

Certains codes sont utilisés dans les tableaux de statistiques pour identifier les offices récepteurs et les Etats désignés. Ces codes sont extraits du "Code d'identification des Etats et des organisations" constituant l'annexe B* des instructions administratives selon le Traité de coopération en matière de brevets (PCT). Les codes et les Etats qu'ils identifient sont reproduits au bas de cette page.

Dans le cas des offices récepteurs, les codes indiquent l'Etat contractant du Traité de coopération en matière de brevets (PCT) pour lequel l'office récepteur est l'administration nationale de propriété industrielle de cet Etat, sauf dans le cas de l'Office européen des brevets qui agit (ainsi que l'administration nationale de propriété industrielle) en qualité d'office récepteur pour les Etats contractant du PCT qui sont également parties à la Convention sur le brevet européen. Dans le tableau relatif aux désignations d'Etats, les chiffres indiqués se rapportent aux indications des désignations contenues dans les exemplaires originaux reçus par le Bureau international de l'OMPI et notifiées par ce dernier aux offices désignés. Le code de chaque Etat désigné est accompagné de l'abréviation "NAT" et/ou "OEB" et/ou "OAPI". Cette abréviation signifie que, pour l'Etat désigné considéré, c'est un brevet national ("NAT") qui est demandé, ou un brevet européen ("OEB") ou un brevet de l'Organisation africaine de la propriété intellectuelle ("OAPI").

Note: Le Bureau international n'a reçu, au cours de la période à laquelle se réfère ce tableau, aucun exemplaire original des Offices des brevets du Luxembourg, du Malawi, de Monaco et de la République populaire démocratique de Corée, agissant en qualité d'offices récepteurs. D'autre part, le Bureau international, en sa qualité d'office récepteur agissant pour le Cameroun, le Congo, la République centrafricaine, le Gabon, Madagascar, le Sénégal, le Tchad et le Togo, n'a reçu aucune demande internationale.

CORRECTION
APPORTEE AU TABLEAU DES DESIGNATIONS DES ETATS PAR OFFICE RECEPTEUR

Le tableau publié à la page 304 de la Gazette du PCT Nº 04/1981, indiquant les désignations des Etats pour la période du 1er janvier au 31 mars 1981 fait l'objet de la correction suivante:

Le nombre des désignations de l'Union soviétique indiqué pour les demandes internationales déposées auprès de l'Office allemand des brevets doit se lire "13" et non "30".

Cette correction n'a pas d'effet sur les nombres totaux de désignations indiqués dans ce tableau.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
– l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
– l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office norvégien des brevets (février 1981),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office norvégien des brevets (février 1981),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

LISTE DES INSTITUTIONS DE DEPOT AUPRES DESQUELLES DES DEPOTS DE MICRO-ORGANISMES PEUVENT ETRE EFFECTUES POUR CERTAINS OFFICES DESIGNES (OU ELUS)

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, pages 894 à 897.

OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE APPLICABLE PERMET DE FAIRE REFERENCE AUX DEPOTS DE MICRO-ORGANISMES; LES INDICATIONS (EVENTUELLES), OUTRE LES INDICATIONS PRESCRITES, CONCERNANT CES DEPOTS DEVANT ETRE INCLUSES DANS LES REFERENCES EN VERTU DE CETTE LEGISLATION; LES DELAIS (EVENTUELS), PLUS COURTS QUE LE DELAI PRESCRIT DANS LESQUELS CES REFERENCES ET INDICATIONS DOIVENT ETRE FOURNIES; ET LES INSTITUTIONS DE DEPOT AUPRES DESQUELLES, EN VERTU DE CETTE LEGISLATION, DES DEPOTS PEUVENT ETRE EFFECTUES

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, pages 898 à 900.

LISTE DES OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE NE CONTIENT AUCUNE DISPOSITION CONCERNANT LE DEPOT DES MICRO-ORGANISMES

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, page 901.

DOCUMENTS DE PRIORITE: APPLICATION DU DELAI DE PRESENTATION

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, page 902.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 16 *BIS*. 3 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, page 903.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 80.6 b) DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, page 903.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, page 903.

RENSEIGNEMENTS UTILES CONCERNANT LES PRATIQUES QUE SUIVENT LES OFFICES NATIONAUX (ET REGIONAUX)

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE.

Ces renseignements ont été publiés dernièrement dans le numéro 10/1981 de la Gazette du PCT, pages 904 et 905.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
– l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
– l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Comité d'Etat de l'URSS pour les inventions et les découvertes (mai 1981),
Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office norvégien des brevets (février 1981),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

SECTION IV

NOTIFICATIONS ET INFORMATIONS DE CARACTERE GENERAL

STATISTIQUES CONCERNANT LES EXEMPLAIRES ORIGINAUX REÇUS PAR LE BUREAU INTERNATIONAL

NOTE EXPLICATIVE CONCERNANT LES STATISTIQUES

Certains codes sont utilisés dans les tableaux de statistiques pour identifier les offices récepteurs et les Etats désignés. Ces codes sont extraits du "Code d'identification des Etats et des organisations" constituant l'annexe B* des instructions administratives selon le Traité de coopération en matière de brevets (PCT). Les codes et les Etats qu'ils identifient sont reproduits au bas de cette page.

Dans le cas des offices récepteurs, les codes indiquent l'Etat contractant du Traité de coopération en matière de brevets (PCT) pour lequel l'office récepteur est l'administration nationale de propriété industrielle de cet Etat, sauf dans le cas de l'Office européen des brevets qui agit (ainsi que l'administration nationale de propriété industrielle) en qualité d'office récepteur pour les Etats contractant du PCT qui sont également parties à la Convention sur le brevet européen. Dans le tableau relatif aux désignations d'Etats, les chiffres indiqués se rapportent aux indications des désignations contenues dans les exemplaires originaux reçus par le Bureau international de l'OMPI et notifiées par ce dernier aux offices désignés. Le code de chaque Etat désigné est accompagné de l'abréviation "NAT" et/ou "OEB" et/ou "OAPI". Cette abréviation signifie que, pour l'Etat désigné considéré, c'est un brevet national ("NAT") qui est demandé, ou un brevet européen ("OEB") ou un brevet de l'Organisation africaine de la propriété intellectuelle ("OAPI").

Note: Le Bureau international n'a reçu, au cours de la période à laquelle se réfère ce tableau, aucun exemplaire original des Offices des brevets du Luxembourg, du Malawi, de Monaco et de la République populaire démocratique de Corée, agissant en qualité d'offices récepteurs. D'autre part, le Bureau international, en sa qualité d'office récepteur agissant pour le Cameroun, le Congo, la République centrafricaine, le Gabon, Madagascar, le Sénégal, le Tchad et le Togo, n'a reçu aucune demande internationale.

SECTION IV

NOTIFICATIONS ET INFORMATIONS DE CARACTERE GENERAL

ETATS CONTRACTANTS

Etats parties au Traité de coopération en matière de brevets (PCT)

	Date d'entrée en vigueur du PCT à l'égard de l'Etat
Allemagne (République fédérale d')	24 janvier 1978 [1]
Australie	31 mars 1980 [2]
Autriche	23 avril 1979 [2]
Brésil	9 avril 1978 [1]
Cameroun	24 janvier 1978 [1]
Congo	24 janvier 1978 [1]
Danemark *	1er décembre 1978 [2]
Etats-Unis d'Amérique*	24 janvier 1978 [1]
Finlande	1er octobre 1980 [2]
France	25 février 1978 [1]
Gabon	24 janvier 1978 [1]
Hongrie	27 juin 1980 [2]
Japon	1er octobre 1978 [2]
Liechtenstein *	19 mars 1980 [2]
Luxembourg *	30 avril 1978 [1]
Madagascar	24 janvier 1978 [1]
Malawi	24 janvier 1978 [1]
Monaco	22 juin 1979 [2]
Norvège*	1er janvier 1980 [2]
Pays-Bas	10 juillet 1979 [2]
République centrafricaine	24 janvier 1978 [1]
République populaire démocratique de Corée	8 juillet 1980 [2]
Roumanie	23 juillet 1979 [2]
Royaume-Uni	24 janvier 1978 [1][3]
Sénégal	24 janvier 1978 [1]
Suède	17 mai 1978 [1]
Suisse *	24 janvier 1978 [1]
Tchad	24 janvier 1978 [1]
Togo	24 janvier 1978 [1]
Union soviétique	24 janvier 1978 [1]

---

* Etat non lié par le chapitre II du Traité de coopération en matière de brevets.

1) Les nationaux de cet Etat ainsi que les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales depuis le 1er juin 1978, et cet Etat peut être désigné dans les demandes internationales depuis cette date.

2) Les nationaux de cet Etat et les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales à partir de la date indiquée, et cet Etat peut être désigné dans les demandes internationales à partir de cette même date.

3) Conformément aux termes d'une notification adressée au Bureau international, notification qui se réfère à l'article 62.3), le Traité de coopération en matière de brevets est applicable à Hong-Kong à partir du 15 avril 1981.

OFFICES NATIONAUX ET RÉGIONAUX, BUREAU INTERNATIONAL: LEURS NOMS, ADRESSES, ETC.

Allemagne (République fédérale d')

Désignation: Deutsches Patentamt
Office allemand des brevets

RENSEIGNEMENTS CONCERNANT LES ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE ET DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL

ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE: LISTE ET CERTAINES DONNÉES LES CONCERNANT

Désignation de l'administration chargée de la recherche internationale (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	**Objet à l'égard duquel l'administration ne procèdera pas à la recherche**	**Pour être acceptée aux fins de la recherche internationale, la demande internationale doit être rédigée dans l'une des langues suivantes**
Australie		
Office australien des brevets (31 mars 1980)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, Nº 09/1980, pages 601 et 605).	Anglais
Autriche		
Office autrichien des brevets (23 avril 1979)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT, à l'exception des méthodes de diagnostic ne s'appliquant pas au corps humain. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 06/1979, pages 227 et 231).	Allemand Anglais Français
Etats-Unis d'Amérique		
Office des brevets et des marques des Etats-Unis (11 avril 1978)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT. (Voir l'article 6 de l'accord, qui stipule que l'Administration «n'est pas tenue de procéder à la recherche» à l'égard d'un tel objet, ainsi que l'annexe B dudit accord, Gazette du PCT, No 02/1978, pages 124 et 127).	Anglais
Japon		
Office japonais des brevets (1er octobre 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT, ainsi que les programmes d'ordinateurs. (Voir l'article 7 et l'annexe C de l'accord, Gazette du PCT, No 04/1978, pages 215 et 220).	Japonais

* i) théories scientifiques et mathématiques;
ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;
iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;
iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;
v) simples présentations d'informations;
vi) programmes d'ordinateurs dans la mesure où l'administration chargée de la recherche internationale n'est pas outillée pour procéder à la recherche de l'état de la technique au sujet de tels programmes.

Administrations chargées de la recherche internationale: liste et certaines données les concernant (suite)

Désignation de l'administration chargée de la recherche internationale (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	Objet à l'égard duquel l'administration ne procèdera pas à la recherche	Pour être acceptée aux fins de la recherche internationale, la demande internationale doit être rédigée dans l'une des langues suivantes
Suède		
Office royal des brevets et de l'enregistrement (17 mai 1978)	Objet spécifié aux rubriques i) et v) de la règle 39.1* du PCT, à l'exception des méthodes de diagnostic et programmes d'ordinateurs, pour autant qu'ils ne soient pas comparables à des méthodes mathématiques, à des présentations d'informations ou n'aient pas un caractère abstrait ou intellectuel. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 140 et 144).	Anglais Danois Finnois Français Islandais Norvégien Suédois
Union soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT et programmes d'ordinateurs. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 111 et 115 et No 07/1978, page 349).	Russe Allemand Anglais Français
OEB		
Office européen des brevets (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT et programmes d'ordinateurs. (Voir l'article 7 de l'accord, Gazette du PCT, No 02/1978, page 131).	Allemand Anglais Français Néerlandais**

* i) théories scientifiques et mathématiques;
ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;
iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;
iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;
v) simples présentations d'informations;
vi) programmes d'ordinateurs dans la mesure où l'administration chargée de la recherche internationale n'est pas outillée pour procéder à la recherche de l'état de la technique au sujet de tels programmes.

** En ce qui concerne les demandes internationales déposées auprès du Service central de la propriété industrielle des Pays-Bas.

ADMINISTRATIONS CHARGÉES DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL: LISTE ET CERTAINES DONNÉES LES CONCERNANT

Désignation de l'administration chargée de l'examen préliminaire international (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	**Objet à l'égard duquel l'administration ne procédera pas à l'examen**	**Pour être acceptée aux fins de l'examen préliminaire international, la demande internationale doit être rédigée dans l'une des langues suivantes**
Australie		
Office australien des brevets (31 mars 1980)	Objet spécifié aux rubriques i) à vi) de la règle 67.1* du PCT. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, Nº 09/1980, pages 601 et 605).	Anglais
Autriche		
Office autrichien des brevets (23 avril 1979)	Objet spécifié aux rubriques i) à vi) de la règle 67.1* du PCT, à l'exception des méthodes de diagnostic ne s'appliquant pas au corps humain. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 06/1979, pages 227 et 231).	Allemand Anglais Français
Japon		
Office japonais des brevets (1er octobre 1978)	Objet spécifié aux rubriques i) à v) de la règle 67.1* du PCT et programmes d'ordinateurs. (Voir l'article 7 et l'annexe C de l'accord, Gazette du PCT, No 04/1978, pages 215 et 220).	Japonais
Royaume-Uni		
Office des brevets (11 avril 1978)	Objet spécifié aux rubriques i) à vi) de la règle 67.1* du PCT. (Voir l'article 6 de l'accord, Gazette du PCT, No 02/1978, page 119).	Anglais (mais seulement lorsqu'il s'agit de la langue du dépôt ou de la publication).

* i) théories scientifiques et mathématiques;
ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;

REMBOURSEMENT DE LA TAXE DE RECHERCHE PAR LES ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE AU CAS OÙ UNE RECHERCHE INTERNATIONALE OU DE TYPE INTERNATIONAL A DÉJÀ EU LIEU*

Administration chargée de la recherche internationale	Conditions de remboursement	Montant du remboursement
Australie		
Office australien des brevets *(Gazette du PCT No 09/ 1980, pages 599 à 605)*	L'administration peut utiliser la totalité ou la majeure partie du rapport de recherche antérieur	75 %
Autriche		
Office autrichien des brevets *(Gazette du PCT No 06/ 1 979, pages 225 à 232)*	L'administration peut utiliser la totalité ou la majeure partie du rapport de recherche antérieur	75 %
Japon		
Office japonais des brevets *(Gazette du PCT No 04/ 1 978, pages 21 3 à 222)*	1) Remboursement sur requête du déposant 2) L'administration a été en mesure d'utiliser une part substantielle du rapport de recherche antérieur	12 000 yens
Union soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes *(Gazette du PCT No 02/ 1 978, pages 1 09 à 1 1 7)*	L'étendue de la recherche antérieure était telle que seule une recherche de mise à jour de portée réduite est nécessaire, ou	90 %
	La recherche antérieure se rapporte pratiquement à la même invention mais les revendications de la demande internationale en cause sont différentes, de telle sorte qu'il est nécessaire d'effectuer une recherche dans un à trois sous-groupes supplémentaires de la CIB, ou	70 %
	La recherche antérieure permet d'économiser la moitié du travail nécessaire pour effectuer la recherche internationale, ou	40 %
	La recherche antérieure ne couvre que quelques sous-groupes de la CIB	20 %

* Le présent tableau résume les cas dans lesquels, et indique dans quelle mesure, les différentes administrations chargées de la recherche internationale remboursent au déposant la taxe de recherche lorsque la recherche internationale peut être fondée, en tout ou en partie, sur une recherche internationale ou de type international effectuée précédemment par l'administration en cause. Le tableau résume les dispositions prévues à cet effet dans les accords conclus entre l'OMPI et chacune desdites administrations (chacun de ces accords est identifié sous le nom de l'administration en cause par un renvoi à la Gazette du PCT dans laquelle il a été publié). On trouvera des renseignements complémentaires dans les notes afférentes au présent tableau. Les remboursements selon les accords précités sont prévus dans les règles 16.3 et 41.1 du règlement d'exécution du PCT.

Remboursement de la taxe de recherche par les administrations chargées de la recherche internationale au cas ou une recherche internationale ou de type international a déjà eu lieu * (suite)

Administration chargée de la recherche internationale	Conditions de remboursement	Montant du remboursement
Suède		
Office royal des brevets et de l'enregistrement (Stockholm) *(Gazette du PCT No 02/ 1978, pages 138 à 145)*	L'administration peut utiliser le rapport de recherche antérieur	90 % 75 % 50 % ou 25 % selon la mesure dans laquelle ledit rapport peut être utilisé
Etats-Unis d'Amérique		
Office des brevets et des marques des Etats-Unis d'Amérique *(Gazette du PCT No 02/ 1 978, pages 1 23 à 1 28)*	L'examinateur constate que l'un des critères suivants a été observé:	
	1) recherche antérieure très complète, ne nécessitant qu'une mise à jour ou qu'une recherche complémentaire succincte	90 %
	2) recherche antérieure assez utile, mais ne justifiant cependant pas un remboursement à 90 %	45 %
Organisation européenne des brevets		
Office européen des brevets *(Gazette du PCT No 02/ 1978, pages 129 à 137)*	L'administration peut utiliser le rapport de recherche antérieur	100 % 75 % 50 % ou 25 % selon la mesure dans laquelle ledit rapport peut être utilisé

Notes

1) ***Office des brevets et des marques des Etats-Unis d'Amérique.*** Une recherche sur l'état de la technique effectuée à l'occasion d'une demande nationale (Etats-Unis) antérieure est considérée comme une recherche de type international pour déterminer s'il y a lieu de procéder à un remboursement. Des remboursements sont aussi effectués selon les mêmes critères et les mêmes pourcentages des taxes de recherche acquittées pour des demandes internationales lorsque les recherches sur l'état de la technique effectuées au cours de l'examen ultérieur des demandes nationales (Etats-Unis) sont entièrement ou partiellement fondées sur des recherches internationales (antérieures) portant sur des demandes internationales.

Remboursement de la taxe de recherche par les administrations chargées de la recherche internationale au cas ou une recherche internationale ou de type international a déjà eu lieu * (suite)

Notes (Suite)

2) ***Office européen des brevets.*** Les recherches sont admises comme recherches de type international du point de vue des remboursements lorsqu'elles ont été effectuées par l'Office européen des brevets

i) pour une demande de brevet européen (antérieure);

ii) pour une demande nationale (antérieure)
(en Allemagne (République fédérale d'), en France, aux Pays-Bas et en Suisse);

iii) comme recherche «standard» demandée à titre privé à l'égard d'une demande (antérieure) dont la priorité est revendiquée dans une demande internationale ou européenne ultérieure.

Les critères suivants ont été adoptés pour déterminer le montant du remboursement de la taxe de recherche:

- remboursement à 100 %: aucune recherche complémentaire nécessaire;
- remboursement à 75 %: recherche complémentaire effectuée dans la documentation relative à une ou plusieurs subdivisions consultées lors de la recherche antérieure *ou* étendue à une ou plusieurs subdivisions n'ayant pas encore été consultées;
- remboursement à 50 %: recherche complémentaire effectuée dans la documentation relative à une ou plusieurs subdivisions déjà consultées *et* étendue à une ou plusieurs subdivisions n'ayant pas encore été consultées;
- remboursement à 25 %: recherche complémentaire dans la documentation relative aux subdivisions correspondant à un nouvel aspect de l'invention revendiquèe. (Par exemple, lorsque la demande européenne est fondée sur plusieurs demandes antérieures dont une seule a fait l'objet d'un rapport de recherche antérieur.)

OFFICES NATIONAUX QUI ONT RENONCÉ, TOTALEMENT OU PARTIELLEMENT, A LA COMMUNICATION SELON L'ARTICLE 20

Etats-Unis d'Amérique

Office des brevets et des marques des Etats-Unis

Ont renoncé à la communication en ce qui concerne les demandes internationales déposées auprès de l'Office des brevets et des marques des Etats-Unis en sa qualité d'office récepteur.

DISPOSITIONS DES LÉGISLATIONS DES ÉTATS CONTRACTANTS PARTIES À UN TRAITÉ DE BREVET RÉGIONAL RELEVANT DE L'ARTICLE 45.2)

La *France* est le seul Etat partie à la fois au Traité de coopération en matière de brevets et à un traité de brevet régional, à savoir la Convention sur le brevet européen, dont la législation nationale prévoit que toute désignation ou élection dudit Etat sera considérée comme l'indication que le déposant désire obtenir un brevet régional.

L'article premier de la Loi française No 77-682 du 30 juin 1977 relative à l'application du Traité de coopération en matière de brevets s'énonce comme suit:

«Lorsqu'une demande internationale de protection des inventions formulée en application du traité de coopération en matière de brevets fait à Washington, le 19 juin 1970, comporte la désignation ou l'élection de la France, cette demande est considérée comme tendant à l'obtention d'un brevet européen régi par les dispositions de la convention sur la délivrance des brevets européens faite à Munich, le 5 octobre 1973.»

AVERTISSEMENT ET RENSEIGNEMENTS CONCERNANT LA NECESSITE D'INDIQUER L'INVENTEUR EN TANT QUE DEPOSANT AUX FINS DE LA DESIGNATION DES ETATS-UNIS D'AMERIQUE

Avertissement

Les effets de la demande internationale dans un Etat désigné peuvent dépendre de la question de savoir si la personne indiquée dans la demande internationale en tant que déposant aux fins de cet Etat est habilitée, selon la législation nationale de cet Etat, à déposer une demande nationale.

Renseignements

Les *Etat-Unis d'Amérique* sont le seul Etat partie au Traité de coopération en matière de brevets dont la législation nationale stipule qu'une demande de brevet nationale soit déposée par l'inventeur et dont l'office national rejettera donc, en tant qu'office désigné, toute demande internationale dans laquelle une personne autre que l'inventeur est indiquée comme déposant aux fins des Etats-Unis d'Amérique.

Les sections 111, 115, 116, 117 et 118 du «United States Code», titre 35 - Brevets, partie II - Brevetabilité des inventions et délivrance des brevets, chapitre 11 - Demande de brevet, s'énoncent comme suit (traduction préparée par le Bureau international):

111. Demande de brevet

La demande de brevet sera déposée par l'inventeur, à moins qu'il ne soit prescrit autrement par le présent titre, par écrit et adressée au «Commissioner». Cette demande comprend: 1) un exposé de l'invention comme prescrit à la section 112 du présent titre; 2) un dessin, comme prescrit à la section 113 du présent titre; et 3) un serment du déposant, comme prescrit à la section 115 du présent titre. La demande doit être signée par le déposant et accompagnée par la taxe prescrite par la loi.

115. Serment du déposant

Le déposant déclare sous serment qu'il estime être le premier et original inventeur du procédé, de la machine, du produit, ou de la composition, ou de son perfectionnement, pour lequel il sollicite un brevet; il déclare de quel pays il est le ressortissant. Cette déclaration sous serment peut être effectuée sur le territoire des Etats-Unis, auprès de toute personne autorisée par la loi à recevoir de telles déclarations ou, si elle est faite dans un pays étranger, auprès des autorités diplomatiques ou consulaires des Etats-Unis qui sont autorisées à recevoir de telles déclarations, ou auprès de toute personne possédant un sceau officiel et autorisée à recevoir des déclarations sous serment dans le pays étranger où peut se trouver le déposant, et dont l'autorité sera établie par un certificat émanant d'une autorité diplomatique ou consulaire des Etats-Unis; cette déclaration sous serment sera valable si elle est conforme aux dispositions de la loi de l'Etat ou du pays où elle est effectuée. Lorsque la demande est déposée comme prescrit par ce titre par une personne autre que l'inventeur, la déclaration sous serment peut être modifiée dans sa forme afin de pouvoir être effectuée par cette personne.

116. Co-inventeurs

Lorsque deux personnes ou plus font conjointement une invention, elles demandent un brevet de façon conjointe et chacune d'elles signe la demande et effectue la déclaration sous serment requise, sauf prescription contraire dans le présent titre.

Si un co-inventeur refuse d'apparaître en tant que tel dans une demande de brevet ou ne peut être trouvé ou atteint en dépit d'efforts diligents, la demande peut être déposée par l'autre inventeur, agissant en son propre nom ainsi qu'au nom de l'inventeur manquant. Le «Commissioner», sur production de la preuve des faits pertinents et après notification à l'inventeur manquant telle qu'il peut la prescrire, peut délivrer un brevet à l'inventeur déposant la demande, sous réserve des mêmes droits dont l'inventeur manquant aurait bénéficié s'il avait été co-inventeur. L'inventeur manquant peut devenir ultérieurement co-inventeur.

Lorsque, par erreur, une personne est indiquée comme co-inventeur dans une demande, ou lorsqu'un co-inventeur n'est pas indiqué dans une demande et qu'une telle erreur a été commise sans intention frauduleuse le «Commissioner» peut autoriser une modification de la demande en conséquence, dans les conditions qu'il prescrit.

Décès ou incapacité de l'inventeur

Les représentants légaux des inventeurs décédés ou frappés d'incapacité juridique peuvent déposer une demande de brevet sous réserve de satisfaire les exigences applicables à l'inventeur et dans les mêmes termes et sous les mêmes conditions.

Dépôt par une autre personne que l'inventeur

Lorsqu'un inventeur refuse de déposer une demande de brevet, ou ne peut être trouvé ou atteint en dépit d'efforts diligents, une personne à qui il a cédé – ou stipulé par écrit de céder – l'invention ou qui invoque, autrement, un intérêt suffisant pour justifier une telle action, peut déposer une demande de brevet au nom de l'inventeur et à titre de mandataire de celui-ci, à condition de fournir la preuve des faits et de montrer qu'une telle action est nécessaire pour préserver les droits des parties ou pour prévenir des dommages irréparables; le «Commissioner» peut délivrer un brevet à un tel inventeur, après notification jugée suffisante, et sous réserve de satisfaire aux règles qu'il prescrit.

La section 373 du «United States Code», titre 35 - Brevets, partie IV - Traité de coopération en matière de brevets, chapitre 37 - Phase nationale, s'énonce comme suit:

373. Indication à titre de déposant d'une personne n'ayant pas qualité pour être déposant

Une demande internationale désignant les Etats-Unis ne sera pas acceptée par l'office des brevets aux fins de la procédure nationale si elle a été déposée par quiconque n'a pas qualité, en vertu du chapitre 11 du présent titre, pour être déposant aux fins du dépôt d'une demande nationale aux Etats-Unis. Une telle demande internationale ne pourra pas être utilisée pour bénéficier d'une date de dépôt antérieure, selon la section 120 du présent titre, dans une demande déposée ultérieurement, mais peut servir de base à une revendication du droit de priorité en vertu de la section 119 du présent titre, dans la mesure où les Etats-Unis n'étaient pas le seul Etat désigné dans la demande internationale.

DISPOSITIONS DES LÉGISLATIONS NATIONALES DES ÉTATS CONTRACTANTS RELATIVES À LA RECHERCHE DE TYPE INTERNATIONAL

L'Australie, le Danemark, les Etats-Unis d'Amérique, la Finlande*, la Hongrie, la Norvège*, les Pays-Bas, la Suède et la Suisse sont les seuls Etats parties au Traité de coopération en matière de brevets dont les législations nationales contiennent des dispositions concernant la recherche de type international.

Australie

Le règlement 87 du Règlement de brevets et l'article 30 de la loi sur les brevets s'énoncent comme suit (traduction préparée par le Bureau international):

Règlement 87 du Règlement de brevets

.....

2) Lorsque le Commissaire fournit des renseignements à un déposant en vertu de l'article 30 de la loi et que la fourniture de ces renseignements fait intervenir une recherche de type international mentionnée dans l'article 15.5) du traité, cette fourniture de renseignements donne lieu au paiement d'une taxe de 300 $.

.....

4) Dans le présent règlement, on entend par "déposant" la personne qui –

a) après l'entrée en vigueur du présent règlement, dépose une demande de brevet autre qu'une demande internationale et

b) requiert, dans les trois mois suivant le dépôt de sa demande de brevet, que des renseignements lui soient fournis par le Commissaire en vertu de l'article 30 de la loi.

.....

Article 30 de la Loi

Le Commissaire peut, conformément à la présente loi, fournir des renseignements sur une question intéressant ou concernant:

a) un brevet;

b) une demande de brevet qui a été ouverte à l'inspection publique; ou

c) tout autre document, résumé, description ou publication conservé à l'Office des brevets ou à la bibliothèque de l'Office des brevets.

Danemark

La section 9 de la Loi sur les brevets du Danemark et la section 5 de son Règlement d'exécution s'énoncent comme suit (texte en langue anglaise fourni par l'Office des brevets et des marques, Copenhague, et traduit en français par le Bureau international):

Section 9 de la Loi

Si le déposant le demande et paie la taxe prescrite, l'administration compétente en matière de brevets, en vertu des règles établies par le Ministre du commerce, fait en sorte que la demande fasse l'objet d'une recherche effectuée par une administration chargée de la recherche internationale selon les dispositions de l'article 15.5) du Traité de coopération en matière de brevets, fait à Washington le 19 juin 1970.

---

* Les dispositions de la législation nationale de cet Etat concernant la recherche de type international seront publiées dans un numéro ultérieur de la Gazette du PCT.

Section 5 du Règlement d'exécution

1) Si le déposant désire que la recherche mentionnée à la section 9 de la Loi sur les brevets soit effectuée, il doit déposer auprès de l'administration compétente en matière de brevets une requête écrite à cet effet et payer la taxe prescrite par l'administration de recherche dans les trois mois suivant la date de dépôt de la demande ou suivant la date à laquelle ladite demande a été considérée comme déposée. Si la demande de brevet n'est pas rédigée dans une langue acceptée par l'administration de recherche, la requête doit être accompagnée d'une traduction de la demande dans une langue prescrite par l'administration compétente en matière de brevets.

2) Si le déposant désire que la recherche selon le premier paragraphe soit effectuée par une administration déterminée choisie parmi les administrations chargées de la recherche internationale possibles, il doit indiquer l'administration choisie dans la requête.

3) Ladite requête sera considérée comme retirée si la demande de brevet et la traduction prescrite ne remplissent pas, à l'expiration du délai fixé au premier paragraphe, les conditions de forme auxquelles doit satisfaire une demande internationale de brevet.

Etats-Unis d'Amérique

Les sections 1.104 *c)* et *d)* et 1.21 *w)* du «Code of Federal Regulations», titre 37 - Brevets, Marques et Droits d'auteur, sous-chapitre A - Généralités, Brevets, partie I - «Rules of Practice in Patent Cases» s'énoncent comme suit (traduction préparée par le Bureau international):

1.104 Nature de l'examen; Notification émise par l'examinateur

.....

c) Toutes les demandes nationales déposées le 1er juin 1978 et après feront l'objet d'une recherche de type international.

d) Toute demande nationale peut également faire l'objet d'un rapport de recherche de type international au moment de l'examen national quant au fond, sur requête expresse et paiement de la taxe à régler pour ce rapport. Voir la section 1.21 *w)* en ce qui concerne le montant de la taxe pour la préparation du rapport de recherche de type international.

Note: L'Office des brevets et des marques n'exige pas que la recherche de type international donne lieu formellement à un rapport de recherche de type international pour qu'un remboursement de la taxe de recherche puisse être obtenu pour une demande internationale déposée ultérieurement.

1.21 Taxes et droits relatifs aux brevets et autres

.....

w) Pour l'établissement d'un rapport de recherche de type international résultant d'une recherche de type international effectuée lors de l'émission de la première notification quant au fond relative à une demande de brevet national: 25 dollars E.U.

Note: L'Office des brevets et des marques n'exige pas que la recherche de type international donne lieu formellement à un rapport de recherche de type international pour qu'un remboursement de la taxe de recherche puisse être obtenu pour une demande internationale déposée ultérieurement.....

Hongrie

Article 8 du Décret

L'article 8 du Décret Nº 29/1980/29 juillet du Conseil des Ministres portant application de la loi Nº 14 de l'année 1980 sur la promulgation du Traité de coopération en matière de brevets s'énonce comme suit (texte fourni en anglais par l'Office national des inventions et traduit en français par le Bureau international):

1) Le déposant peut demander, en vertu de l'article 15.5)a) du Traité, qu'une recherche de type international soit effectuée à l'égard d'une demande hongroise régulièrement déposée auprès de l'Office national des inventions. La recherche sera effectuée, selon l'article 15.5)c) du Traité, par l'administration chargée de la recherche internationale compétente pour effectuer la recherche internationale sur les demandes internationale déposées auprès de l'Office national des inventions en tant qu'office récepteur.

2) L'Office national des inventions adressera à bref délai à l'administration chargée de la recherche internationale compétente, en même temps qu'elle transfère la taxe de recherche payée par le déposant lors du dépôt de sa requête, un exemplaire de la traduction de la demande hongroise préparée par le déposant dans la langue prescrite et dont les conditions de forme sont en conformité avec les exigences prescrites pour les demandes internationales.

Pays-Bas

La section 221 de la Loi sur les brevets revisée en 1978 et la section 17.5) du Règlement sur les brevets revisé en 1979 (tous deux entrés en vigueur le 1er février 1979) s'énoncent comme suit (texte fourni par l'Office néerlandais des brevets, Rijswijk):

Section 221 de la Loi

221. - 1) Si le déposant le requiert par écrit, l'Office des brevets effectue une recherche sur l'état de la technique relative à ce qui doit être considéré comme l'objet de la demande, conformément aux dispositions de l'article 5A ou découlant de cet article.....

.....

3) Si le déposant le requiert par écrit, l'Office des brevets soumet la demande à la recherche de type international visée à l'article 15.5) *a)* du Traité de coopération. Cette recherche est réputée constituer une recherche sur l'état de la technique au sens du paragraphe 1).

4) La présentation de la requête visée aux paragraphes 1), 2) ou 3) est soumise au paiement d'une taxe qui sera prescrite par la voie réglementaire.

.....

Section 17.5) du Règlement

5) La taxe due en vertu des articles 22 G.1), 22 H.1), 221.4) et 9) et 22 J.1) de la Loi du Royaume sur les brevets d'invention lors de la présentation d'une requête visée à ces articles est:

..... pour une requête tendant à faire procéder à une recherche sur l'état de la technique ou une recherche de type international, ou à faire poursuivre une telle recherche: 1100 florins;

.....

Suède

La section 9 de la Loi suédoise sur les brevets revisée en 1978 et la section 5 du Décret portant application de la Loi s'énoncent comme suit (texte en langue anglaise fourni par l'Office royal des brevets et de l'enregistrement, Stockholm, et traduit en français par le Bureau international):

Section 9 de la Loi

Si le déposant le demande et paie la taxe spéciale, l'administration compétente en matière de brevets permet, dans les conditions déterminées par le Gouvernement, que la demande fasse l'objet d'une telle recherche de nouveauté par une administration chargée de la recherche internationale telle que mentionnée à l'article 15.5) du Traité de coopération en matière de brevets signé à Washington le 19 juin 1970.

Section 5 du Décret

Afin de bénéficier de la recherche telle que définie à la section 9 de la Loi sur les brevets, le déposant doit soumettre à l'Office des brevets, dans les trois mois suivant la date de dépôt de la demande de brevet ou, selon le cas, suivant la date à laquelle ladite demande a été considérée comme étant déposée, une requête écrite à cet effet et payer la taxe prescrite par l'administration de recherche.

Si la demande de brevet n'est pas rédigée dans une langue acceptée par l'administration de recherche, ladite requête doit être accompagnée d'une traduction de la demande dans une langue prescrite par l'Office des brevets.

Si plusieurs administrations peuvent être envisagées pour l'exécution de la recherche mentionnée au premier paragraphe et si le déposant désire choisir celle de ces administrations qui effectuera la recherche, il mentionne cette administration dans ladite requête.

Ladite requête sera considérée comme retirée si la demande de brevet et la traduction prescrite ne remplissent pas, à l'expiration du délai fixé au premier paragraphe, les conditions de forme auxquelles doit satisfaire une demande internationale de brevet.

Suisse

Le Titre neuvième de l'Ordonnance relative aux brevets d'invention, entrée en vigueur en Suisse le 1er janvier 1978, s'énonce comme suit:

«Titre neuvième: Recherches de type international»

Art. 126

Conditions

1) Une recherche de type international au sens de l'article 15, 5e alinéa, du traité de coopération peut être requise pour une demande de brevet suisse.

2) La requête doit être présentée à l'Office dans les six mois suivant la date de dépôt. La taxe de recherche internationale (art. 121, 2e al.) doit être payée en même temps.

3) Si la langue dans laquelle est rédigée la demande de brevet n'est pas une langue de travail de l'administration chargée de la recherche internationale, compétente pour la Suisse, une traduction dans une langue de travail doit être présentée simultanément.

4) L'Office n'examine pas si la demande de brevet et la traduction satisfont aux autres conditions fixées dans le traité de coopération, notamment aux prescriptions de forme valables pour les demandes internationales.

Art. 127

Procédure

1) Si les conditions prévues à l'article 126, 1er à 3e alinéas, sont remplies, l'Office transmet les documents requis à l'administration chargée de la recherche internationale, qui est compétente.

2) L'Office adresse le rapport de recherche au requérant; une copie est versée au dossier de la demande de brevet.»

RENSEIGNEMENTS CONCERNANT LES EXONÉRATIONS ET REMBOURSEMENTS (OU RÉDUCTIONS) DE TAXES PAYABLES AUX OFFICES NATIONAUX (OU RÉGIONAUX) EN LEUR QUALITÉ D'OFFICES DÉSIGNÉS (OU ÉLUS)

Ministère de l'économie nationale, Service de la propriété industrielle (Luxembourg)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office des brevets lorsque ce dernier est l'office désigné si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Ministère d'Etat, Service de la propriété industrielle (Monaco)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office des brevets lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Office allemand des brevets

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office allemand des brevets lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Taxe de demande d'examen. La taxe de demande d'examen d'une demande de brevet, que le déposant est tenu de payer à l'Office allemand des brevets, *est ramenée* à 250 deutsche mark (au lieu de 400 deutsche mark) lorsqu'un rapport de recherche internationale a été établi pour sa demande (en tant que demande internationale désignant la République fédérale d'Allemagne aux fins d'un brevet national).

Office national des inventions (Hongrie)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office national des inventions lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Office néerlandais des brevets

Taxe de demande de recherche. La taxe de demande de recherche payée est remboursée à 25 %, 50 %, 75 % ou 100 % si un rapport de recherche internationale a été joint à la demande internationale, le montant du remboursement dépendant de la mesure dans laquelle l'Office néerlandais des brevets peut utiliser ce rapport de recherche internationale.

Office des brevets du Royaume-Uni

En vertu de la disposition 102 du règlement de 1978 sur les brevets, le déposant peut, dans les conditions indiquées ci-après, demander par écrit le remboursement total ou partiel des taxes suivantes:

La taxe de recherche (correspondant au formulaire brevets 9/77) lorsque la demande (en tant que demande internationale désignant le Royaume-Uni pour l'obtention d'un brevet national) a fait l'objet d'une recherche internationale de la part de l'administration chargée de la recherche internationale.

La taxe d'examen quant au fond (correspondant au formulaire brevet 10/77) lorsque la demande (en tant que demande internationale désignant le Royaume-Uni) a fait l'objet d'un examen préliminaire international effectué par l'Office des brevets du Royaume-Uni en sa qualité d'administration chargée de l'examen préliminaire international.

La décision de procéder à un remboursement (le cas échéant) à la suite d'une telle requête est toujours laissée à la discrétion du Comptroller-General.

Office européen des brevets

Taxe de recherche*. Aux termes des décisions prises en vertu de l'article 157 de la Convention sur le brevet européen, la taxe de recherche due à l'Office européen des brevets pour une demande de brevet européen

i) ***n'est pas exigible*** si un rapport de recherche internationale a été établi à l'égard de la demande (en tant que demande internationale déposée selon le PCT) par cet Office ou par les Offices des brevets autrichien ou suédois;

ii) ***est réduite de 20%*** si un rapport de recherche internationale a été établi pour la demande (en tant que demande internationale déposée selon le PCT) par l'Office australien des brevets, l'Office japonais des brevets, l'Office des brevets et des marques des Etats-Unis d'Amérique ou le Comité d'Etat de l'URSS pour les inventions et les découvertes.

Taxe d'examen*. En vertu de la règle 104*ter*5 du règlement d'exécution de la Convention sur le brevet européen et de l'article 12.2) du règlement relatif aux taxes, la taxe d'examen payable à l'Office européen des brevets pour une demande de brevet européen est réduite de 50% lorsqu'un rapport d'examen préliminaire international a été établi par cet Office pour la demande (en tant que demande internationale selon le PCT pour laquelle une demande d'examen préliminaire international a été soumise à cet Office).

---

* Article 78.2) de la Convention sur le brevet européen.

** Article 94.2 de la Convention sur le brevet européen.

DESIGNATION (OU ELECTION) DE MADAGASCAR

D'après les renseignements communiqués par le Ministre des affaires étrangères de Madagascar au sujet des demandes internationales désignant Madagascar, le projet de législation sur la propriété industrielle soumis aux autorités compétentes prévoit, entre autres, la prorogation des délais selon les articles 22 et 39 jusqu'à la date à laquelle la nouvelle législation sur les brevets permettra, après son entrée en vigueur, l'instruction des demandes de brevets à Madagascar. Après la publication de la nouvelle loi, les délais ainsi prorogés seront précisés par les autorités compétentes. Le Gouvernement de Madagascar a souhaité que ces renseignements soient communiqués aux déposants qui utilisent la voie du PCT et qui désignent ou élisent Madagascar, ou qui ont l'intention de le faire, afin qu'ils puissent avoir connaissance de la possibilité qui leur est ainsi offerte de désigner ou élire valablement Madagascar et de différer les mesures prescrites pour aborder la phase nationale aux termes des articles 22 et 39 jusqu'à ce que la nouvelle législation soit entrée en vigueur et que les délais à observer en vertu de cette loi aient été fixés.

Notes

1) L'office concerné est un office de propriété industrielle selon le sens donné dans le Traité de Budapest sur la reconnaissance internationale du dépôt des micro-organismes aux fins de la procédure en matière de brevets. En conséquence, le dépôt peut être effectué auprès de toute institution de dépôt ayant acquis le statut d'autorité de dépôt internationale en vertu de ce Traité (la liste de ces institutions est publiée de temps à autre dans "La Propriété industrielle", revue publiée par l'OMPI).

2) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution reconnue scientifiquement dans le pays et à l'étranger» aux fins de la procédure en matière de brevets devant cet office, et ceci comprend toutes les institutions dont la liste est publiée dans cette Gazette.

3) L'office concerné a informé le Bureau international que, aux fins de la procédure en matière de brevets devant cet office, des dépôts peuvent être effectués auprès de (outre l'institution identifiée dans la liste) «toute institution de dépôt bien connue sur le plan international». Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

4) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

5) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués, en plus des institutions énumérées dans la liste, auprès de «toute institution de dépôt partout dans le monde» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

6) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt étrangère ou nationale tenue en vertu d'une loi, d'un traité ou d'un contrat d'accepter, de conserver et de remettre des échantillons sous les conditions stipulées dans la jurisprudence des Etat-Unis», aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions recons par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

7) L'office concerné a informé le Bureau international que, si les mêmes indications ne sont pas aussi incluses dans une demande antérieure dont la priorité a été revendiquée, la priorité de la demande antérieure ne sera pas accordée.

8) L'office concerné a informé le Bureau international que, si le déposant désire que, jusqu'à la publication de la mention de la délivrance du brevet européen ou jusqu'à la date à laquelle la demande est rejetée, retirée ou réputée retirée, l'accessibilité au micro-organisme prévue au paragraphe 3 de la règle 28 du règlement d'exécution de la Convention sur le brevet européen ne soit réalisée que par la remise d'un échantillon à un expert désigné par le requérant (Règle 28, paragraphe 4 dudit règlement d'exécution), il doit en informer le Bureau international avant l'achèvement de la préparation technique de la publication de la demande internationale.

Luxembourg:	Ministère de l'économie nationale, Service de la propriété industrielle
Madagascar:	Ministère de l'économie et du commerce, Direction de l'industrie et des mines
Malawi:	Ministère de la Justice, Département du Registrar General
Monaco:	Ministère d'Etat, Service de la propriété industrielle
Norvège:	Office norvégien des brevets
Roumanie:	Office d'Etat pour les inventions et les marques (4)
Organisation intergouvernementale:	Organisation africaine de la propriété intellectuelle

Notes

(1) L'office concerné a informé le Bureau international que, tandis que la législation nationale en vigueur ne prévoit pas les dépôts de micro-organismes, cette même législation ne contient aucune interdiction sur ces dépôts.

(2) L'Office concerné a informé le Bureau international que la législation nationale "contient des dispositions exigeant dans certains cas le dépôt de micro-organismes. Ces dispositions ne sont toutefois pas encore en vigueur". A l'heure actuelle le "règlement danois se borne à stipuler que dans certains cas les dépôts de micro-organismes sont utiles et souhaitables".

(3) L'office concerné a informé le Bureau international que cet office n'exige pas "mais seulement recommande fortement de déposer les micro-organismes qui ne sont pas accessibles au public et qui sont relatifs aux inventions concernées".

(4) L'office concerné a informé le Bureau international que la législation nationale ne contient aucune disposition concernant des institutions de dépôt, mais qu'en pratique l'office "reconnaît des dépôts effectués auprès des institutions spécialisées des états contractants, ou à l'étranger, et accessibles à toute personne physique ou morale intéressée".

DOCUMENTS DE PRIORITE: APPLICATION DU DELAI DE PRESENTATION

Offices qui ne tiendront pas compte (en qualité d'offices désignés ou élus) d'une revendication de priorité si le déposant n'a pas observé le délai (expirant à la fin du 16e mois à compter de la date de priorité de la demande internationale) en ce qui concerne la présentation du document de priorité

(liste établie par l'OMPI sur la base de renseignements fournis par les offices concernés)

Etat contractant	**Office national**
Danemark	Office des brevets et des marques
Finlande	Office national des brevets et de l'enregistrement
Hongrie	Office national des inventions
Japon	Office japonais des brevets
Malawi	Ministère de la justice, Département du Registrar General
Roumanie	Office d'Etat pour les inventions et les marques
Royaume-Uni	Office des brevets
Suède	Office royal des brevets et de l'enregistrement
Suisse	Office fédéral de la propriété intellectuelle
Union soviétique	Comité d'Etat de l'URSS pour les inventions et les découvertes

Note: Aucun autre office national n'applique de sanction si le déposant n'a pas présenté le document de priorité comme le prévoit la règle 17.1.a) et b). Toutefois, plusieurs de ces offices insistent pour que le document de priorité leur soit présenté pendant le traitement national s'ils ne l'ont pas déjà reçu dans le cadre de la procédure prévue dans la règle 17.1; mais aucun d'eux n'applique de sanction si le document n'a pas été présenté avant ce moment.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 16bis. 3 DU PCT

Le Bureau international a reçu des notifications en vertu de de la règle 16*bis*. 3 du PCT excluant l'application de la règle 16*bis*. 1 et de la règle 16*bis*. 2* du PCT aux offices, en tant qu'offices récepteurs selon le PCT, des quatre pays suivants:

Australie
Autriche ****
Hongrie
Japon

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 80. 6b) DU PCT

Le Bureau international a reçu des notifications en vertu de la règle 80.6b) du PCT, qui ont pour effet d'exclure l'application de la règle 80.6a) du PCT, deuxième phrase**, aux offices, en tant qu'offices récepteurs selon le PCT, des six pays suivants:

Australie
Danemark
Finlande
Japon
Norvège
Suède

*NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT****

En vertu de la règle 92.4 du PCT, les offices nationaux des pays suivants ainsi que les organisations intergouvernementales indiquées ci-dessous sont disposés à recevoir des documents (y compris des dessins) -- postérieurs à la demande internationale -- adressés par les moyens indiqués ci-après:

Allemagne (République fédérale d'): télégraphe, téléimprimeur
Autriche: télégraphe, téléimprimeur
Brésil: télégraphe, téléimprimeur
Danemark: télégraphe, téléimprimeur
Etats-Unis d'Amérique: téléimprimeur
Finlande: télégraphe
France: télégraphe, téléimprimeur
Hongrie: télégraphe, téléimprimeur
Luxembourg: télégraphe, téléimprimeur
Malawi: télégraphe
Monaco: télégraphe
Norvège: télégraphe, téléimprimeur
Pays-Bas: télégraphe
Roumanie: télégraphe, téléimprimeur
Suède: téléimprimeur
Suisse: télégraphe, téléimprimeur
Union soviétique: télégraphe, téléimprimeur
Office européen des brevets: télégraphe, téléimprimeur
Bureau international de l'OMPI: télégraphe, téléimprimeur, télécopieur (copies facsimile par l'intermédiaire du Service postal suisse).

Des renseignements relatifs aux adresses télégraphiques et de téléimprimeur de tous les offices nationaux et organisations intergouvernementales sont publiés dans le présent numéro de la Gazette du PCT.

** Voir la note de bas de page accompagnant la règle 80.6b), publiée dans le numéro 18/1980 de la Gazette du PCT, page 1369.

*** La liste reproduite dans le texte qui suit fera l'objet de mises à jour périodiques dans des numéros ultérieurs de la Gazette du PCT

**** Conformément à la règle 16*bis*.3a), deuxième phrase, l'Office autrichien des brevets a déclaré qu'il retirait sa notification excluant l'application des règles 16*bis*.1 et 16*bis*.2 du PCT. Le retrait de cette notification prendra effet le 1er mai 1981.

RENSEIGNEMENTS UTILES CONCERNANT LES PRATIQUES QUE SUIVENT LES OFFICES NATIONAUX (ET REGIONAUX)

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE

Phase internationale

La législation des Etats-Unis d'Amérique en matière de brevets exige qu'aux fins de la désignation de cet Etat, le ou les déposants soient le ou les inventeurs. Si cette condition n'est pas remplie, la désignation des Etats-Unis d'Amérique est considérée comme n'ayant pas été effectuée et l'Office des brevets et des marques de ce pays peut, en qualité d'office désigné, rejeter la demande (article 27.3) et règle 18.4.b)).

Lorsque l'inventeur ne peut être atteint pendant une période ne dépassant pas le délai fixé dans la règle 26.2, la demande internationale peut être déposée sans sa signature. L'absence de la signature de l'inventeur ou d'un pouvoir signé par lui est une irrégularité qui peut être corrigée en vertu de l'article 14.1)a)i) et b) et à laquelle on peut remédier en déposant une copie de la requête (ou du pouvoir, lorsque la requête a été signée par un mandataire), dûment signée par l'inventeur, dans le délai précité.

Lorsque la signature de l'inventeur ne peut pas être obtenue dans le délai fixé dans la règle 26.2 ou lorsque l'inventeur n'est pas disposé à signer la requête d'une demande internationale aux fins de la désignation des Etats-Unis d'Amérique, la procédure est la suivante:

i) Lorsqu'un *co-inventeur* refuse de s'associer à une demande internationale qui désigne les Etats-Unis d'Amérique ou ne peut être trouvé ou atteint après des recherches diligentes, la demande internationale peut être signée par le ou les autres inventeurs en son nom (ou en leur nom) et au nom de l'inventeur n'ayant pas signé.

ii) Lorsqu'un *inventeur unique* refuse de signer une demande internationale qui désigne les Etats-Unis d'Amérique ou ne peut être trouvé ou atteint après des recherches diligentes, une personne à qui il a cédé ou accepté par écrit de céder l'invention ou qui peut faire la preuve d'intérêts suffisants de propriété en la matière justifiant son action peut signer la demande internationale au nom de l'inventeur et en tant que mandataire de celui-ci. Cette règle joue aussi lorsque tous les co-inventeurs refusent de signer ou ne peuvent être trouvés ou atteints après des recherches diligentes.

Dans les deux cas, la personne qui dépose la demande internationale (et qui signe la requête ou un pouvoir distinct) est considérée comme un "autre représentant" au sens de la règle 2.1.

Lorsque l'inventeur n'est pas disposé à signer ou ne peut être atteint, son représentant doit fournir une déclaration explicative sur les raisons pour lesquelles le formulaire de requête ou le pouvoir n'est pas signé de l'inventeur aux fins de la désignation des Etats-Unis d'Amérique. Cette déclaration doit être fournie en même temps que le formulaire de requête ou dans le délai fixé par l'office récepteur en vertu de la règle 26.2 pour la correction de l'irrégularité selon l'article 14.1)a)i) et les règles 4.15 ou 90.3 (défaut de signature de l'inventeur sur le formulaire de requête ou absence de pouvoir séparé signé de l'inventeur, lorsque le formulaire de requête a été signé par un mandataire). En cas d'absence de signature d'un inventeur unique ou d'un co-inventeur (cas i) et ii) ci-dessus), cette déclaration doit indiquer la dernière adresse connue du ou des inventeurs n'ayant pas signé. Lorsque le représentant n'est pas un co-inventeur, cette déclaration doit indiquer que le représentant de l'inventeur possède un intérêt de propriété suffisant sur l'invention pour faire une demande de brevet et que cette action est nécessaire pour sauvegarder les droits des parties ou pour empêcher que ne soient causés des torts irréparables.

Phase nationale

Lorsque la demande internationale aborde la phase nationale à l'Office des brevets et des marques des Etats-Unis d'Amérique (articles 22.1) et 23) et que l'inventeur refuse de signer ou ne peut être trouvé ou atteint après des recherches diligentes, le serment ou la déclaration exigé de l'inventeur doit être fait par la personne ("l'autre représentant" au sens de la règle 2.1) qui fait la demande pour l'inventeur n'ayant pas signé mentionné dans les cas i) et ii) ci-dessus; ce serment ou cette déclaration doit être accompagné d'une preuve des faits en cause et indiquer la dernière adresse connue de l'inventeur n'ayant pas signé. Dans le cas ii) ci-dessus, il faut en plus apporter la preuve que cette action est nécessaire pour sauvegarder les droits des parties ou pour empêcher que ne soient causés des torts irréparables. Il faut aussi déposer à l'Office des brevets et des marques des Etats-Unis la cession, promesse écrite de cession ou une autre preuve d'intérêt de propriété ou une copie certifiée de ces pièces.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Comité d'Etat de l'URSS pour les inventions et les découvertes (mai 1981),
Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office norvégien des brevets (février 1981),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

REUNIONS DE L'UNION INTERNATIONALE DE COOPERATION EN MATIERE DE BREVETS (UNION DU PCT)

ASSEMBLEE

Septième session
(Cinquième session extraordinaire)

(Genève, 29 juin au 3 juillet 1981)

Note*

L'Assemblée de l'Union internationale de coopération en matière de brevets (PCT) (ci-après dénommée "Assemblée") a tenu sa septième session (cinquième session extraordinaire) à Genève du 29 juin au 3 juillet 1981.

Vingt des trente Etats contractants étaient représentés à la session : Allemagne (République fédérale d'), Australie, Autriche, Brésil, Congo, Danemark, Etats-Unis d'Amérique, Finlande, France, Hongrie, Japon, Liechtenstein, Luxembourg, Norvège, Pays-Bas, Roumanie, Royaume-Uni, Suède, Suisse, Union soviétique.

Deux organisations intergouvernementales, l'Organisation africaine de la propriété intellectuelle (OAPI) et l'Organisation européenne des brevets (OEB), et les huit organisations internationales non-gouvernementales suivantes étaient représentées par des observateurs : Association asiatique d'experts juridiques en brevets (APAA), Association interaméricaine de la propriété industrielle (ASIPI), Association internationale pour la protection de la propriété industrielle (AIPPI), Comité des instituts nationaux d'agents de brevets (CNIPA), Fédération européenne des mandataires de l'industrie en propriété industrielle (FEMIPI), Fédération internationale des conseils en propriété industrielle (FICPI), Fédération internationale des associations des inventeurs (IFIA) et Union des industries de la Communauté européenne (UNICE).

La liste des participants suit la présente note.

Modification du règlement d'exécution du PCT. L'Assemblée a modifié plusieurs règles du règlement d'exécution du PCT ainsi que le barème de taxes qui y est joint **. A l'exception des modifications du barème de taxes, qui entreront en vigueur le 1er janvier 1982, toutes les modifications prendront effet le 1er octobre 1981 et ont été adoptées à la suite des modifications apportées au formulaire de "requête" (formulaire PCT/RO/101) reproduit aux pages 1807 à 1811. Le paragraphe qui suit traite de la modification de la règle 4.4.d).

---

* La présente note a été établie par l'OMPI.

** Voir les pages 1796 à 1799 pour les modifications du règlement d'exécution et du barème de taxes. Ont été modifiées les règles 3.3.a), 4.1.c), 4.1.d), 4.6.b) et 92.4.b).

Adresse à laquelle doivent être envoyées les notifications. En vertu de la règle 4.4.d) modifiée, le déposant ou, s'il y a plusieurs déposants, le représentant commun peut, si aucun mandataire n'a été nommé, indiquer en plus de toute autre adresse, une adresse à laquelle les notifications doivent être envoyées, si cette seconde adresse est différente de la première. Cette seconde adresse doit, s'il y a lieu, être indiquée dans le cadre IV du formulaire de "requête" en lieu et place du nom et de l'adresse du mandataire ou de l'autre adresse du déposant qui est le représentant commun. Il a semblé en particulier, que les sociétés qui voudraient faire adresser leur correspondance à leur service de brevets, tout en souhaitant conserver l'adresse de leur siège à d'autres fins pourraient faire usage de cette faculté.

Interprétation de l'article 9 du PCT. L'Assemblée a étudié une interprétation de l'article 9 proposée par le Bureau international. Elle a adopté l'interprétation selon laquelle l'article 9 ne concerne pas la qualité en laquelle agit un déposant au moment du dépôt d'une demande internationale. En d'autres termes, même si, en fait, le déposant agit en qualité de représentant (ce qui est par exemple le cas d'une personne administrant le patrimoine d'une personne décédée ou celui d'une personne à qui la loi confie la charge de gérer les biens ou d'exercer les droits d'un tiers dans un cas particulier, comme la maladie mentale de l'ayant droit), il n'appartient pas à l'office récepteur de chercher au nom de qui agit le déposant et de considérer une autre personne comme le déposant, ni pour vérifier le droit de déposer la demande internationale (article 9 et règles 4.8 et 18.4), ni pour déterminer l'office récepteur compétent (articles 10 et 11.1.i) et règle 19.1.a)) en fonction de la nationalité ou du domicile du déposant.

La réunion internationale du PCT (Tokyo). L'Assemblée a pris note du rapport concernant la réunion internationale du PCT tenue à Tokyo du 25 au 29 mai 1981 et a entériné l'action proposée par le Bureau international, consistant à adresser des recommandations appropriées à tous les offices désignés et élus ainsi qu'aux administrations chargées de la recherche internationale. Il s'agirait en particulier de souligner d'une part l'utilité et l'importance du rapport de recherche internationale et du rapport d'examen préliminaire international pour éviter la répétition des travaux de recherche et d'examen dans ces offices et administrations et, d'autre part, la nécessité de faire autant que possible bénéficier le déposant des économies réalisées dans la phase nationale, par exemple en accordant une réduction appropriée des taxes ou en accélérant la procédure de délivrance du brevet.

Traduction de documents cités dans le rapport de recherche internationale. L'Assemblée a entériné le point de vue exprimé par la réunion internationale du PCT (Tokyo) quant à l'importance de faire figurer dans les rapports de recherche internationale le plus de renseignements possible sur les familles de brevets et d'éviter d'exiger, au cours de la phase nationale, des traductions des références citées dans le rapport de recherche internationale.

Utilisation des recours nationaux garantissant les droits du déposant. L'Assemblé a pris note, en les approuvant, des objectifs de la proposition soumise par l'Office royal suédois des brevets et de l'enregistrement. Cette proposition préconisait d'appliquer en faveur des déposants du PCT les dispositions dont peuvent se prévaloir les déposants nationaux pour garantir leurs droits, qui pourraient sinon être lésés en cas d'erreurs, et de considérer, pour l'application par les offices nationaux des mesures prévues en cas d'erreurs officielles, qu'une erreur commise par une administration du PCT, quelle qu'elle soit, est une erreur de l'office national.

L'Assemblée a instamment prié tous les offices et toutes les administrations du PCT de s'efforcer d'atteindre les objectifs de la proposition et a invité le Bureau international à aborder la question dans son étude du PCT (voir plus loin).

Etude du PCT par le Bureau international. L'Assemblée a étudié les propositions du Gouvernement suédois et de la délégation de la Suisse.

La délégation de la Suède, rappelant qu'elle a toujours appuyé pleinement le PCT et ses objectifs et reconnaissant que le PCT a prouvé son utilité pratique au cours des années, a expliqué que sa proposition relative à une étude du PCT par le Bureau international ne tendait pas à une revision fondamentale du système; son but est de faciliter la réalisation des objectifs du PCT afin de favoriser la large application que mérite ce traité. Elle a rappelé que le PCT avait notamment pour objectif de

simplifier et de rendre plus économique l'obtention d'une protection des inventions ainsi que d'aider les pays en développement. Cette étude devrait viser à simplifier davantage encore l'obtention de la protection des inventions grâce à l'utilisation du PCT, en vue d'étendre l'application du Traité. Elle devrait permettre de déterminer quels sont actuellement les problèmes sur la base desquels on a pu laisser entendre que la procédure était trop complexe, et suggérer des solutions à y apporter.

La délégation de la Suisse a expliqué que les dispositions du règlement d'exécution du PCT qu'il n'était pas nécessaire de conserver dans ce texte et qui pourraient être transférées dans les instructions administratives devraient l'être au terme d'une étude réalisée par le Bureau international pour les recenser. Cette proposition est destinée à permettre de modifier la procédure du PCT sans alourdir la charge des administrations nationales, notamment dans les pays où les modifications du règlement d'exécution du PCT doivent être publiées au journal officiel. Ceci devrait aussi donner davantage de latitude pour modifier la procédure du PCT.

L'Assemblée a décidé de confier au Bureau international l'étude proposée par le Gouvernement suédois ainsi que l'étude nécessaire pour mettre en oeuvre la proposition de la délégation de la Suisse. Pour la réalisation des deux études conjuguées, les conclusions suivantes ont été dégagées :

A. En ce qui concerne la proposition du Gouvernement suédois :

i) il a été entendu que l'étude serait basée sur les données d'expérience recueillies à ce jour de la part de déposants qui ont déposé des demandes en vertu du PCT ainsi que des offices et des administrations du PCT, y compris du Bureau international, en traitant ces demandes;

ii) l'étude devrait préciser les besoins des utilisateurs ainsi que des offices et des administrations chargés de mettre en oeuvre le PCT, en ce qui concerne la simplification et l'amélioration de sa mise à exécution pratique, établir tous pièges et complexités rencontrés dans la procédure et proposer des solutions destinées à rendre le système plus attrayant et moins onéreux pour les utilisateurs et les offices;

iii) l'étude devrait porter essentiellement sur un examen du règlement d'exécution et des instructions administratives du PCT mais elle ne devrait pas exclure, si besoin est, l'examen des articles pertinents du Traité, tout en évitant des propositions visant à une revision fondamentale du Traité en changeant sa structure de base. Les propositions nécessitant une revision du Traité devraient être clairement établies en tant que telles, et, lorsque diverses solutions pourront être trouvées à un problème, la préférence devra être donnée à toute solution n'entraînant pas une revision;

iv) il a été entendu que, dans ce contexte, l'Assemblée examinerait en tout cas les résultats de l'étude, afin que la décision de ne pas exclure le Traité de l'étude ne préjuge pas la décision finale sur le point de savoir s'il convient de modifier le Traité ainsi que le règlement d'exécution et les instructions administratives pour retirer les avantages escomptés de l'étude;

v) l'étude devrait également traiter des problèmes relatifs à la phase nationale de la procédure du PCT;

vi) les problèmes spécifiques des pays en développement relatifs à la mise en oeuvre du Traité devraient être pris en considération dans le contexte général de l'étude;

vii) les propositions faites ou à faire par les utilisateurs du système devraient être prises en considération pour la préparation de l'étude.

B. En ce qui concerne la proposition de la délégation de la Suisse :

i) les propositions visant au transfert de dispositions du règlement d'exécution dans les instructions administratives ne devraient être faites qu'à l'égard de dispositions n'affectant ni le déposant ni la loi nationale, et elles devraient par conséquent être limitées à des dispositions telles que celles qui traitent des communications entre les offices et les administrations du PCT;

ii) les propositions de transfert devraient tenir compte de la nécessité de parvenir à des dispositions complètes et plus facilement compréhensibles dans les deux textes;

iii) les implications d'un transfert en termes d'avantages et d'inconvénients pour les utilisateurs devraient être examinées avant de formuler des propositions, en tenant compte de l'objectif global de l'étude combinée.

Développement de l'Union du PCT. L'Assemblée a étudié un rapport du Bureau international sur l'état des ratifications du PCT ou des adhésions à ce Traité (30 Etats contractants à la date de la session). L'Assemblée a confirmé une résolution qu'elle avait adoptée à sa cinquième session, invitant tous les Etats membres de l'union de Paris pour la protection de la propriété industrielle qui ne sont pas membres de l'union du PCT à prendre sans tarder les mesures voulues pour en devenir membres.

L'Assemblée a pris note d'une intervention de la délégation de l'Espagne soulignant l'intérêt suivi que porte son pays à l'examen de certaines questions, concernant en particulier l'emploi de la langue espagnole, qui ont une incidence sur ses possibilités d'adhésion au PCT. On a relevé l'urgence et l'importance de cette question, eu égard à son incidence sur la participation de l'Espagne et des pays hispanophones d'Amérique latine au système du PCT. Il s'agit par conséquent d'un problème à régler en priorité.

En ce qui concerne les Etats parties à des traités régionaux, l'Assemblée a réaffirmé la position qu'elle avait prise lors de sa cinquième session, au cours de laquelle elle avait souligné qu'il serait souhaitable que tous les Etats parties à la Convention sur le brevet européen ou à l'Accord de Libreville (instituant l'Organisation africaine de la propriété intellectuelle) soient également parties au PCT, compte tenu des inconvénients découlant de la situation actuelle, dans laquelle certains Etats parties à ces traités ne sont pas parties au PCT. En ce qui concerne la Convention sur le brevet européen, ces remarques concernent particulièrement la Belgique et l'Italie, les deux seuls Etats parties à cette Convention qui ne sont pas encore parties au PCT.

L'Assemblée a aussi étudié un rapport sur l'acceptation du chapitre II par les Etats contractants du PCT et a noté qu'à la suite du retrait par la France de sa réserve excluant l'application du chapitre II, six seulement des 30 Etats contractants parties au PCT maintiennent ces réserves. L'Assemblée a de nouveau marqué son désir - déjà exprimé à sa cinquième session - de voir tous les Etats contractants accepter le chapitre II du Traité.

LISTE DES PARTICIPANTS

I. Etats membres

Allemagne (République fédérale d'): U.C. Hallmann; H. Wesener. **Australie:** C.H. Friemann. **Autriche:** J. Fichte. **Brésil:** A.G. Bahadian; M.M.R. Mittelbach; A.R. Holanda Cavalcanti. **Congo:** E. Kouloufoua; D. Nkounkou. **Danemark:** D. Simonsen; J. Dam. **Etats-Unis d'Amérique:** H.D. Hoinkes; L.O. Maassel. **Finlande:** T. Kivi-Koskinen; V. Soralahti. **France:** G.J. Vianès; P. Guérin; J. Verone. **Hongrie:** Z. Szilvássy; E. Parragh. **Japon:** I. Shamoto; S. Uemura; M. Fujioka. **Liechtenstein:** A.F. de Gerliczy-Burian. **Luxembourg:** F. Schlesser. **Norvège:** P.T. Lossius; I. Lillevik. **Pays-Bas:** J. Dekker; S. de Vries. **Roumanie:** P. Gavrilescu. **Royaume-Uni:** D.F. Carter. **Suède:** S. Norberg; E. Tersmeden; L. Björklund; B. Sandberg. **Suisse:** R. Kämpf; M. Leuthold. **Union soviétique:** L. Komarov; E. Buryak; V. Poliakov.

II. Observateurs

Etats

Espagne: A. Casado Cervino; A.-C. Ortega Lechuga. **Iraq:** H. Wafor. **Italie:** S. Samperi. **Niger:** H.A. Diallo. **Zaire:** E. Esaki-Kabeya.

Organisations intergouvernementales

Organisation africaine de la propriété intellectuelle (OAPI): D. Ekani. **Organisation européenne des brevets (OEB):** U. Schatz; G.D. Kolle.

Organisations internationales non-gouvernementales

Association asiatique d'experts juridiques en brevets (APAA): T. Yamaguchi. **Association interaméricaine de la propriété industrielle (ASIPI):** F. Ferro. **Association internationale pour la protection de la propriété industrielle (AIPPI):** G.R. Clark. **Comité des instituts nationaux d'agents de brevets (CNIPA):** R.P. Lloyd. **Fédération européenne des mandataires de l'industrie en propriété industrielle (FEMIPI):** F.A. Jenny. **Fédération internationale des associations des inventeurs (IFIA):** C.P. Feldmann. **Fédération internationale des conseils en propriété industrielle (FICPI):** H. Bardehle. **Union des industries de la communauté européenne (UNICE):** C.G. Wickham.

III. Bureau

Président par intérim: J. Dekker (Pays-Bas). *Secrétaire:* E.M. Haddrick (OMPI).

IV. Bureau international de l'OMPI

K. Pfanner *(Vice-directeur général);* E.M. Haddrick *(Directeur, Division PCT);* M. Lagesse *(Directeur par intérim, Division administrative);* J. Franklin *(Chef adjoint, Division PCT);* B. Bartels *(Chef, Section juridique PCT);* D. Bouchez *(Chef, Section des publications PCT);* N. Scherrer *(Chef, Section des taxes, ventes et statistiques PCT);* V. Troussov *(Conseiller principal, Section juridique PCT);* A. Okawa *(Conseiller, Section de l'examen PCT).*

REGLEMENT D'EXECUTION DU TRAITE DE COOPERATION EN MATIERE DE BREVETS (PCT)

MODIFICATIONS

Adoptées par l'Assemblée de l'Union internationale
de coopération en matière de brevets (Union PCT) le 3 juillet 1981

* A compter du 1er octobre 1981.
** A compter du 1er janvier 1982.

Modifications

Règle 3

Requête (forme)

3.1 [Sans changement]

3.2 [Sans changement]

3.3 *Bordereau*

a) Le formulaire imprimé contient un bordereau qui, une fois rempli, indiquera:

i) [Sans changement]

ii) si à la demande internationale telle que déposée sont ou non joints un pouvoir (c'est-à-dire un document désignant un mandataire ou un représentant commun), une copie d'un pouvoir général, un document de priorité, un document relatif au paiement des taxes ainsi que tout autre document (à préciser dans le bordereau);

iii) [Sans changement]

b) [Sans changement]

3.4 [Sans changement]

Règle 4

Requête (contenu)

4.1 *Contenu obligatoire et contenu facultatif; signature*

a) [Sans changement]

b) [Sans changement]

c) La requête peut comporter :

i) des indications relatives à l'inventeur lorsque la législation nationale d'aucun Etat désigné n'exige la communication du nom de l'inventeur lors du dépôt d'une demande nationale,

ii) une requête adressée à l'office récepteur afin qu'il transmette le document de priorité au Bureau international lorsque la demande dont la priorité est revendiquée a été déposée auprès de l'office national ou de l'administration intergouvernementale qui est l'office récepteur.

4.2 [Sans changement]

4.3 [Sans changement]

4.4 *Noms et adresses*

a) [Sans changement]

b) [Sans changement]

c) Les adresses doivent être indiquées selon les exigences usuelles en vue d'une distribution postale rapide à l'adresse indiquée et, en tout cas, doivent comprendre toutes les unités administratives pertinentes jusques et y compris le numéro de la maison, s'il y en a un. Lorsque la législation nationale de l'Etat désigné n'exige pas l'indication du numéro de la maison, le fait de ne pas indiquer ce numéro n'a pas d'effet dans cet Etat. Il est recommandé de mentionner l'adresse télégraphique et de téléscripteur et le numéro de téléphone du mandataire ou du représentant commun ou, en l'absence de désignation d'un mandataire ou d'un représentant commun dans la requête, du déposant qui est nommé en premier lieu dans la requête.

d) Une seule adresse peut être indiquée pour chaque déposant, inventeur ou mandataire mais, si aucun mandataire n'a été désigné pour représenter le déposant ou tous les déposants, s'il y en a plus d'un, le déposant ou, s'il y a plus d'un déposant, le mandataire commun peut indiquer, en plus de toute autre adresse mentionnée dans la requête, une adresse à laquelle les notifications doivent être envoyées.

4.5 [Sans changement]

4.6 *Inventeur*

a) [Sans changement]

b) Si le déposant est l'inventeur, la requête doit, au lieu de l'indication mentionnée à l'alinéa a), contenir une déclaration à cet effet.

c) [Sans changement]

4.7 à 4.17 [Sans changement]

Règle 92

Correspondance

92.1 [Sans changement]

92.2 [Sans changement]

92.3 [Sans changement]

92.4 *Utilisation de télégraphes, téléimprimeurs, etc.*

a) [Sans changment]

b) Tout office national ou toute organisation intergouvernementale doit notifier, à bref délai, au Bureau international, ceux des moyens visés à l'alinéa a) qui peuvent être utilisés pour lui adresser les documents visés dans cet alinéa.

BAREME DE TAXES

Taxes	*Montants*
1. Taxe de base: (règle 15.2.a))	
si la demande internationale ne comporte pas plus de 30 feuilles	527 francs suisses
si la demande internationale, comporte plus de 30 feuilles	527 francs suisses, plus 11 francs suisses par feuille à compter de la 31e
2. Taxe de désignation: (règle 15.2.a))	127 francs suisses
3. Taxe de traitement: (règle 57.2.a))	162 francs suisses
4. Supplément à la taxe de traitement: (règle 57.2.b))	162 francs suisses
Surtaxes	
5. Surtaxe pour paiement tardif: (règle 16*bis*.2.a))	Minimum: 200 francs suisses Maximum: 500 francs suisses

INSTRUCTIONS ADMINISTRATIVES DU TRAITE DE COOPERATION EN MATIERE DE BREVETS (PCT)

MODIFICATION

Le Directeur général de l'Organisation Mondiale de la Propriété Intellectuelle a modifié les instructions administratives du PCT en vertu de la règle 89.2 du PCT, comme indiqué ci-après.

Liste des modifications

Instruction 201	modifiée*
Instruction 202	modifiée*
Instruction 203	modifiée*
Instruction 206	supprimée*
Instruction 208	nouvelle**
Instruction 209	nouvelle**
Instruction 503	modifiée*
Instruction 505	modifiée*
Instruction 507	modifiée*
Annexe F	modifiée*
Formulaire PCT/RO/101 (Requête)	modifié*†
Formulaire PCT/RO/134 (Micro-organismes)	nouveau**

* A compter du 1er octobre 1981.

** A compter du 6 août 1981.

† Malgré l'entrée en vigueur de cette version revisée du formulaire de requête, l'ancienne version peut être utilisée pendant une période transitoire venant à expiration le 31 mars 1982 (décision de l'Assemblée de l'Union PCT adoptée le 3 juillet 1981).

Instruction 201

Noms des Etats: annulation des désignations

a) Tout Etat indiqué dans la requête est nommé soit par son titre officiel, soit par un titre abrégé généralement accepté, conforme à la liste figurant à l'annexe A, si les indications sont données en anglais ou en français. Si le nom est inséré dans la requête par le déposant aux fins de la désignation de cet Etat, l'office récepteur ou, à défaut, le Bureau international ajoute, de préférence avant le nom de l'Etat, le code à deux lettres correspondant tel qu'il figure à l'annexe B.

b) [Sans changement]

Instruction 202

Titres de protection

a) Lorsque le déposant désire voir sa demande traitée, dans tout Etat désigné, non comme une demande de brevet mais comme une demande tendant à la délivrance de l'un des titres de protection mentionnés à l'article 43, il doit faire dans la requête la déclaration visée à la règle 4.12.a) en faisant suivre directement le nom dudit Etat des mots "certificat d'auteur d'invention", "certificat d'utilité", "modèle d'utilité" (ou "petty patent" pour l'Australie), "brevet d'addition", "certificat d'addition", "certificat d'auteur d'invention additionnel" ou "certificat d'utilité additionnel", ou de leur équivalent dans la langue de la demande internationale.

b) Lorsque le déposant désire obtenir, en ce qui concerne la désignation de la République fédérale d'Allemagne, deux titres de protection selon l'article 44, il doit faire figurer dans la requête l'indication visée à la règle 4.12.b) en insérant directement après le nom de la République fédérale d'Allemagne et dans la langue de la demande internationale l'une des deux indications suivantes:

i) "et modèle d'utilité";

ii) "et modèle d'utilité auxiliaire".

Instruction 203

Brevets régionaux

a) Si le déposant désire obtenir un brevet régional pour un Etat désigné et si le formulaire de requête ne comporte pas de mention préimprimée lui permettant de faire figurer dans la requête l'indication visée à la règle 4.1.b)iv), le déposant doit donner ladite indication en insérant la mention "brevet régional" ou son équivalent dans la langue de la demande internationale directement après le nom dudit Etat ou, lorsqu'une indication a été donnée en vertu de l'instruction 202, après cette indication, étant entendu que

i) lorsque l'article 4.1)ii), troisième clause, est applicable et que les Etats parties au traité régional n'ont pas tous été désignés, on considère, aux fins de la demande internationale, que tous ces Etats ont été désignés et que leurs désignations sont suivies de ces mots, et ce, que lesdites désignations soient accompagnées de l'indication du désir d'obtenir un brevet régional ou qu'elles soient assimilées à une telle indication conformément à l'article 4.1)ii), quatrième clause;

ii) lorsque la législation nationale d'un Etat désigné contient une disposition visée à l'article 45.2), le Bureau international considère, conformément à l'article 4.1)ii), quatrième clause, que la désignation est accompagnée de ces mots, même s'ils ont été omis pas le déposant.

b) Au lieu de la mention "brevet régional" citée à l'alinéa a), le déposant peut utiliser une autre mention ayant le même sens: cette mention peut se référer à un brevet devant être délivré par l'Office européen des brevets en vertu de la Convention sur la délivrance de brevets européens conclue à Munich le 5 octobre 1973 ("brevet européen") lorsque le brevet régional que le déposant désire obtenir est un brevet européen.

c) S'agissant de la désignation du Liechtenstein ou de la Suisse ou de ces deux pays, l'indication du désir d'obtenir un brevet régional est interprétée comme marquant le désir d'obtenir un brevet européen pour ces deux Etats, tandis que l'absence de toute indication du désir d'obtenir un brevet régional en ce qui concerne cette désignation est interprétée comme marquant le désir d'obtenir un brevet délivré par l'Office fédéral suisse de la propriété intellectuelle pour ces deux Etats.

Instruction 206

[Supprimée]

Instruction 208

Affectation des sommes perçues par l'office récepteur dans certains cas: imputation du solde déficitaire au Bureau international

a) Un office récepteur qui n'a pas exclu l'application des règles 16*bis*.1 et 16*bis*.2 doit, le cas échéant, se conformer aux instructions du déposant quant aux taxes auxquelles doivent être affectées les sommes versées par ce dernier.

b) Lorsqu'un office récepteur visé à l'alinéa a) reçoit du déposant une somme qui, ajoutée à toute autre somme ainsi perçue, reste insuffisante pour couvrir intégralement le montant de la taxe de transmission (s'il y a lieu), de la taxe internationale et de la taxe de recherche (s'il y a lieu), l'office récepteur doit, dans la mesure où il n'a pas reçu d'instructions du déposant quant aux taxes auxquelles doivent être affectées les sommes disponibles à cet effet, affecter successivement lesdites sommes au paiement des taxes précisées ci-après, dans la mesure où elles restent exigibles et dans l'ordre suivant :

i) taxe de transmission;

ii) taxe de base faisant partie de la taxe internationale;

iii) taxe de recherche;

iv) taxe de désignation faisant partie de la taxe internationale.

c) Si, conformément à l'alinéa b), l'office récepteur affecte une somme au paiement des taxes de désignation, ladite somme doit être affectée à ces taxes successivement, dans l'ordre dans lequel les désignations figurent dans la demande internationale, jusques et y compris la dernière désignation dont la taxe est intégralement couverte par la somme versée.

d) i) Lorsqu'il notifie au Bureau international, conformément à la règle 16*bis*.1.d), les montants imputés audit Bureau conformément à la règle 16*bis*.1.a) et/ou à la règle 16*bis*.1.b), l'office récepteur doit, si une somme lui a été versée par le déposant, informer ledit Bureau des taxes auxquelles cette somme a été affectée et des taxes qu'il a imputées au Bureau international. Le cas échéant, l'office récepteur précise les désignations dont les taxes ont été couvertes par toute somme ainsi perçue et celles dont les taxes ont été imputées au Bureau international.

ii) Lorsque l'office récepteur a procédé à l'affectation d'une somme en se conformant aux instructions du déposant ainsi qu'il est prévu à l'alinéa a), il doit informer le Bureau international de la teneur de ces instructions, de préférence en lui adressant copie d'une communication écrite du déposant.

Instruction 209

Indications figurant sur une feuille séparée et concernant des micro-organismes déposés

a) Dans la mesure où une indication concernant un microorganisme déposé ne figure pas dans la description, elle peut être donnée sur une feuille séparée. Une indication donnée de cette façon doit figurer de préférence sur le formulaire fourni en annexe F (formulaire PCT/RO/134); lorsque l'indication est fournie au moment du dépôt de la demande, ledit formulaire doit de préférence, sous réserve de l'alinéa b) ci-après, être joint à la requête et être mentionné sur le bordereau visé à la règle 3.3.a)ii).

b) Pour l'Office japonais des brevets, lorsque le Japon est désigné l'alinéa a) ci-dessus ne s'applique que dans la mesure où le formulaire ou la feuille constitue lors du dépôt l'une des feuilles de la description de la demande internationale.

Instruction 503

Méthode d'identification des documents cités dans le rapport de recherche internationale

Tout document cité dans le rapport de recherche internationale est identifié, conformément à la règle 43.5.b), en indiquant les éléments suivants dans l'ordre ci-après:

a) *S'il s'agit d'un document de brevet* (les documents de brevets étant constitués par les brevets au sens de l'article 2.ii) ainsi que par les demandes publiées y relatives):

i) [sans changement]

ii) [sans changement]

iii) [sans changement]

iv) le nom du titulaire du brevet ou du déposant (en majuscules et, le cas échéant, sous forme abrégée);

v) la date de publication du document de brevet cité, telle qu'elle figure sur ce document; et

vi) le cas échéant, les pages, les colonnes ou les lignes où se trouvent les passages pertinents ou les figures pertinentes des dessins.

(L'exemple suivant illustre la façon de citer un document de brevet conformément aux dispositions de l'alinéa a) ci-dessus :

JP, B, 50-14535 (NCR CORPORATION) 28 mai 1975 (28.05.75), voir colonne 4, lignes 3 à 27).

b) [Sans changement]

c) [Sans changement]

d) [Sans changement]

Instruction 505

Indication de citations particulièrement pertinentes dans le rapport de recherche internationale

a) Lorsqu'un document cité dans le rapport de recherche internationale est particulièrement pertinent, l'indication spéciale requise à la règle 43.5.c) consiste à apposer la(les) lettre(s) "X" et/ou "Y" à côté de la citation dudit document.

b) Sera rangé dans la catégorie "X" tout document qui s'oppose à lui seul à ce qu'une invention revendiquée puisse être considérée comme nouvelle ou comme impliquant une activité inventive.

c) Sera rangé dans la catégorie "Y" tout document qui s'oppose à ce qu'une invention revendiquée puisse être considérée comme impliquant une activité inventive dès lors qu'il est associé à un ou plusieurs autres documents de même nature et que cette association est évidente pour une personne du métier.

Instruction 507

Manière d'indiquer certaines catégories spéciales de documents cités dans le rapport de recherche internationale

a) [Sans changement]

b) [Sans changement]

c) Lorsqu'un document cité dans le rapport de recherche internationale n'est pas considéré comme un document particulièrement pertinent relevant des catégories "X" et/ou "Y", mais qu'il définit l'état général de la technique, il est indiqué par la lettre "A" apposée à côté de la citation dudit document*.

d) [Sans changement]

e) [Sans changement]

f) Lorsqu'un document est cité dans le rapport de recherche internationale pour d'autres raisons que celles qui sont visées aux alinéas a) à e), par exemple s'il s'agit

- d'un document pouvant jeter un doute sur une revendication de priorité**,

- d'un document cité pour déterminer la date de publication d'une autre citation***,

ce document est indiqué par la lettre "L" apposée à côté de la citation du document avec une mention expliquant les raisons de cette citation.

g) Lorsqu'un document fait partie d'une famille de brevets****, il doit, si possible, être mentionné dans le rapport de recherche internationale en plus du document cité appartenant aussi à cette famille et doit être précédé de l'abréviation (&). Un document dont la teneur n'a pas été vérifiée par l'examinateur chargé de la recherche mais qui paraît être largement identique à celle d'un autre document consulté par l'examinateur chargé de la recherche peut être cité dans le rapport de recherche internationale de la manière indiquée plus haut pour les membres de familles de brevets*****.

ANNEXE F DES INSTRUCTIONS ADMINISTRATIVES

FORMULAIRES

Formulaire PCT/RO/101 (Requête): ce formulaire, tel que modifié, est reproduit aux pages 1807 à 1811 du présent numéro de la Gazette du PCT.

Formulaire PCT/RO/134 (Micro-organismes): le nouveau formulaire est reproduit à la page 1815 du présent numéro de la Gazette du PCT.

DEMANDE INTERNATIONALE SELON LE TRAITÉ DE COOPÉRATION EN MATIÈRE DE BREVETS

REQUÊTE

LE SOUSSIGNÉ REQUIERT QUE LA PRÉSENTE DEMANDE INTERNATIONALE SOIT TRAITÉE CONFORMÉMENT AU TRAITÉ DE COOPÉRATION EN MATIÈRE DE BREVETS

(Cadre réservé à l'office récepteur)
DEMANDE INTERNATIONALE Nº:

DATE DU DÉPÔT INTERNATIONAL:

(Cachet)
Nom de l'office récepteur et «Demande internationale PCT»

Cote du dossier du déposant ou du mandataire (indiquée par le déposant s'il le désire)

Cadre Nº I TITRE DE L'INVENTION

Cadre Nº II DEPOSANT (QU'IL SOIT OU NON ÉGALEMENT INVENTEUR); ETATS DESIGNÉS POUR LESQUELS IL EST DÉPOSANT. Utiliser le présent cadre pour indiquer le déposant ou, s'il y en a plusieurs, l'un d'entre eux. S'il y a plus d'une personne (celle-ci peut éventuellement être une personne morale), continuer dans le cadre Nº III.

La personne indiquée dans le présent cadre est (cocher une seule case): ☐ déposant et inventeur* ☐ déposant seulement

Nom *et* adresse:**

Numéro de téléphone (préciser l'indicatif)

Adresse télégraphique:

Adresse de téléscripteur:

Pays de la nationalité:

Pays de la résidence:***

La personne indiquée dans le présent cadre est *déposant* (cocher une seule case) pour:

☐ tous les Etats désignés ☐ tous les Etats désignés sauf les Etats-Unis d'Amérique ☐ les Etats-Unis d'Amérique seulement ☐ les Etats indiqués dans le "Cadre supplémentaire"

Cadre Nº III AUTRES DÉPOSANTS, LE CAS ÉCHÉANT; (AUTRES) INVENTEURS, LE CAS ÉCHÉANT; ETATS DÉSIGNÉS POUR LESQUELS ILS SONT DÉPOSANTS (LE CAS ÉCHÉANT). Il convient de remplir un sous-cadre pour chaque personne (celle-ci peut éventuellement être une personne morale). Si les deux sous-cadres ci-après ne suffisent pas, continuer dans le "Cadre annexe", (en donnant pour chaque personne supplémentaire les mêmes indications que dans les deux sous-cadres ci-après) ou utiliser une "feuille annexe".

La personne indiquée dans ce sous-cadre est (cocher une seule case): ☐ déposant et inventeur* ☐ déposant seulement ☐ inventeur seulement*

Nom *et* adresse:**

Si la personne indiquée dans le présent sous-cadre est *déposant (ou à la fois déposant et inventeur)* préciser également:

Pays de la nationalité:

Pays de la résidence:***

et si elle est déposant (cocher une seule case) pour:

☐ tous les Etats désignés ☐ tous les Etats désignés sauf les Etats-Unis d'Amérique ☐ les Etats-Unis d'Amérique seulement ☐ les Etats indiqués dans le "Cadre supplémentaire"

La personne indiquée dans ce sous-cadre est (cocher une seule case): ☐ déposant et inventeur* ☐ déposant seulement ☐ inventeur seulement*

Nom *et* adresse:**

Si la personne indiquée dans le présent sous-cadre est *déposant (ou à la fois déposant et inventeur)* préciser également:

Pays de la nationalité:

Pays de la résidence:***

et si elle est déposant (cocher une seule case) pour:

☐ tous les Etats désignés ☐ tous les Etats désignés sauf les Etats-Unis d'Amérique ☐ les Etats-Unis d'Amérique seulement ☐ les Etats indiqués dans le "Cadre supplémentaire"

* Si la personne indiquée comme "déposant et inventeur" ou comme "inventeur seulement" n'est pas un *inventeur* pour tous les Etats désignés, donner les indications nécessaires dans le "Cadre annexe".

** Indiquer le nom d'une personne physique en donnant son nom de famille, immédiatement suivi du (des) prénoms. Indiquer le nom d'une personne morale en donnant sa désignation officielle complète. Inclure dans l'adresse à la fois le code postal (le cas échéant) et le pays (nom).

*** Faute d'indication de la résidence, il sera supposé que le pays de la résidence est le même que le pays indiqué dans l'adresse.

Cadre N° III SUITE (SI NECESSAIRE) AUTRES DÉPOSANTS, LE CAS ÉCHÉANT; (AUTRES) INVENTEURS, LE CAS ÉCHÉANT; ETATS DÉSIGNÉS POUR LESQUELS ILS SONT DÉPOSANTS (LE CAS ÉCHÉANT). Il convient de remplir un sous-cadre pour chaque personne (celle-ci peut éventuellement être une personne morale).

La personne indiquée dans ce sous-cadre est (cocher une seule case): ☐ déposant et inventeur* ☐ déposant seulement ☐ inventeur seulement*

Nom *et* adresse:**

Si la personne indiquée dans le présent sous-cadre est *déposant (ou à la fois déposant et inventeur)* préciser également:

Pays de la nationalité: Pays de la résidence:***

et si elle est déposant (cocher une seule case) pour:

☐ tous les Etats désignés ☐ tous les Etats désignés sauf les Etats-Unis d'Amérique ☐ les Etats-Unis d'Amérique seulement ☐ les Etats indiqués dans le "Cadre supplémentaire"

La personne indiquée dans ce sous-cadre est (cocher une seule case): ☐ déposant et inventeur* ☐ déposant seulement ☐ inventeur seulement*

Nom *et* adresse:**

Si la personne indiquée dans le présent sous-cadre est *déposant (ou à la fois déposant et inventeur)* préciser également:

Pays de la nationalité: Pays de la résidence:***

et si elle est déposant (cocher une seule case) pour:

☐ tous les Etats désignés ☐ tous les Etats désignés sauf les Etats-Unis d'Amérique ☐ les Etats-Unis d'Amérique seulement ☐ les Etats indiqués dans le "Cadre supplémentaire"

La personne indiquée dans ce sous-cadre est (cocher une seule case): ☐ déposant et inventeur* ☐ déposant seulement ☐ inventeur seulement*

Nom *et* adresse:**

Si la personne indiquée dans le présent sous-cadre est *déposant (ou à la fois déposant et inventeur)* préciser également:

Pays de la nationalité: Pays de la résidence:***

et si elle est déposant (cocher une seule case) pour:

☐ tous les Etats désignés ☐ tous les Etats désignés sauf les Etats-Unis d'Amérique ☐ les Etats-Unis d'Amérique seulement ☐ les Etats indiqués dans le "Cadre supplémentaire"

La personne indiquée dans ce sous-cadre est (cocher une seule case): ☐ déposant et inventeur* ☐ déposant seulement ☐ inventeur seulement*

Nom *et* adresse:**

Si la personne indiquée dans le présent sous-cadre est *déposant (ou à la fois déposant et inventeur)* préciser également:

Pays de la nationalité: Pays de la résidence:***

et si elle est déposant (cocher une seule case) pour:

☐ tous les Etats désignés ☐ tous les Etats désignés sauf les Etats-Unis d'Amérique ☐ les Etats-Unis d'Amérique seulement ☐ les Etats indiqués dans le "Cadre supplémentaire"

* Si la personne indiquée comme "déposant et inventeur" ou comme "inventeur seulement" n'est pas un *inventeur* pour tous les Etats désignés, donner les indications nécessaires dans le "Cadre annexe".

** Indiquer le nom d'une personne physique en donnant son nom de famille, immédiatement suivi du (des) prénoms. Indiquer le nom d'une personne morale en donnant sa désignation officielle complète. Inclure dans l'adresse à la fois le code postal (le cas échéant) et le pays (nom).

*** Faute d'indication de la résidence, il sera supposé que le pays de la résidence est le même que le pays indiqué dans l'adresse.

Si cette feuille annexe n'est pas utilisée, il n'est pas nécessaire de l'inclure dans la requête.

Cadre N° IV MANDATAIRE (LE CAS ECHEANT) OU REPRESENTANT COMMUN (LE CAS ECHEANT); ADRESSE POUR LES NOTIFICATIONS (DANS CERTAINS CAS). Un représentant commun ne peut être nommé que s'il y a plusieurs déposants et si aucun mandataire n'est ou n'a été nommé; le représentant commun doit être l'un des déposants.

La personne suivante (celle-ci peut éventuellement être une personne morale) est/a été nommée comme mandataire ou comme représentant commun pour agir au nom du/des déposant(s) auprès des autorités internationales compétentes:

Nom *et* adresse, comprenant le code postal et le pays (si l'espace ci-dessous est utilisé pour indiquer une adresse pour des notifications*, cocher ici ☐):

Numéro de téléphone: (préciser l'indicatif)

Adresse télégraphique:

Adresse de téléscripteur:

Cadre N° V DESIGNATION DES ETATS; CHOIX POSSIBLE D'UN BREVET EUROPÉEN; CHOIX POSSIBLES DE CERTAINES FORMES DE PROTECTION OU DE TRAITEMENT. Lorsque le nom d'un Etat est suivi de deux cases, on peut en cocher une seule ou cocher les deux. Si les deux cases sont cochées, cela signifie qu'à la fois un brevet européen et un brevet national sont demandés pour le même Etat. La désignation de la Suisse inclut celle du Liechtenstein (et inversement).

Les Etats suivants sont désignés:***	**Brevet européen**	**Brevet national** (si un autre titre ou traitement national est désiré, spécifier)**
AT Autriche	☐	☐ ** .....
AU Australie		☐ ** .....
BR Brésil		☐ ** .....
CH et LI Suisse et Liechtenstein	☐	☐
DE République fédérale d'Allemagne	☐	☐ ** .....
DK Danemark		☐
FI Finlande		☐
FR France	☐	[il n'est pas possible d'obtenir un titre national]
GB Royaume-Uni	☐	☐
HU Hongrie		☐
JP Japon		☐ ** .....
KP République populaire démocratique de Corée		☐
LU Luxembourg	☐	☐ ** .....
MC Monaco		☐ ** .....
MG Madagascar		☐
MW Malawi		☐ ** .....
NL Pays-Bas	☐	☐
NO Norvège		☐
RO Roumanie		☐
SE Suède	☐	☐
SU Union soviétique		☐ ** .....
US Etats-Unis d'Amérique		☐ ** .....
EP tous les Etats contractants du PCT pour lesquels un brevet européen peut être demandé	☐ ****	ces Etats sont ceux qui sont énumérés ci-dessus et dont les noms sont précédés des codes AT, CH et LI, DE, FR, GB, LU, NL et SE (spécifier les noms de tous autres Etats) ....
OA OAPI (Cameroun, Congo, Gabon, République centrafricaine, Sénégal, Tchad, Togo)	☐	**brevet OAPI** (si un autre titre de l'OAPI est désiré, spécifier)** .....

Espace réservé pour désigner les pays qui deviennent parties au PCT après la parution du présent formulaire (1er octobre 1981):

.....

.....

* On peut indiquer une adresse pour l'envoi de notifications pour un seul déposant ou pour un représentant commun si aucun mandataire n'a été nommé pour représenter le déposant ou tous les déposants s'ils sont plusieurs.

** Si un autre type de protection ou un titre additionnel ou si, aux Etats-Unis d'Amérique, un traitement à titre de "continuation" ou de "continuation in part" est demandé, l'indiquer conformément aux instructions données dans les notes relatives au cadre N° V.

*** L'ordre des désignations choisi par le déposant peut être précisé en indiquant dans les cases des Etats désignés des numéros d'ordre en chiffres arabes (voir également les notes relatives au cadre N° V).

**** Aucune des autres cases de la colonne "Brevet européen" ne doit être utilisée lorsque cette case est cochée.

Cadre annexe. Utiliser le présent cadre dans les cas suivants:

i) *si plus de trois personnes sont en cause comme déposants et/ou inventeurs;* dans ce cas, écrire "Suite du cadre N° III" et fournir pour chaque personne supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre N° III;

ii) *si, dans le cadre N° II ou dans les sous-cadres du cadre N° III, la case "les Etats désignés indiqués dans le 'cadre annexe" est cochée;* dans ce cas, écrire "Suite du cadre N° II" ou "Suite du cadre N° III" ou "Suite des cadres N°II et III" (selon le cas), indiquer le nom du/des déposant(s) en cause et, à côté de chaque nom, le/les pays (ou EP ou OA, le cas échéant) pour lesquels la personne mentionnée est déposant;

iii) *Si, dans le cadre N° II ou l'un des sous-cadres du cadre N° III, une personne indiquée comme "déposant et inventeur" ou "inventeur seulement" n'est pas inventeur pour tous les Etats désignés ou pour les Etats-Unis d'Amérique;* dans ce cas, écrire "Suite du cadre N° II" ou "Suite du cadre N° III" ou "Suite des cadres N° II et III" (selon le cas), indiquer le nom de l'inventeur et, à côté de ce nom, le/les pays (ou EP ou OA, le cas échéant) pour lesquels la personne mentionnée est inventeur;

iv) *s'il y a plusieurs mandataires ayant des adresses différentes;* dans ce cas, écrire "Suite du cadre N° IV" et fournir pour chaque mandataire le même type de renseignements que ceux qui sont demandés dans le cadre N° IV;

v) *si, dans le cadre N° V, le nom d'un pays (ou de l'OAPI) est accompagné de la mention "brevet d'addition", "certificat d'addition" ou "certificat d'auteur d'invention additionnel" ou si, dans le cadre N° V, le nom des Etats-Unis d'Amérique est accompagné de la mention "Continuation" ou "Continuation in part";* dans ce cas, écrire "Suite du cadre N° V" et inscrire le nom de chaque pays en cause (ou de l'OAPI) en précisant après le nom de chacun le numéro du titre principal ou de la demande principale ainsi que la date de délivrance du titre principal ou de dépôt de la demande principale;

vi) *si la priorité de plus de trois demandes antérieures est revendiquée;* dans ce cas, indiquer "Suite du cadre N° VI" et fournir pour chaque demande antérieure supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre N° VI;

vii) *si l'un des cadres ne suffit pas à contenir tous les renseignements;* dans ce cas, écrire "Suite du cadre N° ..." [indiquer le numéro du cadre] et fournir les renseignements conformément aux instructions données dans le cadre dans lequel la place était insuffisante.

Si le cadre annexe n'est pas utilisé, il n'est pas nécessaire d'insérer cette feuille dans la requête.

Cadre Nº VI REVENDICATION DE PRIORITÉ (LE CAS ÉCHÉANT). La priorité de la/des demande(s) antérieure(s) suivantes(s) est revendiquée:

Pays (s'il s'agit d'une demande nationale, pays où elle a été déposée; s'il s'agit d'une demande régionale ou internationale, l'un des pays pour lesquels elle a été déposée)	Date de dépôt (jour, mois, année)	Demande Nº	Office de dépôt (ne remplir que si la demande antérieure est une demande internationale ou une demande régionale)
1)			
2)			
3)			

(On peut utiliser un code littéral pour indiquer le pays et/ou l'office de dépôt)

Lorsque la demande antérieure a été déposée auprès de l'office qui, aux fins de la présente demande internationale, est l'office récepteur, le déposant peut, *contre paiement de la taxe requise,* demander ce qui suit:

☐ L'office récepteur est prié de transmettre au Bureau international une copie certifiée conforme de la demande antérieure/des demandes antérieures identifiées ci-dessus par des numéros (indiquer les numéros) .....

Cadre Nº VII RECHERCHE ANTÉRIEURE (LE CAS ÉCHÉANT). Remplir si une recherche (internationale, de type international ou autre) a déjà été demandée (ou effectuée) à l'administration chargée de la recherche internationale et si ladite administration est maintenant priée de fonder la recherche internationale, dans la mesure du possible, sur les résultats de ladite recherche antérieure. Prière de l'identifier en se référant à la demande pertinente (ou à sa traduction) ou à la demande de recherche.

Numéro de la demande internationale ou pays et numéro (ou office régional) d'une autre demande:

Date de dépôt international/ régional/national:

Date de la demande de recherche:

Numéro attribué à la demande de recherche (s'il est connu):

Cadre Nº VIII SIGNATURE DU/DES DÉPOSANT(S) OU DU MANDATAIRE

Si le présent formulaire de requête est signé par un mandataire au nom d'un déposant, un pouvoir séparé, nommant le mandataire et signé par le déposant, est requis. Si l'on désire, dans ce cas, utiliser un pouvoir général (déposé auprès de l'office récepteur), une copie de ce dernier doit accompagner ce formulaire.

Cadre Nº IX BORDEREAU (à remplir par le déposant)

La présente demande internationale comprend le nombre de feuilles suivant:

1.	requête	feuilles
2.	description	feuilles
3.	revendications	feuilles
4.	abrégé	feuilles
5.	dessins	feuilles
	Total	feuilles

La figure numéro ..... des dessins (le cas échéant) est proposée pour accompagner l'abrégé lors de la publication.

La présente demande internationale est accompagnée, telle que déposée, des pièces identifiées ci-dessous:

1. ☐ pouvoir séparé signé
2. ☐ copie du pouvoir général
3. ☐ document(s) de priorité (voir le cadre Nº VI)
4. ☐ reçu ou timbres fiscaux pour les taxes payées
5. ☐ chèque de paiement des taxes
6. ☐ demande de débit de compte courant
7. ☐ autre document (spécifier)

(Ce qui suit est à remplir par l'office récepteur)

1. Date effective de réception de la prétendue demande internationale:
2. Date effective de réception, rectifiée en raison de la réception ultérieure, mais dans les délais, de documents ou de dessins complétant la prétendue demande internationale:
3. Date de réception, dans les délais, des corrections demandées selon l'article 11 du PCT:
4. Dessins ☐ reçus ☐ pas de dessins

(Ce qui suit est à remplir par le Bureau international)

Date de réception de l'exemplaire original:

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du présent formulaire. Pour les indications qui font foi, se référer au texte du Traité de coopération en matière de brevets et aux textes du règlement d'exécution et des instructions administratives de ce traité. (Voir aussi le Guide du déposant PCT, publication de l'OMPI.) En cas de divergences entre ces notes et lesdits textes, ce sont ces derniers qui s'appliquent.

On entend par "article" les articles du traité, par "règle" les règles du règlement d'exécution et par "instruction" les instructions administratives.

CONTENU OBLIGATOIRE ET FACULTATIF DE LA REQUÊTE

"La requête doit comporter:

i) une pétition [*déjà imprimée sur le formulaire de requête*];
ii) le titre de l'invention;
iii) des indications concernant le déposant et, le cas échéant, le mandataire;
iv) la désignation d'Etats;
v) des indications relatives à l'inventeur, lorsque la législation nationale d'un Etat désigné au moins exige la communication du nom de l'inventeur lors du dépôt d'une demande nationale." **(règle 4.1.a))**

"La requête doit comporter, le cas échéant:

i) une revendication de priorité;
ii) une référence à une recherche internationale antérieure ou à une recherche antérieure de type international ou à une autre recherche;
iii) le choix de certains titres de protection;
iv) l'indication que le déposant désire obtenir un brevet régional et le nom des Etats désignés pour lesquels il désire obtenir un tel brevet;
v) une référence à une demande principale ou à un brevet principal." **(règle 4.1.b))**

"La requête peut comporter:

i) des indications relatives à l'inventeur lorsque la législation nationale d'aucun Etat désigné n'exige la communication du nom de l'inventeur lors du dépôt d'une demande nationale;
ii) une requête adressée à l'office récepteur afin qu'il transmette le document de priorité au Bureau international lorsque la demande dont la priorité est revendiquée a été déposée auprès de l'office national ou de l'organisme intergouvernemental qui est l'office récepteur." **(règle 4.1.c))**

"La requête doit être signée." **(règle 4.1.d))**

NOTES SUR LE CADRE Nº I

Titre de l'invention. "Le titre de l'invention doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis." **(règle 4.3))**

NOTES SUR LES CADRES Nºs II ET III

Déposant. "La requête doit indiquer le nom, l'adresse, la nationalité et le domicile du déposant ou, s'il y a plusieurs déposants, de chacun d'eux." **(règle 4.5.a))**

Différents déposants pour différents Etats désignés. "La demande internationale peut indiquer différents déposants pour différents Etats désignés si, pour chaque Etat désigné, l'un au moins des déposants indiqués pour cet Etat est habilité à déposer une demande internationale conformément à l'article 9 [c'est-à-dire est ressortissant ou résidant d'un Etat contractant]." **(règle 18.4.a))** *Lorsque les Etats-Unis d'Amérique sont l'un des Etats désignés, le ou les déposants mentionnés pour les Etats-Unis d'Amérique doivent être le ou les inventeurs.*

Inventeur. "La requête doit comporter..... le nom de l'inventeur et les autres renseignements prescrits le concernant, dans le cas où la législation d'au moins l'un des Etats désignés exige que ces indications soient fournies dès le dépôt d'une demande nationale ....." **(article 4.1.v)).** "La requête doit, en cas d'application de la règle 4.1.a)v), indiquer le nom et l'adresse de l'inventeur ou, s'il y a plusieurs inventeurs, de chacun d'eux". **(règle 4.6.a))** "Si le déposant est l'inventeur, la requête doit, au lieu de l'indication mentionnée à l'alinéa a), contenir une déclaration à cet effet". **(règle 4.6.b))** ".....Dans le cas où le nom de l'inventeur et les autres renseignements, prescrits par la législation de l'Etat désigné, relatifs à l'inventeur ne sont pas exigés dès le dépôt d'une demande nationale, le déposant doit, s'ils ne figurent pas déjà dans la requête, les communiquer à l'office national de cet Etat ou à l'office agissant pour ce dernier au plus tard à l'expiration d'un délai de vingt mois à compter de la date de priorité." **(article 22.1))**

Noms. "Les personnes physiques doivent être nommées par leurs patronymes et prénoms, les patronymes précédant les prénoms." **(règle 4.4 a))** "Les personnes morales doivent être nommées par leurs désignations officielles complètes." **(règle 4.4.b))**

Adresses. "Les adresses doivent être indiquées selon les exigences usuelles en vue d'une distribution postale rapide à l'adresse indiquée et, en tout cas, doivent comprendre toutes les unités administratives pertinentes jusques et y compris le numéro de la maison, s'il y en a un. Lorsque la législation nationale de l'Etat désigné n'exige pas l'indication du numéro de la maison, le fait de ne pas indiquer ce numéro n'a pas d'effet dans cet Etat. Il est recommandé de mentionner l'adresse télégraphique et de téléscripteur et le numéro de téléphone éventuels du mandataire ou du représentant commun ou, en l'absence de désignation d'un mandataire ou d'un représentant commun dans la requête, du déposant qui est nommé en premier lieu dans la requête." **(règle 4.4.c))** "Une seule adresse peut être indiquée pour chaque déposant, inventeur ou mandataire....." **(règle 4.4.d))** *Voir toutefois les notes relatives au cadre Nº IV concernant l'indication, dans ce cadre, et dans certains cas, d'une "adresse pour les notifications" concernant le déposant.*

Nationalité. "La nationalité du déposant doit être indiquée par le nom de l'Etat dont il est le national." **(règle 4.5.b))**

Domicile. "Le domicile du déposant doit être indiqué par le nom de l'Etat où il a son domicile." **(règle 4.5.c))**

Noms des Etats. "Tout Etat indiqué dans la requête est nommé soit par son titre officiel, soit par un titre abrégé généralement accepté, conforme à la liste figurant à l'annexe A, si les indications sont données en anglais ou en français [c'est-à-dire l'annexe A des instructions administratives du PCT; les noms imprimés d'Etats contractants du PCT figurant dans le cadre Nº V du formulaire de requête sont conformes à ladite annexe A]." **(instruction 201 a), première phrase)**

NOTES SUR LE CADRE Nº IV

Mandataire ou représentant commun. *Pour mentionner plusieurs mandataires, mentionner en premier lieu celui auquel la correspondance doit être adressée* **(voir l'instruction administrative 108).** "S'il y a constitution de mandataires, la requête doit le déclarer et indiquer leurs noms et adresses." **(règle 4.7)** "S'il y a plusieurs déposants et si la requête n'indique pas de mandataire représentant tous les déposants ("mandataire commun"), elle doit désigner comme représentant commun l'un des déposants autorisés à déposer une demande internationale conformément à l'article 9." **(règle 4.8.a))**

Nomination d'un mandataire ou d'un représentant commun. "La nomination d'un mandataire ou d'un représentant commun au sens de la règle 4.8 a) doit être effectuée par chaque déposant, à son choix, soit en signant la requête dans laquelle le mandataire ou le représentant commun est désigné, soit par un pouvoir distinct (c'est-à-dire un document désignant un mandataire ou un représentant commun)." **(règle 90.3.a))** "Si la demande internationale est déposée en faisant état d'un pouvoir général qui n'est pas signé par l'ensemble des déposants, il suffit, aux fins de la nomination d'un mandataire commun selon la règle 90.3, que le déposant qui n'a pas signé le pouvoir général signe la requête ou un pouvoir distinct." **(instruction 106.b))**

Adresse pour les notifications: *Une adresse à laquelle les notifications peuvent être envoyées au déposant (unique) ou au représentant commun, lorsqu'aucun mandataire n'a été nommé, peut être indiquée dans le cadre Nº IV en lieu et place du nom et de l'adresse d'un mandataire:* "Une seule adresse peut être indiquée pour chaque déposant, ... mais, si aucun mandataire n'a été désigné pour représenter le déposant ou tous les déposants, s'il y en a plus d'un, le déposant ou, s'il y a plus d'un déposant, le mandataire commun peut indiquer, en plus de toute autre adresse mentionnée dans la requête, une adresse à laquelle les notifications doivent être envoyées." **(règle 4.4.d))**

Pour **les noms** *(y compris* **les noms d'Etats***) et* **les adresses,** *voir les notes sur les cadres Nºs II et III.*

NOTES SUR LE CADRE Nº V

Désignation d'Etats. "Les Etats contractant doivent être désignés, dans la requête, par leurs noms." **(règle 4.9)** *Il convient de noter qu'il n'est pas possible de procéder à de nouvelles désignations après dépôt.*

L'indication dans les cases correspondant aux Etats désignés de numéros d'ordre en chiffres arabes sera considérée comme indiquant l'ordre des désignations choisi par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations. Dans ce cas le montant reçu sera affecté aux désignations dans cet ordre **(voir l'instruction 208 et les règles 16bis.2.c) et 16bis.3.b)).**

Lorsqu'un ou plusieurs Etats sont désignés deux fois (une fois aux fins d'un brevet européen et une autre aux fins d'un brevet national), il convient d'acquitter une taxe de désignation pour le brevet européen et autant de taxes de désignation pour les brevets nationaux qu'il y a d'Etats désignés **(voir l'instruction administrative 203bis et la règle 15.1.ii)).**

Choix possible de certaines formes de protection ou de traitement. *Si, dans un pays, il est possible de choisir un titre de protection autre qu'un brevet, écrire après la case de ce pays le nom du titre, c'est-à-dire "petty patent" (pour l'Australie), "modèle d'utilité" (pour le Brésil, la République fédérale d'Allemagne, le Japon et l'OAPI) ou "certificat d'auteur d'invention" (pour l'Union soviétique). Si, en République fédérale d'Allemagne (seul pays où ce soit possible), un modèle d'utilité est désiré en plus du brevet, écrire après la case de ce pays* **"et modèle d'utilité"***; si un modèle d'utilité est désiré à titre subsidiaire, écrire après cette case* **"et modèle d'utilité auxiliaire." (voir l'instruction administrative 202)**

Si, pour un pays où cela est possible, on désire que la demande soit traitée comme une demande visant un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation in part", écrire après la case de ce pays la mention appropriée, c'est-à-dire "brevet d'addition"

No de la demande internationale: PCT/ /

MICRO-ORGANISMES

Feuille facultative relative au micro-organisme mentionné en page ....., ligne ..... de la description [1]

A. IDENTIFICATION DU DÉPOT [2]

D'autres dépôts sont identifiés sur une feuille supplémentaire [3] ☐

Nom de l'institution de dépôt [4]

Adresse de l'institution de dépôt (y compris le code postal et le pays) [4]

Date du dépôt [5]	N° d'ordre [6]

B. INDICATIONS SUPPLÉMENTAIRES [7] (à ne remplir que si nécessaire). Une feuille séparée est jointe pour la suite de ces renseignements ☐

C. ÉTATS DÉSIGNÉS POUR LESQUELS LES INDICATIONS SONT DONNÉES [3] (si les indications ne sont pas données pour tous les Etats désignés)

D. INDICATIONS FOURNIES SÉPARÉMENT [8] (à ne remplir que si nécessaire)

Les indications énumérées ci-après seront soumises ultérieurement au Bureau international [9] (spécifier la nature générale des indications p. ex., « No d'ordre du dépôt »)

E. ☐ La présente feuille a été reçue avec la demande internationale lorsque celle-ci a été déposée (à vérifier par l'office récepteur)

☐ Date de réception (en provenance du déposant) par le Bureau international [10]

.....
(Fonctionnaire autorisé)

Ces notes sont destinées à faciliter l'utilisation du présent formulaire. Pour plus de renseignements, se référer au texte du Traité de coopération en matière de brevets et aux textes du règlement d'exécution et des instructions administratives de ce traité. En cas de divergence entre ces notes et lesdits textes, ce sont ces derniers qui s'appliquent. On entend par "article" les articles du traité, par "règle" les règles du règlement d'exécution et par "instruction" les instructions administratives.

1) "Dans la mesure où une indication concernant un micro-organisme déposé, ne figure pas dans la description, elle peut etre donnée sur une feuille séparée. Une indication donnée de cette façon doit figurer de préférence sur le formulaire fourni en annexe F [des instructions administratives] (formulaire PCT/RO/134); lorsque l'indication est fournie au moment du dépôt de la demande, ledit formulaire doit de préférence, sous réserve du paragraphe b), être joint à la requête et être mentionné sur le bordereau visé à la règle 3.3.a)ii)". **(instruction 209.a))**

"Pour l'Office japonais des brevets, lorsque le Japon est désigné, l'alinéa a) ci-dessus ne s'applique que dans la mesure où le formulaire ou la feuille constitue lors du dépôt l'une des feuilles de la description de la demande internationale". **(instruction 209.b))**

Pour identifier dans la description la référence au micro-organisme déposé indiquer de préférence la page et la ligne où **elle apparait pour la première fois.**

2) "Toute référence à un micro-organisme déposé est faite conformément à la présente règle et, si elle est ainsi faite, est considérée comme satisfaisant aux exigences de la législation nationale de chaque Etat désigné". **(règle 13*bis*.2)**

"La référence à un micro-organisme déposé indique,

i) le nom et l'adresse de l'institution de dépôt auprès de laquelle le dépôt a été effectué;

ii) la date du dépôt du micro-organisme auprès de cette institution;

iii) le numéro d'ordre attribué au dépôt par cette institution; et

iv) toute information supplémentaire qui a fait l'objet d'une notification au Bureau international ..... pour autant que le fait d'exiger cette information ait été publié dans la gazette ..... au moins deux mois avant le dépôt de la demande internationale". **(règle 13*bis*.3.a))**

3) "La référence à un micro-organisme déposé est considérée comme étant faite aux fins de tous les Etats désignés, à moins qu'elle soit expressément faite aux fins de certains seulement des Etats désignés; il en va de même des indications données dans la référence". **(règle 13*bis*.5.a))**

"Il peut être fait référence à différents dépôts du micro-organisme pour différents Etats désignés". **(règle 13*bis*.5.b))**

"Tout office désigné a le droit de ne pas tenir compte d'un dépôt effectué auprès d'une institution de dépôt autre qu'une institution ayant fait l'objet d'une notification de sa part en vertu de la règle 13*bis*.7.b)". **(règle 13*bis*.5.c))**

4) Voir la règle 13*bis*.3.a)i) citée dans la note 2) ci-dessus.

5) Voir la règle 13*bis*.3.a)ii) citée dans la note 2) ci-dessus.

"Toute date figurant dans la demande internationale ou utilisée dans la correspondance émanant des administrations internationales au sujet de la demande internationale est indiquée par le quantième, en chiffres arabes, le nom du mois puis l'année en chiffres arabes. A côté ou en dessous de toute date mentionnée par le déposant dans la requête, l'office récepteur, à défaut du déposant, le Bureau international, à défaut du déposant et de l'office récepteur, indique de nouveau cette date, mais entre parenthèses, en numéros de deux chiffres arabes et dans l'ordre suivant: quantième, mois et année, celle-ci étant énoncée par les deux derniers chiffres de son numéro et le quantième et le mois étant suivis d'un point (par exemple, "30 mars 1978 (30.03.78)"). **(instruction 110)**

6) Voir règle 13*bis*.3.a)iii) citée dans la note 2) ci-dessus.

7) Voir règle 13*bis*.3.a)iv) citée dans la note 2) ci-dessus.

Aux fins de la notification prévue par la règle 28.4) du règlement d'exécution de la Convention sur le brevet européen (adoptée à Munich le 5 octobre 1973), on peut faire figurer le texte suivant dans ce cadre:

"En ce qui concerne les désignations dans lesquelles un brevet européen est demandé, un échantillon du micro-organisme déposé ne sera accessible, jusqu'à la publication de la mention de la délivrance du brevet européen ou jusqu'à la date à laquelle la demande sera rejetée, retirée ou réputée retirée, que par la remise d'un échantillon à un expert désigné par le requérant . (règle 28.4) de la CBE)".

8) Spécifier toutes les indications concernant le dépôt du microorganisme qui seront fournies ultérieurement. (voir également l'instruction 209.a) citée dans la note 1) ci-dessus).

9) "Si l'une des indications visées à la règle 13*bis* 3.a) n'est pas donnée dans la référence à un micro-organisme déposé qui figure dans la demande internationale telle qu'elle a été déposée mais est donnée par le déposant au Bureau international dans un délai de 16 mois après la date de priorité, l'indication est considérée par tout office désigné comme ayant été donnée à temps sauf si sa législation nationale exige que l'indication soit donnée à un moment antérieur dans le cas d'une demande nationale et si cette exigence a été notifiée au Bureau international ..... pour autant que le Bureau international ait publié ..... cette exigence dans la gazette au moins deux mois avant le dépôt de la demande internationale. Toutefois, si le déposant demande la publication anticipée en vertu de l'article 21.2)b), tout office désigné peut considérer toute indication qui n'a pas été donnée au moment où la publication anticipée est demandée comme n'ayant pas été donnée à temps. Indépendamment du fait que le délai applicable en vertu des phrases précédentes ait été observé ou non, le Bureau international notifie au déposant et aux offices désignés la date à laquelle il a reçu toute indication non comprise dans la demande internationale telle qu'elle a été déposée. Le Bureau international indique cette date dans la publication internationale de la demande internationale si l'indication lui a été donnée avant l'achèvement de la préparation technique de la publication internationale". **(règle 13*bis*.4)**

10) Voir les deux dernières phrases de la règle 13*bis*.4 citée dans la note 9) ci-dessus.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Comité d'Etat de l'URSS pour les inventions et les découvertes (mai 1981),
Office allemand des brevets (en anglais: février 1980; en français: avril 1980),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office néerlandais des brevets (août 1980),
Office norvégien des brevets (février 1981),
Office suédois des brevets (juin 1980),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du premier semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Comité d'Etat de l'URSS pour les inventions et les découvertes (mai 1981),
Office allemand des brevets (en anglais: février 1980, mai 1981**; en français: avril 1980, mai 1981**),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office finlandais des brevets (juin 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office national hongrois (juin 1981),
Office néerlandais des brevets (août 1980, septembre 1980**),
Office norvégien des brevets (février 1981),
Office roumain pour les inventions (juin 1981),
Office suédois des brevets (juin 1980, janvier 1981**),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980, mars 1981**),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980, janvier 1981**),
Organisation africaine de la propriété intellectuelle (juin 1981).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du deuxième semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT

Ces renseignements ont été publiés dernièrement dans le numéro 18/1981 de la Gazette du PCT, page 1682.

RENSEIGNEMENTS UTILES CONCERNANT LES PRATIQUES QUE SUIVENT LES OFFICES NATIONAUX (ET REGIONAUX)

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE.

Ces renseignements ont été publiés dernièrement dans le numéro 18/1981 de la Gazette du PCT, pages 1683 et 1684.

ACCORD ENTRE LE BUREAU INTERNATIONAL DE L'OMPI ET L'ORGANISATION EUROPEENNE DES BREVETS: MODIFICATION DE L'ANNEXE B

L'Office européen des brevets a adressé au Bureau international de l'OMPI, conformément à l'article 18.3)b) de l'Accord mentionné ci-dessus*, une notification l'informant de l'augmentation des taxes et droits indiqués à la rubrique I.2 de l'annexe B de l'Accord; les nouveaux montants (augmentés) sont les suivants:

Taxe	Montant en DM
2. Taxes et autres droits que doit percevoir l'OEB en tant qu'administration chargée de l'examen préliminaire international au titre du PCT	
2.1 Taxe de traitement	OMPI/WIPO
2.2 Taxe d'examen préliminaire	1.150
2.3 Taxe additionnelle	1.150
2.4 Frais de reproduction d'antériorités supplémentaires	1,20/page
2.5 Frais pour copies de pièces du dossier de demande de brevet internationale	1,20/page

Ces montants augmentés s'appliquent à partir du 1er novembre 1981. Les montants équivalents exprimés dans d'autres monnaies seront publiés dans un numéro ultérieur de la Gazette du PCT.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Comité d'Etat de l'URSS pour les inventions et les découvertes (mai 1981),
Office allemand des brevets (en anglais: février 1980, mai 1981**; en français: avril 1980, mai 1981**),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office finlandais des brevets (juin 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office national hongrois (juin 1981),
Office néerlandais des brevets (août 1980, septembre 1980**),
Office norvégien des brevets (février 1981),
Office roumain pour les inventions (juin 1981),
Office suédois des brevets (juin 1980, janvier 1981**),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980, mars 1981**),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980, janvier 1981**),
Organisation africaine de la propriété intellectuelle (juin 1981).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du deuxième semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

** Date de la dernière mise à jour.

NOTIFICATIONS ET INFORMATIONS DE CARACTERE GENERAL

STATISTIQUES CONCERNANT LES EXEMPLAIRES ORIGINAUX REÇUS PAR LE BUREAU INTERNATIONAL

NOTE EXPLICATIVE CONCERNANT LES STATISTIQUES

Certains codes sont utilisés dans les tableaux de statistiques pour identifier les offices récepteurs et les Etats désignés. Ces codes sont extraits du "Code d'identification des Etats et des organisations" constituant l'annexe B* des instructions administratives selon le Traité de coopération en matière de brevets (PCT). Les codes et les Etats qu'ils identifient sont reproduits au bas de cette page.

Dans le cas des offices récepteurs, les codes indiquent l'Etat contractant du Traité de coopération en matière de brevets (PCT) pour lequel l'office récepteur est l'administration nationale de propriété industrielle de cet Etat, sauf dans le cas de l'Office européen des brevets qui agit (ainsi que l'administration nationale de propriété industrielle) en qualité d'office récepteur pour les Etats contractant du PCT qui sont également parties à la Convention sur le brevet européen. Dans le tableau relatif aux désignations d'Etats, les chiffres indiqués se rapportent aux indications des désignations contenues dans les exemplaires originaux reçus par le Bureau international de l'OMPI et notifiées par ce dernier aux offices désignés. Le code de chaque Etat désigné est accompagné de l'abréviation "NAT" et/ou "OEB" et/ou "OAPI". Cette abréviation signifie que, pour l'Etat désigné considéré, c'est un brevet national ("NAT") qui est demandé, ou un brevet européen ("OEB") ou un brevet de l'Organisation africaine de la propriété intellectuelle ("OAPI").

SECTION IV

NOTIFICATIONS ET INFORMATIONS DE CARACTERE GENERAL

ETATS CONTRACTANTS

Etats parties au Traité de coopération en matière de brevets (PCT)

	Date d'entrée en vigueur du PCT à l'égard de l'Etat
Allemagne (République fédérale d')	24 janvier 1978 [1]
Australie	31 mars 1980 [2]
Autriche	23 avril 1979 [2]
Belgique	14 décembre 1981 [2]
Brésil	9 avril 1978 [1]
Cameroun	24 janvier 1978 [1]
Congo	24 janvier 1978 [1]
Danemark *	1er décembre 1978 [2]
Etats-Unis d'Amérique*	24 janvier 1978 [1]
Finlande	1er octobre 1980 [2]
France	25 février 1978 [1]
Gabon	24 janvier 1978 [1]
Hongrie	27 juin 1980 [2]
Japon	1er octobre 1978 [2]
Liechtenstein *	19 mars 1980 [2]
Luxembourg *	30 avril 1978 [1]
Madagascar	24 janvier 1978 [1]
Malawi	24 janvier 1978 [1]
Monaco	22 juin 1979 [2]
Norvège*	1er janvier 1980 [2]
Pays-Bas	10 juillet 1979 [2]
République centrafricaine	24 janvier 1978 [1]
République populaire démocratique de Corée	8 juillet 1980 [2]
Roumanie	23 juillet 1979 [2]
Royaume-Uni	24 janvier 1978 [1][3]
Sénégal	24 janvier 1978 [1]
Suède	17 mai 1978 [1]
Suisse *	24 janvier 1978 [1]
Tchad	24 janvier 1978 [1]
Togo	24 janvier 1978 [1]
Union soviétique	24 janvier 1978 [1]

---

* Etat non lié par le chapitre II du Traité de coopération en matière de brevets.

1) Les nationaux de cet Etat ainsi que les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales depuis le 1er juin 1978, et cet Etat peut être désigné dans les demandes internationales depuis cette date.

2) Les nationaux de cet Etat et les personnes qui y sont domiciliées ont le droit de déposer des demandes internationales à partir de la date indiquée, et cet Etat peut être désigné dans les demandes internationales à partir de cette même date.

3) Conformément aux termes d'une notification adressée au Bureau international, notification qui se réfère à l'article 62.3), le Traité de coopération en matière de brevets est applicable à Hong-Kong à partir du 15 avril 1981.

OFFICES NATIONAUX ET RÉGIONAUX, BUREAU INTERNATIONAL: LEURS NOMS, ADRESSES, ETC.

Allemagne (République fédérale d')

Désignation: Deutsches Patentamt
Office allemand des brevets
Siège et adresse postale: Zweibrückenstrasse 12, 8000 München 2, République fédérale d'Allemagne
Adresse télégraphique: Deutsches Patentamt, Munich, République fédérale d'Allemagne

RENSEIGNEMENTS CONCERNANT LES ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE ET DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL

ADMINISTRATIONS CHARGÉES DE LA RECHERCHE INTERNATIONALE: LISTE ET CERTAINES DONNÉES LES CONCERNANT

Désignation de l'administration chargée de la recherche internationale (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	**Objet à l'égard duquel l'administration ne procèdera pas à la recherche**	**Pour être acceptée aux fins de la recherche internationale, la demande internationale doit être rédigée dans l'une des langues suivantes**
Australie		
Office australien des brevets (31 mars 1980)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, Nº 09/1980, pages 601 et 605).	Anglais
Autriche		
Office autrichien des brevets (23 avril 1979)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT, à l'exception des méthodes de diagnostic ne s'appliquant pas au corps humain. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 06/1979, pages 227 et 231).	Allemand Anglais Français
Etats-Unis d'Amérique		
Office des brevets et des marques des Etats-Unis (11 avril 1978)	Objet spécifié aux rubriques i) à vi) de la règle 39.1* du PCT. (Voir l'article 6 de l'accord, qui stipule que l'Administration «n'est pas tenue de procéder à la recherche» à l'égard d'un tel objet, ainsi que l'annexe B dudit accord, Gazette du PCT, No 02/1978, pages 124 et 127).	Anglais
Japon		
Office japonais des brevets (1er octobre 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT, ainsi que les programmes d'ordinateurs. (Voir l'article 7 et l'annexe C de l'accord, Gazette du PCT, No 04/1978, pages 215 et 220).	Japonais

* i) théories scientifiques et mathématiques;
ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;
iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;
iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;
v) simples présentations d'informations;
vi) programmes d'ordinateurs dans la mesure où l'administration chargée de la recherche internationale n'est pas outillée pour procéder à la recherche de l'état de la technique au sujet de tels programmes.

Administrations chargées de la recherche internationale: liste et certaines données les concernant (suite)

Désignation de l'administration chargée de la recherche internationale (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	Objet à l'égard duquel l'administration ne procèdera pas à la recherche	Pour être acceptée aux fins de la recherche internationale, la demande internationale doit être rédigée dans l'une des langues suivantes
Suède		
Office royal des brevets et de l'enregistrement (17 mai 1978)	Objet spécifié aux rubriques i) et v) de la règle 39.1* du PCT, à l'exception des méthodes de diagnostic et programmes d'ordinateurs, pour autant qu'ils ne soient pas comparables à des méthodes mathématiques, à des présentations d'informations ou n'aient pas un caractère abstrait ou intellectuel. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 140 et 144).	Anglais Danois Finnois Français Islandais Norvégien Suédois
Union soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT et programmes d'ordinateurs. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 111 et 115 et No 07/1978, page 349).	Russe Allemand Anglais Français
OEB		
Office européen des brevets (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 39.1* du PCT et programmes d'ordinateurs. (Voir l'article 7 de l'accord, Gazette du PCT, No 02/1978, page 131).	Allemand Anglais Français Néerlandais**

* i) théories scientifiques et mathématiques;
ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;
iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;
iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;

Désignation de l'administration chargée de l'examen préliminaire international (Date d'entrée en vigueur de l'accord avec le Bureau international de l'OMPI)	Objet à l'égard duquel l'administration ne procèdera pas à l'examen	Pour être acceptée aux fins de l'examen préliminaire international, la demande internationale doit être rédigée dans l'une des langues suivantes
Suède Office royal des brevets et de l'enregistrement (17 mai 1978)	Objet spécifié aux rubriques i) et v) de la règle 67.1* du PCT, à l'exception des méthodes de diagnostic et programmes d'ordinateurs, pour autant qu'ils ne soient pas comparables à des méthodes mathématiques, à des présentations d'informations ou n'aient pas un caractère abstrait ou intellectuel. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 140 et 144).	Anglais Danois Finnois Français Islandais Norvégien Suédois
Union soviétique Comité d'Etat de l'URSS pour les inventions et les découvertes (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 67.1* du PCT et programmes d'ordinateurs. (Voir l'article 6 et l'annexe B de l'accord, Gazette du PCT, No 02/1978, pages 111 et 115 et No 07/1978, page 349).	Russe Allemand Anglais Français
OEB Office européen des brevets (11 avril 1978)	Objet spécifié aux rubriques i) à v) de la règle 67.1* du PCT et programmes d'ordinateurs. (Voir l'article 7 de l'accord, Gazette du PCT, No 02/1978, page 131).	Allemand Anglais Français

* i) théories scientifiques et mathématiques;
ii) variétés végétales, races animales, procédés essentiellement biologiques d'obtention de végétaux ou d'animaux, autres que procédés microbiologiques et produits obtenus par ces procédés;
iii) plans, principes ou méthodes en vue de faire des affaires, de réaliser des actions purement intellectuelles ou de jouer;
iv) méthodes de traitement du corps humain ou animal par la chirurgie ou la thérapie, ainsi que méthodes de diagnostic;
v) simples présentations d'informations;
vi) programmes d'ordinateurs dans la mesure où l'administration chargée de l'examen préliminaire international n'est pas outillée pour procéder à un examen préliminaire international au sujet de tels programmes.

OFFICES RÉCEPTEURS

OFFICES RÉCEPTEURS COMPÉTENTS

Etat contractant dont le déposant est un national ou dans lequel le déposant est domicilié	**Office récepteur compétent**
Allemagne (République fédérale d')	Office allemand des brevets (Munich) ou Office européen des brevets
Australie	Office australien des brevets (Canberra)
Autriche	Office autrichien des brevets (Vienne) ou Office européen des brevets
Belgique	Ministère des Affaires économiques, Service de la propriété industrielle et commerciale (Bruxelles) ou Office européen des brevets
Brésil	Institut national de la propriété industrielle (Rio de Janeiro)
Cameroun	Bureau international (Genève)
Congo	Bureau international (Genève)
Danemark	Office des brevets et des marques (Copenhague)

Office australien des brevets *(Gazette du PCT No 09/ 1980, pages 599 à 605)*	L'administration peut utiliser la totalité ou la majeure partie du rapport de recherche antérieur	75 %
Autriche		
Office autrichien des brevets *(Gazette du PCT No 06/ 1 979, pages 225 à 232)*	L'administration peut utiliser la totalité ou la majeure partie du rapport de recherche antérieur	75 %
Japon		
Office japonais des brevets *(Gazette du PCT No 04/ 1 978, pages 21 3 à 222)*	1) Remboursement sur requête du déposant 2) L'administration a été en mesure d'utiliser une part substantielle du rapport de recherche antérieur	12 000 yens
Union soviétique		
Comité d'Etat de l'URSS pour les inventions et les découvertes *(Gazette du PCT No 02/ 1 978, pages 1 09 à 1 1 7)*	L'étendue de la recherche antérieure était telle que seule une recherche de mise à jour de portée réduite est nécessaire, ou	90 %
	La recherche antérieure se rapporte pratiquement à la même invention mais les revendications de la demande internationale en cause sont différentes, de telle sorte qu'il est nécessaire d'effectuer une recherche dans un à trois sous-groupes supplémentaires de la CIB, ou	70 %
	La recherche antérieure permet d'économiser la moitié du travail nécessaire pour effectuer la recherche internationale, ou	40 %
	La recherche antérieure ne couvre que quelques sous-groupes de la CIB	20 %

* Le présent tableau résume les cas dans lesquels, et indique dans quelle mesure, les différentes administrations chargées de la recherche internationale remboursent au déposant la taxe de recherche lorsque la recherche internationale peut être fondée, en tout ou en partie, sur une recherche internationale ou de type international effectuée précédemment par l'administration en cause. Le tableau résume les dispositions prévues à cet effet dans les accords conclus entre l'OMPI et chacune desdites administrations (chacun de ces accords est identifié sous le nom de l'administration en cause par un renvoi à la Gazette du PCT dans laquelle il a été publié). On trouvera des renseignements complémentaires dans les notes afférentes au présent tableau. Les remboursements selon les accords précités sont prévus dans les règles 16.3 et 41.1 du règlement d'exécution du PCT.

Remboursement de la taxe de recherche par les administrations chargées de la recherche internationale au cas ou une recherche internationale ou de type international a déjà eu lieu * (suite)

Administration chargée de la recherche internationale	Conditions de remboursement	Montant du remboursement
Suède		
Office royal des brevets et de l'enregistrement (Stockholm) *(Gazette du PCT No 02/ 1978, pages 138 à 145)*	L'administration peut utiliser le rapport de recherche antérieur	90 % 75 % 50 % ou 25 % selon la mesure dans laquelle ledit rapport peut être utilisé
Etats-Unis d'Amérique		
Office des brevets et des marques des Etats-Unis d'Amérique *(Gazette du PCT No 02/ 1 978, pages 1 23 à 1 28)*	L'examinateur constate que l'un des critères suivants a été observé:	
	1) recherche antérieure très complète, ne nécessitant qu'une mise à jour ou qu'une recherche complémentaire succincte	90 %
	2) recherche antérieure assez utile, mais ne justifiant cependant pas un remboursement à 90 %	45 %
Organisation européenne des brevets		
Office européen des brevets *(Gazette du PCT No 02/ 1978, pages 129 à 137)*	L'administration peut utiliser le rapport de recherche antérieur	100 % 75 % 50 % ou 25 % selon la mesure dans laquelle ledit rapport peut être utilisé

Notes

1) ***Office des brevets et des marques des Etats-Unis d'Amérique.*** Une recherche sur l'état de la technique effectuée à l'occasion d'une demande nationale (Etats-Unis) antérieure est considérée comme une recherche de type international pour déterminer s'il y a lieu de procéder à un remboursement. Des remboursements sont aussi effectués selon les mêmes critères et les mêmes pourcentages des taxes de recherche acquittées pour des demandes internationales lorsque les recherches sur l'état de la technique effectuées au cours de l'examen ultérieur des demandes nationales (Etats-Unis) sont entièrement ou partiellement fondées sur des recherches internationales (antérieures) portant sur des demandes internationales.

Remboursement de la taxe de recherche par les administrations chargées de la recherche internationale au cas ou une recherche internationale ou de type international a déjà eu lieu * (suite)

Notes (Suite)

2) ***Office européen des brevets.*** Les recherches sont admises comme recherches de type international du point de vue des remboursements lorsqu'elles ont été effectuées par l'Office européen des brevets

i) pour une demande de brevet européen (antérieure);

ii) pour une demande nationale (antérieure)
(en Allemagne (République fédérale d'), en France, aux Pays-Bas et en Suisse);

iii) comme recherche «standard» demandée à titre privé à l'égard d'une demande (antérieure) dont la priorité est revendiquée dans une demande internationale ou européenne ultérieure.

Les critères suivants ont été adoptés pour déterminer le montant du remboursement de la taxe de recherche:

- remboursement à 100 %: aucune recherche complémentaire nécessaire;
- remboursement à 75 %: recherche complémentaire effectuée dans la documentation relative à une ou plusieurs subdivisions consultées lors de la recherche antérieure *ou* étendue à une ou plusieurs subdivisions n'ayant pas encore été consultées;
- remboursement à 50 %: recherche complémentaire effectuée dans la documentation relative à une ou plusieurs subdivisions déjà consultées *et* étendue à une ou plusieurs subdivisions n'ayant pas encore été consultées;
- remboursement à 25 %: recherche complémentaire dans la documentation relative aux subdivisions correspondant à un nouvel aspect de l'invention revendiquée. (Par exemple, lorsque la demande européenne est fondée sur plusieurs demandes antérieures dont une seule a fait l'objet d'un rapport de recherche antérieur.)

TAXES PAYABLES À L'ADMINISTRATION CHARGÉE DE L'EXAMEN PRÉLIMINAIRE INTERNATIONAL

Administration chargée de l'examen préliminaire international (et monnaie)	Taxe de traitement Δ	Taxe d'examen préliminaire	Taxe d'examen préliminaire additionnelle*	Taxes pour la délivrance de copies des documents cités dans le rapport d'examen préliminaire international*	Taxes pour la délivrance de copies des documents contenus dans le dossier de la demande internationale*

OFFICES NATIONAUX QUI ONT RENONCÉ, TOTALEMENT OU PARTIELLEMENT, A LA COMMUNICATION SELON L'ARTICLE 20 du PCT

Etats-Unis d'Amérique

Office des brevets et des marques des Etats-Unis

Ont renoncé à la communication en ce qui concerne les demandes internationales déposées auprès de l'Office des brevets et des marques des Etats-Unis en sa qualité d'office récepteur.

DISPOSITIONS DES LÉGISLATIONS DES ÉTATS CONTRACTANTS PARTIES À UN TRAITÉ DE BREVET RÉGIONAL RELEVANT DE L'ARTICLE 45.2)

La *Belgique** et la *France* sont les seuls Etats parties à la fois au Traité de coopération en matière de brevets et à un traité de brevet régional, à savoir la convention sur le brevet européen, dont les législations nationales prévoient que toute désignation ou élection dudit Etat sera considérée comme l'indication que le déposant désire obtenir un brevet régional.

L'article 2.3) de la Loi belge du 8 juillet 1977 portant approbation du Traité de Coopération en matière de brevets s'énonce comme suit:

"3) Toute désignation ou, le cas échéant, toute élection de la Belgique dans une demande internationale est considérée comme l'indication que le déposant désire obtenir un brevet européen conformément à la convention sur le brevet européen."

L'article premier de la Loi française No 77-682 du 30 juin 1977 relative à l'application du Traité de coopération en matière de brevets s'énonce comme suit:

"Lorsqu'une demande internationale de protection des inventions formulée en application du traité de coopération en matière de brevets fait à Washington, le 19 juin 1970, comporte la désignation ou l'élection de la France, cette demande est considérée comme tendant à l'obtention d'un brevet européen régi par les dispositions de la convention sur la délivrance des brevets européens faite à Munich, le 5 octobre 1973."

* Le PCT entrera en vigueur à l'égard de la Belgique le 14 décembre 1981.

AVERTISSEMENT ET RENSEIGNEMENTS CONCERNANT LA NECESSITE D'INDIQUER L'INVENTEUR EN TANT QUE DEPOSANT AUX FINS DE LA DESIGNATION DES ETATS-UNIS D'AMERIQUE

Avertissement

Les effets de la demande internationale dans un Etat désigné peuvent dépendre de la question de savoir si la personne indiquée dans la demande internationale en tant que déposant aux fins de cet Etat est habilitée, selon la législation nationale de cet Etat, à déposer une demande nationale.

Renseignements

Les *Etat-Unis d'Amérique* sont le seul Etat partie au Traité de coopération en matière de brevets dont la législation nationale stipule qu'une demande de brevet nationale soit déposée par l'inventeur et dont l'office national rejettera donc, en tant qu'office désigné, toute demande internationale dans laquelle une personne autre que l'inventeur est indiquée comme déposant aux fins des Etats-Unis d'Amérique.

Les sections 111, 115, 116, 117 et 118 du «United States Code», titre 35 - Brevets, partie II - Brevetabilité des inventions et délivrance des brevets, chapitre 11 - Demande de brevet, s'énoncent comme suit (traduction préparée par le Bureau international):

111. Demande de brevet

La demande de brevet sera déposée par l'inventeur, à moins qu'il ne soit prescrit autrement par le présent titre, par écrit et adressée au «Commissioner». Cette demande comprend: 1) un exposé de l'invention comme prescrit à la section 112 du présent titre; 2) un dessin, comme prescrit à la section 113 du présent titre; et 3) un serment du déposant, comme prescrit à la section 115 du présent titre. La demande doit être signée par le déposant et accompagnée par la taxe prescrite par la loi.

115. Serment du déposant

Le déposant déclare sous serment qu'il estime être le premier et original inventeur du procédé, de la machine, du produit, ou de la composition, ou de son perfectionnement, pour lequel il sollicite un brevet; il déclare de quel pays il est le ressortissant. Cette déclaration sous serment peut être effectuée sur le territoire des Etats-Unis, auprès de toute personne autorisée par la loi à recevoir de telles déclarations ou, si elle est faite dans un pays étranger, auprès des autorités diplomatiques ou consulaires des Etats-Unis qui sont autorisées à recevoir de telles déclarations, ou auprès de toute personne possédant un sceau officiel et autorisée à recevoir des déclarations sous serment dans le pays étranger où peut se trouver le déposant, et dont l'autorité sera établie par un certificat émanant d'une autorité diplomatique ou consulaire des Etats-Unis; cette déclaration sous serment sera valable si elle est conforme aux dispositions de la loi de l'Etat ou du pays où elle est effectuée. Lorsque la demande est déposée comme prescrit par ce titre par une personne autre que l'inventeur, la déclaration sous serment peut être modifiée dans sa forme afin de pouvoir être effectuée par cette personne.

116. Co-inventeurs

Lorsque deux personnes ou plus font conjointement une invention, elles demandent un brevet de façon conjointe et chacune d'elles signe la demande et effectue la déclaration sous serment requise, sauf prescription contraire dans le présent titre.

Si un co-inventeur refuse d'apparaître en tant que tel dans une demande de brevet ou ne peut être trouvé ou atteint en dépit d'efforts diligents, la demande peut être déposée par l'autre inventeur, agissant en son propre nom ainsi qu'au nom de l'inventeur manquant. Le «Commissioner», sur production de la preuve des faits pertinents et après notification à l'inventeur manquant telle qu'il peut la prescrire, peut délivrer un brevet à l'inventeur déposant la demande, sous réserve des mêmes droits dont l'inventeur manquant aurait bénéficié s'il avait été co-inventeur. L'inventeur manquant peut devenir ultérieurement co-inventeur.

Lorsque, par erreur, une personne est indiquée comme co-inventeur dans une demande, ou lorsqu'un co-inventeur n'est pas indiqué dans une demande et qu'une telle erreur a été commise sans intention frauduleuse le «Commissioner» peut autoriser une modification de la demande en conséquence, dans les conditions qu'il prescrit.

Décès ou incapacité de l'inventeur

Les représentants légaux des inventeurs décédés ou frappés d'incapacité juridique peuvent déposer une demande de brevet sous réserve de satisfaire les exigences applicables à l'inventeur et dans les mêmes termes et sous les mêmes conditions.

Dépôt par une autre personne que l'inventeur

Lorsqu'un inventeur refuse de déposer une demande de brevet, ou ne peut être trouvé ou atteint en dépit d'efforts diligents, une personne à qui il a cédé - ou stipulé par écrit de céder - l'invention ou qui invoque, autrement, un intérêt suffisant pour justifier une telle action, peut déposer une demande de brevet au nom de l'inventeur et à titre de mandataire de celui-ci, à condition de fournir la preuve des faits et de montrer qu'une telle action est nécessaire pour préserver les droits des parties ou pour prévenir des dommages irréparables; le «Commissioner» peut délivrer un brevet à un tel inventeur, après notification jugée suffisante, et sous réserve de satisfaire aux règles qu'il prescrit.

La section 373 du «United States Code», titre 35 - Brevets, partie IV - Traité de coopération en matière de brevets, chapitre 37 - Phase nationale, s'énonce comme suit:

373. Indication à titre de déposant d'une personne n'ayant pas qualité pour être déposant

Une demande internationale désignant les Etats-Unis ne sera pas acceptée par l'office des brevets aux fins de la procédure nationale si elle a été déposée par quiconque n'a pas qualité, en vertu du chapitre 11 du présent titre, pour être déposant aux fins du dépôt d'une demande nationale aux Etats-Unis. Une telle demande internationale ne pourra pas être utilisée pour bénéficier d'une date de dépôt antérieure, selon la section 120 du présent titre, dans une demande déposée ultérieurement, mais peut servir de base à une revendication du droit de priorité en vertu de la section 119 du présent titre, dans la mesure où les Etats-Unis n'étaient pas le seul Etat désigné dans la demande internationale.

DISPOSITIONS DES LÉGISLATIONS NATIONALES DES ÉTATS CONTRACTANTS RELATIVES À LA RECHERCHE DE TYPE INTERNATIONAL

L'Australie, le Danemark, les Etats-Unis d'Amérique, la Finlande*, la Hongrie, la Norvège*, les Pays-Bas, la Suède et la Suisse sont les seuls Etats parties au Traité de coopération en matière de brevets dont les législations nationales contiennent des dispositions concernant la recherche de type international.

Australie

Le règlement 87 du Règlement de brevets et l'article 30 de la loi sur les brevets s'énoncent comme suit (traduction préparée par le Bureau international):

Règlement 87 du Règlement de brevets

.....

2) Lorsque le Commissaire fournit des renseignements à un déposant en vertu de l'article 30 de la loi et que la fourniture de ces renseignements fait intervenir une recherche de type international mentionnée dans l'article 15.5) du traité, cette fourniture de renseignements donne lieu au paiement d'une taxe de 300 $.

.....

4) Dans le présent règlement, on entend par "déposant" la personne qui –

a) après l'entrée en vigueur du présent règlement, dépose une demande de brevet autre qu'une demande internationale et

b) requiert, dans les trois mois suivant le dépôt de sa demande de brevet, que des renseignements lui soient fournis par le Commissaire en vertu de l'article 30 de la loi.

.....

Article 30 de la Loi

Le Commissaire peut, conformément à la présente loi, fournir des renseignements sur une question intéressant ou concernant:

a) un brevet;

b) une demande de brevet qui a été ouverte à l'inspection publique; ou

c) tout autre document, résumé, description ou publication conservé à l'Office des brevets ou à la bibliothèque de l'Office des brevets.

Danemark

La section 9 de la Loi sur les brevets du Danemark et la section 5 de son Règlement d'exécution s'énoncent comme suit (texte en langue anglaise fourni par l'Office des brevets et des marques, Copenhague, et traduit en français par le Bureau international):

Section 9 de la Loi

Si le déposant le demande et paie la taxe prescrite, l'administration compétente en matière de brevets, en vertu des règles établies par le Ministre du commerce, fait en sorte que la demande fasse l'objet d'une recherche effectuée par une administration chargée de la recherche internationale selon les dispositions de l'article 15.5) du Traité de coopération en matière de brevets, fait à Washington le 19 juin 1970.

---

* Les dispositions de la législation nationale de cet Etat concernant la recherche de type international seront publiées dans un numéro ultérieur de la Gazette du PCT.

Section 5 du Règlement d'exécution

1) Si le déposant désire que la recherche mentionnée à la section 9 de la Loi sur les brevets soit effectuée, il doit déposer auprès de l'administration compétente en matière de brevets une requête écrite à cet effet et payer la taxe prescrite par l'administration de recherche dans les trois mois suivant la date de dépôt de la demande ou suivant la date à laquelle ladite demande a été considérée comme déposée. Si la demande de brevet n'est pas rédigée dans une langue acceptée par l'administration de recherche, la requête doit être accompagnée d'une traduction de la demande dans une langue prescrite par l'administration compétente en matière de brevets.

2) Si le déposant désire que la recherche selon le premier paragraphe soit effectuée par une administration déterminée choisie parmi les administrations chargées de la recherche internationale possibles, il doit indiquer l'administration choisie dans la requête.

3) Ladite requête sera considérée comme retirée si la demande de brevet et la traduction prescrite ne remplissent pas, à l'expiration du délai fixé au premier paragraphe, les conditions de forme auxquelles doit satisfaire une demande internationale de brevet.

Etats-Unis d'Amérique

Les sections 1.104 *c)* et *d)* et 1.21 *w)* du «Code of Federal Regulations», titre 37 - Brevets, Marques et Droits d'auteur, sous-chapitre A - Généralités, Brevets, partie I - «Rules of Practice in Patent Cases» s'énoncent comme suit (traduction préparée par le Bureau international):

1.104 Nature de l'examen; Notification émise par l'examinateur

.....

c) Toutes les demandes nationales déposées le 1er juin 1978 et après feront l'objet d'une recherche de type international.

d) Toute demande nationale peut également faire l'objet d'un rapport de recherche de type international au moment de l'examen national quant au fond, sur requête expresse et paiement de la taxe à régler pour ce rapport. Voir la section 1.21 *w)* en ce qui concerne le montant de la taxe pour la préparation du rapport de recherche de type international.

Note: L'Office des brevets et des marques n'exige pas que la recherche de type international donne lieu formellement à un rapport de recherche de type international pour qu'un remboursement de la taxe de recherche puisse être obtenu pour une demande internationale déposée ultérieurement.

1.21 Taxes et droits relatifs aux brevets et autres

.....

w) Pour l'établissement d'un rapport de recherche de type international résultant d'une recherche de type international effectuée lors de l'émission de la première notification quant au fond relative à une demande de brevet national: 25 dollars E.U.

Note: L'Office des brevets et des marques n'exige pas que la recherche de type international donne lieu formellement à un rapport de recherche de type international pour qu'un remboursement de la taxe de recherche puisse être obtenu pour une demande internationale déposée ultérieurement.....

Hongrie

Article 8 du Décret

L'article 8 du Décret Nº 29/1980/29 juillet du Conseil des Ministres portant application de la loi Nº 14 de l'année 1980 sur la promulgation du Traité de coopération en matière de brevets s'énonce comme suit (texte fourni en anglais par l'Office national des inventions et traduit en français par le Bureau international):

1) Le déposant peut demander, en vertu de l'article 15.5)a) du Traité, qu'une recherche de type international soit effectuée à l'égard d'une demande hongroise régulièrement déposée auprès de l'Office national des inventions. La recherche sera effectuée, selon l'article 15.5)c) du Traité, par l'administration chargée de la recherche internationale compétente pour effectuer la recherche internationale sur les demandes internationale déposées auprès de l'Office national des inventions en tant qu'office récepteur.

2) L'Office national des inventions adressera à bref délai à l'administration chargée de la recherche internationale compétente, en même temps qu'elle transfère la taxe de recherche payée par le déposant lors du dépôt de sa requête, un exemplaire de la traduction de la demande hongroise préparée par le déposant dans la langue prescrite et dont les conditions de forme sont en conformité avec les exigences prescrites pour les demandes internationales.

Pays-Bas

La section 221 de la Loi sur les brevets revisée en 1978 et la section 17.5) du Règlement sur les brevets revisé en 1979 (tous deux entrés en vigueur le 1er février 1979) s'énoncent comme suit (texte fourni par l'Office néerlandais des brevets, Rijswijk):

Section 221 de la Loi

221. – 1) Si le déposant le requiert par écrit, l'Office des brevets effectue une recherche sur l'état de la technique relative à ce qui doit être considéré comme l'objet de la demande, conformément aux dispositions de l'article 5A ou découlant de cet article.....

.....

3) Si le déposant le requiert par écrit, l'Office des brevets soumet la demande à la recherche de type international visée à l'article 15.5) *a)* du Traité de coopération. Cette recherche est réputée constituer une recherche sur l'état de la technique au sens du paragraphe 1).

4) La présentation de la requête visée aux paragraphes 1), 2) ou 3) est soumise au paiement d'une taxe qui sera prescrite par la voie réglementaire.

.....

Section 17.5) du Règlement

5) La taxe due en vertu des articles 22 G.1), 22 H.1), 221.4) et 9) et 22 J.1) de la Loi du Royaume sur les brevets d'invention lors de la présentation d'une requête visée à ces articles est:

..... pour une requête tendant à faire procéder à une recherche sur l'état de la technique ou une recherche de type international, ou à faire poursuivre une telle recherche: 1100 florins;

.....

Suède

La section 9 de la Loi suédoise sur les brevets revisée en 1978 et la section 5 du Décret portant application de la Loi s'énoncent comme suit (texte en langue anglaise fourni par l'Office royal des brevets et de l'enregistrement, Stockholm, et traduit en français par le Bureau international):

Section 9 de la Loi

Si le déposant le demande et paie la taxe spéciale, l'administration compétente en matière de brevets permet, dans les conditions déterminées par le Gouvernement, que la demande fasse l'objet d'une telle recherche de nouveauté par une administration chargée de la recherche internationale telle que mentionnée à l'article 15.5) du Traité de coopération en matière de brevets signé à Washington le 19 juin 1970.

Section 5 du Décret

Afin de bénéficier de la recherche telle que définie à la section 9 de la Loi sur les brevets, le déposant doit soumettre à l'Office des brevets, dans les trois mois suivant la date de dépôt de la demande de brevet ou, selon le cas, suivant la date à laquelle ladite demande a été considérée comme étant déposée, une requête écrite à cet effet et payer la taxe prescrite par l'administration de recherche.

Si la demande de brevet n'est pas rédigée dans une langue acceptée par l'administration de recherche, ladite requête doit être accompagnée d'une traduction de la demande dans une langue prescrite par l'Office des brevets.

Si plusieurs administrations peuvent être envisagées pour l'exécution de la recherche mentionnée au premier paragraphe et si le déposant désire choisir celle de ces administrations qui effectuera la recherche, il mentionne cette administration dans ladite requête.

Ladite requête sera considérée comme retirée si la demande de brevet et la traduction prescrite ne remplissent pas, à l'expiration du délai fixé au premier paragraphe, les conditions de forme auxquelles doit satisfaire une demande internationale de brevet.

Suisse

Le Titre neuvième de l'Ordonnance relative aux brevets d'invention, entrée en vigueur en Suisse le 1er janvier 1978, s'énonce comme suit:

«Titre neuvième: Recherches de type international»

Art. 126

Conditions

1) Une recherche de type international au sens de l'article 15, 5e alinéa, du traité de coopération peut être requise pour une demande de brevet suisse.

2) La requête doit être présentée à l'Office dans les six mois suivant la date de dépôt. La taxe de recherche internationale (art. 121, 2e al.) doit être payée en même temps.

3) Si la langue dans laquelle est rédigée la demande de brevet n'est pas une langue de travail de l'administration chargée de la recherche internationale, compétente pour la Suisse, une traduction dans une langue de travail doit être présentée simultanément.

4) L'Office n'examine pas si la demande de brevet et la traduction satisfont aux autres conditions fixées dans le traité de coopération, notamment aux prescriptions de forme valables pour les demandes internationales.

Art. 127

Procédure

1) Si les conditions prévues à l'article 126, 1er à 3e alinéas, sont remplies, l'Office transmet les documents requis à l'administration chargée de la recherche internationale, qui est compétente.

2) L'Office adresse le rapport de recherche au requérant; une copie est versée au dossier de la demande de brevet.»

RENSEIGNEMENTS CONCERNANT LES EXONÉRATIONS ET REMBOURSEMENTS (OU RÉDUCTIONS) DE TAXES PAYABLES AUX OFFICES NATIONAUX (OU RÉGIONAUX) EN LEUR QUALITÉ D'OFFICES DÉSIGNÉS (OU ÉLUS)

Ministère de l'économie nationale, Service de la propriété industrielle (Luxembourg)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office des brevets lorsque ce dernier est l'office désigné si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Ministère d'Etat, Service de la propriété industrielle (Monaco)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office des brevets lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Office allemand des brevets

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office allemand des brevets lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Taxe de demande d'examen. La taxe de demande d'examen d'une demande de brevet, que le déposant est tenu de payer à l'Office allemand des brevets, *est ramenée* à 250 deutsche mark (au lieu de 400 deutsche mark) lorsqu'un rapport de recherche internationale a été établi pour sa demande (en tant que demande internationale désignant la République fédérale d'Allemagne aux fins d'un brevet national).

Office national des inventions (Hongrie)

Taxe nationale. Le déposant *n'est pas tenu de verser* de taxe nationale (de dépôt) à l'Office national des inventions lorsque ce dernier est l'office désigné (ou élu) si la demande internationale a été déposée auprès de cet Office en qualité d'office récepteur.

Office néerlandais des brevets

Taxe de demande de recherche. La taxe de demande de recherche payée est remboursée à 25 %, 50 %, 75 % ou 100 % si un rapport de recherche internationale a été joint à la demande internationale, le montant du remboursement dépendant de la mesure dans laquelle l'Office néerlandais des brevets peut utiliser ce rapport de recherche internationale.

Office des brevets du Royaume-Uni

En vertu de la disposition 102 du règlement de 1978 sur les brevets, le déposant peut, dans les conditions indiquées ci-après, demander par écrit le remboursement total ou partiel des taxes suivantes:

La taxe de recherche (correspondant au formulaire brevets 9/77) lorsque la demande (en tant que demande internationale désignant le Royaume-Uni pour l'obtention d'un brevet national) a fait l'objet d'une recherche internationale de la part de l'administration chargée de la recherche internationale.

La taxe d'examen quant au fond (correspondant au formulaire brevet 10/77) lorsque la demande (en tant que demande internationale désignant le Royaume-Uni) a fait l'objet d'un examen préliminaire international effectué par l'Office des brevets du Royaume-Uni en sa qualité d'administration chargée de l'examen préliminaire international.

La décision de procéder à un remboursement (le cas échéant) à la suite d'une telle requête est toujours laissée à la discrétion du Comptroller-General.

Office européen des brevets

Taxe de recherche*. Aux termes des décisions prises en vertu de l'article 157 de la Convention sur le brevet européen, la taxe de recherche due à l'Office européen des brevets pour une demande de brevet européen

i) ***n'est pas exigible*** si un rapport de recherche internationale a été établi à l'égard de la demande (en tant que demande internationale déposée selon le PCT) par cet Office ou par les Offices des brevets autrichien ou suédois;

ii) ***est réduite de 20%*** si un rapport de recherche internationale a été établi pour la demande (en tant que demande internationale déposée selon le PCT) par l'Office australien des brevets, l'Office japonais des brevets, l'Office des brevets et des marques des Etats-Unis d'Amérique ou le Comité d'Etat de l'URSS pour les inventions et les découvertes.

Taxe d'examen*. En vertu de la règle 104*ter*5 du règlement d'exécution de la Convention sur le brevet européen et de l'article 12.2) du règlement relatif aux taxes, la taxe d'examen payable à l'Office européen des brevets pour une demande de brevet européen est réduite de 50% lorsqu'un rapport d'examen préliminaire international a été établi par cet Office pour la demande (en tant que demande internationale selon le PCT pour laquelle une demande d'examen préliminaire international a été soumise à cet Office).

---

* Article 78.2) de la Convention sur le brevet européen.

** Article 94.2 de la Convention sur le brevet européen.

DESIGNATION (OU ELECTION) DE MADAGASCAR

D'après les renseignements communiqués par le Ministre des affaires étrangères de Madagascar au sujet des demandes internationales désignant Madagascar, le projet de législation sur la propriété industrielle soumis aux autorités compétentes prévoit, entre autres, la prorogation des délais selon les articles 22 et 39 jusqu'à la date à laquelle la nouvelle législation sur les brevets permettra, après son entrée en vigueur, l'instruction des demandes de brevets à Madagascar. Après la publication de la nouvelle loi, les délais ainsi prorogés seront précisés par les autorités compétentes. Le Gouvernement de Madagascar a souhaité que ces renseignements soient communiqués aux déposants qui utilisent la voie du PCT et qui désignent ou élisent Madagascar, ou qui ont l'intention de le faire, afin qu'ils puissent avoir connaissance de la possibilité qui leur est ainsi offerte de désigner ou élire valablement Madagascar et de différer les mesures prescrites pour aborder la phase nationale aux termes des articles 22 et 39 jusqu'à ce que la nouvelle législation soit entrée en vigueur et que les délais à observer en vertu de cette loi aient été fixés.

LISTE DES INSTITUTIONS DE DEPOT AUPRES DESQUELLES DES DEPOTS DE MICRO-ORGANISMES PEUVENT ETRE EFFECTUES POUR CERTAINS OFFICES DESIGNES (OU ELUS)
(Avec codes littéraux d'identification dans la liste des institutions énumérées dans le tableau suivant, et notes relatives à certaines limitations lorsque l'Office européen des brevets est l'office désigné (ou élu)

Liste des institutions (identifiées par leurs noms, adresses et codes littéraux), contenant également, s'il y a lieu, des renvois à des notes

Agricultural Research Culture Collection (NRRL)*

Note

Ce tableau n'indique pas, à propos des institutions de dépôt, les types de micro-organismes qui peuvent être déposés auprès de celles-ci. On peut obtenir cette information directement auprès des institutions. Les renseignements concernant les institutions de dépôt qui ont acquis le statut d'autorité de dépôt internationale en vertu du Traité de Budapest sur la reconnaissance internationale du dépôt des micro-organismes aux fins de la procédure en matière de brevets, sont publiées de temps à autre dans "la Propriété industrielle", revue publiée par l'OMPI.

OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE APPLICABLE PERMET DE FAIRE REFERENCE AUX DEPOTS DE MICRO-ORGANISMES; LES INDICATIONS (EVENTUELLES), OUTRE LES INDICATIONS PRESCRITES, CONCERNANT CES DEPOTS DEVANT ETRE INCLUSES DANS LES REFERENCES EN VERTU DE CETTE LEGISLATION; LES DELAIS (EVENTUELS), PLUS COURTS QUE LE DELAI PRESCRIT DANS LESQUELS CES REFERENCES ET INDICATIONS DOIVENT ETRE FOURNIES; ET LES INSTITUTIONS DE DEPOT AUPRES DESQUELLES, EN VERTU DE CETTE LEGISLATION, LES DEPOTS PEUVENT ETRE EFFECTUES

Office désigné (ou élu)	**Indications (éventuelles) qui doivent figurer outre celles exposées dans la règle 13*bis*.3.a)i) à iii) (notifications reçues conformément à la règle 13*bis*.7a)i))**	**Délai (éventuel) plus court que celui spécifié dans la règle 13*bis*.4 dans lequel le déposant doit fournir A) les indications dont il est fait référence dans la règle 13*bis*. 3a)i) à iii) B) toute indication supplémentaire spécifiée dans la colonne adjacente de gauche (notifications reçues conformément à la règle 13*bis*.7a)ii))**	**Liste des institutions de dépôt auprès desquelles des dépôts peuvent être effectués (identifiées par les codes indiqués dans la liste précédente des institutions de dépôt) (notifications reçues conformément à la règle 13*bis*.7b))**

Offices désignés (ou élus) dont la législation nationale applicable permet de faire référence aux dépôts de micro-organismes; les indications (éventuelles), outre les indications prescrites, concernant ces dépôts devant être incluses dans les références en vertu de cette législation; les délais (éventuels), plus courts que le délai prescrit dans lesquels ces références et indications doivent être fournies; et les institutions de dépôt auprès desquelles, en vertu de cette législation, les dépôts peuvent être effectués (suite)

Notes

1) L'office concerné est un office de propriété industrielle selon le sens donné dans le Traité de Budapest sur la reconnaissance internationale du dépôt des micro-organismes aux fins de la procédure en matière de brevets. En conséquence, le dépôt peut être effectué auprès de toute institution de dépôt ayant acquis le statut d'autorité de dépôt internationale en vertu de ce Traité (la liste de ces institutions est publiée de temps à autre dans "La Propriété industrielle", revue publiée par l'OMPI).

2) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution reconnue scientifiquement dans le pays et à l'étranger» aux fins de la procédure en matière de brevets devant cet office, et ceci comprend toutes les institutions dont la liste est publiée dans cette Gazette.

3) L'office concerné a informé le Bureau international que, aux fins de la procédure en matière de brevets devant cet office, des dépôts peuvent être effectués auprès de (outre l'institution identifiée dans la liste) «toute institution de dépôt bien connue sur le plan international». Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

4) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

5) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués, en plus des institutions énumérées dans la liste, auprès de «toute institution de dépôt partout dans le monde» aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions reconnues par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

6) L'office concerné a informé le Bureau international que des dépôts peuvent être effectués auprès de «toute institution de dépôt étrangère ou nationale tenue en vertu d'une loi, d'un traité ou d'un contrat d'accepter, de conserver et de remettre des échantillons sous les conditions stipulées dans la jurisprudence des Etat-Unis», aux fins de la procédure en matière de brevets devant cet office. Une liste de toutes les institutions recons par cet office selon cette description sera publiée lorsqu'elle aura été reçue de cet office.

7) L'office concerné a informé le Bureau international que, si les mêmes indications ne sont pas aussi incluses dans une demande antérieure dont la priorité a été revendiquée, la priorité de la demande antérieure ne sera pas accordée.

8) L'office concerné a informé le Bureau international que, si le déposant désire que, jusqu'à la publication de la mention de la délivrance du brevet européen ou jusqu'à la date à laquelle la demande est rejetée, retirée ou réputée retirée, l'accessibilité au micro-organisme prévue au paragraphe 3 de la règle 28 du règlement d'exécution de la Convention sur le brevet européen ne soit réalisée que par la remise d'un échantillon à un expert désigné par le requérant (Règle 28, paragraphe 4 dudit règlement d'exécution), il doit en informer le Bureau international avant l'achèvement de la préparation technique de la publication de la demande internationale.

LISTE DES OFFICES DESIGNES (OU ELUS) DONT LA LEGISLATION NATIONALE NE CONTIENT AUCUNE DISPOSITION CONCERNANT LE DEPOT DES MICRO-ORGANISMES

Etats contractants	**Désignation de l'office**
Australie:	Office australien des brevets
Autriche:	Office autrichien des brevets (1)
Brésil:	Institut national de la propriété industrielle
Danemark:	Office des brevets et des marques (2)
Finlande:	Office national des brevets et de l'enregistrement (3)
Luxembourg:	Ministère de l'économie nationale, Service de la propriété industrielle
Madagascar:	Ministère de l'économie et du commerce, Direction de l'industrie et des mines
Malawi:	Ministère de la Justice, Département du Registrar General
Monaco:	Ministère d'Etat, Service de la propriété industrielle
Norvège:	Office norvégien des brevets
Roumanie:	Office d'Etat pour les inventions et les marques (4)
Organisation intergouvernementale:	Organisation africaine de la propriété intellectuelle

Notes

(1) L'office concerné a informé le Bureau international que, tandis que la législation nationale en vigueur ne prévoit pas les dépôts de micro-organismes, cette même législation ne contient aucune interdiction sur ces dépôts.

(2) L'Office concerné a informé le Bureau international que la législation nationale "contient des dispositions exigeant dans certains cas le dépôt de micro-organismes. Ces dispositions ne sont toutefois pas encore en vigueur". A l'heure actuelle le "règlement danois se borne à stipuler que dans certains cas les dépôts de micro-organismes sont utiles et souhaitables".

(3) L'office concerné a informé le Bureau international que cet office n'exige pas "mais seulement recommande fortement de déposer les micro-organismes qui ne sont pas accessibles au public et qui sont relatifs aux inventions concernées".

(4) L'office concerné a informé le Bureau international que la législation nationale ne contient aucune disposition concernant des institutions de dépôt, mais qu'en pratique l'office "reconnaît des dépôts effectués auprès des institutions spécialisées des états contractants, ou à l'étranger, et accessibles à toute personne physique ou morale intéressée".

DOCUMENTS DE PRIORITE: APPLICATION DU DELAI DE PRESENTATION

Offices qui ne tiendront pas compte (en qualité d'offices désignés ou élus) d'une revendication de priorité si le déposant n'a pas observé le délai (expirant à la fin du 16e mois à compter de la date de priorité de la demande internationale) en ce qui concerne la présentation du document de priorité

(liste établie par l'OMPI sur la base de renseignements fournis par les offices concernés)

Etat contractant	**Office national**
Danemark	Office des brevets et des marques
Finlande	Office national des brevets et de l'enregistrement
Hongrie	Office national des inventions
Japon	Office japonais des brevets
Malawi	Ministère de la justice, Département du Registrar General
Roumanie	Office d'Etat pour les inventions et les marques
Royaume-Uni	Office des brevets
Suède	Office royal des brevets et de l'enregistrement
Suisse	Office fédéral de la propriété intellectuelle
Union soviétique	Comité d'Etat de l'URSS pour les inventions et les découvertes

Note: Aucun autre office national n'applique de sanction si le déposant n'a pas présenté le document de priorité comme le prévoit la règle 17.1.a) et b). Toutefois, plusieurs de ces offices insistent pour que le document de priorité leur soit présenté pendant le traitement national s'ils ne l'ont pas déjà reçu dans le cadre de la procédure prévue dans la règle 17.1; mais aucun d'eux n'applique de sanction si le document n'a pas été présenté avant ce moment.

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 16bis. 3 DU PCT

Le Bureau international a reçu des notifications en vertu de de la règle 16*bis*. 3 du PCT excluant l'application de la règle 16*bis*. 1 et de la règle 16*bis*. 2* du PCT aux offices, en tant qu'offices récepteurs selon le PCT, des quatre pays suivants:

Australie
Hongrie
Japon

NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 80. 6b) DU PCT

Le Bureau international a reçu des notifications en vertu de la règle 80.6b) du PCT, qui ont pour effet d'exclure l'application de la règle 80.6a) du PCT, deuxième phrase**, aux offices, en tant qu'offices récepteurs selon le PCT, des six pays suivants:

Australie
Danemark
Finlande
Japon
Norvège
Suède

*NOTIFICATIONS REÇUES EN VERTU DE LA REGLE 92.4 DU PCT****

En vertu de la règle 92.4 du PCT, les offices nationaux des pays suivants ainsi que les organisations intergouvernementales indiquées ci-dessous sont disposés à recevoir des documents (y compris des dessins) -- postérieurs à la demande internationale -- adressés par les moyens indiqués ci-après:

Allemagne (République fédérale d'): télégraphe, téléimprimeur
Autriche: télégraphe, téléimprimeur
Brésil: télégraphe, téléimprimeur
Danemark: télégraphe, téléimprimeur
Etats-Unis d'Amérique: téléimprimeur
Finlande: télégraphe
France: télégraphe, téléimprimeur
Hongrie: télégraphe, téléimprimeur
Luxembourg: télégraphe, téléimprimeur
Malawi: télégraphe
Monaco: télégraphe
Norvège: télégraphe, téléimprimeur
Pays-Bas: télégraphe
Roumanie: télégraphe, téléimprimeur
Suède: téléimprimeur
Suisse: télégraphe, téléimprimeur
Union soviétique: télégraphe, téléimprimeur
Office européen des brevets: télégraphe, téléimprimeur
Bureau international de l'OMPI: télégraphe, téléimprimeur, télécopieur (copies facsimile par l'intermédiaire du Service postal suisse).

Des renseignements relatifs aux adresses télégraphiques et de téléimprimeur de tous les offices nationaux et organisations intergouvernementales sont publiés dans le présent numéro de la Gazette du PCT.

** Voir la note de bas de page accompagnant la règle 80.6b), publiée dans le numéro 18/1980 de la Gazette du PCT, page 1369.

*** La liste reproduite dans le texte qui suit fera l'objet de mises à jour périodiques dans des numéros ultérieurs de la Gazette du PCT

RENSEIGNEMENTS UTILES CONCERNANT LES PRATIQUES QUE SUIVENT LES OFFICES NATIONAUX (ET REGIONAUX)

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE

Phase internationale

La législation des Etats-Unis d'Amérique en matière de brevets exige qu'aux fins de la désignation de cet Etat, le ou les déposants soient le ou les inventeurs. Si cette condition n'est pas remplie, la désignation des Etats-Unis d'Amérique est considérée comme n'ayant pas été effectuée et l'Office des brevets et des marques de ce pays peut, en qualité d'office désigné, rejeter la demande (article 27.3) et règle 18.4.b)).

Lorsque l'inventeur ne peut être atteint pendant une période ne dépassant pas le délai fixé dans la règle 26.2, la demande internationale peut être déposée sans sa signature. L'absence de la signature de l'inventeur ou d'un pouvoir signé par lui est une irrégularité qui peut être corrigée en vertu de l'article 14.1)a)i) et b) et à laquelle on peut remédier en déposant une copie de la requête (ou du pouvoir, lorsque la requête a été signée par un mandataire), dûment signée par l'inventeur, dans le délai précité.

Lorsque la signature de l'inventeur ne peut pas être obtenue dans le délai fixé dans la règle 26.2 ou lorsque l'inventeur n'est pas disposé à signer la requête d'une demande internationale aux fins de la désignation des Etats-Unis d'Amérique, la procédure est la suivante:

i) Lorsqu'un *co-inventeur* refuse de s'associer à une demande internationale qui désigne les Etats-Unis d'Amérique ou ne peut être trouvé ou atteint après des recherches diligentes, la demande internationale peut être signée par le ou les autres inventeurs en son nom (ou en leur nom) et au nom de l'inventeur n'ayant pas signé.

ii) Lorsqu'un *inventeur unique* refuse de signer une demande internationale qui désigne les Etats-Unis d'Amérique ou ne peut être trouvé ou atteint après des recherches diligentes, une personne à qui il a cédé ou accepté par écrit de céder l'invention ou qui peut faire la preuve d'intérêts suffisants de propriété en la matière justifiant son action peut signer la demande internationale au nom de l'inventeur et en tant que mandataire de celui-ci. Cette règle joue aussi lorsque tous les co-inventeurs refusent de signer ou ne peuvent être trouvés ou atteints après des recherches diligentes.

Dans les deux cas, la personne qui dépose la demande internationale (et qui signe la requête ou un pouvoir distinct) est considérée comme un "autre représentant" au sens de la règle 2.1.

Lorsque l'inventeur n'est pas disposé à signer ou ne peut être atteint, son représentant doit fournir une déclaration explicative sur les raisons pour lesquelles le formulaire de requête ou le pouvoir n'est pas signé de l'inventeur aux fins de la désignation des Etats-Unis d'Amérique. Cette déclaration doit être fournie en même temps que le formulaire de requête ou dans le délai fixé par l'office récepteur en vertu de la règle 26.2 pour la correction de l'irrégularité selon l'article 14.1)a)i) et les règles 4.15 ou 90.3 (défaut de signature de l'inventeur sur le formulaire de requête ou absence de pouvoir séparé signé de l'inventeur, lorsque le formulaire de requête a été signé par un mandataire). En cas d'absence de signature d'un inventeur unique ou d'un co-inventeur (cas i) et ii) ci-dessus), cette déclaration doit indiquer la dernière adresse connue du ou des inventeurs n'ayant pas signé. Lorsque le représentant n'est pas un co-inventeur, cette déclaration doit indiquer que le représentant de l'inventeur possède un intérêt de propriété suffisant sur l'invention pour faire une demande de brevet et que cette action est nécessaire pour sauvegarder les droits des parties ou pour empêcher que ne soient causés des torts irréparables.

Phase nationale

Lorsque la demande internationale aborde la phase nationale à l'Office des brevets et des marques des Etats-Unis d'Amérique (articles 22.1) et 23) et que l'inventeur refuse de signer ou ne peut être trouvé ou atteint après des recherches diligentes, le serment ou la déclaration exigé de l'inventeur doit être fait par la personne ("l'autre représentant" au sens de la règle 2.1) qui fait la demande pour l'inventeur n'ayant pas signé mentionné dans les cas i) et ii) ci-dessus; ce serment ou cette déclaration doit être accompagné d'une preuve des faits en cause et indiquer la dernière adresse connue de l'inventeur n'ayant pas signé. Dans le cas ii) ci-dessus, il faut en plus apporter la preuve que cette action est nécessaire pour sauvegarder les droits des parties ou pour empêcher que ne soient causés des torts irréparables. Il faut aussi déposer à l'Office des brevets et des marques des Etats-Unis la cession, promesse écrite de cession ou une autre preuve d'intérêt de propriété ou une copie certifiée de ces pièces.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
– l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
– l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Comité d'Etat de l'URSS pour les inventions et les découvertes (mai 1981),
Office allemand des brevets (en anglais: février 1980, mai 1981**; en français: avril 1980, mai 1981**),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office finlandais des brevets (juin 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office national hongrois (juin 1981),
Office néerlandais des brevets (août 1980, septembre 1980**),
Office norvégien des brevets (février 1981),
Office roumain pour les inventions (juin 1981),
Office suédois des brevets (juin 1980, janvier 1981**),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980, mars 1981**),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980, janvier 1981**),
Organisation africaine de la propriété intellectuelle (juin 1981).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles sera publiée au cours du deuxième semestre de 1981. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

** Date de la dernière mise à jour.

RENSEIGNEMENTS UTILES CONCERNANT LES PRATIQUES QUE SUIVENT LES OFFICES NATIONAUX (ET REGIONAUX)

PRATIQUE QU'ACCEPTE L'OFFICE DES BREVETS ET DES MARQUES DES ETATS-UNIS LORSQUE LES ETATS-UNIS SONT DESIGNES ET QUE L'INVENTEUR N'EST PAS DISPONIBLE OU PAS DISPOSE A SIGNER LA DEMANDE INTERNATIONALE.

Ces renseignements ont été publiés dernièrement dans le numéro 26/1981 de la Gazette du PCT, pages 2503 et 2504.

PCT – GUIDE DU DEPOSANT

Les éditions les plus récentes du *Guide du déposant* et de ses annexes sont les suivantes:

en anglais *
- l'édition de décembre 1978 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980, et de janvier 1981.

en français*
- l'édition d'avril 1979 du *Guide* et de ses annexes, avec des feuilles de remplacement (mise à jour) datées d'août 1979, d'avril, de juin et de décembre 1980.

Un autre volume du *Guide du déposant*, (dénommé "volume II", le volume I étant le *Guide du déposant* initialement publié en 1978) contient des chapitres distincts qui traitent de la procédure au sein de chacun des offices désignés et élus. Les chapitres déjà parus (et leurs dates de parution en anglais et en français) sont les suivants:

Comité d'Etat de l'URSS pour les inventions et les découvertes (mai 1981),
Office allemand des brevets (en anglais: février 1980, mai 1981**; en français: avril 1980, mai 1981**),
Office australien des brevets (en anglais: janvier 1981; en français: mars 1981),
Office autrichien des brevets (août 1980),
Office danois des brevets (février 1981),
Office finlandais des brevets (juin 1981),
Office japonais des brevets (mai 1980),
Office luxembourgeois des brevets (février 1981),
Office monégasque des brevets (décembre 1980),
Office national hongrois (juin 1981),
Office néerlandais des brevets (août 1980, septembre 1980**),
Office norvégien des brevets (février 1981),
Office roumain pour les inventions (juin 1981),
Office suédois des brevets (juin 1980, janvier 1981**),
Office des brevets suisse (mai 1980),
Office des brevets du Royaume-Uni (avril 1980, mars 1981**),
Office des brevets et des marques des Etats-Unis (avril 1980),
Office européen des brevets (avril 1980, janvier 1981**),
Organisation africaine de la propriété intellectuelle (juin 1981).

Il est possible de commander le *Guide du déposant*, en anglais ou en français, à l'OMPI ou, pour l'Amérique du Nord, l'Amérique centrale et l'Amérique du Sud, auprès des agents de vente de l'OMPI. Les adresses de l'OMPI et de ses agents de vente figurent au verso de la couverture de la présente Gazette.

Le *Guide du déposant* en allemand est épuisé. Une version revisée de la nouvelle présentation en feuilles mobiles est en préparation. Les demandes de renseignements et d'abonnements doivent être adressées à Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, République fédérale d'Allemagne.

---

* Le prix pour 1981 d'un seul volume du *Guide* (le volume I peut être acheté séparément) est de 75 francs suisses et comprend la fourniture des pages de remplacement/mise à jour publiées en 1981 et les années précédentes. Le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

Le prix de l'abonnement pour 1981 au *service de mise à jour* de l'un ou l'autre des volumes (uniquement pour ceux qui ont acheté le volume avant 1981) est de 40 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 15 francs suisses pour les autres destinations.

Pour une commande groupée des volumes I et II du *Guide*, le prix est de 135 francs suisses pour 1981; le supplément pour l'envoi par avion est de 20 francs suisses pour l'Europe et de 40 francs suisses pour les autres destinations.

Le prix d'un abonnement groupé au service de mise à jour des volumes I et II (uniquement pour ceux qui ont acheté les deux volumes avant 1981) est de 75 francs suisses; le supplément pour l'envoi par avion est de 10 francs suisses pour l'Europe et de 20 francs suisses pour les autres destinations.

FEES PAYABLE TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

This information was last published on pages 1143 and 1144 of the PCT Gazette No. 26/1979.

FEES AND CHARGES PAYABLE TO THE INTERNATIONAL BUREAU

This information was last published on page 1145 of the PCT Gazette No. 26/1979.

NEW AMOUNTS OF FEES NOTIFIED BY THE EUROPEAN PATENT OFFICE

The European Patent Office (EPO) has notified new amounts in certain currencies (Dutch guilders, French francs, Luxembourg (or Belgian) francs and Swedish kronor) as specified below, of certain fees paid to or collected for the EPO as receiving or designated (or elected) Office or as International Searching Authority or International Preliminary Examining Authority. The new amounts are applicable to all payments of the said fees due on and from February 1, 1980.

Kind of fee	New Amounts			
	Dutch guilder	French franc	Luxembourg or Belgian franc	Swedish kronor
EPO as receiving Office				
Transmittal fee	170	360	2,500	370
EPO as International Searching Authority				
Search fee	1,920	4,100	27,900	4,220
Additional search fee	1,920	4,100	27,900	4,220
EPO as International Preliminary Examining Authority				
Preliminary examination fee	1,130	2,410	16,400	2,490
Additional preliminary examination fee	1130	2,410	16,400	2,490
Fees for copies of documents cited in the international preliminary examination report	*	2.40	*	2.50
Fees for copies of documents contained in the file of the international application	*	2.40	*	2.50
EPO as designated (or elected) Office				
National fee	510	1,080	7,400	1,120

* Amounts of fees unchanged

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this Note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. "NAT" means that, for the designated State, a national patent ("NAT") and/or a European Patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

OPERATIONS UNDER THE PCT IN 1979

The filing of international patent applications and the submission of demands for their international preliminary examination under the PCT commenced on June 1, 1978. Thus, 1979 was the first full calendar year during which the PCT was in operation.

Membership. At the beginning of 1979, the PCT was in force for the following 20 countries: Brazil, Cameroon, Central African Republic, Chad, Congo, Denmark, France, Gabon, Germany (Federal Republic of), Japan, Luxembourg, Madagascar, Malawi, Senegal, Soviet Union, Sweden, Switzerland, Togo, United Kingdom, United States of America. Of these countries, five (Denmark, France, Luxembourg, Switzerland and the United States of America) had made reservations excluding the application of Chapter II of the PCT. By the end of 1979, a further seven countries had deposited instruments of ratification or accession: Australia (member as of March 31, 1980), Austria, Liechtenstein (member as of March 19, 1980), Monaco, Netherlands, Norway and Romania. Of these countries, only Liechtenstein and Norway made a reservation excluding the application of Chapter II of the PCT. The number of Contracting States was 27 at the end of 1979.

The deposit of instruments of ratification or accession in 1980 is expected from several highly industrialized countries as well as from several developing countries.

Four of the seven countries which have made reservations excluding the application of Chapter II (France, Liechtenstein, Luxembourg and Switzerland) are expected to lift those reservations in view of the fact that the European Patent Office has opened examination in all technical fields (see below). The United States of America has indicated that it will study, with its interested circles, the lifting of its reservation.

International Searching and Preliminary Examining Authorities: The following Offices are the International Searching and Preliminary Examining Authorities at the beginning of 1980: the Austrian Patent Office, the Japanese Patent Office, the USSR State Committee for Inventions and Discoveries, the Swedish Patent Office, and the European Patent Office; furthermore, the United States Patent and Trademark Office is an International Searching Authority and the United Kingdom Patent Office is an International Preliminary Examining Authority. As from March 31, 1980, the Australian Patent Office will also be an International Searching and Preliminary Examining Authority.

The European Patent Office started its international preliminary examination activities on June 1, 1979, in a limited number of technical fields corresponding to the limitations as to technical fields which initially applied to the filing of European patent applications. All such limitations having been removed from December 1, 1979, all technical fields are now open for international preliminary examination by the European Patent Office.

International Applications Filed: During 1979, the International Bureau of WIPO received 2,625 record copies from the receiving Offices*, the actual number of applications filed, according to information provided by the receiving Offices, being in the region of 2,734 (the difference between these two figures is attributable mainly

---

* The regular PCT Statistics are based on record copies actually received by the International Bureau of WIPO: the accumulated Statistics for 1979 relating to the record copies received (including the designation of States broken down according to receiving Offices) appear on pages 238 to 240 of this number of the PCT Gazette.

to the period of formal processing of the applications by the receiving Offices preceding the receipt of record copies by the International Bureau).* The quarterly figures indicate a steady increase in the number of record copies received and applications filed:

	Record copies received	Applications filed
1st quarter	483	571
2nd quarter	547	663
3rd quarter	741	721
4th quarter	854	779
Total	**2625**	**2734**

The increase in filings can be attributed both to an increase in knowledge of the PCT on the part of potential applicants and to the steadily increasing membership of the PCT, which provides the possibility for the designation of a greater number of States and a consequent lessening of the complications of foreign filings.

In the same period, the International Preliminary Examining Authorities notified the International Bureau of their receipt of 172 demands for international preliminary examination under Chapter II. Subsequent to such notifications, the International Bureau received and communicated to the elected Offices the international preliminary examination reports in 74 cases, all such reports having been received within the prescribed time limits. The International Bureau of WIPO provided the translations of these reports in accordance with the requirements of the elected Offices. In the table below, these demands are broken down according to the International Preliminary Examining Authorities having received the demands and the corresponding percentages are indicated.

Authority (Name of country of location or of organization)	Number of Demands	Percentage of total
Japan	35	20.3
Sweden	94	54.7
United Kingdom	41	23.8
EPO	2	1.2
Total:	**172**	**100.0**

During the year the receiving Offices and the International Searching Authorities were able to work within the time limits prescribed for performing their various tasks, especially those involving the transmittal of the record copy and the international search report to the International Bureau. The International Bureau was in possession of the international search report in sufficient time to publish it together with the international application in all instances.

---

* The corresponding totals for the 7 months of PCT operations in 1978 were 459 record copies received and 687 international applications filed.

Publication under the PCT. Regular (fortnightly) publication of the PCT Gazette in separate English and French editions was continued throughout 1979. Altogether 27 issues of the PCT Gazette were published. In addition to a substantial volume of information of a general character, those issues included entries relating to the 1,168 international applications which were published in the form of PCT pamphlets (in English, French, German, Japanese or Russian, depending on the language of filing) on the same day as the relevant issues of the PCT Gazette. The numbers of international applications published as pamphlets in each of the above-mentioned languages (and the corresponding percentages) are as follows:

Language of publication	Number of applications published	Percentage of total
English	762	65.24
French	117	10.02
German	162	13.87
Japanese	124	10.61
Russian	3	0.26
Total	**1168**	**100.00**

PCT Assembly. The PCT Assembly met twice during 1979. It adopted amendments to the Rules mainly to resolve problems involved in establishing fees in the currencies of the member countries in a situation of fluctuating exchange rates.

The PCT Assembly decided to fix new amounts for the fees applicable as from August 1, 1979. For most countries the fees involved only modest increases. On the basis of these amounts, the Director General of WIPO established equivalent amounts in other currencies.*

Public Information Activities. The English and French versions of the PCT Applicant's Guide --WIPO's general information publication containing detailed information on the PCT intended for those interested in filing international patent applications under the PCT-- were published in a new loose-leaf format. In August 1979, a substantial issue of replacement pages was made to update the Guide, especially the Annexes which contain detailed information necessary for the preparation and filing of applications.

In addition, Press Releases in English, French, German, Japanese and Russian were issued from time to time, for instance, following sessions of the Assembly and acceptance of the PCT by additional countries. Altogether seven Press Releases were issued.

A number of Seminars were arranged, mostly in countries which had become party to the PCT, with a view to promoting the use of the PCT system. Papers on the PCT were given by members of the staff of WIPO and of national and regional Offices and by representatives of interested circles at Seminars held in the Federal Republic of Germany, France, Japan, the Soviet Union, Switzerland and the United Kingdom.

A PCT Users Meeting was held at the WIPO headquarters in Geneva in October. The meeting was attended by about 200 participants representing interested national and international organizations and the various interested patent Offices as well as interested persons attending in their personal capacity.

A new leaflet called "Basic Facts about the PCT" was issued in English; corresponding versions in other languages will be produced in 1980.

---

* These amounts were published in PCT Gazette No. 13/1979 pages 497 to 504.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European patent Convention. In the statistical table relating to the designation of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979.

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979.

German
- the May 1978 edition of the *Guide* (with Annexes in English dated August 1979).

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10).

This information was last published on pages 1160 to 1162 of the PCT Gazette, No. 26/1979.

NOTE CONCERNING THE PATENT TREATY BETWEEN SWITZERLAND AND LIECHTENSTEIN

On April 1, 1980, a Patent Treaty between Switzerland and Liechtenstein will enter into force and, on the same day, the European Patent Convention will enter into force for Liechtenstein. Certain modifications to the Administrative Instructions under the PCT relating to the designation of Switzerland and Liechtenstein in international applications will also enter into force on April 1, 1980*.

Under the Treaty between Switzerland and Liechtenstein, the two will constitute a single territory for patent purposes and the Swiss Intellectual Property Office will have assigned to it the performance of the administrative tasks related hereto. The Swiss Intellectual Property Office will also act as the receiving Office for international applications under the PCT filed by the nationals and residents of Liechtenstein. The designation of either Switzerland or Liechtenstein in an international application will automatically have the effect of the designation of both.

Until April 1, 1980, international applications which designate Switzerland (whether for the purposes of a national patent or for a European patent) will have effect for Liechtenstein once a patent is granted by virtue of the present law in Liechtenstein which extends to Liechtenstein the effect of patents having effect for Switzerland. This makes it unnecessary to designate Liechtenstein in international applications filed prior to April 1, 1980; indeed, no provision will exist for effect to be given to such a designation prior to that date.

From April 1, 1980, the designation of Switzerland and Liechtenstein (or either of them without the other) in an international application (whether for the purposes of a patent granted by the Swiss Intellectual Property Office or for the purposes of a European patent) will have the effect of a designation for the purposes of a single patent granted with reference to and having effect for both Switzerland and Liechtenstein.

The following principles will apply with respect to the designation of Switzerland and Liechtenstein (or both) in international applications**:

European Patents. If the designation is for the purposes of a European patent, the indication that a regional patent is sought (or alternatively that a European patent is sought) must be given in connection with the designation.

Patents granted by Swiss Intellectual Property Office. If a patent to be granted by the Swiss Intellectual Property Office is sought, the designation must not contain any further indications besides the name of Switzerland or Liechtenstein (or both); in particular the words "regional patent" must not be used.

Double Designations. The designation of Switzerland and Liechtenstein for the purposes of a European patent and also for the purposes of a patent granted by the Swiss Intellectual Property Office (i.e., a double designation) is also possible where either of them (or both) is (are) indicated once with the indication that a regional patent is sought and once without such indication.

No additional designation fee will be payable under the PCT by reason of the fact that Liechtenstein is included in the designation of Switzerland and *vice versa* since the effect of the Treaty between Switzerland and Liechtenstein is, for the purposes of the PCT, to create a unitary regional patent for the two States.

---

* These modifications are published on page 408 of this issue of the Gazette.

** See also Section 203 of the Administrative Instructions under the PCT as modified at page 408 of this issue of the Gazette.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PATENT COOPERATION TREATY (PCT)

MODIFICATION

The Director General of the World Intellectual Property Organization has modified Section 203 of the Administrative Instructions under the PCT pursuant to Rule 89.2 of the PCT Regulations. The text of Section 203 as so modified is set out below. The new text takes effect on April 1, 1980.

Section 203

Regional Patents

(1) Where the applicant wishes to obtain a regional patent in respect of any designated State, he shall, subject to paragraphs (2) and (3), make the indication in the request referred to in Rule 4.1*(b)*(iv) by inserting the words "regional patent", or their equivalent in the language of the international application, immediately after the indication of the said State or, where an indication has been made under Section 202, after that indication, provided that:

(i) where Article 4(1)(ii), third clause applies, and not all the States party to the regional treaty have been designated, the international application shall be treated as if all those States had been designated and as if the designations of all such States contained the said words, whether the said designations contained an indication of the wish to obtain a regional patent or, according to Article 4(1)(ii), fourth clause, are to be treated as containing such indication:

(ii) where the national law of any designated State contains a provision as referred to in Article 45(2), the International Bureau shall, according to Article 4(1)(ii), fourth clause, treat the designation as if it contained the said words even where the applicant failed to indicate them.

(2) The applicant may, instead of the words "regional patent" referred to in paragraph (1), use other words to the same effect; such words may include a reference to a patent to be granted by the European Patent Office under the Convention on the Grant of European Patents done at Munich on October 5, 1973 ("European patent"), where the regional patent which the applicant wishes to obtain is a European patent.

(3) An indication, in respect of the designation of Liechtenstein or Switzerland, or both, of the wish to obtain a regional patent shall be taken as indicating a wish to obtain a European patent in respect of those States, whereas the absence of any indication of the wish to obtain a regional patent in respect of such a designation shall be taken as indicating a wish to obtain a patent granted by the Swiss Intellectual Property Office in respect of those States.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English *
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979.

French *
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979.

German
- the May 1978 edition of the *Guide* (with Annexes in English dated August 1979).

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

Supplements to the *Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have also been issued ** in the languages indicated:

German Patent Office (English only).

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

This information was last published on pages 315 and 316 of the PCT Gazette, No. 05/1980.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

This information was last published on pages 1123 to 1126 of the PCT Gazette, No. 26/1979.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 1127 and 1128 of the PCT Gazette, No. 26/1979.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 1129 and 1130 of the PCT Gazette, No. 26/1979.

AGREEMENT BETWEEN THE INTERNATIONAL BUREAU OF WIPO AND THE EUROPEAN PATENT ORGANISATION: AMENDMENT TO ANNEX B

The European Patent Office has notified the International Bureau of WIPO, that the footnote relating to item 1.1 of paragraph 1 of Annex B of the Agreement * applies also to item 1.2 of that paragraph.

AGREEMENT BETWEEN THE INTERNATIONAL BUREAU OF WIPO AND THE ROYAL PATENT AND REGISTRATION OFFICE OF SWEDEN: AMENDMENT TO ANNEX C

The Royal Patent and Registration Office of Sweden has notified the International Bureau of WIPO, pursuant to Article 16(3)(iii) of the above-mentioned Agreement **, of the increase of the amount of an item in the list of fees and charges set out in paragraph (a) of Annex C of the Agreement; the item and the new (increased) amount are as follows:

"Fee	Amount in Sw. Crs.
Translation of international application (Rule 48.3)	0.91/word"

The increased amount is applicable as from April 20, 1980.

---

* Published in the PCT Gazette, No. 02/1978, pages 107 to 115.

** Published in the PCT Gazette, No. 02/1978, pages 116 to 124.

RECEIVING OFFICES

This information was last published on pages 1133 to 1137 of the PCT Gazette, No. 26/1979, under the following headings:

– Competent Receiving Offices

– Receiving Offices: Their requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

This information was last published on pages 1138 to 1145 of the PCT Gazette No. 26/1979, under the following headings:

– Fees payable to the Receiving Office

– Fees payable to the International Searching Authority

– Fees payable to the International Preliminary Examining Authority

– Fees and charges payable to the International Bureau

See also the new amounts of fees in Japanese yen applicable on and from March 1, 1980, as published on page 40 of the PCT Gazette No. 01/1980, as well as the new amounts of fees notified by the European Patent Office, applicable on and from February 1, 1980, as published on page 94 of the PCT Gazette No. 02/1980.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO LANGUAGES OF TRANSLATION OF INTERNATIONAL APPLICATIONS AND INTERNATIONAL PRELIMINARY EXAMINATION REPORTS

This information was last published on pages 1146 to 1148 of the PCT Gazette, No. 26/1979.

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO NATIONAL FEES AND TIME LIMITS

This information was last published on pages 1149 to 1153 of the PCT Gazette, No. 26/1979.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 1154 to 1156 of the PCT Gazette, No. 26/1979.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last published on page 1157 of the PCT Gazette, No. 26/1979.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

This information was last published on page 1157 of the PCT Gazette, No. 26/1979.

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

This information was last published on pages 1158 and 1159 of the PCT Gazette, No. 26/1979.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

This information was last published on pages 1160 to 1162 of the PCT Gazette, No. 26/1979.

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

International Preliminary Examining Authorities: Their list and certain data concerning them (Continued)

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Applications must be in one of the following Languages to be accepted for International Preliminary Examination
Sweden Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish
United Kingdom Patent Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*. (See Article 6 of the Agreement, PCT Gazette, No. 02/1978, page 126).	English (but only where it is the language of filing or publication)
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

Agreement between the PATENT OFFICE OF THE GOVERNMENT OF AUSTRALIA AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the establishment and functioning of the Patent Office of the Government of Australia as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

Preamble

WHEREAS the States party to the Patent Cooperation Treaty, done at Washington on June 19, 1970, constitute a Union for cooperation in the filing, searching and examination of applications for the protection of inventions, and for rendering special technical services, the said Union being known as the International Patent Cooperation Union;

AND WHEREAS Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty provide, *inter alia*, that the appointment of an Office as an International Searching and International Preliminary Examining Authority by the Assembly of the International Patent Cooperation Union shall be subject to the conclusion of an Agreement with the International Bureau;

AND WHEREAS it is recognized that the participation of the Patent Office of the Government of Australia as an International Searching and International Preliminary Examining Authority in matters affecting international search and international preliminary examination will contribute to the successful implementation of the Patent Cooperation Treaty;

IT IS HEREBY AGREED between the Patent Office of the Government of Australia, and the International Bureau of the World Intellectual Property Organization, hereinafter called the "International Bureau," as follows:

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement, "Treaty" means the Patent Cooperation Treaty done at Washington on June 19, 1970; "Regulations" means the Regulations under the Treaty; "Administrative Instructions" means the Administrative Instructions under the Treaty; "Article," except where otherwise specified, means an Article of the Treaty; "Rule" means a Rule of the Regulations; "Assembly" means the Assembly as defined in Article 2(xvii); "International Bureau" means the International Bureau as defined in Article 2(xix); "Contracting State" refers to a Contracting State to the Treaty; "Authority" means the Patent Office of the Government of Australia.

(2) All other terms and expressions used in this Agreement are to be understood in the same sense as that in which they are used in the Treaty.

Article 2

Basic Obligation

(1) The Authority shall, except in respect of subject matter which, pursuant to Article 6 of this Agreement, the Authority is not required to search or to examine, carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under, the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be carried out under the Treaty. The Authority undertakes to apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administratives Instructions and this Agreement, each render, to the extent possible, assistance to the other in relation to the performance, by the other, of its functions thereunder.

Article 3

Competence of Authority

(1) The Authority undertakes to act as an International Searching Authority for the international applications filed with the receiving Offices of, or acting for, the Contracting States indicated in Annex A of this Agreement provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority undertakes to act as an International Preliminary Examining Authority for the international applications filed with the receiving Offices of, or acting for, the Contracting States indicated in Annex A of this Agreement provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement. In respect of international applications filed in the languages specified in Annex A, the Authority shall carry out examination without requiring translations of such applications.

Article 4

Provision of Personnel

(1) The Authority shall, for the purposes of carrying out international search and international preliminary examination, respectively, make available the staff at its disposal, to the extent required by the workload, having sufficient technical qualifications to carry out such search or such examination. The staff of the Authority shall be maintained at a level meeting the minimum requirement as set out in Rules 36.1(i) and 63.1(i).

(2) The Authority shall maintain a staff which is capable of searching and examining in all technical fields and which has language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Article 5

Documentation Facilities

The Authority shall, for the purposes of this Agreement, use all documentation facilities at its disposal. In any event, the minimum requirements concerning documentation as set out in Rules 36.1(ii) and 63.1(ii) shall be respected.

Article 6

Subject Matter Not Required to be Searched or Examined

The Authority will not search, by virtue of Article 17(2)(a)(i), or will not examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B.

Article 7

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, to the extent and under the conditions set out in Annex C of this Agreement, refund the whole or part of the search fee paid where a search report can be wholly or partially based on the results of an earlier international or international-type search made by the Authority (Rules 16.3 and 41.1).

Article 8

Review Board

The Authority shall provide, in accordance with Rules 40.2(c) and 68.3(c) and (d), a special instance to examine protests in respect of additional fees where the international application is found not to comply with the requirement of unity of invention. The said special instance shall be the Commissioner of Patents or any officer exercising his powers under Australian law.

Article 9

Time Limit for Preparation of International Search Reports or Declarations and International Preliminary Examination Reports

The Authority shall, within the time limits specified in the first two sentences of Rule 42.1, establish international search reports, or declarations under Article 17(2)(a) and, within the maximum periods specified in Rule 69.1(a)(i) and (ii), establish international preliminary examination reports.

Article 10

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 11

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, the Authority shall use the English language.

Article 12

International-Type Search

(1) The Authority shall make an international-type search on any national application filed in any Contracting State which has specified the Authority as mentioned in Article 3(1) of this Agreement:

(i) as far as such is permitted by the law of, and is requested by, such State;

(ii) where the national law of such State so permits and the applicant so requests.

(2) Where the national application is not in a language in which the Authority has undertaken to search international applications under Article 3 of this Agreement, the international-type search shall be carried out on a translation in a language which the Authority has undertaken to accept for international applications under Article 3 of this Agreement.

Article 13

Information Service and Technical Assistance

The Authority shall supply the International Bureau with such information services and such other contributions to the technical assistance program under Chapter IV of the Treaty as are practicable within the existing facilities of the Authority and may be agreed. The provision of search or examination work for developing countries under preferential conditions shall be the subject of a special agreement.

Article 14

Entry Into Force of the Agreement

This Agreement shall enter into force once all the following conditions are fulfilled:

(i) it is approved by the Assembly;

(ii) it is signed by the Authority and the International Bureau; and

(iii) the Treaty has entered into force for Australia.

The Agreement together with an indication of the date of its entry into force shall be published in the Gazette by the International Bureau.

Article 15

Duration and Renewability of the Agreement

This Agreement shall remain in force for a period of 10 years. It shall be renewable for a period of 10 years subject to the approval of, and the extension of the appointment of the Authority for that period by, the Assembly.

Article 16

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may be made to this Agreement by agreement between the parties hereto and shall take effect upon approval of those amendments by the Assembly, or, if a later date is specified in the amendments, on that date.

(2) Without prejudice to the provisions of paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the parties hereto and shall take effect upon notification in the Gazette or, if a later date is specified in the amendments, on that date.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the States and languages listed in Annex A of this Agreement;

(ii) subject to paragraph (4), amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Normally, the schedule of fees and other charges shall not be amended during the first year after the entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment of the schedule. Any amendment of the schedule shall take effect one month after publication of the notification of the amendment in the Gazette pursuant to paragraph (5), or, if a later date has been specified by the Authority, on the date specified by the Authority.

(5) The International Bureau shall publish promptly in the Gazette any amendment of this Agreement agreed between the parties and approved by the Assembly under paragraph (1), any amendment of this Agreement agreed between the parties under paragraph (2), and any notification received by it under paragraph (3).

Article 17

Termination of the Agreement

(1) This Agreement shall terminate:

(a) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(b) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Geneva, this 29th day of February 1979, in two originals in the English language.

For the Patent Office of the Government of Australia:

(signed) L. D. Thomson
Ambassador and
Permanent Representative
to the Office of the
United Nations in Geneva

For the International Bureau:

(signed) A. Bogsch
Director General

ANNEX A

STATES AND LANGUAGES SPECIFIED FOR THE PURPOSES OF ARTICLE 3 OF THE AGREEMENT

1. The States specified for the purposes of Article 3(1) of the Agreement are:

Australia and the States regarded as a developing country in conformity with the established practice of the General Assembly of the United Nations.

2. The languages specified for the purposes of Article 3(1) of the Agreement are:

English.

3. The States specified for the purposes of Article 3(2) of the Agreement are:

Australia and the States regarded as a developing country in conformity with the established practice of the General Assembly of the United Nations.

4. The languages specified for the purposes of Article 3(2) of the Agreement are:

English.

ANNEX B

SUBJECT MATTER SPECIFIED UNDER ARTICLE 6 OF THE AGREEMENT

The subject matter set forth in Rule 39.1 or Rule 67.1, which, under Article 6 of the Agreement, is not excluded from search or examination, is the following:

None.

ANNEX C

SCHEDULE OF FEES AND CHARGES OF THE AUTHORITY AND EXTENT AND CONDITIONS OF REFUNDS OF THE SEARCH FEE FOR THE PURPOSES OF ARTICLE 7 OF THE AGREEMENT

a) Schedule of fees and charges

Fee	Amount in Australian Dollars
Search fee (Rule 16.1(a))	300.-
Additional fee (Rule 40.2(a))	250.-
Preparing copies of cited documents (Rule 44.3(b))	5.- (per document)
Preliminary examination fee (Rule 58.1(b))	100.-
Additional fee (Rule 68.3(a))	100.-
Preparing copies of cited documents (Rule 71.2(b))	5.- (per document)

b) Conditions and extent of refunds of the search fee where the search report can be wholly or partially based on the results of an earlier international or international-type search (Rules 16.3 and 41.1)

The conditions and extent of refunds of the search fee in cases where the search report can be wholly or partially based on the results of an earlier international or international-type search are the following:

The amount of any refund of the search fee shall be 75% if the Authority benefits from the prior search report to the full extent or a substantially prevailing portion.

AGREEMENT BETWEEN THE INTERNATIONAL BUREAU OF WIPO AND THE EUROPEAN PATENT ORGANISATION: AMENDMENT TO ANNEX B

The European Patent Office has notified the International Bureau of WIPO, that the footnote relating to item 1.1 of paragraph 1 of Annex B of the Agreement * applies also to item 1.2 of that paragraph.

AGREEMENT BETWEEN THE INTERNATIONAL BUREAU OF WIPO AND THE ROYAL PATENT AND REGISTRATION OFFICE OF SWEDEN: AMENDMENT TO ANNEX C

The Royal Patent and Registration Office of Sweden has notified the International Bureau of WIPO, pursuant to Article 16(3)(iii) of the above-mentioned Agreement **, of the increase of the amount of an item in the list of fees and charges set out in paragraph (a) of Annex C of the Agreement; the item and the new (increased) amount are as follows:

"Fee	Amount in Sw. Crs.
Translation of international application (Rule 48.3)	0.91/word"

The increased amount is applicable as from May 3, 1980 (and not as from April 20, 1980, as erroneously indicated in the PCT Gazette, No. 07/1980, page 497).

** Published in the PCT Gazette, No. 02/1978, pages 116 to 124.

NOTIFICATIONS RECEIVED FROM INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

European Patent Office:

The International Bureau of WIPO has been notified that, in respect of international applications filed *on or after* December 1, 1979, the European Patent Office has ceased applying, in its capacity as International Preliminary Examining Authority, all limitations on international preliminary examination by reference to technical fields pursuant to Article 6 of the Agreement between the International Bureau and the European Patent Organisation dated April 11, 1978*. In the case of an international application filed in one of the periods (*before* December 1, 1979) indicated in the columns appearing below, international preliminary examination will be carried out by the European Patent Office, in its capacity as International Preliminary Examining Authority, when (and only when) the application relates to one of the technical fields (defined by the symbols of the International Patent Classification) listed in the column in which the period appears.

INFORMATION ON REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH *

International Searching Authority	Conditions for making refund	Amount of refund
Austria		
Austrian Patent Office *(PCT Gazette No. 06/1979, pages 217 to 223)*	The Authority benefits from the prior search report to the full extent or to a substantially prevailing portion	75%
Japan		
Japanese Patent Office *(PCT Gazette No. 04/1978, pages 213 to 221)*	(1) Request for refund by applicant (2) Authority has been able to make use of a considerable part of the earlier search report	12,000 yen
Soviet Union		
USSR State Committee for Inventions and Discoveries *(PCT Gazette No. 02/1978, pages 130 to 138)*	The prior search was so complete that only a minor updating search is required	90%
	The prior search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1-3 additional IPC-Subgroups	70%
	The prior search saves one half of the efforts usually made to carry out international search	40%
	The prior search applies only to a few IPC-Subgroups	20%
Sweden		
Royal Patent and Registration Office (Stockholm) *(PCT Gazette No. 02/1978, pages 116 to 124)*	The Authority benefits from the prior search report	90% 75% 50% or 25% depending on the extent of benefit

* This table summarizes the circumstances in which, and the extent to which, each of the International Searching Authorities will refund to the applicant the search fee paid when the international search can be based, whether wholly or in part, on an earlier international or international-type search carried out by that Authority. The table summarizes what is stated in this respect in the Agreements between WIPO and each of the said Authorities (each such Agreement is indicated below the name of the Authority concerned by the reference to the PCT Gazette in which it was published). Relevant additional information is set out in the notes at the foot of this table. The making of the refunds according to the Agreements mentioned above is provided for in Rules 16.3 and 41.1 of the Regulations under the PCT.

Information on refunds of the search fee by the International Searching Authorities in the case of earlier international or international-type search *

International Searching Authority	Conditions for making refund	Amount of refund
United States of America		
United States Patent and Trademark Office *(PCT Gazette No. 02/1978, pages 139 to 145)*	A determination by the examiner that one of the following criteria has been met:	
	(1) The prior search was substantially complete; only an updating search or short search was required	90%
	(2) The prior search was of some significant benefit but not enough to justify a 90% refund	45%
EPO		
European Patent Office *(PCT Gazette No. 02/1978, pages 107 to 115)*	The Authority benefits from the prior search report	100% 75% 50% or 25% depending on the extent of benefit

Notes

(1) ***United States Patent and Trademark Office.*** A search of the prior art in an earlier national (U.S.) application is regarded as an international-type search in determining whether a refund shall be made. Refunds are also made according to the same criteria and the same percentages of the search fees paid in respect of international applications where the prior art searches made during the subsequent examination of national (U.S.) applications are wholly or partly based on (earlier) international searches made in the international applications.

(2) ***European Patent Office.*** Searches are accepted as international-type searches for the purposes of making refunds when made by the European Patent Office

(i) on (an earlier) European patent application;

(ii) on (an earlier) national application (in France, Germany (Federal Republic of), the Netherlands and Switzerland);

(iii) as a privately commissioned "standard" search.

The following criteria have been adopted for determining the amount of the refund of the search fee:

- 100% refund: no supplementary search performed;
- 75% refund: supplementary search performed in documentation relating to one or more sub-divisions consulted in the earlier search *or* extended to one or more sub-divisions not yet consulted;
- 50% refund: supplementary search performed in the documentation relating to one or more sub-divisions already consulted *and* extended to one or more sub-divisions not yet consulted;
- 25% refund: supplementary search performed in documentation relating to sub-divisions concerning a new aspect of the invention claimed. (For instance, cases where the European application is based on several earlier applications only one of which was the subject of an earlier search report.)

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The *United States of America* is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

Denmark, the Netherlands, Norway*, Sweden, Switzerland and the United States of America are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in a accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15(5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patent Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a tranlation of the application in a language prescribed by the patent authority.

(2) If the applicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Netherlands

Section 22 I of the Patents Act as revised in 1978 and Section 17(5) of the Patents Rules as revised in 1979 (both entered into force on February 1, 1979) read as follows (text provided by the Netherlands Patent Office, Rijswijk):

Section 22 I of the Act

(1) Where the applicant so requests in writing, the Patent Office shall make a search of the state of the art in respect of that which is to be considered the subject matter of the application by virtue of the provisions by or under Section 5A.....

---

* The provisions of the national law relating to international-type search of this State will be published in a future issue of this Gazette.

.....

(3) If the applicant so requests in writing, the Patent Office shall cause the application to be subjected to an international-type search as provided for in Article 15(5) *(a)* of the Patent Cooperation Treaty. Such a search shall be deemed to be a search of the state of the art as referred to in paragraph (1).

(4) Upon the filing of a request as provided for in paragraphs (1), (2) or (3), a fee to be prescribed by Order in Council of the Realm shall be payable.

.....

Section 17(5) of the Rules

(5) The fee payable by virtue of respectively Article 22 G (1), 22 H (1), 22 I (4), and (9), and 22 J (1), of the Patents Act of the Kingdom on the filing of a request as referred to in those Articles shall be:

.....

in the case of a request for the institution or continuation of a search into the state of the art or of a request that an international-type search be carried out on an application: Fls. 800.–;

.....

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15(5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the date on which the patent application is filed, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX: International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15(5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121(2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

United States of America

Sections 1.104(c) and (d) and 1.21(w) of the Code of Federal Regulations, Title 37 - Patents, Trademarks, and Copyrights, Subchapter A - General, Patents, Part I - Rules of Practice in Patent Cases, read as follows:

"1.104 Nature of examination; examiner's action

.....

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See paragraph 1.21(w) for amount of fee for preparation of international-type search report.

Note. The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

"1.21 Patent and miscellaneous fees and charges

.....

(w) For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application - $ 25.

Note. The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application.

....."

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

German Patent Office

National fee. The applicant is *not required to pay* the national (filing) fee to the German Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Fee for requesting examination. The fee for requesting examination of an application for a patent, which the applicant is required to pay to the German Patent Office, *is reduced* to 250 Deutsche Mark (from 400 Deutsche Mark) when an international search report has been established in respect of his application (as an international application designating the Federal Republic of Germany for the purposes of a national patent).

Netherlands Patent Office

Fee for requesting search. A refund of 25%, 50%, 75% or 100% of the fee (of Hfl. 800) for requesting search is given if an international search report has been annexed to the international application, the amount of refund depending on the extent to which the Netherlands Patent Office benefits from that international search report.

United Kingdom Patent Office

Under Rule 102 of The Patents Rules 1978, the applicant may, in the circumstances mentioned below, request in writing the refund of the whole or part of the following fees:

The search fee (corresponding to Patents Form 9/77) – when the application was (as an international application designating the United Kingdom for the purposes of obtaining a national patent) the subject of an international search by the International Searching Authority.

The fee for substantive examination (corresponding to Patents Form 10/77) – where the application was (as an international application designating the United Kingdom) the subject of international preliminary examination carried out by the United Kingdom Patent Office in its capacity as International Preliminary Examining Authority.

The making of a refund (if any) following such a request is always at the discretion of the Comptroller-General.

European Patent Office

***Search fee** **. By virtue of decisions taken pursuant to Article 157 of the European Patent Convention, the search fee otherwise payable to the European Patent Office in respect of an application for a European patent

i) ***is not payable*** to the European Patent Office if an international search report was prepared in respect of the application (as an international application filed under the PCT) by that Office, or by the Austrian or Swedish Patent Offices;

ii) ***is reduced by 20 %*** if an international search report was prepared in respect of the application (as an international application filed under the PCT) by the Japanese Patent Office, the United States Patent and Trademark Office, or the USSR State Committee for Inventions and Discoveries.

***Examination fee** ***. By virtue of Rule 104 (b) (5) of the Implementing Regulations to the European Patent Convention and Article 12 (2) of the Rules relating to fees, the examination fee payable to the European Patent Office in respect of an application for a European patent is reduced by 50 % when an international preliminary examination report was drawn up by that Office in respect of the application (as an international application under the PCT in respect of which a demand for international preliminary examination was submitted to that Office).

---

* Article 77 (2) EPC.

** Article 94 (2) EPC.

NOTE CONCERNING THE PATENT TREATY BETWEEN SWITZERLAND AND LIECHTENSTEIN

On April 1, 1980, a Patent Treaty between Switzerland and Liechtenstein will enter into force and, on the same day, the European Patent Convention will enter into force for Liechtenstein. Certain modifications to the Administrative Instructions under the PCT relating to the designation of Switzerland and Liechtenstein in international applications will also enter into force on April 1, 1980*.

Under the Treaty between Switzerland and Liechtenstein, the two will constitute a single territory for patent purposes and the Swiss Intellectual Property Office will have assigned to it the performance of the administrative tasks related hereto. The Swiss Intellectual Property Office will also act as the receiving Office for international applications under the PCT filed by the nationals and residents of Liechtenstein. The designation of either Switzerland or Liechtenstein in an international application will automatically have the effect of the designation of both.

Until April 1, 1980, international applications which designate Switzerland (whether for the purposes of a national patent or for a European patent) will have effect for Liechtenstein once a patent is granted by virtue of the present law in Liechtenstein which extends to Liechtenstein the effect of patents having effect for Switzerland. This makes it unnecessary to designate Liechtenstein in international applications filed prior to April 1, 1980; indeed, no provision will exist for effect to be given to such a designation prior to that date.

From April 1, 1980, the designation of Switzerland and Liechtenstein (or either of them without the other) in an international application (whether for the purposes of a patent granted by the Swiss Intellectual Property Office or for the purposes of a European patent) will have the effect of a designation for the purposes of a single patent granted with reference to and having effect for both Switzerland and Liechtenstein.

The following principles will apply with respect to the designation of Switzerland and Liechtenstein (or both) in international applications**:

European Patents. If the designation is for the purposes of a European patent, the indication that a regional patent is sought (or alternatively that a European patent is sought) must be given in connection with the designation.

Patents granted by Swiss Intellectual Property Office. If a patent to be granted by the Swiss Intellectual Property Office is sought, the designation must not contain any further indications besides the name of Switzerland or Liechtenstein (or both); in particular the words "regional patent" must not be used.

Double Designations. The designation of Switzerland and Liechtenstein for the purposes of a European patent and also for the purposes of a patent granted by the Swiss Intellectual Property Office (i.e., a double designation) is also possible where either of them (or both) is (are) indicated once with the indication that a regional patent is sought and once without such indication.

No additional designation fee will be payable under the PCT by reason of the fact that Liechtenstein is included in the designation of Switzerland and *vice versa* since the effect of the Treaty between Switzerland and Liechtenstein is, for the purposes of the PCT, to create a unitary regional patent for the two States.

---

* These modifications are published on page 644 of this issue of the Gazette.

** See also Section 203 of the Administrative Instructions under the PCT as modified at page 644 of this issue of the Gazette.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PATENT COOPERATION TREATY (PCT)

MODIFICATION

The Director General of the World Intellectual Property Organization has modified Section 203 of the Administrative Instructions under the PCT pursuant to Rule 89.2 of the PCT Regulations. The text of Section 203 as so modified is set out below. The new text takes effect on April 1, 1980.

Section 203

Regional Patents

(1) Where the applicant wishes to obtain a regional patent in respect of any designated State, he shall, subject to paragraphs (2) and (3), make the indication in the request referred to in Rule 4.1*(b)*(iv) by inserting the words "regional patent", or their equivalent in the language of the international application, immediately after the indication of the said State or, where an indication has been made under Section 202, after that indication, provided that:

(i) where Article 4(1)(ii), third clause applies, and not all the States party to the regional treaty have been designated, the international application shall be treated as if all those States had been designated and as if the designations of all such States contained the said words, whether the said designations contained an indication of the wish to obtain a regional patent or, according to Article 4(1)(ii), fourth clause, are to be treated as containing such indication;

(ii) where the national law of any designated State contains a provision as referred to in Article 45(2), the International Bureau shall, according to Article 4(1)(ii), fourth clause, treat the designation as if it contained the said words even where the applicant failed to indicate them.

(2) The applicant may, instead of the words "regional patent" referred to in paragraph (1), use other words to the same effect; such words may include a reference to a patent to be granted by the European Patent Office under the Convention on the Grant of European Patents done at Munich on October 5, 1973 ("European patent"), where the regional patent which the applicant wishes to obtain is a European patent.

(3) An indication, in respect of the designation of Liechtenstein or Switzerland, or both, of the wish to obtain a regional patent shall be taken as indicating a wish to obtain a European patent in respect of those States, whereas the absence of any indication of the wish to obtain a regional patent in respect of such a designation shall be taken as indicating a wish to obtain a patent granted by the Swiss Intellectual Property Office in respect of those States.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English *
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979.

French *
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979.

German
- the May 1978 edition of the *Guide* (with Annexes in English dated August 1979).

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

Supplements to the *Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have also been issued ** in the languages indicated:

German Patent Office (English only).

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

This information was last published on pages 641 and 642 of the PCT Gazette, No. 09/1980.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European patent Convention. In the statistical table relating to the designation of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or and European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English *
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979.

French *
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979.

German
- the May 1978 edition of the *Guide* (with Annexes in English dated August 1979).

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

Supplements to the *Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have also been issued ** in the languages indicated:

German Patent Office (English only).

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

This information was last published on pages 589 and 590 of the PCT Gazette, No. 09/1980.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

This information was last published on pages 591 to 594 of the PCT Gazette, No. 09/1980.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 595 and 596 of the PCT Gazette, No. 09/1980.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 597 and 598 of the PCT Gazette, No. 09/1980.

RECEIVING OFFICES

This information was last published on pages 609 to 613 of the PCT Gazette, No. 09/1980, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

This information was last published on pages 624 to 626 of the PCT Gazette, No. 09/1980.

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO NATIONAL FEES AND TIME LIMITS

This information was last published on pages 627 to 631 of the PCT Gazette, No. 09/1980.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 632 to 634 of the PCT Gazette No. 09/1980.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last published on page 635 of the PCT Gazette, No. 09/1980.

Sweden
Royal Patent and Registration Office
For the removal of doubt, it is to be clarified that the waiver by the Royal Patent and Registration Office under Article 20(1)(a) has been revoked and that, consequently, the reference to this waiver has been omitted from the list of national Offices which entirely or in part waived their rights under Article 20. As of January 1, 1980, all international applications designating Sweden are being communicated to the Royal Patent and Registration Office.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 595 and 596 of the PCT Gazette, No. 09/1980.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 597 and 598 of the PCT Gazette, No. 09/1980.

RECEIVING OFFICES

This information was last published on pages 609 to 613 of the PCT Gazette, No. 09/1980, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

FEES PAYABLE TO THE RECEIVING OFFICE

This information is published on pages 979 to 982 of the present issue of the PCT Gazette.

FEES PAYABLE TO THE INTERNATIONAL SEARCHING AUTHORITY

This information was last published on page 618 of the PCT Gazette, No. 09/1980.

INFORMATION ON REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH

This information was last published on pages 619 and 620 of the PCT Gazette, No. 09/1980.

Fees payable under the Patent Cooperation Treaty (PCT) (continued)

FEES PAYABLE TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

This information is published on pages 983 and 984 of the present issue of the PCT Gazette.

FEES AND CHARGES PAYABLE TO THE INTERNATIONAL BUREAU

This information was last published on page 623 of the PCT Gazette, No. 09/1980.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO LANGUAGES OF TRANSLATION OF INTERNATIONAL APPLICATIONS AND INTERNATIONAL PRELIMINARY EXAMINATION REPORTS

This information was last published on pages 624 to 626 of the PCT Gazette, No. 09/1980.

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO NATIONAL FEES AND TIME LIMITS

This information is published on pages 985 to 989 of the present issue of the PCT Gazette.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 632 to 634 of the PCT Gazette No. 09/1980.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last published on page 635 of the PCT Gazette, No. 09/1980.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY, RELEVANT TO ARTICLE 45(2)

This information was last published on page 635 of the PCT Gazette, No. 09/1980.

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION, OR OTHER) TO FILE A NATIONAL APPLICATION

This information was last published on pages 636 and 637 of the PCT Gazette, No. 09/1980.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

This information was last published on pages 638 to 640 of the PCT Gazette, No. 09/1980.

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

This information was last published on pages 641 and 642 of the PCT Gazette, No. 09/1980.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English*
– the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
– the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

Supplements to the *Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have also been issued** in the English and French languages:

German Patent Office (English, February 1980; French, April 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

This information was last published on pages 589 and 590 of the PCT Gazette, No. 09/1980.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

This information was last published on pages 591 to 594 of the PCT Gazette, No. 09/1980.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 595 and 596 of the PCT Gazette, No. 09/1980.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 597 and 598 of the PCT Gazette, No. 09/1980.

RECEIVING OFFICES

This information was last published on pages 609 to 613 of the PCT Gazette, No. 09/1980, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

FEES PAYABLE TO THE RECEIVING OFFICE

This information was last published on pages 979 to 982 of the PCT Gazette, No. 13/1980.

FEES PAYABLE TO THE INTERNATIONAL SEARCHING AUTHORITY

This information was last published on page 618 of the PCT Gazette, No. 09/1980.

INFORMATION ON REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH

This information was last published on pages 619 and 620 of the PCT Gazette, No. 09/1980.

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

The PCT Applicant's Guide in German is out of print. A revised version of the new loose leaf format is going to be published during the second half of 1980. Enquiries and subscriptions are to be directed to:

Carl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, Federal Republic of Germany.

Supplements to the *Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have also been issued** in the English and French languages:

German Patent Office (English, February 1980; French, April 1980),
Japanese Patent Office (May 1980),
Swiss Patent Office (May 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

Australia	March 31, 1980 (2)
Austria	April 23, 1979 (2)
Brazil	April 9, 1978 (1)
Cameroon	January 24, 1978 (1)
Central African Republic	January 24, 1978 (1)
Chad	January 24, 1978 (1)
Congo	January 24, 1978 (1)
Denmark *	December 1, 1978 (2)
Democratic People's Republic of Korea	July 8, 1980 (2)
France *	February 25, 1978 (1)

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	**Subject Matter that will not be Searched by the Authority**	**The International Applications must be in one of the following Languages to be accepted for International Search**
Australia		
Australian Patent Office (March 31, 1980)	The subject matter specified in items (i) to (v) of the PCT, Rule 39.1*. (See article 6 and Annex B of the Agreement, PCT Gazette, No. 09/1980 pages 600 and 604	English
Austria		
Austrian Patent Office (April 23, 1979)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*, with the exception of diagnostic methods which are not practiced on the human body. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 06/1979, pages 219 and 222).	English French German
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136, and No. 07/1978, page 349).	Russian English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Applications must be in one of the following Languages to be accepted for International Search
Sweden Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish
United States of America United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, PCT Gazette, No. 02/1978, pages 140 and 144).	English
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	Dutch** English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

** Where the international application is filed with the central industrial property Office of the Netherlands.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Applications must be in one of the following Languages to be accepted for International Preliminary Examination
Australia		
Australian Patent Office (March 31, 1980)	The subject matter specified in items (i) to (v) of the PCT, Rule 67.1*. (See article 6 and Annex B of the Agreement, PCT Gazette No. 09/1980 pages 600 and 604.	English
Austria		
Austrian Patent Office (April 23, 1979)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*, with the exception of diagnostic methods which are not practiced on the human body. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 06/1979, pages 219 and 222).	English French German
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136, and No. 07/1978, page 349).	Russian English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Applications must be in one of the following Languages to be accepted for International Preliminary Examination
Sweden Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish
United Kingdom Patent Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*. (See Article 6 of the Agreement, PCT Gazette, No. 02/1978, page 126).	English (but only where it is the language of filing or publication)
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

NOTIFICATIONS RECEIVED FROM INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

European Patent Office:

The International Bureau of WIPO has been notified that, in respect of international applications filed *on or after* December 1, 1979, the European Patent Office has ceased applying, in its capacity as International Preliminary Examining Authority, all limitations on international preliminary examination by reference to technical fields pursuant to Article 6 of the Agreement between the International Bureau and the European Patent Organisation dated April 11, 1978 *. In the case of an international application filed in one of the periods (*before* December 1, 1979) indicated in the columns appearing below, international preliminary examination will be carried out by the European Patent Office, in its capacity as International Preliminary Examining Authority, when (and only when) the application relates to one of the technical fields (defined by the symbols of the International Patent Classification) listed in the column in which the period appears.

Note: The fees set out in the table above are payable only in particular circumstances.

INFORMATION ON REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH *

International Searching Authority	Conditions for making refund	Amount of refund
Austria		
Austrian Patent Office *(PCT Gazette No. 06/1979, pages 217 to 223)*	The Authority benefits from the prior search report to the full extent or to a substantially prevailing portion	75%
Japan		
Japanese Patent Office *(PCT Gazette No. 04/1978, pages 213 to 221)*	(1) Request for refund by applicant (2) Authority has been able to make use of a considerable part of the earlier search report	12.000 yen
Soviet Union		
USSR State Committee for Inventions and Discoveries *(PCT Gazette No. 02/1978, pages 130 to 138)*	The prior search was so complete that only a minor updating search is required	90%
	The prior search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1-3 additional IPC-Subgroups	70%
	The prior search saves one half of the efforts usually made to carry out international search	40%
	The prior search applies only to a few IPC-Subgroups	20%
Sweden		
Royal Patent and Registration Office (Stockholm) *(PCT Gazette No. 02/1978, pages 116 to 124)*	The Authority benefits from the prior search report	90% 75% 50% or 25% depending on the extent of benefit

* This table summarizes the circumstances in which, and the extent to which, each of the International Searching Authorities will refund to the applicant the search fee paid when the international search can be based, whether wholly or in part, on an earlier international or international-type search carried out by that Authority. The table summarizes what is stated in this respect in the Agreements between WIPO and each of the said Authorities (each such Agreement is indicated below the name of the Authority concerned by the reference to the PCT Gazette in which it was published). Relevant additional information is set out in the notes at the foot of this table. The making of the refunds according to the Agreements mentioned above is provided for in Rules 16.3 and 41.1 of the Regulations under the PCT.

Information on refunds of the search fee by the International Searching Authorities in the case of earlier international or international-type search *

International Searching Authority	Conditions for making refund	Amount of refund
United States of America		
United States Patent and Trademark Office *(PCT Gazette No. 02/1978, pages 139 to 145)*	A determination by the examiner that one of the following criteria has been met:	
	(1) The prior search was substantially complete; only an updating search or short search was required	90%
	(2) The prior search was of some significant benefit but not enough to justify a 90% refund	45%
EPO		
European Patent Office *(PCT Gazette No. 02/1978, pages 107 to 115)*	The Authority benefits from the prior search report	100% 75% 50% or 25% depending on the extent of benefit

Notes

(1) ***United States Patent and Trademark Office.*** A search of the prior art in an earlier national (U.S.) application is regarded as an international-type search in determining whether a refund shall be made. Refunds are also made according to the same criteria and the same percentages of the search fees paid in respect of international applications where the prior art searches made during the subsequent examination of national (U.S.) applications are wholly or partly based on (earlier) international searches made in the international applications.

(2) ***European Patent Office.*** Searches are accepted as international-type searches for the purposes of making refunds when made by the European Patent Office

(i) on (an earlier) European patent application;

(ii) on (an earlier) national application (in France, Germany (Federal Republic of), the Netherlands and Switzerland);

(iii) as a privately commissioned "standard" search.

The following criteria have been adopted for determining the amount of the refund of the search fee:

- 100% refund: no supplementary search performed;
- 75% refund: supplementary search performed in documentation relating to one or more sub-divisions consulted in the earlier search *or* extended to one or more sub-divisions not yet consulted;
- 50% refund: supplementary search performed in the documentation relating to one or more sub-divisions already consulted *and* extended to one or more sub-divisions not yet consulted;
- 25% refund: supplementary search performed in documentation relating to sub-divisions concerning a new aspect of the invention claimed. (For instance, cases where the European application is based on several earlier applications only one of which was the subject of an earlier search report.)

FEES PAYABLE TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

Luxembourg

Ministry of National Economy, Patent Office

Waived entirely.

United States of America

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The *United States of America* is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

Denmark, Hungary*the Netherlands, Norway*, Sweden, Switzerland and the United States of America are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in a accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15 (5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patent Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a tranlation of the application in a language prescribed by the patent authority.

(2) If the applicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Netherlands

Section 22I of the Patents Act as revised in 1978 and Section 17(5) of the Patents Rules as revised in 1979 (both entered into force on February 1, 1979) read as follows (text provided by the Netherlands Patent Office, Rijswijk):

Section 22I of the Act

(1) Where the applicant so requests in writing, the Patent Office shall make a search of the state of the art in respect of that which is to be considered the subject matter of the application by virtue of the provisions by or under Section 5A.....

---

* The provisions of the national law relating to international-type search of this State will be published in a future issue of this Gazette.

.....

(3) If the applicant so requests in writing, the Patent Office shall cause the application to be subjected to an international-type search as provided for in Article 15(5) *(a)* of the Patent Cooperation Treaty. Such a search shall be deemed to be a search of the state of the art as referred to in paragraph (1).

(4) Upon the filing of a request as provided for in paragraphs (1), (2) or (3), a fee to be prescribed by Order in Council of the Realm shall be payable.

.....

Section 17(5) of the Rules

(5) The fee payable by virtue of respectively Article 22 G (1), 22 H (1), 22 I (4), and (9), and 22 J (1), of the Patents Act of the Kingdom on the filing of a request as referred to in those Articles shall be:

.....

in the case of a request for the institution or continuation of a search into the state of the art or of a request that an international-type search be carried out on an application: Fls. 800.–;

.....

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15(5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the date on which the patent application is filed, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX: International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15 (5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121 (2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126 (1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

United States of America

Sections 1.104 (c) and (d) and 1.21 (w) of the Code of Federal Regulations, Title 37 - Patents, Trademarks, and Copyrights, Subchapter A - General, Patents, Part I - Rules of Practice in Patent Cases, read as follows:

"1.104 Nature of examination; examiner's action

.....

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See paragraph 1.21 (w) for amount of fee for preparation of international-type search report.

Note. The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

"1.21 Patent and miscellaneous fees and charges

.....

(w) For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application - $ 25.

Note. The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application.

....."

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

German Patent Office

National fee. The applicant is *not required to pay* the national (filing) fee to the German Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Fee for requesting examination. The fee for requesting examination of an application for a patent, which the applicant is required to pay to the German Patent Office, *is reduced* to 250 Deutsche Mark (from 400 Deutsche Mark) when an international search report has been established in respect of his application (as an international application designating the Federal Republic of Germany for the purposes of a national patent).

Netherlands Patent Office

Fee for requesting search. A refund of 25%, 50%, 75% or 100% of the fee (of Hfl. 800) for requesting search is given if an international search report has been annexed to the international application, the amount of refund depending on the extent to which the Netherlands Patent Office benefits from that international search report.

United Kingdom Patent Office

Under Rule 102 of The Patents Rules 1978, the applicant may, in the circumstances mentioned below, request in writing the refund of the whole or part of the following fees:

The search fee (corresponding to Patents Form 9/77) – when the application was (as an international application designating the United Kingdom for the purposes of obtaining a national patent) the subject of an international search by the International Searching Authority.

The fee for substantive examination (corresponding to Patents Form 10/77) – where the application was (as an international application designating the United Kingdom) the subject of international preliminary examination carried out by the United Kingdom Patent Office in its capacity as International Preliminary Examining Authority.

The making of a refund (if any) following such a request is always at the discretion of the Comptroller-General.

European Patent Office

***Search fee** *.* By virtue of decisions taken pursuant to Article 157 of the European Patent Convention, the search fee otherwise payable to the European Patent Office in respect of an application for a European patent

i) ***is not payable*** to the European Patent Office if an international search report was prepared in respect of the application (as an international application filed under the PCT) by that Office, or by the Austrian or Swedish Patent Offices;

ii) ***is reduced by 20 %*** if an international search report was prepared in respect of the application (as an international application filed under the PCT) by the Japanese Patent Office, the United States Patent and Trademark Office, or the USSR State Committee for Inventions and Discoveries.

***Examination fee** **.* By virtue of Rule 104(b)(5) of the Implementing Regulations to the European Patent Convention and Article 12(2) of the Rules relating to fees, the examination fee payable to the European Patent Office in respect of an application for a European patent is reduced by 50% when an international preliminary examination report was drawn up by that Office in respect of the application (as an international application under the PCT in respect of which a demand for international preliminary examination was submitted to that Office).

---

* Article 77(2) EPC.

** Article 94(2) EPC.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

The PCT Applicant's Guide in German is out of print. A revised version of the new loose leaf format is going to be published during the second half of 1980. Enquiries and subscriptions are to be directed to:

Carl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, Federal Republic of Germany.

Supplements to the *Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have also been issued** in the English and French languages:

German Patent Office (English, February 1980; French, April 1980),
Japanese Patent Office (May 1980),
Swiss Patent Office (May 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO NATIONAL FEES AND TIME LIMITS

This information was last published on pages 1180 to 1184 of the PCT Gazette, No. 16/1980.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 1185 to 1187 of the PCT Gazette No. 16/1980.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last published on page 1188 of the PCT Gazette, No. 16/1980.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY, RELEVANT TO ARTICLE 45(2)

This information was last published on page 1188 of the PCT Gazette, No. 16/1980.

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION, OR OTHER) TO FILE A NATIONAL APPLICATION

This information was last published on pages 1189 and 1190 of the PCT Gazette, No. 16/1980.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

This information was last published on pages 1191 to 1193 of the PCT Gazette, No. 16/1980.

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

This information was last published on pages 1194 and 1195 of the PCT Gazette, No. 16/1980.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION (PCT UNION)

ASSEMBLY

Fifth Session
(Third Extraordinary)

(Geneva, June 9 to 16, 1980)

Note *

The Assembly of the International Patent Cooperation Union (PCT Union) held its fifth session (3rd extraordinary) in Geneva from June 9 to 16, 1980.

Nineteen of the 29 Contracting States were represented at the session: Australia, Austria, Brazil, Denmark, France, Germany (Federal Republic of), Hungary, Japan, Liechtenstein, Luxembourg, Madagascar, Netherlands, Norway, Romania, Soviet Union, Sweden, Switzerland, United Kingdom, United States of America.

Six other States participated in the session as observers: Finland, Italy, Niger, Spain, Turkey and Zaire.

One intergovernmental organization, the European Patent Organisation (EPO), and the following ten international non-governmental organizations, were represented by observers: Council of European Industrial Federations (CEIF), Committee of National Institutes of Patent Agents (CNIPA), European Federation of Agents of Industry in Industrial Property (FEMIPI), International Association for the protection of Industrial Property (IAPIP), International Chamber of Commerce (ICC), International Federation of Inventors' Associations (IFIA), International Federation of Patent Agents (FICPI), International Federation of Pharmaceutical Manufacturers Associations (IFPMA), Union of European Practitioners in Industrial Property (UNION), and Union of Industries of the European Community (UNICE).

The list of participants follows this Note.

Amendments to the PCT Regulations. The Assembly adopted amendments to a number of Rules of the PCT Regulations and to the Schedule of Fees annexed thereto, deleted a few existing Rules and adopted several new Rules *. Except for new Rule 13*bis*, which will enter into effect on January 1, 1981, all of the amendments, deletions and additions will enter into effect on October 1, 1980. The commentary below deals with the more significant of the amendments and new Rules.

---

* See pages 1264 to 1279 for the amended Rules (including those from which deletions have been made), the amended Schedule of Fees and the new Rules. The amended Rules are Rules 4.1(b), 4.8(b), 4.10(b), 4.11, 10.1(b), 11.2(d), 11.12, 11.13(j), 13.2, 17.1, 19.2, 22.5, 30.1, 41, 46.2, 47.1(c), 49.3, 55.1, 57.4(b), 57.5(b), 60.1(b), 60.2(b), 76.3, 80.6, 90.3(a) and 92.1; the additional new Rules are Rules 11.10(d), 13*bis*, 16*bis*, 20.3*bis*, 90.3(d), 91.2, 92.4 and 92*bis*; the Rules deleted were Rules 10.1(c), 15.5, 18.5 and 54.4.

Microorganisms. New Rule 13*bis* was added to facilitate the filing of international applications relating to or involving the use of microorganisms which are not available to the public but have been deposited with a depositary institution. The Rule sets out the indications concerning such a deposit which must be included in an international application or furnished later (generally within 16 months after the priority date). Compliance with any national requirements diverging from this Rule will only be necessary if a designated State has notified the International Bureau of WIPO of the national requirement and the national requirement has been published in the PCT Gazette at least 2 months before the filing of the international application. Any notifications received by the International Bureau of WIPO will be published in an issue of the PCT Gazette late in October 1980.

During such time as the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure does not govern the depositary institution with which a microorganism may be deposited for the purposes of any designated State, a deposit conforming with the law of the designated State will be required. The issue of the PCT Gazette referred to above will also contain notifications as to the depositary institutions with which deposits of microorganisms may be made for each such Office as well as those Offices whose national law does not make provision for such deposits.

Late Payment of Fees. New Rule 16*bis* was added to provide greater security to the applicant and his professional representative in the case of a mistake (as to the prescribed amount) or delay (beyond the prescribed time limit) in the payment of fees to the receiving Office (transmittal fee, search fee, basic fee and designation fees). The system introduced by the new Rule guarantees that any such mistake or delay will not result in a loss of rights without the International Bureau of WIPO first having issued an invitation to the applicant to pay any amount that was missing when the time for payment expired. Payment pursuant to such an invitation will be subject to a surcharge which in general will be equal to 50% of the missing amount but which will have an upper limit of 500 Swiss francs and a lower limit of 200 Swiss francs. Any payment made in conformity with such an invitation will be regarded as if it had been made within the prescribed--but, in fact, missed--time limit.

Because some receiving Offices may not be able to make the necessary adjustment in their own procedures for applying the new Rule 16*bis* at least when it first comes into effect on October 1, 1980, a receiving Office may exclude its own participation in the system by a notice to the International Bureau prior to September 1, 1980. Any such notification will be published in an issue of the PCT Gazette published late in September 1980. The subsequent withdrawal of any such notification will also be published in the PCT Gazette whenever notification of such withdrawal is received.

Priority Documents. Under Rule 17.1, as amended, the priority document may be submitted to the receiving Office not only at the time of filing the international application but at any time thereafter up to the expiration of 16 months from the priority date. The amended Rule also provides that the applicant, instead of submitting the priority document to the receiving Office, may simply address a request, up to the expiration of 16 months from the priority date, to the receiving Office asking it to transmit the priority document to the International Bureau of WIPO if the said priority document is an application which was filed with the receiving Office.

Competent Receiving Office In Case of Several Applicants. Rule 19.2 was amended to ensure that, where there are several applicants, the question could no longer be raised whether the international application was filed with the competent receiving Office merely on the basis that the applicants were not named in the request in a particular order.

Date of Amendments to Claims. Under Rule 46.2, as amended, the applicant will be notified of the date of receipt of amendments to the claims filed under Article 19(1) of the PCT having regard, in particular, to the desirability for the applicant to know that the amendments have been received in time especially if a translation must be submitted to a designated Office in order to enter the national phase before such Office.

Communication of Copy of International Application to Designated Offices. Amended Rule 47.1(e) provides greater security to the applicant with regard to the communication of the international application to the designated Offices pursuant to Article 20 of the PCT. Under the amended Rule, the International Bureau of WIPO will, besides notifying the applicant of the communication, also notify the designated Office separately from the communication itself. This separate notification will be conclusive evidence of the communication having taken place * and in particular will avoid the possibility of the applicant himself being required to provide a copy of the international application in the event of the communication of which he is notified by the International Bureau being defective.

Effective Date of Demand for International Preliminary Examination. Amendments adopted to Rules 57.4 and 57.5 will avoid the consequence (existing prior to the adoption of the amendments) that late payment of the handling fee or the supplement to the handling fee sets back the time at which a demand is considered to have been submitted. Since a demand which was submitted before the expiration of the 19th month from the priority date might, on account of such setting back, be considered as having been submitted later than the expiration of the 19th month from the priority date, the possible consequence of such setting back was that the time for entering the national phase would fall due earlier--at the expiration of the 20th month after the priority date rather than at the expiration of the 25th month after the priority date (under Article 40(1) of the PCT)--than expected by the applicant. Amendments adopted to Rules 60.1(b) and 60.2(b) will also minimize the possibility of this occurring due to defects in the demand or a later election.

Delays in the Mail. Following the amendment of Rule 80.6, an additional possibility has been established for extending, in the event of delays in the mail, time limits counted as from a date (of mailing) indicated in the document **; the additional possibility arises if the mailed document is shown to have been received in excess of 7 days after the date of mailing indicated in the document. The extension of the time limit, in such case, is by the same number of days as the date of receipt is later than 7 days after the date of mailing indicated in the document. Since it appears that certain Offices which had applied the existing text of Rule 80.6 might have to amend their laws, provision was made for exclusion of the obligation to provide the additional possibility by notification to the International Bureau of WIPO. Such exclusion would mainly affect applicants in the countries concerned. Any such notifications received by the International Bureau will be published in an issue of the PCT Gazette late in September 1980.

Communications By Telegram, Teleprinter, etc. Under new Rule 92.4, the International Bureau will publish information as to the possibility of telegraphic, teleprinter or other like communication to Offices under the PCT of documents subsequent to the international application. Whenever advantage is taken of the possibility of communication by such means, the communication must be followed within 14 days by a communication by the means previously prescribed (usually a letter).

Transmittal of Record Copy. In addition to the amendments adopted by it, the Assembly also discussed the amendment of Rule 22.3 in order to afford greater security to applicants with regard to the transmittal of the record copies of international applications to the International Bureau of WIPO. The Assembly was unable to adopt any amendment at its present session, having regard to procedural requirements under the PCT, but agreed to adopt, at its session late in September 1980, amendments to Rule 22.3(a) and, consequentially, also to Rule 22.2(e), which will extend by an additional month the time available to the applicant to remedy any undue delay in the transmittal of the record copy to the International Bureau. The Assembly also agreed to delete Rule 22.3(b) at its September 1980 session so as to permit provisions enabling time limits to be extended where there are delays in the mail to apply to the transmittal of the record copy to the International Bureau.

---

* It was noted, however, that for an interim period until the patent law is changed, that law will not permit the new system to operate in the case of the communication of international applications to the Swedish Patent Office.

** As for example, under Rules 16*bis*.2, 20.2(a)(ii) and 20.6(b) (see also Rule 20.7), 26.2 (see also Rule 26.5), 29.4, 38.2, 40.3, 46.1 (see also Rule 47.1(b)), 51.1, 51.3, 55.2(d), 57.4(a), 57.5(a), 58.2(b), 60.1(a), 60.2(a), 66.7(c) and 68.2.

Development of the PCT Union. The Assembly considered a report by the International Bureau of WIPO on progress to date with regard to ratification of or accession to the PCT (at the time of the session by 29 Contracting States). The Assembly also noted statements by the delegations of Finland *, Italy and Spain concerning progress towards ratification of, or accession to, the PCT by those States and adopted a resolution inviting all States members of the Paris Union for the Protection of Industrial Property which are not members of the PCT Union to take, at an early date, the steps necessary to become members of the PCT Union.

With regard to States parties to regional treaties, the Assembly noted the desirability of all States parties to the European Patent Convention and the Libreville Agreement (establishing the African Intellectual Property Organization) being also party to the PCT in view of the disadvantages which flow from the present situation when certain States party to those treaties are not party to the PCT. As far as the European Patent Convention is concerned, this applies particularly to Belgium and Italy, the only two States party to the said Convention which are not yet party to the PCT.

The Assembly also considered a report on the state of acceptance of Chapter II by PCT Contracting States in which it was indicated that 22 out of the 29 States party to the PCT [1] had accepted Chapter II of the PCT and that most of the seven States which had not accepted Chapter II were expected to accept Chapter II at a later stage. Having noted the state of acceptance of Chapter II of the PCT, the Assembly expressed its interest in the acceptance of Chapter II by all Contracting States of the PCT.

---

* As announced in the statement made by the Delegation of Finland, an instrument of ratification of the PCT was deposited on July 1, 1980, with the consequence that the PCT will enter into effect for Finland on October 1, 1980.

1) Finland which, in the meantime, became the 30th State to accede to the PCT, accepted Chapter II.

LIST OF PARTICIPANTS

I. Member States

Australia: F. J. Smith; D. B. Fitzpatrick; D. A. Freckleton; H. Freeman. **Austria:** H. Marchart. **Brazil:** A. G. Bahadian; G. R. Coaracy; M. M. R. Mittelbach. **Denmark:** D. Simonsen; J. Dam. **France:** G. Vianes; P. Guérin. **Germany (Federal Republic of):** U. C. Hallmann. **Hungary:** Z. Szilvassy; E. Parragh. **Japan:** I. Shamoto; Y. Masuda; S. Uemura. **Liechtenstein:** A. F. Gerliczy-Burian. **Luxembourg:** F. Schlesser. **Madagascar:** S. Rabearivelo. **Netherlands:** J. Dekker; S. de Vries. **Norway:** P. T. Lossius; I. Lillevik. **Romania:** I. Marinescu; T. Melescanu. **Soviet Union:** L. Komarov; E. Buryak; K. Saenko. **Sweden:** E. Tersmeden; L. G. Björklund; B. Sandberg. **Switzerland:** J.-L. Comte; R. Kämpf; M. Leuthold. **United Kingdom:** D. F. Carter; C. G. M. Hoptroff. **United States of America:** H. D. Hoinkes; L. Maassel.

II. Observers

States

Finland: P. Salmi. **Italy:** G. Caggiano. **Niger:** H. Alou. **Spain:** J. M. Garcia Oyaregui; A. Casado Cervico. **Turkey:** E. Tümer. **Zaire:** K. Luanda.

Intergovernmental Organizations

European Patent Organisation (EPO): J. Staehelin; G. D. Kolle; E. Simon

International Non-Governmental Organizations

Council of European Industrial Federations (CEIF): J. L. Beton. **Committee of National Institutes of Patent Agents (CNIPA):** R. P. Lloyd. **European Federation of Agents of Industry in Industrial Property (FEMIPI):** F. A. Jenny; G. Tasset; C. Gugerell. **International Association for the Protection of Industrial Property (IAPIP):** G. R. Clark; G. Tasset. **International Chamber of Commerce (ICC):** R. Hervé. **International Federation of Inventors' Associations (IFIA):** S.-E. Angert. **International Federation of Patent Agents (FICPI):** H. Bardehle. **International Federation of Pharmaceutical Manufacturers Associations (IFPMA):** G. Tasset. **Union of European Practitioners in Industrial Property (UNION):** G. E. Kirker. **Union of Industries of the European Community (UNICE):** R. Kockläuner; C. G. Wickham.

III. Officers

Acting Chairman: J.-L. Comte (Switzerland); *Secretary:* E. M. Haddrick (WIPO).

IV. International Bureau of WIPO

A. Bogsch *(Director General);* K. Pfanner *(Deputy Director General);* E. M. Haddrick *(Director, PCT Division);* J. Franklin *(Deputy Head, PCT Division);* B. Bartels *(Head, PCT Legal and General Section);* D. Bouchez *(Head, PCT Publications Section);* N. Scherrer *(Head, PCT Fees, Sales and Statistics Section);* V. Troussov *(Senior Counsellor, PCT Legal and General Section);* A. Okawa *(Counsellor, PCT Examination Section);* F. Simon *(Consultant, PCT Legal and General Section).*

Amendments

Rule 4

The Request (Contents)

4.1 *Mandatory and Optional Contents; Signature*

(a) [No change]

(b) The request shall, where applicable, contain:

(i) a priority claim,

(ii) a reference to any earlier international, international-type or other search,

(iii) choices of certain kinds of protection,

(iv) an indication that the applicant wishes to obtain a regional patent and the names of the designated States for which he wishes to obtain such a patent,

(v) a reference to a parent application or parent patent.

(c) [No change]

(d) [No change]

4.2 [No change]

4.3 [No change]

4.4 [No change]

4.5 [No change]

4.6 [No change]

4.7 [No change]

4.8 *Representation of Several Applicants Not Having a Common Agent*

(a) [No change]

(b) If there is more than one applicant and the request does not refer to an agent representing all the applicants and it does not comply with the requirement of designating one of the applicants as provided in paragraph (a), the common representative shall be the applicant first named in the request who is entitled to file an international application with the receiving Office with which the international application was filed (Rule 19.1(a)).

4.9 [No change]

4.10 *Priority Claim*

(a) [No change]

(b) If the request does not indicate both

(i) when the earlier application is not a regional or an international application, the country in which it was filed; when the earlier application is a regional or an international application, at least one country for which it was filed, and

(ii) the date on which it was filed,

the priority claim shall, for the purposes of the procedure under the Treaty, be considered not to have been made except where, resulting from an obvious error of transcription, the indication of the said country or the said date is missing or is erroneous; whenever the identity or correct identity of the said country, or the said date or the correct date, may be established on the basis of the copy of the earlier application which the receiving Office receives before it transmits the record copy to the International Bureau, the error shall be considered as an obvious error.

(c) [No change]

(d) [No change]

(e) [No change]

4.11 *Reference to Earlier Search*

If an international or international-type search has been requested on an application under Article 15(5) or if the applicant wishes the International Searching Authority to base the international search report wholly or in part on the results of a search, other than an international or international-type search, made by the national Office or intergovernmental organization which is the International Searching Authority competent for the international application, the request shall contain a reference to that fact. Such reference shall either identify the application (or its translation, as the case may be) in respect of which the earlier search was made by indicating country, date and number, or the said search by indicating, where applicable, date and number of the request for such search.

4.12 [No change]

4.13 [No change]

4.14 [No change]

4.15 [No change]

4.16 [No change]

4.17 [No change]

Rule 10

Terminology and Signs

10.1 *Terminology and Signs*

(a) [No change]

(b) Temperatures shall be expressed in degrees Celsius, or also expressed in degrees Celsius, if first expressed in a different manner.

(c) [Deleted]

(d) [No change]

(e) [No change]

(f) [No change]

10.2 [No change]

Rule 11

Physical Requirements of the International Application

11.1 [No change]

11.2 *Fitness for Reproduction*

(a) [No change]

(b) [No change]

(c) [No change]

(d) Subject to Rule 11.10(d) and Rule 11.13(j), each sheet shall be used in an upright position (i.e., the short sides at the top and bottom).

11.3 [No change]

11.4 [No change]

11.5 [No change]

11.6 [No change]

11.7 [No change]

11.8 [No change]

11.9 [No change]

11.10 *Drawings, Formulae, and Tables, in Text Matter*

(a) [No change]

(b) [No change]

(c) [No change]

(d) Tables and chemical or mathematical formulae may be placed sideways on the sheet if they cannot be presented satisfactorily in an upright position thereon; sheets on which tables or chemical or mathematical formulae are presented sideways shall be so presented that the tops of the tables or formulae are at the left side of the sheet.

11.11 [No change]

11.12 *Alterations, Etc.*

Each sheet shall be reasonably free from erasures and shall be free from alterations, overwritings, and interlineations. Non-compliance with this Rule may be authorized if the authenticity of the content is not in question and the requirements for good reproduction are not in jeopardy.

11.13 *Special Requirements for Drawings*

(a) [No change]

(b) [No change]

(c) [No change]

(d) [No change]

(e) [No change]

(f) [No change]

(g) [No change]

(h) [No change]

(i) [No change]

(j) The different figures shall be arranged on a sheet or sheets without wasting space, preferably in an upright position, clearly separated from one another. Where the figures are not arranged in an upright position, they shall be presented sideways with the top of the figures at the left side of the sheet.

(k) [No change]

(l) [No change]

(m) [No change]

(n) [No change]

11.14 [No change]

11.15 [No change]

Rule 13

Unity of Invention

13.1 [No change]

13.2 *Claims of Different Categories*

Rule 13.1 shall be construed as permitting, in particular, one of the following three possibilities:

(i) in addition to an independent claim for a given product, the inclusion in the same international application of an independent claim for a process specially adapted for the manufacture of the said product, and the inclusion in the same international application of an independent claim for a use of the said product, or

(ii) in addition to an independent claim for a given process, the inclusion in the same international application of an independent claim for an apparatus or means specifically designed for carrying out the said process, or

(iii) in addition to an independent claim for a given product, the inclusion in the same international application of an independent claim for a process specially adapted for the manufacture of the product, and the inclusion in the same international application of an independent claim for an apparatus or means specifically designed for carrying out the process.

13.3 [No change]

13.4 [No change]

13.5 [No change]

Rule 13bis

Microbiological Inventions

13*bis*.1 *Definition*

For the purposes of this Rule, "reference to a deposited microorganism" means particulars given in an international application with respect to the deposit of a microorganism with a depositary institution or to the microorganism so deposited.

13*bis*.2 *References (General)*

Any reference to a deposited microorganism shall be made in accordance with this Rule and, if so made, shall be considered as satisfying the requirements of the national law of each designated State.

13*bis*.3 *References: Contents; Failure to Include Reference or Indication*

(a) A reference to a deposited microorganism shall indicate,

(i) the name and address of the depositary institution with which the deposit was made;

(ii) the date of deposit of the microorganism with that institution;

(iii) the accession number given to the deposit by that institution; and

(iv) any additional matter of which the International Bureau has been notified pursuant to Rule 13*bis*.7(a)(i), provided that the requirement to indicate that matter was published in the Gazette in accordance with Rule 13*bis*.7(c) at least two months before the filing of the international application.

(b) Failure to include a reference to a deposited microorganism or failure to include, in a reference to a deposited microorganism, an indication in accordance with paragraph (a), shall have no consequence in any designated State whose national law does not require such reference or such indication in a national application.

13*bis*.4 *References: Time of Furnishing Indications*

If any of the indications referred to in Rule 13*bis*.3(a) is not included in a reference to a deposited microorganism in the international application as filed but is furnished by the applicant to the International Bureau within 16 months after the priority date, the indication shall be considered by any designated Office to have been furnished in time unless its national law requires the indication to be furnished at an earlier time in the case of a national application and the International Bureau has been notified of such requirement pursuant to Rule 13*bis*.7(a)(ii), provided that the International Bureau has published such requirement in the Gazette in accordance with Rule 13*bis*.7(c) at least two months before the filing of the international application. In the event that the applicant

makes a request for early publication under Article 21(2)(b), however, any designated Office may consider any indication not furnished by the time such request is made as not having been furnished in time. Irrespective of whether the applicable time limit under the preceding sentences has been observed, the International Bureau shall notify the applicant and the designated Offices of the date on which it has received any indication not included in the international application as filed. The International Bureau shall indicate that date in the international publication of the international application if the indication has been furnished to it before the completion of technical preparations for international publication.

13*bis*.5 *References and Indications for the Purposes of One or More Designated States; Different Deposits for Different Designated States; Deposits with Depositary Institutions other than Those Notified*

(a) A reference to a deposited microorganism shall be considered to be made for the purposes of all designated States, unless it is expressly made for the purposes of certain of the designated States only; the same applies to the indications included in the reference.

(b) References to different deposits of the microorganism may be made for different designated States.

(c) Any designated Office shall be entitled to disregard a deposit made with a depositary institution other than one notified by it under Rule 13*bis*.7(b).

13*bis*.6 *Furnishing of Samples*

(a) Where the international application contains a reference to a deposited microorganism, the applicant shall, upon the request of the International Searching Authority or the International Preliminary Examining Authority, authorize and assure the furnishing of a sample of that microorganism by the depositary institution to the said Authority, provided that the said Authority has notified the International Bureau that it may require the furnishing of samples and that such samples will be used solely for the purposes of international search or international preliminary examination, as the case may be, and such notification has been published in the Gazette.

(b) Pursuant to Articles 23 and 40, no furnishing of samples of the deposited microorganism to which a reference is made in an international application shall, except with the authorization of the applicant, take place before the expiration of the applicable time limits after which national processing may start under the said Articles. However, where the applicant performs the acts referred to in Articles 22 or 39 after international publication but before the expiration of the said time limits, the furnishing of samples of the deposited microorganism may take place, once the said acts have been performed. Notwithstanding the previous provision, the furnishing of samples from the deposited microorganism may take place under the national law applicable for any designated Office as soon as, under that law, the international publication has the effects of the compulsory national publication of an unexamined national application.

13*bis*.7 *National Requirements: Notification and Publication*

(a) Any national Office may notify the International Bureau of any requirement of the national law,

(i) that any matter specified in the notification, in addition to those referred to in Rule 13*bis*.3(a)(i), (ii) and (iii), is required to be included in a reference to a deposited microorganism in a national application;

(ii) that one or more of the indications referred to in Rule 13*bis*.3(a) are required to be included in a national application as filed or are required to be furnished at a time specified in the notification which is earlier than 16 months after the priority date.

(b) Each national Office shall notify the International Bureau a first time before entry into force of this Rule and then each time a change occurs of the depositary institutions with which the national law permits deposits of microorganisms to be made for the purposes of patent procedure before that Office or, if the national law does not provide for or permit such deposits, of that fact.

(c) The International Bureau shall promptly publish in the Gazette requirements notified to it under paragraph (a) and information notified to it under paragraph (b).

15.6 [No change]

Rule 16bis

Advancing Fees by the International Bureau

16*bis*.1 *Guarantee by the International Bureau*

(a) Where, by the time they are due under Rule 14.1(b), Rule 15.4(a) or (c) and Rule 16.1(f), the receiving Office finds that in respect of an international application no fees were paid to it by the applicant, or that the amount paid to it by the applicant is less than what is necessary to cover the transmittal fee, the basic fee and the search fee, the receiving Office shall charge the amount required to cover those fees, or the missing part thereof, to the International Bureau and shall consider the said amount as if it had been paid by the applicant at the due time.

(b) Where, by the time it or they are due under Rule 15.4(b) or (c), the receiving Office finds that in respect of an international application the payment made by the applicant is insufficient to cover the designation fees necessary to cover all the designations, the receiving Office shall charge the amount required to cover those fees to the International Bureau and shall consider that amount as if it had been paid by the applicant at the due time.

(c) The International Bureau shall transfer from time to time to each receiving Office an amount which is expected to be necessary for covering any charges that the receiving Office has to make under paragraphs (a) and (b). The amount and the time of such transfers shall be determined by each receiving Office according to its own wish. The charging of any amount under paragraphs (a) and (b) shall not require any advance notice to, or any agreement by, the International Bureau.

(d) Each month, the receiving Office shall inform the International Bureau of the charges, if any, made under paragraphs (a) and (b).

16*bis*.2 *Obligations of the Applicant, Etc.*

(a) The International Bureau shall promptly notify the applicant of any amount by which it was charged under Rule 16*bis*.1(a) and (b) and shall invite him to pay to it, within one month from the date of the notification, the said amount augmented by a surcharge of 50%, provided that the surcharge will not be less, and will not be more, than the amounts indicated in the Schedule of Fees. The notification may refer to the charges made both under Rule 16*bis*.1(a) and (b) or, at the discretion of the International Bureau, there may be two separate notifications, one referring to charges made under Rule 16*bis*.1(a), the other referring to charges made under Rule 16*bis*.1(b).

(b) If the applicant fails to pay, within the said time limit, to the International Bureau the amount claimed, or pays less than what is needed to cover the transmittal fee, the basic fee, the search fee, one designation fee and the surcharge, the International Bureau shall notify the receiving Office accordingly, and the receiving Office shall declare the international application withdrawn under Article 14(3)(a), and the receiving Office and the International Bureau shall proceed as provided in Rule 29.

(c) If the applicant pays, within the said time limit, to the International Bureau an amount which is more than what is needed to cover the fees and surcharge referred to in paragraph (b) but less than what is needed to cover all the designations maintained, the International Bureau shall notify the receiving Office accordingly and the receiving Office shall apply the amount paid in excess of what is needed to cover the fees and surcharge referred to in paragraph (b) in an order which shall be established as follows:

(i) where the applicant indicates to which designation or designations the amount is to be applied, it shall be applied accordingly but, if the amount received is insufficient to cover the designations indicated, it shall be applied to as many designations as are covered by it in the order chosen by the applicant in indicating the designations;

(ii) to the extent that the applicant has not given the indications under item (i), the amount or the balance thereof shall be applied to the designations in the order in which they appear in the international application;

(iii) where the designation of a State is for the purposes of a regional patent and provided that the required designation fee is, under the preceding provisions, available for that designation, the designation of any further States for which the same regional patent is sought shall be considered as covered by that fee.

The receiving Office shall declare any designation not covered by the amount paid withdrawn under Article 14(3)(b) and the receiving Office, and the International Bureau shall proceed as provided in Rule 29.

(d) The receiving Office shall not return to the International Bureau any amount that it has charged to that Bureau for covering the transmittal fee.

(e) Where the international application is considered withdrawn, any amount charged to the International Bureau, other than the amount needed to cover the transmittal fee and the search fee transferred by the receiving Office to the International Searching Authority, shall be returned by the receiving Office to the International Bureau.

(f) Where the international application is considered withdrawn, any search fee charged by the receiving Office and transferred to the International Searching Authority shall be transferred by that Authority to the International Bureau unless the said Authority has already started the international search.

(g) Where paragraph (c) applies, the amount charged by the receiving Office to the International Bureau for designations which, as a consequence of the application of the order under that paragraph, are not maintained, shall be returned to the International Bureau by the receiving Office.

16*bis*.3 *Notifications*

(a) Any receiving Office may exclude the application of Rules 16*bis*.1 and 16*bis*.2 by a written notification to that effect given to the International Bureau by September 1, 1980. Such notification may be withdrawn at any time. The International Bureau shall publish all such notifications and withdrawals in the Gazette.

(b) Former Rule 15.5* remains applicable in respect of any receiving Office giving a notification under paragraph (a).

---

* Former Rule 15.5 *Partial Payment*

(a) Where the amount of the international fee received by the receiving Office is not less than that of the basic fee and at least one designation fee but less than the amount required to cover the basic fee and all the designations made in the international application, the amount received shall be applied as follows:

(i) to cover the basic fee, and

(ii) to cover as many designation fees as, after deduction of the basic fee, may be covered in full by the amount received in the order indicated in paragraph (b).

(b) The order in which the said amount shall be applied to the designations shall be established as follows:

(i) where the applicant indicates to which designation or designations the amount is to be applied, it shall be applied accordingly but, if the amount received is insufficient to cover the designations indicated, it shall be applied to as many designations as are covered by it in the order chosen by the applicant in indicating the designations;

(ii) to the extent that the applicant has not given the indications under item (i), the amount or the balance thereof shall be applied to the designations in the order in which they appear in the international application;

(iii) where the designation of a State is for the purposes of a regional patent and provided that the required designation fee is, under the preceding provisions, available for that designation, the designation of any further States for which the same regional patent is sought shall be considered as covered by that fee.

Rule 17

The Priority Document

17.1 *Obligation to Submit Copy of Earlier National Application*

(a) Where the priority of an earlier national application is claimed under Article 8 in the international application, a copy of the said national application, certified by the authority with which it was filed ("the priority document"), shall, unless already filed with the receiving Office together with the international application, be submitted by the applicant to the International Bureau or to the receiving Office not later than 16 months after the priority date or, in the case referred to in Article 23(2), not later than at the time the processing or examination is requested. Where submitted to the receiving Office, the priority document shall be transmitted by that Office to the International Bureau together with the record copy or promptly after having been received by that Office. In the latter case, the receiving Office shall indicate to the International Bureau the date on which it received the priority document.

(b) Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office to transmit the priority document to the International Bureau. Such request shall be made not later than the expiration of the applicable time limit referred to under paragraph (a) and may be subjected by the receiving Office to the payment of a fee. The receiving Office shall, promptly after receipt of such request, and, where applicable, the payment of such fee, transmit the priority document to the International Bureau with an indication of the date of receipt of such request.

(c) If the requirements of neither of the two preceding paragraphs are complied with, any designated State may disregard the priority claim.

(d) The International Bureau shall record the date on which the priority document has been received by it or by the receiving Office. Where applicable, the date of receipt by the receiving Office of a request referred to under paragraph (b) shall be recorded as the date of receipt of the priority document. The International Bureau shall notify the applicant and the designated Offices accordingly.

17.2 [No change]

Rule 18

The Applicant

18.1 [No change]

18.2 [No change]

18.3 [No change]

18.4 [No change]

18.5 [Deleted]

Rule 19

The Competent Receiving Office

19.1 [No change]

19.2 *Several Applicants*

If there are several applicants, the requirements of Rule 19.1 shall be considered to be met if the national Office with which the international application is filed is the national Office of or acting for a Contracting State of which at least one of the applicants is a resident or national.

19.3 [No change]

Rule 20

Receipt of the International Application

20.1 [No change]

20.2 [No change]

20.3 [No change]

20.3*bis* *Manner of Carrying Out Corrections*

The Administrative Instructions prescribe the manner in which corrections required under Article 11(2)(a) shall be presented by the applicant and the manner in which they shall be entered in the file of the international application.

20.4 [No change]

20.5 [No change]

20.6 [No change]

20.7 [No change]

20.8 [No change]

20.9 [No change]

Rule 22

Transmittal of the Record Copy

22.1 [No change]

22.2 [No change]

22.3 [No change]

22.4 [No change]

22.5 *Documents Filed with the International Application*

Any power of attorney and any priority document filed with the international application referred to in Rule 3.3(a)(ii) shall accompany the record copy; any other document referred to in that Rule shall be sent only at the specific request of the International Bureau. If any document referred to in Rule 3.3(a)(ii) which is indicated in the check list as accompanying the international application is not, in fact, filed at the latest by the time the record copy leaves the receiving Office, that Office shall so note on the check list and the said indication shall be considered as if it had not been made.

Rule 30

Time Limit under Article 14(4)

30.1 *Time Limit*

The time limit referred to in Article 14(4) shall be 4 months from the international filing date.

Rule 41

Earlier Search Other Than International Search

41.1 *Obligation to Use Results; Refund of Fee*

If reference has been made in the request, in the form provided for in Rule 4.11, to an international-type search carried out under the conditions set out in Article 15(5) or to a search other than an international or international-type search, the International Searching Authority shall, to the extent possible, use the results of the said search in establishing the international search report on the international application. The International Searching Authority shall refund the search fee, to the extent and under the conditions provided for in the agreement under Article 16(3)(b) or in a communication addressed to and published in the Gazette by the International Bureau, if the international search report could wholly or partly be based on the results of the said search.

Rule 46

Amendment of Claims Before the International Bureau

46.1 [No change]

46.2 *Dating of Amendments*

The date of filing of any amendment shall be recorded by the International Bureau, which shall also notify the applicant of the date and indicate the date in any publication or copy issued by it.

46.3 [No change]

46.4 [No change]

46.5 [No change]

Rule 47

Communication to Designated Offices

47.1 *Procedure*

(a) [No change]

(b) [No change]

(c) The International Bureau shall send a notice to the applicant indicating the designated Offices to which the communication has been effected and the date of such communication. Such notice shall be sent on the same day as the communication. Each designated Office shall be informed, separately from the communication, about the sending and the date of mailing of the notice. The notice shall be accepted by all designated Offices as conclusive evidence that the communication has duly taken place on the date specified in the notice.

(d) [No change]

(e) [No change]

47.3 [No change]

Rule 49

Languages of Translations and Amounts of Fees under Article 22(1) and (2)

49.1 [No change]

49.2 [No change]

49.3 *Statements under Article 19; Indications under Rule 13bis.4*

For the purposes of Article 22 and the present Rule, any statement made under Article 19(1) and any indication furnished under Rule 13*bis*.4 shall be considered part of the international application.

Rule 54

The Applicant Entitled to Make a Demand

54.1 [No change]

54.2 [No change]

54.3 [No change]

54.4 [Deleted]

Rule 55

Languages (International Preliminary Examination)

55.1 *The Demand*

The demand shall be in the language of the international application or, when a translation is required under Rule 55.2, in the language of that translation, provided that the International Preliminary Examining Authority may permit the demand to be in any language specified in the agreement concluded between the International Bureau and that Authority.

55.2 [No change]

Rule 57

The Handling Fee

57.1 [No change]

57.2 [No change]

57.3 [No change]

57.4 *Failure to Pay (Handling Fee)*

(a) [No change]

(b) If the applicant complies with the invitation within the one-month time limit, the handling fee shall be considered as if it had been paid on the due date.

(c) [No change]

57.5 *Failure to Pay (Supplement to the Handling Fee)*

(a) [No change]

(b) If the applicant complies with the invitation within the one-month time limit, the supplement to the handling fee shall be considered as if it had been paid on the due date.

(c) [No change]

57.6 [No change]

Rule 60

Certain Defects in the Demand or Elections

60.1 *Defects in the Demand*

(a) [No change]

(b) If the applicant complies with the invitation within the prescribed time limit, the demand shall be considered as if it had been received on the actual filing date, provided that the demand as submitted contained at least one election and permitted the international application to be identified; otherwise, the demand shall be considered as if it had been received on the date on which the International Preliminary Examining Authority receives the correction.

(c) [No change]

(d) [No change]

60.2 *Defects in Later Elections*

(a) [No change]

(b) If the applicant complies with the invitation within the prescribed time limit, the later election shall be considered as if it had been received on the actual filing date, provided that the later election as submitted contained at least one election and permitted the international application to be identified; otherwise, the later election shall be considered as if it had been received on the date on which the International Bureau receives the correction.

(c) [No change]

60.3 [No change]

Rule 76

Languages of Translations and Amounts of Fees under Article 39(1); Translation of Priority Document

76.1 [No change]

76.2 [No change]

76.3 *Statements under Article 19; Indications under Rule 13*bis.*4*

For the purposes of Article 39 and the present Rule, any statement made under Article 19(1) and any indication furnished under Rule 13*bis*.4 shall be considered part of the international application.

76.4 [No change]

Rule 80

Computation of Time Limits

80.1 [No change]

80.2 [No change]

80.3 [No change]

80.4 [No change]

80.5 [No change]

80.6 *Date of Documents*

(a) Where a period starts on the day of the date of a document or letter emanating from a national Office or intergovernmental organization, any interested party may prove that the said document or letter was mailed on a day later than the date it bears, in which case the date of actual mailing shall, for the purposes of computing the period, be considered to be the date on which the period starts. Irrespective of the date on which such a document or letter was mailed, if the applicant offers to the national Office or intergovernmental organization evidence which satisfies the national Office or intergovernmental organization that the document or letter was received more than 7 days after the date it bears, the national Office or intergovernmental organization shall treat the period starting from the date of the document or letter as expiring later by an additional number of days which is equal to the number of days which the document or letter was received later than 7 days after the date it bears.

(b) Any receiving Office may exclude the application of paragraph (a) by a written notification to that effect given to the International Bureau by September 1, 1980. Such notification may be withdrawn at any time. The International Bureau shall publish all such notifications and withdrawals in the Gazette.

80.7 [No change]

Rule 90

Representation

90.1 [No change]

90.2 [No change]

90.3 *Appointment*

(a) Appointment of any agent, or of any common representative within the meaning of Rule 4.8(a), shall be effected by each applicant, at his choice, either by signing the request in which the agent or common representative is designated or by a separate power of attorney (i.e., a document appointing an agent or common representative).

(b) [No change]

(c) [No change]

(d) A general power of attorney may be deposited with the receiving Office for purposes of the processing of the international application as defined in Rule 90.2(d). Reference may be made in the request to such general power of attorney, provided that a copy thereof is attached to the request by the applicant.

90.4 [No change]

Rule 91

Obvious Errors of Transcription

91.1 [No change]

91.2 *Manner of Carrying Out Rectifications*

The Administrative Instructions prescribe the manner in which rectifications of obvious errors of transcription shall be made and the manner in which they shall be entered in the file of the international application.

Rule 92

Correspondence

92.1 *Need for Letter and for Signature*

(a) [No change]

(b) If the requirements provided for in paragraph (a) are not complied with, the applicant shall be informed as to the non-compliance and invited to remedy the omission within a time limit fixed in the invitation. The time limit so fixed shall be reasonable in the circumstances; even where the time limit so fixed expires later than the time limit applying to the furnishing of the paper (or even if the latter time limit has already expired), it shall not be less than 10 days and not more than one month from the mailing of the invitation. If the omission is remedied within the time limit fixed in the invitation, the omission shall be disregarded; otherwise, the applicant shall be informed that the paper has been disregarded.

(c) Where non-compliance with the requirements provided for in paragraph (a) has been overlooked and the paper taken into account in the international procedure, the non-compliance shall be disregarded.

92.2 [No change]

92.3 [No change]

92.4 *Use of Telegraph, Teleprinter, Etc.*

(a) Notwithstanding the provisions of Rules 11.14 and 92.1(a), but subject to paragraph (b), below, any document (including any drawing) subsequent to the international application may be sent by telegraph or teleprinter or other like means of communication producing a printed or written document. Any such document so sent shall be considered to have been submitted in a form complying with the requirements of the said Rules on the day on which it was communicated by the means mentioned above, provided that, within 14 days after being so communicated, its contents are furnished in that form; otherwise, the telegraphic, teleprinter or other communication shall be considered not to have been made.

(b) Each national Office or intergovernmental organization shall promptly notify the International Bureau of any means referred to in paragraph (a) by which it is prepared to receive documents referred to in that paragraph. the International Bureau shall publish the information so received in the Gazette as well as information concerning the means referred to in paragraph (a) by which the International Bureau is prepared to receive any such document. Paragraph (a) shall apply with respect to any national Office or intergovernmental organization only to the extent the said information has been so published with respect to it. The International Bureau shall publish, from time to time, in the Gazette, changes in the information previously published.

Rule 92bis

Changes in Certain Indications in the Request or the Demand

92*bis*.1 *Recording of Changes by the International Bureau*

The International Bureau shall, on the request of the applicant or the receiving Office, record changes in the following indications appearing in the request or demand:

(i) person, name, residence, nationality or address of the applicant,

(ii) person, name or address of the agent, the common representative or the inventor.

92*bis*.2 *Notifications*

(a) The International Bureau shall give notifications concerning changes recorded by it:

(i) to the receiving Office where the change has been recorded on the request of the applicant,

(ii) as long as the international search report or the declaration referred to in Article 17(2) has not yet issued, to the International Searching Authority,

(iii) until the expiration of the time limit referred to in Article 22(1), to the designated Offices,

(iv) as long as the international preliminary examination report has not yet issued, to the International Preliminary Examining Authority,

(v) until the expiration of the time limit referred to in Article 39(1)(a), to the elected Offices.

(b) A copy of each notification sent under paragraph (a) shall be sent to the applicant by the International Bureau.

SCHEDULE OF FEES

Fees	*Amounts*
1. Basic Fee: (Rule 15.2(a)) if the international application contains not more than 30 sheets	[No change]
if the international application contains more than 30 sheets	[No change]
2. Designation Fee: (Rule 15.2(a))	[No change]
3. Handling Fee: (Rule 57.2(a))	[No change]
4. Supplement to the Handling Fee: (Rule 57.2(b))	[No change]
Surcharges	
5. Surcharge for late payment: (Rule 16*bis*.2(a))	Minimum: 200 Swiss francs Maximum: 500 Swiss francs

ADMINISTRATIVE INSTRUCTIONS UNDER THE PATENT COOPERATION TREATY (PCT)

MODIFICATION

The Director General of the World Intellectual Property Organization has modified the Administrative Instructions under the PCT pursuant to Rule 89.2 of the PCT Regulations as set out below. The modifications take effect on October 1, 1980.

Section 106

Common Agent for Several Applicants

(a) [Previous text of Section 106]

(b) Where the international application is filed with reference to a general power of attorney not signed by all the applicants, it shall be sufficient for the purpose of appointment of a common agent under Rule 90.3, if the request or a separate power of attorney is signed by the applicant, who did not sign the general power of attorney.

Section 111

Changes in Certain Indications in the Request and the Demand

Any request for the recording of any changes referred to under Rule 92*bis* shall be signed by the applicant or, if the receiving Office requested such change, by the receiving Office. The request shall clearly identify the indications the change of which is requested.

Section 204

Headings of the Parts of the Description

The headings referred to in Rule 5.1(c) should be as follows:

(i) for matter referred to in Rule 5.1(a)(i), "Technical Field";

(ii) for matter referred to in Rule 5.1(a)(ii), "Background Art";

(iii) for matter referred to in Rule 5.1(a)(iii), "Disclosure of Invention";

(iv) for matter referred to in Rule 5.1(a)(iv), "Brief Description of Drawings";

(v) for matter referred to in Rule 5.1(a)(v), "Best Mode for Carrying Out the Invention," or, where appropriate, "Mode(s) for Carrying Out the Invention";

(vi) for matter referred to in Rule 5.1(a)(vi), "Industrial Applicability."

Section 205

Numbering of Claims upon Amendment

(a) Any claim submitted after the filing date of the international application and which is not identical with the claims previously appearing in the international application shall, at the choice of the applicant, be submitted either:

(i) as an amended claim, in which case, it shall bear the same number as the previous claim it amends; that number shall be followed by the word "(amended)" or its equivalent in the language of the international application; or

(ii) as a new claim, in which case it shall bear the next number after the highest previously numbered claim; that number shall be followed by the word "(new)" or its equivalent in the language of the international application; where the consecutive order of claims requires that a new claim be given a number lower than the highest previously numbered claim, the claims following the new claim shall be renumbered; any new number shall be followed by the words "(Original claim No.)" or an equivalent of these words in the language of the international application and an indication of the original number of the renumbered claim.

(b) [No change]

Section 306

[Deleted]

ANNEX F TO THE ADMINISTRATIVE INSTRUCTIONS

FORMS

Form PCT/RO/101 (Request and Fee Calculation Sheet): page 3 of this form, as modified, appears on page 1282 of this issue of the PCT Gazette.

Form PCT/ISA/210 (International Search Report): an additional (optional) sheet for this form called "(Extra Sheet)" appears on page 1283 of this issue of the PCT Gazette.

SUPPLEMENTAL BOX... USE THIS BOX IF ANY OF THE BOXES IS NOT LARGE ENOUGH TO CONTAIN INFORMATION TO BE FURNISHED. INDICATE THE BOXES CONTINUED IN THIS BOX BY THEIR (ROMAN) NUMERALS AND TITLE (e.g.; "II. APPLICANT (CONTINUED)")

XI. **SIGNATURE OF APPLICANT** [20]

XII. **CHECK LIST** (To be filled in by the Applicant) [21]

A. This international application contains the following number of sheets:

1. request		sheets
2. description		sheets
3. claims		sheets
4. abstract		sheets
5. drawings		sheets
	Total	sheets

C. Figure number ..... of the drawings (if any) is suggested to accompany the abstract for publication.

D. Drawings (To be filled in by the receiving Office)
☐ No Drawings [22]

B. This international application as filed is accompanied by the items checked below:

1. ☐ separate signed power of attorney
2. ☐ priority document
3. ☐ receipt (e.g. revenue stamps) for the fees paid
4. ☐ cheque for the payment of fees
5. ☐ international search report
6. ☐ international-type search report
7. ☐ document in evidence of fact that applicant is successor in title of inventor
8. ☐ other document (specify)

(The following is to be filled in by the receiving Office)

1. Date of actual receipt of the purported international application:

2. Corrected date of actual receipt due to later but timely received papers or drawings completing the purported international application:

3. Date of timely receipt of the required corrections under Article 11 of the PCT:

(The following is to be filled in by the International Bureau)

Date of receipt of the record copy:

International Application No.

III. **DOCUMENTS CONSIDERED TO BE RELEVANT (CONTINUED FROM THE SECOND SHEET)**

Category *	Citation of Document, [16] with indication, where appropriate, of the relevant passages [17]	Relevant to Claim No [18]

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

The PCT Applicant's Guide in German is out of print. A revised version of the new loose leaf format is going to be published during the second half of 1980. Enquiries and subscriptions are to be directed to:

Carl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, Federal Republic of Germany.

Supplements to the *Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have also been issued** in the English and French languages:

German Patent Office (English, February 1980; French, April 1980),
Japanese Patent Office (May 1980),
Swiss Patent Office (May 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

AMENDMENTS (CORRECTION OF TEXT)

An amendment of Rule 80.6 adopted by the Assembly of the International Patent Cooperation Union (PCT Union) on June 16, 1980 was published on page 1277 of PCT Gazette No. 17/1980. The text appearing on the said page should be replaced by the following (corrected) text:

Rule 80

Computation of Time Limits

80.1 [No change]

80.2 [No change]

80.3 [No change]

80.4 [No change]

80.5 [No change]

80.6 *Date of documents*

(a) Where a period starts on the day of the date of a document or letter emanating from a national Office or intergovernmental organization, any interested party may prove that the said document or letter was mailed on a day later than the date it bears, in which case the date of actual mailing shall, for the purposes of computing the period, be considered to be the date on which the period starts. Irrespective of the date on which such a document or letter was mailed, if the applicant offers to the national Office or intergovernmental organization evidence which satisfies the national Office or intergovernmental organization that the document or letter was received more than 7 days after the date it bears, the national Office or intergovernmental organization shall treat the period starting from the date of the document or letter as expiring later by an additional number of days which is equal to the number of days which the document or letter was received later than 7 days after the date it bears.

(b) Any receiving Office may exclude the application of paragraph (a) by a written notification to that effect given to the International Bureau by September 1, 1980. Such notification may be withdrawn at any time. The International Bureau shall publish all such notifications and withdrawals in the Gazette.*

80.7 [No change]

---

* For any receiving Office which excludes the application of paragraph (a), former Rule 80.6 remains applicable. Former Rule 80.6 reads as follows:

"Date of documents"

"Where a period starts on the day of the date of a document or letter emanating from a national Office or intergovernmental organization, any interested party may prove that the said document or letter was mailed on a day later than the date it bears, in which case the date of actual mailing shall, for the purposes of computing the period, be considered to be the date on which the period starts."

AMENDMENT OF CLAIMS UNDER ARTICLE 19(1) OF THE PCT

TIME AT WHICH AMENDMENTS ARE REGARDED AS FILED WHEN NOT SUBMITTED DIRECTLY TO WIPO

Under Article 19(1) of the PCT, amendments of the claims may be filed *with the International Bureau of WIPO* within two months from the date of transmittal of the international search report to the applicant by the International Searching Authority (or, if such transmittal takes place before the expiration of 14 months from the priority date, within three months of such transmittal). Amendments received by the International Bureau after the expiration of the applicable time limit mentioned above cannot be considered for the international procedure. In other words, such out-of-time amendments can neither be published nor communicated to the designated Offices.

Amendments are sometimes received by the International Bureau of WIPO through the intermediary of the receiving Office or the International Searching Authority rather than directly from the applicant. Where the International Bureau receives amendments in this way, the amendments are considered to have been filed with the International Bureau *but only as of the time when they are received by the International Bureau.*

Applicants should therefore take into account the possibility of delays occurring in the transmission of the amendments to the International Bureau when submitting amendments otherwise than directly to WIPO in Geneva as provided in the PCT.

STATEMENTS EXPLAINING AMENDMENTS FILED UNDER ARTICLE 19

When the International Bureau of WIPO publishes international applications (in the form of "PCT pamphlets"), it must publish as well not only amendments filed under Article 19(1) but also any statement filed under that Article.

A statement under Article 19(1) is one which "...[explains] the amendments and [indicates] any impact that such amendments might have on the description and the drawings.". Certain requirements regardinhe statement are specified in PCT, Rule 46.4; to the extent that, if these requirements are not observed, the statement cannot be considered as "statement, as provided in the Regulations" under Article 19(1). Such statement will therefore not be published (PCT, Rule 48.2(a)(vi)) and not be communicated under Article 20.

In practice, the statement is usually contained in a letter submitting the amendments under Article 19(1). The letter, however, may contain information relating to other matters (see, for example, PCT, Rule 46.5, second sentence).

Whereas, in the past, the International Bureau of WIPO has "interpreted" letters which have not contained a clear indication that text matter contained therein is intended as a statement under Article 19 and included in the PCT pamphlets such parts as it thought desirable to publish, in the future the International Bureau will only publish text matter which is clearly indicated in the letter as being a statement under Article 19(1) (and preferably headed "Statement under Article 19(1)").

This change in practice is being introduced to simplify the task of determining, in the application of PCT Article 22 and Rule 49.3, what part, if any, of the letter submitting amendments under Article 19(1) the applicant must submit to the designated Offices as part of the translation of the international application. Whereas, in the past, the applicant might have had to consider this question without regard to what might have been published in the PCT pamphlet, in the future, the applicant will be able to limit himself to translating whatever is contained in the PCT pamphlet and nothing more since the pamphlet will contain only statements under Article 19(1) specified as such by him.

NUMBERING OF CLAIMS UPON AMENDMENT

The Director General of WIPO has modified paragraph (a) of Section 205 of the Administrative Instructions which deals with the manner in which the claims shall be numbered upon amendment *. Since the provisions of Section 205 are sometimes overlooked in the case of amendments under Article 19(1) **, it may be useful to explain the system which is to be followed.

The general requirement as to the numbering of claims is set out in Rule 6.1(b) which provides that, if there are several claims, they shall be numbered consecutively in arabic numerals. Section 205 specifies, pursuant to Rule 6.1(c), certain variations to be followed in any replacement sheet containing amended claims (submitted in compliance with Rule 46.5(a)).

The claims included in the replacement sheet must be numbered in arabic numerals *** in one of the following four ways:

(1) *by a number only (i.e., not followed by any indication such as appears in (2) to (4), below)*– – where the claim is in exactly the same terms as the claim which had that number in the claims as filed.

(2) *by a number followed by an indication consisting of "(Original claim No. ...)" completed by the insertion of the number which the claim had in the claims as filed*– – where the claim is in exactly the same terms as the claim which, in the claims as filed, had that number but the consecutive numbering of claims requires that, in the amended claims, the claim be given a [higher] [different] number.

(3) *by a number followed by the indication "(amended)"*– – where the claim is an amended version of a claim included in the claims as filed and both the original claim and the amended version have the same number.

(4) *by a number followed by the indication "(new)"*– – where the claim is a new claim or an amended version of a claim included in the claims as filed (but, in the latter case, both the amended version and the claim included in the claims as filed do not have the same number or, if they do, the applicant considers the indication "(new)" to be more appropriate than the indication mentioned in (3) above.

Where a claim has been deleted, the number which it had in the claims as filed shall not be used for a new claim but shall, except where Rule 46.5, last sentence applies ****, be shown on the replacement sheet followed by the indication "(cancelled)".

Column 3 of the table, hereafter, indicates how the rules mentioned above would be applied in practice.

---

* For the text of Section 205(a) as modified, see page 1281 of issue No. 17/1980 of the PCT Gazette.

** It is to be noted that the Section applies also to amendments before the International Preliminary Examining Authority.

*** See also the note below, concerning the need for the numbers to form part of a consecutive series of numbers.

**** The last sentence of Rule 46.5 provides that, to the extent that any amendment results in the cancellation of an entire sheet, the amendment shall be communicated in a letter. It follows that the numbers appearing on the cancelled sheet(s) will not be shown on a replacement (or any other) sheet (they will, however, be inserted for the purposes of publication by WIPO). Except to the extent that this occurs, the numbers of the amended claims must form a consecutive series of numbers with the numbers on the sheets of claims as filed which are not replaced or cancelled.

TABLE INDICATING THE APPLICATION OF SECTION 205 IN THE CASE OF AMENDMENTS TO THE CLAIMS OF AN INTERNATIONAL APPLICATION

Consecutive numbering of claims as amended	Category of claim (including deleted claims)	Number or number and indication in sheets of amended claim	Number (if any) in claims as filed
1	same as previous claim 1	"1"	1
2	same as previous claim 2	"2"	2
3	amended version of previous claim 3	"3 (amended)"	3
4	deleted	"4 (cancelled)"	4
5	new claim (resulting from a division of previous claim 3)	"5 (new)"	3
6	same as previous claim 5	"6 (original claim 5)"	5
7	amended version of previous claim 6	"7 (new)"	6
8	new claim	"8 (new)"	-
9	deleted	"9 (cancelled)"	9
10	same as previous claim 7	"10 (original claim 7)"	7
11	amended version of previous claim 8	"11 (new)"	8

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	**Subject Matter That Will Not be Searched by the Authority**	**The International Applications Must Be in One of the Following Languages to be Accepted for International Search**
Australia		
Australian Patent Office (March 31, 1980)	The subject matter specified in items (i) to (v) of the PCT, Rule 39.1*. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 09/1980, pages 600 and 604)	English
Austria		
Austrian Patent Office (April 23, 1979)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*, with the exception of diagnostic methods which are not practiced on the human body. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 06/1979, pages 219 and 222)	English French German
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219)	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136, and No. 07/1978, page 349)	Russian English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter That Will Not be Searched by the Authority	The International Applications Must Be in One of the Following Languages to be Accepted for International Search
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123)	Danish English Finnish French Icelandic Norwegian Swedish
United States of America		
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, PCT Gazette, No. 02/1978, pages 140 and 144)	English
European Patent Organisation		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109)	Dutch** English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

** Where the international application is filed with the Netherlands Patent Office.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter That Will Not be Examined by the Authority	The International Applications Must Be in One of the Following Languages to be Accepted for International Preliminary Examination
Australia		
Australian Patent Office (March 31, 1980)	The subject matter specified in items (i) to (v) of the PCT, Rule 67.1*. (See Article 6 and Annex B of the Agreement, PCT Gazette No. 09/1980, pages 600 and 604)	English
Austria		
Austrian Patent Office (April 23, 1979)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*, with the exception of diagnostic methods which are not practiced on the human body. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 06/1979, pages 219 and 222)	English French German
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219)	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136, and No. 07/1978, page 349)	Russian English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

International Preliminary Examining Authorities: Their list and certain data concerning them (Continued)

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter That Will Not be Examined by the Authority	The International Applications Must Be in One of the Following Languages to be Accepted for International Preliminary Examination
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH *

International Searching Authority	Conditions for Making Refund	Amount of Refund
Austria		
Austrian Patent Office *(PCT Gazette No. 06/1979, pages 217 to 223)*	The Authority benefits from the prior search report to the full extent or to a substantially prevailing portion	75%
Japan		
Japanese Patent Office *(PCT Gazette No. 04/1978, pages 213 to 221)*	(1) Request for refund by applicant and (2) Authority has been able to make use of a considerable part of the earlier search report	12,000 yen
Soviet Union		
USSR State Committee for Inventions and Discoveries *(PCT Gazette No. 02/1978, pages 130 to 138)*	The prior search was so complete that only a minor updating search is required or	90%
	The prior search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1-3 additional IPC-Subgroups or	70%
	The prior search saves one half of the efforts usually made to carry out international search or	40%
	The prior search applies only to a few IPC-Subgroups	20%
Sweden		
Royal Patent and Registration Office (Stockholm) *(PCT Gazette No. 02/1978, pages 116 to 124)*	The Authority benefits from the prior search report	90% 75% 50% or 25% depending on the extent of benefit

* This table summarizes the circumstances in which, and the extent to which, each of the International Searching Authorities will refund to the applicant the search fee paid when the international search can be based, either wholly or in part, on an earlier international or international-type search carried out by that Authority. The table summarizes what is stated in this respect in the Agreements between WIPO and each of the said Authorities (each such Agreement is indicated below the name of the Authority concerned by the reference to the PCT Gazette in which it was published). Relevant additional information is set out in the notes at the foot of this table. The making of the refunds according to the Agreements mentioned above is provided for in Rules 16.3 and 41.1 of the Regulations under the PCT.

Refunds of the Search Fee by the International Searching Authorities in the Case of Earlier International or International-type Search *(Continued)

International Searching Authority	Conditions for Making Refund	Amount of Refund
United States of America		
United States Patent and Trademark Office *(PCT Gazette No. 02/1978, pages 139 to 145)*	A determination by the examiner that one of the following criteria has been met:	
	(1) The prior search was substantially complete; only an updating search or short search was required	90%
	(2) The prior search was of some significant benefit but not enough to justify a 90% refund	45%
European Patent Organisation		
European Patent Office *(PCT Gazette No. 02/1978, pages 107 to 115)*	The Authority benefits from the prior search report	100% 75% 50% or 25% depending on the extent of benefit

Notes

(1) ***United States Patent and Trademark Office.*** A search of the prior art in an earlier national (US) application is regarded as an international-type search in determining whether a refund shall be made. Refunds are also made according to the same criteria and the same percentages of the search fees paid in respect of international applications where the prior art searches made during the subsequent examination of national (US) applications are wholly or partly based on (earlier) international searches made in the international applications.

(2) ***European Patent Office.*** Searches are accepted as international-type searches for the purposes of making refunds when made by the European Patent Office

(i) on (an earlier) European patent application;

(ii) on (an earlier) national application in France, Germany (Federal Republic of), the Netherlands and Switzerland;

(iii) as a privately commissioned "standard" search on (an earlier) application the priority of which is claimed in a subsequent international or European application.

The following criteria have been adopted for determining the amount of the refund of the search fee:

- 100% refund: no supplementary search performed;
- 75% refund: supplementary search performed in documentation relating to one or more sub-divisions consulted in the earlier search *or* extended to one or more sub-divisions not yet consulted;
- 50% refund: supplementary search performed in the documentation relating to one or more sub-divisions already consulted *and* extended to one or more sub-divisions not yet consulted;
- 25% refund: supplementary search performed in documentation relating to sub-divisions concerning a new aspect of the invention claimed. (For instance, cases where the European application is based on several earlier applications only one of which was the subject of an earlier search report.)

FEES PAYABLE TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

(1) If the data concerning the inventor are missing at the expiry of the time limit laid down in PCT, Article 22, paragraphs 1 and 2, or PCT, Article 39, paragraph 1(a), the Office will invite the applicant to furnish or complete the missing data within a time limit which will be fixed in the said invitation.

(2) Where the priority of an earlier application is claimed in the international application, 20 months from the filing date of the earlier application; otherwise, 20 months from the filing date of the international application.

(3) Where the priority of an earlier application is claimed in the international application, 20 months from the filing date of the earlier application; otherwise, 20 months from the filing date of the international application and where no search report is established, two months from the date of the notification sent to the applicant that no report will be established.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER PCT, ARTICLE 20

Luxembourg

Waived entirely. (This waiver has been withdrawn with effect on and from 1 November 1980).

United States of America

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO PCT, ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE NEED OF INDICATING THE INVENTOR AS APPLICANT FOR THE PURPOSES OF THE UNITED STATES OF AMERICA

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The *United States of America* is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH REFERRED TO IN PCT, ARTICLE 15(5)

Denmark, Finland*, Hungary*, the Netherlands, Norway*, Sweden, Switzerland and the United States of America are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in a accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15(5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patent Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a tranlation of the application in a language prescribed by the patent authority.

(2) If the applicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Hungary

Article 8 of the Decree

(1) In connection with a regular Hungarian application duly filed with the National Office of Inventions -under Article 15(5)(a) of the Treaty- the applicant may request that an international-type search be carried out. The search shall be carried out -under Article 15(5)(c) of the Treaty- by the International Searching Authority competent for carrying out the international search on international applications filed with the National Office of Inventions as a receiving Office.

(2) One copy of the translation of the Hungarian application prepared by the applicant in the prescribed language, the formal requisites of which meet the requirements prescribed for the international applications, shall be promptly sent by the National Office of Inventions to the competent International Searching Authority, with the transfer of the search fee paid by the applicant concurrently with filing the request.

---

* The provisions of the national law relating to international-type search of this State will be published in a future issue of this Gazette.

Netherlands

Section 22I of the Patents Act as revised in 1978 and Section 17(5) of the Patents Rules as revised in 1979 (both entered into force on February 1, 1979) read as follows (text provided by the Netherlands Patent Office, Rijswijk):

Section 22I of the Act

(1) Where the applicant so requests in writing, the Patent Office shall make a search of the state of the art in respect of that which is to be considered the subject matter of the application by virtue of the provisions by or under Section 5A.....

.....

(3) If the applicant so requests in writing, the Patent Office shall cause the application to be subjected to an international-type search as provided for in Article 15(5)*(a)* of the Patent Cooperation Treaty. Such a search shall be deemed to be a search of the state of the art as referred to in paragraph (1).

(4) Upon the filing of a request as provided for in paragraphs (1), (2) or (3), a fee to be prescribed by Order in Council of the Realm shall be payable.

.....

Section 17(5) of the Rules

(5) The fee payable by virtue of respectively Article 22G(1), 22H(1), 22I(4), and (9), and 22J(1), of the Patents Act of the Kingdom on the filing of a request as referred to in those Articles shall be:

.....

in the case of a request for the institution or continuation of a search into the state of the art or of a request that an international-type search be carried out on an application: Fls. 800.–;

.....

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15(5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the date on which the patent application is filed, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX: International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15(5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121(2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

United States of America

Sections 1.104(c) and (d) and 1.21(w) of the Code of Federal Regulations, Title 37 - Patents, Trademarks, and Copyrights, Subchapter A - General, Patents, Part I - Rules of Practice in Patent Cases, read as follows:

1.104 Nature of examination; examiner's action

.....

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See paragraph 1.21(w) for amount of fee for preparation of international-type search report.

Note. The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

1.21 Patent and miscellaneous fees and charges

.....

(w) For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application - $ 25.

Note. The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application.

.....

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

German Patent Office

National fee. The applicant is *not required to pay* the national (filing) fee to the German Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Fee for requesting examination. The fee for requesting examination of an application for a patent, which the applicant is required to pay to the German Patent Office, **is reduced** to 250 Deutsche Mark (from 400 Deutsche Mark) when an international search report has been established in respect of his application (as an international application designating the Federal Republic of Germany for the purposes of a national patent).

Ministry of National Economy, Patent Office (Luxembourg)

National fee. The applicant is *not required to pay* the national (filing) fee to the Patent Office when it is the designated Office if the international application was filed with that Office as receiving Office.

Ministry of State, Patent Office (Monaco)

National fee. The applicant is *not required to pay* the national (filing) fee to the Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

National Office of Inventions (Hungary)

National fee. The applicant is *not required to pay* the national (filing) fee to the National Office of Inventions when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Netherlands Patent Office

Fee for requesting search. A refund of 25%, 50%, 75% or 100% of the fee (of Hfl. 800) for requesting search is given if an international search report has been annexed to the international application, the amount of refund depending on the extent to which the Netherlands Patent Office benefits from that international search report.

United Kingdom Patent Office

Under Rule 102 of The Patents Rules 1978, the applicant may, in the circumstances mentioned below, request in writing the refund of the whole or part of the following fees:

The search fee (corresponding to Patents Form 9/77) – when the application was (as an international application designating the United Kingdom for the purposes of obtaining a national patent) the subject of an international search by the International Searching Authority.

The fee for substantive examination (corresponding to Patents Form 10/77) – where the application was (as an international application designating the United Kingdom) the subject of international preliminary examination carried out by the United Kingdom Patent Office in its capacity as International Preliminary Examining Authority.

The making of a refund (if any) following such a request is always at the discretion of the Comptroller-General.

European Patent Office

Search fee *. By virtue of decisions taken pursuant to Article 157 of the European Patent Convention, the search fee otherwise payable to the European Patent Office in respect of an application for a European patent

i) ***is not payable*** to the European Patent Office if an international search report was prepared in respect of the application (as an international application filed under the PCT) by that Office, or by the Austrian or Swedish Patent Offices;

ii) ***is reduced by 20%*** if an international search report was prepared in respect of the application (as an international application filed under the PCT) by the Japanese Patent Office, the United States Patent and Trademark Office, or the USSR State Committee for Inventions and Discoveries.

Examination fee **. By virtue of Rule 104(b)(5) of the Implementing Regulations to the European Patent Convention and Article 12(2) of the Rules relating to fees, the examination fee payable to the European Patent Office in respect of an application for a European patent is reduced by 50% when an international preliminary examination report was drawn up by that Office in respect of the application (as an international application under the PCT in respect of which a demand for international preliminary examination was submitted to that Office).

---

* Article 77(2) EPC.

** Article 94(2) EPC.

NOTIFICATIONS PURSUANT TO PCT RULE 16 bis. 3

The International Bureau has received notifications pursuant to PCT Rule 16*bis*. 3 excluding the application of PCT Rule 16*bis*. 1 and PCT Rule 16*bis*. 2* to the Offices, as receiving Offices under the PCT, of the following four countries:

Australia
Austria
Hungary
Japan

NOTIFICATIONS PURSUANT TO PCT RULE 80.6(b)

The International Bureau has received notifications pursuant to PCT Rule 80.6(b), having the effect of excluding the application of PCT Rule 80.6(a), second sentence**, to the Offices, as receiving Offices under the PCT, of the following six countries:

Australia
Denmark
Finland
Japan
Norway
Sweden

*NOTIFICATIONS PURSUANT TO PCT RULE 92.4****

Pursuant to PCT Rule 92.4 the national Offices of the following twelve countries and the one intergovernmental organization indicated below are prepared to receive documents (including drawings) -- subsequent to the international application -- by the means indicated hereafter:

Austria: telegraph, teleprinter
Brazil: telegraph, teleprinter
Denmark: telegraph, teleprinter
Finland: telegraph
Germany (Federal Republic of): telegraph, teleprinter
Hungary: telegraph, teleprinter
Luxembourg: telegraph, teleprinter
Malawi: telegraph
Monaco: telegraph
Netherlands: telegraph
Norway: telegraph, teleprinter
Romania: telegraph, teleprinter
Soviet Union: telegraph, teleprinter
Sweden: teleprinter
Switzerland: teleprinter
United States of America: teleprinter
International Bureau of WIPO: telegraph, teleprinter,telecopier (facsimile copies via Swiss Postal Service)

Particulars as to the telegraphic and teleprinter addresses of all national Offices and intergovernmental organizations are indicated in this issue of the PCT Gazette.

*** The listing appearing in the text which follows will be updated from time to time in future issues of the PCT Gazette.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
– the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
– the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Supplements to the *PCT Applicant's Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have been issued ** in the English and French languages on the following dates:

Austrian Patent Office (August 1980),
German Patent Office (English, February 1980; French, April 1980),
Japanese Patent Office (May 1980),
Netherlands Patent Office (August 1980),
Swedish Patent Office (June 1980),
Swiss Patent Office (May 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

The *PCT Applicant's Guide* in English or French may be ordered from WIPO at the address appearing on the inside cover of this Gazette.

The *PCT Applicant's Guide* in German is out of print. A revised version of the new loose leaf format is going to be published during the second half of 1980. Enquiries and subscriptions are to be directed to Carl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, Federal Republic of Germany.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION (PCT UNION)

ASSEMBLY

Sixth Session
(Fourth Extraordinary)

(Geneva, September 22 to 26, 1980)

Note *

The Assembly of the International Patent Cooperation Union (PCT Union) held its sixth session (4th extraordinary) in Geneva from September 22 to 26, 1980.

Twenty-four of the 29 Contracting States were represented at the session: Australia, Austria, Brazil, Cameroon, Congo, Democratic People's Republic of Korea, Denmark, France, Gabon, Germany (Federal Republic of), Hungary, Japan, Liechtenstein, Luxembourg, Madagascar, Netherlands, Norway, Romania, Senegal, Soviet Union, Sweden, Switzerland, United Kingdom, United States of America.

Thirty-seven other States participated in the session as observers: Algeria, Argentina, Belgium, Bulgaria, Canada, Cuba, Czechoslovakia, Egypt, Finland, German Democratic Republic, Ghana, Greece, Holy See, Indonesia, Iran, Ireland, Israel, Italy, Ivory Coast, Kenya, Libyan Arab Jamahiriya, Mexico, Morocco, Nigeria, Philippines, Poland, Portugal, Republic of Korea, Spain, Sri Lanka, Tunisia, Turkey, Upper Volta, Uruguay, Yugoslavia, Zaire, Zambia.

The following three intergovernmental organizations were represented at the session by observers: United Nations (UN), African Intellectual Property Organization (OAPI) and European Patent Organisation (EPO).

The list of participants follows this Note.

Fees: The amounts in Swiss francs appearing in the table of fees at the end of this Note were fixed by the Assembly as the amounts, as from January 1, 1981, of the fees set out in the Schedule of Fees annexed to the PCT Regulations. The amounts appearing in currencies other than Swiss francs in the table at the end of this Note are the equivalents in those currencies of the said amounts in Swiss francs as fixed by the Director General after consultation with the interested receiving Offices and International Preliminary Examining Authorities. These amounts also apply as from January 1, 1981.

Prices: The Assembly decided that the subscription price of the PCT Gazette in 1981 would be 400 Swiss francs. The price of a single copy of an international application published in the form of a pamphlet was left unchanged at 8 Swiss francs.

PCT Regulations: The Assembly adopted, with effect on January 1, 1981, amendments to Rules 22.2(e) and 22.3(a) and deleted, with effect as from the same day, Rule 22.3(b). These changes to the PCT Regulations were based on discussions at the preceding (fifth) session at which the Assembly could not adopt the amendments due to the procedural requirements of Rule 88.4.

---

* This Note was prepared by the International Bureau.

The Assembly adopted amendments to Rules 82.1(a) and 82.2(a), which also took into account discussions at its preceding (fifth) session at which it was agreed that those Rules ought to apply "to mailings by a national Office or intergovernmental organization and, in particular, to the transmittal of the record copy by the receiving Office." In adopting the amendments, the Assembly accepted the statement of the International Bureau that, following the deletion of references in those Rules to the provisions of Rule 22.3 (more precisely to Rule 22.3(b), deleted as mentioned above), those Rules would apply to mailings by a national Office or intergovernmental organization and that this interpretation would be applied by the International Bureau with regard to the transmittal of the record copy by the receiving Offices. The Assembly decided that the amendments would enter into effect on January 1, 1981.

The other amendment adopted by the Assembly was for the purpose of avoiding doubt as to the effect of an amendment to Rule 80.6 adopted by the Assembly at its preceding (fifth) session. The Assembly decided that the amendment would enter into effect on the same day as the amendment adopted at its preceding (fifth) session, namely, October 1, 1980.

The texts of the amended Rules referred to in this Note appear on pages 1939 to 1941

PCT International Meeting: The Assembly accepted an offer by the Government of Japan to act as host for an international meeting concerned mainly with matters affecting the activities of the International Searching and International Preliminary Examining Authorities and to be held in Tokyo in 1981.

FEES SET OUT IN THE SCHEDULE OF FEES

Country Currency	Basic fee where no additional amount payable for sheets in excess of 30 sheets Rule 15.2(a)	Amount added to basic fee for each sheet in excess of 30 sheets	Designation fee Rule 15.2(a)	Handling fee and supplement to handling fee Rules 57.2(a) and 57.2(b)
Australia *Australian dollar*	229	4	55	70

Note: For payments to the European Patent Office, the amounts are those appearing in the table above in the following currencies: Austrian Schillings, Deutsche Marks, Pounds Sterling, French francs, Swiss francs, Dutch Guilders, Swedish Kronor, Luxembourg francs or Belgian francs.

LIST OF PARTICIPANTS

I. Member States

Australia: C.H. Friemann; H.G. Shore; H. Freeman. **Austria:** O. Leberl; M. Sajdik; W. Howadt. **Brazil:** G. Alvares-Maciel; A. Gurgel de Alencar; A.G. Bahadian. **Cameroon:** B. Ardo. **Congo:** G. Silou. **Democratic People's Republic of Korea:** C.R. Choi; G.W. Jo. **Denmark:** K. Skjødt; D. Simonsen; B.V. Linstow. **France:** G. Vianes; A. Kerever; A. Bourdale-Dufau; L. Nicodeme; G.R. Yung; S. Shulman-Perret. **Gabon:** P.J. N'Gouyou; R. N'-Gouyou. **Germany (Federal Republic of):** A. Krieger; E. Steup; U. Hallmann; G. Ziese; J. Wenzl; B. Bockmair. **Hungary:** G. Pusztai; M. Ficsor; G. Gyertyánfy. **Japan:** H. Shimada; A. Shiotsu; T. Ogiue; H. Hiyashida; S. Uemura; K. Ishimaru. **Liechtenstein:** A.F. de Gerliczy-Burian. **Luxembourg:** J.-P. Hoffmann. **Madagascar:** E. Rahary; S. Rabearivelo. **Netherlands:** J. Dekker; W. de Boer; R.J. Mulder. **Norway:** A.G. Gerhardsen; S.H. Roer; B. Bye; V. Holmoey. **Romania:** G. Filipas; R. Bena; T. Melescanu. **Senegal:** A. Sene; M. Ndiaye; A. Diarra; A.N. Niang. **Soviet Union:** I. Nayashkov; D. Kolesnik; V. Zubarev; L. Kostikov; Y. Gyrdymov; K. Saenko; V. Poliakov. **Sweden:** G. Borggård; C. Uggla; A.H. Olsson; B. van der Giessen. **Switzerland:** P. Braendli; J.-L. Marro; M. Jeanrenaud; F. Balleys; J.-M. Salamolard; A.-M. Buess. **United Kingdom:** I.G. Davis; V. Tarnofsky; P.L. Eggington; D. Cecil. **United States of America:** S.A. Diamond; H.J. Winter; M. Kirk; L. Schroeder; P.R. Keller.

II. Observers

States

Algeria: A. Salah-Bey; M. Mati. **Argentina:** G.O. Martinez; F. Jimenez Davila; A.L. Daverede; J. Pereira. **Belgium:** J.-D. Rycx d'Huisnacht; J. Degavre; J. de Bock. **Bulgaria:** K. Iliev; I. Kotzev. **Canada:** D. Bond; R. Theberge; F. Hay; D. Gelinas; J.O. Lynch. **Cuba:** L. Sola-Vila; F. Ortiz-Rodriguez. **Czechoslovakia:** M. Belohlavek; J. Prosek; M. Slamova. **Egypt:** A.R. El Reedy; I. Hassan; W. Hanafi; R.A. Elsayed-Abou. **Finland:** T. Kivi-Koskinen; S.-L. Lahtinen; B. Standertskjold-Nordenstam. **German Democratic Republic:** J. Hemmerling; D. Schack; O. Hugler; M. Foerster. **Ghana:** E. Vanderpuye. **Greece:** G. Pilavachi; P. Apostolides. **Holy See:** O. Roullet. **Indonesia:** A. Suryo; C.D. Djavid; H. Reksodiputro. **Iran:** S. Zahirnia. **Ireland:** J. Quinn. **Israel:** M. Gabay; I. Eliashiv. **Italy:** I. Papini; M. Incisa di Camerana; S. Samperi; R. Boros; A. Sinagra; G. Catalini; A. Izzo. **Ivory Coast:** A. Essy; G. Doh; B.T. Aka; C. Bouah; M.-L. Boa. **Kenya:** D.J. Coward. **Libyan Arab Jamahiriya:** M. Abdurahman Zaied; A.M. El Bishti; M.M. Milad. **Mexico:** P. Garcia Reynoso; G. Zarate Tristain; J.M. Teran Contreras; A. Gonzalez y Reynero; V.C. Garcia Moreno; V. Blanco Labra; J. Larequi. **Morocco:** A. Bojji; M. Halfaoui; A. Kandil. **Nigeria:** O. Adeniji; E.F. Allison; A.J. Nanna. **Philippines:** H.J. Brillantes; J.L. Palarca. **Poland:** J. Szomański; J. Blaszczak; E.M. Szelchauz. **Portugal:** J. Mota Maia; R. Morais Serrao. **Republic of Korea:** S.-H. Kim. **Spain:** R. Pastor Garcia; J. Delicado Montero-Rios; M. del Corral Beltran; A. Casado Cervino; L. Nagore. **Sri Lanka:** D. Jayasekera. **Tunisia:** K. Gueblaoui; A. Ben Ajmia. **Turkey:** E. Tümer. **Upper Volta:** B.I. Bakyono. **Uruguay:** C. Nadal. **Yugoslavia:** D. Boskovic; P. Cemalovic; M. Andanja. **Zaire:** T. Kalonji; E. Esaki Kabeya. **Zambia:** A.R. Kikonda.

Intergovernmental Organizations

United Nations (UN): A. Djermakoye. **African Intellectual Property Organisation (OAPI):** D. Ekani. **European Patent Organization (EPO):** J.C.A. Staehelin; U. Schatz.

III. Officers

Chairman: H.J. Winter (United States of America); *Vice-Chairman:* I. Nayashkov (Soviet Union); *Secretary:* E.M. Haddrick (WIPO).

IV. International Bureau of WIPO

Troussov *(Senior Counsellor, PCT Legal and General Section);* A. Okawa *(Counsellor, PCT Examination Section).*

REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

AMENDMENTS

Adopted by the Assembly of the International Patent Cooperation Union (PCT Union) on September 26, 1980

Table of Amendments

Rule 22.2(e) ..... Amended**
Rule 22.3(a) ..... Amended**
Rule 22.3(b) ..... Deleted**
Rule 80.6(b) ..... Amended*
Rule 82.1(a) ..... Amended**
Rule 82.2(a) ..... Amended**

* With effect on and from October 1, 1980.
** With effect on and from January 1, 1981.

Amendments

Rule 22

Transmittal of the Record Copy

22.1 [No change]

22.2 *Alternative Procedure*

(a) [No change]

(b) [No change]

(c) [No change]

(d) [No change]

(e) Where the receiving Office does not hold the record copy at the disposal of the applicant by the date fixed in paragraph (d), or where, after having asked for the record copy to be mailed to him, the applicant has not received that copy at least 10 days before the expiration of 13 months from the priority date, the applicant may transmit a copy of his international application to the International Bureau. This copy ("provisional record copy") shall be replaced by the record copy or, if the record copy has been lost, by a substitute record copy certified by the receiving Office on the basis of the home copy, as soon as practicable and, in any case, before the expiration of 15 months from the priority date.

22.3 *Time Limit under Article 12(3)*

(a) The time limit referred to in Article 12(3) shall be:

(i) where the procedure under Rule 22.1 or Rule 22.2(c) applies, 15 months from the priority date;

(ii) where the procedure under Rule 22.2(d) applies, 14 months from the priority date, except that, where a provisional record copy is filed under Rule 22.2(e), it shall be 14 months from the priority date for the filing of the provisional record copy, and 15 months from the priority date for the filing of the record copy.

(b) [Deleted]

22.4 [No change]

22.5 [No change]

Rule 80

Computation of Time Limits

80.1 [No change]

80.2 [No change]

80.3 [No change]

80.4 [No change]

80.5 [No change]

80.6 *Date of Documents*

(a) [No change]

(b) Any receiving Office may exclude the application of the second sentence of paragraph (a) by a written notification to that effect given to the International Bureau by September 1, 1980. Such notification may be withdrawn at any time. The International Bureau shall publish all such notifications and withdrawals in the Gazette.

80.7 [No change]

Rule 82

Irregularities in the Mail Service

82.1 *Delay or Loss in Mail*

(a) Any interested party may offer evidence that he has mailed the document or letter 5 days prior to the expiration of the time limit. Except in cases where surface mail normally arrives at its destination within 2 days of mailing, or where no airmail service is available, such evidence may be offered only if the mailing was by airmail. In any case, evidence may be offered only if the mailing was by mail registered by the postal authorities.

(b) [No change]

(c) [No change]

82.2 *Interruption in the Mail Service*

(a) Any interested party may offer evidence that on any of the 10 days preceding the day of expiration of the time limit the postal service was interrupted on account of war, revolution, civil disorder, strike, natural calamity, or other like reason, in the locality where the interested party resides or has his place of business or is staying.

(b) [No change]

SCHEDULE OF FEES

Fees	*Amounts*
1. Basic Fee: (Rule 15.2(a)) if the international application contains not more than 30 sheets	432 Swiss francs
if the international application contains more than 30 sheets	432 Swiss francs plus 8 Swiss francs for each sheet in excess of 30 sheets
2. Designation Fee: (Rule 15.2(a))	104 Swiss francs
3. Handling Fee: (Rule 57.2(a))	133 Swiss francs
4. Supplement to the Handling Fee: (Rule 57.2(b))	133 Swiss francs
Surcharges	
5. Surcharge for late payment: (Rule 16*bis*.2(a))	Minimum: 200 Swiss francs Maximum: 500 Swiss francs

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

THE RIGHT TO REQUEST SAMPLES IN THE CASE OF INTERNATIONAL APPLICATIONS WHICH CONTAIN REFERENCES TO DEPOSITED MICROORGANISMS

The Japanese Patent Office has notified the International Bureau that, in respect of an international application for which it is the International Searching Authority or the International Preliminary Examining Authority, it may require the furnishing of samples of a microorganism for the sole purpose of international search or international preliminary examination (notification pursuant to Rule 13*bis*.6(a).*

---

* Rule 13*bis*.6(a) makes the giving of a notification to the International Bureau a condition for the International Searching Authority or the International Preliminary Examining Authority to request the applicant to authorize and assure solely for the purposes of international search or international preliminary examination the furnishing of a sample of a microorganism to which a reference is made (pursuant to Rule 13*bis*.2) in the international application which is the subject of the international search or international preliminary examination. It follows that a sample of a deposited microorganism will not be requested by any International Searching Authority or International Preliminary Examining Authority except the Japanese Patent Office. This present notification will be published from time to time, revised if necessary, so long as any Authority maintains a notification under Rule 13*bis*.6(a).

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

LIST OF DEPOSITARY INSTITUTIONS WITH WHICH DEPOSITS OF MICROORGANISMS MAY BE MADE FOR CERTAIN DESIGNATED (OR ELECTED) OFFICES
(With Reference Numbers for Their Identification in the Listing of those Institutions as Contained in the Table Which Follows, and with Notes as to Certain Limitations Where the European Patent Office is the Designated (or Elected) Office)

Reference Number for Identification	List of Institutions (Identified by their Names and Addresses) Containing also References to Notes, Where Applicable
1	Agricultural Research Culture Collection(1) Northern Regional Research Center Peoria, Illinois 61604 United States of America
2	American Type Culture Collection (ATCC)(2) 12301 Parklawn Drive Rockville, Maryland 20852 United States of America
3	Centraal Bureau voor Schimmelcultures (CBS)(3) Oosterstraat 1 3740 AG Baarn Netherlands
4	CBS Yeast Division (3) Julianalaan 67A 2628 BC Delft Netherlands
5	Collection nationale de cultures de micro-organismes (CNCM) Institut Pasteur(4) 128, rue du Docteur Roux 75724 Paris France
6	Commonwealth Mycological Institute (CMI) Ferry Lane Kew, Surrey United Kingdom
7	Culture Centre of Algae and Protozoa (CCAP) 36 Storey's Way Cambridge United Kingdom CB3 ODT
8	Culture Collection of the Institute for Fermentation (IFO) 4-54 Juso-nishino-cho Higashi Yodogawa-ku Osaka Japan
9	Czechoslovak Collection of Microorganisms (CCM) J.E. Purkyně University of Brno Tř. Obránců Míru 10 Brno Czechoslovakia

NOTES

Reference Number of Note	For the Purposes of Patent Procedure Before the European Patent Office only the Deposit of the Kinds of Micro-organisms Specified Below are Allowed
(1)	Progeny of strains of agricultural and industrial bacteria, yeasts, molds and actinomycetales, except: (a) Actinobacillus (all species), Actinomyces (all species - anaerobic/micro-aerophilic), Arizona (all species), Bacillus anthracis, Bartonella (all species), Bordetella (all species), Borrelia (all species), Brucella (all species), Clostridium botulinum, Clostridium chauvoei, Clostridium haemolyticum, Clostridium histolyticum, Clostridium novyi, Clostridium septicum, Clostridium tetani, Corynebacterium diphtheriae, Corynebacterium equi, Corynebacterium haemolyticum, Corynebacterium pseudotuberculosis, Corynebacterium pyogenes, Corynebacterium renale, Diplococcus (all species), Erysipelothrix (all species), Escherichia coli (all enteropathogenic types), Francisella (all species), Haemophilus (all species), Herellea (all species), Klebsiella (all species), Leptospira (all species), Listeria (all species), Mima (all species), Moraxella (all species), Mycobacterium avium, Mycobacterium bovis, Mycobacterium tuberculosis, Mycoplasma (all species), Neisseria (all species), Pasteurella (all species), Pseudomonas pseudomallei, Salmonella (all species), Shigella (all species), Sphaerophorus (all species), Staphylococcus aureus, Streptobacillus (all species), Streptococcus (all pathogenic species), Treponema (all species), Vibrio (all species), Yersinia (all species); (b) Blastomyces (all species), Coccidioides (all species), Cryptococcus (all species), Histoplasma (all species), Paracoccidioides (all species); (c) Basidiomycetes or other molds that cannot successfully be preserved by lyophilization (freeze-drying); (d) All viral, Rickettsial, and Chlamydial agents; (e) Agents which may introduch or disseminate any contagious or infectious disease of animals, humans or poultry and which require a permit for entry and/or distribution within the Unites States of America; (f) Agents which are classified as Plant Pests and which would require a permit for entry and/or distribution within the United States of America; (g) Mixtures of micro-organisms; (h) Fastidious micro-organisms which would require (in the view of the Curator) more than reasonable attention in handling and preparation of lyophilized material; (i) Phages of any kind; (j) Plasmids and like materials.
(2)	Bacteria (including actinomycetes), bacteriophages, fungi, algae, protozoa, viruses (both animal and plant), tissue culture cells, plasmids and DNA recombinants

Depositary Institutions (List of, with Notes, Cont'd)

(3) Fungi, yeasts and bacteria (mainly actinomycetes)

(4) Bacteria, mycroplasma, rikkettsiae, microscopic fungi, yeasts, viruses and tissue cultures

(5) Bacteria, yeasts, bacteriophages and fungi with the exception of certain pathogenic varieties

(6) Mycobacteria, yeasts of the strains candida and torulopsis, nocardia, streptomyces

(7) Fungi, yeasts, bacteria and actinomycetes which are not pathogenic to the human body and which do not require extraordinary means for their long term storage

(8) Bacteria, including actinomycetes, but excluding dangerous pathogens

DESIGNATED (OR ELECTED) OFFICES WHOSE APPLICABLE NATIONAL LAW ALLOWS REFERENCES TO BE MADE TO DEPOSITS OF MICROORGANISMS; THE INDICATIONS (IF ANY), IN ADDITION TO THE PRESCRIBED INDICATIONS, RELATING TO SUCH DEPOSITS REQUIRED TO BE INCLUDED IN REFERENCES UNDER THAT LAW; THE TIMES (IF ANY), EARLIER THAN THE PRESCRIBED TIME, BY WHICH SUCH REFERENCES AND INDICATIONS MUST BE FURNISHED; AND THE DEPOSITARY INSTITUTIONS WITH WHICH, UNDER THAT LAW, DEPOSITS MAY BE MADE

Designated (or Elected) Office	**Matter (if any) Which Must be Indicated in Addition to that Set Out in Rule 13*bis*.3(a)(i) to (iii) (notifications received pursuant to Rule 13*bis*.7(a)(ii))**	**Time (if any) Earlier Than That Specified in Rule 13*bis*. 4 by Which Applicant must Furnish (A) the Indications Referred to in Rule 13*bis*. 3(a)(i) to (iii) (B) any Additional Matter Specified in the Adjacent Left-Hand Column (notifications received pursuant to Rule 13*bis*.7(a)(ii))**	**Listing of Depositary Institutions with Which Deposits May be Made (Identified by Reference Numbers Indicated in Preceding List of Depositary Institutions) (notifications received pursuant to Rule 13*bis*.(7)(b))**
Germany (Federal Republic of) German Patent Office	None	None	No listing supplied (see footnote (2), below)
Hungary National Office of Inventions	To the extent available to the applicant, the characteristics of the microorganism and a taxonomic description	In the case of (B), at the time of filing	17 and other institutions not listed (see footnote (3), below); footnote (1), below, also applies
Japan Japanese Patent Office	Relevant information on (i) the characteristics which identify, (ii) the process for producing, (iii) the usefulness of, the microorganism	In the case of both (A) (except as to the date of deposit of the microorganism) and (B): at the time of filing	11; footnote (1), below, also applies
Netherlands Netherlands Patent Office	None	None	1, 2, 3, 6, 8, 9, 11, 15, 16, 21
Soviet Union USSR State Committee for Inventions and Discoveries	None	None	No listing supplied (see footnote (4), below)
Sweden Royal Patent and Registration Office	None	None	1, 2, 3, 4, 5, 10, 14
Switzerland Swiss Intellectual Property Office	None	In the case of (A), at time of filing for identification of institution and within 2 months thereafter for other indications	1, 2, 3, 4, 5, 6, 7 8, 10, 11, 12, 13, 14, 16 18, 19, 20

Designated (or Elected) Offices Whose Applicable National Law Allows References to be Made to Deposits of Microorganisms; the Indications (if any), in Addition to the Prescribed Indications, Relating to Such Deposits Required to be Included in References Under that Law; the Times (if any), Earlier than the Prescribed Time, by Which Such References and Indications Must be Furnished; and the Depositary Institutions with Which, Under that Law, Deposits May be Made (Continued)

Designated (or Elected) Office	Matter (if any) Which Must be Indicated in Addition to that Set Out in Rule 13*bis*.3(a)(i) to (iii) (notifications received pursuant to Rule 13*bis*.7(a)(ii))	Time (if any) Earlier Than That Specified in Rule 13*bis*. 4 by Which Applicant must Furnish (A) the Indications Referred to in Rule 13*bis*. 3(a)(i) to (iii) (B) any Additional Matter Specified in the Adjacent Left-Hand Column (notifications received pursuant to Rule 13*bis*.7(a)(ii))	Listing of Depositary Institutions with Which Deposits May be Made (Identified by Reference Numbers Indicated in Preceding List of Depositary Institutions) (notifications received pursuant to Rule 13*bis*.(7)(b))
United Kingdom Patent Office	To the extent available to the applicant, relevant information on the characteristics of the microorganism	In the case of (A), by the expiration of two months from the international filing date In the case of (B), at the time of filing	No listing supplied (see footnote (5), below); footnote (1), below, also applies
United States of America United States Patent and Trademark Office	(a) A statement that the deposit was made on or before the priority date* of the international application (where a date of deposit prior to that date has not not been indicated, pursuant to Rule 13*bis*.3(a)(ii)) (b) To the extent feasible, a taxonomic description of the microorganism	In the case of (A), the name and address of the depositary institution at the time of filing (see also footnote (7) below) In the case of (B), at the time of filing	1, 2 and other institutions not listed (see footnote (6), below); footnote (1), below, also applies
Intergovernmental Organization European Patent Organisation	None	None	1, 2, 3, 4, 5, 10, 12, 14, 16; footnote (1), below, also applies

* Refers to the priority date as defined in PCT, Article 2(xi)

Footnotes

(1) The Office concerned is an industrial property office within the meaning of the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure. Accordingly, deposit may be made with any depositary institution having acquired the status of international depositary authority under the said Treaty.*

(2) The Office concerned has informed the international Bureau that deposits may be made for the purposes of patent procedure before that Office with "any scientifically recognized institution at home and abroad." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

---

* At the time of publication of this issue, no international depositary authority has yet been appointed. Such authorities will be notified in "Industrial Property" probably commencing in the first half of 1981.

Designated (or Elected) Offices Whose Applicable National Law Allows References to be Made to Deposits of Microorganisms; the Indications (if any) in Addition to the Prescribed Indications, Relating to Such Deposits Required to be Included in References Under that Law; the Times (if any), Earlier than the Prescribed Time, by Which Such References and Indications Must be Furnished; and the Depositary Institutions with Which, Under that Law, Deposits May be Made (Continued)

Footnotes (Continued)

(3) The Office concerned has informed the Intenational bureau that, for the purposes of patent procedure before that Office, deposits may be made with (in addition to the institution identified in the listing) "any internationally well-known depositary institution." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(4) The Office concerned has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any depositary institution." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(5) The Office concerned has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any depositary institution anywhere in the world." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(6) The Office concerned has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "[a]ny foreign or domestic depository obligated by law, treaty or contract to accept, store and release specimens under the condition specified in the United States jurisprudence." A listing of all institutions recognized by the said Office as coming within that description will be published when received from that Office.

(7) The Office concerned has informed the International Bureau that if the same indications are not also included in an earlier application the priority of which is claimed, the priority of the earlier application will be not accorded, in the national processing of the application.

LIST OF DESIGNATED (OR ELECTED) OFFICES WHOSE NATIONAL LAW CONTAINS NO PROVISION RELATING TO THE DEPOSIT OF MICROORGANISMS

Contracting State	**Name of Office**
Australia:	Australian Patent Office
Austria:	Austrian Patent Office (1)
Brazil:	National Institute of Industrial Property
Denmark:	Patent and Trademark Office
Finland:	National Board of Patents and Registration (2)
Luxembourg:	Ministry of National Economy, Patent Office
Madagascar:	Ministry of Industry and Commerce, Department of Industry and Mines
Malawi:	Ministry of Justice, Department of the Registrar-General
Monaco:	Ministry of State, Patent Office
Norway:	Norwegian Patent Office
Romania:	State Office for Inventions and Trademarks (3)
Intergovernmental Organisation:	African Intellectual Property Organization

Notes

(1) The Office concerned has informed the International Bureau that, while the present national law does not provide for deposits of microorganisms, that law does not contain any prohibition of such deposits.

(2) The Office concerned has informed the International Bureau that the Office does not require "but only strongly recommend[s] deposits of the microorganisms which are not available to the public and which belong to the inventions under consideration".

(3) The Office concerned has informed the International Bureau that the national legislation includes no provision concerning depositary institutions but practically the Office "recognizes deposits with specialized institutions in the Contracting State or abroad accessible to any interested physical or juristic person".

This information was last published on pages 1822 to 1824 of the PCT Gazette, No. 24/1980.

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO NATIONAL FEES AND TIME LIMITS

This information was last published on pages 1825 to 1830 of the PCT Gazette, No. 24/1980.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 1831 to 1833 of the PCT Gazette No. 24/1980.

LIST OF DEPOSITORY INSTITUTIONS WITH WHICH DEPOSITS OF MICROORGANISMS MAY BE MADE FOR CERTAIN DESIGNATED OFFICES

This information is published on pages 1943 to 1946 of this issue of the PCT Gazette.

DESIGNATED (OR ELECTED) OFFICES WHOSE APPLICABLE NATIONAL LAW ALLOWS REFERENCES TO BE MADE TO DEPOSITS OF MICROORGANISMS; THE INDICATIONS (IF ANY), IN ADDITION TO THE PRESCRIBED INDICATIONS, RELATING TO SUCH DEPOSITS REQUIRED TO BE INCLUDED IN REFERENCES UNDER THAT LAW; THE TIMES (IF ANY), EARLIER THAN THE PRESCRIBED TIME, BY WHICH SUCH REFERENCES AND INDICATIONS MUST BE FURNISHED; AND THE DEPOSITARY INSTITUTIONS WITH WHICH, UNDER THAT LAW, DEPOSITS MAY BE MADE

This information is published on pages 1947 and 1948 of this issue of the PCT Gazette.

LIST OF DESIGNATED (OR ELECTED) OFFICES WHOSE NATIONAL LAW CONTAINS NO PROVISION RELATING TO THE DEPOSIT OF MICROORGANISMS

This information is published on page 1949 of this issue of the PCT Gazette.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last published on page 1834 of the PCT Gazette, No. 24/1980.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY, RELEVANT TO ARTICLE 45(2)

This information was last published on page 1834 of the PCT Gazette, No. 24/1980.

WARNING AND INFORMATION CONCERNING THE NEED OF INDICATING THE INVENTOR AS APPLICANT FOR THE PURPOSES OF THE UNITED STATES OF AMERICA

This information was last published on pages 1835 and 1836 of the PCT Gazette, No. 24/1980.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH REFERRED TO IN PCT, ARTICLE 15(5)

This information was last published on pages 1837 to 1840 of the PCT Gazette, No. 24/1980.

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

This information was last published on pages 1841 and 1842 of the PCT Gazette, No. 24/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 16 *BIS*. 3

This information was last published on page 1843 of the PCT Gazette, No. 24/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 80.6(b)

This information was last published on page 1843 of the PCT Gazette, No. 24/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 92.4

This information was last published on page 1843 of the PCT Gazette, No. 24/1980.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

AT	Austria
AU	Australia
BR	Brazil
CF	Central African Republic

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Supplements to the *PCT Applicant's Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have been issued ** in the English and French languages on the following dates:

Austrian Patent Office (August 1980),
German Patent Office (English, February 1980; French, April 1980),
Japanese Patent Office (May 1980),
Netherlands Patent Office (August 1980),
Swedish Patent Office (June 1980),
Swiss Patent Office (May 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

The *PCT Applicant's Guide* in English or French may be ordered from WIPO at the address appearing on the inside cover of this Gazette.

The *PCT Applicant's Guide* in German is out of print. A revised version of the new loose leaf format is going to be published during the second half of 1980. Enquiries and subscriptions are to be directed to Cárl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, Federal Republic of Germany.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

	Date of Entry into Force of the PCT in respect of the State
Australia	March 31, 1980 (2)
Austria	April 23, 1979 (2)
Brazil	April 9, 1978 (1)
Cameroon	January 24, 1978 (1)
Central African Republic	January 24, 1978 (1)
Chad	January 24, 1978 (1)
Congo	January 24, 1978 (1)
Democratic People's Republic of Korea	July 8, 1980 (2)
Denmark *	December 1, 1978 (2)
Finland	October 1, 1980 (2)
France *	February 25, 1978 (1)
Gabon	January 24, 1978 (1)
Germany (Federal Republic of)	January 24, 1978 (1)
Hungary	June 27, 1980 (2)
Japan	October 1, 1978 (2)
Liechtenstein *	March 19, 1980 (2)
Luxembourg *	April 30, 1978 (1)
Madagascar	January 24, 1978 (1)
Malawi	January 24, 1978 (1)
Monaco	June 22, 1979 (2)

---

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, and this State may be designated in international applications as from the same date.

Contracting States (Continued)

	Date of Entry into Force of the PCT in respect of the State
Netherlands	July 10, 1979 (2)
Norway*	January 1, 1980 (2)
Romania	July 23, 1979 (2)
Senegal	January 24, 1978 (1)
Soviet Union	March 29, 1978 (1)
Sweden	May 17, 1978 (1)
Switzerland*	January 24, 1978 (1)
Togo	January 24, 1978 (1)
United Kingdom	January 24, 1978 (1)
United States of America*	January 24, 1978 (1)

---

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, and this State may be designated in international applications as from the same date.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

LIST OF DEPOSITARY INSTITUTIONS WITH WHICH DEPOSITS OF MICROORGANISMS MAY BE MADE FOR CERTAIN DESIGNATED (OR ELECTED) OFFICES
(With Reference Numbers for Their Identification in the Listing of those Institutions as Contained in the Table Which Follows, and with Notes as to Certain Limitations Where the European Patent Office is the Designated (or Elected) Office)

Reference Number for Identification	List of Institutions (Identified by their Names and Addresses) Containing also References to Notes, Where Applicable
1	Agricultural Research Culture Collection(1) Northern Regional Research Center Peoria, Illinois 61604 United States of America

NOTES

Reference Number of Note	For the Purposes of Patent Procedure Before the European Patent Office only the Deposit of the Kinds of Micro-organisms Specified Below are Allowed
(1)	Progeny of strains of agricultural and industrial bacteria, yeasts, molds and actinomycetales, except: (a) Actinobacillus (all species), Actinomyces (all species - anaerobic/micro-aerophilic), Arizona (all species), Bacillus anthracis, Bartonella (all species), Bordetella (all species), Borrelia (all species), Brucella (all species), Clostridium botulinum, Clostridium chauvoei, Clostridium haemolyticum, Clostridium histolyticum, Clostridium novyi, Clostridium septicum, Clostridium tetani, Corynebacterium diphtheriae, Corynebacterium equi, Corynebacterium haemolyticum, Corynebacterium pseudotuberculosis, Corynebacterium pyogenes, Corynebacterium renale, Diplococcus (all species), Erysipelothrix (all species), Escherichia coli (all enteropathogenic types), Francisella (all species), Haemophilus (all species), Herellea (all species), Klebsiella (all species), Leptospira (all species), Listeria (all species), Mima (all species), Moraxella (all species), Mycobacterium avium, Mycobacterium bovis, Mycobacterium tuberculosis, Mycoplasma (all species), Neisseria (all species), Pasteurella (all species), Pseudomonas pseudomallei, Salmonella (all species), Shigella (all species), Sphaerophorus (all species), Staphylococcus aureus, Streptobacillus (all species), Streptococcus (all pathogenic species), Treponema (all species), Vibrio (all species), Yersinia (all species); (b) Blastomyces (all species), Coccidioides (all species), Cryptococcus (all species), Histoplasma (all species), Paracoccidioides (all species); (c) Basidiomycetes or other molds that cannot successfully be preserved by lyophilization (freeze-drying); (d) All viral, Rickettsial, and Chlamydial agents; (e) Agents which may introduce or disseminate any contagious or infectious disease of animals, humans or poultry and which require a permit for entry and/or distribution within the Unites States of America; (f) Agents which are classified as Plant Pests and which would require a permit for entry and/or distribution within the United States of America; (g) Mixtures of micro-organisms; (h) Fastidious micro-organisms which would require (in the view of the Curator) more than reasonable attention in handling and preparation of lyophilized material; (i) Phages of any kind; (j) Plasmids and like materials.
(2)	Bacteria (including actinomycetes), bacteriophages, fungi, algae, protozoa, viruses (both animal and plant), tissue culture cells, plasmids and DNA recombinants

Depositary Institutions (List of, with Notes, Cont'd)

(3)	Fungi, yeasts and bacteria (mainly actinomycetes)
(4)	Bacteria, mycroplasma, rikkettsiae, microscopic fungi, yeasts, viruses and tissue cultures
(5)	Bacteria, yeasts, bacteriophages and fungi with the exception of certain pathogenic varieties
(6)	Mycobacteria, yeasts of the strains candida and torulopsis, nocardia, streptomyces
(7)	Fungi, yeasts, bacteria and actinomycetes which are not pathogenic to the human body and which do not require extraordinary means for their long term storage
(8)	Bacteria, including actinomycetes, but excluding dangerous pathogens

DESIGNATED (OR ELECTED) OFFICES WHOSE APPLICABLE NATIONAL LAW ALLOWS REFERENCES TO BE MADE TO DEPOSITS OF MICROORGANISMS; THE INDICATIONS (IF ANY), IN ADDITION TO THE PRESCRIBED INDICATIONS, RELATING TO SUCH DEPOSITS REQUIRED TO BE INCLUDED IN REFERENCES UNDER THAT LAW; THE TIMES (IF ANY), EARLIER THAN THE PRESCRIBED TIME, BY WHICH SUCH REFERENCES AND INDICATIONS MUST BE FURNISHED; AND THE DEPOSITARY INSTITUTIONS WITH WHICH, UNDER THAT LAW, DEPOSITS MAY BE MADE

Designated (or Elected) Office	**Matter (if any) Which Must be Indicated in Addition to that Set Out in Rule 13*bis*.3(a)(i) to (iii) (notifications received pursuant to Rule 13*bis*.7(a)(i))**	**Time (if any) Earlier Than That Specified in Rule 13*bis*. 4 by Which Applicant must Furnish (A) the Indications Referred to in Rule 13*bis*. 3(a)(i) to (iii) (B) any Additional Matter Specified in the Adjacent Left-Hand Column (notifications received pursuant to Rule 13*bis*.7(a)(ii))**	**Listing of Depositary Institutions with Which Deposits May be Made (Identified by Reference Numbers Indicated in Preceding List of Depositary Institutions) (notifications received pursuant to Rule 13*bis*.(7)(b))**
Germany (Federal Republic of) German Patent Office	None	None	No listing supplied (see footnote (2), below)
Hungary National Office of Inventions	To the extent available to the applicant, the characteristics of the microorganism and a taxonomic description	In the case of (B), at the time of filing	17 and other institutions not listed (see footnote (3), below); footnote (1), below, also applies
Japan Japanese Patent Office	Relevant information on (i) the characteristics which identify, (ii) the process for producing, (iii) the usefulness of, the microorganism	In the case of both (A) (except as to the date of deposit of the microorganism) and (B): at the time of filing	11; footnote (1), below, also applies
Netherlands Netherlands Patent Office	None	None	1, 2, 3, 6, 8, 9, 11, 15, 16, 21
Soviet Union USSR State Committee for Inventions and Discoveries	None	None	No listing supplied (see footnote (4), below)
Sweden Royal Patent and Registration Office	None	None	1, 2, 3, 4, 5, 10, 14
Switzerland Swiss Intellectual Property Office	None	In the case of (A), at time of filing for identification of institution and within 2 months thereafter for other indications	1, 2, 3, 4, 5, 6, 7 8, 10, 11, 12, 13, 14, 16 18, 19, 20

Designated (or Elected) Offices Whose Applicable National Law Allows References to be Made to Deposits of Microorganims; the Indications (if any), in Addition to the Prescribed Indications, Relating to Such Deposits Required to be Included in References Under that Law; the Times (if any), Earlier than the Prescribed Time, by Which Such References and Indications Must be Furnished; and the Depositary Institutions with Which, Under that Law, Deposits May be Made (Continued)

Designated (or Elected) Office	Matter (if any) Which Must be Indicated in Addition to that Set Out in Rule 13*bis*.3(a)(i) to (iii) (notifications received pursuant to Rule 13*bis*.7(a)(i))	Time (if any) Earlier Than That Specified in Rule 13*bis*. 4 by Which Applicant must Furnish (A) the Indications Referred to in Rule 13*bis*. 3(a)(i) to (iii) (B) any Additional Matter Specified in the Adjacent Left-Hand Column (notifications received pursuant to Rule 13*bis*.7(a)(ii))	Listing of Depositary Institutions with Which Deposits May be Made (Identified by Reference Numbers Indicated in Preceding List of Depositary Institutions) (notifications received pursuant to Rule 13*bis*.(7)(b))
United Kingdom Patent Office	To the extent available to the applicant, relevant information on the characteristics of the microorganism	In the case of (A), by the expiration of two months from the international filing date In the case of (B), at the time of filing	No listing supplied (see footnote (5), below); footnote (1), below, also applies
United States of America United States Patent and Trademark Office	(a) A statement that the deposit was made on or before the priority date* of the international application (where a date of deposit prior to that date has not not been indicated, pursuant to Rule 13*bis*.3(a)(ii)) (b) To the extent feasible, a taxonomic description of the microorganism	In the case of (A), the name and address of the depositary institution at the time of filing (see also footnote (7) below In the case of (B), at the time of filing	1, 2 and other institutions not listed (see footnote (6), below); footnote (1), below, also applies
European Patent Organisation European Patent Office	To the extent available to the applicant, relevant information on the characteristics of the microorganism	In the case of (B), at the time of filing	1, 2, 3, 4, 5, 10, 12, 14, 16; footnote (1), below, also applies; see also footnote (8)

* Refers to the priority date as defined in PCT, Article 2(xi)

Footnotes

(1) The Office concerned is an industrial property office within the meaning of the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure. Accordingly, deposit may be made with any depositary institution having acquired the status of international depositary authority under the said Treaty.*

---

* At the time of publication of this issue, no international depositary authority has yet been appointed. Such authorities will be notified in "Industrial Property" probably commencing in the first half of 1981.

Designated (or Elected) Offices Whose Applicable National Law Allows References to be Made to Deposits of Microorganisms; the Indications (if any) in Addition to the Prescribed Indications, Relating to Such Deposits Required to be Included in References Under that Law; the Times (if any), Earlier than the Prescribed Time, by Which Such References and Indications Must be Furnished; and the Depositary Institutions with Which, Under that Law, Deposits May be Made (Continued)

Footnotes (Continued)

(2) The Office concerned has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any scientifically recognized institution at home and abroad". A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(3) The Office concerned has informed the International Bureau that, for the purposes of patent procedure before that Office, deposits may be made with (in addition to the institution identified in the listing) "any internationally well-known depositary institution." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(4) The Office concerned has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any depositary institution." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(5) The Office concerned has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any depositary institution anywhere in the world." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(6) The Office concerned has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "[a]ny foreign or domestic depository obligated by law, treaty or contract to accept, store and release specimens under the condition specified in the United States jurisprudence." A listing of all institutions recognized by the said Office as coming within that description will be published when received from that Office.

(7) The Office concerned has informed the International Bureau that if the same indications are not also included in an earlier application the priority of which is claimed, the priority of the earlier application will be not accorded, in the national processing of the application.

(8) The Office concerned has informed the International Bureau that, if the applicant wishes that, until the publication of the mention of the grant of a European patent or until the date on which the applicaton is refused or withdrawn or is deemed to be withdrawn, the microorganism shall be made available as provided in Rule 28(3) of the Implementing Regulations under the European Patent Convention only by the issue of a sample to an expert nominated by the requester (Rule 28(4)) of the said Implementing Regulations), the applicant must inform the International Bureau accordingly before completion of technical preparations for publication of the international application.

LIST OF DESIGNATED (OR ELECTED) OFFICES WHOSE NATIONAL LAW CONTAINS NO PROVISION RELATING TO THE DEPOSIT OF MICROORGANISMS

Contracting State	**Name of Office**
Australia:	Australian Patent Office
Austria:	Austrian Patent Office (1)
Brazil:	National Institute of Industrial Property
Denmark:	Patent and Trademark Office
Finland:	National Board of Patents and Registration (2)
Luxembourg:	Ministry of National Economy, Patent Office
Madagascar:	Ministry of Industry and Commerce, Department of Industry and Mines
Malawi:	Ministry of Justice, Department of the Registrar-General
Monaco:	Ministry of State, Patent Office
Norway:	Norwegian Patent Office
Romania:	State Office for Inventions and Trademarks (3)
Intergovernmental Organisation:	African Intellectual Property Organization

Notes

(1) The Office concerned has informed the International Bureau that, while the present national law does not provide for deposits of microorganisms, that law does not contain any prohibition of such deposits.

(2) The Office concerned has informed the International Bureau that the Office does not require "but only strongly recommend[s] deposits of the microorganisms which are not available to the public and which belong to the inventions under consideration".

(3) The Office concerned has informed the International Bureau that the national legislation includes no provision concerning depositary institutions but practically the Office "recognizes deposits with specialized institutions in the Contracting State or abroad accessible to any interested physical or juristic person".

NOTIFICATIONS PURSUANT TO PCT RULE 16 BIS. 3

The International Bureau has received notifications pursuant to PCT Rule 16*bis*. 3 excluding the application of PCT Rule 16*bis*. 1 and PCT Rule 16*bis*. 2* to the Offices, as receiving Offices under the PCT, of the following four countries:

Australia
Austria
Hungary
Japan

NOTIFICATIONS PURSUANT TO PCT RULE 80.6(b)

The International Bureau has received notifications pursuant to PCT Rule 80.6(b), having the effect of excluding the application of PCT Rule 80.6(a), second sentence**, to the Offices, as receiving Offices under the PCT, of the following six countries:

Australia
Denmark
Finland
Japan
Norway
Sweden

*NOTIFICATIONS PURSUANT TO PCT RULE 92.4****

Pursuant to PCT Rule 92.4 the national Offices of the following twelve countries and the one intergovernmental organization indicated below are prepared to receive documents (including drawings) -- subsequent to the international application -- by the means indicated hereafter:

Austria: telegraph, teleprinter
Brazil: telegraph, teleprinter
Denmark: telegraph, teleprinter
Finland: telegraph
France: telegraph, teleprinter
Germany (Federal Republic of): telegraph, teleprinter
Hungary: telegraph, teleprinter
Luxembourg: telegraph, teleprinter
Malawi: telegraph
Monaco: telegraph
Netherlands: telegraph
Norway: telegraph, teleprinter
Romania: telegraph, teleprinter
Soviet Union: telegraph, teleprinter
Sweden: teleprinter
Switzerland: teleprinter
United States of America: teleprinter
European Patent Office: telegraph, teleprinter
International Bureau of WIPO: telegraph, teleprinter,telecopier (facsimile copies via Swiss Postal Service)

Particulars as to the telegraphic and teleprinter addresses of all national Offices and intergovernmental organizations are indicated in this issue of the PCT Gazette.

---

* See PCT Rule 16*bis*, as published in PCT Gazette No. 17/1980, pages 1270-1271.
** See the footnote to PCT Rule 80.6(b) as published in PCT Gazette No. 18/1980, page 1365.
*** The listing appearing in the text which follows will be updated from time to time in future issues of the PCT Gazette.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

This information was last published on pages 1797 to 1801 of the PCT Gazette, No. 24/1980.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 1802 and 1803 of the PCT Gazette, No. 24/1980.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 1804 and 1805 of the PCT Gazette, No. 24/1980.

THE RIGHT TO REQUEST SAMPLES IN THE CASE OF INTERNATIONAL APPLICATIONS WHICH CONTAIN REFERENCES TO DEPOSITED MICROORGANISMS

This information was last published on page 942 of the PCT Gazette, No. 25/1980.

RECEIVING OFFICES

This information was last published on pages 1806 to 1811 of the PCT Gazette, No. 24/1980, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities Specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

FEES PAYABLE TO THE RECEIVING OFFICE

This information was last published on pages 1812 to 1815 of the PCT Gazette, No. 24/1980.

FEES PAYABLE TO THE INTERNATIONAL SEARCHING AUTHORITY

This information was last published on page 1816 of the PCT Gazette, No. 24/1980.

REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH

This information was last published on pages 1817 and 1818 of the PCT Gazette, No. 24/1980.

FEES PAYABLE TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

This information was last published on pages 1819 and 1820 of the PCT Gazette, No. 24/1980.

FEES AND CHARGES PAYABLE TO THE INTERNATIONAL BUREAU

This information was last published on page 1821 of the PCT Gazette, No. 24/1980.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO LANGUAGES OF TRANSLATION OF INTERNATIONAL APPLICATIONS AND INTERNATIONAL PRELIMINARY EXAMINATION REPORTS

This information was last published on pages 1822 to 1824 of the PCT Gazette, No. 24/1980.

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO NATIONAL FEES AND TIME LIMITS

This information was last published on pages 1825 to 1830 of the PCT Gazette, No. 24/1980.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 1831 to 1833 of the PCT Gazette No. 24/1980.

LIST OF DEPOSITORY INSTITUTIONS WITH WHICH DEPOSITS OF MICROORGANISMS MAY BE MADE FOR CERTAIN DESIGNATED OFFICES

This information is published on pages 2055 to 2058 of this issue of the PCT Gazette.

DESIGNATED (OR ELECTED) OFFICES WHOSE APPLICABLE NATIONAL LAW ALLOWS REFERENCES TO BE MADE TO DEPOSITS OF MICROORGANISMS; THE INDICATIONS (IF ANY), IN ADDITION TO THE PRESCRIBED INDICATIONS, RELATING TO SUCH DEPOSITS REQUIRED TO BE INCLUDED IN REFERENCES UNDER THAT LAW; THE TIMES (IF ANY), EARLIER THAN THE PRESCRIBED TIME, BY WHICH SUCH REFERENCES AND INDICATIONS MUST BE FURNISHED; AND THE DEPOSITARY INSTITUTIONS WITH WHICH, UNDER THAT LAW, DEPOSITS MAY BE MADE

This information is published on pages 2059 to 2061 of this issue of the PCT Gazette.

LIST OF DESIGNATED (OR ELECTED) OFFICES WHOSE NATIONAL LAW CONTAINS NO PROVISION RELATING TO THE DEPOSIT OF MICROORGANISMS

This information is published on page 2062 of this issue of the PCT Gazette.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last published on page 1834 of the PCT Gazette, No. 24/1980.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY, RELEVANT TO ARTICLE 45(2)

This information was last published on page 1834 of the PCT Gazette, No. 24/1980.

WARNING AND INFORMATION CONCERNING THE NEED OF INDICATING THE INVENTOR AS APPLICANT FOR THE PURPOSES OF THE UNITED STATES OF AMERICA

This information was last published on pages 1835 and 1836 of the PCT Gazette, No. 24/1980.

Information relating to Designated (or Elected) States (Continued)

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH REFERRED TO IN PCT, ARTICLE 15(5)

This information was last published on pages 1837 to 1840 of the PCT Gazette, No. 24/1980.

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

This information was last published on pages 1841 and 1842 of the PCT Gazette, No. 24/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 16 *BIS*. 3

This information is published on page 2063 of this issue of the PCT Gazette.

NOTIFICATIONS PURSUANT TO PCT RULE 80.6(b)

This information is published on page 2063 of this issue of the PCT Gazette.

NOTIFICATIONS PURSUANT TO PCT RULE 92.4

This information is published on page 2063 of this issue of the PCT Gazette.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
– the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
– the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Supplements to the *PCT Applicant's Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have been issued ** in the English and French languages on the following dates:

Austrian Patent Office (August 1980),
German Patent Office (English, February 1980; French, April 1980),
Japanese Patent Office (May 1980),
Netherlands Patent Office (August 1980),
Swedish Patent Office (June 1980),
Swiss Patent Office (May 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

The *PCT Applicant's Guide* in English or French may be ordered from WIPO at the address appearing on the inside cover of this Gazette.

The *PCT Applicant's Guide* in German is out of print. A revised version of the new loose leaf format is going to be published during the second half of 1980. Enquiries and subscriptions are to be directed to Carl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, Federal Republic of Germany.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

	Date of Entry into Force of the PCT in respect of the State
Australia	March 31, 1980 (2)
Austria	April 23, 1979 (2)
Brazil	April 9, 1978 (1)
Cameroon	January 24, 1978 (1)
Central African Republic	January 24, 1978 (1)
Chad	January 24, 1978 (1)
Congo	January 24, 1978 (1)
Democratic People's Republic of Korea	July 8, 1980 (2)
Denmark*	December 1, 1978 (2)
Finland	October 1, 1980 (2)
France*	February 25, 1978 (1)
Gabon	January 24, 1978 (1)
Germany (Federal Republic of)	January 24, 1978 (1)
Hungary	June 27, 1980 (2)
Japan	October 1, 1978 (2)
Liechtenstein*	March 19, 1980 (2)
Luxembourg*	April 30, 1978 (1)
Madagascar	January 24, 1978 (1)
Malawi	January 24, 1978 (1)
Monaco	June 22, 1979 (2)

---

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, and this State may be designated in international applications as from the same date.

"MINIMUM DOCUMENTATION" UNDER RULE 34.1 (b) (III) OF THE REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

The International Searching Authorities agreed, at a meeting held in Geneva on April 12, 1978, that for the purposes of PCT, Rule 34.1 (b) (III), the published items of non-patent literature to be included in the PCT "minimum documentation" should be the items published in the periodicals listed below during the five-year period preceding the time at which an international search report is established, it being understood that an International Searching Authority would not be precluded from consulting issues of the said periodicals published prior to the beginning of the said five-year period. The list is followed by explanatory notes facilitating an understanding of the indications contained in the list.

EXPLANATORY NOTES

1. The structure of the list is as follows:

(i) entries in the list are numbered consecutively by an identification number (but see note 2(iv) below);

(ii) each entry is concerned with one periodical only and gives for each periodical

— the original title of the periodical
— the publisher
— the address of the publisher;

(iii) the language of the periodical is indicated opposite the title: E stands for English, F for French, G for German, I for Italian, J for Japanese, Pt for Portuguese, R for Russian, Sp for Spanish, Sw for Swedish;

(iv) where the periodical is published in two or more parts, or sections, these are indicated under the title (with a short indication of the fields covered by each one, if not obvious from their subtitle);

(v) the International Standard Serial Number (ISSN) is given for each periodical or for each Section where the periodical is published in two or more parts, so as to assist identification of each periodical or Section;

(vi) where the publication of a periodical has been discontinued, the particulars concerning the periodical have been shown inside parentheses and the date of discontinuation has been indicated.

2. The titles are arranged alphabetically, subject to the following:

(i) where the title of the periodical contains the name of a learned society, association or organization, etc., the title appears in the listing under the name of the learned society, association, or organization, etc., e.g. "Journal of the American Ceramic Society" appears under "American Ceramic Society, Journal";

(ii) the only secondary publication included as an exception in this list is indicated after the listing of the primary publications under identification number 169;

(iii) when several editions of a periodical exist in different languages (e.g., by cover-to-cover translation), the periodical is listed according to the title of the *English edition*, if any, with the original title given in parentheses. If no English edition exists, the original title is used for purposes of the alphabetical list;

(iv) where the title of a periodical has changed, both the former title (in parentheses) and the new title are given in the alphabetical listing, the PCT Identification Number allotted to the periodical remaining unchanged.

3. The names of Japanese publishers are indicated in English, followd by the transliteration of the Japanese name into Latin characters in parentheses.

4. The names and addresses of the publishers of the original editions of Russian periodicals are indicated below the names and addresses of the publishers of cover-to-cover translations into English. The language of each edition of the periodical is indicated, in this case, according to the respective publisher.

5. Whenever the periodical contains, in addition to full-text articles in the language, or languages, in which it is published, translations of abstracts, or of abstracts and part of the text, into other languages, this fact is indicated by one or two asterisks next to the indication of the languages (see paragraph 1 (iii) above) as follows:

* only abstract in this language
** abstract and part of text in this language.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

This information was last published on pages 1797 to 1801 of the PCT Gazette, No. 24/1980.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 1802 and 1803 of the PCT Gazette, No. 24/1980.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 1804 and 1805 of the PCT Gazette, No. 24/1980.

THE RIGHT TO REQUEST SAMPLES IN THE CASE OF INTERNATIONAL APPLICATIONS WHICH CONTAIN REFERENCES TO DEPOSITED MICROORGANISMS

This information was last published on page 942 of the PCT Gazette, No. 25/1980.

RECEIVING OFFICES

This information was last published on pages 1806 to 1811 of the PCT Gazette, No. 24/1980, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities Specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

FEES PAYABLE TO THE RECEIVING OFFICE

This information was last published on pages 1812 to 1815 of the PCT Gazette, No. 24/1980.

FEES PAYABLE TO THE INTERNATIONAL SEARCHING AUTHORITY

This information was last published on page 1816 of the PCT Gazette, No. 24/1980.

REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH

This information was last published on pages 1817 and 1818 of the PCT Gazette, No. 24/1980.

FEES PAYABLE TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

This information was last published on pages 1819 and 1820 of the PCT Gazette, No. 24/1980.

FEES AND CHARGES PAYABLE TO THE INTERNATIONAL BUREAU

This information was last published on page 1821 of the PCT Gazette, No. 24/1980.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO LANGUAGES OF TRANSLATION OF INTERNATIONAL APPLICATIONS AND INTERNATIONAL PRELIMINARY EXAMINATION REPORTS

This information was last published on pages 1822 to 1824 of the PCT Gazette, No. 24/1980.

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO NATIONAL FEES AND TIME LIMITS

This information was last published on pages 1825 to 1830 of the PCT Gazette, No. 24/1980.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 1831 to 1833 of the PCT Gazette No. 24/1980.

LIST OF DEPOSITORY INSTITUTIONS WITH WHICH DEPOSITS OF MICROORGANISMS MAY BE MADE FOR CERTAIN DESIGNATED OFFICES

This information was last published on pages 2055 to 2058 of the PCT Gazette. 6/1980.

DESIGNATED (OR ELECTED) OFFICES WHOSE APPLICABLE NATIONAL LAW ALLOWS REFERENCES TO BE MADE TO DEPOSITS OF MICROORGANISMS; THE INDICATIONS (IF ANY), IN ADDITION TO THE PRESCRIBED INDICATIONS, RELATING TO SUCH DEPOSITS REQUIRED TO BE INCLUDED IN REFERENCES UNDER THAT LAW; THE TIMES (IF ANY), EARLIER THAN THE PRESCRIBED TIME, BY WHICH SUCH REFERENCES AND INDICATIONS MUST BE FURNISHED; AND THE DEPOSITARY INSTITUTIONS WITH WHICH, UNDER THAT LAW, DEPOSITS MAY BE MADE

This information was last published on pages 2059 to 2061 of the PCT Gazette, No. 26/1980.

LIST OF DESIGNATED (OR ELECTED) OFFICES WHOSE NATIONAL LAW CONTAINS NO PROVISION RELATING TO THE DEPOSIT OF MICROORGANISMS

This information was last published on page 2062 of the PCT Gazette, No. 26/1980.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last published on page 1834 of the PCT Gazette, No. 24/1980.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY, RELEVANT TO ARTICLE 45(2)

This information was last published on page 1834 of the PCT Gazette, No. 24/1980.

WARNING AND INFORMATION CONCERNING THE NEED OF INDICATING THE INVENTOR AS APPLICANT FOR THE PURPOSES OF THE UNITED STATES OF AMERICA

This information was last published on pages 1835 and 1836 of the PCT Gazette, No. 24/1980.

Information relating to Designated (or Elected) States (Continued)

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH REFERRED TO IN PCT, ARTICLE 15(5)

This information was last published on pages 1837 to 1840 of the PCT Gazette, No. 24/1980.

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

This information was last published on pages 1841 and 1842 of the PCT Gazette, No. 24/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 16 *BIS*. 3

This information was last published on page 2063 of the PCT Gazette, No. 26/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 80.6(b)

This information was last published on page 2063 of the PCT Gazette, No. 26/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 92.4

This information was last published on page 2063 of the PCT Gazette, No. 26/1980.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
– the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
– the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Supplements to the *PCT Applicant's Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have been issued ** in the English and French languages on the following dates:

Austrian Patent Office (August 1980),
German Patent Office (English, February 1980; French, April 1980),
Japanese Patent Office (May 1980),
Netherlands Patent Office (August 1980),
Swedish Patent Office (June 1980),
Swiss Patent Office (May 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

The *PCT Applicant's Guide* in English or French may be ordered from WIPO at the address appearing on the inside cover of this Gazette.

The *PCT Applicant's Guide* in German is out of print. A revised version of the new loose leaf format is going to be published during the second half of 1980. Enquiries and subscriptions are to be directed to Carl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, Federal Republic of Germany.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

AGREEMENT BETWEEN THE ROYAL PATENT AND REGISTRATION OFFICE OF SWEDEN AS INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY AND THE INTERNATIONAL BUREAU OF WIPO:

Amendment to Annex C

The Royal Patent and Registration Office has notified the Director General of WIPO pursuant to Article 16(3) of the Agreement* of the following changes of the Schedule of Fees and Charges contained in Annex C thereof:

	Amount in Sw Crs
Search fee (Rule 16.1(a))	2,200.--**
Search fee in case the search report is based on an earlier search report already prepared by the Royal Patent and Registration Office of Sweden or by a national Office of a Contracting State referred to in Art. 3(1)(i) of this Agreement on an application whose priority is claimed for the international patent application	1,600.--***
Additional fee (Rule 40.2(a))	2,200.--
Preparing copies of cited documents (Rule 44.3(b))	1.75/page
Preliminary examination fee (Rule 58.1(b))	1,500.--
Additional fee (Rule 68.3(a))	1,500.--
Preparing copies of cited documents (Rule 71.2(b))	1.75/page

The changes enter into effect on February 1, 1981.

These footnotes are not part of Annex C of the Agreement referred to above:

* Published in the PCT Gazette, No. 02/1978, pages 116 to 124.

** The following equivalent amounts of this fee in other currencies have been fixed by the Royal Patent and Registration Office of Sweden: Danish Kroner 3,050; Finnish Markka 1,950; Norwegian Kroner 2,550.

*** The following equivalent amounts of this fee in other currencies have been fixed by the Royal Patent and Registration Office of Sweden: Danish Kroner 2,250; Finnish Markka 1,420; Norwegian Kroner 1,875.

This information is published on page 1842 of this issue of the PCT Gazette.

RECEIVING OFFICES

This information was last published on pages 1806 to 1811 of the PCT Gazette, No. 24/1980, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications Shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities Specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

FEES PAYABLE TO THE RECEIVING OFFICE

This information was last published on pages 1812 to 1815 of the PCT Gazette, No. 24/1980.

FEES PAYABLE TO THE INTERNATIONAL SEARCHING AUTHORITY

This information was last published on page 1816 of the PCT Gazette, No. 24/1980.

REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH

This information was last published on pages 1817 and 1818 of the PCT Gazette, No. 24/1980.

FEES PAYABLE TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

This information was last published on pages 1819 and 1820 of the PCT Gazette, No. 24/1980.

FEES AND CHARGES PAYABLE TO THE INTERNATIONAL BUREAU

This information was last published on page 1821 of the PCT Gazette, No. 24/1980.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO LANGUAGES OF TRANSLATION OF INTERNATIONAL APPLICATIONS AND INTERNATIONAL PRELIMINARY EXAMINATION REPORTS

This information was last published on pages 1822 to 1824 of the PCT Gazette, No. 24/1980.

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO NATIONAL FEES AND TIME LIMITS

This information was last published on pages 1825 to 1830 of the PCT Gazette, No. 24/1980.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 1831 to 1833 of the PCT Gazette No. 24/1980.

LIST OF DEPOSITORY INSTITUTIONS WITH WHICH DEPOSITS OF MICROORGANISMS MAY BE MADE FOR CERTAIN DESIGNATED OFFICES

This information was last published on pages 2055 to 2058 of the PCT Gazette, No. 26/1980.

DESIGNATED (OR ELECTED) OFFICES WHOSE APPLICABLE NATIONAL LAW ALLOWS REFERENCES TO BE MADE TO DEPOSITS OF MICROORGANISMS; THE INDICATIONS (IF ANY), IN ADDITION TO THE PRESCRIBED INDICATIONS, RELATING TO SUCH DEPOSITS REQUIRED TO BE INCLUDED IN REFERENCES UNDER THAT LAW; THE TIMES (IF ANY), EARLIER THAN THE PRESCRIBED TIME, BY WHICH SUCH REFERENCES AND INDICATIONS MUST BE FURNISHED; AND THE DEPOSITARY INSTITUTIONS WITH WHICH, UNDER THAT LAW, DEPOSITS MAY BE MADE

This information was last published on pages 2059 to 2061 of the PCT Gazette, No. 26/1980.

LIST OF DESIGNATED (OR ELECTED) OFFICES WHOSE NATIONAL LAW CONTAINS NO PROVISION RELATING TO THE DEPOSIT OF MICROORGANISMS

This information was last published on page 2062 of the PCT Gazette, No. 26/1980.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER PCT ARTICLE 20

This information was last published on page 1834 of the PCT Gazette, No. 24/1980.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY, RELEVANT TO PCT ARTICLE 45(2)

This information was last published on page 1834 of the PCT Gazette, No. 24/1980.

WARNING AND INFORMATION CONCERNING THE NEED OF INDICATING THE INVENTOR AS APPLICANT FOR THE PURPOSES OF THE UNITED STATES OF AMERICA

This information was last published on pages 1835 and 1836 of the PCT Gazette, No. 24/1980.

Information relating to Designated (or Elected) States (Continued)

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH REFERRED TO IN PCT, ARTICLE 15(5)

This information was last published on pages 1837 to 1840 of the PCT Gazette, No. 24/1980.

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

This information was last published on pages 1841 and 1842 of the PCT Gazette, No. 24/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 16 *BIS*. 3

This information was last published on page 2063 of the PCT Gazette, No. 26/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 80.6(b)

This information was last published on page 2063 of the PCT Gazette, No. 26/1980.

NOTIFICATIONS PURSUANT TO PCT RULE 92.4

This information was last published on page 2063 of the PCT Gazette, No. 26/1980.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979 and April 1980.

Supplements to the *PCT Applicant's Guide* dealing with the procedure before the designated and, where applicable, elected Offices set out below have been issued ** in the English and French languages on the following dates:

Austrian Patent Office (August 1980),
German Patent Office (English, February 1980; French, April 1980),
Japanese Patent Office (May 1980),
Netherlands Patent Office (August 1980),
Swedish Patent Office (June 1980),
Swiss Patent Office (May 1980),
United Kingdom Patent Office (April 1980),
United States Patent and Trademark Office (April 1980),
European Patent Office (April 1980).

The *PCT Applicant's Guide* in English or French may be ordered from WIPO at the address appearing on the inside cover of this Gazette.

The *PCT Applicant's Guide* in German is out of print. A revised version of the new loose leaf format is going to be published during the second half of 1980. Enquiries and subscriptions are to be directed to Carl Heymann Verlag KG, Postfach 275, D 8000 Munich 22, Federal Republic of Germany.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price (1980) per volume is 60 Swiss francs or US$ 37 including replacement sheets issued in the year 1980. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; other places (including North America), 16 Swiss francs (or US$ 10). The subscription price (1980) to the updating service above (for those who purchased the Guide before 1980) is 20 Swiss francs or US$ 12.50. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

** The subscription price for the complete set of supplements to be issued in 1980 (dealing with at least 10 Offices) is 50 Swiss francs or US$ 31. The additional charges for delivery by air mail are: Europe, 5 Swiss francs; other places (including North America), 10 Swiss francs (or US$ 7).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)
as of January 11, 1979

Brazil	April 9, 1978(1)
Cameroon	January 24, 1978(1)
Central African Empire	January 24, 1978(1)
Chad	January 24, 1978(1)
Congo	January 24, 1978(1)
Denmark*	December 1, 1978(2)
France*	February 25, 1978(1)
Gabon	January 24, 1978(1)
Germany (Federal Republic of)	January 24, 1978(1)
Japan	October 1, 1978(2)
Luxembourg*	April 30, 1978(1)
Madagascar	January 24, 1978(1)
Malawi	January 24, 1978(1)
Senegal	January 24, 1978(1)
Soviet Union	March 29, 1978(1)
Sweden	May 17, 1978(1)
Switzerland*	January 24, 1978(1)
Togo	January 24, 1978(1)
United Kingdom	January 24, 1978(1)
United States of America*	January 24, 1978(1)

---

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, and this State may be designated in international applications as from the same date.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

*No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
United States of America		
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, PCT Gazette, No. 02/1978, pages 140 and 144).	English
EPO		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES:
THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

International Preliminary Examining Authorities: Their list and certain data concerning them (Continued)

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
United Kingdom Patent Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT. Rule 67.1*. (See Article 6 of the Agreement, PCT Gazette, No. 02/1978, page 126).	English (but only where it is the language of filing or publication)
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

RECEIVING OFFICES

COMPETENT RECEIVING OFFICES

Contracting State of which the applicant is a national or resident	Competent receiving Office
Brazil	National Institute of Industrial Property (Rio de Janeiro)
Cameroon	International Bureau of WIPO (Geneva)

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

Luxembourg
Ministry of National Economy, Patent Office

Waived entirely

Sweden
Royal Patent and Registration Office

Waived except as to the international search report (including the indication referred to in Article 17(2)(b)), or the declaration referred to in Article 17(2)(a), in the language in which the international application is filed and, where applicable, is translated.

United States of America
United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The ***United States of America*** is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"117. **Death or incapacity of inventor**

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"118. **Filing by other than inventor**

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. **Improper applicant**

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

Denmark, Sweden, Switzerland and the United States of America are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15(5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patents Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application in a language prescribed by the patent authority.

(2) If the appplicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15(5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the filing of the patent application, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX : International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15(5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121(2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

United States of America

Sections 1.104(c) and (d) and 1.21(w) of the Code of Federal Regulations, Title 37 - Patents, Trademarks, and Copyrights, Subchapter A - General, Patents, Part I - Rules of Practice in Patent Cases, read as follows:

"**1.104 Nature of examination; examiner's action**

.....

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See paragraph 1.21(w) for amount of fee for preparation of international-type search report.

Note. The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

"**1.21 Patent and miscellaneous fees and charges**

.....

(w) For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application–$25.

Note. The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application.
....."

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

This information was last published on pages 23 to 26 of the PCT Gazette, No. 01/1979, under the following headings:

- International Searching Authorities: Their List and Certain Data Concerning Them
- International Preliminary Examining Authorities: Their List and Certain Data Concerning Them.

RECEIVING OFFICES

COMPETENT RECEIVING OFFICES

Contracting State of which the applicant is a national or resident	Competent receiving Office
Brazil	National Institute of Industrial Property (Rio de Janeiro)
Cameroon	International Bureau of WIPO (Geneva)
Central African Empire	International Bureau of WIPO (Geneva)
Chad	International Bureau of WIPO (Geneva)
Congo	International Bureau of WIPO (Geneva)
Denmark	Patent and Trademark Office (Copenhagen)
France	National Institute of Industrial Property (Paris) or European Patent Office*
Gabon	International Bureau of WIPO (Geneva)
Germany (Federal Republic of)	German Patent Office (Munich) or European Patent Office
Japan	Japanese Patent Office (Tokyo)
Luxembourg	Ministry of National Economy, Patent Office (Luxembourg) or European Patent Office
Madagascar	International Bureau of WIPO (Geneva)
Malawi	Ministry of Justice, Department of the Registrar General (Blantyre)
Senegal	International Bureau of WIPO (Geneva)
Soviet Union	USSR State Committee for Inventions and Discoveries (Moscow)
Sweden	Royal Patent and Registration Office (Stockholm) or European Patent Office
Switzerland	Federal Bureau of Intellectual Property (Berne) or European Patent Office
Togo	International Bureau of WIPO (Geneva)
United Kingdom	Patent Office (London) or European Patent Office**
United States of America	United States Patent and Trademark Office (Washington)

* Where the applicant is a resident of France, the applicable national law requires that an international application not claiming the priority of an earlier application filed in France, must be filed at the National Institute of Industrial Property (Paris).

** A United Kingdom resident may only file direct at the European Patent Office after having obtained written authorization from the Patent Office (London).

RECEIVING OFFICES: THEIR REQUIREMENTS AS TO LANGUAGES AND COPIES IN WHICH INTERNATIONAL APPLICATIONS SHALL BE FILED WITH THEM AND THE COMPETENT INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES SPECIFIED BY THEM

Receiving Office	International application to be filed in		Competent International Searching and International Preliminary Examining Authorities	
	Language	Number of Copies	International Searching Authority	International Preliminary Examining Authority
Brazil				
National Institute of Industrial Property	English	3	European Patent Office or Royal Patent and Registration Office (Sweden) or United States Patent and Trademark Office	European Patent Office or Royal Patent and Registration Office (Sweden) or Patent Office (United Kingdom)
Denmark				
Patent and Trademark Office	Danish or English	1	Royal Patent and Registration Office (Sweden) or European Patent Office	Not applicable*
France				
National Institute of Industrial Property	French	3	European Patent Office	Not applicable*
Germany (Federal Republic of)				
German Patent Office	German	1	European Patent Office	European Patent Office
Japan				
Japanese Patent Office	Japanese	1	Japanese Patent Office	Japanese Patent Office
Luxembourg				
Ministry of National Economy, Patent Office	French or German	3	European Patent Office	Not applicable*

* Receiving Office of a Contracting State not bound by Chapter II of the PCT.

Receiving Offices: Their Requirements as to Languages and Copies in which International applications shall be Filed with them and the Competent International Searching and International Preliminary Examining Authorities specified by them (Continued)

Receiving Office	International application to be filed in		Competent International Searching and International Preliminary Examining Authorities	
	Language	Number of Copies	International Searching Authority	International Preliminary Examining Authority
Malawi				
Ministry of Justice, Department of the Registrar General	English	3	European Patent Office	Patent Office (United Kingdom)

* Applicable only in particular circumstances

FEES AND CHARGES PAYABLE TO THE INTERNATIONAL BUREAU
(Currency: Swiss franc)

Supplement to the handling fee	Sw. frs. 75
Special fee for early publication, upon request by the applicant, where the international search report or declaration referred to in Article 17(2)*(a)* is not available for publication with the international application	Sw. frs. 200
Fee covering the cost of preparing and mailing to a designated Office a copy of an international application on request of the applicant, in accordance with Article 13(2)*(b)*	Sw. frs. 35 surface mail or Sw. frs. 45 airmail
Charge covering the cost of furnishing copies of any document in the file	Sw. frs. 5 surface mail or Sw. frs. 15 airmail, and Sw. frs. 1 per page
Charge covering the cost of furnishing copies of a translation of an international application	Sw. frs. 5 surface mail or Sw. frs. 15 airmail and Sw. frs. 1 per page

Note: The fees set out above are payable only in particular circumstances.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

This information was last published on pages 38 to 50 of the PCT Gazette, No. 01/1979, under the following headings:

- Requirements of Designated (or Elected) Offices as to Languages, National Fees and Time Limits
- Obligation to indicate the Name and Certain Other Data concerning the Inventor
- National Offices which entirely or in part waived their Rights to any Communication under Article 20
- Provisions of the Laws of Contracting States Party to a Regional Patent Treaty relevant to Article 45(2)
- Warning and Information concerning the Provisions of the Laws of Contracting States in respect of the Question Who is qualified (Inventor, Successor in Title of the Inventor, Owner of the Invention or other) to file a National Application
- Provisions of the National Laws of Contracting States concerning International-Type Search.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

– the May 1978 editions of the *Guide* in English and German,

– the March 1978 edition of the *Guide* in French (with updating sheets),

– the Annexes dated October 31, 1978, in English and French.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

Note: The Applicant's Guide and its Annexes, in English, will be published shortly in a printed form.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)
as of February 8, 1979

Austria	April 23, 1979(2)
Brazil	April 9, 1978(1)
Cameroon	January 24, 1978(1)
Central African Empire	January 24, 1978(1)
Chad	January 24, 1978(1)
Congo	January 24, 1978(1)
Denmark*	December 1, 1978(2)
France*	February 25, 1978(1)
Gabon	January 24, 1978(1)
Germany (Federal Republic of)	January 24, 1978(1)
Japan	October 1, 1978(2)
Luxembourg*	April 30, 1978(1)
Madagascar	January 24, 1978(1)
Malawi	January 24, 1978(1)
Senegal	January 24, 1978(1)
Soviet Union	March 29, 1978(1)
Sweden	May 17, 1978(1)
Switzerland*	January 24, 1978(1)
Togo	January 24, 1978(1)
United Kingdom	January 24, 1978(1)
United States of America*	January 24, 1978(1)

---

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, ant this State may be designated in international applications as from the same date.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

Austria

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

This information was last published on pages 23 to 26 of the PCT Gazette, No. 01/1979, under the following headings:

- International Searching Authorities: Their List and Certain Data Concerning Them
- International Preliminary Examining Authorities: Their List and Certain Data Concerning Them.

RECEIVING OFFICES

This information was last published on pages 76 to 79 of the PCT Gazette, No. 02/1979, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

This information was last published on pages 80 to 86 of the PCT Gazette, No. 02/1979, under the following headings:

- Fees payable to the Receiving Office
- Fees payable to the International Searching Authority
- Fees payable to the International Preliminary Examining Authority
- Fees payable to the International Bureau.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

This information was last published on pages 38 to 50 of the PCT Gazette, No. 01/1979, under the following headings:

- Requirements of Designated (or Elected) Offices as to Languages, National Fees and Time Limits
- Obligation to indicate the Name and Certain Other Data concerning the Inventor
- National Offices which entirely or in part waived their Rights to any Communication under Article 20
- Provisions of the Laws of Contracting States Party to a Regional Patent Treaty relevant to Article 45(2)
- Warning and Information concerning the Provisions of the Laws of Contracting States in respect of the Question Who is qualified (Inventor, Successor in Title of the Inventor, Owner of the Invention or other) to file a National Application
- Provisions of the National Laws of Contracting States concerning International-Type Search.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

– the December 1978 edition of the *Guide* (and Annexes) in English*,

– the May 1978 edition of the *Guide* in German (with Annexes in English dated October 31, 1978),

– the March 1978 edition of the *Guide* in French (with updating sheets and with Annexes dated October 31, 1978).

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 23 and 24 of the PCT Gazette, No. 01/1979.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 25 and 26 of the PCT Gazette, No. 01/1979.

AGREEMENT BETWEEN THE EUROPEAN PATENT ORGANISATION IN RELATION TO THE ESTABLISHMENT AND FUNCTIONING OF THE EUROPEAN PATENT OFFICE AS AN INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY AND THE INTERNATIONAL BUREAU OF WIPO: AMENDMENT TO ANNEX A

The European Patent Office has notified the International Bureau of WIPO of the amendment, pursuant to Article 18(3)(a) of the Agreement, of paragraph 1 of Annex A thereof* to read as follows:

"1. For the purposes of Article 3(1) of the Agreeements, applications shall be filed in one of the following languages:

Dutch, where the international application is filed with the central industrial property Office of the Netherlands,
English,
French,
German."

---

* Published in the PCT Gazette, No. 02/1978, pages 107 to 115.

RECEIVING OFFICES

This information was last published on pages 76 to 79 of the PCT Gazette, No. 02/1979, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

This information was last published on pages 80 to 86 of the PCT Gazette, No. 02/1979, under the following headings:

- Fees payable to the Receiving Office
- Fees payable to the International Searching Authority
- Fees payable to the International Preliminary Examining Authority
- Fees payable to the International Bureau.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

This information was last published on pages 38 to 50 of the PCT Gazette, No. 01/1979, under the following headings:

- Requirements of Designated (or Elected) Offices as to Languages, National Fees and Time Limits
- Obligation to indicate the Name and Certain Other Data concerning the Inventor
- National Offices which entirely or in part waived their Rights to any Communication under Article 20
- Provisions of the Laws of Contracting States Party to a Regional Patent Treaty relevant to Article 45(2)
- Warning and Information concerning the Provisions of the Laws of Contracting States in respect of the Question Who is qualified (Inventor, Successor in Title of the Inventor, Owner of the Invention or other) to file a National Application
- Provisions of the National Laws of Contracting States concerning International-Type Search.

- Provisions of the National Laws of Contracting States concerning International-Type Search.

---

* The following additional information, relating to the national fee (column 3 of the table appearing in the PCT Gazette mentioned above) of the African Intellectual Property Organization, has been received:

The following fees constitute the "national fee":

		FCFA (Franc CFA)
(a)	Filing and first annual fee for patent	36,000
(b)	Filing fee for certificate of addition	54,000
(c)	Fee for one or more priority claims per priority claim	15,000
(d)	Publication fee in respect of patent or certificate of addition	60,000
(e)	Fee for acceptance of description and drawings. The description and drawings attached to a request for a patent or a certificate of addition are accepted subject to the payment at the time of filing, or later before grant, of a fee fixed according to the number of pages of the description and sheets of drawings:	
	– from 11 to 20 typed pages or sheets of drawings of standard size	27,000
	– from 21 to 30 pages or sheets	54,000
	– from 31 to 40 pages or sheets	81,000
	and thereafter at 6,000 FCFA for each 10 pages or sheets (or part thereof) of standard size	18,000

(The first 10 pages or sheets of standard size are exampted from the fee.)

A page typed single space is counted as two pages; a printed page as three pages; a large sheet of drawings as two sheets of standard size.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this Note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. "NAT" means that, for the designated State, a national patent ("NAT") and/or a European Patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
Austria Austrian Patent Office (April 23, 1979)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*, with the exception of diagnostic methods which are not practiced on the human body. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 06/1979, pages 217 to 223).	English French German
Japan Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136).	Russian English French German

*No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
Sweden Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish
United States of America United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, PCT Gazette, No. 02/1978, pages 140 and 144).	English
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES:
THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
Austria		
Austrian Patent Office (23 April 1979)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*, with the exception of diagnostic methods which are not practiced on the human body. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 06/1979, pages 217 to 223).	English French German
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette No. 02/1978, pages 131 and 136).	Russian English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

AGREEMENT BETWEEN THE AUSTRIAN PATENT OFFICE AND THE INTERNATIONAL BUREAU OF WIPO

Agreement between THE FEDERAL MINISTER FOR TRADE, COMMERCE AND INDUSTRY OF AUSTRIA AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the establishment and functioning of the Austrian Patent Office as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty:

Preamble

WHEREAS the States party to the Patent Cooperation Treaty, done at Washington on June 19, 1970, constitute a Union for cooperation in the filing, searching, and examination of applications for the protection of inventions, and for rendering special technical services, the said Union being known as the International Patent Cooperation Union;

AND WHEREAS Articles 16(3)(b) and 32(3) of the Patent CooperationTreaty provide, inter alia, that the appointment of an Office as an International Searching and International Preliminary Examining Authority by the Assembly of the International Patent Cooperation Union shall be subject to the conclusion of an Agreement with the International Bureau;

AND WHEREAS it is recognized that the participation of the Austrian Patent Office as an International Searching and International Preliminary Examining Authority in matters affecting international search and international preliminary examination will contribute to the successful implementation of the Patent Cooperation Treaty;

IT IS HEREBY AGREED between the Federal Minister for Trade, Commerce and Industry of Austria, the superior authority of the Austrian Patent Office, acting for that Office, and the International Bureau of the World Intellectual Property Organization, hereinafter called the "International Bureau," as follows:

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement, "Treaty" means the Patent Cooperation Treaty done at Washington on June 19, 1970; "Regulations" means the Regulations under the Treaty; "Administrative Instructions" means the Administrative Instructions under the Treaty; "Article," except where otherwise specified, means an Article of the Treaty; "Rule" means a Rule of the Regulations; "Assembly" means the Assembly as defined in Article 2(xvii) of the Treaty; "International Bureau" means the International Bureau as defined in Article 2(xix) of the Treaty; "Contracting State" refers to a Contracting State to the Treaty; "Authority" means the Austrian Patent Office.

(2) All other terms and expressions used in this Agreement are to be understood in the same sense as that in which they are used in theTreaty.

Article 2

Basic Obligation

(1) The Authority shall, except in respect of subject matter which, pursuant to Article 6 of this Agreement, the Authority is not required to search or to examine, carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under, the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be carried out under the Treaty. The Authority undertakes to apply and observe all the common rules (Article 16(3)(b)) of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, each render, to the extent possible, assistance to the other in relation to the performance, by the other, of its functions thereunder.

Article 3

Competence of Authority

(1) The Authority undertakes to act as an International Searching Authority for the international applications filed with the receiving Offices of, or acting for, the Contracting States indicated in Annex A of this Agreement provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority undertakes to act as an International Preliminary Examining Authority for the international applications filed with the receiving Offices of, or acting for, the Contracting States indicated in Annex A of this Agreement provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement. In respect of international applications filed in the languages specified in Annex A, the Authority shall carry out examination without requiring translations of such applications.

Article 4

Provision of Personnel

(1) The Authority shall make available for the purposes of carrying out international search and international preliminary examination, respectively, all members of its staff having duties within the Authority relevant to such search or such examination and having sufficient technical qualifications to carry out such search or such examination. The numbers of such staff shall be maintained at levels meeting the minimum requirements as set out in Rules 36.1(i) and 63.1(i).

(2) The Authority shall maintain a staff which is capable of searching and examining in all technical fields and which has language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Article 5

Documentation Facilities

The Authority shall, for the purposes of this Agreement, maintain and use all documentation facilities at its disposal. In any event, the minimum requirements concerning documentation as set out in Rules 36.1(ii) and 63.1(ii) shall be respected.

Article 6

Subject Matter Not Required to be Searched or Examined

The Authority will not search, by virtue of Article 17(2)(a)(i), or will not examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B.

Article 7

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, to the extent and under the conditions set out in Annex C of this Agreement, refund the whole or part of the search fee paid where a search report can be wholly or partially based on the results of an earlier international or international-type search made by the Authority (Rules 16.3 and 41.1).

Article 8

Review Board

The Authority shall provide that the Appeal Department of the Austrian Patent Office (Beschwerdeabteilung des Osterreichischen Patentamtes) shall examine protests in respect of additional fees where the international application is found not to comply with the requirement of unity of invention (Rule 40.2(c) or Rule 68.3(c)).

Article 9

Time Limit for Preparation of International Search Reports or Declarations and International Preliminary Examination Reports

The Authority shall, within the time limits specified in the first two sentences of Rule 42.1, establish international search reports, or declarations under Article 17(2)(a) and, within the maximum periods specified in Rule 69.1(a)(i) and (ii), establish international preliminary examination reports.

Article 10

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 11

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use the language, specified in Annex A, which is the language of the international application.

Article 12

International-Type Search

(1) The Authority shall make an international-type search on any national application filed in any Contracting State which has specified the Authority as mentioned in Article 3(1) of this Agreement:

(i) as far as such is permitted by the law of, and is requested by, such State;

(ii) where the national law of such State so permits and the applicant so requests.

(2) Where the national application is not in a language in which the Authority has undertaken to search international applications under Article 3 of this Agreement, the international-type search shall be carried out on a translation in a language which the Authority has undertaken to accept for international applications under Article 3 of this Agreement.

Article 13

Information Service and Technical Assistance

The Authority shall supply the International Bureau with such information services and such other contributions to the technical assistance program under Chapter IV of the Treaty as are practicable within the existing facilities of the Authority and may be agreed. The provision of search or examination work for developing countries under preferential conditions shall be the subject of a special agreement.

Article 14

Entry Into Force of the Agreement

This Agreement shall enter into force once all the following conditions are fulfilled:

(i) it is approved by the Assembly;

(ii) it is signed by the Authority and the International Bureau; and

(iii) the Treaty has entered into force for Austria.

The Agreement together with an indication of the date of its entry into force shall be published in the Gazette by the International Bureau.

Article 15

Duration and Renewability of the Agreement

This Agreement shall remain in force for a period of 10 years. It shall be renewable for a period of 10 years subject to the approval of, and the extension of the appointment of the Authority for that period by, the Assembly.

Article 16

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may be made to this Agreement by agreement between the parties hereto and shall take effect upon approval of those amendments by the Assembly, or, if a later date is specified in the amendments, on that date.

(2) Without prejudice to the provisions of paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the parties hereto and shall take effect upon notification in the Gazette or, if a later date is specified in the amendments, on that date.

(3) The Federal Minister for Trade, Commerce and Industry may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the States and languages listed in Annex A of this Agreement.

(ii) subject to paragraph (4), amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Normally, the schedule of fees and other charges shall not be amended during the first year after the entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment of the schedule. Any amendment of the schedule shall take effect one month after publication of the notification of the amendment in the Gazette pursuant to paragraph (5), or, if a later date has been specified by the Federal Minister for Trade, Commerce and Industry, on the date specified by the Federal Minister.

(5) The International Bureau shall publish promptly in the Gazette any amendment of this Agreement agreed between the parties and approved by the Assembly under paragraph (1), any amendment of this Agreement agreed between the parties under paragraph (2), and any notification received by it under paragraph (3).

Article 17

Termination of the Agreement

(1) This Agreement shall terminate:

(i) if the Federal Minister for Trade, Commerce and Industry gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Federal Minister for Trade, Commerce and Industry written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Vienna, this 21st day of February 1979, in two originals each in the English and German languages, both texts being equally authentic.

For the Federal Minister for Trade, Commerce and Industry of Austria by:

the President of the Austrian Patent Office

For the International Bureau by:

the Director General of the World Intellectual Property Organization

ANNEX A

STATES AND LANGUAGES SPECIFIED FOR THE PURPOSES OF ARTICLE 3 OF THE AGREEMENT

1. The States specified for the purposes of Article 3(1) of the Agreement are the States, regarded as a developing country in conformity with the established practice of the General Assembly of the United Nations, with which Austria, in accordance with its obligations undertaken within the framework of the European Patent Organisation, has concluded an agreement for that purpose.

2. The languages specified for the purposes of Article 3(1) of the Agreement are:

English
French
German.

3. The States specified for the purposes of Article 3(2) of the Agreement are the States, regarded as a developing country in conformity with the established practice of the General Assembly of the United Nations, with which Austria, in accordance with its obligations undertaken within the framework of the European Patent Organisation, has concluded an agreement for that purpose.

4. The languages specified for the purposes of Article 3(2) of the Agreement are:

English
French
German.

ANNEX B

SUBJECT MATTER SPECIFIED UNDER ARTICLE 6 OF THE AGREEMENT

The subject matter set forth in Rule 39.1 or Rule 67.1, which, under Article 6 of the Agreement, is not excluded from search or examination, is the following:

Diagnostic methods which are not practiced on the human body.

ANNEX C

SCHEDULE OF FEES AND CHARGES OF THE AUTHORITY AND EXTENT AND CONDITIONS OF REFUNDS OF THE SEARCH FEE FOR THE PURPOSES OF ARTICLE 7 OF THE AGREEMENT

(a) Schedule of fees and charges

Fee	Amount in Austrian Schillings
Search fee (Rule 16.1(a))	4000.-
Additional fee (Rule 40.2(a))	4000.-
Preparing copies of cited documents (Rule 44.3(b))	6.- per page
Preliminary examination fee (Rule 58.1(b))	4000.-
Additional fee (Rule 68.3(a))	4000.-
Preparing copies of cited documents (Rule 71.2(b))	6.- per page

(b) Conditions and extent of refunds of the search fee where the search report can be wholly or partially based on the results of an earlier international or international-type search (Rules 16.3 and 41.1)

The conditions and the extent of refunds of the search fee in cases where the search report can be wholly or partially based on the results of an earlier international or international-type search are the following:

The amount of any refund of the search fee shall be 75 o/o if the Authority benefits from the prior search report to the full extent or a substantially prevailing portion.

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

This information was last published on pages 46 and 47 of the PCT Gazette, No. 01/1979.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

This information was last published on pages 48 to 50 of the PCT Gazette, No. 01/1979.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

- the December 1978 edition of the *Guide* (and Annexes) in English*,
- the May 1978 edition of the *Guide* in German (with Annexes in English dated October 31, 1978),
- the March 1978 edition of the *Guide* in French (with updating sheets and with Annexes dated October 31, 1978).

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price per volume is 50 Swiss francs or US$30 including supplemental and replacement sheets issued in the year 1979. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; Japan, 25 Swiss francs; other places (including North America), 17 Swiss francs (or US$ 10).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)
as of April 19, 1979

Austria	April 23, 1979(2)
Brazil	April 9, 1978(1)
Cameroon	January 24, 1978(1)
Central African Empire	January 24, 1978(1)
Chad	January 24, 1978(1)
Congo	January 24, 1978(1)
Denmark*	December 1, 1978(1)
France*	February 25, 1978(1)
Gabon	January 24, 1978(1)
Germany (Federal Republic of)	January 24, 1978(1)
Japan	October 1, 1978(2)
Luxembourg*	April 30, 1978(1)
Madagascar	January 24, 1978(1)
Malawi	January 24, 1978(1)
Monaco	June 22, 1979(2)
Netherlands	July 10, 1979(2)
Senegal	January 24, 1978(1)
Soviet Union	March 29, 1978(1)
Sweden	May 17, 1978(1)
Switzerland*	January 24, 1978(1)
Togo	January 24, 1978(1)
United Kingdom	January 24, 1978(1)
United States of America*	January 24, 1978(1)

---

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, and this State may be designated in international applications as from the same date.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

This information was last published on pages 210 to 212 of the PCT Gazette, No. 06/1979.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 213 and 214 of the PCT Gazette, No. 06/1979.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 215 and 216 of the PCT Gazette, No. 06/1979.

RECEIVING OFFICES

This information was last published on pages 244 to 228 of the PCT Gazette, No. 06/1979, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

This information was last published on pages 229 to 236 of the PCT Gazette, No. 06/1979, under the following headings:

- Fees payable to the Receiving Office
- Fees payable to the International Searching Authority
- Fees payable to the International Preliminary Examining Authority
- Fees payable to the International Bureau

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO LANGUAGES, NATIONAL FEES AND TIME LIMITS

This information was last published on pages 237 to 241 of the PCT Gazette, No. 06/1979.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 242 and 243 of the PCT Gazette, No. 06/1979.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last pubished on page 44 of the PCT Gazette, No. 01/1979.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

This information was last published on page 45 of the PCT Gazette, No. 01/1979.

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

This information was last published on pages 46 and 47 of the PCT Gazette, No. 01/1979.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

This information was last published on pages 48 to 50 of the PCT Gazette, No. 01/1979.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this Note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. "NAT" means that, for the designated State, a national patent ("NAT") and/or a European Patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION (PCT UNION)

ASSEMBLY

Third Session
(Second Extraordinary)

(Geneva, April 25 to May 1, 1979)

Note*

The Assembly of the International Patent Cooperation Union (PCT Union) held its third session (2nd extraordinary) in Geneva from April 25 to May 1, 1979.

Fifteen of the 24 States members of the Assembly were represented: Austria, Brazil, Denmark, France, Germany (Federal Republic of), Japan, Luxembourg, Madagascar, Netherlands, Romania, Soviet Union, Sweden, Switzerland, United Kingdom and United States of America.

Ten States, one intergovernmental organization and five international non-governmental organizations were represented by observers: Australia, Canada, Czechoslovakia, Finland, Hungary, Italy, Mexico, Niger, Norway and Spain; European Patent Organisation (EPO); Council of European Industrial Federations (CEIF), European Federation of Industrial Property Representatives of Industry (FEMIPI), International Federation of Inventors Associations (IFIA), International Federation of Patent Agents (FICPI) and Union of Industries of the European Community (UNICE).

The list of participants follows this Note.

Amendments to the PCT Regulations. The Assembly adopted amendments to a number of Rules of the PCT Regulations relating to fees, a new Schedule of Fees and a new Rule relating thereto**.

The amounts in the currencies of the Contracting States equivalent to those set out in the Schedule of Fees in Swiss francs were established by the Director General of WIPO in consultation with the interested Offices.*** All of these amounts will come into effect on August 1, 1979. The new fees expressed in Swiss francs are expected to remain in force until the end of 1980. The equivalents in other currencies will be subject to adjustment, in accordance with the following directives established by the Assembly:

(1) At the time of each ordinary session of the Assembly, the Director General shall proceed to the consultations referred to in Rules 15.2(b) and 57.2(c) and shall establish the amounts of the fees in currencies other than Swiss francs according to the exchange rates applicable on the first day of that session, so that their amounts correspond to the amounts of the fees expressed in Swiss currency. Where such adjustment would only slightly affect the income of the International Bureau, the Director General may decide not to proceed with it. Unless otherwise decided by the Assembly, any adjustment under this paragraph shall enter into force on the first day of the calendar year subsequent to the ordinary session referred to above.

---

* Prepared by the International Bureau.

** The texts of the Rules as amended (Rules 15.1, 15.2, 15.3, 15.4, 15.5, 16.1(b), 16.1(c), 16.1(d), 16.1(e), 16.1(f), 57.1, 57.2, 57.3, 57.4, 57.5 and 57.6), of the new Rule (Rule 96) and of the new Schedule of Fees appear at pages 413 to 418.

*** The equivalent amounts appear in the table appearing at page 412.

(2) Where for more than 30 consecutive days, the exchange rate between Swiss currency and any other currency is by at least 5% higher, or by at least 5% lower, than the last exchange rate applied, any interested Office or Authority using that currency may ask the Director General to newly establish the amount of the fees in that currency according to the exchange rate prevailing on the day preceding the day on which the request is made. The Director General shall proceed accordingly, as provided in Rules 15.2(d) and 57.2(e).

(3) Where for more than 30 consecutive days, the exchange rate between Swiss currency and any other currency is by at least 10% higher, or by at least 10% lower, than the last exchange rate applied, the Director General shall, after consultation with the interested Office or Authority using that currency and as provided in Rules 15.2(d) and 57.2(e), as the case may be, newly establish the amount of fees in that currency according to the exchange rate prevailing on the day preceding the day on which the consultation is initiated by the Director General. Where such adjustment would only slightly affect the income of the International Bureau, the Director General may decide not to proceed with it.

The Assembly decided to apply the directives set out above *mutatis mutandis* where, for certain Offices, the Director General also establishes an equivalent amount of the search fee under Rule 16.1(b).

The Assembly also adopted amendments to Rule 47 of the PCT Regulations (dealing with the communication of the international application to the designated Offices under Article 20) in order to give effect to more efficient administrative procedures introduced by the International Bureau of WIPO which involve the use of the pamphlets by which WIPO publishes the international application also for the purposes of the communication under Article 20*. Since the amendments would not affect the rights of applicants, the Assembly decided that they could enter into force upon their adoption (on May 1, 1979).

International Searching and International Preliminary Examining Authorities. The Assembly approved a draft agreement between the International Bureau of WIPO and the Australian Patent Office and appointed that Office as an International Searching and International Preliminary Examining Authority subject to signature of the agreement following the deposit of Australia's instrument of accession to the PCT and the subsequent entry into force of the PCT for Australia.

The Assembly also took note of an Exchange of Notes with the Australian Authorities in which it was indicated that it was expected that the necessary legal requirements would be fulfilled in time to permit the entry into force of the Treaty by January 1, 1980. The draft Agreement approved by the Assembly provides for the Australian Patent Office to act for applicants from developing countries as well as from Australia itself. The Delegation of Australia stressed the particular interest its Office would have in the countries of South East Asia and the Pacific.

---

* The texts of Rule 47.1(b), as amended, and new Rule 47.2(c) appear at page 416.

Amendments

Rule 15

The International Fee

15.1 *Basic Fee and Designation Fee*

Each international application shall be subject to the payment of a fee for the benefit of the International Bureau ("international fee") to be collected by the receiving Office and consisting of,

(i) a "basic fee," and

(ii) as many "designation fees" as there are national patents and regional patents sought by the applicant in the international application, except that, where Article 44 applies in respect of a designation, only one designation fee shall be due.

15.2 *Amounts*

(a) The amounts of the basic fee and of the designation fee are as set out in the Schedule of Fees.

(b) The amounts of the basic fee and of the designation fee shall be established, for each receiving Office which, under Rule 15.3, prescribes the payment of those fees in a currency or currencies other than Swiss currency, by the Director General after consultation with that Office and in the currency or currencies prescribed by that Office ("prescribed currency"). The amounts in each prescribed currency shall be the equivalent, in round figures, of the amounts in Swiss currency set out in the Schedule of Fees. They shall be published in the Gazette.

(c) Where the amounts of the fees set out in the Schedule of Fees are changed, the corresponding amounts in the prescribed currencies shall be applied from the same date as the amounts set out in the amended Schedule of Fees.

(d) Where the exchange rate between Swiss currency and any prescribed currency becomes different from the exchange rate last applied, the Director General shall establish new amounts in the prescribed currency according to directives given by the Assembly. The newly established amounts shall become applicable two months after the date of their publication in the Gazette, provided that the interested Office and the Director General may agree on a date falling during the said two-month period in which case the said amounts shall become applicable for that Office from that date.

15.3 *Mode of Payment*

The international fee shall be payable in the currency or currencies prescribed by the receiving Office, it being understood that, when transferred by the receiving Office to the International Bureau, the amount transferred shall be freely convertible into Swiss currency.

15.4 *Time of Payment*

(a) Subject to paragraph (c), the basic fee shall be due on the date of receipt of the international application.

(b) Subject to paragraph (c), the designation fee shall be paid on the date of receipt of the international application or on any later date prior to the expiration of one year from the priority date.

(c) The receiving Office may permit applicants to pay either the basic fee or the designation fee or both of the fees later than on the dates provided for in paragraphs (a) and (b), provided that:

(i) permission shall not be given to pay the basic fee or the designation fee later than one month after the date of receipt of the international application;

(ii) permission may not be subject to any extra charge.

Such later payment of the said fees shall be without loss, in the case of the basic fee, of the international filing date, or, in the case of the designation fee, of the designations to which the payment relates.

15.5 *Partial Payment*

(a) Where the amount of the international fee received by the receiving Office is not less than that of the basic fee and at least one designation fee but less than the amount required to cover the basic fee and all the designations made in the international application, the amount received shall be applied as follows:

(i) to cover the basic fee, and

(ii) to cover as many designation fees as, after deduction of the basic fee, may be covered in full by the amount received in the order indicated in paragraph (b).

(b) The order in which the said amount shall be applied to the designations shall be established as follows:

(i) where the applicant indicates to which designation or designations the amount is to be applied, it shall be applied accordingly but, if the amount received is insufficient to cover the designations indicated, it shall be applied to as many designations as are covered by it in the order chosen by the applicant in indicating the designations;

(ii) to the extent that the applicant has not given the indications under item (i), the amount or the balance thereof shall be applied to the designations in the order in which they appear in the international application;

(iii) where the designation of a State is for the purposes of a regional patent and provided that the required designation fee is, under the preceding provisions, available for that designation, the designation of any further States for which the same regional patent is sought shall be considered as covered by that fee.

15.6: [No change]

Rule 16

The Search Fee

16.1 *Right to Ask for a Fee*

(a) [No change]

(b) The search fee shall be collected by the receiving Office. The said fee shall be payable in the currency or currencies prescribed by that Office ("the receiving Office currency"), it being understood that, if any receiving Office currency is not that, or one of those, in which the International Searching Authority has fixed the said fee ("the fixed currency or currencies"), it shall, when transferred by the receiving Office to the International Searching Authority, be freely convertible into the currency of the State in which the International Searching Authority has its headquarters ("the headquarters currency"). The amount of the search fee in any receiving Office currency, other than the fixed currency or currencies, shall be established by the Director General after consultation with that Office. The amounts so established shall be the equivalents, in round figures, of the amount established by the International Searching Authority in the headquarters currency. They shall be published in the Gazette.

(c) Where the amount of the search fee in the headquarters currency is changed, the corresponding amounts in the receiving Office currencies, other than the fixed currency or currencies, shall be applied from the same date as the changed amount in the headquarters currency.

(d) Where the exchange rate between the headquarters currency and any receiving Office currency, other than the fixed currency or currencies, becomes different from the exchange rate last applied, the Director General shall establish the new amount in the said receiving Office currency according to directives given by the Assembly. The newly established amount shall become applicable two months after its publication in the Gazette, provided that any interested receiving Office and the Director General may agree on a date falling during the said two-month period in which case the said amount shall become applicable for that Office from that date.

(e) Where, in respect of the payment of the search fee in a receiving Office currency, other than the fixed currency or currencies, the amount actually received by the International Searching Authority in the headquarters currency is less than that fixed by it, the difference will be paid to the International Searching Authority by the International Bureau, whereas, if the amount actually received is more, the difference will belong to the International Bureau.

(f) As to the time of payment of the search fee, the provisions of Rule 15.4 relating to the basic fee shall apply.

16.2: [No change]

16.3: [No change]

Rule 47

Communication to Designated Offices

47.1 *Procedure*

(a) [No change]

(b) Such communication shall be effected promptly after the international publication of the international application and, in any event, by the end of the 19th month after the priority date. Where the time limit under Rule 46.1 has not expired when the communication is effected and the International Bureau has neither received amendments from the applicant nor a declaration that the applicant does not wish to make amendments before the International Bureau, the International Bureau shall, at the time of the communication, notify the applicant and the designated Offices accordingly; it shall, immediately after receipt, communicate any amendment received subsequently to the designated Offices and notify the applicant accordingly. Where, under Article 17(2) (a), the International Searching Authority has made a declaration that no international search report will be established, the communication shall be effected, unless the international application is withdrawn, within 1 month from the date on which the International Bureau has been notified of the said declaration by the International Searching Authority; such communication shall be accompanied by an indication of the date of the notification sent to the applicant under Article 17(2) (a).

(c) [No change]

(d) [No change]

(e) [No change]

47.2 *Copies*

(a) [No change]

(b) [No change]

(c) Except to the extent that any designated Office notifies the International Bureau otherwise, copies of the pamphlet under Rule 48 may be used for the purposes of the communication of the international application under Article 20.

47.3: [No change]

Rule 57

The Handling Fee

57.1 *Requirement to Pay*

(a) Each demand for international preliminary examination shall be subject to the payment of a fee for the benefit of the International Bureau ("handling fee") to be collected by the International Preliminary Examining Authority to which the demand is submitted.

(b) Where, because of a later election or elections, the international preliminary examination report must, in application of Article 36(2), be translated by the International Bureau into one or more additional languages, a "supplement to the handling fee" shall be collected by the International Bureau.

57.2 *Amounts of the Handling Fee and the Supplement to the Handling Fee*

(a) The amount of the handling fee is as set out in the Schedule of Fees. The amount payable in any particular case shall be the amount as so set out, increased by as many times the same amount as the number of languages into which the international preliminary examination report must, in application of Article 36(2), be translated by the International Bureau.

(b) The amount of the supplement to the handling fee is as set out in the Schedule of Fees. The amount payable in any particular case shall be the amount as so set out, multiplied by the number of additional languages referred to in Rule 57.1(b).

(c) The amount of the handling fee shall be established, for each International Preliminary Examining Authority which, under Rule 57.3(c), prescribes the payment of the handling fee in a currency or currencies other than Swiss currency, by the Director General after consultation with that Authority and in the currency or currencies prescribed by that Authority ("prescribed currency"). The amount in each prescribed currency shall be the equivalent, in round figures, of the amount of the handling fee in Swiss currency set out in the Schedule of Fees. The amounts in the prescribed currencies shall be published in the Gazette.

(d) Where the amount of the handling fee set out in the Schedule of Fees is changed, the corresponding amounts in the prescribed currencies shall be applied from the same date as the amount set out in the amended Schedule of Fees.

(e) Where the exchange rate between Swiss currency and any prescribed currency becomes different from the exchange rate last applied, the Director General shall establish the new amount in the prescribed currency according to directives given by the Assembly. The newly established amount shall become applicable two months after its publication in the Gazette, provided that the interested International Preliminary Examining Authority and the Director General may agree on a date falling during the said two-month period in which case the said amount shall become applicable for that Authority from that date.

57.3 *Time and Mode of Payment*

(a) The handling fee shall be due at the time the demand is submitted.

(b) Any supplement to the handling fee shall be due at the time the later election is submitted.

(c) The handling fee shall be payable in the currency or currencies prescribed by the International Preliminary Examining Authority to which the demand is submitted, it being understood that, when transferred by that Authority to the International Bureau, it shall be freely convertible into Swiss currency.

(d) Any supplement to the handling fee shall be payable in Swiss currency.

57.4 *Failure to Pay (Handling Fee)*

(a) Where the handling fee is not paid as required, the International Preliminary Examining Authority shall invite the applicant to pay the fee within one month from the date of the invitation.

(b) If the applicant complies with the invitation within the prescribed time limit, the demand shall be considered as if it had been received on the date on which the International Preliminary Examining Authority receives the fee, unless, under Rule 60.1(b), a later date is applicable.

(c) If the applicant does not comply with the invitation within the prescribed time limit, the demand shall be considered as if it had not been submitted.

57.5 *Failure to Pay (Supplement to the Handling Fee)*

(a) Where the supplement to the handling fee is not paid as required, the International Bureau shall invite the applicant to pay the supplement within one month from the date of the invitation.

(b) If the applicant complies with the invitation within the prescribed time limit, the later election shall be considered as if it had been received on the date on which the International Bureau receives the supplement, unless, under Rule 60.2(b), a later date is applicable.

(c) If the applicant does not comply with the invitation within the prescribed time limit, the later election shall be considered as if it had not been submitted.

57.6 *Refund*

In no case shall the handling fee, or the supplement to the handling fee, be refunded.

Rule 96

The Schedule of Fees

96.1 *Schedule of Fees Annexed to Regulations*

The amounts of the fees referred to in Rules 15 and 57 shall be expressed in Swiss currency. They shall be specified in the Schedule of Fees which is annexed to these Regulations and forms an integral part thereof.

SCHEDULE OF FEES

Kind of Fee	Amount
1. *Basic Fee:* (Rule 15.2(a))	
if the international application contains not more than 30 sheets	325 Swiss francs
if the international application contains more than 30 sheets	325 Swiss francs plus 6 Swiss francs for each sheet in excess of 30 sheets
2. *Designation Fee:* (Rule 15.2(a))	78 Swiss francs
3. *Handling Fee:* (Rule 57.2(a))	100 Swiss francs
4. *Supplement to the Handling Fee:* (Rule 57.2(b))	100 Swiss francs

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

This information was last published on pages 48 to 50 of the PCT Gazette, No. 01/1979.

THE FIRST YEAR OF OPERATIONS UNDER THE PATENT COOPERATION TREATY

The filing of international patent applications and the submission of demands for their international preliminary examination under the Patent Cooperation Treaty (PCT) commenced on June 1, 1978. This date marked the effective commencement of operations under the PCT, the Treaty itself having come into effect some four months previously, on January 24, 1978. Thus, the end of May 1979 marked the conclusion of one year of PCT operations.

Membership. Upon the commencement of operations, the PCT was in force for the following 18 countries: Brazil, Cameroon, Central African Empire, Chad, Congo, France, Gabon, Germany (Federal Republic of), Luxembourg, Madagascar, Malawi, Senegal, Soviet Union, Sweden, Switzerland, Togo, United Kingdom, United States of America. Of these countries, four (France, Luxembourg, Switzerland and the United States of America) had made reservations excluding the application of Chapter II of the PCT. In the ensuing year, a further six countries had deposited instruments of ratification: Japan, Denmark, Austria, Monaco, the Netherlands (member as of July 10, 1979) and Romania (member as of July 23, 1979). Of these countries, only Denmark made a reservation excluding the application of Chapter II of the PCT. This brings the number of Contracting States to 24.

The deposit of instruments of ratification or accession is expected in the remainder of the present year from Australia, Belgium, Finland, Italy and Norway; ratification by Canada and Spain, among others, is expected in 1980. Several developing and Socialist countries are also expected to join the PCT during this period.

Three of the five countries which had made reservations excluding the application of Chapter II (France, Luxembourg and Switzerland) are expected to lift those reservations once the European Patent Office has opened examination in all technical fields (this date is expected to be December 1, 1979). The United States of America has indicated that it will study, with its interested circles, the lifting of its reservation.

International Searching and Preliminary Examining Authorities. The following Offices are the International Searching and Preliminary Examining Authorities: the Australian Patent Office (from the time Australia becomes bound by the PCT), the Austrian Patent Office, the Japanese Patent Office, the USSR State Committee for Inventions and Discoveries, the Swedish Patent Office, and the European Patent Office (for international preliminary examination only in those technical fields which are open for the examination of European patent applications); furthermore, the United States Patent and Trademark Office is an International Searching Authority and the United Kingdom Patent Office is an International Preliminary Examining Authority.

International applications filed. During the period under discussion, the International Bureau of WIPO received almost 1,300 record copies from the receiving Offices, the actual number of applications filed, according to information provided by the receiving Offices, being in the region of 1,700 (the difference between these two figures is attributable mainly to the period of formal processing of the applications by the receiving Offices preceding the receipt of record copies by the International Bureau). The quarterly figures indicate a steady increase in the number of record copies received and applications filed:

	Record copies received	**Applications filed**
1st quarter	149	194
2nd quarter	223	300
3rd quarter	396	536
4th quarter	529	672
	1,297	1,702

The increase in fillings can be attributed both to an increase in knowledge of the PCT on the part of potential applicants and to the steadily increasing membership of the PCT, which provides greater possibility for the designation of States.

In the following table, the year's totals are broken down according to the various receiving Offices and the corresponding percentages are indicated.

Receiving Offices (Name of country or organization)	Records copies Number/percentage		Applications Number/percentage	
Austria (since April 23, 1979)	—	—	2	0.12
Brazil	9	0.69	9	0.53
Denmark (since December 1, 1978)	16	1.23	20	1.18
France	95	7.32	99	5.82
Germany (Federal Republic of)	85	6.55	95	5.58
Japan (since October 1, 1978)	189	14.57	210	12.34
Luxembourg	—	—	1	0.06
Soviet Union	16	1.23	38	2.23
Sweden	212	16.35	238	13.98
Switzerland	125	9.64	137	8.05
United Kingdom	128	9.87	149	8.75
United States of America	368	28.39	636	37.36
EPO*	54	4.16	68	4.00
WIPO**	—	—	—	—
Total	1,297	100.00	1,702	100.00

* Receiving Office for nationals and residents of Austria, France, Germany (Federal Republic of), Luxembourg, the Netherlands, Sweden, Switzerland and the United Kingdom.

** Receiving Office for nationals and residents of Cameroon, Central African Empire, Chad, Congo, Gabon, Madagascar, Senegal and Togo.

The languages in which the record copies received by the International Bureau of WIPO were filed and the corresponding percentages are as follows:

Language of filing	Number of applications	Percentage of total
Danish	9	0.70
English	608	46.88
French	141	10.87
German	197	15.19
Japanese	189	14.57
Russian	16	1.23
Swedish	137	10.56
Total:	1,297	100.00

In the same period, the International Preliminary Examining Authorities notified the International Bureau of their receipt of 47 demands for international preliminary examination under Chapter II. Subsequent to such notifications, the International Bureau received and communicated to the elected Offices the international preliminary examination reports in ten cases, all such reports having been received within the prescribed time limits. In the table below, these demands are broken down according to the International Preliminary Examining Authorities having received the demands and the corresponding percentages are indicated.

Authority (Country in which located)	Number of demands	Percentage of total
Japan	9	19.15
Sweden	31	65.96
United Kingdom	7	14.89
Total:	47	100.00

The experience of the first year of operations has shown that the receiving Offices and the International Searching Authorities have been able to work within the time limits prescribed for performing their various tasks, especially those involving the transmittal of the record copy and the international search report to the International Bureau. The International Bureau has been in possession of the international search report in sufficient time to publish it together with the international application in all instances except one, that case being where the International Bureau, at the request of the applicant, effected the international publication earlier than at the expiration of the normal time limit for publication.

Publication under the PCT. Publication of the PCT Gazette in separate English and French editions has been continued, two issues of the PCT Gazette, dealing with legal matters concerning the implementation of the PCT system, having been published prior to the commencement of operations. Regular (fortnightly) publication of the PCT Gazette began in December 1978 at the same time as the regular (fortnightly) publication of international applications. Altogether 18 issues of the PCT Gazette were published. These issues included entries relating to the 325 international applications which were published in the form of PCT pamphlets (in English, French, German, Japanese or Russian depending on the language of filing) on the same day as the relevant issues of the PCT Gazette. The numbers of international applications published as pamphlets in the above-mentioned languages (and the corresponding percentages) are as follows:

Language of publication	Number of applications published	Percentage of total
English	208	63.9
French	35	10.8
German	60	18.5
Japanese	21	6.5
Russian	1	0.3
Total:	325	100.0

PCT Assembly. The PCT Assembly met twice during the year to review operations under the PCT. The Assembly adopted a few amendments to the Rules, which were published in the PCT Gazette.

The fees payable by applicants were maintained basically unchanged throughout the year despite considerable fluctuations in the exchange rates applicable between the currencies of the various Contracting States of the PCT. The PCT Assembly decided to fix new amounts for the fees applicable as from August 1, 1979. On the basis of these amounts, the Director General of WIPO established equivalent amounts in other currencies.*

Public information activities. The English and French versions of the PCT Applicant's Guide—WIPO's general information publication containing detailed information on the PCT intended for those interested in filing international patent applications under the PCT—were published in a new loose-leaf format. The Annexes to these versions, containing detailed information necessary for the preparation and filing of applications, were updated for these latest editions.

In addition, Press Releases in English, french, German, Japanese and Russian were issued from time to time, for instance, following sessions of the Assembly and acceptance of the PCT by additional countries.

A number of Seminars were arranged, mostly in countries which had become party to the PCT, with a view to promoting the use of the PCT system. Papers on the PCT were given by members of the staff of WIPO and of national and regional Offices and by representatives of interested circles at Seminars held in Australia, the Federal Republic of Germany, France, Japan, the Soviet Union, Switzerland, the United Kingdom and the United States of America.

* These amounts were published on page 412 of the PCT Gazette, No. 11/1979.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

- the December 1978 edition of the *Guide* (and Annexes) in English*,
- the April 1979 edition of the *Guide* (and Annexes) in French*,
- the May 1978 edition of the *Guide* in German (with Annexes in English dated October 31, 1978).

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price per volume is 50 Swiss francs or US$30 including supplemental and replacement sheets issued in the year 1979. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; Japan, 25 Swiss francs; other places (including North America), 17 Swiss francs (or US$ 10).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

This information was last published on pages 375 and 376 of the PCT Gazette, No. 10/1979.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

This information was last published on pages 210 to 212 of the PCT Gazette, No. 06/1979.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 213 and 214 of the PCT Gazette, No. 06/1979.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 215 and 216 of the PCT Gazette, No. 06/1979.

RECEIVING OFFICES

This information was last published on pages 492 to 496 of the PCT Gazette, No. 13/1979, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

This information was last published on pages 497 to 504 of the PCT Gazette, No. 13/1979, under the following headings:

- Fees payable to the Receiving Office
- Fees payable to the International Searching Authority
- Fees payable to the International Preliminary Examining Authority
- Fees payable to the International Bureau

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO LANGUAGES, NATIONAL FEES AND TIME LIMITS

This information was last published on pages 237 to 241 of the PCT Gazette, No. 06/1979.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 242 and 243 of the PCT Gazette, No. 06/1979.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last pubished on page 44 of the PCT Gazette, No. 01/1979.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

This information was last published on page 45 of the PCT Gazette, No. 01/1979.

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

This information was last published on pages 46 and 47 of the PCT Gazette, No. 01/1979.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

This information was last published on pages 48 to 50 of the PCT Gazette, No. 01/1979.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this Note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. "NAT" means that, for the designated State, a national patent ("NAT") and/or a European Patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

DESIGNATION (OR ELECTION) OF MADAGASCAR

According to information received from the Minister for Foreign Affairs of Madagascar concerning international applications designating Madagascar, the draft industrial property legislation, submitted to the competent authorities, provides, among other things, for the prolongation of the time limits under Articles 22 and 39 until the time at which the new patent legislation will, after its entry into force, permit the processing of patent applications in Madagascar. After the publication of the new law, the said prolonged time limits will be fixed by the competent authorities. The Government of Madagascar has expressed the desire that this information be conveyed to applicants using the PCT system and designating or electing Madagascar, or intending to do so, so that they may take cognizance of the possibility thus offered to them to validly designate or elect Madagascar and to wait with the action required to start the national phase under Articles 22 and 39 until after the new legislation has entered into force and the time limits to be observed under it have been determined.

ANNOUNCEMENT

USERS' MEETING, GENEVA, OCTOBER 5, 1979

The Director General of the World Intellectual Property Organization (WIPO) is convening a "PCT Users' Meeting" to be held at the headquarters of WIPO at Geneva on October 5, 1979.

The purpose of the meeting is to provide an opportunity for discussion of questions of interest to users of the PCT system. In particular, the meeting is intended

(1) to ascertain the most common kinds of problems encountered or uncertainties felt in the filing and processing of international applications;

(2) to foster an awareness of the most common kinds of mistakes made in international applications and in their processing;

(3) to permit suggestions to be made as to possible improvements and simplifications which might be introduced into the PCT procedure (except changes of a kind which would require the amendment of the Articles of the Treaty itself).

The discussion will be centered on the following topics:

(1) The international application
(2) The drafting of the description, claims and abstract of the international application; amendments
(3) Representation
(4) Official fees; costs; time limits
(5) International Search
(6) International Preliminary Examination
(7) PCT Publications
(8) Entering the national phase

Each topic will be introduced by a speaker who will establish the general framework for the ensuing discussion. Following the introduction of each topic, an opportunity will be given for comment by participants.

Invitations to participate in the meeting are being addressed to the international non-governmental organizations having the status of observer at the sessions of the Assembly of the International Patent Cooperation Union (PCT Union) and--through their competent national authorities--to interested national organizations (including their individual members) in the Contracting States of the PCT. Interested national organizations are those whose members have an interest in the filing of international applications under the PCT or in the dissemination of the technical information contained in such applications. All interested members of the public in the Contracting States not reached by an invitation through any of the organizations and desirous to participate will receive an invitation if they communicate their wish to WIPO by September 15, 1979.

The meeting will have a morning session, starting at 10 a.m. and ending at 1 p.m. and an afternoon session, starting at 3 p.m. and ending at 5.30 p.m. Simultaneous interpretation will be provided in English, French and German.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this Note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. "NAT" means that, for the designated State, a national patent ("NAT") and/or a European Patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 215 and 216 of the PCT Gazette, No. 06/1979.

NOTIFICATIONS RECEIVED FROM INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

A notification has been received from the United Kingdom Patent Office that the European Patent Office will carry out any further search which becomes necessary on an international application which is being processed by the United Kingdom Patent Office in its capacity as an International Preliminary Examining Authority*. Such further search may be necessary when:

(a) subsequent to a declaration by the Searching Authority under Article 17(2)(a), the applicant amends the claims before or during preliminary examination so as to render them searchable;

(b) some allowable amendment of the claims is made so that the international search report is no longer adequate;

(c) unity of invention is not complied with and the applicant opts to pay additional fees under Article 34(3)(a).

---

*In such cases, the amount of the EPO search fee will be added to the basic amount of the preliminary examination fee payable to the United Kingdom Patent Office (see item 1 of the Annex to the Agreement between the United Kingdom Patent Office and the International Bureau of the World Intellectual Property Organization, published on page 129 of PCT Gazette No. 02/1978).

RECEIVING OFFICES

This information was last published on pages 492 to 496 of the PCT Gazette, No. 13/1979, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

This information was last published on pages 497 to 504 of the PCT Gazette No. 13/1979, under the following headings:

- Fees payable to the Receiving Office
- Fees payable to the International Searching Authority
- Fees payable to the International Preliminary Examining Authority
- Fees payable to the International Bureau

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF DESIGNATED (OR ELECTED) OFFICES AS TO LANGUAGES, NATIONAL FEES AND TIME LIMITS

This information was last published on pages 237 to 241 of the PCT Gazette, No. 06/1979.

OBLIGATION TO INDICATE THE NAME AND CERTAIN OTHER DATA CONCERNING THE INVENTOR

This information was last published on pages 242 and 243 of the PCT Gazette, No. 06/1979.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

This information was last published on page 44 of the PCT Gazette, No. 01/1979.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

This information was last published on page 45 of the PCT Gazette, No. 01/1979.

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

This information was last published on pages 46 and 47 of the PCT Gazette, No. 01/1979.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

This information was last published on pages 48 to 50 of the PCT Gazette, No. 01/1979.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

English *
– the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets for the Annexes dated August 1979.

French *
– the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets for the Annexes dated August 1979.

German
– the May 1978 edition of the *Guide* (with Annexed in English dated October 31, 1978).

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

---

* This edition is published in loose-leaf printed form with a hard-covered colored binder. The price per volume is 50 Swiss francs or US$ 30 including supplemental and replacement sheets issued in the year 1979. The additional charges for delivery by air mail are: Europe, 10 Swiss francs; Japan, 25 Swiss francs; other places (including North America), 17 Swiss francs (or US$ 10).

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

This information was last published on pages 375 and 376 of the PCT Gazette, No. 10/1979.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

This information was last published on pages 210 to 212 of the PCT Gazette, No. 06/1979.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 213 and 214 of the PCT Gazette, No. 06/1979.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM.

This information was last published on pages 215 and 216 of the PCT Gazette, No. 06/1979.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	**Subject Matter that will not be Searched by the Authority**	**The International Applications must be in one of the following Languages to be accepted for International Search**
Austria		
Austrian Patent Office (April 23, 1979)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*, with the exception of diagnostic methods which are not practiced on the human body. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 06/1979, pages 217 to 223).	English French German
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136).	Russian English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Applications must be in one of the following Languages to be accepted for International Search
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish
United States of America		
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, PCT Gazette, No. 02/1978, pages 140 and 144).	English
EPO		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	Dutch** English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

** Where the international application is filed with the central industrial property Office of the Netherlands.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Applications must be in one of the following Languages to be accepted for International Preliminary Examination
Austria		
Austrian Patent Office (April 23, 1979)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*, with the exception of diagnostic methods which are not practiced on the human body. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 06/1979, pages 217 to 223).	English French German
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136).	Russian English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

International Preliminary Examining Authorities: Their list and certain data concerning them (Continued)

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Applications must be in one of the following Languages to be accepted for International Preliminary Examination
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish
United Kingdom		
Patent Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*. (See Article 6 of the Agreement, PCT Gazette, No. 02/1978, page 126).	English (but only where it is the language of filing or publication)
EPO		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

NOTIFICATIONS RECEIVED FROM INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

European Patent Office:

The International Bureau of WIPO has been notified that, in respect of international applications filed *on or after* December 1, 1979, the European Patent Office will cease applying, in its capacity as International Preliminary Examining Authority, all limitations on international preliminary examination by reference to technical fields pursuant to Article 6 of the Agreement between the International Bureau and the European Patent Organisation dated April 11, 1978*. In the case of an international application filed in one of the periods (*before* December 1, 1979) indicated in the columns appearing below, international preliminary examination will be carried out by the European Patent Office, in its capacity as International Preliminary Examining Authority, when (and only when) the application relates to one of the technical fields (defined by the symbols of the International Patent Classification) listed in the column in which the period appears.

Period from June 1, 1978 to November 30, 1978	**Period from December 1, 1978 to May 31, 1979**	**Period from June 1, 1979 to November 30, 1979**

(3) Where the priority of an earlier application is claimed in the international application, 20 months from the filing date of the earlier application; otherwise, 20 months from the filing date of the international application and where no search report is established, two months from the date of the notification sent to the applicant that no report will be established.

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

Luxembourg

Ministry of National Economy, Patent Office

Waived entirely.

Sweden

Royal Patent and Registration Office

Waived except as to the international search report (including the indication referred to in Article 17(2)*(b)*), or the declaration referred to in Article 17(2)*(a)*, in the language in which the international application is filed and, where applicable, is translated.

United States of America

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The *United States of America* is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

Denmark, the Netherlands*, Norway*, Sweden, Switzerland and the United States of America are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in a accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15(5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patent Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a tranlation of the application in a language prescribed by the patent authority.

(2) If the applicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15(5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

---

* The provisions of the national law relating to international-type search of this State will be published in a future issue of this Gazette.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the date on which the patent application is filed, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX: International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15 (5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121 (2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126 (1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

United States of America

Sections 1.104(c) and (d) and 1.21(w) of the Code of Federal Regulations, Title 37 - Patents, Trademarks, and Copyrights, Subchapter A - General, Patents, Part 1 - Rules of Practice in Patent Cases, read as follows:

"1.104 Nature of examination; examiner's action

.....

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See paragraph 1.21(w) for amount of fee for preparation of international-type search report.

Note. The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

"1.21 Patent and miscellaneous fees and charges

.....

(w) For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application - $ 25.

Note. The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application.

....."

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION (PCT) UNION

ASSEMBLY

First Session
(First Extraordinary)

(Geneva, April 10 to 14, 1978)

Note*

The Assembly of the International Patent Cooperation (PCT) Union held its first (extraordinary) session in Geneva from April 10 to 14, 1978. The members of the Assembly were the 18 States which had deposited their instruments of ratification of, or accession to, the PCT with the Director General of WIPO prior to the opening of the session. The following 12 members were represented: Brazil, Cameroon, France, Germany (Federal Republic of), Luxembourg, Madagascar, Senegal, Soviet Union, Sweden, Switzerland, United Kingdom, United States of America. The Central African Empire, Chad, the Congo, Gabon, Malawi and Togo were not represented.

The following States and international organizations participated as special observers: Australia, Austria, Canada, Denmark, Finland, Hungary, Ireland, Japan, Netherlands, Norway, Romania, Spain; African Intellectual Property Organization (OAPI), European Patent Office (EPO) (14). In addition, the following five States and eleven intergovernmental and international non-governmental organizations were represented by observers: Algeria, German Democratic Republic, Italy, Portugal, Uruguay; Secretariat of the Interim Committee of the Community Patent, Committee of National Institutes of Patent Agents (CNIPA), Council of European Industrial Federations (CEIF), European Federation of Agents of Industry in Industrial Property (FEMIPI), Inter-American Association of Industrial Property (ASIPI), International Association for the Protection of Industrial Property (AIPPI), International Federation of Inventors' Associations (IFIA), International Federation of Patent Agents (FICPI), Pacific Industrial Property Association (PIPA), Union of European Patent Attorneys and Other Representatives Before the European Patent Office (UNEPA), Union of Industries of the European Community (UNICE). The list of participants follows this Note.

The session was opened by the Director General of WIPO, Dr. Arpad Bogsch, who also presided during the adoption of the agenda and the Rules of Procedure of the Assembly and the election of its officers. In welcoming the participants, including seven guests of honor (whose names appear in the list following this Note), Dr. Bogsch underlined the great significance of the first session of the Assembly in the history of the Patent Cooperation Treaty. A large number of delegations expressed their satisfaction at the entry into force of the PCT and the convening of the first session of the Assembly, paying tribute to the excellent preparatory work which had been completed in the period following the adoption of the PCT in 1970 and underlining the importance of the PCT for inventors and Patent Offices and for the promotion of technological progress in all countries, particularly developing countries. The Delegations of Japan, Austria, Italy, the Netherlands, Finland and Norway made statements concerning the expected ratification of the PCT by their countries in 1978 and 1979. The Delegations of Japan, Austria, Italy and the Netherlands all expected ratification to occur in 1978, the Delegation of Japan indicating October 1, 1978, as the date on which it expected Japan to become bound by the PCT.

---

* This Note has been prepared by the International Bureau.

Adoption of the Rules of Procedure of the Assembly. The Assembly adopted its Rules of Procedure.*

Admission of Observers. The Assembly decided to admit to its sessions as special observers and observers the States and organizations mentioned below.

Special Observers

(a) States not members of the PCT Union but which contribute to the budget of the PCT Union, that is, at present: Australia, Austria, Belgium, Canada, Cuba, Denmark, Egypt, Finland, Hungary, Iran, Ireland, Israel, Japan, Netherlands, Norway, Philippines, Romania, Spain, Yugoslavia (19)**

(b) the European Patent Office

(c) the Office of the African Intellectual Property Organization (OAPI)

Observers

(a) States members of the Paris Union which are not members of the PCT Union and which do not have special observer status

(b) the following intergovernmental organizations:
- United Nations (UN)
- Council for Mutual Economic Assistance (CMEA)***
- Commission of the European Communities (CEC)***
- Interim Committee of the Community Patent ***

(c) the following international non-governmental organizations:
- Asian Patent Attorneys Association (APAA)
- Committee of National Institutes of Patent Agents (CNIPA)
- Council of European Industrial Federations (CEIF)
- European Federation of Agents of Industry in Industrial Property (FEMIPI)
- European Industrial Research Management Association (EIRMA)
- Inter-American Association of Industrial Property (ASIPI)
- International Assocation for the Protection of Industrial Property (AIPPI)
- International Chamber of Commerce (ICC)
- International Federation of Inventors' Associations (IFIA)
- International Federation of Pharmaceutical Manufacturers Associations (IFPMA)
- International Federation of Patent Agents (FICPI)
- Licensing Executives Society (International) (LES)
- Pacific Industrial Property Association (PIPA)
- Union of European Patent Attorneys and Other Representatives Before the European Patent Office (UNEPA)
- Union of Industries of the European Community (UNICE)

---

* These Rules of Procedure will be published in the June 29, 1978, issue of this Gazette.

** The list of States invited to attend the sessions of the Assembly as special observers is subject to change having regard to the conditions determining those States having that status (i.e., not members of the PCT Union but contributing to its budget).

*** Where the agenda of the session contains one or more specific items which, in the opinion of the Director General, is of special and direct interest to this Organization, the invitation will be extended to it to attend the discussion of that specific item or those specific items.

Date From Which International Applications May be Filed and From Which Demands for International Preliminary Examination May Be Submitted. The Assembly fixed June 1, 1978, as the date from which applicants may file international applications under the PCT and may submit demands for the international preliminary examination of such applications.

Fees. The amounts set out below were adopted by the Assembly in respect of the fees for which amounts are fixed by the Regulations under the PCT:

Rule 15.2

International fee

basic fee ..... US$ 165.00 or 300 Swiss francs

supplement, per sheet over 30 ..... US$ 3.00 or 6 Swiss francs

designation fee (for each State, or each group of States, for which a separate patent is sought) ..... US$ 40.00 or 80 Swiss francs

Rule 57.2

Handling fee ..... US$ 50.00 or 96 Swiss francs

The Assembly noted that, as regards the payment of the fees in other currencies prescribed by the receiving Offices (in the case of the international fee) or by the International Preliminary Examining Authorities (in the case of the handling fee), the following (equivalent) amounts had been fixed:

Country Currency	Basic	Supplement per sheet over 30 sheets	Designation	Handling
	Rule 15.2(a)(i)	Rule 15.2(a)(ii)	Rule 15.2(b)	Rule 57.2(a)
Brazil Cruzeiros	2900	50	720	900
France French francs	735	14	180	225*
Germany (Federal Republic of) Deutsche Marks	325	6	80	100
Luxembourg Luxembourg francs	5060	90	1250	1560*
Soviet Union Roubles	110	2	30	35
Sweden Swedish kronor	740	14	185	230
United Kingdom Pounds Sterling	83	1.5	21	25

* These amounts have no practical application so long as Chapter II of the PCT is not applicable to France and Luxembourg.

Amendments to the Regulations under the PCT. The Assembly amended several of the Rules of the Regulations under the PCT and also adopted several new Rules. (The texts of the amended and new Rules appear on pages 11 to 14.)

Appointment of International Searching Authorities and International Preliminary Examining Authorities. After having approved the requisite Agreements* with the International Bureau, the Assembly appointed

as International Searching and Preliminary Examining Authorities:

- the Patent Office of Austria**
- the Patent Office of Japan**
- the State Committee for Inventions and Discoveries of the USSR Council of Ministers
- the Royal Patent and Registration Office of Sweden
- the European Patent Office

as International Searching Authority:

- the United States Patent and Trademark Office

as International Preliminary Examining Authority:

- the Patent Office of the United Kingdom

In connection with the appointment of the European Patent Office and the Agreement relating thereto, the Assembly noted "that in respect of international applications, for which the European Patent Office would be the only competent International Preliminary Examining Authority, demands for international preliminary examination will be accepted by the European Patent Office as from the dates which result from the application of the provisions of the said Agreement."***

Establishment of Committees. The Assembly adopted decisions establishing the PCT Committees for Technical Cooperation (PCT/CTC), for Technical Assistance (PCT/CTA) and for Administrative and Legal Matters (PCT/CAL) as well as the Rules of Procedure of each of those Committees.****

Administrative Instructions. The Assembly was informed by the Director General of his intention to promulgate and publish***** the Administrative Instructions in the light of the favorable advice he had received in consultations with the receiving Offices and the International Searching and Preliminary Examining Authorities. The Administrative Instructions will enter into force on June 1, 1978.

---

* These Agreements, which indicate, among other matters, the countries for which the Authorities are prepared to act, their working languages and their fees, will be published in the May 25, 1978, issue of the Gazette except in the case of the Agreements with Austria and Japan, which will be published after signature (see footnote**).

** Austria and Japan not yet having ratified the PCT but the procedures for ratification being in progress, the Agreements between the International Bureau and the Austrian Patent Office and the Japanese Patent Office were approved upon the basis that, in accordance with Protocols of Agreement concerning the Agreements approved by the Assembly, those Agreements would be signed after completion of further stages in the procedures and the appointments of those Offices would take effect only upon signature of the Agreements and only when Austria and Japan had become bound by the PCT.

*** See Article 6 of the Agreement.

**** These decisions and Rules of Procedure will be published in the June 29, 1978, issue of this Gazette.

***** See pages 15 to 96.

"Minimum Documentation." The Assembly noted a statement by the Director General informing it of the agreement, reached at a meeting of the International Searching Authorities convened by him, on the items of non-patent literature to form part of the PCT minimum documentation under Rule 34.1(b)(iv).*

LIST OF PARTICIPANTS

I. Guests of Honor

Mr. J. Bob van Benthem; Professor George H.C. Bodenhausen; Mr. Denis Ekani; Dr. Kurt Haertel; Dr. Albrecht Krieger; Professor François Savignon and Mr. William E. Schuyler, Jr.

II. Member States

Brazil: U.Q. Cabral. **Cameroon**: D. Ekani. **France**: G. Vianès; F. Savignon; P. Guérin; A. Nemo. **Germany (Federal Republic of)**: A. Krieger; E. Häusser; M. Deiters; U.C. Hallmann; A. Schäfers; N. Haugg; A. Mühlen. **Luxembourg**: J.-P. Hoffmann. **Madagascar**: S. Rabearivelo. **Senegal**: P. Crespin. **Soviet Union**: L. Komarov; E. Buryak; S. Egorov. **Sweden**: G. Borggard; L. Jonson: U. Jansson. **Switzerland**: P. Braendli; R. Kämpf. **United Kingdom**: R. Bowen; E.F. Blake; D. Cecil. **United States of America**: L.F. Parker; H.D. Hoinkes; D.W. Banner; G.R. Clark; L.O. Maassel; W.E. Schuyler, Jr; I.A. Williamson.

III. Special Observers

Australia: F.J. Smith; D.B. Fitzpatrick. **Austria**: O. Leberl; H. Querner. **Canada**: E.W. Bown. **Denmark**: K. Skjodt; D. Simonsen. **Finland**: E. Tuuli; P. Salmi. **Hungary**: E. Tasnádi; G. Pusztai. **Ireland**: J. Quinn. **Japan**: Z. Kumagai; H. Iwata; Y. Hashimoto; K. Hatakawa. **Netherlands**: J. Dekker; S. de Vries. **Norway**: A. Gerhardsen; O. Os. **Romania**: V. Tudor. **Spain**: A. Villalpando Martinez; J. Delicado Montero-Rios. **European Patent Office (EPO)**: J.B. van Benthem; J. Staehelin; U. Schatz; J.A.H. van Voorthuizen; J.-F. Mézières. **Office of the African Intellectual Property Organization (OAPI)**: D. Ekani.

IV. Observers

States

Algeria: L. Zebdji; F. Bouzid. **German Democratic Republic**: C. Micheel. **Italy**: S. Samperi; I. Papini; M.F. Pini. **Portugal**: R. Serrao. **Uruguay**: A. Moerzinger.

Intergovernmental Organizations

Interim Committee of the Community Patent: G.A.U.M. van Grevenstein; K. Mellor.

International Non-Governmental Organizations

Committee of National Institutes of Patent Agents (CNIPA): C.G. Wickham. **Council of European Industrial Federations (CEIF)**: M. van Dam. **European Federation of Agents of Industry in Industrial Property (FEMIPI)**: C. Gugerell. **Inter-American Association of Industrial Property (ASIPI)**: D. Merrylees. **International Association for the Protection of Industrial Property**: G.R. Clark. **International Federation of Inventors' Associations (IFIA)**: S.-E. Angert; P. Feldmann. **International Federation of Patent Agents (FICPI)**: E. Gutmann; G.E. Kirker. **Pacific Industrial Property Association (PIPA)**: D.J. Mugford. **Union of European Patent Attorneys and Other Representatives Before the European Patent Office (UNEPA)**: U. Kador. **Union of Industries of the European Community (UNICE)**: R. Kockläuner.

---

* To be published in the May 25, 1978, issue of this Gazette.

V. Officers

Chairman: D. Ekani (Cameroon). *Vice-Chairmen:* P. Braendli (Switzerland); L. Komarov (Soviet Union). *Secretary:* E.M. Haddrick (WIPO).

VI. International Bureau of WIPO

A. Bogsch *(Director General);* K. Pfanner *(Deputy Director General);* F.A. Sviridov *(Deputy Director General);* E.M. Haddrick *(Head, PCT Division);* J. Franklin *(Head, Administrative Section, PCT Division);* V. Troussov *(Senior Counsellor, PCT Division);* N. Scherrer *(Counsellor, PCT Division);* D. Bouchez *(Technical Counsellor, PCT Division);* Y. Gyrdymov *(Technical Counsellor, PCT Division);* A. Okawa *(Consultant, PCT Division).*

Rule 86.4(b) . . . . . New rule added

Text of Amendments

Rule 4

The Request (Contents)

4.4 *Names and Addresses*

(c) Addresses shall be indicated in such a way as to satisfy the customary requirements for prompt postal delivery at the indicated address and, in any case, shall consist of all the relevant administrative units up to, and including, the house number, if any. Where the national law of the designated State does not require the indication of the house number, failure to indicate such number shall have no effect in that State. It is recommended to indicate any telegraphic and teleprinter address and telephone number.

4.10 *Priority Claim*

(d) If the filing date of the earlier application as indicated in the request does not fall within the period of one year preceding the international filing date, the receiving Office, or, if the receiving Office has failed to do so, the International Bureau, shall invite the applicant to ask either for the cancellation of the declaration made under Article 8(1) or, if the date of the earlier application was indicated erroneously, for the correction of the date so indicated. If the applicant fails to act accordingly within 1 month from the date of the invitation, the declaration made under Article 8(1) shall be cancelled ex officio. The receiving Office effecting the correction or cancellation shall notify the applicant accordingly and, if copies of the international application have already been sent to the International Bureau and the International Searching Authority, that Bureau and that Authority. If the correction or cancellation is effected by the International Bureau, the latter shall notify the applicant and the International Searching Authority accordingly.

Rule 11

Physical Requirements of the International Application

11.6 *Margins*

(a) The minimum margins of the sheets containing the request, the description, the claims, and the abstract, shall be as follows:

- top: 2 cm
- left side: 2.5 cm
- right side: 2 cm
- bottom: 2 cm

(b) The recommended maximum, for the margins provided for in paragraph *(a)*, is as follows:

- top: 4 cm
- left side: 4 cm
- right side: 3 cm
- bottom: 3 cm

11.13 *Special Requirements for Drawings*

(a) Drawings shall be executed in durable, black, sufficiently dense and dark, uniformly thick and well-defined, lines and strokes without colorings.

Rule 15

The International Fee

15.2 *Amounts*

(a) The amount of the basic fee shall be:

(i) if the international application contains not more than 30 sheets: US $165.00 or 300 Swiss francs,

(ii) if the international application contains more than 30 sheets: US $165.00 or 300 Swiss francs plus US $3.00 or 6 Swiss francs per sheet in excess of 30 sheets.

(b) The amount of the designation fee for each designated State or each group of designated States for which the same regional patent is sought shall be: US $ 40.00 or 80 Swiss francs.

Rule 32*bis*

Withdrawal of the Priority Claim

32*bis*.1 *Withdrawals*

(a) The applicant may withdraw the priority claim made in the international application under Article 8(1) at any time before the international publication of the international application.

(b) Where the international application contains more than one priority claim, the applicant may exercise the right provided for in paragraph *(a)* in respect of one or more or all of them.

(c) Where the withdrawal of the priority claim, or, in the case of more than one such claim, the withdrawal of any of them, causes a change in the priority date of the international application, any time limit which is computed from the original priority date and which has not already expired shall be computed from the priority date resulting from that change. In the case of the time limit of 18 months referred to in Article 21(2)(a), the International Bureau may nevertheless proceed with the international publication on the basis of the said time limit as computed from the original priority date if the withdrawal is effected during the period of 15 days preceding the expiration of that time limit.

(d) For any withdrawal under paragraph *(a)*, the provisions of Rule 32.1(c) and (d) and Rule 74*bis*.1 shall apply *mutatis mutandis*.

Rule 48

International Publication

48.2 *Contents*

(a) The pamphlet shall contain:
(i) a standardized front page,
(ii) the description,
(iii) the claims,
(iv) the drawings, if any,

(v) subject to paragraph *(g)*, the international search report or the declaration under Article 17(2)(a); the publication of the international search report in the pamphlet shall, however, not be required to include the part of the international search report which contains only matter referred to in Rule 43 already appearing on the front page of the pamphlet,

(vi) any statement filed under Article 19(1), unless the International Bureau finds that the statement does not comply with the provisions of Rule 46.4.

48.3 *Language*

(c) If the international application is published in a language other than English, the international search report to the extent that it is published under Rule 48.2(a)(v) , or the declaration referred to in Article 17(2)(a), and the abstract shall be published both in that language and in English. The translations shall be prepared under the responsibility of the International Bureau.

Rule 57

The Handling Fee

57.2 *Amount*

(a) The amount of the handling fee shall be US $50.00 or 96 Swiss francs augmented by as many times the same amount as the number of languages into which the international preliminary examination report must, in application of Article 36(2), be translated by the International Bureau.

(b) Where, because of a later election or elections, the international preliminary examination report must, in application of Article 36(2), be translated by the International Bureau into one or more additional languages, a supplement to the handling fee shall be payable and shall amount to US $50.00 or 96 Swiss francs for each additional language.

Rule 58

The Preliminary Examination Fee

58.2 *Failure to pay*

(a) Where the preliminary examination fee fixed by the International Preliminary Examining Authority under Rule 58.1(b) is not paid as required under that Rule, the International Preliminary Examining Authority shall invite the applicant to pay the fee or the missing part thereof within one month from the date of the invitation.

(b) If the applicant complies with the invitation within the prescribed time limit, the preliminary examination fee will be considered as if it had been paid on the due date.

(c) If the applicant does not comply with the invitation within the prescribed time limit, the demand shall be considered as if it had not been submitted.

58.3 *Refund*

The International Preliminary Examining Authorities shall inform the International Bureau of the extent, if any, to which, and the conditions, if any, under which, they will refund any amount paid as a preliminary examination fee where the demand is considered as if it had not been submitted under Rule 57.4(c), Rule 58.2(c) or Rule 60.1(c), and the International Bureau shall promptly publish such information.

Rule 61

Notification of the Demand and Elections

61.1 *Notifications to the International Bureau, the Applicant, and the International Preliminary Examining Authority*

(b) The International Preliminary Examining Authority shall promptly inform the applicant in writing of the date of receipt of the demand. Where the demand has been considered under Rules 57.4(c), 58.2(c) or 60.1(c) as if it had not been submitted, the International Preliminary Examining Authority shall notify the applicant accordingly.

Rule 74*bis*

Notification of Withdrawal under Rule 32

74*bis*.1 *Notification of the International Preliminary Examining Authority*

If, at the time of the withdrawal of the international application or of the designation of all designated States under Rule 32.1, a demand for international preliminary examination has already been submitted and the international preliminary examination report has not yet issued, the International Bureau shall promptly notify the fact of withdrawal, together with the date of receipt of the notice effecting withdrawal, to the International Preliminary Examining Authority.

Rule 86

The Gazette

86.3 *Frequency*

(a) Subject to paragraph *(b)*, the Gazette shall be published once a week.

(b) For a transitional period after the entry into force of the Treaty terminating upon a date fixed by the Assembly, the Gazette may be published at such times as the Director General considers appropriate having regard to the number of international applications and the amount of other material required to be published.

86.4 *Sale*

(a) Subject to paragraph *(b)*, the subcription and other sale prices of the Gazette shall be fixed in the Administrative Instructions.

(b) For a transitional period after the entry into force of the Treaty terminating upon a date fixed by the Assembly, the Gazette may be distributed on such terms as the Director General considers appropriate having regard to the number of international applications and the amount of other material published therein.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

TEXT

Promulgated by the Director General of the World Intellectual Property Organization in accordance with PCT, Rule 89.2 with effect from June 1, 1978

Table of Contents

Part 1: Instructions Relating to General Matters

Section 101: Abbreviated Expressions
Section 102: Use of the Forms
Section 103: Languages of the Forms
Section 104: Language of Correspondence from the Applicant
Section 105: Several Applicants
Section 106: Common Agent for Several Applicants
Section 107: Identification of International Authorities
Section 108: Correspondence Intended for the Applicant
Section 109: Notification of Authorization or Refusal of Rectification
Section 110: Dates

Part 2: Instructions Relating to the International Application

Section 201: Names of States; Cancellation of Designations
Section 202: Kind of Protection
Section 203: Regional Patents
Section 204: Headings of the Parts of the Description
Section 205: Numbering of Claims upon Amendment
Section 206: Common Representative Designated in the Request
Section 207: Arrangement of Elements and Numbering of Sheets of the International Application

Part 3: Instructions Relating to the Receiving Office

Section 301: Notification of Receipt of Purported International Application
Section 302: Notification of Priority Claim Considered Not To Have Been Made
Section 303: Deletion of Additional Matter in the Request
Section 304: Corrections Submitted to the Receiving Office Concerning Expressions, Etc., Not To Be Used in the International Application
Section 305: Identifying the Copies of the International Application
Section 306: Change in the Person, Name or Address of the Applicant
Section 307: System of Numbering International Applications
Section 308: Marking of the Sheets of the International Application
Section 309: Procedure in the Case of Later Submitted Sheets
Section 310: Procedure in the Case of Missing Drawings
Section 311: Renumbering of Sheets of the International Application
Section 312: Notification of Decision Not To Issue Declaration that the International Application is Considered Withdrawn
Section 313: Manner of Making the Necessary Annotations in the Check List
Section 314: Manner of Indicating Correction of the Priority Date or Cancellation of the Priority Claim
Section 315: Notification of Non-Collection of Record Copy
Section 316: Procedure in the Case Where the International Application Lacks the Prescribed Signature

Part 4: Instructions Relating to the International Bureau

Section 401: Marking of Sheets of the Record Copy
Section 402: Notification of Correction of the Priority Date or Cancellation of the Priority Claim
Section 403: Transmittal of Protest Against Payment of Additional Fee and Decision Thereon
Section 404: International Publication Number
Section 405: Special Publication Fee
Section 406: Pamphlets
Section 407: The Gazette
Section 408: Priority Application Number
Section 409: Notifications of Priority Claim Considered Not To Have Been Made
Section 410: Numbering of Sheets of the International Application For Purposes of International Publication
Section 411: Notification that the Certified Copy of the Priority Document Has Not Been Submitted

Part 5: Instructions Relating to the International Searching Authority

Section 501: Corrections Submitted to the International Searching Authority Concerning Expressions, Etc., Not To Be Used in the International Application
Section 502: Protest Against Payment of Additional Fee and Decision Thereon
Section 503: Method of Identifying Documents Cited in the International Search Report
Section 504: Classification of the Subject Matter of the International Application
Section 505: Indication of Citations of Particular Relevance in the International Search Report
Section 506: Comments on Draft Translation of the International Application
Section 507: Manner of Indicating Certain Special Categories of Documents Cited in the International Search Report
Section 508: Manner of Indicating the Claims to which the Documents Cited in the International Search Report are Relevant

Part 6: Instructions Relating to the International Preliminary Examining Authority

Section 601: Determination Whether Applicant is Entitled To Make a Demand
Section 602: Marking of Replacement Sheets and Renumbering of Sheets of the International Application
Section 603: Transmittal of Protest Against Payment of Additional Fee and Decision Thereon
Section 604: Guidelines for Explanations Contained in the International Preliminary Examination Report

Annex A: Names of States (Members of the Paris Union)

Annex B: Code for Identifying States and Organizations

Annex C: Standard Code for Identification of Different Kinds of Patent Documents

Annex D: Information from Pamphlet Front Page To Be Included in the Gazette under Rule 86.1(i)

Annex E: Information To Be Published in the Gazette under Rule 86.1(v)

Annex F: Forms

PART 1

INSTRUCTIONS RELATING TO GENERAL MATTERS

Section 101

Abbreviated Expressions

In these Administrative Instructions:

(i) "Treaty" means the Patent Cooperation Treaty;

(ii) "Regulations" means the Regulations under the Treaty;

(iii) "Article" means an Article of the Treaty;

(iv) "Rule" means a Rule of the Regulations;

(v) "International Bureau" means the International Bureau as defined in Article 2 (xix) of the Treaty;

(vi) "International Authorities" means the receiving Offices, the International Searching Authorities, the International Preliminary Examining Authorities, and the International Bureau.

Section 102

Use of the Forms

(a) The forms annexed to these Administrative Instructions as *Annex F** (hereinafter referred to as "the Forms") are part of these Administrative Instructions.

(b) Subject to paragraph *(c)*, the International Authorities shall use, or require the use of, the mandatory forms specified below:

Forms Required to be Printed under, or Otherwise Provided for, in the Regulations

PCT/RO/101 — Request (including the fee calculation sheet annexed thereto)
PCT/ISA/210 — International Search Report
PCT/IPEA/401 — Demand
PCT/IPEA/409 — International Preliminary Examination Report

Forms for Use by the International Bureau

Forms PCT/IB/301 to 345, with the exception of Form PCT/IB/328.

* This Annex is published separately; it may be obtained from the International Bureau, upon request, at a price of 40 Swiss francs.

Other Forms

PCT/RO/103**
PCT/RO/104*
PCT/RO/106*
PCT/RO/109*
PCT/RO/111*
PCT/RO/112*
PCT/RO/113*
PCT/RO/114*
PCT/RO/115**
PCT/RO/116*
PCT/RO/117*
PCT/RO/118*
PCT/RO/121*
PCT/RO/123*
PCT/RO/129*
PCT/RO/130*

PCT/ISA/201**
PCT/ISA/202*
PCT/ISA/203*
PCT/ISA/205*
PCT/ISA/206**
PCT/ISA/209*
PCT/ISA/212**
PCT/ISA/214*
PCT/ISA/215*
PCT/ISA/217*
PCT/ISA/218*
PCT/ISA/219*

PCT/IPEA/405**
PCT/IPEA/407*
PCT/IPEA/408**
PCT/IPEA/410*
PCT/IPEA/412*
PCT/IPEA/414*
PCT/IPEA/415*
PCT/IPEA/418*
PCT/IPEA/419*
PCT/IPEA/420**

(c) The obligation of the International Authorities to use, or require the use of, the mandatory Forms is subject to the following provisos:

(i) slight variations in layout necessary in view of the printing of such Forms in various languages are permitted;

(ii) in all Forms, other than those for the request, the international search report, the demand and the international preliminary examination report, slight variations in layout, to the extent necessary to meet the particular office requirements of the International Authorities, are permitted as well;

(iii) where the receiving Office, the International Searching Authority and/or the International Preliminary Examining Authority are each part of the same Office, the obligation to use the mandatory Forms does not extend to communications within that same Office;

(iv) the annexes to Forms PCT/RO/106, PCT/ISA/215 and PCT/IB/313 may be omitted in cases where they are not used;

(v) the mandatory character of the Forms referred to in paragraph *(b)* does not extend to the Notes attached to them.

(d) The use of Forms annexed to these Administrative Instructions other than those referred to in paragraph *(b)* is optional.

Section 103

Languages of the Forms

(a) The language of the Forms used by any receiving Office shall be the same as the language in which the international application is filed, provided that the receiving Office may, in its communications to the applicant, use any other language being one of its official languages.

(b) The language or languages of the Forms to be used by any International Searching Authority shall be specified in the applicable agreement referred to in Article 16(3)*(b)*.

* Forms for use by receiving Offices, International Searching Authorities and International Preliminary Examining Authorities.

** Forms sent to applicants, on matters subject to review or further processing by International Authorities.

(c) The language or languages of the Forms to be used by any International Preliminary Examining Authority shall be specified in the applicable agreement referred to in Article 32(3).

(d) The language of any Form used by the International Bureau shall be English where the language of the international application is English, and it shall be French where the language of the international application is French. Where the language of the international application is neither English nor French, the language of any Form used by the International Bureau in its communications to any other International Authority shall be English or French according to the wishes of such Authority, and in its communications to the applicant it shall be English or French according to the wishes of the applicant.

Section 104

Language of Correspondence from the Applicant

(a) The language of any letter from the applicant to the receiving Office shall be the same as the language of the international application to which such letter relates. However, the receiving Office may expressly authorize the use of any other language.

(b) The language of any letter from the applicant to the International Bureau shall be English where the language of the international application is English, and it shall be French where the language of the international application is French. Where the language of the international application is neither English nor French, the language of any letter from the applicant to the International Bureau shall be English or French at the choice of the applicant.

Section 105

Several Applicants

Where any international application indicates as applicants several persons, it shall be sufficient, for the purpose of identifying that application, to indicate, in any Form or correspondence relating to such application, the name of the applicant first named in the request.

Section 106

Common Agent for Several Applicants

In the case of several applicants, any agent designated under Rule 4.7 in the request signed by all the applicants, or appointed under Rule 90.3 in a separate power of attorney signed by all the applicants, shall be considered a common agent.

Section 107

Identification of International Authorities

(a) Whenever the nature of any communication from or to the applicant or from or to any International Authority so permits, any International Authority may be indicated in the communication by the two-letter code as appearing in *Annex B*.

(b) Where the International Authority is a receiving Office, an International Searching Authority or an International Preliminary Examining Authority, indication thereof shall be preceded by the letters "RO," "ISA," or "IPEA," respectively, followed by a slant (e.g., "RO/JA," "ISA/US," "IPEA/SU").

Section 108

Correspondence Intended for the Applicant

(a) Any correspondence from an International Authority intended for the applicant, or, in the case of several applicants, the applicants, shall be addressed as follows:

(i) Where the applicant has designated or appointed one agent, correspondence shall be addressed to that agent. Where, in the case of several applicants, the applicants are represented by a common representative or a common agent, correspondence shall be addressed to that representative or that agent.

(ii) Where the applicant has designated several agents in the request, correspondence shall be addressed to the agent first mentioned therein. Where, in the case of several applicants, the applicants have designated several common agents in the request, correspondence shall be addressed to the common agent first mentioned therein.

(iii) Where the applicant has appointed several agents in one or more separate powers of attorney, correspondence shall be addressed to the agent first mentioned in the earliest filed and still valid separate power of attorney. Where, in the case of several applicants, the applicants have appointed several common agents in one or more separate powers of attorney, correspondence shall be addressed to the common agent first mentioned in the earliest filed and still valid separate power of attorney.

(b) Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request Form, provided this reference does not exceed ten characters.

Section 109

Notification of Authorization or Refusal of Rectification

Any International Authority which authorizes or refuses rectification of obvious errors of transcription under Rule 91 shall promptly inform the applicant of such authorization or refusal and, in the case of refusal, of the reasons therefor.

Section 110

*Dates**

Any date in the international application, or used in any correspondence emanating from International Authorities relating to the international application, shall be indicated by the Arabic number of the day, by the name of the month, and by the Arabic number of the year. The receiving Office, where the applicant has not done so, or the International Bureau, where the applicant has not done so and the receiving Office fails to do so, shall, after or below any date indicated by the applicant in the request, repeat the date, in parenthesis, by indicating it by two-digit Arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, in that order and with a period after the digit pairs of the day and of the month (for example, "30 March 1978 (30.03.78)").

* This system of indication of dates is based on the ICIREPAT standards whereas the ISO standards provide for the reverse sequence of data. If the use of the ISO standards should become more common practice in the industrial property field, this Section will be reviewed.

PART 2

INSTRUCTIONS RELATING TO THE INTERNATIONAL APPLICATION

Section 201

Names of States: Cancellation of Designations

(a) The name of any State referred to in the request shall be indicated either by the full name of the State or by a generally accepted short title which, if the indications are in English or French, shall be as appears in *Annex A*. The receiving Office, or the International Bureau where the receiving Office fails to do so, shall insert, in the appropriate space provided for in the request form, the two-letter country code as appears in *Annex B* (for example, where France is the third designated State in Box V of the request Form, "FR 3. France" or "FR 3. French Republic").

(b) The receiving Office shall cancel *ex-officio* the designation of States other than Contracting States, and inform the applicant promptly of such action.

Section 202

Kind of Protection

(a) Where the applicant wishes his application to be treated in any designated State as an application not for a patent but for the grant of another kind of protection referred to in Article 43, he shall make the indication in the request referred to in Rule 4.12*(a)* by inserting the words "inventor's certificate," "utility certificate," "utility model," "patent of addition," "certificate of addition," "inventor's certificate of addition" or "utility certificate of addition," or their equivalent in the language of the international application, immediately after the indication of the said State.

(b) Where the applicant is seeking two kinds of protection under Article 44, he shall make the indication in the request referred to in Rule 4.12*(b)* by inserting, immediately after the indication of the said State and in the language of the international application, either,

(i) any two of the following terms connected by the word "and": "patent," "inventor's certificate," "utility certificate," "utility model," "patent of addition," "certificate of addition," "inventor's certificate of addition," "utility certificate of addition;" or

(ii) any two of the terms indicated in (i) above, one of them preceded by the word "primarily" and the other by the word "subsidiarily."

Section 203

Regional Patents

Where the applicant wishes to obtain a regional patent in respect of any designated State, he shall make the indication in the request referred to in Rule 4.1*(b)* (iv) by inserting the words "regional patent," or their equivalent in the language of the international application, immediately after the indication of the said State or, where an indication has been made under Section 202, after that indication, provided that:

(i) where Article 4(1) (ii), third clause applies, and not all the States party to the regional treaty have been designated, the international application shall be treated as if all those States had

been designated and as if the designations of all such States contained the said words, whether the said designations contained an indication of the wish to obtain a regional patent or, according to Article 4(1) (ii), fourth clause, are to be treated as containing such indication;

(ii) where the national law of any designated State contains a provision as referred to in Article 45(2), the International Bureau shall, according to Article 4(1)(ii), fourth clause, treat the designation as if it contained the said words even where the applicant failed to indicate them.

Section 204

Headings of the Parts of the Description

The headings referred to Rule 5.1*(c)* should be as follows:

(i) for matter referred to in Rule 5.1*(a)*(i), "Technical Field;"

(ii) for matter referred to in Rule 5.1*(a)*(ii), "Background Art;"

(iii) for matter referred to in Rule 5.1*(a)*(iii), "Disclosure of Invention;"

(iv) for matter referred to in Rule 5.1*(a)*(iv), "Brief Description of Drawings;"

(v) for matter referred to in Rule 5.1*(a)*(v), "Best Mode for Carrying Out the Invention;"

(vi) for matter referred to in Rule 5.1*(a)*(vi), "Industrial Applicability."

Section 205

Numbering of Claims upon Amendment

(a) Any claim submitted after the filing date of the international application and which is not identical with the claims previously appearing in the international application shall, at the choice of the applicant, be submitted either:

(i) as an amended claim, in which case, it shall bear the same number as the previous claim it amends; that number shall be followed by the word "(amended)" or its equivalent in the language of the international application; or

(ii) as a new claim, in which case, it shall bear the next number after the highest previously numbered claim; that number shall be followed by the word "(new)" or its equivalent in the language of the international application.

(b) The deletion of any claim previously appearing in the international application shall be made by indicating the number of the previous claim followed by the word "(cancelled)" or its equivalent in the language of the international application.

Section 206

Common Representative Designated in the Request

If the applicants designate a common representative in accordance with Rule 4.8*(a)*, such common representative shall be indicated on the front page of the request Form. The indication of the common representative shall take the form of a statement designating the named applicant to act as the common representative on behalf of all the applicants.

Section 207

Arrangement of Elements and Numbering of Sheets of the International Application

(a) In effecting the sequential numbering of the sheets of the international application in accordance with Rule 11.7, the elements of the international application shall be placed in the following order: the request, the description, the claims, the abstract, the drawings.

(b) The sequential numbering of the sheets shall be effected by using three separate series of numbering, the first series applying to the request only and commencing with the first sheet of the request, the second series commencing with the first sheet of the description and continuing through the claims until the last sheet of the abstract, and the third series being applicable to the sheets of the drawings only and commencing with the first sheet of the drawings.

PART 3

INSTRUCTIONS RELATING TO THE RECEIVING OFFICE

Section 301

Notification of Receipt of Purported International Application

Any receiving Office may notify the applicant of the receipt of the purported international application. The notification should indicate the date of actual receipt, the international application number of the purported international application referred to in Section 307 and the applicant's file reference, where available, as well as, where useful for purposes of identification, the title of the invention.

Section 302

Notification of Priority Claim Considered Not To Have Been Made

Where, owing to failure to meet the requirements of Rule 4.10*(b)*, the priority claim is, for the purposes of procedure under the Treaty, considered not to have been made, the receiving Office shall indicate that fact in the international application by marking over the box in the request Form which provides for the information concerning the priority claim, the words "NOT TO BE CONSIDERED FOR PCT PROCEDURE" or its equivalent in the language of the international application. The receiving Office shall notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify that Bureau and that Authority.

Section 303

Deletion of Additional Matter in the Request

Where, under Rule 4.17*(b)*, the receiving Office deletes *ex-officio* any matter contained in the request, it shall do so by placing such matter between square brackets and entering the word "DELETED," or its equivalent in the language of the international application, in the right-

hand margin adjacent to the matter so placed between brackets, and shall notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify that Bureau and that Authority.

Section 304

Corrections Submitted to the Receiving Office Concerning Expressions, etc., not to be used in the International Application

Where the applicant submits corrections to the receiving Office aimed at complying with the prescriptions of Rule 9.1, that Office shall, if copies of the international application have not yet been transmitted to the International Bureau and the International Searching Authority, attach copies of such corrections to the international application. If copies of the international application have already been transmitted, the receiving Office shall transmit copies of such corrections to the said Bureau and the said Authority.

Section 305

Identifying the Copies of the International Application

(a) Where, under Rule 11.1*(a)*, the international application has been filed in one copy, the receiving Office shall, after preparing under Rule 21.1*(a)* the additional copies required under Article 12(1), mark,

(i) the words "RECORD COPY" in the upper left-hand corner of the first page of the original copy,

(ii) in the same space on one additional copy, the words "SEARCH COPY," and

(iii) in the same space on the other such copy, the words "HOME COPY," or their equivalent in the language of the international application.

(b) Where, under Rule 11.1*(b)*, the international application has been filed in more than one copy, the receiving Office shall choose the copy most suitable for reproduction purposes, and mark the words "RECORD COPY," in the upper left-hand corner of its first page. After verifying the identity of any additional copies and, if applicable, preparing under Rule 21.1*(b)* the home copy, it shall mark, in the upper left-hand corner of the first page of one such copy, the words "SEARCH COPY," and, in the same space on the other such copy, the words "HOME COPY," or their equivalent in the language of the international application.

Section 306

Change in the Person, Name or Address of the Applicant

Any request for the recording of any changes in the person or name of the applicant referred to in Rule 18.5 or Rule 54.4, or of any change in the address of the applicant shall be signed by the applicant or, if the receiving Office requested such change under Rule 18.5 or Rule 54.4, by the receiving Office. The request shall indicate the name or address of the applicant for which the change is requested.

Section 307

System of Numbering International Applications

Papers purporting to be an international application under Rule 20.1 shall be marked with the international application number, consisting of the letters "PCT," a slant, the two-letter code, as in *Annex B*, indicating the receiving Office, a two-digit indication of the last two numbers of the year in which such papers were first received, a slant and a five-digit number, allotted in sequential order corresponding to the order in which the international applications are received (e.g., "PCT/SU78/00001"). However, if a negative determination is made under Rule 20.7 or a declaration is made under Article 14(4), the letters "PCT" shall be deleted by the receiving Office from the indication of the international application number on any papers marked previously with that number, and the said number shall be used without such letters in any future correspondence relating to the purported international application.

Section 308

Marking of the Sheets of the International Application

(a) The receiving Office shall indelibly mark, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2*(a)*, the international application number referred to in Section 307 in the upper right-hand corner of each sheet of each copy of the purported international application.

(b) The data to be indicated on any replacement sheet under Rule 26.4*(b)* shall be indelibly marked by the receiving Office, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2*(a)*, in the upper right-hand corner of each replacement sheet.

Section 309

Procedure in the Case of Later Submitted Sheets

(a) The receiving Office shall indelibly mark, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2*(a)*, any sheet received on a date later than the date on which sheets were first received with the date on which it received that sheet, inserted immediately below the international application number referred to in Section 307.

(b) The receiving Office shall, in the case of later submitted sheets received within the time limits referred to in Rule 20.2*(a)*(i) and (ii):

(i) effect the required correction of the international filing date, or, where no international filing date has yet been accorded, of the date of receipt of the purported international application;

(ii) notify the applicant of the correction effected under item (i) above;

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i) above, by transmitting a copy of the corrected first page of the request, and forward copies of the later submitted sheets to the said Bureau and the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted sheets to the record copy and the search copy.

(c) the receiving Office shall, in the case of later submitted sheets received after the expiration of the time limits referred to in Rule 20.2*(a)*(i) and (ii):

(i) notify the applicant of that fact and of the date of receipt of the later submitted sheets;

(ii) where transmittals under Article 12(1) have already been made, forward a copy of the later submitted sheets to the International Bureau with the indication that such sheets are not to be taken into consideration for the purposes of international processing;

(iii) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted sheets to the record copy with the indication that such sheets are not to be taken into consideration for the purposes of international processing.

Section 310

Procedure in the Case of Missing Drawings

(a) Where the international application refers to drawings which in fact are not included in that application, the receiving Office shall make the indication referred to in Rule 26.6*(a)* by an appropriate marking of the request Form.

(b) Section 309*(a)* shall apply also in the case of drawings received by the receiving Office on a date later than the date on which sheets were first received by that Office.

(c) The receiving Office shall, in the case of missing drawings received within the time limit referred to in Rule 20.2*(a)*(iii):

(i) effect the required correction of the international filing date, or, where no international filing date has yet been accorded, of the date of receipt of the purported international application, and delete the indication made under paragraph *(a)* above;

(ii) notify the applicant of the correction effected under item (i), above;

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i), above, by transmitting a copy of the corrected first page of the request, and forward copies of the later submitted drawings to the said Bureau and the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted drawings to the record copy and the search copy.

(d) The receiving Office shall, in the case of missing drawings received after the expiration of the time limit referred to in Rule 20.2*(a)*(iii):

(i) notify the applicant of the fact and of the date of receipt of the later submitted drawings;

(ii) where transmittals under Article 12(1) have already been made, forward a copy of the later submitted drawings to the International Bureau with the indication that such drawings and any reference to such drawings are not to be taken into consideration for the purposes of international processing;

(iii) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted drawings to the record copy with the indication that such drawings and any reference to such drawings are not to be taken into consideration for the purposes of international processing.

Section 311

Renumbering of Sheets of the International Application

(a) The receiving Office shall, subject to Section 207, sequentially renumber the sheets of the international application when necessitated by the addition of any new sheet, the deletion of entire sheets, a change in the order of the sheets or any other reason.

(b) The sheets of the international application shall be provisionally renumbered in the following manner:

(i) when a sheet is deleted, the receiving Office shall either include a blank sheet with the same number and with the word "deleted," or its equivalent in the language of the international application, below the number, or insert, in brackets, below the number of the following sheet, the number of the deleted sheet with the word "deleted" or its equivalent in the language of the international application;

(ii) when a sheet is substituted, the receiving Office shall write below the number of the new sheet the word "substitute" or its equivalent in the language of the international application;

(iii) when one or more sheets are added, each sheet shall be identified by the number of the preceding sheet followed by an oblique stroke and then by a natural number series, starting always with number one for the first sheet added after an unchanged sheet (e.g., 10/1, 15/1, 15/2, 15/3, etc.). When later additions of sheets to an existing series of added sheets are necessary, an extra digit shall be used for identifying the further additions (e.g., 15/1, 15/1/1, 15/1/2, 15/2, etc.).

(c) In the cases mentioned in (i) and (iii) above, it is recommended that the receiving Office should write, below the number of the last sheet, the total number of the sheets of the international application followed by the words "TOTAL OF SHEETS" or their equivalent in the language of the international application. It is further recommended that, at the bottom of any last sheet added, the words "LAST ADDED SHEET" or their equivalent in the language of the international application should be inserted.

Section 312

Notification of Decision not to Issue Declaration that the International Application is Considered Withdrawn

Where the receiving Office, after having notified the applicant under Rule 29.4 of its intent to issue a declaration under Article 14(4), decides not to issue such a declaration, it shall notify the applicant accordingly.

Section 313

Manner of Making the Necessary Annotations in the Check List

Where, under Rule 3.3*(b)*, the receiving Office itself fills in the check list, that Office shall mark, next to such check list, the words "FILLED IN BY RO," or their equivalent in the language of the international application. Where only some of the indications are filled in by the receiving Office, the said words and each indication filled in by that Office shall be identified by an asterisk.

Section 314

Manner of Indicating Correction of the Priority Date or Cancellation of the Priority Claim

(a) Where, under Rule 4.10*(d)*, the applicant corrects the erroneously indicated filing date of any earlier application, the receiving Office shall enter the corrected date in the request and draw a line through the previously entered date while still leaving it legible.

(b) Where, under Rule 4.10*(d)*, the receiving Office cancels the declaration made under Article 8(1), that Office shall mark over the said declaration the words "CANCELLED ON REQUEST OF APPLICANT" or "CANCELLED EX OFFICIO BY RO," or their equivalent in the language of the international application, as the case may be.

Section 315

Notification of Non-Collection of Record Copy

Where, under Rule 22.2*(d)*, the receiving Office has, in accordance with the applicant's wish, held the record copy at the disposal of the applicant, and the applicant has not collected that copy by the expiration of the time limit for receipt of that copy by the International Bureau, the receiving Office shall notify the applicant accordingly.

Section 316

Procedure in the Case where the International Application Lacks the Prescribed Signature

Where, under Article 14(1)*(a)*(i), the receiving Office finds that any international application is defective in that it lacks the prescribed signature, that Office shall send to the applicant, together with the invitation to correct under Article 14(1)*(b)*, a copy of the request part of the international application. The applicant shall, within the prescribed time limit, return said copy after affixing thereto the prescribed signature.

PART 4

INSTRUCTIONS RELATING TO THE INTERNATIONAL BUREAU

Section 401

Marking of Sheets of the Record Copy

The International Bureau shall, under Rule 24.1, mark the date of receipt of the record copy in the appropriate space on the request Form and place the stamp of the International Bureau in the lower right-hand corner of each sheet of the record copy.

Section 402

Notification of Correction of the Priority Date or Cancellation of the Priority Claim

Where, under Rule 4.10*(d)*, the correction of the priority date or the cancellation of the priority claim is effected by the International Bureau, the manner of indicating the correction or cancellation set forth in Section 314 shall apply *mutatis mutandis*. The receiving Office, in addition to the applicant and the International Searching Authority, shall be notified accordingly by the International Bureau.

Section 403

Transmittal of Protest Against Payment of Additional Fee and Decision Thereon

Where, under Rules 40.2*(c)* or 68.3*(c)*, the International Bureau receives a request from the applicant to forward to any designated or elected Office the texts of both the protest against payment of an additional fee and the decision thereon by the International Searching Authority or the International Preliminary Examining Authority, as the case may be, it shall proceed according to such request.

Section 404

International Publication Number

The International Bureau shall assign to each published international application an international publication number which shall be different from the international application number. The international publication number shall be used on the pamphlet and in the Gazette entry. It shall consist of the two-letter code "WO" followed by a two-digit designation of the last two numbers of the year of publication, a slant, and a serial number consisting of five digits (e.g., "WO78/12345").

Section 405

Special Publication Fee

The special publication fee provided for in Rule 48.4 shall be 200 Swiss francs.

Section 406

Pamphlets

(a) Pamphlets referred to in Rule 48.1 shall be published on a given day of each week.

(b) All pamphlets shall be of A4 size and shall be printed by offset, recto-verso.

(c) The form and particulars of the front page of each pamphlet shall be decided by the Director General.

Section 407

The Gazette

(a) The Gazette referred to in Rule 86 shall be of A4 size and shall be printed by offset, recto-verso.

(b) In addition to the contents specified in Rule 86, the Gazette shall contain, in respect of each published international application, the data indicated in *Annex D*.

(c) The information referred to in Rule 86.1(v) shall be that which is indicated in *Annex E*.

(d) The subscription price of the Gazette shall be as fixed by the Director General*. The price of any single issue of the Gazette shall be as fixed by the Director General*.

Section 408

Priority Application Number

(a) If the application number of the earlier application referred to in Rule 4.10*(c)* (priority application number) is furnished to the International Bureau within the prescribed time limit, that Bureau shall enter the said number in the space provided therefor in the request Form.

(b) If the priority application number is furnished after the expiration of the prescribed time limit, the International Bureau shall indicate, in the international publication, the date on which the said number was furnished, by including on the front page of the pamphlet next to the priority application number the words "FURNISHED LATE ON ... (date)," and their equivalent in the language of the international application, provided that language is French, German, Japanese or Russian.

(c) If the priority application number has not been furnished at the time of the international publication, the International Bureau shall indicate that fact by including on the front page of the pamphlet in the space provided for the priority application number the words "NOT FURNISHED AT TIME OF THIS PUBLICATION," and their equivalent in the language of the international application, provided that language is French, German, Japanese or Russian.

Section 409

Notification of Priority Claim Considered not to have been Made

Where the International Bureau notes that the receiving Office has failed to notify the applicant as provided in Section 302, it shall send a notification to the same effect to the applicant, the receiving Office and the International Searching Authority.

Section 410

Numbering of Sheets of the International Application for Purposes of International Publication

In the course of preparing the international application for international publication, the International Bureau shall sequentially renumber the sheets of the international application only when necessitated by the addition of any new sheet, the deletion of entire sheets or a change in the order of the sheets. Otherwise, the numbering provided under Section 207 shall be maintained.

Section 411

Notification that the Certified Copy of the Priority Document has not been Submitted

Where the time limit under Rule 17.1*(a)* has expired and the International Bureau has not received a certified copy of the priority document, it shall notify the applicant and the designated Offices accordingly.

---

* This provision is applicable during the transitional period referred to in Rule 86.4*(b)*.

PART 5

INSTRUCTIONS RELATING TO THE INTERNATIONAL SEARCHING AUTHORITY

Section 501

Corrections Submitted to the International Searching Authority Concerning Expressions, etc., not to be used in the International Application

Where the applicant submits corrections to the International Searching Authority aimed at complying with the prescription of Rule 9.1, that Authority shall transmit copies of such corrections to the receiving Office and the International Bureau.

Section 502

Protest Against Payment of Additional Fee and Decision Thereon

The International Searching Authority shall transmit to the applicant, at the latest, together with the international search report, any decision which it has taken under Rule 40.2*(c)* on the protest of the applicant against the payment of the additional fee. At the same time, it shall transmit to the International Bureau a copy of both the protest and the decision thereon, as well as any request by the applicant to forward the texts of both the protest and the decision thereon to any of the designated Offices.

Section 503

Method of Identifying Documents Cited in the International Search Report

Identification of any document cited in the international search report referred to in Rule 43.5*(b)* shall be made by indicating the following elements in the order in which they are listed:

(a) In the case of any patent document (patent documents being patents within the meaning of Article 2(ii) as well as published applications relating thereto):

(i) the Office that issued the document, by the two-letter code as in *Annex B*;

(ii) the kind of document, by the appropriate symbols as in *Annex C*;

(iii) the number of the document as given to it by the Office that issued it (for Japanese patent documents the indication of the year of the reign of the Emperor must precede the serial number of the patent document);

(iv) the date of publication of the cited patent document as indicated thereon;

(v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings; and

(vi) the name of the patentee or applicant.

(The following example illustrates the citation of a patent document according to paragraph *(a)* above:

JA, B, 5014535, published 1975, May 28, see column 4, lines 3 to 27, NCR Corporation.)

(b) In the case of any book or other separately issued publication:

(i) the name of the author;

(ii) the title (including, where applicable, the number of the edition and/or volume);

(iii) the year of publication (when this coincides with the year of the international application or of the priority claim, the International Searching Authority shall endeavor to determine the month and, if necessary, the day of publication and to indicate these data in the international search report);

(iv) the name of the publisher;

(v) as far as available, the place of publication (where only the location of the publisher appears on the book or other separately issued publication, then that location shall be indicated as the place of publication); and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a book or other separately issued publication according to paragraph *(b)* above:

H. Walton, "Microwave Quantum Theory," Volume 2, published 1973, by Sweet and Maxwell (London), see pages 138 to 192, especially pages 146 to 148.)

(c) In the case of any article published in a periodical or other serial publication:

(i) the title of the periodical or other serial publication;

(ii) the number of the volume and the date of the issue in which the article appears;

(iii) as far as available, the place of publication (where only the location of the publisher appears in the periodical or other serial publication, then that location shall be indicated as the place of publication);

(iv) the author and the title of the article and the number of the page both on which the article starts and ends; and

(v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of an article published in a periodical or other serial publication according to paragraph *(c)* above:

IBM Technical Disclosure Bulletin, Volume 17 No. 5, issued 1974 October (Armonk, New York), J. G. Drop, "Integrated Circuit Personalization at the Module Level" see pages 1344 to 1345.)

(d) In the case of abstracts:

(i) the identification of the document containing the abstract in the manner set forth in paragraphs *(a)*, *(b)* and *(c)*, respectively, depending upon whether the abstract is contained in a patent document, in a book or other separately issued publication, or in an article published in a periodical or other serial publication;

(ii) in the case where the abstract is not published together with the full text document which served as its basis, the identification of both abstract and full text document on the basis of whatever bibliographic data may be available in respect thereto.

(The following example illustrates the citation of an abstract according to paragraph *(d)* (ii) above:

Chemical Abstracts, Volume 75, No. 20, issued 1971, November 15 (Columbus, Ohio, U.S.A.), D. I. Shetulov, "Surface Effects During Metal Fatigue," see page 163, column 1, the abstract No. 120718k, Fiz.-Khim. Mekh. Mater. 1971, 7(2), 7-11 (Russ).)

Section 504

Classification of the Subject Matter of the International Application

(a) Where the subject matter of the international application is such that classification thereof requires more than one classification symbol according to the principles to be followed

in the application of the International Patent Classification to any given patent document, the international search report shall indicate all such symbols.

(b) Where any national classification system is used, the international search report may indicate all the applicable classification symbols also according to that system.

(c) Where the subject matter of the international application is classified both according to the International Patent Classification and to any national classification system, the international search report shall, wherever possible, indicate the corresponding symbols of both classifications opposite each other.

Section 505

Indication of Citations of Particular Relevance in the International Search Report

Where any document cited in the international search report is of particular relevance, the special indication required by Rule 43.5*(c)* shall consist of the letter "X" placed next to the citation of the said document.

Section 506

Comments on Draft Translation of the International Application

(a) Where the applicant has made comments, within the time limits fixed by the International Searching Authority, on the draft translation referred to in Rule 48.3*(b)*, that Authority shall notify the applicant whether it has changed the draft translation and, if so, of the changes it has made therein.

(b) Where the applicant submits comments on the draft translation after the expiration of the time limit fixed by the International Searching Authority, and that Authority changes the draft translation, it shall notify the applicant accordingly.

Section 507

Manner of Indicating Certain Special Categories of Documents Cited in the International Search Report

(a) Where any document cited in the international search report refers to an oral disclosure, use, exhibition, or other means referred to in Rule 33.1*(b)*, the separate indication required by that Rule shall consist of the letter "O" placed next to the citation of the said document.

(b) Where any document cited in the international search report is a published application or patent as defined in Rule 33.1*(c)*, the special mention required by that Rule shall consist of the letter "E" placed next to the citation of the said document.

(c) Where any document cited in the international search report is a document which defines the general state of the art, it shall be indicated by the letter "A" placed next to the citation of the said document.

(d) Where any document cited in the international search report is a document whose publication date occurred earlier than the international filing date of the international application, but later than the priority date claimed in that application, it shall be indicated by the letter "P" next to the citation of the said document.

(e) Where any document cited in the international search report is a document whose publication date occurred after the filing date or the priority date of the international application and is not in conflict with the said application, but is cited for the principle or theory underlying the

invention, which may be useful for a better understanding of the invention, or is cited to show that the reasoning or the facts underlying the invention are incorrect, it shall be indicated by the letter "T" next to the citation of the document.

(f) Where in the international search report any document is cited for reasons other than those referred to in the preceding paragraphs, such document shall be indicated by the letter "L" next to the citation of the document.

Section 508

Manner of Indicating the Claims to which the Documents Cited in the International Search Report are Relevant

The claims to which cited documents are relevant shall be indicated by placing in the appropriate column of the international search report:

(i) where the cited document is relevant to one claim, the number of that claim; for example (2) or (17);

(ii) where the cited document is relevant to two or more claims numbered in consecutive order, the numbers of the first and last claims of the series connected by a hyphen; for example, (1-15) or (2-3);

(iii) where the cited document is relevant to two or more claims that are not numbered in consecutive order, the number of each claim placed in ascending order and separated by a comma or commas; for example (1, 6) or (1, 7, 10);

(iv) where the cited document is relevant to more than one series of claims under (ii) above, or to claims of both categories (ii) and (iii) above, the series or individual claim numbers and series placed in ascending order using commas to separate the several series, or to separate the numbers of individual claims and each series of claims; for example, (1-6, 9-10, 12-15) or (1, 3-4, 6, 9-11).

PART 6

INSTRUCTIONS RELATING TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

Section 601

Determination Whether Applicant is Entitled to make a Demand

(a) Where the International Preliminary Examining Authority finds that the applicant is not entitled under Article 31(2) or, where there are several applicants, that none of the applicants is entitled under Rule 54.2 to make a demand, the International Preliminary Examining Authority shall notify both the applicant or applicants and the International Bureau accordingly.

(b) Where the International Preliminary Examining Authority finds that, in the case of different applicants for different elected States, none of the applicants indicated for the purposes of a given elected State is entitled under Rule 54.3 to make a demand and that therefore the election of that State shall be considered not to have been made, the International Preliminary Examining Authority shall notify accordingly both the applicant or applicants so indicated and the International Bureau.

Section 602

Marking of Replacement Sheets and Renumbering of Sheets of the International Application

(a) The data to be indicated on any replacement sheet according to Rule 66.8*(b)* shall be indelibly marked by the International Preliminary Examining Authority, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2*(a)*, in the upper right-hand corner of each replacement sheet.

(b) Section 311 applies, *mutatis mutandis*, to the renumbering of sheets of the international application.

Section 603

Transmittal of Protest Against Payment of Additional Fee and Decision Thereon

The International Preliminary Examining Authority shall transmit to the applicant, at the latest together with the international preliminary examination report, any decision which it has taken under Rule 68.3*(c)* on the protest of the applicant against payment of the additional fee. At the same time, it shall transmit to the International Bureau a copy of both the protest and the decision thereon, as well as any request by the applicant to forward the texts of both the protest and the decision thereon to any of the elected Offices.

Section 604

Guidelines for Explanations Contained in the International Preliminary Examination Report

Explanations under 70.8 shall clearly point out to which of the three criteria referred to in Article 35(2), taken separately, any cited document is applicable and shall clearly describe, with reference to the cited documents, the reasons supporting the conclusion that any of the said criteria is or is not satisfied.

[Annexes follow]

ANNEX A

Names of States

(Members of the Paris Union as at May 31, 1977)

Short Title	*Full Name*
Algeria	People's Democratic Republic of Algeria
Argentina	Argentine Republic
Australia	Commonwealth of Australia
Austria	Republic of Austria
Bahamas	Commonwealth of the Bahamas
Belgium	Kingdom of Belgium
Benin	People's Republic of Benin
Brazil	Federative Republic of Brazil
Bulgaria	People's Republic of Bulgaria
Cameroon	United Republic of Cameroon
Canada	Canada
Central African Empire	Central African Empire
Chad	Republic of Chad
Congo	People's Republic of the Congo
Cuba	Republic of Cuba
Cyprus	Republic of Cyprus
Czechoslovakia	Czechoslovak Socialist Republic
Denmark	Kingdom of Denmark
Dominican Republic	Dominican Republic
Egypt	Arab Republic of Egypt
Finland	Republic of Finland
France	French Republic
Gabon	Gabonese Republic
German Democratic Republic	German Democratic Republic
Germany, Federal Republic of	Federal Republic of Germany
Ghana	The Republic of Ghana
Greece	Hellenic Republic
Haiti	Republic of Haiti
Holy See	Holy See
Hungary	Hungarian People's Republic
Iceland	Republic of Iceland
Indonesia	Republic of Indonesia
Iran	Empire of Iran
Iraq	Republic of Iraq
Ireland	Ireland
Israel	State of Israel
Italy	Italian Republic
Ivory Coast	Republic of the Ivory Coast
Japan	Japan
Jordan	Hashemite Kingdom of Jordan
Kenya	Republic of Kenya
Lebanon	Lebanese Republic
Libyan Arab Jamahiriya	The Socialist People's Libyan Arab Jamahiriya

Short Title	*Full Name*
Liechtenstein	Principality of Liechtenstein
Luxembourg	Grand Duchy of Luxembourg
Madagascar	Democratic Republic of Madagascar
Malawi	Republic of Malawi
Malta	Republic of Malta
Mauritania	Islamic Republic of Mauritania
Mauritius	Mauritius
Mexico	United Mexican States
Monaco	Principality of Monaco
Morocco	Kingdom of Morocco
Netherlands	Kingdom of the Netherlands
New Zealand	New Zealand
Niger	Republic of the Niger
Nigeria	Federal Republic of Nigeria
Norway	Kingdom of Norway
Philippines	Republic of the Philippines
Poland	Polish People's Republic
Portugal	Portuguese Republic
Romania	Socialist Republic of Romania

YU	Yugoslavia
ZA	South Africa
ZM	Zambia
ZR	Zaire

OA	African Intellectual Property Organization
EP	European Patent Office
WO	International Bureau of WIPO

[Annex C follows]

ANNEX C

Standard Code for Identification of Different Kinds of Patent Documents

Introduction

1. The recommendation provides for groups of letter codes in order to distinguish patent documents. The letter codes also facilitate the storage and retrieval of such documents.

2. If any Office wants to amplify the information contained in the letter code, this letter code may be optionally associated with a numerical code. The meaning of such numerical code should then be defined by each Patent Office availing itself of this option.

3. The code also provides for a letter for non-patent literature documents (N) and for documents to be restricted to the internal use of Patent Offices (X) (e.g., confidential documents, not to be disclosed outside the Office). See in this respect also SI.1 (ICIREPAT Manual pages 4.3.1.1 to 4.3.1.4).

Definitions

4. For the purposes of this recommendation, the expression "patent documents" includes patents for inventions, inventors' certificates, utility certificates, utility models, patents or certificates of addition, inventors' certificates of addition, utility certificates of addition, plant patents and published applications therefor.

5. For the purposes of this recommendation, the term "entry in an official gazette" means at least one comprehensive announcement in an official gazette regarding the making available to the public of the complete text, claims (if any) and drawings (if any) of a patent document.

6. For the purposes of this recommendation, the terms "publication" and "published" are used in the sense of making available

(i) a patent document to the public for inspection or supplying a copy on request

(ii) multiple copies of a patent document produced by printing or like process

Explanation: If, at a particular procedural stage, a copy of the document is first made available to the public for inspection or copying and is then, *at the same procedural stage*, made available in multiple copies produced by printing or like process, only a single publication is considered to have occured. If, on the other hand, multiple reproduction results from a new procedural stage, this reproduction is considered to be a further publication of the document, even if the texts at the two stages are identical.

7. According to certain national patent laws or regulations, the same patent application may be published at various procedural stages. For the purposes of this recommendation, a publication level is defined as the level corresponding to a procedural stage at which normally a document is published under a given national patent law.

Recommendation

8. It is recommended that the code:

(a) be used for the recording of the "kind of document" in machine-readable data carriers, such as 80-column punched cards, magnetic tapes, aperture cards, etc.;

(b) be used on the first page of patent documents, preferably near the document number, if these have been published in the sense of paragraph 6;

(c) be used in entries in official gazettes or, if all entries in a section of the Gazette relate to the same kind of a document at the beginning of such a section.

(d) be used for the identification of patent documents cited in "Search Reports" and "Lists of References" in patent documents (INID Number 56).

9. *Code*

The Code is subdivided into *mutually exclusive* groups of letters. The groups characterize patent documents and documents specified in paragraph 3. Groups 1-5 comprise one or several letters enabling identification of documents pertaining to different publication levels.

Group 1 Use for primary or major series of patent documents

A First publication level
B Second publication level
C Third publication level

Group 2 Use for secondary series of patent documents

E First publication level
F Second publication level
G Third publication level

Group 3 Use for further series of patent documents, as the special requirements of each Office may be

H
I

Group 4 Use for major special types of patent documents

M Medicament patent documents
P Plant patent documents

Group 5 Use for utility model documents having a numbering series other than the documents of Group 1

U First publication level
Y Second publication level
Z Third publication level

Group 6 Other (see paragraph 3)

N Non-patent literature documents
X Documents restricted to the internal use of Offices

10. It is understood that documents resulting from a patent application and being identified as the major series will fall under Group 1 (e.g. DT Offenlegungsschrift, Auslegeschrift and Patentschrift). However, documents identified as a secondary series will fall under Group 2 (e.g., FR patent of addition under old law, US reissue). In exceptional cases of need for a further series, Group 3 is reserved for such purposes (e.g., US defensive publication). Group 4 applies only, at present, to special documents concerning the medicament patents published in France and the plant patents published in the United States of America. In any country publishing similar documents, Group 4 should then be used.

11. As indicated in paragraph 2, the above letter code may optionally be associated with a numerical code to amplify the information represented by the letter code. For this numerical code only digits 1 to 9 should be used. The significance of this code will be defined by any national Office applying such code and communicated to the International Bureau, which will publicize this

information. The numerical code must always be interpreted in conjunction with the country code and the above letter code.

12. As an appendix to this recommendation a list of patent documents, past and currently published, and intended to be published in the future, divided in accordance with the code, is given.

[Appendices I & II follow]

Original: STAC III No. 43d, expanded to STAC III No. 93a
Adopted by the first session of the PLC.
First amended version adopted by the fifth PLC ordinary session (document IC/PLC/V/11, paragraphs 65 to 68).
Second amended version adopted by the seventh PLC ordinary session (document IC/PLC/VII/16, paragraph 30).
Third amended version adopted by the tenth PLC ordinary session (document IC/PLC/X/11, paragraph 24).

Appendix I

List of Patent Documents, Past and Currently Published, and Intended to be Published in the Future, Divided in Accordance with this Code

Code: A *Patent Documents Numbered in Primary or Major Series – First Publication Level*

Examples:	Austria	Patent Application published in the sense of paragraph 6(i)
	Belgium	Brevet d'invention/Uitvindingsoctrooi
	Belgium	Brevet de perfectionnement/Verbeteringsoctrooi
	Bulgaria	Opisanie na izobretenie po patent
	Canada	Patent
	Cuba	Patent Application published in the sense of paragraph 6(i)
	Czechoslovakia	Patent Application published in the sense of paragraph 6(i)
	Czechoslovakia	Inventor's Certificate Application published in the sense of paragraph 6(i)
	Denmark	Patent Application published in the sense of paragraph 6(i)
	Egypt	Patent specification
	Europat	Document published after 18 months
	Finland	Patent Application published in the sense of paragraph 6(i)
	France	Brevet d'invention (old law)
	France	Brevet d'invention, première et unique publication
	France	Certificat d'addition à un brevet d'invention, première et unique publication
	France	Certificat d'utilité, première et unique publication
	France	Certificat d'addition à un certificat d'utilité, première et unique publication
	France	Demande de brevet d'invention, première publication
	France	Demande de certificat d'addition à un brevet d'invention, première publication
	France	Demande de certificat d'utilité, première publication
	France	Demande de certificat d'addition à un certificat d'utilité, première publication
	German Democratic Republic	Patentschrift (Ausschliessungspatent), granted in accordance with paragraph 5.1 of the Patent Amendment Act of the German Democratic Republic
	German Democratic Republic	Patentschrift (Wirtschaftspatent), granted in accordance with paragraph 5.1 of the Patent Amendment Act of the German Democratic Republic
	Germany, Federal Republic of	Offenlegungsschrift
	Hungary	Patent Application published in the sense of paragraph 6(i)
	India	Patent specification
	Ireland	Patent specification
	Italy	Brevetto per invenzione industriale
	Japan	Kokai tokkyo koho
	Luxembourg	Brevet d'invention
	Luxembourg	Certificat d'addition à un brevet d'invention
	Netherlands	Ter inzage gelegde octrooiaanvrage
	Norway	Patent Application published in the sense of paragraph 6(i)
	Pakistan	Patent specification

Code: A (continued)

Examples:	PCT	Pamphlet published after 18 months
	Poland	Opis patentowy
	Romania	Descrierea invenţiei
	Soviet Union	Opisanie izobreteniya k patentu
	Soviet Union	Opisanie izobreteniya k avtorskomy svidetelstvu
	Spain	Patente de invención
	Sweden	Patent Application published in the sense of paragraph 6(i)
	Switzerland	Auslegeschrift/Mémoire Exposé/Esposto Memoriale (Patent Application published in the sense of paragraphs 6(i) and 6(ii) pertaining to the technical fields for which search and examination as to novelty are made)
	Switzerland	Patentschrift/Exposé d'invention/Esposto d'invenzione (Patent published in the sense of paragraph 6(ii) and pertaining to the technical fields for which neither search nor examination as to novelty are made)
	United Kingdom	Patent specification
	United States	Patent
	Yugoslavia	Patentni spis

Code: B Patent Documents Numbered in Primary or Major Series – Second Publication Level

Examples:	Australia	Patent specification
	Austria	Patentschrift
	Canada	Reissue
	Cuba	Patente de invención
	Czechoslovakia	Popis vynálezu k patentu
	Czechoslovakia	Popis vynálezu k autorskému osvědčení
	Denmark	Fremlaeggelsesskrift
	Finland	Kuulutusjulkaisu – Utläggningsskrift
	France	Brevet d'invention, deuxième publication de l'invention
	France	Certificat d'addition à un brevet d'invention, deuxième publication de l'invention
	France	Certificat d'utilité, deuxième publication de l'invention
	France	Certificat d'addition à un certificat d'utilité, deuxième publication de l'invention
	German Democratic Republic	Patentschrift (Ausschließungspatent), granted in accordance with paragraph 29 of the Patent Act of the German democratic Republic
	German Democratic Republic	Patentschrift (Wirtschaftspatent), granted in accordance with paragraph 29 of the Patent Act of the German Democratic Republic
	Germany, Federal Republic of	Auslegeschrift
	Hungary	Szabadalmi leirás
	Japan	Tokkyo koho
	Netherlands	Openbaar gemaakte octrooiaanvrage
	Norway	Utlegningsskrift
	Sweden	Utläggningsskrift

Code: B (continued)

Examples:	Switzerland	Patentschrift/Exposé d'invention/Esposto d'invenzione (Patent published in the sense of paragraph 6(ii) and pertaining to the technical fields for which search and examination as to the novelty are made)
	United Kingdom	Amended Patent Specification

Code: C *Patent Documents Numbered in Primary or Major Series – Third Publication Level*

Examples:	Denmark	Patent
	Finland	Patentti – Patent
	Germany, Federal Republic of	Patentschrift
	Netherlands	Octrooi
	Norway	Patent
	Sweden	Patentskrift

Code : E *Patent Documents Numbered in Secondary Series – First Publication Level*

Examples:	France	Certificat d'addition à brevet d'invention (old law)
	United States	Reissue

Code: H *Patent Documents numbered in further series*

Example:	United States	Defensive publication

Code: M *Medicament Patent Documents*

Examples:	France	Brevet spécial de médicament
	France	Addition à un brevet spécial de médicament

Code: P *Plant Patent Documents*

Examples:	United States	Plant patent

Code: U *Utility Model Documents Numbered in Series other than the Documents of Group I – First Publication Level*

Examples:	Germany, Federal Republic of	Gebrauchsmuster
	Japan	Kokai jitsuyo shinan koho
	Spain	Utility Model Application published in the sense of paragraph 6(i)

Code: Y *Utility Model Documents Numbered in Series other than the Documents of Group I - Second Publication Level*

Examples:	Japan	Jitsuyo shinan koho
	Spain	Modelo de utilidad

Annex C, page 7

Appendix II

List of Patent Documents, Past and Currently Published,
broken down by issuing country and coded in accordance with the SI.8 Code

Issuing country	Kind of published patent document			Letter code	Associated numerical code (when defined)
	Designation in language of issuing country (and, if required, transliteration in Latin characters)	Translation into English (when needed)	Identification of document		
Australia	Unexamined complete specification open to public inspection (not marked on document)		Unexamined Patent Application published in the sense of paragraph 6(i)	A	
	Patent specification		Patent published in the sense of paragraph 6(ii)	B	
Austria	Aufgebot (not marked on document but indicated as such in the Official Gazette)	Document laid open	Patent Application published in the sense of paragraph 6(i)	A	
	Patentschrift	Patent specification	Patent published in the sense of paragraph 6(ii)	B	
Belgium	Brevet d'invention/ Uitvindingsoctrooi	Patent of invention	Patent published in the sense of paragraph 6(ii)	A	
	Brevet de perfectionnement/ Verbeteringsoctrooi	Patent of improvement	Patent of improvement published in the sense of paragraph 6(ii)	A	
	Brevet d'importation/ Invoeringsoctrooi	Patent of importation	Patent of importation published in the sense of paragraph 6(ii)	A	
Bulgaria	ОПИСАНИЕ НА ИЗОБРЕТЕНИЕ ПО ПАТЕНТ (Opisanie na izobretenie po patent)	Description of invention for a patent	Patent published in the sense of paragraph 6(ii)	A	
	ОПИСАНИЕ НА ИЗОБРЕТЕНИЕ ПО АВТОРСКО СВИДЕТЕЛСТВО (Opisanie na izobretenie po avtorsko svidetelstvo)	Description of invention for an author's certificate	Inventor's certificate published in the sense of paragraph 6(ii)	A	
Canada	Patent/Brevet		Patent published in the sense of paragraph 6(ii)	A	
	Reissue Patent/Brevet de redélivrance		Patent reissued and republished in the sense of paragraph 6(ii)	B	
Cuba	Publicación de la solicitud (not marked on document)	Publication of the application	Patent application published in the sense of paragraph 6(i)	A	
	Patente de invención	Patent of invention	Patent published in the sense of paragraph 6(ii)	B	

Annex C, page 8

Issuing country	Kind of published patent document			Letter code	Associated numerical code (when defined)
	Designation in language of issuing country (and, if required, transliteration in Latin characters)	Translation into English (when needed)	Identification of document		
Czechoslovakia	Přihláska vynálezu (se žádosti o autorské osvědčedi)	Application for an invention asking for author's certificate	Application for inventor's certificate published in the sense of paragraph 6(i), in accordance with Law No. 84 of 01.11.1972	A	1
	Přihláska vynálezu (se žádostí o patent)	Application for an invention asking for a patent	Patent application published in the sense of paragraph 6(i), in accordance with Law No. No. 84 of 01.11.1972	A	2
	Patentová přihláska or Přihláska vynálezu	Patent application or Application for invention	Patent application published in the sense or paragraph 6(i) up to patent No. 149260 (granted before the entry into force of Law No. 84 of 01.11.1972)	A	5
	Popis vynálezu k autorskému osvědčeni	Description of an invention for an author's certificate	Inventor's certificate published in the sense of paragraph 6(ii), granted in accordance with Law No. 84 of 01.11.1972	B	1
	Popis vynálezu k patentu	Description of an invention for a patent	Patent published in the sense of paragraph 6(ii), granted in accordance with Law No. 84 of 01.11.1972	B	2
	Popis vynálezu k autorskému osvědčeni	Description of an invention for an author's certificate	Dependant author's certificate published in the sense of paragraph 6(ii), granted in accordance with Law No. 84 of 01.11.1972	B	3
	Popis vynálezu k patentu	Description of an invention for a patent	Dependent patent published in the sense of paragraph 6(ii), granted in accordance with Law No. 84 of 01.11.1972	B	4
	Patentový spis	Patent specification	Patent published in the sense of paragraph 6(ii), up to No. 149 260, granted before the entry into force of Law No. 84 of 01.11.1972	B	5
Denmark	Almindeling tilgaengelig patentansøgning	Patent application accessible to the public	Patent application published in the sense of paragraph 6(i)	A	
	Fremlaeggelsesskrift	Document laid open	Patent application published after examination as to novelty in the sense of paragraph 6(ii)	B	

Annex C, page 9

Issuing country	Kind of published patent document			Letter code	Associated numerical code (when defined)
	Designation in language of issuing country (and, if required, transliteration in Latin characters)	Translation into English (when needed)	Identification of document		
Denmark (cont'd)	Patent	Patent	Patent published in the sense of paragraph 6(ii)	C	
Egypt	إدارة براءات الاختراع (Idarat bara'at alikhtirah)	Authority for Patent Delivery	Patent published in the sense of paragraph 6(ii)	A	
Finland	Julkiseksi tullut patenttihakemus (not marked on the document)	Patent application made accessible to the public	Patent application published in the sense of paragraph 6(i)	A	
	Kuulutusjulkaisu – Utläggningsskrift	Document laid open	Patent application published after examination as to novelty in the sense of paragraphs 6(i) and 6(ii)	B	
	Patentti-Patent	Patent	Patent published in the sense of paragraph 6(ii)	C	
France	Demande de brevet d'invention	Application for patent of invention	Patent application, first publication, published in the sense of paragraph 6(ii)	A	1
	Demande de certificat d'addition à un brevet d'invention	Application for a certificate of addition to a patent of invention	Application for a certificate of addition, first publication, published in the sense of paragraph 6(ii)	A	2
	Demande de certificat d'utilité	Application for certificate of utility	Utility certificate application, first publication, published in the sense of paragraph 6(ii)	A	3
	Demande de certificat d'addition à un certificat d'utilité	Application for a certificate of addition to a certificate of utility	Application for a certificate of addition to a utility certificate, first publication, published in the sense of paragraph 6(ii)	A	4
	Brevet d'invention	Patent of invention	Patent, first and only publication, published in the sense of paragraph 6(ii)	A	5
	Certificat d'addition à un brevet d'invention	Certificate of addition to a patent of invention	Certificate of addition to a patent, first and only publication, published in the sense of paragraph 6(ii)	A	6
	Certificat d'utilité	Certificate of utility	Utility certificate, first and only publication, published in the sense of paragraph 6(ii)	A	7

Annex C, page 10

Issuing country	Kind of published patent document			Letter code	Associated numerical code (when defined)
	Designation in language of issuing country (and, if required, transliteration in Latin characters)	Translation into English (when needed)	Identification of document		
France (cont'd)	Certificat d'addition à un certificat d'utilité	Certificate of addition to a certificate of utility	Certificate of addition to a utility certificate, first and only publication, published in the sense of paragraph 6(ii)	A	8
	Brevet d'invention	Patent of invention	Patent, second publication, published in the sense of paragraph 6(ii)	B	1
	Certificat d'addition à un brevet d'invention	Certificate of addition to a patent of invention	Certificate of addition to a patent, second publication, published in the sense of paragraph 6(ii)	B	2
	Certificat d'utilité	Certificate of utility	Utility certificate, second publication, published in the sense of paragraph 6(ii)	B	3
	Certificat d'addition à un certificat d'utilité	Certificate of addition to a certificate of utility	Certificate of addition to a utility certificate, second publication, published in the sense of paragraph 6(ii)	B	4
	Brevet d'invention	Patent of invention	Patent (old law) published in the sense of paragraph 6(ii)	A	
	Certificat d'addition à un brevet d'invention	Certificate of addition to a patent of invention	Certificate of addition to a patent (old law) published in the sense of paragraph 6(ii)	E	
	Brevet spécial de médicament	Special patent for medicament	Medicament patent (old law) published in the sense of paragraph 6(ii)	M	
	Certificat d'addition à un brevet spécial de médicament	Certificate of addition to a special patent for medicament	Certificate of addition to a medicament patent (old law) published in the sense of paragraph 6(ii)	M	
German Democratic Republic	Patentschrift (Ausschliessungs-patent)	Patent specification (Exclusive Patent)	Exclusive patent, granted in accordance with paragraph 5.1 of the Patent Amendment Act of the German Democratic Republic, published in the sense of paragraph 6(ii)	A	
	Patentschrift (Wirtschaftpatent)	Patent specification (Economic Patent)	Industrial patent, granted in accordance with paragraph 5.1 of the Patent Amendment Act of the German Democratic Republic, published in the sense of paragraph 6(ii)	A	

Annex C, page 11

Issuing country	Kind of published patent document			Letter code	Associated numerical code (when defined)
	Designation in language of issuing country (and, if required, transliteration in Latin characters)	Translation into English (when needed)	Identification of document		
German Democratic Republic (cont'd)	Patentschrift (Ausschliessungspatent)	Patent specification (Exclusive Patent)	Exclusive patent granted in accordance with paragraph 29 of the Patent Act of the German Democratic Republic, (2nd publication after examination as to novelty whenever this examination is effected), published in the sense of paragraph 6(ii)	B	
	Patentschrift (Wirtschaftspatent)	Patent specification (Economic Patent)	Industrial patent granted in accordance with paragraph 29 of the Patent Act of the German Democratic Republic (2nd publication after examination as to novelty whenever this examination is effected), published in the sense of paragraph 6(ii)	B	
	Berichtigte Patentschrift (Ausschliessungspatent)	Corrected patent specification (Exclusive Patent)	Corrected patent (Exclusive patent) published in the sense of paragraph 6(ii)	C	
	Berichtigte Patentschrift (Wirtschaftspatent)	Corrected patent specification (Economic Patent)	Corrected patent (Industrial patent) published in the sense of paragraph 6(ii)	C	
Germany (Federal Republic of)	Offenlegungsschrift	Document open for inspection	Patent application published, before examination as to novelty, in the sense of paragraph 6(ii)	A	
			– 1st publication	A	1
			– 2nd publication. Modified reprint following A1 Offenlegungsschrift or B1 Auslegeschrift	A	2
			– 3rd publication. Modified reprint following A2 Offenlegungsschrift or B2 Auslegeschrift	A	3
	Auslegeschrift	Document laid open	Patent application published, after examination as to novelty, in the sense of paragraph 6(ii)	B	
			– 1st publication. Offenlegungsschrift not yet published	B	1
			– 2nd publication. Normally following an A1 Offenlegungsschrift or B1 Auslegeschrift	B	2

[Annex D follows]

ANNEX D

Information from Pamphlet Front Page to be Included in the Gazette Under Rule 86.1(i)

The following information shall be extracted from the front page of the pamphlet of each published international application and shall, in accordance with Rule 86.1(i), appear in the corresponding entry of the Gazette:

1. as to the international publication:
   - 1.1 the international publication number
   - 1.2 the date of the international publication
   - 1.3 an indication whether the following items were published in the pamphlet:
     - 1.31 international search report
     - 1.32 declaration under Article 17(2)
     - 1.33 amended claims
     - 1.34 statement under Article 19(1)
     - 1.35 the essence of the comments by the applicant on the translation of the international application as referred to in Rule 48.3*(b)*
2. as to the international application:
   - 2.1 the title of the invention
   - 2.2 the symbol(s) of the International Patent Classification (IPC)
   - 2.3 the international application number
   - 2.4 the international filing date

3. as to any priority claim:
   - 3.1 the application number of the earlier application
   - 3.2 the date of the earlier application
   - 3.3 the country in or for which the earlier application was filed

4. as to the applicant, inventor and agent:
   - 4.1 their name(s)
   - 4.2 their mailing address(es)

5. as to the designated and elected States:
   - 5.1 their names
   - 5.2 the indication of any wish for a regional patent
   - 5.3 the indication of kind of protection sought, unless patent is sought.

[Annex E follows]

ANNEX E

Information to be Published in the Gazette
Under Rule 86.1(v)

1. The time limits applicable under Articles 22 and 39 in respect of each Contracting State.

2. The list of the non-patent literature agreed upon by the International Searching Authorities for inclusion in the minimum documentation.

3. The names of the national Offices which do not wish to receive copies under Article 13(2) *(c)*.

4. The provisions of the national laws of Contracting States concerning international-type search.

5. The text of the agreements entered into between the International Bureau and the International Searching Authorities or the International Preliminary Examining Authorities.

6. The names of the national Offices which entirely or in part waived their rights to any communication under Article 20.

7. The names of the Contracting States which are bound by Chapter II of the PCT.

8. Index of concordance of international application numbers and international publication numbers, listed according to international application numbers.

9. Index of international publication numbers grouped according to designated States, including an indication of those States for which a "regional patent" is sought.

10. Index of applicants' names giving, for each name, the corresponding international publication number(s).

11. Index of international publication numbers, grouped according to the International Patent Classification symbols.

12. Indication of any subject matter that will not be searched or examined by the various International Searching and Preliminary Examining Authorities under Rules 39 and 67.

[Annex F (Forms) follows]

ANNEX F

Forms

This Annex, which is the final Annex to the Administrative Instructions, contains the Forms referred to in Section 102 of the Administrative Instructions (Forms PCT/RO/101 to 132, PCT/ISA/201 to 228, PCT/IB/301 to 345 and PCT/IPEA/401 to 424).

In view of their special importance, Forms

PCT/RO/101	(Request and Fee Calculation Sheet)
PCT/ISA/210	(International Search Report)
PCT/IPEA/401	(Demand)
PCT/IPEA/409	(International Preliminary Examination Report)

have already been set up in type and appear at the beginning of Annex F and not in the place corresponding to their numerical order in the four different series of Forms.*

In order to facilitate familiarization with the different series of Forms, these series have been reproduced in the colors used previously, except for the four Forms set in type, mentioned above. However, there is no obligation on any International Authority to use any particular color for these Forms, nor any restriction as to the color it may use, except that the request must always be printed on white paper as prescribed by the Regulations.

* Having regard to the separate publication of Annex F mentioned in the footnote to Section 102 of the Administrative Instructions, only the four forms specified in this paragraph are reproduced in this publication.

INTERNATIONAL APPLICATION UNDER THE PATENT COOPERATION TREATY

REQUEST

THE UNDERSIGNED REQUESTS THAT THE PRESENT INTERNATIONAL APPLICATION BE PROCESSED ACCORDING TO THE PATENT COOPERATION TREATY

(The following is to be filled in by the receiving Office)
INTERNATIONAL APPLICATION No:

INTERNATIONAL FILING DATE:

(Stamp)
Name of receiving Office and "PCT International Application"

Applicant's or Agent's File Reference [9]
(indicated by applicant if desired).

I. **TITLE OF INVENTION** [1]

II. **APPLICANT** [2] Additional information is contained in supplemental box. ☐

Name [3, 5]

Address [4, 5] (including postal code and country)

Nationality [5, 6] (country) | Residence [5, 7] (country)

Telephone number (if any) [4] | Telegraphic address (if any) [4, 5] | Teleprinter address (if any) [4, 5]

III. **INVENTOR** [8] (Applicant is also the inventor ☐) Additional information is contained in supplemental box. ☐

Name [3, 5]

Address [4, 5] (including postal code and country)

IV. **AGENT OR COMMON REPRESENTATIVE (IF ANY)** [9] Additional information is contained in supplemental box. ☐

A. ☐ Applicant hereby appoints the following named agent or common representative to act on his behalf before the competent International Authorities. [9]

B. ☐ Applicant has appointed the following named agent or common representative in accompanying separate power of attorney. [9]

Name [3, 5]

Address [4, 5] (including postal code and country).

Telephone number (if any) [4] | Telegraphic address (if any) [4, 5] | Teleprinter address (if any) [4, 5]

V. **DESIGNATION OF STATES** [10] (and possible indication of wish to obtain regional patents) [11] (and possible choice of certain kinds of protection) [12] Additional information is contained in supplemental box. ☐

See notes on accompanying sheet

VI. **PRIORITY CLAIM (IF ANY)** [13] Additional information is contained in supplemental box. ☐

The priority of an earlier application is claimed (indicate following data):

Country (If the earlier application is regional or international application, indicate those countries for which it was filed).	Filing Date [14]
	Application Number [15]
	If a regional or international application, indicate the national Office or intergovernmental organization with which it was filed.

VII. **PARENT APPLICATION OR GRANT (IF ANY)** [16] Additional information is contained in supplemental box. ☐

Designated State	Type of Treatment Desired	Number and Title of the Parent Application or Grant	Filing Date of the Parent Application or Grant [14]

VIII. **EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH (IF ANY)** [17] Additional information is contained in supplemental box. ☐

An earlier ☐ international or ☐ international-type search has been requested on the following application

Receiving Office/Country	(International) Application No.	(International) Filing Date [14]

Date of Request for the Search where the Earlier Search was an International-Type Search [14]	Number given by the International Searching Authority to the Request for Search where the Earlier Search was an International-Type Search

IX. **DIFFERENT APPLICANTS FOR DIFFERENT (GROUPS OF) DESIGNATED STATES (WHERE APPLICABLE)** [18]
Additional information is contained in supplemental box. ☐

Designated States	Name of Applicant

X. **DIFFERENT INVENTORS FOR DIFFERENT (GROUPS OF) DESIGNATED STATES (WHERE APPLICABLE)** [19]
Additional information is contained in supplemental box. ☐

Designated States	Name of Inventor

See notes on accompanying sheet

SUPPLEMENTAL BOX... USE THIS BOX IF ANY OF THE BOXES IS NOT LARGE ENOUGH TO CONTAIN INFORMATION TO BE FURNISHED. INDICATE THE BOXES CONTINUED IN THIS BOX BY THEIR (ROMAN) NUMERALS AND TITLE (e.g.: "II. APPLICANT (CONTINUED)")

XI. **SIGNATURE OF APPLICANT** [20]

XII. **CHECK LIST** (To be filled in by the Applicant) [21]

A. This international application contains the following number of sheets:

1. request	.....	sheets
2. description	.....	sheets
3. claims	.....	sheets
4. drawings	.....	sheets
5. abstract	.....	sheets
	Total	sheets

C. Figure number ..... of the drawings (if any) is suggested to accompany the abstract for publication.

D. Drawings (To be filled in by the receiving Office)
☐ No Drawings [22]

B. This international application as filed is accompanied by the items checked below:

1. ☐ separate signed power of attorney
2. ☐ priority document
3. ☐ receipt (e.g. revenue stamps) for the fees paid
4. ☐ cheque for the payment of fees
5. ☐ international search report
6. ☐ international-type search report
7. ☐ document in evidence of fact that applicant is successor in title of inventor
8. ☐ other document (specify)

(The following is to be filled in by the receiving Office)

1. Date of actual receipt of the purported international application:

2. Corrected date of actual receipt due to later but timely received papers or drawings completing the purported international application:

3. Date of timely receipt of the required corrections under Article 11 of the PCT:

(The following is to be filled in by the International Bureau)

Date of receipt of the record copy:

See notes on accompanying sheet

These Notes are intended to facilitate the filling in of the present form. For full information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. "Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

1 Title of Invention (Rule 4.1 *(a)* (ii))

"The title of the invention shall be short (preferably from two to seven words when in English or translated into English) and precise." **(Rule 4.3)**

2 Applicant (Rule 4.1 *(a)* (iii))

"The request shall indicate the name, address, nationality and residence of the applicant or, if there are several applicants, of each of them." **(Rule 4.5 (a))**

"Where any international application indicates as applicants several persons, it shall be sufficient, for the purpose of identifying that application, to indicate, in any Form or correspondence relating to such application, the name of the applicant first named in the request." **(Section 105)**

See also box IX of the present form.

Note: When the United States of America is designated, at least one of the applicants must be the inventor.

3 "Names of natural persons shall be indicated by the person's family name and given name(s), the family name being indicated before the given name(s)." **(Rule 4.4 (a))**

"Names of legal entities shall be indicated by their full, official designations." **(Rule 4.4 (b))**

4 "Addresses shall be indicated in such a way as to satisfy the customary requirements for prompt postal delivery at the indicated address and, in any case, shall consist of all the relevant administrative units up to, and including, the house number, if any. Where the national law of the designated State does not require the indication of the house number, failure to indicate such number shall have no effect in that State. It is recommended to indicate any telegraphic and teleprinter address and telephone number." **(Rule 4.4 (c))**

"For each applicant, inventor, or agent, only one address may be indicated." **(Rule 4.4 (d))**

5 "Where any name or address is written in characters other than those of the Latin alphabet, the same shall also be indicated in characters of the Latin alphabet either as a mere transliteration or through translation into English. The applicant shall decide which words will be merely transliterated and which words will be so translated." **(Rule 4.16 (a))**

"The name of any country written in characters other than those of the Latin alphabet shall also be indicated in English." **(Rule 4.16 (b))**

6 "The applicant's nationality shall be indicated by the name of the State of which he is a national." **(Rule 4.5 (b))**

See Section 201 in Note **10** below.

7 "The applicant's residence shall be indicated by the name of the State of which he is resident." **(Rule 4.5 (c))**

See Section 201 in Note **10** below.

8 Inventor (Articles 4 (1) *(v)* and 22 (1), Rules 4.1 *(a)* *(v)* and 4.6 *(a)*)

"The request shall contain: the name of and other prescribed data concerning the inventor where the national law of at least one of the designated States requires that these indications be furnished at the time of filing a national application. . . **(Article 4 (1) (v))**

"The applicant shall furnish a copy of the international application (unless the communication provided for in Article 20 has already taken place) and a translation thereof (as prescribed), and pay the national fee (if any), to each designated Office not later than at the expiration of 20 months from the priority date. Where the national law of the designated State requires the indication of the name of and other prescribed data concerning the inventor but allows that these indications be furnished at a time later than that of the filing of a national application, the applicant shall, unless they were contained in the request, furnish the said indications to the national Office of or acting for that State not later than at the expiration of 20 months from the priority date." **(Article 22 (1))**

"If the applicant is the inventor, the request, ...shall contain a statement to that effect or shall repeat the applicant's name in the space reserved for indicating the inventor." **(Rule 4.6 (b))**

See also box **X** of the present form.

9 Agent or Common Representative (Article 49, Rules 2.2, 4.1 *(a)* (iii), 4.7 and 4.8)

"Any attorney, patent agent, or other person, having the right to practice before the national Office with which the international application was filed, shall be entitled to practice before the International Bureau and the competent International Searching Authority and competent International Preliminary Examining Authority in respect of that application." **(Article 49)**

"Whenever the word "agent" is used, it shall be construed as meaning any person who has the right to practice before international authorities as defined in Article 49 and, unless the contrary clearly follows from the wording or the nature of the provision, or the context in which the word is used, also the common representative referred to in Rule 4.8." **(Rule 2.2)**

"If agents are designated, the request shall so indicate, and shall state their names and addresses." **(Rule 4.7)**

"If there is more than one applicant and the request does not refer to an agent representing all the applicants ("a common agent"), the request shall designate one of the applicants who is entitled to file an international application according to Article 9 as their common representative." **(Rule 4.8 (a))**

"If there is more than one applicant and the request does not refer to an agent representing all the applicants and it does not comply with the requirement of designating one of the applicants as provided in paragraph *(a)*, the applicant first named in the request who is entitled to file an international application according to Article 9 shall be considered the common representative." **(Rule 4.8 (b))**

"Appointment of any agent or of any common representative within the meaning of Rule 4.8 *(a)*, if the said agent or common representative is not designated in the request signed by all applicants, shall be effected in a separate signed power of attorney (i.e., a document appointing an agent or a common representative)." **(Rule 90.3 (a))**

"The power of attorney may be submitted to the receiving Office or the International Bureau. Whichever of the two is the recipient of the power of attorney submitted shall immediately notify the other and the interested International Searching Authority and the interested International Preliminary Examining Authority." **(Rule 90.3 (b))**

"If the separate power of attorney is not signed as provided in paragraph *(a)*, or if the required separate power of attorney is missing, or if the indication of the name or address of the appointed person does not comply with Rule 4.4, the power of attorney shall be considered non-existent unless the defect is corrected." **(Rule 90.3 (c))**

As for indications of names and addresses see Notes **3** and **4**.

"'International Authorities' means the receiving Offices, the International Searching Authorities, the International Preliminary Examining Authorities, and the International Bureau." **(Section 101 (vi))**

"Any correspondence from an International Authority intended for the applicant, or, in the case of several applicants, the applicants, shall be addressed as follows:"

"Where the applicant has designated or appointed one agent, correspondence shall be addressed to that agent. Where, in the case of several applicants, the applicants are represented by a common representative or a common agent, correspondence shall be addressed to that representative or that agent." **(Section 108 (a) (i))**

"Where the applicant has designated several agents in the request, correspondence shall be addressed to the agent first mentioned therein. Where, in the case of several applicants, the applicants have designated several common agents in the request, correspondence shall be addressed to the common agent first mentioned therein." **(Section 108 (a) (ii))**

"Where the applicant has appointed several agents in one or more separate powers of attorney, correspondence shall be addressed to the agent first mentioned in the earliest filed and still valid separate power of attorney. Where, in the case of several applicants, the applicants have appointed several common agents in one or more separate powers of attorney, correspondence shall be addressed to the common agent first mentioned in the earliest filed and still valid separate power of attorney." **(Section 108 (a) (iii))**

"Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request form, provided this reference does not exceed ten characters **(Section 108 (b))**

"In the case of several applicants, any agent designated under Rule 4.7 in the request signed by all the applicants, or appointed under Rule 90.3 in a separate power of attorney signed by all the applicants, shall be considered a common agent." **(Section 106)**

"If there are several agents appointed by the same applicant or applicants, any act by or in relation to any of the several agents shall have the effect of an act by or in relation to the said applicant or applicants." **(Rule 90.2 (c))**

"If the applicants designate a common representative in accordance with Rule 4.8 *(a)*, such common representative shall be indicated on the front page of the request form. The indication of the common representative shall take the form of a statement designating the named applicant to act as the common representative on behalf of all the applicants." **(Section 206)**

10 Designation of States (Rule 4.1 *(a)* (iv))

"Contracting States shall be designated in the request by their names." **(Rule 4.9)**

"The name of any State referred to in the request shall be indicated either by the full name of the State or by a generally accepted short title which, if the indications are in English or French, shall be as appears in *Annex A*. The receiving Office, or the International Bureau where the receiving Office fails to do so, shall insert, in the appropriate space provided for in the request form, the two-letter country code as appears in *Annex B* (for example, where France is the third designated State in Box V of the request form, "FR 3. France" or "FR 3. French Republic")." **(Section 201 (a))**

"The receiving Office shall cancel *ex-officio* the designation of States other than Contracting States, and inform the applicant promptly of such action." **(Section 201 (b))**

"If the applicant specifies the States to which he wishes any amount paid to be applied as designation fee, the amount shall be applied

accordingly to the number of States which are covered by the amount in the order specified by the applicant." **(Rule 15.5 (a))**
"If the applicant does not specify any such wish and if the amount or amounts received by the receiving Office are higher than the basic fee and one designation fee but lower than what is due according to the number of the designated States, any amount in excess of the basic fee and one designation fee shall be treated as designation fees for the States following the State first named in the request and in the order in which the States are designated in the request up to and including that designated State for which the total amount of the designation fee is covered by the amount or amounts received." **(Rule 15.5 (b))**
"The designation fee for the first mentioned State belonging to a group of States for which the same regional patent is sought and which is specified under paragraph *(a)* or which is reached under paragraph *(b)* shall, for the purposes of the said paragraphs, be considered as covering also the other States of the said group." **(Rule 15.5 (c))**

11 "The request shall, where applicable, contain: ...(iv) an indication that the applicant wishes to obtain a regional patent and the names of the designated States for which he wishes to obtain such a patent." **(Rule 4.1 (b) (iv))**
"Where the applicant wishes to obtain a regional patent in respect of any designated State, he shall make the indication in the request referred to in Rule 4.1 *(b)* (iv) by inserting the words "regional patent", or their equivalent in the language of the international application, immediately after the indication of the said State or, where an indication has been made under Section 202, after that indication, provided that:

(i) where Article 4 (1) (ii), third clause applies, and not all the States party to the regional treaty have been designated, the international application shall be treated as if all those States had been designated and as if the designations of all such States contained the said words, whether the said designations contained an indication of the wish to obtain a regional patent or, according to Article 4 (1) (ii), fourth clause, are to be treated as containing such indication;
(ii) where the national law of any designated State contains a provision as referred to in Article 45 (2), the International Bureau shall, according to Article 4 (1) (ii), fourth clause, treat the designation as if it contained the said words even where the applicant failed to indicate them."
(Section 203)

12 "In respect of any designated or elected State whose law provides for the grant of inventors' certificates, utility certificates, utility models, patents or certificates of addition, inventors' certificates of addition, or utility certificates of addition, the applicant may indicate, as prescribed in the Regulations, that his international application is for the grant, as far as that State is concerned, of an inventor's certificate, a utility certificate, or a utility model, rather than a patent, or that it is for the grant of a patent or certificate of addition, an inventor's certificate of addition, or a utility certificate of addition, and the ensuing effect shall be governed by the applicant's choice. For the purposes of this Article and any Rule thereunder, Article 2 (ii) shall not apply." **(Article 43)**
"If the applicant wishes his international application to be treated, in any designated State, as an application not for a patent but for the grant of any of the other kinds of protection specified in Article 43, he shall so indicate in the request. For the purposes of this paragraph, Article 2 (ii) shall not apply." **(Rule 4.12 (a))**
"Where the applicant wishes his application to be treated in any designated State as an application not for a patent but for the grant of another kind of protection referred to in Article 43, he shall make the indication in the request referred to in Rule 4.12 *(a)* by inserting the words "inventor's certificate", "utility certificate", "utility model", "patent of addition", "certificate of addition", "inventor's certificate of addition" or "utility certificate of addition", or their equivalent in the language of the international application, immediately after the indication of the said State." **(Section 202 (a))**
"In respect of any designated or elected State whose law permits an application, while being for the grant of a patent or one of the other kinds of protection referred to in Article 43, to be also for the grant of another of the said kinds of protection, the applicant may indicate, as prescribed in the Regulations, the two kinds of protection he is seeking, and the ensuing effect shall be governed by the applicant's indications. For the purposes of this Article, Article 2 (ii) shall not apply." **(Article 44)**
"Where the applicant is seeking two kinds of protection under Article 44, he shall make the indication in the request referred to in Rule 4.12 *(b)* by inserting, immediately after the indication of the said State and in the language of the international application, either

(i) any two of the following terms connected by the word "and": "patent", "inventor's certificate", "utility certificate", "utility model", "patent of addition", "certificate of addition", "inventor's certificate of addition", "utility certificate of addition"; or
(ii) any two of the terms indicated in (i), above, one of them preceded by the word "primarily" and the other by the word "subsidiarily"." **(Section 202 (b))**

13 **Priority Claim** (Rules 4.1 *(b)* (i) and 4.10)

14 "Any date in the international application, or used in any correspondence emanating from International Authorities relating to the international application, shall be indicated by the Arabic number of the day, by the name of the month, and by the Arabic number of the year. The receiving Office, where the applicant has not done so, or the International Bureau, where the applicant has not done so and the receiving Office fails to do so, shall, after or below any date indicated by the applicant in the request, repeat the date, in parenthesis, by indicating it by two-digit Arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, in that order and with a period after the digit pairs of the day and of the month (for example, "30 March 1978 (30.03.78)")." **(Section 110)**

15 "If the application number of the earlier application is not indicated in the request but is furnished by the applicant to the International Bureau prior to the expiration of the 16th month from the priority date, it shall be considered by all designated States to have been furnished in time. If it is furnished after the expiration of that time limit, the International Bureau shall inform the applicant and the designated Offices of the date on which the said number was furnished to it. ..." **(Rule 4.10 (c))**

16 **Parent Application or Grant** (Rule 4.1 *(b)* (v))
"If the applicant wishes his international application to be treated, in any designated State, as an application for a patent or certificate of addition, inventor's certificate of addition, or utility certificate of addition, he shall identify the parent application or the parent patent, parent inventor's certificate, or parent utility certificate to which the patent or certificate of addition, inventor's certificate of addition, or utility certificate of addition, if granted, relates. For the purposes of this paragraph, Article 2 (ii) shall not apply." **(Rule 4.13)**
"If the applicant wishes his international application to be treated, in any designated State, as an application for a continuation or a continuation-in-part of an earlier application, he shall so indicate in the request and shall identify the parent application involved." **(Rule 4.14)**

17 **Earlier International or International-Type Search** (Rule 4.1 *(b)* (ii))
"If an international or international-type search has been requested on an application under Article 15 (5), the request may state that fact and identify the application (or its translation, as the case may be) by country, date and number, and the request for the said search by date and, if available, number." **(Rule 4.11)**

18 **Different Applicants for Different (Groups of) Designated States** (Rule 18.4)
"The international application may indicate different applicants for the purposes of different designated States, provided that, in respect of each designated State, at least one of the applicants indicated for the purposes of that State is entitled to file an international application according to Article 9." **(Rule 18.4 (a))**

19 **Different Inventors for Different (Groups of) Designated States**
"The request may, for different designated States, indicate different persons as inventors where, in this respect, the requirements of the national laws of the designated States are not the same. In such a case, the request shall contain a separate statement for each designated State or group of States in which a particular person, or the same person, is to be considered the inventor, or in which particular persons, or the same persons, are to be considered the inventors." **(Rule 4.6 (c))**

20 **Signature**
The signature **(Rule 4.1 (d))** must be that of the applicant and if there are several applicants all must sign **(Rule 4.15)**; however, the signature may be that of the agent **(Rule 2.1)** where there is attached to this request a separate power of attorney appointing the agent. "Appointment of any agent or of any common representative within the meaning of Rule 4.8 *(a)*, if the said agent or common representative is not designated in the request signed by all applicants, shall be effected in a separate signed power of attorney (i.e., a document appointing an agent or a common representative)." **(Rule 90.3 (a))**

21 **Check List**
"*(a)* The printed form shall contain a list which, when filled in, will show:

(i) the total number of sheets constituting the international application and the number of the sheets of each element of the international application (request, description, claims, drawings, abstract);
(ii) whether or not the international application as filed is accompanied by a power of attorney (i.e., a document appointing an agent or a common representative), a priority document, a receipt for the fees paid or a check for the payment of the fees, an international or an international-type search report, a document in evidence of the fact that the applicant is the successor in title of the inventor, and any other document (to be specified in the check list);
(iii) the number of that figure of the drawings which the applicant suggests should accompany the abstract when the abstract is published on the front page of the pamphlet and in the Gazette; in exceptional cases, the applicant may suggest more than one figure.

(b) The list shall be filled in by the applicant, failing which the receiving Office shall fill it in and make the necessary annotations, except that the number referred to in paragraph *(a)* (iii) shall not be filled in by the receiving Office." **(Rule 3.3)**

22 **Missing Drawings** (Rule 26.6)
"*(a)* If, as provided in Article 14(2), the international application refers to drawings which in fact are not included in that application, the receiving Office shall so indicate in the said application." **(Rule 26.6 (a))**
"Where the international application refers to drawings which in fact are not included in that application, the receiving Office shall make the indication referred to in Rule 26.6 *(a)* by an appropriate marking of the request form." **(Section 310 (a))**

THIS SHEET IS NOT PART OF
THE INTERNATIONAL APPLICATION

This column for use by receiving Office

FEE CALCULATION SHEET [1]

I. **TRANSMITTAL FEE** [2] ..... | | T |

II. **SEARCH FEE** [3] ..... | | S |

III. **INTERNATIONAL FEE** [4]

BASIC FEE [5]

Indicate the number of SHEETS contained in the international application _____.

first 30 sheets ..... | | b_1 |

remaining _____ sheets _____ = | | b_2 |

Add amounts entered in boxes b_1 and b_2 and enter total in box B.
This figure is the amount of the BASIC FEE ..... | | B |

DESIGNATION FEES [6]

Indicate the number of DESIGNATED STATES
for which regional patents have not been sought _____ _____ = | | d_1 |

Indicate the number of GROUPS of designated
States for which regional patents have been sought _____ _____ = | | d_2 |

Add amounts entered in boxes d_1 an d_2 and enter total in box D.
This figure is the amount of the DESIGNATION FEES ..... | | D |

Add amounts entered in boxes B and D, and enter total in box I.
This figure is the amount of the INTERNATIONAL FEE ..... | | I |

IV. **TOTAL OF PRESCRIBED FEES:**

Add amounts entered in boxes T, S and I, and enter total in the total box. This
figure is the total amount of the PRESCRIBED FEES ..... | | TOTAL

THE APPLICANT MAY PAY THE PRESCRIBED FEES BY [CHEQUE, POSTAL MONEY ORDER, BANK DRAFT, CASH, REVENUE STAMPS, COUPONS, ETC.], PAYMENT SHOULD BE MADE IN THE PRESCRIBED CURRENCY TO THE [ACCOUNT OF, ACCOUNT INDICATED BELOW OF, ORDER OF] THE RECEIVING OFFICE

See notes on reverse side

NOTES TO FORM PCT/RO/101 (ANNEX)

1 The purpose of the fee calculation sheet is to aid the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing of the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

2 "Any receiving Office may require that the applicant pay a fee to it, for its own benefit, for receiving the international application, transmitting copies to the International Bureau and the competent International Searching Authority, and performing all the other tasks which it must perform in connection with the international application in its capacity of receiving Office ("transmittal fee")." **(Rule 14.1 (a))**

"The amount and the due date of the transmittal fee, if any, shall be fixed by the receiving Office." **(Rule 14.1 (b))**

3 "Each International Searching Authority may require that the applicant pay a fee ("search fee") for its own benefit for carrying out the international search and for performing all other tasks entrusted to International Searching Authorities by the Treaty and these Regulations." **(Rule 16.1 (a))**

"The search fee shall be collected by the receiving Office. It shall be payable in the currency prescribed by that Office, it being understood that, if that currency is not the same as the currency of the State in which the International Searching Authority is located, the search fee, when transferred by the receiving Office to that Authority, shall be freely convertible into the currency of the said State. As to the time of payment of the search fee, Rule 15.4 (*a*) shall apply." **(Rule 16.1 (b))**

4 "Each international application shall be subject to the payment of a fee for the benefit of the International Bureau ("international fee") consisting of:

(i) a "basic fee, " and
(ii) as many "designation fees" as there are States designated in the international application, provided that, where a regional patent is sought for certain designated States, only one designation fee shall be due for those States." **(Rule 15.1)**

"The international fee shall be payable in the currency prescribed by the receiving Office, it being understood that, when transferred by the receiving Office to the International Bureau, it shall be freely convertible into Swiss currency." **(Rule 15.3 (b))**

The amounts of the fees fixed in Rule 15.2 (see Notes 5 and 6 below) provide the basis on which the amounts of the fees in the prescribed currency (other than US dollars and Swiss francs) are fixed. (Decision on interpretation by PCT Assembly.) The amounts in the prescribed currency (other than US dollars and Swiss francs) may be ascertained from the receiving Office; they are also published in the PCT Gazette.

5 "The amount of the basic fee shall be:

(i) if the international application contains not more than 30 sheets: US$165.00 or 300 Swiss francs,
(ii) if the international application contains more than 30 sheets: US$165.00 or 300 Swiss francs plus US$3.00 or 6 Swiss francs per sheet in excess of 30 sheets." **(Rule 15.2 (a))**

6 "The amount of the designation fee for each designated State or each group of designated States for which the same regional patent is sought shall be: US$40.00 or 80 Swiss francs." **(Rule 15.2 (b))**

PATENT COOPERATION TREATY
INTERNATIONAL SEARCH REPORT

IDENTIFICATION OF INTERNATIONAL APPLICATION	Applicant's or Agent's File Reference [19]
International Application No. [1]	International Filing Date [1]
Receiving Office [1]	Priority Date Claimed [2]
Applicant [1]	

I. ☐ **CERTAIN CLAIMS WERE FOUND UNSEARCHABLE** [10] (Observations on supplemental sheet (2))

II. ☐ **UNITY OF INVENTION IS LACKING** [11] (Observations on supplemental sheet (2))

III. TITLE, ABSTRACT AND FIGURE OF DRAWING

1. The following indicated items are approved as submitted by the applicant: [6]

☐ Title. ☐ Abstract.

2. The texts established by this International Searching Authority of the following indicated items are set forth below:

☐ Title.

☐ Abstract.

☐ Text of the abstract continued on supplemental sheet (1)

3. ☐ This report is incomplete as far as the abstract is concerned as the time limit for comments by the applicant on the draft prepared by this International Searching Authority has not expired. [7]

4. The figure of the drawings indicated below is to be published with the abstract:

☐ Figure No._____as suggested by the applicant. [8]

Figure No _____because:

☐ applicant failed to suggest a figure. [9]

☐ this figure better characterizes the invention. [9]

See notes on accompanying sheet

FURTHER INFORMATION CONTINUED FROM THE FIRST SHEET
(Not for publication)

INTERNATIONAL SEARCH REPORT

International Application No

I. CLASSIFICATION OF SUBJECT MATTER (if several classification symbols apply, indicate all) [3]

According to International Patent Classification (IPC) or to both National Classification and IPC

II. FIELDS SEARCHED

Minimum Documentation Searched [4]

Classification System	Classification Symbols

Documentation Searched other than Minimum Documentation
to the Extent that such Documents are Included in the Fields Searched [5]

III. DOCUMENTS CONSIDERED TO BE RELEVANT [14]

Category *	Citation of Document, [16] with indication, where appropriate, of the relevant passages [17]	Relevant to Claim No. [18]

* Special categories of cited documents: [15]

"A" document defining the general state of the art

"E" earlier document but published on or after the international filing date

"L" document cited for special reason other than those referred to in the other categories

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but on or after the priority date claimed

"T" later document published on or after the international filing date or priority date and not in conflict with the application, but cited to understand the principle or theory underlying the invention

"X" document of particular relevance

IV. CERTIFICATION

Date of the Actual Completion of the International Search [2]	Date of Mailing of this International Search Report [2]
International Searching Authority [1]	Signature of Authorized Officer [20]

See notes on accompanying sheet

FURTHER INFORMATION CONTINUED FROM THE SECOND SHEET

V. ☐ **OBSERVATIONS WHERE CERTAIN CLAIMS WERE FOUND UNSEARCHABLE** [10]

This international search report has not been established in respect of certain claims under Article 17(2) (a) for the following reasons:

1. ☐ Claim numbers _____, because they relate to subject matter [12] not required to be searched by this Authority, namely:

2. ☐ Claim numbers _____, because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out [13], specifically:

VI. ☐ **OBSERVATIONS WHERE UNITY OF INVENTION IS LACKING** [11]

This International Searching Authority found multiple inventions in this international application as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims of the international application.

2. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims of the international application for which fees were paid, specifically claims:

3. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claim numbers:

Remark on Protest

☐ The additional search fees were accompanied by applicant's protest.

☐ No protest accompanied the payment of additional search fees.

See notes on accompanying sheet

NOTES TO FORM PCT/ISA/210

These Notes are intended to facilitate the use of the present form. For full information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. "Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

1 "The international search report shall identify the International Searching Authority which established it by indicating the name of such Authority, and the international application by indicating the international application number, the name of the applicant, the name of the receiving Office, and the international filing date." **(Rule 43.1)**

2 "The international search report shall be dated and shall indicate the date on which the international search was actually completed. It shall also indicate the filing date of any earlier application whose priority is claimed." **(Rule 43.2)**

3 "The international search report shall contain the classification of the subject matter at least according to the International Patent Classification." **(Rule 43.3 (a))**
"Such classification shall be effected by the International Searching Authority." **(Rule 43.3 (b))**
"Where the subject matter of the international application is such that classification thereof requires more than one classification symbol according to the principles to be followed in the application of the International Patent Classification to any given patent document, the international search report shall indicate all such symbols." **(Section 504 (a))**
"Where any national classification system is used, the international search report may indicate all the applicable classification symbols also according to that system." **(Section 504 (b))**
"Where the subject matter of the international application is classified both according to the International Patent Classification and to any national classification system, the international search report shall, wherever possible, indicate the corresponding symbols of both classifications opposite each other." **(Section 504 (c))**

4 "The international search report shall list the classification identification of the fields searched. If that identification is effected on the basis of a classification other than the International Patent Classification, the International Searching Authority shall publish the classification used." **(Rule 43.6 (a))**

5 "If the international search extended to patents, inventors' certificates, utility certificates, utility models, patents or certificates of addition, inventors' certificates of addition, utility certificates of addition, or published applications for any of those kinds of protection, of States, periods, or languages, not included in the minimum documentation as defined in Rule 34, the international search report shall, when practicable, identify the kinds of documents, the States, the periods, and the languages to which it extended. For the purposes of this paragraph, Article 2 (ii) shall not apply." **(Rule 43.6 (b))**

6 "Subject to paragraphs *(b)* and *(c)*, the international search report shall either state that the International Searching Authority approves the title and the abstract as submitted by the applicant or be accompanied by the text of the title and/or abstract as established by the International Searching Authority under Rules 37 and 38." **(Rule 44.2 (a))**

7 "If, at the time the international search is completed, the time limit allowed for the applicant to comment on any suggestion of the International Searching Authority in respect of the abstract has not expired, the international search report shall indicate that it is incomplete as far as the abstract is concerned". **(Rule 44.2 (b))**

8 The figure(s) suggested by the applicant is indicated in the check list of the request; see **Rule 3.3 (a) (iii)**.

9 "If the applicant fails to make the indication referred to in Rule 3.3 *(a)* (iii), or if the International Searching Authority finds that a figure or figures other than that figure or those figures suggested by the applicant would among all the figures of all the drawings, better characterize the invention, it shall indicate the figure or figures which it so considers. Publications by the International Bureau shall then use the figure or figures so indicated by the International Searching Authority. Otherwise, the figure or figures suggested by the applicant shall be used in the said publications." **(Rule 8.2)**

10 This part of the report is filled in only where Article 17 (2) *(b)* applies. (Where certain claims were not searched because of lack of unity of invention and non-payment of additional fees, part V—rather than this part—is filled in.) **Article 17 (2)** reads as follows:

"*(a)* If the International Searching Authority considers

(i) that the international application relates to a subject matter which the International Searching Authority is not required, under the Regulations, to search, and in the particular case decides not to search, or

(ii) that the description, the claims, or the drawings, fail to comply with the prescribed requirements to such an extent that a meaningful search could not be carried out,

the said Authority shall so declare and shall notify the applicant and he International Bureau that no international search report will be established.

"*(b)* If any of the situations referred to in subparagraph *(a)* is found to exist in connection with certain claims only, the international search report shall so indicate in respect of such claims, whereas, for the other claims, the said report shall be established as provided in Article 18."

11 This part of the report is filled in only where, in the course of the procedure preceding the issuance of this report the International Searching Authority, having found that the international application does not comply with the requirement of unity of invention, invites the applicant to pay additional fees. See **Article 17 (3) (a)** reading as follows:
"If the International Searching Authority considers that the international application does not comply with the requirement of unity of invention as set forth in the Regulations, it shall invite the applicant to pay additional fees. The International Searching Authority shall establish the international search report on those parts of the international application which relate to the invention first mentioned in the claims ("main invention") and, provided the required additional fees have been paid within the prescribed time limit, on those parts of the international application which relate to inventions in respect of which the said fees were paid."
"If the applicant paid additional fees for the international search, the international search report shall so indicate. Furthermore, where the international search was made on the main invention only (Article 17 (3) *(a)*), the international search report shall indicate what parts of the international application were and what parts were not searched." **(Rule 43.7)**

12 See **Article 17 (2) (a) (i)**, quoted in note **10**, above, and **Rule 39** reading as follows:
"No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs."

13 See **Article 17 (2) (a) (ii)**, quoted in note **10**, above.

14 "The objective of the international search is to discover relevant prior art." **(Article 15 (2))**
Rule 33.1, entitled "Relevant Prior Art for the International Search," reads as follows:
"*(a)* For the purposes of Article 15 (2), relevant prior art shall consist of everything which has been made available to the public anywhere in the world by means of written disclosure (including drawings and other illustrations) and which is capable of being of assistance in determining that the claimed invention is or is not new and that it does or does not involve an inventive step (i.e., that it is or is not obvious), provided that the making available to the public occurred prior to the international filing date.
"*(b)* When any written disclosure refers to an oral disclosure, use, exhibition, or other means whereby the contents of the written disclosure were made available to the public, and such making available to the public occurred on a date prior to the international filing date, the international search report shall separately mention that fact and the date on which it occurred if the making available to the public of the written disclosure occurred on a date posterior to the international filing date.
"*(c)* Any published application or any patent whose publication date is later but whose filing date, or, where applicable, claimed priority date, is earlier than the international filing date of the international application searched, and which would constitute relevant prior art for the purposes of Article 15 (2) had it been published prior to the international filing date, shall be specially mentioned in the international search report."

15 "Where any document cited in the international search report is of particular relevance, the special indication required by Rule 43.5 *(c)* shall consist of the letter "X" placed next to the citation of the said document." **(Section 505)**
"Where any document cited in the international search report refers to an oral disclosure, use, exhibition, or other means referred to in Rule 33.1 *(b)*, the separate indication required by that Rule shall

consist of the letter "O" placed next to the citation of the said document." (Section 507 (a))

"Where any document cited in the international search report is a published application or patent as defined in Rule 33.1 *(c)*, the special mention required by that Rule shall consist of the letter "E" placed next to the citation of the said document." (Section 507 (b))

"Where any document cited in the international search report is a document which defines the general state of the art, it shall be indicated by the letter "A" placed next to the citation of the said document." (Section 507 (c))

"Where any document cited in the international search report is a document whose publication date occurred earlier than the international filing date of the international application, but later than the priority date claimed in that application, it shall be indicated by the letter "P" next to the citation of the said document." (Section 507 (d))

"Where any document cited in the international search report is a document whose publication date occurred after the filing date or the priority date of the international application and is not in conflict with the said application, but is cited for the principle or theory underlying the invention, which may be useful for a better understanding of the invention, or is cited to show that the reasoning or the facts underlying the invention are incorrect, it shall be indicated by the letter «T» next to the citation of the document." (Section 507 (e))

"Where in the international search report any document is cited for reasons other than those referred to in the preceding paragraphs, such document shall be indicated by the letter «L» next to the citation of the document." (Section 507 (f))

16 "The international search report shall contain the citations of the documents considered to be relevant." (Rule 43.5 (a))

"Identification of any document cited in the international search report referred to in Rule 43.5 *(b)* shall be made by indicating the following elements in the order in which they are listed:

(a) *In the case of any patent document* (patent documents being patents within the meaning of Article 2 (ii) as well as published applications relating thereto):

(i) the Office that issued the document, by the two-letter code as in *Annex B*;

(ii) the kind of document, by the appropriate symbols as in *Annex C*;

(iii) the number of the document as given to it by the Office that issued it; (for Japanese patent documents the indication of the year of the reign of the Emperor must precede the serial number of the patent document);

(iv) the date of publication of the cited patent document as indicated thereon;

(v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings; and

(vi) the name of the patentee or applicant.

(The following example illustrates the citation of a patent document according to paragraph (a) above:

JA, B, 5014535, published 1975, May 28, see column 4, lines 3 to 27, NCR Corporation.)

(b) *In the case of any book or other separately issued publication*

(i) the name of the author;

(ii) the title (including, where applicable, the number of the edition and/or volume);

(iii) the year of publication (when this coincides with the year of the international application or of the priority claim, the International Searching Authority shall endeavour to determine the month and, if necessary, the day of publication and to indicate these data in the international search report);

(iv) the name of the publisher;

(v) as far as available, the place of publication (where only the location of the publisher appears on the book or other separately issued publication, then that location shall be indicated as the place of publication); and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a book or other separately issued publication according to paragraph (b) above:

H. Walton, 'Microwave Quantum Theory', Volume 2, published 1973, by Sweet and Maxwell (London), see pages 138 to 192, especially pages 146 to 148.)

(c) *In the case of any article published in a periodical or other serial publication:*

(i) the title of the periodical or other serial publication;

(ii) the number of the volume and the date of the issue in which the article appears;

(iii) as far as available, the place of publication (where only the location of the publisher appears in the periodical or other serial publication, then that location shall be indicated as the place of publication);

(iv) the author and the title of the article and the number of the page both on which the article starts and ends; and

(v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of an article published in a periodical or other serial publication according to paragraph (c) above:

IBM Technical Disclosure Bulletin, Volume 17, no. 5, issued 1974 October (Armonk, New York), J. G. Drop, 'Integrated Circuit Personalization at the Module Level', see pages 1344 to 1345.)

(d) *In the case of abstracts*

(i) the identification of the document containing the abstract in the manner set forth in paragraphs *(a)*, *(b)* and *(c)*, respectively, depending upon whether the abstract is contained in a patent document, in a book or other separately issued publication, or in an article published in a periodical or other serial publication;

(ii) in the case where the abstract is not published together with the full text document which served as its basis, the identification of both abstract and full text document on the basis of whatever bibliographic data may be available in respect thereto."

(The following example illustrates the citation of an abstract according to paragraph *(d)* (ii) above:

Chemical Abstracts, Volume 75, no. 20, issued 1971, November 15 (Colombus, Ohio, U.S.A.), D. I. Shetulov, 'Surface Effects During Metal Fatigue' see page 163, column 1, the abstract no. 120718k, Fiz.-Khim. Mekh. Mater. 1971,7(2), 7-11 (Russ).)" (Section 503)

17 "If only certain passages of the cited document are relevant or particularly relevant, they shall be identified, for example, by indicating the page, the column, or the lines, where the passage appears.» (Rule 43.5 (e))

18 "Citations which are not relevant to all the claims shall be cited in relation to the claim or claims to which they are relevant." (Rule 43.5 (d))

"The claims to which cited documents are relevant shall be indicated by placing in the appropriate column of the international search report:

(i) where the cited document is relevant to one claim, the number of that claim; for example, (2) or (17);

(ii) where the cited document is relevant to two or more claims numbered in consecutive order, the numbers of the first and last claims of the series connected by a hyphen; for example, (1-15) or (2-3);

(iii) where the cited document is relevant to two or more claims that are not numbered in consecutive order, the number of each claim placed in ascending order and separated by a comma or commas; for example, (1,6) or (1,7,10);

(iv) where the cited document is relevant to more than one series of claims under (ii) above, or to claims of both categories (ii) and (iii) above, the series or individual claim numbers and series placed in ascending order using commas to separate the several series, or to separate the numbers of individual claims and each series of claims; for example, (1-6, 9-10, 12-15) or (1, 3-4, 6, 9-11)." (Section 508)

19 "Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request form, provided this reference does not exceed ten characters." (Section 108 (b))

20 "The international search report shall be signed by an authorized officer of the International Searching Authority." (Rule 43.8)

PATENT COOPERATION TREATY

DEMAND [1]

UNDER ARTICLE 31 OF THE PATENT COOPERATION TREATY:

THE UNDERSIGNED REQUESTS THAT THE INTERNATIONAL APPLICATION SPECIFIED BELOW BE THE SUBJECT OF INTERNATIONAL PRELIMINARY EXAMINATION ACCORDING TO THE PATENT COOPERATION TREATY

I. IDENTIFICATION OF THE INTERNATIONAL APPLICATION [2]

Applicant's or Agent's File Reference [3] (indicated by applicant if desired):

International Application No.	International Filing Date	Receiving Office

Title of Invention

II. APPLICANT [4] Additional applicants are indicated on supplemental sheet ☐

Name

Address (including postal code and country)

Nationality (country)	Residence (country)

Telephone number (if any)	Telegraphic address (if any)	Teleprinter address (if any)

III. AGENT OR COMMON REPRESENTATIVE (IF ANY) [5] Additional agents are indicated on supplemental sheet. ☐

A. ☐ Applicant hereby appoints the following named agent or common representative to act on his behalf for the purposes of international preliminary examination. [5]

B. ☐ Applicant has appointed the following named agent or common representative in an accompanying separate power of attorney. [5]

Name

Address (including postal code and country)

Telephone number (if any)	Telegraphic address (if any)	Teleprinter address (if any)

IV. ELECTION OF STATES [6]

V. SIGNATURE OF APPLICANT [7]

(The following is to be filled in by the International Preliminary Examining Authority.)

1. Actual date of receipt of DEMAND

2. Adjusted date of receipt of DEMAND due to the following: (the later of the two dates being applicable where both are indicated.)

   a. ☐ date of timely receipt of HANDLING FEE

   b. ☐ date of timely receipt of proper CORRECTIONS to the DEMAND

See notes on accompanying sheet

USE THIS SHEET IF ANY OF THE BOXES IS NOT LARGE ENOUGH TO CONTAIN INFORMATION TO BE FURNISHED. INDICATE THE BOXES CONTINUED ON THIS SHEET BY THEIR (ROMAN) NUMERALS AND TITLE (e.g.: "II. APPLICANT (CONTINUED)")

NOTES TO FORM PCT/IPEA/401

These Notes are intended to facilitate the filling in of the present form. For full information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In the case of discrepancy between these Notes and the said texts, the latter are applicable. "Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations, and "Section" refers to Sections of the Administrative Instructions.

Demand

1 **Rule 53** entitled «The Demand» reads as follows:

"53.1 Form

(a) The demand shall be made on a printed form.

(b) Copies of printed forms shall be furnished free of charge by the receiving Offices to the applicants.

(c) The particulars of the forms shall be prescribed by the Administrative Instructions.

(d) The demand shall be submitted in two identical copies."

"53.2 Contents

(a) The demand shall contain:
(i) a petition,
(ii) indications concerning the applicant and the agent if there is an agent,
(iii) indications concerning the international application to which it relates,
(iv) election of States.

(b) The demand shall be signed."

"53.3 The Petition

The petition shall be to the following effect and shall preferably be worded as follows: "Demand under Article 31 of the Patent Cooperation Treaty: The undersigned requests that the international application specified below be the subject of international preliminary examination according to the Patent Cooperation Treaty."

"53.4 The Applicant

As to the indications concerning the applicant, Rules 4.4 and 4.16 shall apply, and Rule 4.5 shall apply *mutatis mutandis*."

"53.5 The Agent

If an agent is designated, Rules 4.4, 4.7, and 4.16 shall apply, and Rule 4.8 shall apply *mutatis mutandis*."

"53.6 Identification of the International Application

The international application shall be identified by the name of the receiving Office with which the international application was filed, the name and address of the applicant, the title of the invention, and, where the international filing date and the international application number are known to the applicant, that date and that number."

"53.7 Election of States

The demand shall name, among the designated States, at least one Contracting State bound by Chapter II of the Treaty as elected State."

"53.8 Signature

The demand shall be signed by the applicant."

All information introduced into the DEMAND form should, to whatever extent possible, follow the presentation both as to form and substance, of the same information as it appears in the REQUEST form.

Identification of International Application

2 See **Rules 53.2 (a) (iii)** and **53.6** quoted in the preceding note.

3 "Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request form, provided this reference does not exceed ten characters." **(Section 108 (b))**

Applicant

4 See Rule 53.2 *(a)* (ii) and 53.4 quoted in note **1** above.

"Names of natural persons shall be indicated by the person's family name and given name(s), the family name being indicated before the given name(s)." **(Rule 4.4 (a))**

"Names of legal entities shall be indicated by their full, official designations." **(Rule 4.4 (b))**

"Addresses shall be indicated in such a way as to satisfy the customary requirements for prompt postal delivery at the indicated address and, in any case, shall consist of all the relevant administrative units up to, and including, the house number, if any. Where the national law of the designated States does not require the indication of the house number, failure to indicate such number shall have no effect in that State. It is recommended to indicate any telegraphic and teleprinter address and telephone number." **(Rule 4.4 (c))**

"For each applicant, inventor, or agent, only one address may be indicated." **(Rule 4.4 (d))**

"Where any name or address is written in characters other than those of the Latin alphabet, the same shall also be indicated in characters of the Latin alphabet either as a mere transliteration or through translation into English. The applicant shall decide which words will be merely transliterated and which words will be so translated." **(Rule 4.16 (a))**

"The name of any country written in characters other than those of the Latin alphabet shall also be indicated in English." **(Rule 4.16 (b))**

"The request shall indicate the name, address, nationality and residence of the applicant or, if there are several applicants, of each of them." **(Rule 4.5 (a))**

"The applicant's nationality shall be indicated by the name of the State of which he is a national." **(Rule 4.5 (b))**

"The applicant's residence shall be indicated by the name of the State of which he is a resident." **(Rule 4.5 (c))**

"The name of any State referred to in the request shall be indicated either by the full name of the State or by a generally accepted short title which, if the indications are in English or French, shall be as appearing in *Annex A*. The receiving Office, or the International Bureau where the receiving Office fails to do so, shall insert, in the appropriate space provided for in the request form, the two-letter country code as appearing in *Annex B* (for example, where France is the third designated State in Box V of the request Form, «FR 3. France» or «FR 3. French Republic»)." **(Section 201 (a))**

Agent or Common Representative

5 "Any attorney, patent agent, or other person, having the right to practice before the national Office with which the international application was filed, shall be entitled to practice before the International Bureau and the competent International Searching Authority and competent International Preliminary Examining Authority in respect of that application." **(Article 49)**

"Whenever the word «agent» is used, it shall be construed as meaning any person who has the right to practice before international authorities as defined in Article 49 and, unless the contrary clearly follows from the wording or the nature of the provision, or the context in which the word is used, also the common representative referred to in Rule 4.8." **(Rule 2.2)**

"If there is more than one applicant and the request does not refer to an agent representing all the applicants ("a common agent"), the request shall designate one of the applicants who is entitled to file an international application according to Article 9 as their common representative." **(Rule 4.8 (a))**

"If there is more than one applicant and the request does not refer to an agent representing all the applicants and it does not comply with the requirement of designating one of the applicants as provided in paragraph *(a)*, the applicant first named in the request who is entitled to file an international application according to Article 9 shall be considered the common representative." **(Rule 4.8 (b))**

See Rules **53.2 (a) (ii)** and **53.5** quoted in note **1** above. Also see Rules **4.4, 4.8** and **4.16** quoted in notes 4 and 5 above.

"In the case of several applicants, any agent designated under Rule 4.7 in the request signed by all the applicants, or appointed under Rule 90.3 in a separate power of attorney signed by all the applicants, shall be considered a common agent." **(Section 106)**

"If the applicants designate a common representative in accordance with Rule 4.8 *(a)*, such common representative shall be indicated on the front page of the request form. The indication of the common representative shall take the form of a statement designating the named applicant to act as the common representative on behalf of all the applicants." **(Section 206)**

"If agents are designated, the request shall so indicate, and shall state their names and addresses." **(Rule 4.7)**

Election of States

6 See **Rules 53.2 (a) (iv)** and **53.7** quoted in note **1** above.

Signature

7 See **Rules 53.2 (b)** and **53.8** quoted in note **1** above.

PATENT COOPERATION TREATY
INTERNATIONAL PRELIMINARY EXAMINATION REPORT

IDENTIFICATION OF THE INTERNATIONAL APPLICATION	Applicant's or Agent's File Reference [2]
International Application No. [1]	International Filing Date [1]
Receiving Office [1]	Priority Date Claimed
Applicant (Name) [1]	

BASIS OF REPORT

1. AMENDMENTS AND/OR CORRECTIONS [3] — The amendments and/or corrections made before this International Preliminary Examining Authority in respect of the claims, the description, and/or drawings in the above-identified international application are annexed to this report.

a. ☐ This report has been established on the basis of the claims as amended on the following date (s). (specify)

b. ☐ This report has been established as if the following noted amendments and/or corrections have not been made, since, for the reasons indicated, they have been considered to go beyond the disclosure as filed. (specify)

2. PRIORITY [4]

a. This report has been established as if no priority has been claimed due to the failure to furnish within the prescribed time limit the requested:

☐ copy of the earlier application whose priority has been claimed.

☐ translation of the earlier application whose priority has been claimed.

b. ☐ This report has been established as if no priority has been claimed due to the fact that the priority claim has been found invalid.

Thus, for the purposes of this report, the international filing date indicated above is considered the relevant date.

3. ☐ UNITY OF INVENTION [5] — See the Supplemental Sheet for further details.

4. ☐ NON-ESTABLISHMENT OF REPORT ON QUESTIONS OF NOVELTY, INVENTIVE STEP OR INDUSTRIAL APPLICABILITY [6,7,8] — See the Supplemental Sheet for further details.

CLASSIFICATION OF SUBJECT MATTER (If several classification symbols apply, indicate all.) [9]

According to International Patent Classification (IPC) or to both National Classification and IPC

BASIS OF REPORT (Continued)

3. UNITY OF INVENTION [5] — The international application does not comply with the requirement of unity of invention.

a. In response to an invitation to restrict or pay additional fees the applicant has:

☐ restricted the claims.

☐ paid additional fees.

☐ paid additional fees under protest. Where requested by the applicant, the text of the protest together with the decision taken thereon are annexed to this report.

☐ neither restricted nor paid additional fees.

b. ☐ No invitation has been issued. The opinion of this International Preliminary Examining Authority is that the international application does not comply with the requirement of unity of invention for the following reasons. (specify)

c. Consequently, the following parts of the international application were the subject of international preliminary examination in establishing this report:

☐ all parts.

☐ the parts relating to the restricted claims, that is claims Nos. _____ .

☐ the parts relating to the main invention, that is claims Nos. _____ .

4. NON-ESTABLISHMENT OF REPORT ON QUESTIONS OF NOVELTY, INVENTIVE STEP OR INDUSTRIAL APPLICABILITY [6]

The questions of whether the claimed invention appears to be novel, to involve an inventive step or to be industrially applicable have not for the reasons indicated been gone into in respect of:

a. ☐ the entire international application

b. ☐ claims Nos. _____

for the following reasons:

☐ Said international application, or said claims Nos. _____ relate to the following subject matter which does not require an international preliminary examination. [7] (specify)

☐ The description, claims, or drawings (indicate particular elements) or said claims Nos. _____ are so unclear that no meaningful opinion could be formed. [8]

☐ The claims, or said claims Nos. _____ are so inadequately supported by the description that no meaningful opinion could be formed. [8]

See notes on accompanying sheet

STATEMENT AS TO CLAIMS MEETING CRITERIA OF NOVELTY (N), INVENTIVE STEP (IS) AND INDUSTRIAL APPLICABILITY (IA) [10] AND CITATIONS [11] AND EXPLANATIONS [12] SUPPORTING SUCH STATEMENT

CLAIM NUMBER	CRITERIA SATISFIED			STATEMENT	CITATIONS AND EXPLANATIONS
	(N)	(IS)	(IA)		

See notes on accompanying sheet

NON-WRITTEN DISCLOSURES [13]

Kind of Non-Written Disclosure	Date of Written Disclosure referring to the Non-Written Disclosure	Date of Non-Written Disclosure

CERTAIN PUBLISHED DOCUMENTS [14]

Application/Patent	Date of Publication	Filing Date	Priority Date (Valid Claim)

CERTAIN DEFECTS IN THE INTERNATIONAL APPLICATION [15]

The following defects in the form or contents of the international application have been noted.

CERTAIN OBSERVATIONS ON THE INTERNATIONAL APPLICATION [16]

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description have been noted.

NOTES TO FORM PCT/IPEA/409

These Notes are intended to facilitate the use of the present form. For full information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. "Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

1 "The report shall identify the International Preliminary Examining Authority which established it by indicating the name of such Authority, and the international application, by indicating the international application number, the name of the applicant, the name of the receiving Office, and the international filing date." **(Rule 70.3)**

2 "Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request form, provided this reference does not exceed ten characters". **(Section 108 (b))**

3 "If the claims have been amended, the report shall issue on the claims as amended." **(Rule 70.2 (a))**

"If the International Preliminary Examining Authority considers that any amendment goes beyond the disclosure in the international application as filed, the report shall be established as if such amendment had not been made, and the report shall so indicate. It shall also indicate the reasons why it considers that the amendment goes beyond the said disclosure." **(Rule 70.2 (c))**

"If, before the International Preliminary Examining Authority, amendments or corrections have been made, this fact shall be indicated in the report." **(Rule 70.11)**

"If the claims, the description, or the drawings, were amended or any part of the international application was corrected before the International Preliminary Examining Authority, each replacement sheet marked as provided in Rule 66.8 *(b)* shall be attached to the report as an annex thereto. Replacement sheets superseded by later replacement sheets shall not be attached. If the amendment is communicated in a letter, a copy of such letter shall also be annexed to the report." **(Rule 70.16)**

4 "If, pursuant to Rule 66.7 *(c)*, the report is established as if the priority had not been claimed, the report shall so indicate." **(Rule 70.2 (b))**

"If the International Preliminary Examining Authority needs a copy of the application whose priority is claimed in the international application, the International Bureau shall, on request, promptly furnish such copy, provided that, where the request is made before the International Bureau has received the priority document under Rule 17.1 *(a)*, the applicant shall furnish such copy to the International Bureau and directly to the International Preliminary Examining Authority." **(Rule 66.7 (a))**

"If the application whose priority is claimed is in a language other than the language or one of the languages of the International Preliminary Examining Authority, the applicant shall furnish, on invitation, a translation in the said language or one of the said languages." **(Rule 66.7 (b))**

"The copy to be furnished by the applicant under paragraph *(a)* and the translation referred to in paragraph *(b)* shall be furnished not later than by the expiration of 2 months from the date of the request or invitation. If they are not furnished within that time limit, the international preliminary examination report shall be established as if the priority had not been claimed." **(Rule 66.7 (c))**

See also **Rule 70.10** in note **14** below.

5 "If the applicant paid additional fees for the international preliminary examination, or if the international application or the international preliminary examination was restricted under Article 34 (3), the report shall so indicate. Furthermore, where the international preliminary examination was carried out on restricted claims (Article 34 (3) *(a)*), or on the main invention only (Article 34 (3) *(c)*), the report shall indicate what parts of the international application were and what parts were not the subject of international preliminary examination." **(Rule 70.13)**

Rule 68 entitled "Lack of Unity of Invention (International Preliminary Examination)" reads as follows:

"68.1 No Invitation to Restrict or Pay

Where the International Preliminary Examining Authority finds that the requirement of unity of invention is not complied with and chooses not to invite the applicant to restrict the claims or to pay additional fees, it shall establish the international preliminary examination report, subject to Article 34 (4) *(b)*, in respect of the entire international application, but shall indicate, in the said report, that, in its opinion, the requirement of unity of invention is not fulfilled and shall specify the reasons for which the international application is not considered as complying with the requirement of unity of invention."

"68.2 Invitation to Restrict or Pay

Where the International Preliminary Examining Authority finds that the requirement of unity of invention is not complied with and chooses to invite the applicant, at his option, to restrict the claims or to pay additional fees, it shall specify at least one possibility of restriction which, in the opinion of the International Preliminary Examining Authority, would be in compliance with the applicable requirement, and shall specify the amount of the additional fees and the reasons for which the international application is not considered as complying with the requirement of unity of invention. It shall, at the same time, fix a time limit, with regard to the circumstances of the case, for complying with the invitation; such time limit shall not be shorter than 1 month, and it shall not be longer than 2 months, from the date of the invitation."

"68.3 Additional Fees

(a) The amount of the additional fee due for international preliminary examination under Article 34 (3) *(a)* shall be determined by the competent International Preliminary Examining Authority.

(b) The additional fee due for international preliminary examination under Article 34 (3) *(a)* shall be payable direct to the International Preliminary Examining Authority.

(c) Any applicant may pay the additional fee under protest, that is, accompanied by a reasoned statement to the effect that the international application complies with the requirement of unity of invention or that the amount of the required additional fee is excessive. Such protest shall be examined by a three-member board or other special instance of the International Preliminary Examining Authority, or any competent higher authority, which, to the extent that it finds the protest justified, shall order the total or partial reimbursement to the applicant of the additional fee. On the request of the applicant, the text of both the protest and the decision thereon shall be notified to the elected Offices as an annex to the international preliminary examination report.

(d) The three-member board, special instance or competent higher authority, referred to in paragraph *(c)*, shall not comprise any person who made the decision which is the subject of the protest."

"68.4 Procedure in the Case of Insufficient Restriction of the Claims

If the applicant restricts the claims but not sufficiently to comply with the requirement of unity of invention, the International Preliminary Examining Authority shall proceed as provided in Article 34 (3) *(c)*."

"68.5 Main Invention

In case of doubt which invention is the main invention for the purposes of Article 34 (3) *(c)*, the invention first mentioned in the claims shall be considered the main invention."

6 "If the International Preliminary Examining Authority considers

(i) that the international application relates to a subject matter on which the International Preliminary Examining Authority is not required, under the Regulations, to carry out an international preliminary examination, and in the particular case decides not to carry out such examination, or

(ii) that the description, the claims, or the drawings, are so unclear, or the claims are so inadequately supported by the description, that no meaningful opinion can be formed on the novelty, inventive step (non-obviousness), or industrial applicability, of the claimed invention,

the said Authority shall not go into the questions referred to in Article 33 (1) and shall inform the applicant of this opinion and the reasons therefor." **(Article 34 (4) (a))**

"If any of the situations referred to in subparagraph *(a)* is found to exist in, or in connection with, certain claims only, the provisions of that subparagraph shall apply only to the said claims." **(Article 34 (4) (b))**

"If, at the time of establishing the international preliminary examination report, the International Preliminary Examining Authority considers that any of the situations referred to in Article 34 (4) *(a)* exists, that report shall state this opinion and the reasons therefor..." **(Article 35 (3) (a))**

"If a situation under Article 34 (4) *(b)* is found to exist, the international preliminary examination report shall, in relation to the claims in question, contain the statement as provided in subparagraph *(a)*, ..." **(Article 35 (3) (b))**

7 See **Article 34 (4) (a) (i)** and **34 (4) (b)** in the preceding note and **Rule 67** entitled "Subject Matter under Article 34 (4) *(a)* (i)" which reads as follows:

"67.1 Definition

No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

8 See **Article 34 (4) (a) (ii)** in note **6** above.

9 "The report shall repeat the classification given under Rule 43.3 [classification of the subject matter in the international search report] if the International Preliminary Examining Authority agrees with such classification." **(Rule 70.5 (a))**

"Otherwise, the International Preliminary Examining Authority shall indicate in the report the classification, at least according to the International Patent Classification, which it considers correct." **(Rule 70.5 (b))**

10 "The international preliminary examination report shall not contain any statement on the question whether the claimed invention is or seems to be patentable or unpatentable according to any national law. It shall state, subject to the provisions of para-

graph (3), in relation to each claim, whether the claim appears to satisfy the criteria of novelty, inventive step (non-obviousness), and industrial applicability, as defined for the purposes of the international preliminary examination in Article 33 (1) to (4). The statement shall be accompanied by the citation of the documents believed to support the stated conclusion with such explanations as the circumstances of the case may require. The statement shall also be accompanied by such other observations as the Regulations provide for." **(Article 35 (2))**

"The statement referred to in Article 35 (2) shall consist of the words "YES" or "NO," or their equivalent in the language of the report, or some appropriate sign provided for in the Administrative Instructions, and shall be accompanied by the citations, explanations and observations, if any, referred to in the last sentence of Article 35 (2)." **(Rule 70.6 (a))**

"If any of the three criteria referred to in Article 35 (2) (that is, novelty, inventive step (non-obviousness), industrial applicability) is not satisfied, the statement shall be negative. If, in such a case, any of the criteria, taken separately, is satisfied, the report shall specify the criterion or criteria so satisfied." **(Rule 70.6 (b))**

11 See **Article 35 (2)** in the preceding note.

"The report shall cite the documents considered to be relevant for supporting the statements made under Article 35 (2)." **(Rule 70.7 (a))**

"The provisions of Rule 43.5 *(b)* and *(e)* shall apply also to the report." **(Rule 70.7 (b))**

"The method of identifying any cited document shall be regulated by the Administrative Instructions." **(Rule 43.5 (b))**

"If only certain passages of the cited document are relevant or particularly relevant, they shall be identified, for example, by indicating the page, the column, or the lines, where the passage appears." **(Rule 43.5 (e))**

"Identification of any document cited in the international search report referred to in Rule 43.5 (b) shall be made by indicating the following elements in the order in which they are listed:

(a) *In the case of any patent document* (patent documents being patents within the meaning of Article 2 (ii) as well as published applications relating thereto):
  (i) the Office that issued the document, by the two-letter code as in *Annex B*;
  (ii) the kind of document, by the appropriate symbols as in *Annex C*;
  (iii) the number of the document as given to it by the Office that issued it (for Japanese patent documents the indication of the year of the reign of the Emperor must precede the serial number of the patent document;
  (iv) the date of publication of the cited patent document as indicated thereon;
  (v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings; and
  (vi) the name of the patentee or applicant.

(The following example illustrates the citation of a patent document according to paragraph (a) above:

JA, B, 5014535, published 1975, May 28, see column 4 lines 3 to 27, NCR Corporation.)

(b) *In the case of any book or other separately issued publication*
  (i) the name of the author;
  (ii) the title (including, where applicable, the number of the edition and/or volume);
  (iii) the year of publication (when this coincides with the year of the international application or of the priority claim, the International Searching Authority shall endeavour to determine the month and, if necessary, the day of publication and to indicate these data in the international search report);
  (iv) the name of the publisher;
  (v) as far as available, the place of publication (where only the location of the publisher appears on the book or other separately issued publication, then that location shall be indicated as the place of publication); and
  (vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a book or other separately issued publication according to paragraph (b) above:

H. Walton, 'Microwave Quantum Theory', Volume 2, published 1973, by Sweet and Maxwell (London), see pages 138 to 192, especially pages 146 to 148.)

(c) *In the case of any article published in a periodical or other serial publication:*
  (i) the title of the periodical or other serial publication;
  (ii) the number of the volume and the date of the issue in which the article appears;
  (iii) as far as available, the place of publication (where only the location of the publisher appears in the periodical or other serial publication, then that location shall be indicated as the place of publication);
  (iv) the author and the title of the article and the number of the page both on which the article starts and ends; and
  (v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of an article published in a periodical or other serial publication according to paragraph (c) above:

IBM Technical Disclosure Bulletin, Volume 17, no. 5, issued 1974 October (Armonk, New York), J. G. Drop, 'Integrated Circuit Personalization at the Module Level', see pages 1344 to 1345.)

(d) *In the case of abstracts*
  (i) the identification of the document containing the abstract in the manner set forth in paragraphs (a), (b) and (c), respectively, depending upon whether the abstract is contained in a patent document, in a book or other separately issued publication, or in an article published in a periodical or other serial publication;
  (ii) in the case where the abstract is not published together with the full text document which served as its basis, the identification of both abstract and full text document on the basis of whatever bibliographic data may be available in respect thereto."

(The following example illustrates the citation of an abstract according to paragraph (d) (ii) above:

Chemical Abstracts, Volume 75, no. 20, issued 1971, November 15 (Columbus, Ohio, U.S.A.), D. I. Shetulov, 'Surface Effects During Metal Fatigue', see page 163, column 1, the abstract no. 120718k, Fiz.-Khim. Mekh. Mater. 1971, 7 (2), 7-11 (Russ).)" **(Section 503)**

12 See **Article 35 (2)** in **note 10** above.

"The Administrative Instructions shall contain guidelines for cases in which the explanations referred to in Article 35 (2) should or should not be given and the form of such explanations. Such guidelines shall be based on the following principles:
  (i) explanations shall be given whenever the statement in relation to any claim is negative;
  (ii) explanations shall be given whenever the statement is positive unless the reason for citing any document is easy to imagine on the basis of consultation of the cited document;
  (iii) generally, explanations shall be given if the case provided for in the last sentence of Rule 70.6 *(b)* obtains." (Rule 70.8)

"Explanations under Rule 70.8 shall clearly point out to which of the three criteria referred to in Article 35 (2), taken separately, any cited document is applicable and shall clearly describe, with reference to the cited documents, the reasons supporting the conclusion that any of the said criteria is or is not satisfied." **(Section 604)**

13 "Any non-written disclosure referred to in the report by virtue of Rule 64.2 shall be mentioned by indicating its kind, the date on which the written disclosure referring to the non-written disclosure was made available to the public, and the date on which the non-written disclosure occurred in public." **(Rule 70.9)**

"In cases where the making available to the public occurred by means of an oral disclosure, use, exhibition or other non-written means ("non-written disclosure") before the relevant date as defined in Rule 64.1 *(b)* and the date of such non-written disclosure is indicated in a written disclosure which has been made available to the public after the relevant date, the non-written disclosure shall not be considered part of the prior art for the purposes of Article 33 (2) and (3). Nevertheless, the international preliminary examination report shall call attention to such non-written disclosure in the manner provided for in Rule 70.9." **(Rule 64.2)**

14 "Any published application or any patent referred to in the report by virtue of Rule 64.3 shall be mentioned as such and shall be accompanied by an indication of its date of publication, of its filing date, and its claimed priority date (if any). In respect of the priority date of any such document, the report may indicate that, in the opinion of the International Preliminary Examining Authority, such date has not been validly claimed." **(Rule 70.10)**

"In cases where any application or any patent which would constitute prior art for the purposes of Article 33 (2) and (3) had it been published prior to the relevant date referred to in Rule 64.1 was published, as such, after the relevant date but was filed earlier than the relevant date or claimed the priority of an earlier application which had been filed prior to the relevant date, such published application or patent shall not be considered part of the prior art for the purposes of Article 33 (2) and (3). Nevertheless, the international preliminary examination report shall call attention to such application or patent in the manner provided for in Rule 70.10." **(Rule 64.3)**

15 "If the International Preliminary Examining Authority considers that, at the time it prepares the report:
  (i) the international application contains any of the defects referred to in Rule 66.2 *(a)* (iii) [defect in the form or contents of the international application under the Treaty or the Regulations thereunder], it shall include this opinion and the reasons therefor in the report;
  (ii) the international application calls for any of the observations referred to in Rule 66.2 *(a)* (v) [observations on the clarity of the claims, the description, and the drawings or the question whether the claims are fully supported by the description], it may include this opinion in the report and, if it does, it shall also indicate in the report the reasons for such opinion." **(Rule 70.12)**

16 See **Rule 70.12 (ii)** in the preceding note.

17 "The report shall indicate:
  (i) the date on which the demand was submitted, and
  (ii) the date of the report; that date shall be the date on which the report is completed." **(Rule 70.4)**

18 See **Rule 70.4 (ii)** in the preceding note.

19 "The report shall be signed by an authorized officer of the International Preliminary Examining Authority." **(Rule 70.14)**

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

— the March 1978 editions of the *Guide* in English, French and German

— the Annexes dated April 28, 1978, in English and French.

The revised (May 1978) edition of the *Guide* will be issued towards the end of May. Requests* for the May 1978 edition may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

---

* Requests already made for the revised (May 1978) edition have been recorded and should not be repeated.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)
as of June 1, 1978**

	Date of Entry into Force of the PCT in respect of the State
Brazil	April 9, 1978
Cameroon	January 24, 1978
Central African Empire	January 24, 1978
Chad	January 24, 1978
Congo	January 24, 1978
France*	February 25, 1978

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

The following International Searching Authorities were appointed by the Assembly of the International Patent Cooperation (PCT) Union at its first (extraordinary) session held from April 10 to 14, 1978.

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	Languages of international applications accepted for search
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*. The Authority will not search prior art concerning computer programs. (See Article 7 of the Agreement, page 109 of the PCT Gazette).	English French German
Royal Patent and Registration Office (Sweden) (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. The Authority will search prior art concerning computer programs. (See Article 6 and Annex B of the Agreement, pages 118 and 123 of the PCT Gazette).	Danish English Finnish Icelandic Norwegian Swedish
The State Committee for Inventions and Discoveries of the USSR Council of Ministers (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*. The Authority will not search prior art concerning computer programs. (See Article 6 and Annex B of the Agreement, pages 131 and 136 of the PCT Gazette).	Russian English French German
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, pages 140 and 144 of the PCT Gazette).	English

* **Rule 39** entitled "Subject Matter under Article 17(2)(a)(i)" reads as follows:

"39.1 *Definition*

No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs."

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

The following International Preliminary Examining Authorities were appointed by the Assembly of the International Patent Cooperation (PCT) Union at its first (extraordinary) session held from April 10 to 14, 1978.

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO	Subject Matter that will not be Examined by the Authority	Languages of International applications or translations accepted for examination
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*. The Authority will not carry out international preliminary examination concerning computer programs. (See Article 7 of the Agreement, page 109 of the PCT Gazette).	English French German
Royal Patent and Registration Office (Sweden) (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. The Authority will carry out international preliminary examination concerning computer programs. (See Article 6 and Annex B of the Agreement, pages 118 and 123 of the PCT Gazette).	Danish English Finnish Icelandic Norwegian Swedish
The Patent Office (United Kingdom) (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*. (See Article 6 of the Agreement, page 126 of the PCT Gazette).	English (but only where it is the language of filing or publication)
The State Committee for Inventions and Discoveries of the USSR Council of Ministers (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*. The Authority will not carry out international preliminary examination concerning computer programs. (See Article 6 and Annex B of the Agreement, pages 131 and 136 of the PCT Gazette).	Russian English French German

* **Rule 67** entitled "Subject Matter under Article 34(4)(a)(i)" reads as follows:

"67.1 *Definition*

No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

AGREEMENTS BETWEEN THE INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES AND THE INTERNATIONAL BUREAU OF WIPO

Agreement between THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION AND THE EUROPEAN PATENT ORGANISATION in relation to the establishment and functioning of the European Patent Office as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

The INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION, hereinafter referred to as "the International Bureau"

and

the EUROPEAN PATENT ORGANISATION, hereinafter referred to as "the Organisation,"

CONSIDERING that the States party to the Patent Cooperation Treaty, done at Washington on June 19, 1970, constitute a Union for cooperation in the filing, searching, and examination of applications for the protection of inventions, and for rendering special technical services, the said Union being known as the International Patent Cooperation Union,

CONSIDERING that Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty provide, inter alia, that the appointment of an intergovernmental organization as an International Searching and International Preliminary Examining Authority by the Assembly of the International Patent Cooperation Union shall be subject to the conclusion of an Agreement between the intergovernmental organization and the International Bureau,

CONSIDERING that by virtue of Article 4 of the Convention of the Grant of European Patents, done at Munich on October 5, 1973, the European Patent Office has been constituted as an organ of the Organisation which is an intergovernmental organization established by the said Convention, and that, by virtue of the Protocol on Centralisation annexed to the said Convention, the International Patent Institute mentioned in Article 16 of the Patent Cooperation Treaty as a prospective International Searching Authority was integrated into the European Patent Office on January 1, 1978, which Office, on that date, assumed the tasks incumbent upon the said Institute,

CONSIDERING that Articles 154 and 155 of the said Convention provide, inter alia, that subject to the conclusion of an agreement between the Organisation and the International Bureau, the European Patent Office shall act as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty,

AND CONSIDERING that it is recognized that the participation of the European Patent Office as an International Searching and International Preliminary Examining Authority will contribute to the successful implementation of the Patent Cooperation Treaty,

HEREBY AGREE AS FOLLOWS:

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement, the "Treaty" means the Patent Cooperation Treaty done at Washington on June 19, 1970; the "Regulations" means the Regulations under the Treaty; the "Administrative Instructions" means the Administrative Instructions under the Treaty; "Article," except where otherwise specified, means an Article of the Treaty; "Rule" means a Rule of the Regulations; "Assembly" means the Assembly as defined in Article 2(xvii); "International Bureau" means the International Bureau as defined in Article 2(xix); "Contracting State" refers to a Contracting State to the Treaty; "Convention" means the Convention on the Grant of European Patents done at Munich on October 5, 1973 as well as the Implementing Regulations which are an integral part of the Convention; "Authority" means the European Patent Office established under Article 4 of the Convention; and "Administrative Council" means the Administrative Council of the Organisation.

(2) All other terms and expressions used in this Agreement and which are also used in the Treaty are to be understood in the same sense as that in which they are used in the Treaty.

Article 2

Basic Obligation

(1) The Authority shall, except in respect of subject matter which, pursuant to Article 7 of this Agreement, the Authority is not required to search or to examine, carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under, the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall apply the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty. The Authority undertakes to apply and observe all the common rules of international search and of international preliminary examination.

(2) The International Bureau and the Authority shall each render, to the extent possible, assistance to the other in relation to the performance of their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement.

Article 3

Competence of Authority

(1) Subject to paragraph (3), the Authority undertakes to act as an International Searching Authority for all international applications filed with the receiving Offices of, or acting for, all Contracting States provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) Subject to paragraph (3), the Authority undertakes to act as an International Preliminary Examining Authority for all international applications filed with the receiving Offices of, or acting for, all Contracting States provided the receiving Office specifies the Authority for that purpose. In respect of international applications filed in the languages specified in Annex A, the Authority shall carry out examination without requiring translations of such applications.

(3) Where the activities of the Authority under paragraphs (1) and (2), after approval of the Administrative Council, are extended

(a) to acting as an International Searching Authority in respect of an international application filed pursuant to a decision of the Assembly under Article 9(2), or

(b) to acting as an International Preliminary Examining Authority in respect of an international application in respect of which a demand for international preliminary examination is submitted pursuant to a decision of the Assembly under Article 31(2)(b),

the Authority shall communicate the decision to extend its activities to the International Bureau, together with the date at which the decision takes effect, and the latter shall publish that communication in the Gazette.

Article 4

Personnel

(1) The Authority shall use the staff at its disposal, having sufficient technical qualifications to carry out search or examination, to the extent required by the workload to be undertaken by it under this Agreement. In any event, the minimum requirements concerning staff as set out in Rules 36.1(i) and 63.1(i) shall be respected.

(2) The Authority shall maintain a staff which is capable of searching in all technical fields for which search is required and capable of examining in all technical fields for which examination is required. That staff shall have the necessary language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Article 5

Documentation

The Authority shall, for the purposes of this Agreement, use all documentation facilities at its disposal. In any event, the minimum requirements concerning documentation as set out in Rules 36.1(ii) and 63.1(ii) shall be respected.

Article 6

Transitory Measures Concerning International Preliminary Examination

The Authority shall perform international preliminary examination as of June 1, 1979. As a transitory measure and for a maximum period of five years from the entry into force of this Agreement, the Authority shall limit the kinds of international applications for which it performs international preliminary examination to certain technical fields. The limitations shall be the same as those provided for the examination of European patent applications pursuant to Article 162 of the Convention which are published by the Authority in the European Patent Bulletin and are established with reference to the International Patent Classification. The said limitations shall be communicated by the Authority to the International Bureau and shall be published in the Gazette.

Article 7

Subject Matter Not Required to be Searched or Examined

The Authority shall not search, by virtue of Article 17(2)(a)(i), or shall not examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, it being understood that the Authority is not equipped to search or to examine computer programs.

Article 8

Fees and other Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex B of this Agreement.

(2) The Authority shall, to the extent and under the conditions set out in Annex B of this Agreement, refund the whole or part of the international search fee paid where an international search report can be wholly or partially based on the results of an earlier international or international-type search made by the Authority.

Article 9

Competence in Case of Protest

The Boards of Appeal, which are responsible under Articles 154(3) and 155(3) of the Convention for deciding on a protest made under Rules 40.2(c) and 68.3(c) respectively by the applicant against the fixing of additional fees where such additional fees are paid under protest, are composed of two technically qualified members and one legally qualified member.

Article 10

Time Limits

(1) The Authority shall, within the time limits specified in the first two sentences of Rule 42.1, establish international search reports, or declarations under Article 17(2)(a). However, during a transitory period of three years from the entry into force of the Treaty and after notification of the International Bureau, these time limits may be extended under the conditions provided for in Rule 42.1, last sentence.

(2) The Authority shall, within the maximum periods specified in Rule 69.1(a)(i) and (ii), establish international preliminary examination reports.

Article 11

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 12

Limitation of Processing of International Applications

(1)(a) If the workload of the Authority reaches such a level that because of its existing facilities it cannot perform the tasks assumed by it under this Agreement without risks for its proper functioning under the Convention, the Authority may notify the International Bureau in writing that, as from a date not earlier than 9 months from the date of the notification, it will limit the acceptance of international applications, either for international search or for international preliminary examination, to not more than a given number each year or to certain fields of technology. Any of the said limitations may be exercised singly or in combination with another limitation or with all the other limitations.

(b) The initial duration of any limitation shall not exceed a period of two years. The said duration may be extended one or more times in respect of one or more limitations for a period of not more than two years each, provided that in each case notice of four months is given prior to the expiration of the initial or any subsequent period.

(c) The Authority shall enter into consultations with the International Bureau before giving the written notification referred to in subparagraph (a) or the notice of extension referred to in subparagraph (b).

(2) Where the International Bureau conducts negotiations with the Contracting States to the Convention with a view to finding solutions to the problems caused by the limitation or limitations fixed pursuant to paragraph (1), particularly through the allocation of the work, not to be performed by the Authority, to other International Searching or International Preliminary Examining Authorities, the Authority shall cooperate in order to facilitate arriving at such solutions.

Article 13

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use the English, French or German language, depending on the language of the international application or its translation.

Article 14

International-Type Search

(1) Subject to Article 7 of this Agreement and paragraph (3) of this Article, the Authority shall make an international-type search on any national application filed in any Contracting State, the receiving Office of which has specified the Authority, as mentioned in Article 3(1) of this Agreement

(a) as far as such is permitted by the law of, and is requested by, such State;

(b) where the law of such State so permits and the applicant so requests.

(2) Where the national application is not in a language in which the Authority has undertaken to search international applications under Article 3 of this Agreement, the international-type search shall be carried out on a translation, transmitted by the applicant, in a language which the Authority has undertaken to accept for international applications under Article 3 of this Agreement.

(3) Pursuant to Article 65(1), the Authority, during a maximum period of 5 years, reserves the right to limit the international-type searches which it performs under paragraph (1) to a number which shall not be less than 5,000 per year. Article 12 of this Agreement shall apply to international-type searches.

Article 15

Information Service and Technical Assistance

The Authority shall participate in the information services and shall contribute to the technical assistance program under Chapter IV of the Treaty within the limits of its possibilities and under conditions to be established in agreement with the International Bureau.

Article 16

Entry Into Force of the Agreement

This Agreement shall enter into force on the date of its signature and after approval by the Administrative Council and thereafter by the Assembly. The Agreement shall be published by the International Bureau in the Gazette and by the Authority in the Official Journal of the European Patent Office. The date of entry into force shall be indicated in the said publications.

Article 17

Duration and Renewability of the Agreement

This Agreement shall remain in force for a period of 10 years. It shall be renewable for a period of 10 years subject to the approval of the Administrative Council and the approval of, and the extension of the appointment of the Authority for that period by, the Assembly.

Article 18

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may be made to this Agreement by agreement between the International Bureau and the Authority and shall take effect upon approval of those amendments by the Assembly, following approval by the Administrative Council, or, if a later date is specified in the amendments, on that later date.

(2) Without prejudice to the provisions of paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the International Bureau and the Authority. Amendments shall take effect upon publication in the Gazette or, if a later date is specified in the amendments, on that later date.

(3) The Authority may, by notice in writing given to the International Bureau:

(a) add to the languages listed in Annex A of this Agreement;

(b) subject to paragraph (4), amend the schedule of fees and other charges contained in Annex B of this Agreement.

(4) Normally, the schedule of fees and other charges shall not be amended during the first year after the entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment of the schedule. Any amendment of the schedule shall take effect one month after publication of the notification of the amendment in the Gazette pursuant to paragraph (5), or, if a later date has been specified by the Authority, on that later date.

(5) The International Bureau shall publish promptly in the Gazette any amendment of this Agreement under paragraph (1), any amendment of this Agreement agreed between the International Bureau and the Authority under paragraph (2), and any notification received by it under paragraph (3). The said amendments and notifications shall also be published in the Official Journal of the European Patent Office.

Article 19

Termination of the Agreement

(1) This Agreement shall terminate:

(a) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Authority written notice to terminate this Agreement; or

(b) if the Organisation gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Geneva, this 11th day of April 1978, in two originals in the English, French and German languages, each text being equally authentic.

For the International Bureau:
(signed) A. Bogsch
Director General

For the Organisation:
(signed) J.B. van Benthem
President
European Patent Office

ANNEX A

LANGUAGES SPECIFIED FOR THE PURPOSES OF ARTICLE 3(1) AND (2) OF THE AGREEMENT

1. For the purposes of Article 3(1) of the Agreement, applications shall be filed in one of the following languages:

English,
French,
German.

2. For the purposes of Article 3(2) of the Agreement, applications shall be filed in one of the following languages:

English,
French,
German.

ANNEX B

I. Schedule of fees and other charges referred to in Article 8(1) of the Agreement

	PCT		EPC	Amount DM
	Article	Rule		
1. Fees and other charges levied by the EPO as an International Searching Authority under the PCT				
1.1 Search fee*		16		1,700
1.2 Additional fee	17(3)(a)	40	154(3) R.104a	1,700
2. Fees and other charges levied by the EPO as an International Preliminary Examining Authority				
2.1 Handling fee		57.1-57.3		OMPI/WIPO
2.2 Preliminary examination fee		58		1,000
2.3 Additional fee	34(3)(a)	68.3	155(3) R.104a	1,000
2.4 Cost of preparing copies of additional cited documents	20(3) 36(4)	71.2(b)		1/page
2.5 Cost of copies of documents in the file of the international application		94		1/page

II. Refund of the fees for the international search report pursuant to Article 8(2) of the Agreement

1. The search fee will be refunded fully or in part if the international search report drawn up on an international application is based on an earlier international search report or an international-type search report already prepared by the Authority on an application whose priority is claimed for the international application. For the purposes of Article 8(2) of the Agreement, all search reports drawn up by the Authority on a national or European patent application will be considered international-type search reports.

2. The amount of any refund will be 25, 50, 75 or 100 per cent of the search fee depending upon the extent to which the Authority benefits from the earlier search report.

---

* This fee will apply for international-type searches pursuant to Article 14(1)(a) of the Agreement unless otherwise agreed between the Organisation and the State in question.

Note: The schedule reproduced above takes into account the deletion of one item (cost of preparing copies of cited documents) by agreement between the International Bureau and the Authority pursuant to Article 18(2) of the Agreement.

Agreement between the ROYAL PATENT AND REGISTRATION OFFICE OF SWEDEN AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the establishment and functioning of the Royal Patent and Registration Office of Sweden as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty

Preamble

WHEREAS the States party to the Patent Cooperation Treaty, done at Washington on June 19, 1970, constitute a Union for cooperation in the filing, searching, and examination of applications for the protection of inventions, and for rendering special technical services, the said Union being known as the International Patent Cooperation Union;

AND WHEREAS Articles 16(3) (b) and 32(3) of the Patent Cooperation Treaty provide, inter alia, that the appointment of a national Office as an International Searching and International Preliminary Examining Authority by the Assembly of the International Patent Cooperation Union shall be subject to the conclusion of an Agreement between the national Office and the International Bureau;

AND WHEREAS it is recognized that the participation of the Royal Patent and Registration Office of Sweden as an International Searching and International Preliminary Examining Authority in matters affecting international search and international preliminary examination will contribute to the successful implementation of the Patent Cooperation Treaty;

IT IS HEREBY AGREED between the Royal Patent and Registration Office of Sweden, hereinafter called "the Authority," and the International Bureau of the World Intellectual Property Organization, hereinafter called the "International Bureau," as follows:

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement, "Treaty" means the Patent Cooperation Treaty done at Washington on June 19, 1970; "Regulations" means the Regulations under the Treaty; "Administrative Instructions" means the Administrative Instructions under the Treaty; "Article," except where otherwise specified, means an Article of the Treaty; "Rule" means a Rule of the Regulations; "Assembly" means the Assembly as defined in Article 2(xvii) of the Treaty; "International Bureau" means the International Bureau as defined in Article 2 (xix) of the Treaty; "Contracting State" refers to a Contracting State to the Treaty.

(2) All other terms and expressions used in this Agreement which are also used in the Treaty are to be understood in the same sense as that in which they are used in the Treaty.

Article 2

Basic Obligation

(1) The Authority shall, except in respect of subject matter which, pursuant to Article 6 of this Agreement, the Authority is not required to search or to examine, carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under, the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be carried out under the Patent Cooperation Treaty. The Authority undertakes to apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, each render, to the extent possible, assistance to the other in relation to the performance, by the other, of its functions thereunder.

Article 3

Competence of Authority

(1) Subject to Article 6 of this Agreement, the Authority undertakes to act as an International Searching Authority for all international applications filed with the receiving Offices of, or acting for, the following States to the extent that they are Contracting States:

(i) Denmark, Finland, Iceland, Norway and Sweden,

(ii) any State indicated in Annex A of this Agreement,

provided that the receiving Office of the State concerned specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority undertakes to act as an International Preliminary Examining Authority for all international applications filed with the receiving Offices of, or acting for, the Contracting States referred to in paragraph (1) provided that the receiving Office of the State concerned specifies the Authority for that purpose. In respect of international applications filed in the languages specified in Annex A of this Agreement, the Authority shall carry out examination without requiring translations of such applications.

Article 4

Provision of Personnel

(1) The Authority shall make available for the purposes of carrying out international search and international preliminary examination, respectively, all members of its staff having duties within the Authority relevant to such search or such examination and having sufficient technical qualifications to carry out such search or such examination. The numbers of such staff shall be maintained at levels meeting the minimum requirements as set out in Rules 36.1(i) and 63.1(i).

(2) The Authority shall maintain a staff which is capable of searching and examining in all technical fields and which has language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated and the other languages referred to in Annex A of this Agreement.

Article 5

Documentation Facilities

The Authority shall maintain and use for search and for examination purposes all documentation facilities at its disposal and shall maintain and use for the said purposes at least

(i) the minimum documentation referred to in the Regulations (Rules 34 and 63),

(ii) the patent documents of Denmark, Finland, Iceland, Norway and Sweden,

properly arranged for search or for examination purposes.

Article 6

Subject Matter Not Required to be Searched or Examined

The Authority will not search, by virtue of Article 17(2)(a)(i), or will not examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B of this Agreement.

Article 7

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, to the extent and under the conditions set out in Annex C of this Agreement, refund the whole or part of the search fee paid where a search report can be wholly or partially based on the results of an earlier international or international-type search made by the Authority (Rules 16.3 and 41.1).

Article 8

Competence for Protests in Case of Additional Fees

The Authority shall provide, in accordance with Rules 40.2(c) and (d) and 68.3(c) and (d), a special instance to examine protests in respect of additional fees where the international application is found not to comply with the requirement of unity of invention. The said special instance shall be the Director General of the Royal Patent and Registration Office of Sweden or any officer exercising his powers under Swedish law.

Article 9

Time Limit for Preparation of International Search Reports or Declarations and International Preliminary Examination Reports

The Authority shall, within the time limits specified in the first two sentences of Rule 42.1, establish international search reports, or declarations under Article 17(2) (a) and, within the maximum periods specified in Rule 69.1(a) (i) and (ii), establish international preliminary examination reports.

Article 10

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority will indicate solely the International Patent Classification.

Article 11

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use one of the languages specified in Annex D of this Agreement and may use instead any other language specified in Annex A of this Agreement where that language is the language of the international application.

Article 12

International-Type Search

(1) The Authority shall make an international-type search on any national application filed in any Contracting State which has specified the Authority as mentioned in Article 3(1) of this Agreement:

(i) as far as such is permitted by the law of, and is requested by the national Office of, such State,

(ii) where the national law of such State so permits and the applicant so requests.

(2) Where the national application is not in a language in which the Authority has undertaken to search international applications under Article 3 of this Agreement, the international-type search shall be carried out on a translation in a language which the Authority has undertaken to accept for international applications under Article 3 of this Agreement.

Article 13

Information Services and Technical Assistance

The Authority shall supply the International Bureau with such information services and such other contributions to the technical assistance program under Chapter IV of the Treaty as are practicable within the existing facilities of the Authority and may be agreed. The provision of search or examination work for developing countries under preferential conditions shall be the subject of a special agreement.

Article 14

Entry Into Force of the Agreement

This Agreement shall enter into force once all the following conditions are fulfilled:

(i) it is approved by the Assembly;

(ii) it is signed by the Authority and the International Bureau; and

(iii) the Treaty has entered into force for Sweden.

The Agreement together with an indication of the date of its entry into force shall be published in the Gazette by the International Bureau.

Article 15

Duration and Renewability of the Agreement

This Agreement shall remain in force for a period of 10 years. It shall be renewable for a period of 10 years subject to the approval of, and the extension of the appointment of the Authority for that period by, the Assembly.

Article 16

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may be made to this Agreement by agreement between the parties hereto and shall take effect upon approval of those amendments by the Assembly, or, if a later date is specified in the amendments, on that date.

(2) Without prejudice to the provisions of paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the parties hereto and shall take effect upon notification in the Gazette or, if a later date is specified in the amendments, on that date.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization :

(i) add to the languages listed in Annex A of this Agreement;

(ii) add to the documentation facilities listed in Article 5 of this Agreement;

(iii) subject to paragraph (4), amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Normally, the schedule of fees and other charges shall not be amended during the first year after the entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment of the schedule. Any amendment of the schedule shall take effect one month after publication of the notification of the amendment in the Gazette pursuant to paragraph (5), or, if a later date has been specified by the Authority, on the date specified by the Authority.

(5) The International Bureau shall publish promptly in the Gazette any amendment of this Agreement agreed between the parties and approved by the Assembly under paragraph (1), any amendment of this Agreement agreed between the parties under paragraph (2), and any notification received by it under paragraph (3).

Article 17

Termination of the Agreement

(1) This Agreement shall terminate:

(i) if the Director General of the Royal Patent and Registration Office of Sweden gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Director General of the Royal Patent and Registration Office of Sweden written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party.

(3) Notwithstanding paragraph (2), if

(i) notice to terminate this Agreement is given by the Director General of the Royal Patent and Registration Office of Sweden under paragraph (1), and

(ii) at the same time all Contracting States, the receiving Office of or acting for which have specified the Authority under Articles 16(2) and 32(2), not having previously denounced the Treaty, denounce the Treaty under Article 66,

the notice to terminate this Agreement shall take effect at such time as the denunciation of the Treaty becomes effective for all such countries.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Geneva, this 11th day of April 1978, in two originals in the English language.

ANNEX A

STATES AND LANGUAGES SPECIFIED FOR THE PURPOSES OF ARTICLES 3(1) and (2) OF THE AGREEMENT

1. The States specified for the purposes of Articles 3(1) and (2) of the Agreement are the States, regarded as a developing country in conformity with the established practice of the General Assembly of the United Nations, with which Sweden, in accordance with its obligations undertaken within the framework of the European Patent Organisation, has concluded an agreement for that purpose.

2. The languages specified for the purposes of Articles 3(1) and (2) of the Agreement are:

Danish
English
Finnish
Icelandic
Norwegian
Swedish

ANNEX B

SUBJECT MATTER SPECIFIED UNDER ARTICLE 6 OF THE AGREEMENT

The subject matter set forth in Rule 39.1 or Rule 67.1, which, under Article 6 of the Agreement, is not excluded from search or examination, is the following:

(1) Diagnostic methods.

(2) Computer programs as far as not comparable to mathematical methods, presentation of information or of an abstract or intellectual character.

ANNEX C

SCHEDULE OF FEES AND CHARGES OF THE AUTHORITY AND EXTENT AND CONDITIONS OF REFUNDS OF THE SEARCH FEE FOR THE PURPOSES OF ARTICLE 7 OF THE AGREEMENT

(a) Schedule of fees and charges

Fee	Amount in Sw Crs
Search fee (Rule 16.1(a))	1,600.–
Search fee in case the search report is based on an earlier search report already prepared by the Royal Patent and Registration Office of Sweden or by a national Office of a Contracting State referred to in Art. 3(1)(i) of this Agreement on an application whose priority is claimed for the international patent application	1,000.–
Additional fee (Rule 40.2(a))	1,600.–
Translation of international application (Rule 48.3)	0.75/word
Preparing copies of cited documents (Rule 44.3(b))	1.50/page
Preliminary examination fee (Rule 58.1(b))	500.–
Additional fee (Rule 68.3(a))	500.–
Preparing copies of cited documents (Rule 71.2(b))	1.50/page

(b) Conditions and extent of refunds of the search fee where the search report can be wholly or partially based on the results of an earlier international or international-type search (Rule 16.3 and 41.1)

The conditions and the extent of refunds of the search fee in cases where the search report can be wholly or partially based on the results of an earlier international search, conducted by the Royal Patent and Registration Office of Sweden, on an earlier international application whose priority is claimed, or can be based wholly or partly on an international-type search carried out under the conditions of Art. 15(5) of the Treaty, are as follows:

The amount of the refund of the search fee shall be 25 o/o, 50 o/o, 75 o/o or 90 o/o of the search fee, depending upon the extent to which the Authority benefits from the prior search report.

ANNEX D

LANGUAGES SPECIFIED FOR THE PURPOSES OF ARTICLE 11 OF THE AGREEMENT

The languages specified for the purposes of Article 11 of the Agreement are:

English,
Swedish.

Agreement between THE PATENT OFFICE OF THE UNITED KINGDOM AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the functioning of the Patent Office of the United Kingdom as an International Preliminary Examining Authority under the Patent Cooperation Treaty.

Preamble

WHEREAS the States party to the Patent Cooperation Treaty, done at Washington on June 19, 1970, consitute a Union for cooperation in the filing, searching and examination of applications for the protection of inventions, and for rendering special technical services, the said Union being known as the International Patent Cooperation Union;

AND WHEREAS Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty provide, inter alia, that the appointment of a national Office as an International Preliminary Examining Authority by the Assembly of the International Patent Cooperation Union shall be conditional on the conclusion of an Agreement between the national Office and the International Bureau of the World Intellectual Property Organization;

AND WHEREAS it is recognized that the participation of the Patent Office of the United Kingdom as an International Preliminary Examining Authority in matters affecting international preliminary examination will contribute to the successful implementation of the Patent Cooperation Treaty;

IT IS HEREBY AGREED between the Patent Office of the United Kingdom, hereinafter called the "Authority," and the International Bureau of the World Intellectual Property Organization, hereinafter called the "International Bureau," as follows:

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement, the "Treaty" means the Patent Cooperation Treaty done at Washington on June 19, 1970; the "Regulations" means the Regulations under the Treaty; the "Administrative Instructions" means the Administrative Instructions under the Treaty; "Article" (except where a specific reference is made to an Article of this Agreement) means an Article of the Treaty; "Rule" means a Rule of the Regulations; "International Bureau" means the International Bureau as defined in Article 2(xix) of the Treaty;

(2) All other terms and expressions used in this Agreement which are also used in the Treaty are to be understood in the same sense as that in which they are used in the Treaty.

Article 2

Basic Obligation

(1) The Authority shall, except in respect of subject matter on which, pursuant to Article 6 of this Agreement, the Authority is not required to carry out international preliminary examination, carry out international preliminary examination in accordance with, and perform such other functions of an International Preliminary Examining Authority as are provided under the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international preliminary examination, the Authority shall be guided by the Guidelines for International Preliminary Examination to be carried out under the Patent Cooperation Treaty. The Authority undertakes to apply and observe all the common rules of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, each render, to the extent possible, assistance to the other in relation to the performance, by the other, of its functions thereunder.

Article 3

Competence of Authority

The Authority undertakes to act as an International Preliminary Examining Authority for all international applications published or to be published in the English language and filed with the receiving Office of, or acting for, any Contracting State where that Office has specified the Authority for that purpose. Where any such application is not filed in the English language, the Authority will require a translation into that language.

Article 4

Provision of Personnel

(1) The Authority shall make available, to the extent required for the purposes of carrying out international preliminary examination, staff having duties within the Authority relevant to such examination and having sufficient technical qualifications to carry out such examination. The staff of the Authority shall be maintained at a level meeting the minimum requirements as set out in Rule 63.1(i).

(2) The Authority shall maintain a staff which is capable of examining in all technical fields and which has language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Article 5

Documentation Facilities

The Authority shall comply with the requirements of Rule 63.1(ii).

Article 6

Subject Matter Not Required to be Examined

The Authority will not examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 67.1.

Article 7

Fees and Charges

A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Preliminary Examining Authority, is set out in the Annex to this Agreement.

Article 8

Competence for Protests in Case of Additional Fees

The Authority shall provide, in accordance with Rule 68.3(c) and (d), a special instance to examine protests in respect of additional fees where the international application is found not to comply with the requirement of unity of invention. The said special instance shall be the Comptroller General of the Patent Office of the United Kingdom or any officer exercising his powers under United Kingdom law.

Article 9

Time Limit for Preparation of International Preliminary Examination Reports

The Authority shall establish international preliminary examination reports within the applicable time limit specified in Rule 69.1(a).

Article 10

Classification

For the purposes of Rule 70.5, the Authority will indicate solely the International Patent Classification.

Article 11

Language of Correspondence Used by the Authority

For the purposes of correspondence, including forms, the Authority shall use the English language.

Article 12

Technical Assistance

The Authority shall supply the International Bureau with such contributions to the technical assistance program under Chapter IV of the Treaty as are practicable within the existing facilities of the Authority and as may be agreed.

Article 13

Entry into Force of the Agreement

This Agreement shall enter into force upon approval by the Assembly and subsequent signature. The Agreement together with an indication of the date of its entry into force shall be published in the Gazette by the International Bureau.

Article 14

Duration of the Agreement

This Agreement shall remain in force for a period of 15 years from June 1, 1978.

Article 15

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may be made to this Agreement between the parties hereto and shall take effect upon approval of those amendments by the Assembly, or, if a later date is specified in the amendments, on that date.

(2) Without prejudice to the provisions of paragraph (3), amendments may be made to the Annex to this Agreement by agreement between the parties hereto and shall take effect upon notification in the Gazette or, if a later date is specified in the amendments, on that date.

(3) Subject to paragraph (4), the Authority may, by notice in writing given to the International Bureau, amend the fees and other charges contained in the Annex to this Agreement.

(4) Normally, the fees and other charges shall not be amended during the first year after the entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment. Any amendment of the fees and other charges shall take effect one month after publication of the notification of the amendment in the Gazette pursuant to paragraph (5), or, if a later date has been specified by the Authority, on the date specified by the Authority.

(5) The International Bureau shall publish promptly in the Gazette any amendment of this Agreement agreed between the parties and approved by the Assembly under paragraph (1), any amendment of the Annex to this Agreement agreed between the parties under paragraph (2), and any notification received by it under paragraph (3).

Article 16

Termination of the Agreement

(1) This Agreement shall terminate:

(a) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(b) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party.

(3) Notwithstanding paragraph (2), if

(i) notice to terminate this Agreement is given by the Authority under paragraph (1), and

(ii) at the same time all Contracting States, the receiving Offices of, or acting for, which have specified the Authority under Article 32(2), not having previously denounced the Treaty under Article 66, denounce the Treaty under Article 66,

the notice to terminate this Agreement shall take effect at such time as the denunciation of the Treaty becomes effective for all such countries.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Geneva, this 11th day of April 1978, in two originals in the English language.

ANNEX

SCHEDULE OF FEES AND CHARGES OF THE AUTHORITY FOR THE PURPOSES OF ARTICLE 7 OF THE AGREEMENT

	Fee	Amount
		Pounds Sterling
1.	Preliminary Examination Fee (Rule 58.1)	
	(a) where an international search report has been established for the invention	25.00
	(b) where no international search report has been established for the invention	25.00 plus the Sterling equivalent of the current EPO search fee
2.	Additional fee referred to in Rule 68.3	For each invention this will not exceed the relevant fee stated under 1
3.	Copies of documents cited under Article 36(4) (see Rule 71.2(a) and (b))	Current rate for preparing photocopy plus postage.....
4.	Copies of documents requested pursuant to Rule 94	Current rate for preparing photocopy plus postage.....

Agreement between THE STATE COMMITTEE FOR INVENTIONS AND DISCOVERIES OF THE USSR COUNCIL OF MINISTERS AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the functioning of the State Committee for Inventions and Discoveries of the USSR Council of Ministers as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

Preamble

WHEREAS the States party to the Patent Cooperation Treaty, done at Washington on June 19, 1970, constitute a Union for cooperation in the filing, searching, and examination of applications for the protection of inventions, and for rendering special technical services, the said Union being known as the International Patent Cooperation Union;

AND WHEREAS Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty provide, inter alia, that the appointment of a national Office as an International Searching and International Preliminary Examining Authority by the Assembly of the International Patent Cooperation Union shall be subject to the conclusion of an Agreement between the national Office and the International Bureau;

AND WHEREAS it is recognized that the participation of the State Committee for Inventions and Discoveries of the USSR Council of Ministers as an International Searching and International Preliminary Examining Authority in matters affecting international search and international preliminary examination will contribute to the successful implementation of the Patent Cooperation Treaty;

IT IS HEREBY AGREED between the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau of the World Intellectual Property Organization as follows:

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement, "Treaty" means the Patent Cooperation Treaty done at Washington on June 19, 1970; "Regulations" means the Regulations under the Treaty; "Administrative Instructions" means the Administrative Instructions under the Treaty; "Article," except where otherwise specified, means an Article of the Treaty; "Rule" means a Rule of the Regulations; "Assembly" means the Assembly as defined in Article 2(xvii) of the Treaty; "International Bureau" means the International Bureau as defined in Article 2(xix) of the Treaty; "Contracting State" refers to a Contracting State to the Treaty; "Authority" means the State Committee for Inventions and Discoveries of the USSR Council of Ministers.

(2) All other terms and expressions used in this Agreement are to be understood in the same sense as that in which they are used in the Treaty.

Article 2

Basic Obligation

(1) The Authority shall, except in respect of subject matter which, pursuant to Article 6 of this Agreement, the Authority is not required to search, or to examine, carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under, the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be carried out under the Patent Cooperation Treaty. The Authority undertakes to apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, each render, to the extent possible, assistance to the other in relation to the performance, by the other, of its functions thereunder.

Article 3

Competence of Authority

(1) Subject to Article 6 of this Agreement, the Authority undertakes to act as an International Searching Authority for all kinds or numbers of international applications indicated in Annex A of this Agreement and filed with the receiving Offices of, or acting for, the Contracting States indicated in Annex A of this Agreement provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) Subject to Article 6 of this Agreement, the Authority undertakes to act as an International Preliminary Examining Authority for all kinds or numbers of international applications indicated in Annex A of this Agreement and filed with the receiving Offices of, or acting for, the Contracting States indicated in Annex A of this Agreement provided that the receiving Office specifies the Authority for that purpose. The Authority shall carry out international preliminary examination on international applications filed in the languages specified in Annex A without requiring translations of such applications.

Article 4

Provision of Personnel

(1) The Authority shall make available for the purposes of carrying out international search and international preliminary examination, respectively, all members of its staff having duties within the Authority relevant to such search or such examination and having sufficient technical qualifications to carry out such search or such examination. The numbers of such staff shall always be maintained at levels meeting the minimum requirements as set out in Rules 36.1(i) and 63.1(i).

(2) Subject to Articles 3 and 6 of this Agreement, the Authority shall maintain a staff which is capable of searching and examining in all technical fields and which has language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Article 5

Documentation Facilities

The Authority shall maintain and use for search and for examination purposes all documentation facilities at its disposal and shall maintain and use for the said purposes at least the minimum documentation properly arranged for search or for examination purposes referred to in the Regulations (Rules 36.1(ii) and 63.1(ii)).

Article 6

Subject Matter Not Required to be Searched or Examined

The Authority will not search, by virtue of Article 17(2)(a)(i), or will not examine, by virtue of Article 34(4)(a)(i), any international application if, and to the extent to which, it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be and as specified in Annex B of this Agreement.

Article 7

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, to the extent and under the conditions set out in Annex C of this Agreement, refund the whole or part of the search fee paid where a search report can be wholly or partially based on the results of an earlier international or international-type search made by the Authority (Rules 16.3 and 41.1).

Article 8

Competence for Protests in Case of Additional Fees

The Authority shall provide that the Board of Appeal for the Scientific and Technical Examination of the State Committee for Inventions and Discoveries of the USSR Council of Ministers shall examine protests in respect of additional fees where such additional fees are paid under protest under Rule 40.2(c) or Rule 68.3(c).

Article 9

Time Limit for Preparation of International Search Reports or Declarations and International Preliminary Examination Reports

The Authority shall, within the time limits specified in the first two sentences of Rule 42.1, establish international search reports, or declarations under Article 17(2)(a) and, within the maximum periods specified in Rule 69.1(a)(i) and (ii), establish international preliminary examination reports.

Article 10

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority will indicate solely the International Patent Classification.

Article 11

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use the languages specified in Annex D of this Agreement.

Article 12

International-Type Search

(1) Subject to Article 6 of this Agreement, the Authority shall make an international-type search on all kinds or numbers of national applications indicated in Annex A of this Agreement and filed in any Contracting State indicated in Annex A of this Agreement, the receiving Office of, or acting for which, has specified the Authority as mentioned in Article 3(1) of this Agreement:

(i) as far as such is permitted by the law of, and is requested by, such State;

(ii) where the national law of such State so permits and the applicant so requests.

(2) Where the national application is not in a language in which the Authority has undertaken to search international applications under Article 3 of this Agreement, the international-type search shall be carried out on a translation in a language which the Authority has undertaken to accept for international applications under Article 3 of this Agreement.

Article 13

Information Service and Technical Assistance

The Authority shall supply the International Bureau with such information services and such other contributions to the technical assistance program under Chapter IV of the Treaty as are practicable within the existing facilities of the Authority and as may be agreed. The provision of search or examination work for developing countries under preferential conditions shall be subject to special agreement.

Article 14

Entry Into Force of the Agreement

This Agreement shall enter into force upon approval by the Assembly and subsequent signature. The Agreement together with an indication of the date of its entry into force shall be published in the Gazette by the International Bureau.

Article 15

Duration and Renewability of the Agreement

This Agreement shall remain in force for a period of 10 years. It shall be renewable for a period of 10 years subject to the approval of, and the extension of the appointment of the Authority for that period by, the Assembly.

Article 16

Amendment

(1) Without prejudice to the provisions of paragraphs (2) and (3), amendments may be made to this Agreement by agreement between the Authority and the International Bureau and shall take effect upon approval of those amendments by the Assembly, or, if a later date is specified in the amendments, on that date.

(2) Without prejudice to the provisions of paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the Authority and the International Bureau and shall take effect upon notification in the Gazette or, if a later date is specified in the amendments, on that date.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add, where Annex A of this Agreement contains limitations, to the Contracting States and/or the kind or number of applications, and add to the languages listed in Annex A of this Agreement;

(ii) make, subject to paragraph (4), amendments to Annex A of this Agreement if the volume of search and examination work of the Authority under the Treaty considerably exceeds the working capacity of the Authority under Rules 36 and 63;

(iii) add to the languages listed in Annex D of this Agreement;

(iv) add to the documentation facilities listed in Article 5 of this Agreement;

(v) specify in Annex B of this Agreement further subject matter referred to in Article 6 of this Agreement;

(vi) subject to paragraph (5), amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Amendments to Annex A of this Agreement which may be made according to paragraph (3)(ii), shall take effect nine months after publication of the notification of the amendment in the Gazette pursuant to paragraph (6), or, if a later date has been specified by the Authority, on the date specified by the Authority.

(5) Normally the schedule of fees and other charges shall not be amended during the first year after the entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment of the schedule. Any amendment of the schedule shall take effect one month after publication of the notification of the amendment in the Gazette pursuant to paragraph (6), or, if a later date has been specified by the Authority, on the date specified by the Authority.

(6) The International Bureau shall publish promptly in the Gazette any amendment to this Agreement agreed between the Authority and the International Bureau and approved by the Assembly under paragraph (1), any amendment of this Agreement agreed between the Authority and the International Bureau under paragraph (2), and any notification received by it under paragraph (3).

Article 17

Termination of the Agreement

(1) This Agreement shall terminate:

(i) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice referred to in that paragraph.

(3) Notwithstanding paragraph (2), if:

(i) notice to terminate this Agreement is given by the Authority under paragraph (1), and

(ii) at the same time all Contracting States, the receiving Offices of, or acting for, which have specified the Authority under Articles 16(2) and 32(2), and have not previously denounced the Treaty, denounce the Treaty under Article 66,

the termination of this Agreement shall take effect at such time as the denunciation of the Treaty becomes effective for all such countries.

IN WITNESS WHEREOF the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau of the World Intellectual Property Organization have executed this Agreement.

DONE in duplicate at Geneva, this 11th day of April 1978, in two originals both in the English and Russian languages, both texts being equally authentic.

For the State Committee for Inventions and Discoveries of the USSR Council of Ministers by:
(signed) L. Komarov
Deputy Chariman

For the International Bureau of the World Intellectual Property Organization by:
(signed) A. Bogsch
Director General

ANNEX A

to the Agreement between the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau of the World Intellectual Property Organization in relation to the functioning of the State Committee for Inventions and Discoveries of the USSR Council of Ministers as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

LIST

of the Contracting States, Languages, Kinds and Number of Applications Specified by the Authority for the Purposes of Articles 3(1) and 3(2) of the Agreement.

Contracting States	Languages	Kinds of Applications	Number of Applications
All	Russian English French German	All	All

ANNEX B

to the Agreement between the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau of the World Intellectual Property Organization in relation to the functioning of the State Committee for Inventions and Discoveries of the USSR Council of Ministers as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

LIST

of Subject Matter Specified under Article 6 of this Agreement.

No exceptions for the time being, it being understood that there will be no search or examination of computer programs.

ANNEX C

to the Agreement between the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau of the World Intellectual Property Organization in relation to the functioning of the State Committee for Inventions and Discoveries of the USSR Council of Ministers as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

SCHEDULE

of Fees and Charges established by the Authority and Extent and Conditions of Refunds of the Search Fee for Purposes of Article 7 of the Agreement.

(a) Schedule of fees and charges

	Fee	Amount
1.	Carrying out of international search on an international application meeting the PCT requirement of unity of invention or on the main invention ("Search fee," Rule 16.1(a))	250.– roubles
2.	Carrying out of additional search on every invention, other than the main invention, contained in an international application ("Additional fee," Rule 40.2(a))	170.– roubles
3.	Preparing copies of cited documents (Rules 44.3(b) and 71.2(b))	0.20 roubles per 1 page
4.	Carrying out of international-type search	paragraphs 1, 2, 3 are applied mutatis mutandis
5.	Carrying out of international preliminary examination of an international application meeting the PCT requirement of unity of invention or of the main invention ("Preliminary Examination fee," Rule 58.1(b))	300.– roubles
6.	Carrying out of additional international preliminary examination of every invention other than the main invention contained in an international application ("Additional fee," Rule 68.3(a))	200.– roubles
7.	Furnishing of copies of the documents contained in the file of the international application	0.50 roubles per 1 page

(b) Conditions and extent of refunds of the "Search fee" where the search report can be wholly or partially based on the results of an earlier international or international-type search (Rules 16.3 and 41.1)

1.	The prior search was so complete that only a minor updating search is required	90 o/o of the amount paid
2.	The prior search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1-3 additional IPC Subgroups	70 o/o of the amount paid
3.	The prior search saves one half of the efforts usually made to carry out international search	40 o/o of the amount paid
4.	The prior search applies only to a few IPC Subgroups	20 o/o of the amount paid
5.	The prior search was of no value	no refund

ANNEX D

to the Agreement between the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau of the World Intellectual Property Organization in relation to the functioning of the State Committee for Inventions and Discoveries of the USSR Council of Ministers as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

LIST

of the Languages of Correspondence Specified for the Purposes of Article 11 of this Agreement.

The languages of correspondence, other than with the International Bureau, used by the Authority are the Russian and English languages.

Agreement between THE UNITED STATES PATENT AND TRADEMARK OFFICE AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION concerning the functions of the United States Patent and Trademark Office in the capacity of an International Searching Authority appointed under the Patent Cooperation Treaty.

Preamble

The United States Patent and Trademark Office and the International Bureau of the World Intellectual Property Organization agree to conclude the following Agreement under Article 16(3)(b) of the Patent Cooperation Treaty:

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement:

(a) "Treaty" means the Patent Cooperation Treaty done at Washington on June 19, 1970;

(b) "Regulations" means the Regulations under the Treaty;

(c) "Administrative Instructions" means the Administrative Instructions under the Treaty;

(d) "Article" (except where a specific reference is made to an Article of this Agreement) means an Article of the Treaty;

(e) "Rule" means a Rule of the Regulations;

(f) "Authority" refers to the United States Patent and Trademark Office acting in the capacity of an International Searching Authority pursuant to this Agreement and appointed under the Treaty;

(g) "International Bureau" means the International Bureau as defined in Article 2(xix); and

(h) "Gazette" means the publication referred to in Article 55(4).

Article 2

Basic Obligations

(1) The Authority will, except in respect to subject matter which pursuant to Article 6 of this Agreement the Authority is not required to search, carry out international searches and perform such other functions as are specifically provided for by the Treaty, the Regulations, this Agreement, and the Administrative Instructions. In carrying out an international search, the Authority shall be guided by the Guidelines for International Search to be Carried Out under the Patent Cooperation Treaty. The Authority undertakes to apply and observe all the common rules of international search.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, this Agreement, and the Administrative Instructions, each render, to the extent considered to be appropriate by both the Authority and the International Bureau, assistance to the other in relation to the performance, by the other, of its functions thereunder.

Article 3

Competence of the Authority

Subject to Article 6 of this Agreement, the Authority undertakes to act as an International Searching Authority for all international applications (i) filed with the receiving Office of, or acting for, the States specified in Annex A of this Agreement, and (ii) filed in or translated into the languages specified in Annex A of this Agreement.

Article 4

Minimum Personnel Requirements

(1) The Authority shall, for the purposes of carrying out international search, make available the staff at its disposal, to the extent required by the workload, having sufficient technical qualifications to carry out such search in all technical fields except those referred to in Article 6 of this Agreement. The staff of the Authority shall be maintained at a level exceeding the minimum requirement as set out in Rule 36.1(i).

(2) The Authority shall maintain, or otherwise secure assistance by, a staff which has the language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Article 5

Documentation Facilities

The Authority shall maintain and use all documentation facilities ordinarily at the disposal of the staff referred to in Article 4(1) of this Agreement for search purposes, and shall maintain and use for the said purposes at least the minimum documentation facilities prescribed by Rule 36.1(ii).

Article 6

Subject Matter not Required to be Searched

In accordance with Article 17(2)(a)(i), the Authority will not be obligated to search any of the subject matter specified in Rule 39.1 except for subject matter specified in Annex B of this Agreement.

Article 7

Fees

(1) A schedule of all fees charged by the Authority in relation to its functions as an International Searching Authority is set out in Annex C of this Agreement.

(2) The Authority shall, to the extent and under the conditions set out in Annex C of this Agreement, refund the paid search fees in whole or in part.

Article 8

Review of Protest

The Commissioner of Patents and Trademarks or his designee shall examine protests in respect of additional fees where such additional fees are paid under protest pursuant to Rule 40.2(c).

Article 9

Time Limit for Preparation of International Search Reports or Declarations

(1) Subject to paragraph (2), the Authority agrees to establish international search reports or the declaration referred to in Article 17(2)(a) within the time limits specified in the first two sentences of Rule 42.1.

(2) During the period beginning on the date of the Authority's appointment and ending on January 24, 1981, the Authority may establish international search reports, in exceptional cases, within a time limit which exceeds that specified in paragraph (1) above by two months, provided that, in any given case, this extension does not go beyond the expiration of the 18th month after the priority date of an international application.

Article 10

Classification

The Authority, in addition to applying the International Patent Classification to a particular subject matter, may also apply the United States Patent Classification.

Article 11

Language of Correspondence Used by the Authority

For the purposes of correspondence, including forms, the Authority shall use the English language.

Article 12

Patent Information Services and Technical Assistance

The Authority shall cooperate with the International Bureau in providing patent information services and such other contributions to the technical assistance program under Chapter IV of the Treaty as are both practicable within the facilities of the Authority and as may be agreed.

Article 13

Entry into Force of the Agreement

This Agreement shall enter into force, after approval by the Assembly, on the date of signature thereof. The Agreement together with an indication of the date of its entry into force shall be published in the Gazette by the International Bureau.

Article 14

Duration and Renewability of the Agreement

Subject to Article 16 of this Agreement, this Agreement shall remain in force for a period of 10 years. It shall be renewable for a period of 10 years subject to the approval of, and the extension of the appointment of the Authority for that period by, the Assembly.

Article 15

Amendment

(1) Without prejudice to paragraphs (2) to (4) below, amendments may be made to this Agreement by agreement between the Authority and the International Bureau and shall take effect on the date on which those amendments are approved by the Assembly, or, if a later date is specified in the amendments, on that later date.

(2) Annex A may be amended by the Authority at any time. Any amendment adding a State or language will be made by notification from the Authority to the International Bureau and shall take effect one month from the date of publication in the Gazette. Any amendment deleting a State or language will be made by notification from the Authority to the International Bureau and shall take effect nine months from the date of publication in the Gazette.

(3) Annex B may be amended by the Authority at any time. Any amendment adding subject matter to that Annex will be made by notification from the Authority to the International Bureau and shall take effect one month from the date of publication in the Gazette. Any amendment deleting subject matter from that Annex will be made by notification from the Authority to the International Bureau and shall take effect nine months from the date of publication in the Gazette.

(4) Annex C may be amended by the Authority at any time. Any amendment may be made by notification from the Authority to the International Bureau and shall take effect on a date specified by the Authority but not earlier than one month after publication of the notification in the Gazette. Normally Annex C shall not be amended during the first year after entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment of the schedule.

(5) The International Bureau shall publish promptly in the Gazette any amendment of this Agreement agreed to by the Authority and the International Bureau and approved by the Assembly under paragraph (1) and any notifications received by the International Bureau under paragraphs (2) to (4).

Article 16

Termination of the Agreement

(1) This Agreement shall terminate:

(a) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(b) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice.

(3) Notwithstanding paragraph (2), if:

(a) notice to terminate this Agreement is given by the Authority under paragraph (1); and

(b) at the same time all those Contracting States, whose receiving Offices have specified the Authority under Article 16(2), not having denounced the Treaty previously, make the denunciation under Article 66,

the notice to terminate this Agreement shall take effect at such time as the denunciation of the Treaty becomes effective for all such States.

DONE at Geneva, this 11th day of April 1978, in two originals in the English language.

For the United States Patent and Trademark Office by:
(signed) L. Parker
Acting Commissioner of Patents and Trademarks

For the International Bureau of the World Intellectual Property Organization by:
(signed) A. Bogsch
Director General

ANNEX A

COUNTRIES AND LANGUAGES UNDER ARTICLE 3 OF THIS AGREEMENT

The Authority will conduct international searches and prepare international search reports

(i) for the following countries:*

United States of America

(ii) in the following languages:

English

ANNEX B

SUBJECT MATTER SPECIFIED UNDER ARTICLE 6 OF THE AGREEMENT

NONE

---

*In the second session of the Preparatory Intergovernmental Committee on the Revision of the Paris Convention for the Protection of Industrial Property, June 29 to July 8, 1977, the Delegation of the United States of America offered the services of its International Searching Authority (the Authority under this Agreement) to all nationals of countries of the western hemisphere party to the PCT on the same conditions these services would be available to its own nationals. This offer stands.

ANNEX C

SCHEDULE OF FEES AND EXTENT AND CONDITIONS OF REFUNDS OF THE SEARCH FEE FOR THE PURPOSES OF ARTICLE 7 OF THE AGREEMENT

(a) **Fees**

Search fee	$300.--
Supplemental Search Fee (per additional invention)	200.--
Preparation of an International-Type Search Report in a U.S. National Application	25.--

(b) **Extent and Conditions of Refunds of the Search Fee**

Refunds of a portion of the search fee may be made if the international search report is wholly or partly based on an earlier international or international-type search (Rules 16 and 41). The amount of the refund will be as determined by the examiner according to the value of the prior international-type search or international search as 90 o/o, 45 o/o, or 0 o/o of the international search fee.

The criteria for refunds of the indicated percentages are as follows:

A.	The prior search was substantially complete; only an updating search or short search for an additional detail was required	90 o/o
B.	The prior search was of some significant benefit but not enough to justify a 90 o/o refund	45 o/o
C.	The prior search was of very little or no value	0 o/o

Refund of the supplemental search fees will be made if such refund is determined to be warranted by the Commissioner of Patents and Trademarks or his designee acting under Rule 40.2(c).

COMPETENT RECEIVING OFFICES

Contracting State of which the applicant is a national or resident	Competent receiving Office
Brazil	National Institute of Industrial Property

Note: The fees set out in the fourth, fifth and sixth columns of the table of fees payable to the International Preliminary Examining Authority and the two fees in the table of fees payable to the International Bureau are payable only in particular circumstances.

"MINIMUM DOCUMENTATION" UNDER RULE 34.1(b)(iii) OF THE REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

The International Searching Authorities agreed, at a meeting held in Geneva on April 12, 1978, that for the purposes of PCT, Rule 34.1(b)(iii), the published items of non-patent literature to be included in the PCT "minimum documentation" should be the items published in the periodicals listed below during the five-year period preceding the time at which an international search report is established, it being understood that an International Searching Authority would not be precluded from consulting issues of the said periodicals published prior to the beginning of the said five-year period. The list is followed by explanatory notes facilitating an understanding of the indications contained in the list.

EXPLANATORY NOTES

1. The structure of the list is as follows:

(i) entries in the list are numbered consecutively by an identification number;

(ii) each entry is concerned with one periodical only and gives for each periodical

– the original title of the periodical
– the publisher
– the address of the publisher;

(iii) the language of the periodical is indicated opposite the title: E stands for English, F for French, G for German, I for Italian, J for Japanese, Pt for Portuguese, R for Russian, Sp for Spanish, Sw for Swedish;

(iv) where the periodical is published in two or more parts, or sections, these are indicated under the title (with a short indication of the fields covered by each one, if not obvious from their subtitle);

(v) where the publication of a periodical has been discontinued, the particulars concerning the periodical have been shown inside parentheses and the date of discontinuation has been indicated.

2. The titles are arranged alphabetically, subject to the following:

(i) where the title of the periodical contains the name of a learned society, association or organization, etc., the title appears in the listing under the name of the learned society, association, or organization, etc., e.g. "Journal of the American Ceramic Society" appears under "American Ceramic Society, Journal;"

(ii) the only secondary publication included as an exception in this list is indicated after the listing of the primary publications under identification number 169;

(iii) when several editions of a periodical exist in different languages (e.g., by cover-to-cover translation), the periodical is listed according to the title of the *English edition*, if any, with the original title given in parentheses. If no English edition exists, the original title is used for purposes of the alphabetical list;

(iv) where the title has changed, the entry appears in full under the new title, the former title preceded by "ex-" being indicated in parentheses next to or below the new title. For reference purposes, the former titles are reproduced in the present list in their correct alphabetical order, but in parentheses with a cross-reference indication of the new title. The entry of the former title carries no identification number.

3. The names of Japanese publishers are indicated in English, followed by the transliteration of the Japanese name into Latin characters in parentheses.

4. The names and addresses of the publishers of the original editions of Russian periodicals are indicated below the names and addresses of the publishers of cover-to-cover translations into English. The language of each edition of the periodical is indicated, in this case, according to the respective publisher.

5. Whenever the periodical contains, in addition to full-text articles in the language, or languages, in which it is published, translations of abstracts, or of abstracts and part of the text, into other languages, this fact is indicated by one or two asterisks next to the indication of the languages (see paragraph 1(iii) above) as follows:

* only abstract in this language
** abstract and part of text in this language.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are :

- the May 1978 edition of the *Guide* in English,
- the March 1978 editions of the *Guide* in French and German,
- the Annexes dated April 28, 1978, in English and French.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT) as of July 6, 1978

Brazil	April 9, 1978(1)
Cameroon	January 24, 1978(1)
Central African Empire	January 24, 1978(1)
Chad	January 24, 1978(1)
Congo	January 24, 1978(1)
France*	February 25, 1978(1)
Gabon	January 24, 1978(1)
Germany (Federal Republic of)	January 24, 1978(1)
Japan	October 1, 1978(2)
Luxembourg*	April 30, 1978(1)
Madagascar	January 24, 1978(1)
Malawi	January 24, 1978(1)
Senegal	January 24, 1978(1)
Soviet Union	March 29, 1978(1)
Sweden	May 17, 1978(1)
Switzerland*	January 24, 1978(1)
Togo	January 24, 1978(1)
United Kingdom	January 24, 1978(1)
United States of America*	January 24, 1978(1)

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, and this State may be designated in international applications as from the same date.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES:
THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (Article 7 and Annex C of the Agreement).	Japanese
Soviet Union		
State Committee for Inventions and Discoveries of the USSR Council of Ministers (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, pages 131 and 136 of the PCT Gazette, Issue No. 02/1978).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, pages 118 and 123 of the PCT Gazette, Issue No. 02/1978).	Danish English Finnish Icelandic Norwegian Swedish

*No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,
(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,
(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,
(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,
(v) mere presentations of information,
(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs."

International Searching Authorities: their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
United States of America		
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, pages 140 and 144 of the PCT Gazette, Issue No. 02/1978).	English
EPO		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, page 109 of the PCT Gazette, Issue No. 02/1978).	English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,
(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,
(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,
(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,
(v) mere presentations of information,
(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs."

AGREEMENT BETWEEN THE UNITED STATES PATENT AND TRADEMARK OFFICE AS INTERNATIONAL SEARCHING AUTHORITY AND THE INTERNATIONAL BUREAU OF WIPO : AMENDMENT TO ANNEX A

The United States Patent and Trademark Office has notified the International Bureau of the inclusion, pursuant to Article 15(2) of the Agreement, of Brazil in the list of countries set out in item (i) of Annex A to the Agreement.**

** Published in the PCT Gazette, Issue No.02/1978, pages 139 to 145.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (Article 7 and Annex C of the Agreement).	Japanese
Soviet Union		
State Committee for Inventions and Discoveries of the USSR Council of Ministers (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, pages 131 and 136 of the PCT Gazette, Issue No. 02/1978).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, pages 118 and 123 of the PCT Gazette, Issue No. 02/1978).	Danish English Finnish Icelandic Norwegian Swedish

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

International Preliminary Examining Authorities: their list and certain data concerning them (Continued)

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
United Kingdom Patent Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*. (See Article 6 of the Agreement, page 126 of the PCT Gazette, Issue No. 02/1978).	English (but only where it is the language of filing or publication)
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 of the Agreement, page 109 of the PCT Gazette, Issue No. 02/1978).	English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;
(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,
(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,
(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,
(v) mere presentations of information,
(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

RECEIVING OFFICES

COMPETENT RECEIVING OFFICES

Contracting State of which the applicant is a national or resident	Competent receiving Office
Brazil	National Institute of Industrial Property (Rio de Janeiro)
Cameroon	International Bureau of WIPO (Geneva)
Central African Empire	International Bureau of WIPO (Geneva)
Chad	International Bureau of WIPO (Geneva)
Congo	International Bureau of WIPO (Geneva)
France	National Institute of Industrial Property (Paris) or European Patent Office*
Gabon	International Bureau of WIPO (Geneva)
Germany (Federal Republic of)	German Patent Office (Munich) or European Patent Office
Japan	Japanese Patent Office (Tokyo)
Luxembourg	Ministry of National Economy, Patent Office (Luxembourg) or European Patent Office
Madagascar	Ministry of Industry and Commerce, Department of Industry and Mines (Antananarivo)
Malawi	Ministry of Justice, Department of the Registrar General (Blantyre)
Senegal	International Bureau of WIPO (Geneva)
Soviet Union	State Committee for Inventions and Discoveries of the USSR Council of Ministers (Moscow)
Sweden	Royal Patent and Registration Office (Stockholm) or European Patent Office
Switzerland	Federal Bureau of Intellectual Property (Berne) or European Patent Office
Togo	International Bureau of WIPO (Geneva)
United Kingdom	Patent Office (London) or European Patent Office
United States of America	United States Patent and Trademark Office (Washington)

* Where the applicant is a resident, the applicable national law requires that an international application not claiming the priority of an earlier application filed in France, may be filed at the National Institute of Industrial Property (Paris).

Luxembourg
Ministry of National Economy, Patent Office

Waived entirely

United States of America
United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

Art. 1--Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973.

PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION, OR OTHER) TO FILE A NATIONAL APPLICATION

The ***United States of America*** are the only State party to the Patent Cooperation Treaty the national law of which requires that, for the purposes of that State, at least one of the applicants must be the inventor.

Sections 111, 117 and 118 of Title 35 of the United States Code read as follows:

"**111. Application for patent**

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

118. Filing by other than inventor.

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the inventor or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

RULES OF PROCEDURE OF THE ASSEMBLY OF THE INTERNATIONAL PATENT COOPERATION (PCT) UNION

Adopted on April 14, 1978

Rule 1: Application of the General Rules of Procedure

The Rules of Procedure of the Assembly of the International Patent Cooperation (PCT) Union shall consist of the General Rules of Procedure of WIPO, supplemented and amended by the provisions set forth hereinafter.

Rule 2: Special Observers

(1) The following shall be invited as "special observers" to all sessions of the Assembly:

(i) States not members of the PCT Union which contribute to the budget of the PCT Union,

(ii) intergovernmental authorities having the power to grant patents effective in one or more States members of the PCT Union.

(2) Special observers shall have the same rights in the sessions of the Assembly as States members of the Assembly, except the right to vote.

Rule 3: Draft Agenda

The draft agenda of each session shall be drawn up by the Director General. In the case of ordinary sessions, such draft shall follow the instructions of the Executive Committee once the Executive Committee is established (see PCT Articles 53(9) and 54(6)(a)). In the case of extraordinary sessions, the said draft shall include the item or items mentioned in the request referred to in Article 53(11)(c) of the Patent Cooperation Treaty.

Rule 4: Publication of the Report

The report on the work of each session, or a summary drawn up by the International Bureau, shall be published in the *Gazette* of the PCT Union and in the reviews of the World Intellectual Property Organization *La Propriété industrielle* and *Industrial Property*.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are :

- the May 1978 edition of the *Guide* in English,
- the March 1978 editions of the *Guide* in French and German,
- the Annexes dated April 28, 1978, in English and French.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

AGREEMENT BETWEEN THE JAPANESE PATENT OFFICE AND THE INTERNATIONAL BUREAU OF WIPO

Agreement between THE PATENT OFFICE OF JAPAN AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the establishment and functioning of the Patent Office of Japan as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

Preamble

WHEREAS the States party to the Patent Cooperation Treaty, done at Washington on June 19, 1970, constitute a Union for cooperation in the filing, searching, and examining of applications for the protection of inventions, and for rendering special technical services, the said Union being known as the International Patent Cooperation Union;

AND WHEREAS Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty provide, inter alia, that the appointment of a national Office as an International Searching and International Preliminary Examining Authority by the Assembly of the International Patent Cooperation Union shall be subject to the conclusion of an Agreement between the national Office and the International Bureau;

AND WHEREAS it is recognized that the participation of the Patent Office of Japan as an International Searching and International Preliminary Examining Authority in matters affecting international search and international preliminary examination will contribute to the successful implementation of the Patent Cooperation Treaty;

IT IS HEREBY AGREED between the Patent Office of Japan, hereinafter called "the Authority," and the International Bureau of the World Intellectual Property Organization, hereinafter called the "International Bureau," as follows:

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement, "Treaty" means the Patent Cooperation Treaty done at Washington on June 19, 1970; "Regulations" means the Regulations under the Treaty; "Administrative Instructions" means the Administrative Instructions under the Treaty; "Article," except where otherwise specified, means an Article of the Treaty; "Rule" means a Rule of the Regulations; "Assembly" means the Assembly as defined in Article 2(xvii) of the Treaty; "International Bureau" means the International Bureau as defined in Article 2(xix) of the Treaty; "Contracting State" refers to a Contracting State to the Treaty.

(2) All other terms and expressions used in this Agreement which are also used in the Treaty are to be understood in the same sense as that in which they are used in the Treaty.

Article 2

Basic Obligation

(1) The Authority shall, except in respect of subject matter which, pursuant to Article 7 of this Agreement, the Authority is not required to search or to examine, carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under, the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be carried out under the Patent Cooperation Treaty. The Authority undertakes to apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, each render, to the extent possible, assitance to the other in relation to the performance, by the other, of its functions thereunder.

Article 3

Competence of Authority

(1) Subject to Article 7 of this Agreement, the Authority undertakes to act as an International Searching Authority for all international applications filed with receiving Offices of, or acting for, the Contracting States specified in Annex A of this Agreement, provided that the receiving Office of the State concerned specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) Subject to Articles 6 and 7 of this Agreement, the Authority undertakes to act as an International Preliminary Examining Authority for all international applications filed with the receiving Offices of, or acting for, the Contracting States referred to in paragraph (1) provided that the receiving Office of the State concerned specifies the Authority for that purpose. In respect of the international applications filed in the languages specified in Annex A of this Agreement, the Authority shall carry out examination without requiring translations of such applications.

Article 4

Personnel Requirements

(1) The Authority shall, for the purposes of carrying out international search and international preliminary examination, respectively, make available the staff at its disposal, to the extent required by the workload, having sufficient technical qualifications to carry out such search or such examination. The staff of the Authority shall be maintained at a level meeting the minimum requirement as set out in Rules 36.1(i) and 63.1(i).

(2) The Authority shall maintain a staff which is capable of searching and examining in all technical fields and which has language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Article 5

Documentation Facilities

The Authority shall use for search and for examination purposes all documentation facilities ordinarily at the disposal of the staff referred to in Article 4 of this Agreement and shall maintain and use for the said purposes at least the minimum documentation referred to in the Regulations properly arranged for search or for examination purposes (Rules 36.1(ii) and 63.1(ii)).

Article 6

Transitional Limitation on Number of International Applications Accepted for International Preliminary Examination

For a transitional period starting upon the entry into force of this Agreement and ending on a date to be agreed upon between the Authority and the International Bureau, the Authority shall apply the limitation on the number of international applications which the Authority will accept for international preliminary examination specified in Annex B of this Agreement.

Article 7

Subject Matter Not Required to be Searched or Examined

The Authority will not search, by virtue of Article 17(2)(a)(i), or will not examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex C of this Agreement.

Article 8

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex D of this Agreement.

(2) The Authority shall, to the extent and under the conditions set out in Annex D of this Agreement, refund the whole or part of the search fee paid where a search report can be wholly or partially based on the results of an earlier international search made by the Authority (Rule 16.3).

Article 9

Examination of Protest

The Authority shall provide, in accordance with Rules 40.2(c) and (d) and 68.3(c) and (d), a three-member board or special instance to examine protests in respect of additional fees where the international application is found not to comply with the requirement of unity of invention. The said three-member board or special instance is designated in Annex E of this Agreement.

Article 10

Time Limit for Preparation of International Search Reports or Declarations and International Preliminary Examination Reports

(1) Subject to paragraph (2), the Authority shall, within the time limits specified in the first two sentences of Rule 42.1, establish international search reports, or declarations under Article 17(2)(a) and, within the maximum periods specified in Rule 69.1(a)(i) and (ii), establish international preliminary examination reports.

(2) During the period beginning on the date of the Authority's appointment and ending on January 24, 1981, the Authority may establish international search reports, in exceptional cases, within a time limit which exceeds that specified in paragraph (1) above by two months, provided that, in any given case, this extension does not go beyond the expiration of the 18th month after the priority date of an international application.

Article 11

Classification

Any other classification of the subject matter which the Authority will indicate for the purposes of Rules 43.3(a) and (b) and 70.5(a) and (b), in addition to the International Patent Classification, is specified in Annex F of this Agreement.

Article 12

Language of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use one of the languages specified in Annex G of this Agreement.

Article 13

Information Services and Technical Assistance

The Authority shall supply the International Bureau with such information services and such other contributions to the technical assistance program under Chapter IV of the Treaty as are practicable within the existing facilities and budgetary means of the Authority and as may be agreed.

Article 14

Entry Into Force of the Agreement

This Agreement shall enter into force once all the following conditions are fulfilled:

(i) it is approved by the Assembly;

(ii) it is signed by the Authority and the International Bureau; and

(iii) the Treaty has entered into force for Japan.

The Agreement together with an indication of the date of its entry into force shall be published in the Gazette by the International Bureau.

Article 15

Duration and Renewability of the Agreement

Subject to Article 17 of this Agreement, this Agreement shall remain in force for a period of 10 years. It shall be renewable for a period of 10 years subject to the approval of, and the extension of the appointment of the Authority for that period by, the Assembly.

Article 16

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may be made to this Agreement by agreement between the parties hereto and shall take effect upon approval of those amendments by the Assembly, or, if a later date is specified in the amendments, on that date.

(2) Without prejudice to the provisions of paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the parties hereto and shall take effect upon notification in the Gazette or, if a later date is specified in the amendments, on that date.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the Contracting States and languages listed in Annex A of this Agreement;

(ii) increase the number of international applications to be processed as specified in Annex B of this Agreement;

(iii) add to the subject matter listed in Annex C of this Agreement;

(iv) subject to paragraph (4), amend the schedule of fees and other charges contained in Annex D of this Agreement;

(v) delete any classification listed in Annex F of this Agreement.

(4) Normally, the schedule of fees and other charges shall not be amended during the first year after the entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment of the schedule. Any amendment of the schedule shall take effect one month after publication of the notification of the amendment in the Gazette pursuant to paragraph (5), or, if a later date has been specified by the Authority, on the date specified by the Authority.

(5) The International Bureau shall publish promptly in the Gazette any amendment of this Agreement agreed between the parties and approved by the Assembly under paragraph (1), any amendment of this Agreement agreed between the parties under paragraph (2), and any notification received by it under paragraph (3).

Article 17

Termination of the Agreement

(1) This Agreement shall terminate:

(i) if the Director General of the Patent Office of Japan gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Director General of the Patent Office of Japan written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Geneva, this 15th day of July 1978, in two originals in the English and Japanese languages, each text being equally authentic.

For the Patent Office of Japan:
(signed) Z. Kumagai
Director General

For the International Bureau:
(signed) A. Bogsch
Director General

ANNEX A

CONTRACTING STATES AND LANGUAGES SPECIFIED FOR THE PURPOSES OF ARTICLE 3 OF THE AGREEMENT

(a) Contracting States

Japan

(b) Languages

Japanese

Note

At the first session of the Assembly of the PCT Union (April 1978), the Delegation of Japan offered the services of the Japanese Patent Office as International Searching and International Preliminary Examining Authority under this Agreement to nationals and residents of all those States in Asia that would become party to the PCT, on the same conditions as those services would be available to Japanese nationals.

ANNEX B

LIMITATION ON NUMBER OF INTERNATIONAL APPLICATIONS PROCESSED SPECIFIED FOR THE PURPOSES OF ARTICLE 6 OF THE AGREEMENT

The limitation on the number of international applications which the Authority will accept for international preliminary examination for the purposes of Article 6 of the Agreement is as follows:

6,000 international applications in each full calendar year during which the limitation applies.

ANNEX C

SUBJECT MATTER SPECIFIED UNDER ARTICLE 7 OF THE AGREEMENT

The subject matter set forth in Rule 39.1 or Rule 67.1, which, under Article 7, is not excluded from search or examination, is the following:

None

ANNEX D

SCHEDULE OF FEES AND CHARGES OF THE AUTHORITY AND EXTENT AND CONDITIONS OF REFUNDS OF THE SEARCH FEE FOR THE PURPOSES OF ARTICLE 8 OF THE AGREEMENT

(a) Schedule of fees and charges

Fee	Amount Japanese Yen
Search fee (Rule 16.1(a))	34,000
Additional fee (Rule 40.2(a))	27,000
Preparing copies of cited documents (Rule 44.3(b))	320 per page
Preliminary examination fee (Rule 58.1(b))	12,000
Additional fee (Rule 68.3(a))	9,000
Preparing copies of cited documents (Rule 71.2(b))	320 per page
Preparing copies of requested documents (Rule 94.1)	320 per page

(b) Conditions and extent of refunds of the search fee where the search report can be wholly or partially based on the results of an earlier international search (Rule 16.3)

The conditions and extent of refunds of the search fee in cases where the search reports can be wholly or partially based on the results of an earlier international search are the following:

The Authority shall refund 12,000 Japanese Yen, on the request of the applicant, where the Authority has been able to make use of a considerable part of the earlier international search report.

ANNEX E

DESIGNATION FOR THE PURPOSES OF ARTICLE 9 OF THE AGREEMENT

For the purposes of Article 9, a three-member board, appointed by the Director General of the Authority to that effect, is designated.

ANNEX F

CLASSIFICATION SPECIFIED FOR THE PURPOSES OF ARTICLE 11 OF THE AGREEMENT

The classification specified for the purposes of Article 11 of the Agreement is:

Japanese Patent Classification

ANNEX G

LANGUAGES SPECIFIED FOR THE PURPOSES OF ARTICLE 12 OF THE AGREEMENT

The languages specified for the purposes of Article 12 of the Agreement are:

Japanese

RECEIVING OFFICES

COMPETENT RECEIVING OFFICES

Contracting State of which the applicant is a national or resident	Competent receiving Office
Brazil	National Institute of Industrial Property (Rio de Janeiro)

United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

Art. 1--Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973.

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The ***United States of America*** is the only State party to the Patent Cooperation Treaty, the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

Switzerland is the only State party to the Patent Cooperation Treaty, the national law of which contains provisions relating to international-type search.

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX : International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15(5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121(2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

"MINIMUM DOCUMENTATION" UNDER RULE 34.1(b)(iii) OF THE REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

The list of published items of non-patent literature as agreed upon by the International Searching Authorities on April 12, 1978 has been published by the International Bureau in issue No. 02/1978 of the Gazette of International Patent Applications (pages 153 to 169).

The following changes in relation to periodicals identified in the said list by numbers 79 and 129 are hereby published:

Periodical identified under No. 79

The title of this periodical is changed, as from March 1978, to:

"IEEE--Transactions on Components, Hybrids, and Manufacturing Technology,"

Periodical identified under No. 129

The title of this periodical is changed, as from Vol. 33, Nos. 1-2, 1978, to:

"Philips Journal of Research."

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are :

- the May 1978 edition of the *Guide* in English,
- the March 1978 editions of the *Guide* in French and German,
- the Annexes dated April 28, 1978, in English and French.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT) as of October 19, 1978

Brazil	April 9, 1978(1)
Cameroon	January 24, 1978(1)
Central African Empire	January 24, 1978(1)
Chad	January 24, 1978(1)
Congo	January 24, 1978(1)
Denmark*	December 1, 1978(2)
France*	February 25, 1978(1)
Gabon	January 24, 1978(1)
Germany (Federal Republic of)	January 24, 1978(1)
Japan	October 1, 1978(2)
Luxembourg*	April 30, 1978(1)
Madagascar	January 24, 1978(1)
Malawi	January 24, 1978(1)
Senegal	January 24, 1978(1)
Soviet Union	March 29, 1978(1)
Sweden	May 17, 1978(1)
Switzerland*	January 24, 1978(1)
Togo	January 24, 1978(1)
United Kingdom	January 24, 1978(1)
United States of America*	January 24, 1978(1)

---

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, and this State may be designated in international applications as from the same date.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

*No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
United States of America		
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, PCT Gazette, No. 02/1978, pages 140 and 144).	English
EPO		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES:
THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

Luxembourg
Ministry of National Economy, Patent Office

Waived entirely

Sweden
Royal Patent and Registration Office

Waived except as to the international search report (including the indication referred to in Article 17(2)(b)), or the declaration referred to in Article 17(2)(a), in the language in which the international application is filed and, where applicable, is translated.

United States of America
United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The *United States of America* is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"**117. Death or incapacity of inventor**

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"**118. Filing by other than inventor**

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"**373. Improper applicant**

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

Denmark*, Sweden and Switzerland are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15(5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the filing of the patent application, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX : International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15(5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121(2)) shall be paid at the same time.

---

* The Patent Cooperation Treaty will enter into force for this State on December 1, 1978; the provisions of its national law relating to international-type search will be published in a later issue of this Gazette preceding that date.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

*GUIDELINES FOR THE PREPARATION OF ABSTRACTS OF INTERNATIONAL APPLICATIONS UNDER THE PATENT COOPERATION TREATY (PCT) **

INTRODUCTION

1. In order that abstracts of international applications established under the PCT may reach the maximum level of quality and uniformity it is recommended that the guidelines for their preparation which are presented below be followed.

2. Abstractors should give due consideration to the specific requirements in respect of abstracts which are contained in the Regulations under the PCT (Rule 8). For convenience, this Rule and certain other relevant provisions of the PCT are set out in the Annex to these guidelines.

3. Particular attention is drawn to the fact that, where the international application contains drawings, the abstract shall, on publication, be accompanied by one or more figures of the drawings. The abstract should be drafted with this requirement in mind.

THE GUIDELINES

Definition

4. AN ABSTRACT OF AN INTERNATIONAL APPLICATION IS A CONCISE STATEMENT OF ITS TECHNICAL DISCLOSURE. The abstract should enable the reader thereof, regardless of his degree of familiarity with patent documents, to ascertain quickly the character of the subject matter covered by the technical disclosure. The abstract should constitute an efficient scanning tool for searching in the particular technical field, particularly by making it possible to assess whether there is a need to consult the application itself. The abstract merely serves the purpose of technical information and cannot be taken into account for any other purpose, particularly not for the purpose of interpreting the scope of the protection sought.

Presentation

5. THE ABSTRACT SHOULD BE CLEAR AND AS CONCISE AS THE DISCLOSURE PERMITS. It should preferably be in the range of 50 to 150 words (PCT, Rule 8.1*(b)*); while a greater number of words is not excluded, this number should not exceed 250. The abstract may contain chemical or mathematical formulae and tables. Phrases should not be used which can be implied, such as "This disclosure concerns," "The invention defined by this disclosure" and "This invention relates to." The legal phraseology used in patent claims often employing such words as "said" and "means" should also be avoided.

Content

6. THE ABSTRACT SHOULD BE PRIMARILY DIRECTED TO THAT WHICH IS NEW IN THE ART TO WHICH THE INVENTION PERTAINS. If the invention is in the nature of a modification to an apparatus, process, product or composition, the abstract should be directed to the technical disclosure of the modification. If the invention is of a basic nature, the entire technical disclosure may be new in the art and the abstract should be directed to the entire disclosure. If an international application relating to a product, particularly a compound or composition, also contains significant disclosure of its method of preparation or use, this matter should also be abstracted. If the disclosure involves alternatives, the abstract should deal with the preferred alternative and identify the others if this can be done succinctly; if this cannot be done, it should mention that they exist and whether they differ substantially from the preferred alternative.

* Adaptation of "General Guidelines for the Preparation of Abstracts of Patent Documents" (ICIREPAT Recommendation ST.12/A) taking into account the specific requirements of the PCT.

7. Where applicable, and provided the international application contains the information, the abstract should include at least the following: (1) if the invention is a machine, apparatus, or system, its organization and operation; (2) if the invention is an article, its method of making; (3) if the invention is a chemical compound, its identity and preparation; (4) if the invention is a mixture, its ingredients; (5) if the invention is a process, the steps. Extensive mechanical and design details of apparatus should not be given.

8. With regard particularly to chemical inventions for compounds or compositions, the general nature of the compound of composition should be given as well as the use thereof, e.g., "the compounds are of the class of alkyl benzene sulfonyl ureas, useful as oral anti-diabetics." Exemplification of a class should be by a typical example. For processes, the type of reaction, reagents and process conditions should be stated, generally illustrated by a single example. Wherever applicable, the chemical formula should be given which, among all the formulae contained in the international application, best characterizes the invention.

9. The abstract shall not contain statements on the alleged merits or value of the claimed invention or on its speculative application.

Sample Abstracts

10. The samples appearing below illustrate abstracts prepared in accordance with the aforementioned principles:

(a) A heart valve with an annular valve body defining an orifice and having a plurality of struts forming a pair of cages on opposite sides of the orifice. A spherical closure member is captively held within the cages and is moved by blood flow between the open and closed positions of the check valve fashion. A slight leak or backflow is provided in the closed position by making the orifice slightly larger than the closure member. Blood flow is maximized in the open position of the valve by providing an inwardly convex contour on the orifice-defining surfaces of the body. An annular rib is formed in a channel around the periphery of the valve body to anchor a suture ring used to secure the valve within a heart.

(b) A method of sealing, by application of heat, overlapping closure panels of a folding box made from paperboard having an extremely thin coating of moisture proofing thermoplastic material on opposite surfaces. Heated air is directed at the surfaces to be bonded, the temperature of the air at the point of impact on the surfaces being above the char point of the board. The duration of application of heat is made so brief, by a corresponding high rate of advance of the boxes through the air stream, that the coating on the reverse side of the panels remains substantially non-tacky. The bond forms at any one surface point immediately after heating for a period of time less than the total time of exposure to heated air of that point. Under such conditions the heat applied to soften the thermoplastic coating is dissipated after completion of the bond by absorption into the board acting as a heat sink without the need for cooling devices.

(c) Amides are produced by reacting an ester of a carboxylic acid with an amine, using as catalyst an alkoxide of an alkali metal. The ester is first heated to at least 70°C under a pressure of no more than 500 mm. of mercury to remove moisture and acid gases which would prevent the reaction, and then converted to an amide without heating.

Checklist

11. It is recommended that the abstractor use the checklist appearing below to assist him in following these guidelines. In using the checklist, the abstractor should, after having studied the disclosure to be abstracted, place a check in the second column after the applicable terms listed in the first column. The requirements listed in the third column corresponding to the checked items of the first column should be borne in mind by the abstractor as he prepares his abstract. Finally, the abstractor may compare his finished abstract with the checked requirements and place a corresponding checkmark in the fourth column if he is satisfied that the requirements have been met.

If the invention is a(n)	Check here	The abstract should deal with:	If so, check here
Article		its identity, use; construction, organization; method of manufacture	
Chemical compound		its identity (structure if appropriate); method of preparation; properties, uses	
Mixture		its nature, properties, use; essential ingredients (identity, function); proportion of ingredients, if significant; preparation	
Machine, apparatus or system		its nature, use; construction, organization; operation	
Process or operation		its nature and characterizing features; material and conditions employed; product, if significant; nature of and relationship between the steps, if more than one	

If the disclosure involves alternatives	**Check here**	**the abstract should deal with the preferred alternative and identify the others if this can be done succinctly; if this cannot be done, it should mention that they exist and whether they differ substantially from the preferred alternative**	**Check here**

Total number of words in range 50 - 150 ☐ ; if not, then less than 250 ☐

(Annex follows)

ANNEX

Relevant PCT Provisions Regarding the Preparation of Abstracts of International Applications

Article 3

The International Application

3. The abstract merely serves the purpose of technical information and cannot be taken into account for any other purpose, particularly not for the purpose of interpreting the scope of the protection sought.

Rule 3

The Request (Form)

3.3 Check list

(a) The printed form shall contain a list which, when filled in, will show:

(iii) the number of that figure of the drawings which the applicant suggests should accompany the abstract when the abstract is published on the front page of the pamphlet and in the Gazette; in exceptional cases, the applicant may suggest more than one figure.

Rule 8

The Abstract

8.1 Contents and Form of the Abstract

(a) The abstract shall consist of the following:

(i) a summary of the disclosure as contained in the description, the claims, and any drawings; the summary shall indicate the technical field to which the invention pertains and shall be drafted in a way which allows the clear understanding of the technical problem, the gist of the solution of that problem through the invention, and the principal use or uses of the invention;

(ii) where applicable, the chemical formula which, among all the formulae contained in the international application, best characterizes the invention.

(b) The abstract shall be as concise as the disclosure permits (preferably 50 to 150 words if it is in English or when translated into English).

(c) The abstract shall not contain statements on the alleged merits or value of the claimed invention or on its speculative application.

(d) Each main technical feature mentioned in the abstract and illustrated by a drawing in the international application shall be followed by a reference sign, placed between parentheses.

8.2 Failure to Suggest a Figure to be Published with the Abstract

If the applicant fails to make the indication referred to in Rule 3.3*(a)*(iii), or if the International Searching Authority finds that a figure or figures other than that figure or those figures suggested by the

applicant would among all the figures of all the drawings, better characterize the invention, it shall indicate the figure or figures which it so considers. Publications by the International Bureau shall then use the figure or figures so indicated by the International Searching Authority. Otherwise, the figure or figures suggested by the applicant shall be used in the said publications.

8.3 Guiding Principles in Drafting

The abstract shall be so drafted that it can efficiently serve as a scanning tool for purposes of searching in the particular art, especially by assisting the scientist, engineer or researcher in formulating an opinion on whether there is a need for consulting the international application itself.

Rule 11

Physical Requirements of the International Application

11.10 Drawings, Formulae, and Tables, in Text Matter

(a) The request, the description, the claims and the abstract shall not contain drawings.

(b) The description, the claims and the abstract may contain chemical or mathematical formulae.

(c) The description and the abstract may contain tables; any claim may contain tables only if the subject matter of the claim makes the use of tables desirable.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are :

- the May 1978 edition of the *Guide* in English,
- the March 1978 editions of the *Guide* in French and German,
- the Annexes dated April 28, 1978, in English and French.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)
as of November 9, 1978

Brazil	April 9, 1978(1)
Cameroon	January 24, 1978(1)
Central African Empire	January 24, 1978(1)
Chad	January 24, 1978(1)
Congo	January 24, 1978(1)
Denmark*	December 1, 1978(2)
France*	February 25, 1978(1)
Gabon	January 24, 1978(1)
Germany (Federal Republic of)	January 24, 1978(1)
Japan	October 1, 1978(2)
Luxembourg*	April 30, 1978(1)
Madagascar	January 24, 1978(1)
Malawi	January 24, 1978(1)
Senegal	January 24, 1978(1)
Soviet Union	March 29, 1978(1)
Sweden	May 17, 1978(1)
Switzerland*	January 24, 1978(1)
Togo	January 24, 1978(1)
United Kingdom	January 24, 1978(1)
United States of America*	January 24, 1978(1)

---

* Not bound by Chapter II of the Patent Cooperation Treaty.

(1) Nationals and residents of this State are entitled to file international applications as from June 1, 1978, and this State may be designated in international applications as from that date.

(2) Nationals and residents of this State are entitled to file international applications as from the date indicated, and this State may be designated in international applications as from the same date.

NATIONAL AND REGIONAL OFFICES AND THE INTERNATIONAL BUREAU: THEIR NAMES, ADDRESSES, ETC.

Brazil

Name: Instituto Nacional da Propriedade Industrial
National Institute of Industrial Property
Location and mailing address: Praça Mauá No. 7, 12º andar, 20.000 Rio de Janeiro - RJ, Brazil
Telegraphic address: MIC for INPI, Rio de Janeiro, Brazil

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

*No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
United States of America		
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, PCT Gazette, No. 02/1978, pages 140 and 144).	English
EPO		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
United Kingdom Patent Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1*. (See Article 6 of the Agreement, PCT Gazette, No. 02/1978, page 126).	English (but only where it is the language of filing or publication)
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs.

RECEIVING OFFICES

COMPETENT RECEIVING OFFICES

Contracting State of which the applicant is a national or resident	Competent receiving Office
Brazil	National Institute of Industrial Property (Rio de Janeiro)
Cameroon	International Bureau of WIPO (Geneva)
Central African Empire	International Bureau of WIPO (Geneva)
Chad	International Bureau of WIPO (Geneva)
Congo	International Bureau of WIPO (Geneva)
Denmark	Patent and Trademark Office (Copenhagen)
France	National Institute of Industrial Property (Paris) or European Patent Office*
Gabon	International Bureau of WIPO (Geneva)
Germany (Federal Republic of)	German Patent Office (Munich) or European Patent Office
Japan	Japanese Patent Office (Tokyo)
Luxembourg	Ministry of National Economy, Patent Office (Luxembourg) or European Patent Office
Madagascar	Ministry of Industry and Commerce, Department of Industry and Mines (Antananarivo)
Malawi	Ministry of Justice, Department of the Registrar General (Blantyre)
Senegal	International Bureau of WIPO (Geneva)
Soviet Union	USSR State Committee for Inventions and Discoveries (Moscow)
Sweden	Royal Patent and Registration Office (Stockholm) or European Patent Office
Switzerland	Federal Bureau of Intellectual Property (Berne) or European Patent Office
Togo	International Bureau of WIPO (Geneva)
United Kingdom	Patent Office (London) or European Patent Office **
United States of America	United States Patent and Trademark Office (Washington)

* Where the applicant is a resident of France, the applicable national law requires that an international application not claiming the priority of an earlier application filed in France, must be filed at the National Institute of Industrial Property (Paris).

** A United Kingdom resident may only file direct at the European Patent Office after having obtained written authorization from the Patent Office (London).

RECEIVING OFFICES: THEIR REQUIREMENTS AS TO LANGUAGES AND COPIES IN WHICH INTERNATIONAL APPLICATIONS SHALL BE FILED WITH THEM AND THE COMPETENT INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES SPECIFIED BY THEM

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

This information was last published on pages 267 to 277 of the PCT Gazette, Issue No. 05/1978 under the following headings:

- Languages required by, and National Fees to be paid to, Designated (or Elected) Offices
- Obligation to indicate the Name and Certain other Data concerning the Inventor
- National Offices which entirely or in part waived their Rights to any Communication under Article 20
- Provisions of the Laws of Contracting States Party to a Regional Patent Treaty, relevant to Article 45(2)
- Warning and Information concerning the Provisions of the Laws of Contracting States in respect of the Question Who is Qualified (Inventor, Successor in Title of the Inventor, Owner of the Invention, or other) to File a National Application
- Provisions of the National Laws of Contracting States concerning International-Type Search

The only change to the information so published is a correction of footnote (1) relating to the requirements of the European Patent Office in connection with the indication of the name and certain other data concerning the inventor (see pages 271 and 272 of PCT Gazette, Issue No. 05/1978). Footnote (1) should read as follows:

"(1) Where the priority of an earlier application is claimed in the international application, 20 months (where Article 22 applies) or 25 months (where Article 39 applies) from the filing date of the earlier application; otherwise 20 months (where Article 22 applies) or 25 months (where Article 39 applies) from the filing date of the international application; a further period of not less than two weeks and not more than six weeks from the expiration of the applicable time limit may be fixed for the furnishing of any of the data which is missing at that time."

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION (PCT) UNION

ASSEMBLY

Second Session
(First Ordinary)

(Geneva, September 25 to October 3, 1978)

Note*

The Assembly of the International Patent Cooperation (PCT) Union held its second session (first ordinary) in Geneva from September 25 to October 3, 1978. The Assembly held joint meetings with other Governing Bodies of WIPO except during its consideration of certain substantive questions concerned with the amendment and interpretation of the Regulations under the Patent Cooperation Treaty, the establishment of official texts of the Patent Cooperation Treaty and certain oral reports, in particular, concerning the Administrative Instructions.

Fourteen of the 19 States members of the Assembly were represented: Brazil, Cameroon, France, Gabon, Germany (Federal Republic of), Japan (special observer until September 30, 1978), Luxembourg, Madagascar, Senegal, Soviet Union, Sweden, Switzerland, United Kingdom, United States of America.

The following 18 States and two intergovernmental organizations were represented in the capacity of special observers: Australia, Austria, Belgium, Canada, Denmark (member as of December 1, 1978), Egypt, Finland, Hungary, Iran, Ireland, Israel, Japan (member as of October 1, 1978), Netherlands, Norway, Philippines, Romania, Spain, Yugoslavia; the Office of the African Intellectual Property Organization (OAPI) and the European Patent Office (EPO); whereas the following 22 States and four intergovernmental organizations were represented in the capacity of observers: Algeria, Argentina, Bulgaria, Czechoslovakia, German Democratic Republic, Ghana, Holy See, Iraq, Italy, Ivory Coast, Kenya, Libyan Arab Jamahiriya, Liechtenstein, Mauritius, Mexico, Nigeria, Poland, Portugal, Sri Lanka, Tunisia, Uruguay, Zambia; United Nations (UN), Commission of the European Communities (CEC), Council for Mutual Economic Assistance (CMEA), Secretariat of the Interim Committee for the Community Patent. In addition, the following six international non-governmental organizations also participated as observers**: Council of European Industrial Federations (CEIF), European Federation of Agents of Industry in Industrial Property (FEMIPI), International Association for the Protection of Industrial Property (IAPIP), International Federation of Inventors' Associations (IFIA), International Federation of Patent Agents (FICPI), Union of Industries of the European Community (UNICE). The list of participants follows this Note.

Activities of the International Bureau concerning the PCT Union. The Assembly approved the report of the Director General on the activities of the International Bureau from the date of entry into force of the PCT to the time of the session of the Assembly.

---

* This Note has been prepared by the International Bureau.

** The participation of these observer organizations was limited to the matters dealt with at the meeting at which substantive questions were discussed.

Financial regulations of the PCT Union; Auditors for PCT Union; Working Capital Fund. The Assembly adopted the financial regulations of the PCT Union. The Assembly also appointed the Swiss Government as auditor of the accounts of the PCT Union up to and including the financial year 1979 and decided that the question of the constitution of the working capital fund of the PCT Union would not be dealt with until the ordinary session of the Assembly to be held in 1982.

Program and Budget. The Assembly approved the program and budget of the PCT Union for 1979.

PCT Regulations. The Assembly adopted amendments to, and interpretations of, the Regulations under the PCT. The texts of the amended Rules of the Regulations appear at pages 314 and 315.

As to interpretation, the Assembly noted that the International Bureau would apply its interpretation of Rule 47.2 according to which it would use, for the purpose of communicating the international application to designated Offices under Article 20, the pamphlet printed by the International Bureau for the purpose of publishing the international application under Rule 48.1(a). Having regard to reservations held by at least one national Office about not receiving a copy of the request part of the international application as such and receiving the international application printed recto-verso under this interpretation, the International Bureau would in respect of that Office and any other informing the International Bureau, make the necessary variations required in order to satisfy the particular requirements of the Office or Offices concerned.

Furthermore, the Assembly adopted the following interpretation of Rule 48.3(b):

"1. PCT Rule 48.3(b) does not prevent the International Searching Authority from leaving the preparation of the required translation to the applicant and/or to the receiving Office, provided that the International Searching Authority ensures to have the translation ready in time to permit the communication under PCT Article 20 by the prescribed date, or, if the international publication is due at an earlier date than the said communication, to permit international publication by the prescribed date.

"2. PCT Rule 48.3(b) contains no ground for the applicant or third parties to hold the International Searching Authority liable for damages caused by inaccuracy of the translation."

Official Texts. The Assembly designated Arabic and Italian as languages in which the Director General of WIPO shall establish, under Article 67(1)(b), official texts of the PCT.

Administrative Instructions. The Assembly was informed by the Director General of his intention to promulgate and publish certain changes in, and additions to, the Administrative Instructions in the light of the favorable advice he had received in consultations with the receiving Offices and International Searching and Preliminary Examining Authorities. These modifications are published on pages 316 to 336.

LIST OF PARTICIPANTS

(meeting at which substantive questions were discussed)

I. Member States

Brazil: U. Quaranta Cabral. **Cameroon** : D. Ekani. **France**: G.R. Yung. **Gabon**: M. Nzue Nkoghe. **Germany (Federal Republic of)**: E. Häusser; U.C. Hallmann. **Japan**: Z. Kumagai; T. Yoshida. **Luxembourg**: J.-P. Hoffmann. **Madagascar**: S. Rabearivelo. **Senegal**: A. Diarra. **Soviet Union**: V. Bykov; L. Tchobanian. **Sweden**: C. Uggla. **Switzerland**: R. Kämpf; J.-M. Salamolard. **United Kingdom**: E.F. Blake. **United States of America**: M.K. Kirk; L. Schroeder.

II. Special Observers

Australia: F.J. Smith. **Belgium**: J. Degavre. **Denmark**: D. Simonsen. **Finland**: R. Meinander; A.H. Risku. **Ireland**: J. Quinn. **Netherlands**: J. Dekker; H.J.G. Pieters. **Norway**: A.G. Gerhardsen. **Spain**: E. Rua Benito. **European Patent Office (EPO)**: J.C.A. Staehelin.

III. Observers

States

Bulgaria: B. Todorov. **Czechoslovakia**: J. Prošek. **German Democratic Republic**: D. Schack. **Italy**: I. Papini.

Intergovernmental Organizations

Council for Mutual Economic Assistance (CMEA): I. Tcherviakov. **Secretariat of the Interim Committee for the Community Patent**: J.-F. Faure; K. Mellor.

International Non-Governmental Organizations

Council of European Industrial Federations (CEIF): M. van Dam. **European Federation of Agents of Industry in Industrial Property (FEMIPI)**: C. Gugerell. **International Association for the Protection of Industrial Property (AIPPI)**: M. Mathez. **International Federation of Inventors' Associations (IFIA)**: P. Feldmann. **International Federation of Patent Agents (FICPI)**: E. Gutmann; G.E. Kirker. **Union of Industries of the European Community (UNICE)**: R. Kockläuner.

IV. Officers

Chairman: V. Bykov (Soviet Union). *Vice-Chairmen:* M. Nzue Nkoghe (Gabon); P. Braendli (Switzerland).

V. International Bureau of WIPO

A. Bogsch *(Director General);* K. Pfanner *(Deputy Director General);* E.M. Haddrick *(Head, PCT Division);* J. Franklin *(Head, Administrative Section, PCT Division);* V. Troussov *(Senior Counsellor, PCT Division);* N. Scherrer *(Counsellor, PCT Division);* D. Bouchez *(Technical Counsellor, PCT Division);* A. Okawa *(Counsellor, PCT Division).*

TEXTS OF DECISIONS CONCERNING THE ESTABLISHMENT AND RULES OF PROCEDURE OF PCT COMMITTEES*

DECISIONS CONCERNING THE PCT COMMITTEE FOR TECHNICAL COOPERATION (PCT/CTC)

1. With reference to PCT Article 56(1) and (2), the Assembly hereby establishes the PCT Committee for Technical Cooperation (PCT/CTC) and appoints, in addition to the ex-officio members according to PCT Article 56(2)*(b)*, all States members of the PCT Union as members of the said Committee, it being understood that the appointment of any State which will become a member of the PCT Union in the future shall take effect on the date on which such State becomes a member of the PCT Union. Finally, the Assembly decides that once the number of States members of the PCT Union reaches 30, it will, in its session following such an event, reconsider the question of the composition of the said Committee.

2. With reference to PCT Article 56(8), the Assembly decides that it will itself establish and, where necessary in the future, amend the Rules of Procedure of the PCT Committee for Technical Cooperation (PCT/CTC).

3. With reference to its decision under PCT Article 56(8), the Assembly hereby establishes the Rules of Procedure of the PCT Committee for Technical Cooperation.

4. With reference to the decision taken by the Executive Committee of the Paris Union and the WIPO Coordination Committee in their September 1977 sessions, establishing the WIPO Permanent Committee on Patent Information (WIPO/PCPI), in which it was agreed, *inter alia*, that the meetings of PCT/CTC "shall be joint" with those of WIPO/PCPI, "it being understood that the activities of the said Committees will be coordinated and it being further understood that, where decisions are made by [PCT/CTC]..., only the members of [PCT/CTC]... should vote" (AB/VIII/16, Annex B, Decision, paragraph 4), and recommending that the Assembly of the PCT Union "endorse the above measures," the Assembly decides to endorse the measures in question.

RULES OF PROCEDURE OF THE PCT COMMITTEE FOR TECHNICAL COOPERATION (PCT/CTC)

Rule 1: Application of the General Rules of Procedure

The PCT Committee for Technical Cooperation (PCT/CTC, hereinafter referred to as "the Committee"), being, within the meaning of Rule 12 of the General Rules of Procedure of WIPO, a subsidiary body of the PCT Assembly, the provisions of the said General Rules of Procedure shall be the Rules of Procedure of the Committee, supplemented and amended by the provisions set forth hereinafter.

Rule 2: Special Observers

(1) States and intergovernmental authorities not members of the Committee which have the status of special observer in the PCT Assembly shall be invited as "special observers" to all sessions of the Committee.

(2) Special observers shall have the same rights in the sessions of the Committee as States members of the Committee, except the right to vote.

Rule 3: Joint Meetings with the WIPO Permanent Committee on Patent Information

The meetings of the Committee shall be joint with those of the WIPO Permanent Committee on Patent Information, it being understood that the activities of the two Committees shall be coordinated and that, where decisions are made by the Committee, only the members of the Committee shall vote.

---

* Adopted by the PCT Assembly at its first session (April 10 to 14, 1978); see page 8 of the PCT Gazette, Issue No. 01/1978.

DECISIONS CONCERNING THE PCT COMMITTEE FOR TECHNICAL ASSISTANCE (PCT/CTA)

1. With reference to PCT Article 51(1) and (2)*(a)*, the Assembly hereby establishes the PCT Committee for Technical Assistance (PCT/CTA) and elects all States members of the PCT Union as members of the said Committee, it being understood that the election of any State which will become a member of the PCT Union in the future shall take effect on the date on which such State becomes a member of the PCT Union. Finally, the Assembly decides that once the number of States members of the PCT Union reaches 30, it will, in its session following such an event, reconsider the question of the composition of the said Committee.

2. With reference to PCT Article 51(5), the Assembly decides that it will itself establish and, where necessary in the future, amend the Rules of Procedure of the PCT Committee for Technical Assistance (PCT/CTA).

3. With reference to its decision under PCT Article 51(5), the Assembly hereby establishes the Rules of Procedure of the PCT Committee for Technical Assistance.

4. With reference to the decision taken by the Executive Committee of the Paris Union and the WIPO Coordination Committee in their September 1977 sessions, establishing the WIPO Permanent Committee on Patent Information (WIPO/PCPI), in which it was agreed, *inter alia*, that the meetings of PCT/CTA "shall be joint" with those of the WIPO Permanent Committee for Development Cooperation Related to Industrial Property, "it being understood that the activities of the said Committees will be coordinated and it being further understood that, where decisions are made by [PCT/CTA]..., only the members of [PCT/CTA]... should vote" (AB/VIII/16, Annex B, Decision, paragraph 4), and recommending that the Assembly of the PCT Union "endorse the above measures," the Assembly decides to endorse the measures in question.

RULES OF PROCEDURE OF THE PCT COMMITTEE FOR TECHNICAL ASSISTANCE (PCT/CTA)

Rule 1: Application of the General Rules of Procedure

The PCT Committee for Technical Assistance (PCT/CTA, hereinafter referred to as "the Committee"), being, within the meaning of Rule 12 of the General Rules of Procedure of WIPO, a subsidiary body of the PCT Assembly, the provisions of the said General Rules of Procedure shall be the Rules of Procedure of the Committee, supplemented and amended by the provisions set forth hereinafter.

Rule 2: Special Observers

(1) States not members of the Committee which have the status of special observer in the PCT Assembly, as well as intergovernmental authorities which have such a status, shall be invited as "special observers" to all sessions of the Committee.

(2) Special observers shall have the same rights in the sessions of the Committee as States members of the Committee, except the right to vote.

Rules of Procedure of the PCT Committee for Technical Assistance (PCT/CTA) (Continued)

Rule 3: Observers

The Director General shall, on his own initiative or at the request of the Committee, invite representatives of interested international non-governmental organizations to attend the sessions of the Committee in an observer capacity.

Rule 4: Joint Meetings with the WIPO Permanent Committee for Development Cooperation Related to Industrial Property

The meetings of the Committee shall be joint with those of the WIPO Permanent Committee for Development Cooperation Related to Industrial Property, it being understood that the activities of the two Committees shall be coordinated and that, where decisions are made by the Committee, only the members of the Committee shall vote.

DECISIONS CONCERNING THE PCT COMMITTEE FOR ADMINISTRATIVE AND LEGAL MATTERS (PCT/CAL)

1. With reference to PCT Article 53(2)*(a)*(viii), the Assembly hereby establishes the PCT Committee for Administrative and Legal Matters (PCT/CAL) and appoints all States members of the PCT Union and the International Searching and Preliminary Examining Authorities as members, it being understood that, where any such Authority is the national Office of a State member of the PCT Union, that State shall not be additionally represented on the Committee. It is also understood that the appointment of any State which will become a member in the future shall take effect on the date on which such State becomes a member of the PCT Union.

2. The Assembly decides that it will itself establish and, where necessary in the future, amend the Rules of Procedure of the PCT Committee for Administrative and Legal Matters (PCT/CAL).

3. With reference to its decision concerning the establishment and amendment of the Rules of Procedure of the PCT Committee for Administrative and Legal Matters, the Assembly hereby establishes those Rules of Procedure.

RULES OF PROCEDURE OF THE PCT COMMITTEE FOR ADMINISTRATIVE AND LEGAL MATTERS (PCT/CAL)

Rule 1: Composition

The PCT Committee for Administrative and Legal Matters (PCT/CAL, hereinafter referred to as "the Committee") shall have as members the States members of the PCT Union and the International Searching and Preliminary Examining Authorities, it being understood that, where any such Authority is the national Office of a State member of the PCT Union, that State shall not be additionally represented on the Committee.

Rules of Procedure of the PCT Committee for Administrative and Legal Matters (PCT/CAL) (Continued)

Rule 2: Terms of Reference

The Committee shall deal with matters concerning

(i) the relationship between the International Bureau on the one hand and the applicants, the receiving Offices, the designated Offices, the elected Offices, the International Searching Authorities and the International Preliminary Examining Authorities on the other hand,

(ii) the relationship between the applicants on the one hand and the receiving Offices, the designated Offices, the elected Offices, the International Searching Authorities and the International Preliminary Examining Authorities on the other hand,

(iii) the relationship between the receiving Offices, the designated Offices and the elected Offices on the one hand and the International Searching Authorities and the International Preliminary Examining Authorities on the other hand,

(iv) fees, forms, procedures and publications under the PCT,

(v) other administrative and legal questions concerning the application of the PCT.

Rule 3: Application of the General Rules of Procedure

The Committee, being, within the meaning of Rule 12 of the General Rules of Procedure of WIPO, a subsidiary body of the PCT Assembly, the provisions of the said General Rules of Procedure shall be the Rules of Procedure of the Committee, supplemented and amended by the provisions set forth hereinafter.

Rule 4: Special Observers

(1) States not members of the Committee which have the status of special observer in the PCT Assembly, as well as intergovernmental authorities which have such a status and which are not members of the Committee, shall be invited as "special observers" to all sessions of the Committee.

(2) Special observers shall have the same rights in the sessions of the Committee as members of the Committee, except the right to vote.

Rule 5: Observers

The Director General shall, on his own initiative or at the request of the Committee, invite representatives of interested organizations to attend the sessions of the Committee in an observer capacity.

Rule 6: Working Groups

The Committee may, with the approval of the Assembly, set up working groups for the purposes of dealing with specific questions. It shall decide their composition, terms of reference, duration and rules of procedure.

REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

AMENDMENTS

Adopted by the Assembly of the International Patent Cooperation (PCT) Union on October 3, 1978

Table of Amendments

Rule 15.1 . . . . . Amended
Rule 15.2*(a)* . . . . . Amended
Rule 15.2*(b)* . . . . . Amended

Rule 57.2*(a)* . . . . . Amended
Rule 57.2*(b)* . . . . . Amended

Amendments

Rule 15

The International Fee

15.1 *Basic Fee and Designation Fee*

Each international application shall be subject to the payment of a fee for the benefit of the International Bureau ("international fee") consisting of

(i) a "basic fee," and

(ii) as many "designation fees" as there are States designated in the international application for which a national patent is sought, provided that, where a regional patent is sought for certain designated States, only one designation fee shall be due for such purpose.

15.2 *Amounts*

(a) The amount of the basic fee shall be:

(i) if the international application contains not more than 30 sheets: US$ 165.00 or 250 Swiss francs,

(ii) if the international application contains more than 30 sheets: US$ 165.00 or 250 Swiss francs plus US$ 3.00 or 4.50 Swiss francs per sheet in excess of 30 sheets.

(b) The amount of the designation fee for each designated State or each group of designated States for which the same regional patent is sought shall be: US$ 40.00 or 60 Swiss francs.

Rule 57

The Handling Fee

57.2 *Amount*

(a) The amount of the handling fee shall be US$ 50.00 or 75 Swiss francs augmented by as many times the same amount as the number of languages into which the international preliminary examination report must, in application of Article 36(2), be translated by the International Bureau.

(b) Where, because of a later election or elections, the international preliminary examination report must, in application of Article 36(2), be translated by the International Bureau into one or more additional languages, a supplement to the handling fee shall be payable and shall amount to US$ 50.00 or 75 Swiss francs for each additional language.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PATENT COOPERATION TREATY (PCT)

MODIFICATIONS*

Promulgated by the Director General of the
World Intellectual Property Organization in accordance
with Rule 89.2 of the Patent Cooperation Treaty (PCT)
with effect from November 9, 1978

Table of Contents

Part 1: Instructions Relating to General Matters

Section 101: Abbreviated Expressions
Section 102: Use of the Forms
Section 103: Languages of the Forms
Section 104: Language of Correspondence from the Applicant
Section 105: Several Applicants
Section 106: Common Agent for Several Applicants
Section 107: Identification of International Authorities
Section 108: Correspondence Intended for the Applicant
Section 109: Notification of Authorization or Refusal of Rectification
Section 110: Dates

Part 2: Instructions Relating to the International Application

Section 201: Names of States; Cancellation of Designations
Section 202: Kind of Protection
Section 203: Regional Patents
Section 203*bis*: National and Regional Patents
Section 204: Headings of the Parts of the Description
Section 205: Numbering of Claims upon Amendment
Section 206: Common Representative Designated in the Request
Section 207: Arrangement of Elements and Numbering of Sheets of the International Application

---

* These modifications relate to the Administrative Instructions published in the PCT Gazette, No. 01/1978, pages 15 to 96; only the modifications are published in this Issue; where a part of the Administrative Instructions previously published has been amended, that part is reproduced in full as amended (except where otherwise expressly stated).

Part 3: Instructions Relating to the Receiving Office

Section 301: Notification of Receipt of Purported International Application
Section 302: Notification of Priority Claim Considered Not To Have Been Made
Section 303: Deletion of Additional Matter in the Request
Section 304: Corrections Submitted to the Receiving Office Concerning Expressions, Etc., Not To Be Used in the International Application
Section 305: Identifying the Copies of the International Application
Section 306: Change in the Person, Name or Address of the Applicant
Section 307: System of Numbering International Applications
Section 308: Marking of the Sheets of the International Application
Section 309: Procedure in the Case of Later Submitted Sheets
Section 310: Procedure in the Case of Missing Drawings
Section 311: Renumbering of Sheets of the International Application
Section 312: Notification of Decision Not To Issue Declaration that the International Application is Considered Withdrawn
Section 313: Manner of Making the Necessary Annotations in the Check List
Section 314: Manner of Indicating Correction of the Priority Date or Cancellation of the Priority Claim
Section 315: Notification of Non-Collection of Record Copy
Section 316: Procedure in the Case Where the International Application Lacks the Prescribed Signature
Section 317: Procedure in the Case of the Designation of a State being Considered Not To Have Been Made

Part 4: Instructions Relating to the International Bureau

Section 401: Marking of Sheets of the Record Copy
Section 402: Notification of Correction of the Priority Date or Cancellation of the Priority Claim
Section 403: Transmittal of Protest Against Payment of Additional Fee and Decision Thereon
Section 404: International Publication Number
Section 405: Special Publication Fee
Section 406: Pamphlets
Section 407: The Gazette
Section 408: Priority Application Number
Section 409: Notifications of Priority Claim Considered Not To Have Been Made
Section 410: Numbering of Sheets of the International Application For Purposes of International Publication
Section 411: Notification that the Certified Copy of the Priority Document Has Not Been Submitted
Section 412: Fees for Copies of Certain Documents

Part 5: Instructions Relating to the International Searching Authority

Section 501: Corrections Submitted to the International Searching Authority Concerning Expressions, Etc., Not To Be Used in the International Application
Section 502: Protest Against Payment of Additional Fee and Decision Thereon
Section 503: Method of Identifying Documents Cited in the International Search Report

Part 5: Instructions Relating to the International Searching Authority (Continued)

Section 504: Classification of the Subject Matter of the International Application
Section 505: Indication of Citations of Particular Relevance in the International Search Report
Section 506: Comments on Draft Translation of the International Application
Section 507: Manner of Indicating Certain Special Categories of Documents Cited in the International Search Report
Section 508: Manner of Indicating the Claims to which the Documents Cited in the International Search Report are Relevant

Part 6: Instructions Relating to the International Preliminary Examining Authority

Section 601: Determination Whether Applicant is Entitled To Make a Demand
Section 602: Marking of Replacement Sheets and Renumbering of Sheets of the International Application
Section 603: Transmittal of Protest Against Payment of Additional Fee and Decision Thereon
Section 604: Guidelines for Explanations Contained in the International Preliminary Examination Report

Annex A: Names of States (Members of the Paris Union)

Annex B: Code for Identifying States and Organizations

Annex C: Standard Code for Identification of Different Kinds of Patent Documents

Annex D: Information from Pamphlet Front Page To Be Included in the Gazette under Rule 86.1(i)

Annex E: Information To Be Published in the Gazette under Rule 86.1(v)

Annex F: Forms

Section 107

Identification of International Authorities
[Only the modification is specified]

The example in Section 107(b), is modified to read "(e.g., "RO/JP," "ISA/US," "IPEA/SU")."

Section 201

Names of States: Cancellation of Designations

(a) The name of any State referred to in the request shall be indicated either by the full name of the State or by a generally accepted short title which, if the indications are in English or French, shall be as appears in *Annex A*. The receiving Office, or the International Bureau where the receiving Office fails to do so, shall insert, in the appropriate space provided for in the request Form, the two-letter country code as appears in *Annex B* (for example, where France is the third designated State in Box V of the request Form, "FR 3. France" or "FR 3. French Republic").

(b) The receiving Office shall cancel *ex-officio* the designation of States other than Contracting States, and inform the applicant promptly of such action. If the international application has already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify promptly that Bureau and that Authority. In any event, the International Bureau shall, where the receiving Office fails to do so, cancel *ex-officio* the designation of States other than Contracting States and inform the applicant, the receiving Office and the International Searching Authority promptly of such action.

Section 203bis

National and Regional Patents

Where the request of the international application contains a designation of a Contracting State without an indication of the wish to obtain a regional patent and also a designation of the same Contracting State with an indication of the wish to obtain a regional patent and the national law of the Contracting State does not contain a provision referred to in Article 45(2), the receiving Office shall calculate the designation fees on the basis that a separate fee is payable in respect of the designation of the Contracting State in addition to the designation fee payable in respect of that Contracting State as a Contracting State or as one of a group of Contracting States for which a regional patent is sought.

Section 317

Procedure in the Case of the Designation of a State being Considered Not To Have Been Made

Where the receiving Office finds that, under Rule 18.4(b), the designation of a State is to be considered as not having been made, it shall indicate that fact in the international application by enclosing the designation of that State within square brackets and entering the words "CONSIDERED NOT TO HAVE BEEN MADE," or their equivalent in the language of the international application, in the margin, and shall promptly notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify promptly that Bureau and that Authority.

Section 412

Fee for Copies of Certain Documents

(a) The International Bureau shall make a charge of 6 Swiss francs to designated and elected Offices for a copy of any document cited in the international search report requested under Rule 44.3(c) or any document cited in the international preliminary examination report requested under Rule 71.2(c).

(b) When mailing by air is requested the actual cost of such mailing shall be additionally charged.

Section 503

Method of Identifying Documents Cited in the International Search Report
[Only the modification is specified]

In the example given in Section 503(a), the number of the patent document is modified to read: "JP, B, 50 - 14535."

ANNEX C

Standard Code for Identification of Different Kinds of Patent Documents
[Only the modification is specified]

The entries concerning Japan and the United States of America appearing in Appendix II of this Annex are modified to read as follows:

Japan	公開特許公報 (Kôkai tokkyo kôhô)	Published unexamined patent application	Patent application published before examination as to novelty in the sense of paragraphs 6(i) and 6(ii).	A	
	特許公報 (Tokkyo kôhô)	Published examined patent application	Patent application published after examination as to novelty in the sense of paragraphs 6(i) and 6(ii).		
			- 1st publication. A Kôkai tokkyo kôhô not published. "T" headed the numerical number of Tokkyo kôhô published from 1922 to 1926.	B	1
			- 2nd publication. Normally following an A Kôkai tokkyo kôhô.	B	2
	特許発明明細書 (Tokkyo hatsumei meisaisyo)	Patent specification	Patent (old law) published in the sense of paragraphs 6(i) and 6(ii).		
			- 1st publication. Tokkyo kôhô not published.	C	1
			- 2nd publication. Normally following a B 1 Tokkyo kôhô.	C	2
	特許審判請求公告 (Tokkyo shinpan Seikyû kôkoku)	Corrected patent specification	Corrected patent published in the sense of paragraphs 6(i) and 6(ii).	H	
	意匠公報 (Isyô kôhô)	Registered design publication	Registered design application published after examination as to novelty in the sense of paragraphs 6(i) and 6(ii).	S	
	公開実用新案公報 (Kôkai jitsuyô shinan kôhô)	Published unexamined utility model application	Utility model application published before examination as to novelty in the sense of paragraphs 6(i) and 6(ii)	U	

Standard Code for Identification of Different Kinds of Patent Documents (Continued)

Japan (contd)	実用新案公報 (Jitsuyô shinan kôhô)	Published examined utility model application	Utility model application published after examination as to novelty in the sense of paragraphs 6(i) and 6(ii)		
			- 1st publication. U Kôkai jitsuyô shinan kôhô not published. "T" headed the numerical number of Jitsuyô shinan kôhô published from 1922 to 1926.	Y	1
			- 2nd publication. Normally following a U Kôkai jitsuyô shinan kôhô.	Y	2
	登録実用新案 (Tôroku jitsuyô shinan)	Registered utility model specification	Registered utility model published in the sense of paragraphs 6(i) and 6(ii)		
			- 1st publication Jitsuyô shinan kôhô not published	Z	1
			- 2nd publication. Normally following a Y 1 Jitsuyô shinan kôhô.	Z	2
	登録実用新案審判請求公告 (Tôroku jitsuyô shinan shinpan seikyû kôkoku)	Corrected registered utility model specification	Corrected registered utility model published in the sense of paragraphs 6(i) and 6(ii).	1	
United States of America	Patent Plant Patent Design Patent		Patent published in the sense of paragraph 6(ii)	A P S	
	Reissue Patent		Patent reissued and republished in the sense of paragraph 6(ii)	E	
	Defensive Publication		Patent application published without examination or assertion as to novelty, in the sense of paragraph 6(i)	H	
	Defensive Publication		Patent document published in the sense of paragraph 5: Entry of an abstract of the application in the Official Gazette	H	
	Defensive Publication		Patent document published in the sense of paragraph 6(ii): Abstract of an application published in a discreet document form distinctively numbered in a numerical series unique to Defensive Publications.	H	

ANNEX F*

Forms
[Only the modification is specified]

Form PCT/RO/101 (Request and Fee Calculation Sheet), as amended is reproduced on pages 325 to 336.**

---

* This Annex has been published separately from the Administrative Instructions. Only the four printed Forms (PCT/RO/101, Request and Fee Calculation Sheet; PCT/ISA/210, International Search Report; PCT/IPEA/401, Demand; PCT/IPEA/409, International Preliminary Examination Report) have been reproduced with the Administrative Instructions.

** The alternative version of the Fee Calculation Sheet (Form PCT/RO/101 (Alternative Annex)) published on pages 335 and 336 is recommended for use by those receiving Offices which leave to the applicant the choice between two or more competent International Searching Authorities.

INTERNATIONAL APPLICATION UNDER THE PATENT COOPERATION TREATY

REQUEST

THE UNDERSIGNED REQUESTS THAT THE PRESENT INTERNATIONAL APPLICATION BE PROCESSED ACCORDING TO THE PATENT COOPERATION TREATY

(The following is to be filled in by the receiving Office)
INTERNATIONAL APPLICATION No:

INTERNATIONAL FILING DATE:

(Stamp)
Name of receiving Office and "PCT International Application"

Applicant's or Agent's File Reference [9]
(indicated by applicant if desired).

I. TITLE OF INVENTION [1]

II. APPLICANT [2] (The data concerning each applicant named in box IX must appear in this box or, to the extent that space is insufficient, in the supplemental box.) Additional information is contained in supplemental box. ☐

Name [3, 5]

Address [4, 5] (including postal code and country)

Nationality [5, 6] (country) | Residence [5, 7] (country)

Telephone number (if any) [4] | Telegraphic address (if any) [4, 5] | Teleprinter address (if any) [4, 5]

III. INVENTOR [8] (Applicant is also the inventor ☐) Additional information is contained in supplemental box. ☐

Name [3, 5]

Address [4, 5] (including postal code and country)

IV. AGENT OR COMMON REPRESENTATIVE (IF ANY) [9] Additional information is contained in supplemental box. ☐

A. ☐ Applicant hereby appoints the following named agent or common representative to act on his behalf before the competent International Authorities. [9]

B. ☐ Applicant has appointed the following named agent or common representative in accompanying separate power of attorney. [9]

Name [3, 5]

Address [4, 5] (including postal code and country).

Telephone number (if any) [4] | Telegraphic address (if any) [4, 5] | Teleprinter address (if any) [4, 5]

V. DESIGNATION OF STATES [10] (and possible indication of wish to obtain regional patents) [11] (and possible choice of certain kinds of protection) [12] Additional information is contained in supplemental box. ☐

See notes on accompanying sheet

VI. **PRIORITY CLAIM (IF ANY)** [13] Additional information is contained in supplemental box. ☐

The priority of an earlier application is claimed (indicate following data):

Country (If the earlier application is regional or international application, indicate those countries for which it was filed).	Filing Date [14]
	Application Number [15]
	If a regional or international application, indicate the national Office or intergovernmental organization with which it was filed.

VII. **PARENT APPLICATION OR GRANT (IF ANY)** [16] Additional information is contained in supplemental box. ☐

Designated State	Type of Treatment Desired	Number and Title of the Parent Application or Grant	Filing Date of the Parent Application or Grant [14]

VIII. **EARLIER INTERNATIONAL OR INTERNATIONAL-TYPE SEARCH (IF ANY)** [17] Additional information is contained in supplemental box. ☐

An earlier ☐ international or ☐ international-type search has been requested on the following application

Receiving Office/Country	(International) Application No.	(International) Filing Date [14]

Date of Request for the Search where the Earlier Search was an International-Type Search [14]	Number given by the International Searching Authority to the Request for Search where the Earlier Search was an International-Type Search

IX. **DIFFERENT APPLICANTS FOR DIFFERENT (GROUPS OF) DESIGNATED STATES (WHERE APPLICABLE)** [18]
(Where this box is used, all applicants indicated in box II must be indicated in this box. Only applicants indicated in box II can be indicated in this box.) Additional information is contained in supplemental box. ☐

Designated States	Names of Applicants

X. **DIFFERENT INVENTORS FOR DIFFERENT (GROUPS OF) DESIGNATED STATES (WHERE APPLICABLE)** [19]
Additional information is contained in supplemental box. ☐

Designated States	Names of Inventors

SUPPLEMENTAL BOX... USE THIS BOX IF ANY OF THE BOXES IS NOT LARGE ENOUGH TO CONTAIN INFORMATION TO BE FURNISHED. INDICATE THE BOXES CONTINUED IN THIS BOX BY THEIR (ROMAN) NUMERALS AND TITLE (e.g.: "II. APPLICANT (CONTINUED)")

XI. **SIGNATURE OF APPLICANT** [20]

XII. **CHECK LIST** (To be filled in by the Applicant) [21]

A. This international application contains the following number of sheets:

1.	request	sheets
2.	description	sheets
3.	claims	sheets
4.	abstract	sheets
5.	drawings	sheets
	Total	sheets

C. Figure number ..... of the drawings (if any) is suggested to accompany the abstract for publication.

D. Drawings (To be filled in by the receiving Office)
☐ No Drawings [22]

B. This international application as filed is accompanied by the items checked below:

1. ☐ separate signed power of attorney
2. ☐ priority document
3. ☐ receipt (e.g. revenue stamps) for the fees paid
4. ☐ cheque for the payment of fees
5. ☐ international search report
6. ☐ international-type search report
7. ☐ document in evidence of fact that applicant is successor in title of inventor
8. ☐ other document (specify)

(The following is to be filled in by the receiving Office)

1. Date of actual receipt of the purported international application:

2. Corrected date of actual receipt due to later but timely received papers or drawings completing the purported international application:

3. Date of timely receipt of the required corrections under Article 11 of the PCT:

(The following is to be filled in by the International Bureau)

Date of receipt of the record copy:

NOTES TO FORM PCT/RO/101

These Notes are intended to facilitate the filling in of the present form. For full information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. "Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

1 Title of Invention (Rule 4.1 *(a)* (ii))

"The title of the invention shall be short (preferably from two to seven words when in English or translated into English) and precise." **(Rule 4.3)**

2 Applicant (Rule 4.1 *(a)* (iii))

"The request shall indicate the name, address, nationality and residence of the applicant or, if there are several applicants, of each of them." **(Rule 4.5 (a))** These data must be indicated *in box II*—and *not* in box IX—for each and all applicants named in box IX.

Where the United States of America is one of the designated States, the applicant or applicants named in respect of the United States of America must be the inventor or inventors.

3 "Names of natural persons shall be indicated by the person's family name and given name(s), the family name being indicated before the given name(s)." **(Rule 4.4 (a))**
"Names of legal entities shall be indicated by their full, official designations." **(Rule 4.4 (b))**

4 "Addresses shall be indicated in such a way as to satisfy the customary requirements for prompt postal delivery at the indicated address and, in any case, shall consist of all the relevant administrative units up to, and including, the house number, if any. Where the national law of the designated State does not require the indication of the house number, failure to indicate such number shall have no effect in that State. It is recommended to indicate any telegraphic and teleprinter address and telephone number." **(Rule 4.4 (c))**
"For each applicant, inventor, or agent, only one address may be indicated." **(Rule 4.4 (d))**

5 "Where any name or address is written in characters other than those of the Latin alphabet, the same shall also be indicated in characters of the Latin alphabet either as a mere transliteration or through translation into English. The applicant shall decide which words will be merely transliterated and which words will be so translated." **(Rule 4.16 (a))**
"The name of any country written in characters other than those of the Latin alphabet shall also be indicated in English." **(Rule 4.16 (b))**

6 "The applicant's nationality shall be indicated by the name of the State of which he is a national." **(Rule 4.5 (b))**
See Section 201 in Note **10** below.

7 "The applicant's residence shall be indicated by the name of the State of which he is resident." **(Rule 4.5 (c))**
See Section 201 in Note **10** below.

8 Inventor (Articles 4 (1) *(v)* and 22 (1), Rules 4.1 *(a)* *(v)* and 4.6 *(a)*)

"The request shall contain: the name of and other prescribed data concerning the inventor where the national law of at least one of the designated States requires that these indications be furnished at the time of filing a national application... **(Article 4 (1) (v))**
"The applicant shall furnish a copy of the international application (unless the communication provided for in Article 20 has already taken place) and a translation thereof (as prescribed), and pay the national fee (if any), to each designated Office not later than at the expiration of 20 months from the priority date. Where the national law of the designated State requires the indication of the name of and other prescribed data concerning the inventor but allows that these indications be furnished at a time later than that of the filing of a national application, the applicant shall, unless they were contained in the request, furnish the said indications to the national Office of or acting for that State not later than at the expiration of 20 months from the priority date." **(Article 22 (1))**
"If the applicant is the inventor, the request, ...shall contain a statement to that effect or shall repeat the applicant's name in the space reserved for indicating the inventor." **(Rule 4.6 (b))**
See also box **X** of the present form.

9 Agent or Common Representative (Article 49, Rules 2.2, 4.1 *(a)* (iii), 4.7 and 4.8)

"Any attorney, patent agent, or other person, having the right to practice before the national Office with which the international application was filed, shall be entitled to practice before the International Bureau and the competent International Searching Authority and competent International Preliminary Examining Authority in respect of that application." **(Article 49)**
"Whenever the word "agent" is used, it shall be construed as meaning any person who has the right to practice before international authorities as defined in Article 49 and, unless the contrary clearly follows from the wording or the nature of the provision, or the context in which the word is used, also the common representative referred to in Rule 4.8." **(Rule 2.2)**
"If agents are designated, the request shall so indicate, and shall state their names and addresses." **(Rule 4.7)**
"If there is more than one applicant and the request does not refer to an agent representing all the applicants ("a common agent"), the request shall designate one of the applicants who is entitled to file an international application according to Article 9 as their common representative." **(Rule 4.8 (a))**
"If there is more than one applicant and the request does not refer to an agent representing all the applicants and it does not comply with the requirement of designating one of the applicants as provided in paragraph *(a)*, the applicant first named in the request who is entitled to file an international application according to Article 9 shall be considered the common representative." **(Rule 4.8 (b))**
"Appointment of any agent or of any common representative within the meaning of Rule 4.8 *(a)*, if the said agent or common representative is not designated in the request signed by all applicants, shall be effected in a separate signed power of attorney (i.e., a document appointing an agent or a common representative)." **(Rule 90.3 (a))**
"The power of attorney may be submitted to the receiving Office or the International Bureau. Whichever of the two is the recipient of the power of attorney submitted shall immediately notify the other and the interested International Searching Authority and the interested International Preliminary Examining Authority." **(Rule 90.3 (b))**
"If the separate power of attorney is not signed as provided in paragraph *(a)*, or if the required separate power of attorney is missing, or if the indication of the name or address of the appointed person does not comply with Rule 4.4, the power of attorney shall be considered non-existent unless the defect is corrected." **(Rule 90.3 (c))**
As for indications of names and addresses see Notes **3** and **4**.
",International Authorities' means the receiving Offices, the International Searching Authorities, the International Preliminary Examining Authorities, and the International Bureau." **(Section 101 (vi))**
"Any correspondence from an International Authority intended for the applicant, or, in the case of several applicants, the applicants, shall be addressed as follows:"
"Where the applicant has designated or appointed one agent, correspondence shall be addressed to that agent. Where, in the case of several applicants, the applicants are represented by a common representative or a common agent, correspondence shall be addressed to that representative or that agent." **(Section 108 (a) (i))**
"Where the applicant has designated several agents in the request, correspondence shall be addressed to the agent first mentioned therein. Where, in the case of several applicants, the applicants have designated several common agents in the request, correspondence shall be addressed to the common agent first mentioned therein." **(Section 108 (a) (ii))**
"Where the applicant has appointed several agents in one or more separate powers of attorney, correspondence shall be addressed to the agent first mentioned in the earliest filed and still valid separate power of attorney. Where, in the case of several applicants, the applicants have appointed several common agents in one or more separate powers of attorney, correspondence shall be addressed to the common agent first mentioned in the earliest filed and still valid separate power of attorney." **(Section 108 (a) (iii))**
"Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request form, provided this reference does not exceed ten characters **(Section 108 (b))**
"In the case of several applicants, any agent designated under Rule 4.7 in the request signed by all the applicants, or appointed under Rule 90.3 in a separate power of attorney signed by all the applicants, shall be considered a common agent." **(Section 106)**
"If there are several agents appointed by the same applicant or applicants, any act by or in relation to any of the several agents shall have the effect of an act by or in relation to the said applicant or applicants." **(Rule 90.2 (c))**
"If the applicants designate a common representative in accordance with Rule 4.8 *(a)*, such common representative shall be indicated on the front page of the request form. The indication of the common representative shall take the form of a statement designating the named applicant to act as the common representative on behalf of all the applicants." **(Section 206)**

10 Designation of States (Rule 4.1 *(a)* (iv))

"Contracting States shall be designated in the request by their names." **(Rule 4.9)**
"The name of any State referred to in the request shall be indicated either by the full name of the State or by a generally accepted short title which, if the indications are in English or French, shall be as appears in *Annex A*..." **(Section 201 (a))**
"The receiving Office shall cancel *ex-officio* the designation of States other than Contracting States, and inform the applicant promptly of such action ... In any event, the International Bureau shall, where the receiving Office fails to do so, cancel *ex-officio* the designation of States other than Contracting States and inform the applicant, the receiving Office and the International Searching Authority promptly of such action." **(Section 201 (b))**
"If the applicant specifies the States to which he wishes any amount paid to be applied as designation fee, the amount shall be applied accordingly to the number of States which are covered by the amount in the order specified by the applicant." **(Rule 15.5 (a))**
"If the applicant does not specify any such wish and if the amount or amounts received by the receiving Office are higher than the basic fee and one designation fee but lower than what is due according to the number of the designated States, any amount in excess of the basic fee and one designation fee shall be treated as designation fees for the States following the State first named in the request and in the order in which the States are designated in the request up to and including that designated State for which the total amount of the designation fee is covered by the amount or amounts received." **(Rule 15.5 (b))**

"The designation fee for the first mentioned State belonging to a group of States for which the same regional patent is sought and which is specified under paragraph *(a)* or which is reached under paragraph *(b)* shall, for the purposes of the said paragraphs, be considered as covering also the other States of the said group." **(Rule 15.5 (c))**
Where one or more States are designated twice (once for the purposes of a national patent and once for the purposes of a regional patent), designation fees must be paid in respect of each such State and in respect of the regional patent. (See **Section 203bis** and **Rule 15.1 (ii)**)

11 "The request shall, where applicable, contain: ...(iv) an indication that the applicant wishes to obtain a regional patent and the names of the designated States for which he wishes to obtain such a patent." **(Rule 4.1 (b) (iv))**
"Where the applicant wishes to obtain a regional patent in respect of any designated State, he shall make the indication in the request referred to in Rule 4.1 *(b)* (iv) by inserting the words "regional patent", or their equivalent in the language of the international application, immediately after the indication of the said State or, where an indication has been made under Section 202, after that indication, provided that:

(i) where Article 4 (1) (ii), third clause applies, and not all the States party to the regional treaty have been designated, the international application shall be treated as if all those States had been designated and as if the designations of all such States contained the said words, whether the said designations contained an indication of the wish to obtain a regional patent or, according to Article 4 (1) (ii), fourth clause, are to be treated as containing such indication;
(ii) where the national law of any designated State contains a provision as referred to in Article 45 (2), the International Bureau shall, according to Article 4 (1) (ii), fourth clause, treat the designation as if it contained the said words even where the applicant failed to indicate them." **(Section 203)**

12 "In respect of any designated or elected State whose law provides for the grant of inventors' certificates, utility certificates, utility models, patents or certificates of addition, inventors' certificates of addition, or utility certificates of addition, the applicant may indicate, as prescribed in the Regulations, that his international application is for the grant, as far as that State is concerned, of an inventor's certificate, a utility certificate, or a utility model, rather than a patent, or that it is for the grant of a patent or certificate of addition, an inventor's certificate of addition, or a utility certificate of addition, and the ensuing effect shall be governed by the applicant's choice. For the purposes of this Article and any Rule thereunder, Article 2 (ii) shall not apply." **(Article 43)**
"If the applicant wishes his international application to be treated, in any designated State, as an application not for a patent but for the grant of any of the other kinds of protection specified in Article 43, he shall so indicate in the request. For the purposes of this paragraph, Article 2 (ii) shall not apply." **(Rule 4.12 (a))**
"Where the applicant wishes his application to be treated in any designated State as an application not for a patent but for the grant of another kind of protection referred to in Article 43, he shall make the indication in the request referred to in Rule 4.12 *(a)* by inserting the words "inventor's certificate", "utility certificate", "utility model", "patent of addition", "certificate of addition", "inventor's certificate of addition" or "utility certificate of addition", or their equivalent in the language of the international application, immediately after the indication of the said State." **(Section 202 (a))**
"In respect of any designated or elected State whose law permits an application, while being for the grant of a patent or one of the other kinds of protection referred to in Article 43, to be also for the grant of another of the said kinds of protection, the applicant may indicate, as prescribed in the Regulations, the two kinds of protection he is seeking, and the ensuing effect shall be governed by the applicant's indications. For the purposes of this Article, Article 2 (ii) shall not apply." **(Article 44)**
"Where the applicant is seeking two kinds of protection under Article 44, he shall make the indication in the request referred to in Rule 4.12 *(b)* by inserting, immediately after the indication of the said State and in the language of the international application, either

(i) any two of the following terms connected by the word "and": "patent", "inventor's certificate", "utility certificate", "utility model", "patent of addition", "certificate of addition", "inventor's certificate of addition", "utility certificate of addition"; or
(ii) any two of the terms indicated in (i), above, one of them preceded by the word "primarily" and the other by the word "subsidiarily"." **(Section 202 (b))**

13 Priority Claim (Rules 4.1 *(b)* (i) and 4.10)

14 "Any date in the international application, or used in any correspondence emanating from International Authorities relating to the international application, shall be indicated by the Arabic number of the day, by the name of the month, and by the Arabic number of the year. The receiving Office, where the applicant has not done so, or the International Bureau, where the applicant has not done so and the receiving Office fails to do so, shall, after or below any date indicated by the applicant in the request, repeat the date, in parenthesis, by indicating it by two-digit Arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, in that order and with a period after the digit pairs of the day and of the month (for example, "30 March 1978 (30.03.78)")." **(Section 110)**

15 "If the application number of the earlier application is not indicated in the request but is furnished by the applicant to the International Bureau prior to the expiration of the 16th month from the priority date, it shall be considered by all designated States to have been furnished in time. If it is furnished after the expiration of that time limit, the International Bureau shall inform the applicant and the designated Offices of the date on which the said number was furnished to it. ..." **(Rule 4.10 (c))**

16 Parent Application or Grant (Rule 4.1 *(b)* (v))
"If the applicant wishes his international application to be treated, in any designated State, as an application for a patent or certificate of addition, inventor's certificate of addition, or utility certificate of addition, he shall identify the parent application or the parent patent, parent inventor's certificate, or parent utility certificate to which the patent or certificate of addition, inventor's certificate of addition, or utility certificate of addition, if granted, relates. For the purposes of this paragraph, Article 2 (ii) shall not apply." **(Rule 4.13)**
"If the applicant wishes his international application to be treated, in any designated State, as an application for a continuation or a continuation-in-part of an earlier application, he shall so indicate in the request and shall identify the parent application involved." **(Rule 4.14)**

17 Earlier International or International-Type Search (Rule 4.1 *(b)* (ii))
"If an international or international-type search has been requested on an application under Article 15 (5), the request may state that fact and identify the application (or its translation, as the case may be) by country, date and number, and the request for the said search by date and, if available, number." **(Rule 4.11)**

18 Different Applicants for Different (Groups of) Designated States (Rule 18.4)
"The international application may indicate different applicants for the purposes of different designated States, provided that, in respect of each designated State, at least one of the applicants indicated for the purposes of that State is entitled to file an international application according to Article 9." **(Rule 18.4 (a))**
Where box IX is used, only those applicants may be indicated in it which are also indicated in box II. All the applicants appearing in box II must also be indicated in box IX.
Where the United States of America is one of the designated States, the applicant or applicants named in respect of the United States of America must be the inventor or inventors.

19 Different Inventors for Different (Groups of) Designated States
"The request may, for different designated States, indicate different persons as inventors where, in this respect, the requirements of the national laws of the designated States are not the same. In such a case, the request shall contain a separate statement for each designated State or group of States in which a particular person, or the same person, is to be considered the inventor, or in which particular persons, or the same persons, are to be considered the inventors." **(Rule 4.6 (c))**

20 Signature
The signature **(Rule 4.1 (d))** must be that of the applicant and if there are several applicants all must sign **(Rule 4.15)**; however, the signature may be that of the agent **(Rule 2.1)** where there is attached to this request a separate power of attorney appointing the agent. "Appointment of any agent or of any common representative within the meaning of Rule 4.8 *(a)*, if the said agent or common representative is not designated in the request signed by all applicants, shall be effected in a separate signed power of attorney (i.e., a document appointing an agent or a common representative)." **(Rule 90.3 (a))**

21 Check List
"*(a)* The printed form shall contain a list which, when filled in, will show:

(i) the total number of sheets constituting the international application and the number of the sheets of each element of the international application (request, description, claims, drawings, abstract);
(ii) whether or not the international application as filed is accompanied by a power of attorney (i.e., a document appointing an agent or a common representative), a priority document, a receipt for the fees paid or a check for the payment of the fees, an international or an international-type search report, a document in evidence of the fact that the applicant is the successor in title of the inventor, and any other document (to be specified in the check list);
(iii) the number of that figure of the drawings which the applicant suggests should accompany the abstract when the abstract is published on the front page of the pamphlet and in the Gazette; in exceptional cases, the applicant may suggest more than one figure.

(b) The list shall be filled in by the applicant, failing which the receiving Office shall fill it in and make the necessary annotations, except that the number referred to in paragraph *(a)* (iii) shall not be filled in by the receiving Office." **(Rule 3.3)**

22 Missing Drawings (Rule 26.6)
"*(a)* If, as provided in Article 14(2), the international application refers to drawings which in fact are not included in that application, the receiving Office shall so indicate in the said application." **(Rule 26.6 (a))**
"Where the international application refers to drawings which in fact are not included in that application, the receiving Office shall make the indication referred to in Rule 26.6 *(a)* by and appropriate marking of the request form." **(Section 310 (a))**

THIS SHEET IS NOT PART OF THE INTERNATIONAL APPLICATION

This column for use by receiving Office

FEE CALCULATION SHEET [1]

I. **TRANSMITTAL FEE** [2] ..... | | T |

II. **SEARCH FEE** [3] ..... | | S |

III. **INTERNATIONAL FEE** [4]

BASIC FEE [5]

Indicate the number of SHEETS contained in the international application _____.

first 30 sheets ..... | | b_1 |

remaining _____ sheets × _____ = | | b_2 |
(multiply excess over 30 by amount of supplement to fee)

Add amounts entered in boxes b_1 and b_2 and enter total in box B.
This figure is the amount of the BASIC FEE ..... | | B |

DESIGNATION FEES [4,6]

Indicate the number of DESIGNATED STATES for which national patents have been sought and multiply by the amount of the designation fee _____ × _____ = | | d_1 |

Indicate the number of GROUPS of designated States for which regional patents have been sought and multiply by the amount of the designation fee _____ × _____ = | | d_2 |

Add amounts entered in boxes d_1 an d_2 and enter total in box D.
This figure is the amount of the DESIGNATION FEES ..... | | D |

Add amounts entered in boxes B and D, and enter total in box I.
This figure is the amount of the INTERNATIONAL FEE ..... | | I |

IV. **TOTAL OF PRESCRIBED FEES:**

Add amounts entered in boxes T, S and I, and enter total in the total box. This figure is the total amount of the PRESCRIBED FEES ..... | | TOTAL

THE APPLICANT MAY PAY THE PRESCRIBED FEES BY [CHEQUE, POSTAL MONEY ORDER, BANK DRAFT, CASH, REVENUE STAMPS, COUPONS, ETC.], PAYMENT SHOULD BE MADE IN THE PRESCRIBED CURRENCY TO THE [ACCOUNT OF, ACCOUNT INDICATED BELOW OF, ORDER OF] THE RECEIVING OFFICE

See notes on reverse side

NOTES TO FORM PCT/RO/101 (ANNEX)

1 The purpose of the fee calculation sheet is to aid the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing of the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

2 "Any receiving Office may require that the applicant pay a fee to it, for its own benefit, for receiving the international application, transmitting copies to the International Bureau and the competent International Searching Authority, and performing all the other tasks which it must perform in connection with the international application in its capacity of receiving Office ("transmittal fee")." **(Rule 14.1 (a))**

"The amount and the due date of the transmittal fee, if any, shall be fixed by the receiving Office." **(Rule 14.1 (b))**

3 "Each International Searching Authority may require that the applicant pay a fee ("search fee") for its own benefit for carrying out the international search and for performing all other tasks entrusted to International Searching Authorities by the Treaty and these Regulations. **(Rule 16.1 (a))**

"The search fee shall be collected by the receiving Office. It shall be payable in the currency prescribed by that Office, it being understood that, if that currency is not the same as the currency of the State in which the International Searching Authority is located, the search fee, when transferred by the receiving Office to that Authority, shall be freely convertible into the currency of the said State. As to the time of payment of the search fee, Rule 15.4 (*a*) shall apply." **(Rule 16.1 (b))**

4 "Each international application shall be subject to the payment of a fee for the benefit of the International Bureau ("international fee") consisting of:

(i) a "basic fee," and

(ii) as many "designation fees" as there are States designated in the international application, provided that, where a regional patent is sought for certain designated States, only one designation fee shall be due for such purpose." **(Rule 15.1)**

See also Section 203*bis* of the Administrative Instructions as to the calculation of separate designation fees in cases where a national patent and a regional patent are sought for the same designated State.

"The international fee shall be payable in the currency prescribed by the receiving Office, it being understood that, when transferred by the receiving Office to the International Bureau, it shall be freely convertible into Swiss currency." **(Rule 15.3 (b))**

The amounts of the fees fixed in Rule 15.2 (see Notes 5 and 6 below) provide the basis on which the amounts of the fees in the prescribed currency (other than US dollars and Swiss francs) are fixed. (Decision on interpretation by PCT Assembly.) The amounts in the prescribed currency (other than US dollars and Swiss francs) may be ascertained from the receiving Office; they are also published in the PCT Gazette.

5 "The amount of the basic fee shall be:

(i) if the international application contains not more than 30 sheets: US$165.00 or 250 Swiss francs,

(ii) if the international application contains more than 30 sheets: US$165.00 or 250 Swiss francs plus US$3.00 or 4.50 Swiss francs per sheet in excess of 30 sheets." **(Rule 15.2 (a))**

6 "The amount of the designation fee for each designated State or each group of designated States for which the same regional patent is sought shall be: US$40.00 or 60 Swiss francs." **(Rule 15.2 (b))**

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

*No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
United States of America		
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement, PCT Gazette, No. 02/1978, pages 140 and 144).	English
EPO		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES:
THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

International Preliminary Examining Authorities: Their list and certain data concerning them (Continued)

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
United Kingdom Patent Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT. Rule 67.1*. (See Article 6 of the Agreement, PCT Gazette, No. 02/1978, page 126).	English (but only where it is the language of filing or publication)
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT. Rule 67.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

AGREEMENT BETWEEN THE USSR STATE COMMITTEE FOR INVENTIONS AND DISCOVERIES (FORMERLY THE STATE COMMITTEE FOR INVENTIONS AND DISCOVERIES OF THE USSR COUNCIL OF MINISTERS) AS INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY AND THE INTERNATIONAL BUREAU OF WIPO: AMENDMENTS TO ANNEXES B AND D

The USSR State Committee for Inventions and Discoveries and the International Bureau of WIPO have agreed, pursuant to Article 16(2) of the Agreement*, to amend Annexes B and D thereof to read as follows:

"**ANNEX B**

to the Agreement between the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau of the World Intellectual Property Organization in relation to the functioning of the State Committee for Inventions and Discoveries of the USSR Council of Ministers as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

LIST

of Subject Matter Specified under Article 6 of the Agreement.

For the time being, the Authority will not search or examine all of the subject matter referred to in Rules 39.1 and 67.1 it being understood that no search or examination will be carried out in respect of computer programs.

"**ANNEX D**

to the Agreement between the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau of the World Intellectual Property Organization in relation to the functioning of the State Committee for Inventions and Discoveries of the USSR Council of Ministers as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty.

LIST

of the Languages Specified for the Purposes of Article 11 of the Agreement.

The languages specified for the purposes of Article 11 of the Agreement are, depending on the language of the international application:

Russian
English
French
German"

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

Luxembourg
Ministry of National Economy, Patent Office

Waived entirely

Sweden
Royal Patent and Registration Office

Waived except as to the international search report (including the indication referred to in Article 17(2)(b)), or the declaration referred to in Article 17(2)(a), in the language in which the international application is filed and, where applicable, is translated.

United States of America
United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The ***United States of America*** is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

Denmark, Sweden and Switzerland are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15(5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patents Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application in a language prescribed by the patent authority.

(2) If the appplicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15(5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the filing of the patent application, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX : International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15(5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121(2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

GUIDELINES FOR DRAWINGS UNDER THE PATENT COOPERATION TREATY (PCT)

TABLE OF CONTENTS

Introductory Note

Guidelines

1. When drawings are required
2. Graphic forms which are considered to be drawings
3. Presentation of drawings
4. Conditions regarding the paper used
5. Fastening sheets of drawings
6. Presentation of the sheets of drawings
   - Usable surface area of the sheets of drawings
   - Numbering of sheets of drawings
7. General lay-out of drawings
   - Placement of figures
   - Numbering of figures
   - Complete figure
8. Expressions, etc., not to be used
9. Execution of drawings
   - Drawing of lines and strokes
   - Shading
   - Cross-sections
   - Sectional diagrams
   - Hatching
   - Scale of drawings
   - Numbers, letters and reference signs
   - Leading lines
   - Arrows
   - Numbers and letters in the drawings
   - Consistent use of reference signs as between the description, claims and drawings
   - Consistent use of reference signs as between the figures of the drawings
   - Variations in proportions
10. Text matter on drawings
11. Conventional symbols
12. Amendments to drawings
13. Graphic forms not considered to be drawings
    - Chemical or mathematical formulae
    - Tables (in the description)
    - Tables (in the claims)
14. Photographs and Photomicrographs (excluding photolithographs)

INTRODUCTORY NOTE

1. These Guidelines are directed to the Regulations under the Patent Cooperation Treaty (PCT) relating to drawings (Rule 11). They reproduce, at least in part, for easy reference, the text of the Rules concerning drawings, together with comments, observations and explanations regarding interpretation. The provisions of the Regulations under the PCT relevant to a particular paragraph are cited in the left-hand margin opposite the paragraph concerned.

2. The Guidelines deal with the requirements for drawings that are a part of international applications and are intended to be used primarily by the PCT Authorities to determine the acceptability of the drawings submitted in international applications.

3. The Guidelines should provide a handy aid and reference material for those persons whose task it is to see that the drawings comply with the various physical requirements under the PCT and also for those persons who prepare such drawings--applicants and their attorneys or agents and draftsmen.

4. It is to be noted that these Guidelines are meant to be recommendations for the purpose of achieving some degree of uniformity and are not mandatory requirements to the extent that they specify details beyond the scope of the Regulations under the PCT.

5. As explained in Section 13 of the Guidelines, figurative representations, i.e., chemical and mathematical formulae and tables, are not considered as drawings under the Regulations of the PCT. Nevertheless, to the extent that such figurative representations are produced and reproduced, by means similar to drawings, they are also dealt with in these Guidelines.

6. Although photographs are not mentioned in the PCT, or the Regulations thereunder, they are dealt with in the Guidelines which will apply in the event the photographs have been included in an international application as being indispensable for the understanding of a claimed invention.

7. Drawings are an international language; this is a particularly important factor when technical documents have to be translated into several languages. While a translation, however carefully done, may not reflect the author's true intentions, since every language has its own particular means of expression, a good drawing needs no alteration in order to be understood all over the world. The same is true of chemical and mathematical formulae, which give universally comprehensible expression to specific concepts.

Rule 48.3*(a)* and *(b)*

8. The drawings, if any, in an international application are of prime importance. The international application is either published in English, French, German, Japanese or Russian, or, if filed in another language, in English translation. Anyone consulting the contents of a published international application who does not know the language in which the description, claims, and possibly the abstract are drawn up, thus has only the drawings from which to initially gain an idea of the content of the application. Hence the importance of Guidelines to ensure that drawings are clear and easily understood. This point must always be borne in mind by persons whose task it is to check drawings and by inventors, draftsmen, and the national patent Offices.

9. The one general principle which has prevailed in the formulation of all the drawing requirements under the PCT is that the drawings must be clear, legible and comprehensible. The ideal to be aimed at is a situation in which a look at the drawings and the description would show the reader not only the technical field covered by the invention, but also, and above all, the technical contribution it makes.

10. It is also to be noted that the Regulations under the PCT require that, whenever drawings are reproduced by any means with a linear reduction in size to two-thirds, the drawings should enable all details to be distinguished without difficulty. The general principle enunciated in paragraph 9 above must be understood in the light of this requirement.

GUIDELINES FOR DRAWINGS UNDER THE PATENT COOPERATION TREATY (PCT)

1. When drawings are required

1.1 The situations in which an international application is required to, or may, include drawings under the PCT are set forth in Article 7 and Rule 7.2 as follows:

Article 7

"(1) Subject to the provisions of paragraph (2)(ii), drawings shall be required when they are necessary for the understanding of the invention.

(2) Where, without being necessary for the understanding of the invention, the nature of the invention admits of illustration by drawings:

(i) the applicant may include such drawings in the international application when filed,

(ii) any designated Office may require that the applicant file such drawings with it within the prescribed time limit."

Rule 7.2

"The time limit referred to in Article 7(2)(ii) shall be reasonable under the circumstances of the case and shall, in no case, be shorter than 2 months from the date of the written invitation requiring the filing of drawings or additional drawings under the said provision."

2. Graphic forms which are considered to be drawings

2.1 Perspectives, exploded views, sections and cross-sections, and details on a different scale are all considered to be drawings within the meaning of the PCT. Drawings also cover "flow sheets and diagrams," such as functional diagrams and graphic representations of a given phenomenon which express the relationship between two or more magnitudes.

Rule 7.1

Rule 11.10

2.2 Chemical or mathematical formulae and tables may be included in the description, claims and abstract, in which case they are not subject to the same requirements as drawings. Such graphic forms are dealt with in further detail in Section 13. As explained in that Section, such graphic forms may nevertheless be submitted as drawings, in which case they are subject to the same requirements as drawings.

3. Presentation of drawings

Rule 11.4*(a)*
Rule 11.13*(j)*
Rule 11.10*(a)*

3.1 All figures of the drawings must be grouped together and arranged on a sheet or sheets without wasting space, preferably in an upright position, clearly separated from one another, and may in no event be included in the sheets containing the request, description, claims or abstract.

3.2 In accordance with Rule 11.2*(a)*, the drawings "shall be so presented as to admit of direct reproduction by photography, electrostatic processes, photo offset, and microfilming, in any number of copies."

3.3 As regards the figure, or figures in exceptional cases, to accompany the abstract, where an international application contains drawings, reference should be made to the "Guidelines for International Search to be Carried Out under the Patent Cooperation Treaty (PCT)," Chapter XI, Section 5. The figure(s) illustrating the abstract must be the figure(s) which best characterize(s) the claimed invention and must be chosen from the drawings accompanying the international application. The abstract may be illustrated by one or more figures only if the international application itself contains drawings. The figure(s) that will accompany the abstract at the time the international application is published may not be included in the abstract. At least one figure of the drawings should be suitable for use with the abstract.

4. Conditions regarding the paper used

Rule 11.5
Rule 11.3
Rule 11.2*(b)* and *(c)*

4.1 Drawings must be on sheets of A4 paper (29.7 cm x 21 cm) "which shall be flexible, strong, white, smooth, non-shiny and durable." "All sheets shall be free from creases and cracks; they shall not be folded." "Only one side of each sheet shall be used."

Rule 11.12

4.2 "Each sheet shall be reasonably free from erasures and shall be free from alterations, overwritings and interlineations. Non-compliance with this Rule may be authorized, in exceptional cases, if the authenticity of the content is not in question and the requirements for good reproduction are not in jeopardy."

4.3 The aim of these provisions is to obtain a good quality reproduction of the original drawings which is as clear as possible. Erasures on an original sometimes reappear on a reproduction.

5. Fastening sheets of drawings

Rule 11.4*(b)*

5.1 "All sheets of the international application shall be so connected that they can be easily turned when consulted, and easily separated and joined again ..."

5.2 Removable fastenings (for example, bendable prongs) are permitted if placed through holes which are placed in the left-hand margin in accordance with standard I.S.O. 838-1974 (E). Temporary fastenings (staples, paper clips and grips, etc.), which leave only slight marks in the margin, may also be used.

6. Presentation of the sheets of drawings

6.1 The presentation of the sheets of drawings must conform to certain rules regarding the usable surface area and the numbering of the various sheets used. The requirements are dealt with below.

Usable surface area of the sheets of drawings

6.2 The usable surface area of sheets of drawings should be as follows:

Rule 11.6(c) "On sheets containing drawings, the surface usable shall not exceed 26.2 cm x 17.0 cm. The sheets shall not contain frames around the usable or used surface. The minimum margins shall be as follows: - top: 2.5 cm; - left side: 2.5 cm; - right side: 1.5 cm; - bottom: 1.0 cm."

6.3 Under Rule 11.6(e), the margins "must be completely blank" and, accordingly, no entries may be made in the margins. The drawings must be so set out that they do not overlap into the minimum margin defined in Rule 11.6(c).

Numbering of sheets of drawings

Rule 11.7(a) Rule 11.7(b) 6.4 "All the sheets contained in the international application shall be numbered in consecutive arabic numerals." "The numbers shall be placed at the top of the sheet, in the middle, but not in the margin" regardless of the positioning of the figures. The sheets of drawings must be numbered within the maximum usable surface area (i.e., 26.2 cm x 17.0 cm) as defined in Rule 11.6(c)). Instead of numbering the sheet in the exact middle at the top, in certain exceptional cases it may, however, be acceptable for the drawing to be numbered towards the right-hand side, if the drawing comes too close to the middle of the edge to provide sufficient usable surface. This numbering should be in numbers larger than those used as reference signs in the drawings to avoid any confusion with the latter.

6.5 As stated in paragraph 6.4 above, Rule 11.7(a) requires all sheets of the international application to be numbered consecutively. According to Article 3(2), an international application consists of all the following elements: a request, a description, one or more claims, one or more drawings (where required) and an abstract. Taking these two requirements together it might appear, therefore, that all the sheets making up the international application must be numbered consecutively. Section 207 of the Administrative Instructions, however, provides that the numbering of sheets should be effected by the use of three separate series of numbering. The first series of numbers shall be applied to the request only, and shall commence with the first sheet of the request. The second series of numbers shall commence with the first sheet of the description and continue through the claims until the last sheet of the abstract and the third series shall be applied to sheets of the drawings commencing with the first sheet of the drawings.

6.6 It is therefore required that the sheets of drawings be consecutively paginated from 1 onwards, and it is suggested that the number of each sheet be shown by two arabic numerals placed either side of an oblique line, the first being the sheet number, and the second being the total number of sheets of drawings, with no other marking. For example, "2/5" would be used for the second sheet of drawings of a file containing 5 sheets and "1/1" would be used in the case of a single sheet. It should be noted, in particular, that the sheets of drawings should contain no entry such as "plate" or "sheet" which would entail having to translate such terms, thereby raising problems for sheets on which no other wording may appear.

7. *General lay-out of drawings*

7.1 The various figures on the same sheet of drawings must be laid out according to certain requirements as to placement of figures and figure numbering. Figures divided into several parts must comply with particular requirements as explained below.

Placement of figures

Rule 11.2(d)
Rule 11.13(j)

7.2 As far as possible, all figures of the drawings should be set out upright on the sheets (i.e., the short sides at the top and bottom). If a figure is broader than it is high, it may be set out so that the bottom of the figure lies parallel to and along the right-hand side of the sheet. In this case, if other figures are drawn on the same sheet, they should be set out in the same way, so that all the figures on a single sheet lie in the same position.

7.3 The drawing should contain as many figures as may be necessary to adequately show the claimed invention. The views may be plan, elevation, section, or perspective views; detail views of portions or elements, on a larger scale if necessary, may be used. Exploded views, with the separated parts of the same figure embraced by a bracket, to show the relationship or order of assembly of various parts are permissible. One figure should not be placed upon or within the outline of another figure. A spacing is recommended between each figure. They should not be separated by lines.

7.4 In the case of inventions concerning improvements to details of existing devices and machines, a general figure may be desirable to indicate where on the device or machine the improvement is situated, in order to ensure that the drawings are readily understood. If, for example, the invention relates to the fixing of an elastic diaphragm in a diaphragm pump, a figure--generally the first--may represent the entire pump, as improved by the invention, the details of which will then be given in the other figures. On the other hand, it would be unnecessary to represent the entire machine comprising this diaphragm, e.g., the automobile in which the diaphragm pump circulates the fuel.

7.5 In most cases, it will be unnecessary to represent an object by means of its 6 orthogonal views. It will be sufficient to choose the views which are the most representative and contain the minimum of hidden parts, so that the object is completely and unambiguously defined by means of the smallest possible number of views. To this end, it is sometimes sufficient to replace the various views of an object by a single perspective view. The simplest view compatible with the desired result should be chosen.

Numbering of figures

Rule 11.13(k)

7.6 "The different figures shall be numbered in arabic numerals consecutively and independently of the numbering of the sheets" and, if possible, in the order in which they appear. This numbering should be preceded by the abbreviation "FIG," whatever the language of the international application. Where a single figure is sufficient to illustrate the claimed invention, it should not be numbered and the abbreviation "FIG" should not appear. Rule 11.13(e) applies to numbers and letters identifying the figures, i.e., they must be simple and clear and may not be used in association with brackets, circles, or inverted commas. The figure numbers should also be larger than the numbers used for reference signs.

Rule 11.13(i)

An exception to Rule 11.13(k) quoted above may be permitted only as regards partial figures intended to form one complete figure, irrespective of whether they appear on one or several sheets. In this case the complete figure may be identified by the same number followed by a capital letter (e.g., FIGS, 7A, 7B).

7.7 The different figures should preferably be set out, as far as possible, on each sheet in ascending numerical order from left to right and from top to bottom. If one of two figures illustrates on a larger scale a detail from the other, each figure should be numbered separately, and if possible, consecutively.

Complete figure

Rule 11.13*(i)* 7.8 "Where figures on two or more sheets form in effect a single complete figure, the figures on the several sheets shall be so arranged that the complete figure can be assembled without concealing any part of any of the figures appearing on the various sheets."

7.9 Partial figures drawn on separate sheets must always be capable of being linked edge to edge, that is to say, no partial figure may contain parts of another partial figure.

7.10 A very long figure may be divided into several parts placed one above the other on a single sheet. However, the relationship between the different parts must be clear and unambiguous. It is therefore recommended that a smaller scale figure be included showing the whole formed by the partial figures and indicating the positions of the parts shown.

8. Expressions, etc., not to be used

Rule 9.1(i) (ii) and (iv) 8.1 Rule 9.1, in as far as relevant to drawings, states that "the international application shall not contain:

(i) expressions or drawings contrary to morality;

(ii) expressions or drawings contrary to public order;

(iii) ... (not relevant);

(iv) any statement or other matter obviously irrelevant or unnecessary under the circumstances."

8.2 The purpose of Rule 9 is to prohibit the kind of matter likely to induce riot or public disorder, or to lead to criminal or other generally offensive behaviour and matter which is irrelevant or unnecessary. Examples of the kind of matter coming within the first and second categories--contrary to public order ("ordre public") or morality are: incitement to riot or acts of disorder; incitement to criminal acts; racial, religious or similar discriminatory propaganda; and grossly obscene matter. Irrelevant or unnecessary matter is prohibited under the Rule only if it is "obviously irrelevant or unnecessary," e.g., if it has no bearing on the subject matter of the invention or its background of relevant prior art.

9. Execution of drawings

Drawings of lines and strokes

9.1 Rule 11.13*(a)* sets certain standards for lines and strokes in drawings to permit satisfactory reproduction by the various means described in Rule 11.2*(a)* (see also paragraph 3.2 above).

Rule 11.13*(f)* 9.2 The drawings must be executed in durable, black lines and strokes. In all cases, the thickness of the lines and strokes must take into account the scale, nature, execution and perfect legibility of the drawing and of the reproductions. All lines must be drawn with the aid of drafting instruments except those which by their nature do not permit the use of such instruments, e.g., irregular diagrams and ornamental structures.

9.3 Lines and strokes of different thicknesses may be used in the same drawing where different thicknesses have a different meaning. One can, for instance, visualize the use of:

- *a continuous thick line* for edging and outlining views and cross-sections
- *a continuous thick line* for leading lines, hatching, outlining parts of adjoining elements, fictituous lines of intersection of surfaces connected by curved or rounded edges
- *a continuous thin line* drawn freehand for delimiting views, part sections or interrupted views
- *a thin broken line* made up of short dashes for hidden edges and contours
- *a "dot-dash" thin line* for axes and planes of symmetry, extreme positions of movable elements, in front of a cross-section
- *a thin line terminating in two thick lines* for outlines of cross-sections.

Shading

9.4 The use of shading in figures is allowed provided this assists in their understanding and is not so extensive as to impede legibility. Shading may, for instance, be used to indicate the shape of spherical, cylindrical, conical elements, etc. Flat parts may also be lightly shaded. Such shading is allowed in the case of parts shown in perspective but not for cross-sections. Only spaced lines may be used for shading, not fully blacked out areas. These lines must be thin, as few in number as possible and they must contrast with the rest of the drawings.

Cross-sections

9.5 In making and representing cross-sections, certain conditions must be observed with regard to the indication and identification of the figures concerned and how they are to be represented as more fully explained below.

Sectional diagrams

9.6 Where the figure is a cross-section on another figure, the latter should indicate the position of the section and may indicate the viewing direction by arrows at each end.

9.7 Each sectional figure should be capable of being quickly identified, especially where several cross-sections are made on the same figure by marking each end of the cross-section line on the diagram with a single Arabic or Roman numeral. This number will be the same as the Arabic numeral identifying the figure in the international application where the section is illustrated. A cross-section represents that part of an object which is situated on a cutting surface. In industrial drawings, the cross-section is that part of the object which is behind the cutting surface from the point of view of the person looking at it. Cutting surfaces are generally plane surfaces and if they are not they must be defined precisely. Cross-sections must always follow the cutting surface, whatever it may be.

Hatching

Rule 11.13*(b)* 9.8 A cross-section must be set out and drawn in the same manner as a normal view whose parts in cross-section are hatched with regularly spaced parallel oblique strokes, the space between strokes being chosen on the basis of the total area to be hatched.

9.9 Hatching should not impede the clear reading of the reference signs and leading lines. Consequently, if it is not possible to place references outside the hatched area, the
Rule 11.13(b) hatching may be broken off wherever reference signs are inserted. Certain types of hatching may be given a specific meaning. The hatching should be at a substantial angle to the surrounding axes or principal lines, preferably 45°. The various parts of a cross-section of the same item should be hatched in the same manner. The hatching of juxtaposed different elements must be angled in a different way. In the case of large areas, hatching can be confined to an edging drawn around the inside of the outline of the area to be hatched.

Scale of drawings

Rule 11.13(c) 9.10 The scale of the figure must be such that all the essential details can be clearly distinguished in a linear reduction in size to two-thirds.

9.11 In exceptional cases, where required, the scale of the drawing may be graphically
Rule 11.13(d) represented. Indications such as "actual size" or "scale 1/2" on the drawings or in the description, are not permitted, since these lose their meaning with reproduction in different format.

Numbers, letters and reference signs

9.12 Numbers, letters and reference signs and any other data given on the sheets of drawing, such as the numbering of figures, and of the sheets of the drawings, acceptable text
Rule 11.13(e) matter, graduations on scales, etc., must be simple and clear, and not used in association with any brackets, inverted commas, circles or outlines whatsoever. Signs indicating minutes, seconds or degrees are permitted. Numbers, letters and reference signs should be laid out in the same direction as the diagram so as to avoid having to rotate the sheet.

9.13 It is desirable that such numbers, letters and reference signs should not be so placed in the closed and complex parts of the drawings as to interfere with a thorough comprehension of the same, and therefore should rarely cross or mingle with the lines. As a general rule, numbers, letters and reference signs should be placed as closely as possible to the part in question.

Leading lines

9.14 Leading lines are those lines between the reference signs and the details referred to. Such lines may be straight or curved and should be as short as possible. They must originate in the immediate proximity of the reference sign and extend to the feature indicated. Leading lines for certain reference signs may be omitted. Reference signs of this type, which are not connected to anything, will then indicate the surface or cross-section on which they are placed. In such cases the reference sign may be underlined to make it quite clear that the
Rule 11.13(a) line has not been left out by mistake. Leading lines must be executed in the same way as lines in drawings.

Arrows

9.15 Arrows may be used at the end of the leading lines provided that their meaning is clear. They may indicate a number of points:

(a) a freestanding arrow indicates the entire section towards which it points;

(b) an arrow touching a line indicates the surface shown by the line looking along the direction of the arrow;

(c) arrows may also be used in appropriate cases to show the direction of movement.

Numbers and letters in the drawings

9.16 Under Rule 11.13*(h)*, a minimum size of 0.32 cm is required for all numbers and letters used on the drawings so that their reduction in size to two-thirds remains easily legible.

Rule 11.13*(h)* 9.17 The Latin alphabet should normally be used for letters. The Greek alphabet is to be accepted, however, where it is customarily used, e.g., to indicate angles, wavelengths, etc.

Consistent use of reference signs as between the description, claims and drawings

Rule 11.13*(l)* 9.18 "Reference signs not mentioned in the description shall not appear in the drawings, and vice versa." Reference signs appearing in the drawings must be given in the description.

9.19 Features of a drawing should not be designated by a reference in cases where the feature itself has not been described. This situation may arise as a result of amendments to the description involving the deletion of pages or whole paragraphs. One solution would be to delete reference signs on the drawing which have been deleted in the description.

9.20 Where for any reason a figure is deleted, all reference signs relating solely to that figure appearing in the description and claims should also be deleted.

Rule 11.13*(n)* 9.21 In the case of international applications dealing with complex subjects and incorporating a large number of drawings, a separate sheet listing all reference signs may be attached to the end of the description as a part thereof. This list may take whatever form is appropriate and contain all the reference signs together with the designation of the features which they denote. This method could have the advantage of allowing an easier reference to the meaning of the various reference signs employed and understanding of the drawings.

Consistent use of reference signs as between the figures of the drawings

Rule 11.13*(m)* 9.22 "The same features, when denoted by reference signs, shall, throughout the international application, be denoted by the same signs."

9.23 There would be considerable confusion if a single feature were allocated different reference signs in the various figures of the drawing. However, where several variants or embodiments of a claimed invention are described, each with reference to a particular figure, and where each variant contains features whose function is the same or basically the same, the features may, if this is indicated in the description, be identified by reference numbers made up of the number of the figure to which it relates followed by the number

of the feature, which is the same for all variants, so that a single number is formed, e.g., the common feature "15" would be indicated by "115" in Fig. 1 while the corresponding feature would be indicated by "215" in Fig. 2. This system has the advantage that an individual feature and the figure on which it is to be considered can be indicated at the same time. It can also make complex cases involving many pages of drawings easier to read. Instead of the common reference sign being prefixed by the number of a figure, it may, when the individual variants or embodiments are described with reference to particular groups of figures, be prefixed by the number of the particular variant or embodiment to which it relates; this system should, if used, be explained in the description.

Variations in proportions

Rule 11.13*(g)*

9.24 "Each element of each figure shall be in proper proportion to each of the other elements in the figure, except where the use of a different proportion is indispensable for the clarity of the figure."

9.25 As a preferred alternative to a difference in proportion within one figure for the purpose of achieving the necessary clarity, a supplementary figure should be added giving a larger scale illustration of the element of the initial figure. In such cases it is recommended that the enlarged element shown in the second figure be surrounded by a finely drawn or "dot-dash" circle in the first figure pinpointing its location without obscuring the figure.

10. Text matter on drawings

10.1 It should first be noted that Rule11.13*(e)* and *(h)* also apply to text matter on the drawings (see paragraphs 9.12, 9.16 and 9.17 above).

Rule 11.11

10.2 "The drawings shall not contain text matter, except a single word or words when absolutely indispensable such as "water," "steam," "open," "closed," "section on AB" and in the case of electric circuits and block schematic or flow sheet diagrams, a few short catch words indispensable for understanding. Any words used shall be so placed that if translated, they may be pasted over without interfering with any lines of the drawings."

10.3 Where text matter is deemed indispensable for understanding the drawing, a minimum of words should be used, and a space free of all lines of drawings should be left around them to facilitate the insertion of any translation in the manner referred to in paragraph 10.2 above.

11. Conventional symbols

Rule 10.1*(d)* and *(e)*

11.1 Known devices may be illustrated by symbols which have a universally recognized conventional meaning and are generally accepted in the art provided no further detail is essential for understanding the subject matter of the claimed invention. Other signs and symbols may be used on condition that they are not likely to be confused with existing conventional symbols, that they are readily identifiable, i.e., simple, and provided that they are clearly explained in the text of the description. Different types of hatching may also have different conventional meanings as regards the nature of a material seen in cross-section.

12. Amendments to drawings

12.1 Provision for the submission of amendments to drawings during the international procedure (as distinct from corrections and rectification of obvious errors) is made only in Chapter II of the PCT.

Rule 66.1
Rule 66.2*(b)*
Rule 66.4

12.2 In Chapter II, amendments to drawings may be submitted by the applicant either on his own initiative before the international preliminary examination starts, or upon an invitation formulated by the International Preliminary Examining Authority in its first, or any subsequent, written opinion. Additionally, the International Preliminary Examining Authority, on the request of the applicant himself, may give one or more additional opportunities to submit amendments.

12.3 The general rule governing the admissibility of amendments, which must be borne in mind, is that they must not extend the content of the application as filed, i.e., they must not have the effect of introducing new material.

Rule 66.8*(a)*

12.4 "The applicant shall be required to submit a replacement sheet for every sheet of the international application which, on account of a correction or amendment, differs from the sheet originally filed. The letter accompanying the replacement sheets shall draw attention to the differences between the replaced sheets and the replacement sheets. To the extent that any amendment results in the cancellation of an entire sheet, that amendment shall be communicated in a letter." This provision also applies to amendments to drawings.

13. Graphic forms not considered to be drawings

Chemical or mathematical formulae

Rule 11.10*(b)*
Rule 11.9*(b)*

13.1 "The description, the claims and the abstract may contain chemical or mathematical formulae." Such formulae may be written by hand or drawn if necessary but it is recommended that appropriate drafting aids or materials such as stencils or transfers be used. For practical reasons formulae may be grouped together on one or more sheets in the description and paginated with it. It is recommended in such cases that each formula be designated by a reference sign and the description should contain references to such formulae whenever necessary.

13.2 Chemical or mathematical formulae may also be grouped together and be placed after the claims as drawings. In such a case, the chemical or mathematical formulae must be drawn to comply with the requirements for drawings and the sheets must be numbered as drawing sheets.

Rule 10.1*(d)*

13.3 The chemical or mathematical formulae must employ symbols in general use and must be drawn in such a way that they are completely unambiguous. Numerals, letters and signs which are not typed must be legible and identical in form in the various formulae, irrespective of the element of the international application in which they appear.

Rule 11.9*(d)*
Rule 11.13*(h)*

13.4 Chemical or mathematical formulae appearing in the text of the international application must have symbols the capital letters of which are at least 0.21 cm high. Where they appear on sheets of drawings, these symbols must be at least 0.32 cm high.

13.5 All mathematical symbols used in a formula which appear in a description or on sheets of drawings should be explained in the description, unless their significance is clear from the context. In any case, the mathematical symbols used may be collated in a list.

Tables (in the description)

Rule 11.10(c) 13.6 For the sake of convenience, the tables may also be grouped together in one or more sheets of the description and paginated with it.

13.7 If two or more tables are necessary, each should be identified by a Roman number, independently of the pagination of the description or drawings or of the figure numbering, or by a capital letter, or by a title indicating its contents, or by some other means.

13.8 Each line and column in a table should begin with an entry explaining what it represents and, if necessary, the units used.

13.9 It should be remembered that the characters must satisfy the requirements of Rule 11.9 and also Rule 11.6(a) and (b), regarding the maximum usable surface areas of sheets and that these requirements apply to tables as well.

Tables (in the claims)

Rule 11.10(c) 13.10 The claims may include tables if this is desirable in view of the subject matter involved. In this case, the tables must be included in the text of the relevant claim; they may not be annexed to the claims nor may reference be made to tables contained in the description. Rule 6.2(a) stipulates that the claims may refer to the description or drawings in the international application only where this is absolutely necessary. The mere desire to eliminate the need to prepare further copies does not constitute absolute necessity.

14. Photographs and Photomicrographs (excluding photolithographs)

14.1 The PCT makes no provision for photographs or photomicrographs. Nevertheless, there are cases where a photograph is necessary, as it is sometimes impossible to draw what it shows, e.g., crystalline structures, metallurgical microstructures, textile fabrics, and grain structures. In such cases, one or more photographs may be necessary.

14.2 Such photographs, to be acceptable, must be made on photographic paper having the following characteristics which are generally accepted in the photographic trade: double weight paper with a surface described as smooth, tint, white.

14.3 In any event, photographs must be submitted on sheets of A4 size (29.7 cm x 21 cm) with the minimum margins laid down in Rule 11.6(c).

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

– the May 1978 editions of the *Guide* in English and German,

– the March 1978 edition of the *Guide* in French (with updating sheets),

– the Annexes dated October 31, 1978, in English and French.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)
as of December 7, 1978

Brazil	April 9, 1978(1)
Cameroon	January 24, 1978(1)
Central African Empire	January 24, 1978(1)
Chad	January 24, 1978(1)
Congo	January 24, 1978(1)
Denmark*	December 1, 1978(2)
France*	February 25, 1978(1)

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

This information was last published on pages 345 to 348 of the PCT Gazette, No. 07/1978, under the following headings:

- International Searching Authorities: Their List and Certain Data Concerning Them
- International Preliminary Examining Authorities: Their List and Certain Data Concerning Them.

RECEIVING OFFICES

This information was last published on pages 350 to 353 of the PCT Gazette, No. 07/1978, under the following headings:

- Competent Receiving Offices
- Receiving Offices: Their Requirements as to Languages and Copies in which International Applications shall be Filed with Them and the Competent International Searching and International Preliminary Examining Authorities specified by Them.

FEES PAYABLE UNDER THE PATENT COOPERATION TREATY (PCT)

This information was last published on pages 354 to 360 of the PCT Gazette, No. 07/1978, under the following headings:

- Fees payable to the Receiving Office
- Fees payable to the International Searching Authority
- Fees payable to the International Preliminary Examining Authority
- Fees payable to the International Bureau.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

This information was last published on pages 361 to 372 of the PCT Gazette, No. 07/1978, under the following headings:

- Requirements of Designated (or Elected) Offices as to Languages, National Fees and Time Limits
- Obligation to indicate the Name and Certain Other Data concerning the Inventor
- National Offices which entirely or in part waived their Rights to any Communication under Article 20
- Provisions of the Laws of Contracting States Party to a Regional Patent Treaty relevant to Article 45(2)
- Warning and Information concerning the Provisions of the Laws of Contracting States in respect of the Question Who is qualified (Inventor, Successor in Title of the Inventor, Owner of the Invention or other) to file a National Application
- Provisions of the National Laws of Contracting States concerning International-Type Search.

GENERAL PUBLICATIONS

PCT APPLICANT'S GUIDE

The present (latest) editions of the *Guide* and its Annexes are:

- the May 1978 editions of the *Guide* in English and German,
- the March 1978 edition of the *Guide* in French (with updating sheets),
- the Annexes dated October 31, 1978, in English and French.

Requests for the *Guide* may be submitted to WIPO at the address appearing on the inside cover of this Gazette.

INFORMATION CONCERNING INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

INTERNATIONAL SEARCHING AUTHORITIES: THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette, No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

*No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes;

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games;

(iv) methods for treatment of the human or animal body by surgery or therapy as well as diagnostic methods;

(v) mere presentations of information;

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

International Searching Authorities: Their list and certain data concerning them (Continued)

Name of the International Searching Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Searched by the Authority	The International Application must be in one of the following Languages to be accepted for International Search
United States of America		
United States Patent and Trademark Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 39.1*. (See Article 6 of the Agreement which provides that the Authority "will not be obligated to search" such subject matter, and Annex B of the said Agreement. PCT Gazette, No. 02/1978, pages 140 and 144).	English
EPO		
European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 39.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES:
THEIR LIST AND CERTAIN DATA CONCERNING THEM

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
Japan		
Japanese Patent Office (October 1, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 and Annex C of the Agreement, PCT Gazette No. 04/1978, pages 215 and 219).	Japanese
Soviet Union		
USSR State Committee for Inventions and Discoveries (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 6 and Annex B of the Agreement, PCT Gazette No. 02/1978, pages 131 and 136).	Russian English French German
Sweden		
Royal Patent and Registration Office (May 17, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1*, with the exception of diagnostic methods. (See Article 6 and Annex B of the Agreement, PCT Gazette, No. 02/1978, pages 118 and 123).	Danish English Finnish French Icelandic Norwegian Swedish

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

(Table of) International Preliminary Examining Authorities: Their list and certain data concerning them (Continued)

Name of the International Preliminary Examining Authority (Date of Entry into Force of the Agreement with the International Bureau of WIPO)	Subject Matter that will not be Examined by the Authority	The International Application must be in one of the following Languages to be accepted for International Preliminary Examination
United Kingdom Patent Office (April 11, 1978)	The subject matter specified in items (i) to (vi) of PCT, Rule 67.1* (See Article 6 of the Agreement, PCT Gazette, No. 02/1978, page 126).	English (but only where it is the language of filing or publication)
EPO European Patent Office (April 11, 1978)	The subject matter specified in items (i) to (v) of PCT, Rule 67.1* and computer programs. (See Article 7 of the Agreement, PCT Gazette, No. 02/1978, page 109).	English French German

* No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories;

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

RECEIVING OFFICES

COMPETENT RECEIVING OFFICES

Contracting State of which the applicant is a national or resident	Competent receiving Office
Brazil	National Institute of Industrial Property (Rio de Janeiro)
Cameroon	International Bureau of WIPO (Geneva)
Central African Empire	International Bureau of WIPO (Geneva)
Chad	International Bureau of WIPO (Geneva)
Congo	International Bureau of WIPO (Geneva)
Denmark	Patent and Trademark Office (Copenhagen)
France	National Institute of Industrial Property (Paris) or European Patent Office*
Gabon	International Bureau of WIPO (Geneva)
Germany (Federal Republic of)	German Patent Office (Munich) or European Patent Office
Japan	Japanese Patent Office (Tokyo)
Luxembourg	Ministry of National Economy, Patent Office (Luxembourg) or European Patent Office
Madagascar	Ministry of Industry and Commerce, Department of Industry and Mines (Antananarivo)
Malawi	Ministry of Justice, Department of the Registrar General (Blantyre)
Senegal	International Bureau of WIPO (Geneva)
Soviet Union	USSR State Committee for Inventions and Discoveries (Moscow)
Sweden	Royal Patent and Registration Office (Stockholm) or European Patent Office
Switzerland	Federal Bureau of Intellectual Property (Berne) or European Patent Office
Togo	International Bureau of WIPO (Geneva)
United Kingdom	Patent Office (London) or European Patent Office **
United States of America	United States Patent and Trademark Office (Washington)

* Where the applicant is a resident of France, the applicable national law requires that an international application not claiming the priority of an earlier application filed in France, must be filed at the National Institute of Industrial Property (Paris).

** A United Kingdom resident may only file direct at the European Patent Office after having obtained written authorization from the Patent Office (London).

RECEIVING OFFICES: THEIR REQUIREMENTS AS TO LANGUAGES AND COPIES IN WHICH INTERNATIONAL APPLICATIONS SHALL BE FILED WITH THEM AND THE COMPETENT INTERNATIONAL SEARCHING AND INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES SPECIFIED BY THEM

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER ARTICLE 20

Luxembourg
Ministry of National Economy, Patent Office

Waived entirely

Sweden
Royal Patent and Registration Office

Waived except as to the international search report (including the indication referred to in Article 17(2)(b)), or the declaration referred to in Article 17(2)(a), in the language in which the international application is filed and, where applicable, is translated.

United States of America
United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO ARTICLE 45(2)

France is the only State party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national law of which provides that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European Patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE PROVISIONS OF THE LAWS OF CONTRACTING STATES IN RESPECT OF THE QUESTION WHO IS QUALIFIED (INVENTOR, SUCCESSOR IN TITLE OF THE INVENTOR, OWNER OF THE INVENTION OR OTHER) TO FILE A NATIONAL APPLICATION

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The ***United States of America*** is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH

Denmark, Sweden and Switzerland are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15(5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patents Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application in a language prescribed by the patent authority.

(2) If the appplicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15(5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the filing of the patent application, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX : International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15(5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121(2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.
