SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

On December 21, 1988, **Burkina Faso** deposited its instrument of accession to the Patent Cooperation Treaty (PCT). Thus, Burkina Faso will become the 41st Contracting State of the PCT on March 21, 1989.

Consequently, as from March 21, 1989, nationals and residents of Burkina Faso will become entitled to file international applications under the PCT, and, from the same date, it will be possible to file international applications designating Burkina Faso. Since Burkina Faso is a member State of the African Intellectual Property Organization (OAPI), such designation has the effect of a designation of that country for the purposes of a regional patent issued by OAPI in Yaoundé, Cameroon.

INTERNATIONAL BUREAU

Non-Working Days

For the purpose of computing time limits under PCT Rule 80.5*, the days on which the International Bureau **is not open for business** are, for the period from February 1, 1989 to February 1, 1990, the following:

all Saturdays and Sundays and
March 24, 1989
March 27, 1989
May 4, 1989
May 15, 1989
September 7, 1989
December 25, 1989
December 26, 1989
January 1, 1990
January 2, 1990

It is important to note that the days indicated above concern **only the International Bureau** and not the national Offices and other international organizations.

---

* Rule 80.5 Expiration on a Non-Working Day

"If the expiration of any period during which any document or fee must reach a national Office or intergovernmental organization falls on a day on which such Office or organization is not open to the public for the purposes of the transaction of official business, or on which ordinary mail is not delivered in the locality in which such Office or organization is situated, the period shall expire on the next subsequent day on which neither of the said two circumstances exists."

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" are indicated. The abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") is sought.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

Modification

The Director General of the World Intellectual Property Organization has modified Sections 105, 108, 112, 201, 202, 203, 204, 303, 304, 309, 310, 313, 314, 318, 325, 327, 402, 411, 416, 422, 423, 425*bis*, 508, 511 and 602 as well as Annexes A, B and D of the Administrative Instructions under the PCT pursuant to Rule 89.2 of the PCT Regulations as set out below. The new text takes effect on October 1, 1989.

The print in italics or footnotes identify what has been changed or deleted in comparison to the text as presently in force. A consolidated text of the Administrative Instructions as in force as of October 1, 1989 will be published in a special issue of the PCT Gazette in September 1989.

The modified Sections are reproduced on the following pages.

Section 105

Several Applicants

Where any international application indicates as applicants several persons, it shall be sufficient, for the purpose of identifying that application, to indicate, in any Form or correspondence relating to such application, the name of the applicant first named in the request. *The provisions of the first sentence of this Section do not apply to the demand.*

Section 108

Correspondence Intended for the Applicant

(a) Any correspondence from an International Authority intended for the applicant, or, in the case of several applicants, the applicants, shall be addressed as follows:

(i) to (iii) [No change]

(iv) Notwithstanding paragraph (iii), the correspondence relating to the procedure under Chapter II of the Treaty shall, where the applicant has appointed an additional agent for the procedure before the International Preliminary Examining Authority, be addressed to that additional agent.

(b) [No change]

Section 112

Ceasing of Effect under Articles 24(1)(iii) and 39(2), Review under Article 25(2) and Maintaining of Effect under Articles 24(2) and 39(3)

(a) Each national Office shall, *in its capacity as designated Office, notify the International Bureau once a year of:*

(i) the number of international applications in respect of which, during the preceding calendar year, the time limit applicable under Article 22 has expired;

(ii) the number of international applications in respect of which, during the preceding calendar year, the requirements provided for in Article 22 have not been complied with before the expiration of the time limit applicable under that Article, with the consequence that the effects of the international applications concerned have ceased under Article 24(1)(iii).

(b) Each national Office shall, in its capacity as elected Office, notify the International Bureau once a year of:

(i) the number of international applications in respect of which, during the preceding calendar year, the time limit applicable under Article 39(1) has expired;

(ii) the number of international applications in respect of which, during the preceding calendar year, the requirements provided for in Article 39(1) have not been complied with before the expiration of the time limit applicable under that Article, with the consequence that the effects of the international applications concerned have ceased under Article 39(3).

(c) Where, under Article 25(2), the designated Office decides that the refusal, declaration or finding referred to in Article 25(1) was not justified, it shall promptly notify the International Bureau that it will treat the international application as if the error or omission referred to in Article 25(2) had not occurred. The notification shall preferably contain the reasons for the decision of the designated Office.

(d) Where, under Article 24(2) or under Article 39(3), the designated or elected Office maintains the effect provided for in Article 11(3), it shall promptly notify the International Bureau accordingly. The notification shall preferably contain the reasons for the decision of the designated or elected Office.

Section 201

Names of States, *Territories and Intergovermental Organizations*

(a) The name of any State, *territory and intergovernmental organization* referred to in the request shall be indicated either by *its full name*, by a generally accepted short title which, if the indications are in English or French, shall be as appears in Annex A, or by the two-letter code* as appears in Annexes A and B.

* The modification consists in deleting, before the word "code" the word "country" and, after the word "code," the words "identifying that State."

(b) [Remains deleted]

Section 202

Kind of Protection

(a) [No change]

(b) Where, in respect of the designation of the Federal Republic of Germany, the applicant is seeking two kinds of protection under Article 44, he shall make the indication referred to in Rule 4.12(b) by inserting, immediately after the indication of the Federal Republic of Germany and in the language of the international application, *the words "and utility model"*

Section 309

Procedure in the Case of Later Submitted Sheets

(a) [No change]

(b) The receiving Office shall, in the case of later submitted sheets received within the time limits referred to in Rule 20.2(a)(i) and (ii):

(i) and (ii) [No change]

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i), above, by transmitting a copy of the corrected first *and last sheets* of the request, and forward* the later submitted sheets to the said Bureau and *a copy thereof to* the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach* the later submitted sheets to the record copy and *a copy thereof to* the search copy.

(c) The receiving Office shall, in the case of later submitted sheets received after the expiration of the time limit referred to in Rule 20.2(a)(i):

(i) [No change]

(ii) where transmittals under Article 12(1) have already been made, forward* the later submitted sheets to the International Bureau with the indication *on the bottom of each sheet of the words: "NOT TO BE TAKEN INTO CONSIDERATION FOR THE PURPOSES OF INTERNATIONAL PROCESSING"*;

(iii) where transmittals under Article 12(1) have not yet been made, attach* the later submitted sheets to the record copy with the indication *referred to in item (ii).*

(d) [No change]

Section 310

Procedure in the Case of Missing Drawings

(a) [No change]

(b) [No change]

---

* The modification consists in deleting, in paragraph (b)(iii), after the word "forward," the words "copies of," in paragraphs (b)(iv) and (c)(iii), after the word "attach," the words "a copy of" and in paragraph (c)(ii), after the word "forward," the words "a copy of."

(c) The receiving Office shall, in the case of missing drawings received within the time limit referred to in Rule 20.2(a)(iii):

(i) and (ii) [No change]

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i), above, by transmitting a copy of the corrected first *and last sheets* of the request, and forward* the later submitted drawings to the said Bureau and *a copy thereof to* the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach* the later submitted drawings to the record copy and *a copy thereof to* the search copy.

(d) The receiving Office shall, in the case of missing drawings received after the expiration of the time limit referred to in Rule 20.2(a)(iii):

(i) [No change]

(ii) where transmittals under Article 12(1) have already been made, forward* the later submitted drawings to the International Bureau with the indication *on the bottom of each drawing of the words: "NOT TO BE TAKEN INTO CONSIDERATION (PCT Art. 14(2), 2nd sentence)" or their equivalent in the language of publication of the international application;*

(iii) where transmittals under Article 12(1) have not yet been made, attach* the later submitted drawings to the record copy with the indication *referred to in item (ii).*

* The modification consists in deleting in paragraph (c)(iii), after the word "forward," the words "copies of," and in paragraph (c)(iv), after the word "attach," the words "a copy of."

Section 313

Documents Filed with the International Application; Manner of Marking the Necessary Annotations in the Check List

(a) Any power of attorney*, any priority document, *any fee calculation sheet and any separate sheet referred to in Section 209(a) containing indications as to deposited micro-organisms*, filed with the international application* shall accompany the record copy; any other document referred to in Rule *3.3(a)(ii)* shall be sent only at the specific request of the International Bureau. If any document* which is indicated in the check list as accompanying the international application is not, in fact, filed at the latest by the time the record copy leaves the receiving Office, that Office shall so note on the check list and the said indication shall be considered as if it had not been made.

(b) [No change]

Section 314

Manner of Indicating and Notification of Correction of the Priority Date or Cancellation of the Priority Claim

(a) [No change]

(b) Where, under Rule 4.10(d), the receiving Office cancels the declaration made under Article 8(1), that Office shall enclose the box in the request Form which provides for the information concerning the priority claim (or, where the priorities of several earlier applications are claimed and not all those priority claims are cancelled, the relevant part of the said box) within square brackets, *shall draw a line between the square brackets while still leaving the contents of the box (or of the relevant part of the box) legible* and *shall* enter, in the margin, the words "CANCELLED ON REQUEST OF APPLICANT" or "CANCELLED EX OFFICIO BY RO," as the case may be, or their equivalent in the language of publication of the international application.

(c) [No change]

* The modification consists in replacing, after the word "attorney," the word "and" by a comma and in deleting, after the word "application," and after the words "any document" the words "referred to in Rule 3.3(a)(ii)."

Section 318

Cancellation of Designations

The receiving Office shall cancel ex officio the designation of any State which is not a Contracting State, shall enclose that designation within square brackets, *shall draw a line between the square brackets while still leaving the designation legible*, shall enter, in the margin, the words "CANCELLED EX OFFICIO BY RO" or their equivalent in the language of publication of the international application, and shall promptly notify the applicant accordingly. If the record copy has already been sent to the International Bureau, the receiving Office shall also notify that Bureau.

Section 325

Corrections under Rules *9.2 and* 26.4(a) and Rectifications under Rule 91.1

(a) *Where the receiving Office receives a correction under Rule 26.4(a) or authorizes a rectification under Rule 91.1, it shall:*

(i) indelibly mark, in the upper right-hand corner of each replacement sheet, the international application number and the date on which it was received;

(ii) indelibly mark, in the middle of the bottom margin of each replacement sheet, the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application;

(iii) indelibly mark on the letter containing the correction or rectification, or accompanying any replacement sheet, the date on which that letter was received;

(iv) keep in its files a copy of the letter containing the correction or rectification or, when the correction or rectification is contained in a replacement sheet, the replaced sheet, a copy of the letter accompanying the replacement sheet, and a copy of the replacement sheet;

(v) subject to item (vi), promptly transmit any letter and any replacement sheet to the International Bureau, and a copy thereof to the International Searching Authority;

(vi) where transmittals under Article 12(1) have not yet been made, transmit any letter and any replacement sheet to the International Bureau together with the record copy and, except where Rule 29.1(a)(iii) applies, a copy of the said letter or replacement sheet to the International Searching Authority together with the search copy. The record copy and the search copy shall contain any replaced sheet.

(b) Where the receiving Office refuses to authorize a rectification under Rule 91.1, it shall proceed as indicated under paragraph (a)(i), (iii) and (iv) and promptly transmit any letter and any replacement sheet to the International Bureau. If the record copy has not yet been sent to the International Bureau, any letter and any replacement sheet shall be transmitted together with the record copy.

(c) Paragraphs (a) and (b) shall apply mutatis mutandis to corrections submitted by the applicant to the receiving Office aimed at complying with the prescriptions of Rule 9.1.

(d) [Deleted]

Section 327

Ex Officio Correction of Request by the Receiving Office

(a) [No change]

(b) When making a correction under paragraph (a), the receiving Office shall enter, in the margin, the letters "RO." Where *any matter is to be deleted*, the receiving Office shall enclose such matter within square brackets *and shall draw a line between the square brackets while still leaving the deleted matter legible. Where any matter is to be replaced, both the first and second sentences of this paragraph shall apply.*

Section 402

Manner of Indicating and Notification of Correction of the Priority Date or Cancellation of the Priority Claim

(a) Where, in reply to an invitation issued by the International Bureau under Rule 4.10(d), the applicant corrects the erroneously indicated filing date of any earlier application, the International Bureau shall enter the corrected

date in the request, draw a line through the previously entered date while still leaving it legible and enter, in the margin, the *letters "IB."*

(b) Where, under Rule 4.10(d), the International Bureau cancels the declaration made under Article 8(1), that Bureau shall enclose the box in the request Form which provides for the information concerning the priority claim (or, where the priorities of several earlier applications are claimed and not all those priority claims are cancelled, the relevant part of the said box) within square brackets, *shall draw a line between the square brackets while still leaving the contents of the box (or the relevant part of the box) legible* and *shall* enter, in the margin, the words "CANCELLED ON REQUEST OF APPLICANT" or "CANCELLED EX OFFICIO BY *IB*," as the case may be, *or their equivalent in French.*

(c) and (d)[No change]

Section 411

Receipt of Priority Document

(a) Subject to paragraph (b), the International Bureau shall record the date on which the priority document has been received by it and shall notify the applicant* accordingly.

(b) to (d) [No change]

Section 416

Correction of Request in Record Copy

(a) [No change]

(b) When making a correction under paragraph (a), the International Bureau shall enter, in the margin, the letters *"IB."* Where the correction involves the deletion or replacement of some matter, the International Bureau shall enclose such matter within square brackets *and shall draw a line between the square brackets while still leaving the deleted or replaced matter legible.*

* The modification consists in deleting in paragraph (a) the words "and the designated Offices."

Section 422

Notifications under Rule 92bis.1

(a) The International Bureau shall give notifications concerning changes recorded by it under Rule 92bis.1(a):

(i) to the receiving Office*;

(ii) *as long as the international search report has not been established,* to the International Searching Authority, unless** Section 425 applies;

(iii) to the designated Offices, unless the change has been recorded after the expiration of the time limit referred to in Article 22(1) *or unless the change can be duly reflected in the pamphlet used for the purposes of the communication of the international application under Article 20;*

(iv) *as long as the international preliminary examination report has not been established,* to the International Preliminary Examining Authority, unless** Section 425 applies;

(v) to the elected Offices, *unless the change can be duly reflected in the pamphlet used for the purposes of the communication of the international application under Article 20;*

(vi) [No change]

(b) [No change]

Section 423

Cancellation of Designations and Elections

(a) The International Bureau shall, if the receiving Office has failed to do so, cancel ex officio the designation of any State which is not a Contracting State, shall enclose that designation

* The modification consists in deleting, after the word "Office," the words "unless the change has been recorded on the request of that Office."

Transitory Provisions Concerning Rule 47.1(b)

[Deleted]

Section 508

Manner of Indicating the Claims to Which the Documents Cited in the International Search Report Are Relevant

The claims to which cited documents are relevant shall be indicated by placing in the appropriate column of the international search report:

(i) to (iii) [No change]

(iv) where the cited document is relevant to more than one series of claims under (ii), above, or to claims of both categories (ii) and (iii), above, the series or individual claim numbers and series placed in ascending order using commas to separate the several series, or to separate the numbers of individual claims and each series of claims; for example, (1-6, 9-10, 12-15) or (1, 3-4, *6*, 9-11).

Section 511

Rectifications under Rule 91.1

(a) Where the International Searching Authority authorizes a rectification under Rule 91.1, it shall:

(i) *indelibly* mark, in the upper right-hand corner of each replacement sheet, the international application number and the date on which it was received;

(ii) *indelibly* mark, in the middle of the bottom margin of each replacement sheet, the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application as well as an indication of the International Searching Authority as provided for in Section 107(b);

(iii) *indelibly* mark on the letter containing the rectification or accompanying any replacement sheet the date on which that letter was received;

(iv) keep in its files a copy of the letter containing the rectification or, when the rectification is contained in a replacement sheet, the replaced sheet, a copy of the letter accompanying the replacement sheet, and a copy of the replacement sheet;

(v) promptly transmit any letter and any replacement sheet to the International Bureau.

(b) Where the International Searching Authority refuses to authorize a rectification under Rule 91.1, it shall proceed as indicated under paragraph (a)(i),(iii) to (v).

Section 602

Amendments under Rule 66.8(a)

(a) The International Preliminary Examining Authority shall:

(i) indelibly mark, in the upper right-hand corner of each replacement sheet submitted under Rule 66.8(a), the international application number and the date on which it was received;

(ii) indelibly mark, in the middle of the bottom margin, the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application;

(iii) keep in its files any replaced sheet, the letter accompanying any replacement sheet, and any superseded replacement sheet or any letter referred to in the last sentence of Rule 66.8(a) as well as a copy of any replacement sheet which is annexed to the international preliminary examination report;

(iv) annex to the copy of the international preliminary examination report which is transmitted to the International Bureau any replacement sheet as provided for under Rule 70.16;

(v) annex to the copy of the international preliminary examination report which is transmitted to the applicant a copy of each replacement sheet as provided for under Rule 70.16.

Information from Pamphlet Front Page To Be Included in the Gazette under Rule 86.1(i)

The following information shall be extracted from the front page of the pamphlet of each published international application and shall, in accordance with Rule 86.1(i), appear in the corresponding entry of the Gazette:

1. to 5. [No change]

6. as to a statement concerning non-prejudicial disclosure or exception to lack of novelty:

6.1 the date of the disclosure
6.2 the place of the disclosure
6.3 the kind of the disclosure (e.g., exhibition, scientific publication, conference reports, etc.)
6.4 the title of the exhibition, publication or conference

[End]

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

"MINIMUM DOCUMENTATION" UNDER RULE 34.1(b)(iii) OF THE REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

The International Searching Authorities have agreed that for the purposes of PCT Rule 34.1(b)(iii), the published items of non-patent literature to be included in the PCT "minimum documentation" should be the items published in the periodicals listed below during the five-year period preceding the time at which an international search report is established, it being understood that an International Searching Authority would not be precluded from consulting issues of the said periodicals published prior to the beginning of the said five-year period. The list is preceded by explanatory notes facilitating an understanding of the indications contained in the list.

The list was originally agreed upon at a meeting held in Geneva on April 12, 1978. The present list, which takes into account changes to the titles of periodicals and also changes to publisher's names and addresses, was agreed upon by the International Searching Authorities at a meeting held in Geneva on May 26, 1988, and came into force on January 1, 1989. On that date, it replaced the list published in PCT Gazette No. 09/1986.

EXPLANATORY NOTES

1. The structure of the list is as follows:

(i) periodicals in the list are numbered consecutively by a PCT Identification Number (but see note 2(v) below);

(ii) each entry is concerned with one periodical only and gives for each periodical

- the original title of the periodical
- the publisher
- the address of the publisher;

(iii) the language of the periodical is indicated opposite the title of the periodical as follows:

"De" for German	"Nl" for Dutch
"En" for English	"Pt" for Portuguese
"Fr" for French	"Ru" for Russian
"It" for Italian	"Sp" for Spanish
"Ja" for Japanese	"Sv" for Swedish;

(iv) where the periodical is published in two or more parts, or sections, these are indicated below the title (with a short indication of the fields covered by each one, if not obvious from their subtitle);

(v) the International Standard Serial Number (ISSN) is given for each periodical or for each section where the periodical is published in two or more parts, so as to assist identification of each periodical or section;

(vi) where the publication of a periodical has been discontinued, the title of the periodical is shown inside square brackets and the date of discontinuation indicated;

(vii) where a periodical has been deleted from the list, the title of the periodical and its Identification Number are enclosed in square brackets together with an indication of the date of deletion.

2. The titles of the periodicals are arranged alphabetically, subject to the following:

(i) a periodical added to the list after the list was originally established appears at the end of the list together with an indication (in square brackets) of the date when the periodical was so added. However, a cross reference, in alphabetical order, is inserted (in parentheses) in the body of the list itself;

(ii) where the title of the periodical contains the name of a learned society, association, or organization, etc., the periodical appears in the listing under the name of the learned society, association, or organization, etc., e.g. "Journal of the American Ceramic Society" appears under "American Ceramic Society, Journal";

(iii) the only secondary publication included as an exception in this list is indicated under Identification Number 169;

(iv) when several editions of a periodical exist in different languages (e.g., by cover-to-cover translation), the periodical is listed according to the title of the English edition, if any, together with the original title in parentheses. If no English edition exists, the original title is used for the purposes of the alphabetical list;

(v) where the title of a periodical has changed, both the new title and the former title (in parentheses) are given in the alphabetical listing, the PCT Identification Number allotted to the periodical remaining unchanged.

3. The names of Japanese publishers are indicated in English, followed by transliteration of the Japanese name into Latin characters in parentheses.

4. The names and addresses of the publishers of the original editions of Russian periodicals are indicated below the names and addresses of the publishers of cover-to-cover translations into English. The language of each edition of the periodical is indicated, in this case, according to the respective publishers.

5. Whenever the periodical contains, in addition to full-text articles in the language, or languages, in which it is published, translations of abstracts, or of abstracts and part of the text, into other languages, this fact is indicated by an asterisk next to the indication of the languages.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

On August 16, 1989, **Spain** deposited its instrument of accession to the Patent Cooperation Treaty (PCT). The instrument of accession contains a declaration that Spain will not be bound by Chapter II (concerning international preliminary examination) of the PCT. Spain will become the 42nd Contracting State of the PCT on November 16, 1989.

Consequently, as from November 16, 1989, nationals and residents of Spain will become entitled to file international applications under the PCT, and, from the same date, it will be possible to file international applications designating Spain.

The entry into force of the PCT for Spain has the consequence that, as from November 16, 1989, 12 States party to the European Patent Convention (Austria, Belgium, France, Germany (Federal Republic of), Italy, Liechtenstein, Luxembourg, the Netherlands, Spain, Sweden, Switzerland and the United Kingdom) will also be party to the PCT. This gives the possibility of obtaining, by filing a single international application under the PCT, a European patent for all those 12 States. There remains only one State--Greece--party to that Convention which is not yet party to the PCT.

[Updating of PCT Gazette No. 17/1989, Annex A, page 4249]

REGULATIONS UNDER THE PCT

With the accession by Spain, the PCT will enter into force, on November 16, 1989, for the first country which, among the Spanish-speaking countries, has ratified or acceded to the PCT. Consequently, pursuant to the decision taken by the Assembly of the PCT Union at its eleventh session (7th extraordinary) on February 3, 1984, the amendments to PCT Rules 12.1(c) and (d), 34.1(c)(vi) and (e) and 48.3(a) and (b) will become applicable on the same date. According to the said amendments, it will be possible to file international applications in the Spanish language. Furthermore, Spanish will become the sixth language of publication under the PCT (in addition to English, French, German, Japanese and Russian) and certain published patent documents in the Spanish language will become part of the PCT minimum documentation.

(c) The obligation of the International Authorities to use, or require the use of, the mandatory Forms is subject to the following provisos:

(i) slight variations in layout necessary in view of the printing of such Forms in various languages are permitted;

* Forms for use by receiving Offices, International Searching Authorities and International Preliminary Examining Authorities.

** Forms sent to applicants, on matters subject to review or further processing by International Authorities.

(ii) in all Forms, other than those for the request, the international search report, the demand and the international preliminary examination report, slight variations in layout, to the extent necessary to meet the particular office requirements of the International Authorities, in particular in view of the production of the Forms with the help of a computer or of the use of window envelopes, are permitted as well;

(iii) where the receiving Office, the International Searching Authority and/or the International Preliminary Examining Authority are each part of the same Office, the obligation to use the mandatory Forms does not extend to communications within that same Office;

(iv) the annexes to Forms PCT/RO/106 and PCT/IB/313 may be omitted in cases where they are not used;

(v) the mandatory character of the Forms referred to in paragraph (b) does not extend to the Notes attached to them.

(d) The use of Forms annexed to these Administrative Instructions other than those referred to in paragraph (b) is optional.

Section 103

Languages of the Forms

(a) The language of the Forms used by any receiving Office shall be the same as the language in which the international application is filed, provided that the receiving Office may, in its communications to the applicant, use the Forms in any other language being one of its official languages.

(b) Subject to Section 104(b), the language or languages of the Forms to be used by any International Searching Authority shall be specified in the applicable agreement referred to in Article 16(3)(b).

(c) Subject to Section 104(b), the language or languages of the Forms to be used by any International Preliminary Examining Authority shall be specified in the applicable agreement referred to in Article 32(3).

(d) The language of any Form used by the International Bureau shall be English where the language of the international application is English, and it shall be French where the language of the international application is French. Where the language of the international application is neither English nor French, the language of any Form used by the International Bureau in its communications to any other International Authority shall be English or French according to the wishes of such Authority, and in its communications to the applicant it shall be English or French according to the wishes of the applicant.

Section 104

Language of Correspondence

(a) The language of any letter from the applicant to the receiving Office shall be the same as the language of the international application to which such letter relates. However, the receiving Office may expressly authorize the use of any other language.

(b) The language of any letter to the International Bureau shall be English where the language of the international application is English, and it shall be French where the language of the international application is French. Where the language of the international application is neither English nor French, the language of any letter to the International Bureau shall be English or French, provided that any copy, sent to the International Bureau as a notification addressed to it, of a Form sent to the applicant by the receiving Office, the International Searching Authority or the International Preliminary Examining Authority does not require translation into English or French.

Section105

Several Applicants

Where any international application indicates as applicants several persons, it shall be sufficient, for the purpose of identifying that application, to indicate, in any Form or correspondence relating to such application, the name of the applicant first named in the request. The provisions of the first sentence of this Section do not apply to the demand.

Section106

Representation

(a) In the case of several applicants, any agent appointed in accordance with Rule 90.3 as an agent representing all the applicants shall be considered a common agent.

(b) Where the international application is filed with reference to a general power of attorney not signed by all the applicants, it shall be sufficient for

the purpose of appointment of a common agent under Rule 90.3, if the request or a separate power of attorney is signed by the applicant, who did not sign the general power of attorney.

(c) The appointment of an agent, or of a common representative within the meaning of Rule 4.8(a), shall, unless otherwise indicated by the persons who make the appointment, be regarded as the revocation of any earlier appointment of any other agent, or of any other common representative, and shall be considered as a request for recording a change in the person of the agent or common representative under Rule 92bis.1(a)(ii).

(d) Any document entailing the revocation of an appointment of an agent, or of a common representative within the meaning of Rule 4.8(a), may be submitted to the receiving Office or the International Bureau.

(e) Any agent, or any common representative within the meaning of Rule 4.8(a), may renounce his appointment through a notification signed by him and addressed to the receiving Office or the International Bureau.

Section 107

Identification of International Authorities and of Designated and Elected Offices

(a) Whenever the nature of any communication from or to the applicant, from or to any International Authority or, before national processing or examination has started, from or to any designated or elected Office so permits, any International Authority or any designated or elected Office may be indicated in the communication by the two-letter code as appearing in Annexes A and B.

(b) The indication of a receiving Office, an International Searching Authority, an International Preliminary Examining Authority or a designated or elected Office shall be preceded by the letters "RO," "ISA," "IPEA," "DO," or "EO," respectively, followed by a slant (e.g., "RO/JP," "ISA/US," "IPEA/SU," "DO/EP," "EO/AU").

Section 108

Correspondence Intended for the Applicant

(a) Any correspondence from an International Authority intended for the applicant, or, in the case of several applicants, the applicants, shall be addressed as follows:

(i) Where the applicant has designated or appointed one agent, correspondence shall be addressed to that agent. Where, in the case of several applicants, the applicants are represented by a common representative or a common agent, correspondence shall be addressed to that representative or that agent.

(ii) Where the applicant has designated several agents in the request, correspondence shall be addressed to the agent first mentioned therein. Where, in the case of several applicants, the applicants have designated several common agents in the request, correspondence shall be addressed to the common agent first mentioned therein.

(iii) Where the applicant has appointed several agents in one or more separate powers of attorney, correspondence shall be addressed to the agent first mentioned in the earliest filed and still valid separate power of attorney. Where, in the case of several applicants, the applicants have appointed several common agents in one or more separate powers of attorney, correspondence shall be addressed to the common agent first mentioned in the earliest filed and still valid separate power of attorney.

(iv) Notwithstanding paragraph (iii), the correspondence relating to the procedure under Chapter II of the Treaty shall, where the applicant has appointed an additional agent for the procedure before the International Preliminary Examining Authority, be addressed to that additional agent.

(b) Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request Form, provided this reference does not exceed ten characters.

Section 112

Ceasing of Effect under Articles 24(1)(iii) and 39(2), Review under Article 25(2) and Maintaining of Effect under Articles 24(2) and 39(3)

(a) Each national Office shall, in its capacity as designated Office, notify the International Bureau once a year of:

(i) the number of international applications in respect of which, during the preceding calendar year, the time limit applicable under Article 22 has expired;

(ii) the number of international applications in respect of which, during the preceding calendar year, the requirements provided for in Article 22 have not been complied with before the expiration of the time limit applicable under that Article, with the consequence that the effects of the international applications concerned have ceased under Article 24(1)(iii).

(b) Each national Office shall, in its capacity as elected Office, notify the International Bureau once a year of:

(i) the number of international applications in respect of which, during the preceding calendar year, the time limit applicable under Article 39(1) has expired;

(ii) the number of international applications in respect of which, during the preceding calendar year, the requirements provided for in Article 39(1) have not been complied with before the expiration of the time limit applicable under that Article, with the consequence that the effects of the international applications concerned have ceased under Article 39(3).

(c) Where, under Article 25(2), the designated Office decides that the refusal, declaration or finding referred to in Article 25(1) was not justified, it shall promptly notify the International Bureau that it will treat the international application as if the error or omission referred to in Article 25(2) had not occurred. The notification shall preferably contain the reasons for the decision of the designated Office.

(d) Where, under Article 24(2) or under Article 39(3), the designated or elected Office maintains the effect provided for in Article 11(3), it shall promptly notify the International Bureau accordingly. The notification shall preferably contain the reasons for the decision of the designated or elected Office.

Section 113

Special Fees

(a) The special publication fee provided for in Rule 48.4 shall be 200 Swiss francs.

(b) The special fee provided for in Rule 91.1(f) shall be payable to the International Bureau and shall be 50 Swiss francs plus 12 Swiss francs for each sheet in excess of one. Where that fee has not been paid until the time of the completion of the technical preparations for international publication, the request for rectification shall not be published. Where the last sentence of Rule 91.1(f) applies and the said fee has not been paid until the time of the communication of the international application under Article 20, a copy of the request for rectification shall not be included in that communication.

PART 2

INSTRUCTIONS RELATING TO THE INTERNATIONAL APPLICATION

Section 201

Names of States, Territories and Intergovermental Organizations

(a) The name of any State, territory and intergovernmental organization referred to in the request shall be indicated either by its full name, by a generally accepted short title which, if the indications are in English or French, shall be as appears in Annex A, or by the two-letter code as appears in Annexes A and B.

(b) [Deleted]

Section 202

Kind of Protection

(a) Where the applicant wishes his application to be treated in any designated State as an application not for a patent but for the grant of another kind of protection referred to in Article 43, he shall make the indication in the request referred to in Rule 4.12(a) by inserting the words "inventor's certificate," "utility certificate," "utility model" (or "petty patent" for Australia), "patent of addition," "certificate of addition," "inventor's certificate of addition" or "utility certificate of addition," or their equivalent in the language of the international application, immediately after the indication of the said State.

(b) Where, in respect of the designation of the Federal Republic of Germany, the applicant is seeking two kinds of protection under Article 44, he shall make the indication referred to in Rule 4.12(b) by inserting, immediately after the indication of the Federal Republic of Germany and in the language of the international application, the words "and utility model."

Section 204

Headings of the Parts of the Description

The headings referred to in Rule 5.1(c) should be as follows:

(i) for matter referred to in Rule 5.1(a)(i), "Technical Field";

(ii) for matter referred to in Rule 5.1(a)(ii), "Background Art";

(iii) for matter referred to in Rule 5.1(a)(iii), "Disclosure of Invention";

(iv) for matter referred to in Rule 5.1(a)(iv), "Brief Description of Drawings";

(v) for matter referred to in Rule 5.1(a)(v), "Best Mode for Carrying Out the Invention," or, where appropriate, "Mode(s) for Carrying Out the Invention";

(vi) for matter referred to in Rule 5.1(a)(vi), "Industrial Applicability."

Section 205

Numbering and Identification of Claims Upon Amendment

(a) Amendments to the claims under Article 19 or Article 34(2)(b) may be made either by cancelling one or more entire claims, by adding one or more new claims or by amending the text of one or more of the claims as filed. All the claims appearing on a replacement sheet shall be numbered in arabic numerals. Where a claim is cancelled, no renumbering of the other claims shall be required. In all cases where claims are renumbered, they shall be renumbered consecutively.

(b) The applicant shall, in the letter referred to in the second and third sentences of Rule 46.5(a) or of Rule 66.8(a), indicate the differences between the claims as filed and the claims as amended. He shall, in particular, indicate in the said letter, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether:

(i) the claim is unchanged;

(ii) the claim is cancelled;

(iii) the claim is new;

(iv) the claim replaces one or more claims as filed;

(v) the claim is the result of the division of a claim as filed.

Section 207

Arrangement of Elements and Numbering of Sheets of the International Application

(a) In effecting the sequential numbering of the sheets of the international application in accordance with Rule 11.7, the elements of the international application shall be placed in the following order: the request, the description, the claims, the abstract, the drawings.

(b) The sequential numbering of the sheets shall be effected by using three separate series of numbering, the first series applying to the request only and commencing with the first sheet of the request, the second series commencing with the first sheet of the description and continuing through the claims until the last sheet of the abstract, and the third series being applicable to the sheets of the drawings only and commencing with the first sheet of the drawings. The number of each sheet of the drawings shall consist of two arabic numerals separated by a slant, the first being the sheet number and the second being the total number of sheets of drawings.

Section 209

Indications as to Deposited Microorganisms on a Separate Sheet

(a) To the extent that any indication with respect to a deposited microorganism is not contained in the description, it may be given on a separate sheet. Where any such indication is so given, it shall preferably be on the form provided in Annex F as form PCT/RO/134 and, if furnished at the time of filing, the said form shall, subject to paragraph (b), preferably be attached to the request and referred to in the Check List referred to in Rule 3.3(a)(ii).

(b) For the purposes of the Japanese Patent Office when Japan is designated, paragraph (a) applies only to the extent that the said form or sheet is included as one of the sheets of the description of the international application at the time of filing.

Section 210

Calculation of Designation Fee for the Purposes of National and Regional Patents

Where the request of the international application contains a designation of a Contracting State without an indication of the wish to obtain a regional patent and also a designation of the same Contracting State with an indication of the wish to obtain a regional patent and the national law of the Contracting State does not contain a provision referred to in Article 45(2), the designation fees shall be calculated on the basis that a separate fee is payable in respect of the designation of the Contracting State in addition to the designation fee payable in respect of that Contracting State as a Contracting State or as one of a group of Contracting States for which a regional patent is sought.

PART 3
INSTRUCTIONS RELATING TO THE RECEIVING OFFICE

Section 301

Notification of Receipt of Purported International Application

Before the determination under Article 11(1), the receiving Office may notify the applicant of the receipt of the purported international application. The notification should indicate the date of actual receipt and the international application number of the purported international application referred to in Section 307 as well as, where useful for purposes of identification, the title of the invention.

Section 302

Priority Claim Considered Not To Have Been Made

Where, owing to failure to meet the requirements of Rule 4.10(b), the priority claim is, for the purposes of procedure under the Treaty, considered not to have been made, the receiving Office shall indicate that fact in the international application by enclosing the box in the request Form which provides for the information concerning the priority claim (or, where the priorities of several earlier applications are claimed and not all those priority claims are considered not to have been made, the relevant part of the said box) within square brackets and entering, in the margin, the words "NOT TO BE CONSIDERED FOR PCT PROCEDURE" or their equivalent in the language of publication of the international application, and shall notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify that Bureau and that Authority.

Section 303

Deletion of Additional Matter in the Request

Where, under Rule 4.17(b), the receiving Office deletes ex officio any matter contained in the request, it shall do so by enclosing such matter within square brackets and entering, in the margin, the words "DELETED by RO" or their equivalent in the language of publication of the international application, and shall notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify that Bureau and that Authority.

Section 304

Section 305

Identifying the Copies of the International Application

(a) Where, under Rule 11.1(a), the international application has been filed in one copy, the receiving Office shall, after preparing under Rule 21.1(a) the additional copies required under Article 12(1), mark,

(i) the words "RECORD COPY" in the upper left-hand corner of the first page of the original copy,

(ii) in the same space on one additional copy, the words "SEARCH COPY," and

(iii) in the same space on the other such copy, the words "HOME COPY,"

or their equivalent in the language of publication of the international application.

(b) Where, under Rule 11.1(b), the international application has been filed in more than one copy, the receiving Office shall choose the copy most suitable for reproduction purposes, and mark the words "RECORD COPY," or their equivalent in the language of publication of the international application, in the upper left-hand corner of its first page. After verifying the identity of any additional copies and, if applicable, preparing under Rule 21.1(b) the home copy, it shall mark, in the upper left-hand corner of the first page of one such copy, the words "SEARCH COPY," and, in the same space on the other such copy, the words "HOME COPY," or their equivalent in the language of publication of the international application.

Section 306

Section 307

System of Numbering International Applications

Papers purporting to be an international application under Rule 20.1 shall be marked with the international application number, consisting of the letters "PCT," a slant, the two-letter code, as in Annex B, indicating the receiving Office, a two-digit indication of the last two numbers of the year in which such papers were first received, a slant and a five-digit number, allotted in sequential order corresponding to the order in which the international applications are received (e.g., "PCT/SU78/00001"). Where the International Bureau acts, pursuant to Rule 19.1(b), as receiving Office for a national Office, the two-letter code indicating the national Office for which the International Bureau acts as receiving Office shall be used. However, if a negative determination is made under Rule 20.7 or a declaration is made under Article 14(4), the letters "PCT" shall be deleted by the receiving Office from the indication of the international application number on any papers marked previously with that number, and the said number shall be used without such letters in any future correspondence relating to the purported international application.

Section 308

Marking of the Sheets of the International Application

(a) The receiving Office shall indelibly mark the international application number referred to in Section 307 in the upper right-hand corner of each sheet of each copy of the purported international application.

Section 309

Procedure in the Case of Later Submitted Sheets

(a) The receiving Office shall indelibly mark any sheet received on a date later than the date on which sheets were first received with the date on which it received that sheet, inserted immediately below the international application number referred to in Section 307.

(b) The receiving Office shall, in the case of later submitted sheets received within the time limits referred to in Rule 20.2(a)(i) and (ii):

(i) effect the required correction of the international filing date, or, where no international filing date has yet been accorded, of the date of receipt of the purported international application;

(ii) notify the applicant of the correction effected under item (i), above;

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i), above, by transmitting a copy of the corrected first and last sheets of the request, and forward the later submitted sheets to the said Bureau and a copy thereof to the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach the later submitted sheets to the record copy and a copy thereof to the search copy.

(c) The receiving Office shall, in the case of later submitted sheets received after the expiration of the time limit referred to in Rule 20.2(a)(i):

(i) notify the applicant of that fact and of the date of receipt of the later submitted sheets;

(ii) Where transmittals under Article 12(1) have already been made, forward the later submitted sheets to the International Bureau with the indication on the bottom of each sheet of the words: "NOT TO BE TAKEN INTO CONSIDERATION FOR THE PURPOSES OF INTERNATIONAL PROCESSING";

(iii) where transmittals under Article 12(1) have not yet been made, attach the later submitted sheets to the record copy with the indication referred to in item (ii).

(d) The receiving Office shall, in the case of later submitted sheets received after the expiration of the time limit referred to in Rule 20.2(a)(ii), proceed as provided in Rule 20.7, unless the applicant has, within the said time limit, complied with the invitation under Article 11(2)(a) so that an international filing date can be accorded; in the latter case, the receiving Office shall proceed as provided in paragraph(c)(i) to (iii).

Section 310

Procedure in the Case of Missing Drawings

(a) Where the international application refers to drawings which in fact are not included in that application, the receiving Office shall make the indication referred to in Rule 26.6(a) by an appropriate marking of the request Form.

(b) Section 309(a) shall apply also in the case of drawings received by the receiving Office on a date later than the date on which sheets were first received by that Office.

(c) The receiving Office shall, in the case of missing drawings received within the time limit referred to in Rule 20.2(a)(iii):

(i) effect the required correction of the international filing date, or, where no international filing date has yet been accorded, of the date of receipt of the purported international application, and delete the indication made under paragraph (a), above;

(ii) notify the applicant of the correction effected under item (i), above;

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i), above, by transmitting a copy of the corrected first and last sheets of the request, and forward the later submitted drawings to the said Bureau and a copy thereof to the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach the later submitted drawings to the record copy and a copy thereof to the search copy.

(d) The receiving Office shall, in the case of missing drawings received after the expiration of the time limit referred to in Rule 20.2(a)(iii):

(i) notify the applicant of the fact and of the date of receipt of the later submitted drawings;

(ii) where transmittals under Article 12(1) have already been made, forward the later submitted drawings to the International Bureau with the indication on the bottom of each drawing of the words: "NOT TO BE TAKEN INTO CONSIDERATION (PCT Art. 14(2), 2nd sentence)" or their equivalent in the language of publication of the international application;

(iii) where transmittals under Article 12(1) have not yet been made, attach the later submitted drawings to the record copy with the indication referred to in item (ii).

Section 311

Deletion, Substitution or Addition of Sheets of the International Application; Renumbering, etc.

(a) The receiving Office shall, subject to Section 207, sequentially renumber the sheets of the international application when necessitated by the addition of any new sheet, the deletion of entire sheets, a change in the order of the sheets or any other reason.

(b) The sheets of the international application shall be provisionally renumbered in the following manner:

(i) when a sheet is deleted, the receiving Office shall either include a blank sheet with the same number and with the word "DELETED," or its equivalent in the language of publication of the international application, below the number, or insert, in brackets, below the number of the following sheet, the number of the deleted sheet with the word "DELETED" or its equivalent in the language of publication of the international application;

(ii) when a sheet is substituted, the receiving Office shall mark in the middle of the bottom margin the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application;

(iii) when one or more sheets are added, each sheet shall be identified by the number of the preceding sheet followed by a slant and then by a natural number series, starting always with number one for the first sheet added after an unchanged sheet (e.g., 10/1, 15/1, 15/2, 15/3, etc.); when later additions of sheets to an existing series of added sheets are necessary, an extra digit shall be used for identifying the further additions (e.g., 15/1, 15/1/1, 15/1/2, 15/2, etc.).

(c) In the cases mentioned in paragraph (b)(i) and (iii), it is recommended that the receiving Office should write, below the number of the last sheet, the total number of the sheets of the international appli-

cation followed by the words "TOTAL OF SHEETS" or their equivalent in the language of publication of the internaitonal application. It is further recommended that, at the bottom of any last sheet added, the words "LAST ADDED SHEET" or their equivalent in the language of publication of the international application should be inserted.

Section 312

Notification of Decision Not to Issue Declaration that the International Application Is Considered Withdrawn

Where the receiving Office, after having notified the applicant under Rule 29.4 of its intent to issue a declaration under Article 14(4), decides not to issue such a declaration, it shall notify the applicant accordingly.

Section 313

Documents Filed with the International Application; Manner of Marking the Necessary Annotations in the Check List

(a) Any power of attorney, any priority document, any fee calculation sheet and any separate sheet referred to in Section 209(a) containing indications as to deposited microorganisms, filed with the international application shall accompany the record copy; any other document referred to in Rule 3.3(a)(ii) shall be sent only at the specific request of the International Bureau. If any document which is indicated in the check list as accompanying the international application is not, in fact, filed at the latest by the time the record copy leaves the receiving Office, that Office shall so note on the check list and the said indication shall be considered as if it had not been made.

(b) Where, under Rule 3.3(b), the receiving Office itself fills in the check list, that Office shall enter, in the margin, the words "FILLED IN BY RO" or their equivalent in the language of publication of the international application. Where only some of the indications are filled in by the receiving Office, the said words and each indication filled in by that Office shall be identified by an asterisk.

Section 314

Manner of Indicating and Notification of Correction of the Priority Date or Cancellation of the Priority Claim

(a) Where, in reply to an invitation by the receiving Office under Rule 4.10(d), the applicant corrects the erroneously indicated filing date of any earlier application, the receiving Office shall enter the corrected date in the request, draw a line through the previously entered date while still leaving it legible and enter, in the margin, the letters "RO."

(b) Where, under Rule 4.10(d), the receiving Office cancels the declaration made under Article 8(1), that Office shall enclose the box in the request Form which provides for the information concerning the priority claim (or, where the priorities of several earlier applications are claimed and not all those priority claims are cancelled, the relevant part of the said box) within square brackets, shall draw a line between the square brackets while still leaving the contents of the box (or of the relevant part of the box) legible and shall enter, in the margin, the words "CANCELLED ON REQUEST OF APPLICANT" or "CANCELLED EX OFFICIO BY RO," as the case may be, or their equivalent in the language of publication of the international application.

(c) The applicant and, if copies of the international application have already been sent to the International Bureau and the International Searching Authority, that Bureau and that Authority shall be notified by the receiving Office of any correction or cancelleation effected under Rule 4.10(d) by the receiving Office.

Section 315

[Deleted]

Section 316

Procedure in the Case Where the International Application Lacks the Prescribed Signature

Where, under Article 14(1)(a)(i), the receiving Office finds that any international application is defective in that it lacks the prescribed signature, that Office shall send to the applicant, together with the invitation to correct under Article 14(1)(b), a copy of the request part of the international application.

The applicant shall, within the prescribed time limit, return said copy after affixing thereto the prescribed signature.

Section 317

Procedure in the Case of the Designation of a State Being Considered Not To Have Been Made

Where the receiving Office finds that, under Rule 18.4(b), the designation of a State is to be considered as not having been made, it shall indicate that fact in the international application by enclosing the designation of that State within square brackets and entering, in the margin, the words "CONSIDERED NOT TO HAVE BEEN MADE" or their equivalent in the language of publication of the international application, and shall promptly notify the applicant accordingly. If the record copy has already been sent to the International Bureau, the receiving Office shall also notify that Bureau.

Section 318

Cancellation of Designations

The receiving Office shall cancel ex officio the designation of any State which is not a Contracting State, shall enclose that designation within square brackets, shall draw a line between the square brackets while still leaving the designation legible, shall enter, in the margin, the words "CANCELLED EX OFFICIO BY RO" or their equivalent in the language of publication of the international application, and shall promptly notify the applicant accordingly. If the record copy has already been sent to the International Bureau, the receiving Office shall also notify that Bureau.

Section 319

Later Indication of Priority Application Number

Where the application number of the earlier application referred to in Rule 4.10(c) (priority application number) is furnished to the receiving Office, that Office shall enter the said number in the space provided therefor in the request Form or, where the record copy has already been sent to the International Bureau, promptly notify that Bureau of the said number, and shall notify the International Bureau of the date on which it received the said number.

Section 320

Information of Any Charge Made under Rule 16bis.1

(a) The receiving Office shall immediately inform the International Bureau of any charge made under Rule 16bis.1(a) or (b).

(b) Where the charge made under Rule 16bis.1(a) concerns the search fee or part of it, the receiving Office shall also immediately inform the International Searching Authority.

Section 321

Application of Moneys Received by the Receiving Office in Certain Cases

(a) The receiving Office shall, to the extent that it has received instructions from the applicant as to the fees to which it shall apply moneys received by it from the applicant, apply those moneys accordingly.

(b) Where the receiving Office receives moneys from the applicant which, together with any other moneys so received, are not sufficient to cover in full the transmittal fee (if any), the international fee and the search fee (if any), the receiving Office shall, to the extent that it has not received instructions from the applicant as to the fees to which it shall apply the moneys which are available for the purpose, apply those moneys in payment, successively, of the fees set out below to the extent that they are due and unpaid and in the order in which they appear below:

(i) the transmittal fee;

(ii) the basic fee part of the international fee;

(iii) the search fee;

(iv) the designation fee part of the international fee.

(c) Where, pursuant to paragraph (b), the receiving Office applies moneys in payment of the designation fees, it shall apply them to those fees successively in the order in which the designations appear in the international application up to and including the last designation, the fee for which is fully covered by the moneys.

(d) When notifying the International Bureau pursuant to Section 320(a) as to amounts charged to that Bureau pursuant to Rule 16bis.1(a) and/or Rule 16bis.1(b), the receiving Office shall, if it has received moneys from the applicant, inform that Bureau of the fees to which those moneys have been applied and the fees which it has charged to the International Bureau. The receiving Office shall, where applicable, indicate the designations (if any) for which the fees were paid by moneys (if any) so received and the designations for which the fees were charged to the International Bureau.

(e) Where moneys have been applied by the receiving Office in accordance with an instruction received from the applicant as mentioned in paragraph (a), the receiving Office shall inform the International Bureau as to the effect of the said instruction, preferably by sending the International Bureau a copy of a written communication received from the applicant.

Section 322

No Return of Amounts Charged under Rule 16bis.1 for Covering Transmittal Fee

The receiving Office shall not return to the International Bureau any amount that it has charged under Rule 16bis.1(a) to that Bureau for covering the transmittal fee.

Section 323

Transmittal of Priority Documents

(a) Any priority document which is submitted to the receiving Office shall be transmitted by that Office to the International Bureau together with the record copy or, if received after the record copy has been sent to the International Bureau, promptly after having been received by that Office.

(b) Where Rule 17.1(b) applies, the receiving Office shall, promptly after receipt of a request for transmittal of the priority document and, where applicable, the payment of the fee referred to in that Rule, transmit the priority document to the International Bureau. Where such request for transmittal has been made on the request Form but is considered by the receiving Office not to have been made because the required fee has not been paid, that Office shall notify the applicant and the International Bureau accordingly.

(c) The receiving Office shall notify the International Bureau of the date on which it received the priority document or the request under Rule 17.1(b).

Section 324

Copy of Notification under Rule 20.5(c)

The copy, sent to the International Bureau, of the notification under Rule 20.5(c) shall also include, if the priority of an earlier application is claimed in the international application, the date of filing--as indicated in the international application--of that earlier application. If the priority of several earlier applications is claimed, the earliest filing date shall be indicated.

Section 325

Corrections under Rules 9.2 and 26.4(a) and Rectifications under Rule 91.1

(a) Where the receiving Office receives a correction under Rule 26.4(a) or authorizes a rectification under Rule 91.1, it shall:

(i) indelibly mark, in the upper right-hand corner of each replacement sheet, the international application number and the date on which it was received;

(ii) indelibly mark, in the middle of the bottom margin of each replacement sheet, the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application;

(iii) indelibly mark on the letter containing the correction or rectification, or accompanying any replacement sheet, the date on which that letter was received;

(iv) keep in its files a copy of the letter containing the correction or rectification or, when the correction or rectification is contained in a replacement sheet, the replaced sheet, a copy of the letter accompanying the replacement sheet, and a copy of the replacement sheet;

(v) subject to item (vi), promptly transmit any letter and any replacement sheet to the International Bureau, and a copy thereof to the International Searching Authority;

(vi) where transmittals under Article 12(1) have not yet been made, transmit any letter and any replacement sheet to the International Bureau together with the record copy and, except where Rule 29.1(a)(iii) applies, a copy of the said letter or replacement sheet to the International Searching Authority together with the search copy. The record copy and the search copy shall contain any replaced sheet.

(b) Where the receiving Office refuses to authorize a rectification under Rule 91.1, it shall proceed as indicated under paragraph (a)(i), (iii) and (iv) and promptly transmit any letter and any replacement sheet to the International Bureau. If the record copy has not yet been sent to the International Bureau, any letter and any replacement sheet shall be transmitted together with the record copy.

(c) Paragraphs (a) and (b) shall apply *mutatis mutandis* to corrections submitted by the applicant to the receiving Office aimed at complying with the prescriptions of Rule 9.1.

Section 326

Withdrawal under Rule 32.1 or Rule 32bis.1

(a) The receiving Office shall promptly transmit any notice effecting withdrawal under Rule 32.1 or Rule 32bis.1 which has been filed with it to the International Bureau. If the record copy has not yet been sent to the International Bureau, the receiving Office shall transmit the said notice to that Bureau together with the record copy.

(b) If the search copy has already been sent to the International Searching Authority and the withdrawal concerns the international application or the priority claim, the receiving Office shall promptly transmit a copy of the notice effecting withdrawal to the International Searching Authority.

(c) If the search copy has not yet been sent to the International Searching Authority and the withdrawal concerns the international application, the receiving Office shall not send the search copy to the International Searching Authority and shall, subject to paragraph (e), refund the search fee to the applicant unless it has already been transferred to the International Searching Authority. If the search fee has already been transferred to the International Searching Authority, the receiving Office shall send a copy of the request and of the notice effecting withdrawal to that Authority.

(d) If the search copy has not yet been sent to the International Searching Authority and the withdrawal concerns the priority claim, the receiving Office shall transmit a copy of the notice effecting withdrawal to the International Searching Authority together with the search copy.

(e) If the refund referred to in paragraph (c) is not compatible with the national law applied by the receiving Office and as long as it continues to be not compatible with that law, the receiving Office may, in the circumstances referred to in paragraph (c), transfer the search fee to the International Searching Authority instead of refunding it to the applicant.

Section 327

Ex Officio Correction of Request by the Receiving Office

(a) Where the record copy has not yet been sent to the International Bureau and the request requires correction because it contains an inconsistency or a minor defect such as non-compliance with Section 201, the receiving Office may correct the request ex officio. If the receiving Office so does, it shall notify the applicant accordingly.

(b) When making a correction under paragraph (a), the receiving Office shall enter, in the margin, the letters "RO." Where any matter is to be deleted, the receiving Office shall enclose such matter within square brackets and shall draw a line between the square brackets while still leaving the deleted matter legible. Where any matter is to be replaced, both the first and second sentences of this paragraph shall apply.

Section 328

Notifications Concerning Representation

Where a power of attorney, a document containing the revocation of an appointment, or a notification of renunciation of an appointment, is submitted to the receiving Office under Rule 90.3(b), Section 106(d) or Section 106(e), the receiving Office shall immediately notify the International Bureau, the International Searching Authority and the International Preliminary Examining Authority by sending them a copy of the power of attorney, document or notification, and request the International Bureau to record a change in the person of the agent or common representative under Rule 92bis.1(a)(ii).

PART 4
INSTRUCTIONS RELATING TO THE INTERNATIONAL BUREAU

Section 401

Marking of the Sheets of the Record Copy

(a) The International Bureau shall, upon receipt of the record copy, mark the date of receipt of the record copy in the appropriate space on the request Form.

(b) If the receiving Office has failed to mark any sheet as provided in Section 311, the marking which has not been made may be inserted by the International Bureau.

Section 402

Manner of Indicating and Notification of Correction of the Priority Date or Cancellation of the Priority Claim

(a) Where, in reply to an invitation issued by the International Bureau under Rule 4.10(d), the applicant corrects the erroneously indicated filing date of any earlier application, the International Bureau shall enter the corrected date in the request, draw a line through the previously entered date while still leaving it legible and enter, in the margin, the letters "IB."

(b) Where, under Rule 4.10(d), the International Bureau cancels the declaration made under Article 8(1), that Bureau shall enclose the box in the request Form which provides for the information concerning the priority claim (or, where the priorities of several earlier applications are claimed and not all those priority claims are cancelled, the relevant part of the said box) within square brackets, shall draw a line between the square brackets while still leaving the contents of the box (or the relevant part of the box) legible and shall enter, in the margin, the words "CANCELLED ON REQUEST OF APPLICANT" or "CANCELLED EX OFFICIO BY IB," as the case may be, or their equivalent in French.

(c) The applicant, the receiving Office and the International Searching Authority shall be notified by the International Bureau of any correction or cancellation effected under Rule 4.10(d) by the International Bureau.

(d) Any designated Office which has been notified under Rule 24.2(a) of the receipt of the record copy shall be notified by the International Bureau of any correction or cancellation effected under Rule 4.10(d) by the receiving Office or the International Bureau.

Section 403

Transmittal of Protest Against Payment of Additional Fee and Decision Thereon

Where, under Rules 40.2(c) or 68.3(c), the International Bureau receives a request from the applicant to forward to any designated or elected Office the texts of both the protest against payment of an additional fee and the decision thereon by the International Searching Authority or the International Preliminary Examining Authority, as the case may be, it shall proceed according to such request.

Section 404

International Publication Number

The International Bureau shall assign to each published international application an international publication number which shall be different from the international application number. The international publication number shall be used on the pamphlet and in the Gazette entry. It shall consist of the two-letter code "WO" followed by a two-digit designation of the last two numbers of the year of publication, a slant, and a serial number consisting of five digits (e.g.," WO78/12345").

Section 405

[Deleted]

Section 406

Pamphlets

(a) Pamphlets referred to in Rule 48.1 shall be published on a given day of each week.

(b) All pamphlets shall be of A4 size and shall be printed by offset, recto-verso.

(c) The form and particulars of the front page of each pamphlet shall be decided by the Director General.

Section 407

The Gazette

(a) The Gazette referred to in Rule 86 shall be of A4 size and shall be printed by offset, recto-verso.

(b) In addition to the contents specified in Rule 86, the Gazette shall contain, in respect of each published international application, the data indicated in Annex D.

(c) The information referred to in Rule 86.1(v) shall be that which is indicated in Annex E.

(d) The subscription price of the Gazette shall be as fixed by the Director General.* The price of any single issue of the Gazette shall be as fixed by the Director General.*

Section 408

Priority Application Number

(a) If the application number of the earlier application referred to in Rule 4.10(c) (priority application number) is furnished within the prescribed time limit, the International Bureau shall enter the said number in the space provided therefor in the request Form, unless already done by the receiving Office under Section 319.

(b) If the priority application number is furnished after the expiration of the prescribed time limit, the International Bureau shall inform the applicant and the designated Offices of the date on which the said number was furnished. It shall indicate the said date in the international publication by including on the front page of the pamphlet next to the priority application number the words "FURNISHED LATE ON ... (date)," and the equivalent of such words in the language in which the international application is published if that language is other than English.

(c) If the priority application number has not been furnished at the time of the completion of the technical preparations for international publication, the International Bureau shall indicate that fact by including on the front page of the pamphlet in the space provided for the priority application number the words "NOT FURNISHED" and the equivalent of such words in the language in which the international application is published if that language is other than English.

Section 409

Notification of Priority Claim Considered Not To Have Been Made

Where the International Bureau notes that the receiving Office has failed to notify the applicant as provided in Section 302, it shall send a notification to the same effect to the applicant, the receiving Office and the International Searching Authority.

Section 410

Numbering of Sheets for the Purposes of International Publication; Procedure in Case of Missing Sheets or Drawings

(a) In the course of preparing the international application for international publication, the International Bureau shall sequentially renumber the sheets of the international application only when necessitated by the addition of any new sheet, the deletion of entire sheets or a change in the order of the sheets. Otherwise, the numbering provided under Section 207 shall be maintained.

(b) Where a sheet or a drawing has not been filed or is not to be taken into consideration for the purposes of international processing under Section 309(c) or Section 310(d), the International Bureau shall include an indication to that effect in the pamphlet.

Section 411

Receipt of Priority Document

(a) Subject to paragraph (b), the International Bureau shall record the date on which the priority document has been received by it and shall notify the applicant accordingly.

---

* This provision is applicable during the transitional period referred to in Rule 86.4(b).

(b) Where the priority document has been received by the International Bureau from the receiving Office after the expiration of 16 months from the priority date, the date of receipt by the receiving Office of the priority document or of a request under Rule 17.1(b), as the case may be, shall be recorded as the date of receipt of the priority document.

(c) Where the date of receipt of the priority document is later than the date of expiration of the time limit referred to in Rule 17.1(a), the International Bureau shall notify the applicant and the designated Offices accordingly.

(d) Where, within the time limit referred to in Rule 17.1(a), the International Bureau has not received the priority document and the receiving Office has received neither the priority document nor a request (together with any required fee) to transmit the priority document, the International Bureau shall notify the applicant and the designated Offices accordingly.

Section 412

Fee for Copies of Certain Documents

(a) The International Bureau shall make a charge of 6 Swiss francs to designated and elected Offices for a copy of any document cited in the international search report requested under Rule 44.3(c) or any document cited in the international preliminary examination report requested under Rule 71.2(c).

(b) When mailing by air is requested, the actual cost of such mailing shall be additionally charged.

Section 413

Corrections under Rule 26.4(a) and Rectifications under Rule 91.1

(a) Where the International Bureau receives from the receiving Office a letter containing a correction under Rule 26.4(a), or a replacement sheet and the letter accompanying it, it shall transfer the correction to the record copy, together with the indication of the date on which the receiving Office received the letter, or shall insert the replacement sheet in the record copy. Any letter and any replaced sheet shall be kept in the files of the International Bureau.

(b) Paragraph (a) shall apply *mutatis mutandis* to rectifications authorized by the receiving Office or by the International Searching Authority under Rule 91.1.

Section 414

Notification to the International Preliminary Examining Authority Where the International Application or the Designation of an Elected State Is Considered Withdrawn

If a demand has been submitted and the international application or the designation of a designated State which has been elected is considered withdrawn under Article 14(1), (3) or (4), the International Bureau shall promptly notify the International Preliminary Examining Authority, unless the international preliminary examination report has already issued.

Section 415

Notification of Withdrawal under Rule 32.1 or Rule 32bis.1

(a) The fact of withdrawal of the international application, of designations or of the priority claim, together with the date on which the notice effecting withdrawal has reached the International Bureau or the receiving Office, shall be recorded by the International Bureau and promptly notified by it to the receiving Office, the applicant, the designated Offices affected by the withdrawal and, where the withdrawal concerns the international application or the priority claim and where the international search report or the declaration referred to in Article 17(2)(a) has not yet issued, the International Searching Authority. However, where the withdrawal concerns the international application and where the notice effecting withdrawal was filed with the receiving Office before the sending of the record copy to the International Bureau, that Bureau shall send the notifications referred to in the preceding sentence and in Rule 24.2(a) to the receiving Office and the applicant only.

(b) If, at the time of the withdrawal of the international application, of the designation of any designated State which had been elected or of the priority claim, a demand has already been submitted and the international preliminary examination report has not yet issued, the International Bureau

shall promptly notify the fact of withdrawal to the International Preliminary Examining Authority, together with the date on which the notice effecting withdrawal has reached the International Bureau or the receiving Office.

Section 416

Correction of Request in Record Copy

(a) Where the request requires correction as a consequence of the withdrawal of a designation or of a change made under Rule 92bis, the International Bureau shall make the necessary correction in the record copy and shall notify the applicant and the receiving Office accordingly.

(b) When making a correction under paragraph (a), the International Bureau shall enter, in the margin, the letters "IB." Where the correction involves the deletion or replacement of some matter, the International Bureau shall enclose such matter within square brackets and shall draw a line between the square brackets while still leaving the deleted or replaced matter legible.

Section 417

Processing of Amendments under Article 19

(a) The International Bureau shall record the date on which, under Rule 46.1, any amendment made under Article 19 was received, shall notify the applicant of that date and indicate it in any publication or copy issued by it.

(b) The International Bureau shall mark, in the upper right-hand corner of each replacement sheet submitted under Rule 46.5(a), the international application number and the date on which it was received under Rule 46.1. It shall keep in its files any replaced sheet, the letter accompanying the replacement sheet or sheets, and any letter referred to in the last sentence of Rule 46.5(a).

(c) The International Bureau shall insert any replacement sheet in the record copy and, in the case referred to in the last sentence of Rule 46.5(a), shall indicate the cancellations in the record copy.

Section 418

Notifications to Elected Offices Where the Demand or an Election Is Considered Not To Have Been Submitted or Made

Where, after any elected Office has been notified of its election under Article 31(7), the demand or the election is considered not to have been submitted or made, the International Bureau shall notify the said Office accordingly.

Section 419

Notification of Withdrawal under Rule 75.1

The fact of withdrawal of the demand or of any election, together with the date on which the notice effecting withdrawal has reached the International Bureau, shall be promptly notified by that Bureau to the applicant, to each elected Office affected by the withdrawal, except where it has not yet been informed that it had been elected, and to the International Preliminary Examining Authority.

Section 420

Copy for the International Preliminary Examining Authority

Where the International Preliminary Examining Authority is not part of the same national Office or intergovernmental organization as the International Searching Authority, the International Bureau shall, promptly upon receipt of the international search report or, if the demand was received after the international search report, promptly upon receipt of the demand, send a copy of the international application and the international search report to the International Preliminary Examining Authority. In cases where, instead of the international search report, a declaration under Article 17(2)(a) has issued, references in the preceding sentence to the international search report shall be considered references to the said declaration.

Section 421

Invitation To Furnish a Copy of the Priority Document

Where a request for a copy of the application

whose priority is claimed in the international application is made under Rule 66.7(a) by the International Preliminary Examining Authority before the International Bureau has received the priority document under Rule 17.1, the International Bureau shall, unless the applicable time limit referred to in Rule 17.1(a) has already expired, inform the applicant of such request and remind him of the requirements of Rule 17.1.

Section 422

Notifications under Rule 92bis.1

(a) The International Bureau shall give notifications concerning changes recorded by it under Rule 92bis.1(a):

(i) to the receiving Office;

(ii) as long as the international search report has not been established, to the International Searching Authority, unless Section 425 applies;

(iii) to the designated Offices, unless the change has been recorded after the expiration of the time limit referred to in Article 22(1) or unless the change can be duly reflected in the pamphlet used for the purposes of the communication of the international application under Article 20;

(iv) as long as the international preliminary examination report has not been established, to the International Preliminary Examining Authority, unless Section 425 applies;

(v) to the elected Offices, unless the change can be duly reflected in the pamphlet used for the purposes of the communication of the international application under Article 20;

(vi) to the applicant; where the change consists of a change in the person of the applicant, the notification shall be sent to the earlier applicant and the new applicant, provided that, where the earlier applicant and the new applicant are represented by the same agent, one notification only shall be sent to the said agent.

(b) Where Rule 92bis.1(b) applies, the International Bureau shall notify the applicant accordingly and, if the change was requested by the receiving Office, that Office.

Section 423

Cancellation of Designations and Elections

(a) The International Bureau shall, if the receiving Office has failed to do so, cancel ex officio the designation of any State which is not a Contracting State, shall enclose that designation within square brackets, draw a line between the square brackets while still leaving the designation legible, enter, in the margin, the words "CANCELLED EX OFFICIO BY IB" or their equivalent in French, and notify the applicant and the receiving Office accordingly.

(b) The International Bureau shall, if the election is in the demand and the International Preliminary Examining Authority has failed to do so, or if the election is in a later election, cancel ex officio the election of any State which is not a designated State or which is not bound by Chapter II of the Treaty, shall enclose that election within square brackets, draw a line between the square brackets while still leaving the election legible, enter, in the margin, the words "CANCELLED EX OFFICIO BY IB" or their equivalent in French, and notify the applicant and, if the election is in the demand, the International Preliminary Examining Authority accordingly.

Section 424

Statistics Concerning Non-Compliance with Rules 22.1(a) and 23.1(a)

(a) The number of instances in which, according to the knowledge of the International Bureau, any receiving Office has not complied with the requirements of Rule 22.1(a) shall be indicated, once a year, in the Gazette.

(b) The number of instances in which, according to the knowledge of the International Bureau, any receiving Office has not complied with the requirement of Rule 23.1(a) shall be indicated, once a year, in the Gazette.

Section 425

Notifications Concerning Representation

Where a power of attorney, a document containing the revocation of an appointment, or a

notification of renunciation of an appointment, is submitted to the International Bureau under Rule 90.3(b), Section 106(d) or Section 106(e), the International Bureau shall immediately notify the receiving Office, the International Searching Authority and the International Preliminary Examining Authority by sending them a copy of the power of attorney, document or notification, and shall record a change in the person of the agent or common representative under Rule 92bis.1(a)(ii).

PART 5
INSTRUCTIONS RELATING TO THE INTERNATIONAL SEARCHING AUTHORITY

Section 501

Corrections Submitted to the International Searching Authority Concerning Expressions, etc., Not To Be Used in the International Application

Where the applicant submits corrections to the International Searching Authority aimed at complying with the prescription of Rule 9.1, that Authority shall transmit copies of such corrections to the receiving Office and the International Bureau.

Section 502

Protest Against Payment of Additional Fee and Decision Thereon

The International Searching Authority shall transmit to the applicant, at the latest together with the international search report, any decision which it has taken under Rule 40.2(c) on the protest of the applicant against the payment of the additional fee. At the same time, it shall transmit to the International Bureau a copy of both the protest and the decision thereon, as well as any request by the applicant to forward the texts of both the protest and the decision thereon to any of the designated Offices.

Section 503

Method of Identifying Documents Cited in the International Search Report

Identification of any document cited in the international search report referred to in Rule 43.5(b) shall be made by indicating the following elements in the order in which they are listed:

(a) *In the case of any patent document* (patent documents being patents within the meaning of Article 2(ii) as well as published applications relating thereto):

(i) the Office that issued the document, by the two-letter code as in Annex B;

(ii) the kind of document, by the appropriate symbols as in the Standard Code for Identification of Different Kinds of Patent Documents*;

(iii) the number of the document as given to it by the Office that issued it (for Japanese patent documents the indication of the year of the reign of the Emperor must precede the serial number of the patent document);

(iv) the name of the patentee or applicant (in capital letters, where appropriate abbreviated);

(v) the date of publication of the cited patent document as indicated thereon; and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a patent document according to paragraph (a), above:
JP, B, 50-14535 (NCR CORPORATION) 28 May 1975 (28.05.75), see column 4, lines 3 to 27.)

(b) *In the case of any book or other separately issued publication:*

(i) the name of the author;

(ii) the title (including, where applicable, the number of the edition and/or volume);

(iii) the year of publication (when this coincides with the year of the international application or of the priority claim, the International Searching Authority shall endeavor to determine the month and, if necessary, the day of publication and to indicate these data in the international search report);

(iv) the name of the publisher;

(v) as far as available, the place of publication (where only the location of the publisher appears on the book or other separately issued publication, then that location shall be indicated as the place of publication); and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a book or other separately issued publication according

to paragraph (b), above:

H. WALTON, "Microwave Quantum Theory," Volume 2, published 1973, by Sweet and Maxwell (London), see pages 138 to 192, especially pages 146 to 148.)

(c) *In the case of any article published in a periodical or other serial publication:*

(i) the title of the periodical or other serial publication;

(ii) the number of the volume and the date of the issue in which the article appears;

(iii) as far as available, the place of publication (where only the location of the publisher appears in the periodical or other serial publication, then that location shall be indicated as the place of publication);

(iv) the author and the title of the article and the number of the page both on which the article starts and ends; and

(v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of an article published in a periodical or other serial publication according to paragraph (c), above:

IBM Technical Disclosure Bulletin Volume 17, No. 5, issued October 1974 (Armonk, New York), J.G. Drop, "Integrated Circuit Personalization at the Module Level," see pages 1344 and 1345.)

(d) *In the case of abstracts:*

(i) the identification of the document containing the abstract in the manner set forth in paragraphs (a), (b) and (c), respectively, depending upon whether the abstract is contained in a patent document, in a book or other separately issued publication, or in an article published in a periodical or other serial publication;

(ii) in the case where the abstract is not published together with the full text document whichserved as its basis, the identification of both abstract and full text document on the basis of whatever bibliographic data may be available in respect thereto.

(The following example illustrates the citation of an abstract according to paragraph (d)(ii), above:

Chemical Abstracts, Volume 75, No. 20, issued 15 November 1971 (15.11.71) (Columbus, Ohio, USA, D.I. Shetulov, "Surface Effects During Metal Fatigue," see page 163, column 1, the abstract No. 120718k, Fiz.-Khim. Mekh. Mater. 1971, 7(2), 7-11 (Russ)).

Section 504

Classification of the Subject Matter of the International Application

(a) Where the subject matter of the international application is such that classification thereof requires more than one classification symbol according to the principles to be followed in the application of the International Patent Classification to any given patent document, the international search report shall indicate all such symbols.

(b) Where any national classification system is used, the international search report may indicate all the applicable classification symbols also according to that system.

(c) Where the subject matter of the international application is classified both according to the International Patent Classification and to any national classification system, the international search report shall, wherever possible, indicate the corresponding symbols of both classifications opposite each other.

Section 505

Indication of Citations of Particular Relevance in the International Search Report

(a) Where any document cited in the international search report is of particular relevance, the special indication required by Rule 43.5(c) shall consist of the letter(s) "X" and/or "Y" placed next to the citation of the said document.

(b) Category "X" is applicable where a document is such that when taken alone, a claimed invention cannot be considered novel or cannot be considered to involve an inventive step.

(c) Category "Y" is applicable where a document is such that a claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

Section 506

Comments on Draft Translation of the International Appplication

(a) Where the applicant has made comments, within the time limits fixed by the International Searching Authority, on the draft translation referred to in Rule 48.3(b), that Authority shall notify the applicant whether it has changed the draft translation and, if so, of the changes it has made therein.

(b) Where the applicant submits comments on the draft translation after the expiration of the time limits fixed by the International Searching Authority, and that Authority changes the draft translation, it shall notify the applicant accordingly.

Section 507

Manner of Indicating Certain Special Categories of Documents Cited in the Internationall Search Report

(a) Where any document cited in the international search report refers to an oral disclosure, use, exhibition, or other means referred to in Rule 33.1(b), the separate indication required by that Rule shall consist of the letter "O" placed next to the citation of the said document.

(b) Where any document cited in the international search report is a published application or patent as defined in Rule 33.1(c), the special mention required by that Rule shall consist of the letter "E" placed next to the citation of the said document.

(c) Where any document cited in the international search report is not considered to be of particular relevance requiring the use of categories "X" and/or "Y" but defines the general state of the art, it shall be indicated by the letter "A" placed next to the citation of the said document.*

(d) Where any document cited in the international search report is a document whose publication date occurred earlier than the international filing date of the international application, but later than the priority date claimed in that application, it shall be indicated by the letter "P" next to the citation of the said document.

(e) Where any document cited in the international search report is a document whose publication date occurred after the filing date or the priority date of the international application and is not in conflict with the said application, but is cited for the principle or theory underlying the invention, which may be useful for a better understanding of the invention, or is cited to show that the reasoning or the facts underlying the invention are incorrect, it shall be indicated by the letter "T" next to the citation of the document.

(f) Where in the international search report any document is cited for reasons other than those referred to in paragraphs (a) to (e), for example:

- a document which may throw doubt on a priority claim,*

- a document cited to establish the publication date of another citation,**

such document shall be indicated by the letter "L" next to the citation of the document and the reason for citing the document shall be given.

(g) Where a document is a member of a patent family***, it shall, whenever feasible, be mentioned in the international search report in addition to the one cited belonging as well to this family and should be preceded by the sign ampersand (&). Members of a patent family may also be mentioned on a separate sheet, provided that the family to which they belong shall be clearly identified and that any text matter on that sheet, if not in the English language, shall also be furnished to the International Bureau in English translation.

* See VI, 4.3 of the Guidelines for International Search to be Carried Out under the PCT.

** See VI, 6.2 of the Guidelines for International Search to be Carried Out under the PCT.

*** See IV, 3.2 of the Guidelines for International Search to be Carried Out under the PCT.

(h) A document whose contents have not been verified by the search examiner but are believed to be subtantially identical with those of another document which the search examiner has inspected, may be cited in the international search report in the manner indicated for patent family members in the first sentence of paragraph (g)*.

Section 508

Manner of Indicating the Claims to Which the Documents Cited in the International Search Report Are Relevant

The claims to which cited documents are relevant shall be indicated by placing in the appropriate column of the international search report:

(i) where the cited document is relevant to one claim, the number of that claim; for example, (2) or (17);

(ii) where the cited document is relevant to two or more claims numbered in consecutive order, the number of the first and last claims of the series connected by a hyphen; for example, (1-15) or (2-3);

(iii) where the cited document is relevant to two or more claims that are not numbered in consecutive order, the number of each claim placed in ascending order and separated by a comma or commas; for example, (1,6) or (1,7,10);

(iv) where the cited document is relevant to more than one series of claims under (ii), above, or to claims of both categories (ii) and (iii), above, the series or individual claim numbers and series placed in ascending order using commas to separate the several series, or to separate the numbers of individual claims and each series of claims; for example, (1-6, 9-10, 12-15) or (1, 3-4, 6, 9-11).

Section 509

Procedure Where Information Is Received under Section 320(b)

Where the International Searching Authority has received information under Section 320(b), it shall not proceed with the establishment and the transmittal of the international search report until it receives information from the International Bureau that the amounts due to cover the search fee and the surcharge have been paid by the applicant.

Section 510

Refund of Search Fee in Case of Withdrawal

(a) Where the international application is withdrawn or is considered withdrawn, under Article 14(1), (3) or (4), before the International Searching Authority has started the international search, that Authority shall, subject to paragraph (b), refund the search fee to the applicant or, where the search fee was charged under Rule 16bis.1(a), to the International Bureau.

(b) If the refund referred to in paragraph (a) is not compatible with the national law of the national Office acting as International Searching Authority and as long as it continues to be not compatible with that law, the International Searching Authority may abstain from refunding the search fee.

Section 511

Rectifications under Rule 91.1

(a) Where the International Searching Authority authorizes a rectification under Rule 91.1, it shall:

(i) indelibly mark, in the upper right-hand corner of each replacement sheet, the international application number and the date on which it was received;

(ii) indelibly mark, in the middle of the bottom margin of each replacement sheet, the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application as well as an indication of the International Searching Authority as provided for in Section 107(b);

(iii) indelibly mark on the letter containing the rectification or accompanying any replacement sheet the date on which that letter was received;

(iv) keep in its files a copy of the letter containing the rectification or, when the rectification is contained in a replacement sheet, the replaced

sheet, a copy of the letter accompanying the replacement sheet, and a copy of the replacement sheet;

(v) promptly transmit any letter and any replacement sheet to the International Bureau.

(b) Where the International Searching Authority refuses to authorize a rectification under Rule 91.1, it shall proceed as indicated under paragraph (a)(i), (iii) to (v).

Section 602

Amendments under Rule 66.8(a)

(a) The International Preliminary Examining Authority shall:

(i) indelibly mark, in the upper right-hand corner of each replacement sheet submitted under Rule 66.8(a), the international application number and the date on which it was received;

(ii) indelibly mark, in the middle of the bottom margin, the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application;

(iii) keep in its files any replaced sheet, the letter accompanying any replacement sheet, and any superseded replacement sheet or any letter referred to in the last sentence of Rule 66.8(a) as well as a copy of any replacement sheet which is annexed to the international preliminary examination report;

(iv) annex to the copy of the international preliminary examination report which is transmitted to the International Bureau any replacement sheet as provided for under Rule 70.16;

(v) annex to the copy of the international preliminary examination report which is transmitted to the applicant a copy of each replacement sheet as provided for under Rule 70.16.

(b) Section 311(b)(iii) shall apply when one or more sheets are added under Rule 66.8(a).

Section 603

Transmittal of Protest Against Payment of Additional Fee and Decision Thereon

The International Preliminary Examining Authority shall transmit to the applicant, at the latest together with the international preliminary examination report, any decision which it has taken under Rule 68.3(c) on the protest of the applicant against payment of the additional fee. At the same time, it shall transmit to the International Bureau a copy of both the protest and the decision thereon, as well as any request by the applicant to forward the texts of both the protest and the decision thereon to any of the elected Offices.

Section 604

Guidelines for Explanations Contained in the International Preliminary Examination Report

Explanations under Rule 70.8 shall clearly point out to which of the three criteria referred to in Article 35(2), taken separately, any cited document is applicable and shall clearly describe, with reference to the cited documents, the reasons supporting the conclusion that any of the said criteria is or is not satisfied.

Section 605

File To Be Used for International Preliminary Examination

Where the International Preliminary Examining Authority is part of the same national Office or intergovernmental organization as the International Searching Authority, the same file shall serve the purposes of international search and international preliminary examination.

Section 606

Cancellation of Elections

The International Preliminary Examining Authority shall, if the election is in the demand, cancel ex officio the election of any State which is not a designated State or which is not bound by Chapter II of the Treaty, shall enclose that election within square brackets, shall enter, in the margin, the words "CANCELLED EX OFFICIO BY IPEA" or their equivalent in the language of publication of the international application, and shall notify the applicant accordingly.

Section 607

Rectifications under Rule 91.1

Where the International Preliminary Examining Authority authorizes a rectification under Rule 91.1, Rule 70.16 and Section 602 shall apply *mutatis mutandis*.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

On October 2, 1988, **Canada** deposited its instrument of ratification of the Patent Cooperation Treaty (PCT). Thus, Canada will become the 43rd Contracting State of the PCT on January 2, 1990.

Consequently, as from January 2, 1990, nationals and residents of Canada will become entitled to file international applications under the PCT, and, from the same date, it will be possible to file international applications designating Canada.

[Updating of PCT Gazette No. 17/1989, Annex A, page 4249]

INFORMATION ON CONTRACTING STATES

Denmark

The **Danish Patent Office** has informed the International Bureau that the Danish Parliament has approved the law ratifying the European Patent Convention (EPC) and that the instrument of ratification will be deposited in time for the Convention to enter into force for Denmark on January 1, 1990. Consequently, as from January 1, 1990, it will be possible to file international applications designating Denmark for a national patent or for a European patent or for both.

[Updating of PCT Gazette No. 17/1989, Annex B1(DK), page 4268, and Annex B2(EP), page 4310]

Hungary

The **National Office of Inventions of Hungary** has notified a change in its telephone number as follows:

Telephone: (01) 112 44 00

[Updating of PCT Gazette No. 17/1989, Annex B1(HU), page 4275]

European Patent Organisation

The **European Patent Office** has notified changes in the telephone and telecopier numbers of its branch at The Hague, as follows:

	Branch at The Hague
Telephone:	(070) 340-2040
Telecopier:	(070) 340-3016

* Must be furnished or paid within the time limit applicable under PCT Article 22 or 39(1).

** The amount in parentheses is applicable in case of filing by a "small entity." In order to claim "small entity" status, a statement must be made by the applicant or his agent on his behalf (see Section 2 and Form 1, paragraph (3.1) of the Canadian Patent Rules and PCT Applicant's Guide, Volume II, Annexes CA.II and CA.IV which will be published in January 1990).

*** This fee is due within 24 months from the international filing date; where PCT Article 39(1) applies, it is due within 30 months from the priority date if that time limit expires later.

**** If not complied with within 21 months from the priority date or, where PCT Article 39(1) applies, within 31 months from the priority date, the requirement may be complied with within three months from the date of invitation by the Office, and on payment of a completion fee.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

ANNEX F - FORMS

Modification of Form PCT/RO/101 (Request)

The **Request Form** has been modified. The modifications concern Box No. V, Designation of States, on the «second sheet» of the Request and the Notes to the Request. All the sheets of the Request, including those sheets which have not been modified, as well as the Fee Calculation Sheet and the Notes thereto, are now dated «January 1990». The modifications of the Request take effect on January 2, 1990.

The modified «second sheet» of the Request and the modified Notes to the Request are reproduced on the next pages.

Notwithstanding the entry into force of the modified Request Form, applicants may use the previous version of the Form until the stock is depleted. It is recommended, however, to use for international applications filed after January 1, 1990, only the updated version. Copies can be obtained free of charge from the receiving Offices.

(2) The selection of particular States for a European patent can be made upon entering the national (regional) phase before the European Patent Office (see also the "Notes to Box No. V").
(3) If another kind of protection or a title of addition or, in the United States of America, treatment as a continuation or a continuation-in-part is desired, specify according to the instructions given in the "Notes to Box No. V."

See notes on accompanying sheet

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. For more detailed information, see also the **PCT Applicant's Guide**, a publication of WIPO.

"Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

Please use a typewriter. The applicable check-boxes may be marked with black ink.

NOTES TO BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

NOTES TO BOXES No. II and III

Indication wether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)): Please mark the applicable check-box in order to indicate wether the person (including a legal entity) named is "applicant only" (which means that the person is not also inventor), "inventor only" (which means that the person is not also applicant) or "applicant and inventor" (which means that the person is both). A person is to be named only once, even where the pesrson is both applicant and inventor.

Names and addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any, and the country).

Only one address may be indicated per person. Where no agent is appointed, a special "address for notifications" may be indicated in Box No. IV (see below).

Nationality (Rules 4.5(a) and (b) and 4.6(a)): For each applicant, the nationality must be indicated by the name of the State of which the person is a national. This indication is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 4.6(a)): For each applicant, the residence must be indicated by the name of the State of which the person is a resident. However, if the residence is not indicated, it will be assumed that the State of residence is the same as the State indicated in the address. The indication of the residence is not required where a person is inventor only.

Names of States (Section 201(a)): For the indication of names of States the two-letter country codes may be used.

Different Applicants for Different Designated States (Rule 18.4(a)): It is possible to indicate different applicants for the purposes of different designated States. In such a case, in respect of each designated State, at least one of the applicants indicated for the purposes of that State must be a national or resident of a PCT Contracting State. **Where the United States of America is one of the designated States, the inventor(s) must be the applicant(s) for the United States of America and the check-box "applicant and inventor" must be marked.**

For the indication of the designated States for which a person is applicant please mark the applicable check-box (only one). The check-box "the States indicated in the 'Supplemental Box'" must be marked where none of the other three check-boxes fits; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which he is applicant (see item (ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details see the PCT Applicant's Guide, Volume I, Annex B. It is strongly recommended to name always the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States where, in this respect, the requirements of the national laws of the designated States are not the same; in such a case, the Supplemental Box must be used (see item (iii) in that Box).

NOTES TO BOX No. IV

Agent or Common Representative (Rules 4.7, 4.8 and Section 108): For the manner in which name(s) and address(es) including names of States must be indicated, see the Notes to Boxes No. II and III. Where several agents are listed, the agent to whom any correspondence must be addressed is to be listed first. If there is more than one applicant but no common agent representing them, the Request must designate one of the applicants who is a national or resident of a Contracting State, as their common representative. If this is not done, the common representative will the applicant first named in the Request who is entitled to file an international application with the receiving Office.

Appointment of Agent or Common Representative (Rule 90.3 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the Request or in a separate power of attorney. Each applicant must sign either the Request or the separate power of attorney. Where the international application is filed with reference to a general power of attorney, a copy thereof must be attached to the Request and any applicant who did not sign the general power of attorney must sign either the Request or a separate power of attorney.

Address for Notifications (Rule 4.4(d)): If no agent has been appointed, a special address for the sending of notifications to the applicant may be indicated in Box No. IV instead of the name and address of an agent. That address must be different from the address given in Box No. II and the special check-box must be marked. If an agent has been appointed, notifications will be sent to his address.

NOTES TO BOX No. V

Designation of States: The Contracting States in which protection is desired must be designated in the Request by marking the applicable check-boxes. **Note that after filing further designations cannot be made.**

The marking of the check-boxes of the designated States by means of sequential arabic numerals will be taken as indicating the applicant's **choice of the order of the designations**; if another form of marking is used, the order will be taken as that in which the marked boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.2(c) and Section 321).

For the designation of a State which has become party to the PCT after the date appearing on the bottom of the second sheet of the Request form, the name of the State, preferably preceded by the two-letter country code, must be given together with an indication, where applicable, whether national or regional protection or a special kind of protection or treatment is desired.

Where a **European patent** is desired, only one designation fee must be paid for that purpose, independently of the number of States designated for a European patent.

Where one or more States are designated twice (once for the purposes of a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the European patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Note that **Belgium**, **France** and **Italy** can only be designated for the purposes of a European patent and not for the purposes of national protection.

If a European patent is desired for only some of the Contracting States of the European Patent Convention, the names of those States for which no European patent is desired may be deleted by striking them out. However, it is recommended to designate always all the Contracting States of the European Patent Organisation and to make a selection only upon entering the national (regional) phase before the European Patent Office and upon payment of the European designation fees.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14, Section 202): Where, in any country where that is possible, instead of a patent, a national title other than a patent is desired, write after the name of that country on the dotted line the name of the title, that is, "petty patent" (available in Australia), "utility model" (available in Brazil, Germany (Federal Republic of), Japan, the Republic of Korea, Spain, OAPI) or "inventor's certificate" (available in Bulgaria, the Democratic People's Republic of Korea, the Soviet Union). Where, in the Federal Republic of Germany (the only country in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model".

Where, in respect of any country where that is possible, it is desired that the application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part", write after the name of that country the appropriate words, that is, "patent of addition" (available in Australia, Austria, Bulgaria, Germany (Federal Republic of), Malawi, the Soviet Union, Spain), "certificate of addition" (available in Luxembourg, Monaco, OAPI), "inventor's certificate of addition" (available in Bulgaria, the Soviet Union), "continuation" or "continuation-in-part" (both available in the United States of America). If any of these indications is used, indicate in the "Supplemental Box" the State for which such treatment is desired, the number of the parent title or parent application, and the date of grant of the parent title or the date of filing of the parent application, as the case may be (see item (v) in that Box).

NOTES TO BOX No. VI

Priority Claim (Rule 4.10): The declaration containing the priority claim must be made in the Request.

The Request must indicate both

(i) when the earlier application is not a regional or an international application, the **country** in which it was filed, or, when the earlier application is a regional or an international application, at least one country for which it was filed, and

(ii) the **date** on which it was filed;

otherwise, the priority claim will, for the purposes of the procedure under the Treaty, be considered not to have been made.

If the application **number** of the earlier application is not indicated in the Request but is furnished by the applicant to the International Bureau or to the receiving Office prior to the expiration of the 16th month from the priority date, it is considered by all designated States to have been furnished in time.

Certified Copy of Earlier Application (Priority Document) (Rule 17.1): Such copy must be submitted to the International Bureau or to the receiving Office prior to the expiration of the 16th month from the priority date or, where an early start of the national phase is requested, not later than at the time such request is made.

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office to transmit the priority document to the International Bureau. Such request may be made by marking the special check-box and by identifying the document. **Attention**: where such a request is made, the applicant must pay to the receiving Office the applicable **fee for priority document.**

Dates (Section 110): They must be indicated by the arabic number of the day, the name of the month and the arabic number of the year; after or below such indication, the date should be repeated in parenthesis by indicating it by two-digit arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, e.g., 10 June 1986 (10.06.86).

NOTES TO BOX No. VII

Earlier Search (Rule 4.11): The filling in of Box No. VII may result in a total or partial refund of the international search fee.

NOTES TO BOX No. VIII

Signature (Rules 4.1(d), 4.15 and 90.3(a)): The signature must be that of the applicant (if there are several applicants all must sign); however, the signature may be that of the agent where a separate power of attorney appointing the agent, or a copy of a general power of attorney already in the possession of the receiving Office, is attached to the Request. The name of each person signing the Request should be typed below the signature; similarly, an indication of the capacity in which the person signs should be indicated if such capacity is not obvious from reading the Request.

NOTES TO BOX No. IX

Reference to a Deposited Microorganism (Rule 13bis and Section 209): Form PCT/RO/134 or any separate sheet containing indications concerning a deposited microorganism may, in most cases, be listed as **"other document."** This is not the case if Japan is designated; in that case, Form PCT/RO/134 or any other sheet containing the said indications must be included as one of the sheets of the description.

NOTES TO "SUPPLEMENTAL BOX"

The manner of making indications in this Box is indicated on the top of the "supplemental sheet."

Statement concerning Non-Prejudicial Disclosures or Exceptions to Lack of Novelty: Such a statement, unless contained in the description, may be given in this Box. It should comply with the national law applicable by the designated Office to which the statement is addressed.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the Receiving Office, the International Searching Authority or the International Preliminary Examining Authority must be in the same language as the international application to which it relates; however, the receiving Office, the International Searching Authority or the International Preliminary Examining Authority may authorize the use of another language. Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the Request, the description, the claim(s), the abstract, the drawings (if any). All sheets constituting the international application must be numbered in consecutive arabic numerals with three separate series of numbers: the first applying to the Request, the second applying to the part consisting of the description, the claim(s) and the abstract, and the third applying to the drawings. The numbers must be placed at the top of the sheet, in the middle, below the 2cm margin which must remain blank. The number of each sheet of the drawings must consist of two arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

ANNEX F - FORMS

Modification of Form PCT/IPEA/401 (Demand)

The Notes to the Demand Form and the Fee Calculation Sheet annexed to it have been modified subsequent to the withdrawal by Japan of its declaration under PCT Article 64(2)(a) concerning, in particular, the time limit applicable under Chapter II of the PCT for the furnishing of a translation into Japanese of the international application, and subsequent also to the decision by the Soviet Union concerning the required translations of international preliminary examination reports under PCT Rule 72.1(a).

The modified Notes to the Demand Form as well as the modified Fee Calculation Sheet and the Notes relating thereto, applicable as from January 1, 1988, are reproduced on the following pages. Copies can be obtained free of charge from the International Preliminary Examining Authorities or from the receiving Offices.

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to give some information concerning international preliminary examination under Chapter II of the PCT and to facilitate the filling in of the present form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. For more detailed information, see also the **PCT Applicant's Guide**, a publication of WIPO.

"Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

IMPORTANT GENERAL INFORMATION

Who May File a Demand (Article 31(2)(a))? A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with the receiving Office of, or acting for, such State. Where there are several applicants, at least one of them must qualify for the purposes of each elected State (Rule 54.3(a)).

Where Must the Demand Be Filed (Article 31(6)(a))? The demand must be filed with the International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see Annex C of the PCT Applicant's Guide, Volume I). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant.

When Must the Demand be Filed (Article 39(1))? The demand must be filed **before** the expiration of **19 months from the priority date** in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. **Warning**: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand be Filed (Rule 55.1)? The demand must be filed in the language of the international application if that language is English, French, German, Japanese or Russian; otherwise, the demand must be filed in English.

What is the Language of Correspondence (Rules 66.9 and 92.2, Section 104)? Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, the IPEA may authorize the use of another language for letters which do not contain or relate to amendments of the international application, whereas amendments and letters relating thereto must be in the language of publication. Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Which Fees Must be Paid and When (Rules 57 and 58)? At the time the demand is submitted, the applicant must pay

(i) the preliminary examination fee, and

(ii) the handling fee.

For details concerning the payment of those fees, see the Fee Calculation Sheet.

NOTES TO BOX No. I

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and Priority Date (Section 110): They must be indicated by the arabic number of the day, the name of the month and the arabic number of the year; after or below such indication, the date should be repeated in parenthesis by indicating it by two-digit arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, e.g., 10 June 1986 (10.06.86). Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

NOTES TO BOX No. II

Applicant(s) (Rule 53.4): Make here the relevant indications as appearing in Boxes Nos. II and III of the REQUEST (Form PCT/RO/101). The Notes to the REQUEST apply *mutatis mutandis*. If there are several applicants, give the relevant indications for each of them; if there are more than two applicants, make the required indications on the "Continuation sheet."

If different applicants for different designated States are indicated in the REQUEST part of the international application, indicate only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the REQUEST).

NOTES TO BOX No. III

Agent or Common Representative (Rule 53.5): The **first check-box** must be marked where the applicant is already represented by an agent or where a common representative has been appointed. The **second check-box** must be marked where the applicant was not represented in the earlier stages of the PCT procedure and now wants to be represented by an agent before the IPEA, or where the applicant was represented in the earlier stages of the PCT procedure but wants to change the agent for the procedure before the IPEA. The **third check-box** must be marked where the applicant wants to be represented by an additional agent appointed only for the procedure before the IPEA without revocation of any earlier appointment; please note that in the latter case all notifications issued by the IPEA will be addressed only to that additional agent. Where the second or the third check-box is marked and the applicant does not sign himself the demand, a separate power of attorney must be filed with the International Bureau of WIPO or with the receiving Office (Rule 90.3(b)).

Address for Notifications (Rule 4.4(d)): If no agent has been appointed, a special address for the sending of notifications to the applicant may be indicated in Box No. III instead of the name and address of an agent. That address must be different from the address given in Box No. II and the special check-box must be marked. If an agent has been appointed, notifications will be sent to his address.

NOTES TO BOX No. IV

Declaration Concerning Amendments of the Claims (Rules 62.2, 66.1 and 69.1(b)): Marking of the appropriate check-box is recommended, as it will help the IPEA to know immediately to which claims the international preliminary examination must be directed. International preliminary examination can only start once this is clear.

It is recalled that any amendment to the claims under Article 19 or any declaration that the applicant does not intend to file such amendments, are required to be filed with the International Bureau. That Bureau will promptly transmit any amendment or declaration to the IPEA. The international preliminary examination can start when the IPEA has received from the International Bureau such amendments or such declaration or a notice that no amendments have been filed in the prescribed time limit.

In case the demand for international preliminary examination has already been submitted, the applicant must, if he subsequently files amendments under Article 19 with the International Bureau, file at the same time a copy of such amendments with the IPEA.

The third of the three check-boxes relates to amendments under Rule 66.1. Those amendments must be filed with the IPEA.

NOTES TO BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT **and** which have been designated at the time of filing the international application (in the REQUEST) can be elected. The election is effected by marking the applicable check-box. The kind of protection or treatment desired follows the indication made in the REQUEST part of the international application. If a **European patent** is desired and only some of the Contracting States of the European Patent Convention have been designated for a European patent in the REQUEST part of the international application, the names of the other such States must be struck out. Switzerland and Liechtenstein are not bound by Chapter II and cannot be elected; however, if they have been designated in the REQUEST part of the international application for a European patent together with at least one other Contracting State of the European Patent Convention, the time limit under PCT Article 39(1) applies also with respect to those two States if the other State has been elected before the expiration of 19 months from the priority date. Further States which are, at the time of publication of these Notes, not bound by Chapter II and cannot be elected are: Denmark, Norway and the Republic of Korea.

NOTES TO BOX No. VI

Signature (Rule 53.8): The demand must be signed by the applicant or by his agent. If the demand is not signed by (all) the applicant(s), a power of attorney signed by (all) the applicant(s) must be filed with the International Bureau of WIPO or with the receiving Office, unless the agent has previously been appointed.

NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/IPEA/401)

1 The purpose of the fee calculation sheet is to aid the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority to verify the calculations and to identify any error in them.

2 Two kinds of fees must be paid for international preliminary examination:

(i) the preliminary examination fee (for the benefit of the International Preliminary Examining Authority);

(ii) the handling fee (for the benefit of the International Bureau).

3 Both fees must be paid to the International Preliminary Examining Authority upon filing the demand.

4 Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the International Preliminary Examining Authority or the receiving Office. This information is also published in Annex E of Volume I of the PCT Applicant's Guide and from time to time in Section IV of the PCT Gazette.

5 For the calculation of the total amount payable, the amount of the preliminary examination fee must be inserted in **Box P**.

6 The amount of the handling fee must be inserted in **Box H**. (Where the language of the demand is **not** English, another handling fee may be payable for a translation of the international preliminary examination report into English; for details, see Volume I of the PCT Applicant's Guide, Annex B1.)

7 The **total** of the amounts inserted in Boxes P and H is the amount which must be paid to the International Preliminary Examining Authority.

INTERNATIONAL BUREAU

Non-Working Days

For the purpose of computing time limits under PCT Rule 80.5*, the days on which the International Bureau is not open for business are, for the period from February 1, 1988 to February 1, 1989, the following:

all Saturdays and Sundays and
April 1, 1988
April 4, 1988
May 12, 1988
May 23, 1988
September 8, 1988
December 26, 1988
December 27, 1988
December 30, 1988
January 2, 1989

It is important to note that the days indicated above concern only the International Bureau and not the national Offices and other international organizations.

---

* Rule 80.5 Expiration on a Non-Working Day

"If the expiration of any period during which any document or fee must reach a national Office or intergovernmental organization falls on a day on which such Office or organization is not open to the public for the purposes of the transaction of official business, or on which ordinary mail is not delivered in the locality in which such Office or organization is situated, the period shall expire on the next subsequent day on which neither of the said two circumstances exists."

NOTICES AND INFORMATION OF A GENERAL CHARACTER

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") is sought.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

ANNEX F - FORMS

Modification of Form PCT/IPEA/401 (Demand)

Following the withdrawal by Japan of its reservation under PCT Article 64(2)(a) concerning, in particular, the time limit applicable under Chapter II of the PCT for the furnishing of a translation into Japanese of the international application (see PCT Gazette No. 22/1987, page 3949), the Notes to the Demand Form have been modified.

Following the notification received from the USSR State Committee for Inventions and Discoveries of modifications concerning the languages into which international preliminary examination reports must be translated (see PCT Gazette No. 18/1987, page 3229), the Fee Calculation Sheet and the Notes relating to it, annexed to the Demand Form, have also been modified accordingly.

The modified Notes to the Demand Form (dated "01/1988"), the modified Fee Calculation Sheet (dated "January 1988") and the modified Notes relating to it are reproduced on the next pages.

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to give some information concerning international preliminary examination under Chapter II of the PCT and to facilitate the filling in of the present form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. For more detailed information, see also the **PCT Applicant's Guide**, a publication of WIPO.

"Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

IMPORTANT GENERAL INFORMATION

Who May File a Demand (Article 31(2)(a))? A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with the receiving Office of, or acting for, such State. Where there are several applicants, at least one of them must qualify for the purposes of each elected State (Rule 54.3(a)).

Where Must the Demand Be Filed (Article 31(6)(a))? The demand must be filed with the International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see Annex C of the PCT Applicant's Guide, Volume I). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant.

When Must the Demand be Filed (Article 39(1))? The demand must be filed **before** the expiration of **19 months from the priority date** in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. **Warning**: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand be Filed (Rule 55.1)? The demand must be filed in the language of the international application if that language is English, French, German, Japanese or Russian; otherwise, the demand must be filed in English.

What is the Language of Correspondence (Rules 66.9 and 92.2, Section 104)? Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, the IPEA may authorize the use of another language for letters which do not contain or relate to amendments of the international application, whereas amendments and letters relating thereto must be in the language of publication. Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Which Fees Must be Paid and When (Rules 57 and 58)? At the time the demand is submitted, the applicant must pay

(i) the preliminary examination fee, and

(ii) the handling fee,

For details concerning the payment of those fees, see the Fee Calculation Sheet.

NOTES TO BOX No. I

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and Priority Date (Section 110): They must be indicated by the arabic number of the day, the name of the month and the arabic number of the year; after or below such indication, the date should be repeated in parenthesis by indicating it by two-digit arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, e.g., 10 June 1986 (10.06.86). Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

NOTES TO BOX No. II

Applicant(s) (Rule 53.4): Make here the relevant indications as appearing in Boxes Nos. II and III of the REQUEST (Form PCT/RO/101). The Notes to the REQUEST apply *mutatis mutandis*. If there are several applicants, give the relevant indications for each of them; if there are more than two applicants, make the required indications on the "Continuation sheet."

If different applicants for different designated States are indicated in the REQUEST part of the international application, indicate only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the REQUEST).

NOTES TO BOX No. III

Agent or Common Representative (Rule 53.5): The **first check-box** must be marked where the applicant is already represented by an agent or where a common representative has been appointed. The **second check-box** must be marked where the applicant was not represented in the earlier stages of the PCT procedure and now wants to be represented by an agent before the IPEA, or where the applicant was represented in the earlier stages of the PCT procedure but wants to change the agent for the procedure before the IPEA. The **third check-box** must be marked where the applicant wants to be represented by an additional agent appointed only for the procedure before the IPEA without revocation of any earlier appointment; please note that in the latter case all notifications issued by the IPEA will be addressed only to that additional agent. Where the second or the third check-box is marked and the applicant does not sign himself the demand, a separate power of attorney must be filed with the International Bureau of WIPO or with the receiving Office (Rule 90.3(b)).

Address for Notifications (Rule 4.4(d)): If no agent has been appointed, a special address for the sending of notifications to the applicant may be indicated in Box No. III instead of the name and address of an agent. That address must be different from the address given in Box No. II and the special check-box must be marked. If an agent has been appointed, notifications will be sent to his address.

NOTES TO BOX No. IV

Declaration Concerning Amendments of the Claims (Rules 62.2, 66.1 and 69.1(b)): Marking of the appropriate check-box is recommended, as it will help the IPEA to know immediately to which claims the international preliminary examination must be directed. International preliminary examination can only start once this is clear.

It is recalled that any amendment to the claims under Article 19 or any declaration that the applicant does not intend to file such amendments, are required to be filed with the International Bureau. That Bureau will promptly transmit any amendment or declaration to the IPEA. The international preliminary examination can start when the IPEA has received from the International Bureau such amendments or such declaration or a notice that no amendments have been filed in the prescribed time limit.

In case the demand for international preliminary examination has already been submitted, the applicant must, if he subsequently files amendments under Article 19 with the International Bureau, file at the same time a copy of such amendments with the IPEA.

The third of the three check-boxes relates to amendments under Rule 66.1. Those amendments must be filed with the IPEA.

NOTES TO BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT **and** which have been designated at the time of filing the international application (in the REQUEST) can be elected. The election is effected by marking the applicable check-box. The kind of protection or treatment desired follows the indication made in the REQUEST part of the international application. If a **European patent** is desired and only some of the Contracting States of the European Patent Convention have been designated for a European patent in the REQUEST part of the international application, the names of the other such States must be struck out. Switzerland and Liechtenstein are not bound by Chapter II and cannot be elected; however, if they have been designated in the REQUEST part of the international application for a European patent together with at least one other Contracting State of the European Patent Convention, the time limit under PCT Article 39(1) applies also with respect to those two States if the other State has been elected before the expiration of 19 months from the priority date. Further States which are, at the time of publication of these Notes, not bound by Chapter II and cannot be elected are: Denmark, Norway and the Republic of Korea.

NOTES TO BOX No. VI

Signature (Rule 53.8): The demand must be signed by the applicant or by his agent. If the demand is not signed by (all) the applicant(s), a power of attorney signed by (all) the applicant(s) must be filed with the International Bureau of WIPO or with the receiving Office, unless the agent has previously been appointed.

NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/IPEA/401)

1 The purpose of the fee calculation sheet is to aid the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority to verify the calculations and to identify any error in them.

2 Two kinds of fees must be paid for international preliminary examination:

(i) the preliminary examination fee (for the benefit of the International Preliminary Examining Authority);

(ii) the handling fee (for the benefit of the International Bureau).

3 Both fees must be paid to the International Preliminary Examining Authority upon filing the demand.

4 Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the International Preliminary Examining Authority or the receiving Office. This information is also published in Annex E of Volume I of the PCT Applicant's Guide and from time to time in Section IV of the PCT Gazette.

5 For the calculation of the total amount payable, the amount of the preliminary examination fee must be inserted in **Box P.**

6 The amount of the handling fee must be inserted in **Box H.** (Where the language of the demand is **not** English, another handling fee may be payable for a translation of the international preliminary examination report into English; for details, see Volume I of the PCT Applicant's Guide, Annex B1.)

7 The **total** of the amounts inserted in Boxes P and H is the amount which must be paid to the International Preliminary Examining Authority.

1. Date of actual receipt of DEMAND:

2. Adjusted date of receipt of DEMAND due to CORRECTIONS under Rule 60.1(b):

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to give some information concerning international preliminary examination under Chapter II of the PCT and to facilitate the filling in of the present form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. For more detailed information, see also the **PCT Applicant's Guide**, a publication of WIPO.

"Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

IMPORTANT GENERAL INFORMATION

Who May File a Demand (Article 31(2)(a))? A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with the receiving Office of, or acting for, such State. Where there are several applicants, at least one of them must qualify for the purposes of each elected State (Rule 54.3(a)).

Where Must the Demand Be Filed (Article 31(6)(a))? The demand must be filed with the International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see Annex C of the PCT Applicant's Guide, Volume I). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant.

When Must the Demand be Filed (Article 39(1))? The demand must be filed **before** the expiration of **19 months from the priority date** in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. **Warning**: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand be Filed (Rule 55.1)? The demand must be filed in the language of the international application if that language is English, French, German, Japanese or Russian; otherwise, the demand must be filed in English.

What is the Language of Correspondence (Rules 66.9 and 92.2, Section 104)? Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, the IPEA may authorize the use of another language for letters which do not contain or relate to amendments of the international application, whereas amendments and letters relating thereto must be in the language of publication. Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Which Fees Must be Paid and When (Rules 57 and 58)? At the time the demand is submitted, the applicant must pay

(i) the preliminary examination fee, and

(ii) the handling fee.

For details concerning the payment of those fees, see the Fee Calculation Sheet.

NOTES TO BOX No. I

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and Priority Date (Section 110): They must be indicated by the arabic number of the day, the name of the month and the arabic number of the year; after or below such indication, the date should be repeated in parenthesis by indicating it by two-digit arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, e.g., 10 June 1986 (10.06.86). Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

NOTES TO BOX No. II

Applicant(s) (Rule 53.4): Make here the relevant indications as appearing in Boxes Nos. II and III of the REQUEST (Form PCT/RO/101). The Notes to the REQUEST apply *mutatis mutandis*. If there are several applicants, give the relevant indications for each of them; if there are more than two applicants, make the required indications on the "Continuation sheet."

If different applicants for different designated States are indicated in the REQUEST part of the international application, indicate only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the REQUEST).

NOTES TO BOX No. III

Agent or Common Representative (Rule 53.5): The **first check-box** must be marked where the applicant is already represented by an agent or where a common representative has been appointed. The **second check-box** must be marked where the applicant was not represented in the earlier stages of the PCT procedure and now wants to be represented by an agent before the IPEA, or where the applicant was represented in the earlier stages of the PCT procedure but wants to change the agent for the procedure before the IPEA. The **third check-box** must be marked where the applicant wants to be represented by an additional agent appointed only for the procedure before the IPEA without revocation of any earlier appointment; please note that in the latter case all notifications issued by the IPEA will be addressed only to that additional agent. Where the second or the third check-box is marked and the applicant does not sign himself the demand, a separate power of attorney must be filed with the International Bureau of WIPO or with the receiving Office (Rule 90.3(b)).

Address for Notifications (Rule 4.4(d)): If no agent has been appointed, a special address for the sending of notifications to the applicant may be indicated in Box No. III instead of the name and address of an agent. That address must be different from the address given in Box No. II and the special check-box must be marked. If an agent has been appointed, notifications will be sent to his address.

NOTES TO BOX No. IV

Declaration Concerning Amendments of the Claims (Rules 62.2, 66.1 and 69.1(b)): Marking of the appropriate check-box is recommended, as it will help the IPEA to know immediately to which claims the international preliminary examination must be directed. International preliminary examination can only start once this is clear.

It is recalled that any amendment to the claims under Article 19 or any declaration that the applicant does not intend to file such amendments, are required to be filed with the International Bureau. That Bureau will promptly transmit any amendment or declaration to the IPEA. The international preliminary examination can start when the IPEA has received from the International Bureau such amendments or such declaration or a notice that no amendments have been filed in the prescribed time limit.

In case the demand for international preliminary examination has already been submitted, the applicant must, if he subsequently files amendments under Article 19 with the International Bureau, file at the same time a copy of such amendments with the IPEA.

The third of the three check-boxes relates to amendments under Rule 66.1. Those amendments must be filed with the IPEA.

NOTES TO BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT **and** which have been designated at the time of filing the international application (in the REQUEST) can be elected. The election is effected by marking the applicable check-box. The kind of protection or treatment desired follows the indication made in the REQUEST part of the international application. If a **European patent** is desired and only some of the Contracting States of the European Patent Convention have been designated for a European patent in the REQUEST part of the international application, the names of the other such States must be struck out. Switzerland and Liechtenstein are not bound by Chapter II and cannot be elected; however, if they have been designated in the REQUEST part of the international application for a European patent together with at least one other Contracting State of the European Patent Convention, the time limit under PCT Article 39(1) applies also with respect to those two States if the other State has been elected before the expiration of 19 months from the priority date. The only further State which is, at the time of publication of these Notes, not bound by Chapter II and cannot be elected is the Republic of Korea.

NOTES TO BOX No. VI

Signature (Rule 53.8): The demand must be signed by the applicant or by his agent. If the demand is not signed by (all) the applicant(s), a power of attorney signed by (all) the applicant(s) must be filed with the International Bureau of WIPO or with the receiving Office, unless the agent has previously been appointed.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

NOTICES AND INFORMATION OF A GENERAL CHARACTER

INFORMATION ON CONTRACTING STATES

United States of America

On April 1, 1987, the United States of America notified, under PCT Article 64(6)(b), the withdrawal of its declaration under PCT Article 64(1)(a) that it shall not be bound by the provisions of Chapter II of the PCT. Thus, the United States of America will become bound by Chapter II of the PCT on July 1, 1987.

The withdrawal of the said declaration has the effect that, on and after July 1, 1987,

(a) nationals and residents of the United States of America may submit demands for international preliminary examination of international applications filed by them;

(b) the United States of America may be elected in demands for international preliminary examination or in later elections submitted in respect of international applications in which the United States of America is a designated State;

(c) paragraphs (a) and (b) apply irrespective of whether the international application was or will be filed before, on or after July 1, 1987.

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

AGREEMENT BETWEEN THE UNITED STATES PATENT AND TRADEMARK OFFICE AND THE INTERNATIONAL BUREAU OF WIPO*

The "Agreement between the United States Patent and Trademark Office and the International Bureau of WIPO concerning the functions of the United States Patent and Trademark Office in the capacity of an International Searching Authority appointed under the Patent Cooperation Treaty" has been amended in order to include the functions of the United States Patent and Trademark Office in the capacity of an International Preliminary Examining Authority appointed under the PCT. The amendments will enter into effect on July 1, 1987.

The amended Agreement is reproduced below.

Agreement between
the UNITED STATES PATENT AND TRADEMARK OFFICE and THE
INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION
concerning the functions of the United States Patent and Trademark Office
in the capacity of an International Searching and Preliminary Examining Authority
appointed under the Patent Cooperation Treaty

Preamble

The United States Patent and Trademark Office and the International Bureau of the World Intellectual Property Organization agree to conclude the following Agreement under Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty:

---

* Published in PCT Gazette No. 02/1978, pages 139 to 145, PCT Gazette No. 03/1978, page 180, PCT Gazette No. 21/1982, page 2359, PCT Gazette No. 23/1983, page 2483, PCT Gazette No. 16/1985, page 2261 and PCT Gazette No. 20/1985, page 2852.

Article 1

Terminology Used in the Agreement

(1) For the purpose of this Agreement:

(a) "Treaty" means the Patent Cooperation Treaty;

(b) "Regulations" means the Regulations under the Treaty;

(c) "Administrative Instructions" means the Administrative Instructions under the Treaty;

(d) "Article" (except where a specific reference is made to an Article of this Agreement) means an Article of the Treaty;

(e) "Rule" means a Rule of the Regulations;

(f) "Authority" refers to the United States Patent and Trademark Office acting in the capacity of an International Searching and Preliminary Examining Authority pursuant to this Agreement and appointed under the Treaty;

(g) "International Bureau" means the International Bureau as defined in Article 2(xix); and

(h) "Gazette" means the publication referred to in Article 55(4).

Article 2

Basic Obligations

(1) The Authority will, except in respect to subject matter which pursuant to Article 6 of this Agreement the Authority is not required to search or to examine, carry out international searches and international preliminary examinations and perform such other functions as are specifically provided for by the Treaty, the Regulations, this Agreement, and the Administrative Instructions. In carrying out an international search and an international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty. The Authority undertakes to apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, this Agreement, and the Administrative Instructions, each render, to the extent considered to be appropriate by both the Authority and the International Bureau, assistance to the other in relation to the performance, by the other, of its functions thereunder.

Article 3

Competence of the Authority

(1) Subject to Article 6 of this Agreement, the Authority undertakes to act as an International Searching Authority for all international applications (i) filed with the receiving Office of, or acting for, the States specified in Annex A of this Agreement, and (ii) filed in or translated into the languages specified in Annex A of this Agreement.

(2) Subject to Article 6 of this Agreement, the Authority undertakes to act as an International Preliminary Examining Authority for all international applications (i) filed with the receiving Office of, or acting for, the States specified in Annex A of this Agreement, and (ii) filed in or translated into the languages specified in Annex A of this Agreement.

Article 4

Minimum Personnel Requirements

(1) The Authority shall, for the purposes of carrying out international search and international preliminary examination, make available the staff at its disposal, to the extent required by the workload, having sufficient technical qualifications to carry out such search and examination in all technical fields except those referred to in Article 6 of this Agreement. The staff of the Authority shall be maintained at a level exceeding the minimum requirement as set out in Rules 36.1(i) and 63.1(i).

(2) The Authority shall maintain, or otherwise secure assistance by, a staff which has the language facilities to understand at least those languages in which the minimum documentation referred to in Rule 34 is written or is translated.

Article 5

Documentation Facilities

The Authority shall maintain and use all documentation facilities ordinarily at the disposal of the staff referred to in Article 4(1) of this Agreement for search and examination purposes, and shall maintain and use for the said purposes at least the minimum documentation facilities prescribed by Rules 36.1(ii) and 63.1(ii).

Article 6

Subject Matter not Required to be Searched

In accordance with Articles 17(2)(a)(i) and 34(4)(a)(i), the Authority will not be obligated to search or examine any of the subject matter specified in Rule 39.1 or Rule 67.1 except for subject matter specified in Annex B of this Agreement.

Article 7

Fees

(1) A schedule of all fees charged by the Authority in relation to its functions as an International Searching and Preliminary Examining Authority is set out in Annex C of this Agreement.

(2) The Authority shall, to the extent and under the conditions set out in Annex C of this Agreement, refund the paid search fees in whole or in part.

Article 8

Review of Protest

The Commissioner of Patents and Trademarks or his designee shall examine protests in respect of additional fees where such additional fees are paid under protest pursuant to Rule 40.2(c) or Rule 68.3(c).

Article 9

[Deleted]

Article 10

Classification

The Authority, in addition to applying the International Patent Classification to a particular subject matter, may also apply the United States Patent Classification.

Article 11

Language of Correspondence Used by the Authority

For the purposes of correspondence, including forms, the Authority shall use the English language.

Article 12

Patent Information Services and Technical Assistance

The Authority shall cooperate with the International Bureau in providing patent information services and such other contributions to the technical assistance program under Chapter IV of the Treaty as are both practicable within the facilities of the Authority and as may be agreed.

Article 13

Entry into Force of the Agreement

This Agreement shall enter into force, after approval by the Assembly, on the date of signature thereof. The Agreement together with an indication of the date of its entry into force shall be published in the Gazette by the International Bureau.

Article 14

Duration and Renewability of the Agreement

Subject to Article 16 of this Agreement, this Agreement shall remain in force for a period of 10 years. It shall be renewable for a period of 10 years subject to the approval of, and the extension of the appointment of the Authority for that period by, the Assembly.

Article 15

Amendment

(1) Without prejudice to paragraphs (2) to (4) below, amendments may be made to this Agreement by agreement between the Authority and the International Bureau and shall take effect on the date on which those amendments are approved by the Assembly, or, if a later date is specified in the amendments, on that later date.

(2) Annex A may be amended by the Authority at any time. Any amendment adding a State or language will be made by notification from the Authority to the International Bureau and shall take effect one month from the date of publication in the Gazette. Any amendment deleting a State or language will be made by notification from the Authority to the International Bureau and shall take effect nine months from the date of publication in the Gazette.

(3) Annex B may be amended by the Authority at any time. Any amendment adding subject matter to that Annex will be made by notification from the Authority to the International Bureau and shall take effect one month from the date of publication in the Gazette. Any amendment deleting subject matter from that Annex will be made by notification from the Authority to the International Bureau and shall take effect nine months from the date of publication in the Gazette.

(4) Annex C may be amended by the Authority at any time. Any amendment may be made by notification from the Authority to the International Bureau and shall take effect on a date specified by the Authority but not earlier than one month after publication of the notification in the Gazette. Normally Annex C shall not be amended during the first year after entry into force of this Agreement or thereafter at an interval of less than one year from a previous amendment of the schedule.

(5) The International Bureau shall publish promptly in the Gazette any amendment of this Agreement agreed to by the Authority and the International Bureau and approved by the Assembly under paragraph (1) and any notifications received by the International Bureau under paragraphs (2) to (4).

Article 16

Termination of the Agreement

(1) This Agreement shall terminate:

(a) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(b) if the Director General of the World Intellectual Property Organization, with the approval of the Assembly, gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice.

(3) Notwithstanding paragraph (2), if:

(a) notice to terminate this Agreement is given by the Authority under paragraph (1); and

(b) at the same time all those Contracting States, whose receiving Offices have specified the Authority under Articles 16(2) and 32(2), not having denounced the Treaty previously, make the denunciation under Article 66,

the notice to terminate this Agreement shall take effect at such time as the denunciation of the Treaty becomes effective for all such States.

ANNEX A

COUNTRIES AND LANGUAGES UNDER ARTICLE 3 OF THIS AGREEMENT

(1) The Authority will conduct international searches and prepare international search reports

(i) for the following countries*:
United States of America, Brazil, Barbados

(ii) in the following languages:
English.

(2) The Authority will conduct international preliminary examinations and prepare international preliminary examination reports

(i) for the following countries:
United States of America and,
where the Authority has prepared the international search report, Brazil and Barbados

(ii) in the following languages:
English.

ANNEX B

SUBJECT MATTER SPECIFIED UNDER ARTICLE 6 OF THIS AGREEMENT

Subject matter which is searched or examined in United States national applications.

---

* In the second session of the Preparatory Intergovernmental Committee on the Revision of the Paris Convention for the Protection of Industrial Property, June 29 to July 8, 1977, the Delegation of the United States of America offered the services of its International Searching Authority (the Authority under this Agreement) to all nationals of countries of the western hemisphere party to the PCT on the same conditions these services would be available to its own nationals. This offer stands.

(ii)	where a corresponding prior United States national application with basic filing fee has been filed	$350.00
Supplemental search fee (per additional invention)		$140.00
Preparation of an international-type search report in a United States national application		$ 28.00
Preliminary examination fee		
(i)	where an international search fee has been paid on the international application for the benefit of the United States Patent and Trademark Office as an International Searching Authority	$370.00
(ii)	where the International Searching Authority for the international application was an authority other than the United States Patent and Trademark Office . . .	$570.00
Additional preliminary examination fee (per additional invention)		
(i)	where a supplemental search fee has been paid on the international application to the United States Patent and Trademark Office as an International Searching Authority	$125.00
(ii)	where the International Searching Authority for the international application was an authority other than the United States Patent and Trademark Office . . .	$190.00

(b) Extent and Conditions of Refunds of the Search and Preliminary Examination Fees

(i) Money paid for search and preliminary examination fees, where paid by actual mistake or in excess, will be refunded.

(ii) Refund of the supplemental search fee and additional preliminary examination fee will be made if such refund is determined to be warranted by the Commissioner of Patents and Trademarks or his designee acting under Rule 40.2(c) or Rule 68.3(c).

(iii) The search fee will be refunded if the determination under Article 11(1) is negative.

Agreement between the Japanese Patent Office and the International Bureau*

Amendment to Annex D

The Japanese Patent Office has notified the International Bureau, pursuant to Article 16(3)(iv) of the Agreement, of amendments to Annex D of the Agreement. The new amounts of fees are applicable as from August 1, 1987. The amended Annex reads as follows:

"ANNEX D

SCHEDULE OF FEES AND CHARGES OF THE AUTHORITY AND EXTENT AND CONDITIONS OF REFUNDS OF THE SEARCH FEE FOR THE PURPOSES OF ARTICLE 8 OF THE AGREEMENT

(a) Schedule of fees and charges

Fee	Amount Japanese Yen
Search fee (Rule 16.1(a)):	54,000
Additional fee (Rule 40.2(a)):	47,000
Preparing copies of cited documents (Rule 44.3(b)):	1,300 per document
Preliminary examination fee (Rule 58.1(b)):	20,000
Additional fee (Rule 68.3(a)):	13,000
Preparing copies of cited documents (Rule 71.2(b)):	1,300 per document
Preparing copies of requested documents (Rule 94.1):	1,300 per document

(b) Conditions and extent of refunds of the search fee where the search report can be wholly or partially based on the results of an earlier search (Rules 16.3 and 41.1)

The conditions and extent of refunds of the search fee in cases where the search report can be wholly or partially based on the results of an earlier search are the following:

The Authority shall refund 23,000 Japanese Yen, on the request of the applicant, where the Authority has been able to make use of a considerable part of the results of the earlier search."

United States of America

The United States of America has, pursuant to PCT Rule 59.1, informed the International Bureau that, with effect on July 1, 1987, the following International Preliminary Examining Authorities will be competent for the international preliminary examination of international applications filed with its national Office:

United States Patent and Trademark Office (USPTO), or European Patent Office (EPO) for 500 international applications per year* for which the EPO has established the international search report.

REFERENCES TO DEPOSITS OF MICROORGANISMS

Australia

Pursuant to PCT Rule 13bis.7, the Australian Patent Office has notified the International Bureau about amendments to the national law concerning microbiological inventions which take effect on July 7, 1987. The table concerning References to Deposits of Microorganisms, contained in Annex M1, published in PCT Gazette No. 02/1987 on pages 348 to 350, is, pursuant to the information received from the Australian Patent Office, amended as follows:

1st column (Designated Office):	Australia, Australian Patent Office
2nd column (Additional Indications):	To the extent available to the applicant, relevant information on the characteristics of the microorganism
3rd column (Time earlier than 16 months from the Priority Date):	In the case of (A): within 3 months after the filing date. In the case of (B): at the time of filing (as part of the application)
4th column (Depositary Institutions):	See footnote (1), below

[Updating of PCT Gazette No.02/1987, Annex M1, page 348]

---

* Since the EPO will only accept 500 demands per year (for the three-year period beginning July 1, 1987) from U.S. applicants, the USPTO will publish in its Official Gazette notices which indicate the number of demands filed in the EPO by U.S. applicants as of a particular date. The number of demands filed, based upon the latest known information, will also be supplied by telephone or teleprinter to interested persons by both the EPO and the USPTO.

The USPTO will accept any demands filed in the EPO by U.S. applicants beyond the 500 limit. Upon receipt by the EPO of the 501st and subsequent demands from U.S. applicants, the EPO will promptly notify the applicant that it is not competent under PCT Rule 59.1 to receive the demand. The EPO will also immediately inform the USPTO. The EPO will refund any fees paid by the applicant to the EPO and forward the demand to the USPTO, with an indication of the date of receipt of the demand, for further processing. The EPO will be considered to be the agent of the USPTO for the purposes of receiving and dating demands. The USPTO will correspond with the applicant concerning the demand and require the payment of fees to the USPTO under PCT Rules 57.4 and 58.2.

INSTITUTIONS WITH WHICH DEPOSITS MAY BE MADE

Hungary

Pursuant to PCT Rule 13bis.7(b), the National Office of Inventions of Hungary has notified the International Bureau of a change in the name of the depositary institution listed as "National Collection of Agricultural and Industrial Microorganisms (NCAIM), Department of Microbiology, University of Horticulture" in Annex M2, published in PCT Gazette No. 02/1987, as follows:

"National Collection of Agricultural and Industrial Microorganisms (NCAIM)*

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

ANNEX F - FORMS

Modification of Forms PCT/RO/101 (Request) and PCT/IPEA/401 (Demand)

The Request Form has been modified. The modification consists of a new presentation of Box No.V, Designation of States, on the "second sheet" and of a complete revision of the Notes to the Request. All the sheets of the Request, including those sheets which have not been modified, are now dated "July 1987".

The Demand Form has been completely modified and a Fee Calculation Sheet is added to it; all the sheets are dated "July 1987".

The modifications of the Request and of the Demand take effect on July 1, 1987.

The modified "second sheet" of the Request, the modified Notes to the Request, the modified Demand and the Notes relating to it, as well as the Fee Calculation Sheet annexed to the Demand, are reproduced on the next pages.

Notwithstanding the entry into force of the modified Forms, applicants may use the previous version of the Forms until the stock is depleted. It is recommended, however, to use only the modified Forms. Copies can be obtained free of charge from the receiving Offices.

Box No. IV AGENT (IF ANY) OR COMMON REPRESENTATIVE (IF ANY); ADDRESS FOR NOTIFICATIONS (IN CERTAIN CASES). A common representative may be appointed only if there are several applicants and if no agent is or has been appointed; the common representative must be one of the applicants.
The following person (includes, where applicable, a legal entity) is hereby/has been appointed as agent or common representative to act on behalf of the applicant(s) before the competent International Authorities:

Space reserved for designating States (for the purposes of a national patent) which have become party to the PCT after the issuance of this sheet:

.....

(1) The applicant's choice of the order of designations may be indicated by marking the check-boxes with sequential arabic numerals (see also the "Notes to Box No. V").
(2) The selection of particular States for a European patent can be made upon entering the national (regional) phase before the European Patent Office (see also the "Notes to Box No. V").
(3) If another kind of protection or a title of addition or, in the United States of America, treatment as a continuation or a continuation-in-part is desired, specify according to the instructions given in the "Notes to Box No. V."

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. For more detailed information, see also the **PCT Applicant's Guide**, a publication of WIPO.

"Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

Please use a typewriter. The applicable check-boxes may be marked with black ink.

NOTES TO BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

NOTES TO BOXES No. II and III

Indication wether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)): Please mark the applicable check-box in order to indicate wether the person (including a legal entity) named is "applicant only" (which means that the person is not also inventor), "inventor only" (which means that the person is not also applicant) or "applicant and inventor" (which means that the person is both). A person is to be named only once, even where the pesrson is both applicant and inventor.

Names and addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any, and the country).

Only one address may be indicated per person. Where no agent is appointed, a special "address for notifications" may be indicated in Box No. IV (see below).

Nationality (Rules 4.5(a) and (b) and 4.6(a)): For each applicant, the nationality must be indicated by the name of the State of which the person is a national. This indication is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 4.6(a)): For each applicant, the residence must be indicated by the name of the State of which the person is a resident. However, if the residence is not indicated, it will be assumed that the State of residence is the same as the State indicated in the address. The indication of the residence is not required where a person is inventor only.

Names of States (Section 201(a)): For the indication of names of States the two-letter country codes may be used.

Different Applicants for Different Designated States (Rule 18.4(a)): It is possible to indicate different applicants for the purposes of different designated States. In such a case, in respect of each designated State, at least one of the applicants indicated for the purposes of that State must be a national or resident of a PCT Contracting State. **Where the United States of America is one of the designated States, the inventor(s) must be the applicant(s) for the United States of America and the check-box "applicant and inventor" must be marked.**

For the indication of the designated States for which a person is applicant please mark the applicable check-box (only one). The check-box "the States indicated in the 'Supplemental Box'" must be marked where none of the other three check-boxes fits; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which he is applicant (see item (ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details see the PCT Applicant's Guide, Volume I, Annex B. It is strongly recommended to name always the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States where, in this respect, the requirements of the national laws of the designated States are not the same; in such a case, the Supplemental Box must be used (see item (iii) in that Box).

NOTES TO BOX No. IV

Agent or Common Representative (Rules 4.7, 4.8 and Section 108): For the manner in which name(s) and address(es) including names of States must be indicated, see the Notes to Boxes No. II and III. Where several agents are listed, the agent to whom any correspondence must be addressed is to be listed first. If there is more than one applicant but no common agent representing them, the Request must designate one of the applicants who is a national or resident of a Contracting State, as their common representative. If this is not done, the common representative will the applicant first named in the Request who is entitled to file an international application with the receiving Office.

Appointment of Agent or Common Representative (Rule 90.3 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the Request or in a separate power of attorney. Each applicant must sign either the Request or the separate power of attorney. Where the international application is filed with reference to a general power of attorney, a copy thereof must be attached to the Request and any applicant who did not sign the general power of attorney must sign either the Request or a separate power of attorney.

Address for Notifications (Rule 4.4(d)): If no agent has been appointed, a special address for the sending of notifications to the applicant may be indicated in Box No. IV instead of the name and address of an agent. That address must be different from the address given in Box No. II and the special check-box must be marked. If an agent has been appointed, notifications will be sent to his address.

NOTES TO BOX No. V

Designation of States: The Contracting States in which protection is desired must be designated in the Request by marking the applicable check-boxes. **Note that after filing further designations cannot be made.**

The marking of the check-boxes of the designated States by means of sequential arabic numerals will be taken as indicating the applicant's **choice of the order of the designations**; if another form of marking is used, the order will be taken as that in which the marked boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16bis.2(c) and Section 321).

For the designation of a State which has become party to the PCT after the date appearing on the bottom of the second sheet of the Request form, the name of the State, preferably preceded by the two-letter country code, must be given together with an indication, where applicable, whether national or regional protection or a special kind of protection or treatment is desired.

Where a **European patent** is desired, only one designation fee must be paid for that purpose, independently of the number of States designated for a European patent.

Where one or more States are designated twice (once for the purposes of a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the European patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Note that **Belgium**, **France** and **Italy** can only be designated for the purposes of a European patent and not for the purposes of national protection.

If a European patent is desired for only some of the Contracting States of the European Patent Convention, the names of those States for which no European patent is desired may be deleted by striking them out. However, it is recommended to designate always all the Contracting States of the European Patent Organisation and to make a selection only upon entering the national (regional) phase before the European Patent Office and upon payment of the European designation fees.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14, Section 202): Where, in any country where that is possible, instead of a patent, a national title other than a patent is desired, write after the name of that country on the dotted line the name of the title, that is, "petty patent" (available in Australia), "utility model" (available in Brazil, Germany (Federal Republic of), Japan, the Republic of Korea, OAPI) or "inventor's certificate" (available in Bulgaria, the Democratic People's Republic of Korea, the Soviet Union). Where, in the Federal Republic of Germany (the only country in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model".

Where, in respect of any country where that is possible, it is desired that the application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part", write after the name of that country the appropriate words, that is, "patent of addition" (available in Australia, Austria, Bulgaria, Germany (Federal Republic of), Malawi, the Soviet Union), "certificate of addition" (available in Luxembourg, Monaco, OAPI), "inventor's certificate of addition" (available in Bulgaria, the Soviet Union), "continuation" or "continuation-in-part" (both available in the United States of America). If any of these indications is used, indicate in the "Supplemental Box" the State for which such treatment is desired, the number of the parent title or parent application, and the date of grant of the parent title or the date of filing of the parent application, as the case may be (see item (v) in that Box).

NOTES TO BOX No. VI

Priority Claim (Rule 4.10): The declaration containing the priority claim must be made in the Request.

The Request must indicate both
(i) when the earlier application is not a regional or an international application, the **country** in which it was filed, or, when the earlier application is a regional or an international application, at least one country for which it was filed, and
(ii) the **date** on which it was filed;
otherwise, the priority claim will, for the purposes of the procedure under the Treaty, be considered not to have been made.

If the application **number** of the earlier application is not indicated in the Request but is furnished by the applicant to the International Bureau or to the receiving Office prior to the expiration of the 16th month from the priority date, it is considered by all designated States to have been furnished in time.

Certified Copy of Earlier Application (Priority Document) (Rule 17.1): Such copy must be submitted to the International Bureau or to the receiving Office prior to the expiration of the 16th month from the priority date or, where an early start of the national phase is requested, not later than at the time such request is made.

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office to transmit the priority document to the International Bureau. Such request may be made by marking the special check-box and by identifying the document. **Attention**: where such a request is made, the applicant must pay to the receiving Office the applicable **fee for priority document.**

Dates (Section 110): They must be indicated by the arabic number of the day, the name of the month and the arabic number of the year; after or below such indication, the date should be repeated in parenthesis by indicating it by two-digit arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, e.g., 10 June 1986 (10.06.86).

NOTES TO BOX No. VII

Earlier Search (Rule 4.11): The filling in of Box No. VII may result in a total or partial refund of the international search fee.

NOTES TO BOX No. VIII

Signature (Rules 4.1(d), 4.15 and 90.3(a)): The signature must be that of the applicant (if there are several applicants all must sign); however, the signature may be that of the agent where a separate power of attorney appointing the agent, or a copy of a general power of attorney already in the possession of the receiving Office, is attached to the Request. The name of each person signing the Request should be typed below the signature; similarly, an indication of the capacity in which the person signs should be indicated if such capacity is not obvious from reading the Request.

NOTES TO BOX No. IX

Reference to a Deposited Microorganism (Rule 13bis and Section 209): Form PCT/RO/134 or any separate sheet containing indications concerning a deposited microorganism may, in most cases, be listed as **"other document."** This is not the case if Japan is designated: in that case, Form PCT/RO/134 or any other sheet containing the said indications must be included as one of the sheets of the description.

NOTES TO "SUPPLEMENTAL BOX"

The manner of making indications in this Box is indicated on the top of the "supplemental sheet."

Statement concerning Non-Prejudicial Disclosures or Exceptions to Lack of Novelty: Such a statement, unless contained in the description, may be given in this Box. It should comply with the national law applicable by the designated Office to which the statement is addressed.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the Receiving Office, the International Searching Authority or the International Preliminary Examining Authority must be in the same language as the international application to which it relates; however, the receiving Office, the International Searching Authority or the International Preliminary Examining Authority may authorize the use of another language. Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the Request, the description, the claim(s), the abstract, the drawings (if any). All sheets constituting the international application must be numbered in consecutive arabic numerals with three separate series of numbers: the first applying to the Request, the second applying to the part consisting of the description, the claim(s) and the abstract, and the third applying to the drawings. The numbers must be placed at the top of the sheet, in the middle, below the 2cm margin which must remain blank. The number of each sheet of the drawings must consist of two arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings.

Box No. VI SIGNATURE

(The following is to be filled in by the International Preliminary Examining Authority)

1. Date of actual receipt of DEMAND:

2. Adjusted date of receipt of DEMAND due to CORRECTIONS under Rule 60.1(b):

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to give some information concerning international preliminary examination under Chapter II of the PCT and to facilitate the filling in of the present form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. For more detailed information, see also the **PCT Applicant's Guide**, a publication of WIPO.

"Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

IMPORTANT GENERAL INFORMATION

Who May File a Demand (Article 31(2)(a))? A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with the receiving Office of, or acting for, such State. Where there are several applicants, at least one of them must qualify for the purposes of each elected State (Rule 54.3(a)).

Where Must the Demand Be Filed (Article 31(6)(a))? The demand must be filed with the International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see Annex C of the PCT Applicant's Guide, Volume I). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant.

When Must the Demand be Filed (Article 39(1))? The demand must be filed **before** the expiration of **19 months from the priority date** in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. **Warning**: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand be Filed (Rule 55.1)? The demand must be filed in the language of the international application if that language is English, French, German, Japanese or Russian; otherwise, the demand must be filed in English.

What is the Language of Correspondence (Rules 66.9 and 92.2, Section 104)? Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, the IPEA may authorize the use of another language for letters which do not contain or relate to amendments of the international application, whereas amendments and letters relating thereto must be in the language of publication. Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Which Fees Must be Paid and When (Rules 57 and 58)? At the time the demand is submitted, the applicant must pay

(i) the preliminary examination fee, and

(ii) the handling fee.

For details concerning the payment of those fees, see the Fee Calculation Sheet.

NOTES TO BOX No. I

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and Priority Date (Section 110): They must be indicated by the arabic number of the day, the name of the month and the arabic number of the year; after or below such indication, the date should be repeated in parenthesis by indicating it by two-digit arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, e.g., 10 June 1986 (10.06.86). Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

NOTES TO BOX No. II

Applicant(s) (Rule 53.4): Make here the relevant indications as appearing in Boxes Nos. II and III of the REQUEST (Form PCT/RO/101). The Notes to the REQUEST apply *mutatis mutandis*.

If different applicants for different designated States are indicated in the REQUEST part of the international application, indicate only the names of the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant must be made, because those indications have been made in the REQUEST). If there are more than two applicants, make the required indications on the "continuation sheet."

NOTES TO BOX No. III

Agent or Common Representative (Rule 53.5): The **first check-box** must be marked where the applicant is already represented by an agent or where a common representative has been appointed. The **second check-box** must be marked where the applicant was not represented in the earlier stages of the PCT procedure and now wants to be represented by an agent before the IPEA, or where the applicant was represented in the earlier stages of the PCT procedure but wants to change the agent for the procedure before the IPEA. The **third check-box** must be marked where the applicant wants to be represented by an additional agent appointed only for the procedure before the IPEA without revocation of any earlier appointment; please note that in the latter case all notifications issued by the IPEA will be addressed only to that additional agent. Where the second or the third check-box is marked and the applicant does not sign himself the demand, a separate power of attorney must be filed with the International Bureau of WIPO or with the receiving Office (Rule 90.3(b)).

Address for Notifications (Rule 4.4(d)): If no agent has been appointed, a special address for the sending of notifications to the applicant may be indicated in Box No. III instead of the name and address of an agent. That address must be different from the address given in Box No. II and the special check-box must be marked. If an agent has been appointed, notifications will be sent to his address.

NOTES TO BOX No. IV

Declaration Concerning Amendments of the Claims (Rules 62.2, 66.1 and 69.1(b)): Marking of the appropriate check-box is recommended, as it will help the IPEA to know immediately to which claims the international preliminary examination must be directed. International preliminary examination can only start once this is clear.

It is recalled that any amendment to the claims under Article 19 or any declaration that the applicant does not intend to file such amendments, are required to be filed with the International Bureau. That Bureau will promptly transmit any amendment or declaration to the IPEA. The international preliminary examination can start when the IPEA has received from the International Bureau such amendments or such declaration or a notice that no amendments have been filed in the prescribed time limit.

In case the demand for international preliminary examination has already been submitted, the applicant must, if he subsequently files amendments under Article 19 with the International Bureau, file at the same time a copy of such amendments with the IPEA.

The third of the three check-boxes relates to amendments under Rule 66.1. Those amendments must be filed with the IPEA.

NOTES TO BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT **and** which have been designated at the time of filing the international application (in the REQUEST) can be elected. The election is effected by marking the applicable check-box. The kind of protection or treatment desired follows the indication made in the REQUEST part of the international application. If a **European patent** is desired and only some of the Contracting States of the European Patent Convention have been designated for a European patent in the REQUEST part of the international application, the names of the other such States must be struck out. Switzerland and Liechtenstein are not bound by Chapter II and cannot be elected; however, if they have been designated in the REQUEST part of the international application for a European patent together with at least one other Contracting State of the European Patent Convention, the time limit under PCT Article 39(1) applies also with respect to those two States if the other State has been elected before the expiration of 19 months from the priority date. Further States which are, at the time of publication of these Notes, not bound by Chapter II and cannot be elected are: Denmark, Norway and the Republic of Korea. **Warning**: if **Japan** is elected and the international application was filed in a language other than Japanese, a translation into Japanese of the international application must be furnished to the Japanese Patent Office within 20 months from the priority date.

NOTES TO BOX No. VI

Signature (Rule 53.8): The demand must be signed by the applicant or by his agent. If the demand is not signed by (all) the applicant(s), a power of attorney signed by (all) the applicant(s) must be filed with the International Bureau of WIPO or with the receiving Office, unless the agent has previously been appointed.

NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/IPEA/401)

1 The purpose of the fee calculation sheet is to aid the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority to verify the calculations and to identify any error in them.

2 Two kinds of fees must be paid for international preliminary examination:

(i) the preliminary examination fee (for the benefit of the International Preliminary Examining Authority);

(ii) the handling fee (for the benefit of the International Bureau).

3 Both fees must be paid to the International Preliminary Examining Authority upon filing the demand.

4 Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the International Preliminary Examining Authority or the receiving Office. This information is also published in Annex E of Volume I of the PCT Applicant's Guide and from time to time in Section IV of the PCT Gazette.

5 For the calculation of the total amount payable, the amount of the preliminary examination fee must be inserted in **Box P**. The amount of the handling fee must be inserted in **Box h_1**.

6 The amount of the handling fee is to be increased by as many times the same amount as there are languages into which the international preliminary examination report has to be translated by the International Bureau. Whether the report has to be translated depends on the requirements of the States elected in the demand and on the language of the international preliminary examination report. The only State the Office of which at present requires a translation of an international preliminary examination report established in the **English** language is the Soviet Union. Thus, if the Soviet Union is elected (and only in that case), one amount of the handling fee (for translation into Russian by the International Bureau) is to be entered in **Box h_2**. The total of Boxes h_1 and h_2 must be inserted in **Box H**.

7 The **total** of the amounts inserted in Boxes P and H is the amount which must be paid to the International Preliminary Examining Authority.

United Kingdom

The United Kingdom Patent Office has notified the International Bureau of modifications concerning the conditions of provisional protection pursuant to international publication of an international application as follows:

Provisional protection pursuant to international publication:

National protection:

See Section 89(1), (4) and (5) and (7) of the Patents Act 1977. Once the acts provided for in PCT Article 22(1) have been performed, the publication of the international application in English by WIPO, or of the translation into English by the UK Patent Office, has the same effect as publication under Section 16 of the Patents Act 1977 (i.e., the applicant has generally the same right as he would have had, if the patent had been granted on the date of publication of the application or of the translation, to bring proceedings in the court or before the Comptroller for damages in respect of any act which would have infringed a patent). However court proceedings may only be brought after grant of the patent.
Section 89(7), in addition gives effect to the option specified in PCT Article 29(2)(iii).

European protection:

(a) International application published in English: The right referred to above applies once the application has been published by WIPO.

(b) International application published in French or German: As in paragraph (a) except that from September 1, 1987, the right referred to above does not become effective until a translation into English of the claims has been filed at, and published by, the UK Patent Office and the prescribed fee paid, or unless the applicant has supplied the infringer, before the infringing act occurred, with a translation into English of the claims.

INFORMATION ON CONTRACTING STATES (cont'd)

Provisional protection pursuant to international protection (cont'd):	(c) International application published in a language which is not an EPO official language: The right referred to above does not become effective until the EPO publishes the international application supplied to it in one of its official languages except that, from September 1, 1987, if the EPO republishes the application in French or German, paragraph (b) applies.

[Updating of PCT Gazette No. 02/1987, Annex B1(GB), page 258]

United States of America

The United States Patent and Trademark Office has informed the International Bureau that it waives in part the requirements under PCT Article 20(1)(a) (that the international application, together with the international search report, shall be communicated to it) as follows:

"In certain circumstances the requirements of PCT Article 20(1)(a) are waived. Under 35 U.S.C. 371, enacted by Public Law 94-131 as amended by Public Law 98-622, the United States Patent and Trademark Office, as a designated Office, requires receipt from the International Bureau of copies of all international applications designating the United States, except with respect to international applications filed in the United States Receiving Office. In the case of the latter international applications, however, receipt from the International Bureau of copies of international search reports is required when such reports were prepared by an International Searching Authority other than the United States Patent and Trademark Office. In addition, receipt from the International Bureau of copies of any amendments to the claims under Article 19 is required in all instances involving international applications designating the United States."

DESIGNATED (OR ELECTED) OFFICES

United States Patent and Trademark Office (USPTO)

The partial waiver of the requirements under PCT Article 20(1)(a) reproduced above has the following effect in respect of the requirement for the furnishing of a copy of the international application to the USPTO by the applicant:

Is a copy of the international application required?	(a) A copy is required only if applicant has not received Form PCT/IB/308 and the USPTO has not received a copy of the international application from the International Bureau under PCT Article 20. This may be the case where the applicant expressly requests an earlier start of the national phase under PCT Article 23(2). (b) No copy is required if the international application was filed with the USPTO as receiving Office with one exception: a copy of amendments of the claims filed under PCT Article 19 with the International Bureau is required under the conditions indicated under paragraph (a), above.

RECEIVING OFFICES

United Kingdom

The United Kingdom Patent Office has notified the International Bureau of a clarification of its requirement as to who can act as an agent before it as receiving Office, as follows:

Who can act as an agent?	Any person who resides in or has a place of business in the UK. However, if he carries out for gain in the UK the business of acting as agent for the purposes of applying for or obtaining patents (other than European patents) he must be a registered patent agent or a solicitor. (A list of registered patent agents may be obtained from The Registrar, c/o The Chartered Institute of Patent Agents, Staple Inn Buildings, High Holborn, London WC1V 7PZ.)

Japan

On September 8, 1987, Japan notified the withdrawal of its declaration under PCT Article 64(2)(a) concerning in particular the time limit applicable under Chapter II of the PCT for the furnishing of a translation into Japanese of the international application. Thus, Japan will become bound by the provisions of Chapter II of the PCT without any reservations on December 8, 1987.

The withdrawal of the said declaration has the effect that, as from December 8, 1987, the provisions of PCT Article 39(1)(a) (under which a translation of the international application into Japanese must be furnished within 30 months from the priority date) will apply in respect of the Japanese Patent Office as elected Office.

This 30-month time limit applies also to international applications which have been filed before December 8, 1987, provided that Japan has been elected in a demand for international preliminary examination or in a later election prior to the expiration of the 19th month from the priority date and that on December 8, 1987, 20 months from the priority date have not expired.

NOTICES AND INFORMATION OF A GENERAL CHARACTER

INTERNATIONAL SEARCHING AUTHORITIES

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

Introductory Note

The Assembly of the International Patent Cooperation Union (PCT Assembly), during its fifteenth session, held in Geneva from September 21 to 30, 1987, decided to extend until December 31, 1997, the appointment of the seven International Searching and Preliminary Examining Authorities named below and approved the corresponding agreements concluded under Articles 16(3)(b) and 32(3) of the PCT. The Authorities are the following:

Patent Office of the Government of Australia
Austrian Patent Office
Patent Office of Japan
USSR State Committee for Inventions and Discoveries
Royal Patent and Registration Office of Sweden
United States Patent and Trademark Office
European Patent Office

The agreements will enter into force on January 1, 1988, and will, as from that date, supersede the earlier agreements concluded under Articles 16(3)(b) and 32(3) of the PCT with the said Authorities. The texts of the agreements are reproduced below.

Agreement between the GOVERNMENT OF AUSTRALIA and the WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the functioning of the PATENT OFFICE OF THE GOVERNMENT OF AUSTRALIA as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty

Preamble

The Government of Australia and the World Intellectual Property Organization,

considering that the Agreement of February 29, 1980, between the Patent Office of the Government of Australia and the International Bureau under Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty was concluded for a period of ten years,

desirous to continue the appointment of the Patent Office of the Government of Australia as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty,

hereby agree as follows:

Article 1

Terms and Expressions Used in the Agreement

(1) For the purposes of this Agreement:

(a) "Treaty" means the Patent Cooperation Treaty;

(b) "Regulations" means the Regulations under the Treaty;

(c) "Administrative Instructions" means the Administrative Instructions under the Treaty;

(d) "Article" (except where a specific reference is made to an Article of this Agreement) means an Article of the Treaty;

(e) "Rule" means a Rule of the Regulations;

(f) "Contracting State" means a State party to the Treaty;

(g) "Authority" means the Patent Office of the Government of Australia.

(2) All other terms and expressions used in this Agreement which are also used in the Treaty, the Regulations or the Administrative Instructions have, for the purposes of this Agreement, the same meaning as in the Treaty, the Regulations and the Administrative Instructions.

Article 2

Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty. The Authority shall apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent possible, mutual assistance in the performance of their functions thereunder.

Article 3

Competence of Authority

(1) The Authority shall act as an International Searching Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority shall act as an International Preliminary Examining Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

Article 4

Subject Matter Not Required to be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or shall not be obliged to examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B of this Agreement.

Article 5

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the search fee paid where an international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1) or where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the preliminary examination fee paid where the demand is considered as if it had not been submitted (Rule 58.3) or where the demand or the international application is withdrawn by the applicant before the start of the international preliminary examination.

Article 6

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 7

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, the Authority shall use the English language.

Article 8

International-Type Search

The Authority shall carry out international-type searches to the extent decided by it.

Article 9

Entry Into Force of the Agreement

(1) This Agreement shall enter into force on January 1, 1988.

(2) This Agreement supersedes, as from the date of its entry into force, the Agreement which was concluded on February 29, 1980.

Article 10

Duration and Renewability of the Agreement

This Agreement shall remain in force until December 31, 1997. The parties to this Agreement shall, no later than January 1997, start negotiations for its renewal.

Article 11

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may, subject to approval by the Assembly of the International Patent Cooperation Union, be made to this Agreement by agreement between the parties hereto; they shall take effect on the date agreed upon by them.

(2) Without prejudice to paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the Director General of the World Intellectual Property Organization and the Authority; they shall take effect on the date agreed upon by them.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the languages listed in Annex A of this Agreement;

(ii) amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Any amendment notified under paragraph (3) shall take effect on the date specified by the Authority, provided that for any increase of fees or other charges contained in Annex C that date is at least one month later than the date on which the notification is received by the International Bureau.

Article 12

Termination of the Agreement

(1) This Agreement shall terminate before December 31, 1997:

(i) if the Government of Australia gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization gives the Government of Australia written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice or unless both parties agree on a shorter period.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Geneva, this 11th day of November 1987, in two originals in the English language.

For the Government of Australia by:
(signed) Robert Henry Robertson
Permanent Representative of Australia to the United Nations in Geneva

For the World Intellectual Property Organization by:
(signed) A. Bogsch
Director General

ANNEX A

Under Article 3 of the Agreement, the Authority

(i) shall act for the following States:

Australia and

the States regarded as developing countries in conformity with the established practice of the General Assembly of the United Nations;

(ii) specifies the following language:

English.

ANNEX B

SUBJECT MATTER NOT EXCLUDED FROM SEARCH OR EXAMINATION

The subject matter set forth in Rule 39.1 or Rule 67.1 which, under Article 4 of the Agreement, is not excluded from search or examination, is the following:

None.

ANNEX C

FEES AND CHARGES FOR INTERNATIONAL SEARCH AND PRELIMINARY EXAMINATION

Part I: Schedule of Fees and Charges

Kind of fee or charge	Amount Australian Dollars
Search fee (Rule 16.1(a))	430
Additional fee (Rule 40.2(a))	380

Part II: Conditions and Extent of Refunds of the Search Fee and of the Preliminary Examination Fee

(1) Any amount paid by mistake, without cause, or in excess of the amount due, for fees indicated in Part I shall be refunded.

(2) Where the international application is withdrawn or is considered withdrawn, under Article 14(1),(3) or (4), before the start of the international search, the amount of the search fee paid shall be fully refunded.

(3) Where the Authority benefits from an earlier search, 25%, 50%, 75% or 90% of the search fee shall be refunded, depending upon the extent to which the Authority benefits from that earlier search.

(4) In the cases provided for under Rule 58.3, the amount of the preliminary examination fee paid shall be fully refunded.

(5) If the international application or the demand is withdrawn before the start of the international preliminary examination, the amount of the preliminary examination fee paid shall be fully refunded.

Agreement between the FEDERAL MINISTER FOR ECONOMIC AFFAIRS of the REPUBLIC OF AUSTRIA and the WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the functioning of the AUSTRIAN PATENT OFFICE as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty

Preamble

The Federal Minister for Economic Affairs of the Republic of Austria and the World Intellectual Property Organization,

considering that the Agreement of February 21, 1979, between the Federal Minister for Trade, Commerce and Industry of Austria and the International Bureau under Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty was concluded for a period of ten years,

desirous to continue the appointment of the Austrian Patent Office as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty,

hereby agree as follows:

Article 1

Terms and Expressions Used in the Agreement

(1) For the purposes of this Agreement:

(a) "Treaty" means the Patent Cooperation Treaty;

(b) "Regulations" means the Regulations under the Treaty;

(c) "Administrative Instructions" means the Administrative Instructions under the Treaty;

(d) "Article" (except where a specific reference is made to an Article of this Agreement) means an Article of the Treaty;

(e) "Rule" means a Rule of the Regulations;

(f) "Contracting State" means a State party to the Treaty;

(g) "Authority" means the Austrian Patent Office.

(2) All other terms and expressions used in this Agreement which are also used in the Treaty, the Regulations or the Administrative Instructions have, for the purposes of this Agreement, the same meaning as in the Treaty, the Regulations and the Administrative Instructions.

Article 2

Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty. The Authority shall apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent possible, mutual assistance in the performance of their functions thereunder.

Article 3

Competence of Authority

(1) The Authority shall act as an International Searching Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority shall act as an International Preliminary Examining Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

Article 4

Subject Matter Not Required to be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or shall not be obliged to examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B of this Agreement.

Article 5

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the search fee paid where an international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1) or where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the preliminary examination fee paid where the demand is considered as if it had not been submitted (Rule 58.3) or where the demand or the international application is withdrawn by the applicant before the start of the international preliminary examination.

Article 6

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 7

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use the language, specified in Annex A of this Agreement, which is the language of the international application.

Article 8

Agreement between the PATENT OFFICE OF JAPAN and the WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the functioning of the PATENT OFFICE OF JAPAN as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty

Preamble

The Patent Office of Japan and the World Intellectual Property Organization,

considering that the Agreement of July 15, 1978, between the Patent Office of Japan and the International Bureau under Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty was concluded for a period of ten years,

desirous to continue the appointment of the Patent Office of Japan as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty,

hereby agree as follows:

Article 1

Terms and Expressions Used in the Agreement

(1) For the purposes of this Agreement:

(a) "Treaty" means the Patent Cooperation Treaty;

(b) "Regulations" means the Regulations under the Treaty;

(c) "Administrative Instructions" means the Administrative Instructions under the Treaty;

(d) "Article" (except where a specific reference is made to an Article of this Agreement) means an Article of the Treaty;

(e) "Rule" means a Rule of the Regulations;

(f) "Contracting State" means a State party to the Treaty;

(g) "Authority" means the Patent Office of Japan.

(2) All other terms and expressions used in this Agreement which are also used in the Treaty, the Regulations or the Administrative Instructions have, for the purposes of this Agreement, the same meaning as in the Treaty, the Regulations and the Administrative Instructions.

Article 2

Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty. The Authority shall apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent possible, mutual assistance in the performance of their functions thereunder.

Article 3

Competence of Authority

(1) The Authority shall act as an International Searching Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority shall act as an International Preliminary Examining Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

Article 4

Subject Matter Not Required to be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or shall not be obliged to examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B of this Agreement.

Article 5

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the search fee paid where an international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1) or where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the preliminary examination fee paid where the demand is considered as if it had not been submitted (Rule 58.3) or where the demand or the international application is withdrawn by the applicant before the start of the international preliminary examination.

Article 6

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 7

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use the language, specified in Annex A of this Agreement, which is the language of the international application.

Article 8

Entry Into Force of the Agreement

(1) This Agreement shall enter into force on January 1, 1988.

(2) This Agreement supersedes, as from the date of its entry into force, the Agreement which was concluded on July 15, 1978.

Article 9

Duration and Renewability of the Agreement

This Agreement shall remain in force until December 31, 1997. Latest in January 1997, the parties to this Agreement shall start negotiations for its renewal.

Article 10

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may, subject to approval by the Assembly of the International Patent Cooperation Union, be made to this Agreement by agreement between the parties hereto; they shall take effect on the date agreed upon by them.

(2) Without prejudice to paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the Director General of the World Intellectual Property Organization and the Authority; they shall take effect on the date agreed upon by them.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the languages listed in Annex A of this Agreement;

(ii) amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Any amendment notified under paragraph (3) shall take effect on the date specified by the Authority, provided that for any increase of fees or other charges contained in Annex C that date is at least one month later than the date on which the notification is received by the International Bureau.

Article 11

Termination of the Agreement

(1) This Agreement shall terminate before December 31, 1997:

(i) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice or unless both parties agree on a shorter period.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Geneva, this 28th day of September 1987, in two originals in the English and Japanese languages, each text being equally authentic.

For the Authority by:
(signed) Kunio Ogawa
Director General
Japanese Patent Office

For the World Intellectual Property Organization by:
(signed) A. Bogsch
Director General

ANNEX A

STATES AND LANGUAGES

Under Article 3 of the Agreement, the Authority

(i) shall act for the following States:

Japan,
Republic of Korea;

(ii) specifies the following languages:

Japanese,
English (where the international application is filed with the Japanese Patent Office).

Note

At the first session of the Assembly of the PCT Union (April 1978), the Delegation of Japan offered the services of the Japanese Patent Office as International Searching and International Preliminary Examining Authority under this Agreement to nationals and residents of all those States in Asia that would become party to the PCT, on the same conditions as those services would be available to Japanese nationals.

ANNEX B

SUBJECT MATTER NOT EXCLUDED FROM SEARCH OR EXAMINATION

The subject matter set forth in Rule 39.1 or Rule 67.1 which, under Article 4 of the Agreement, is not excluded from search or examination, is the following:

None.

ANNEX C

FEES AND CHARGES FOR INTERNATIONAL SEARCH AND PRELIMINARY EXAMINATION

Part I: Schedule of Fees and Charges

Kind of fee or charge	Amount Yen
Search fee (Rule 16.1(a))	54,000
Additional fee (Rule 40.2(a))	47,000
Preliminary examination fee (Rule 58.1(b))	20,000
Additional fee (Rule 68.3(a))	13,000
Cost of copies (Rules 44.3(b), 71.2(b) and 94.1)	1,300 per document

Part II: Conditions and Extent of Refunds of the Search Fee and of the Preliminary Examination Fee

(1) Any amount paid by mistake, without cause, or in excess of the amount due, for fees indicated in Part I shall be refunded.

(2) Where the international search report can be based to a considerable part on an earlier search, the amount of 23,000 Yen shall be refunded upon request.

(3) In the cases provided for under Rule 58.3, the amount of the preliminary examination fee paid shall be fully refunded.

(4) As long as the refund of the search fee (in the case where the international application is withdrawn or is considered withdrawn, under Article 14(1), (3) or (4), before the start of the international search) and the refund of the preliminary examination fee (in the case where the international application or the demand is withdrawn before the start of the international preliminary examination) continue to be not compatible with the national law of the Authority, the Authority may abstain from refunding the fees.

Agreement between the USSR STATE COMMITTEE FOR INVENTIONS AND DISCOVERIES and the WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the functioning of the USSR STATE COMMITTEE FOR INVENTIONS AND DISCOVERIES as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty

Preamble

The USSR State Committee for Inventions and Discoveries and the World Intellectual Property Organization,

considering that the Agreement of April 11, 1978, between the State Committee for Inventions and Discoveries of the USSR Council of Ministers and the International Bureau under Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty was concluded for a period of ten years,

desirous to continue the appointment of the USSR State Committee for Inventions and Discoveries as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty,

hereby agree as follows:

Article 1

Terms and Expressions Used in the Agreement

(1) For the purposes of this Agreement:

(a) "Treaty" means the Patent Cooperation Treaty;

(b) "Regulations" means the Regulations under the Treaty;

(c) "Administrative Instructions" means the Administrative Instructions under the Treaty;

(d) "Article" (except where a specific reference is made to an Article of this Agreement) means an Article of the Treaty;

(e) "Rule" means a Rule of the Regulations;

(f) "Contracting State" means a State party to the Treaty;

(g) "Authority" means the USSR State Committee for Inventions and Discoveries.

(2) All other terms and expressions used in this Agreement which are also used in the Treaty, the Regulations or the Administrative Instructions have, for the purposes of this Agreement, the same meaning as in the Treaty, the Regulations and the Administrative Instructions.

Article 2

Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty. The Authority shall apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent possible, mutual assistance in the performance of their functions thereunder.

Article 3

Competence of Authority

(1) The Authority shall act as an International Searching Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority shall act as an International Preliminary Examining Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

Article 4

Subject Matter Not Required to be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or shall not be obliged to examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B of this Agreement.

Article 5

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the search fee paid where an international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1) or where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the preliminary examination fee paid where the demand is considered as if it had not been submitted (Rule 58.3) or where the demand or the international application is withdrawn by the applicant before the start of the international preliminary examination.

Article 6

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 7

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use the language, specified in Annex A of this Agreement, which is the language of the international application.

Article 8

International-Type Search

The Authority shall carry out international-type searches to the extent decided by it.

Article 9

Entry Into Force of the Agreement

(1) This Agreement shall enter into force on January 1, 1988.

(2) This Agreement supersedes, as from the date of its entry into force, the Agreement which was concluded on April 11, 1978.

Article 10

Duration and Renewability of the Agreement

This Agreement shall remain in force until December 31, 1997. Latest in January 1997, the parties to this Agreement shall start negotiations for its renewal.

Article 11

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may, subject to approval by the Assembly of the International Patent Cooperation Union, be made to this Agreement by agreement between the parties hereto; they shall take effect on the date agreed upon by them.

(2) Without prejudice to paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the Director General of the World Intellectual Property Organization and the Authority; they shall take effect on the date agreed upon by them.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the languages listed in Annex A of this Agreement;

(ii) amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Any amendment notified under paragraph (3) shall take effect on the date specified by the Authority, provided that for any increase of fees or other charges contained in Annex C that date is at least one month later than the date on which the notification is received by the International Bureau.

Article 12

Termination of the Agreement

(1) This Agreement shall terminate before December 31, 1997:

(i) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice or unless both parties agree on a shorter period.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

Part II: Conditions and Extent of Refunds of the Search Fee and of the Preliminary Examination Fee

(1) Any amount paid by mistake, without cause, or in excess of the amount due, for fees indicated in Part I shall be refunded.

(2) Where the international application is withdrawn or is considered withdrawn, under Article 14(1),(3) or (4), before the start of the international search, the amount of the search fee paid shall be fully refunded.

(3) Where the international search report is based on an earlier search the following refund shall be made:

(i) if the earlier search was so complete that only a minor updating search is required: refund of 90% (50%)*;

(ii) if the earlier search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1-3 additional IPC subgroups: refund of 70% (40%)*;

(iii) if the earlier search saves one half of the efforts usually made to carry out international search: refund of 40% (25%)*;

(iv) if the earlier search applies only to a few IPC subgroups: refund of 20% (10%)*.

(4) In the cases provided for under Rule 58.3, the amount of the preliminary examination fee paid less 25 Roubles shall be fully refunded.

(5) If the international application or the demand is withdrawn before the start of the international preliminary examination, the amount of the preliminary examination fee paid shall be fully refunded.

---

* The amount in brackets is applicable if the earlier search has been carried out by the Authority under the WIPO Permanent Program for Development Cooperation Related to Industrial Property or on request of a member State of the Council for Mutual Economic Assistance (CMEA).

Agreement between the ROYAL PATENT AND REGISTRATION OFFICE OF SWEDEN and the WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the functioning of the ROYAL PATENT AND REGISTRATION OFFICE OF SWEDEN as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty

Preamble

The Royal Patent and Registration Office of Sweden and the World Intellectual Property Organization,

considering that the Agreement of April 11, 1978, between the Royal Patent and Registration Office of Sweden and the International Bureau under Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty was concluded for a period of ten years,

desirous to continue the appointment of the Royal Patent and Registration Office of Sweden as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty,

hereby agree as follows:

Article 1

Terms and Expressions Used in the Agreement

(1) For the purposes of this Agreement:

(a) "Treaty" means the Patent Cooperation Treaty;

(b) "Regulations" means the Regulations under the Treaty;

(c) "Administrative Instructions" means the Administrative Instructions under the Treaty;

(e) "Rule" means a Rule of the Regulations;

(f) "Contracting State" means a State party to the Treaty;

(g) "Authority" means the Royal Patent and Registration Office of Sweden.

(2) All other terms and expressions used in this Agreement which are also used in the Treaty, the Regulations or the Administrative Instructions have, for the purposes of this Agreement, the same meaning as in the Treaty, the Regulations and the Administrative Instructions.

Article 2

Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty. The Authority shall apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent possible, mutual assistance in the performance of their functions thereunder.

Article 3

Competence of Authority

(1) The Authority shall act as an International Searching Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority shall act as an International Preliminary Examining Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

Article 4

Subject Matter Not Required to be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or shall not be obliged to examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B of this Agreement.

Article 5

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the search fee paid where an international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1) or where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the preliminary examination fee paid where the demand is considered as if it had not been submitted (Rule 58.3) or where the demand or the international application is withdrawn by the applicant before the start of the international preliminary examination.

Article 6

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 7

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use English or Swedish and may use instead any other language specified in Annex A of this Agreement where that language is the language of the international application.

Article 8

International-Type Search

The Authority shall carry out international-type searches to the extent decided by it.

Article 9

Entry Into Force of the Agreement

(1) This Agreement shall enter into force on January 1, 1988.

(2) This Agreement supersedes, as from the date of its entry into force, the Agreement which was concluded on April 11, 1978.

Article 10

Duration and Renewability of the Agreement

This Agreement shall remain in force until December 31, 1997. Latest in January 1997, the parties to this Agreement shall start negotiations for its renewal.

Article 11

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may, subject to approval by the Assembly of the International Patent Cooperation Union, be made to this Agreement by agreement between the parties hereto; they shall take effect on the date agreed upon by them.

(2) Without prejudice to paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the Director General of the World Intellectual Property Organization and the Authority; they shall take effect on the date agreed upon by them.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the languages listed in Annex A of this Agreement;

(ii) amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Any amendment notified under paragraph (3) shall take effect on the date specified by the Authority, provided that for any increase of fees or other charges contained in Annex C that date is at least one month later than the date on which the notification is received by the International Bureau.

Article 12

Termination of the Agreement

(1) This Agreement shall terminate before December 31, 1997:

(i) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice or unless both parties agree on a shorter period.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

(f) "Contracting State" means a State party to the Treaty;

(g) "Authority" means the United States Patent and Trademark Office.

(2) All other terms and expressions used in this Agreement which are also used in the Treaty, the Regulations or the Administrative Instructions have, for the purposes of this Agreement, the same meaning as in the Treaty, the Regulations and the Administrative Instructions.

Article 2

Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent considered to be appropriate by both the Authority and the International Bureau, mutual assistance in the performance of their functions thereunder.

Article 3

Competence of Authority

(1) The Authority shall act as an International Searching Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority shall act as an International Preliminary Examining Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State indicated in Annex A of this Agreement, provided that the receiving Office specifies the Authority for that purpose, that such applications are in one of the languages specified in Annex A of this Agreement, and that any other requirements regarding such applications as specified in Annex A of this Agreement have been met.

Article 4

Subject Matter Not Required to be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or shall not be obliged to examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B of this Agreement.

Article 5

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, reduce the search fee where an international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1), or refund the search fee where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall refund the whole or part of the preliminary examination fee paid under the conditions and to the extent set out in Annex C of this Agreement.

Article 6

Classification

The Authority shall indicate the International Patent Classification for the purposes of Rules 43.3(a) and 70.5(b) and may also apply the United States Patent Classification.

Article 7

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, the Authority shall use the English language.

Article 8

International-Type Search

The Authority shall carry out international-type searches to the extent decided by it.

Article 9

Entry Into Force of the Agreement

(1) This Agreement shall enter into force on January 1, 1988.

(2) This Agreement supersedes, as from the date of its entry into force, the Agreement which was concluded on April 11, 1978.

Article 10

Duration and Renewability of the Agreement

This Agreement shall remain in force until December 31, 1997. Latest in January 1997, the parties to this Agreement shall start negotiations for its renewal.

Article 11

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may, subject to approval by the Assembly of the International Patent Cooperation Union, be made to this Agreement by agreement between the parties hereto; they shall take effect on the date agreed upon by them.

(2) Without prejudice to paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the Director General of the World Intellectual Property Organization and the Authority; they shall take effect on the date agreed upon by them.

(3) The Authority may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the States and languages listed in Annex A of this Agreement;

(ii) amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Any amendment notified under paragraph (3) shall take effect on the date specified by the Authority, provided that for any increase of fees or other charges contained in Annex C that date is at least one month later than the date on which the notification is received by the International Bureau.

Article 12

Termination of the Agreement

(1) This Agreement shall terminate before December 31, 1997:

(i) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice or unless both parties agree on a shorter period.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

Agreement between the EUROPEAN PATENT ORGANISATION and the WORLD INTELLECTUAL PROPERTY ORGANIZATION in relation to the functioning of the EUROPEAN PATENT OFFICE as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty

Preamble

The European Patent Organisation and the World Intellectual Property Organization,

considering that the Agreement of April 11, 1978, between the International Bureau and the European Patent Organisation under Articles 16(3)(b) and 32(3) of the Patent Cooperation Treaty as well as Articles 154 and 155 of the European Patent Convention was concluded for a period of ten years,

desirous to continue the appointment of the European Patent Office as an International Searching and International Preliminary Examining Authority under the Patent Cooperation Treaty,

hereby agree as follows:

Article 1

Terms and Expressions Used in the Agreement

(1) For the purposes of this Agreement:

(a) "Treaty" means the Patent Cooperation Treaty;

(b) "Regulations" means the Regulations under the Treaty;

(c) "Administrative Instructions" means the Administrative Instructions under the Treaty;

(d) "Article" (except where a specific reference is made to an Article of this Agreement) means an Article of the Treaty;

(e) "Rule" means a Rule of the Regulations;

(f) "Contracting State" means a State party to the Treaty;

(g) "Authority" means the European Patent Office;

(h) "Convention" means the Convention on the Grant of European Patents (European Patent Convention).

(2) All other terms and expressions used in this Agreement which are also used in the Treaty, the Regulations or the Administrative Instructions have, for the purposes of this Agreement, the same meaning as in the Treaty, the Regulations and the Administrative Instructions.

Article 2

Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching and International Preliminary Examining Authority as are provided under the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall be guided by the Guidelines for International Search and for International Preliminary Examination to be Carried Out under the Patent Cooperation Treaty. The Authority shall apply and observe all the common rules of international search and of international preliminary examination.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent possible, mutual assistance in the performance of their functions thereunder.

Article 3

Competence of Authority

(1) The Authority shall act as an International Searching Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State, provided that the receiving Office specifies the Authority for that purpose and that such applications are in one of the languages specified in Annex A of this Agreement.

(2) The Authority shall act as an International Preliminary Examining Authority for all international applications filed with the receiving Office of, or acting for, any Contracting State, provided that the receiving Office specifies the Authority for that purpose and that, for such applications, the international search is or has been performed by the Authority or the industrial property office of a State party to the Convention.

(3)(a) Notwithstanding paragraphs (1) and (2), if the workload of the Authority reaches such a level that, because of its then existing facilities, it cannot perform the tasks assumed by it under this Agreement without risks for its proper functioning under the Convention, the Authority may:

(i) entrust any industrial property office of a State party to the Convention with work in respect of international search or international preliminary examination to be carried out under the responsibility of the Authority;

(ii) notify the International Bureau that it will limit the acceptance of international applications, either for international search or for international preliminary examination, to a given number each year of international applications filed with specific receiving Offices. Any such limitation shall take effect, where a date has been agreed upon with the receiving Office, on that date; otherwise, it shall take effect nine months from the date on which the Authority notified the International Bureau of the limitation.

(b) The initial duration of any limitation under subparagraph (a)(ii) shall not exceed a period of two years. The limitation may be extended one or more times for a period of not more than two years each, provided that notice of four months is given prior to the expiration of the preceding period.

(c) Before applying or modifying any measure under subparagraph (a)(ii), including any extension under subparagraph (b), the Authority shall enter into consultations with the International Bureau with the view to finding solutions other than a limitation under subparagraph (a)(ii).

Article 4

Subject Matter Not Required to be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or shall not be obliged to examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that the international application relates to subject matter set forth in Rule 39.1 or Rule 67.1, as the case may be, with the exception of the subject matter specified in Annex B of this Agreement.

Article 5

Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching and International Preliminary Examining Authority, is set out in Annex C of this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the search fee paid where an international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1) or where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall, under the conditions and to the extent set out in Annex C of this Agreement, refund the whole or part of the preliminary examination fee paid where the demand is considered as if it had not been submitted (Rule 58.3) or where the demand or the international application is withdrawn by the applicant before the start of the international preliminary examination.

Article 6

Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 7

Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use the English, French or German language, depending on the language of the international application or its translation.

Article 8

International-Type Search

The Authority shall carry out international-type searches to the extent decided by it.

Article 9

Entry Into Force of the Agreement

(1) This Agreement shall enter into force on January 1, 1988.

(2) This Agreement supersedes, as from the date of its entry into force, the Agreement which was concluded on April 11, 1978.

Article 10

Duration and Renewability of the Agreement

This Agreement shall remain in force until December 31, 1997. Latest in January 1997, the parties to this Agreement shall start negotiations for its renewal.

Article 11

Amendment

(1) Without prejudice to paragraphs (2) and (3), amendments may, subject to approval by the Assembly of the International Patent Cooperation Union, be made to this Agreement by agreement between the parties hereto; they shall take effect on the date agreed upon by them.

(2) Without prejudice to paragraph (3), amendments may be made to the Annexes of this Agreement by agreement between the Director General of the World Intellectual Property Organization and the President of the European Patent Office; they shall take effect on the date agreed upon by them.

(3) The President of the European Patent Office may, by notice in writing given to the Director General of the World Intellectual Property Organization:

(i) add to the languages listed in Annex A of this Agreement;

(ii) amend the schedule of fees and other charges contained in Annex C of this Agreement.

(4) Any amendment notified under paragraph (3) shall take effect on the date specified by the President of the European Patent Office, provided that for any increase of fees or other charges contained in Annex C that date is at least one month later than the date on which the notification is received by the International Bureau.

Article 12

Termination of the Agreement

(1) This Agreement shall terminate before December 31, 1997:

(i) if the European Patent Organisation gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization gives the European Patent Organisation written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice or unless both parties agree on a shorter period.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

DONE at Munich, this seventh day of October 1987, in two originals in the English, French and German languages.

For the European Patent Organisation by:
(signed) Paul Braendli
President
European Patent Office

For the World Intellectual Property Organization by:
(signed) A. Bogsch
Director General

ANNEX A

LANGUAGES

Under Article 3 of the Agreement, the Authority specifies the following languages: English, French, German and, where the receiving Office is the industrial property office of Belgium or the Netherlands, Dutch.

ANNEX B

SUBJECT MATTER NOT EXCLUDED FROM SEARCH OR EXAMINATION

The subject matter set forth in Rule 39.1 or Rule 67.1 which, under Article 4 of the Agreement, is not excluded from search or examination, is the following:

None.

ANNEX C

FEES AND CHARGES FOR INTERNATIONAL SEARCH AND PRELIMINARY EXAMINATION

Part I: Schedule of Fees and Charges

Kind of fee or charge	Amount Deutsche Mark
Search fee (Rule 16.1(a))	2,095*
Additional fee (Rule 40.2(a))	2,095*
Preliminary examination fee (Rule 58.1(b))	2,120*
Additional fee (Rule 68.3(a))	2,120*
Cost of copies (Rule 94.1)	1.30 per page

---

* For nationals of developing countries, this fee shall be reduced by three-quarters under the conditions specified in the Decision of the Administrative Council of 9 December 1983 as amended on 8 June 1984 (see Official Journal of the EPO 1984, pp. 3 and 297, and PCT Gazette No. 25/1984, p. 3097).

Part II: Conditions and Extent of Refunds of the Search Fee and of the Preliminary Examination Fee

(1) Any amount paid by mistake, without cause, or in excess of the amount due, for fees indicated in Part I shall be refunded.

(2) Where the international application is withdrawn or is considered withdrawn, under Article 14(1), (3) or (4), before the start of the international search, the amount of the search fee paid shall, upon request, be fully refunded.

(3) Where the international search report is based on an earlier search (including a privately commissioned "standard" search) already made by the Authority on an application whose priority is claimed for the international application, the following refund of the search fee shall be made:

(i) no supplementary search performed: refund of 100%;

(ii) supplementary search performed in the documentation relating to one or more subdivisions consulted in the earlier search or extended to one or more subdivisions not yet consulted: refund of 75%;

(iii) supplementary search performed in the documentation relating to one or more subdivisions already consulted and extended to one or more subdivisions not yet consulted: refund of 50%;

(iv) supplementary search performed in the documentation relating to subdivisions concerning a new aspect of the invention claimed (for instance, cases where the international application is based on several earlier applications only one of which was the subject of an earlier search report): refund of 25%.

(4) In the cases provided for under Rule 58.3, 100% of the amount of the preliminary examination fee paid shall be refunded.

(5) The conditions and the extent of the refund of the preliminary examination fee, in the case where the international application or the demand is withdrawn before the start of the international preliminary examination, shall be determined in due course.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

INTERNATIONAL SEARCHING AUTHORITIES

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

The USSR State Committee for Inventions and Discoveries has notified the International Bureau of its decision No. 5(22) of October 17, 1985, concerning the reduction of fees for the international search and the international preliminary examination for international applications filed by applicants from developing countries. The text of the decision is the following:

"1. The amounts of charges for the international search and the international preliminary examination, set out in items 9 to 12 of the "Schedule of Charges for Patent Services Connected with the Conduct of State Examination of Inventions, Industrial Designs and Trademarks Not Subject to the Payment of Fees," established by Decision No. 6(22) of December 16, 1982, of the USSR State Committee for Inventions and Discoveries, may be reduced by 80% for an international application filed by an applicant from a developing country with a receiving Office of a developing country or with a receiving Office acting on behalf of such country, which is received by the USSR State Committee for Inventions and Discoveries for carrying out international search and/or international preliminary examination. Where such application is filed in Russian or where its translation into Russian exists, the amounts set out in the schedule for the international search and the international preliminary examination shall not be charged.

2. The decision to reduce the amounts of charges is taken by the USSR State Committee for Inventions and Discoveries, in accordance with the established procedure, on the basis of a request for the reduced amount submitted by the applicant from a developing country and certified by an industrial property service or other competent body of that country.

The request for the reduced amount must contain a statement that the international application has been filed by a natural or legal person from a developing country, who, correspondingly, resides or has his permanent headquarters in that developing country and that the creation of the invention forming the subject matter of the application is in no way connected with the activities of natural or legal persons of a country which is not a developing country.

3. The Chairman of the USSR State Committee for Inventions and Discoveries shall determine the countries of origin of applicants and the receiving Offices concerned by this decision."

Applicants from the following developing countries for which the USSR State Committee for Inventions and Discoveries is a competent International Searching and/or International Preliminary Examining Authority may, at present, request a fee reduction under the decision appearing above:

Benin, Cameroon, Central African Republic, Chad, Congo, Democratic People's Republic of Korea, Gabon, Mali, Mauritania, Senegal and Togo.

NOTICES AND INFORMATION OF A GENERAL CHARACTER

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

UPDATED LIST OF PERIODICALS ESTABLISHED UNDER PCT RULE 34.1(b)(iii)

prepared by the International Bureau
following the decision of the PCT/CTC at its eighth session

"MINIMUM DOCUMENTATION" UNDER RULE 34.1(b)(iii) OF THE REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

The International Searching Authorities have agreed that for the purposes of PCT Rule 34.1(b)(iii), the published items of non-patent literature to be included in the PCT "minimum documentation" should be the items published in the periodicals listed below during the five-year period preceding the time at which an international search report is established, it being understood that an International Searching Authority would not be precluded from consulting issues of the said periodicals published prior to the beginning of the said five-year period. The list is preceded by explanatory notes facilitating an understanding of the indications contained in the list.

The list was originally agreed upon at a meeting held in Geneva on April 12, 1978. The present list was agreed upon by the International Searching Authorities at a meeting held in Geneva on December 2, 1983, and came into force on January 1, 1985. The list is republished here to take account of changes, e.g. publisher's names and addresses, that have been notified to the International Bureau since the last publication of the list in PCT Gazette No. 15/1984.

EXPLANATORY NOTES

1. The structure of the list is as follows:

(i) periodicals in the list are numbered consecutively by a PCT Identification Number (but see note 2(v) below);

(ii) each entry is concerned with one periodical only and gives for each periodical

- the original title of the periodical
- the publisher
- the address of the publisher;

(iii) the language of the periodical is indicated opposite the title of the periodical as follows:

"De" for German	"Nl" for Dutch
"En" for English	"Pt" for Portuguese
"Fr" for French	"Ru" for Russian
"It" for Italian	"Sp" for Spanish
"Ja" for Japan	"Sv" for Swedish;

(iv) where the periodical is published in two or more parts, or sections, these are indicated below the title (with a short indication of the fields covered by each one, if not obvious from their subtitle);

(v) the International Standard Serial Number (ISSN) is given for each periodical or for each section where the periodical is published in two or more parts, so as to assist identification of each periodical or section;

(vi) where the publication of a periodical has been discontinued, the title of the periodical is shown inside square brackets and the date of discontinuation indicated;

(vii) where a periodical has been deleted from the list, the title of the periodical and its Identification Number are enclosed in square brackets together with an indication of the date of deletion.

2. The titles of the periodicals are arranged alphabetically, subject to the following:

(i) a periodical added to the list after it was originally established appears at the end of the list together with an indication (in square brackets) of the date when the periodical was so added. However, a cross reference, in alphabetical order, is inserted (in parentheses) in the body of the list itself;

(ii) where the title of the periodical contains the name of a learned society, association, or organization, etc., the periodical appears in the listing under the name of the learned society, association, or organization, etc., e.g. "Journal of the Americal Ceramic Society" appears under "American Ceramic Society, Journal";

(iii) the only secondary publication included as an exception in this list is indicated under Identification Number 169;

(iv) when several editions of a periodical exist in different languages (e.g., by cover-to-cover translation), the periodical is listed according to the title of the English edition, if any, together with the original title in parentheses. If no English edition exists, the original title is used for the purposes of the alphabetical list;

(v) where the title of a periodical has changed, both the new title and the former title (in parentheses) are given in the alphabetical listing, the PCT Identification Number allotted to the periodical remaining unchanged.

3. The names of Japanese publishers are indicated in English, followed by transliteration of the Japanese name into Latin characters in parentheses.

4. The names and addresses of the publishers of the original editions of Russian periodicals are indicated below the names and addresses of the publishers of cover-to-cover translations into English. The language of each edition of the periodical is indicated, in this case, according to the respective publishers.

5. Whenever the periodical contains, in addition to full-text articles in the language, or languages, in which it is published, translations of abstracts, or of abstracts and part of the text, into other languages, this fact is indicated by an asterisk next to the indication of the languages.

RECEIVING OFFICES

Residents of the Contracting States of the European Patent Convention can file international applications either with the national Office or with the European Patent Office. The applicant's choice of the European Patent Office as receiving Office, however, is limited in the countries indicated below as follows (there are no limitations as far as Austria, Liechtenstein, the Netherlands and Switzerland are concerned):

BE A resident of Belgium must file an international application which may be of interest for national defence or security with the Industrial Property Office (Belgium).

DE An applicant from the Federal Republic of Germany, under Section 93 of the Penal Code, must file an international application which contains a state secret with the German Patent Office unless he obtained written authorization from the Ministry of Defence of the Federal Republic of Germany.

FR A resident of France may file direct at the European Patent Office only if he is claiming priority of an earlier application filed in France at the National Institute of Industrial Property.

GB A United Kingdom resident may only file direct at the European Patent Office

(i) after having obtained written authorization from the Patent Office (London) or

(ii) after an application for a patent for the same invention has been filed in the Patent Office (London) and not less than six weeks have elapsed without the Comptroller of the Patent Office (London) giving a direction prohibiting publication of the invention.

These restrictions do not apply to an application for a patent for an invention for which an application for a patent has first been filed in a country outside the United Kingdom by a person resident outside the United Kingdom.

IT A resident of Italy may only file direct at the European Patent Office with the authorization of the Ministry for Industry, Commerce and Handicraft, except if the international application claims the priority of a national application filed in Italy over 90 days previously and such application has not been made subject to the official secrets regulation.

LU A resident of Luxembourg must file an international application for an invention which may be of interest for national defence with the Intellectual Property Office (Luxembourg).

SE A resident of Sweden may file an international application concerning a defence invention direct with the European Patent Office only if it has been classified by the defence authorities of Sweden as not being of a confidential nature.

DESIGNATED (OR ELECTED) OFFICES

Switzerland

The Swiss Federal Intellectual Property Office has informed the International Bureau of certain changes in the Swiss Patent Regulations with effect from January 1, 1987, as follows:

Time when the name and address of the inventor must be given if Switzerland is designated:	May be in the request or may be furnished within 20 months from the priority date; however, continuation of the procedure may be requested in case of failure to observe that time limit.
Does the Office disregard the priority claim if the priority document was not submitted within 16 months from the priority date under PCT Rule 17.1?	Yes, the priority claim will be disregarded; however, the priority right can be re-established where, within a time limit of two months from the official notification of the loss of the priority right, the priority document is furnished and a fee equal to the amount of the fee for the continuation of the procedure is paid.
References to deposits of microorganisms:	The indications prescribed in PCT Rule 13bis.3(a)(i) to (iii) may be furnished within the 16-month time limit referred to in PCT Rule 13bis.4. The furnishing of samples to a third party may be subjected to the condition that that party indicates to the depositary institution its name and address for the purpose of information of the depositor and undertakes: (a) not to make available the deposited culture or a culture derived from it to a third party; (b) not to use the culture outside the purview of the law; (c) to produce, in case of a dispute, evidence that the obligations under paragraphs (a) and (b) have not been violated.
Special requirements of the Office (PCT Article 22(1), second sentence, and Rule 51bis):	The name and address of the inventor, if they have not been furnished in the "Request" part of the international application, must be furnished within 20 months from the priority date; however, continuation of the procedure may be requested in case of failure to observe that time limit.

Federal Republic of Germany

The German Patent Office has informed the International Bureau of certain changes in the national law of the Federal Republic of Germany concerning both patents and utility models with effect from January 1, 1987, as follows:

Types of protection available:	National: patents, patents of addition, utility models (a utility model may be sought instead of or in addition to a national patent).*
National fee:	If the filing fee for a patent or a utility model has not already been paid within the time limit applicable under PCT Article 22 or 39(1), the Office will invite the applicant to pay the filing fee within a time limit of one month after receipt of that invitation.
Special requirements of the Office (PCT Rule 51bis):	If the international application is for a patent and a utility model, the translation must be furnished in duplicate.

---

* With effect from January 1, 1987, the former auxiliary utility model application system has been abolished, and auxiliary utility model applications are no longer admissible. However, the following new system applies: A utility model application concerning the subject matter of an earlier national, international or European patent application for a national or European patent for the Federal Republic of Germany may claim the filing date of that earlier patent application provided the utility model application is filed before the expiration of two months from the date of rejection, withdrawal or grant of the patent application or before the expiration of eight years from the filing date of that patent application, whichever is earlier. Any priority which is claimed in the earlier patent application under the Paris Convention for the Protection of Industrial Property will apply also to the subsequent utility model application.

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

On November 26, 1986, Benin deposited its instrument of accession to the Patent Cooperation Treaty (PCT). Thus, Benin will become the 40th Contracting State of the PCT on February 26, 1987.

Consequently, as from February 26, 1987, nationals and residents of Benin will become entitled to file international applications under the PCT, and, from the same date, it will be possible to file international applications designating Benin. Since Benin is a member State of the African Intellectual Property Organization (OAPI), such designation has the effect of a designation of that country for the purposes of a regional patent issued by OAPI in Yaoundé, Cameroon.

REFERENCES TO DEPOSITS OF MICROORGANISMS

Denmark, Finland, Norway

Pursuant to PCT Rule 13bis.7, the Danish Patent Office, the National Board of Patents and Registration of Finland and the Norwegian Patent Office have notified the International Bureau of amendments to footnotes (11), (12) and (13), relating to the table concerning references to deposits of microorganisms, contained in Annex M1, published in PCT Gazette No. 15/1986. The penultimate sentence of each of the said footnotes is to be replaced by the following sentence:

"If such a request has been filed by the applicant, any request made by a third party for the furnishing of a sample shall indicate the expert to be used."

[Updating of PCT Gazette No. 15/1986, Annex M1, page 2494]

Sweden

Pursuant to PCT Rule 13bis.7, the Royal Patent and Registration Office of Sweden has notified the International Bureau of amendments to the table concerning references to deposits of microorganisms, contained in Annex M1, published in PCT Gazette No. 15/1986, as follows:

3rd column (Time Earlier Than 16 Months From The Priority Date):	In the case of (A): where applicant requests publication earlier than 16 months from the priority date, not later than that request In the case of (B): at the time of filing (as part of the application)
4th column (Depositary Institutions):	See footnote (1), below: footnote (14), below, also applies

Footnote (14): Swedish Patent and Registration Office: the applicant may request that, until the application has been laid open to public inspection (by the Royal Patent and Registration Office), or has been finally decided upon by the Royal Patent and Registration Office without having been laid open to public inspection, the furnishing of a sample shall only be effected to an expert in the art. The request to this effect shall be filed by the applicant with the International Bureau before the expiration of 16 months from the priority date (preferably on the Form PCT/RO/134 reproduced in Annex M3 of Volume I of the PCT Applicant's Guide). If such a request has been filed by the applicant, any request made by a third party for the furnishing of a sample shall indicate the expert to be used. That expert may be any person entered on a list of recognized experts drawn up by the Royal Patent and Registration Office or any person approved by the applicant in the individual case.

NOTICES AND INFORMATION OF A GENERAL CHARACTER

NATIONAL AND REGIONAL OFFICES

Means of Receipt of Documents

The **Japanese Patent Office** has notified the International Bureau that it is prepared to receive documents referred to in PCT Rule 92.4 by means of telecopier as from January 4, 1985. The number of the telecopier is (03)501-6803 (groups 2 and 3).

RECEIVING OFFICES

Competent International Preliminary Examining Authorities

Pursuant to information received from the **National Office of Inventions of Hungary,** the **Austrian Patent Office** is, with effect from November 14, 1984, at the choice of the applicant, a competent International Preliminary Examining Authority in respect of international applications filed with the National Office of Inventions for the Grant of European patents.

DESIGNATED (OR ELECTED) OFFICES

Time Limit under PCT Article 39(1)(a)

The modified time limit of 30 months from the priority date under Article 39(1)(a) applies for the procedure before the national Office of **Sweden** as an elected Office as from January 1, 1985. The notice published in PCT Gazette No. 25/1984, on page 3098, is hereby amended. Therefore, the time limit of 25 months from the priority date continues to apply, after January 1, 1985, under Article 39(1)(a) only with respect to the national Offices of Finland, Japan (only for the payment of the national fee; for the other acts referred to in Article 39(1)(a), the time limit applicable under Article 22 continues to apply) and the United Kingdom.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

On December 12, 1984, **Barbados** deposited its instrument of accession to the Patent Cooperation Treaty (PCT). Thus, Barbados will become the 38th Contracting State of the PCT on March 12, 1985.

Consequently, as from March 12, 1985, nationals and residents of Barbados will become entitled to file international applications under the PCT and, from the same date, it will be possible to file international applications designating Barbados.

****

On December 28, 1984, **Italy** deposited its instrument of ratification of the Patent Cooperation Treaty (PCT). Thus, Italy will become the 39th Contracting State of the PCT on March 28, 1985.

Consequently, as from March 28, 1985, nationals and residents of Italy will become entitled to file international applications under the PCT and, from the same date, it will be possible to file international applications designating Italy.

The designation of Italy in an international application will have the effect of an indication of the wish to obtain a European patent for Italy under the European Patent Convention (PCT Article 45(2)); a **national** Italian patent cannot be obtained through an international application under the PCT.

The entry into force of the PCT for Italy has the consequence that, as from March 28, 1985, all States party to the European Patent Convention (Austria, Belgium, France, Germany (Federal Republic of), Italy, Liechtenstein, Luxembourg, the Netherlands, Sweden, Switzerland and the United Kingdom) will also be party to the PCT. This opens the possibility of obtaining, by filing a single international application under the PCT, a European patent for all those States.

DESIGNATED (OR ELECTED) OFFICES

The International Bureau has, by January 15, 1985, received notifications under PCT Rule 49.1(a-bis) from the following Contracting States: **Bulgaria, Hungary, Republic of Korea, Sudan** and **Switzerland.** Under those notifications, the above-mentioned Contracting States do not require the furnishing, under Article 22, by the applicant of a copy of the international application (even though the communication of the copy of the international application by the International Bureau under Rule 47 has not taken place by the expiration of the applicable time limit under Article 22). Pursuant to Rule 76.5, those notifications are also applicable for the furnishing of a copy of the international application under Article 39(1) for those of the said States which are bound by Chapter II, namely, Bulgaria, Hungary and Sudan.

INTERNATIONAL BUREAU

Non-Working Days

For the purpose of computing time limits under Rule 80.5* the days on which the International Bureau is **not open for business** are, for the period from February 1, 1985 to February 1, 1986, the following:

all Saturdays and Sundays and
April 5, 1985
April 8, 1985
May 16, 1985
May 27, 1985
September 5, 1985
December 25 and 26, 1985
January 1 and 2, 1986

It is important to note that the days indicated above concern **only the International Bureau** and not the national Offices and other international organizations.

---

* Rule 80.5 *Expiration on a Non-Working Day*

"If the expiration of any period during which any document or fee must reach a national Office or intergovernmental organization falls on a day on which such Office or organization is not open to the public for the purposes of the transaction of official business, or on which ordinary mail is not delivered in the locality in which such Office or organization is situated, the period shall expire on the next subsequent day on which neither of the said two circumstances exists."

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

LEGAL DECISIONS

European Patent Office

Decision of the Legal Board of Appeal of 25 September 1984, J 06/1983* (published in the Official Journal of the European Patent Office No. 4/1985, pages 97 to 101)

Headword: "Refund of Examination Fee (PCT)I/CATERPILLAR"

EPC Articles 17, 18(1), 92, 94(1)(2), 157, Rules relating to Fees Article 10, PCT Articles 23, 40

"Reimbursement of the examination fee"—"withdrawal of application"

Headnote

If an international application which is deemed to be a European patent application in accordance with Article 150 (3) EPC is withdrawn before the drawing up of the supplementary European search report can be begun, examination of the application is precluded. In such circumstances, if the examination fee has already been paid, it must be refunded.

Summary of Facts and Submissions

I. On 13 August 1979, the appellant filed an international application under the Patent Cooperation Treaty (PCT) in the United States of America. No claim was made to a priority date earlier than the date of the application. The European Patent Office was the designated office for the purposes of the PCT, as several EPC Contracting States were designated, it being indicated that it was desired to obtain a European patent for those States. The application thus being deemed to be a European patent application (Article 150 (3) EPC) was accorded the number 79901397.4.

II. The appellant filed a request for examination of the European patent application on 8 January 1981. The examination fee was paid on 23 January 1981. The international search report was published on 19 February 1981.

III. By letter dated 1 June 1981, received on 3 June 1981, the appellant requested withdrawal of the European patent application, the refund of the search fee in respect of the supplementary European search report and the refund of the examination fee. As the EPO had not begun to draw up the supplementary European search report, the search fee was duly refunded in accordance with Article 10 (4), Rules relating to Fees. The EPO did not refund the examination fee and after correspondence between the appellant's representative and the EPO and reference of the matter to the EPO's Legal Division, the refusal to refund the examination fee was made the subject of the decision under appeal, dated 18 April 1983.

IV. In the decision it was held that:

(1) In accordance with Article 22 (1) PCT, the regional phase of processing the application had commenced on 14 April 1981, i.e. at the expiration of 20 months from the priority date.

(2) The request for examination and payment of the examination fee had had immediate effect, by virtue of the provisions of Article 150 (3) EPC and Articles 11 (3) and 11 (4) PCT.

(3) Fees due under the EPC are as a general rule refunded only if there is express provision for such a refund.

(4) Under a practice of the EPO (cf. Legal Advice No. 1/79 Official Journal EPO, 1979, p. 61) a refund of the examination fee will occur if processing of a European patent application is terminated before responsibility for it is transferred from the Receiving Section to the Examining Division. However, this practice could not be applied to an international application because, under Articles 23 (1) and 40 (1) PCT, the EPO may neither process nor examine the international application before the start of the regional phase. The Examining Division always assumes responsibility for an international application from the moment when the request for examination is filed, even though it cannot process or examine the application before the start of the regional phase.

(5) It follows that an examination fee paid during the international phase can only be refunded if the application is withdrawn before the start of the regional phase. This was not the case with the present application.

V. By telex, on 17 June 1983, duly confirmed by letter dated 20 June 1983, the appellant gave notice of appeal against the decision. The appeal fee was duly paid. In the notice of appeal, the appellant requested full refund of the examination fee and reimbursement of the appeal fee. Reference of the case to the Enlarged Board of Appeal was also requested.

VI. In the Statement of Grounds of the Appeal, filed on 17 August 1983, the appellant contended that:

(1) The supplementary European search report is the definitive search report for the purposes of examination;

(2) Not only is it convenient to pay the examination fee earlier than necessary but it is also frequently impracticable to wait until the supplementary search report is received before paying the fee;

(3) The applicant could not have known at any material time that the Examining Division assumed responsibility for the application immediately the request for examination became effective since the matter was the subject of an amendment to the Guidelines for Examination not published until October 1981. Furthermore, in fact, action had been taken in the case by the Receiving Section and the Search Division;

* Official text.

(4) It was absurd and illogical to refund the supplementary search fee and not the examination fee, since examination must follow search.

The appellant repeated the request that the matter be referred to the Enlarged Board of Appeal.

VII. By a communication dated 17 July 1984, the Legal Board of Appeal indicated that it was able to envisage giving a positive decision in the present case, on the basis that where the fee for the supplementary European search can be refunded because the EPO has not begun to draw up the supplementary European search report, the examination fee can also be refunded. However, as there were other cases pending before the Board in which the question arose of refunding examination fees after the supplementary European search report had been drawn up and the arguments in those cases might conceivably affect the Board's view of the present case, the Board would not decide the present case immediately unless the appellant asked for that. By letter dated 1 August 1984, the appellant's representative asked for an immediate decision.

Reasons for the Decision

1. The appeal complies with Articles 106-108 and Rule 64 EPC and is, therefore, admissible.

2. The question of the refund of the examination fee in the case of withdrawal of an international application after receipt of the supplementary European search report is one which is recognised as giving rise to legal difficulty and, as it is the subject of other appeals pending before the Legal Board of Appeal, it is not a question which will be examined in the present decision.

3. It is possible to decide the present case without prejudging the issues which arise in those other cases, since it turns on a different point.

4. There is an inherent illogicality in a situation in which, as a result of withdrawal of an international application, it is lawful to refund the fee for a supplementary European search, in accordance with Article 10 (4) Rules relating to Fees, but allegedly not lawful to refund the fee for a substantive examination which can never take place.

5. Now it is a well-established principle of interpretation of treaties that one should, if possible, avoid an interpretation which leads to a result which is manifestly absurd or unreasonable in the light of the objects and purposes of the treaty in question. It is undoubtedly for this reason that Article 32 of the Vienna Convention on the Law of Treaties (cf. Official Journal EPO 1984, at p. 196) permits recourse to supplementary means of interpretation, including preliminary documents, to avoid manifest absurdity or unreasonableness.

6. The Board therefore considers it necessary to examine whether there is any justification in any provision of the EPC, the Implementing Regulations or the Rules relating to Fees for refusing to refund the examination fee in the circumstances of the present case. The provision that a request for examination cannot be withdrawn (Article 94 (2) EPC) clearly does not have the effect that if an application is withdrawn the examination fee paid cannot be repaid: Legal Advice No. 1/79 (*ubi supra*: para IV (4)) could not have been given, if that were so. There is no other provision of the EPC, the Implementing Regulations or the Rules relating to Fees which even implies that an examination fee cannot be refunded if the examination cannot take place.

7. What is suggested in the decision under appeal is that an examination fee paid during the international phase of an international application can be repaid if the application is withdrawn during that phase, because the EPO is precluded from examining the application during that phase by the express provisions of Articles 23 and 40 PCT.

8. The question which arises in the present case is whether the EPO is not also precluded from examining an application under Article 94 (1) EPC when the regional phase has begun, if no supplementary European search report can be drawn up in accordance with Article 157 (2) (a) EPC, because the application has been withdrawn? If it is, then by parity of reasoning with the considerations mentioned in the previous paragraph, the examination fee must be repayable.

9. A *supplementary* European search report is clearly a "European search report" within the meaning of the EPC. (If this were not so, one consequence would be that the fee paid for such a search could not lawfully be refunded in accordance with Article 10 (4) Rules relating to Fees). No special provisions of the Convention or the Implementing Regulations apply to a supplementary report. It follows that Articles 17 and 92 EPC apply to the drawing up of a supplementary European search report: i.e. that the Search Division alone, not the Examining Division, is responsible for drawing it up and sending it to the applicant. The consideration that at that point in time the Examining Division may be responsible for any examination of the application, in accordance with Article 18 (1) EPC, cannot have the effect of authorising the Examining Division to commence examination, if a supplementary European search report — which is obligatory (Article 157 (2) (a) EPC) — is never going to be made. It follows that if the application is withdrawn before the drawing up of the supplementary European search report can be begun, examination of the application is precluded. In these circumstances, the examination fee is repayable. Reasoning in this way avoids the illogicality referred to in paragraph 4 above.

10. The decision under appeal failed to consider the relevant circumstances of the present case and erred in holding that an examination fee paid during the international phase can "only" be refunded if the application is withdrawn before the start of the regional phase. Accordingly, the decision must be set aside.

11. Since the questions of law arising in this case can be answered clearly by reference to the applicable provisions of the PCT, the EPC and the Rules relating to Fees, the Legal Board of Appeal finds no reason to refer any question to the Enlarged Board of Appeal.

12. Since no substantial procedural violation appears to have taken place, there is no ground for ordering reimbursement of the appeal fee.

ORDER

For these reasons,
it is decided that:

1. The decision of the Formalities Section of Directorate-General 2 dated 18 April 1983 is set aside.

2. The examination fee paid in respect of European patent application No. 79901397.4 shall be refunded in full to the appellant.

3. The request that a question or questions of law should be referred to the Enlarged Board of Appeal is refused.

4. The request for reimbursement of the appeal fee is refused.

Decision of the Legal Board of Appeal of 13 February 1985, J 08/83* (published in the Official Journal of the European Patent Office No. 4/1985, pages 102 to 108)

Headword: "Refund of Examination Fee (PCT) II/WESTERN ELECTRIC"

EPC Articles 16, 18(1), 92, 96, 150, 157, Rule 51(1), Rules of Procedure of the Boards of Appeal Article 9(2), Articles 18, 19 PCT

"Invitation by the EPO"—"Refund of examination fee"

Headnote

I. If a supplementary European search report has to be drawn up in respect of an international application which is deemed to be a European patent application, the applicant is entitled to receive the invitations provided for in Article 96 (1) EPC and Rule 51 (1) EPC.

II. Since in the case of such an international application, responsibility for examination of the application does not pass to the Examining Division until the applicant has indicated under Article 96 (1) EPC that he desires to proceed further with his application, the applicant may obtain a refund of the examination fee if in response to the invitation under Article 96 (1) EPC he withdraws his application, or allows it to be deemed to be withdrawn.

Summary of Facts and Submissions

I. On 28 July 1980, the appellant filed an international application under the Patent Cooperation Treaty (PCT) in the United States of America, claiming priority from a U.S. national patent application filed on 30 August 1979. The European Patent Office was a designated Office for the purposes of the PCT, as three EPC Contracting States were designated, it being indicated that it was desired to obtain a European patent for those States. The application was allotted the European patent application number 80901737.9.

II. The international search report was transmitted to the appellant by the United States PCT International Searching Authority on 30 October 1980. In December 1980, the appellant filed amended claims with the International Bureau. The international application was published with the amended claims and the international search report on 5 March 1981. Having paid the national fees on 21 April 1981 and the examination fee on 6 August 1981, the appellant filed a request for examination with the European Patent Office in due time on 11 August 1981.

III. The supplementary European search report was transmitted to the appellant's representative on 16 February 1982. By letter dated 22 April 1982, the representative informed the European Patent Office that the applicant did not wish to proceed further with the application and that it was thereby withdrawn. In reliance on the reasoning of Legal Advice No. 1/1979 (OJ EPO 1979, 61), a refund of the examination fee was claimed.

IV. By a communication dated 20 May 1982, a Formalities Officer of Directorate-General 2 advised the appellant's representative that no refund of the examination fee was possible and that, if the appellant disagreed with this finding, a decision might be requested under Rule 69 (2) EPC.

V. By letter dated 5 July 1982, the appellant's representative duly requested such a decision. It was submitted that the supplementary European search report was part of the European search report for the purposes of Article 96 (1) EPC.

The transmittal of the supplementary European search report was the relevant act for the purposes of Article 96 (1) EPC and the appellant had been denied the opportunity to claim the benefit of a refund of the examination fee in accordance with Legal Advice No. 1/1979 as no invitation under that Article had been sent.

VI. The Decision under appeal, given on 18 April 1983, refused the request for a refund of the examination fee on the ground that an applicant for an international application which was deemed to be a European patent application (a "*Euro-PCT* application") had the right to a refund only if the application was withdrawn before the start of the regional phase, prior to which, in accordance with Articles 23 (1) and 40 (1) PCT, the EPO was forbidden to process or examine the application.

VII. By letter dated 8 June 1983, the appellant gave notice of appeal against the Decision, appealing against the whole of the decision and requesting that it be reversed and that the refund of the examination fee be ordered. The appeal fee was duly paid.

VIII. In the Statement of Grounds of the appeal, duly filed on 25 July 1983, the appellant contended that no provision of the EPC or the Implementing Regulations ruled out a refund of the examination fee. Article 96 (1) EPC applied in the present case, as did Legal Advice No. 1/1979. Furthermore, it was in the public interest and also that of the EPO that by having the prospect of a refund of the examination fee applicants should be positively encouraged to review their applications when invited to do so and to withdraw those that were likely to be unsuccessful before examination was commenced. There was also a moral justification for a refund: the examination fee was a fee for substantive examination and in the present case there had been no such examination.

IX. In a communication issued on 17 July 1984, the Legal Board of Appeal indicated that there appeared to be difficulties in accepting that Article 96 (1) EPC applied in the case of a Euro-PCT application. Attention was drawn *inter alia* to statements made to the Standing Advisory Committee of the European Patent Office (SACEPO) in 1981, by a representative of Directorate-General 5.

X. In reply to the communication, by letter dated 11 September 1984, the appellant's representative requested to be heard in oral proceedings. After consultation with the representative and also with the representative of the appellant in Case No. J 09/83, in which case the same points of law arose, oral proceedings were appointed for and held on 23 January 1985.

* Official text.

XI. With the agreement of the representatives concerned, the oral proceedings in both cases were consolidated (cf. Rules of Procedure of the Boards of Appeal, Article 9 (2)). After hearing the representatives of both appellants the Board stated that it would reserve its decision in each case and that if it did not find it possible to come to a positive decision in favour of the appellant it would consider submitting a point of law to the Enlarged Board of Appeal. The appellant's representative indicated that he would like the Board to formulate any question to be put to the Enlarged Board of Appeal but that he would appreciate the opportunity of making observations to the Board before the question was submitted.

Reasons for the Decision

1. The appeal complies with Articles 106-108 and Rule 64 EPC and is, therefore, admissible.

2. The question raised in the present case, whether the examination fee may be refunded when a "Euro-PCT" application is withdrawn after receipt of the supplementary European search report, is one which has long been recognised as giving rise to legal difficulty. It has been considered on several occasions by the Legal Service of the European Patent Office and was discussed in 1981 by the Standing Advisory Committee of the European Patent Office (SACEPO), without positive result.

3. Since an early stage in the work of the European Patent Office, it has been the practice to refund the examination fee when a European patent application which is not a "Euro-PCT" application is withdrawn before responsibility for the application has passed from the Receiving Section to an Examining Division. According to the views expressed in Legal Advice No. 1/79 (OJ EPO 1979, 61), this is justified because the purpose behind the provisions of Article 96 (1) EPC is to avoid unnecessary initiation of the examining procedure.

4. Article 96 (1) EPC provides that "if the applicant for a European patent has filed the request for examination before the European search report has been transmitted to him, the European Patent Office shall invite him after the transmission of the report to indicate whether he desires to proceed further with the European patent application." If he does not wish to proceed further, he may simply refrain from answering the invitation within the time limit, so that the application is deemed to be withdrawn pursuant to Article 96 (3) EPC.

5. Rule 51 (1) EPC provides that, in the invitation pursuant to Article 96 (1) EPC, the European Patent Office shall invite the applicant, if he wishes, to comment on the European search report and to amend, where appropriate, the description, claims and drawings.

6. The provisions of Article 96 (1) EPC and Rule 51 (1) EPC clearly operate in the respective interests of applicants, third parties and the European Patent Office by encouraging applicants to review their applications critically and realistically in the light of the European search report, before substantive examination begins. The opportunity given by the Office to obtain a refund of the substantial fee for examination by withdrawing the application at that stage, or allowing it to be deemed to be withdrawn, provides an additional incentive to withdraw cases which are unlikely to succeed.

7. Article 96 (1) EPC and Rule 51 (1) EPC confer rights upon an applicant for a European patent which he otherwise would not enjoy.

The applicant may of his own volition amend the description, claims and drawings after receiving the European search report (Rule 86 (2) EPC). Moreover, since he has the right under Rule 51 (1) EPC to comment on the European search report at that stage, he can expect to receive the Examining Division's response to his comments in the first communication, which can be to his advantage because of his right to submit amendments with his reply to that communication (Rule 86 (3) EPC).

8. As a matter of principle, the applicant for an international application which is deemed to be a European patent application in accordance with the provisions of Article 150 (3) EPC must be entitled to the same rights as any other applicant for a European patent. There can be no discrimination between applicants. Nevertheless, distinctions can properly be made between applicants in different legal situations.

9. In the case of an international application, Article 157 (1) EPC provides *inter alia* that, without prejudice to the provisions of Article 157 (2) to (4) EPC, the international search report, which is drawn up and transmitted to the applicant by the international searching authority under Article 18 PCT, shall take the place of the European search report. Article 19 PCT gives the applicant the opportunity to amend the claims of the international application in the international phase.

In contrast, Article 92 (1) EPC provides for the drawing up and Article 92 (2) EPC provides for transmittal to the applicant of the European search report by the EPO. The invitations required to be given under Article 96 (1) EPC and Rule 51 (1) EPC are sequential to and consequent upon the provisions relating to the drawing up and transmittal of the European search report. Hence, it can be concluded from the context that if those provisions do not apply, then Article 96 (1) EPC and Rule 51 (1) EPC do not apply either.

10. According to Article 16 EPC, the Receiving Section ceases to be responsible for a European patent application when a request for examination has been made or the applicant has indicated under Article 96 (1) EPC that he desires to proceed further with his application. In the case of an international application for which no supplementary European search report has to be drawn up, for the reason given in the previous paragraph, the reference to Article 96 (1) EPC in Article 16 EPC has to be ignored as inapplicable. Therefore, it is correct to say that the Examining Division assumes responsibility for such an international application when the request for examination has been made.

11. The question whether Article 16 EPC applies differently in a case in which a supplementary European search report is required in accordance with Article 157 (2) (a) EPC can only be answered by considering the legal nature of a supplementary European search report. As the Board has already decided in Case J 06/83** (Decision of 25 September 1984), a supplementary European search report has to be considered to be a European search report within the meaning of the EPC for certain purposes and the provisions of Articles 17 and 92 EPC apply to its drawing up and transmittal to the applicant by a Search Division.

12. Bearing in mind the matters considered above in paragraphs 7 to 9, the Board concludes from the language of Article 96 (1) EPC, from its purpose, and from its context in the other provisions of the EPC, that there is every reason to consider that the reference in Article 96 (1) EPC to transmittal of the European search report must be interpreted as including transmittal of a supplementary European search report.

13. It follows that Article 16 EPC applies to its full extent in a case in which a supplementary European search report is transmitted. The making of a request for examination before the supplementary European search report has been transmitted to the applicant does not have the effect of immediately transferring responsibility for the application to the Examining Division. In this respect, the Guidelines for Examination in the European Patent Office Part C-VI, 1.1.3., October 1981, cannot be followed by the Board. Thus, the applicant is in the same legal position as any other applicant who is entitled to receive invitations under Article 96 (1) and Rule 51 (1) EPC.

** OJ 4/1985, p. 97.

14. Applying Article 16 EPC in the present case, it is clear that responsibility for the application did not pass from the Receiving Section to the Examining Division at any time. Since the appellant corporation never received the invitations under Article 96 (1) and Rule 51 (1) EPC to which it was entitled, it never had any opportunity to respond.

15. In these circumstances, the decision under appeal must be set aside and the appellant is entitled to a refund of the examination fee.

16. The Legal Board of Appeal considers that as the legal position under the EPC is clear, it is unnecessary to refer any question of law to the Enlarged Board of Appeal for decision.

17. Although the Legal Board of Appeal has decided that, contrary to the previously accepted general opinion, the responsibility for the application did not pass to the Examining Division at any time, the action of the Examining Division in deciding the case in accordance with the prevailing interpretation of the EPC cannot be regarded as a substantial procedural violation within the meaning of Rule 67 EPC such as to justify reimbursement of the appeal fee.

ORDER

For these reasons,

it is decided that:

1. The decision of the Formalities Section of Directorate-General 2 of the European Patent Office dated 18 April 1983 is set aside.

2. The examination fee paid in respect of the European patent application shall be refunded to the appellant.

REFERENCES TO DEPOSITS OF MICROORGANISMS

Pursuant to Rule 13bis.7 of the Regulations under the PCT, the **National Board of Patents and Registration of Finland** has notified the International Bureau about amendments to the national law concerning microbiological inventions which took effect on September 1, 1985.

The table concerning References to Deposits of Microorganisms, contained in Annex M1, published in PCT Gazette No. 06/1985 on pages 748 to 750, is, pursuant to the information received from the Finnish National Board of Patents and Registration, amended as follows:

1st column **(Designated Office):**	Finland, National Board of Patents and Registration
2nd column **(Additional Indications):**	To the extent available to the applicant, all significant information on the characteristics of the microorganism
3rd column **(Time Earlier Than 16 Months From The Priority Date):**	In the case of (A): where applicant requests publication earlier than 16 months from the priority date, not later than that request In the case of (B): at the time of filing (as part of the application)
4th column **(Depositary Institutions):**	See footnotes (1) and (12), below

Footnote (1): the text is reproduced in PCT Gazette No. 06/1985, page 749.

Footnote (12): *Finnish National Board of Patents and Registration:* The applicant may request that, until the application has been laid open to public inspection (by the National Board of Patents and Registration), or has been finally decided upon by the National Board of Patents and Registration without having been laid open to public inspection, the furnishing of a sample shall only be effected to an expert in the art. The request to this effect shall be filed by the applicant with the International Bureau before the expiration of 16 months from the priority date (preferably on the Form PCT/RO/134 reproduced in Annex M3 of Volume I of the PCT Applicant's Guide). Such request shall indicate the expert to be used. That expert may be any person entered on a list of recognized experts drawn up by the National Board of Patents and Registration or any person approved by the applicant in the individual case.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION (PCT UNION)

ASSEMBLY

Thirteenth Session
(5th Ordinary)
(Geneva, September 23 to October 1, 1985)

Note*

The Assembly of the International Patent Cooperation Union (PCT Union) held its thirteenth session (5th ordinary) in Geneva from September 23 to October 1, 1985, within the framework of the sixteenth series of meetings of the Governing Bodies of the World Intellectual Property Organization (WIPO) and the Unions administered by WIPO.

Twenty-nine PCT Contracting States were represented at the session: Australia, Austria, Belgium, Brazil, Bulgaria, Cameroon, Democratic People's Republic of Korea, Denmark, Finland, France, Germany (Federal Republic of), Hungary, Italy, Japan, Luxembourg, Madagascar, Monaco, Netherlands, Norway, Republic of Korea, Romania, Senegal, Soviet Union, Sri Lanka, Sudan, Sweden, Switzerland, United Kingdom and United States of America.

A number of other States, of intergovernmental organizations and of international non-governmental organizations participated in the session as observers.

New amounts of fees set out in the Schedule of Fees annexed to the PCT Regulations were fixed by the Assembly as from January 1, 1986. They are, in Swiss Francs, approximately 8% higher than the fees applicable in 1985. The amended Schedule of Fees appears on page 3306. The equivalent amounts in other currencies, established on the basis of the exchange rates applicable in Switzerland on September 30, 1985, are published on page 3307. The Assembly also decided that no further increase in the fees in Swiss Francs should be made for 1987.

Moreover, the Assembly:

- decided that the PCT Gazette would continue to be published in an English-language edition and a French-language edition, the two editions being separate;

- noted that the sales price of the PCT pamphlets would be 11 Swiss francs per copy for 1986 and 1987;

- decided that the present format of the PCT pamphlets should not be changed, at least as regards the printing of drawings and the number of pages of the international application which should appear on each page of the pamphlet;

- agreed to postpone any decision concerning the establishment of the Executive Committee until any State member of the PCT Union or the Director General proposed that the matter be reconsidered;

- decided that all PCT Contracting States--in addition, in the case of the Committee for Technical Cooperation, to the *ex officio* members according to Article 56(2)(b) of the PCT--would continue to be members of the Committee for Technical Cooperation and the Committee for Technical Assistance until any State member of the PCT Union or the Director General proposed that the matter be reconsidered.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

DESIGNATED (OR ELECTED) OFFICES

Japanese Patent Office

Time limits under PCT Articles 22(2) and 39(1)(a)

The International Bureau has been notified by the **Japanese Patent Office** of the withdrawal of its notification excluding, for a transitory period, the modified time limit of 20 months from the priority date under Article 22(2) and the modified time limit of 30 months from the priority date under Article 39(1)(a) (see PCT Gazette No. 25/1984, page 3098). The modified time limits under Articles 22(2) and 39(1)(a) are, according to that notification, compatible with the Japanese Patent Law as from November 1, 1985. However, it is recalled that, even where Article 39(1) applies, the translation of the international application into Japanese must always be furnished within 20 months from the priority date.

Thus, all notifications excluding, for a transitory period, the modified time limits under Articles 22(2) and 39(1)(a) have been withdrawn.

Reduction of Fees in the National Phase

The International Bureau has been informed by the **Japanese Patent Office** that, as from November 1, 1985, the fee for request for examination payable to the Japanese Patent Office is as follows:

	Patents	**Utility Models**
	(Currency: Yen)	
Where the international search report has been established		
- by the Japanese Patent Office (80% reduction)	6,600, plus 1,100 per invention	4,200
- by an International Searching Authority other than the Japanese Patent Office (20% reduction)	26,000, plus 4,200 per invention	17,000

Requirements Concerning the Entry into the National Phase

The **Japanese Patent Office** has also informed the International Bureau that, as from November 1, 1985:

(i) the translation of the international application into Japanese no longer needs to contain the request;

(ii) a copy of the drawings is no longer required to be furnished together with the translation of the international application into Japanese (see, however, PCT Rule 49.5(d) for the case where any drawing contains text matter);

(iii) as regards the requirements referred to in PCT Rule 51bis.1(a)(vi) (evidence concerning exceptions to lack of novelty) and in PCT Rule 51bis.1(b)(i) (representation by an agent), another opportunity of fulfilling those requirements is given to the applicant even after the expiration of the time limit applicable under PCT Article 22 or 39(1).

REFERENCES TO DEPOSITS OF MICROORGANISMS

Pursuant to Rule 13bis.7 of the Regulations under the PCT, the **Norwegian Patent Office** has notified the International Bureau about amendments to the national law concerning microbiological inventions which will take effect on January 1, 1986.

The table concerning References to Deposits of Microorganisms, contained in Annex M1, published in PCT Gazette No. 06/1985 on pages 748 to 750, is, pursuant to the information received from the Norwegian Patent Office, amended as follows:

1st column **(Designated Office):**	Norway, Norwegian Patent Office
2nd column **(Additional Indications):**	To the extent available to the applicant, all significant information on the characteristics of the microorganism
3rd column **(Times Earlier Than 16 Months From the Priority Date):**	In the case of (A): where applicant requests publication earlier than 16 months from the priority date, not later than that request In the case of (B): at the time of filing (as part of the application)
4th column **(Depositary Institutions):**	See footnotes (1) and (13), below

Footnote (1): the text is reproduced in PCT Gazette No. 06/1985, page 749.

Footnote (13): *Norwegian Patent Office:* The applicant may request that, until the application has been laid open to public inspection (by the Norwegian Patent Office), or has been finally decided upon by the Norwegian Patent Office without having been laid open to public inspection, the furnishing of a sample shall only be effected to an expert in the art. The request to this effect shall be filed by the applicant with the International Bureau before the completion of technical preparations for international publication (preferably on the Form PCT/RO/134 reproduced in Annex M3). Any request for furnishing of a sample shall indicate the expert to be used. That expert may be any person entered on a list of recognized experts drawn up by the Norwegian Patent Office or any person approved by the applicant in the individual case.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

On January 16, 1984, the **Sudan** deposited its instrument of accession to the Patent Cooperation Treaty (PCT). Thus the Sudan will become the 34th Contracting State of the PCT on April 16, 1984.

Consequently, as from April 16, 1984, nationals and residents of the Sudan will become entitled to file international applications under the PCT, and, from the same date, it will be possible to file international applications designating the Sudan.

INTERNATIONAL SEARCHING AUTHORITIES

AGREEMENTS BETWEEN THE INTERNATIONAL SEARCHING AUTHORITIES AND THE INTERNATIONAL BUREAU OF WIPO

AMENDMENTS

At its eleventh (7th extraordinary) session, the Assembly of the International Patent Cooperation Union (PCT Union) approved, on February 3, 1984, amendments to the Article, dealing with refunds of the search fee, of the Agreements between the Australian Patent Office, the Federal Ministry for Trade, Commerce and Industry of Austria, the Japanese Patent Office, the Royal Patent and Registration Office of Sweden, the USSR State Committee for Inventions and Discoveries and the European Patent Organisation, on the one hand, and the International Bureau of WIPO, on the other.*

In addition, the Australian Patent Office, the Federal Ministry for Trade, Commerce and Industry of Austria, the Japanese Patent Office and the European Patent Organisation have each agreed with the International Bureau of WIPO to amend that part of the relevant Annex to the Agreement concerned which relates to the extent and conditions of refunds of the search fee.

The amendments to the Agreements themselves as well as the amendments to the Annexes become effective on the date of publication of this Gazette, i.e., on March 1, 1984. The texts of the amended provisions are reproduced below.

NOTICES AND INFORMATION OF A GENERAL CHARACTER

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION (PCT UNION)

ASSEMBLY

Eleventh Session
(7th Extraordinary)

(Geneva, January 30 to February 3, 1984)

Note*

Introduction

The Assembly of the International Patent Cooperation Union (PCT Union) (hereinafter referred to as "the Assembly" held its eleventh session (7th extraordinary) in Geneva from January 30 to February 3, 1984.

The following 19 Contracting States were represented at the session: Australia, Austria, Belgium, Brazil, Denmark, Finland, France, Germany (Federal Republic of), Hungary, Japan, Luxembourg, Netherlands, Norway, Romania, Soviet Union, Sweden, Switzerland, United Kingdom and United States of America.

The Republic of Korea and Spain participated in the session as observers.

The European Patent Organisation (EPO), having the status of special observer, was represented. The following nine international non-governmental organizations were represented by observers: Asian Patent Attorneys Association (APAA), Committee of National Institutes of Patent Agents (CNIPA), European Federation of Agents of Industry in Industrial Property (FEMIPI), Institute of Professional Representatives Before the European Patent Office (EPI), International Association for the Protection of Industrial Property (AIPPI), International Federation of Industrial Property Attorneys (FICPI), International Federation of Inventors' Associations (IFIA), Union of European Practitioners in Industrial Property (UEPIP) and Union of Industries of the European Community (UNICE).

The list of participants follows this Note.

Amendment of certain time limits in the PCT and of the Regulations under the PCT

The Assembly, in its seventh session, held in Geneva from June 29 to July 3, 1981, asked the International Bureau to carry out a study of possible improvements to the PCT, particularly the PCT Regulations (see PCT Gazette No. 19/1981, pages 1779 to 1783). That study was undertaken and resulted in a number of first proposals for amendments to the PCT and the Regulations, which were discussed with representatives of non-governmental organizations in a meeting held in Geneva on April 1 and 2, 1982, at which representatives from national Offices also participated.

Thereafter, the International Bureau revised the said first proposals and added further proposals. This, the second set of proposals, was submitted to the PCT Committee for Administrative and Legal Matters (hereinafter referred to as "the Committee". The Committee considered those proposals and advised the International Bureau on them at its first session held in Geneva from September 6 to 10, 1982 (see PCT Gazette No. 26/1982, pages 2976 to 2978).

Taking that advice into account, the International Bureau prepared a revised set of proposals. This, the third set of proposals, was considered by the Committee in its second session, held in Geneva from April 25 to 29, 1983 (see PCT Gazette No 16/1983, pages 1767 and 1768).

On the basis of the advice received by it during the second session of the Committee, the International Bureau prepared a fourth, the final set of proposals, which was submitted to the eleventh session of the Assembly for consideration and decision.

* This Note was prepared by the International Bureau.

During its eleventh session, the Assembly unanimously adopted amendments to the PCT and to the Regulations under the PCT (including, where applicable, the deletion of some Rules or the inclusion of new Rules). Those amendments concern Articles 22(2) and 39(1)(a) of the Treaty and the following Rules of the Regulations: 4.10, 4.17, 6.4, 8.2, 11.15, 12.1, 12.2, 13*bis*.7, 15.4, 16*bis*.1, 16*bis*.2, 16*bis*.3, 17.1, 20.5, 22.1, 22.2, 22.3, 22.4, 22.5, 23.1, 24.1, 26.2, 26.3, 26.3*bis*, 26.4, 26.5, 28.1, 29.2, 32.1, 32*bis*.1, 34.1, 42.1, 46.1, 46.2, 46.3, 46.4, 46.5, 47.1, 48.2, 48.3, 48.6, 49.1, 49.3, 49.4, 49.5, 51.4, 51*bis*.1, 51*bis*.2, 53.1, 54.3, 54.4, 55.1, 55.2, 58.3, 60.3, 61.1, 62.1, 66.2, 66.3, 66.4, 66.5, 66.7, 66.8, 66.9, 69.1, 70.2, 70.11, 70.16, 70.17, 74.1, 74*bis*.1, 75.1, 75.2, 75.3, 76.1, 76.2, 76.3, 76.5, 80.6, 82.1, 82*bis*.1, 82*bis*.2, 82*ter*.1, 88.2, 88.4, 90.3, 91.1, 91.2, 92.2, 92*bis*.1 and 92*bis*.2.

The Assembly decided that all amendments would enter into force on January 1, 1985, subject to the following:

(i) the amendments to Rules 12.1(c) and (d), 34.1 and 48.3(a) and (b) will become applicable at the same time that the PCT will enter into force in respect of the country which, among Spanish-speaking countries, is the first to ratify or accede to the PCT;

(ii) the deletion of Rule 80.6(b) will enter into force on January 1, 1986;

(iii) some countries may, under certain circumstances, delay, for a transitory period, the application, by them, of some of the amendments. If any use is made of this possibility, it will be the subject of a separate announcement towards the end of 1984.

The texts of the decisions of the Assembly concerning Articles 22(2) and 39(1)(a) and of the amendments to the Regulations as adopted by the Assembly are reproduced after this Note.

The purpose and a brief description of the most important amendments are indicated below.

Making the procedure during the international phase under Chapter I of the PCT safer and simpler for the applicant. The Assembly adopted very important amendments giving the applicant the means to ensure that he will not lose his international application because the record copy has not reached the International Bureau in due time (see Rules 20.5 and 22.1). It is to be noted, in particular, that the time limit at the expiration of which the international application would be considered withdrawn under Article 12(3) if the record copy had not reached the International Bureau will start running only when a notification is sent by the International Bureau to the applicant (see Rule 22.3), and that the new system as resulting from those various amendments will completely replace the "alternative" procedure presently provided by Rule 22.2.

Other amendments will have the effect that the one-month grace period for the payment of the international fee and the search fee, which presently can, but does not have to, be granted by the receiving Offices, will, subject to some transitional provisions, become applicable in all receiving Offices (see Rule 15.4).

Amendments were adopted which will expressly allow the extension of time limits fixed by the receiving Office for the correction of defects and will make sure that no international application will be considered withdrawn by the receiving Office for lack of compliance with physical requirements if it complies with those requirements to the extent necessary for the purpose of reasonably uniform international publication (see Rule 26).

The time limit within which the applicant may amend the claims during the international phase will be longer in certain cases. Furthermore, the applicant will have the possibility to state more in his explanations of amendments and will be permitted to submit the amendments in the language of publication only. (See Rule 46.)

In connection with the amendments to Rules 32 and 32*bis*, which will make it possible to withdraw the international application, designations or the priority claim through a notice filed with the receiving Office even after the latter has sent the record copy to the International Bureau, the Assembly noted that the international application would not be published if the withdrawal reached the International Bureau before the completion of the technical preparations for international publication, which is not earlier than 15 days before the expiration of 18 months from the priority date. Furthermore, the Assembly agreed that it was possible for an applicant to make a conditional withdrawal of his international application in the sense that the withdrawal will be effective if it is made early enough for the international publication of the application not to take place and that the withdrawal will not be effective if it is made too late to stop the international publication of the application.

The rules concerning the rectification, during the international phase, of obvious errors in documents were made more liberal by allowing also the rectification of obvious errors which are not errors of transcription (see Rule 91). Furthermore, it will be possible for the applicant, if the rectification has been refused during the international phase, to obtain the publication of his request for rectification in the pamphlet publishing the international application. Such publication, however, will not relieve the applicant from the need to request, during the national phase, the designated Offices to authorize the rectification.

New rules were adopted which deal with the excusing by the designated or elected State of delays in meeting certain time limits, in particular, time limits pertaining to the international phase and the time limit for entering the national phase (see Rule 82*bis*). In that connection, it was understood by the Assembly that the excusing of the delay may take place only during the national phase and under the conditions set forth by the national law.

Making the procedure under Chapter II of the PCT more attractive for the applicant. A very important amendment adopted by the Assembly consisted of modifying the time limit under Article 39(1)(a) for entering the national phase before elected Offices. Subject to some transitory provisions, that time limit, which is presently 25 months from the priority date, has been extended to 30 months from the priority date. The Assembly also decided to extend the time limit for the establishment of the international preliminary examination report: where preliminary examination has been demanded before the expiration of the 19th month from the priority date, that time limit is 28 months from the priority date (instead of 6 months after the start of international preliminary examination). The said extensions will give applicants more opportunities to present arguments to the International Preliminary Examining Authority and more time for thorough international preliminary examination. (See Article 39 and Rules 66.4 and 69.)

Making it safer and simpler for the applicant to enter the national phase. The Assembly modified the time limit under Article 22(2) in order to harmonize it with the time limit under Article 22(1). This amendment means that, subject to some transitory provisions, the time limit for entering the national phase before the designated Offices will be 20 months from the priority date in *all* cases, even where the International Searching Authority declares that no international search report will be established. In the latter case, under the present text, the time limit was shorter.

The Assembly adopted new Rules specifying the requirements for entering the national phase, in particular, the contents of the translation of the international application to be furnished when entering the national phase, and making it clear that certain requirements to be complied with during the national phase must be complied with by the applicant, subject to some transitory provisions, only *after* entering the national phase (see Rules 49.3 to 49.5, 51*bis* and 74). Among the latter, it is now made clear that the applicant must be given an opportunity, *after* entering the national phase before the designated Office, for furnishing evidence--where evidence is required under the national law--as to the identity of the inventor, the applicant being the inventor, the applicant's right to file when he is not the inventor or circumstances making an earlier disclosure non-prejudicial. Also, if the applicant did not appoint a local agent when the national phase is entered, that he must be given an opportunity, *after* entering the national phase, to appoint a local agent where he is, under the national law, obliged to be represented by such an agent.

Including certain patent documents published in the Spanish language into the PCT minimum documentation and including the Spanish language among the languages of publication of international applications. It is expected that the very important amendments adopted by the Assembly in that connection will make it easier for Spain and for Spanish-speaking countries of Latin America to join the PCT Union (see Rules 12.1(c) and (d), 34.1 and 48.3(a) and (b)).

Simplifying the tasks of the international authorities involved in the PCT procedure and simplifying the PCT Regulations in general. The Assembly adopted a number of amendments in that connection, in particular, through the transfer of Rules or parts of Rules which are of no direct interest to applicants to the Administrative Instructions under the PCT and the deletion of some obsolete Rules.

It is to be expected that, after this very comprehensive revision of the Regulations, there will be a longer period during which no, or only very few, changes will be necessary in the PCT system.

Questions of special interest to developing countries

The Assembly adopted a Resolution, the text of which appears below, recommending to all States members of the PCT Union to seek ways and means for financing at least part of the fees payable by applicants from developing countries for international search and international preliminary examination, recommending to all International Searching and Preliminary Examining Authorities to study the possibility of reducing such fees, and recommending to all States members of the PCT Union to study whether national or regional funds could be used to assist applicants from developing countries in paying the said fees.

Amendment of the Agreements concluded between certain International Searching Authorities and the International Bureau

The Assembly approved amendments to the Agreements concluded between certain International Searching Authorities and the International Bureau (see PCT Gazette No. 06/1984, pages 661 to 664).

Amendment of the Rules of Procedure of the Assembly

The Assembly adopted amendments to the Rules of Procedure of the Assembly, of the PCT Committee for Technical Cooperation, of the PCT Committee for Administrative and Legal Matters and of the PCT Committee for Technical Assistance.

DECISIONS OF THE ASSEMBLY CONCERNING ARTICLES 22(2) AND 39(1)(a) OF THE PATENT COOPERATION TREATY (PCT) AND AMENDMENTS TO THE REGULATIONS UNDER THE PCT AS ADOPTED BY THE ASSEMBLY

DECISIONS CONCERNING ARTICLES 22(2) AND 39(1)(a)

Decision Concerning Article 22(2)

The Assembly, in order to make the same time limit applicable under paragraphs (1) and (2) of Article 22, decides as follows:

(1) Article 22(2) is modified as follows:

"*Where the International Searching Authority makes a declaration, under Article 17(2)(a), that no international search report will be established, the time limit for performing the acts referred to in paragraph (1) of this Article shall be the same as that provided for in paragraph (1)."

(2) The modification enters into force on January 1, 1985. However, as long as that time limit is incompatible with the national law applied by the designated Office, a time limit of two months from the date of the notification sent to the applicant of the said declaration shall, during that transitory period, apply with respect to that designated Office, provided that such Office has made a notification to that effect to the International Bureau.

(3) The notification referred to in paragraph (2) shall be addressed to the International Bureau before October 1, 1984. It shall be promptly published by the International Bureau in the Gazette, and it shall become effective on January 1, 1985.

(4) Any notification effected under paragraph (3) may be withdrawn at any time. Such withdrawal shall be promptly published by the International Bureau in the Gazette, and it shall be effective 2 months after its publication in the Gazette or at any later date as indicated in the notice of withdrawal.

---

* The modification consists of replacing the words "two months from the date of the notification sent to the applicant of the said declaration" by the words underlined; it also consists of deleting, before the word "Where," the words "Notwithstanding the provisions of paragraph (1),"

Decision Concerning Article 39(1)(a)

The Assembly, in order to extend the time limit under Article 39(1)(a) from 25 to 30 months from the priority date, decides as follows:

(1) Article 39(1)(a) is modified as follows:

"If the election of any Contracting State has been effected prior to the expiration of the 19th month from the priority date, the provisions of Article 22 shall not apply to such State and the applicant shall furnish a copy of the international application (unless the communication under Article 20 has already taken place) and a translation thereof (as prescribed), and pay the national fee (if any), to each elected Office not later than at the expiration of 30* months from the priority date."

(2) The modification enters into force on January 1, 1985. However, as long as the said time limit of 30 months is incompatible in all cases with the national law applied by the elected Office, a time limit of 25 months from the priority date shall, during that transitory period, apply with respect to that elected Office, provided that such Office has made a notification to that effect to the International Bureau.

(3) The notification referred to in paragraph (2) shall be addressed to the International Bureau before October 1, 1984. It shall be promptly published by the International Bureau in the Gazette, and it shall become effective on January 1, 1985.

(4) Any notification effected under paragraph (3) may be withdrawn at any time. Such withdrawal shall be promptly published by the International Bureau in the Gazette, and it shall be effective 2 months after its publication in the Gazette or at any later date as indicated in the notice of withdrawal.

---

* The modification consists of changing "25" to "30."

AMENDMENTS TO THE REGULATIONS*

Rule 4

The Request (Contents)

4.1 to 4.9 [No change]

4.10 Priority Claim

(a) [No change]

(b) If the request does not indicate both

(i) when the earlier application is not a regional or an international application, the country in which it was filed; when the earlier application is a regional or an international application, at least one country for which it was filed, and

(ii) the date on which it was filed,

the priority claim shall, for the purposes of the procedure under the Treaty, be considered not to have been made except where, resulting from an obvious error**, the indication of the said country or the said date is missing or is erroneous; whenever the identity or correct identity of the said country, or the said date or the correct date, may be established on the basis of the copy of the earlier application which reaches the receiving Office before it transmits the record copy to the International Bureau, the error shall be considered as an obvious error.

---

* Where the amendment consists of one or more new words, it or they are underlined (the word or words which is or are replaced are not indicated). Where the amendment consists of deleting one or more words, without replacing it or them, this fact is indicated in footnotes.

** The amendment consists of deleting, after the word "error," the words "of transcription."

[Rule 4.10, continued]

(c) If the application number of the earlier application is not indicated in the request but is furnished by the applicant to the International Bureau or to the receiving Office prior to the expiration of the 16th month from the priority date, it shall be considered by all designated States to have been furnished in time.*

(d) If the filing date of the earlier application as indicated in the request does not fall within the period of one year preceding the international filing date, the receiving Office, or, if the receiving Office has failed to do so, the International Bureau, shall invite the applicant to ask either for the cancellation of the declaration made under Article 8(1) or, if the date of the earlier application was indicated erroneously, for the correction of the date so indicated. If the applicant fails to act accordingly within 1 month from the date of the invitation, the declaration made under Article 8(1) shall be cancelled ex officio.**

(e) [No change]

4.11 to 4.16 [No change]

---

* The amendment also consists of deleting the last two sentences of this paragraph.

** The amendment consists of deleting the last two sentences of the present text of this paragraph.

4.17 Additional* Matter

(a) The request shall contain no matter other than that specified in Rules 4.1 to 4.16, provided that the Administrative Instructions may permit, but cannot make mandatory, the inclusion in the request of any additional matter specified in the Administrative Instructions.

(b) If the request contains matter other than that specified in Rules 4.1 to 4.16 or permitted under paragraph (a) by the Administrative Instructions, the receiving Office shall ex officio delete the additional matter.

---

* The amendment consists of deleting the word "No" before the word "Additional."

Rule 6

The Claims

6.1 to 6.3 [No change]

6.4 Dependent Claims

(a) Any claim which includes all the features of one or more other claims (claim in dependent form, hereinafter referred to as "dependent claim") shall do so by a reference, if possible at the beginning, to the other claim or claims and shall then state the additional features claimed. Any dependent claim which refers to more than one other claim ("multiple dependent claim") shall refer to such claims in the alternative only. Multiple dependent claims shall not serve as a basis for any other multiple dependent claim. Where the national law of the national Office acting as International Searching Authority does not allow multiple dependent claims to be drafted in a manner different from that provided for in the preceding two sentences, failure to use that manner of claiming may result in an indication under Article 17(2)(b) in the international search report. Failure to use the said manner of claiming shall have no effect in a designated State if the manner of claiming actually used satisfies the national law of that State.

(b) and (c) [No change]

6.5 [No change]

Rule 8

The Abstract

8.1 [No change]

8.2 Figure

(a) If the applicant fails to make the indication referred to in Rule 3.3(a)(iii), or if the International Searching Authority finds that a figure or figures other than that figure or those figures suggested by the applicant would, among all the figures of all the drawings, better characterize the invention, it shall, subject to paragraph (b), indicate the figure or figures which should accompany the abstract when the latter is published by the International Bureau. In such case, the abstract shall be accompanied by the figure or figures so indicated by the International Searching Authority. Otherwise, the abstract shall, subject to paragraph (b), be accompanied by the figure or figures suggested by the applicant.

(b) If the International Searching Authority finds that none of the figures of the drawings is useful for the understanding of the abstract, it shall notify the International Bureau accordingly. In such case, the abstract, when published by the International Bureau, shall not be accompanied by any figure of the drawings even where the applicant has made a suggestion under Rule 3.3(a)(iii).

8.3 [No change]

Rule 11

Physical Requirements of the International Application

11.1 to 11.14 [No change]

11.15 Translations

[Deleted]

Rule 12

Language of the International Application

12.1 Admitted Languages

(a) Any international application shall be filed in the language, or one of the languages, specified in the agreement concluded between the International Bureau and the International Searching Authority competent for the international searching of that application, provided that, if the agreement specifies several languages, the receiving Office may prescribe among the specified languages that language in which or those languages in one of which the international application must be filed.

(b) If the international application is filed in a language other than the language in which it is to be published, the request may, notwithstanding paragraph (a), be filed in the language of publication.

(c) Subject to paragraph (d), where the official language of the receiving Office is one of the languages referred to in Rule 48.3(a) but is a language not specified in the agreement referred to in paragraph (a), the international application may be filed in the said official language. If the international application is filed in the said official language, the search copy transmitted to the International Searching Authority under Rule 23.1 shall be accompanied by a translation into the language, or one of the languages, specified in the agreement referred to in paragraph (a); such translation shall be prepared under the responsibility of the receiving Office.

(d) Paragraph (c) shall apply only where the International Searching Authority has declared, in a notification addressed to the International Bureau, that it accepts to search international applications on the basis of the translation referred to in paragraph (c).

12.2 Language of Changes in the International Application

Any changes in the international application, such as amendments and corrections, shall, subject to Rules 46.3 and 66.9, be in the same language as the said application.*

* The amendment also consists of deleting, after the word "application," the expression "(cf. Rule 66.5)."

Rule 13bis

Microbiological Inventions

13bis.1 to 13bis.6 [No change]

13bis.7 National Requirements: Notification and Publication

(a) [No change]

(b) Each national Office shall notify the International Bureau* of the depositary institutions with which the national law permits deposits of microorganisms to be made for the purposes of patent procedure before that Office or, if the national law does not provide for or permit such deposits, of that fact.

(c) [No change]

---

* The amendment consists of deleting, after the word "Bureau," the following words: "a first time before entry into force of this Rule and then each time a change occurs."

Rule 15

The International Fee

15.1 to 15.3 [No change]

15.4 Time of Payment

(a) The basic fee shall be paid within one month from the date of receipt of the international application.

(b) The designation fee shall be paid:

(i) where the international application does not contain a priority claim under Article 8, within one year from the date of receipt of the international application,

(ii) where the international application contains a priority claim under Article 8, within one year from the priority date or within one month from the date of receipt of the international application if that month expires after the expiration of one year from the priority date.

(c) Where the basic fee or the designation fee is paid later than the date on which the international application was received and where the amount of that fee is, in the currency in which it is payable, higher on the date of payment ("the higher amount") than it was on the date on which the international application was received ("the lower amount"),

(i) the lower amount shall be due if the fee is paid within one month from the date of receipt of the international application,

(ii) the higher amount shall be due if the fee is paid later than one month from the date of receipt of the international application.

[Rule 15.4, continued]

(d) If, on February 3, 1984, paragraphs (a) and (b) are not compatible with the national law applied by the receiving Office and as long as they continue to be not compatible with that law, the basic fee shall be paid on the date of receipt of the international application and the designation fee shall be paid within one year from the priority date.

15.5 [No change: remains deleted]

15.6 [No change]

Rule 16bis

Advancing Fees by the International Bureau

16bis.1 Guarantee by the International Bureau

(a) Where, by the time they are due under Rule 14.1(b), Rule 15.4(a)* and Rule 16.1(f), the receiving Office finds that in respect of an international application no fees were paid to it by the applicant, or that the amount paid to it by the applicant is less than what is necessary to cover the transmittal fee, the basic fee and the search fee, the receiving Office shall charge the amount required to cover those fees, or the missing part thereof, to the International Bureau and shall consider the said amount as if it had been paid by the applicant at the due time.

(b) Where, by the time** they are due under Rule 15.4(b)*, the receiving Office finds that in respect of an international application the payment made by the applicant is insufficient to cover the designation fees necessary to cover all the designations, the receiving Office shall charge the amount required to cover those fees to the International Bureau and shall consider that amount as if it had been paid by the applicant at the due time.

Rule 17

The Priority Document

17.1 Obligation to Submit Copy of Earlier National Application

(a) Where the priority of an earlier national application is claimed under Article 8 in the international application, a copy of the said national application, certified by the authority with which it was filed ("the priority document"), shall, unless already filed with the receiving Office together with the international application, be submitted by the applicant to the International Bureau or to the receiving Office not later than 16 months after the priority date or, in the case referred to in Article 23(2), not later than at the time the processing or examination is requested.*

(b) Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office to transmit the priority document to the International Bureau. Such request shall be made not later than the expiration of the applicable time limit referred to under paragraph (a) and may be subjected by the receiving Office to the payment of a fee.**

Rule 20

Receipt of the International Application

20.1 to 20.4 [No change]

20.5 Positive Determination

(a) [No change]

(b) [No change]

(c) The receiving Office shall promptly notify the applicant of the international application number and the international filing date. At the same time, it shall send to the International Bureau a copy of the notification sent to the applicant, except where it has already sent, or is sending at the same time, the record copy to the International Bureau under Rule 22.1(a).

20.6 to 20.9 [No change]

Rule 22

Transmittal of the Record Copy

22.1 Procedure

(a) [No change]

(b) If the International Bureau has received a copy of the notification under Rule 20.5(c) but is not, by the expiration of 13 months from the priority date, in possession of the record copy, it shall remind the receiving Office that it should transmit the record copy to the International Bureau promptly.

(c) If the International Bureau has received a copy of the notification under Rule 20.5(c) but is not, by the expiration of 14 months from the priority date, in possession of the record copy, it shall notify the applicant and the receiving Office accordingly.

(d) After the expiration of 14 months from the priority date, the applicant may request the receiving Office to certify a copy of his international application as being identical with the international application as filed and may transmit such certified copy to the International Bureau.

[Rule 22.1, continued]

(e) Any certification under paragraph (d) shall be free of charge and may be refused only on any of the following grounds:

(i) the copy which the receiving Office has been requested to certify is not identical with the international application as filed;

(ii) prescriptions concerning national security prevent the international application from being treated as such;

(iii) the receiving Office has already transmitted the record copy to the International Bureau and that Bureau has informed the receiving Office that it has received the record copy.

(f) Unless the International Bureau has received the record copy, or until it receives the record copy, the copy certified under paragraph (e) and received by the International Bureau shall be considered to be the record copy.

(g) If, by the expiration of the time limit applicable under Article 22, the applicant has performed the acts referred to in that Article but the designated Office has not been informed by the International Bureau of the receipt of the record copy, the designated Office shall inform the International Bureau. If the International Bureau is not in possession of the record copy, it shall promptly notify the applicant and the receiving Office unless it has already notified them under paragraph (c).

22.2 Alternative Procedure

[Deleted]

22.3 Time Limit under Article 12(3)

The time limit referred to in Article 12(3) shall be 3 months from the date of the notification sent by the International Bureau to the applicant under Rule 22.1(c) or (g).

26.2 Time Limit for Correction

The time limit referred to in Article 14(1)(b) shall be reasonable under the circumstances* and shall be fixed in each case by the receiving Office. It shall not be less than 1 month** from the date of the invitation to correct. It may be extended by the receiving Office at any time before a decision is taken.

26.3 Checking of Physical Requirements under Article 14(1)(a)(v)

The physical requirements referred to in Rule 11 shall be checked only to the extent that compliance therewith is necessary for the purpose of reasonably uniform international publication.

26.3bis Invitation to Correct Defects under Article 14(1)(b)

The receiving Office shall not be required to issue the invitation to correct a defect under Article 14(1)(a)(v) where the physical requirements referred to in Rule 11 are complied with to the extent necessary for the purpose of reasonably uniform international publication.

Withdrawal of the International Application
or of Designations

32.1 Withdrawals

(a) and (b) [No change]

(c) Withdrawal shall be effected by a signed notice from the applicant to the International Bureau or* to the receiving Office. In the case of Rule 4.8(b), the notice shall require the signature of all the applicants.

(d) [Deleted]

(e) There shall be no international publication of the international application or of the designation, as the case may be, if the notice effecting withdrawal reaches the International Bureau before the technical preparations for publication have been completed.

Rule 32bis

Withdrawal of the Priority Claim

32bis.1 Withdrawals

(a) and (b) [No change]

(c) Where the withdrawal of the priority claim, or, in the case of more than one such claim, the withdrawal of any of them, causes a change in the priority date of the international application, any time limit which is computed from the original priority date and which has not already expired shall be computed from the priority date resulting from that change. In the case of the time limit of 18 months referred to in Article 21(2)(a), the International Bureau may nevertheless proceed with the international publication on the basis of the said time limit as computed from the original priority date if the notice effecting withdrawal reaches the International Bureau during the period of 15 days preceding the expiration of that time limit.

(d) For any withdrawal under paragraph (a), the provisions of Rule 32.1(c)* shall apply *mutatis mutandis*.

Minimum Documentation

34.1 Definition

(a) and (b) [No change]

(c) Subject to paragraphs (d) and (e), the "national patent documents" shall be the following:

(i) to (v) [No change]

(vi) such patents issued by, and such patent applications published in, any other country after 1920 as are in the English, French, German or Spanish language and in which no priority is claimed, provided that the national Office of the interested country sorts out these documents and places them at the disposal of each International Searching Authority.

(d) [No change]

(e) Any International Searching Authority whose official language, or one of whose official languages is not Japanese, Russian or Spanish is entitled not to include in its documentation those patent documents of Japan and the Soviet Union as well as those patent documents in the Spanish language, respectively, for which no abstracts in the English language are generally available. English abstracts becoming generally available after the date of entry into force of these Regulations shall require the inclusion of the patent documents to which the abstracts refer no later than 6 months after such abstracts become generally available. In case of the interruption of abstracting services in English in technical fields in which English abstracts were formerly generally available, the Assembly shall take appropriate measures to provide for the prompt restoration of such services in the said fields.

Rule 42

Time Limit for International Search

42.1 Time Limit for International Search

The time limit for establishing the international search report or the declaration referred to in Article 17(2)(a) shall be 3 months from the receipt of the search copy by the International Searching Authority, or 9 months from the priority date, whichever time limit expires later.*

* The amendment also consists of deleting the last sentence of Rule 42.1.

Rule 46

Amendment of Claims Before the International Bureau

46.1 Time Limit

The time limit referred to in Article 19 shall be 2 months from the date of transmittal of the international search report to the International Bureau and to the applicant by the International Searching Authority or 16 months from the priority date, whichever time limit expires later, provided that any amendment made under Article 19 which is received by the International Bureau after the expiration of the applicable time limit shall be considered to have been received by that Bureau on the last day of that time limit if it reaches it before the technical preparations for international publication have been completed.

46.2 Dating of Amendments

** The amendment also consists of deleting, after the word "be," the word "both."

46.4 Statement

(a) The statement referred to in Article 19(1) shall be in the language in which the international application is published and shall not exceed 500 words if in the English language or if translated into that language. The statement shall be identified as such by a heading, preferably by using the words "Statement under Article 19(1)" or their equivalent in the language of the statement.

(b) The statement shall contain no disparaging comments on the international search report or the relevance of* citations contained in that report. Reference to citations, relevant to a given claim, contained in the international search report may be made only in connection with an amendment of that claim.

Rule 48

International Publication

48.1 [No change]

48.2 Contents

(a) The pamphlet shall contain:

(i) to (v) [No change]

(vi) any statement filed under Article 19(1), unless the International Bureau finds that the statement does not comply with the provisions of Rule 46.4,

(vii) any request for rectification referred to in the third sentence of Rule 91.1(f).

(b) Subject to paragraph (c), the front page shall include:

(i) [No change]

(ii) a figure or figures where the international application contains drawings, unless Rule 8.2(b) applies,

(iii) [No change]

(c) to (f) [No change]

[Rule 48.2, continued]

(g) If, at the time of the completion of the technical preparations for international publication, the international search report is not yet available (for example, because of publication on the request of the applicant as provided in Articles 21(2)(b) and 64(3)(c)(i)), the pamphlet shall contain, in place of the international search report, an indication to the effect that that report was not available and that either the pamphlet (then also including the international search report) will be republished or the international search report (when it becomes available) will be separately published.

(h) If, at the time of the completion of the technical preparations for international publication, the time limit for amending the claims under Article 19 has not expired, the pamphlet shall refer to that fact and indicate that, should the claims be amended under Article 19, then, promptly after such amendments, either the pamphlet (containing the claims as amended) will be republished or a statement reflecting all the amendments will be published. In the latter case, at least the front page and the claims shall be republished and, if a statement under Article 19(1) has been filed, that statement shall be published as well, unless the International Bureau finds that the statement does not comply with the provisions of Rule 46.4.

(i) [No change]

48.3 Languages

(a) If the international application is filed in English, French, German, Japanese, Russian or Spanish, that application shall be published in the language in which it was filed.

[Rule 48.3, continued]

(b) If the international application is filed in a language other than English, French, German, Japanese, Russian or Spanish, that application shall be published in English translation. The translation shall be prepared under the responsibility of the International Searching Authority, which shall be obliged to have it ready in time to permit international publication by the prescribed date, or, where Article 64(3)(b) applies, to permit the communication under Article 20 by the end of the 19th month after the priority date. Notwithstanding Rule 16.1(a), the International Searching Authority may charge a fee for the translation to the applicant. The International Searching Authority shall give the applicant an opportunity to comment on the draft translation. The International Searching Authority shall fix a time limit reasonable under the circumstances of the case for such comments. If there is no time to take the comments of the applicant into account before the translation is communicated or if there is a difference of opinion between the applicant and the said Authority as to the correct translation, the applicant may send a copy of his comments, or what remains of them, to the International Bureau and each designated Office to which the translation was communicated. The International Bureau shall publish the essence of the comments together with the translation of the International Searching Authority or subsequently to the publication of such translation.

(c) If the international application is published in a language other than English, the international search report to the extent that it is published under Rule 48.2(a)(v), or the declaration referred to in Article 17(2)(a), the title of the invention, the abstract and any text matter pertaining to the figure or figures accompanying the abstract shall be published both in that language and in English. The translations shall be prepared under the responsibility of the International Bureau.

48.4 and 48.5 [No change]

48.6 Announcing of Certain Facts

(a) [No change]

(b) [Deleted]

(c) If the international application or the designation of any designated State is withdrawn under Rule 32.1, or if the priority claim is withdrawn under Rule 32bis.1, after the technical preparations for international publication have been completed, this fact shall be published in the Gazette.

Rule 49

Copy, Translation and Fee under Article 22

49.1 Notification

(a) [No change]

(a-bis) Any Contracting State not requiring the furnishing, under Article 22, by the applicant of a copy of the international application (even though the communication of the copy of the international application by the International Bureau under Rule 47 has not taken place by the expiration of the time limit applicable under Article 22) shall notify the International Bureau accordingly.

(a-ter) Any Contracting State which, pursuant to Article 24(2), maintains, if it is a designated State, the effect provided for in Article 11(3) even though a copy of the international application is not furnished by the applicant by the expiration of the time limit applicable under Article 22 shall notify the International Bureau accordingly.

(b) Any notification received by the International Bureau under paragraphs (a), (a-bis) or (a-ter) shall be promptly published by the International Bureau in the Gazette.

(c) [No change]

49.2 [No change]

49.3 Statements under Article 19; Indications under Rule 13bis.4

For the purposes of Article 22 and the present Rule, any statement made under Article 19(1) and any indication furnished under Rule 13bis.4 shall, subject to Rule 49.5(c) and (h), be considered part of the international application.

49.4 Use of National Form

No applicant shall be required to use a national form when performing the acts referred to in Article 22.

49.5 Contents of and Physical Requirements for the Translation

(a) For the purposes of Article 22, the translation of the international application shall contain the description, the claims, any text matter of the drawings and the abstract. If required by the designated Office, the translation shall also, subject to paragraphs (b) and (e),

(i) contain the request,

(ii) if the claims have been amended under Article 19, contain both the claims as filed and the claims as amended, and

(iii) be accompanied by a copy of the drawings.

(b) Any designated Office requiring the furnishing of a translation of the request shall furnish copies of the request form in the language of the translation free of charge to the applicants. The form and contents of the request form in the language of the translation shall not be different from those of the request under Rules 3 and 4; in particular, the request form in the language of the translation shall not ask for any information that is not in the request as filed. The use of the request form in the language of the translation shall be optional.

(c) Where the applicant did not furnish a translation of any statement made under Article 19(1), the designated Office may disregard such statement.

(d) If any drawing contains text matter, the translation of that text matter shall be furnished either in the form of a copy of the original drawing with the translation pasted on the original text matter or in the form of a drawing executed anew.

[Rule 49.5, continued]

(e) Any designated Office requiring under paragraph (a) the furnishing of a copy of the drawings shall, where the applicant failed to furnish such copy within the time limit applicable under Article 22,

(i) invite the applicant to furnish such copy within a time limit which shall be reasonable under the circumstances and shall be fixed in the invitation, or

(ii) disregard the said drawing if such invitation, on February 3, 1984, is not compatible with the national law applied by that Office and as long as it continues to be not compatible with that law.

(f) The expression "Fig." does not require translation into any language.

(g) Where any copy of the drawings or any drawing executed anew which has been furnished under paragraph (d) or (e) does not comply with the physical requirements referred to in Rule 11, the designated Office may invite the applicant to correct the defect within a time limit which shall be reasonable under the circumstances and shall be fixed in the invitation.

(h) Where the applicant did not furnish a translation of any indication furnished under Rule 13bis.4, the designated Office shall invite the applicant to furnish such translation, if it deems it to be necessary, within a time limit which shall be reasonable under the circumstances and shall be fixed in the invitation.

(i) Information on any requirement and practice of designated Offices under the second sentence of paragraph (a) shall be published by the International Bureau in the Gazette.

(j) No designated Office shall require that the translation of the international application comply with physical requirements other than those prescribed for the international application as filed.

Rule 51bis

Certain National Requirements Allowed under Article 27(1), (2), (6) and (7)

51bis.1 Certain National Requirements Allowed

(a) The documents referred to in Article 27(2)(ii), or the evidence referred to in Article 27(6), which the applicant may be required to furnish under the national law applicable by the designated Office include, in particular:

(i) any document relating to the identity of the inventor,

(ii) any document relating to any transfer or assignment of the right to the application,

(iii) any document containing an oath or declaration by the inventor alleging his inventorship,

(iv) any document containing a declaration by the applicant designating the inventor or alleging the right to the application,

(v) any document containing any proof of the right of the applicant to claim priority where he is different from the applicant having filed the earlier application the priority of which is claimed,

(vi) any evidence concerning non-prejudicial disclosures or exceptions to lack of novelty, such as disclosures resulting from abuse, disclosures at certain exhibitions and disclosures by the applicant during a certain period of time.

[Rule 51bis.1, continued]

(b) The national law applicable by the designated Office may, in accordance with Article 27(7), require that

(i) the applicant be represented by an agent having the right to represent applicants before that Office and/or have an address in the designated State for the purpose of receiving notifications,

(ii) the agent, if any, representing the applicant be duly appointed by the applicant.

(c) The national law applicable by the designated Office may, in accordance with Article 27(1), require that the international application, the translation thereof or any document relating thereto be furnished in more than one copy.

(d) The national law applicable by the designated Office may, in accordance with Article 27(2)(ii), require that the translation of the international application furnished by the applicant under Article 22 be verified by the applicant or the person having translated the international application in a statement to the effect that, to the best of his knowledge, the translation is complete and faithful.

51bis.2 Opportunity to Comply with National Requirements

(a) Where any of the requirements referred to in Rule 51bis.1, or any other requirement of the national law applicable by the designated Office which that Office may apply under Article 27(1), (2), (6) or (7), is not already fulfilled during the same period within which the requirements under Article 22 must be complied with, the applicant shall have an opportunity to comply with the requirement after the expiration of that period.

[Rule 51bis.2, continued]

(b) The national law applicable by the designated Office may, in accordance with Article 27(2)(ii), require that the applicant, upon invitation by the designated Office, furnish a certification of the translation of the international application by a public authority or a sworn translator, if the designated Office deems such certification to be necessary under the circumstances, within a time limit which shall be reasonable under the circumstances and shall be fixed in the invitation.

(c) If, on February 3, 1984, paragraph (a) is, with respect to the requirements referred to in Rule 51bis.1 (a)(iii) and (vi), (b)(i) and (d), not compatible with the national law applied by the designated Office and as long as it continues to be not compatible with that law, the applicant shall have no opportunity to comply with any of the requirements after the expiration of the time limit applicable under Article 22. Information on such national laws shall be published by the International Bureau in the Gazette.

66.1 [No change]

66.2 First Written Opinion of the International Preliminary Examining Authority

(a) If the International Preliminary Examining Authority

(i) considers that the international application has any of the defects described in Article 34(4),

(ii) considers that the international preliminary examination report should be negative in respect of any of the claims because the invention claimed therein does not appear to be novel, does not appear to involve an inventive step (does not appear to be non-obvious), or does not appear to be industrially applicable,

(iii) notices that there is some defect in the form or contents of the international application under the Treaty or these Regulations,

(iv) considers that any amendment goes beyond the disclosure in the international application as filed, or

(v) wishes to accompany the international preliminary examination report by observations on the clarity of the claims, the description, and the drawings, or the question whether the claims are fully supported by the description,

[Rule 66.2(a), continued]

the said Authority shall notify the applicant accordingly in writing. Where the national law of the national Office acting as International Preliminary Examining Authority does not allow multiple dependent claims to be drafted in a manner different from that provided for in the second and third sentences of Rule 6.4(a), the International Preliminary Examining Authority may, in case of failure to use that manner of claiming, apply Article 34(4)(b). In such case, it shall notify the applicant accordingly in writing.

(b) [No change]

(c) The notification shall invite the applicant to submit a written reply together, where appropriate, with amendments*.

(d) [No change]

66.3 Formal Response to the International Preliminary Examining Authority

(a) The applicant may respond to the invitation referred to in Rule 66.2(c) of the International Preliminary Examining Authority by making amendments* or--if he disagrees with the opinion of that Authority--by submitting arguments, as the case may be, or do both.

(b) [No change]

---

* The amendment consists of deleting, after the word "amendments," the words "or corrections."

66.4 Additional Opportunity for Submitting Amendments or Arguments

(a) [No change]

(b) On the request of the applicant, the International Preliminary Examining Authority may give him one or more additional opportunities to submit amendments or arguments.

66.5 Amendment

Any change, other than the rectification of obvious errors*, in the claims, the description, or the drawings, including cancellation of claims, omission of passages in the description, or omission of certain drawings, shall be considered an amendment.

66.6 [No change]

66.7 Priority Document

(a) If the International Preliminary Examining Authority needs a copy of the application whose priority is claimed in the international application, the International Bureau shall, on request, promptly furnish such copy. If that copy is not furnished to the International Preliminary Examining Authority because the applicant failed to comply with the requirements of Rule 17.1, the international preliminary examination report may be established as if the priority had not been claimed.

---

* The amendment consists of deleting, after the word "errors," the words "of transcription."

[Rule 66.7, continued]

(b) If the application whose priority is claimed in the international application is in a language other than the language or one of the languages of the International Preliminary Examining Authority, that Authority may invite the applicant to furnish a translation in the said language or one of the said languages within 2 months from the date of the invitation. If the translation is not furnished within that time limit, the international preliminary examination report may be established as if the priority had not been claimed.

82.2 [No change]

Rule 82bis

Excuse by the Designated or Elected State of Delays in Meeting Certain Time Limits

82bis.1 Meaning of "Time Limit" in Article 48(2)

The reference to "any time limit" in Article 48(2) shall be construed as comprising a reference:

(i) to any time limit fixed in the Treaty or these Regulations;

(ii) to any time limit fixed by the receiving Office, the International Searching Authority, the International Preliminary Examining Authority or the International Bureau or applicable by the receiving Office under its national law;

(iii) to any time limit fixed by, or in the national law applicable by, the designated or elected Office, for the performance of any act by the applicant before that Office.

82bis.2 Reinstatement of Rights and Other Provisions to which Article 48(2) Applies

The provisions of the national law which is referred to in Article 48(2) concerning the excusing, by the designated or elected State, of any delay in meeting any time limit are those provisions which provide for reinstatement of rights, restoration, *restitutio in integrum* or further processing in spite of non-compliance with a time limit, and any other provision providing for the extension of time limits or for excusing delays in meeting time limits.

Rule 82ter

Rectification of Errors Made by the Receiving Office or by the International Bureau

82ter.1 Errors Concerning the International Filing Date and the Priority Claim

If the applicant proves to the satisfaction of any designated or elected Office that the international filing date is incorrect due to an error made by the receiving Office or that the declaration made under Article 8(1) has been erroneously cancelled or corrected by the receiving Office or the International Bureau, and if the error is an error such that, had it been made by the designated or elected Office itself, that Office would rectify it under the national law or national practice, the said Office shall rectify the error and shall treat the international application as if it had been accorded the rectified international filing date or as if the declaration under Article 8(1) had not been cancelled or corrected, as the case may be.

90.1 and 90.2 [No change]

90.3 Appointment

(a) and (b) [No change]

(c) If the separate power of attorney is not signed*, or if the required separate power of attorney is missing, or if the indication of the name or address of the appointed person does not comply with Rule 4.4, the power of attorney shall be considered non-existent unless the defect is corrected.

(d) [No change]

90.4 [No change]

* The amendment consists of deleting, after the word "signed," the words "as provided in paragraph (a)."

Rule 91

Obvious Errors in Documents

91.1 Rectification

(a) Subject to paragraphs (b) to (g-quater), obvious errors* in the international application or other papers submitted by the applicant may be rectified.

(b) Errors which are due to the fact that something other than what was obviously intended was written in the international application or other paper shall be regarded as obvious errors*. The rectification itself shall be obvious in the sense that anyone would immediately realize that nothing else could have been intended than what is offered as rectification.

(c) [No change]

(d) Rectification may be made on the request of the applicant. The authority having discovered what appears to be an obvious error** may invite the applicant to present a request for rectification as provided in paragraphs (e) to (g-quater). Rule 26.4(a) shall apply mutatis mutandis to the manner in which rectifications shall be requested.

(e) [No change]

---

* The amendment consists of deleting, after the word "errors," the words "of transcription."

** The amendment consists of deleting, after the word "error," the words "of transcription."

[Rule 91.1, continued]

(f) Any authority which authorizes or refuses any rectification shall promptly notify the applicant of the authorization or refusal and, in the case of refusal, of the reasons therefor. The authority which authorizes a rectification shall promptly notify the International Bureau accordingly. Where the authorization of the rectification was refused, the International Bureau shall, upon request made by the applicant prior to the time relevant under paragraph (q-bis), (q-ter) or (q-quater) and subject to the payment of a special fee whose amount shall be fixed in the Administrative Instructions, publish the request for rectification together with the international application. A copy of the request for rectification shall be included in the communication under Article 20 where a copy of the pamphlet is not used for that communication or where the international application is not published by virtue of Article 64(3).

(q) The authorization for rectification referred to in paragraph (e) shall, subject to paragraphs (q-bis), (q-ter) and (q-quater), be effective:

(i) where it is given by the receiving Office or by the International Searching Authority, if its notification to the International Bureau reaches that Bureau before the expiration of 17 months from the priority date;

(ii) where it is given by the International Preliminary Examining Authority, if it is given before the establishment of the international preliminary examination report;

(iii) where it is given by the International Bureau, if it is given before the expiration of 17 months from the priority date.

(q-bis) If the notification made under paragraph (q)(i) reaches the International Bureau, or if the rectification made under paragraph (q)(iii) is authorized by the International Bureau, after the expiration of 17 months from the priority date but before the technical preparations for international publication have been completed, the authorization shall be effective and the rectification shall be incorporated in the said publication.

[Rule 91.1, continued]

(g-ter) Where the applicant has asked the International Bureau to publish his international application before the expiration of 18 months from the priority date, any notification made under paragraph (g)(i) must reach, and any rectification made under paragraph (g)(iii) must be authorized by, the International Bureau, in order for the authorization to be effective, not later than at the time of the completion of the technical preparations for international publication.

(g-quater) Where the international application is not published by virtue of Article 64(3), any notification made under paragraph (g)(i) must reach, and any rectification made under paragraph (g)(iii) must be authorized by, the International Bureau, in order for the authorization to be effective, not later than at the time of the communication of the international application under Article 20.

RESOLUTION

The Assembly of the International Patent Cooperation Union (PCT Union)

Noting that the number of developing countries which are members of the PCT Union is relatively small,

Noting further that the number of international applications emanating from those developing countries which are members of the PCT Union is extremely small,

Assuming that one of the reasons for such unsatisfactory situation may be the high cost of international search and international preliminary examination for applicants from developing countries,

Resolves to:

(1) Recommend to all States members of the PCT Union to seek ways and means for financing at least part of the fees payable by applicants from developing countries for international search and international preliminary examination;

(2) Recommend to all International Searching and Preliminary Examining Authorities to study the possibility of reducing the amount of the fees payable by applicants from developing countries for international search and international preliminary examination;

(3) Recommend to all States members of the PCT Union to study whether national or regional funds could be put at the disposal of the International Bureau or of the International Searching and Preliminary Examining Authorities, in order to be used to assist such applicants from developing countries in paying such fees.

AGREEMENT BETWEEN THE INTERNATIONAL BUREAU OF WIPO
AND THE PATENT OFFICE OF THE UNITED KINGDOM
AMENDMENT TO THE ANNEX

Fees payable to the International Preliminary Examining Authority

The **Patent Office of the United Kingdom** has notified the International Bureau of WIPO, pursuant to Article 15(3) of the above-mentioned Agreement*, of the increase of the amounts of fees and charges set out in items 1 and 2 of the Annex of the Agreement; the new (increased) amounts are as follows:

Fee	Amount
	Pounds Sterling
1. Preliminary Examination Fee (Rule 58.1)	
(a) where an international search report has been established for the invention	40.00
(b) where no international search report has been established for the invention	40.00 plus the Sterling equivalent of the current EPO search fee
2. Additional fee referred to in Rule 68.3	For each invention this will not exceed the relevant fee stated under 1

The increased amounts are applicable as from June 6, 1984.

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

On May 10, 1984, the **Republic of Korea** deposited its instrument of accession to the PCT. Thus, the Republic of Korea will become a Contracting State of the PCT on August 10, 1984.

The instrument of accession contains a declaration under Article 64(1)(a) of the PCT to the effect that the country shall not be bound by Chapter II of the PCT.

Consequently, as from August 10, 1984, nationals and residents of the Republic of Korea will become entitled to file international applications under the PCT (but they will not be entitled to make demands for international preliminary examination). As from the same date, it will be possible to file international applications designating the Republic of Korea (but it will not be possible to elect that country as a Contracting State in which the applicant intends to use the results of international preliminary examination).

The Republic of Korea is the 36th Contracting State.

FEES PAYABLE UNDER THE PCT

New amounts of fees

The **Austrian Patent Office** has notified new amounts of fees, as specified below. The new amounts are applicable as from April 1, 1984.

Kind of fee	New Amount Austrian Schillings
Transmittal Fee	600
Filing Fee	600

The **National Institute of Industrial Property of France** has notified a new amount of the transmittal fee, as specified below. The new amount is applicable as from April 1, 1984.

Kind of Fee	New Amount French francs
Transmittal Fee	275

REVISED LIST OF PERIODICALS ESTABLISHED UNDER PCT RULE 34.1(b)(iii)

prepared by the International Bureau
following the decision of the PCT/CTC at its sixth session

"MINIMUM DOCUMENTATION" UNDER RULE 34.1(b)(iii) OF THE REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

The International Searching Authorities have agreed that for the purposes of PCT Rule 34.1(b)(iii), the published items of non-patent literature to be included in the PCT "minimum documentation" should be the items published in the periodicals listed below during the five-year period preceding the time at which an international search report is established, it being understood that an International Searching Authority would not be precluded from consulting issues of the said periodicals published prior to the beginning of the said five-year period. The list is preceded by explanatory notes facilitating an understanding of the indications contained in the list.

The list was originally agreed upon at a meeting held in Geneva on April 12, 1978. The present list, which takes into account changes to the titles of periodicals and also changes to publisher's names and addresses, was agreed upon by the International Searching Authorities at a meeting held in Geneva on December 2, 1983, and will come into force on January 1, 1985. On that date, it will replace the list published in PCT Gazette No. 08/1982.

EXPLANATORY NOTES

1. The structure of the list is as follows:

(i) entries in the list are numbered consecutively by an identification number (but see note (2)(v) below);

(ii) each entry is concerned with one periodical only and gives for each periodical

- the original title of the periodical
- the publisher
- the address of the publisher;

(iii) the language of the periodical is indicated opposite the title: D stands for Dutch, E for English, F for French, G for German, I for Italian, J for Japanese, Pt for Portuguese, R for Russian, Sp for Spanish, Sw for Swedish;

(iv) where the periodical is published in two or more parts, or sections, these are indicated under the title (with a short indication of the fields covered by each one, if not obvious from their subtitle);

(v) the International Standard Serial Number (ISSN) is given for each periodical or for each section where the periodical is published in two or more parts, so as to assist identification of each periodical or section;

(vi) where the publication of a periodical has been discontinued, the title of the periodical is shown inside square brackets and the date of discontinuation indicated;

(vii) where a periodical has been deleted from the list, the title of the periodical and its identification number are enclosed in square brackets together with an indication of the date of deletion.

2. The titles are arranged alphabetically, subject to the following:

(i) a periodical added to the list after the list was originally established appears at the end of the list together with an indication (in square brackets) of the date when the periodical was so added. However, a cross reference, in alphabetical order, is inserted (in parentheses) in the body of the list itself;

(ii) where the title of the periodical contains the name of a learned society, association or organization, etc., the title appears in the listing under the name of the learned society, association, or organization, etc., e.g. "Journal of the Americal Ceramic Society" appears under "American Ceramic Society, Journal";

(iii) the only secondary publication included as an exception in this list is indicated under identification number 169;

(iv) when several editions of a periodical exist in different languages (e.g., by cover-to-cover translation), the periodical is listed according to the title of the English edition, if any, together with the original title in parentheses. If no English edition exists, the original title is used for the purposes of the alphabetical list;

(v) where the title of a periodical has changed, both the former title (in parentheses) and the new title are given in the alphabetical listing, the PCT Identification Number allotted to the periodical remaining unchanged.

3. The names of Japanese publishers are indicated in English, followed by transliteration of the Japanese name into Latin characters in parentheses.

4. The names and addresses of the publishers of the original editions of Russian periodicals are indicated below the names and addresses of the publishers of cover-to-cover translations into English. The language of each edition of the periodical is indicated, in this case, according to the respective publishers.

5. Whenever the periodical contains, in addition to full-text articles in the language, or languages, in which it is published, translations of abstracts, or of abstracts and part of the text, into other languages, this fact is indicated by an asterisk next to the indication of the languages.

PCT MINIMUM DOCUMENTATION: INVENTORY OF PATENT DOCUMENTS 1920 TO 1982

Explanatory Notes

1. On the following pages is given the inventory of patent documents, covering the period January 1, 1920 to December 31, 1982, forming the PCT Minimum Documentation according to PCT Rule 34.1.

2. The different kinds of patent documents issued by each Office falling within the PCT Minimum Documentation according to PCT Rule 34.1 are arranged in the second column in the order in which patent documents were issued by that Office at various procedural steps.

3. The third column gives the range of publication numbers of each kind of patent document issued by each Office. The fourth column gives the publication years of those documents. The fifth column of the inventory gives an indication of the total number of each kind of patent document issued. In some cases, the number of patent documents issued can only be estimated.

4. In the last column is given an indication of the nature of each series of patent documents issued; the indications have the following significance:

"a" indicates a series consisting of documents sequentially numbered as issued;

"b" indicates a series consisting of documents numbered at an earlier procedural step before issuance and therefore not sequentially numbered as issued, the series normally having many unused numbers;

"c" indicates that a list of unused numbers, or of the issued documents in the series, has been reported to the International Bureau.

5. The patent documents issued by Australia, Austria and Canada fall within the PCT Minimum Documentation by virtue of PCT Rule 34.1(c)(vi). Lists of those documents have been sent to each PCT International Searching Authority and are available on COM microfiche from the International Bureau.

Modification

ANNEX F – FORMS

FORM PCT/RO/101 (Request)

The "second sheet" of the Request Form has been modified. The modification consists of the inclusion, in Box V of the Request Form, of the Contracting States which have acceded to the PCT since the last issue of that Form. The modification took effect on August 10, 1984*.

The modified "second sheet" appears on the next page.

* Notwithstanding the entry into force of the modified "second sheet", the previous version may be used until the stock is depleted.

Box No. IV AGENT (IF ANY) OR COMMON REPRESENTATIVE (IF ANY); ADDRESS FOR NOTIFICATIONS (IN CERTAIN CASES) A common representative may be appointed only if there are several applicants and if no agent is or has been appointed; the common representative must be one of the applicants.
The following person (includes, where applicable, a legal entity) is hereby/has been appointed as agent or common representative to act on behalf of the applicant(s) before the competent International Authorities:

Name *and* address, including postal code and country:

Space reserved for designating countries which become party to the PCT after the issuance of the present form (August 10, 1984):

.....

* An address for the sending of notifications for a sole applicant or for a common representative may be indicated if no agent has been appointed to represent the applicant or, if there are several applicants, all of them.
** If another kind of protection or a title of addition is desired or if, in the United States of America, treatment as a continuation or a continuation in part is desired, indicate according to the instructions given in the Notes to Box No. V.
*** The applicant's choice of the order of the designations may be indicated by checking the boxes of the designated States with sequential arabic numerals (see also the Notes to Box No. V).
**** When this box is checked, none of the other boxes in the column "European patent" should be checked.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

On July 19, 1984, **Mali** deposited its instrument of accession to the Patent Cooperation Treaty (PCT). Thus, Mali will become the 37th Contracting State of the PCT on October 19, 1984.

Consequently, as from October 19, 1984, nationals and residents of Mali will become entitled to file international applications under the PCT, and, from the same date, it will be possible to file international applications designating Mali. Since Mali does not have a national patent system but will become a member State of the African Intellectual Property Organization (OAPI) with effect from September 30, 1984, such designation has the effect of a designation of that country for the purposes of a regional patent issued by OAPI in Yaoundé, Cameroon.

FEES PAYABLE UNDER THE PCT

New Amounts of Fees

The **European Patent Office** has established new amounts in Pounds Sterling of fees fixed in the EPO's Schedule of Fees. The new amounts in this currency which correspond to the fees published in the PCT Gazette No. 19/1984 of August 2, 1984, are shown below. They are applicable as from September 3, 1984.

Kind of fee	New Amount Pounds Sterling
Transmittal Fee	46
Search Fee (for an international search)	462 *
Preliminary Examination Fee	312
Additional Preliminary Examination Fee	312
National Fee	141

DESIGNATED (OR ELECTED) OFFICES

Fees Payable to the Designated Office; Time Limits

The **Danish Patent and Trademark Office** has notified the following changes:

National fee	Currency/Amount
Additional fee for later furnishing of the translation	Danish Kroner 1,000

Exceptions to the time limits specified in Article 22(1) and (2)
Article 22(1): Where the national filing fee has been paid within 20 months from the priority date, the translation (into Danish) of the international application may be filed within 22 months from the priority date, provided the additional fee for later furnishing of the translation has been paid within the same 22-month time limit.
Article 22(2): The time limit under Article 22(2) is excluded, i.e., the time limit under Article 22(1) applies in all cases.

---

* This amount applies also to payments made to the Patent Office of the United Kingdom as receiving Office as from the same date.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION (PCT UNION)

ASSEMBLY

Twelfth Session
(8th Extraordinary)
(Geneva, September 24 to 28, 1984)

Note*

The Assembly of the International Patent Cooperation Union (PCT Union) held its twelfth session (8th extraordinary) in Geneva from September 24 to 28, 1984, within the framework of the fifteenth series of meetings of the Governing Bodies of the World Intellectual Property Organization (WIPO) and the Unions administered by WIPO.

Thirty PCT Contracting States were represented at the session: Australia, Austria, Belgium, Brazil, Bulgaria, Cameroon, Congo, Denmark, Finland, France, Gabon, Germany (Federal Republic of), Hungary, Japan, Liechtenstein, Luxembourg, Madagascar, Monaco, Netherlands, Norway, the Republic of Korea, Romania, Senegal, Soviet Union, Sri Lanka, Sudan, Sweden, Switzerland, United Kingdom and United States of America.

A number of other States, of intergovernmental organizations and of international non-governmental organizations participated in the session as observers.

New amounts of fees set out in the Schedule of Fees annexed to the PCT Regulations were fixed by the Assembly as from January 1, 1985. They are, in Swiss francs, approximately 5% higher than the fees applicable in 1984. The amended Schedule of Fees appears on page 3094. The equivalent amounts in other currencies, established on the basis of the exchange rates applicable in Switzerland on September 24, 1984, are published on page 3095. It is to be noted that the amended Schedule of Fees provides for a maximum amount of the designation fee corresponding to the amount due for 10 designations for which the fee is due.

Moreover, the Assembly of the PCT Union approved an amendment to Article 3 of the Agreement between the International Bureau of WIPO and the European Patent Organisation (see page 3096).

Finally, the Assembly agreed that an international application which is received by telecopier by the receiving Office is to be accorded an international filing date if all the requirements listed in items (i) to (iii) of Article 11(1) are complied with and that any formal defect, such as the lack of signature or of fitness for reproduction, may be corrected upon an invitation issued by the receiving Office under Article 14(1). It was understood, however, that no receiving Office would be obliged to make telecopier facilities available to applicants.

AGREEMENT BETWEEN THE INTERNATIONAL BUREAU OF WIPO AND THE EUROPEAN PATENT ORGANISATION

AMENDMENTS

A. At its twelfth (8th extraordinary) session, the Assembly of the International Patent Cooperation Union (PCT Union) approved, on September 28, 1984, an amendment to Article 3(2) of the Agreement* between the International Bureau of WIPO and the European Patent Organisation**. Pursuant to Article 18(1) of the Agreement, this amendment takes effect on October 25, 1984. The text of Article 3 as amended is reproduced below.

"Article 3

Competence of Authority

(1) [No change]

(2) Subject to paragraph (3), the Authority undertakes to act as an International Preliminary Examining Authority, provided that the receiving Office specifies the Authority for that purpose, for all international applications which are filed with the receiving Offices of, or acting for, all Contracting States and with respect to which the Authority, the Royal Patent and Registration Office of Sweden or the Austrian Patent Office acts or has acted as an International Searching Authority.

(3) [No change]"

B. The International Bureau and the European Patent Office have agreed, pursuant to Article 18(2) of the Agreement, to amend Annex A of the Agreement with effect on October 25, 1984. Annex A as amended reads as follows:

"ANNEX A

LANGUAGES SPECIFIED FOR THE PURPOSES OF ARTICLE 3(1) OF THE AGREEMENT

For the purposes of Article 3(1) of the Agreement, applications shall be filed in one of the following languages:

Dutch, where the international application is filed with the central industrial property Office of the Netherlands, or with the central industrial property Office of Belgium,

English,

French,

German."

* This fee will apply for international-type searches pursuant to Article 14(1)(a) of the Agreement unless otherwise agreed between the Organisation and the State in question.

** For nationals of developing countries, this fee can be reduced by three quarters, in accordance with the Decision of the Administrative Council of December 9, 1983 as amended on June 8, 1984 (see Official Journal of the EPO 1984, pages 3 and 297, and PCT Gazette, No. 25/1984, page 3097).

II. [No change]"

II

The **European Patent Office** has notified the International Bureau of a decision, taken on December 9, 1983 (see Official Journal of the EPO 1984, page 3), and amended on June 8, 1984 (see Official Journal of the EPO 1984, page 297), of the Administrative Council of the European Patent Organisation on the **reduction of fees for the international search and preliminary examination of an international application in favor of nationals of developing countries** (hereinafter referred to as "the Decision"). The essential elements of the Decision are the following:

The search fee for an international application and the fee for the preliminary examination of an international application shall be reduced by three quarters if the international application is filed by a national of a developing country with the receiving Office of a developing country or with the receiving Office acting on behalf of that country (Article 1).

For the purpose of the Decision a "national of a developing country" shall mean any natural person who according to the national law is considered a national of that country, and any legal entity constituted according to the national law of that country and having its principal place of business in a developing country, in which natural persons or legal entities who/which are nationals of a State or have their residence or principal place of business in a State which is not a developing country, have neither a direct nor an indirect interest (Article 2).

The fee reduction in accordance with Article 1 shall be granted at the applicant's request. In the case of more than one applicant the fee reduction shall be granted only where all applicants are nationals of a developing country. In the request the applicant must declare that he satisfies the requirements specified in Article 2. The authority to which the fee concerned is payable shall decide on the request (Article 3).

The Decision shall be applied where the central industrial property office or other competent authority of the developing country concerned files a request, addressed to the President of the European Patent Office, for the Decision to be applied (Article 4).

More detailed information as to the receiving Offices and States to which and the date from which the Decision is applicable will be published later in the PCT Gazette and in the Official Journal of the European Patent Office.

DESIGNATED (OR ELECTED) OFFICES

Time Limit under Article 22(2)

On February 3, 1984, the Assembly of the PCT Union decided to modify, with effect on January 1, 1985, Article 22(2) so that the time limit under Article 22(2) for performing the acts referred to in Article 22(1) is 20 months from the priority date even where the International Searching Authority makes a declaration, under Article 17(2)(a), that no international search report will be established*. The same decision, however, provides that, as long as that time limit of 20 months from the priority date is incompatible with the national law applied by the designated Office, a time limit of two months from the date of the notification sent to the applicant of the said declaration will, during that transitory period, apply with respect to that designated Office, provided that such Office has made, before October 1, 1984, a notification to that effect to the International Bureau.

By October 1, 1984, the International Bureau has received such notifications from the national Offices of **Finland, Japan, Norway** and the **United Kingdom**. Consequently, the two-month time limit will continue to apply after January 1, 1985, under Article 22(2), with respect to those Offices.

Time Limit under Article 39(1)(a)

On February 3, 1984, the Assembly of the PCT Union decided to modify, with effect on January 1, 1985, Article 39(1)(a) by extending the time limit for performing the acts referred to in that Article to 30 months from the priority date**. The same decision, however, provides that, as long as that time limit of 30 months from the priority date is incompatible in all cases with the national law applied by the elected Office, a time limit of 25 months from the priority date will, during that transitory period, apply with respect to that elected Office, provided that such Office has made, before October 1, 1984, a notification to that effect to the International Bureau.

By October 1, 1984, the International Bureau has received such notifications from the national Offices of **Finland, Japan, Sweden** and the **United Kingdom**. Consequently, the 25-month time limit will continue to apply after January 1, 1985, under Article 39(1)(a), with respect to those Offices***.

Languages of the Forms

(a) The language of the Forms used by any receiving Office shall be the same as the language in which the international application is filed, provided that the receiving Office may, in its communications to the applicant, use the Forms in any other language being one of its official languages.

(b) Subject to Section 104(b), the language or languages of the Forms to be used by any International Searching Authority shall be specified in the applicable agreement referred to in Article 16(3)(b).

(c) Subject to Section 104(b), the language or languages of the Forms to be used by any International Preliminary Examining Authority shall be specified in the applicable agreement referred to in Article 32(3).

(d) The language of any Form used by the International Bureau shall be English where the language of the international application is English, and it shall be French where the language of the international application is French. Where the language of the international application is neither English nor French, the language of any Form used by the International Bureau in its communications to any other International Authority shall be English or French according to the wishes of such Authority, and in its communications to the applicant it shall be English or French according to the wishes of the applicant.

Section 104

Language of Correspondence

(a) The language of any letter from the applicant to the receiving Office shall be the same as the language of the international application to which such letter relates. However, the receiving Office may expressly authorize the use of any other language.

(b) The language of any letter to the International Bureau shall be English where the language of the international application is English, and it shall be French where the language of the international application is French. Where the language of the international application is neither English nor French, the language of any letter to the International Bureau shall be English or French, provided that any copy, sent to the International Bureau as a notification addressed to it, of a Form sent to the applicant by the receiving Office, the International Searching Authority or the International Preliminary Examining Authority does not require translation into English or French.

Section 105

Several Applicants

Where any international application indicates as applicants several persons, it shall be sufficient, for the purpose of identifying that application, to indicate, in any Form or correspondence relating to such application, the name of the applicant first named in the request.

Section 106

Representation

(a) In the case of several applicants, any agent appointed in accordance with Rule 90.3 as an agent representing all the applicants shall be considered a common agent.

(b) Where the international application is filed with reference to a general power of attorney not signed by all the applicants, it shall be sufficient for the purpose of appointment of a common agent under Rule 90.3, if the request or a separate power of attorney is signed by the applicant, who did not sign the general power of attorney.

(c) The appointment of an agent, or of a common representative within the meaning of Rule 4.8(a), shall, unless otherwise indicated by the persons who make the appointment, be regarded as the revocation of any earlier appointment of any other agent, or of any other common representative, and shall be considered as a request for recording a change in the person of the agent or common representative under Rule 92bis.1(a)(ii).

(d) Any document entailing the revocation of an appointment of an agent, or of a common representative within the meaning of Rule 4.8(a), may be submitted to the receiving Office or the International Bureau.

(e) Any agent, or any common representative within the meaning of Rule 4.8(a), may renounce his appointment through a notification signed by him and addressed to the receiving Office or the International Bureau.

Section 107

Identification of International Authorities and of Designated and Elected Offices

(a) Whenever the nature of any communication from or to the applicant, from or to any International Authority or, before national processing or examination has started, from or to any designated or elected Office so permits, any International Authority or any designated or elected Office may be indicated in the communication by the two-letter code as appearing in Annexes A and B.

(b) The indication of a receiving Office, an International Searching Authority, an International Preliminary Examining Authority or a designated or elected Office shall be preceded by the letters "RO," "ISA," "IPEA," "DO," or "EO," respectively, followed by a slant (e.g., "RO/JP," "ISA/US," "IPEA/SU," "DO/EP," EO/AU").

Section 108

Correspondence Intended for the Applicant

(a) Any correspondence from an International Authority intended for the applicant, or, in the case of several applicants, the applicants, shall be addressed as follows:

(i) Where the applicant has designated or appointed one agent, correspondence shall be addressed to that agent. Where, in the case of several applicants, the applicants are represented by a common representative or a common agent, correspondence shall be addressed to that representative or that agent.

(ii) Where the applicant has designated several agents in the request, correspondence shall be addressed to the agent first mentioned therein. Where, in the case of several applicants, the applicants have designated several common agents in the request, correspondence shall be addressed to the common agent first mentioned therein.

(iii) Where the applicant has appointed several agents in one or more separate powers of attorney, correspondence shall be addressed to the agent first mentioned in the earliest filed and still valid separate power of attorney. Where, in the case of several applicants, the applicants have appointed several common agents in one or more separate powers of attorney, correspondence shall be addressed to the common agent first mentioned in the earliest filed and still valid separate power of attorney.

(b) Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request Form, provided this reference does not exceed ten characters.

Section 109

Section 110

Dates*

Any date in the international application, or used in any correspondence emanating from International Authorities relating to the international application, shall be indicated by the Arabic number of the day, by the name of the month, and by the Arabic number of the year. The receiving Office, where the applicant has not done so, or the International Bureau, where the applicant has not done so and the receiving Office fails to do so, shall, after or below any date indicated by the applicant in the request, repeat the date, in parenthesis, by indicating it by two-digit Arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, in that order and with a period after the digit pairs of the day and of the month (for example, "30 March 1978 (30.03.78)").

* This system of indication of dates is based on the WIPO standards whereas the ISO standards provide for the reverse sequence of data. If the use of the ISO standards should become more common practice in the industrial property field, this Section will be reviewed.

Section 112

Ceasing of Effect under Articles 24(1)(iii) and 39(2), Review under Article 25(2) and Maintaining of Effect under Articles 24(2) and 39(3)

(a) Each national Office shall, once a year, notify the International Bureau of the number of international applications designating or electing it, in respect of which, during the preceding calendar year,

(i) the requirements provided for in Article 22 or in Article 39(1) have been complied with within the applicable time limit;

(ii) the requirements provided for in Article 22 or in Article 39(1) have not been complied with within the applicable time limit.

(b) Where, under Article 25(2), the designated Office decides that the refusal, declaration or finding referred to in Article 25(1) was not justified, it shall promptly notify the International Bureau that it will treat the international application as if the error or omission referred to in Article 25(2) had not occurred. The notification shall preferably contain the reasons for the decision of the designated Office.

(c) Where, under Article 24(2) or under Article 39(3), the designated or elected Office maintains the effect provided for in Article 11(3), it shall promptly notify the International Bureau accordingly. The notification shall preferably contain the reasons for the decision of the designated or elected Office.

Section 113

Special Fees

(a) The special publication fee provided for in Rule 48.4 shall be 200 Swiss francs.

(b) The special fee provided for in Rule 91.1(f) shall be payable to the International Bureau and shall be 50 Swiss francs plus 12 Swiss francs for each sheet in excess of one. Where that fee has not been paid until the time of the completion of the technical preparations for international publication, the request for rectification shall not be published. Where the last sentence of Rule 91.1(f) applies and the said fee has not been paid until the time of the communication of the international application under Article 20, a copy of the request for rectification shall not be included in that communication.

PART 2

INSTRUCTIONS RELATING TO THE INTERNATIONAL APPLICATION

Section 201

Names of States

(a) The name of any State referred to in the request shall be indicated either by the full name of the State, by a generally accepted short title which, if the indications are in English or French, shall be as appears in Annex A, or by the two-letter country code identifying that State as appears in Annexes A and B.

(b) [Deleted]

Section 202

Kind of Protection

(a) Where the applicant wishes his application to be treated in any designated State as an application not for a patent but for the grant of another kind of protection referred to in Article 43, he shall make the indication in the request referred to in Rule 4.12(a) by inserting the words "inventor's certificate," "utility certificate," "utility model" (or "petty patent" for Australia), "patent of addition," "certificate of addition," "inventor's certificate of addition" or "utility certificate of addition," or their equivalent in the language of the international application, immediately after the indication of the said State.

(b) Where, in respect of the designation of the Federal Republic of Germany, the applicant is seeking two kinds of protection under Article 44, he shall make the indication referred to in Rule 4.12(b) by inserting, immediately after the indication of the Federal Republic of Germany and in the language of the international application, one of the two following indications:

(i) "and utility model";

(ii) "and auxiliary utility model."

Section 203

Regional Patents

(a) If the applicant wishes to obtain a regional patent in respect of any designated State and the request form does not contain preprinted indications permitting the applicant to make the indication in the request referred to in Rule 4.1(b)(iv), the applicant shall make the said indication by inserting the words "regional patent," or their equivalent in the language of the international application, immediately after the indication of the said State or, where an indication has been made under Section 202, after that indication, provided that:

(i) where Article 4(1)(ii), third clause, applies, and not all the States party to the regional treaty have been designated, the international application shall be treated as if all those States had been designated and as if the designations of all such States contained the said words, whether the said designations contained an indication of the wish to obtain a regional patent or, according to Article 4(1)(ii), fourth clause, are to be treated as containing such indication;

(ii) where the national law of any designated State contains a provision as referred to in Article 45(2), the International Bureau shall, according to Article 4(1)(ii), fourth clause, treat the designation as if it contained the said words even where the applicant failed to indicate them.

(b) The applicant may, instead of the words "regional patent" referred to in paragraph (1), use other words to the same effect; such words may include a reference to a patent to be granted by the European Patent Office under the Convention on the Grant of European Patents done at Munich on October 5, 1973 ("European patent"), where the regional patent which the applicant wishes to obtain is a European patent.

(c) An indication, in respect of the designation of Liechtenstein or Switzerland, or both, of the wish to obtain a regional patent shall be taken as indicating a wish to obtain a European patent in respect of those States, whereas the absence of any indication of the wish to obtain a regional patent in respect of such a designation shall be taken as indicating a wish to obtain a patent granted by the Swiss Federal Intellectual Property Office in respect of those States.

Section 204

Headings of the Parts of the Description

The headings referred to in Rule 5.1(c) should be as follows:

(i) for matter referred to in Rule 5.1(a)(i), "Technical Field";

(ii) for matter referred to in Rule 5.1(a)(ii), "Background Art";

(iii) for matter referred to in Rule 5.1(a)(iii), "Disclosure of Invention";

(iv) for matter referred to in Rule 5.1(a)(iv), "Brief Description of Drawings";

(v) for matter referred to in Rule 5.1(a)(v), "Best Mode for Carrying Out the Invention," or, where appropriate, "Mode(s) for Carrying Out the Invention";

(vi) for matter referred to in Rule 5.1(a)(vi), "Industrial Applicability."

Section 205

Numbering and Identification of Claims Upon Amendment

(a) Amendments to the claims under Article 19 or Article 34(2)(b) may be made either by cancelling one or more entire claims, by adding one or more new claims or by amending the text of one or more of the claims as filed. All the claims appearing on a replacement sheet shall be numbered in arabic numerals. Where a claim is cancelled, no renumbering of the other claims shall be required. In all cases where claims are renumbered, they shall be renumbered consecutively.

(b) The applicant shall, in the letter referred to in the second and third sentences of Rule 46.5(a) or of Rule 66.8(a), indicate the differences between the claims as filed and the claims as amended. He shall, in particular, indicate in the said letter, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether:

(i) the claim is unchanged;

(ii) the claim is cancelled;

(iii) the claim is new;

(iv) the claim replaces one or more claims as filed;

(v) the claim is the result of the division of a claim as filed.

Section 207

Arrangement of Elements and Numbering of Sheets of the International Application

(a) In effecting the sequential numbering of the sheets of the international application in accordance with Rule 11.7, the elements of the international application shall be placed in the following order: the request, the description, the claims, the abstract, the drawings.

(b) The sequential numbering of the sheets shall be effected by using three separate series of numbering, the first series applying to the request only and commencing with the first sheet of the request, the second series commencing with the first sheet of the description and continuing through the claims until the last sheet of the abstract, and the third series being applicable to the sheets of the drawings only and commencing with the first sheet of the drawings. The number of each sheet of the drawings shall consist of two arabic numerals separated by a slant, the first being the sheet number and the second being the total number of sheets of drawings.

Section 208

Section 209

Indications as to Deposited Microorganisms on a Separate Sheet

(a) To the extent that any indication with respect to a deposited microorganism is not contained in the description, it may be given on a separate sheet. Where any such indication is so given, it shall preferably be on the form provided in Annex F as form PCT/RO/134 and, if furnished at the time of filing, the said form shall, subject to paragraph (b), preferably be attached to the request and referred to in the Check List referred to in Rule 3.3(a)(ii).

(b) For the purposes of the Japanese Patent Office when Japan is designated, paragraph (a) applies only to the extent that the said form or sheet is included as one of the sheets of the description of the international application at the time of filing.

Section 210

Calculation of Designation Fee
for the Purposes of
National and Regional Patents

Where the request of the international application contains a designation of a Contracting State without an indication of the wish to obtain a regional patent and also a designation of the same Contracting State with an indication of the wish to obtain a regional patent and the national law of the Contracting State does not contain a provision referred to in Article 45(2), the designation fees shall be calculated on the basis that a separate fee is payable in respect of the designation of the Contracting State in addition to the designation fee payable in respect of that Contracting State as a Contracting State or as one of a group of Contracting States for which a regional patent is sought.

PART 3

INSTRUCTIONS RELATING TO THE RECEIVING OFFICE

Section 301

Notification of Receipt of Purported International Application

Before the determination under Article 11(1), the receiving Office may notify the applicant of the receipt of the purported international application. The notification should indicate the date of actual receipt and the international application number of the purported international application referred to in Section 307 as well as, where useful for purposes of identification, the title of the invention.

Section 302

Priority Claim Considered Not To Have Been Made

Where, owing to failure to meet the requirements of Rule 4.10(b), the priority claim is, for the purposes of procedure under the Treaty, considered not to have been made, the receiving Office shall indicate that fact in the international application by enclosing the box in the request Form which provides for the information concerning the priority claim (or, where the priorities of several earlier applications are claimed and not all those priority claims are considered not to have been made, the relevant part of the said box) within square brackets and entering, in the margin, the words "NOT TO BE CONSIDERED FOR PCT PROCEDURE" or their equivalent in the language of publication of the international application, and shall notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify that Bureau and that Authority.

Section 303

Deletion of Additional Matter in the Request

Where, under Rule 4.17(b), the receiving Office deletes ex officio any matter contained in the request, it shall do so by enclosing such matter within square brackets and entering, in the margin, the words "DELETED by RO" or their equivalent in the language of publication of the international application, and shall notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify that Bureau and that Authority.

Section 304

Corrections Submitted to the Receiving Office Concerning Expressions, etc., Not To Be Used in the International Application

Where the applicant submits corrections to the receiving Office aimed at complying with the prescriptions of Rule 9.1, that Office shall, if copies of the international application have not yet been transmitted to the International Bureau and the International Searching Authority, attach copies of such corrections to the international application. If copies of the international application have already been transmitted, the receiving Office shall transmit copies of such corrections to the said Bureau and the said Authority.

Section 305

Identifying the Copies of the International Application

(a) Where, under Rule 11.1(a), the international application has been filed in one copy, the receiving Office shall, after preparing under Rule 21.1(a) the additional copies required under Article 12(1), mark,

(i) the words "RECORD COPY" in the upper left-hand corner of the first page of the original copy,

(ii) in the same space on one additional copy, the words "SEARCH COPY," and

(iii) in the same space on the other such copy, the words "HOME COPY,"

or their equivalent in the language of publication of the international application.

(b) Where, under Rule 11.1(b), the international application has been filed in more than one copy, the receiving Office shall choose the copy most suitable for reproduction purposes, and mark the words "RECORD COPY," or their equivalent in the language of publication of the international application, in the upper left-hand corner of its first page. After verifying the identity of any additional copies and, if applicable, preparing under Rule 21.1(b) the home copy, it shall mark, in the upper left-hand corner of the first page of one such copy, the words "SEARCH COPY," and, in the same space on the other such copy, the words "HOME COPY," or their equivalent in the language of publication of the international application.

Section 306

Section 307

System of Numbering International Applications

Papers purporting to be an international application under Rule 20.1 shall be marked with the international application number, consisting of the letters "PCT," a slant, the two-letter code, as in Annex B, indicating the receiving Office, a two-digit indication of the last two numbers of the year in which such papers were first received, a slant and a five-digit number, allotted in sequential order corresponding to the order in which the international applications are received (e.g., "PCT/SU78/00001"). Where the International Bureau acts, pursuant to Rule 19.1(b), as receiving Office for a national Office, the two-letter code indicating the national Office for which the International Bureau acts as receiving Office shall be used. However, if a negative determination is made under Rule 20.7 or a declaration is made under Article 14(4), the letters "PCT" shall be deleted by the receiving Office from the indication of the international application number on any papers marked previously with that number, and the said number shall be used without such letters in any future correspondence relating to the purported international application.

Section 308

Marking of the Sheets of the International Application

(a) The receiving Office shall indelibly mark the international application number referred to in Section 307 in the upper right-hand corner of each sheet of each copy of the purported international application.

(b) [Deleted]

Section 309

Procedure in the Case of Later Submitted Sheets

(a) The receiving Office shall indelibly mark any sheet received on a date later than the date on which sheets were first received with the date on which it received that sheet, inserted immediately below the international application number referred to in Section 307.

(b) The receiving Office shall, in the case of later submitted sheets received within the time limits referred to in Rule 20.2(a)(i) and (ii):

(i) effect the required correction of the international filing date, or, where no international filing date has yet been accorded, of the date of receipt of the purported international application;

(ii) notify the applicant of the correction effected under item (i), above;

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i), above, by transmitting a copy of the corrected first page of the request, and forward copies of the later submitted sheets to the said Bureau and the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted sheets to the record copy and the search copy.

(c) The receiving Office shall, in the case of later submitted sheets received after the expiration of the time limit referred to in Rule 20.2(a)(i):

(i) notify the applicant of that fact and of the date of receipt of the later submitted sheets;

(ii) where transmittals under Article 12(1) have already been made, forward a copy of the later submitted sheets to the International Bureau with the indication that such sheets are not to be taken into consideration for the purposes of international processing;

(iii) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted sheets to the record copy with the indication that such sheets are not to be taken into consideration for the purposes of international processing.

(d) The receiving Office shall, in the case of later submitted sheets received after the expiration of the time limit referred to in Rule 20.2(a)(ii), proceed as provided in Rule 20.7, unless the applicant has, within the said time limit, complied with the invitation under Article 11(2)(a) so that an international filing date can be accorded; in the latter case, the receiving Office shall proceed as provided in paragraph(c)(i) to (iii).

Section 310

Procedure in the Case of Missing Drawings

(a) Where the international application refers to drawings which in fact are not included in that application, the receiving Office shall make the indication referred to in Rule 26.6(a) by an appropriate marking of the request Form.

(b) Section 309(a) shall apply also in the case of drawings received by the receiving Office on a date later than the date on which sheets were first received by that Office.

(c) The receiving Office shall, in the case of missing drawings received within the time limit referred to in Rule 20.2(a)(iii):

(i) effect the required correction of the international filing date, or, where no international filing date has yet been accorded, of the date of receipt of the purported international application, and delete the indication made under paragraph (a), above;

(ii) notify the applicant of the correction effected under item (i), above;

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i), above, by transmitting a copy of the corrected first page of the request, and forward copies of the later submitted drawings to the said Bureau and the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted drawings to the record copy and the search copy.

(d) The receiving Office shall, in the case of missing drawings received after the expiration of the time limit referred to in Rule 20.2(a)(iii):

(i) notify the applicant of the fact and of the date of receipt of the later submitted drawings;

(ii) where transmittals under Article 12(1) have already been made, forward a copy of the later submitted drawings to the International Bureau with the indication that such drawings and any reference to such drawings are not to be taken into consideration for the purposes of international processing;

(iii) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted drawings to the record copy with the indication that such drawings and any reference to such drawings are not to be taken into consideration for the purposes of international processing.

Section 311

Deletion, Substitution or Addition of Sheets of the International Application; Renumbering, etc.

(a) The receiving Office shall, subject to Section 207, sequentially renumber the sheets of the international application when necessitated by the addition of any new sheet, the deletion of entire sheets, a change in the order of the sheets or any other reason.

(b) The sheets of the international application shall be provisionally renumbered in the following manner:

(i) when a sheet is deleted, the receiving Office shall either include a blank sheet with the same number and with the word "DELETED," or its equivalent in the language of publication of the international application, below the number, or insert, in brackets, below the number of the following sheet, the number of the deleted sheet with the word "DELETED" or its equivalent in the language of publication of the international application;

(ii) when a sheet is substituted, the receiving Office shall mark in the middle of the bottom margin the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application;

(iii) when one or more sheets are added, each sheet shall be identified by the number of the preceding sheet followed by a slant and then by a natural number series, starting always with number one for the first sheet added after an unchanged sheet (e.g., 10/1, 15/1, 15/2, 15/3, etc.); when later additions of sheets to an existing series of added sheets are necessary, an extra digit shall be used for identifying the further additions (e.g., 15/1, 15/1/1, 15/1/2, 15/2, etc.).

(c) In the cases mentioned in paragraph (b)(i) and (iii), it is recommended that the receiving Office should write, below the number of the last sheet, the total number of the sheets of the international application followed by the words "TOTAL OF SHEETS" or their equivalent in the language of publication of the international application. It is further recommended that, at the bottom of any last sheet added, the words "LAST ADDED SHEET" or their equivalent in the language of publication of the international application should be inserted.

Section 312

Notification of Decision Not To Issue Declaration that the International Application Is Considered Withdrawn

Where the receiving Office, after having notified the applicant under Rule 29.4 of its intent to issue a declaration under Article 14(4), decides not to issue such a declaration, it shall notify the applicant accordingly.

Section 313

Documents Filed with the International Application; Manner of Marking the Necessary Annotations in the Check List

(a) Any power of attorney and any priority document filed with the international application referred to in Rule 3.3(a)(ii) shall accompany the record copy; any other document referred to in that Rule shall be sent only at the specific request of the International Bureau. If any document referred to in Rule 3.3(a)(ii) which is indicated in the check list as accompanying the international application is not, in fact, filed at the latest by the time the record copy leaves the receiving Office, that Office shall so note on the check list and the said indication shall be considered as if it had not been made.

(b) Where, under Rule 3.3(b), the receiving Office itself fills in the check list, that Office shall enter, in the margin, the words "FILLED IN BY RO" or their equivalent in the language of publication of the international application. Where only some of the indications are filled in by the receiving Office, the said words and each indication filled in by that Office shall be identified by an asterisk.

Section 314

Manner of Indicating and Notification of Correction of the Priority Date or Cancellation of the Priority Claim

(a) Where, in reply to an invitation issued by the receiving Office under Rule 4.10(d), the applicant corrects the erroneously indicated filing date of any earlier application, the receiving Office shall enter the corrected date in the request, draw a line through the previously entered date while still leaving it legible and enter, in the margin, the letters "RO."

(b) Where, under Rule 4.10(d), the receiving Office cancels the declaration made under Article 8(1), that Office shall enclose the box in the request Form which provides for the information concerning the priority claim (or, where the priorities of several earlier applications are claimed and not all those priority claims are cancelled, the relevant part of the said box) within square brackets and enter, in the margin, the words "CANCELLED ON REQUEST OF APPLICANT" or "CANCELLED EX OFFICIO BY RO," as the case may be, or their equivalent in the language of publication of the international application.

(c) The applicant and, if copies of the international application have already been sent to the International Bureau and the International Searching Authority, that Bureau and that Authority shall be notified by the receiving Office of any correction or cancellation effected under Rule 4.10(d) by the receiving Office.

Section 315

[Deleted]

Section 316

Procedure in the Case Where the International Application Lacks the Prescribed Signature

Where, under Article 14(1)(a)(i), the receiving Office finds that any international application is defective in that it lacks the prescribed signature, that Office shall send to the applicant, together with the invitation to correct under Article 14(1)(b), a copy of the request part of the international application. The applicant shall, within the prescribed time limit, return said copy after affixing thereto the prescribed signature.

Section 317

Procedure in the Case of the Designation of a State Being Considered Not To Have Been Made

Where the receiving Office finds that, under Rule 18.4(b), the designation of a State is to be considered as not having been made, it shall indicate that fact in the international application by enclosing the designation of that State within square brackets and entering, in the margin, the words "CONSIDERED NOT TO HAVE BEEN MADE" or their equivalent in the language of publication of the international application, and shall promptly notify the applicant accordingly. If the record copy has already been sent to the International Bureau, the receiving Office shall also notify that Bureau.

Section 318

Cancellation of Designations

The receiving Office shall cancel ex officio the designation of any State which is not a Contracting State, shall enclose that designation within square brackets, shall enter, in the margin, the words "CANCELLED EX OFFICIO BY RO" or their equivalent in the language of publication of the international application, and shall promptly notify the applicant accordingly. If the record copy has already been sent to the International Bureau, the receiving Office shall also notify that Bureau.

Section 319

Later Indication of Priority Application Number

Where the application number of the earlier application referred to in Rule 4.10(c) (priority application number) is furnished to the receiving Office, that Office shall enter the said number in the space provided therefor in the request Form or, where the record copy has already been sent to the International Bureau, promptly notify that Bureau of the said number, and shall notify the International Bureau of the date on which it received the said number.

Section 320

Information of Any Charge Made under Rule 16bis.1

(a) The receiving Office shall immediately inform the International Bureau of any charge made under Rule 16bis.1(a) or (b).

(b) Where the charge made under Rule 16bis.1(a) concerns the search fee or part of it, the receiving Office shall also immediately inform the International Searching Authority.

Section 321

Application of Moneys Received by the Receiving Office in Certain Cases

(a) The receiving Office shall, to the extent that it has received instructions from the applicant as to the fees to which it shall apply moneys received by it from the applicant, apply those moneys accordingly.

(b) Where the receiving Office receives moneys from the applicant which, together with any other moneys so received, are not sufficient to cover in full the transmittal fee (if any), the international fee and the search fee (if any), the receiving Office shall, to the extent that it has not received instructions from the applicant as to the fees to which it shall apply the moneys which are available for the purpose, apply those moneys in payment, successively, of the fees set out below to the extent that they are due and unpaid and in the order in which they appear below:

(i) the transmittal fee;

(ii) the basic fee part of the international fee;

(iii) the search fee;

(iv) the designation fee part of the international fee.

(c) Where, pursuant to paragraph (b), the receiving Office applies moneys in payment of the designation fees, it shall apply them to those fees successively in the order in which the designations appear in the international application up to and including the last designation, the fee for which is fully covered by the moneys.

(d) When notifying the International Bureau pursuant to Section 320(a) as to amounts charged to that Bureau pursuant to Rule 16bis.1(a) and/or Rule 16bis.1(b), the receiving Office shall, if it has received moneys from the applicant, inform that Bureau of the fees to which those moneys have been applied and the fees which it has charged to the International Bureau. The receiving Office shall, where applicable, indicate the designations (if any) for which the fees were paid by moneys (if any) so received and the designations for which the fees were charged to the International Bureau.

(e) Where moneys have been applied by the receiving Office in accordance with an instruction received from the applicant as mentioned in paragraph (a), the receiving Office shall inform the International Bureau as to the effect of the said instruction, preferably by sending the International Bureau a copy of a written communication received from the applicant.

Section 322

No Return of Amounts Charged
under Rule 16bis.1 for Covering Transmittal Fee

The receiving Office shall not return to the International Bureau any amount that it has charged under Rule 16bis.1(a) to that Bureau for covering the transmittal fee.

Section 323

Transmittal of Priority Documents

(a) Any priority document which is submitted to the receiving Office shall be transmitted by that Office to the International Bureau together with the record copy or, if received after the record copy has been sent to the International Bureau, promptly after having been received by that Office.

(b) Where Rule 17.1(b) applies, the receiving Office shall, promptly after receipt of a request for transmittal of the priority document and, where applicable, the payment of the fee referred to in that Rule, transmit the priority document to the International Bureau. Where such request for transmittal has been made on the request Form but is considered by the receiving Office not to have been made because the required fee has not been paid, that Office shall notify the applicant and the International Bureau accordingly.

(c) The receiving Office shall notify the International Bureau of the date on which it received the priority document or the request under Rule 17.1(b).

Section 324

Copy of Notification under Rule 20.5(c)

The copy, sent to the International Bureau, of the notification under Rule 20.5(c) shall also include, if the priority of an earlier application is claimed in the international application, the date of filing--as indicated in the international application--of that earlier application. If the priority of several earlier applications is claimed, the earliest filing date shall be indicated.

Section 325

Corrections under Rule 26.4(a)
and Rectifications under Rule 91.1

(a) The receiving Office shall indelibly mark, in the upper right-hand corner of each replacement sheet submitted under Rule 26.4(a), the international application number and the date on which it was received. It shall mark on the letter containing the correction, or accompanying any replacement sheet, the date on which that letter was received. It shall keep in its files a copy of the letter containing the correction or, when the correction is contained in a replacement sheet, the replaced sheet, a copy of the letter accompanying the replacement sheet and a copy of the replacement sheet.

(b) Subject to paragraph (c), the receiving Office shall promptly transmit any letter and any replacement sheet to the International Bureau, and a copy thereof to the International Searching Authority.

(c) If copies of the international application have not yet been sent to the International Bureau and the International Searching Authority, the receiving Office shall transmit any letter and any replacement sheet to that Bureau and to that Authority together with the record and search copies, which shall contain any replaced sheet.

(d) Paragraphs (a) to (c) shall apply *mutatis mutandis* to rectifications authorized by the receiving Office under Rule 91.1.

Section 326

Withdrawal under Rule 32.1 or Rule 32bis.1

(a) The receiving Office shall promptly transmit any notice effecting withdrawal under Rule 32.1 or Rule 32bis.1 which has been filed with it to the International Bureau. If the record copy has not yet been sent to the International Bureau, the receiving Office shall transmit the said notice to that Bureau together with the record copy.

(b) If the search copy has already been sent to the International Searching Authority and the withdrawal concerns the international application or the priority claim, the receiving Office shall promptly transmit a copy of the notice effecting withdrawal to the International Searching Authority.

(c) If the search copy has not yet been sent to the International Searching Authority and the withdrawal concerns the international application, the receiving Office shall not send the search copy to the International Searching Authority and shall, subject to paragraph (e), refund the search fee to the applicant unless it has already been transferred to the International Searching Authority. If the search fee has already been transferred to the International Searching Authority, the receiving Office shall send a copy of the request and of the notice effecting withdrawal to that Authority.

(d) If the search copy has not yet been sent to the International Searching Authority and the withdrawal concerns the priority claim, the receiving Office shall transmit a copy of the notice effecting withdrawal to the International Searching Authority together with the search copy.

(e) If the refund referred to in paragraph (c) is not compatible with the national law applied by the receiving Office and as long as it continues to be not compatible with that law, the receiving Office may, in the circumstances referred to in paragraph (c), transfer the search fee to the International Searching Authority instead of refunding it to the applicant.

Section 327

Ex Officio Correction of Request by the Receiving Office

(a) Where the record copy has not yet been sent to the International Bureau and the request requires correction because it contains an inconsistency or a minor defect such as non-compliance with Section 201, the receiving Office may correct the request ex officio. If the receiving Office so does, it shall notify the applicant accordingly.

(b) When making a correction under paragraph (a), the receiving Office shall enter, in the margin, the letters "RO." Where the correction involves the deletion or replacement of some matter, the receiving Office shall enclose such matter within square brackets.

Section 328

Notifications Concerning Representation

Where a power of attorney, a document containing the revocation of an appointment, or a notification of renunciation of an appointment, is submitted to the receiving Office under Rule 90.3(b), Section 106(d) or Section 106(e), the receiving Office shall immediately notify the International Bureau, the International Searching Authority and the International Preliminary Examining Authority by sending them a copy of the power of attorney, document or notification, and request the International Bureau to record a change in the person of the agent or common representative under Rule 92bis.1(a)(ii).

PART 4

INSTRUCTIONS RELATING TO THE INTERNATIONAL BUREAU

Section 401

Marking of the Sheets of the Record Copy

(a) The International Bureau shall, upon receipt of the record copy, mark the date of receipt of the record copy in the appropriate space on the request Form.

(b) If the receiving Office has failed to mark any sheet as provided in Section 311, the marking which has not been made may be inserted by the International Bureau.

Section 402

Manner of Indicating and Notification of Correction of the Priority Date or Cancellation of the Priority Claim

(a) Where, in reply to an invitation issued by the International Bureau under Rule 4.10(d), the applicant corrects the erroneously indicated filing date of any earlier application, the International Bureau shall enter the corrected date in the request, draw a line through the previously entered date while still leaving it legible and enter, in the margin, the words "INTERNATIONAL BUREAU."

(b) Where, under Rule 4.10(d), the International Bureau cancels the declaration made under Article 8(1), that Bureau shall enclose the box in the request Form which provides for the information concerning the priority claim (or, where the priorities of several earlier applications are claimed and not all those priority claims are cancelled, the relevant part of the said box) within square brackets and enter, in the margin, the words "CANCELLED ON REQUEST OF APPLICANT" or "CANCELLED EX OFFICIO BY THE INTERNATIONAL BUREAU," as the case may be, or their equivalent in the language of publication of the international application.

(c) The applicant, the receiving Office and the International Searching Authority shall be notified by the International Bureau of any correction or cancellation effected under Rule 4.10(d) by the International Bureau.

(d) Any designated Office which has been notified under Rule 24.2(a) of the receipt of the record copy shall be notified by the International Bureau of any correction or cancellation effected under Rule 4.10(d) by the receiving Office or the International Bureau.

Section 403

Transmittal of Protest Against Payment of Additional Fee and Decision Thereon

Where, under Rules 40.2(c) or 68.3(c), the International Bureau receives a request from the applicant to forward to any designated or elected Office the texts of both the protest against payment of an additional fee and the decision thereon by the International Searching Authority or the International Preliminary Examining Authority, as the case may be, it shall proceed according to such request.

Section 404

International Publication Number

The International Bureau shall assign to each published international application an international publication number which shall be different from the international application number. The international publication number shall be used on the pamphlet and in the Gazette entry. It shall consist of the two-letter code "WO" followed by a two-digit designation of the last two numbers of the year of publication, a slant, and a serial number consisting of five digits (e.g.,"WO78/12345").

Section 405

[Deleted]

Section 406

Pamphlets

(a) Pamphlets referred to in Rule 48.1 shall be published on a given day of each week.

(b) All pamphlets shall be of A4 size and shall be printed by offset, recto-verso.

(c) The form and particulars of the front page of each pamphlet shall be decided by the Director General.

Section 407

The Gazette

(a) The Gazette referred to in Rule 86 shall be of A4 size and shall be printed by offset, recto-verso.

(b) In addition to the contents specified in Rule 86, the Gazette shall contain, in respect of each published international application, the data indicated in Annex D.

(c) The information referred to in Rule 86.1(v) shall be that which is indicated in Annex E.

(d) The subscription price of the Gazette shall be as fixed by the Director General.* The price of any single issue of the Gazette shall be as fixed by the Director General.*

---

* This provision is applicable during the transitional period referred to in Rule 86.4(b).

Section 408

Priority Application Number

(a) If the application number of the earlier application referred to in Rule 4.10(c) (priority application number) is furnished within the prescribed time limit, the International Bureau shall enter the said number in the space provided therefor in the request Form, unless already done by the receiving Office under Section 319.

(b) If the priority application number is furnished after the expiration of the prescribed time limit, the International Bureau shall inform the applicant and the designated Offices of the date on which the said number was furnished. It shall indicate the said date in the international publication by including on the front page of the pamphlet next to the priority application number the words "FURNISHED LATE ON ... (date)," and the equivalent of such words in the language in which the international application is published if that language is other than English.

(c) If the priority application number has not been furnished at the time of the completion of the technical preparations for international publication, the International Bureau shall indicate that fact by including on the front page of the pamphlet in the space provided for the priority application number the words "NOT FURNISHED" and the equivalent of such words in the language in which the international application is published if that language is other than English.

Section 409

Notification of Priority Claim Considered Not To Have Been Made

Where the International Bureau notes that the receiving Office has failed to notify the applicant as provided in Section 302, it shall send a notification to the same effect to the applicant, the receiving Office and the International Searching Authority.

Section 410

Numbering of Sheets for the Purposes of International Publication; Procedure in Case of Missing Sheets or Drawings

(a) In the course of preparing the international application for international publication, the International Bureau shall sequentially renumber the sheets of the international application only when necessitated by the addition of any new sheet, the deletion of entire sheets or a change in the order of the sheets. Otherwise, the numbering provided under Section 207 shall be maintained.

(b) Where a sheet or a drawing has not been filed or is not to be taken into consideration for the purposes of international processing under Section 309(c) or Section 310(d), the International Bureau shall include an indication to that effect in the pamphlet.

Section 411

Receipt of Priority Document

(a) Subject to paragraph (b), the International Bureau shall record the date on which the priority document has been received by it and shall notify the applicant and the designated Offices accordingly.

(b) Where the priority document has been received by the International Bureau from the receiving Office after the expiration of 16 months from the priority date, the date of receipt by the receiving Office of the priority document or of a request under Rule 17.1(b), as the case may be, shall be recorded as the date of receipt of the priority document.

(c) Where the date of receipt of the priority document is later than the date of expiration of the time limit referred to in Rule 17.1(a), the International Bureau shall notify the applicant and the designated Offices accordingly.

(d) Where, within the time limit referred to in Rule 17.1(a), the International Bureau has not received the priority document and the receiving Office has received neither the priority document nor a request (together with any required fee) to transmit the priority document, the International Bureau shall notify the applicant and the designated Offices accordingly.

Section 412

Fee for Copies of Certain Documents

(a) The International Bureau shall make a charge of 6 Swiss francs to designated and elected Offices for a copy of any document cited in the international search report requested under Rule 44.3(c) or any document cited in the international preliminary examination report requested under Rule 71.2(c).

(b) When mailing by air is requested, the actual cost of such mailing shall be additionally charged.

Section 413

Corrections under Rule 26.4(a)
and Rectifications under Rule 91.1

(a) Where the International Bureau receives from the receiving Office a letter containing a correction under Rule 26.4(a), or a replacement sheet and the letter accompanying it, it shall transfer the correction to the record copy, together with the indication of the date on which the receiving Office received the letter, or shall insert the replacement sheet in the record copy. Any letter and any replaced sheet shall be kept in the files of the International Bureau.

(b) Paragraph (a) shall apply *mutatis mutandis* to rectifications authorized by the receiving Office or by the International Searching Authority under Rule 91.1.

Section 414

Notification to the International Preliminary Examining Authority Where the International Application or the Designation of an Elected State Is Considered Withdrawn

If a demand has been submitted and the international application or the designation of a designated State which has been elected is considered withdrawn under Article 14(1), (3) or (4), the International Bureau shall promptly notify the International Preliminary Examining Authority, unless the international preliminary examination report has already issued.

Section 415

Notification of Withdrawal under Rule 32.1 or Rule 32bis.1

(a) The fact of withdrawal of the international application, of designations or of the priority claim, together with the date on which the notice effecting withdrawal has reached the International Bureau or the receiving Office, shall be recorded by the International Bureau and promptly notified by it to the receiving Office, the applicant, the designated Offices affected by the withdrawal and, where the withdrawal concerns the international application or the priority claim and where the international search report or the declaration referred to in Article 17(2)(a) has not yet issued, the International Searching Authority. However, where the withdrawal concerns the international application and where the notice effecting withdrawal was filed with the receiving Office before the sending of the record copy to the International Bureau, that Bureau shall send the notifications referred to in the preceding sentence and in Rule 24.2(a) to the receiving Office and the applicant only.

(b) If, at the time of the withdrawal of the international application, of the designation of any designated State which had been elected or of the priority claim, a demand has already been submitted and the international preliminary examination report has not yet issued, the International Bureau shall promptly notify the fact of withdrawal to the International Preliminary Examining Authority, together with the date on which the notice effecting withdrawal has reached the International Bureau or the receiving Office.

Section 416

Correction of Request in Record Copy

(a) Where the request requires correction as a consequence of the withdrawal of a designation or of a change made under Rule 92bis, the International Bureau shall make the necessary correction in the record copy and shall notify the applicant and the receiving Office accordingly.

(b) When making a correction under paragraph (a), the International Bureau shall enter, in the margin, the words "INTERNATIONAL BUREAU." Where the correction involves the deletion or replacement of some matter, the International Bureau shall enclose such matter within square brackets.

Section 417

Processing of Amendments under Article 19

(a) The International Bureau shall record the date on which, under Rule 46.1, any amendment made under Article 19 was received, shall notify the applicant of that date and indicate it in any publication or copy issued by it.

(b) The International Bureau shall mark, in the upper right-hand corner of each replacement sheet submitted under Rule 46.5(a), the international application number and the date on which it was received under Rule 46.1. It shall keep in its files any replaced sheet, the letter accompanying the replacement sheet or sheets, and any letter referred to in the last sentence of Rule 46.5(a).

(c) The International Bureau shall insert any replacement sheet in the record copy and, in the case referred to in the last sentence of Rule 46.5(a), shall indicate the cancellations in the record copy.

Section 418

Notifications to Elected Offices Where the Demand or an Election Is Considered Not To Have Been Submitted or Made

Where, after any elected Office has been notified of its election under Article 31(7), the demand or the election is considered not to have been submitted or made, the International Bureau shall notify the said Office accordingly.

Section 419

Notification of Withdrawal under Rule 75.1

The fact of withdrawal of the demand or of any election, together with the date on which the notice effecting withdrawal has reached the International Bureau, shall be promptly notified by that Bureau to the applicant, to each elected Office affected by the withdrawal, except where it has not yet been informed that it had been elected, and to the International Preliminary Examining Authority.

Section 420

Copy for the International Preliminary Examining Authority

Where the International Preliminary Examining Authority is not part of the same national Office or intergovernmental organization as the International Searching Authority, the International Bureau shall, promptly upon receipt of the international search report or, if the demand was received after the international search report, promptly upon receipt of the demand, send a copy of the international application and the international search report to the International Preliminary Examining Authority. In cases where, instead of the international search report, a declaration under Article 17(2)(a) has issued, references in the preceding sentence to the international search report shall be considered references to the said declaration.

Section 421

Invitation To Furnish a Copy of the Priority Document

Where a request for a copy of the application whose priority is claimed in the international application is made under Rule 66.7(a) by the International Preliminary Examining Authority before the International Bureau has received the priority document under Rule 17.1, the International Bureau shall, unless the applicable time limit referred to in Rule 17.1(a) has already expired, inform the applicant of such request and remind him of the requirements of Rule 17.1.

Section 422

Notifications under Rule 92bis.1

(a) The International Bureau shall give notifications concerning changes recorded by it under Rule 92bis.1(a):

(i) to the receiving Office, unless the change has been recorded on the request of that Office;

(ii) to the International Searching Authority, unless Section 328 or Section 425 applies;

(iii) to the the designated Offices, unless the change has been recorded after the expiration of the time limit referred to in Article 22(1);

(iv) to the International Preliminary Examining Authority, unless Section 328 or Section 425 applies;

(v) to the elected Offices;

(vi) to the applicant; where the change consists of a change in the person of the applicant, the notification shall be sent to the earlier applicant and the new applicant, provided that, where the earlier applicant and the new applicant are represented by the same agent, one notification only shall be sent to the said agent.

(b) Where Rule 92bis.1(b) applies, the International Bureau shall notify the applicant accordingly and, if the change was requested by the receiving Office, that Office.

Section 423

Cancellation of Designations and Elections

(a) The International Bureau shall, if the receiving Office has failed to do so, cancel ex officio the designation of any State which is not a Contracting State, shall enclose that designation within square brackets, shall enter, in the margin, the words "CANCELLED EX OFFICIO BY THE INTERNATIONAL BUREAU" or their equivalent in the language of publication of the international application, and shall notify the applicant and the receiving Office accordingly.

(b) The International Bureau shall, if the election is in the demand and the International Preliminary Examining Authority has failed to do so, or if the election is in a later election, cancel ex officio the election of any State which is not a designated State or which is not bound by Chapter II of the Treaty, shall enclose that election within square brackets, shall enter, in the margin, the words "CANCELLED EX OFFICIO BY THE INTERNATIONAL BUREAU" or their equivalent in the language of publication of the international application, and shall notify the applicant and, if the election is in the demand, the International Preliminary Examining Authority accordingly.

Section 424

Statistics Concerning Non-Compliance with Rules 22.1(a) and 23.1(a)

(a) The number of instances in which, according to the knowledge of the International Bureau, any receiving Office has not complied with the requirements of Rule 22.1(a) shall be indicated, once a year, in the Gazette.

(b) The number of instances in which, according to the knowledge of the International Bureau, any receiving Office has not complied with the requirement of Rule 23.1(a) shall be indicated, once a year, in the Gazette.

Section 425

Notifications Concerning Representation

Where a power of attorney, a document containing the revocation of an appointment, or a notification of renunciation of an appointment, is submitted to the International Bureau under Rule 90.3(b), Section 106(d) or Section 106(e), the International Bureau shall immediately notify the receiving Office, the International Searching Authority and the International Preliminary Examining Authority by sending them a copy of the power of attorney, document or notification, and shall record a change in the person of the agent or common representative under Rule 92bis.1(a)(ii).

Section 425bis

Transitory Provisions Concerning Rule 47.1(b)

Notwithstanding Rule 47.1(b), where any designated Office has made a notification that the time limit under Article 22(2) as modified with effect from January 1, 1985, is incompatible with the national law applied by the designated Office and where the International Searching Authority makes a declaration, under Article 17(2)(a), that no international search report will be established, the communication provided for in Article 20 to such designated Office shall be effected, unless the international application is withdrawn, within one month from the date on which the International Bureau has been notified of the said declaration by the International Searching Authority; such communication shall be accompanied by an indication of the date of the notification sent to the applicant under Article 17(2)(a).

PART 5

INSTRUCTIONS RELATING TO THE INTERNATIONAL SEARCHING AUTHORITY

Section 501

Corrections Submitted to the International Searching Authority Concerning Expressions, etc., Not To Be Used in the International Application

Where the applicant submits corrections to the International Searching Authority aimed at complying with the prescription of Rule 9.1, that Authority shall transmit copies of such corrections to the receiving Office and the International Bureau.

Section 502

Protest Against Payment of Additional Fee and Decision Thereon

The International Searching Authority shall transmit to the applicant, at the latest together with the international search report, any decision which it has taken under Rule 40.2(c) on the protest of the applicant against the payment of the additional fee. At the same time, it shall transmit to the International Bureau a copy of both the protest and the decision thereon, as well as any request by the applicant to forward the texts of both the protest and the decision thereon to any of the designated Offices.

Section 503

Method of Identifying Documents Cited in the International Search Report

Identification of any document cited in the international search report referred to in Rule 43.5(b) shall be made by indicating the following elements in the order in which they are listed:

(a) In the case of any patent document (patent documents being patents within the meaning of Article 2(ii) as well as published applications relating thereto):

(i) the Office that issued the document, by the two-letter code as in Annex B;

(ii) the kind of document, by the appropriate symbols as in the Standard Code for Identification of Different Kinds of Patent Documents*;

(iii) the number of the document as given to it by the Office that issued it (for Japanese patent documents the indication of the year of the reign of the Emperor must precede the serial number of the patent document);

(iv) the name of the patentee or applicant (in capital letters, where appropriate abbreviated);

---

* Published in WIPO Handbook on Patent Information and Documentation, Volume 1, Part 3, Standards--ST.16.

(v) the date of publication of the cited patent document as indicated thereon; and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a patent document according to paragraph (a), above:

JP, B, 50-14535 (NCR CORPORATION) 28 May 1975 (28.05.75), see column 4, lines 3 to 27.)

(b) In the case of any book or other separately issued publication:

(i) the name of the author;

(ii) the title (including, where applicable, the number of the edition and/or volume);

(iii) the year of publication (when this coincides with the year of the international application or of the priority claim, the International Searching Authority shall endeavor to determine the month and, if necessary, the day of publication and to indicate these data in the international search report);

(iv) the name of the publisher;

(v) as far as available, the place of publication (where only the location of the publisher appears on the book or other separately issued publication, then that location shall be indicated as the place of publication); and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a book or other separately issued publication according to paragraph (b), above:

H. WALTON, "Microwave Quantum Theory," Volume 2, published 1973, by Sweet and Maxwell (London), see pages 138 to 192, especially pages 146 to 148.)

(c) In the case of any article published in a periodical or other serial publication:

(i) the title of the periodical or other serial publication;

(ii) the number of the volume and the date of the issue in which the article appears;

(iii) as far as available, the place of publication (where only the location of the publisher appears in the periodical or other serial publication, then that location shall be indicated as the place of publication);

(iv) the author and the title of the article and the number of the page both on which the article starts and ends; and

(v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of an article published in a periodical or other serial publication according to paragraph (c), above:

IBM Technical Disclosure Bulletin, Volume 17, No. 5, issued October 1974 (Armonk, New York), J.G. Drop, "Integrated Circuit Personalization at the Module Level," see pages 1344 and 1345.)

(d) In the case of abstracts:

(i) the identification of the document containing the abstract in the manner set forth in paragraphs (a), (b) and (c), respectively, depending upon whether the abstract is contained in a patent document, in a book or other separately issued publication, or in an article published in a periodical or other serial publication;

(ii) in the case where the abstract is not published together with the full text document which served as its basis, the identification of both abstract and full text document on the basis of whatever bibliographic data may be available in respect thereto.

(The following example illustrates the citation of an abstract according to paragraph (d)(ii), above:

Chemical Abstracts, Volume 75, No. 20, issued 15 November 1971 (15.11.71) (Columbus, Ohio, USA, D.I. Shetulov, "Surface Effects During Metal Fatigue," see page 163, column 1, the abstract No. 120718k, Fiz.-Khim. Mekh. Mater. 1971, 7(2), 7-11 (Russ).)

Section 504

Classification of the Subject Matter of the International Application

(a) Where the subject matter of the international application is such that classification thereof requires more than one classification symbol according to the principles to be followed in the application of the International Patent Classification to any given patent document, the international search report shall indicate all such symbols.

(b) Where any national classification system is used, the international search report may indicate all the applicable classification symbols also according to that system.

(c) Where the subject matter of the international application is classified both according to the International Patent Classification and to any national classification system, the international search report shall, wherever possible, indicate the corresponding symbols of both classifications opposite each other.

Section 505

Indication of Citations of Particular Relevance in the International Search Report

(a) Where any document cited in the international search report is of particular relevance, the special indication required by Rule 43.5(c) shall consist of the letter(s) "X" and/or "Y" placed next to the citation of the said document.

(b) Category "X" is applicable where a document is such that when taken alone, a claimed invention cannot be considered novel or cannot be considered to involve an inventive step.

(c) Category "Y" is applicable where a document is such that a claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

Section 506

Comments on Draft Translation of the International Application

(a) Where the applicant has made comments, within the time limits fixed by the International Searching Authority, on the draft translation referred to in Rule 48.3(b), that Authority shall notify the applicant whether it has changed the draft translation and, if so, of the changes it has made therein.

(b) Where the applicant submits comments on the draft translation after the expiration of the time limits fixed by the International Searching Authority, and that Authority changes the draft translation, it shall notify the applicant accordingly.

Section 507

Manner of Indicating Certain Special Categories of Documents Cited in the International Search Report

(a) Where any document cited in the international search report refers to an oral disclosure, use, exhibition, or other means referred to in Rule 33.1(b), the separate indication required by that Rule shall consist of the letter "O" placed next to the citation of the said document.

(b) Where any document cited in the international search report is a published application or patent as defined in Rule 33.1(c), the special mention required by that Rule shall consist of the letter "E" placed next to the citation of the said document.

(c) Where any document cited in the international search report is not considered to be of particular relevance requiring the use of categories "X" and/or "Y" but defines the general state of the art, it shall be indicated by the letter "A" placed next to the citation of the said document.*

(d) Where any document cited in the international search report is a document whose publication date occurred earlier than the international filing date of the international application, but later than the priority date claimed in that application, it shall be indicated by the letter "P" next to the citation of the said document.

(e) Where any document cited in the international search report is a document whose publication date occurred after the filing date or the priority date of the international application and is not in conflict with the said application, but is cited for the principle or theory underlying the invention, which may be useful for a better understanding of the invention, or is cited to show that the reasoning or the facts underlying the invention are incorrect, it shall be indicated by the letter "T" next to the citation of the document.

(f) Where in the international search report any document is cited for reasons other than those referred to in paragraphs (a) to (e), for example:

---

* (see III, 3.14 of the Guidelines for International Search to be Carried Out under the PCT).

- a document which may throw doubt on a priority claim,**

- a document cited to establish the publication date of another citation,***

such document shall be indicated by the letter "L" next to the citation of the document and the reason for citing the document shall be given.

(g) Where a document is a member of a patent family****, it shall, whenever feasible, be mentioned in the international search report in addition to the one cited belonging as well to this family and should be preceded by the sign ampersand (&). Members of a patent family may also be mentioned on a separate sheet, provided that the family to which they belong shall be clearly identified and that any text matter on that sheet, if not in the English language, shall also be furnished to the International Bureau in English translation.

(h) A document whose contents have not been verified by the search examiner but are believed to be subtantially identical with those of another document which the search examiner has inspected, may be cited in the international search report in the manner indicated for patent family members in the first sentence of paragraph (g)*****.

Section 508

Manner of Indicating the Claims to Which the Documents Cited in the International Search Report Are Relevant

The claims to which cited documents are relevant shall be indicated by placing in the appropriate column of the international search report:

(i) where the cited document is relevant to one claim, the number of that claim; for example, (2) or (17);

(ii) where the cited document is relevant to two or more claims numbered in consecutive order, the number of the first and last claims of the series connected by a hyphen; for example, (1-15) or (2-3);

(iii) where the cited document is relevant to two or more claims that are not numbered in consecutive order, the number of each claim placed in ascending order and separated by a comma or commas; for example, (1,6) or (1,7,10);

(iv) where the cited document is relevant to more than one series of claims under (ii), above, or to claims of both categories (ii) and (iii), above, the series or individual claim numbers and series placed in ascending order using commas to separate the several series, or to separate the numbers of individual claims and each series of claims; for example, (1-6, 9-10, 12-15) or (1, 3-4, 9-11).

Section 509

Procedure Where Information Is Received under Section 320(b)

Where the International Searching Authority has received information under Section 320(b), it shall not proceed with the establishment and the transmittal of the international search report until it receives information from the International Bureau that the amounts due to cover the search fee and the surcharge have been paid by the applicant.

Section 510

Refund of Search Fee in Case of Withdrawal

(a) Where the international application is withdrawn or is considered withdrawn, under Article 14(1), (3) or (4), before the International Searching Authority has started the international search, that Authority shall, subject to paragraph (b), refund the search fee to the applicant or, where the search fee was charged under Rule 16bis.1(a), to the International Bureau.

(b) If the refund referred to in paragaph (a) is not compatible with the national law of the national Office acting as International Searching Authority and as long as it continues to be not compatible with that law, the International Searching Authority may abstain from refunding the search fee.

Section 511

Rectifications under Rule 91.1

Where the International Searching Authority authorizes a rectification under Rule 91.1, it shall:

(i) mark, in the upper right-hand corner of each replacement sheet, the international application number and the date on which it was received;

(ii) mark, in the middle of the bottom margin of each replacement sheet, the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application as well as an indication of the International Searching Authority as provided for in Section 107(b);

(iii) mark on the letter containing the rectification or accompanying any replacement sheet the date on which that letter was received;

(iv) keep in its files a copy of the letter containing the rectification or, when the rectification is contained in a replacement sheet, the replaced sheet, a copy of the letter accompanying the replacement sheet, and a copy of the replacement sheet;

(v) promptly transmit any letter and any replacement sheet to the International Bureau.

PART 6

INSTRUCTIONS RELATING TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

Section 601

[Deleted]

Section 602

Amendments under Rule 66.8(a)

(a) The International Preliminary Examining Authority shall indelibly mark, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2(a), in the upper right-hand corner of each replacement sheet submitted under Rule 66.8(a), the international application number and the date on which it was received and, in the middle of the bottom margin, the words "SUBSTITUTE SHEET" or their equivalent in the language of publication of the international application. It shall keep in its files any replaced sheet, the letter accompanying the replacement sheet or sheets, and any letter referred to in the last sentence of Rule 66.8(a).

(b) Section 311(b)(iii) shall apply when one or more sheets are added under Rule 66.8(a).

Section 603

Trannsmittal of Protest Against Payment of Additional Fee and Decision Thereon

The International Preliminary Examining Authority shall transmit to the applicant, at the latest together with the international preliminary examination report, any decision which it has taken under Rule 68.3(c) on the protest of the applicant against payment of the additional fee. At the same time, it shall transmit to the International Bureau a copy of both the protest and the decision thereon, as well as any request by the applicant to forward the texts of both the protest and the decision thereon to any of the elected Offices.

Section 604

Guidelines for Explanations Contained in the International Preliminary Examination Report

Explanations under Rule 70.8 shall clearly point out to which of the three criteria referred to in Article 35(2), taken separately, any cited document is applicable and shall clearly describe, with reference to the cited documents, the reasons supporting the conclusion that any of the said criteria is or is not satisfied.

Section 605

File To Be Used for International Preliminary Examination

Where the International Preliminary Examining Authority is part of the same national Office or intergovernmental organization as the International Searching Authority, the same file shall serve the purposes of international search and international preliminary examination.

Section 606

Cancellation of Elections

The International Preliminary Examining Authority shall, if the election is in the demand, cancel ex officio the election of any State which is not a designated State or which is not bound by Chapter II of the Treaty, shall enclose that election within square brackets, shall enter, in the margin, the words "CANCELLED EX OFFICIO BY IPEA" or their equivalent in the language of publication of the international application, and shall notify the applicant accordingly.

Section 607

Rectifications under Rule 91.1

Where the International Preliminary Examining Authority authorizes a rectification under Rule 91.1, Rule 70.16 and Section 602 shall apply *mutatis mutandis*.

Information from Pamphlet Front Page To Be Included in the Gazette under Rule 86.1(i)

The following information shall be extracted from the front page of the pamphlet of each published international application and shall, in accordance with Rule 86.1(i), appear in the corresponding entry of the Gazette:

1. as to the international publication:

   1.1 the international publication number
   1.2 the date of the international publication
   1.3 an indication whether the following items were published in the pamphlet:

      1.31 international search report
      1.32 declaration under Article 17(2)
      1.33 amended claims
      1.34 statement under Article 19(1)
      1.35 the essence of the comments by the applicant on the translation of the international application as referred to in Rule 48.3(b)
      1.36 request for rectification under the third sentence of Rule 91.1(f)

2. as to the international application:

   2.1 the title of the invention
   2.2 the symbol(s) of the International Patent Classification (IPC)
   2.3 the international application number
   2.4 the international filing date

3. as to any priority claim:

   3.1 the application number of the earlier application
   3.2 the date of the earlier application
   3.3 the country in or for which the earlier application was filed

4. as to the applicant, inventor and agent:

   4.1 their name(s)
   4.2 their mailing address(es)

5. as to the designated States:

   5.1 their names
   5.2 the indication of any wish for a regional patent
   5.3 the indication of kind of protection sought, unless a patent is sought.

[Annex E follows]

ANNEX E

Information To Be Published in the Gazette under Rule 86.1(v)

1. The time limits applicable under Articles 22 and 39 in respect of each Contracting State.

2. The list of the non-patent literature agreed upon by the International Searching Authorities for inclusion in the minimum documentation.

3. The names of the national Offices which do not wish to receive copies under Article 13(2)(c).

4. The provisions of the national laws of Contracting States concerning international-type search.

5. The text of the agreements entered into between the International Bureau and the International Searching Authorities or the International Preliminary Examining Authorities.

6. The names of the national Offices which entirely or in part waived their rights to any communication under Article 20.

7. The names of the Contracting States which are bound by Chapter II of the PCT.

8. Index of concordance of international application numbers and international publication numbers, listed according to international application numbers.

9. Index of international publication numbers grouped according to designated States, including an indication of those States for which a "regional patent" is sought.

10. Index of applicants' names giving, for each name, the corresponding international publication number(s).

11. Index of international publication numbers, grouped according to the International Patent Classification symbols.

12. Indication of any subject matter that will not be searched or examined by the various International Searching and Preliminary Examining Authorities under Rules 39 and 67.

[Annex F (Forms) follows]

ANNEX F

Forms

This Annex, which is the final Annex to the Administrative Instructions, contains the Forms referred to in Section 102 of the Administrative Instructions (Forms PCT/RO/101 to 136, PCT/ISA/201 to 224, PCT/IB/301 to 350 and PCT/IPEA/401 to 425).*

[End]

* Having regard to the separate publication of Annex F mentioned in the footnote to Section 102 of the Administrative Instructions, the said Annex is not reproduced in this publication.

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

CONTRACTING STATES

Islamic Republic of Mauritania

The Government of the Islamic Republic of Mauritania has deposited its instrument of accession to the Patent Cooperation Treaty (PCT) on January 13, 1983.

The PCT will enter into force, with respect to the Islamic Republic of Mauritania, on April 13, 1983. As of this date, nationals and residents of the Islamic Republic of Mauritania will become entitled to file international applications under the PCT, and, from the same date, it will be possible to file international applications designating the Islamic Republic of Mauritania, which is a member State of the African Intellectual Property Organization (OAPI).

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

Decision of the Federal Patent Court of July 16, 1982, 4 W (pat) 40/81 (published in Blatt für Patent-, Muster- und Zeichenwesen, No. 12/1982, pages 350 to 353)

Provisions of national law on *restitutio in integrum* applicable to international applications; No invitation for payment of the national fee.

PCT - Articles. 11(3), 39(1), 39(2), 39(3), 48(2)(a)
Law on International Patent Treaties - Articles III,4(2), 6(2);
Patent Law Sections 35(3), second sentence; 123(1).

Headnote

1. The Examining Section is competent to determine whether the effect of an international application under Article 11(3) of the PCT has ceased in the Federal Republic of Germany.

2. The time limit under Article III,6(2) of the Law on International Patent Treaties (LIPT) in conjunction with Article 39(1) of the PCT for the payment of the (national) fee for the international application under Article III,4(2) of the LIPT ends 25 months after the priority date without it being necessary to serve a notification under Section 35(3), second sentence, of the Patent Law.

3. Where the applicant exceeds the time limit for paying the (national) fee for the international application, the possibility of restitutio in integrum *is given in Article 48(2)(a) of the PCT in conjunction with Section 123(1) of the Patent Law.*

Grounds

I.

An international application dated March 2, 1979, filed with the Swedish Patent Office, claiming the priority of a Swedish patent application of March 2, 1978, designated, *inter alia*, the Federal Republic of Germany. The International Bureau communicated it on April 23, 1979, to the German Patent Office as designated Office and subsequently notified to the German Patent Office that it had been elected as elected Office on October 2, 1979. The Patent Office sent to the applicants and to their Swedish agent, with the date October 3, 1979, a receipt stating the (German) application number.

By letter of March 26, 1980, received on March 29, 1980, the applicants' German agent notified his appointment, submitted various documents and announced the simultaneous remittance of the national "handling fee of 100 DM." On March 27, 1980, the Patent Office received a remittance for the amount of 10 DM in respect of this application, which was, under instruction of August 28, 1980, transfered back to the applicants' agent as a "not fully paid application fee.".

With its notification of October 23, 1980, the Patent Office notified the applicants' agent that, in accordance with Article 11(3) of the PCT, the effect of the international application for the Federal Republic of Germany had ceased (Article 39(2) PCT) since payment of the full national fee had not been made within the time limit laid down by Article 39(1) of the PCT.

The applicants paid a fee of 100 DM on November 5, 1980, in respect of this application and expressed the opinion that the time limit for paying the fee had not yet begun since the necessary communication had not been made by the Patent Office. According to Article 39(1) of the PCT, national law was to be applied in respect of the fee in those cases, such as in the Federal Republic of Germany, where it was charged. The receipt of the documents required for the national phase meant that a national patent-granting procedure had begun as was demonstrated by the fact that a German reference had been allotted which was undistinguishable from the purely national procedure. Article III,4 of the LIPT explicitly referred in respect of the application fee to Section 26(2), sentence 1, of the 1978 Patent Law and thus meant that the application was subject to national law and was not to be dealt with either better or worse than a purely German patent application. Section 26(2), sentence 2, of the 1978 Patent Law,

which is not explicity excluded, provided that, where the application fee was not paid, the Patent Office was to send a reminder of the payment. Such reminders were not foreign to the PCT either, as transpired from PCT Rules 57.4 and 57.5. The justification given to the draft of a law on international patent treaties (BlPMZ 1976, 322, 330) also assumed only that no reason existed to favor national applications resulting from international applications with respect to other national applications. In the case in point it must have been quite evident to the Examining Section dealing with the file that the payment of 10 DM only by a patent agent's office as an application fee must have been the result of a mistake or a clerical error. It would therefore have been more efficient in respect of procedure and also more appropriate to promoting the "PCT law" – and would not have been incompatible with the statutory requirements – if in this case the Patent Office had issued "an unofficial or official reminder" or a notification of the error. The radical application of the fiction of withdrawal without application of Section 26(2), sentence 2, of the 1978 Patent Law therefore constituted unwarranted stringency, particularly in view of the multiplicity of fees and payment time limits that have to be respected and variously evaluated under the different international treaties, which make the application of these treaties extremely difficult.

The applicants, in making the subsequent payment, had both requested reinstatement within the time limit for paying the application fee and advanced that their agent had erroneously omitted the figure "0" when completing the remittance form. This erroneous remittance had not become obvious until the notification was received from the Patent Office on October 23, 1980. The agent himself completed all remittances from the postal account that were sent from his office and there was therefore no possibility of anyone else checking on their correctness. Such a clerical error was therefore quite possible in view of the large number of remittances to be made although in his 18 years of practice as an agent no such slip had previously occurred.

In its decision of March 26, 1981, the Patent Office – Patent Division 01, PCT Section – decided with detailed grounds, to which reference is being made, that the effect of the international application in the Federal Republic of Germany provided for in Article 11(3) of the PCT had come to an end with the same implications as the withdrawal of a national application under Article 39(2) of the PCT and Article III,6(2) of the LIPT. At the same time the request for restituo in integrum was rejected.

An appeal was lodged on April 4, 1981, against the decision served on April 3, 1981, by the applicants who wished to pursue the application. They referred to their arguments advanced in the proceedings before the Patent Office and held that the requirements as regards due care should not be applied with excessive stringency and that in the given situation only such behavior could be demanded as was to be expected of any reasonable and economically thinking person. Even where the necessary care was generally exercised, hardly anyone could claim never to have made an error in writing. This applied most particularly to postal account remittances in which the amount to be remitted was entered solely in figures. It could indeed well happen, particularly where there were numerous other data, as in the case in point, that when entering a "100" one zero too few could be written.

The applicants requested that

the appealed decision be set aside;

the request filed for *restitutio in integrum* be granted.

II.

The appeal is admissible and is granted.

1. The admissibility of the appeal derives from Section 73(1) of the Patent Law. ...
2. The appeal has also been granted.

The incorrect designation of the section taking the decision is not held to be a procedural error that must lead to revocation. However, the request for *restituo in integrum* is justified since the contested decision is without substance.

(a) The Patent Office did, however, correctly base itself in the contested decision on the fact that the applicants had not respected the time limit of 25 months following the priority date resulting from Article III(6)(2) of the LIPT in conjunction with Article 39(1) of the PCT for payment of the application fee "under the first sentence of Section 26(2) of the Patent Law" – now Section 35(3), sentence 1, of the

Patent Law – (Article III,4(2) of the LIPT), with the result that the effect under Article 11(3) of the PCT came to an end with the same implications as the withdrawal of a national German application (Article 39(2), together with paragraph (1), of the PCT). The time limit of 25 months referred to following the priority date (March 2, 1978) came to an end on completion of April 2, 1980; the "application fee under the first sentence of Section 26(2) of the Patent Law" – now Section 35(3), sentence 1 – was not paid in full within the time limit. The full application fee (100 DM), paid on November 5, 1980, was received later.

Contrary to the opinion of the applicants, the consequence laid down in Article 39(2) of the PCT took effect automatically. It is true that Article 39(1)(b) of the PCT permits Contracting States to set time limits for the operations under subparagraph (a) (payment of the fee, in this case), that expire later than the time limits stipulated in paragraph 1(a). However, the Federal Republic of Germany has not availed itself of that possibility. The Law on International Patent Treaties, whose Article I approves the Patent Cooperation Treaty and whose Article III contains provisions on procedure under the PCT, comprises no ruling that explicitly makes use of the possibility offered under Article 39(1)(b) of the PCT. Article III,6(2) of the LIPT, in conjunction with paragraph 4(2), in fact stipulates that "the applicant shall, within the time limit provided for in Article 22(1) of the Patent Cooperation Treaty, pay the application fee under the first sentence of Section 26(2) of the Patent Law." In fact, it would have been more accurate to make a reference to Article 39(1)(a). This provision nevertheless says that the application fee is to be paid within a period of time beginning on the priority date and ending 25 months thereafter. The reference to Section 26(2), sentence 1, of the 1978 Patent Law merely says that the application fee is to be paid for the costs of the procedure and that the fee is based on the schedule (cf. Section 1 of the Patent Fees Law in conjunction with the annex to Section 1, item 111 100). The reference to Section 26(2), sentence 1, of the 1978 Patent Law in Article III,4, sentence 1, of the Law on International Patent Treaties has no significance beyond that. Since the latter provision requires the payment to be made within the time limit already mentioned, whereas the application fee under Section 26(2), sentence 1, of the 1978 Patent Law is to be paid "with the application," the applicants' opinion that Section 26(2), sentence 2, of the 1978 Patent Law on notification of fees is also applicable *mutatis mutandis* to international applications in the national phase before the German Patent Office as designated Office, is not correct. The differences already referred to in respect of payment of the application fee for an international application (time limit under the PCT determined by initial and final product) and the application fee for a national application ("with the application," i.e., only determining a starting point), prohibit application by analogy of the latter ruling to international applications; in the case of international applications it is not necessary, with regard to the stipulated time limit and the ruling contained in the PCT (Article 24(1) and Article 39(2)), to have a ruling corresponding to Section 26(2), sentence 2, of the 1978 Patent Law determining the point in time at which the consequences of the omitted payment of fees are to take effect (fiction of withdrawal).

Article III,4(2) and 6(2) of the Law on International Patent Treaties also means, however, that the legislator has also not availed himself in the LIPT of the possibility given in Article 39(3) of the PCT to maintain the effects of an international application despite failure to meet the time limits stipulated in the Treaty.

The time limit for paying the application fee for the international application was therefore missed with the result that the effects laid down in Article 11(3) of the PCT in accordance with Article 39(2) of the PCT ceased with the same consequences as for the withdrawal of a national application.

(b) However, these consequences have been removed by the granting of *restituo in integrum* as requested in respect of the payment time limit that was missed.

(aa) Whereas the Senate taking the decision has assumed in its unpublished decision of February 15, 1982, (4 W (pat) 19/81) that in such cases reinstatement under Article 48(2)(a) of the PCT is permissible in conjunction with Section 123 of the Patent Law, the Patent Office considers, that the possibility of reinstatement under national law is permissible on the basis of the provision contained in Article 24(2) of the PCT. Mention must first be made of the fact that, in the case in point, the Patent Office should have more correctly referred to Article 39(3) of the PCT to support its view. However, the showing of leniency where time limits have been missed, as provided for by Section 123 of the Patent Law, should not be included under the above mentioned provision of the Patent Cooperation Treaty. Article 48(2)(a) of the PCT, in particular, speaks against so doing since it explicitly commits each Contracting State, as far as it is concerned, to permit the possibility of reinstatement under its national law, i.e., the Treaty itself governs the question of leniency where time limits are exceeded in a specific way that commits the Contracting States and therefore the provisions of Article 24(2) and 39(3) of the PCT, which simply give

a possibility to the Contracting States of maintaining the effect of international applications despite certain defects, cannot be used as a reference. Since the provisions of the Treaty have become binding law for the Federal Republic of Germany as a result of the approval in Article I of the Law on International Patent Treaties, there is indeed no need for a reference to the regulation under Section 123 of the Patent Law in the LIPT. The fact that Chapter III of the Treaty "Common Provisions", and thus also Article 48, are probably only valid for the international phase, may not be deduced from the Treaty. Chapter III of the Treaty contains in Articles 43, 44 and 46 other provisions which—just as Article 48—are automatically effective for the national procedure.

(bb) The request for reinstatement is permissible under Article 48(2)(a) of the PCT and Section 123 of the Patent Law since the time limit for paying the application fee for the international application is to be complied with vis-à-vis the Patent Office and the failure to meet the time limit has the legal disadvantage, according to statutory provision (Article 39(2) of the PCT), that the effects of the international application come to an end with the same consequences as the withdrawal of a national application.

The request dated November 5, 1980, was filed in the correct form and, in particular, within the time limit since the applicants and their representative had received no knowledge, at least before September 5, 1980, that the time limit for making payment had been missed. The applicants advance that the mistake became known to them only on receipt of the corresponding notification from the Patent Office on October 30, 1980. Even if it is assumed that the representative of the applicants should have realized that there had been non-compliance when receiving the return remittance of the incompletely paid application fee, that point of time does not precede September 5, 1980, since the payment order was not given to the payment office until August 28, 1980, and the period of time needed for remittances through bank or post cheque accounts is well known.

The request is also admissible as regards its other features.

(cc) The request for reinstatement is granted as to substance.

The representative of the applicants, as expressed by the Senate in its decision of October 23, 1981 (BlPMZ 1982, 160 = Mitt. 1982, 112), was prevented without fault within the meaning of Section 123(1), sentence 1, of the Patent Law from complying with the limit for paying the application fee since he had observed all reasonable care required of a patent agent when representing the interests of his client that could be expected of him under the physical circumstances.

The representative of the applicants fully met these requirements in the case in point.

No human being can, as general experience teaches us, work with the precision and certainty of a machine at all times. The repeated writing down of figures, whose abstract nature does not recommend itself to the human mind since it lacks thought content, is therefore comparable with a "mechanical" activity and, correspondingly, there occur—even if particular care is taken these are not altogether avoidable—"inverted numbers" or other "slips of the pen" which change the intended content of the figures, e.g. mistakes in the tens column or the erroneous addition or omission of a digit. Such mistakes escape even the most thorough checking as can be seen in the practice of the monetary institutes in their balance statements. In this case therefore the Patent Office should not have considered that the error that had occurred in writing down the figures on the postal remittance form necessarily constituted a lack of care. If, as in this case, a patent agent fills out himself the remittance forms he, as the final person responsible, has no possibility of supervising this activity. If in such a case and despite a considerable workload of those activities normally carried out by a patent agent, as has been convincingly put forward here, no error occurs over numerous years, this would suggest that the due and called for care has been conscientiously exercised during the work. Such was the case here as may be deduced from the arguments put forward by the applicants with great or, as held by the Senate, sufficient probability.

3. In view of the above, the applicants should be reinstated as regards the time limit that was not complied with and the consequences of missing that time limit are hereby removed. The contested decision should have been revoked. The Patent Office will now continue processing the application; no special decision is required to that effect.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

This footnote is not part of Annex C of the Agreement

* Published in PCT Gazette No. 02/1978, pages 130 to 138.

(b) Conditions and extent of refunds of the "Search fee" where the search report can be wholly or partially based on the results of an earlier international, international-type or other search (Rules 16.3 and 41.1)

1.	The prior search was so complete that only a minor updating search is required	90% of the amount paid
2.	The prior search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1–3 additional IPC Subgroups	70% of the amount paid
3.	The prior search saves one half of the efforts usually made to carry out international search	40% of the amount paid
4.	The prior search applies only to a few IPC Subgroups	20% of the amount paid
5.	The prior search was of no value	no refund
6.	Where the earlier search has been carried out by the USSR State Committee for Inventions and Discoveries under the WIPO search program for developing countries or on request of member States of the CMEA, the extent of refund under item 1, above, is 50%, under item 2, above, is 40%, under item 3, above, is 25% and under item 4, above, is 10%, respectively."	

INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

Refunds of the Preliminary Examination Fee

The **USSR State Committee for Inventions and Discoveries** has informed the International Bureau under Rule 58.3 that, where the demand is considered as if it had not been submitted under Rule 57.4(c), Rule 58.2(c) or Rule 60.1(c), the following conditions and amounts for refund of the preliminary examination fee apply with effect from January 1, 1983:

Conditions for Making Refund: None

Amount of Refund: Amount paid less 25 Roubles.

PCT COMMITTTE FOR ADMINISTRATIVE AND LEGAL MATTERS

Second Session

(Geneva, April 25 to 29, 1983)

Note*

The PCT Committee for Administrative and Legal Matters (hereinafter referred to as "the Committee") held its second session in Geneva from April 25 to 29, 1983. All States party to the PCT as well as the International Searching Authorities and the International Preliminary Examining Authorities are members of the Committee.

The following members of the Committee were represented at the session: (i) twenty States members of the International Patent Cooperation Union (PCT Union), namely, Australia, Austria, Belgium, Brazil, Congo, Denmark, Finland, France, Germany (Federal Republic of), Hungary, Japan, Luxembourg, Netherlands, Norway, Soviet Union, Sri Lanka, Sweden, Switzerland, United Kingdom and United States of America; (ii) the European Patent Office (EPO), in its capacity as International Searching and Preliminary Examining Authority.

Representatives of Mexico, Spain, Trinidad and Tobago and Turkey participated in the session as observers.

Seven international non-governmental organizations were represented by observers: Asian Patent Attorneys Association (APAA), European Federation of Agents of Industry in Industrial Property (FEMIPI), Institute of Professional Representatives Before the European Patent Office (EPI), International Association for the Protection of Industrial Property (AIPPI), International Federation of Industrial Property Attorneys (FICPI), Union of European Practitioners in Industrial Property (UEPIP) and Union of Industries of the European Community (UNICE).

The list of participants follows this Note.

It is recalled that the Assembly of the PCT Union, at its seventh session, held in Geneva from June 29 to July 3, 1981, asked the International Bureau to carry out a study of possible improvements to the Patent Cooperation Treaty, particularly the PCT Regulations (see PCT Gazette No. 19 of August 16, 1981, pages 1779 to 1783).

The study carried out by the International Bureau resulted in proposals to modify two time limits in the Treaty and more than 40 Rules of the Regulations. The Committee considered those proposals and advised the International Bureau on them at its first session, held in Geneva from September 6 to 10, 1982 (see PCT Gazette No. 26 of October 28, 1982, pages 2976 to 2978).

The International Bureau prepared for the second session of the Committee a revised set of proposals which took into account the recommendations of the participants of the Committee at its first session. The revised set of proposals concerning the transfer of some Rules or parts of Rules to the Administrative Instructions of the PCT.

In its second session, the Committee considered the said revised proposals and advised the International Bureau on them. In that session, it concluded its work on the proposed amendments to certain time limits in the Treaty and to the Regulations under the PCT. However, the proposed modifications to the Administrative Instructions could not, because of lack of time, be discussed in detail, and it was understood that further consultations would take place before their promulgation.

A further revised set of proposals will be prepared by the International Bureau on the basis of the recommendations of the Committee. It will also contain proposals for transitory provisions for the entry into force of certain proposed amendments which would require in some of the Contracting States an amendment to the national law.

The Assembly of the PCT Union will be convened for an extraordinary session in Geneva early in 1984 for decisions about the adoption of the proposed amendments and their entry into force. Questions of special interest to developing countries will also be dealt with at that session.

NOTICES AND INFORMATION OF A GENERAL CHARACTER

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

INTERNATIONAL SEARCHING AUTHORITIES

Agreement Between the United States Patent and Trademark Office and the International Bureau of WIPO *

AMENDMENT TO ANNEX C

The United States Patent and Trademark Office has notified the International Bureau of WIPO of certain drafting changes clarifying the text of Annex C** of the Agreement which is effective since October 1, 1982. The new text is published below:

"ANNEX C

SCHEDULE OF FEES AND EXTENT AND CONDITIONS OF REDUCTIONS OR REFUNDS OF THE SEARCH FEE FOR THE PURPOSES OF ARTICLE 7 OF THE AGREEMENT

(a) Fees

Search Fee

(i) where no corresponding prior U.S. national application with basic filing fee has been filed $500.00

(ii) where a corresponding prior U.S. national application with basic filing fee has been filed $250.00

Supplemental Search Fee (per additional invention) $125.00

Preparation of an International-Type Search Report in a U. S. national application $25.00

(b) Extent and Conditions of Refunds of the Search Fee

(i) Money paid for Search Fees, where paid by actual mistake or in excess, will be refunded.

(ii) A refund of $250.00 may be made where a Search Fee has been paid on the corresponding international application to the Authority, if requested at the time of paying the national fee.

(iii) Refund of the Supplemental Search Fee will be made if such refund is determined to be warranted by the Commissioner of Patents and Trademarks or his designee acting under Rule 40.2(c).

(iv) The Search Fee will be refunded if the determination under Article 11(1) is negative."

These footnotes are not part of Annex C of the Agreement referred to above:

** Published in PCT Gazette No. 21/1982, page 2359.

INTERNATIONAL BUREAU

Non-Working Days

For the purpose of computing time limits under Rule 80.5* the days on which the International Bureau is **not open for business** are, for the period from October 1, 1983 to October 1, 1984, the following:

(a) in the last three months of **1983:**

all Saturdays and Sundays and December 26, 27 and 30

(b) in the first nine months of **1984:**

all Saturdays and Sundays and
January 2
April 20 and 23
May 31
June 11
September 6

It is important to note that the days indicated above concern **only the International Bureau** and not the national Offices and other international organizations.

---

* Rule 80.5 *Expiration on a Non-Working Day*

"If the expiration of any period during which any document or fee must reach a national Office or intergovernmental organization falls on a day on which such Office or organization is not open to the public for the purposes of the transaction of official business, or on which ordinary mail is not delivered in the locality in which such Office or organization is situated, the period shall expire on the next subsequent day on which neither of the said two circumstances exists."

SECTION IV

NOTICES AND INFORMATION OF A GENERAL CHARACTER

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION (PCT UNION)

ASSEMBLY

Tenth Session
(3rd Ordinary)
(Geneva, September 26 to October 4, 1983)

Note*

The Assembly of the International Patent Cooperation Union (PCT Union) held its tenth session (3rd ordinary) in Geneva from September 26 to October 4, 1983, within the framework of the fourteenth series of meetings of the Governing Bodies of the World Intellectual Property Organization (WIPO) and the Unions administered by WIPO.

Twenty-six of the 33 Contracting States were represented at the session: Australia, Austria, Belgium, Brazil, Cameroon, Democratic People's Republic of Korea, Denmark, Finland, France, Germany (Federal Republic of), Hungary, Japan, Liechtenstein, Luxembourg, Madagascar, Monaco, Netherlands, Norway, Romania, Senegal, Soviet Union, Sri Lanka, Sweden, Switzerland, United Kingdom and United States of America.

A number of other States, of intergovernmental organizations and of international non-governmental organizations participated in the session as observers.

New amounts of fees set out in the Schedule of Fees annexed to the PCT Regulations were fixed by the Assembly as from January 1, 1984. They are, in Swiss francs, approximately 10% higher than the fees applicable in 1983. The amended Schedule of Fees appears on page 2756. The equivalent amounts in other currencies, established on the basis of the exchange rates applicable in Switzerland on September 26, 1983, are published on page 2757.

The Assembly of the PCT Union also made the following decisions:

(i) The working capital fund of the PCT Union is hereby established; its amount will be 2,000,000 francs to be covered by instalments of 500,000 francs each year, payable on July 1 of 1984, 1985, 1986, 1987; the amount that each State member of the PCT Union will pay each year will be in the same proportion to 500,000 francs as the number of international applications filed by residents of that State in the preceding year is to the total number of international applications filed in that (that is, the preceding) year.

(ii) The possible need for a working capital fund in excess of 2,000,000 francs will be examined during the next (1985) ordinary session of the Assembly of the PCT Union in the light of the report of the Director General and any views expressed by the WIPO Budget Committee on the question.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER (INTERNATIONAL, INTERNATIONAL-TYPE OR OTHER) SEARCH *

International Searching Authority	Conditions for Making Refund	Amount of Refund
Australia		
Australian Patent Office *(PCT Gazette No. 09/1980, pages 599 to 605)*	The Authority benefits from the earlier search report to the full extent or to a substantially prevailing portion	75 %
Austria		
Austrian Patent Office *(PCT Gazette No. 06/1979, pages 217 to 223)*	The Authority benefits from the earlier search report to the full extent or to a substantially prevailing portion	75 %
Japan		
Japanese Patent Office *(PCT Gazette No. 04/1978, pages 213 to 221)*	(1) Request for refund by applicant and (2) Authority has been able to make use of a considerable part of the earlier search report	12,000 yen
Soviet Union		
USSR State Committee for Inventions and Discoveries *(PCT Gazette No. 02/1978, pages 130 to 138)*	The earlier search was so complete that only a minor updating search is required or	90 %
	The earlier search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1-3 additional IPC-Subgroups or	70 %
	The prior search saves one half of the efforts usually made to carry out international search or	40 %
	The prior search applies only to a few IPC-Subgroups	20 %

* This table summarizes the circumstances in which, and the extent to which, each of the International Searching Authorities will refund to the applicant the search fee paid when the international search can be based, either wholly or in part, on an earlier (international, international-type or other) search carried out by that Authority. The table summarizes what is stated in this respect in the Agreements between WIPO and each of the said Authorities (each such Agreement is indicated below the name of the Authority concerned by the reference to the PCT Gazette in which it was published). Relevant additional information is set out in the notes at the foot of this table. The making of the refunds according to the Agreements mentioned above is provided for in Rules 16.3 and 41.1 of the Regulations under the PCT.

Refunds of the Search Fee by the International Searching Authorities in the Case of Earlier (International, International-type or Other) Search (Continued)

International Searching Authority	Conditions for Making Refund	Amount of Refund
Sweden		
Royal patent and Registration Office (Stockholm) *(PCT Gazette No. 02/1978, pages 116 to 124)*	The Authority benefits from the earlier search report	90 % 75 % 50 % or 25 % depending on the extent of benefit
United States of America		
United States Patent and Trademark Office *(PCT Gazette No. 02/1978, pages 139 to 145)*	A determination by the examiner that one of the following criteria has been met:	
	(1) The earlier search was substantially complete; only an updating search or short search was required	90 %
	(2) The earlier search was of some significant benefit but not enough to justify a 90 % refund	45 %
European Patent Organisation		
European Patent Office *(PCT Gazette No. 02/1978, pages 107 to 115)*	The Authority benefits from the earlier search report	100 % 75 % 50 % or 25 % depending on the extent of benefit

Notes

(1) ***United States Patent and Trademark Office.*** A search of the prior art in an earlier national (US) application is regarded as an international-type search in determining whether a refund shall be made. Refunds are also made according to the same criteria and the same percentages of the search fees paid in respect of international applications where the prior art searches made during the subsequent examination of national (US) applications are wholly or partly based on (earlier) international searches made in the international applications.

(2) ***European Patent Office.*** Searches are accepted as international-type searches for the purposes of making refunds when made by the European Patent Office

(i) on (an earlier) European patent application;

(ii) on (an earlier) national application in France, the Netherlands and Switzerland;

(iii) as a privately commissioned "standard" search on (an earlier) application; and the priority of the earlier application is claimed in the subsequent international application.

Refunds of the Search Fee by the International Searching Authorities in the Case of Earlier (International, International-type or Other) Search (Continued)

Notes (Continued)

The following criteria have been adopted for determining the amount of the refund of the search fee:

- 100 % refund: no supplementary search performed;
- 75 % refund: supplementary search performed in documentation relating to one or more sub-divisions consulted in the earlier search *or* extended to one or more sub-divisions not yet consulted;
- 50 % refund: supplementary search performed in the documentation relating to one or more sub-divisions already consulted *and* extended to one or more sub-divisions not yet consulted;
- 25 % refund: supplementary search performed in documentation relating to sub-divisions concerning a new aspect of the invention claimed. (For instance, cases where the European application is based on several earlier applications only one of which was the subject of an earlier search report.)

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER PCT, ARTICLE 20

United States of America

United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO PCT, ARTICLE 45(2)

Belgium and *France* are the only States party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national laws of which provide that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 2(3) of the Belgian law of July 8, 1977, approving the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"(3) Any designation or any election (if any) of Belgium in an international application is considered as the indication of the indication that the applicant wishes to obtain a European patent under the European Patent Convention."

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE NEED OF INDICATING THE INVENTOR AS APPLICANT FOR THE PURPOSES OF THE UNITED STATES OF AMERICA

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The *United States of America* is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

"111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

"115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular office of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

"116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

"117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

"118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes."

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

"373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application."

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH REFERRED TO IN PCT, ARTICLE 15(5)

Australia, Denmark, Finland*, Hungary, the Netherlands, Norway*, Sweden, Switzerland and the United States of America are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Australia

Regulation 87 of the Patents Regulations and Section 30 of the Patents Act (1952 - 1973) read as follows:

Regulation 87 of the Patents Regulations

.....

(2) Where the Commissioner provides information under Section 30 of the Act to an applicant for a patent and where the provision of that information entails an international-type search referred to in Article 15(5) of the Treaty, the fee payable in respect of the furnishing of that information is $ 300.

.....

(4) In this regulation "an applicant for a patent" means a person who –

(a) after the commencement of these Regulations, makes an application for patent other than an international application; and

(b) requests, within 3 months of making his application for a patent, that information be provided to him by the Commissioner under Section 30 of the Act.

Section 30 of the Patents Act

The Commissioner may, subject to this Act, furnish information as to a matter affecting or relating to –

(a) a patent;

(b) an application for a patent which is open to public inspection; or

(c) any other document, abridgment, specification or publication in the Patent Office or the Library of the Patent Office.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in a accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15 (5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

---

* The provisions of the national law relating to international-type search of this State are similar to those of the Swedish Patent Act and therefore are not reproduced here.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patent Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a tranlation of the application in a language prescribed by the patent authority.

(2) If the applicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Hungary

Article 8 of Decree No. 29/1980/July 29 of the Council of Ministers on the Implementation of Decree Law No. 14 of 1980 on the Promulgation of the Patent Cooperation Treaty reads as follows (text provided by the National Office of Inventions, Budapest):

Article 8 of the Decree

(1) In connection with a regular Hungarian application duly filed with the National Office of Inventions -under Article 15(5)(a) of the Treaty- the applicant may request that an international-type search be carried out. The search shall be carried out -under Article 15(5)(c) of the Treaty- by the International Searching Authority competent for carrying out the international search on international applications filed with the National Office of Inventions as a receiving Office.

(2) One copy of the translation of the Hungarian application prepared by the applicant in the prescribed language, the formal requisites of which meet the requirements prescribed for the international applications, shall be promptly sent by the National Office of Inventions to the competent International Searching Authority, with the transfer of the search fee paid by the applicant concurrently with filing the request.

Netherlands

Section 22 I of the Patents Act as revised in 1978 and Section 17 (5) of the Patents Rules as revised in 1979 (both entered into force on February 1, 1979) read as follows (text provided by the Netherlands Patent Office, Rijswijk):

Section 22 I of the Act

(1) Where the applicant so requests in writing, the Patent Office shall make a search of the state of the art in respect of that which is to be considered the subject matter of the application by virtue of the provisions by or under Section 5A.....

.....

(3) If the applicant so requests in writing, the Patent Office shall cause the application to be subjected to an international-type search as provided for in Article 15 (5) *(a)* of the Patent Cooperation Treaty. Such a search shall be deemed to be a search of the state of the art as referred to in paragraph (1).

(4) Upon the filing of a request as provided for in paragraphs (1), (2) or (3), a fee to be prescribed by Order in Council of the Realm shall be payable.

.....

Section 17 (5) of the Rules

(5) The fee payable by virtue of respectively Article 22 G (1), 22 H (1), 22 I (4), and (9), and 22 J (1), of the Patents Act of the Kingdom on the filing of a request as referred to in those Articles shall be:

.....

in the case of a request for the institution or continuation of a search into the state of the art or of a request that an international-type search be carried out on an application: Fls. 1,100.–;

.....

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15 (5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the date on which the patent application is filed, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX: International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15 (5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121 (2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

United States of America

Sections 1.104(c) and (d) and 1.21(w) of the Code of Federal Regulations, Title 37 - Patents, Trademarks, and Copyrights, Subchapter A - General, Patents, Part I - Rules of Practice in Patent Cases, read as follows:

1.104 Nature of examination; examiner's action

.....

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See paragraph 1.21(w) for amount of fee for preparation of international-type search report.

Note. The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

1.21 Patent and miscellaneous fees and charges

.....

(w) For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application - $ 25.

Note. The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application.

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

German Patent Office

National fee. The applicant is **not required to pay** the national (filing) fee to the German Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Fee for requesting examination. The fee for requesting examination of an application for a patent, which the applicant is required to pay to the German Patent Office, **is reduced** to 250 Deutsche Mark (from 400 Deutsche Mark) when an international search report has been established in respect of his application (as an international application designating the Federal Republic of Germany for the purposes of a national patent).

Ministry of National Economy, Patent Office (Luxembourg)

National fee. The applicant is **not required to pay** the national (filing) fee to the Patent Office when it is the designated Office if the international application was filed with that Office as receiving Office.

Ministry of State, Patent Office (Monaco)

National fee. The applicant is **not required to pay** the national (filing) fee to the Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

National Office of Inventions (Hungary)

National fee. The applicant is **not required to pay** the national (filing) fee to the National Office of Inventions when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Netherlands Patent Office

Fee for requesting search. A **refund of 25%, 50%, 75% or 100%** of the fee paid for requesting search is given if an international search report has been annexed to the international application, the amount of refund depending on the extent to which the Netherlands Patent Office benefits from that international search report.

United Kingdom Patent Office

Under Rule 102 of The Patents Rules 1978, the applicant may, in the circumstances mentioned below, request in writing the **refund of the whole or part** of the following fees:

The search fee (corresponding to Patents Form 9/77) - when the application was (as an international application designating the United Kingdom for the purposes of obtaining a national patent) the subject of an international search by the International Searching Authority.

The fee for substantive examination (corresponding to Patents Form 10/77) – where the application was (as an international application designating the United Kingdom) the subject of international preliminary examination carried out by the United Kingdom Patent Office in its capacity as International Preliminary Examining Authority.

The making of a refund (if any) following such a request is always at the discretion of the Comptroller-General.

European Patent Office

Search fee *. By virtue of decisions taken pursuant to Article 157 of the European Patent Convention, the search fee otherwise payable to the European Patent Office in respect of an application for a European patent

i) **is not payable** to the European Patent Office if an international search report was prepared in respect of the application (as an international application filed under the PCT) by that Office, or by the Austrian or Swedish Patent Offices;

ii) **is reduced by 20 %** if an international search report was prepared in respect of the application (as an international application filed under the PCT) by the Australian Patent Office, the Japanese Patent Office, the United States Patent and Trademark Office, or the USSR State Committee for Inventions and Discoveries.

Examination fee **. By virtue of Rule 104 (b) (5) of the Implementing Regulations to the European Patent Convention and Article 12 (2) of the Rules relating to fees, the examination fee payable to the European Patent Office in respect of an application for a European patent **is reduced by 50 %** when an international preliminary examination report was drawn up by that Office in respect of the application (as an international application under the PCT in respect of which a demand for international preliminary examination was submitted to that Office).

DESIGNATION (OR ELECTION) OF MADAGASCAR

According to information received from the Minister for Foreign Affairs of Madagascar concerning international applications designating Madagascar, the draft industrial property legislation, submitted to the competent authorities, provides, among other things, for the prolongation of the time limits under Articles 22 and 39 until the time at which the new patent legislation will, after its entry into force, permit the processing of patent applications in Madagascar. After the publication of the new law, the said prolonged time limits will be fixed by the competent authorities. The Government of Madagascar has expressed the desire that this information be conveyed to applicants using the PCT system and designating or electing Madagascar, or intending to do so, so that they may take cognizance of the possibility thus offered to them to validly designate or elect Madagascar and to wait with the action required to start the national phase under Articles 22 and 39 until after the new legislation has entered into force and the time limits to be observed under it have been determined.

Footnotes

(1) The Office concerned is an industrial property office within the meaning of the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure. Accordingly, deposits may be made with any depositary institution having acquired the status of international depositary authority under the said Treaty (these institutions are notified from time to time in "Industrial Property" published by WIPO).

(2) *The German Patent Office* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any scientifically recognized institution at home and abroad" and that includes all institutions published in this Gazette.

(3) *The Hungarian National Office of Inventions* has informed the International bureau that, for the purposes of patent procedure before that Office, deposits may be made with (in addition to the institution identified in the listing) "any internationally well-known depositary institution." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(4) *The USSR State Committee for Inventions and Discoveries* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any depositary institution." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(5) *The United Kingdom Patent Office* has informed the International Bureau that for the purposes of patent procedure before that Office deposits may be made with (in addition to the institutions identified in the listing) "any depositary institution anywhere in the world." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(6) *The United States Patent and Trademark Office* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any foreign or domestic depository obligated by law, treaty or contract to accept, store and release specimens under the condition specified in the United States jurisprudence." A listing of all institutions recognized by the said Office as coming within that description will be published when received from that Office.

(7) *The United States Patent and Trademark Office* has informed the International Bureau that if the same indications are not also included in an earlier application the priority of which is claimed, the priority of the earlier application will be not accorded, in the national processing of the application.

(8) *The European Patent Office* has informed the International Bureau that, if the applicant wishes that, until the publication of the mention of the grant of a European patent or until the date on which the application is refused or withdrawn or is deemed to be withdrawn, the microorganism shall be made available as provided in Rule 28(3) of the Implementing Regulations under the European Patent Convention only by the issue of a sample to an expert nominated by the requester (Rule 28(4) of the said Implementing Regulations), the applicant must inform by a written statement the International Bureau accordingly before completion of technical preparations for publication of the international application. Such statement must be separate from the description and the claims of the international application and must preferably be made on the Form PCT/RO/134, referred to in Section 209 of the Administrative Instructions under the PCT.

LIST OF DESIGNATED (OR ELECTED) OFFICES WHOSE NATIONAL LAW CONTAINS NO PROVISION RELATING TO THE DEPOSIT OF MICROORGANISMS

Contracting State	**Name of Office**
Australia:	Australian Patent Office
Austria:	Austrian Patent Office (1)
Brazil:	National Institute of Industrial Property
Democratic People's Republic of Korea:	Inventions Committee
Denmark:	Patent and Trademark Office (2)
Finland:	National Board of Patents and Registration (3)
Luxembourg:	Ministry of National Economy, Patent Office
Madagascar:	Ministry of Industry and Commerce, Department of Industry and Mines
Malawi:	Ministry of Justice, Department of the Registrar-General
Monaco:	Ministry of State, Patent Office
Norway:	Norwegian Patent Office
Romania:	State Office for Inventions and Trademarks (4)
Intergovernmental Organization:	African Intellectual Property Organization

Notes

(1) The Office concerned has informed the International Bureau that, while the present national law does not provide for deposits of microorganisms, that law does not contain any prohibition of such deposits.

(2) The Office concerned has informed the International Bureau that the national law "does contain provisions requiring in certain cases the deposit of microorganisms. These provisions, however, are not yet in force". At present the "Danish Regulations only stipulate that in certain cases deposits of microorganisms are useful and desirable".

(3) The Office concerned has informed the International Bureau that the Office does not require "but only strongly recommend[s] deposits of the microorganisms which are not available to the public and which belong to the inventions under consideration".

(4) The Office concerned has informed the International Bureau that the national legislation includes no provision concerning depositary institutions but practically the Office "recognizes deposits with specialized institutions in the Contracting State or abroad accessible to any interested physical or juristic person".

PRIORITY DOCUMENTS: ENFORCEMENT OF TIME LIMIT FOR SUBMISSION

Offices Which (as Designated or Elected Offices) Disregard the Priority Claim Where the Applicant Fails to Observe the Time Limit (Expiring at the End of the 16th Month from the Priority Date of the International Application) with Regard to Submission of the Priority Document

USEFUL INFORMATION CONCERNING PRACTICES OF NATIONAL (AND REGIONAL) OFFICES

PRACTICE WHICH UNITED STATES PATENT AND TRADEMARK OFFICE ACCEPTS IN CASES WHERE THE UNITED STATES OF AMERICA IS DESIGNATED AND THE INVENTOR IS UNAVAILABLE OR UNWILLING TO SIGN THE INTERNATIONAL APPLICATION

International Phase

The patent law of the United States of America requires that, for the purpose of the designation of that State, the applicant(s) must be the inventor(s). If such condition is not fulfilled, the designation of the United States of America will be considered not to have been made and the international application will be rejected by the United States Patent and Trademark Office as designated Office (Article 27(3) and Rule 18.4(b)).

Where an inventor is unavailable for a period which does not exceed the time limit under Rule 26.2, the international application can be filed without his signature. The lack of the inventor's signature or of a power of attorney signed by him is a correctable defect under Article 14(a)(i) and (b) and can be remedied by filing a copy of the request (or, where the request has been signed by an agent, of a power of attorney) duly signed by the inventor within the above mentioned time limit.

Where the signature of the inventor cannot be obtained within the time limit under Rule 26.2, or where he is unwilling to sign the request for an international application for the purpose of the designation of the United States of America the following applies:

(i) Where a *joint inventor* refuses to join in an international application which designates the United States of America or cannot be found or reached after diligent effort, the international application may be signed by the other inventor(s) on behalf of himself (themselves) and the non-signing inventor.

(ii) Where a *sole inventor* refuses to sign an international application which designates the United States of America or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, may sign the international application on behalf of and as agent for the inventor. This would also obtain in the case where all joint inventors refuse to sign or cannot be found or reached after diligent effort.

In both cases, the person who files the international application (and signs the request or a separate power of attorney) shall be considered the "other representative" under Rule 2.1.

Where the inventor is unwilling to sign or is unavailable, his representative must furnish an explanatory statement as to why the request form or the power of attorney was not signed by the inventor for the purposes of the designation of the United States of America. Such statement must be furnished together with the request form or within the time limit set by the receiving Office under Rule 26.2 for the correction of the defect under Article 14(1)(a)(i) and PCT Rules 4.15 or 90.3 (lack of signature of the inventor on the request form or lack of separate power of attorney signed by the inventor, where the request form has been signed by an agent). Such statement must, in case of lack of signature of a sole or joint inventor (cases (i) and (ii) above) indicate the last known address of the non-signing inventor(s). Where the representative is not a joint inventor the said statement must state the fact that the inventor's representative has a sufficient proprietary interest in the invention to make an application for patent and that such action is necessary to preserve the rights of the parties or to prevent irreparable damage.

National Phase

When the international application enters the national phase in the United States Patent and Trademark Office (Articles 22(1) and 23), and the inventor is unwilling to sign or cannot be found or reached after diligent effort, the oath or declaration required from the inventor must be made by the person ("the other representative" under Rule 2.1) making the application for the non-signing inventor referred to under cases (i) and (ii) above, and must be accompanied by proof of the pertinent facts and state the last known address of the non-signing inventor. In case (ii) above, in addition to the requirements of the previous sentence, proof must also be submitted that such action is necessary to preserve the rights of the parties or to prevent irreparable damage. The assignments, written agreement to assign or other evidence of proprietary interest, or a verified copy thereof, must also be filed in the United States Patent and Trademark Office.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

(c) The obligation of the International Authorities to use, or require the use of, the mandatory Forms is subject to the following provisos:

(i) slight variations in layout necessary in view of the printing of such Forms in various languages are permitted;

(ii) in all Forms, other than those for the request, the international search report, the demand and the international preliminary examination report, slight variations in layout, to the extent necessary to meet the particular office requirements of the International Authorities, are permitted as well;

(iii) where the receiving Office, the International Searching Authority and/or the International Preliminary Examining Authority are each part of the same Office, the obligation to use the mandatory Forms does not extend to communications within that same Office;

(iv) the annexes to Forms PCT/RO/106, PCT/ISA/215 and PCT/IB/313 may be omitted in cases where they are not used;

(v) the mandatory character of the Forms referred to in paragraph *(b)* does not extend to the Notes attached to them.

(d) The use of Forms annexed to these Administrative Instructions other than those referred to in paragraph *(b)* is optional.

Section 103

Languages of the Forms

(a) The language of the Forms used by any receiving Office shall be the same as the language in which the international application is filed, provided that the receiving Office may, in its communications to the applicant, use any other language being one of its official languages.

(b) The language or languages of the Forms to be used by any International Searching Authority shall be specified in the applicable agreement referred to in Article 16(3)*(b)*.

(c) The language or languages of the Forms to be used by any International Preliminary Examining Authority shall be specified in the applicable agreement referred to in Article 32(3).

(d) The language of any Form used by the International Bureau shall be English where the language of the international application is English, and it shall be French where the language of the international application is French. Where the language of the international application is neither English nor French,

* Forms for use by receiving Offices, International Searching Authorities and International Preliminary Examining Authorities.

** Forms sent to applicants, on matters subject to review or further processing by International Authorities.

the language of any Form used by the International Bureau in its communications to any other International Authority shall be English or French according to the wishes of such Authority, and in its communications to the applicant it shall be English or French according to the wishes of the applicant.

Section 104

Language of Correspondence from the Applicant

(a) The language of any letter from the applicant to the receiving Office shall be the same as the language of the international application to which such letter relates. However, the receiving Office may expressly authorize the use of any other language.

(b) The language of any letter from the applicant to the International Bureau shall be English where the language of the international application is English, and it shall be French where the language of the international application is French. Where the language of the international application is neither English nor French, the language of any letter from the applicant to the International Bureau shall be English or French at the choice of the applicant.

Section 105

Several Applicants

Where any international application indicates as applicants several persons, it shall be sufficient, for the purpose of identifying that application, to indicate, in any Form or correspondence relating to such application, the name of the applicant first named in the request.

Section 106

Common Agent for Several Applicants

(a) In the case of several applicants, any agent designated under Rule 4.7 in the request signed by all the applicants, or appointed under Rule 90.3 in a separate power of attorney signed by all the applicants, shall be considered a common agent.

(b) Where the international application is filed with reference to a general power of attorney not signed by all the applicants, it shall be sufficient for the purpose of appointment of a common agent under Rule 90.3, if the request or a separate power of attorney is signed by the applicant, who did not sign the general power of attorney.

Section 107

Identification of International Authorities

(a) Whenever the nature of any communication from or to the applicant or from or to any International Authority so permits, any International Authority may be indicated in the communication by the two-letter code as appearing in *Annex B.*

(b) Where the International Authority is a receiving Office, an International Searching Authority or an International Preliminary Examining Authority, indication thereof shall be preceded by the letters "RO," "ISA," or "IPEA," respectively, followed by a slant (e.g., "RO/JP," "ISA/US," "IPEA/SU").

Section 108

Correspondence Intended for the Applicant

(a) Any correspondence from an International Authority intended for the applicant, or, in the case of several applicants, the applicants, shall be addressed as follows:

(i) Where the applicant has designated or appointed one agent, correspondence shall be addressed to that agent. Where, in the case of several applicants, the applicants are represented by a common representative or a common agent, correspondence shall be addressed to that representative or that agent.

(ii) Where the applicant has designated several agents in the request, correspondence shall be addressed to the agent first mentioned therein. Where, in the case of several applicants, the applicants have designated several common agents in the request, correspondence shall be addressed to the common agent first mentioned therein.

(iii) Where the applicant has appointed several agents in one or more separate powers of attorney, correspondence shall be addressed to the agent first mentioned in the earliest filed and still valid separate power of attorney. Where, in the case of several applicants, the applicants have appointed several common agents in one or more separate powers of attorney, correspondence shall be addressed to the common agent first mentioned in the earliest filed and still valid separate power of attorney.

(b) Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request Form, provided this reference does not exceed ten characters.

Section 109

Notification of Authorization or Refusal of Rectification

Any International Authority which authorizes or refuses rectification of obvious errors of transcription under Rule 91 shall promptly inform the applicant of such authorization or refusal and, in the case of refusal, of the reasons therefor.

Section 110

*Dates**

Any date in the international application, or used in any correspondence emanating from International Authorities relating to the international application, shall be indicated by the Arabic number of the day, by the name of the month, and by the Arabic number of the year. The receiving Office, where the applicant has not done so, or the International Bureau, where the applicant has not done so and the receiving Office fails to do so, shall, after or below any date indicated by the applicant in the request, repeat the date, in parenthesis, by indicating it by two-digit Arabic numerals each for the number of the day, for the number of the month and for the last two numbers of the year, in that order and with a period after the digit pairs of the day and of the month (for example, "30 March 1978 (30.03.78)").

Section 111

Changes in Certain Indications in the Request and the Demand

Any request for the recording of any changes referred to under Rule 92*bis* shall be signed by the applicant or, if the receiving Office requested such change, by the receiving Office. The request shall clearly identify the indications the change of which is requested.

* This system of indication of dates is based on the WIPO standards whereas the ISO standards provide for the reverse sequence of data. If the use of the ISO standards should become more common practice in the industrial property field, this Section will be reviewed.

PART 2

INSTRUCTIONS RELATING TO THE INTERNATIONAL APPLICATION

Section 201

Names of States: Cancellation of Designations

(a) The name of any State referred to in the request shall be indicated either by the full name of the State or by a generally accepted short title which, if the indications are in English or French, shall be as appears in *Annex A*. If the name is inserted in the request by the applicant for the purpose of designating that State, the receiving Office, or the International Bureau where the receiving Office fails to do so, shall insert, preferably before the name of the State, the two-letter country code identifying the State, as appears in Annex B.

(b) The receiving Office shall cancel *ex officio* the designation of States other than Contracting States, and inform the applicant promptly of such action. If the international application has already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify promptly that Bureau and that Authority. In any event, the International Bureau shall, where the receiving Office fails to do so, cancel *ex officio* the designation of States other than Contracting States and inform the applicant, the receiving Office and the International Searching Authority promptly of such action.

Section 202

Kind of Protection

(a) Where the applicant wishes his application to be treated in any designated State as an application not for a patent but for the grant of another kind of protection referred to in Article 43, he shall make the indication in the request referred to in Rule 4.12*(a)* by inserting the words "inventor's certificate," "utility certificate," "utility model" (or "petty patent" for Australia), "patent of addition," "certificate of addition," "inventor's certificate of addition" or "utility certificate of addition," or their equivalent in the language of the international application, immediately after the indication of the said State.

(b) Where, in respect of the designation of the Federal Republic of Germany, the applicant is seeking two kinds of protection under Article 44, he shall make the indication referred to in Rule 4.12*(b)* by inserting, immediately after the indication of the Federal Republic of Germany and in the language of the international application, one of the two following indications:

(i) "and utility model";

(ii) "and auxiliary utility model."

Section 203

Regional Patents

(a) If the applicant wishes to obtain a regional patent in respect of any designated State and the request forms does not contain preprinted indications permitting the applicant to make the indication in the request referred to in Rule 4.1 *(b)*(iv), the applicant shall make the said indication by inserting the words "regional patent," or their equivalent in the language of the international application, immediately after the indication of the said State or, where an indication has been made under Section 202, after that indication, provided that:

(i) where Article 4(1)(ii), third clause, applies, and not all the States party to the regional treaty have been designated, the international application shall be treated as if all those States had

been designated and as if the designations of all such States contained the said words, whether the said designations contained an indication of the wish to obtain a regional patent or, according to Article 4(1)(ii), fourth clause, are to be treated as containing such indication;

(ii) where the national law of any designated State contains a provision as referred to in Article 45(2), the International Bureau shall, according to Article 4(1)(ii), fourth clause, treat the designation as if it contained the said words even where the applicant failed to indicate them.

(b) The applicant may, instead of the words "regional patent" referred to in paragraph (1), use other words to the same effect; such words may include a reference to a patent to be granted by the European Patent Office under the Convention on the Grant of European Patents done at Munich on October 5, 1973 ("European patent"), where the regional patent which the applicant wishes to obtain is a European patent.

(c) An indication, in respect of the designation of Liechtenstein or Switzerland, or both, of the wish to obtain a regional patent shall be taken as indicating a wish to obtain a European patent in respect of those States, whereas the absence of any indication of the wish to obtain a regional patent in respect of such a designation shall be taken as indicating a wish to obtain a patent granted by the Swiss Intellectual Property Office in respect of those States.

Section 203bis

National and Regional Patents

Where the request of the international application contains a designation of a Contracting State without an indication of the wish to obtain a regional patent and also a designation of the same Contracting State with an indication of the wish to obtain a regional patent and the national law of the Contracting State does not contain a provision referred to in Article 45(2), the receiving Office shall calculate the designation fees on the basis that a separate fee is payable in respect of the designation of the Contracting State in addition to the designation fee payable in respect of that Contracting State as a Contracting State or as one of a group of Contracting States for which a regional patent is sought.

Section 204

Headings of the Parts of the Description

The headings referred to in Rule 5.1 *(c)* should be as follows:

(i) for matter referred to in Rule 5.1 *(a)*(i), "Technical Field";

(ii) for matter referred to in Rule 5.1 *(a)*(ii), "Background Art";

(iii) for matter referred to in Rule 5.1 *(a)*(iii), "Disclosure of Invention";

(iv) for matter referred to in Rule 5.1 *(a)*(iv), "Brief Description of Drawings";

(v) for matter referred to in Rule 5.1 *(a)*(v), "Best Mode for Carrying Out the Invention," or, where appropriate, "Mode(s) for Carrying Out the Invention";

(vi) for matter referred to in Rule 5.1 *(a)*(vi), "Industrial Applicability."

Section 205

Numbering of Claims upon Amendment

(a) Any claim submitted after the filing date of the international application and which is not identical with the claims previously appearing in the international application shall, at the choice of the applicant, be submitted either:

(i) as an amended claim, in which case, it shall bear the same number as the previous claim it amends; that number shall be followed by the word "(amended)" or its equivalent in the language of the international application; or

(ii) as a new claim, in which case it shall bear the next number after the highest previously numbered claim; that number shall be followed by the word "(new)" or its equivalent in the language of the international application; where the consecutive order of claims requires that a new claim be given a number lower than the highest previously numbered claim, the claims following the new claim shall be renumbered; any new number shall be followed by the words "(Original claim No.)" or an equivalent of these words in the language of the international application and an indication of the original number of the renumbered claim.

(b) The deletion of any claim previously appearing in the international application shall be made by indicating the number of the previous claim followed by the word "(cancelled)" or its equivalent in the language of the international application.

Section 206

[Deleted]

Section 207

Arrangement of Elements and Numbering of Sheets of the International Application

(a) In effecting the sequential numbering of the sheets of the international application in accordance with Rule 11.7, the elements of the international application shall be placed in the following order: the request, the description, the claims, the abstract, the drawings.

(b) The sequential numbering of the sheets shall be effected by using three separate series of numbering, the first series applying to the request only and commencing with the first sheet of the request, the second series commencing with the first sheet of the description and continuing through the claims until the last sheet of the abstract, and the third series being applicable to the sheets of the drawings only and commencing with the first sheet of the drawings.

Section 208

Application of Moneys Received by the Receiving Office in Certain Cases: Charging of Deficiency to the International Bureau

(a) A receiving Office which has not excluded the operation of Rules 16*bis*.1 and 16*bis*.2 shall, to the extent that it has received instructions from the applicant as to the fees to which it shall apply moneys recieved by it from the applicant, apply those moneys accordingly.

(b) Where a receiving Office referred to in praragraph *(a)* receives moneys from the applicant which, together with any other moneys so received, are not sufficient to cover in full the transmittal fee (if any), the international fee and the search fee (if any), the receiving Office shall, to the extent that it has not received intructions from the applicant as to the fees to which it shall apply the moneys which are available for the purposes, apply those moneys in payment, successively, of the fees set out below to the extent that they are due and unpaid and in the order in which they appear below:

(i) the transmittal fee;

(ii) the basic fee part of the international fee;

(iii) the search fee;

(iv) the designation fee part of the international fee.

(c) Where, pursuant to paragraph *(b)*, the receiving Office applies moneys in payment of the designation fees, it shall apply them to those fees successively in the order in which the designations appear in the international application up to and including the last designation, the fee for which is fully covered by the moneys.

(d) (i) When notifying the International Bureau pursuant to Rule 16*bis*.1(d) as to amounts charged to that Bureau pursuant to Rule 16*bis*.1(a) and/or Rule 16*bis*.1(b), the receiving Office shall, if it has received moneys from the applicant, inform that Bureau of the fees to which those moneys have been applied and the fees which it has charged to the International Bureau. The receiving Office shall, where applicable, indicate the designations (if any) for which the fees were paid by moneys (if any) so received and the designations for which the fees were charged to the International Bureau.

(ii) Where moneys have been applied by the receiving Office in accordance with an instruction received from the applicant as mentioned in paragraph *(a)*, the receiving Office shall inform the International Bureau as to the effect of the said instruction, preferably by sending the International Bureau a copy of a written communication received from the applicant.

Section 209

Indications as to Deposited Microorganisms on a Separate Sheet

(a) To the extent that any indication with respect to a deposited microorganism is not contained in the description, it may be given on a separate sheet. Where any such indication is so given, it shall preferably be on the form provided in Annex F as form PCT/RO/134 and, if furnished at the time of filing, the said form shall, subject to paragraph *(b)*, preferably be attached to the request and referred to in the Check List referred to in Rule 3.3*(a)*(ii).

(b) For the purposes of the Japanese Patent Office when Japan is designated, paragraph *(a)* applies only to the extent that the said form or sheet is included as one of the sheets of the description of the international application at the time of filing.

PART 3

INSTRUCTIONS RELATING TO THE RECEIVING OFFICE

Section 301

Notification of Receipt of Purported International Application

Any receiving Office may notify the applicant of the receipt of the purported international application. The notification should indicate the date of actual receipt, the international application number of the purported international application referred to in Section 307 and the applicant's file reference, where available, as well as, where useful for purposes of identification, the title of the invention.

Section 302

Notification of Priority Claim Considered Not To Have Been Made

Where, owing to failure to meet the requirements of Rule 4.10*(b)*, the priority claim is, for the purposes of procedure under the Treaty, considered not to have been made, the receiving Office shall indicate that fact in the international application by marking over the box in the request Form which provides for the information concerning the priority claim, the words "NOT TO BE CONSIDERED FOR PCT PROCEDURE" or its equivalent in the language of the international application. The receiving Office shall notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify that Bureau and that Authority.

Section 303

Deletion of Additional Matter in the Request

Where, under Rule 4.17*(b)*, the receiving Office deletes *ex officio* any matter contained in the request, it shall do so by placing such matter between square brackets and entering the word "DELETED," or its equivalent in the language of the international application, in the right-hand margin adjacent to the matter so placed between brackets, and shall notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify that Bureau and that Authority.

Section 304

Corrections Submitted to the Receiving Office Concerning Expressions, etc., Not To Be Used in the International Application

Where the applicant submits corrections to the receiving Office aimed at complying with the prescriptions of Rule 9.1, that Office shall, if copies of the international application have not yet been transmitted to the International Bureau and the International Searching Authority, attach copies of such corrections to the international application. If copies of the international application have already been transmitted, the receiving Office shall transmit copies of such corrections to the said Bureau and the said Authority.

Section 305

Identifying the Copies of the International Application

(a) Where, under Rule 11.1 *(a)*, the international application has been filed in one copy, the receiving Office shall, after preparing under Rule 21.1 *(a)* the additional copies required under Article 12(1), mark,

(i) the words "RECORD COPY" in the upper left-hand corner of the first page of the original copy,

(ii) in the same space on one additional copy, the words "SEARCH COPY," and

(iii) in the same space on the other such copy, the words "HOME COPY," or their equivalent in the language of the international application.

(b) Where, under Rule 11.1 *(b)*, the international application has been filed in more than one copy, the receiving Office shall choose the copy most suitable for reproduction purposes, and mark the words "RECORD COPY," in the upper left-hand corner of its first page. After verifying the identity of any additional copies and, if applicable, preparing under Rule 21.1 *(b)* the home copy, it shall mark, in the upper left-hand corner of the first page of one such copy, the words "SEARCH COPY," and, in the same space on the other such copy, the words "HOME COPY," or their equivalent in the language of the international application.

Section 306

[Deleted]

Section 307

System of Numbering International Applications

Papers purporting to be an international application under Rule 20.1 shall be marked with the international application number, consisting of the letters "PCT," a slant, the two-letter code, as in *Annex B*, indicating the receiving Office, a two-digit indication of the last two numbers of the year in which such papers were first received, a slant and a five-digit number, allotted in sequential order corresponding to the order in which the international applications are received (e.g., "PCT/SU78/00001"). However, if a negative determination is made under Rule 20.7 or a declaration is made under Article 14(4), the letters "PCT" shall be deleted by the receiving Office from the indication of the international application number on any papers marked previously with that number, and the said number shall be used without such letters in any future correspondence relating to the purported international application.

Section 308

Marking of the Sheets of the International Application

(a) The receiving Office shall indelibly mark, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2 *(a)*, the international application number referred to in Section 307 in the upper right-hand corner of each sheet of each copy of the purported international application.

(b) The data to be indicated on any replacement sheet under Rule 26.4 *(b)* shall be indelibly marked by the receiving Office, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2 *(a)*, in the upper right-hand corner of each replacement sheet.

Section 309

Procedure in the Case of Later Submitted Sheets

(a) The receiving Office shall indelibly mark, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2 *(a)*, any sheet received on a date later than the date on which sheets were first

received with the date on which it received that sheet, inserted immediately below the international application number referred to in Section 307.

(b) The receiving Office shall, in the case of later submitted sheets received within the time limits referred to in Rule 20.2*(a)*(i) and (ii):

(i) effect the required correction of the international filing date, or, where no international filing date has yet been accorded, of the date of receipt of the purported international application;

(ii) notify the applicant of the correction effected under item (i) above;

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i) above, by transmitting a copy of the corrected first page of the request, and forward copies of the later submitted sheets to the said Bureau and the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted sheets to the record copy and the search copy.

(c) the receiving Office shall, in the case of later submitted sheets received after the expiration of the time limits referred to in Rule 20.2*(a)*(i) and (ii):

(i) notify the applicant of that fact and of the date of receipt of the later submitted sheets;

(ii) where transmittals under Article 12(1) have already been made, forward a copy of the later submitted sheets to the International Bureau with the indication that such sheets are not to be taken into consideration for the purposes of international processing;

(iii) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted sheets to the record copy with the indication that such sheets are not to be taken into consideration for the purposes of international processing.

Section 310

Procedure in the Case of Missing Drawings

(a) Where the international application refers to drawings which in fact are not included in that application, the receiving Office shall make the indication referred to in Rule 26.6*(a)* by an appropriate marking of the request Form.

(b) Section 309*(a)* shall apply also in the case of drawings received by the receiving Office on a date later than the date on which sheets were first received by that Office.

(c) The receiving Office shall, in the case of missing drawings received within the time limit referred to in Rule 20.2*(a)*(iii):

(i) effect the required correction of the international filing date, or, where no international filing date has yet been accorded, of the date of receipt of the purported international application, and delete the indication made under paragraph *(a)*, above;

(ii) notify the applicant of the correction effected under item (i), above;

(iii) where transmittals under Article 12(1) have already been made, notify the International Bureau and the International Searching Authority of any correction effected under item (i), above, by transmitting a copy of the corrected first page of the request, and forward copies of the later submitted drawings to the said Bureau and the said Authority;

(iv) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted drawings to the record copy and the search copy.

(d) The receiving Office shall, in the case of missing drawings received after the expiration of the time limit referred to in Rule 20.2*(a)*(iii):

(i) notify the applicant of the fact and of the date of receipt of the later submitted drawings;

(ii) where transmittals under Article 12(1) have already been made, forward a copy of the later submitted drawings to the International Bureau with the indication that such drawings and any reference to such drawings are not to be taken into consideration for the purposes of international processing;

(iii) where transmittals under Article 12(1) have not yet been made, attach a copy of the later submitted drawings to the record copy with the indication that such drawings and any reference to such drawings are not to be taken into consideration for the purposes of international processing.

Section 311

Renumbering of Sheets of the International Application

(a) The receiving Office shall, subject to Section 207, sequentially renumber the sheets of the international application when necessitated by the addition of any new sheet, the deletion of entire sheets, a change in the order of the sheets or any other reason.

(b) The sheets of the international application shall be provisionally renumbered in the following manner:

(i) when a sheet is deleted, the receiving Office shall either include a blank sheet with the same number and with the word "deleted," or its equivalent in the language of the international application, below the number, or insert, in brackets, below the number of the following sheet, the number of the deleted sheet with the word "deleted" or its equivalent in the language of the international application;

(ii) when a sheet is substituted, the receiving Office shall mark in the middle of the bottom margin the words "substitute sheet" or their equivalent in the language of the international application;

(iii) when one or more sheets are added, each sheet shall be identified by the number of the preceding sheet followed by a slant and then by a natural number series, starting always with number one for the first sheet added after an unchanged sheet (e.g., 10/1, 15/1, 15/2, 15/3, etc.). When later additions of sheets to an existing series of added sheets are necessary, an extra digit shall be used for identifying the further additions (e.g., 15/1, 15/1/1, 15/1/2, 15/2, etc.).

(c) In the cases mentioned in (i) and (iii) above, it is recommended that the receiving Office should write, below the number of the last sheet, the total number of the sheets of the international application followed by the words "TOTAL OF SHEETS" or their equivalent in the language of the international application. It is further recommended that, at the bottom of any last sheet added, the words "LAST ADDED SHEET" or their equivalent in the language of the international application should be inserted.

Section 312

Notification of Decision Not To Issue Declaration that the International Application is Considered Withdrawn

Where the receiving Office, after having notified the applicant under Rule 29.4 of its intent to issue a declaration under Article 14(4), decides not to issue such a declaration, it shall notify the applicant accordingly.

Section 313

Manner of Making the Necessary Annotations in the Check List

Where, under Rule 3.3*(b)*, the receiving Office itself fills in the check list, that Office shall mark, next to such check list, the words "FILLED IN BY RO," or their equivalent in the language of the international application. Where only some of the indications are filled in by the receiving Office, the said words and each indication filled in by that Office shall be identified by an asterisk.

Section 314

Manner of Indicating Correction of the Priority Date or Cancellation of the Priority Claim

(a) Where, under Rule 4.10*(d)*, the applicant corrects the erroneously indicated filing date of any earlier application, the receiving Office shall enter the corrected date in the request and draw a line through the previously entered date while still leaving it legible.

(b) Where, under Rule 4.10*(d)*, the receiving Office cancels the declaration made under Article 8(1), that Office shall mark over the said declaration the words "CANCELLED ON REQUEST OF APPLICANT" or "CANCELLED EX OFFICIO BY RO," or their equivalent in the language of the international application, as the case may be.

Section 315

Notification of Non-Collection of Record Copy

Where, under Rule 22.2*(d)*, the receiving Office has, in accordance with the applicant's wish, held the record copy at the disposal of the applicant, and the applicant has not collected that copy by the expiration of the time limit for receipt of that copy by the International Bureau, the receiving Office shall notify the applicant accordingly.

Section 316

Procedure in the Case Where the International Application Lacks the Prescribed Signature

Where, under Article 14(1)*(a)*(i), the receiving Office finds that any international application is defective in that it lacks the prescribed signature, that Office shall send to the applicant, together with the invitation to correct under Article 14(1)*(b)*, a copy of the request part of the international application. The applicant shall, within the prescribed time limit, return said copy after affixing thereto the prescribed signature.

Section 317

Procedure in the Case of the Designation of a State Being Considered Not To Have Been Made

Where the receiving Office finds that, under Rule 18.4*(b)*, the designation of a State is to be considered as not having been made, it shall indicate that fact in the international application by enclosing the designation of that State within square brackets and entering the words "CONSIDERED NOT TO HAVE BEEN MADE," or their equivalent in the language of the international application, in the margin, and shall promptly notify the applicant accordingly. If copies of the international application have already been sent to the International Bureau and the International Searching Authority, the receiving Office shall also notify promptly that Bureau and that Authority.

PART 4

INSTRUCTIONS RELATING TO THE INTERNATIONAL BUREAU

Section 401

Marking of Sheets of the Record Copy

(a) The International Bureau shall, under Rule 24.1,mark the date of receipt of the record copy in the appropriate space on the request Form and place the stamp of the International Bureau in the lower right-hand corner of each sheet of the record copy.

(b) If the receiving Office has failed to mark any sheet as provided in Section 311, the marking which has not been made may be inserted by the International Bureau.

Section 402

Notification of Correction of the Priority Date or Cancellation of the Priority Claim

Where, under Rule 4.10*(d)*, the correction of the priority date or the cancellation of the priority claim is effected by the International Bureau, the manner of indicating the correction or cancellation set forth in Section 314 shall apply *mutatis mutandis*. The receiving Office, in addition to the applicant and the International Searching Authority, shall be notified accordingly by the International Bureau.

Section 403

Transmittal of Protest Against Payment of Additional Fee and Decision Thereon

Where, under Rules 40.2*(c)* or 68.3*(c)*, the International Bureau receives a request from the applicant to forward to any designated or elected Office the texts of both the protest against payment of an additional fee and the decision thereon by the International Searching Authority or the International Preliminary Examining Authority, as the case may be, it shall proceed according to such request.

Section 404

International Publication Number

The International Bureau shall assign to each published international application an international publication number which shall be different from the international application number. The international publication number shall be used on the pamphlet and in the Gazette entry. It shall consist of the two-letter code "WO" followed by a two-digit designation of the last two numbers of the year of publication, a slant, and a serial number consisting of five digits (e.g., "WO78/12345").

Section 405

Special Publication Fee

The special publication fee provided for in Rule 48.4 shall be 200 Swiss francs.

Section 406

Pamphlets

(a) Pamphlets referred to in Rule 48.1 shall be published on a given day of each week.

(b) All pamphlets shall be of A4 size and shall be printed by offset, recto-verso.

(c) The form and particulars of the front page of each pamphlet shall be decided by the Director General.

Section 407

The Gazette

(a) The Gazette referred to in Rule 86 shall be of A4 size and shall be printed by offset, recto-verso.

(b) In addition to the contents specified in Rule 86, the Gazette shall contain, in respect of each published international application, the data indicated in *Annex D.*

(c) The information referred to in Rule 86.1(v) shall be that which is indicated in *Annex E.*

(d) The subscription price of the Gazette shall be as fixed by the Director General.* The price of any single issue of the Gazette shall be as fixed by the Director General.*

Section 408

Priority Application Number

(a) If the application number of the earlier application referred to in Rule 4.10*(c)* (priority application number) is furnished to the International Bureau within the prescribed time limit, that Bureau shall enter the said number in the space provided therefor in the request Form.

(b) If the priority application number is furnished after the expiration of the prescribed time limit, the International Bureau shall indicate, in the international publication, the date on which the said number was furnished, by including on the front page of the pamphlet next to the priority application number the words "FURNISHED LATE ON ... (date)," and their equivalent in the language of the international application, provided that language is French, German, Japanese or Russian.

(c) If the priority application number has not been furnished at the time of the international publication, the International Bureau shall indicate that fact by including on the front page of the pamphlet in the space provided for the priority application number the words "NOT FURNISHED AT TIME OF THIS PUBLICATION," and their equivalent in the language of the international application, provided that language is French, German, Japanese or Russian.

Section 409

Notification of Priority Claim Considered Not To Have Been Made

Where the International Bureau notes that the receiving Office has failed to notify the applicant as provided in Section 302, it shall send a notification to the same effect to the applicant, the receiving Office and the International Searching Authority.

---

* This provision is applicable during the transitional period referred to in Rule 86.4*(b)*.

Section 410

Numbering of Sheets of the International Application for Purposes of International Publication

In the course of preparing the international application for international publication, the International Bureau shall sequentially renumber the sheets of the international application only when necessitated by the addition of any new sheet, the deletion of entire sheets or a change in the order of the sheets. Otherwise, the numbering provided under Section 207 shall be maintained.

Section 411

Notification that the Certified Copy of the Priority Document Has Not Been Submitted

Where the time limit under Rule 17.1 *(a)* has expired and the International Bureau has not received a certified copy of the priority document, it shall notify the applicant and the designated Offices accordingly.

Section 412

Fee for Copies of Certain Documents

(a) The International Bureau shall make a charge of 6 Swiss francs to designated and elected Offices for a copy of any document cited in the international search report requested under Rule 44.3 *(c)* or any document cited in the international preliminary examination report requested under Rule 71.2 *(c)*.

(b) When mailing by air is requested the actual cost of such mailing shall be additionally charged.

PART 5

INSTRUCTIONS RELATING TO THE INTERNATIONAL SEARCHING AUTHORITY

Section 501

Corrections Submitted to the International Searching Authority Concerning Expressions, etc., Not To Be Used in the International Application

Where the applicant submits corrections to the International Searching Authority aimed at complying with the prescription of Rule 9.1, that Authority shall transmit copies of such corrections to the receiving Office and the International Bureau.

Section 502

Protest Against Payment of Additional Fee and Decision Thereon

The International Searching Authority shall transmit to the applicant, at the latest, together with the international search report, any decision which it has taken under Rule 40.2*(c)* on the protest of the applicant against the payment of the additional fee. At the same time, it shall transmit to the International Bureau a copy of both the protest and the decision thereon, as well as any request by the applicant to forward the texts of both the protest and the decision thereon to any of the designated Offices.

Section 503

Method of Identifying Documents Cited in the International Search Report

Identification of any document cited in the international search report referred to in Rule 43.5*(b)* shall be made by indicating the following elements in the order in which they are listed:

(a) In the case of any patent document (patent documents being patents within the meaning of Article 2(ii) as well as published applications relating thereto):

(i) the Office that issued the document, by the two-letter code as in *Annex B*;

(ii) the kind of document, by the appropriate symbols as in *Annex C*;

(iii) the number of the document as given to it by the Office that issued it (for Japanese patent documents the indication of the year of the reign of the Emperor must precede the serial number of the patent document);

(iv) the name of the patentee or applicant (in capital letters, where appropriate abbreviated);

(v) the date of publication of the cited patent document as indicated thereon; and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a patent document according to paragraph *(a)* above:

JP, B, 50-14535 (NCR CORPORATION) 28 May 1975 (28.05.75), see column 4, lines 3 to 27).

(b) In the case of any book or other separately issued publication:

(i) the name of the author;

(ii) the title (including, where applicable, the number of the edition and/or volume);

(iii) the year of publication (when this coincides with the year of the international application or of the priority claim, the International Searching Authority shall endeavor to determine the month and, if necessary, the day of publication and to indicate these data in the international search report);

(iv) the name of the publisher;

(v) as far as available, the place of publication (where only the location of the publisher appears on the book or other separately issued publication, then that location shall be indicated as the place of publication); and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a book or other separately issued publication according to paragraph *(b)* above:

H. Walton, "Microwave Quantum Theory," Volume 2, published 1973, by Sweet and Maxwell (London), see pages 138 to 192, especially pages 146 to 148.)

(c) In the case of any article published in a periodical or other serial publication:

(i) the title of the periodical or other serial publication;

(ii) the number of the volume and the date of the issue in which the article appears;

(iii) as far as available, the place of publication (where only the location of the publisher appears in the periodical or other serial publication, then that location shall be indicated as the place of publication);

(iv) the author and the title of the article and the number of the page both on which the article starts and ends; and

(v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of an article published in a periodical or other serial publication according to paragraph *(c)* above:

IBM Technical Disclosure Bulletin, Volume 17, No. 5, issued October 1974 (Armonk, New York), J. G. Drop, "Integrated Circuit Personalization at the Module Level," see pages 1344 and 1345.)

(d) In the case of abstracts:

(i) the identification of the document containing the abstract in the manner set forth in paragraphs *(a)*, *(b)* and *(c)*, respectively, depending upon whether the abstract is contained in a patent document, in a book or other separately issued publication, or in an article published in a periodical or other serial publication;

(ii) in the case where the abstract is not published together with the full text document which served as its basis, the identification of both abstract and full text document on the basis of whatever bibliographic data may be available in respect thereto.

(The following example illustrates the citation of an abstract according to paragraph *(d)*(ii) above:

Chemical Abstracts, Volume 75, No. 20, issued 15 November 1971 (15.11.71) (Columbus, Ohio, USA), D. I. Shetulov, "Surface Effects During Metal Fatigue," see page 163, column 1, the abstract No. 120718k, Fiz.-Khim. Mekh. Mater. 1971, 7(2), 7-11 (Russ).)

Section 504

Classification of the Subject Matter of the International Application

(a) Where the subject matter of the international application is such that classification thereof requires more than one classification symbol according to the principles to be followed in the application of the International Patent Classification to any given patent document, the international search report shall indicate all such symbols.

(b) Where any national classification system is used, the international search report may indicate all the applicable classification symbols also according to that system.

(c) Where the subject matter of the international application is classified both according to the International Patent Classification and to any national classification system, the international search report shall, wherever possible, indicate the corresponding symbols of both classifications opposite each other.

Section 505

Indication of Citations of Particular Relevance in the International Search Report

(a) Where any document cited in the international search report is of particular relevance, the special indication required by Rule 43.5 *(c)* shall consist of the letter(s) "X" and/or "Y" placed next to the citation of the said document.

(b) Category "X" is applicable where a document is such that when taken alone, a claimed invention cannot be considered novel or cannot be considered to involve an inventive step.

(c) Category "Y" is applicable where a document is such that a claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

Section 506

Comments on Draft Translation of the International Application

(a) Where the applicant has made comments, within the time limits fixed by the International Searching Authority, on the draft translation referred to in Rule 48.3 *(b)*, that Authority shall notify the applicant whether it has changed the draft translation and, if so, of the changes it has made therein.

(b) Where the applicant submits comments on the draft translation after the expiration of the time limits fixed by the International Searching Authority, and that Authority changes the draft translation, it shall notify the applicant accordingly.

Section 507

Manner of Indicating Certain Special Categories of Documents Cited in the International Search Report

(a) Where any document cited in the international search report refers to an oral disclosure, use, exhibition, or other means referred to in Rule 33.1 *(b)*, the separate indication required by that Rule shall consist of the letter "O" placed next to the citation of the said document.

(b) Where any document cited in the international search report is a published application or patent as defined in Rule 33.1 *(c)*, the special mention required by that Rule shall consist of the letter "E" placed next to the citation of the said document.

(c) Where any document cited in the international search report is not considered to be of particular relevance requiring the use of categories "X" and/or "Y" but defines the general state of the art, it shall be indicated by the letter "A" placed next to the citation of the said document.*

(d) Where any document cited in the international search report is a document whose publication date occurred earlier than the international filing date of the international application, but later than the priority date claimed in that application, it shall be indicated by the letter "P" next to the citation of the said document.

(e) Where any document cited in the international search report is a document whose publication date occurred after the filing date or the priority date of the international application and is not in conflict with the said application, but is cited for the principle or theory underlying the invention, which may be useful for a better inderstanding of the invention, or is cited to show that the reasoning or the facts underlying the invention are incorrect, it shall be indicated by the letter "T" next to the citation of the document.

(f) Where in the international search report any document is cited for reasons other than those referred to in paragraphs *(a)* to *(e)*, for example:

— a document which may throw doubt on a priority claim,**

— a document cited to establish the publication date of another citation.***

such document shall be indicated by the letter "L" next to the citation of the document and the reason for citing the document shall be given.

---

* (see III, 3.14 of the Guidelines for International Search to be Carried Out under the PCT).

** (see VI, 4.3 of the Guidelines for International Search to be Carried Out under the PCT).

*** (see VI, 6.2 of the Guidelines for International Search to be Carried Out under the PCT).

(g) Where a document is a member of a patent family,**** it shall, whenever feasible, be mentioned in the international search report in addition to the one cited belonging as well to this family and should be preceded by the sign ampersand (&). A document whose contents have not been verified by the search examiner but are believed to be substantially identical with those of another document which the search examiner has inspected, may be cited in the international search report in the above-mentioned manner indicated for patent family members.*****

Section 508

Manner of Indicating the Claims to which the Documents Cited in the International Search Report are Relevant

The claims to which cited documents are relevant shall be indicated by placing in the appropriate column of the international search report:

(i) where the cited document is relevant to one claim, the number of that claim; for example, (2) or (17);

(ii) where the cited document is relevant to two or more claims numbered in consecutive order, the numbers of the first and last claims of the series connected by a hyphen; for example, (1-15) or (2-3);

(iii) where the cited document is relevant to two or more claims that are not numbered in consecutive order, the number of each claim placed in ascending order and separated by a comma or commas; for example, (1, 6) or (1, 7, 10);

(iv) where the cited document is relevant to more than one series of claims under (ii) above, or to claims of both categories (ii) and (iii) above, the series or individual claim numbers and series placed in ascending order using commas to separate the several series, or to separate the numbers of individual claims and each series of claims; for example, (1-6, 9-10, 12-15) or (1, 3-4, 6, 9-11).

**** (see IV, 3.2 of the Guidelines for International Search to be Carried Out under the PCT).

***** (see VI, 5.2 of the Guidelines for International Search to be Carried Out under the PCT).

PART 6

INSTRUCTIONS RELATING TO THE INTERNATIONAL PRELIMINARY EXAMINING AUTHORITY

Section 601

Determination Whether Applicant is Entitled to Make a Demand

(a) Where the International Preliminary Examining Authority finds that the applicant is not entitled under Article 31(2) or, where there are several applicants, that none of the applicants is entitled under Rule 54.2 to make a demand, the International Preliminary Examining Authority shall notify both the applicant or applicants and the International Bureau accordingly.

(b) Where the International Preliminary Examining Authority finds that, in the case of different applicants for different elected States, none of the applicants indicated for the purposes of a given elected State is entitled under Rule 54.3 to make a demand and that therefore the election of that State shall be considered not to have been made, the International Preliminary Examining Authority shall notify accordingly both the applicant or applicants so indicated and the International Bureau.

Section 602

Marking of Replacement Sheets and Renumbering of Sheets of the International Application

(a) The data to be indicated on any replacement sheet according to Rule 66.8*(b)* shall be indelibly marked by the International Preliminary Examining Authority, so as to admit of direct reproduction in any of the manners set forth in Rule 11.2*(a)*, in the upper right-hand corner of each replacement sheet.

(b) Section 311 applies, *mutatis mutandis*, to the renumbering of sheets of the international application.

Section 603

Transmittal of Protest Against Payment of Additional Fee and Decision Thereon

The International Preliminary Examining Authority shall transmit to the applicant, at the latest together with the international preliminary examination report, any decision which it has taken under Rule 68.3*(c)* on the protest of the applicant against payment of the additional fee. At the same time, it shall transmit to the International Bureau a copy of both the protest and the decision thereon, as well as any request by the applicant to forward the texts of both the protest and the decision thereon to any of the elected Offices.

Section 604

Guidelines for Explanations Contained in the International Preliminary Examination Report

Explanations under Rule 70.8 shall clearly point out to which of the three criteria referred to in Article 35(2), taken separately, any cited document is applicable and shall clearly describe, with reference to the cited documents, the reasons supporting the conclusion that any of the said criteria is or is not satisfied.

ANNEX C

Standard Code for Identification of Different Kinds of Patent Documents *

Introduction

1. The recommendation provides for groups of letter codes in order to distinguish patent documents. The letter codes also facilitate the storage and retrieval of such documents.

2. If any Office wants to amplify the information contained in the letter code, this letter code may be optionally associated with a numerical code. The meaning of such numerical code should then be defined by each Patent Office availing itself of this option.

3. The code also provides for a letter for non-patent literature documents (N) and for documents to be restricted to the internal use of Patent Offices (X) (e.g., confidential documents, not to be disclosed outside the Office). See in this respect also SI.1 (ICIREPAT Manual pages 4.3.1.1 to 4.3.1.4).

Definitions

4. For the purposes of this recommendation, the expression "patent documents" includes patents for inventions, inventors' certificates, utility certificates, utility models, patents or certificates of addition, inventors' certificates of addition, utility certificates of addition, plant patents and published applications therefor.

5. For the purposes of this recommendation, the term "entry in an official gazette" means at least one comprehensive announcement in an official gazette regarding the making available to the public of the complete text, claims (if any) and drawings (if any) of a patent document.

6. For the purposes of this recommendation, the terms "publication" and "published" are used in the sense of making available

(i) a patent document to the public for inspection or supplying a copy on request

(ii) multiple copies of a patent document produced by printing or like process

Explanation: If, at a particular procedural stage, a copy of the document is first made available to the public for inspection or copying and is then, *at the same procedural stage*, made available in multiple copies produced by printing or like process, only a single publication is considered to have occured. If, on the other hand, multiple reproduction results from a new procedural stage, this reproduction is considered to be a further publication of the document, even if the texts at the two stages are identical.

7. According to certain national patent laws or regulations, the same patent application may be published at various procedural stages. For the purposes of this recommendation, a publication level is defined as the level corresponding to a procedural stage at which normally a document is published under a given national patent law.

Recommendation

8. It is recommended that the code:

(a) be used for the recording of the "kind of document" in machine-readable data carriers, such as 80-column punched cards, magnetic tapes, aperture cards, etc.;

* Under revision by the WIPO Permanent Committee on Patent Information (PCPI)

(b) be used on the first page of patent documents, preferably near the document number, if these have been published in the sense of paragraph 6;

(c) be used in entries in official gazettes or, if all entries in a section of the Gazette relate to the same kind of a document at the beginning of such a section.

(d) be used for the identification of patent documents cited in "Search Reports" and "Lists of References" in patent documents (INID Number 56).

9. *Code*

The Code is subdivided into *mutually exclusive* groups of letters. The groups characterize patent documents and documents specified in paragraph 3. Groups 1-5 comprise one or several letters enabling identification of documents pertaining to different publication levels.

Group 1 Use for primary or major series of patent documents

- A First publication level
- B Second publication level
- C Third publication level

Group 2 Use for secondary series of patent documents

- E First publication level
- F Second publication level
- G Third publication level

Group 3 Use for further series of patent documents, as the special requirements of each Office may be

- H
- I

Group 4 Use for major special types of patent documents

- M Medicament patent documents
- P Plant patent documents

Group 5 Use for utility model documents having a numbering series other than the documents of Group 1

- U First publication level
- Y Second publication level
- Z Third publication level

Group 6 Other (see paragraph 3)

- N Non-patent literature documents
- X Documents restricted to the internal use of Offices

10. It is understood that documents resulting from a patent application and being identified as the major series will fall under Group 1 (e.g. DT Offenlegungsschrift, Auslegeschrift and Patentschrift). However, documents identified as a secondary series will fall under Group 2 (e.g., FR patent of addition under old law, US reissue). In exceptional cases of need for a further series, Group 3 is reserved for such purposes (e.g., US defensive publication). Group 4 applies only, at present, to special documents concerning the medicament patents published in France and the plant patents published in the United States of America. In any country publishing similar documents, Group 4 should then be used.

11. As indicated in paragraph 2, the above letter code may optionally be associated with a numerical code to amplify the information represented by the letter code. For this numerical code only digits 1 to 9 should be used. The significance of this code will be defined by any national Office applying such code and communicated to the International Bureau, which will publicize this

information. The numerical code must always be interpreted in conjunction with the country code and the above letter code.

12. As an appendix to this recommendation a list of patent documents, past and currently published, and intended to be published in the future, divided in accordance with the code, is given.

   - 5.3 the indication of kind of protection sought, unless patent is sought.

[Annex E follows]

ANNEX E

Information to be Published in the Gazette
Under Rule 86.1(v)

1. The time limits applicable under Articles 22 and 39 in respect of each Contracting State.

2. The list of the non-patent literature agreed upon by the International Searching Authorities for inclusion in the minimum documentation.

3. The names of the national Offices which do not wish to receive copies under Article 13(2) *(c)*.

4. The provisions of the national laws of Contracting States concerning international-type search.

5. The text of the agreements entered into between the International Bureau and the International Searching Authorities or the International Preliminary Examining Authorities.

6. The names of the national Offices which entirely or in part waived their rights to any communication under Article 20.

7. The names of the Contracting States which are bound by Chapter II of the PCT.

8. Index of concordance of international application numbers and international publication numbers, listed according to international application numbers.

9. Index of international publication numbers grouped according to designated States, including an indication of those States for which a "regional patent" is sought.

10. Index of applicants' names giving, for each name, the corresponding international publication number(s).

11. Index of international publication numbers, grouped according to the International Patent Classification symbols.

12. Indication of any subject matter that will not be searched or examined by the various International Searching and Preliminary Examining Authorities under Rules 39 and 67.

[Annex F (Forms) follows]

ANNEX F

Forms

This Annex, which is the final Annex to the Administrative Instructions, contains the Forms referred to in Section 102 of the Administrative Instructions (Forms PCT/RO/101 to 132, PCT/ISA/201 to 228, PCT/IB/301 to 345 and PCT/IPEA/401 to 424).

In view of their special importance, Forms

PCT/RO/101	(Request and Fee Calculation Sheet)
PCT/ISA/210	(International Search Report)
PCT/IPEA/401	(Demand)
PCT/IPEA/409	(International Preliminary Examination Report)

have already been set up in type and appear at the beginning of Annex F and not in the place corresponding to their numerical order in the four different series of Forms.*

In order to facilitate familiarization with the different series of Forms, these series have been reproduced in the colors used previously, except for the four Forms set in type, mentioned above. However, there is no obligation on any International Authority to use any particular color for these Forms, nor any restriction as to the color it may use, except that the request must always be printed on white paper as prescribed by the Regulations.

* Having regard to the separate publication of Annex F mentioned in the footnote to Section 102 of the Administrative Instructions, only the four forms specified in this paragraph are reproduced in this publication.

* An address for the sending of notifications for a sole applicant or for a common representative may be indicated if no agent has been appointed to represent the applicant or, if there are several applicants, all of them.

** If another kind of protection or a title of addition is desired or if, in the United States of America, treatment as a continuation or a continuation in part is desired, indicate according to the instructions given in the Notes to Box No. V.

*** The applicant's choice of the order of the designations may be indicated by checking the boxes of the designated States with sequential arabic numerals (see also the Notes to Box No. V).

**** When this box is checked, none of the other boxes in the column "European patent" should be checked.

Supplemental Box. Use this box in the following cases:

(i) *if more than three persons are involved as applicants and/or inventors;* in such case, write "Continuation of Box No. III" and indicate for each additional person the same type of information as required in Box No. III;

(ii) *if, in Box No. II or any of the sub-boxes of Box No. III, the indication "the States indicated in the 'Supplemental Box,' is checked;* in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the applicant(s) involved and, next to (each) such name, the country or countries (or EP or OA, if applicable) for the purposes of which he/she/it is applicant;

(iii) *if, in Box No. II or any of the sub-boxes of Box No. III, a person indicated as "applicant and inventor" or "inventor only" is not inventor for the purposes of all designated States or for the purposes of the United States of America;* in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the inventor and, next to such name, the country or countries (or EP or OA, if applicable) for the purposes of which the named person is inventor;

(iv) *if there is more than one agent and their addresses are not the same;* in such case, write "Continuation of Box No. IV" and indicate for each additional agent the same type of information as required in Box No. IV;

(v) *if, in Box No. V, the name of any country (or OAPI) is accompanied by the indication "patent of addition," "certificate of addition," or "inventor's certificate of addition," or if, in Box No. V, the name of the United States of America is accompanied by an indication "Continuation" or "Continuation in part";* in such case, write "Continuation of Box No. V" and the name of each country involved (or OAPI), and after the name of each such country (or OAPI), the number of the parent title or parent application and the date of grant of parent title or filing of parent application;

(vi) *if there are more than three earlier applications whose priority is claimed;* in such case, indicate "Continuation of Box No. VI" and indicate for each additional earlier application the same type of information as required in Box No. VI;

(vii) *if, in any of the Boxes, the space is insufficient to furnish all the information;* in such case, write "Continuation of Box No. ..." [indicate the number of the Box] and furnish the information in the same manner as required according to the captions of the Box in which the space was insufficient.

If this Supplemental Box is not used, this sheet need not be included in the Request.

Box No. VI PRIORITY CLAIM (IF ANY). The priority of the following earlier application(s) is hereby claimed:

Country (country in which it was filed if national application; one of the countries for which it was filed if regional or international application)	Filing Date (day, month, year)	Application No.	Office of Filing (fill in only if the earlier application is an international application or a regional application)
(1)			
(2)			
(3)			

(Letter codes may be used to indicate country and/or Office of filing)

When the earlier application was filed with the Office which, for the purposes of the present international application, is the receiving Office, the applicant may, *against payment of the required fee*, ask the following:

☐ the receiving Office is hereby requested to prepare and transmit to the International Bureau a certified copy of the above-mentioned earlier application/of the earlier applications identified above by the numbers (insert the applicable numbers)

.....

Box No. VII EARLIER SEARCH (IF ANY). Fill in where a search (international, international-type or other) by the International Searching Authority has already been requested (or completed) and the said Authority is now requested to base the international search, to the extent possible, on the results of the said earlier search. Identify such search or request either by reference to the relevant application (or the translation thereof) or by reference to the search request.

International application number or number and country (or regional Office) of other application:

International/regional/national filing date

Date of request for search:

Number (if available) given to search request:

Box No. VIII SIGNATURE OF APPLICANT(S) OR AGENT

If the present Request form is signed on behalf of any applicant by an agent, a separate power of attorney appointing the agent and signed by the applicant is required. If in such case it is desired to make use of a general power of attorney (deposited with the receiving Office), a copy thereof must be attached to this form.

Box No.IX CHECK LIST (To be filled in by the Applicant)

This international application contains the following number of sheets:

1. request _____ sheets
2. description _____ sheets
3. claims _____ sheets
4. abstract _____ sheets
5. drawings _____ sheets

Total _____ sheets

Figure number ..... of the drawings (if any) is suggested to accompany the abstract for publication.

This international application as filed is accompanied by the items checked below:

1. ☐ separate signed power of attorney
2. ☐ copy of general power of attorney

7. ☐ other document (specify)

(The following is to be filled in by the receiving Office)

1. Date of actual receipt of the purported international application:
2. Corrected date of actual receipt due to later but timely received papers or drawings completing the purported international application:
3. Date of timely receipt of the required corrections under Article 11 of the PCT:
4. Drawings ☐ Received ☐ No Drawings

(The following is to be filled in by the International Bureau)

Date of receipt of the record copy:

See notes on accompanying sheet

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For authentic information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. (See also the **PCT Applicant's Guide**, a publication of WIPO.) In case of discrepancy between these Notes and the said texts, the latter are applicable.

"Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

MANDATORY AND OPTIONAL CONTENTS OF THE REQUEST

"The request shall contain:

(i) a petition [*already pre-printed on the request form*],
(ii) the title of the invention,
(iii) indications concerning the applicant and the agent, if there is an agent,
(iv) the designation of States,
(v) indications concerning the inventor where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing a national application." **(Rule 4.1(a))**

"The request shall, where applicable, contain:

(i) a priority claim,
(ii) a reference to any earlier international, international-type or other search,
(iii) choices of certain kinds of protection,
(iv) an indication that the applicant wishes to obtain a regional patent and the names of the designated States for which he wishes to obtain such a patent,
(v) a reference to a parent application or parent patent." **(Rule 4.1(b))**

"The request may contain:

(i) indications concerning the inventor where the national law of none of the designated States requires that the name of the inventor be furnished at the time of filing a national application,
(ii) a request to the receiving Office to transmit the priority document to the International Bureau where the application whose priority was claimed was filed with the national Office or intergovernmental authority which is the receiving Office." **(Rule 4.1(c))**

"The request shall be signed." **(Rule 4.1(d))**

NOTES TO BOX No. I

Title of Invention. "The title of the invention shall be short (preferably from two to seven words when in English or translated into English) and precise." **(Rule 4.3)**

NOTES TO BOXES No. II and III

Applicant. "The request shall indicate the name, address, nationality and residence of the applicant or, if there are several applicants, of each of them." **(Rule 4.5(a))**

Different Applicants for Different Designated States. "The international application may indicate different applicants for the purposes of different designated States, provided that, in respect of each designated State, at least one of the applicants indicated for the purposes of that State is entitled to file an international application according to Article 9 [i.e., is a national or resident of a Contracting State]." **(Rule 18.4(a))** *Where the United States of America is one of the designated States the applicant or applicants named in respect of the United States of America must be the inventor or inventors.*

Inventor. "The request shall contain ..... the name of and other prescribed data concerning the inventor where the national law of at least one of the designated States requires that these indications be furnished at the time of filing a national application ....." **(Article 4(1)(v))** "Where Rule 4.1(a)(v) applies, the request shall indicate the name and address of the inventor or, if there are several inventors, of each of them." **(Rule 4.6(a))** "If the applicant is the inventor, the request, in lieu of the indication under paragraph (a), shall contain a statement to that effect **(Rule 4.6(b))** "..... Where the national law of the designated State requires the indication of the name of and other prescribed data concerning the inventor but allows that these indications be furnished at a time later than that of the filing of a national application, the applicant shall, unless they were contained in the request, furnish the said indications to the national Office of or acting for that State not later than at the expiration of 20 months from the priority date." **(Article 22(1))**

Names. "Names of natural persons shall be indicated by the person's family name and given name(s), the family name being indicated before the given name(s)." **(Rule 4.4(a))** "Names of legal entities shall be indicated by their full, official designations." **(Rule 4.4(b))**

Addresses. "Addresses shall be indicated in such a way as to satisfy the customary requirements for prompt postal delivery at the indicated address and, in any case, shall consist of all the relevant administrative units up to, and including, the house number, if any. Where the national law of the designated State does not require the indication of the house number, failure to indicate such number shall have no effect in that State. It is recommended to indicate any telegraphic and teleprinter address and telephone number in respect of the agent or common representative or, in the absence of the designation of an agent or common representative in the request, of the applicant first named in the request." **(Rule 4.4(c))** "For each applicant, inventor, or agent, only one address may be indicated....." **(Rule 4.4(d))** *See, however, the Notes to Box No. IV as to the indication, in that Box, in certain cases, of an "address for notifications" for the applicant.*

Nationality. "The applicant's nationality shall be indicated by the name of the State of which he is a national." **(Rule 4.5(b))**

Residence. "The applicant's residence shall be indicated by the name of the State of which he is a resident." **(Rule 4.5(c))**

Names of States. "The name of any State referred to in the request shall be indicated by the full name of the State or by a generally accepted short title which, if the indications are in English or French shall be as appears in Annex A [i.e., Annex A to the Administrative Instructions under the PCT; the pre-printed names of PCT Contracting States appearing in Box No. V of the request form are in accordance with the said Annex A]." **(Section 201(a), first sentence)**

NOTES TO BOX No. IV

Agent or Common Representative. *When listing several agents, list first the agent to whom it is desired that any correspondence shall be addressed.* **(See Section 108)** "If agents are designated, the request shall so indicate, and shall state their names and addresses." **(Rule 4.7)** "If there is more than one applicant and the request does not refer to an agent representing all the applicants ("a common agent"), the request shall designate one of the applicants who is entitled to file an international application according to Article 9 [i.e., is a national or resident of a Contracting State] as their common representative." **(Rule 4.8(a))**

Appointment of Agent or Common Representative. "Appointment of any agent, or of any common representative within the meaning of Rule 4.8(a), shall be effected by each applicant, at his choice, either by signing the request in which the agent or common representative is designated or by a separate power of attorney (i.e., a document appointing an agent or common representative)." **(Rule 90.3(a))** "Where the international application is filed with reference to a general power of attorney not signed by all the applicants, it shall be sufficient for the purpose of appointment of a common agent under Rule 90.3, if the request or a separate power of attorney is signed by the applicant, who did not sign the general power of attorney." **(Section 106(b))**

Address for Notifications. *An address to which notifications may be sent to the (sole) applicant or the common representative, when no agent has been appointed, may be indicated in Box No. IV instead of the name and address of an agent;* "For each applicant ....., only one address may be indicated except that, if no agent has been appointed to represent the applicant, or all of them if more than one, the applicant or, if there is more than one applicant, the common representative, may indicate, in addition to any other address given in the request, an address to which notifications may be sent." **(Rule 4.4(d))**

For **Names** *(including* **Names of States***) and* **Addresses**, *see Notes to Boxes Nos. II and III.*

NOTES TO BOX No. V

Designation of States. "Contracting States shall be designated in the request by their names." **(Rule 4.9)** *Note that after filing further designations cannot be made.*

The checking of the boxes of the designated States by means of sequential arabic numerals will be taken as indicating the applicant's choice of the order of the designations; if another form of checking is used, the order will be taken as that in which the checked boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations. In that case, the amount received will be applied in payment of the fees for the designations following the said order. **(See Section 208 and Rules 16bis.2(c) and 16bis.3(b))**

Where one or more States are designated twice (once for the purposes of a European patent and once for the purposes of a national patent), one designation fee must be paid in respect of the European patent and as many designation fees must be paid in respect of the national patents as there are designated States. **(See Section 203bis and Rule 15.1(ii))**

Possible Choices of Certain Kinds of Protection or Treatment. *If, in any country where that is possible, instead of a patent, a national title other than a patent is desired, write after the box of that country, the name of the title, that is, "petty patent" (available in Australia), "utility model" (available in Brazil, the Federal Republic of Germany, Japan and OAPI) or "inventor's certificate" (available in the Soviet Union). Where, in the Federal Republic of Germany (only country in which these possibilities exist), in addition to a patent, a utility model is also desired, write, after the box of that country* **"and utility model"** *or, where subsidiarily to a patent a utility model is desired, write, after the said box* **"and auxiliary utility model". (See Section 202)**

Where, in respect of any country where that is possible, it is desired that the application be treated as an application for a certain title "of addition" or as an application for a continuation or a continuation in part, write after the box of that country, the appropriate words, that is, "patent of addition" (available in Australia, Austria, the Federal Republic of Germany, Japan, Malawi, Soviet Union), "certificate of addition" (available in Luxembourg, Monaco, OAPI), "inventor's certificate of addition" (available in the Soviet Union), "continuation" or "continuation in part" (both available in the United States of America). **If any of these indications is used, indicate in the "Supplemental Box" the country for which such treatment is desired, the number of the parent title or parent application and the date of grant of the parent title or the date of filing of the parent application, as the case may be.**

For Names of States, *see Notes to Boxes Nos. II and III.*

NOTES TO BOX No. VI

Priority claim "The declaration [containing the priority claim] shall be made in the request; it shall ..... indicate:

(i) when the earlier application is not a regional or an international application, the country in which it was filed; when the earlier application is a regional or an international application, the country or countries for which it was filed,
(ii) the date on which it was filed,
(iii) the number under which it was filed, and
(iv) when the earlier application is a regional or an international application, the national Office or intergovernmental organization with which it was filed." **Rule 4.10(a))**

"If the request does not indicate both

(i) when the earlier application is not a regional or an international application, the country in which it was filed; when the earlier application is a regional or an international application, at least one country for which it was filed, and
(ii) the date on which it was filed,

the priority claim shall, for the purposes of the procedure under the Treaty, be considered not to have been made ....." **(Rule 4.10(b))**

"If the application number of the earlier application is not indicated in the request but is furnished by the applicant to the International Bureau prior to the expiration of the 16th month from the priority date, it shall be considered by all designated States to have been furnished in time ....." **(Rule 4.10(c), first sentence)**

Certified Copy of Earlier Application. "Where the priority of an earlier national application is claimed under Article 8 in the international application, a copy of the said national application, certified by the authority with which it was filed ("the priority document"), shall, unless already filed with the receiving Office together with the international application, be submitted by the applicant to the International Bureau or to the receiving Office not later than 16 months after the priority date or, in the case referred to in Article 23(2), not later than at the time the processing or examination is requested ....." **(Rule 17.1(a), first sentence)** "Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office to transmit the priority document to the International Bureau. Such request shall be made not later than the expiration of the applicable time limit referred to under paragraph (a) and may be subjected by the receiving Office to the payment of a fee ....." **(Rule 17.1(b))**

Dates. "Any date in the international application, or used in any correspondence emanating from International Authorities relating to the international application, shall be indicated by the Arabic number of the day, by the name of the month, and by the Arabic number of the year." **(See Section 110)**

NOTES TO BOX No. VII

Earlier Search. "If an international or international-type search has been requested on an application under Article 15(5) or if the applicant wishes the International Searching Authority to base the international search report wholly or in part on the results of a search, other than an international or international-type search, made by the national Office or intergovernmental organization which is the International Searching Authority competent for the international application, the request shall contain a reference to that fact. Such reference shall either identify the application (or its translation, as the case may be) in respect of which the earlier search was made by indicating country, date and number, or the said search by indicating, where applicable, date and number of the request for such search." **(Rule 4.11)**

For **Dates,** *see Notes to Box No. VI.*

NOTES TO BOX No. VIII

Signature. *The signature (Rule 4.1(d)) must be that of the applicant (if there are several applicants all must sign (Rule 4.15)); however, the signature may be that of the agent (Rule 2.1) where there is attached to the request a separate power of attorney appointing the agent or the copy of a general power of attorney already in the possession of the receiving Office. The typing of the name of each person signing the Request below the signature is recommended; similarly, an indication of the capacity in which the person signs is recommended if such capacity is not obvious from a reading of the Request.*

For **Power of Attorney** *and* **General Power of Attorney,** *see Notes to Box No. IX.*

NOTES TO BOX No. IX

Check List (*in general,* **see Rule 3.3)**

Power of Attorney. "The power of attorney may be submitted to the receiving Office or the International Bureau." **(Rule 90.3(b))** "If the separate power of attorney is not signed ..... or ..... is missing, or if the indication of the name or address of the appointed person does not comply with Rule 4.4, the power of attorney shall be considered nonexistent unless the defect is corrected." **(Rule 90.3(c))**

General Power of Attorney. "A general power of attorney may be deposited with the receiving Office for purposes of the processing of the international application as defined in Rule 90.2(d). Reference may be made in the request to such general power of attorney, provided that a copy thereof is attached to the request by the applicant." **(Rule 90.3(d))**

Optional Sheet. *The optional sheet containing indications concerning deposited microorganisms may, in most cases, be listed as an "other document." This is not the case if Japan is designated since the optional sheet is accepted in that case only if included in the sheets of the description.*

NOTES TO "SUPPLEMENTAL BOX"

Different Inventors for Different (Groups of) Designated States. "The request may, for different designated States, indicate different persons as inventors where, in this respect, the requirements of the national laws of the designated States are not the same. In such a case, the request shall contain a separate statement for each designated State or group of States in which a particular person, or the same person, is to be considered the inventor, or in which particular persons, or the same persons, are to be considered the inventors." **(Rule 4.6(c))**

Parent Application or Grant. "If the applicant wishes his international application to be treated, in any designated State, as an application for a patent or certificate of addition, inventor's certificate of addition, or utility certificate of addition, he shall identify the parent application or the parent patent, parent inventor's certificate, or parent utility certificate to which the patent or certificate of addition, inventor's certificate of addition, or utility certificate of addition, if granted, relates. For the purposes of this paragraph Article 2(ii) shall not apply." **(Rule 4.13)** "If the applicant wishes his international application to be treated, in any designated State, as an application for a continuation or a continuation-in-part of an earlier application, he shall so indicate in the request and shall identify the parent application involved." **(Rule 4.14)**

NOTES TO FORM PCT/RO/101 (ANNEX)

1 The purpose of the fee calculation sheet is to aid the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing of the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

2 "Any receiving Office may require that the applicant pay a fee to it, for its own benefit, for receiving the international application, transmitting copies to the International Bureau and the competent International Searching Authority, and performing all the other tasks which it must perform in connection with the international application in its capacity of receiving Office ("transmittal fee")." **(Rule 14.1 (a))**

"The amount and the due date of the transmittal fee, if any, shall be fixed by the receiving Office." **(Rule 14.1 (b))**

3 "Each International Searching Authority may require that the applicant pay a fee ("search fee") for its own benefit for carrying out the international search and for performing all other tasks entrusted to International Searching Authorities by the Treaty and these Regulations. **(Rule 16.1 (a))**

"The search fee shall be collected by the receiving Office. The said fee shall be payable in the currency or currencies prescribed by that Office ("the receiving Office currency"), it being understood that, if any receiving Office currency is not that, or one of those, in which the International Searching Authority has fixed the said fee ("the fixed currency or currencies"), it shall, when transferred by the receiving Office to the International Searching Authority, be freely convertible into the currency of the State in which the International Searching Authority has its headquarters ("the headquarters currency"). The amount of the search fee in any receiving Office currency, other than the fixed currency or currencies, shall be established by the Director General after consultation with that Office. The amounts so established shall be the equivalents, in round figures, of the amount established by the International Searching Authority in the headquarters currency. They shall be published in the Gazette." **(Rule 16.1 (b))**

"Where the amount of the search fee in the headquarters currency is changed, the corresponding amounts in the receiving Office currencies, other than the fixed currency or currencies, shall be applied from the same date as the changed amount in the headquarters currency." **(Rule 16.1(c))**

4 "Each international application shall be subject to the payment of a fee for the benefit of the International Bureau ("international fee") to be collected by the receiving Office and consisting of,

(i) a "basic fee," and

(ii) as many "designation fees" as there are national patents and regional patents sought by the applicant in the international application, except that, where Article 44 applies in respect of a designation, only one designation fee shall be due." **(Rule 15.1)**

See also Section 203*bis* of the Administrative Instructions as to the calculation of separate designation fees in cases where a national patent and a regional patent are sought for the same designated State.

"The international fee shall be payable in the currency or currencies prescribed by the receiving Office, it being understood that, when transferred by the receiving Office to the International Bureau, the amount transferred shall be freely convertible into Swiss currency." **(Rule 15.3)**

"The amounts of the basic fee and of the designation fee are as set out in the Schedule of Fees." **(Rule 15.2 (a))**

5 "The amounts of the basic fee and of the designation fee shall be established, for each receiving Office which, under Rule 15.3, prescribes the payment of those fees in a currency or currencies other than Swiss currency, by the Director General after consultation with that Office and in the currency or currencies prescribed by that Office ("prescribed currency"). The amounts in each prescribed currency shall be the equivalent, in round figures, of the amounts in Swiss currency set out in the Schedule of Fees. They shall be published in the Gazette." **(Rule 15.2 (b))**

FURTHER INFORMATION CONTINUED FROM THE SECOND SHEET

V. ☐ **OBSERVATIONS WHERE CERTAIN CLAIMS WERE FOUND UNSEARCHABLE** [10]

This international search report has not been established in respect of certain claims under Article 17(2) (a) for the following reasons:

1. ☐ Claim numbers ....., because they relate to subject matter [12] not required to be searched by this Authority, namely:

2. ☐ Claim numbers ....., because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out [13], specifically:

VI. ☐ **OBSERVATIONS WHERE UNITY OF INVENTION IS LACKING** [11]

This International Searching Authority found multiple inventions in this international application as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims of the international application.

2. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims of the international application for which fees were paid, specifically claims:

3. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claim numbers:

4. ☐ As all searchable claims could be searched without effort justifying an additional fee, the International Searching Authority did not invite payment of any additional fee.

Remark on Protest

☐ The additional search fees were accompanied by applicant's protest.

☐ No protest accompanied the payment of additional search fees.

NOTES TO FORM PCT/ISA/210

These Notes are intended to facilitate the use of the present form. For full information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. "Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

1 "The international search report shall identify the International Searching Authority which established it by indicating the name of such Authority, and the international application by indicating the international application number, the name of the applicant, the name of the receiving Office, and the international filing date." **(Rule 43.1)**

2 "The international search report shall be dated and shall indicate the date on which the international search was actually completed. It shall also indicate the filing date of any earlier application whose priority is claimed." **(Rule 43.2)**

3 "The international search report shall contain the classification of the subject matter at least according to the International Patent Classification." **(Rule 43.3 (a))**
"Such classification shall be effected by the International Searching Authority." **(Rule 43.3 (b))**
"Where the subject matter of the international application is such that classification thereof requires more than one classification symbol according to the principles to be followed in the application of the International Patent Classification to any given patent document, the international search report shall indicate all such symbols." **(Section 504 (a))**
"Where any national classification system is used, the international search report may indicate all the applicable classification symbols also according to that system." **(Section 504 (b))**
"Where the subject matter of the international application is classified both according to the International Patent Classification and to any national classification system, the international search report shall, wherever possible, indicate the corresponding symbols of both classifications opposite each other." **(Section 504 (c))**

4 "The international search report shall list the classification identification of the fields searched. If that identification is effected on the basis of a classification other than the International Patent Classification, the International Searching Authority shall publish the classification used." **(Rule 43.6 (a))**

5 "If the international search extended to patents, inventors' certificates, utility certificates, utility models, patents or certificates of addition, inventors' certificates of addition, utility certificates of addition, or published applications for any of those kinds of protection, of States, periods, or languages, not included in the minimum documentation as defined in Rule 34, the international search report shall, when practicable, identify the kinds of documents, the States, the periods, and the languages to which it extended. For the purposes of this paragraph, Article 2 (ii) shall not apply." **(Rule 43.6 (b))**

6 "Subject to paragraphs *(b)* and *(c)*, the international search report shall either state that the International Searching Authority approves the title and the abstract as submitted by the applicant or be accompanied by the text of the title and/or abstract as established by the International Searching Authority under Rules 37 and 38." **(Rule 44.2 (a))**

7 "If, at the time the international search is completed, the time limit allowed for the applicant to comment on any suggestion of the International Searching Authority in respect of the abstract has not expired, the international search report shall indicate that it is incomplete as far as the abstract is concerned". **(Rule 44.2 (b))**

8 The figure(s) suggested by the applicant is indicated in the check list of the request; see **Rule 3.3 (a) (iii)**.

9 "If the applicant fails to make the indication referred to in Rule 3.3 *(a)* (iii), or if the International Searching Authority finds that a figure or figures other than that figure or those figures suggested by the applicant would among all the figures of all the drawings, better characterize the invention, it shall indicate the figure or figures which it so considers. Publications by the International Bureau shall then use the figure or figures so indicated by the International Searching Authority. Otherwise, the figure or figures suggested by the applicant shall be used in the said publications." **(Rule 8.2)**

10 This part of the report is filled in only where Article 17 (2) *(b)* applies. (Where certain claims were not searched because of lack of unity of invention and non-payment of additional fees, part V—rather than this part—is filled in.) **Article 17 (2)** reads as follows:

"*(a)* If the International Searching Authority considers

(i) that the international application relates to a subject matter which the International Searching Authority is not required, under the Regulations, to search, and in the particular case decides not to search, or

(ii) that the description, the claims, or the drawings, fail to comply with the prescribed requirements to such an extent that a meaningful search could not be carried out,

the said Authority shall so declare and shall notify the applicant and the International Bureau that no international search report will be established.

"*(b)* If any of the situations referred to in subparagraph *(a)* is found to exist in connection with certain claims only, the international search report shall so indicate in respect of such claims, whereas, for the other claims, the said report shall be established as provided in Article 18."

11 This part of the report is filled in only where, in the course of the procedure preceding the issuance of this report the International Searching Authority, having found that the international application does not comply with the requirement of unity of invention, invites the applicant to pay additional fees. See **Article 17 (3) (a)** reading as follows:
"If the International Searching Authority considers that the international application does not comply with the requirement of unity of invention as set forth in the Regulations, it shall invite the applicant to pay additional fees. The International Searching Authority shall establish the international search report on those parts of the international application which relate to the invention first mentioned in the claims ("main invention") and, provided the required additional fees have been paid within the prescribed time limit, on those parts of the international application which relate to inventions in respect of which the said fees were paid."
"If the applicant paid additional fees for the international search, the international search report shall so indicate. Furthermore, where the international search was made on the main invention only (Article 17 (3) *(a)*), the international search report shall indicate what parts of the international application were and what parts were not searched." **(Rule 43.7)**

12 See **Article 17 (2) (a) (i)**, quoted in note **10**, above, and **Rule 39** reading as follows:
"No International Searching Authority shall be required to search an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Searching Authority is not equipped to search prior art concerning such programs."

13 See **Article 17 (2) (a) (ii)**, quoted in note **10**, above.

14 "The objective of the international search is to discover relevant prior art." **(Article 15 (2))**
Rule 33.1, entitled "Relevant Prior Art for the International Search," reads as follows:
"*(a)* For the purposes of Article 15 (2), relevant prior art shall consist of everything which has been made available to the public anywhere in the world by means of written disclosure (including drawings and other illustrations) and which is capable of being of assistance in determining that the claimed invention is or is not new and that it does or does not involve an inventive step (i.e., that it is or is not obvious), provided that the making available to the public occurred prior to the international filing date.
"*(b)* When any written disclosure refers to an oral disclosure, use, exhibition, or other means whereby the contents of the written disclosure were made available to the public, and such making available to the public occurred on a date prior to the international filing date, the international search report shall separately mention that fact and the date on which it occurred if the making available to the public of the written disclosure occurred on a date posterior to the international filing date.
"*(c)* Any published application or any patent whose publication date is later but whose filing date, or, where applicable, claimed priority date, is earlier than the international filing date of the international application searched, and which would constitute relevant prior art for the purposes of Article 15 (2) had it been published prior to the international filing date, shall be specially mentioned in the international search report."

15 "*(a)* Where any document cited in the international search report is of particular relevance, the special indication required by Rule 43.5*(c)* shall consist of the letter(s) "X" and/or "Y" placed next to the citation of the said document.
(b) Category "X" is applicable where a document is such that when taken alone, a claimed invention cannot be considered novel or cannot be considered to involve an inventive step.
(c) Category "Y" is applicable where a document is such that a claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art." **(Section 505)**

"Where any document cited in the international search report refers to an oral disclosure, use, exhibition, or other means referred to in Rule 33.1 *(b)*, the separate indication required by that Rule shall consist of the letter "O" placed next to the citation of the said document." **(Section 507 (a))**

"Where any document cited in the international search report is a published application or patent as defined in Rule 33.1 *(c)*, the special mention required by that Rule shall consist of the letter "E" placed next to the citation of the said document." **(Section 507 (b))**

"Where any document cited in the international search report is not considered to be of particular relevance requiring the use of categories "X" and/or "Y" but defines the general state of the art, it shall be indicated by the letter "A" placed next to the citation of the said document [see III, 3.14 of the Guidelines for International Search to be Carried Out under the PCT]." **(Section 507(c))**

"Where any document cited in the international search report is a document whose publication date occurred earlier than the international filing date of the international application, but later than the priority date claimed in that application, it shall be indicated by the letter "P" next to the citation of the said document." **(Section 507 (d))**

"Where any document cited in the international search report is a document whose publication date occurred after the filing date or the priority date of the international application and is not in conflict with the said application, but is cited for the principle or theory underlying the invention, which may be useful for a better understanding of the invention, or is cited to show that the reasoning or the facts underlying the invention are incorrect, it shall be indicated by the letter «T» next to the citation of the document." **(Section 507 (e))**

"Where in the international search report any document is cited for reasons other than those referred to in paragraphs *(a)* to *(e)*, for example:

— documents which may throw doubt on priority claim(s) [see VI, 4.3 of the Guidelines for International Search to be Carried Out under the PCT]

— documents cited to establish the publication date of another citation [see VI, 6.2 of the Guidelines for International Search to be Carried Out under the PCT],

such document shall be indicated by the letter "L" next to the citation of the document and the reason for citing the document shall be given." **(Section 507 (f))**

"Where a document is a member of a patent family (see IV, 3.2 of the Guidelines for International Search to be Carried Out under the PCT), it shall, whenever feasible, be mentioned in the international search report in addition to the one cited belonging as well to this family and should be preceded by the sign ampersand (&). A document whose contents have not been verified by the search examiner but are believed to be substantially identical with those of another document which the search examiner has inspected, may be cited in the international search report in the above-mentioned manner indicated for patent family members (see VI, 5.2 of the Guidelines for the International Search to be Carried Out under the PCT)." **(Section 507 (g))**

16 "The international search report shall contain the citations of the documents considered to be relevant." **(Rule 43.5 (a))**

"Identification of any document cited in the international search report referred to in Rule 43.5 *(b)* shall be made by indicating the following elements in the order in which they are listed:

(a) *In the case of any patent document* (patent documents being patents within the meaning of Article 2 (ii) as well as published applications relating thereto):

(i) the Office that issued the document, by the two-letter code as in *Annex B*;

(ii) the kind of document, by the appropriate symbols as in *Annex C*;

(iii) the number of the document as given to it by the Office that issued it; (for Japanese patent documents the indication of the year of the reign of the Emperor must precede the serial number of the patent document);

(iv) the name of the patentee or applicant (in capital letters, where appropriate abbreviated);

(v) the date of publication of the cited patent document as indicated thereon; and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

The following example illustrates the citation of a patent document according to paragraph (a) above:

JP, B, 50-14535 (NCR CORPORATION) 28 May 1975 (28.05.75), see column 4, lines 3 to 27).

(b) *In the case of any book or other separately issued publication*

(i) the name of the author;

(ii) the title (including, where applicable, the number of the edition and/or volume);

(iii) the year of publication (when this coincides with the year of the international application or of the priority claim, the International Searching Authority shall endeavour to determine the month and, if necessary, the day of publication and to indicate these data in the international search report);

(iv) the name of the publisher;

(v) as far as available, the place of publication (where only the location of the publisher appears on the book or other separately issued publication, then that location shall be indicated as the place of publication); and

(vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a book or toher separately issued publication according to paragraph (b) above:

H. Walton, 'Microwave Quantum Theory', Volume 2, published 1973, by Sweet and Maxwell (London), see pages 138 to 192, especially pages 146 to 148.)

(c) *In the case of any article published in a periodical or other serial publication:*

(i) the title of the periodical or other serial publication;

(ii) the number of the volume and the date of the issue in which the article appears;

(iii) as far as available, the place of publication (where only the location of the publisher appears in the periodical or other serial publication, then that location shall be indicated as the place of publication);

(iv) the author and the title of the article and the number of the page both on which the article starts and ends; and

(v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of an article published in a periodical or other serial publication according to paragraph (c) above:

IBM Technical Disclosure Bulletin, Volume 17, no. 5, issued 1974 October (Armonk, New York), J. G. Drop, 'Integrated Circuit Personalization at the Module Level', see pages 1344 to 1345.)

(d) *In the case of abstracts*

(i) the identification of the document containing the abstract in the manner set forth in paragraphs *(a)*, *(b)* and *(c)*, respectively, depending upon whether the abstract is contained in a patent document, in a book or other separately issued publication, or in an article published in a periodical or other serial publication;

(ii) in the case where the abstract is not published together with the full text document which served as its basis, the identification of both abstract and full text document on the basis of whatever bibliographic data may be available in respect thereto."

(The following example illustrates the citation of an abstract according to paragraph *(d)* (ii) above:

Chemical Abstracts, Volume 75, no. 20, issued 1971, November 15 (Colombus, Ohio, U.S.A.), D. I. Shetulov, 'Surface Effects During Metal Fatigue' see page 163, column 1, the abstract no. 120718k, Fiz.-Khim. Mekh. Mater. 1971,7(2), 7-11 (Russ).)" **(Section 503)**

17 "If only certain passages of the cited document are relevant or particularly relevant, they shall be identified, for example, by indicating the page, the column, or the lines, where the passage appears.» **(Rule 43.5 (e))**

18 "Citations which are not relevant to all the claims shall be cited in relation to the claim or claims to which they are relevant." **(Rule 43.5 (d))**

"The claims to which cited documents are relevant shall be indicated by placing in the appropriate column of the international search report:

(i) where the cited document is relevant to one claim, the number of that claim; for example, (2) or (17);

(ii) where the cited document is relevant to two or more claims numbered in consecutive order, the numbers of the first and last claims of the series connected by a hyphen; for example, (1-15) or (2-3);

(iii) where the cited document is relevant to two or more claims that are not numbered in consecutive order, the number of each claim placed in ascending order and separated by a comma or commas; for example, (1,6) or (1,7,10);

(iv) where the cited document is relevant to more than one series of claims under (ii) above, or to claims of both categories (ii) and (iii) above, the series or individual claim numbers and series placed in ascending order using commas to separate the several series, or to separate the numbers of individual claims and each series of claims; for example, (1-6, 9-10, 12-15) or (1, 3-4, 6, 9-11)." **(Section 508)**

19 "Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request form, provided this reference does not exceed ten characters." **(Section 108 (b))**

20 "The international search report shall be signed by an authorized officer of the International Searching Authority." **(Rule 43.8)**

CHAPTER II

PATENT COOPERATION TREATY

DEMAND [1]

UNDER ARTICLE 31 OF THE PATENT COOPERATION TREATY:

THE UNDERSIGNED REQUESTS THAT THE INTERNATIONAL APPLICATION SPECIFIED BELOW BE THE SUBJECT OF INTERNATIONAL PRELIMINARY EXAMINATION ACCORDING TO THE PATENT COOPERATION TREATY

I. IDENTIFICATION OF THE INTERNATIONAL APPLICATION [2]

Applicant's or Agent's File Reference [3] (indicated by applicant if desired):

International Application No.	International Filing Date	Receiving Office

Title of Invention

II. APPLICANT [4] Additional applicants are indicated on supplemental sheet ☐

Name

Address (including postal code and country)

Nationality (country)	Residence (country)

Telephone number (if any)	Telegraphic address (if any)	Teleprinter address (if any)

III. AGENT OR COMMON REPRESENTATIVE (IF ANY) [5] Additional agents are indicated on supplemental sheet. ☐

A. ☐ The following named agent or common representative has been appointed by the applicant. [5]

B. ☐ Applicant hereby appoints the following named agent or common representative to act on his behalf for the purposes of international preliminary examination. [5]

C. ☐ Applicant has appointed the following named agent or common representative in an accompanying separate power of attorney. [5]

Name

Address (including postal code and country)

Telephone number (if any)	Telegraphic address (if any)	Teleprinter address (if any)

IV. ELECTION OF STATES [6] Additional States are indicated on supplemental sheet ☐

V. SIGNATURE OF APPLICANT [7]

(The following is to be filled in by the International Preliminary Examining Authority.)

1. Actual date of receipt of DEMAND

2. Adjusted date of receipt of DEMAND due to CORRECTIONS under Rule 60.1 (b).

See notes on accompanying sheet

USE THIS SHEET IF ANY OF THE BOXES IS NOT LARGE ENOUGH TO CONTAIN INFORMATION TO BE FURNISHED. INDICATE THE BOXES CONTINUED ON THIS SHEET BY THEIR (ROMAN) NUMERALS AND TITLE (e.g.: "II. APPLICANT (CONTINUED)")

NOTES TO FORM PCT/IPEA/401

These Notes are intended to facilitate the filling in of the present form. For full information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In the case of discrepancy between these Notes and the said texts, the latter are applicable. "Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations, and "Section" refers to Sections of the Administrative Instructions.

Demand

1 **Rule 53** entitled «The Demand» reads as follows:
"53.1 Form

(a) The demand shall be made on a printed form.

(b) Copies of printed forms shall be furnished free of charge by the receiving Offices to the applicants.

(c) The particulars of the forms shall be prescribed by the Administrative Instructions.

(d) The demand shall be submitted in two identical copies."

"53.2 Contents

(a) The demand shall contain:
(i) a petition,
(ii) indications concerning the applicant and the agent if there is an agent,
(iii) indications concerning the international application to which it relates,
(iv) election of States.

(b) The demand shall be signed."

"53.3 The Petition
The petition shall be to the following effect and shall preferably be worded as follows: "Demand under Article 31 of the Patent Cooperation Treaty: The undersigned requests that the international application specified below be the subject of international preliminary examination according to the Patent Cooperation Treaty."

"53.4 The Applicant
As to the indications concerning the applicant, Rules 4.4 and 4.16 shall apply, and Rule 4.5 shall apply *mutatis mutandis*."

"53.5 The Agent
If an agent is designated, Rules 4.4, 4.7, and 4.16 shall apply, and Rule 4.8 shall apply *mutatis mutandis*."

"53.6 Identification of the International Application
The international application shall be identified by the name of the receiving Office with which the international application was filed, the name and address of the applicant, the title of the invention, and, where the international filing date and the international application number are known to the applicant, that date and that number."

"53.7 Election of States
The demand shall name, among the designated States, at least one Contracting State bound by Chapter II of the Treaty as elected State."

"53.8 Signature
The demand shall be signed by the applicant."

All information introduced into the DEMAND form should, to whatever extent possible, follow the presentation both as to form and substance, of the same information as it appears in the REQUEST form.

Identification of International Application

2 See **Rules 53.2 (a) (iii)** and **53.6** quoted in the preceding note.

3 "Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request form, provided this reference does not exceed ten characters." **(Section 108 (b))**

Applicant

4 See Rule 53.2 *(a)* (ii) and 53.4 quoted in note 1 above.

"Names of natural persons shall be indicated by the person's family name and given name(s), the family name being indicated before the given name(s)." **(Rule 4.4 (a))**
"Names of legal entities shall be indicated by their full, official designations." **(Rule 4.4 (b))**
"Addresses shall be indicated in such a way as to satisfy the customary requirements for prompt postal delivery at the indicated address and, in any case, shall consist of all the relevant administrative units up to, and including, the house number, if any. Where the national law of the designated States does not require the indication of the house number, failure to indicate such number shall have no effect in that State. It is recommended to indicate any telegraphic and teleprinter address and telephone number of the agent or common representative or, in the absence of the designation of an agent or common representative in the request, of the applicant first named in the request." **(Rule 4.4 (c))**
"For each applicant, inventor, or agent, only one address may be indicated except that, if no agent has been appointed to represent the applicant, or all of them if more than one, the applicant or, if there is more than one applicant, the common representative, may indicate, in addition to any other address given in the request, an address to which notifications shall be sent." **(Rule 4.4 (d))**
"Where any name or address is written in characters other than those of the Latin alphabet, the same shall also be indicated in characters of the Latin alphabet either as a mere transliteration or through translation into English. The applicant shall decide which words will be merely transliterated and which words will be so translated." **(Rule 4.16 (a))**
"The name of any country written in characters other than those of the Latin alphabet shall also be indicated in English." **(Rule 4.16 (h))**
"The request shall indicate the name, address, nationality and residence of the applicant or, if there are several applicants, of each of them." **(Rule 4.5 (a))**
"The applicant's nationality shall be indicated by the name of the State of which he is a national." **(Rule 4.5 (b))**
"The applicant's residence shall be indicated by the name of the State of which he is a resident." **(Rule 4.5 (c))**
"The name of any State referred to in the request shall be indicated either by the full name of the State or by a generally accepted short title which ,if the indications are in English or French, shall be as appearing in *Annex A*. If the name is inserted in the request by the applicant for the purpose of designating that State, the receiving Office, or the International Bureau where the receiving Office fails to do so, shall insert, preferably before the name of the State, the two-letter country code identifying the State, as appears in *Annex B*." **(Section 201 (a))**

Agent or Common Representative

5 "Any attorney, patent agent, or other person, having the right to practice before the national Office with which the international application was filed, shall be entitled to practice before the International Bureau and the competent International Searching Authority and competent International Preliminary Examining Authority in respect of that application." **(Article 49)**
"Whenever the word «agent» is used, it shall be construed as meaning any person who has the right to practice before international authorities as defined in Article 49 and, unless the contrary clearly follows from the wording or the nature of the provision, or the context in which the word is used, also the common representative referred to in Rule 4.8." **(Rule 2.2)**

"If there is more than one applicant and the request does not refer to an agent representing all the applicants ("a common agent"), the request shall designate one of the applicants who is entitled to file an international application according to Article 9 as their common representative." **(Rule 4.8 (a))**
"If there is more than one applicant and the request does not refer to an agent representing all the applicants and it does not comply with the requirement of designating one of the applicants as provided in paragraph *(a)*, the common representative shall be the applicant first named in the request who is entitled to file an international application with the receiving Office with which the international application was filed (Rule 19.1 (a))." **(Rule 4.8 (b))**
See Rules **53.2 (a) (ii)** and **53.5** quoted in note **1** above. Also see Rules **4.4**, **4.8** and **4.16** quoted in notes 4 and 5 above.
"In the case of several applicants, any agent designated under Rule 4.7 in the request signed by all the applicants, or appointed under Rule 90.3 in a separate power of attorney signed by all the applicants, shall be considered a common agent." **(Section 106 (a))**.
"Where the international application is filed with reference to a general power of attorney not signed by all the applicants, it shall be sufficient for the purpose of appointment of a common agent under Rule 90.3, if the request of a separate power of attorney is signed by the applicant, who did not sign the general power of attorney." **(Section 106 (b))**
"If agents are designated, the request shall so indicate, and hall state their names and addresses." **(Rule 4.7)**

Election of States

See **Rules 53.2 (a) (iv)** and **53.7** quoted in note **1** above.

Signature

7 See **Rules 53.2 (b)** and **53.8** quoted in note **1** above.

PATENT COOPERATION TREATY
INTERNATIONAL PRELIMINARY EXAMINATION REPORT

IDENTIFICATION OF THE INTERNATIONAL APPLICATION	Applicant's or Agent's File Reference [2]
International Application No. [1]	International Filing Date [1]
Receiving Office [1]	Priority Date Claimed
Applicant (Name) [1]	

BASIS OF REPORT

1. AMENDMENTS AND/OR CORRECTIONS [3]* — The amendments and/or corrections made before this International Preliminary Examining Authority in respect of the claims, the description, and/or drawings in the above-identified international application are annexed to this report.

a. ☐ This report has been established on the basis of the following application documents:

☐ the application documents as filed

☐	description, pages	as originally filed	.....
	description, pages	filed with your letter of	.....
	description, pages	filed with your letter of	.....
	description, pages	filed with your letter of	.....
☐	claim(s)	as originally filed	.....
	claim(s)	filed with your letter of	.....
	claim(s)	filed with your letter of	.....
	claim(s)	filed with your letter of	.....
☐	drawings, sheet/fig.	as originally filed	.....
☐	drawings, sheet/fig.	filed with your letter of	.....

b. ☐ This report has been established as if the amendments and/or corrections indicated on the extra sheet have not been made, since, for the reasons indicated, they have been considered to go beyond the disclosure as filed.

2. PRIORITY [4]

a. This report has been established as if no priority has been claimed due to the failure to furnish within the prescribed time limit the requested:

☐ copy of the earlier application whose priority has been claimed.

☐ translation of the earlier application whose priority has been claimed.

b. ☐ This report has been established as if no priority has been claimed due to the fact that the priority claim has been found invalid.

Thus, for the purposes of this report, the international filing date indicated above is considered the relevant date.

* Where this Report contains attachments of corrections and amendments (including letters making amendments), a translation of these attachments must be furnished to the elected Offices together with the translation (if required) of the international application as originally filed.

See notes on accompanying sheet

FURTHER INFORMATION CONTINUED FROM THE FIRST SHEET

BASIS OF REPORT (Continued)

3. UNITY OF INVENTION [5] — The international application does not comply with the requirement of unity of invention.

a. In response to an invitation to restrict or pay additional fees the applicant has:

☐ restricted the claims.

☐ paid additional fees.

☐ paid additional fees under protest. Where requested by the applicant, the text of the protest together with the decision taken thereon are annexed to this report.

☐ neither restricted nor paid additional fees.

b. ☐ No invitation has been issued. The opinion of this International Preliminary Examining Authority is that the international application does not comply with the requirement of unity of invention for the following reasons. (specify)

c. Consequently, the following parts of the international application were the subject of international preliminary examination in establishing this report:

☐ all parts.

☐ the parts relating to the restricted claims, that is claims Nos. _____

☐ the parts relating to the main invention, that is claims Nos. _____ .

4. NON-ESTABLISHMENT OF REPORT ON QUESTIONS OF NOVELTY, INVENTIVE STEP OR INDUSTRIAL APPLICABILITY [6]

The questions of whether the claimed invention appears to be novel, to involve an inventive step or to be industrially applicable have not for the reasons indicated been gone into in respect of:

a. ☐ the entire international application

b. ☐ claims Nos. _____

for the following reasons:

☐ Said international application, or said claims Nos. _____ relate to the following subject matter which does not require an international preliminary examination. [7] (specify)

☐ The description, claims, or drawings (indicate particular elements) or said claims Nos. _____ are so unclear that no meaningful opinion could be formed. [8]

☐ The claims, or said claims Nos. _____ are so inadequately supported by the description that no meaningful opinion could be formed. [8]

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description have been noted.

CERTIFICATION

Date Demand Submitted [17]	Date of Completion of the International Preliminary Examination Report [18]
International Preliminary Examining Authority [1]	Signature of Authorized Officer [19]

See notes on accompanying sheet

These Notes are intended to facilitate the use of the present form. For full information, see the text of the Patent Cooperation Treaty and the texts of the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and the said texts, the latter are applicable. "Article" refers to Articles of the Treaty, "Rule" refers to Rules of the Regulations and "Section" refers to Sections of the Administrative Instructions.

1 "The report shall identify the International Preliminary Examining Authority which established it by indicating the name of such Authority, and the international application, by indicating the international application number, the name of the applicant, the name of the receiving Office, and the international filing date." **(Rule 70.3)**

2 "Any correspondence from an International Authority to the applicant or his agent shall be marked with the file reference, composed either of letters or numbers, or both, of the applicant or the agent, if so indicated on the request form, provided this reference does not exceed ten characters". **(Section 108 (b))**

3 "If the claims have been amended, the report shall issue on the claims as amended." **(Rule 70.2 (a))**

"If the International Preliminary Examining Authority considers that any amendment goes beyond the disclosure in the international application as filed, the report shall be established as if such amendment had not been made, and the report shall so indicate. It shall also indicate the reasons why it considers that the amendment goes beyond the said disclosure." **(Rule 70.2 (c))**

"If, before the International Preliminary Examining Authority, amendments or corrections have been made, this fact shall be indicated in the report." **(Rule 70.11)**

"If the claims, the description, or the drawings, were amended or any part of the international application was corrected before the International Preliminary Examining Authority, each replacement sheet marked as provided in Rule 66.8 *(b)* shall be attached to the report as an annex thereto. Replacement sheets superseded by later replacement sheets shall not be attached. If the amendment is communicated in a letter, a copy of such letter shall also be annexed to the report." **(Rule 70.16)**

4 "If, pursuant to Rule 66.7 *(c)*, the report is established as if the priority had not been claimed, the report shall so indicate." **(Rule 70.2 (b))**

"If the International Preliminary Examining Authority needs a copy of the application whose priority is claimed in the international application, the International Bureau shall, on request, promptly furnish such copy, provided that, where the request is made before the International Bureau has received the priority document under Rule 17.1 *(a)*, the applicant shall furnish such copy to the International Bureau and directly to the International Preliminary Examining Authority." **(Rule 66.7 (a))**

"If the application whose priority is claimed is in a language other than the language or one of the languages of the International Preliminary Examining Authority, the applicant shall furnish, on invitation, a translation in the said language or one of the said languages." **(Rule 66.7 (b))**

"The copy to be furnished by the applicant under paragraph *(a)* and the translation referred to in paragraph *(b)* shall be furnished not later than by the expiration of 2 months from the date of the request or invitation. If they are not furnished within that time limit, the international preliminary examination report shall be established as if the priority had not been claimed." **(Rule 66.7 (c))**

See also **Rule 70.10** in note **14** below.

5 "If the applicant paid additional fees for the international preliminary examination, or if the international application or the international preliminary examination was restricted under Article 34 (3), the report shall so indicate. Furthermore, where the international preliminary examination was carried out on restricted claims (Article 34 (3) *(a)*), or on the main invention only (Article 34 (3) *(c)*), the report shall indicate what parts of the international application were and what parts were not the subject of international preliminary examination." **(Rule 70.13)**

Rule 68 entitled "Lack of Unity of Invention (International Preliminary Examination)" reads as follows:

"68.1 No Invitation to Restrict or Pay

Where the International Preliminary Examining Authority finds that the requirement of unity of invention is not complied with and chooses not to invite the applicant to restrict the claims or to pay additional fees, it shall establish the international preliminary examination report, subject to Article 34 (4) *(b)*, in respect of the entire international application, but shall indicate, in the said report, that, in its opinion, the requirement of unity of invention is not fulfilled and shall specify the reasons for which the international application is not considered as complying with the requirement of unity of invention."

"68.2 Invitation to Restrict or Pay

Where the International Preliminary Examining Authority finds that the requirement of unity of invention is not complied with and chooses to invite the applicant, at his option, to restrict the claims or to pay additional fees, it shall specify at least one possibility of restriction which, in the opinion of the International Preliminary Examining Authority, would be in compliance with the applicable requirement, and shall specify the amount of the additional fees and the reasons for which the international application is not considered as complying with the requirement of unity of invention It shall, at the same time, fix a time limit, with regard to the circumstances of the case, for complying with the invitation; such time limit shall not be shorter than 1 month, and it shall not be longer than 2 months, from the date of the invitation."

"68.3 Additional Fees

(a) The amount of the additional fee due for international preliminary examination under Article 34 (3) *(a)* shall be determined by the competent International Preliminary Examining Authority.

(b) The additional fee due for international preliminary examination under Article 34 (3) *(a)* shall be payable direct to the International Preliminary Examining Authority.

(c) Any applicant may pay the additional fee under protest, that is, accompanied by a reasoned statement to the effect that the international application complies with the requirement of unity of invention or that the amount of the required additional fee is excessive. Such protest shall be examined by a three-member board or other special instance of the International Preliminary Examining Authority, or any competent higher authority, which, to the extent that it finds the protest justified, shall order the total or partial reimbursement to the applicant of the additional fee. On the request of the applicant, the text of both the protest and the decision thereon shall be notified to the elected Offices as an annex to the international preliminary examination report.

(d) The three-member board, special instance or competent higher authority, referred to in paragraph *(c)*, shall not comprise any person who made the decision which is the subject of the protest."

"68.4 Procedure in the Case of Insufficient Restriction of the Claims

If the applicant restricts the claims but not sufficiently to comply with the requirement of unity of invention, the International Preliminary Examining Authority shall proceed as provided in Article 34 (3) *(c)*."

"68.5 Main Invention

In case of doubt which invention is the main invention for the purposes of Article 34 (3) *(c)*, the invention first mentioned in the claims shall be considered the main invention."

6 "If the International Preliminary Examining Authority considers

(i) that the international application relates to a subject matter on which the International Preliminary Examining Authority is not required, under the Regulations, to carry out an international preliminary examination, and in the particular case decides not to carry out such examination, or

(ii) that the description, the claims, or the drawings, are so unclear, or the claims are so inadequately supported by the description, that no meaningful opinion can be formed on the novelty, inventive step (non-obviousness), or industrial applicability, of the claimed invention,

the said Authority shall not go into the questions referred to in Article 33 (1) and shall inform the applicant of this opinion and the reasons therefor." **(Article 34 (4) (a))**

"If any of the situations referred to in subparagraph *(a)* is found to exist in, or in connection with, certain claims only, the provisions of that subparagraph shall apply only to the said claims." **(Article 34 (4) (b))**

"If, at the time of establishing the international preliminary examination report, the International Preliminary Examining Authority considers that any of the situations referred to in Article 34 (4) *(a)* exists, that report shall state this opinion and the reasons therefor..." **(Article 35 (3) (a))**

"If a situation under Article 34 (4) *(b)* is found to exist, the international preliminary examination report shall, in relation to the claims in question, contain the statement as provided in subparagraph *(a)*, ..." **(Article 35 (3) (b))**

7 See **Article 34 (4) (a) (i)** and **34 (4) (b)** in the preceding note and **Rule 67** entitled "Subject Matter under Article 34 (4) *(a)* (i)" which reads as follows:

"67.1 Definition

No International Preliminary Examining Authority shall be required to carry out an international preliminary examination on an international application if, and to the extent to which, its subject matter is any of the following:

(i) scientific and mathematical theories,

(ii) plant or animal varieties or essentially biological processes for the production of plants and animals, other than microbiological processes and the products of such processes,

(iii) schemes, rules or methods of doing business, performing purely mental acts or playing games,

(iv) methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods,

(v) mere presentations of information,

(vi) computer programs to the extent that the International Preliminary Examining Authority is not equipped to carry out an international preliminary examination concerning such programs."

8 See **Article 34 (4) (a) (ii)** in note 6 above.

9 "The report shall repeat the classification given under Rule 43.3 [classification of the subject matter in the international search report] if the International Preliminary Examining Authority agrees with such classification." **(Rule 70.5 (a))**

"Otherwise, the International Preliminary Examining Authority shall indicate in the report the classification, at least according to the International Patent Classification, which it considers correct." **(Rule 70.5 (b))**

10 "The international preliminary examination report shall not contain any statement on the question whether the claimed invention is or seems to be patentable or unpatentable according to any national law. It shall state, subject to the provisions of para-

graph (3), in relation to each claim, whether the claim appears to satisfy the criteria of novelty, inventive step (non-obviousness), and industrial applicability, as defined for the purposes of the international preliminary examination in Article 33 (1) to (4). The statement shall be accompanied by the citation of the documents believed to support the stated conclusion with such explanations as the circumstances of the case may require. The statement shall also be accompanied by such other observations as the Regulations provide for." **(Article 35 (2))**

"The statement referred to in Article 35 (2) shall consist of the words "YES" or "NO," or their equivalent in the language of the report, or some appropriate sign provided for in the Administrative Instructions, and shall be accompanied by the citations, explanations and observations, if any, referred to in the last sentence of Article 35 (2)." **(Rule 70.6 (a))**

"If any of the three criteria referred to in Article 35 (2) (that is, novelty, inventive step (non-obviousness), industrial applicability) is not satisfied, the statement shall be negative. If, in such a case, any of the criteria, taken separately, is satisfied, the report shall specify the criterion or criteria so satisfied." **(Rule 70.6 (b))**

11 See **Article 35 (2)** in the preceding note.

"The report shall cite the documents considered to be relevant for supporting the statements made under Article 35 (2)." **(Rule 70.7 (a))**

"The provisions of Rule 43.5 *(b)* and *(e)* shall apply also to the report." **(Rule 70.7 (b))**

"The method of identifying any cited document shall be regulated by the Administrative Instructions." **(Rule 43.5 (b))**

"If only certain passages of the cited document are relevant or particularly relevant, they shall be identified, for example, by indicating the page, the column, or the lines, where the passage appears." **(Rule 43.5 (e))**

"Identification of any document cited in the international search report referred to in Rule 43.5 (b) shall be made by indicating the following elements in the order in which they are listed:

(a) *In the case of any patent document* (patent documents being patents within the meaning of Article 2 (ii) as well as published applications relating thereto):
  (i) the Office that issued the document, by the two-letter code as in *Annex B*;
  (ii) the kind of document, by the appropriate symbols as in *Annex C*;
  (iii) the number of the document as given to it by the Office that issued it (for Japanese patent documents the indication of the year of the reign of the Emperor must precede the serial number of the patent document;
  (iv) the name of the patentee or applicant (in capital letters, where appropriate abbreviated);
  (v) the date of publication of the cited patent document as indicated thereon; and
  (vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a patent document according to paragraph (a) above:

JP, B, 50-14535 (NCR CORPORATION) 28 May 1975 (28.05.75), see column 4, lines 3 to 27).

(b) *In the case of any book or other separately issued publication*
  (i) the name of the author;
  (ii) the title (including, where applicable, the number of the edition and/or volume);
  (iii) the year of publication (when this coincides with the year of the international application or of the priority claim, the International Searching Authority shall endeavour to determine the month and, if necessary, the day of publication and to indicate these data in the international search report);
  (iv) the name of the publisher;
  (v) as far as available, the place of publication(where only the location of the publisher appears on the book or other separately issued publication, then that location shall be indicated as the place of publication); and
  (vi) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of a book or other separately issued publication according to paragraph (b) above:

H. Walton, 'Microwave Quantum Theory', Volume 2, published 1973, by Sweet and Maxwell (London), see pages 138 to 192, especially pages 146 to 148.)

(c) *In the case of any article published in a periodical or other serial publication:*
  (i) the title of the periodical or other serial publication;
  (ii) the number of the volume and the date of the issue in which the article appears;
  (iii) as far as available, the place of publication (where only the location of the publisher appears in the periodical or other serial publication, then that location shall be indicated as the place of publication);
  (iv) the author and the title of the article and the number of the page both on which the article starts and ends; and
  (v) where applicable, the pages, columns or lines where the relevant passages appear, or the relevant figures of the drawings.

(The following example illustrates the citation of an article published in a periodical or other serial publication according to paragraph (c) above:

IBM Technical Disclosure Bulletin, Volume 17, no. 5, issued 1974 October (Armonk, New York), J. G. Drop, 'Integrated Circuit Personalization at the Module Level', see pages 1344 to 1345.)

(d) *In the case of abstracts*
  (i) the identification of the document containing the abstract in the manner set forth in paragraphs (a), (b) and (c), respectively, depending upon whether the abstract is contained in a patent document, in a book or other separately issued publication, or in an article published in a periodical or other serial publication;
  (ii) in the case where the abstract is not published together with the full text document which served as its basis, the identification of both abstract and full text document on the basis of whatever bibliographic data may be available in respect thereto."

(The following example illustrates the citation of an abstract according to paragraph (d) (ii) above:

Chemical Abstracts, Volume 75, no. 20, issued 1971, November 15 (Columbus, Ohio, U.S.A.), D. I. Shetulov, 'Surface Effects During Metal Fatigue', see page 163, column 1, the abstract no. 120718k, Fiz.-Khim. Mekh. Mater. 1971, 7 (2), 7-11 (Russ).)" **(Section 503)**

12 See **Article 35 (2)** in note **10** above.

"The Administrative Instructions shall contain guidelines for cases in which the explanations referred to in Article 35 (2) should or should not be given and the form of such explanations. Such guidelines shall be based on the following principles:
  (i) explanations shall be given whenever the statement in relation to any claim is negative;
  (ii) explanations shall be given whenever the statement is positive unless the reason for citing any document is easy to imagine on the basis of consultation of the cited document;
  (iii) generally, explanations shall be given if the case provided for in the last sentence of Rule 70.6 *(b)* obtains." (Rule 70.8)

"Explanations under Rule 70.8 shall clearly point out to which of the three criteria referred to in Article 35 (2), taken separately, any cited document is applicable and shall clearly describe, with reference to the cited documents, the reasons supporting the conclusion that any of the said criteria is or is not satisfied." **(Section 604)**

13 "Any non-written disclosure referred to in the report by virtue of Rule 64.2 shall be mentioned by indicating its kind, the date on which the written disclosure referring to the non-written disclosure was made available to the public, and the date on which the non-written disclosure occurred in public." **(Rule 70.9)**

"In cases where the making available to the public occurred by means of an oral disclosure, use, exhibition or other non-written means ("non-written disclosure") before the relevant date as defined in Rule 64.1 *(b)* and the date of such non-written disclosure is indicated in a written disclosure which has been made available to the public after the relevant date, the non-written disclosure shall not be considered part of the prior art for the purposes of Article 33 (2) and (3). Nevertheless, the international preliminary examination report shall call attention to such non-written disclosure in the manner provided for in Rule 70.9." **(Rule 64.2)**

14 "Any published application or any patent referred to in the report by virtue of Rule 64.3 shall be mentioned as such and shall be accompanied by an indication of its date of publication, of its filing date, and its claimed priority date (if any). In respect of the priority date of any such document, the report may indicate that, in the opinion of the International Preliminary Examining Authority, such date has not been validly claimed." **(Rule 70.10)**

"In cases where any application or any patent which would constitute prior art for the purposes of Article 33 (2) and (3) had it been published prior to the relevant date referred to in Rule 64.1 was published, as such, after the relevant date but was filed earlier than the relevant date or claimed the priority of an earlier application which had been filed prior to the relevant date, such published application or patent shall not be considered part of the prior art for the purposes of Article 33 (2) and (3). Nevertheless, the international preliminary examination report shall call attention to such application or patent in the manner provided for in Rule 70.10." **(Rule 64.3)**

15 "If the International Preliminary Examining Authority considers that, at the time it prepares the report:
  (i) the international application contains any of the defects referred to in Rule 66.2 *(a)* (iii) [defect in the form or contents of the international application under the Treaty or the Regulations thereunder], it shall include this opinion and the reasons therefor in the report;
  (ii) the international application calls for any of the observations referred to in Rule 66.2 *(a)* (v) [observations on the clarity of the claims, the description, and the drawings or the question whether the claims are fully supported by the description], it may include this opinion in the report and, if it does, it shall also indicate in the report the reasons for such opinion." **(Rule 70.12)**

16 See **Rule 70.12 (ii)** in the preceding note.

17 "The report shall indicate:
  (i) the date on which the demand was submitted, and
  (ii) the date of the report; that date shall be the date on which the report is completed." **(Rule 70.4)**

18 See **Rule 70.4 (ii)** in the preceding note.

19 "The report shall be signed by an authorized officer of the International Preliminary Examining Authority." **(Rule 70.14)**

THE COMPETENT INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES SPECIFIED BY THEM

Pursuant to a notification received from the competent Authorities of Luxembourg, the European Patent Office is the competent International Preliminary Examining Authority in the case of all international applications filed with the Ministry of National Economy, Patent Office (Luxembourg). Elections in respect of such international applications may be submitted to the European Patent Office commencing on March 15, 1982.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

NOTES TO FORM PCT/RO/101

1 The purpose of the fee calculation sheet is to aid the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing of the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

2 "Any receiving Office may require that the applicant pay a fee to it, for its own benefit, for receiving the international application, transmitting copies to the International Bureau and the competent International Searching Authority, and performing all the other tasks which it must perform in connection with the international application in its capacity of receiving Office ("transmittal fee")." **(Rule 14.1 (a))**

"The amount and the due date of the transmittal fee, if any, shall be fixed by the receiving Office." **(Rule 14.1 (b))**

3 "Each International Searching Authority may require that the applicant pay a fee ("search fee") for its own benefit for carrying out the international search and for performing all other tasks entrusted to International Searching Authorities by the Treaty and these Regulations." **(Rule 16.1 (a))**

"The search fee shall be collected by the receiving Office. The said fee shall be payable in the currency or currencies prescribed by that Office ("the receiving Office currency"), it being understood that, if any receiving Office currency is not that, or one of those, in which the International Searching Authority has fixed the said fee ("the fixed currency or currencies"), it shall, when transferred by the receiving Office to the International Searching Authority, be freely convertible into the currency of the State in which the International Searching Authority has its headquarters ("the headquarters currency"). The amount of the search fee in any receiving Office currency, other than the fixed currency or currencies, shall be established by the Director General after consultation with that Office. The amounts so established shall be the equivalents, in round figures, of the amount established by the International Searching Authority in the headquarters currency. They shall be published in the Gazette." **(Rule 16.1 (b))**

"Where the amount of the search fee in the headquarters currency is changed, the corresponding amounts in the receiving Office currencies, other than the fixed currency or currencies, shall be applied from the same date as the changed amount in the headquarters currency." **(Rule 16.1 (c))**

4 "Each international application shall be subject to the payment of a fee for the benefit of the International Bureau ("international fee") to be collected by the receiving Office and consisting of,

(i) a "basic fee", and

(ii) as many "designation fees" as there are national patents and regional patents sought by the applicant in the international application, except that, where Article 44 applies in respect of a designation, only one designation fee shall be due." **(Rule 15.1)**

See also Section 203 *bis* of the Administrative Instructions as to the calculation of separate designation fees in cases where a national patent and a regional patent are sought for the same designated State.

"The international fee shall be payable in the currency or currencies prescribed by the receiving Office, it being understood that, when transferred by the receiving Office to the International Bureau, the amount transferred shall be freely convertible into Swiss currency." **(Rule 15.3)**

"The amounts of the basic fee and of the designation fee are as set out in the Schedule of Fees." **(Rule 15.2 (a))**

5 "The amounts of the basic fee and of the designation fee shall be established, for each receiving Office which, under Rule 15.3, prescribes the payment of those fees in a currency or currencies other than Swiss currency, by the Director General after consultation with that Office and in the currency or currencies prescribed by that Office ("prescribed currency"). The amounts in each prescribed currency shall be the equivalent, in round figures, of the amounts in Swiss currency set out in the Schedule of Fees. They shall be published in the Gazette." **(Rule 15.2 (b))**

6 The receiving Office will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

The Finnish Patent Office has notified the new amount of its national fee, as specified below, payable to it as a designated (or elected) Office. The new amount is applicable to all payments of the said fee due on and from March 1, 1982. The additional fee for each claim in excess of 10 remains unchanged (FIM 70).

Kind of Fee	**New Amount** *(Finnish Markka)*
Filing fee	650.–

The Japanese Patent Office has notified new amounts of national fees, as specified below, payable to it as designated (or elected) Office. The new amounts are applicable to all payments of the said fees due on and from June 1, 1981.

Kind of Fee	**New Amounts** *(Yen)*
Filing fee for a patent	6,300
Filing fee for a utility model	4,700

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF THE INVENTIONS COMMITTEE OF THE DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA AS DESIGNATED AND ELECTED OFFICE

The Inventions Committee informed the International Bureau about the following requirements under Articles 22(1) and 39(1)(a) of the PCT:

(i) A translation into the Korean language of the international application (as amended, if amendments under Article 19(1) have been made) must be furnished within the time limits under Article 22(1) or 39(1) to the Inventions Committee (but see (v), below). Instead of furnishing a translation into Korean, the applicant may request the Inventions Committee to prepare such translation for him. In the latter case, the applicant will receive an invitation to pay within a time limit fixed by the Inventions Committee a translation fee, specifying the amount due. Payment of the translation fee must be effected in the manner indicated under (iii), below;

(ii) A national filing fee of 80 Won must be paid to the Inventions Committee;

(iii) Payment is to be effected by check or by transfer of the equivalent amount in Pounds Sterling or Deutsche Mark (on the basis of the exchange rate applicable at the time of payment) to the account of the Foreign Trade Bank of the Democratic People's Republic of Korea with the Bank of China, London, Pounds Sterling account No. 112259-0300, Deutsche Mark account No. 112259-0305;

(iv) If the payment of the translation fee referred to under (i), above, has been made within the time limit fixed in the notification sent to the applicant by the Inventions Committee, the time limit under Article 22(1) or Article 39(1), whichever case applies, will be considered to have been met by the applicant;

(v) Until publication of more detailed information about the procedure before the Inventions Committee as designated or elected Office in Volume II of the PCT Applicant's Guide, all applicants having designated (or elected) in the international application the Democratic People's Republic of Korea will receive a notification from the Inventions Committee pertaining to the requirements referred to above and inviting the applicant to do what is required for the entry into the national phase within a time limit of three months from the date of the notification. If this time limit is respected, the time limits under Articles 22(1) and 39(1) of the PCT will be considered to have been met. Where the applicable time limit expires later than three months from the date of the notification such later date applies.

"MINIMUM DOCUMENTATION" UNDER RULE 34.1(b)(iii) OF THE REGULATIONS UNDER THE PATENT COOPERATION TREATY (PCT)

The International Searching Authorities have agreed that for the purposes of PCT, Rule 34.1(b)(iii), the published items of non-patent literature to be included in the PCT "minimum documentation" should be the items published in the periodicals listed below during the five-year period preceding the time at which an international search report is established, it being understood that an International Searching Authority would not be precluded from consulting issues of the said periodicals published prior to the beginning of the said five-year period. The list is followed by explanatory notes facilitating an understanding of the indications contained in the list.

The list was originally agreed upon at a meeting held in Geneva on April 12, 1978. The present list, which takes into account changes to the titles of periodicals and also changes to publisher's names and addresses, was agreed upon by the International Searching Authorities at a meeting held in Geneva on December 11, 1981.

EXPLANATORY NOTES

1. The structure of the list is as follows:

   (i) entries in the list are numbered consecutively by an identification number (but see note (2)(iv) below);

   (ii) each entry is concerned with one periodical only and gives for each periodical
   - the original title of the periodical
   - the publisher
   - the address of the publisher;

   (iii) the language of the periodical is indicated opposite the title: D stands for Dutch, E for English, F for French, G for German, I for Italian, J for Japanese, Pt for Portuguese, R for Russian, Sp for Spanish, Sw for Swedish;

   (iv) where the periodical is published in two or more parts, or sections, these are indicated under the title (with a short indication of the fields covered by each one, if not obvious from their subtitle);

   (v) the International Standard Serial Number (ISSN) is given for each periodical or for each Section where the periodical is published in two or more parts, so as to assist identification of each periodical or Section;

   (vi) where the publication of a periodical has been discontinued, the particulars concerning the periodical have been shown inside parentheses and the date of discontinuation has been indicated.

2. The titles are arranged alphabetically, subject to the following:

   (i) where the title of the periodical contains the name of a learned society, association or organization, etc., the title appears in the listing under the name of the learned society, association, or organization, etc., e.g. "Journal of the American Ceramic Society" appears under "American Ceramic Society, Journal";

   (ii) the only secondary publication included as an exception in this list is indicated under identification number 169;

   (iii) when several editions of a periodical exist in different languages (e.g., by cover-to-cover translation), the periodical is listed according to the title of the English edition, if any, with the original title given in parentheses. If no English edition exists, the original title is used for the purposes of the alphabetical list;

   (iv) where the title of a periodical has changed, both the former title (in parentheses) and the new title are given in the alphabetical listing, the PCT Identification Number allotted to the periodical remaining unchanged.

3. The names of Japanese publishers are indicated in English, followed by transliteration of the Japanese name into Latin characters in parentheses.

4. The names and addresses of the publishers of the original editions of Russian periodicals are indicated below the names and addresses of the publishers of cover-to-cover translations into English. The language of each edition of the periodical is indicated, in this case, according to the respective publishers.

5. Whenever the periodical contains, in addition to full-text articles in the language, or languages, in which it is published, translations of abstracts, or of abstracts and part of the text, into other languages, this fact is indicated by an asterisk next to the indication of the languages.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979, April, June and December 1980, January and July 1981 and January 1982,

French*
- the April 1979 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979, April, June and December 1980, January and July 1981 and January 1982.

A separate volume of the *PCT Applicant's Guide* (this Volume is referred to as Volume II, Volume I being the *PCT Applicant's Guide* as originally issued in 1978) contains separate chapters dealing with the procedure before each of the designated and elected Offices. The chapters issued to date are:

Australian Patent Office
Austrian Patent Office
Danish Patent Office
Finnish Patent Office
German Patent Office
Hungarian National Office
Japanese Patent Office
Luxembourg Patent Office
Monaco Patent Office
Netherlands Patent Office
Norwegian Patent Office
Romanian Office for Inventions
Swedish Patent Office
Swiss Patent Office
United Kingdom Patent Office
United States Patent and Trademark Office
USSR State Committee for Inventions and Discoveries
African Intellectual Property Organization
European Patent Office.

The *PCT Applicant's Guide* in English or French may be ordered from WIPO or, in the case of purchasers from North, Central and South America, from WIPO's sales agent. The addresses of WIPO and the sales agent appear on the inside cover of this Gazette.

The *PCT Applicant's Guide* in German (new loose leaf format) may be ordered from Carl Heymann Verlag KG, Postfach 275, D-8000 Munich 22, Federal Republic of Germany.

The *PCT Applicant's Guide* in Japanese may be ordered from AIPPI Japan, C.P.O. Boc No. 1457, Tokyo, Japan.

---

* The price (1982) of a single Volume of the *Guide* (Volume I may be bought alone) is 85 Swiss francs, including updating/replacement sheets issued in 1982 and earlier years. The additional charges for airmail delivery are: Europe, 10 Swiss francs; other places, 15 Swiss francs.

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES AND RECEIVING OFFICES

The International Bureau has received a notification from OAPI that English has become (in addition to French) a working language of OAPI. Consequently:

(i) nationals and residents of member States of OAPI which are at the same time Contracting States of the PCT may file international applications in English or French (with the International Bureau acting as receiving Office for those applications);

(ii) translations of international applications must be furnished to OAPI as designated (or elected) Office under Article 22(1) (or 39(1)(a)) of the PCT only where the international application was neither filed nor published in English or French; the language into which a translation is required in such a case is either English or French.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

REFUNDS OF THE SEARCH FEE BY THE INTERNATIONAL SEARCHING AUTHORITIES IN THE CASE OF EARLIER (INTERNATIONAL, INTERNATIONAL-TYPE OR OTHER) SEARCH *

International Searching Authority	Conditions for Making Refund	Amount of Refund
Australia		
Australian Patent Office *(PCT Gazette No. 09/1980, pages 599 to 605)*	The Authority benefits from the earlier search report to the full extent or to a substantially prevailing portion	75 %
Austria		
Austrian Patent Office *(PCT Gazette No. 06/1979, pages 217 to 223)*	The Authority benefits from the earlier search report to the full extent or to a substantially prevailing portion	75 %
Japan		
Japanese Patent Office *(PCT Gazette No. 04/1978, pages 213 to 221)*	(1) Request for refund by applicant and (2) Authority has been able to make use of a considerable part of the earlier search report	12,000 yen
Soviet Union		
USSR State Committee for Inventions and Discoveries *(PCT Gazette No. 02/1978, pages 130 to 138)*	The earlier search was so complete that only a minor updating search is required or	90 %
	The earlier search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1-3 additional IPC-Subgroups or	70 %
	The prior search saves one half of the efforts usually made to carry out international search or	40 %
	The prior search applies only to a few IPC-Subgroups	20 %

* This table summarizes the circumstances in which, and the extent to which, each of the International Searching Authorities will refund to the applicant the search fee paid when the international search can be based, either wholly or in part, on an earlier (international, international-type or other) search carried out by that Authority. The table summarizes what is stated in this respect in the Agreements between WIPO and each of the said Authorities (each such Agreement is indicated below the name of the Authority concerned by the reference to the PCT Gazette in which it was published). Relevant additional information is set out in the notes at the foot of this table. The making of the refunds according to the Agreements mentioned above is provided for in Rules 16.3 and 41.1 of the Regulations under the PCT.

Refunds of the Search Fee by the International Searching Authorities in the Case of Earlier (International, International-type or Other) Search (Continued)

International Searching Authority	Conditions for Making Refund	Amount of Refund
Sweden		
Royal patent and Registration Office (Stockholm) *(PCT Gazette No. 02/1978, pages 116 to 124)*	The Authority benefits from the earlier search report	90 % 75 % 50 % or 25 % depending on the extent of benefit
United States of America		
United States Patent and Trademark Office *(PCT Gazette No. 02/1978, pages 139 to 145)*	A determination by the examiner that one of the following criteria has been met:	
	(1) The earlier search was substantially complete; only an updating search or short search was required	90 %
	(2) The earlier search was of some significant benefit but not enough to justify a 90 % refund	45 %
European Patent Organisation		
European Patent Office *(PCT Gazette No. 02/1978, pages 107 to 115)*	The Authority benefits from the earlier search report	100 % 75 % 50 % or 25 % depending on the extent of benefit

Notes

(1) ***United States Patent and Trademark Office.*** A search of the prior art in an earlier national (US) application is regarded as an international-type search in determining whether a refund shall be made. Refunds are also made according to the same criteria and the same percentages of the search fees paid in respect of international applications where the prior art searches made during the subsequent examination of national (US) applications are wholly or partly based on (earlier) international searches made in the international applications.

(2) ***European Patent Office.*** Searches are accepted as international-type searches for the purposes of making refunds when made by the European Patent Office

(i) on (an earlier) European patent application;

(ii) on (an earlier) national application in France, the Netherlands and Switzerland;

(iii) as a privately commissioned "standard" search on (an earlier) application;

and the priority of the earlier application is claimed in the subsequent international application.

Refunds of the Search Fee by the International Searching Authorities in the Case of Earlier (International, International-type or Other) Search (Continued)

Notes (Continued)

The following criteria have been adopted for determining the amount of the refund of the search fee:

- 100 % refund: no supplementary search performed;
- 75 % refund: supplementary search performed in documentation relating to one or more sub-divisions consulted in the earlier search *or* extended to one or more sub-divisions not yet consulted;
- 50 % refund: supplementary search performed in the documentation relating to one or more sub-divisions already consulted *and* extended to one or more sub-divisions not yet consulted;
- 25 % refund: supplementary search performed in documentation relating to sub-divisions concerning a new aspect of the invention claimed. (For instance, cases where the European application is based on several earlier applications only one of which was the subject of an earlier search report.)

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER PCT, ARTICLE 20

United States of America

United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO PCT, ARTICLE 45(2)

Belgium and *France* are the only States party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national laws of which provide that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 2(3) of the Belgian law of July 8, 1977, approving the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"(3) Any designation or any election (if any) of Belgium in an international application is considered as the indication of the indication that the applicant wishes to obtain a European patent under the European Patent Convention."

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE NEED OF INDICATING THE INVENTOR AS APPLICANT FOR THE PURPOSES OF THE UNITED STATES OF AMERICA

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The *United States of America* is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular officer of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patent Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a tranlation of the application in a language prescribed by the patent authority.

(2) If the applicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Hungary

Article 8 of Decree No. 29/1980/July 29 of the Council of Ministers on the Implementation of Decree Law No. 14 of 1980 on the Promulgation of the Patent Cooperation Treaty reads as follows (text provided by the National Office of Inventions, Budapest):

Article 8 of the Decree

(1) In connection with a regular Hungarian application duly filed with the National Office of Inventions -under Article 15(5)(a) of the Treaty- the applicant may request that an international-type search be carried out. The search shall be carried out -under Article 15(5)(c) of the Treaty- by the International Searching Authority competent for carrying out the international search on international applications filed with the National Office of Inventions as a receiving Office.

(2) One copy of the translation of the Hungarian application prepared by the applicant in the prescribed language, the formal requisites of which meet the requirements prescribed for the international applications, shall be promptly sent by the National Office of Inventions to the competent International Searching Authority, with the transfer of the search fee paid by the applicant concurrently with filing the request.

Netherlands

Section 22 I of the Patents Act as revised in 1978 and Section 17 (5) of the Patents Rules as revised in 1979 (both entered into force on February 1, 1979) read as follows (text provided by the Netherlands Patent Office, Rijswijk):

Section 22 I of the Act

(1) Where the applicant so requests in writing, the Patent Office shall make a search of the state of the art in respect of that which is to be considered the subject matter of the application by virtue of the provisions by or under Section 5A.....

.....

(3) If the applicant so requests in writing, the Patent Office shall cause the application to be subjected to an international-type search as provided for in Article 15 (5) *(a)* of the Patent Cooperation Treaty. Such a search shall be deemed to be a search of the state of the art as referred to in paragraph (1).

(4) Upon the filing of a request as provided for in paragraphs (1), (2) or (3), a fee to be prescribed by Order in Council of the Realm shall be payable.

.....

Section 17 (5) of the Rules

(5) The fee payable by virtue of respectively Article 22 G (1), 22 H (1), 22 I (4), and (9), and 22 J (1), of the Patents Act of the Kingdom on the filing of a request as referred to in those Articles shall be:

.....

in the case of a request for the institution or continuation of a search into the state of the art or of a request that an international-type search be carried out on an application: Fls. 1,100.–;

.....

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15 (5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the date on which the patent application is filed, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX: International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15 (5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121 (2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126(1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

United States of America

Sections 1.104(c) and (d) and 1.21(w) of the Code of Federal Regulations, Title 37 - Patents, Trademarks, and Copyrights, Subchapter A - General, Patents, Part I - Rules of Practice in Patent Cases, read as follows:

1.104 Nature of examination; examiner's action

.....

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See paragraph 1.21(w) for amount of fee for preparation of international-type search report.

Note. The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

1.21 Patent and miscellaneous fees and charges

.....

(w) For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application - $ 25.

Note. The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application.

A **refund of 25 %, 50 %, 75 % or 100 %** of the fee paid for requesting search is given if an international search report has been annexed to the international application, the amount of refund depending on the extent to which the Netherlands Patent Office benefits from that international search report.

United Kingdom Patent Office

Under Rule 102 of The Patents Rules 1978 the applicant may, in the circumstances mentioned below, request in writing the **refund of the whole or part** of the following fees:

The search fee (corresponding to Patents Form 9/77) – when the application was (as an international application designating the United Kingdom for the purposes of obtaining a national patent) the subject of an international search by the International Searching Authority.

The fee for substantive examination (corresponding to Patents Form 10/77) - where the application was (as an international application designating the United Kingdom) the subject of international preliminary examination carried out by the United Kingdom Patent Office in its capacity as International Preliminary Examining Authority.

The making of a refund (if any) following such a request is always at the discretion of the Comptroller-General.

European Patent Office

***Search fee** **. By virtue of decisions taken pursuant to Article 157 of the European Patent Convention, the search fee otherwise payable to the European Patent Office in respect of an application for a European patent

i) **is not payable** to the European Patent Office if an international search report was prepared in respect of the application (as an international application filed under the PCT) by that Office, or by the Austrian or Swedish Patent Offices;

ii) **is reduced by 20 %** if an international search report was prepared in respect of the application (as an international application filed under the PCT) by the Australian Patent Office, the Japanese Patent Office, the United States Patent and Trademark Office, or the USSR State Committee for Inventions and Discoveries.

***Examination fee** ***. By virtue of Rule 104 (b) (5) of the Implementing Regulations to the European Patent Convention and Article 12 (2) of the Rules relating to fees, the examination fee payable to the European Patent Office in respect of an application for a European patent **is reduced by 50 %** when an international preliminary examination report was drawn up by that Office in respect of the application (as an international application under the PCT in respect of which a demand for international preliminary examination was submitted to that Office).

DESIGNATION (OR ELECTION) OF MADAGASCAR

According to information received from the Minister for Foreign Affairs of Madagascar concerning international applications designating Madagascar, the draft industrial property legislation, submitted to the competent authorities, provides, among other things, for the prolongation of the time limits under Articles 22 and 39 until the time at which the new patent legislation will, after its entry into force, permit the processing of patent applications in Madagascar. After the publication of the new law, the said prolonged time limits will be fixed by the competent authorities. The Government of Madagascar has expressed the desire that this information be conveyed to applicants using the PCT system and designating or electing Madagascar, or intending to do so, so that they may take cognizance of the possibility thus offered to them validly to designate or elect Madagascar and to wait with the action required to start the national phase under Articles 22 and 39 until the new legislation has entered into force and the time limits to be observed under it have been determined.

Footnotes

(1) The Office concerned is an industrial property office within the meaning of the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure. Accordingly, deposits may be made with any depositary institution having acquired the status of international depositary authority under the said Treaty (these institutions are notified from time to time in "Industrial Property" published by WIPO).

(2) *The German Patent Office* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any scientifically recognized institution at home and abroad" and that includes all institutions published in this Gazette.

(3) *The Hungarian National Office of Inventions* has informed the International Bureau that, for the purposes of patent procedure before that Office, deposits may be made with (in addition to the institution identified in the listing) "any internationally well-known depositary institution."

(4) *The USSR State Committee for Inventions and Discoveries* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any depositary institution." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(5) *The United Kingdom Patent Office* has informed the International Bureau that for the purposes of patent procedure before that Office deposits may be made with (in addition to the institutions identified in the listing) "any depositary institution anywhere in the world."

(6) *The United States Patent and Trademark Office* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any foreign or domestic depository obligated by law, treaty or contract to accept, store and release specimens under the condition specified in the United States jurisprudence." A listing of all institutions recognized by the said Office as coming within that description will be published when received from that Office.

(7) *The United States Patent and Trademark Office* has informed the International Bureau that if the same indications are not also included in an earlier application the priority of which is claimed, the priority of the earlier application will not be accorded, in the national processing of the application.

(8) *The European Patent Office* has informed the International Bureau that, if the applicant wishes that, until the publication of the mention of the grant of a European patent or until the date on which the application is refused or withdrawn or is deemed to be withdrawn, the microorganism shall be made available as provided in Rule 28(3) of the Implementing Regulations under the European Patent Convention only by the issue of a sample to an expert nominated by the requester (Rule 28(4) of the said Implementing Regulations), the applicant must inform by a written statement the International Bureau accordingly before completion of technical preparations for publication of the international application. Such statement must be separate from the description and the claims of the international application and must preferably be made on the Form PCT/RO/134, referred to in Section 209 of the Administrative Instructions under the PCT.

Notes

(1) The Office concerned has informed the International Bureau that, while the present national law does not provide for deposits of microorganisms, that law does not contain any prohibition of such deposits.

(2) The Office concerned has informed the International Bureau that the national law "does contain provisions requiring in certain cases the deposit of microorganisms. These provisions, however, are not yet in force". At present the "Danish Regulations only stipulate that in certain cases deposits of microorganisms are useful and desirable".

(3) The Offices concerned have informed the International Bureau that they do not require "but only strongly recommend deposits of the microorganisms which are not available to the public and which belong to the inventions under consideration".

(4) The Office concerned has informed the International Bureau that the national legislation includes no provision concerning depositary institutions but practically the Office "recognizes deposits with specialized institutions in the Contracting State or abroad accessible to any interested physical or juristic person".

PRIORITY DOCUMENTS: ENFORCEMENT OF TIME LIMIT FOR SUBMISSION

Offices Which (as Designated or Elected Offices) Disregard the Priority Claim Where the Applicant Fails to Observe the Time Limit (Expiring at the End of the 16th Month from the Priority Date of the International Application) with Regard to Submission of the Priority Document

INFORMATION CONCERNING PRACTICES OF NATIONAL (AND REGIONAL) OFFICES

PRACTICE WHICH UNITED STATES PATENT AND TRADEMARK OFFICE ACCEPTS IN CASES WHERE THE UNITED STATES OF AMERICA IS DESIGNATED AND THE INVENTOR IS UNAVAILABLE OR UNWILLING TO SIGN THE INTERNATIONAL APPLICATION

International Phase

The patent law of the United States of America requires that, for the purpose of the designation of that State, the applicant(s) must be the inventor(s). If such condition is not fulfilled, the designation of the United States of America will be considered not to have been made and the international application will be rejected by the United States Patent and Trademark Office as designated Office (Article 27(3) and Rule 18.4(b)).

Where an inventor is unavailable for a period which does not exceed the time limit under Rule 26.2, the international application can be filed without his signature. The lack of the inventor's signature or of a power of attorney signed by him is a correctable defect under Article 14(a) (i) and (b) and can be remedied by filing a copy of the request (or, where the request has been signed by an agent, of a power of attorney) duly signed by the inventor within the above mentioned time limit.

Where the signature of the inventor cannot be obtained within the time limit under Rule 26.2, or where he is unwilling to sign the request for an international application for the purpose of the designation of the United States of America the following applies:

(i) Where a *joint inventor* refuses to join in an international application which designates the United States of America or cannot be found or reached after diligent effort, the international application may be signed by the other inventor(s) on behalf of himself (themselves) and the non-signing inventor.

(ii) Where a *sole inventor* refuses to sign an international application which designates the United States of America or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, may sign the international application on behalf of and as agent for the inventor. This would also obtain in the case where all joint inventors refuse to sign or cannot be found or reached after diligent effort.

In both cases, the person who files the international application (and signs the request or a separate power of attorney) shall be considered the "other representative" under Rule 2.1.

Where the inventor is unwilling to sign or is unavailable, his representative must furnish an explanatory statement as to why the request form or the power of attorney was not signed by the inventor for the purposes of the designation of the United States of America. Such statement must be furnished together with the request form or within the time limit set by the receiving Office under Rule 26.2 for the correction of the defect under Article 14(1)(a)(i) and PCT Rules 4.15 or 90.3 (lack of signature of the inventor on the request form or lack of separate power of attorney signed by the inventor, where the request form has been signed by an agent). Such statement must, in case of lack of signature of a sole or joint inventor (cases (i) and (ii) above) indicate the last known address of the non-signing inventor(s). Where the representative is not a joint inventor the said statement must state the fact that the inventor's representative has a sufficient proprietary interest in the invention to make an application for patent and that such action is necessary to preserve the rights of the parties or to prevent irreparable damage.

National Phase

When the international application enters the national phase in the United States Patent and Trademark Office (Articles 22(1) and 23), and the inventor is unwilling to sign or cannot be found or reached after diligent effort, the oath or declaration required from the inventor must be made by the person ("the other representative" under Rule 2.1) making the application for the non-signing inventor referred to under cases (i) and (ii) above, and must be accompanied by proof of the pertinent facts and state the last known address of the non-signing inventor. In case (ii) above, in addition to the requirements of the previous sentence, proof must also be submitted that such action is necessary to preserve the rights of the parties or to prevent irreparable damage. The assignments, written agreement to assign or other evidence of proprietary interest, or a verified copy thereof, must also be filed in the United States Patent and Trademark Office.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

INFORMATION RELATING TO DESIGNATED (OR ELECTED) STATES

REQUIREMENTS OF THE INVENTIONS COMMITTEE OF THE DEMOCRATIC PEOPLE'S REPUBLIC OF KOREA AS DESIGNATED AND ELECTED OFFICE

The Inventions Committee informed the International Bureau about the following requirements under Articles 22(1) and 39(1)(a) of the PCT:

(i) A translation into the Korean language of the international application (as amended, if amendments under Article 19(1) have been made) must be furnished within the time limits under Article 22(1) or 39(1) to the Inventions Committee (but see (v), below). Instead of furnishing a translation into Korean, the applicant may request the Inventions Committee to prepare such translation for him. In the latter case, the applicant will receive an invitation to pay within a time limit fixed by the Inventions Committee a translation fee, specifying the amount due. Payment of the translation fee must be effected in the manner indicated under (iii), below;

(ii) A national filing fee of 80 Won must be paid to the Inventions Committee;

(iii) Payment is to be effected by check or by transfer of the equivalent amount in Pounds Sterling or Deutsche Mark (on the basis of the exchange rate applicable at the time of payment) to the account of the Foreign Trade Bank of the Democratic People's Republic of Korea with the Bank of China, London, Pounds Sterling account No. 112259-0300, Deutsche Mark account No. 112259-305;

(iv) If the payment of the translation fee referred to under (i), above, has been made within the time limit fixed in the notification sent to the applicant by the Inventions Committee, the time limit under Article 22(1) or Article 39(1), whichever case applies, will be considered to have been met by the applicant;

(v) Until publication of more detailed information about the procedure before the Inventions Committee as designated or elected Office in Volume II of the PCT Applicant's Guide, all applicants having designated (or elected) in the international application the Democratic People's Republic of Korea will receive a notification from the Inventions Committee pertaining to the requirements referred to above and inviting the applicant to do what is required for the entry into the national phase within a time limit of three months from the date of the notification. If this time limit is respected, the time limits under Articles 22(1) and 39(1) of the PCT will be considered to have been met. Where the applicable time limit expires later than three months from the date of the notification such later date applies.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PATENT COOPERATION TREATY (PCT)

MODIFICATION

The Director General of the World Intellectual Property Organization has modified Section 307 of the Administrative Instructions under the PCT pursuant to Rule 89.2 of the PCT Regulations. The text of Section 307 as modified is set out below. The new text takes effect on August 19, 1982.

Section 307

System of Numbering International Applications

Papers purporting to be an international application under Rule 20.1 shall be marked with the international application number, consisting of the letters "PCT," a slant, the two-letter code, as in Annex B, indicating the receiving Office, a two-digit indication of the last two numbers of the year in which such papers were first received, a slant and a five-digit number, allotted in sequential order corresponding to the order in which the international applications are receiced (e.g., "PCT/SU78/00001"). Where the International Bureau acts, pursuant to Rule 19.1(b), as receiving Office for a national Office, the two-letter code indicating the national Office for which the International Bureau acts as receiving Office shall be used. However, if a negative determination is made under Rule 20.7 or a declaration is made under Article 14(4), the letters "PCT" shall be deleted by the receiving Office from the indication of the international application number on any papers marked previously with that number, and the said number shall be used without such letters in any future correspondence relating to the purported international application.

FEES PAYABLE UNDER THE PCT

NEW AMOUNTS OF FEES

CORRIGENDUM

The new amounts of fees published on page 1987 of PCT Gazette No. 18/1982, on July 22, 1982, are corrected as follows:

substitute "4840" for "4800" in respect of the amount in French francs of the search fee for an international search as established by the European Patent Office.

STATISTICS RELATING TO RECORD COPIES RECEIVED BY THE INTERNATIONAL BUREAU

GUIDANCE NOTE CONCERNING STATISTICS

Certain codes are used in the statistical tables to indicate the identity of receiving Offices and of designated States. These codes have been taken from the "Code for Identifying States and Organizations" contained in Annex B* to the Administrative Instructions under the Patent Cooperation Treaty (PCT). The codes and the States to which they refer are set out at the foot of this note.

In the case of receiving Offices, the codes indicate the Contracting State of the Patent Cooperation Treaty (PCT) for which the receiving Office is the national industrial property office except in the case of the European Patent Office which acts (as well as the national industrial property office) as receiving Office for the Contracting States of the PCT which are also party to the European Patent Convention. In the statistical table relating to the designations of States, the figures shown relate to the indications as to designations contained in the record copies as received by the International Bureau of WIPO and notified by it to the designated Offices. Against the code of each designated State, the abbreviations "NAT" and/or "EPO" and/or "OAPI" are indicated. These abbreviations mean that, for the designated State, a national patent ("NAT") and/or a European patent ("EPO") and/or a patent granted by the African Intellectual Property Office ("OAPI") is sought.

AGREEMENT BETWEEN THE UNITED STATES PATENT AND TRADEMARK OFFICE AND THE INTERNATIONAL BUREAU OF WIPO

AMENDMENT TO ANNEX C

The United States Patent and Trademark Office has notified the International Bureau of WIPO, pursuant to Article 15(4) of the Agreement *, of changes in Annex C of this Agreement. These changes will become effective on October 1, 1982. The amended text of Annex C is published below:

"ANNEX C

SCHEDULE OF FEES AND EXTENT AND CONDITIONS OF REFUNDS OF THE SEARCH FEE FOR THE PURPOSES OF ARTICLE 7 OF THE AGREEMENT

(a) Fees

Search fee	
(i) where no corresponding prior United States national application with fee has been filed	$500
(ii) where a corresponding prior United States national application with fee has been filed	$250
Supplemental search fee (per additional invention)	$125
Preparation of an international-type search report in a United States national application	$25

(b) Extent and Conditions of Refunds of the Search Fee

If a corresponding prior United States national application with fee has been filed, a reduction of $250 is made in the amount of the search fee due. Also, when entering the national phase, the national fee will be credited by an amount of $250 where an international search fee has been paid on the corresponding international application to the United States Patent and Trademark Office as an International Searching Authority. Where the amount of the credit is in excess of that required for the national fee, a request for a refund of the excess may be filed at the time of paying the national fee. Only one such credit is permitted based on a single international search fee.

Refund of the supplemental search fees will be made if such refund is determined to be warranted by the Commissioner of Patents and Trademarks or his designee acting under Rule 40.2(c)."

Japan		
Japanese Patent Office *(PCT Gazette No. 04/1978, pages 213 to 221)*	(1) Request for refund by applicant and (2) Authority has been able to make use of a considerable part of the earlier search report	12,000 yen
Soviet Union		
USSR State Committee for Inventions and Discoveries *(PCT Gazette No. 02/1978, pages 130 to 138)*	The earlier search was so complete that only a minor updating search is required or	90 %
	The earlier search relates practically to the same invention but the claims in the international application under consideration differ so that it is necessary to search 1-3 additional IPC-Subgroups or	70 %
	The prior search saves one half of the efforts usually made to carry out international search or	40 %
	The prior search applies only to a few IPC-Subgroups	20 %

* This table summarizes the circumstances in which, and the extent to which, each of the International Searching Authorities will refund to the applicant the search fee paid when the international search can be based, either wholly or in part, on an earlier (international, international-type or other) search carried out by that Authority. The table summarizes what is stated in this respect in the Agreements between WIPO and each of the said Authorities (each such Agreement is indicated below the name of the Authority concerned by the reference to the PCT Gazette in which it was published). Relevant additional information is set out in the notes at the foot of this table. The making of the refunds according to the Agreements mentioned above is provided for in Rules 16.3 and 41.1 of the Regulations under the PCT.

Notes

(1) ***United States Patent and Trademark Office.*** A discount of US$ 250 in the amount of the search fee to be paid is made if a corresponding US application has been filed. Also, if a US$ 500 search fee has been paid in an international application to the United States Patent and Trademark Office for making an international search, the US national fee for that application when entering the national phase will be credited by US$ 250. Any excess credit will be refunded.

(2) ***European Patent Office.*** Searches are accepted as international-type searches for the purposes of making refunds when made by the European Patent Office

(i) on (an earlier) European patent application;

(ii) on (an earlier) national application in France, the Netherlands and Switzerland;

(iii) as a privately commissioned "standard" search on (an earlier) application;

and the priority of the earlier application is claimed in the subsequent international application.

Refunds of the Search Fee by the International Searching Authorities in the Case of Earlier (International, International-type or Other) Search (Continued)

Notes (Continued)

The following criteria have been adopted for determining the amount of the refund of the search fee:

- 100 % refund: no supplementary search performed;
- 75 % refund: supplementary search performed in documentation relating to one or more sub-divisions consulted in the earlier search *or* extended to one or more sub-divisions not yet consulted;
- 50 % refund: supplementary search performed in the documentation relating to one or more sub-divisions already consulted *and* extended to one or more sub-divisions not yet consulted;
- 25 % refund: supplementary search performed in documentation relating to sub-divisions concerning a new aspect of the invention claimed. (For instance, cases where the European application is based on several earlier applications only one of which was the subject of an earlier search report.)

NATIONAL OFFICES WHICH ENTIRELY OR IN PART WAIVED THEIR RIGHTS TO ANY COMMUNICATION UNDER PCT, ARTICLE 20

United States of America

United States Patent and Trademark Office

Waived in respect of those international applications filed in the United States Patent and Trademark Office in its capacity as receiving Office.

PROVISIONS OF THE LAWS OF CONTRACTING STATES PARTY TO A REGIONAL PATENT TREATY RELEVANT TO PCT, ARTICLE 45(2)

Belgium and *France* are the only States party to both the Patent Cooperation Treaty and a regional patent treaty, i.e., the European Patent Convention, the national laws of which provide that any designation or election thereof shall have the effect of an indication of the wish to obtain a regional patent.

Article 2(3) of the Belgian law of July 8, 1977, approving the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"(3) Any designation or any election (if any) of Belgium in an international application is considered as the indication of the indication that the applicant wishes to obtain a European patent under the European Patent Convention."

Article 1 of the French Law No. 77-682 of June 30, 1977, relating to the application of the Patent Cooperation Treaty reads as follows (translation into English prepared by the International Bureau):

"Where an international application for the protection of an invention made pursuant to the Patent Cooperation Treaty done at Washington on June 19, 1970, contains the designation or election of France, the said application shall have the effect of an application for a European patent as governed by the provisions of the Convention on the Grant of European Patents done at Munich on October 5, 1973."

WARNING AND INFORMATION CONCERNING THE NEED OF INDICATING THE INVENTOR AS APPLICANT FOR THE PURPOSES OF THE UNITED STATES OF AMERICA

Warning

The effect of the international application in any designated State may depend on whether the person designated in the international application as applicant for the purposes of that State is a person who, under the national law of that State, is qualified to file a national application.

Information

The *United States of America* is the only State party to the Patent Cooperation Treaty the national law of which requires that the application for a national patent be made by the inventor and whose national Office will, thus, in its capacity as designated Office, reject any international application in which a person other than the inventor is indicated as the applicant for the purposes of the United States of America.

Sections 111, 115, 116, 117 and 118 of the United States Code, Title 35 - Patents, Part II - Patentability of Inventions and Grant of Patents, Chapter 11 - Application for Patent, read as follows:

111. Application for patent

Application for patent shall be made by the inventor, except as otherwise provided in this title, in writing to the Commissioner. Such application shall include: (1) a specification as prescribed by section 112 of this title; (2) a drawing as prescribed by section 113 of this title; and (3) an oath by the applicant as prescribed by section 115 of this title. The application must be signed by the applicant and accompanied by the fee required by law.

115. Oath of applicant

The applicant shall make oath that he believes himself to be the original and first inventor of the process, machine, manufacture, or composition of matter, or improvement thereof, for which he solicits a patent; and shall state of what country he is a citizen. Such oath may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular officer of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by certificate of a diplomatic or consular officer of the United States, and such oath shall be valid if it complies with the laws of the state or country where made. When the application is made as provided in this title by a person other than the inventor, the oath may be so varied in form that it can be made by him.

116. Joint inventors

When an invention is made by two or more persons jointly, they shall apply for patent jointly and each sign the application and make the required oath, except as otherwise provided in this title.

If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself and the omitted inventor. The Commissioner, on proof of the pertinent facts and after such notice to the omitted inventor as he prescribes, may grant a patent to the inventor making the application, subject to the same rights which the omitted inventor would have had if he had been joined. The omitted inventor may subsequently join in the application.

Whenever a person is joined in an application for patent as joint inventor through error, or a joint inventor is not included in an application through error and such error arose without any deceptive intention on his part, the Commissioner may permit the application to be amended accordingly, under such terms as he prescribes.

117. Death or incapacity of inventor

Legal representatives of deceased inventors and of those under legal incapacity may make application for patent upon compliance with the requirements and on the same terms and conditions applicable to the inventor.

118. Filing by other than inventor

Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for the inventor on proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage; and the Commissioner may grant a patent to such inventor upon such notice to him as the Commissioner deems sufficient, and on compliance with such regulations as he prescribes.

Section 373 of the United States Code, Title 35 - Patents, Part IV - Patent Cooperation Treaty, Chapter 37 - National Stage, reads as follows:

373. Improper applicant

An international application designating the United States, shall not be accepted by the Patent Office for the national stage if it was filed by anyone not qualified under chapter 11 of this title to be an applicant for the purpose of filing a national application in the United States. Such international applications shall not serve as the basis for the benefit of an earlier filing date under section 120 of this title in a subsequently filed application, but may serve as the basis for a claim of the right of priority under section 119 of this title, if the United States was not the sole country designated in such international application.

PROVISIONS OF THE NATIONAL LAWS OF CONTRACTING STATES CONCERNING INTERNATIONAL-TYPE SEARCH REFERRED TO IN PCT, ARTICLE 15(5)

Australia, Denmark, Finland*, Hungary, the Netherlands, Norway*, Sweden, Switzerland and the United States of America are the only States party to the Patent Cooperation Treaty the national laws of which contain provisions relating to international-type search.

Australia

Regulation 87 of the Patents Regulations and Section 30 of the Patents Act (1952 as amended) read as follows:

Regulation 87 of the Patents Regulations

.....

(2) Where the Commissioner provides information under Section 30 of the Act to an applicant for a patent and where the provision of that information entails an international-type search referred to in Article 15(5) of the Treaty, the fee payable in respect of the furnishing of that information is $ 350.

.....

(4) In this regulation "an applicant for a patent" means a person who –

(a) after the commencement of these Regulations, makes an application for a patent other than an international application; and

(b) requests, within 3 months of making his application for a patent, that information be provided to him by the Commissioner under Section 30 of the Act.

Section 30 of the Patents Act

The Commissioner may, subject to this Act, furnish information as to a matter affecting or relating to –

(a) a patent;

(b) an application for a patent which is open to public inspection; or

(c) any other document, abridgment, specification or publication in the Patent Office or the Library of the Patent Office.

Denmark

Section 9 of the Patent Act of Denmark and Section 5 of the Regulations thereunder read as follows (text provided by the Patent and Trademark Office, Copenhagen):

Section 9 of the Act

If the applicant so requests and pays the prescribed fee, the patent authority shall, in a accordance with rules laid down by the Minister of Commerce, cause the application to be searched by an International Searching Authority under the provisions of Article 15 (5) of the Patent Cooperation Treaty, done at Washington on June 19, 1970.

---

* The provisions of the national law relating to international-type search of this State are similar to those of the Swedish Patent Act and therefore are not reproduced here.

Section 5 of the Regulations

(1) If the applicant wishes the search referred to in Section 9 of the Patent Act to be carried out, he shall file a written request to that effect with the patent authority and pay the fee prescribed by the Searching Authority within three months from the date of filing of the application or from the date on which the application is deemed to have been filed. If the patent application is not drawn up in a language accepted by the Searching Authority, the request shall be accompanied by a tranlation of the application in a language prescribed by the patent authority.

(2) If the applicant wishes the search under subsection (1) to be carried out by a particular International Searching Authority among those possible, he shall indicate that Authority in his request.

(3) If the patent application and the prescribed translation do not comply with the formal requirements applicable to international applications at the expiration of the time limit referred to in subsection (1), the request shall be considered withdrawn.

Hungary

Article 8 of Decree No. 29/1980/July 29 of the Council of Ministers on the Implementation of Decree Law No. 14 of 1980 on the Promulgation of the Patent Cooperation Treaty reads as follows (text provided by the National Office of Inventions, Budapest):

Article 8 of the Decree

(1) In connection with a regular Hungarian application duly filed with the National Office of Inventions -under Article 15(5)(a) of the Treaty- the applicant may request that an international-type search be carried out. The search shall be carried out -under Article 15(5)(c) of the Treaty- by the International Searching Authority competent for carrying out the international search on international applications filed with the National Office of Inventions as a receiving Office.

(2) One copy of the translation of the Hungarian application prepared by the applicant in the prescribed language, the formal requisites of which meet the requirements prescribed for the international applications, shall be promptly sent by the National Office of Inventions to the competent International Searching Authority, with the transfer of the search fee paid by the applicant concurrently with filing the request.

Netherlands

Section 22 I of the Patents Act as revised in 1978 and Section 17 (5) of the Patents Rules as revised in 1979 (both entered into force on February 1, 1979) read as follows (text provided by the Netherlands Patent Office, Rijswijk):

Section 22 I of the Act

(1) Where the applicant so requests in writing, the Patent Office shall make a search of the state of the art in respect of that which is to be considered the subject matter of the application by virtue of the provisions by or under Section 5A.....

.....

(3) If the applicant so requests in writing, the Patent Office shall cause the application to be subjected to an international-type search as provided for in Article 15 (5) *(a)* of the Patent Cooperation Treaty. Such a search shall be deemed to be a search of the state of the art as referred to in paragraph (1).

(4) Upon the filing of a request as provided for in paragraphs (1), (2) or (3), a fee to be prescribed by Order in Council of the Realm shall be payable.

.....

Section 17 (5) of the Rules

(5) The fee payable by virtue of respectively Article 22 G (1), 22 H (1), 22 I (4), and (9), and 22 J (1), of the Patents Act of the Kingdom on the filing of a request as referred to in those Articles shall be:

.....

in the case of a request for the institution or continuation of a search into the state of the art or of a request that an international-type search be carried out on an application: Fls. 1,100.-;

.....

Sweden

Section 9 of the Swedish Patent Act as revised in 1978 and Section 5 of the Decree implementing that Act read as follows (text provided by the Royal Patent and Registration Office, Stockholm):

Section 9 of the Act

If the applicant so demands and pays the special fee, the patent authority, under those conditions determined by the Government, shall allow the application to become subject to such novelty search by an International Searching Authority as referred to in Article 15 (5) of the Patent Cooperation Treaty signed at Washington on 19 June 1970.

Section 5 of the Decree

In order to receive search as provided for in Section 9 of the Patent Act, the applicant shall within three months from the date on which the patent application is filed, or, as the case may be, is considered to have been filed, submit to the Patent Office a written request therefor and pay the fee prescribed by the Searching Authority.

If the patent application is not in a language accepted by the Searching Authority, the request shall be accompanied by a translation of the application into a language prescribed by the Patent Office.

If several authorities can be considered for performing the search referred to in the first paragraph and if the applicant wants to choose the one which shall perform the search he shall mention that Authority in the request.

The request shall be considered withdrawn if the patent application and the prescribed translation at the expiration of the time limit prescribed in the first paragraph does not fulfill the requirements for an international patent application with regard to form.

Switzerland

Part IX of the Ordinance on Patents for Inventions which entered into force in Switzerland on January 1, 1978 reads as follows (translation into English prepared by the International Bureau):

PART IX: International-Type Searches

Conditions

126. (1) An international-type search within the meaning of Article 15 (5) of the Patent Cooperation Treaty may be requested in respect of a Swiss patent application.

(2) The request shall be filed with the (Swiss Intellectual Property) Office within six months following the filing date. The international search fee (Section 121 (2)) shall be paid at the same time.

(3) If the language in which the patent application is drafted is not a working language of the International Searching Authority competent for Switzerland, a translation in a working language shall be filed at the same time.

(4) The Office shall not examine whether the patent application and the translation meet the other conditions specified in the Patent Cooperation Treaty, in particular the requirements of form valid for international applications.

Procedure

127. (1) If the conditions specified in Section 126 (1) to (3) are met, the Office shall send the required documents to the International Searching Authority that is competent.

(2) The Office shall send the search report to the applicant; a copy shall be included in the file of the patent application.

United States of America

Sections 1.104 (c) and (d) and 1.21 (e) of the Code of Federal Regulations, Title 37 - Patents, Trademarks, and Copyrights, Subchapter A - General, Patents, Part I - Rules of Practice in Patent Cases, read as follows:

1.104 Nature of examination; examiner's action

.....

(c) An international-type search will be made in all national applications filed on and after June 1, 1978.

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See paragraph 1.21 (e) for amount of fee for preparation of international-type search report.

Note. The Patent and Trademark Office does not require that a formal report of an international-type search be prepared in order to obtain a search fee refund in a later filed international application.

1.21 Miscellaneous fees and charges

.....

(e) International-type search reports. For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application - $ 25.

Note. The Patent and Trademark Office does not require that a formal report be prepared of an international-type search in order to obtain a search fee refund in a later filed international application.

.....

INFORMATION RELATING TO REMISSIONS AND REFUNDS OF (OR REDUCTIONS IN) FEES PAYABLE TO NATIONAL (OR REGIONAL) OFFICES IN THEIR CAPACITIES AS DESIGNATED (OR ELECTED) OFFICES

German Patent Office

National fee. The applicant is **not required to pay** the national (filing) fee to the German Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Fee for requesting examination. The fee for requesting examination of an application for a patent, which the applicant is required to pay to the German Patent Office, **is reduced** to 250 Deutsche Mark (from 400 Deutsche Mark) when an international search report has been established in respect of his application (as an international application designating the Federal Republic of Germany for the purposes of a national patent).

Ministry of National Economy, Patent Office (Luxembourg)

National fee. The applicant is **not required to pay** the national (filing) fee to the Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Ministry of State, Patent Office (Monaco)

National fee. The applicant is **not required to pay** the national (filing) fee to the Patent Office when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

National Office of Inventions (Hungary)

National fee. The applicant is **not required to pay** the national (filing) fee to the National Office of Inventions when it is the designated (or elected) Office if the international application was filed with that Office as receiving Office.

Netherlands Patent Office

Fee for requesting search. A **refund of 25%, 50%, 75% or 100%** of the fee paid for requesting search is given if an international search report has been annexed to the international application, the amount of refund depending on the extent to which the Netherlands Patent Office benefits from that international search report.

United Kingdom Patent Office

Under Rule 102 of The Patents Rules 1978 the applicant may, in the circumstances mentioned below, request in writing the **refund of the whole or part** of the following fees:

The search fee (corresponding to Patents Form 9/77) - when the application was (as an international application designating the United Kingdom for the purposes of obtaining a national patent) the subject of an international search by the International Searching Authority.

The fee for substantive examination (corresponding to Patents Form 10/77) - where the application was (as an international application designating the United Kingdom) the subject of international preliminary examination carried out by the United Kingdom Patent Office in its capacity as International Preliminary Examining Authority.

The making of a refund (if any) following such a request is always at the discretion of the Comptroller-General.

European Patent Office

Search fee *. By virtue of decisions taken pursuant to Article 157 of the European Patent Convention, the search fee otherwise payable to the European Patent Office in respect of an application for a European patent

i) **is not payable** to the European Patent Office if an international search report was prepared in respect of the application (as an international application filed under the PCT) by that Office, or by the Austrian or Swedish Patent Offices;

ii) **is reduced by 20 %** if an international search report was prepared in respect of the application (as an international application filed under the PCT) by the Australian Patent Office, the Japanese Patent Office, the United States Patent and Trademark Office, or the USSR State Committee for Inventions and Discoveries.

Examination fee **. By virtue of Rule 104 (b) (5) of the Implementing Regulations to the European Patent Convention and Article 12 (2) of the Rules relating to fees, the examination fee payable to the European Patent Office in respect of an application for a European patent **is reduced by 50 %** when an international preliminary examination report was drawn up by that Office in respect of the application (as an international application under the PCT in respect of which a demand for international preliminary examination was submitted to that Office).

DESIGNATION (OR ELECTION) OF MADAGASCAR

According to information received from the Minister for Foreign Affairs of Madagascar concerning international applications designating Madagascar, the draft industrial property legislation, submitted to the competent authorities, provides, among other things, for the prolongation of the time limits under Articles 22 and 39 until the time at which the new patent legislation will, after its entry into force, permit the processing of patent applications in Madagascar. After the publication of the new law, the said prolonged time limits will be fixed by the competent authorities. The Government of Madagascar has expressed the desire that this information be conveyed to applicants using the PCT system and designating or electing Madagascar, or intending to do so, so that they may take cognizance of the possibility thus offered to them validly to designate or elect Madagascar and to wait with the action required to start the national phase under Articles 22 and 39 until the new legislation has entered into force and the time limits to be observed under it have been determined.

Designated (or Elected) Offices Whose Applicable National Law Allows References to Deposits of Microorganisms (Continued)

Footnotes

(1) The Office concerned is an industrial property office within the meaning of the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure. Accordingly, deposits may be made with any depositary institution having acquired the status of international depositary authority under the said Treaty (these institutions are notified from time to time in "Industrial Property" published by WIPO).

(2) *The German Patent Office* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any scientifically recognized institution at home and abroad" and that includes all institutions published in this Gazette.

(3) *The Hungarian National Office of Inventions* has informed the International Bureau that, for the purposes of patent procedure before that Office, deposits may be made with (in addition to the institution identified in the listing) "any internationally well-known depositary institution."

(4) *The USSR State Committee for Inventions and Discoveries* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any depositary institution." A listing of all institutions recognized by the said Office as coming within this description will be published when received from that Office.

(5) *The United Kingdom Patent Office* has informed the International Bureau that for the purposes of patent procedure before that Office deposits may be made with (in addition to the institutions identified in the listing) "any depositary institution anywhere in the world."

(6) *The United States Patent and Trademark Office* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with "any foreign or domestic depository obligated by law, treaty or contract to accept, store and release specimens under the condition specified in the United States jurisprudence." A listing of all institutions recognized by the said Office as coming within that description will be published when received from that Office.

(7) *The United States Patent and Trademark Office* has informed the International Bureau that if the same indications are not also included in an earlier application the priority of which is claimed, the priority of the earlier application will not be accorded, in the national processing of the application.

(8) *The Netherlands Patent Office* has informed the International Bureau that deposits may be made for the purposes of patent procedure before that Office with (in addition to the institutions identified in the listing) any existing and future depositary institution having acquired the status of international depositary authority under the Budapest Treaty referred to in note (1), above.

(9) *The European Patent Office* has informed the International Bureau that, if the applicant wishes that, until the publication of the mention of the grant of a European patent or until the date on which the application is refused or withdrawn or is deemed to be withdrawn, the microorganism shall be made available as provided in Rule 28(3) of the Implementing Regulations under the European Patent Convention only by the issue of a sample to an expert nominated by the requester (Rule 28(4) of the said Implementing Regulations), the applicant must inform by a written statement the International Bureau accordingly before completion of technical preparations for publication of the international application. Such statement must be separate from the description and the claims of the international application and must preferably be made on the Form PCT/RO/134, referred to in Section 209 of the Administrative Instructions under the PCT.

Notes

(1) The Office concerned has informed the International Bureau that, while the present national law does not provide for deposits of microorganisms, that law does not contain any prohibition of such deposits.

(2) The Office concerned has informed the International Bureau that the national law "does contain provisions requiring in certain cases the deposit of microorganisms. These provisions, however, are not yet in force". At present the "Danish Regulations only stipulate that in certain cases deposits of microorganisms are useful and desirable".

(3) The Offices concerned have informed the International Bureau that they do not require "but only strongly recommend deposits of the microorganisms which are not available to the public and which belong to the inventions under consideration".

(4) The Office concerned has informed the International Bureau that the national legislation includes no provision concerning depositary institutions but practically the Office "recognizes deposits with specialized institutions in the Contracting State or abroad accessible to any interested physical or juristic person".

United Kingdom	Patent Office

Note: None of the other National Offices applies a sanction if the applicant has failed to submit the priority document as provided in Rule 17.1(a) and (b). However, several such Offices insist on the priority document being submitted to them during national processing if not received by them under the procedure provided in Rule 17.1, but none applies a sanction for non-submission prior to the expiration of 16 months from the priority date of the international application.

NOTIFICATIONS PURSUANT TO PCT RULE 16 BIS. 3

The International Bureau has received notifications pursuant to PCT Rule 16*bis*. 3 excluding the application of PCT Rule 16*bis*. 1 and PCT Rule 16*bis*. 2* to the Offices, as receiving Offices under the PCT, of the following three countries:

Australia
Hungary
Japan

NOTIFICATIONS PURSUANT TO PCT RULE 80.6(b)

The International Bureau has received notifications pursuant to PCT Rule 80.6(b), having the effect of excluding the application of PCT Rule 80.6(a), second sentence**, to the Offices, as receiving Offices under the PCT, of the following six countries:

Australia
Denmark
Finland
Japan
Norway
Sweden

*NOTIFICATIONS PURSUANT TO PCT RULE 92.4****

Pursuant to PCT Rule 92.4 the national Offices of the following countries and intergovernmental organizations indicated below are prepared to receive documents (including drawings) – – subsequent to the international application – – by the means indicated hereafter:

Austria: telegraph, teleprinter
Brazil: telegraph, teleprinter
Denmark: telegraph, teleprinter
Finland: telegraph
France: telegraph, teleprinter
Germany, Federal Republic of: telegraph, teleprinter, telecopier
Hungary: telegraph, teleprinter
Luxembourg: telegraph, teleprinter
Malawi: telegraph
Monaco: telegraph
Netherlands: telegraph
Norway: telegraph, teleprinter
Romania: telegraph, teleprinter
Soviet Union: telegraph, teleprinter
Sweden: teleprinter
Switzerland: telegraph, teleprinter
United States of America: teleprinter
European Patent Office: telegraph, teleprinter
International Bureau of WIPO: telegraph, teleprinter,telecopier (facsimile copies via Swiss Postal Service)

Particulars as to the telegraphic and teleprinter addresses of all national Offices and intergovernmental organizations are indicated in this issue of the PCT Gazette.

INFORMATION CONCERNING PRACTICES OF NATIONAL (AND REGIONAL) OFFICES

PRACTICE WHICH UNITED STATES PATENT AND TRADEMARK OFFICE ACCEPTS IN CASES WHERE THE UNITED STATES OF AMERICA IS DESIGNATED AND THE INVENTOR IS UNAVAILABLE OR UNWILLING TO SIGN THE INTERNATIONAL APPLICATION

International Phase

The patent law of the United States of America requires that, for the purpose of the designation of that State, the applicant(s) must be the inventor(s). If such condition is not fulfilled, the designation of the United States of America will be considered not to have been made and the international application will be rejected by the United States Patent and Trademark Office as designated Office (Article 27(3) and Rule 18.4(b)).

Where an inventor is unavailable for a period which does not exceed the time limit under Rule 26.2, the international application can be filed without his signature. The lack of the inventor's signature or of a power of attorney signed by him is a correctable defect under Article 14(a) (i) and (b) and can be remedied by filing a copy of the request (or, where the request has been signed by an agent, of a power of attorney) duly signed by the inventor within the above mentioned time limit.

Where the signature of the inventor cannot be obtained within the time limit under Rule 26.2, or where he is unwilling to sign the request for an international application for the purpose of the designation of the United States of America the following applies:

(i) Where a *joint inventor* refuses to join in an international application which designates the United States of America or cannot be found or reached after diligent effort, the international application may be signed by the other inventor(s) on behalf of himself (themselves) and the non-signing inventor.

(ii) Where a *sole inventor* refuses to sign an international application which designates the United States of America or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, may sign the international application on behalf of and as agent for the inventor. This would also obtain in the case where all joint inventors refuse to sign or cannot be found or reached after diligent effort.

In both cases, the person who files the international application (and signs the request or a separate power of attorney) shall be considered the "other representative" under Rule 2.1.

Where the inventor is unwilling to sign or is unavailable, his representative must furnish an explanatory statement as to why the request form or the power of attorney was not signed by the inventor for the purposes of the designation of the United States of America. Such statement must be furnished together with the request form or within the time limit set by the receiving Office under Rule 26.2 for the correction of the defect under Article 14(1)(a)(i) and PCT Rules 4.15 or 90.3 (lack of signature of the inventor on the request form or lack of separate power of attorney signed by the inventor, where the request form has been signed by an agent). Such statement must, in case of lack of signature of a sole or joint inventor (cases (i) and (ii) above) indicate the last known address of the non-signing inventor(s). Where the representative is not a joint inventor the said statement must state the fact that the inventor's representative has a sufficient proprietary interest in the invention to make an application for patent and that such action is necessary to preserve the rights of the parties or to prevent irreparable damage.

National Phase

When the international application enters the national phase in the United States Patent and Trademark Office (Article 22(1) and 23), and the inventor is unwilling to sign or cannot be found or reached after diligent effort, the oath or declaration required from the inventor must be made by the person ("the other representative" under Rule 2.1) making the application for the non-signing inventor referred to under cases (i) and (ii) above, and must be accompanied by a petition fee and a petition including proof of the pertinent facts and must state the last known address of the non-signing inventor. In case (ii) above, in addition to the requirements of the previous sentence, proof must also be submitted that such action is necessary to preserve the rights of the parties or to prevent irreparable damage. The assignments, written agreement to assign or other evidence of proprietary interest, or a verified copy thereof, must also be filed in the United States Patent and Trademark Office.

LEGAL DECISIONS AND OPINIONS

Starting with this issue of the PCT Gazette, the International Bureau will publish under this heading, from time to time, legal decisions or opinions, taken or given by courts, appeal boards, patent offices and other competent bodies. Such decisions or opinions will be published only if and to the extent that they are related to the processing of international applications and are deemed to be of general interest. Unless otherwise indicated, all headings and headnotes--other than those which indicate the source of the decision or opinion, which are drafted by the International Bureau--are taken from the texts communicated to the International Bureau.

SWITZERLAND

Swiss Patent Office

Decision of 23 May 1980 (published in *Schweizerisches Patent-, Muster- und Markenblatt* (PMMBl) 1980, pages 57 to 59)

Reintegration in the Prior State

Section 47(1) of the Patent Law

Headnote

Patent application considered withdrawn. *Reintegration is also possible where the application is "considered withdrawn" as a result of failure to observe a time limit--as provided in Article 24(1) of the PCT or in Section 124(1) of the Patent Ordinance (Consideration 1).*

Concept of Auxiliary. *An auxiliary is any person to whom an auxiliary function is attributed in the performance of an act subject to a time limit under patent law. The fact of the act not achieving the desired result in no way alters the status of auxiliary (Consideration 2a).*

A. On July 17, 1978, patent attorney B. of New York, acting on behalf of R.L.St. of Bridgeton (United States of America), filed a patent application with the US Patent Office. Then on July 17, 1979, claiming the priority of that US national application, he filed an international application under Article 3 of the PCT with the same Office, acting in that case as receiving Office under the PCT (PCT, Article 10).

Switzerland was one of the designated States in the international application (PCT, Article 4(1)(ii)). The applicant therefore had to file with the Swiss Intellectual Property Office, as designated Office (PCT, Article 2(xiii)) a translation of the international application, which was originally written in English, and pay the national application fee within 20 months from the priority date (July 17, 1978), if he was still interested in the grant of a Swiss patent (Patent Law, Section 138 and PCT, Article 22).

B. The 20-month time limit expired unused on March 17, 1980, even though, on February 26, 1980, the Swiss Intellectual Property Office had reminded the representative of the patent applicant by airmail of the formalities to be complied with in Switzerland as designated State.

According to Article 24(1)(iii) of the PCT and Section 124(1) of the Patent Ordinance, the international application was therefore considered withdrawn with respect to Switzerland and Liechtenstein. The Office notified this fact to patent attorney B. in writing on March 21, 1980.

C. By letter dated May 19, 1980, R.L.St. filed a petition through his Swiss representative that the Swiss Intellectual Property Office, in accordance with Section 47 of the Patent Law, grant him reintegration in the time limit for the filing of the translation and payment of the Swiss application fee for the international application; at the same time he performed theses two acts.

The following statements were made in the petition for reintegration and in the affidavit filed with it by the patent applicant, by way of explanation of his failure to observe the time limit.

In the second week of February 1980, patent attorney B. was informed by patent attorneys D. and L. of Haddonfield (United States of America) that R.L.St. had entrusted them, at the request of his licensee, with the further processing of the international application, especially the initiation of the national procedure in individual designated States; they therefore requested him to hand over the file.

However, in a telephone conversation on February 19, 1980, B. declared to patent attorneys D. and L. that he was not prepared either to abandon the further processing of the international application or to hand the necessary documents over to them. On the other hand he assured them that he himself would take all the necessary action in the proper way. In several subsequent telephone conversations patent attorney L. tried in vain to make his colleague B. hand over the file and give up his mandate. As under US law an American patent attorney is obliged, as long as he has not given up his mantate, to represent the interests of his mandator, it was assumed by both the patent applicant himself and his licensee, and ultimately even the new representative, that patent attorney B. would discharge this duty, in other words initiate in the proper way the necessary action for the start of the national procedure in all the designated States.

On March 14, 1980, just three days before the relevant time limit expired, B. informed patent attorneys D. and L. in writing that he refused to have the necessary translations made and to pay the fees. As neither the patent applicant nor his new representative had any application documents in their possession, they were not in a position to take steps towards prosecuting the international application before the national designated Offices. Patent attorneys D. and L. therefore immediately called upon B., by telephone, to take all the necessary steps for the protection of R.L.St.'s rights. B. agreed to this and assured them that he would take care of everything in the proper way. On the evening of March 17, 1980--the last day of the time limit--the Swiss representative received a telex in which B. instructed him to pay the national application fee for the international application to the Swiss Intellectual Property Office, and to request a one-month additional time limit for the filing of the translation of the application. On the same day the Swiss representative replied to his mandator, also by telex, that no extension of the time limit was possible, and that the international application would therefore be considered withdrawn with respect to Switzerland. He added however that there was just a small chance of that the situation could be retrieved by means of reintegration. Patent attorney B. was not heard from again, however.

It was only after he had finally handed over the file to his colleagues D. and L., on April 18, 1980, that patent attorney L. discovered, after studying the documents all day, that countless documents were missing and that B., despite his assurances, had not taken the necessary action in the individual designated States.

The conclusions of the Office are as follows:

1. A patent applicant or owner may file for reintegration under Section 47(1) of the Patent Law when he is prevented from observing a time limit prescribed by the Law or by the Ordinance or set by the Swiss Intellectual Property Office. A patent applicant who withdraws his application before expiration of a time limit which, if not observed, would result in the rejection of the application, has not failed to observe any time limit. The possibility of reintegration is therefore not available to him (PMMBl 1976, I 45, consid. 1). What is the position when an application is not actually withdrawn but, as in the case in point, considered withdrawn (PCT, Article 24(1) and Patent Ordinance, Section 124(1))? According to legal theory, both cases should in fact be treated in the same way. Nevertheless there is an essential difference that should not be overlooked, namely that in one case there is not failure to observe a time limit, whereas in the other case there is. And this is the condition for the application of Section 47 of the Patent Law. The petition for reintegration, otherwise timely and properly filed, should therefore be considered as to substance.

2. However, reintegration cannot be granted for the following reasons.

(a) Reintegration in the prior state can be granted under Section 47 of the Patent Law when the patent applicant is in no way to blame for the failure to observe the time limit. When considering

whether or not the condition of blame within the meaning of this provision is met, the patent applicant, according to consistent case law, has to be considered responsible for mistakes made by the auxiliaries appointed by him (PMMBl 1970, I 37). Auxiliaries are those to whom an auxiliary function is attributed in the performance of an act subject to a time limit under patent law (PMMBl 1965, I 53). Such an auxiliary function was being exercised by patent attorney B. until expiration of the time limit that was eventually not observed; he handled the international application during the international phase. When the applicant transferred his representation to patent attorneys D. and L. for the transition to the national phase, B. refused to abandon his mandate. Since B.--as was mentioned in the petition for reintegration--was therefore bound under US law to continue to represent the interests of his mandator, the petitioner, his licensee and his new representatives assumed that he would undertake, in accordance with his duty, everything that had to be done with a view to the prosecution of the international application at individual designated Offices. Thus the petitioner and his new representatives accepted B. at least as an auxiliary. After B. had informed St.'s new representatives shortly before the time limit expired that he refused to make translations for the designated Offices and to pay fees to those Offices, they even expressly called upon B., on behalf of the petitioner, to take all the necessary action for the protection of the applicant's right in the proper way, which B. then promised to do. His auxiliary status can therefore hardly be questioned. Indeed he eventually did take steps on the last day of the time limit--albeit to no avail--in order to comply with his obligations. The fact that the steps he took were not successful in no way alters his auxiliary status. The patent applicant is also responsible for the conduct of his auxiliaries when they comply with a formality wrongly or fail to comply with it, irrespective of whether in doing so they have gone beyond the powers vested in them or have acted contrary to instructions (PMMBl 1970, I 37). If, as in this case, it has to be concluded that patent attorney B., who was undoubtedly at fault according to the documents available, did have a part in the obligations under patent law that he would have had to meet on behalf of the patent applicant, the latter is indeed responsible for his misconduct.

(b) Because B. refused to hand the file over to patent attorneys D. and L., the latter claimed to have been prevented from filing translations of the international application with designated Offices. This incidentally is not true. At the outset it is surprising that the patent applicant should have had no duplicates of the application filed by B.; this is unusual, to say the least. The decisive factor however is that the international application was published by the International Bureau of the World Intellectual Property Organization in Geneva on February 21, 1980. From that time on, any person could purchase copies of the application in the form of a pamphlet (PCT, Rule 47(2)(c)). The fact that the Swiss representative in any case immediately thought of this possibility is evidenced by the latter's handwritten note on the telex sent him by patent attorney B. The words "order from WIPO by telex" were written on it by hand. A copy of the pamphlet was moreover available from that day onwards in the provisional file of the Swiss Intellectual Property Office on that international application (cf. in this connection PMMBl 1979, I 79). If however the new representatives had wanted to make preparations before that time for the transition from the international to the national phase, they could, as representatives registered with the US Patent Office, have obtained a copy of the application; alternatively, if that had been too time-consuming, they could at any time after September 3, 1979, have obtained a copy of the priority document which was filed with the International Bureau on that date. They did not avail themselves of either of these possibilities, which they must have known about. They cannot claim that because B. had not handed the file over to them it was completely impossible for them to take or cause to be taken the necessary steps in designated States, and in particular at the Swiss Intellectual Property Office.

For the above reasons the petition for reintegration cannot be accepted.

The following is therefore decided:

1. The petition for reintegration dated May 19, 1980, concerning the international application is rejected.

2. The application fee paid (80 francs) is repaid to the petitioner by credit transfer to the account of his Swiss representative; the fee for reintegration (100 francs) reverts to the Federal Treasury.

Swiss Patent Office

Decision of 25 November 1980 (not published)
Reintegration in the Prior State

Headnote*
Delay in furnishing the translation of the international application pursuant to Article 22(1) of the PCT may be excused because of irregularities in the mail service.

A. On January 12, 1979, attorney P. of Atlanta, (United States of America), acting on behalf of W. and M., both of Atlanta, filed an international application with the US Patent and Trademark Office in which Switzerland was one of the designated States. The application was given an international application number and was published by the International Bureau of WIPO on July 24, 1980.

B. As no priority was claimed for the international application, the 20-month time limit under Article 22 of the PCT started on the filing date, namely January 12, 1979, and therefore ended on September 12, 1980. By that date the applicants should have filed with the Swiss Intellectual Property Office a translation of the application, originally filed in English, in one of the Swiss official languages, together with the designation of the inventor, and paid it the application fee (Patent Law, Section 138). As that was not done, the effect of the international application ceased in Switzerland pursuant to Article 24(1)(iii) of the PCT.

C. On September 16, 1980, the Swiss representative of applicants W. and M., filed a German translation of the international application and the designation of the inventor, at the same time instructing the Office to debit the application fee to his account. The representative moreover intimated that a petition for reintegration in the prior state would be filed. The Office's notification of the loss of effect of the international application in Switzerland was therefore delayed for a time.

Thus the non-performed acts were duly performed on September 16, 1980, and the request for reintegration in the prior state was filed on November 4, 1980. In the latter it was stated by way of explanation of the failure to observe the time limit that the American representative had sent to the Swiss representative the German translation by airmail on September 5, 1980, in other words seven days before the expiration of the 20-month period, but that it did not reach him until four days after that expiration. As however the delivery time of an airmail letter from Atlanta to Zurich should never be more than six days--indeed the Swiss Post Office estimated three to six days--the package mailed on September 5, 1980, should have arrived in Switzerland on September 11 at the latest, in other words in sufficient time for filing on September 12. No further processing of the documents in the file would have been necessary--this being evidenced by the transmittal to the Office on the same day of the file received on September 16, 1980. The poor condition of the package in which the file was delivered leads one to believe moreover that the letter clearly withstood mechanized handling only with difficulty and for that reason was delayed. It follows from the bove that neither the applicants nor their representatives were to blame for the failure to observe the time limit.

Our conclusions are therefore as follows:

1. Reintegration in the time limit under Article 22 of the PCT and Section 138 of the Patent Law is in principle authorized (PMMBl 1980, I 58, consid. 1). The petition for reintegration which was filed properly and in time should therefore be considered as to substance.

2. For the legitimate reasons set forth in the petition it can moreover be granted.

3. Since the failure to meet the time limit is, as is assumed, due to bad transmittal on the part of the Post Office, the fee for reintegration may be repaid to the applicants by crediting their representative's account (PMMBl 1979, I 12, consid. 3d).

4. In the event of dispute, the judge would have to decide whether third parties who, in good faith, may have used the subject matter of international application ... professionally in Switzerland between September 12 and September 16 or November 4, 1980, as the case may be, or may have made

* Headnote drafted by the International Bureau

special preparations for that purpose, may be considered to have acquired a right of joint use by analogy with Article 48 and possibly Section 116 of the Patent Law (Section 48(4) in conjunction with Sections 131(2) and 135 of the Patent Law).

The following is therefore decided:

1. The petition for reintegration of November 4, 1980, is accepted, and the effect of international application ... is revived with respect to Switzerland and Liechtenstein.

2. The fee of 100 francs for reintegration is repaid to the applicants by credit transfer to their representative's account.

EUROPEAN PATENT ORGANISATION

European Patent Office

Decision of the Board of Appeal of 7 July 1981, J 05/80 (published in the Official Journal of the European Patent Office No. 9/1981, pages 343 to 349)

"Restitutio in integrum": "Due care on the part of the professional representative"; "Due care on the part of the professional representative's employees" - "Failure to observe time limits for Euro-PCT applications"

Article 122, Rules 85a, 104b(1) EPC; Article 48(2)(a) PCT

Headnote

I. When an applicant is represented by a professional representative, a request for restitutio in integrum cannot be acceded to unless the representative himself can show that he has taken the due care required of an applicant or proprietor by Article 122(1) EPC.

II. If the representative has entrusted to an assistant the performance of routine tasks such as typing dictated documents, posing letters and parcels and noting time limits, the same strict standards of care are not expected of the assistant as are expected of the applicant or his representative.

III. A culpable error on the part of the assistant made in the course of carrying out routine tasks is not to be imputed to the representative if the latter has himself shown that he exercised the necessary due care in dealing with his assistant. In this respect, it is encumbent upon the representative to choose for the work a suitable person, properly instructed in the tasks to be performed, and to exercise reasonable supervision over the work.

IV. However, if the representative delegates to an assistant a task which, by virtue of his professional qualification normally falls to him, as for example the interpretation of laws and treaties, the representative will not be able to establish that he has exercised all due care required by the circumstances.

V. Article 48(2)(a) PCT is to be interpreted in a wide sense. It follows that at least Articles 121 and 122 EPC and Rule 85a EPC are applicable to international applications at the time of their transition to the regional phase.

Summary of Facts and Submissions

I. On 2 October 1978 the appellant filed International Application PCT/FR78/00026 claiming the priority of a national patent application made in France on 3 October 1977 and designating the Federal Republic of Germany, the United Kingdom, Luxembourg, Sweden and Switzerland as States for which a European Patent was desired.

II. On 5 April 1979, the International Bureau of the World Intellectual Property Organization published the international application together with the international search report. The period within which the national fee and the designation fees had to be paid thus expired on 5 July 1979 (Art. 22(1)(3) PCT, Rule 104b(1) EPC).

III. The national fee was duly paid on 31 May 1979 but the designation fees were not paid until 3 October 1979, after the Receiving Section has notified the appellant, by letter dated 14 August 1979, that the application must be deemed to have been withdrawn.

IV. By a Decision dated 19 December 1979, given at the appellant's request, the Receiving Section held that the European patent application was deemed to have been withdrawn, in accordance with the provisions of Articles 79(2) and 150(2) EPC, as the designation fees had not been paid in due time.

V. On 23 January 1980 the appellant claimed that the new Rule 85a EPC was applicable in this case. The surcharge prescribed by Rule 85a EPC was duly paid.

VI. On 8 February 1980 the appellant lodged an appeal against the Decision of the Receiving Section, stating the grounds therefor. The appeal fee was duly paid. Referring to the view of the Receiving Section, expressed during a telephone conversation, that Rule 85a EPC would not be applicable to Euro-PCT applications, the appellant submitted that:

(a) when the European Patent Office informed the appellant that the application was deemed to have been withdrawn, on 14 August 1979, there was still time to request *restitutio in integrum*. The fact that Rule 69 EPC had been invoked instead of Article 122 EPC was a trivial and excusable error, contributed to by incorrect information given by the European Patent Office;

(b) the appellant has requested application of Rule 85a EPC within the prescribed period, an application which in the appellant's submission could not be refused, since the rules applicable to a European patent application were equally applicable to a Euro-PCT application;

(c) in the case of another European patent application the same error had been corrected by applying the provisions of Article 122 EPC.

VII. By letter dated 30 October 1980, the Legal Board of Appeal informed the appellant that in the particular case *restitutio in integrum* did not seem to be entirely excluded, but that it would be necessary for the reasons given in the Statement of Grounds to be developed in detail.

VIII. By letter dated 29 December 1980, referring back to the appeal lodged on 8 February 1980, the appellant requested *restitutio in integrum* in the alternative to the other relief sought.

It appears from the appellant's letter and from a written statement made by the lady in charge of administration in his representative's office, that the representative had instructed her to pay all necessary fees and that she had interpreted Article 78 EPC as meaning that only the filing fee had to be paid within one month after filing when a PCT application designating the European Patent Office passed to the national phase.

Reasons for the Decision

1. The appeal complies with Articles 106 to 108 and Rule 64 EPC and is admissible.

2. The appellant based his appeal on two possible remedies: application of Rule 85a EPC and *restitutio in integrum* in accordance with Article 122 EPC.

The Board has examined both possibilities, because restitutio in integrum would be less expensive than application of Rule 85a EPC.

3. *Restitutio in integrum* in accordance with Article 122(1) EPC is conditional upon the applicant showing that, where he was unable to observe a time limit *vis-à-vis* the European Patent Office, all due care required by the circumstances has been taken.

4. During the Munich Diplomatic Conference in 1973, when the expression "all due care required by the circumstances" was inserted in place of the expression "force majeure", which had been employed in the draft text, it was observed that if an applicant had been represented by a professional representative the latter also would have to show that he had taken all due care required by the circumstances (Minutes of the Munich Diplomatic Conference for the Setting Up of a European System

for the Grant of Patents, published by the Federal German Government, M/PR/I, points 574, 575, 577, 578 and M/PR/G, Annex I, Chap. II, Section 10, second paragraph). This interpretation seems to be correct.

5. At the same Conference, there was also discussion of the question whether one could excuse the negligence of an imployee of a professional representative who normally carried out his work in a satisfactory manner.

On this point it was noted that some routine tasks, such as typing dictated documents, posting letters and parcels and noting time limits, are normally carried out not by the professional representative personally, but by his staff. This follows normal commercial and professional practice.

During the Conference, the AIPPI delegation gave a concrete example of the difficulties which can arise in this respect.

Discussion of this example led to the amendment of the text mentioned in point 4. It is clear from the discussion that the Conference had no wish to rule out the possibility of excusing the negligence of an employee (Minutes, *loc. cit.*, point 559 et seq. and point 571, second paragraph).

6. For the purposes of the present case it is not relevant to take account of rules of national laws concerning the liability of an agent to his principal for wrongful acts or omissions of the agent's employee. The Board must restrict itself to interpreting the concept of "due care required by the circumstances" in the context of Article 122(1) EPC.

In the opinion of the Board, one could not expect of an assistant entrusted with routine tasks the same rigorous care as is demanded of an applicant or his professional representative. Nothing in the detailed discussions on *restitutio in integrum* during the Munich Diplomatic Conference would lead to a contrary interpretation.

7. To benefit from Article 122 EPC, a professional representative who employs assistants must be able to establish that he has used the due care required. In general, then, he should choose for the work a suitable person, properly instructed in the tasks to be performed, and he should exercise reasonable supervision over the work.

8. However, account should also be taken of the fact that by Article 134(1) EPC, the Contracting States have in principle confined representation of applicants before the European Patent Office to "professional representatives" who, by virtue of their qualification should guarantee the best possible representation.

It follows that a representative cannot relieve himself of responsibility for carrying out tasks which, by reason of his qualification, fall upon him personnally, such as, for example, the interpretation of laws and treaties. If he delegates such tasks to an employee and if the latter makes an error in the course of that work which results in the failure to observe a time limit, the representative cannot establish that he took all due care required by the circumstances.

9. In the present case, the professional representative gave the lady in charge of administration in his office, whose integrity and competence the Board does not doubt, the general task of paying all fees due within the prescribed periods. Thus an employee was given tasks which she had to carry out independently and which exceeded the scope of mere routine tasks, the more so because - far from easy - interpretation of two recent international treaties was involved.

The professional representative cannot therefore, for the purpose of avoiding the loss of a right, establish that he took all due care required by the circumstances. It follows that the appellant cannot be granted restitution of rights.

10. The appellant asks primarily for application of Rule 85a EPC. This Rule provides that, if the designation fee for a European patent application has not been paid within the period prescribed by Article 79(2) EPC, it can be paid within a further period of two months, upon payment of a surcharge within the same period. But Rule 85a EPC does not mention Rule 104b(1) EPC, which is applicable to Euro-PCT applications.

11. In the present case, the time limit which the applicant has not respected is precisely that which covers the transition from the international to the regional, i.e. European phase. At this point both the Patent Cooperation Treaty and the European Patent Convention apply. However, Article 150(2) EPC provides that in case of conflict the provisions of the PCT prevail.

12. Article 48(2)(a) PCT prescribes that any Contracting State shall, as far as that State is concerned, "excuse", for reasons admitted under its national law, any delay in meeting any time limit. According to the definition in Article 2(x) PCT any reference to national law applies equally to a treaty which provides for the filing of regional applications. The expression "excuse" is a broad term and must therefore be interpreted in its widest sense. In the opinion of the Board, the provision thus in principle covers any national and regional provisions that extenuate a mistake or waive the consequences of non-observance of time limits.

In any case, the Board considers that the application of provisions concerning *restitutio in integrum* (Article 122 EPC) and further processing of the application for a European Patent (Art. 121 EPC) is covered by Article 48(2)(a) PCT, when the necessary conditions are fulfilled. But Rule 85a EPC has the same objective and allows the applicant to continue the procedure when he has failed to observe certain time limits, and the Board sees no reason to exclude this provision from the application of Article 48(2)(a) PCT.

13. The fact that those filing PCT applications have at their disposal an alternative remedy not open to applicants for purely European patents in the same situation, namely the possibility of *restitutio in integrum* under Article 122 EPC, is no reason for depriving them of the benefit of Rule 85a EPC.

It is true that the exclusion of this possibility for applicants for European patents by Article 122(5) EPC led to the adoption of Rule 85a EPC. But this is no reason to refuse PCT applicants this other remedy which does not call for an excuse on the part of the applicant.

The question whether PCT applicants are more privileged than non-PCT applicants for European patents is irrelevant in law so far as the interpretation of Article 48(2)(a) PCT is concerned.

14. Given that, in principle, Rule 85a EPC is within the scope of Article 48(2)(a) PCT, the Board is of the opinion that the obligations resulting from that Article are in any case applicable to situations arising during the transition from the international to the European procedural stages. Having regard to their purpose, the time limits of Rule 104b(1) EPC, which have not been observed in this case, form an integral part of that phase of the procedure. Rule 85a EPC is therefore applicable.

15. In the present case, the applicant paid the designation fees on 3 October 1979 and, on 23 January 1980, also the surcharge specified in Article 2(3)(b) of the Rules relating to Fees, in accordance with the Decision of the Administrative Council of 30 November 1979.

16. It follows that all the conditions for application of Rule 85a EPC are satisfied. Consequently, the Decision of the Receiving Section must be set aside.

17. ...

For these reasons, it is decided that:

The Decision of the Receiving Section of the European Patent Office dated 19 December 1979 is set aside.

European Patent Office

Decision of the Board of Appeal of 30 November 1981, J 08/81 (published in the Official Journal of the European Patent Office No. 1/1982, pages 10 to 13)

"Form of decision" - "international application" - "international search report" - "refund of fee for European search report"

Rule 68(2), Articles 150(2)(3), 157(2)(b)(3)(b) EPC; Article 10 Rules relating to Fees; Article 2(vii) PCT; Decision of the Administrative Council of 14 September 1979 on the reduction of the search fee for the supplementary European search report

Headnote

I. ...

II. Since the amendment of Article 10 of the Rules relating to Fees on 14 September 1979, it is not possible to refund the fee for the European search report if that report is based on an international search report prepared under the provisions of the PCT by any International Searching Authority other than the EPO.

Summary of Facts and Submissions

I. On 17 December 1979, the appellant corporation filed an international application under the Patent Cooperation Treaty with the United States Patent and Trademark Office designating 16 States including eight Contracting States to the European Patent Convention.

II. On 18 June 1980, the United States Patent and Trademark Office, acting as International Searching Authority, issued a search report on the international application.

III. On 25 September 1980, the appellant corporation filed a European patent application, claiming priority from the international application and designating three Contracting States to the European Patent Convention, two of which had also been designated in the international application. With the European patent application the appellant corporation filed a copy of the search report issued on the international application. The fee for the European search report was duly paid.

IV. It appears that the appellant corporation was unable to designate in the international application one of the States designated in the European patent application because that State had not ratified the Patent Cooperation Treaty and that this was the only reason why the European application had to be made.

V. By letter dated 29 September 1980 the appellant corporation's representatives requested a partial refund of the fee for the European search report on the ground that the European Patent Office had the benefit of the search report issued on the international application. A 20% reduction was suggested as appropriate as that was the reduction which would have been allowed if the European application had been the regional phase processing of the international application, rather than an independent application claiming priority from the international application.

IX. ...

X. On 19 August 1981 the statement of rounds of the appeal was duly received. The appellant corporation contended therein that, in accordance with the Decision of the Administrative Council of 14 September 1979 on the reduction of the search fee for the European search report, it was entitled to a refund of 20% of the fee because a European patent application claiming priority from an international application can be regarded as an international application within the meaning of Article 150(2) EPC, having regard to the definition of "international application" in Article 2(vii) PCT. It contended that it would be inequitable to penalize an applicant who had to use a European application in addition to an international application in order to designate States which had signed but not ratified the Patent Cooperation Treaty. It further contended that Article 10 Rules relating to Fees enables a refund to be given in the case of a European patent application claiming priority from an earlier application on which the EPO has drawn up a search report. Where the earlier application is an international application filed at a receiving Office for which the EPO acts as International Searching Authority, the applicant can obtain the refund, but an applicant of United States nationality and residence cannot file at such a receiving Office and is thus also penalized unless the Decision of the Administrative Council of 14 September 1979 can be applied in his favour.

Reasons for the Decision

1. The appeal complies with Articles 106 to 108 and Rule 64 EPC and is, therefore, admissible.

2. ...

3. ...

4. The appellant corporation's contention that their European patent application can be regarded for the purposes of Part X of the European Patent Convention (Arts 150-158) as an international application, is, however, not sustainable and must be rejected. An application cannot be an "international application pursuant to the Patent Cooperation Treaty" unless it is filed under that Treaty, which the appellant corporation's European application was not (Art 2(vii) PCT; Art 150(2) first sentence EPC). The argument that Article 150(2) EPC is of wider scope than Article 150(3) EPC does not help the appellant corporation. All that Article 150(3) EPC provides is that some international applications are deemed to be European patent applications. The appellant corporation is seeking to establish the converse proposition, which is contrary to Article 2(vii) PCT and Article 150(2) EPC.

5. It is to be noted that, simultaneously, on 14 September 1979, the Administrative Council made two related Decisions (cf. Official Journal EPO 1979, 368, 369). First, it decided to reduce the search fee provided for in Article 157(2)(b) EPC by one fifth in the case of international applications on which an international search report had been drawn up by any of three specified offices, including the United States Patent and Trademark Office. Secondly, it amended Article 10 of the Rules relating to Fees inter alia by abolishing the former Article 10(2), which had read: "The search fee may be refunded fully or in part if the European search report is based on an international search report prepared under the provisions of the PCT by the European Patent Office or by any other International Searching Authority."

The deletion of the former Article 10(2), coupled with the first Decision, shows that it was deliberately decided to reduce the scope for giving refunds after 14 September 1979. It is not possible, therefore, to interpret either the first Decision or the amended Article 10 by reference to the considerations of "equity" urged by the appellant corporation's representatives. In the absence of a basis for this appeal in the Rules relating to fees, it cannot succeed.

6. ...

For these reasons, it is decided that:

The appeal against the decision of the Receiving Section of the European Patent Office dated 23 April 1981 and the application for reimbursement of the appeal fee are dismissed.

European Patent Office

Decision of the Board of Appeal of 7 December 1981, J 03/81 (published in the Official Journal of the European Patent Office No. 3/1982, pages 100 to 107)

"International application" - "correction of mistake" - "public interest" - "re-establishment of rights" - "payment of fee"

EPC Articles 122, 150(3), Rule 88

PCT Articles 4(1)(ii), 26, Rule 4.1(ii)(iv)

Headnote

I. If a mistake is made in designating States in a European patent application, then, in general, a request for correction of the mistake by adding the designation of another State must be refused, in the public interest, if it is not made until it is too late to add to the application as published a warning to third parties that the request has been made.

II. Where an international application filed under the PCT is deemed to be a European patent application, the same general rule must apply mutatis mutandis, even though publication of the international application by the International Bureau necessarily precedes the time at which the applicant can request the EPO to correct any mistake in the application.

III. Where the EPO has funds standing to the credit of any person, a fee for re-establishment of rights which that person has to pay can only be considered to have been paid when the EPO has been instructed to allocate the appropriate amount to the payment of that fee.

Summary of facts and submissions

I. By letter dated 18 October 1979 the appellant instructed a United States Patent Attorney to file an international application under the PCT, designating the Soviet Union, Japan, Denmark and "all countries available thru and for the European Patent Convention".

II. On 26 October 1979, the Patent Attorney, who had no previous experience of filing international applications under the PCT, consulted the United States Patent and Trademark Office by telephone about the designation of States and recorded in a memorandum which has been produced in evidence, that he had been advised that "for regional protection for all member countries a single state with the notation "regional patent" would be sufficient". It does not appear that he read Article 4(1)(ii) PCT of Rule 4.1(b)(iv) PCT at the time. Accordingly, acting on his understanding of the advice he had been given, the Patent Attorney included in the appellant's international application, filed in the U.S.A. on 16 November 1979, the designation "United Kingdom - regional patent", believing that he had thereby designated all available EPC Contracting States. Priority was claimed from a United States patent application filed on 27 November 1978.

III. On 3 January 1980, the International Bureau of WIPO sent a notification to the EPO that the record copy of the international application had been received (Form PCT/IB/302). This form notified the EPO that a regional patent was sought for the United Kingdom only and that the EPO would act as designated Office for that application. Simultaneously, the International Bureau sent a notification to the Patent Attorney (Form PCT/IB/301), which, according to the International Bureau (letter of 28 July 1980), clearly indicated that only the United Kingdom had been designated for a regional (European) patent.

IV. On 29 May 1980, the international application was published by the International Bureau with the designation "United Kingdom - regional patent" amended to "GB (European patent)".

V. On 25 June 1980, the Patent Attorney read PCT Gazette No. 12/1980 (dated 29 May 1980), which contained details of the appellant's international application. He noticed that other international applications which designated States for which a European patent was desired, identified each such State. He then realised, for the first time, that he had made a mistake and he immediately instructed the appellant's European professional representative in England to act for the appellant in the processing of the international application in its regional phase and in particular to seek to correct the mistake in only designating one Contracting State for the European patent.

VI. On 26 June 1980, the European professional representative in England notified the EPO by telephone that the mistake had been made and on 7 July 1980 he gave instructions to the EPO by telex (duly confirmed by letter dated 10 July 1980) for the payment of ten designation fees (subsequently reduced to eight).

VII. On 22 July 1980, the appellant's European professional representative wrote to the EPO requesting correction of the desingation "GB (European patent)" under Rule 88 EPC by the addition of seven other EPC Contracting States or alternatively re-establishment of rights under Article 122 EPC.

VIII. With a letter dated 10 October 1980 the appellant's European professional representative filed affidavits stating the facts of the case and sworn respectively by the appellant, a United States Attorney who manages the business and legal affairs of the appellant and the appellant's United States Patent Attorney. A further affidavit by the United States Patent Attorney was filed on 3 June 1981.

IX. By a decision dated 12 November 1980, the Receiving Section of the EPO rejected both requests. The request for correction was rejected on the grounds that (a) the error was only with respect to the legal consequences of the procedural step taken and (b) the request was submitted at a very late state of the procedure, after publication of the international application, so that acceding to such a request would cause uncertainty and leave third parties unprotected by rights of continued use provided for in the EPC. The request for re-establishment of rights was rejected on the ground that the appellant had not failed to observe a time limit.

X. Notice of appeal was filed by telex dated 31 December 1980 (duly confirmed by letter dated 7 January 1981) and the appeal fee was duly paid. A Statement of Grounds of Appeal was filed on 11 March 1981. It was contended therein that the mistake could be corrected under Rule 88 EPC in conformity with the decisions of the Legal Board of Appeal in Cases J 08/80 (Official Journal EPO, 1980, 293) and J 04/80 (Official Journal EPO, 1980, 351). So far as the question of public interest was concerned, the appellant argued that the request for correction had not been made, as the Receiving Section considered, at a very advanced stage of the procedure. Rule 88 EPC contains no time limits and a file inspection would have alerted a third party to the possibility of amendment of the designations. So far as re-establishment of rights was concerned, the Receiving Section had been inconsistent: they had said that no time limit was involved and yet that the appellant was trying to extend the time limit for designation of States. Third party rights of intervening users could be protected by application of Article 122(6) EPC. The appellant requested a hearing.

XI. On 13 May 1981, the Legal Board of Appeal confirmed by telex the appellant's suggested hearing date of 11 June 1981 and drew attention to two matters which seemed to be of special importance, namely: (a) that this was the first case in which correction of a mistake of law - interpretation of a treaty - was sought and that it might be right to apply the principle that everyone is presumed to know the law, (b) that it was not clear that re-establishment of rights lost in the international phase was authorised under the PCT and that it was difficult to say that there was a "time limit" when States had to be designated at the moment of application.

XII. At a hearing held on 11 June 1981, the appellant's European professional representative contended that the appellant's written submissions on the subject of re-establishment of rights were correct. So far as the request for correction was concerned, the unchallenged evidence indicated that the appellant had given clear instructions to designate all Contracting States of the EPC and that her United States Patent Attorney had understood and attempted to carry out those instructions. The procedure was unfamiliar and complicated. The Patent Attorney had either misunderstood, or been given wrong advice by, the United States Patent and Trademark Office. Immediate steps had been taken to correct the mistake as soon as it was noticed. The mistake was an omission and the application did not express the applicant's true intention. Thus it could be corrected in accordance with the decision in Case J 08/80. The original designation "United Kingdom - regional patent" was clearly ambiguous and no one would have expected a PCT application to designate the EPO in respect of a single Contracting State. The appellant's conduct in promptly seeking correction and disclosing all material facts had been exemplary. The principle that everyone is presumed to know the law should not be applied in a case of procedural error: it was not applied in cases of procedural error before the English civil courts. In Case J 06/79 (Official Journal EPO 1980, 225) the Legal Board of Appeal had granted re-establishment of rights where inaccurate information given by the EPO had caused an applicant for an international application to fail to observe a time limit. The present case was comparable.

XIII. Shortly before the hearing, it came to the attention of the Legal Board of Appeal that there was no record that the fee of DM 100 for re-establishment of rights had been paid. The Board allowed the question of re-establishment of rights to be argued at the hearing on the provisional assumption that the fee had been paid. However, on 3 July 1981 the appellant's European professional representative wrote to the EPO, in effect acknowledging that he had not previously given instructions for the fee to be taken from funds standing to the credit of the appellant and asking for this to be done retrospectively by adjustment of the records.

Reasons for the decision

1. The appeal complies with Articles 106-108 and Rule 64 EPC and is, therefore, admissible.

2. Article 122(3) EPC provides that an application for re-establishment of rights shall not be deemed to be filed until after the fee for re-establishment of rights has been paid. Furthermore, Article 122(2) provides that the application must be filed within two months from the removal of the cause of non-compliance with the time limit and is only admissible within the year immediately following the expiry of the unobserved time limit.

In the opinion of the Board, if the EPO has funds standing to the credit of the applicant, then instructions may be given to allocate the appropriate amount to the payment of the fee for re-establishment of rights, but it would be clearly inconsistent with the provisions of Articles 122(2) and (3) EPC to allow such instructions to have retrospective effect.

In this case, no instructions were given until July 1981, although any unobserved time limit must have expired in or before June 1980. It follows that there was no valid application for re-establishment of rights before the Receiving Section or before the Legal Board of Appeal. Accordingly, that matter cannot be further considered.

3. The question of correction of a mistake in designation of States under Rule 88 EPC has previously been considered by the Legal Board of Appeal in three Cases: J 08/80, J 04/80 and J 12/80.

In Case J 12/80 (Official Journal EPO, 1981, 143), the Board dealt with the point that the application for the European patent was published in its uncorrected form while the appeal was pending. The Board considered the question of public interest raised by this publication, as there was an unavoidable risk that a third party might have started to use the invention in the State which the appellant had failed to designate after publication but before the Board had decided the case. It was considered that it would not be right to refuse correction in the public interest, if the appellant was otherwise entitled to it, as the appellant had no control over the intervening publication.

4. The present case is, however, the first case in which no application for correction was made until after publication. The Receiving Section considered that this fact furnished one valid reason for refusing to allow correction of the mistake. The Legal Board of Appeal agrees with the view of the Receiving Section. The appellant has contended, correctly, that Rule 88 EPC contains no time limits, but Rule 88 EPC must be considered in the context of the European Patent System as a whole. Time limits are imposed by many provisions of the Convention and it is clear that they are imposed in the public interest. Indeed, non-observance of some of these time limits cannot be remedied.

5. The possibility that there may be inherent time limitations on a request for corection was referred to in Case J 08/80 and becomes critically important in the present case. Correction after publication of incomplete designations is most undesirable as the public should be able to rely on the publication itself. In the circumstances of Case J 12/80 the Board allowed correction of a designation which had been published because the appellant had applied for correction in good time before publication but the EPO itself had committed the error of publishing while the case was sub judice without even warning the public that a request for correction of a mistake in designating States had been made. In Cases J 08/80 and J 04/80 publication also took place while the appeals were pending but this fact did not come to the attention of the Board in either case.

6. The Board is not impressed by the present appellant's argument that the existence of an application for correcting a mistake in designation can be ascertained by inspection of the file. Third parties the world over cannot be expected to undertake constant file searches in case designations have been omitted. The Board considers that the general rule must be that a request for correction of a mistake in designating States in a European patent application by adding the designation of another State must be refused, in the public interest, if it is not made until it is too late to add to the application as published a warning to third parties that the request has been made.

7. The present case concerns an international application which is treated as a European patent application by virtue of the provisions of Article 150 EPC. Such an application is conveniently, but not officially, termed a "Euro-PCT" application.

8. Article 26 PCT entitles an applicant for a Euro-PCT application to have an opportunity to correct his application to the extent and according to the procedure provided by the EPC for applicants for European patents. Article 26 PCT speaks of the rejection of an application. In the opinion of the Board, rejection of a designation of a State is within the scope of the Article.

9. The question arises whether the general rule stated in paragraph 6 above must be applied to a Euro-PCT application? Every Euro-PCT application is published by the International Bureau before the time is reached at which the applicant can request the EPO to correct any mistake in the application under Rule 88 EPC. The Board considers that the general rule must apply, in the public interest, bearing in mind that an applicant for a Euro-PCT application is not entitled under Article 26 PCT to greater rights than an applicant for a European patent enjoys under the EPC.

The applicant can ask the International Bureau to ensure that public attention is drawn to the alleged mistake and the desired correction, when the application is published. There will then be no overriding factor of public interest against a request for correction under Rule 88 EPC.

10. In the present case, no request for correction was made until after publication and it was, therefore, too late. It is unfortunate for the present appellant that the mistake was not noticed in January 1980 when, in accordance with standard PCT procedure, the appellant's United States Patent Attorney was sent Form PCT/IB/301, which showed clearly that only the United Kingdom had been designated for a regional (European) patent. If some appropriate action had been taken at that time it might have been possible to consider further the appellant's request under Rule 88 EPC.

11. It follows that the question whether correction should be permitted when a mistake in designating States is due to an error of law does not have to be decided for the purposes of the present case.

For these reasons, it is decided that:

The appeal against the Decision of the Receiving Section of the European Patent Office dated 12 November 1980 is dismissed.

European Patent Office

Legal Advice No. 10/81 (published in the Official Journal of the European Patent Office No. 9/1981, pages 349 to 355)

Consolidation of a European patent application with a Euro-PCT application

Refund of the examination fee for one of the consolidated applications

Articles 153 and 94, paragraph 2, EPC

Headnote

1. A European patent application and an international application for which the EPO is designated Office may be consolidated at the request of the applicant for the purpose of joint proceedings up to grant before the Examining Division. The filing and priority dates of the application to be consolidated must be the same and the text of the description and the claims must be identical as also must the drawings.

2. The decision to consolidate cannot be taken until valid requests for examination have been filed for each of the two applications.

3. If the request to consolidate is made on or before the day on which the later request for examination is validly filed, the effect of the decision to consolidate is that no separate examination proceedings are initiated for the application for which the later request for examination is filed; the examination fee paid for that application is then to be refunded.

I. The question at issue

1. Not all EPC Contracting States are also PCT Contracting States. This is the case of Belgium and Italy at present, but new EPC Contracting States may also be in the same position in future.

An applicant wishing to obtain a European patent is therefore forced at present either to forego the PCT route for the EPC Contracting States or to file a European patent application for Belgium and Italy as well as an international application for the EPC Contracting States which also belong to the PCT (hereinafter referred to as a "Euro-PCT application").

2. The EPO has been asked whether a Euro-PCT application can be consolidated with an identical European patent application, which has been filed for the above-mentioned reasons, for the purpose of joint proceedings up to grant and, if so, whether one examination fee will be refunded.

II. Fundamental significance of consolidating proceedings

3. The EPC guarantees applicants the right, provided certain conditions are fulfilled, to divide an application - a right exercised by filing a divisional application. The Convention is silent on the question of whether applications may be consolidated. However, so long as the unity of the patent application and patent is preserved (see Article 118 EPC, in particular), the Examining Division has - as explained below - the authority to consolidate two applications for the purpose of joint proceedings, if the applicant so requests and if the two applications are at a stage of the proceedings where they can be suitably consolidated.

4. The EPO (the relevant Examining Division) has, within its competence for conducting the examination proceedings, the right and the duty to take such measures as are necessary to carry out the procedure efficiently. If proceedings in respect of two applications are consolidated, this means reduced costs for the applicant and less administrative work for the EPO. The consolidation of proceedings thus conforms with the EPC's objectives of creating an efficient and economical patent grant procedure for acquiring protective rights in several European States at once.

5. Further arguments in favour of the decision to consolidate the applications can be derived from the relationship of the EPC to the PCT. The EPC is a regional treaty within the meaning of Article 45(1) PCT, to which the Preamble to the EPC in fact expressly refers. The EPC has also been consciously and intentionally aligned on the PCT and, as a regional treaty under the PCT, is responsible within its territorial field of application for realising the objectives of the PCT as well. One of the main objectives of the PCT, according to its Preamble, is to simplify and render more economical - through international co-operation would-wide - the obtaining of protection for inventions where protection is sought in several countries. The interaction of the PCT and EPC makes it possible to obtain protection for EPC Contracting States in an international application by taking the so-called Euro-PCT route. But a major economic obstacle for Euro-PCT applicants is that not all EPC Contracting States also belong to the PCT.

6. If the applicant who wishes to obtain a European patent decides to file a European application for the EPC Contracting States which do not belong to the PCT as well as a Euro-PCT application, he will incur extra costs for the parallel grant procedure, for maintaining the application (European renewal fees) and for the grant itself (fees for grant and printing, claims fees) unless the separate proceedings can be consolidated. These drawbacks would make the Euro-PCT route much more difficult. Opening the way to consolidation of applications has therefore fundamental significance for the Euro-PCT procedure. Allowing the two applications to be consolidated meets a legitimate interest of the applicant which also accords with the objectives of the EPC and the PCT. So long as the unity of the European application and European patent is preserved, and provided it is feasible to consolidate the two applications at their respective stages in the proceedings, there are no provisions in the EPC against this being done.

III. Substantive requirements for consolidating applications

7. The requirements for consolidating European patent grant proceedings are as follows (cf. Article 118 EPC, in particular):

(a) Both applications must have the **same date of filing** (Article 80 EPC; Article 11(1) PCT);

(b) **Priority claims** must be **identical**; this can be adequately achieved by abandoning priorities, but the priorities need only be identical on the date on which the decision consolidating the application is adopted;

(c) Apart from the exceptions described in Legal Advice No. 9/81 (OJ 3/81, pp. 71 and 72, points 7-10), the texts of the **description and claims, as well as the drawings**, of the applications to be consolidated must be identical; this must be the case both on the date of filing and on the date of the decision consolidating the applications. The applicant is required to furnish a statement to that effect when filing the request for consolidation;

(d) The **initial language of the proceedings** must be the same for both applications and, if the language of the proceedings is changed, the new language (Rule 3 EPC) must also be the same for both on the date of the decision consolidating the applications;

(e) If the applications were not filed in an official language of the EPO, their **original language** (e.g. Swedish) must also be the same; Article 14, paragraph 2, EPC applies. The text of the description and claims, as well as the drawings, contained in the documents originally filed must be identical; the applicant is required to furnish a statement to that effect.

8. The involvement of different applicants in the two applications is no barrier to consolidation, since the EPC (Article 59) permits multiple applicants designating different Contracting States. In this case, however, the request for the applications to be consolidated must be made by all the applicants.

9. These requirements spring from the principle of unity of the European patent application and European patent, as derived from Article 118 EPC, in particular. The filing and priority dates and the content of the application as originally filed (description, claims and drawings) must be uniform for all designated States, apart from the exceptions mentioned in Legal Advice No. 9/81. The original documents need to be identical because, apart from anything else, an assertion that Article 123 EPC has been infringed can still be made later in opposition and revocation proceedings (Articles 100, paragraph (c), and 238, paragraph 1(c), EPC) and in this context non-uniform documents would conflict with the principle of unity of the European patent. However, if the conditions specified are fulfilled, the substantive requirements for consolidation will obtain.

IV. Stage in the proceedings reached by the applications on adoption of the decision consolidating them

10. The consolidation of applications is not allowable while the Euro-PCT application is still in the international phase and the prohibition on examination and processing still applies under Article 23(1) or Article 40(1) PCT. Furthermore, the stages which the two applications have reached in the proceedings must be so close as to ensure that they can be consolidated without any problems. The Euro-PCT application must have completed its transition to the European phase. Finally, the common responsibility for processing the two applications must lie with the Examining Division.

11. The following requirements therefore emerge:

(a) The requirements under Article 22 or Article 39 PCT for opening the European phase of the Euro-PCT application must be fulfilled; in particular, the fees specified in Rule 104b, paragraph 1, EPC must have been paid;

(b) A request for examination must have been validly filed for each of the two applications; if, in the case of the European application, the request for examination was filed before receipt of the search report, the applicant must have indicated in accordance with Article 96, paragraph 1, EPC that he wishes to proceed further;

(c) Responsibility for processing must not, as a result of an appeal, have passed from the Examining Division to a Board of Appeal.

12. The Examining Division is responsible for taking the decision consolidating the applications. The application to consolidate can even be filed after the Examination Division has become responsible (Article 18(1) EPC). It is, however, advisable to file the request at an early stage in order to secure the refund of one examination fee (see points 15-17 and 19).

After the receipt of the first communication from the Examining Division consolidation may not be made without the consent of the Examining Division - in addition to the substantive requirements which must also be fulfilled (see Section III). Consent will normally be given up to the communication according to Rule 51(4) EPC.

V. Languages

13. If the Euro-PCT application was filed in a language other than an official language of the EPO (e.g. Swedish - see point 8(e)), it is not necessary to submit a translation in order to open the European phase (Articles 22, 39 PCT), because the Euro-PCT application is published by the International Bureau in an English translation established by the International Searching Authority. Since the International Bureau communicates the published application in accordance with Article 20 PCT, this fulfills the conditions laid down by Articles 22 or 39 PCT in conjunction with Article 158, paragraph 2, EPC. If the applicant himself does not submit a translation, English is deemed to be the language chosen for the proceedings (= initial language of the proceedings within the meaning of Article 14, paragraph 3, and Rule 3 EPC) before the EPO. The international publication (English translation of the application) is the basis for further proceedings before the EPO. However, by submitting a German or French translation within the specified period, the applicant has the chance to choose either of those languages as the initial language of the proceedings before the EPO (see Information for PCT applicants, OJ 11-12/1979, p. 481, note 6). Where the languages of the Euro-PCT application and the European application are the same, the two applications can be consolidated.

14. The following examples are intended to demonstrate this:

Example I:

The *Euro-PCT application* is filed in Swedish and translated into **English** by the International Bureau. The applicant does not supply a translation under Articles 22 or 39 PCT. The European application is likewise filed in Swedish.

The applications may be consolidated if an **English translation** of the European application has been filed in accordance with Article 14, paragraph 2, EPC.

Example II:

The *Euro-PCT application* is filed in Swedish. On opening the European phase (Articles 22, 39 PCT), the applicant furnishes a **German** or **French translation**. The European application is likewise filed in Swedish.

The applications may be consolidated if a translation of the European application in the language chosen for the translation of the Euro-PCT application has been filed in accordance with Article 14, paragraph 2, EPC.

VI. Refund of the examination fee for one of the applications to be consolidated

15. Before a decision consolidating two applications can be taken, a valid request for examination must have been filed for both (see point 12(b)). If the request for the proceedings to be consolidated is made on or before the day on which the *later* request for examination is validly filed, the effect of the decision to consolidate is that no separate examination proceedings are even initiated ; the examination fee paid for that application has therefore to be *refunded*. The consolidated proceedings will then be continued under the application for which a request for examination was filed *first*.

If the written request for examination has already been filed in the request for grant (EPO Form 1001, Section XIV), payment of the examination fee will determine, in the case of the European application, the date on which he request for examination is deemed to have been validly filed (Article 94, paragraph 2, EPC).

16. If the requests for examination are submitted simultaneously, either application may be chosen as the one under which the consolidated proceedings are to be continued.

17. However, an examination fee cannot be refunded if the request to consolidate proceedings is made *after* both requests for examination have been filed: the Rules relating to Fees preclude a refund of the examination fee - as opposed to the search fee (Article 10 of the Rules relating to Fees) - irrespective of the stage in the procedure, once the department appointed to carry out the part of the procedure in question (Examining Division) has assumed *responsibility* (see Legal Advice No. 1/79, OJ 2/79, pp. 61-63).

VII. Renewal Fees

18. Renewal fees (Article 86 EPC) which become due after the notification of the decision to consolidate the applications are only to be paid for the application under which the proceedings continue.

VIII. Action to be taken on the files and the Register following the decision to consolidate

19. The following action is required:

(a) The fact that the applications have been consolidated must be recorded in the Register of European Patents and published in the European Patent Bulletin. If a patent is subsequently granted, the title page of the patent specification must contain an indication of the consolidation and the serial number of the other application.

(b) As regard the application under which the consolidated grant proceedings are to be continued, the corresponding changes must be made in the Register data (addition of other designated States) and an announcement that this has been done published in the European Patent Bulletin.

IX. Information for applicants

20. The examination fee may only be refunded if the application for consolidation has been filed in time (see points 15-17). Applicants are advised, *when submitting the European application*, to enter immediately in Section XIX of the request-for-grant form (EPO Form 1001 - revised August 1981 version) a reference to the parallel international application and, at the same time, to file a *request for subsequent consolidation* of the two applications for the purpose of joint examination proceedings.

Applicants should note that *in the first place the examination fees must be paid for both applications* and that one of the fees cannot be *refunded* until the two proceedings have been consolidated.

PCT APPLICANT'S GUIDE

The most recent editions of the *PCT Applicant's Guide* and its Annexes are:

English*
- the December 1978 edition of the *Guide* and its Annexes with replacement (updating) sheets dated August 1979, April, June and December 1980, January and July 1981, January and July 1982.
