It is necessary to modify the standard from time to time in the light of practical experience and of new technical developments, and bearing in mind that the standard will be used for the operation of existing systems and the development of new systems by a variety of developers, including some patent Offices. The change procedure outlined in this section constitutes the usual means by which the Director General undertakes consultation pursuant to PCT Rule 89.2(b) concerning proposals to modify technical requirements contained in Annex F (including its Appendices) and, where appropriate, in Part 7 and other parts of the Administrative Instructions ("proposals for change"), before deciding whether to promulgate such modifications.

Proposed modifications related to the standard but going beyond technical requirements (for example, proposed modifications which would affect the legal principles supporting electronic filing and processing) are not dealt with under the change procedure set out in this section but are the subject of ordinary consultation by the International Bureau as for other proposed modifications of the Administrative Instructions. A proposal being dealt with under the change procedure set out in this section will be withdrawn by the International Bureau from the procedure if it appears in retrospect to go beyond the technical requirements of the standard.

2.5.2 Web site; information list; Consultative Group

The International Bureau maintains a Web site for the processing of proposals for change. The Web site provides for interested persons to register their e-mail addresses on the e-filing information list of persons who wish to be informed when proposals for change (or other materials relating to PCT electronic filing) are made available on the site.

The national Office of any State, and any PCT Authority, any intergovernmental organization (including any regional Office) and any non-governmental organization, that is invited to participate in meetings of the PCT Committee for Administrative and Legal Matters may register, via the Web site, to participate in the work of a Consultative Group which considers proposals for change. Participants should preferably register at an early stage in the annual change management cycle outlined in section 2.5.4, below. All persons registered to represent participants in the Consultative Group are also automatically included on the e-filing information list.

National Offices and PCT Authorities which register to participate in the Consultative Group do so as members, and other participants as observers. The International Bureau, as secretariat, coordinates the activities of the Group. Consideration of matters by the Group is informal and takes place via the Web site and e-mail and, where necessary, via other means of telecommunication; meetings of the Group in person are not envisaged.

DÉPÔT ET TRAITEMENT ÉLECTRONIQUES DES DEMANDES INTERNATIONALES : PROCÉDURE APPLICABLE AUX FUTURES MODIFICATIONS DE LA NORME TECHNIQUE (suite)

INSTRUCTIONS ADMINISTRATIVES DU PCT : MODIFICATION DE L'ANNEXE F

Annexe F
Norme concernant le dépôt et le traitement électroniques des demandes internationales

1. [Sans changement]

2. PRINCIPES GÉNÉRAUX DE LA NORME E-PCT

2.1 à 2.4 [Sans changement]

2.5 Procédure de modification [Nouveau]

2.5.1 Champ d'application

Il est nécessaire de modifier la norme de temps à autre en fonction de l'expérience pratique et du progrès technique et compte tenu du fait que celle-ci sera utilisée pour le fonctionnement des systèmes actuels et l'élaboration de nouveaux systèmes par un large éventail de concepteurs, dont certains offices de brevets. La procédure de modification définie dans la présente section constitue le moyen habituel par lequel le Directeur général ouvre des consultations en vertu de la règle 89.2.b) en ce qui concerne les propositions de modification des exigences techniques contenues dans l'annexe F (y compris ses appendices) et, le cas échéant, dans la septième partie et d'autres parties des instructions administratives (ci-après dénommées "propositions de modification"), avant de décider de l'opportunité de promulguer ces modifications.

Les propositions de modification relatives à la norme mais qui dépassent le cadre des exigences techniques (par exemple, les propositions de modification relatives aux principes juridiques qui gouvernent le dépôt et le traitement électroniques) ne sont pas examinées en vertu de la procédure de modification définie dans la présente section mais font l'objet d'une consultation ordinaire menée par le Bureau international, comme c'est le cas pour les autres propositions de modification des instructions administratives. L'examen d'une proposition en vertu de la procédure de modification définie dans la présente section sera interrompu par le Bureau international s'il apparaît rétrospectivement qu'elle dépasse le cadre des exigences techniques de la norme.

2.5.2 Site Web; liste de diffusion; groupe consultatif

Le Bureau international tient à jour un site Web destiné au traitement des propositions de modification. Le site Web permet aux personnes intéressées d'inscrire leur adresse électronique sur une liste de diffusion relative au dépôt électronique, en vue d'être tenues informées de la publication sur le site de nouvelles propositions de modification (ou d'autres documents relatifs au dépôt électronique selon le PCT).

Tout office national, administration PCT, organisation intergouvernementale (y compris les offices régionaux) ou organisation non gouvernementale invité à prendre part aux réunions du Comité des questions administratives et juridiques du PCT peut s'inscrire sur le site Web en vue de participer aux travaux d'un groupe consultatif chargé d'examiner les propositions de modification. Les participants doivent, de préférence, s'inscrire au début du cycle annuel de gestion des modifications défini dans la section 2.5.4 ci-après. Toutes les personnes représentant des membres du groupe consultatif sont automatiquement inscrites sur la liste de diffusion relative au dépôt électronique.

Les offices nationaux et les administrations PCT participant au groupe consultatif le font en qualité de membres et les autres participants, à titre d'observateurs. Le Bureau international, qui assure le secrétariat, coordonne les activités du groupe. L'examen des questions se fait de manière informelle sur le site Web et par courrier électronique et, si nécessaire, par d'autres moyens de communication; des réunions entre membres du groupe eux-mêmes ne sont pas envisagées.

ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS: CHANGE PROCEDURE FOR FUTURE MODIFICATIONS OF THE TECHNICAL STANDARD (Cont'd)

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT: MODIFICATION OF ANNEX F (Cont'd)

The main function of the Consultative Group is to discuss, and make recommendations on, how proposals for change should be handled and, in particular, whether changes should be promulgated and with what effective date, as outlined further below. It is expected that the Group would operate on the basis of consensus.

2.5.3 Proposals for change

Proposals for change may be submitted to the International Bureau by any Office or Authority entitled to register as a member of the Consultative Group, and may be initiated by the International Bureau. An Office or Authority or the International Bureau may, if it wishes, submit a proposal for change that has been suggested to it by a third party. Proposals for change may be submitted, preferably via the Web site, at any time during the year.

A proposal for change may be modified or withdrawn by the Office or Authority that submitted it. Each proposal for change is published by the International Bureau on the Web site as a "Proposal for Change" (PFC) file to which comments, modifications, etc., are annexed. Exchanges of views on a proposal for change, if not annexed to the PFC file concerned, are stored in an archive accessible via the Web site.

Each proposal for change must set forth the requested modifications of the text and/or figures concerned, a list of items that may be impacted, the reason, including processing or policy issues involved, and the proposed date of implementation, including, if appropriate, a request for expedited handling, and should also, if possible, include a draft implementation (for example, a new XML DTD).

Consideration of proposals for change would ordinarily proceed under the (standard) annual change management cycle in accordance with section 2.5.4. If needed, generally on request by the proposer, the International Bureau may determine, after consultation with the Consultative Group, that consideration of a proposal for change should be expedited in accordance with section 2.5.5. It is to be understood that consideration of any proposal for change resulting from a change to a PCT Contracting State's national law relating to the standards contained in this Annex would be expedited.

2.5.4 Annual change management cycle

1. Each proposal for change received by the International Bureau is published on the Web site, forthwith after its receipt, in a PFC file together with an indication that comments on the proposal may be sent to the International Bureau. That publication is promptly notified by e-mail to the e-filing information list.

2. Any comments received from interested parties following the publication and notification of a proposal for change referred to in section 2.5.3 are promptly published on the Web site in the PFC file and notified by e-mail to the e-filing information list.

3. Further consideration of the proposal does not take place until the following February, unless expedited consideration is accorded to the proposal under section 2.5.5.

DÉPÔT ET TRAITEMENT ÉLECTRONIQUES DES DEMANDES INTERNATIONALES : PROCÉDURE APPLICABLE AUX FUTURES MODIFICATIONS DE LA NORME TECHNIQUE (suite)

INSTRUCTIONS ADMINISTRATIVES DU PCT : MODIFICATION DE L'ANNEXE F (suite)

Le principal rôle du groupe consultatif est d'examiner la manière dont il convient de mettre en œuvre les propositions de modification et, en particulier, de déterminer si des modifications doivent être promulguées et la date à laquelle elles doivent prendre effet, et de faire des recommandations dans ce sens. Le groupe est censé exercer ses activités sur la base du consensus.

2.5.3 Propositions de modification

Les propositions de modification peuvent être soumises au Bureau international par tout office ou administration qui a le droit de s'inscrire comme membre du groupe consultatif. Elles peuvent également être présentées par le Bureau international. Un office, une administration ou le Bureau international lui-même peut, s'il le désire, soumettre une proposition de modification qui lui a été présentée par un tiers. Les propositions de modification peuvent être soumises à tout moment de l'année, de préférence sur le site Web.

Une proposition de modification peut être modifiée ou retirée par l'office ou l'administration qui l'a soumise. Chaque proposition de modification est publiée par le Bureau international sur le site Web, sous la forme d'un dossier relatif à la proposition de modification, auquel sont jointes en annexe les observations formulées, les modifications proposées, etc. S'ils ne sont pas joints en annexe au dossier concerné, les échanges de vues sur cette proposition sont consignés dans des archives accessibles sur le site Web.

Chaque proposition de modification doit indiquer les changements demandés en ce qui concerne le texte ou les dessins, une liste des éléments sur lesquels ces changements pourraient avoir des incidences, le motif du changement proposé, y compris les questions de traitement ou de politique générale en jeu, ainsi que la date proposée pour sa mise en œuvre, et doit comporter, si possible, un projet de plan d'exécution (par exemple, une nouvelle DTD en XML).

L'examen des propositions de modification devrait normalement s'effectuer dans le cadre du cycle annuel (ordinaire) de gestion des modifications visé à la section 2.5.4. Si nécessaire, en général à la demande de l'auteur de la proposition, le Bureau international peut décider, après avoir consulté le groupe consultatif, d'accélérer l'examen d'une proposition de modification selon la procédure définie à la section 2.5.5. Il est entendu que l'examen de toute proposition de modification découlant d'un changement apporté à la législation nationale d'un État contractant du PCT en rapport avec les normes contenues dans la présente annexe s'effectuera dans le cadre de la procédure accélérée.

2.5.4 Cycle annuel de gestion des modifications

1. Chaque proposition de modification reçue par le Bureau international est publiée, dès sa réception, sur le site Web, dans un dossier créé à cet effet, avec une mention indiquant que des observations sur cette proposition peuvent être envoyées au Bureau international. Cette publication est notifiée à bref délai par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

2. Les observations des parties intéressées reçues après la publication et la notification d'une proposition de modification visée à la section 2.5.3 sont publiées à bref délai sur le site Web, dans le dossier relatif à la proposition de modification, et notifiées aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

3. L'examen de la proposition est ensuite suspendu jusqu'au mois de février suivant, à moins que la proposition ne fasse l'objet de la procédure accélérée visée à la section 2.5.5.

ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS: CHANGE PROCEDURE FOR FUTURE MODIFICATIONS OF THE TECHNICAL STANDARD (Cont'd)

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT: MODIFICATION OF ANNEX F (Cont'd)

4. On or promptly after February 15, the International Bureau publishes on the Web site a list of all pending standard proposals for change and references to the relevant PFC files, with an indication that comments may be sent to the International Bureau by March 31, and sends a notification by e-mail to the e-filing information list. The International Bureau also sends a written circular to all PCT Offices and Authorities, interested intergovernmental organizations and certain non-governmental organizations representing users, referring to the Web site, inviting comments by March 31 and advising that paper copies of the proposals for change are available from the International Bureau.

5. Any further comments received by the International Bureau are published, forthwith after their receipt, in the PFC file on the Web site and notified by e-mail to the e-filing information list.

6. Promptly after March 31, the International Bureau invites the Consultative Group to consider the pending proposals for change and comments, and the Consultative Group makes recommendations to the International Bureau by May 15. The recommendations are published forthwith in the PFC file on the Web site and notified by e-mail to the e-filing information list.

7. Taking into account the comments received and the recommendations of the Consultative Group, and after any necessary revision, the International Bureau publishes on the Web site, by June 30, modifications intended to come into force on January 1 of the following year or, exceptionally, before that date, and sends a notification by e-mail to the e-filing information list.

8. The usual procedures for promulgation of modifications of the Administrative Instructions apply (written circular and publication in the *PCT Gazette*).

9. If applicable, new or revised requirements of Offices are notified to the International Bureau, as provided for in Section 710 of the Administrative Instructions, for publication in the *PCT Gazette*.

2.5.5 Expedited consideration of change proposals

1. At any time, after consulting the Consultative Group, the International Bureau may decide that a proposal for change should be accorded expedited consideration, even if the proposal for change has so far been treated as standard.

2. Each proposal for change which is accorded expedited consideration is published on the Web site for comment and notified by e-mail to the e-filing information list, as outlined in section 2.5.4, paragraphs 1 and 2, except that comments are invited within six weeks. At the same time as that publication, the International Bureau sends the written circular referred to in section 2.5.4, paragraph 4, inviting comments within six weeks. Any comments received are published, forthwith after their receipt, in the PFC file on the Web site and notified by e-mail to the e-filing information list.

3. At the end of the period for comments, the International Bureau invites the Consultative Group to consider the proposal for change and comments, and the Consultative Group makes recommendations within six weeks of that invitation, including a recommendation, if applicable, as to the appropriate date of entry into force of the proposed modifications. The recommendations are published forthwith in the PFC file on the Web site and notified by e-mail to the e-filing information list.

DÉPÔT ET TRAITEMENT ÉLECTRONIQUES DES DEMANDES INTERNATIONALES : PROCÉDURE APPLICABLE AUX FUTURES MODIFICATIONS DE LA NORME TECHNIQUE (suite)

INSTRUCTIONS ADMINISTRATIVES DU PCT : MODIFICATION DE L'ANNEXE F (suite)

4. Le 15 février ou à bref délai après cette date, le Bureau international publie sur le site Web une liste de toutes les propositions de modification en suspens et les renvois aux dossiers de propositions de modification correspondants, en indiquant que des observations peuvent être envoyées au Bureau international jusqu'au 31 mars au plus tard, et le notifie par courrier électronique à toutes les personnes inscrites sur la liste de diffusion relative au dépôt électronique. Le Bureau international envoie également à tous les offices et administrations PCT, aux organisations intergouvernementales intéressées et à certaines organisations non gouvernementales représentant les utilisateurs, une circulaire imprimée relative au site Web, en les invitant à formuler des observations avant le 31 mars et en indiquant qu'il tient à leur disposition des exemplaires sur papier de ces propositions de modification.

5. Toutes les autres observations reçues par le Bureau international sont publiées, dès leur réception, dans le dossier relatif à la proposition de modification sur le site Web et notifiées par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

6. À bref délai après le 31 mars, le Bureau international invite le groupe consultatif à examiner les propositions de modification et les observations y relatives, puis le groupe consultatif fait des recommandations au Bureau international jusqu'au 15 mai au plus tard. Ces recommandations sont immédiatement publiées dans le dossier relatif à la proposition de modification sur le site Web et notifiées par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

7. En tenant compte des observations formulées et des recommandations du groupe consultatif, après les avoir révisées si nécessaire, le Bureau international publie sur le site Web, le 30 juin au plus tard, les modifications destinées à entrer en vigueur le 1er janvier de l'année suivante ou, exceptionnellement, avant cette date, et le notifie par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

8. Les procédures habituelles en matière de promulgation des modifications des instructions administratives sont applicables (envoi d'une circulaire imprimée et publication dans la *Gazette du PCT*).

9. Le cas échéant, les exigences nouvelles ou révisées des offices sont notifiées au Bureau international, comme le prévoit l'instruction 710, aux fins de la publication dans la *Gazette du PCT*.

2.5.5 Examen accéléré des propositions de modification

1. À tout moment après consultation du groupe consultatif, le Bureau international peut décider d'accélérer l'examen d'une proposition de modification, même si cette dernière a jusque-là fait l'objet d'un traitement ordinaire.

2. Chaque proposition de modification dont l'examen a été accéléré fait l'objet d'une publication sur le site Web aux fins de la formulation d'observations et d'une notification par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique, comme il est indiqué aux paragraphes 1 et 2 de la section 2.5.4, à ceci près que les observations doivent être formulées dans un délai de six semaines. Parallèlement à cette publication, le Bureau international envoie la circulaire imprimée visée au paragraphe 4 de la section 2.5.4 en invitant à la formulation d'observations dans un délai de six semaines. Toutes les observations reçues sont publiées, dès leur réception, dans le dossier relatif à la proposition de modification sur le site Web, et notifiées par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

3. À l'expiration du délai fixé pour la formulation des observations, le Bureau international invite le groupe consultatif à examiner les propositions de modification et les observations formulées, puis le groupe consultatif fait des recommandations dans un délai de six semaines, y compris, le cas échéant, sur la date appropriée d'entrée en vigueur des modifications proposées. Ces recommandations sont immédiatement publiées dans le dossier relatif à la proposition de modification sur le site Web, et notifiées par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

ELECTRONIC FILING AND PROCESSING OF INTERNATIONAL APPLICATIONS: CHANGE PROCEDURE FOR FUTURE MODIFICATIONS OF THE TECHNICAL STANDARD (Cont'd)

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT: MODIFICATION OF ANNEX F (Cont'd)

4. Taking into account the comments received and the recommendations of the Consultative Group, and after any necessary revision, the International Bureau publishes the modifications, and their date of entry into force, on the Web site, and sends a notification by e-mail to the e-filing information list.

5. The modifications are promulgated, and any new requirements of Offices are notified and published, as outlined in section 2.5.4, paragraphs 8 and 9.

2.5.6 Version handling

The adoption and implementation of modifications must take into account any requirement for different versions of certain aspects of the standard (notably, DTDs and the interoperability protocol) to operate simultaneously for a period. In such cases, version numbers, and the status of versions in terms of their period of applicability, must be clearly identified in the modifications and, if appropriate, in the relevant parts of Annex F and its Appendices and other relevant parts of the Administrative Instructions which are being modified.

3. to the end of Annex F [No change]

4. En tenant compte des observations formulées et des recommandations du groupe consultatif, après les avoir révisées si nécessaire, le Bureau international publie les modifications, et la date à laquelle elles entrent en vigueur, sur le site Web, puis le notifie par courrier électronique aux personnes inscrites sur la liste de diffusion relative au dépôt électronique.

5. Les modifications sont promulguées et toute nouvelle exigence des offices est notifiée et publiée, comme indiqué aux paragraphes 8 et 9 de la section 2.5.4.

2.5.6 Gestion des différentes versions

Il convient de tenir compte, lors de l'adoption et de la mise en œuvre des modifications, de toute exigence relative au fonctionnement simultané, pendant une période déterminée, de différentes versions de certains éléments de la norme (en particulier les DTD et le protocole sur l'interopérabilité en matière de dépôt électronique). Dans ce cas, le numéro des versions en question et leur situation au regard de leur durée d'application doivent être clairement indiqués dans les modifications et, le cas échéant, dans les parties de l'annexe F et de ses appendices et dans d'autres parties pertinentes des instructions administratives en cours de modification.

5 Must be paid within the time limit applicable under PCT Article 22 or 39(1).

6 Must be paid within two months from the expiration of the time limit applicable under PCT Article 22 or 39(1) or within two months from the date on which the applicant files a special request for early entry into the national phase.

7 This fee is reduced by 90% where the applicant or, if there are two or more applicants, each applicant is a national and resident of any of the States party to the Eurasian Patent Convention, and by 80% where each applicant is a national and resident of any other State mentioned in the footnote relating to the basic and designation fees to Annex C(IB) in Volume I/B of the PCT Applicant's Guide. The reductions are not applicable to legal entities whose ownership capital contains direct or indirect investments from persons who are nationals or residents of States other than those mentioned above.

8 If not already complied with within the time limit applicable under PCT Article 22 or 39(1), the Office will invite the applicant to comply with the requirement within a time limit fixed in the invitation.

9 Such a translation may be required regardless of whether the validity of the priority claim is relevant to the determination of whether the invention concerned is patentable (see PCT Gazette No. 05/2001, page 2024).

OFFICES DÉSIGNÉS (OU ÉLUS)

EA Office eurasien des brevets (OEAB)

L'**Office eurasien des brevets** a notifié de nouveaux délais de paiement de deux taxes, payables à l'office en sa qualité d'office désigné ou élu, comme suit :

Taxe nationale :

5 Doit être payée dans le délai applicable en vertu de l'article 22 ou 39.1) du PCT.

6 Doit être payée dans un délai de deux mois à compter de l'expiration du délai applicable en vertu de l'article 22 ou 39.1) du PCT ou dans un délai de deux mois à compter de la date du dépôt par le déposant d'une requête spéciale pour l'ouverture anticipée de la phase nationale.

7 Cette taxe est réduite de 90 % lorsque le déposant ou, s'il y a plusieurs déposants, chacun d'eux est ressortissant de l'un des États – et domicilié dans l'un des États – parties à la Convention sur le brevet eurasien, et de 80 % lorsque chacun d'eux est ressortissant de tout autre État – et domicilié dans tout autre État mentionné dans la note de bas de page de l'annexe C(IB) du volume I/B du Guide du déposant, relative aux taxes de base et de désignation. La réduction n'est pas applicable aux entités juridiques dont le capital social est constitué d'investissements directs ou indirects émanant de personnes qui sont ressortissantes d'États – ou domiciliées dans des États – autres que ceux mentionnés plus haut.

8 Si le déposant n' a pas fait le nécessaire dans le délai applicable en vertu de l'article 22 ou 39.1) du PCT, l'office l'invitera à le faire dans un délai fixé dans l'invitation.

9 Une telle traduction peut être exigée, que la validité de la revendication de priorité soit pertinente ou non pour déterminer si l'invention en question est brevetable (voir la Gazette du PCT n° 05/2001, page 2025).

HU Hungary
EP European Patent Organisation (EPO)

Hungary deposited, on 28 October 2002, its instrument of accession to the European Patent Convention (EPC) and will therefore become bound by that Convention on **1 January 2003**. Thus, as from 1 January 2003, it will be possible for applicants to designate Hungary in their international applications also for the purposes of obtaining a European patent, and not only for the purposes of obtaining a national patent, as at present.

The **Hungarian Patent Office** has notified the international Bureau that the law of Hungary no longer contains provisions concerning international-type search. It has also notified provisions concerning provisional protection after international publication where the designation is made for the purposes of a European patent. Finally, it has notified changes relating to the time when the name and address of the inventor must be given if Hungary is designated (or elected), as follows:

Provisions of the law of Hungary concerning international-type search:	None
Provisional protection after international publication:	Where the designation is made for the purposes of a European patent: The provisional protection shall be effective in Hungary as from the day on which the Hungarian Patent Office publishes an announcement of the filing of the translation of the claims into Hungarian.
Time when the name and address of the inventor must be given if Hungary is designated (or elected):	May be in the request or may be furnished later but must be given within 31 months from the priority date. This requirement can also be fulfilled within three months from the last day of the said time limit subject to the payment of an additional fee provided for under the national law. If not complied with within the prescribed time limits, the international application shall have no effect in Hungary.

HU Hongrie
EP Organisation européenne des brevets (OEB)

La **Hongrie** a déposé, le 28 octobre 2002, son instrument d'adhésion à la Convention sur le brevet européen (CBE) et deviendra ainsi liée par cette convention le **1er janvier 2003**. En conséquence, à compter du 1er janvier 2003, les déposants pourront désigner la Hongrie dans leurs demandes internationales également aux fins de l'obtention d'un brevet européen et non seulement aux fins de l'obtention d'un brevet national, comme c'est le cas jusqu'ici.

L'**Office hongrois des brevets** a notifié au Bureau international que la législation de la Hongrie ne contient plus de dispositions relatives à la recherche de type international. Il a également notifié des dispositions relatives à la protection provisoire suite à la publication internationale lorsque la désignation est faite aux fins d'un brevet européen. Enfin il a notifié des changements concernant le délai dans lequel le nom et l'adresse de l'inventeur doivent être communiqués si la Hongrie est désignée (ou élue), comme suit :

Dispositions de la législation de la Hongrie relatives à la recherche de type international :	Néant
Protection provisoire à la suite de la publication internationale :	Lorsque la désignation est faite aux fins d'un brevet européen : La protection provisoire prendra effet en Hongrie à compter du jour où l'Office hongrois des brevets aura publié l'annonce du dépôt de la traduction des revendications en hongrois.
Délai dans lequel le nom et l'adresse de l'inventeur doivent être communiqués si la Hongrie est désignée (ou élue) :	Peuvent figurer dans la requête ou être communiqués ultérieurement mais doivent être remis dans un délai de 31 mois à compter de la date de priorité. Cette exigence peut être également remplie dans un délai de trois mois à compter du dernier jour dudit délai, sous réserve du paiement d'une taxe supplémentaire prévue par la législation nationale. Si le déposant n'a pas fait le nécessaire dans les délais prescrits, la demande internationale ne produira aucun effet en Hongrie.

INTERNATIONAL APPLICATIONS CONTAINING SEQUENCE LISTINGS AND/OR TABLES RELATED THERETO: NOTIFICATION BY RECEIVING OFFICES OF APPLICABLE TECHNICAL REQUIREMENTS

AT Austria

The **Austrian Patent Office**, in its capacity as receiving Office, has specified, pursuant to Section 801(b), and in accordance with Annex C and Annex C-*bis*, of the Administrative Instructions, the types of electronic carriers for the presentation of sequence listings and/or tables related thereto, as indicated below. As a consequence, the text of the current item "number of copies required" has been modified to read "number of copies on paper" since it nows refers only to the rest of the international application.

Number of copies on paper required by the receiving Office:	3
Does the receiving Office accept the filing in computer readable form of sequence listings and/or tables related thereto?[2]	Yes
Types of electronic carrier accepted by the receiving Office?	Diskette, CD-ROM, DVD

[Updating of PCT Gazette No. S-03/2002 (E), Annex C(AT), page 229]

AU Australia

The **Australian Patent Office**, in its capacity as receiving Office, has specified, pursuant to Section 801(b), and in accordance with Annex C and Annex C-*bis*, of the Administrative Instructions, the types and number of electronic carriers for the presentation of sequence listings and/or tables related thereto, as indicated below. As a consequence, the text of the current item "number of copies required" has been modified to read "number of copies on paper" since it nows refers only to the rest of the international application.

Number of copies on paper required by the receiving Office:	1	(see below, however, for the number of copies of the sequence listings and/or tables related thereto filed in electronic form)
Does the receiving Office accept the filing in computer readable form of sequence listings and/or tables related thereto?[2]	Yes	
Types of electronic carrier accepted by the receiving Office?	CD-ROM (Type: ISO/IEC 10149:1995, 120mm CD-ROM, Format: ISO 9660, 650MB) CD-R (Type: 120mm CD-Recordable Disk, Format: ISO 9660, 650MB)

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

NOTE PREPARED BY THE INTERNATIONAL BUREAU

Following the adoption by the Assembly of the International Patent Cooperation Union (PCT Union) Union, at its thirty-first (18th extraordinary) session, held in Geneva, from 23 September to 1 October 2002, of amendments to the Regulations under the PCT, which will enter into force on 1 January 2003 (see PCT Gazette, No. 49/2002 of 5 December 2002, page 24990 *et seq.*), a number of modifications have to be made to Sections 102, 103, 104, 305*bis*, 308, 311, 332, 405, 506 and to Annex D of the Administrative Instructions Under the PCT.

It is recalled that Rule 12.1(c), as amended, provides for receiving Offices to specify that or those languages of publication they will accept for the filing of requests. It is further recalled that new Rule 12.4 provides for the cases where a translation of the international application into a language of publication is required and that current Rule 48.3(b) is deleted.

As a consequence, Section 102(a)(ii) has to include a reference to a new form (PCT/RO/157) which receiving Offices will use when inviting applicants to furnish the translation of the international application required under new Rule 12.4.

Sections 103, 104, 308 and 311 have to include an express reference to new Rule 12.4.

Section 305*bis* has to provide for the preparation, identification and transmittal of the copies of the international applications in respect of which a translation is furnished under new Rule 12.4.

Section 332 has to provide for receiving Offices to notify the International Bureau of the language or languages they will accept under amended Rule 12.1(c) and new Rule 12.4. Section 405 has to provide for the International Bureau to publish such information in the Gazette.

As a consequence of the deletion of Rule 48.3(b), Section 506 has to be deleted and item 1.35 has to be deleted from Annex D.

Modifications of the Administrative Instructions

After consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), modifications of Sections 102, 103, 104, 305*bis*, 308, 311, 332, 405 and 506 and Annex D, as set out on pages 26708, 26710 and 26712, are promulgated, with effect from 1 January 2003.

The present text of the Administrative Instructions is set out in the following issues of the PCT Gazette:

— Special Issue No. S-03/2001, dated 30 August 2001, with subsequent modifications indicated below,

— new Part 7 and new Annex F, as set out in Special Issue No. S-04/2001 dated 27 December 2001,

— modified Section 404, as set out in No. 47/2001 dated 22 November 2001, page 21586,

— modified Sections 801 to 806 and new Annex C-*bis*, as set out in No. 36/2002 dated 6 September 2002, pages 17634, 17636, 17638, 17640, 17642 and 17644,

— modified Sections 102*bis* and 707, as set out in No. 42/2002 dated 17 October 2002, page 21002,

— modified Annex F, as set out in No. 50/2002 dated 12 December 2002, page 25614.

MODIFICATIONS DES INSTRUCTIONS ADMINISTRATIVES DU PCT

NOTE DU BUREAU INTERNATIONAL

Suite à l'adoption par l'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT), lors de sa trente et unième session (18e session extraordinaire), qui s'est tenue à Genève du 23 septembre au 1er octobre 2002, de modifications du règlement d'exécution du PCT, qui entreront en vigueur le 1er janvier 2003 (voir la Gazette du PCT, no 49/2002 du 5 décembre 2002, page 24991 et suiv.), un certain nombre de modifications doivent être apportées aux instructions 102, 103, 104, 305*bis*, 308, 311, 332, 405, 506 et à l'annexe D des Instructions administratives du PCT.

On se souviendra que la règle 12.1.c), telle que modifiée, prévoit que les offices récepteurs spécifient la ou les langues qu'ils accepteront aux fins du dépôt des requêtes. On se souviendra aussi que la nouvelle règle 12.4 prévoit les cas dans lesquels une traduction de la demande internationale dans une langue de publication sera requise et que la présente règle 48.3.b) est supprimée.

Par conséquent, l'instruction administrative 102.a)ii) doit inclure une référence à un nouveau formulaire que les offices récepteurs utiliseront pour inviter les déposants à remettre la traduction de la demande internationale requise en vertu de la nouvelle règle 12.4.

Les instructions administratives 103, 104, 308 et 311 doivent inclure une référence expresse à la nouvelle règle 12.4.

L'instruction administrative 305*bis* doit prévoir la préparation, l'identification et la transmission des exemplaires et copies des demandes internationales en ce qui concerne lesquelles une traduction est remise en vertu de la nouvelle règle 12.4.

L'instruction administrative 332 doit stipuler que les offices récepteurs notifient le Bureau international de la langue ou des langues qu'ils accepteront en vertu de la règle 12.1.c) modifiée et de la nouvelle règle 12.4. L'instruction administrative 405 doit stipuler que le Bureau international publiera ces informations dans la gazette.

Suite à la suppression de la règle 48.3.b), l'instruction administrative 506 doit être supprimée et le point 1.35 doit être supprimé de l'annexe D.

Modifications des instructions administratives

Après consultation des offices et des administrations intéressés conformément à la règle 89.2.a) du PCT, les modifications des instructions administratives 102, 103, 104, 305*bis*, 308, 311, 332, 405 et 506 et de l'annexe D, telles qu'elles figurent sur les pages 26709, 26711 et 26713 sont promulguées avec effet à compter du 1er janvier 2003.

Le texte actuel des instructions administratives figure dans les numéros suivants de la Gazette du PCT :

— numéro spécial S-03/2001, du 30 août 2001, les modifications ultérieures étant indiquées ci-dessous,

— nouvelle septième partie et nouvelle annexe F dans le numéro spécial S-04/2001, du 27 décembre 2001,

— instruction 404 modifiée dans le n° 47/2001, du 22 novembre 2001, page 21587,

— instructions 801 à 806 modifiées et nouvelle annexe C-*bis* dans le n° 36/2002, du 6 septembre 2002, pages 17635, 17637, 17639, 17641, 17643 et 17645,

— instructions 102*bis* and 707 modifiées dans le n° 42/2002 du 17 octobre 2002, page 21003,

— annexe F modifiée dans le n° 50/2002 du 12 décembre 2002, page 25615.

Notification des langues acceptées par l'office récepteur
en vertu des règles 12.1.a) et c) et 12.4.a)

a) Chaque office récepteur notifie au Bureau international la ou les langues que, eu égard à la règle 12.1.b), il est disposé à accepter en vertu de la règle 12.1.a) pour le dépôt des demandes internationales.

b) Chaque office récepteur notifie au Bureau international tout changement apporté aux informations ayant fait l'objet d'une notification selon les alinéas a), d) et e). Si le changement implique que

i) l'office récepteur n'est plus disposé à accepter le dépôt des demandes internationales dans une langue qu'il s'était déclaré disposé à accepter dans sa notification précédente adressée au Bureau international, ou

ii) l'office récepteur n'est plus disposé à accepter la traduction des demandes internationales dans une langue de publication qu'il s'était déclaré disposé à accepter dans sa notification précédente adressée au Bureau international, ou

iii) l'office récepteur n'est plus disposé à accepter le dépôt des requêtes dans une langue qu'il s'était déclaré disposé à accepter dans sa notification précédente adressée au Bureau international,

ce changement entre en vigueur deux mois après la date à laquelle la notification relative au changement est publiée dans la gazette conformément à l'instruction 405 ou à une date ultérieure qui peut être fixée par l'office récepteur.

FILING OF INTERNATIONAL APPLICATIONS CONTAINING LARGE NUCLEOTIDE AND/OR AMINO ACID SEQUENCE LISTINGS

Note prepared by the International Bureau

From 11 January 2001, it will be possible for applicants filing international applications with certain receiving Offices to file, *for the purposes of all steps of the international phase* and under new Section 801 of the Administrative Instructions, the nucleotide and/or amino acid sequence listing part of the description of such applications *either* only on an electronic medium in computer readable form *or* both on an electronic medium and on paper in written form (both forms being those referred to in Annex C of the Administrative Instructions). All other elements of the international application will have to continue to be filed on paper with the exception of the request form which may be filed in the form of a computer print-out prepared using the PCT-EASY software made available by the International Bureau and on a diskette also prepared using that software (see PCT Gazette No. 51/1998 dated 23 December 1998, page 17330).

The relevant provisions are contained in new Part 8 of the Administrative Instructions consisting of new Sections 801 to 806.

Applicants choosing one of the two above-mentioned options in respect of international applications containing large sequence listings will benefit from the fee incentive which is further commented on below.

For applicants who do not wish to file the sequence listing parts of their international applications under new Section 801, the current provisions will continue to apply, including the filing in written form only (under Rule 5.2) and the concurrent or subsequent furnishing, as provided under Rule 13*ter* and Section 208, of the sequence listing parts in computer readable form but only for the purposes of international search and/or international preliminary examination. In such cases the current system for calculating the basic fee, on the basis of the total number of sheets of the international application including the sequence listing part, will also continue to apply (see item 1(b) of the Schedule of Fees).

International applications filed under new Section 801 may only be filed with receiving Offices which are prepared to accept them and on such electronic media as specified by the receiving Offices. The International Bureau will publish such information in the PCT Gazette as soon as it is notified accordingly.

The sequence listing in computer readable form will be part of the record copy, that is, of the true copy of the international application, only when that sequence listing is filed only in computer readable form; where the sequence listing is filed also in written form, it will then be the sequence listing in written form that will be part of the record copy, not the sequence listing in computer readable form (see new Section 804(d) and (e)).

Details relating to the format and identification of the sequence listing part filed on an electronic medium, as well as those applying in the case of correction, rectification or amendment, are contained in new Section 802.

DÉPÔT DE DEMANDES INTERNATIONALES CONTENANT DE VOLUMINEUX LISTAGES DES SÉQUENCES DE NUCLÉOTIDES OU D'ACIDES AMINÉS

Note du Bureau international

À compter du 11 janvier 2001, les personnes qui déposeront des demandes internationales auprès de certains offices récepteurs pourront déposer, *pour toutes les étapes de la phase internationale* en vertu de la nouvelle instruction administrative 801, la partie de la description réservée au listage des séquences de nucléotides ou d'acides aminés de telles demandes *soit* seulement sur un support électronique sous forme déchiffrable par ordinateur, *soit* à la fois sur un support électronique et sur papier sous forme écrite (les deux formes étant celles visées à l'annexe C des instructions administratives). Tous les autres éléments de la demande internationale devront, comme maintenant, être déposés sur papier à l'exception du formulaire de requête qui peut être déposé sous la forme d'un imprimé d'ordinateur produit à l'aide du logiciel PCT-EASY disponible auprès du Bureau international et sur une disquette produite à l'aide de ce logiciel (voir la Gazette du PCT n° 51/1998 du 23 décembre 1998, page 17331).

Les dispositions pertinentes figurent dans la huitième partie (nouvelle) des instructions administratives comprenant les nouvelles instructions 801 à 806.

Les déposants choisissant l'une ou l'autre de ces deux options en ce qui concerne des demandes internationales contenant des listages des séquences volumineux bénéficieront d'un avantage sur le plan des taxes, qui fait l'objet ci-après de plus amples commentaires.

Pour les déposants qui ne désirent pas déposer la partie réservée au listage des séquences de leurs demandes internationales en vertu de la nouvelle instruction 801, les dispositions actuelles continueront à s'appliquer, y compris le dépôt sous forme écrite seulement (en vertu de la règle 5.2) et la remise simultanée ou ultérieure, comme prévu par la règle 13*ter* et par l'instruction 208, des parties réservées au listage des séquences sous forme déchiffrable par ordinateur mais seulement aux fins de la recherche internationale ou de l'examen préliminaire international. Dans de tels cas, le système actuel utilisé pour le calcul de la taxe de base, sur la base du nombre total de feuilles de la demande internationale comprenant la partie réservée au listage des séquences, continuera aussi à s'appliquer (voir le point 1.b) du barème de taxes).

Les demandes internationales déposées en vertu de la nouvelle instruction 801 ne peuvent l'être qu'auprès d'offices récepteurs prêts à accepter de telles demandes et sur des supports électroniques qu'ils ont spécifiés. Le Bureau international publiera les informations de ce type dans la Gazette du PCT, dès qu'elles lui auront été notifiées.

Le listage des séquences sous forme déchiffrable par ordinateur ne fera partie de l'exemplaire original, c'est-à-dire de l'exemplaire authentique de la demande internationale, que lorsqu'il aura été déposé seulement sous forme déchiffrable par ordinateur; lorsqu'il sera également déposé sous forme écrite, ce sera alors le listage des séquences sous forme écrite qui fera partie de l'exemplaire original, et non le listage sous forme déchiffrable par ordinateur (voir la nouvelle instruction 804.d) et e)).

Des précisions relatives au format et à l'identification de la partie réservée au listages des séquences déposée sur un support électronique ainsi que celles applicables en cas de correction, de rectification ou de modification figurent dans la nouvelle instruction 802.

Fee incentive where the sequence listing part is filed on an electronic medium under new Section 801

The basic fee payable in respect of international applications filed under new Section 801 will comprise two components (see new Section 803). A basic component calculated as provided in the Schedule of Fees in respect of all pages filed on paper, but excluding the sequence listing part if also filed on paper, and a new additional component for the sequence listing part only. The new additional component has been set at 400 times the fee per page as referred to in item 1(b) of the Schedule of Fees (that is, 6,000 Swiss francs or equivalent in the various currencies). This additional component will apply both where the sequence listing part of an international application is filed on an electronic medium only and where it is filed on an electronic medium and also on paper. Although the new provisions are not expressly restricted to international applications containing *large* sequence listings, in view of the additional component, it would be more expensive for applicants to file short or medium sized sequence listings under the new provisions rather than in written form only.

Furthermore, under new Section 805(a), an international application containing a sequence listing may be published, in whole or in part, in electronic form as determined by the Director General. The relevant technical details will be announced in due course. Communication of copies of international applications under certain provisions of the Treaty and Regulations will also be made under new Section 805(b), in whole or in part, in electronic form as determined by the Director General.

New Section 806 will allow a designated Office to require a copy on paper of a sequence listing part filed only on an electronic medium under new Section 801.

Modification of the Administrative Instructions; Partial Entry into Force of PCT Rule 89*bis*

Rule 89*bis*.1(a) of the Regulations under the PCT provides that "[i]nternational applications may, subject to paragraphs (b) to (e), be filed and processed in electronic form or by electronic means, in accordance with the Administrative Instructions, provided that any receiving Office shall permit the filing of international applications on paper". In adopting new Rule 89*bis*, the PCT Union Assembly decided that the Rule would enter into force together with modifications of the Administrative Instructions implementing it, the effective date to be included in the promulgation of those modifications by the Director General.

Rule 89*ter* entered into force on 1 January 1999, being the date of promulgation of Sections 102*bis* and 335 relating to requests prepared using the PCT-EASY software (see PCT Gazette No. 51/1998 dated 23 December 1998, page 17330).

After consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), a new Part 8 of the Administrative Instructions, comprising new Sections 801 to 806, as set out below, is promulgated, pursuant to Rules 89*bis* and 89*ter*, with effect from 11 January 2001. The present text of the Administrative Instructions is set out in PCT Gazette Special Issue No. S-03/1998 dated 25 June 1998, and the previous modifications (Sections 102*bis* and 335) in PCT Gazette No. 51/1998 dated 23 December 1998, page 17330.

Noting that the modifications of the Administrative Instructions set out below will enter into force on 11 January 2001, it follows that Rule 89*bis* will also enter into force on that date to the extent that the operation of that Rule is given effect in the modifications.

Avantage sur le plan des taxes lorsque la partie réservée au listage des séquences est déposée sur un support électronique en vertu de la nouvelle instruction 801

La taxe de base payable en ce qui concerne des demandes internationales déposées selon la nouvelle instruction 801 comprendra deux composantes (voir la nouvelle instruction 803). Une composante de base, calculée comme prévu dans le barème de taxes pour toutes les pages déposées sur papier mais excluant la partie réservée au listage des séquences si celle-ci est aussi déposée sur papier, et une nouvelle composante supplémentaire pour la partie réservée au listage des séquences seulement. La nouvelle composante supplémentaire a été fixée à 400 fois la taxe par feuille visée au point 1.b) du barème de taxes (c'est-à-dire 6 000 francs suisses ou l'équivalent dans les différentes monnaies). Cette composante supplémentaire s'appliquera à la fois lorsque la partie réservée au listage des séquences de la demande internationale sera déposée sur un support électronique seulement et lorsqu'elle sera déposée sur un support électronique et aussi sur papier. Bien que les nouvelles dispositions ne se limitent pas expressément aux demandes internationales contenant de *volumineux* listages des séquences, si l'on tient compte de la composante supplémentaire, il en coûterait plus cher aux déposants de déposer des listages des séquences de petite ou de moyenne taille en vertu des nouvelles dispositions que sous forme écrite seulement.

Par ailleurs, une demande internationale comprenant un listage des séquences peut être publiée, entièrement ou partiellement, sous forme électronique selon les modalités déterminées par le directeur général. Les détails techniques pertinents seront annoncés en temps utile. La communication de copies de demandes internationales en vertu de certaines dispositions du traité et du règlement d'exécution, sera également effectuée en vertu de la nouvelle disposition 805.b), entièrement ou partiellement, sous forme électronique selon les modalités déterminées par le directeur général.

La nouvelle instruction 806 permettra à un office désigné d'exiger une copie sur papier d'un listage des séquences déposé seulement sur un support électronique en vertu de la nouvelle instruction 801.

Modification des instructions administratives; entrée en vigueur partielle de la règle 89*bis* du PCT

La règle 89*bis*.1.a) du règlement d'exécution du PCT prévoit que "[l]es demandes internationales peuvent, sous réserve des alinéas b) à e), être déposées et traitées sous forme électronique ou par des moyens électroniques, conformément aux instructions administratives; toutefois, l'office récepteur est tenu de permettre le dépôt des demandes internationales sur papier". Lorsque l'Assemblée de l'Union du PCT a adopté la nouvelle règle 89*bis*, elle a décidé que la règle entrerait en vigueur en même temps que les modifications des instructions administratives mettant en œuvre cette règle, la date exacte devant être précisée par le directeur général lorsqu'il promulguerait ces modifications.

La règle 89*ter* est entrée en vigueur le 1er janvier 1999, date de promulgation des instructions 102*bis* et 335 relatives aux requêtes préparées à l'aide du logiciel PCT-EASY (voir la Gazette du PCT no 51/1998 du 23 décembre 1998, page 17331).

Après consultation des offices et des administrations intéressés, conformément à la règle 89.2.a) du PCT, une huitième partie (nouvelle) des instructions administratives, comprenant les nouvelles instructions 801 à 806, telles qu'elles figurent ci-après, est promulguée, conformément aux règles 89*bis* et 89*ter*, avec effet au 11 janvier 2001. Le texte actuel des instructions administratives figure dans le numéro spécial de la Gazette du PCT no S-03/1998 du 25 juin 1998, et les modifications précédentes (instructions 102*bis* et 335) dans la Gazette du PCT no 51/1998 du 23 décembre 1998, page 17331.

Les modifications des instructions administratives, qui figurent ci-après, entrant en vigueur le 11 janvier 2001, il s'ensuit que la règle 89*bis* entrera également en vigueur à cette date, dans la mesure où ces modifications la mettent en œuvre.

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS

PART 8 [*NEW*]
INSTRUCTIONS RELATING TO
INTERNATIONAL APPLICATIONS CONTAINING
LARGE NUCLEOTIDE AND/OR AMINO ACID SEQUENCE LISTINGS

Section 801 [*New*]
Filing of International Applications Containing Sequence Listings

(a) Pursuant to Rules 89*bis* and 89*ter*, where an international application contains disclosure of one or more nucleotide and/or amino acid sequence listings ("sequence listings"), the receiving Office may, if it is prepared to do so, accept that the sequence listing part of the description, as referred to in Rule 5.2(a), be filed, at the option of the applicant:

(i) only on an electronic medium in the computer readable form referred to in Annex C; or

(ii) both on an electronic medium in that computer readable form and on paper in the written form referred to in Annex C;

provided that the other elements of the international application are filed as otherwise provided for under the Regulations and these Instructions.

(b) Any receiving Office which is prepared to accept the filing in computer readable form of the sequence listing part of international applications under paragraph (a) shall notify the International Bureau accordingly. The notification shall specify the electronic media on which the receiving Office will accept such filings. The International Bureau shall promptly publish any such information in the Gazette.

(c) A receiving Office which has not made a notification under paragraph (b) may nevertheless decide in a particular case to accept an international application the sequence listing part of which is filed with it under paragraph (a).

(d) Where the sequence listing part is filed in computer readable form under paragraph (a) but not on an electronic medium specified by the receiving Office under paragraph (b), that Office shall, under Article 14(1)(a)(v), invite the applicant to furnish to it a replacement sequence listing part on an electronic medium specified under paragraph (b).

(e) Where an international application containing a sequence listing part in computer readable form is filed under paragraph (a) with a receiving Office which is not prepared, under paragraph (b) or (c), to accept such filings, Section 333(b) and (c) shall apply.

Section 802 [*New*]
Format and Identification Requirements Relating to International Applications Containing Sequence Listings

(a) Paragraphs 40 to 45 of Annex C shall apply *mutatis mutandis* to the sequence listing part of an international application filed in computer readable form. In addition, the label provided for in paragraph 44 of Annex C shall also include, as the case may be, the following indications:

(i) that the sequence listing part is filed under Section 801(a);

(ii) where the sequence listing part in computer readable form is contained on more than one electronic carrier, the numbering of each such carrier (for example, "DISK 1/3," "DISK 2/3," "DISK 3/3");

(iii) where more than one copy of the sequence listing part in computer readable form has been filed, the numbering of each copy (for example, "COPY 1," "COPY 2," "COPY 3").

MODIFICATIONS DES INSTRUCTIONS ADMINISTRATIVES

HUITIÈME PARTIE [*NOUVELLE*]
INSTRUCTIONS RELATIVES AUX DEMANDES INTERNATIONALES CONTENANT DE VOLUMINEUX LISTAGES DES SÉQUENCES DE NUCLÉOTIDES OU D'ACIDES AMINÉS

Instruction 801 [*nouvelle*]
Dépôt de demandes internationales contenant des listages des séquences

a) Conformément aux règles 89*bis* et 89*ter*, lorsqu'une demande internationale contient la divulgation d'un ou plusieurs listages des séquences de nucléotides ou d'acides aminés ("listages des séquences"), l'office récepteur peut, s'il est disposé à le faire, accepter que la partie de la description réservée au listage des séquences visée à la règle 5.2.a) soit déposée, au choix du déposant,

i) seulement sur un support électronique sous la forme déchiffrable par ordinateur visée à l'annexe C, ou

ii) à la fois sur un support électronique sous ladite forme déchiffrable par ordinateur et sur papier sous la forme écrite visée à l'annexe C,

à condition que les autres éléments de la demande internationale soient déposés comme prévu normalement dans le règlement d'exécution et les présentes instructions.

b) Tout office récepteur qui est disposé à accepter le dépôt sous forme déchiffrable par ordinateur, en vertu de l'alinéa a), de la partie réservée au listage des séquences de demandes internationales doit notifier ce fait au Bureau international. La notification doit spécifier les supports électroniques sur lesquels l'office récepteur accepte de tels dépôts. Le Bureau international publie à bref délai les informations de ce type dans la gazette.

c) Un office récepteur qui n'a pas fait de notification selon l'alinéa b) peut néanmoins décider dans un cas précis d'accepter une demande internationale dont la partie réservée au listage des séquences est déposée auprès de lui selon l'alinéa a).

d) Lorsque la partie réservée au listage des séquences est déposée sous forme déchiffrable par ordinateur en vertu de l'alinéa a) mais pas sur un support électronique spécifié par l'office récepteur selon l'alinéa b), l'office invite le déposant, en vertu de l'article 14.1)a)v), à lui remettre sur un support électronique spécifié selon l'alinéa b) un listage de remplacement pour la partie réservée au listage des séquences.

e) Lorsqu'une demande internationale contenant une partie réservée au listage des séquences sous forme déchiffrable par ordinateur est déposée en vertu de l'alinéa a) auprès d'un office récepteur qui n'est pas disposé, selon l'alinéa b) ou c), à accepter de tels dépôts, l'instruction 333.b) et c) s'applique.

Instruction 802 [*nouvelle*]
Exigences relatives au format et à l'identification des demandes internationales contenant des listages des séquences

a) Les paragraphes 40 à 45 de l'annexe C s'appliquent *mutatis mutandis* à la partie réservée au listage des séquences d'une demande internationale déposée sous forme déchiffrable par ordinateur. De plus, l'étiquette visée au paragraphe 44 de l'annexe C doit aussi comporter, selon le cas, les indications relatives aux points suivants :

i) le fait que la partie réservée au listage des séquences est déposée en vertu de l'instruction 801.a);

ii) lorsque la partie réservée au listage des séquences sous forme déchiffrable par ordinateur figure sur plus d'un support électronique, la numérotation de chacun des supports (par exemple, "DISQUE 1/3", "DISQUE 2/3", "DISQUE 3/3");

iii) lorsque plus d'un exemplaire de la partie réservée au listage des séquences sous forme déchiffrable par ordinateur est déposé, la numérotation de chaque exemplaire (par exemple, "EXEMPLAIRE 1/3", "EXEMPLAIRE 2/3", "EXEMPLAIRE 3/3").

(b) Where any correction under Rule 26.3, any rectification of an obvious error under Rule 91, or any amendment under Article 34 is submitted in respect of the sequence listing part of an international application filed, under Section 801(a)(i) or (ii), in computer readable form, a replacement sequence listing part in computer readable form containing the entire sequence listing part with the relevant correction, rectification or amendment shall be furnished and the label referred to in paragraph (a) shall be marked accordingly (for example, "SUBMITTED FOR CORRECTION," "SUBMITTED FOR RECTIFICATION," "SUBMITTED FOR AMENDMENT"). Where the sequence listing part was filed both in computer readable form and in written form under Section 801(a)(ii), replacement sheets containing the correction, rectification or amendment in question shall also be submitted in written form.

Section 803 [*New*]
Calculation of Basic Fee for International Applications Containing Sequence Listings

Where the sequence listing part of an international application is filed in electronic form under Section 801(a), the basic fee payable in respect of that application shall comprise the following two components:

(i) a basic component calculated as provided in the Schedule of Fees in respect of all pages filed on paper (that is, all pages of the request, description (excluding the sequence listing part if also filed on paper), claims, abstract and drawings), and

(ii) an additional component, in respect of the sequence listing part, equal to 400 times the fee per sheet as referred to in item 1(b) of the Schedule of Fees, regardless of the actual length of the sequence listing part filed in computer readable form and regardless of the fact that the sequence listing part may have been filed both in written form and in computer readable form.

Section 804 [*New*]
Preparation, Identification and Transmittal of Copies of International Applications Containing Sequence Listings

(a) Where the sequence listing part of an international application is filed only in computer readable form under Section 801(a)(i), the record copy for the purposes of Article 12 shall consist of those elements of the international application filed on paper together with the sequence listing part filed in computer readable form.

(b) Where the sequence listing part of an international application is filed both in computer readable form and in written form under Section 801(a)(ii), the record copy for the purposes of Article 12 shall consist of all the elements of the international application filed on paper, including the sequence listing part in written form.

(c) Where the sequence listing part of an international application is filed in computer readable form under Section 801(a)(i) or (ii) in less than the number of copies required for the purposes of this Section, the receiving Office shall either:

(i) promptly prepare any additional copies required, in which case it shall have the right to fix a fee for performing that task and to collect such fee from the applicant; or

(ii) invite the applicant to promptly furnish the additional number of copies required, accompanied by a statement that the sequence listing part in computer readable form contained in those copies is identical to the sequence listing part in computer readable form as filed;

provided that, where that sequence listing part was also filed in written form under Section 801(a)(ii), the receiving Office shall not, notwithstanding Rule 11.1(b), require the applicant to file additional copies of the sequence listing part in written form.

b) Pour toute correction en vertu de la règle 26.3, toute rectification d'une erreur évidente en vertu de la règle 91 ou toute modification en vertu de l'article 34 concernant la partie réservée au listage des séquences d'une demande internationale, déposée en vertu de l'instruction 801.a)i) ou ii) sous forme déchiffrable par ordinateur, le déposant doit remettre un listage de remplacement pour la partie réservée au listage des séquences contenant ladite partie dans sa totalité avec la correction, la rectification ou la modification pertinente; l'étiquette visée à l'alinéa a) doit porter les indications correspondantes (par exemple, "REMIS AUX FINS DE CORRECTION", "REMIS AUX FINS DE RECTIFICATION", "REMIS AUX FINS DE MODIFICATION"). Lorsque la partie réservée au listage des séquences a été déposée à la fois sous forme déchiffrable par ordinateur et sous forme écrite en vertu de l'instruction 801.a)ii), des feuilles de remplacement contenant la correction, la rectification ou la modification en question doivent aussi être remises sous forme écrite.

Instruction 803 [*nouvelle*]
Calcul de la taxe de base pour les demandes internationales contenant des listages des séquences

Lorsque la partie réservée au listage des séquences d'une demande internationale est déposée sous forme électronique en vertu de l'instruction 801.a), la taxe de base à acquitter en ce qui concerne cette demande comprend les deux composantes suivantes :

i) une composante de base calculée comme prévu dans le barème de taxes en ce qui concerne toutes les pages déposées sur papier (c'est-à-dire toutes les pages de la requête, de la description (autre que la partie réservée au listage des séquences si celle-ci est également déposée sur papier), des revendications, de l'abrégé et des dessins), et

ii) une composante supplémentaire correspondant à la partie réservée au listage des séquences, égale à 400 fois la taxe par feuille visée au point 1.b) du barème de taxes, quelle que soit la longueur proprement dite de la partie réservée au listage des séquences déposée sous forme déchiffrable par ordinateur et sans tenir compte du fait que la partie réservée au listage des séquences ait pu être déposée à la fois sous forme écrite et sous forme déchiffrable par ordinateur.

Instruction 804 [*nouvelle*]
Préparation, identification et transmission des copies de demandes internationales contenant des listages des séquences

a) Lorsque la partie réservée au listage des séquences d'une demande internationale est déposée seulement sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i), l'exemplaire original aux fins de l'article 12 est constitué des éléments de la demande internationale déposés sur papier ainsi que de la partie réservée au listage des séquences déposée sous forme déchiffrable par ordinateur.

b) Lorsque la partie réservée au listage des séquences d'une demande internationale est déposée à la fois sous forme déchiffrable par ordinateur et sous forme écrite en vertu de l'instruction 801.a)ii), l'exemplaire original aux fins de l'article 12 est constitué de tous les éléments de la demande internationale déposés sur papier, y compris la partie réservée au listage des séquences sous forme écrite.

c) Lorsque la partie réservée au listage des séquences d'une demande internationale est déposée sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i) ou ii) dans un nombre d'exemplaires inférieur à celui requis aux fins de la présente instruction,

i) soit l'office récepteur prépare à bref délai toute copie supplémentaire qui est requise, auquel cas il a le droit de fixer une taxe pour l'exécution de cette tâche et de percevoir cette taxe du déposant,

ii) soit il invite le déposant à remettre à bref délai le nombre supplémentaire de copies requis, accompagnées d'une déclaration aux termes de laquelle la partie réservée au listage des séquences sous forme déchiffrable par ordinateur contenue dans ces copies est identique à celle qui a été déposée sous forme déchiffrable par ordinateur;

étant entendu que, lorsque la partie réservée au listage des séquences avait aussi été déposée sous forme écrite en vertu de l'instruction 801.a)ii), l'office récepteur ne peut exiger du déposant, nonobstant la règle 11.1.b), qu'il dépose des exemplaires additionnels de ladite partie sous forme écrite.

(d) Where the sequence listing part of an international application is filed under Section 801(a)(i), the receiving Office shall, in addition to proceeding under Section 305 with respect to the parts of the international application filed on paper:

(i) mark the words "RECORD COPY—SEQUENCE LISTING PART" on the original electronic medium containing the sequence listing part in computer readable form and transmit that part of the record copy to the International Bureau together with the paper part of the record copy;

(ii) mark the words "SEARCH COPY—SEQUENCE LISTING PART" on one additional copy of the electronic medium containing the sequence listing part in computer readable form and transmit that part of the search copy to the International Searching Authority, for the purposes of Rule 13*ter*.1, together with the paper part of the search copy;

(iii) mark the words "HOME COPY—SEQUENCE LISTING PART" on the other such copy of the electronic medium containing the sequence listing part in computer readable form and keep that part of the home copy in its files together with the paper part of the home copy.

(e) Where the sequence listing part of an international application is filed under Section 801(a)(ii), the receiving Office shall, in addition to proceeding under Section 305 with respect to the parts of the international application filed on paper:

(i) mark the words "RECORD COPY—SEQUENCE LISTING PART" in the upper left-hand corner of the first page of the sequence listing part in written form and transmit that part of the record copy to the International Bureau together with the paper part of the record copy; it shall also mark the words "COPY FOR INTERNATIONAL BUREAU—SEQUENCE LISTING PART" on one copy of the electronic medium containing the sequence listing part in computer readable form and transmit that copy with the record copy;

(ii) mark the words "SEARCH COPY—SEQUENCE LISTING PART" on one additional copy of the electronic medium containing the sequence listing part in computer readable form and transmit that part of the search copy to the International Searching Authority, for the purposes of Rule 13*ter*.1, together with the paper part of the search copy;

(iii) mark the words "HOME COPY—SEQUENCE LISTING PART" on the other such copy of the electronic medium containing the sequence listing part in computer readable form and keep that part of the home copy in its files together with the paper part of the home copy.

(f) The receiving Office may, when marking the copies referred to in paragraphs (d) and (e), use, instead of the words referred to in those paragraphs, the equivalent of those words in the language of publication of the international application.

Section 805 [*New*]
Publication and Communication of International Applications Containing Sequence Listings; Copies; Priority Documents

(a) Notwithstanding Section 406, an international application containing a sequence listing part may be published under Article 21, in whole or in part, in electronic form as determined by the Director General.

d) Lorsque la partie réservée au listage des séquences d'une demande internationale est déposée en vertu de l'instruction 801.a)i), et tout en procédant comme prévu à l'instruction 305 pour ce qui concerne tous les éléments de la demande internationale déposés sur papier, l'office récepteur

i) appose la mention "EXEMPLAIRE ORIGINAL – PARTIE RÉSERVÉE AU LISTAGE DES SÉQUENCES" sur le support électronique original contenant la partie réservée au listage des séquences sous forme déchiffrable par ordinateur et transmet cette partie de l'exemplaire original au Bureau international avec la partie sur papier de l'exemplaire original;

ii) appose la mention "COPIE DE RECHERCHE – PARTIE RÉSERVÉE AU LISTAGE DES SÉQUENCES" sur un exemplaire supplémentaire du support électronique contenant la partie réservée au listage des séquences sous forme déchiffrable par ordinateur et transmet cette partie de la copie de recherche à l'administration chargée de la recherche internationale, aux fins de la règle 13*ter*.1, avec la partie sur papier de la copie de recherche;

iii) appose la mention "COPIE POUR L'OFFICE RÉCEPTEUR – PARTIE RÉSERVÉE AU LISTAGE DES SÉQUENCES" sur l'exemplaire restant du support électronique contenant la partie réservée au listage des séquences sous forme déchiffrable par ordinateur et conserve cette partie de la copie pour l'office récepteur dans ses dossiers avec la partie sur papier de la copie pour l'office récepteur.

e) Lorsque la partie réservée au listage des séquences d'une demande internationale est déposée en vertu de l'instruction 801.a)ii), et tout en procédant comme prévu à l'instruction 305 pour ce qui concerne tous les éléments de la demande internationale déposés sur papier, l'office récepteur

i) appose la mention "EXEMPLAIRE ORIGINAL – PARTIE RÉSERVÉE AU LISTAGE DES SÉQUENCES" dans le coin supérieur gauche de la première page de la partie réservée au listage des séquences sous forme écrite et transmet cette partie de l'exemplaire original au Bureau international avec la partie sur papier de l'exemplaire original; de plus, il appose la mention "COPIE POUR LE BUREAU INTERNATIONAL – PARTIE RÉSERVÉE AU LISTAGE DES SÉQUENCES" sur un exemplaire du support électronique contenant la partie réservée au listage des séquences sous forme déchiffrable par ordinateur et transmet ladite copie avec l'exemplaire original;

ii) appose la mention "COPIE DE RECHERCHE – PARTIE RÉSERVÉE AU LISTAGE DES SÉQUENCES" sur un exemplaire supplémentaire du support électronique contenant la partie réservée au listage des séquences sous forme déchiffrable par ordinateur et transmet cette partie de la copie de recherche à l'administration chargée de la recherche internationale, aux fins de la règle 13*ter*.1, avec la partie sur papier de la copie de recherche;

iii) appose la mention "COPIE POUR L'OFFICE RÉCEPTEUR – PARTIE RÉSERVÉE AU LISTAGE DES SÉQUENCES" sur l'exemplaire restant du support électronique contenant la partie réservée au listage des séquences sous forme déchiffrable par ordinateur et conserve cette partie de la copie pour l'office récepteur dans ses dossiers avec la partie sur papier de la copie pour l'office récepteur.

f) Lorsqu'il appose une mention sur les exemplaires visés en vertu des alinéas d) et e), l'office récepteur peut utiliser, au lieu des mots mentionnés dans ces alinéas, leur équivalent dans la langue de publication de la demande internationale.

Instruction 805 [*nouvelle*]
Publication et communication des demandes internationales contenant des listages des séquences; copies; documents de priorité

a) Nonobstant l'instruction 406, une demande internationale contenant une partie réservée au listage des séquences peut être publiée en vertu de l'article 21 entièrement ou partiellement sous forme électronique selon les modalités déterminées par le directeur général.

(b) Paragraph (a) shall apply *mutatis mutandis* in relation to:

(i) the communication of an international application under Article 20;

(ii) the furnishing of copies of an international application under Rules 87 and 94.1;

(iii) the furnishing under Rule 17.1, as a priority document, of a copy of an international application containing a sequence listing part filed under Section 801(a);

(iv) the furnishing under Rules 17.2 and 66.7 of copies of a priority document.

Section 806 [*New*]
Sequence Listings for Designated Office

Where the sequence listing part of an international application was filed only in computer readable form under Section 801(a)(i), any designated Office which does not accept the filing of sequence listings in computer readable form may require that the applicant furnish to it, for the purposes of the national phase, a copy of such sequence listing part on paper in written form complying with Annex C and accompanied by a statement that the sequence listing part in written form is identical to the sequence listing part in computer readable form.

INTERNATIONAL APPLICATIONS CONTAINING SEQUENCE LISTING PART FILED ON AN ELECTRONIC MEDIUM: RECEIVING OFFICES PREPARED TO ACCEPT SUCH FILINGS AND SPECIFICATION OF ELECTRONIC MEDIA

The International Bureau as receiving Office is prepared, as from 11 January 2001, to accept the filing of international applications containing a sequence listing part filed on an electronic medium under Section 801(a)(i) or (ii) of the Administrative Instructions and specifies, under Section 801(b), the following electronic media (see page 818, above):

IB	International Bureau of the World Intellectual Property Organization	Any electronic medium referred to in Annex C of the Administrative Instructions

b) L'alinéa a) s'applique *mutatis mutandis* aux fins

i) de la communication d'une demande internationale en vertu de l'article 20;

ii) de la remise de copies d'une demande internationale en vertu des règles 87 et 94.1;

iii) de la remise en vertu de la règle 17.1, en tant que document de priorité, d'une copie d'une demande internationale contenant une partie réservée au listage des séquences déposée en vertu de l'instruction 801.a);

iv) de la remise en vertu des règles 17.2 et 66.7 de copies d'un document de priorité.

Instruction 806 [*nouvelle*]
Listages des séquences pour l'office désigné

Lorsque la partie réservée au listage des séquences d'une demande internationale a été déposée seulement sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i), tout office désigné qui n'accepte pas le dépôt des listages des séquences sous forme déchiffrable par ordinateur peut exiger que le déposant lui fournisse, aux fins de la phase nationale, une copie sous forme écrite conforme à l'annexe C de ladite partie réservée au listage des séquences et accompagnée d'une déclaration selon laquelle la partie réservée au listage des séquences sous forme écrite est identique à la partie réservée au listage des séquences sous forme déchiffrable par ordinateur.

DEMANDES INTERNATIONALES CONTENANT UNE PARTIE RÉSERVÉE AU LISTAGE DES SÉQUENCES DÉPOSÉE SUR UN SUPPORT ÉLECTRONIQUE : OFFICES RÉCEPTEURS DISPOSÉS À ACCEPTER DE TELS DÉPÔTS ET SPÉCIFICATION DES SUPPORTS ÉLECTRONIQUES

Le Bureau international agissant en tant qu'office récepteur est disposé à accepter, à compter du 11 janvier 2001, le dépôt des demandes internationales dont la partie réservée au listage des séquences est déposée sur un support électronique en vertu de l'instruction administrative 801.a)i) ou ii); en vertu de l'instruction 801.b), il spécifie les supports électroniques suivants (voir la page 819) :

IB	Bureau international de l'Organisation Mondiale de la Propriété Intellectuelle	Tout support électronique visé à l'annexe C des instructions administratives

INCLUSION OF CERTAIN DECLARATIONS IN THE REQUEST, WITH A VIEW TO SIMPLIFYING NATIONAL PHASE PROCESSING OF PCT APPLICATIONS

Note Prepared by the International Bureau

On 17 March 2000, the Assembly of the International Patent Cooperation Union (PCT Union) adopted a number of amendments of the PCT Regulations, aimed at simplifying the national phase processing of PCT applications and aligning the PCT with the text of the Patent Law Treaty. Those amendments will make it possible, from 1 March 2001, for applicants to include in the request part of their international applications certain declarations, using standardized wording, for the purposes of processing by designated Offices in the national phase. For more information, see the Note published in PCT Gazette No. 42/2000, on 19 October 2000, page 15522.

The declarations concerned, which are provided for in new Rule 4.17, are the following: (i) declaration as to the identity of the inventor; (ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent; (iii) declaration as to the applicant's entitlement, as at the international filing date, to claim priority of the earlier application; (iv) declaration of inventorship (only for purposes of the designation of the United States of America); and (v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty. Corresponding provisions concerning processing in the national phase are found in amended Rule 51*bis*.1 and new Rule 51*bis*.2.

Noting that Rule 4.17 provides that the declarations shall be worded as prescribed by the Administrative Instructions under the PCT, the necessary modifications to these Instructions are being promulgated with effect from 1 March 2001 (see below for further details; see also WIPO document PCT/AI/1 Add.1*ter* which may be viewed on the WIPO Internet site at the following address: http://www.wipo.int/pct/en/index.html). The relevant standardized wording for each of the five declarations mentioned above is contained, respectively, in new Sections 211 to 215 of the Administrative Instructions.

New Rule 26*ter*.1 states that applicants may make corrections or additions of declarations; new Section 216 provides that such corrections or additions may only be made by submitting replacement sheets (that is, not by submitting, in a letter, text or corrections that would have to be carried over by the International Bureau onto the corresponding sheet of the request).

Sections have been added and/or modified so as to deal with certain aspects of the processing of declarations by the receiving Office (new Sections 303(b) and 327(d) and amended Section 327(a)) and the International Bureau (new Section 419(c)). Under these provisions, receiving Offices and the International Bureau are not permitted (nor obliged) to make *ex officio* corrections and deletions to the declarations.

New or amended Sections 216, 303, 327 and 419 reflect the fact that only designated Offices (and not the receiving Office nor the International Bureau) would be in a position to determine, under the applicable national law, the validity of any of the declarations made by the applicant.

New Rule 26*ter*.1 provides that corrected and added declarations must be submitted to the International Bureau. New Section 317 expressly states that, should any such corrections and additions be received by the receiving Office, that Office must transmit them to the International Bureau which shall treat them as received by it on the date marked by the receiving Office. (This provision is similar in its effect to present Rule 56.1(f) applying in the case of later elections.)

New Section 419(a) provides for the processing by the International Bureau of declarations and corrections thereof received by it before the expiration of the time limit under new Rule 26*ter*.1 and new Section 419(d) provides for the processing of such declarations and corrections received after the expiration of that time limit (see new Rule 26*ter*.2(b)).

INCLUSION DE CERTAINES DÉCLARATIONS DANS LA REQUÊTE AFIN DE SIMPLIFIER LE TRAITEMENT DES DEMANDES PCT DURANT LA PHASE NATIONALE

Note du Bureau international

Le 17 mars 2000, l'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT) a adopté un certain nombre de modifications du règlement d'exécution du PCT, visant à simplifier le traitement des demandes internationales selon le PCT durant la phase nationale et à aligner le PCT sur le texte du Traité sur le droit des brevets (PLT). Ces modifications permettront aux déposants, à compter du 1er mars 2001, d'inclure dans la partie "requête" de leurs demandes internationales certaines déclarations, en utilisant un libellé standard, aux fins du traitement durant la phase nationale par les offices désignés. Pour plus de renseignements, voir la note publiée dans la Gazette du PCT no 42/2000, le 19 octobre 2000, page 15523.

Les déclarations en question, prévues à la nouvelle règle 4.17, sont les suivantes : i) déclaration relative à l'identité de l'inventeur; ii) déclaration selon laquelle le déposant a, à la date du dépôt international, le droit de demander et d'obtenir un brevet; iii) déclaration selon laquelle le déposant a, à la date du dépôt international, le droit de revendiquer la priorité de la demande antérieure; iv) déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique); et v) déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté. On trouve les dispositions correspondantes concernant le traitement durant la phase nationale dans la règle 51*bis*.1 modifiée et dans la nouvelle règle 51*bis*.2.

La règle 4.17 prévoyant que les déclarations doivent être libellées conformément aux prescriptions des instructions administratives du PCT, les modifications nécessaires desdites instructions sont promulguées à compter du 1er mars 2001 (voir ci-dessous pour de plus amples détails; voir aussi le document PCT/AI/1 Add.1*ter* de l'OMPI qui peut être consulté sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/pct/fr/index.html). Le libellé standard pertinent pour chacune des cinq déclarations mentionnées ci-dessus figure, respectivement, dans les nouvelles instructions administratives 211 à 215.

La nouvelle règle 26*ter*.1 stipule que les déposants peuvent faire des corrections ou des adjonctions aux déclarations; la nouvelle instruction 216 prévoit que ces corrections ou adjonctions ne peuvent être effectuées qu'au moyen de feuilles de remplacement (c'est-à-dire pas en présentant une lettre contenant du texte ou des corrections que le Bureau international devrait reporter dans les feuilles correspondantes de la requête).

Des instructions ont été ajoutées ou modifiées afin de régler certains aspects du traitement des déclarations par l'office récepteur (nouvelles instructions 303.b) et 327.d) et instruction 327.a) modifiée) et par le Bureau international (nouvelle instruction 419.c)). Selon ces dispositions, les offices récepteurs et le Bureau international ne peuvent (et ne doivent) ni corriger ni biffer d'office les déclarations.

Les instructions nouvelles ou modifiées 216, 303, 327 et 419 tiennent compte du fait que seuls les offices désignés (en d'autres termes, ni les offices récepteurs, ni le Bureau international) seraient en mesure d'établir, selon la législation nationale applicable, la validité de l'une quelconque des déclarations faites par le déposant.

La nouvelle règle 26*ter*.1 prévoit que des déclarations corrigées ou ajoutées doivent être présentées au Bureau international. La nouvelle instruction 317 stipule expressément que, si de telles corrections et adjonctions sont reçues par l'office récepteur, ce dernier doit les transmettre au Bureau international qui les traitera comme s'il les avait reçues à la date indiquée par l'office récepteur. (L'effet de cette disposition est similaire à celui de la règle 56.1.f) actuelle applicable au cas des élections ultérieures.)

La nouvelle instruction 419.a) prévoit le traitement par le Bureau international de déclarations et de corrections apportées à des déclarations qu'il a reçues avant l'expiration du délai prévu par la nouvelle règle 26*ter*.1 et la nouvelle instruction 419.d) prévoit le traitement de telles déclarations et corrections reçues après l'expiration de ce délai (voir la nouvelle règle 26*ter*.2.b)).

INCLUSION OF CERTAIN DECLARATIONS IN THE REQUEST, WITH A VIEW TO SIMPLIFYING NATIONAL PHASE PROCESSING OF PCT APPLICATIONS (Cont'd)

New Section 419(b) requires the International Bureau to notify the receiving Office and the International Searching Authority about the fact and the date of receipt of a declaration or correction thereof (which will, in practice, be done by sending a copy of the notification sent to the applicant) but copies of the declaration or correction itself would not be sent. Thus, the receiving Office and the International Searching Authority will not have to handle replacement sheets of the request in all cases concerned. However, the receiving Office would have the possibility, on a case-by-case basis, of requesting the International Bureau to send to it copies of those sheets, for example, if the applicant requested a certified copy of the international application under Rule 20.9 (containing the international application as filed and any corrections thereto). Similarly, the International Searching Authority would be able to request a copy of sheets containing a declaration as to non-prejudicial disclosure or exceptions to lack of novelty.

Furthermore, the last sentence of new Section 419(d) provides that, if a declaration of inventorship for the purposes of the designation of the United States of America is received after the expiration of the time limit under Rule 26*ter*.1, it will be returned to the applicant if it has been signed, thereby enabling the applicant to submit that signed declaration direct to the United States Patent and Trademark Office as a designated Office.

Finally, pursuant to the amendments of Rule 48.2(b)(iv), a new item 8 has been added to Annex D of the Administrative Instructions to provide for the express indication, in the Gazette, of the fact that one or more of the declarations referred to in Rule 4.17 were made and of those designations for the purposes of which such declarations were made (present item 7 has not been modified except for the deletion of the period at the end thereof).

Modification of the Administrative Instructions

After consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), new Sections 211 to 216, 317 and 419, modified Sections 303 and 327 and modified Annex D, as set out below, are promulgated with effect from 1 March 2001. The present text of the Administrative Instructions is set out in PCT Gazette Special Issue No. S-03/1998 dated 25 June 1998 and the previous modifications in PCT Gazette No. 51/1998 dated 23 December 1998, page 17330 (Sections 102*bis* and 335) and in PCT Gazette No. 02/2001 dated 11 January 2001, page 822 (Sections 801 to 806). The corresponding WIPO documents, PCT/AI/1, PCT/AI/1 Add.1 and PCT/AI/1 Add.1*bis* may be viewed on the WIPO Internet site at the following address: http://www.wipo.int/pct/en/index.html, as well as document PCT/AI/1 Add.1*ter*, as indicated above.

INCLUSION DE CERTAINES DÉCLARATIONS DANS LA REQUÊTE AFIN DE SIMPLIFIER LE TRAITEMENT DES DEMANDES PCT DURANT LA PHASE NATIONALE (suite)

La nouvelle instruction 419.b) exige que le Bureau international notifie à l'office récepteur et à l'administration chargée de la recherche internationale le fait qu'il a reçu une déclaration ou une correction apportée à une déclaration et à quelle date (cela se fera en pratique par l'envoi d'une copie de la notification qui est envoyée au déposant) mais sans joindre de copies de la déclaration ou de la correction. Ainsi, l'office récepteur et l'administration chargée de la recherche internationale n'auront pas à manipuler de feuilles de remplacement de la requête dans tous les cas en question. Cependant, l'office récepteur aura la possibilité, au cas par cas, de demander au Bureau international de lui envoyer des copies de ces feuilles, par exemple, si le déposant a demandé une copie certifiée de la demande internationale en vertu de la règle 20.9 (contenant la demande internationale telle que déposée et toutes corrections y relatives). Pareillement, l'administration chargée de la recherche internationale pourra demander une copie des feuilles contenant une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté.

Par ailleurs, la dernière phrase de la nouvelle instruction 419.d) prévoit que, si la déclaration relative à la qualité d'inventeur aux fins de la désignation des États-Unis d'Amérique est reçue après l'expiration du délai en vertu de la règle 26*ter*.1, elle sera retournée au déposant si elle a été signée, permettant ainsi au déposant de présenter cette déclaration signée directement à l'Office des brevets et des marques des États-Unis en tant qu'office désigné.

Enfin, suite aux modifications de la règle 48.2.b).iv), un nouveau point 8 a été ajouté à l'annexe D des instructions administratives afin de prévoir l'indication expresse, dans la gazette, du fait qu'une ou plusieurs déclarations visées à la règle 4.17 ont été faites et aux fins de quelles désignations elles l'ont été (le point 7 actuel n'a pas été modifié si ce n'est que le point final a été supprimé).

Modification des instructions administratives

Après consultation des offices et administrations intéressés conformément à la règle 89.2.a) du PCT, de nouvelles instructions 211 à 216, 317 et 419, les instructions 303 et 327 modifiées et l'annexe D modifiée, telles qu'elles figurent ci-après, sont promulguées avec effet au 1er mars 2001. Le texte actuel des instructions administratives figure dans le numéro spécial de la Gazette du PCT n° S-03/1998 du 25 juin 1998 et les modifications précédentes dans la Gazette du PCT n° 51/1998 du 23 décembre 1998, page 17331 (instructions 102*bis* et 335) et dans la Gazette du PCT n° 02/2001 du 11 janvier 2001, page 823 (instructions 801 à 806). Les documents de l'OMPI correspondants, PCT/AI/1, PCT/AI/1 Add.1 et PCT/AI/1 Add.1*bis* peuvent être consultés sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/pct/fr/index.html, de même que le document PCT/AI/1 Add.1*ter*, comme indiqué ci-dessus.

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS (Cont'd)

"Declaration of inventorship (Rules 4.17(iv) and 51*bis*.1(a)(iv)) for the purposes of the designation of the United States of America:

I hereby declare that I am the original, first and sole (if only one inventor is listed) or joint (if more than one inventor is listed) inventor of the subject matter which is claimed and for which a patent is sought.

This declaration is directed to the international application of which it forms a part (if filing declaration with application).

This declaration is directed to international application No. PCT/… (if furnishing declaration pursuant to Rule 26*ter*).

I hereby state that I have reviewed and understand the contents of the description, claims and drawings of said application. I have identified in the request of said application any claim to foreign priority, and I have identified below, under the heading "Prior Applications," any application for a patent or inventor's certificate filed in a country other than the United States of America and having a filing date before that of the application on which foreign priority is claimed or prior to the international filing date (if no foreign priority is claimed).

I hereby acknowledge the duty to disclose information that is known by me to be material to patentability as defined by 37 C.F.R. § 1.56.

Further, if this international application is a continuation-in-part application of a prior United States application for patent, I acknowledge the duty to disclose information that is known by me to be material to patentability as defined by 37 C.F.R. § 1.56 which became available between the filing date of the prior application and the international filing date of the present application. (This paragraph may be omitted if the international application is not a continuation-in-part application of a prior United States application.)

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

INCLUSION DE CERTAINES DÉCLARATIONS DANS LA REQUÊTE AFIN DE SIMPLIFIER LE TRAITEMENT DES DEMANDES PCT DURANT LA PHASE NATIONALE (suite)

MODIFICATIONS DES INSTRUCTIONS ADMINISTRATIVES (suite)

"Déclaration relative à la qualité d'inventeur (règles 4.17.iv) et 51*bis*.1.a)iv)) aux fins de la désignation des États-Unis d'Amérique :

Par la présente, je déclare être le premier inventeur original et unique (si un seul inventeur est mentionné) ou l'un des premiers coïnventeurs (si plusieurs inventeurs sont mentionnés) de l'objet revendiqué pour lequel un brevet est demandé.

La présente déclaration a trait à la demande internationale dont elle fait partie (si la déclaration est déposée avec la demande).

La présente déclaration a trait à la demande internationale n° PCT/… (si la déclaration est remise en vertu de la règle 26*ter*).

Par la présente, je déclare avoir passé en revue et compris le contenu de la description, des revendications et des dessins de ladite demande. J'ai indiqué dans la requête de ladite demande toute revendication de priorité d'une demande étrangère et j'ai mentionné ci-dessous, sous l'intitulé "Demandes antérieures", toute demande de brevet ou de certificat d'auteur d'invention déposée dans un pays autre que les États-Unis d'Amérique et dont la date de dépôt est antérieure à celle de la demande étrangère dont la priorité est revendiquée ou antérieure à la date de dépôt international (s'il n'est revendiqué la priorité d'aucune demande étrangère).

Par la présente, je reconnais avoir pris connaissance de l'obligation qui m'est faite de divulguer les renseignements dont j'ai connaissance et qui sont pertinents quant à la brevetabilité de l'invention, tels qu'ils sont définis dans le Titre 37, § 1.56, du Code fédéral des réglementations.

De plus, si la présente demande internationale est une demande de continuation-in-part d'une demande de brevet antérieure aux États-Unis d'Amérique, je déclare avoir pris connaissance de l'obligation qui m'est faite de divulguer les renseignements qui sont pertinents quant à la brevetabilité de l'invention, tels qu'ils sont définis dans le Titre 37, § 1.56, du Code fédéral des réglementations, et qui sont devenus accessibles entre la date de dépôt de la demande antérieure et la date de dépôt international de la présente demande. (Le présent alinéa peut être omis si la demande internationale n'est pas une demande de continuation-in-part d'une demande antérieure aux États-Unis d'Amérique.)

Je déclare par la présente que toute déclaration ci-incluse est, à ma connaissance, véridique et que toute déclaration formulée à partir de renseignements ou de suppositions est tenue pour véridique; et de plus, que toutes ces déclarations ont été formulées en sachant que toute fausse déclaration volontaire ou son équivalent est passible d'une amende ou d'une incarcération, ou des deux, en vertu de la Section 1001 du Titre 18 du Code des États-Unis, et que de telles déclarations volontairement fausses risquent de compromettre la validité de la demande de brevet ou du brevet délivré à partir de celle-ci.

These modifications of the Administrative Instructions concern Sections 102 and 214.

New Section 214 (containing the standardized wording for the declaration of inventorship applicable only for the purposes of the designation of the United States of America) was promulgated in PCT Gazette No. 04/2001 on 25 January 2001, page 1602, together with other new Sections relating to declarations for the purposes of the national phase, all of which will enter into force on 1 March 2001. It has now been found necessary to make further modifications to Section 214, at the request of the United States Patent and Trademark Office. In particular, the standardized text of the declaration of inventorship, as contained in Section 214(a), is modified to bring it into line with the requirements of the national law applicable by that Office: (i) an express reference to the inventor's residence, etc., is introduced; (ii) a specific reference to PCT Rule 4.10 (Priority Claim) is included; (iii) two subparagraphs relating to the duty of disclosure under 37 C.F.R. § 1.56 are combined; and (iv) an express reference to the fact that the agent's signature cannot replace the inventor's signature is added. Furthermore, a new paragraph (b) relating to the requirement that all inventors be named in the declaration, even if they do not all sign the same (copy of that) declaration, is added. As a consequence, previously numbered paragraph (b) is renumbered as paragraph (c).

The opportunity is also taken to modify Section 102 (which relates to the use of Forms) to include, in the list of Forms for use by the receiving Offices and by the International Bureau, respectively, new Forms PCT/RO/156 (Invitation to Correct Declarations Made in the Request under PCT Rule 4.17) and PCT/IB/370 (Invitation to Correct Declarations Made in the Request under PCT Rule 4.17) and PCT/IB/371 (Notification Relating to Declaration Made in the Request under PCT Rule 4.17). This modification is in anticipation of the imminent promulgation of those new Forms, following consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), with effect from 1 March 2001.

Modifications to both Sections 102 and 214 are being promulgated with effect from 1 March 2001. See below for further details; see also WIPO document PCT/AI/1 Add.1*ter* Rev.1 (dated 19 January 2001), which supersedes document PCT/AI/1 Add.1*ter* (dated 12 January 2001) and which may be viewed on the WIPO Internet site at the following address: http://www.wipo.int/pct/en/index.html.

INCLUSION DE CERTAINES DÉCLARATIONS DANS LA REQUÊTE AFIN DE SIMPLIFIER LE TRAITEMENT DES DEMANDES PCT DURANT LA PHASE NATIONALE

Note du Bureau international

Les présentes modifications des instructions administratives concernent les instructions 102 et 214.

La nouvelle instruction 214 (qui contient le libellé standard pour la déclaration relative à la qualité d'inventeur applicable seulement aux fins de la désignation des États-Unis d'Amérique) a été promulguée dans la Gazette du PCT n° 04/2001 du 25 janvier 2001, page 1603, avec d'autres nouvelles instructions relatives aux déclarations faites aux fins de la phase nationale, qui vont toutes entrer en vigueur le 1er mars 2001. Il s'est avéré nécessaire maintenant d'apporter des changements supplémentaires à l'instruction 214, à la demande de l'Office des brevets et des marques des États-Unis d'Amérique. En particulier, le libellé standard de la déclaration relative à la qualité d'inventeur, figurant dans l'instruction 214.a), est modifié de manière à être aligné sur les exigences de la législation nationale applicable par cet office : i) une référence expresse au domicile de l'inventeur, etc., a été introduite; ii) une référence précise à la règle 4.10 du PCT (Revendications de priorité) a été ajoutée; iii) deux sous-alinéas se rapportant à l'obligation de divulgation selon le Titre 37, § 1.56, du Code fédéral des réglementations, ont été combinés; et iv) une référence expresse au fait que la signature du mandataire ne peut remplacer celle de l'inventeur a été ajoutée. De plus, un nouvel alinéa b) concernant l'exigence selon laquelle tous les inventeurs doivent être nommés dans la déclaration, même s'ils ne signent pas tous la même (copie de cette) déclaration, a été ajouté. En conséquence, l'alinéa précédemment numéroté b) a été renuméroté c).

On a saisi aussi cette occasion pour modifier l'instruction 102 (relative à l'utilisation des formulaires) afin d'inclure, dans la liste des formulaires à l'usage des offices récepteurs et du Bureau international, respectivement, les nouveaux formulaires PCT/RO/156 (Invitation à corriger des déclarations faites dans la requête selon la règle 4.17 du PCT) et PCT/IB/370 (Invitation à corriger des déclarations faites dans la requête selon la règle 4.17 du PCT) et PCT/IB/371 (Notification relative à une déclaration faite dans la requête selon la règle 4.17 du PCT). Cette modification anticipe la promulgation imminente de ces nouveaux formulaires – avec effet au 1er mars 2001 – qui fait suite à la consultation menée auprès des offices et administrations intéressés en vertu de la règle 89.2.a) du PCT.

Les modifications apportées aux instructions 102 et 214 sont promulguées avec effet au 1er mars 2001. Voir ci-après pour de plus amples détails; voir également le document de l'OMPI PCT/AI/1 Add.1*ter* Rev.1 (du 19 janvier 2001) qui remplace le document PCT/AI/1 Add.1*ter* (du 12 janvier 2001) et qui peut être consulté sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/pct/fr/index.html.

Modification of the Administrative Instructions

Following receipt from the United States Patent and Trademark Office of comments, within the framework of the consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), modified Section 214, as set out below, is promulgated with effect from 1 March 2001. Furthermore, modified Section 102, as set out below, is also promulgated from that date.

The text of the Administrative Instructions, as presently in force, is as set out in PCT Gazette Special Issue No. S-03/1998 on 25 June 1998, subject to the modifications set out in PCT Gazette No. 51/1998 on 23 December 1998, page 17330, and PCT Gazette No. 02/2001 on 11 January 2001, page 822. Other modifications, which will come into force on 1 March 2001 but which are partly superseded by the present modifications, are set out in PCT Gazette No. 04/2001 on 25 January 2001, page 1602. The corresponding WIPO documents (PCT/AI/1, PCT/AI/1 Add.1, PCT/AI/1 Add.1*bis* and PCT/AI/1 Add.1*ter* Rev.1) may be viewed on the WIPO Internet site at the following address: http://www.wipo.int/pct/en/index.html. (document PCT/AI/1 Add.1*ter* Rev.1 (dated 19 January 2001) supersedes document PCT/AI/1 Add.1*ter*. (dated 12 January 2001)).

Modification des instructions administratives

Suite à la réception de commentaires de la part de l'Office des brevets et des marques des États-Unis, dans le cadre de la consultation menée auprès des offices et administrations intéressés en vertu de la règle 89.2.a) du PCT, l'instruction 214 modifiée, telle qu'elle figure ci-après, est promulguée avec effet au 1er mars 2001. De plus, l'instruction 102 modifiée, telle qu'elle figure ci-après, est aussi promulguée avec effet à cette date.

Le texte des instructions administratives, tel qu'il est en vigueur actuellement, figure dans le numéro spécial de la Gazette du PCT n° S-03/1998 du 25 juin 1998, sous réserve des modifications figurant dans la Gazette du PCT n° 51/1998 du 23 décembre 1998, page 17331, et dans la Gazette du PCT n° 02/2001 du 11 janvier 2001, page 823. D'autres modifications, qui entreront en vigueur le 1er mars 2001 mais qui sont en partie remplacées par les présentes modifications, figurent dans la Gazette du PCT n° 04/2001 du 25 janvier 2001, page 1603. Les documents de l'OMPI correspondants (PCT/AI/1, PCT/AI/1 Add.1, PCT/AI/1 Add.1*bis* et PCT/AI/1 Add.1*ter* Rev.1) peuvent être consultés sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/pct/fr/index.html. (le document PCT/AI/1 Add.1*ter* Rev.1 (du 19 janvier 2001) remplace le document PCT/AI/1 Add.1*ter* (du 12 janvier 2001)).

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS (Cont'd)

Section 214 [*New*]
Declaration of Inventorship

(a) A declaration of inventorship, referred to in Rule 4.17(iv), that is made for the purposes of the designation of the United States of America shall be worded as follows:

"Declaration of inventorship (Rules 4.17(iv) and 51*bis*.1(a)(iv)) for the purposes of the designation of the United States of America:

I hereby declare that I believe I am the original, first and sole (if only one inventor is listed below) or joint (if more than one inventor is listed below) inventor of the subject matter which is claimed and for which a patent is sought.

This declaration is directed to the international application of which it forms a part (if filing declaration with application).

This declaration is directed to international application No. PCT/… (if furnishing declaration pursuant to Rule 26*ter*).

I hereby declare that my residence, mailing address, and citizenship are as stated next to my name.

I hereby state that I have reviewed and understand the contents of the above-identified international application, including the claims of said application. I have identified in the request of said application, in compliance with PCT Rule 4.10, any claim to foreign priority, and I have identified below, under the heading "Prior Applications," by application number, country or Member of the World Trade Organization, day, month and year of filing, any application for a patent or inventor's certificate filed in a country other than the United States of America, including any PCT international application designating at least one country other than the United States of America, having a filing date before that of the application on which foreign priority is claimed.

I hereby acknowledge the duty to disclose information that is known by me to be material to patentability as defined by 37 C.F.R. § 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the PCT international filing date of the continuation-in-part application.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Instruction 214 [*nouvelle*]
Déclaration relative à la qualité d'inventeur

a) Une déclaration relative à la qualité d'inventeur, visée à la règle 4.17.iv), qui est faite aux fins de la désignation des États-Unis d'Amérique, doit être libellée comme suit :

"Déclaration relative à la qualité d'inventeur (règles 4.17.iv) et 51*bis*.1.a)iv)) aux fins de la désignation des États-Unis d'Amérique :

Par la présente, je déclare que je crois être le premier inventeur original et unique (si un seul inventeur est mentionné ci-dessous) ou l'un des premiers coïnventeurs (si plusieurs inventeurs sont mentionnés ci-dessous) de l'objet revendiqué pour lequel un brevet est demandé.

La présente déclaration a trait à la demande internationale dont elle fait partie (si la déclaration est déposée avec la demande).

La présente déclaration a trait à la demande internationale n° PCT/… (si la déclaration est remise en vertu de la règle 26*ter*).

Par la présente, je déclare que mon domicile, mon adresse postale et ma nationalité sont tels qu'indiqués près de mon nom.

Par la présente, je déclare avoir passé en revue et comprendre le contenu de la demande internationale à laquelle il est fait référence ci-dessus, y compris les revendications de ladite demande. J'ai indiqué dans la requête de ladite demande, conformément à la règle 4.10 du PCT, toute revendication de priorité d'une demande étrangère et j'ai identifié ci-dessous, sous l'intitulé "Demandes antérieures", au moyen du numéro de demande, du pays ou du membre de l'Organisation mondiale du commerce, du jour, du mois et de l'année du dépôt, toute demande de brevet ou de certificat d'auteur d'invention déposée dans un pays autre que les États-Unis d'Amérique, y compris toute demande internationale selon le PCT désignant au moins un pays autre que les États-Unis d'Amérique, dont la date de dépôt est antérieure à celle de la demande étrangère dont la priorité est revendiquée.

Par la présente, je reconnais l'obligation qui m'est faite de divulguer les renseignements dont j'ai connaissance et qui sont pertinents quant à la brevetabilité de l'invention, tels qu'ils sont définis dans le Titre 37, § 1.56, du Code fédéral des réglementations, y compris, en ce qui concerne les demandes de continuation-in-part les renseignements pertinents qui sont devenus accessibles entre la date de dépôt de la demande antérieure et la date du dépôt international de la demande de continuation-in-part.

Je déclare par la présente que toute déclaration ci-incluse est, à ma connaissance, véridique et que toute déclaration formulée à partir de renseignements ou de suppositions est tenue pour véridique; et de plus, que toutes ces déclarations ont été formulées en sachant que toute fausse déclaration volontaire ou son équivalent est passible d'une amende ou d'une incarcération, ou des deux, en vertu de la Section 1001 du Titre 18 du Code des États-Unis, et que de telles déclarations volontairement fausses risquent de compromettre la validité de la demande de brevet ou du brevet délivré à partir de celle-ci.

Nom : …

Domicile : … (ville et État (des États-Unis d'Amérique), le cas échéant, ou pays)

CERTAIN NATIONAL REQUIREMENTS ALLOWED UNDER ARTICLE 27: DESIGNATED OFFICES HAVING INFORMED THE INTERNATIONAL BUREAU OF THE INCOMPATIBILITY OF THE APPLICABLE NATIONAL LAWS WITH CERTAIN AMENDED OR NEW RULES

During its twenty-eighth (16th extraordinary) session, held in Geneva from 13 to 17 March 2000, the Assembly of the PCT Union adopted a number of amendments to the Regulations under the Patent Cooperation Treaty (PCT). Those amendments which will enter into force on 1 March 2001 and which have been published in PCT Gazette No. 42/2000 on 19 October 2000, include amendment or addition of Rules 51*bis*.1(e), 51*bis*.2(a) and 51*bis*.3(a). The amended Regulations provide, for each of those Rules, that if on 17 March 2000, the Rule is not compatible with the law applied by the designated Office, that Rule shall not apply to that Office for as long as it continues not to be compatible with that law, provided that the said Office informs the International Bureau accordingly by 30 November 2000 (see new Rules 51*bis*.1(f), 51*bis*.2(c) and 51*bis*.3(c)).

The following designated Offices have informed the International Bureau of such incompatibility in respect of the Rules mentioned below:

Rule 51*bis*.1(e) (concerning the furnishing of a translation of the priority document):

CH Swiss Federal Intellectual Property Institute
DK Danish Patent and Trademark Office
EP European Patent Office
ES Spanish Patent and Trademark Office
GB United Kingdom Patent Office
KR Korean Intellectual Property Office
SG Intellectual Property Office of Singapore

Rule 51*bis*.2(a)(i) (concerning certain circumstances in which documents or evidence—relating to the identity of the inventor—may not be required):

CH Swiss Federal Intellectual Property Institute
DK Danish Patent and Trademark Office
SE Swedish Patent Office

Rule 51*bis*.2(a)(ii) (concerning certain circumstances in which documents or evidence—relating to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent—may not be required):

CA Canadian Patent Office
CH Swiss Federal Intellectual Property Institute
DK Danish Patent and Trademark Office
HU Hungarian Patent Office
SE Swedish Patent Office

CERTAINES EXIGENCES NATIONALES ADMISES EN VERTU DE L'ARTICLE 27 : OFFICES DÉSIGNÉS AYANT INFORMÉ LE BUREAU INTERNATIONAL DE L'INCOMPATIBILITÉ DES LÉGISLATIONS NATIONALES APPLICABLES AVEC CERTAINES RÈGLES MODIFIÉES OU NOUVELLES

Lors de sa vingt-huitième session (16e session extraordinaire), tenue à Genève du 13 au 17 mars 2000, l'Assemblée de l'Union du PCT a adopté un certain nombre de modifications du règlement d'exécution du Traité de coopération en matière de brevets (PCT). Ces modifications, qui entreront en vigueur le 1er mars 2001 et ont été publiées dans la Gazette du PCT n° 42/2000 du 19 octobre 2000, comprennent la modification ou l'adjonction des règles 51*bis*.1.e), 51*bis*.2.a) and 51*bis*.3.a). Le règlement d'exécution modifié prévoit, pour chacune de ces règles, que si, le 17 mars 2000, la règle n'est pas compatible avec la législation appliquée par l'office désigné, cette règle ne s'applique pas à l'égard de cet office aussi longtemps qu'elle reste incompatible avec cette législation, à condition que l'office en informe le Bureau international au plus tard le 30 novembre 2000 (voir les nouvelles règles 51*bis*.1.f), 51*bis*.2.c) et 51*bis*.3.c)).

Les offices désignés suivants ont informé le Bureau international de cette incompatibilité en ce qui concerne les règles mentionnées ci-dessous :

Règle 51*bis*.1.e) (concernant la remise d'une traduction du document de priorité) :

CH Institut Fédéral de la Propriété Intellectuelle (Suisse)
DK Office danois des brevets et des marques
EP Office européen des brevets
ES Office espagnol des brevets et des marques
GB Office des brevets du Royaume-Uni
KR Office coréen de la propriété intellectuelle
SG Office de la propriété intellectuelle de Singapour

Règle 51*bis*.2.a)i) (concernant certaines circonstances dans lesquelles des documents ou des preuves — relatifs à l'identité de l'inventeur — ne peuvent pas être exigés) :

CH Institut Fédéral de la Propriété Intellectuelle
DK Office danois des brevets et des marques
SE Office suédois des brevets

Règle 51*bis*.2.a)ii) (concernant certaines circonstances dans lesquelles des documents ou des preuves — relatifs au droit du déposant, à la date du dépôt international, de demander ou d'obtenir un brevet — ne peuvent pas être exigés) :

CA Office canadien des brevets
CH Institut Fédéral de la Propriété Intellectuelle (Suisse)
DK Office danois des brevets et des marques

SE Office suédois des brevets

CERTAIN NATIONAL REQUIREMENTS ALLOWED UNDER ARTICLE 27: DESIGNATED OFFICES HAVING INFORMED THE INTERNATIONAL BUREAU OF THE INCOMPATIBILITY OF THE APPLICABLE NATIONAL LAWS WITH CERTAIN AMENDED OR NEW RULES (Cont'd)

Rule 51*bis*.2(a)(iii) (concerning certain circumstances in which documents or evidence—relating to the applicant's entitlement, as at the international filing date, to claim priority of an earlier application—may not be required):

CH Swiss Federal Intellectual Property Institute

DK Danish Patent and Trademark Office

Rule 51*bis*.3(a) (concerning the opportunity to comply with national requirements referred to in Rule 51*bis*.1(a)(i) to (iv) and (c) to (e)):

CH Swiss Federal Intellectual Property Institute

HU Hungarian Patent Office

KR Korean Intellectual Property Office

SG Intellectual Property Office of Singapore

CERTAINES EXIGENCES NATIONALES ADMISES EN VERTU DE L'ARTICLE 27 : OFFICES DÉSIGNÉS AYANT INFORMÉ LE BUREAU INTERNATIONAL DE L'INCOMPATIBILITÉ DES LÉGISLATIONS NATIONALES APPLICABLES AVEC CERTAINES RÈGLES MODIFIÉES OU NOUVELLES (suite)

Règle 51*bis*.2.a)iii) (concernant certaines circonstances dans lesquelles des documents ou des preuves — relatifs au droit du déposant, à la date du dépôt international, de revendiquer la priorité d'une demande antérieure — ne peuvent pas être exigés) :

CH Institut Fédéral de la Propriété Intellectuelle (Suisse)

DK Office danois des brevets et des marques

Règle 51*bis*.3.a) (concernant la possibilité de satisfaire aux exigences nationales visées à la règle 51*bis*.1.a)i) à iv) et c) à e)) :

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT
MODIFICATION OF ANNEX A—FORMS

Form PCT/RO/101 (Request)

As a result of the amendments of the Regulations under the PCT and the modifications of the Administrative Instructions under the PCT which will enter into force on 1 March 2001 (see Notes published in PCT Gazette No. 42/2000 of 19 October 2000, page 15522, No. 04/2001 of 25 January 2001, page 1602 and No. 05/2001 of 1 February 2001, page 2014) the Request Form and the Notes to the request form, the Fee Calculation Sheet (Annex to the request) and the Notes to the fee calculation sheet have been modified with effect from 1 March 2001.

Furthermore, the Request Form, the Notes thereto, the Fee Calculation Sheet and the Notes thereto have been modified so as to take into account new Sections 801 to 806 of the Administrative Instructions—promulgated with effect from 11 January 2001—relating to the filing in computer readable form of the sequence listing part of the description of an international application (see Note published in PCT Gazette No. 02/2001 of 11 January 2001, page 818).

Finally, the opportunity was taken to modify the Request Form, the Notes thereto, the Fee Calculation Sheet and the Notes thereto so as to take into account a number of comments received since the last major revision of the Form in 1998, to harmonize the terms used and to review both the English and French versions for editorial reasons.

The following modifications have been made, noting that modifications of a mere editorial nature or in the layout are not specifically identified below:

(a) a field has been added in Boxes Nos. II and III for the indication of the applicant's registration number with the Office;

(b) the check-box and the words "This person is also inventor" have been re-positioned at the top of Box No. II to accommodate the new field for the applicant's registration number;

(c) a field has been added in Box No. IV for the indication of the agent's registration number with the Office;

(d) the contents of the current "last sheet" of the Request Form (Boxes Nos. VI to IX, as well as the spaces reserved for the receiving Office and for the International Bureau) have been spread over two sheets (that is, "third sheet" and "last sheet") to allow for the inclusion of a new Box No. VIII (see below);

(e) the space in Box No. VI for indicating priority claims has been expanded;

(f) in the Supplemental Box, the text of item 3, relating to statements concerning non-prejudicial disclosures or exceptions to lack of novelty, has been deleted since that matter is now provided for in new Declaration Box No. VIII (v) (see below);

(g) a new Box "Declarations" has been introduced as Box No. VIII;

(h) six different optional sheets for declarations—one for each of the five types of declarations provided for in Rule 4.17 (new Boxes Nos. VIII (i) to (v)) and a continuation sheet (new "Continuation of Box No.VIII (i) to (v)")—have been added, immediately following Box No. VIII;

(i) except in respect of new Declaration Box No. VIII (iv), the standardized text for the declarations is not pre-printed in the corresponding Boxes because of the large number of options that applicants will be able to choose, and the order in which the selected options should appear will vary from case to case;

INSTRUCTIONS ADMINISTRATIVES DU PCT
MODIFICATION DE L'ANNEXE A – FORMULAIRES

Formulaire PCT/RO/101 (Requête)

Suite aux modifications du règlement d'exécution du PCT et des Instructions administratives du PCT qui entreront en vigueur le 1er mars 2001 (se référer aux notes publiées dans la Gazette du PCT n° 42/2000 du 19 octobre 2000, page 15523, n° 04/2001 du 25 janvier 2001, page 1603, et n° 05/2001 du 1er février 2001, page 2015), le formulaire de requête et les notes relatives au formulaire de requête, la feuille de calcul des taxes (annexe de la requête) et les notes relatives à la feuille de calcul des taxes ont été modifiés avec effet au 1er mars 2001.

De plus, le formulaire de requête, les notes y relatives, la feuille de calcul des taxes et les notes y relatives ont été modifiés pour tenir compte des nouvelles instructions administratives 801 à 806 – promulguées avec effet au 11 janvier 2001 – concernant le dépôt sous forme déchiffrable par ordinateur de la partie de la description réservée aux listages des séquences d'une demande internationale (se référer à la note publiée dans la Gazette du PCT n° 02/2001 du 11 janvier 2001, page 819).

Enfin, on a saisi cette occasion pour modifier le formulaire de requête, les notes y relatives, la feuille de calcul des taxes et les notes y relatives pour tenir compte d'un certain nombre de commentaires reçus depuis la dernière révision importante du formulaire en 1998, afin d'harmoniser la terminologie utilisée et de réviser à la fois les versions anglaise et française pour des raisons d'ordre rédactionnel.

Les modifications suivantes ont été apportées, étant entendu que les changements d'ordre purement rédactionnel ou de format ne sont pas mentionnés ci-dessous :

a) un champ a été ajouté dans les cadres nos II et III pour permettre d'indiquer le numéro sous lequel le déposant est inscrit auprès de l'office;

b) la case et les mots "Cette personne est aussi inventeur" ont été déplacés en haut du cadre n° II afin de libérer la place nécessaire pour le numéro sous lequel le déposant est inscrit;

c) un champ a été ajouté dans le cadre n° IV pour permettre d'indiquer le numéro sous lequel le mandataire est inscrit auprès de l'office;

d) le contenu de l'actuelle "dernière feuille" du formulaire de requête (cadres nos VI à IX, de même que les espaces réservés à l'office récepteur et au Bureau international) a été réparti sur deux feuilles (c'est-à-dire, la "troisième feuille" et la "dernière feuille") pour permettre l'inclusion d'un nouveau cadre n° VIII (voir ci-dessous);

e) la place réservée aux revendications de priorité dans le cadre n° VI a été agrandie;

f) le texte figurant au point 3 dans le cadre supplémentaire, relatif à la déclaration concernant des divulgations non opposables ou des exceptions au défaut de nouveauté, a été supprimé étant donné que cette question est maintenant prévue dans un nouveau cadre de déclaration n° VIII.v) (voir ci-dessous);

g) un nouveau cadre "Déclarations" a été introduit en tant que cadre n° VIII;

h) six différentes feuilles facultatives de déclarations – une pour chacun des cinq types de déclarations prévues par la règle 4.17 (nouveaux cadres nos VIII.i) à v)) et une feuille annexe ("Suite du cadre no VIII.i) à v)") – ont été ajoutées, immédiatement après le cadre n° VIII;

i) sauf en ce qui concerne le nouveau cadre de déclaration n° VIII.iv), le libellé standard pour les déclarations n'est pas pré-imprimé dans les cadres correspondants, en raison du trop grand nombre d'options qu'auront les déposants et parce que l'ordre dans lequel devront apparaître les options sélectionnées variera au cas par cas;

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT
MODIFICATION OF ANNEX A—FORMS (Cont'd)

Form PCT/RO/101 (Request) (Cont'd)

(j) the standardized wording of the declaration of inventorship which is applicable only for the purpose of the designation of the United States of America has been pre-printed in new Box No. VIII (iv) since no part of that wording may be omitted by applicants;

(k) present Boxes Nos. VIII and IX have been re-numbered as Boxes Nos. IX and X respectively;

(l) Box No. IX (Check List) has been modified to include in the left column a specific space for the indication that the sequence listing part of the description of an international application is filed in computer readable form under new Section 801 of the Administrative Instructions, and, in the right column, the item relating to sequence listings has been expanded accordingly; furthermore, a space has been introduced for indicating a new item (original general power of attorney) which may accompany the international application;

(m) the title of Box No. X has been changed to include a reference to signature by the applicant, agent or common representative;

(n) the Fee Calculation Sheet has been modified to allow for the specific indication of the additional component (referred to as "b3") of the basic fee in cases where the sequence listing part of the description of an international application is filed under new Section 801(a), as mentioned under item (l), above;

(o) the "Deposit Account Authorization" part of the Fee Calculation Sheet has been simplified and the layout changed so as to provide for additional space for filling in the necessary indications.

Furthermore, Box No.V of the Request Form, the Notes relating thereto and the Notes to the fee calculation sheet have been modified to take into account the entry into force of the PCT in respect of Colombia (on 28 February 2001) and the fact that utility models are no longer available in Ghana but that utility certificates are now available in Ghana.

All the sheets of the Request Form, including the Notes to the request form, the Fee Calculation Sheet and the Notes to the fee calculation sheet, are dated March 2001 (date of issuance of the sheets) and are reproduced on the following pages (without pagination so as to enable convenient reproduction). Copies can be obtained free of charge from receiving Offices and the International Bureau, and will also be available from WIPO Internet site at the following address: http://www.wipo.int/pct/en/index.html.

Only the updated version of the Request Form should be used for international applications filed from 1 March 2001.

Form PCT/IPEA/401 (Demand)

The following modifications have been made to the Demand Form, the Notes to the Demand Form, the Fee Calculation Sheet (Annex to the demand) and the Notes to the fee calculation sheet with effect from 1 March 2001. Note that modifications of a mere editorial nature or in the layout are not specifically identified below:

Boxes Nos. II and III have been modified in the same manner as the corresponding parts of the Request Form in respect of the applicant's and agent's registration numbers.

INSTRUCTIONS ADMINISTRATIVES DU PCT
MODIFICATION DE L'ANNEXE A – FORMULAIRES (suite)

Formulaire PCT/RO/101 (Requête) (suite)

j) le libellé standard de la déclaration relative à la qualité d'inventeur qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique a été pré-imprimé dans le nouveau cadre n° VIII.iv) puisque les déposants n'ont pas le droit d'omettre une quelconque partie de ce libellé;

k) les cadres actuels n^{os} VIII et IX ont été renumérotés en tant que cadres n^{os} IX et X, respectivement;

l) on a modifié le cadre n° IX (Bordereau) pour y inclure, dans la colonne de gauche, une rubrique servant à indiquer que la partie de la description réservée au listage des séquences d'une demande internationale est déposée sous forme déchiffrable par ordinateur selon la nouvelle instruction administrative 801 et, dans la colonne de droite, le point relatif au listage des séquences a été développé en conséquence; de plus, un espace a été introduit pour permettre d'indiquer un nouvel élément (original du pouvoir général) qui peut être joint à la demande internationale;

m) on a modifié le titre du cadre n° X pour y inclure une référence à la signature du déposant, du mandataire ou du représentant commun;

n) la feuille de calcul des taxes a été modifiée pour permettre d'indiquer la composante supplémentaire (indiquée par "b3") de la taxe de base dans les cas où la partie de la description réservée aux listages des séquences d'une demande internationale est déposée en vertu de la nouvelle instruction 801.a), comme mentionné ci-dessus sous le point l);

o) la partie "Autorisation concernant un compte de dépôt" de la feuille de calcul des taxes a été simplifiée et la disposition modifiée pour gagner de la place, ce qui permettra de compléter les indications nécessaires.

De plus, le cadre n° V du formulaire de requête, les notes y relatives et les notes de la feuille de calcul des taxes ont été modifiés pour tenir compte de l'entrée en vigueur du PCT en ce qui concerne la Colombie (le 28 février 2001) et du fait que des certificats d'utilité sont disponibles au Ghana alors que les modèles d'utilité ne le sont plus.

Toutes les feuilles du formulaire de requête, y compris les notes relatives au formulaire de requête, la feuille de calcul des taxes et les notes relatives à la feuille de calcul des taxes, sont datées de mars 2001 (date d'émission de ces feuilles) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément). Des copies peuvent être obtenues gratuitement auprès des offices récepteurs et du Bureau international et seront également disponibles sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/pct/fr/index.html.

Seule la version mise à jour du formulaire de requête devrait être utilisée pour les demandes internationales déposées à partir du 1er mars 2001.

Formulaire PCT/IPEA/401 (demande d'examen préliminaire international)

Les modifications suivantes ont été apportées au formulaire de demande d'examen préliminaire international, aux notes relatives au formulaire de demande d'examen préliminaire international, à la feuille de calcul des taxes (annexe de la demande d'examen préliminaire international) et aux notes relatives à la feuille de calcul des taxes avec effet au 1er mars 2001, étant entendu que les changements d'ordre purement rédactionnel ou de format ne sont pas mentionnés ci-dessous :

Les cadres n^{os} II et III ont été modifiés de la même manière que les parties correspondantes du formulaire de requête en ce qui concerne les numéros sous lesquels déposants et mandataires peuvent être inscrits auprès de l'office.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT
MODIFICATION OF ANNEX A—FORMS (Cont'd)

Form PCT/IPEA/401 (Demand) (Cont'd)

In Box No. VII, the list of items that may accompany the demand, the title of Box No. VIII (Signature) and the "Deposit Account Authorization" part of the Fee Calculation Sheet have also been modified in the same manner as the corresponding parts of the Request Form (see above). The Notes to the fee calculation sheet have been modified to take into account the entry into force of the PCT in respect of Colombia.

All sheets of the Demand Form, including the Notes ot the Demand Form, the Fee Calculation Sheet and the Notes to the fee calculation sheet, are dated March 2001 (the date of issuance of the sheets) and are reproduced on the following pages (without pagination so as to enable convenient reproduction). Copies can be obtained free of charge from receiving Offices, the International Preliminary Examining Authorities and the International Bureau, and will also be available from WIPO Internet site at the following address: http://www.wipo.int/pct/en/index.html.

Only the updated version of the Demand Form should be used for demands for International Preliminary Examining Authorities filed from 1 March 2001.

Le déposant déclare que ces désignations additionnelles sont faites sous réserve de confirmation et que toute désignation qui n'est pas confirmée avant l'expiration d'un délai de 15 mois à compter de la date de priorité doit être considérée comme retirée par le déposant à l'expiration de ce délai. *(La confirmation (y compris les taxes) doit parvenir à l'office récepteur dans le délai de 15 mois.)*

Supplemental Box *If the Supplemental Box is not used, this sheet should not be included in the request.*

1. *If, in any of the Boxes, except Boxes Nos. VIII(i) to (v) for which a special continuation box is provided,* ***the space is insufficient*** *to furnish all the information: in such case, write "Continuation of Box No...." (indicate the number of the Box) and furnish the information in the same manner as required according to the captions of the Box in which the space was insufficient, in particular:*

   (i) ***if more than two persons are to be indicated as applicants and/or inventors*** *and no "continuation sheet" is available: in such case, write "Continuation of Box No. III" and indicate for each additional person the same type of information as required in Box No. III. The country of the address indicated in this Box is the applicant's State (that is, country) of residence if no State of residence is indicated below;*

   (ii) *if, in Box No. II or in any of the sub-boxes of Box No. III, the indication* ***"the States indicated in the Supplemental Box"*** *is checked: in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the applicant(s) involved and, next to (each) such name, the State(s) (and/or, where applicable, ARIPO, Eurasian, European or OAPI patent) for the purposes of which the named person is applicant;*

   (iii) *if, in Box No. II or in any of the sub-boxes of Box No. III,* ***the inventor or the inventor/applicant is not inventor for the purposes of all designated States or for the purposes of the United States of America****: in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the inventor(s) and, next to (each) such name, the State(s) (and/or, where applicable, ARIPO, Eurasian, European or OAPI patent) for the purposes of which the named person is inventor;*

   (iv) *if, in addition to the agent(s) indicated in Box No. IV, there are* ***further agents****: in such case, write "Continuation of Box No. IV" and indicate for each further agent the same type of information as required in Box No. IV;*

   (v) *if, in Box No. V, the name of any State (or OAPI) is accompanied by the indication "****patent of addition****," or "****certificate of addition****," or if, in Box No. V, the name of the United States of America is accompanied by an indication "****continuation****" or "****continuation-in-part****": in such case, write "Continuation of Box No. V" and the name of each State involved (or OAPI), and after the name of each such State (or OAPI), the number of the parent title or parent application and the date of grant of the parent title or filing of the parent application;*

   (vi) *if, in Box No. VI, there are* ***more than five earlier applications whose priority is claimed****: in such case, write "Continuation of Box No. VI" and indicate for each additional earlier application the same type of information as required in Box No. VI.*

2. *If, with regard to the* ***precautionary designation statement*** *contained in Box No. V, the applicant wishes to exclude any State(s) from the scope of that statement: in such case, write "Designation(s) excluded from precautionary designation statement" and indicate the name or two-letter code of each State so excluded.*

Cadre supplémentaire *Si le cadre supplémentaire n'est pas utilisé, cette feuille ne doit pas être incluse dans la requête.*

1. *Si* ***l'un des cadres*** *du présent formulaire – à l'exception des cadres nos VIII.i) à v) pour lesquels une feuille annexe spéciale est prévue –* ***ne suffit pas*** *à contenir tous les renseignements : dans ce cas, indiquer "Suite du cadre nº..." (préciser le numéro du cadre) et fournir les renseignements conformément aux instructions données dans le cadre dans lequel la place était insuffisante; en particulier :*

   i) ***si plus de deux personnes doivent être indiquées comme déposants ou inventeurs*** *et que l'on ne dispose d'aucune "feuille annexe" : dans ce cas, indiquer "Suite du cadre nº III" et fournir pour chaque personne supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº III. Le pays de l'adresse indiquée dans ce cadre est l'État où le déposant a son domicile si aucun domicile n'est indiqué ci-dessous;*

   ii) *si, dans le cadre nº II ou dans l'un des sous-cadres du cadre nº III, la case* ***"les États indiqués dans le cadre supplémentaire"*** *est cochée : dans ce cas, indiquer "Suite du cadre nº II" ou "Suite du cadre nº III" ou "Suite des cadres nos II et III" (selon le cas), ainsi que le nom du ou des déposants en cause et, à côté de chaque nom, le ou les États pour lesquels la personne mentionnée a la qualité de déposant (ou, le cas échéant, la mention "brevet ARIPO", "brevet eurasien", "brevet européen" ou "brevet OAPI");*

   iii) *si, dans le cadre nº II ou dans l'un des sous-cadres du cadre nº III,* ***l'inventeur ou l'inventeur/déposant n'a pas la qualité d'inventeur pour tous les États désignés ou pour les États-Unis d'Amérique*** *: dans ce cas, indiquer "Suite du cadre nº II" ou "Suite du cadre nº III" ou "Suite des cadres nos II et III" (selon le cas), ainsi que le nom du ou des inventeurs et, à côté de chaque nom, le ou les États pour lesquels la personne mentionnée a la qualité d'inventeur (ou, le cas échéant, la mention "brevet ARIPO", "brevet eurasien", "brevet européen" ou "brevet OAPI");*

   iv) *si, en plus du ou des mandataires indiqués dans le cadre nº IV, il y a* ***d'autres mandataires*** *: dans ce cas, indiquer "Suite du cadre nº IV" et fournir pour chaque mandataire supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº IV;*

   v) *si, dans le cadre nº V, le nom d'un État (ou de l'OAPI) est assorti de la mention "****brevet d'addition****" ou "****certificat d'addition****" ou si, dans le cadre nº V le nom des États-Unis d'Amérique est assorti de la mention "****continuation****" ou "****continuation-in-part****" : dans ce cas, indiquer "Suite du cadre nº V" ainsi que le nom de chaque État en cause (ou de l'OAPI) en précisant après chaque nom le numéro du titre principal ou de la demande principale ainsi que la date de délivrance du titre principal ou la date de dépôt de la demande principale;*

   vi) *si, dans le cadre nº VI,* ***la priorité de plus de cinq demandes antérieures est revendiquée*** *: dans ce cas, indiquer "Suite du cadre nº VI" et fournir pour chaque demande antérieure supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº VI.*

2. *Si, en ce qui concerne la* ***déclaration concernant les désignations de précaution*** *contenue dans le cadre nº V, le déposant souhaite exclure un ou plusieurs États de la portée de cette déclaration : dans ce cas, indiquer "Désignations exclues de la portée de la déclaration concernant les désignations de précaution" et fournir le nom ou le code à deux lettres de chaque État concerné.*

for the purposes of the designation of the United States of America:

I hereby declare that I believe I am the original, first and sole (if only one inventor is listed below) or joint (if more than one inventor is listed below) inventor of the subject matter which is claimed and for which a patent is sought.

This declaration is directed to the international application of which it forms a part (if filing declaration with application).

This declaration is directed to international application No. PCT/ . . . . . (if furnishing declaration pursuant to Rule 26*ter*).

I hereby declare that my residence, mailing address, and citizenship are as stated next to my name.

I hereby state that I have reviewed and understand the contents of the above-identified international application, including the claims of said application. I have identified in the request of said application, in compliance with PCT Rule 4.10, any claim to foreign priority, and I have identified below, under the heading "Prior Applications," by application number, country or Member of the World Trade Organization, day, month and year of filing, any application for a patent or inventor's certificate filed in a country other than the United States of America, including any PCT international application designating at least one country other than the United States of America, having a filing date before that of the application on which foreign priority is claimed.

Prior Applications: . . . . . .

. . . . . .

I hereby acknowledge the duty to disclose information that is known by me to be material to patentability as defined by 37 C.F.R. § 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the PCT international filing date of the continuation-in-part application.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

☐ This declaration is continued on the following sheet, "Continuation of Box No. VIII (iv)".

Cadre n° VIII.iv) DÉCLARATION : QUALITÉ D'INVENTEUR
(seulement aux fins de la désignation des États-Unis d'Amérique)

La déclaration doit être conforme au libellé standard suivant prévu à l'instruction 214; voir les notes relatives aux cadres nos VIII, VIII.i) à v) (généralités) et les notes spécifiques au cadre nº VIII.iv). Si ce cadre n'est pas utilisé, cette feuille ne doit pas être incluse dans la requête.

Déclaration relative à la qualité d'inventeur (règles 4.17.iv) et 51*bis*.1.a)iv))
aux fins de la désignation des États-Unis d'Amérique :

Par la présente, je déclare que je crois être le premier inventeur original et unique (si un seul inventeur est mentionné ci-dessous) ou l'un des premiers coïnventeurs (si plusieurs inventeurs sont mentionnés ci-dessous) de l'objet revendiqué pour lequel un brevet est demandé.

La présente déclaration a trait à la demande internationale dont elle fait partie (si la déclaration est déposée avec la demande).

La présente déclaration a trait à la demande internationale n° PCT/ . . . . . (si la déclaration est remise en vertu de la règle 26*ter*).

Par la présente, je déclare que mon domicile, mon adresse postale et ma nationalité sont tels qu'indiqués près de mon nom.

Par la présente, je déclare avoir passé en revue et comprendre le contenu de la demande internationale à laquelle il est fait référence ci-dessus, y compris les revendications de ladite demande. J'ai indiqué dans la requête de ladite demande, conformément à la règle 4.10 du PCT, toute revendication de priorité d'une demande étrangère et j'ai identifié ci-dessous, sous l'intitulé "Demandes antérieures", au moyen du numéro de demande, du pays ou du membre de l'Organisation mondiale du commerce, du jour, du mois et de l'année du dépôt, toute demande de brevet ou de certificat d'auteur d'invention déposée dans un pays autre que les États-Unis d'Amérique, y compris toute demande internationale selon le PCT désignant au moins un pays autre que les États-Unis d'Amérique, dont la date de dépôt est antérieure à celle de la demande étrangère dont la priorité est revendiquée.

Demandes antérieures : . . . . . .

. . . . . .

Par la présente, je reconnais l'obligation qui m'est faite de divulguer les renseignements dont j'ai connaissance et qui sont pertinents quant à la brevetabilité de l'invention, tels qu'ils sont définis dans le Titre 37, § 1.56, du Code fédéral des réglementations, y compris, en ce qui concerne les demandes de continuation-in-part les renseignements pertinents qui sont devenus accessibles entre la date de dépôt de la demande antérieure et la date du dépôt international de la demande de continuation-in-part.

Je déclare par la présente que toute déclaration ci-incluse est, à ma connaissance, véridique et que toute déclaration formulée à partir de renseignements ou de suppositions est tenue pour véridique; et de plus, que toutes ces déclarations ont été formulées en sachant que toute fausse déclaration volontaire ou son équivalent est passible d'une amende ou d'une incarcération, ou des deux, en vertu de la Section 1001 du Titre 18 du Code des États-Unis, et que de telles déclarations volontairement fausses risquent de compromettre la validité de la demande de brevet ou du brevet délivré à partir de celle-ci.

Continuation of Box No. VIII (i) to (v) DECLARATION

*If **the space is insufficient** in any of Boxes Nos. VIII (i) to (v) to furnish all the information, including in the case where **more than two inventors are to be named** in Box No. VIII (iv), in such case, write "Continuation of Box No. VIII ..." (indicate the item number of the Box) and furnish the information in the same manner as required for the purposes of the Box in which the space was insufficient. If additional space is needed in respect of two or more declarations, a separate continuation box must be used for each such declaration. If this Box is not used, this sheet should not be included in the request.*

Suite du Cadre n° VIII.i) à v) DÉCLARATION

*Si l'un des cadres n°s VIII.i) à v) **ne suffit pas** à contenir tous les renseignements, y compris dans le cas où **plus de deux inventeurs doivent être nommés** dans le cadre n° VIII.iv), dans ce cas, indiquer "Suite du cadre n° VIII ..." (compléter le numéro du cadre en précisant le point) et fournir les renseignements conformément aux instructions données dans le cadre dans lequel la place était insuffisante. Si on a besoin de place supplémentaire dans deux ou plusieurs cadres, il faut utiliser le cadre "Suite" du cadre correspondant pour continuer chacune des déclarations. Si le présent cadre n'est pas utilisé, cette feuille ne doit pas être incluse dans la requête.*

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.ompi.int/pct/fr/index.html. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

Le formulaire de requête et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a)iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°S II ET III

Remarque générale : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés également comme déposants pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e)) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named also as applicants for the United States of America and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1*bis*): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy**, **MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Déposants différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des déposants différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochée.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1*bis*) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le "représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT* (*voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasien, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain ***both*** a designation of the State concerned for the purposes of a national patent and ***also*** a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a national title other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, "petty patent" (available in AU Australia and YU Yugoslavia), "provisional patent" (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), "utility model" (available in AL Albania, AM Armenia, AT Austria, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), "consensual patent" (available in HR Croatia), "utility certificate" (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or "inventor's certificate" (available in CU Cuba and KP Democratic People's Republic of Korea). Where, in AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model".

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part", write after the name of that country the appropriate words; that is, "patent of addition" (available in AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), "certificate of addition" (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), "inventor's certificate of addition" (available in CU Cuba), "continuation" or "continuation-in-part" (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant's *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16*bis*.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant's safeguard, the lower part of Box No. V contains a statement ("Precautionary Designation Statement") indicating the applicant's wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where six designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasien : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasien peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasien, soit à la fois aux fins d'un brevet national et d'un brevet eurasien. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasien et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasien sera traitée comme une désignation aux fins d'un brevet eurasien de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasien ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovénie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir **à la fois** la désignation de l'État concerné en vue de l'obtention d'un brevet national et la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander un titre de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi du nom du titre en question, c'est-à-dire "petty patent" (pour AU Australie et YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AL Albanie, AM Arménie, AT Autriche, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba, KP République populaire démocratique de Corée). Si, pour AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus du brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, SI Slovénie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant *l'ordre des désignations choisi* par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16*bis*.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)".

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 41.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

(i) declaration as to the identity of the inventor;

(ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;

(iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;

(iv) declaration of inventorship (only for the purposes of the designation of the United States of America);

(v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre nº VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque six taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE Nº VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, *l'office régional* concerné; et lorsque la demande antérieure est une demande internationale, *l'office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i)); cette indication n'est cependant pas obligatoire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii)).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii)). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE Nº VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE Nº VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

i) une déclaration relative à l'identité de l'inventeur;

ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;

iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;

PCT Applicant's Guide, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51*bis*.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26*ter*, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51*bis*.2(a) with National Laws (Rule 51*bis*.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51*bis*.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51*bis*.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51*bis*.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances. Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

"Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)):

in relation to [this] international application [No. PCT/…],

(i) ... *(name)* of … *(address)* is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
(ii) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations [except the designation of the United States of America]
  (b) the following designations for national and/or regional patents: …"

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);

v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres nos VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre no VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26*ter*, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standards ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer à leur sujet en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51*bis*.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à v) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26*ter*, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51*bis*.2.a) avec les législations nationales (règle 51*bis*.2.c)) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51*bis*.2.a)i).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)) : les législations nationales respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51*bis*.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51*bis*.2.a)iii).

CADRES Nos VIII i) à v) (GÉNÉRALITÉS)

Différent cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chaque type de déclaration prévue selon la règle 4.17 (du cadre no VIII.i) au cadre no VIII.v)) et une feuille annexe (Suite du cadre no VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre no VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre no VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre no VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres nos VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre no VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation, toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE No VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit:

BOX No. VIII (ii)

Declaration as to the Applicant's Entitlement to Apply for and Be Granted a Patent (Rule 4.17(ii) and Section 212): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

"Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)), in a case where the declaration under Rule 4.17(iv) is not appropriate:

in relation to [this] international application [No. PCT/…],

... *(name)* is entitled to apply for and be granted a patent by virtue of the following:

(i) ... *(name)* of … *(address)* is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
(ii) ... *(name)* [is] [was] entitled as employer of the inventor, ... *(inventor's name)*
(iii) an agreement between … *(name)* and … *(name)*, dated …
(iv) an assignment from … *(name)* to … *(name)*, dated …
(v) consent from … *(name)* in favor of … *(name)*, dated …
(vi) a court order issued by … *(name of court)*, effecting a transfer from … *(name)* to … *(name)*, dated …
(vii) transfer of entitlement from … *(name)* to … *(name)* by way of … *(specify kind of transfer)*, dated …
(viii) the applicant's name changed from … *(name)* to … *(name)* on … *(date)*
(ix) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations [except the designation of the United States of America]
  (b) the following designations for national and/or regional patents: …"

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the inventor, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement. Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant's entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

"Combined declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:"

The remainder of the combined declaration must be worded as indicated in the preceeding paragraphs.

For details as to the declaration as to the identity of the inventor, see the Notes to Box No. VIII (i), above.

BOX No. VIII (iii)

Declaration as to the Applicant's Entitlement to Claim Priority of the Earlier Application (Rule 4.17(iii) and Section 213): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

"Declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application specified below, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)):

in relation to [this] international application [No. PCT/…],

… *(name)* is entitled to claim priority of earlier application No. … by virtue of the following:

(i) the applicant is the inventor of the subject matter for which protection was sought by way of the earlier application
(ii) … *(name)* [is] [was] entitled as employer of the inventor, … *(inventor's name)*
(iii) an agreement between … *(name)* and … *(name)*, dated …
(iv) an assignment from … *(name)* to … *(name)*, dated …
(v) consent from … *(name)* in favor of … *(name)*, dated …
(vi) a court order, issued by … *(name of court)*, effecting a transfer from … *(name)* to … *(name)*, dated …
(vii) transfer of entitlement from … *(name)* to … *(name)* by way of … *(specify kind of transfer)*, dated …
(viii) the applicant's name changed from … *(name)* to … *(name)* on … *(date)*
(ix) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations
  (b) the following designations for national and/or regional patents: …"

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of

"Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)) :

concernant la [présente] demande internationale [n° PCT/…],

i) … *(nom)*, … *(adresse)*, est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale

ii) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

Une déclaration de cette nature n'est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d'inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l'inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii)) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d'Amérique. Lorsque les indications concernant l'inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii)). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIII.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d'inventeur aux fins de la désignation des États-Unis d'Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

"Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :

concernant la [présente] demande internationale [n° PCT/…],

i) du fait que … *(nom)*, … *(adresse)*, est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale

ii) du fait que… *(nom)* [possède] [possédait] ce droit en qualité d'employeur de l'inventeur, … *(nom de l'inventeur)*

iii) d'un contrat conclu entre … *(nom)* et … *(nom)*, daté du …

iv) d'une cession de … *(nom)* à … *(nom)*, datée du …

v) d'une autorisation consentie par … *(nom)* à … *(nom)*, datée du …

vi) d'une décision de justice rendue par … *(nom du tribunal)*, ordonnant un transfert de … *(nom)* à … *(nom)*, datée du …

vii) d'un transfert de droits de … *(nom)* à … *(nom)*, sous la forme de … *(préciser le type de transfert)*, daté du …

viii) du changement de nom du déposant de … *(nom)* en … *(nom)*, le … *(date)*

ix) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. ***Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.*** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits de l'inventeur, l'ordre dans lequel les transferts sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant. Lorsque l'inventeur n'est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d'une déclaration combinée motivant le droit du déposant de demander et d'obtenir un brevet et permettant d'identifier l'inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

"Déclaration combinée relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)) et relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :"

Le reste de la déclaration combinée est libellé comme indiqué aux paragraphes précédents.

Pour des précisions concernant la déclaration permettant d'identifier l'inventeur, voir les notes relatives au cadre n° VIII.i), ci-dessus.

CADRE N° VIII.iii)

Déclaration relative au droit du déposant de revendiquer la priorité de la demande antérieure (règle 4.17.iii) et instruction 213) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaire aux fins de motiver le droit du déposant :

"Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n'est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) :

concernant la [présente] demande internationale [n° PCT/…],

… *(nom)* a le droit de revendiquer la priorité de la demande antérieure n° … en vertu :

i) du fait que le déposant est l'inventeur de ce pour quoi une protection a été demandée dans la demande antérieure

ii) du fait que … *(nom)* [possède] [possédait] ce droit en qualité d'employeur de l'inventeur, …*(nom de l'inventeur)*

iii) d'un contrat conclu entre … *(nom)* et … *(nom)*, daté du …

iv) d'une cession de … *(nom)* à … *(nom)*, datée du …

v) d'une autorisation consentie par … *(nom)* à … *(nom)*, datée du …

residence and citizenship, must be included for each inventor. Where the declaration is included in the request, the inventor(s) need not sign and date the declaration if they have signed in Box No. X of the request.

BOX No. VIII (v)

Declaration as to Non-prejudicial Disclosures or Exceptions to Lack of Novelty (Rule 4.17(v) and Section 215): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (iv) as is necessary:

"Declaration as to non-prejudicial disclosures or exceptions to lack of novelty (Rules 4.17(v) and 51*bis*.1(a)(v)):

in relation to [this] international application [No. PCT/…],

… *(name)* declares that the subject matter claimed in [the] [this] international application was disclosed as follows:

(i) kind of disclosure *(include as applicable)*:
  (a) international exhibition
  (b) publication
  (c) abuse
  (d) other: … *(specify)*

(ii) date of disclosure: …

(iii) title of disclosure *(if applicable)*: …

(iv) place of disclosure *(if applicable)*: …

(v) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations
  (b) the following designations for national and/or regional patents: …"

Either (a), (b), (c) or (d) of item (i) should always be included in the declaration. Item (ii) should also always be included in the declaration. Either (a) or (b) of item (v) should always be included in the declaration. Items (iii) and (iv) may be incorporated depending upon the circumstances.

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listing part *in paper form only*, in which case the number of sheets must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that, a copy of that sequence listing part, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter*; in such a case, check-boxes Nos. 9 and 9(i) and, where applicable, 9(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listing part *in computer readable form only,* under Section 801(a)(i), in which case check-box b(i) must be marked but the space for the number of sheets of the sequence listing part under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Third, the applicant may choose to file the sequence listing part *both in computer readable form and in paper form* under Section 801(a)(ii), in which case check-box b(ii) must be marked and the number of sheets of that part in paper form must be indicated under item (a) (although that number of sheets will not be taken into account for calculation of the basic fee); the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description ("sequence listing part of description") in accordance with the standard contained in Annex C of the Administrative Instructions.

Items Accompanying the International Application: Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains a sequence listing part and a copy thereof in computer readable form is required by the ISA, the applicant may furnish the listing in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen the second or third option mentioned above, and an additional copy or copies of the sequence listing part in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate in the left column the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

vi) d'une décision de justice rendue par … *(nom du tribunal)*, ordonnant un transfert de … *(nom)* à … *(nom)*, datée du …

vii) d'un transfert de droits de … *(nom)* à … *(nom)*, sous la forme de … *(préciser le type de transfert)*, daté du …

viii) du changement de nom du déposant de … *(nom)* en … *(nom)*, le … *(date)*

ix) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. ***Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.*** En outre, cette déclaration n'est applicable que si la personne du déposant est différente de celle du déposant qui a déposé la demande antérieure dont la priorité est revendiquée, ou si le nom du déposant a changé. Si par exemple un seul déposant sur cinq est différent de ceux qui étaient indiqués pour une demande antérieure, cette déclaration pourra être applicable. Les types possibles de transferts de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits du déposant sur la demande antérieure, l'ordre dans lequel les points sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant.

CADRE N° VIII.iv)

Déclaration relative à la qualité d'inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s'ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l'adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d'une déclaration incluse dans la requête, il n'est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s'ils ont signé eux-mêmes dans le cadre n° X de la requête.

CADRE N° VIII.v)

Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règle 4.17.v) et instruction 215) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à iv), qui s'avérerait nécessaire :

"Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règles 4.17.v) et 51*bis*.1.a)v)) :

concernant la [présente] demande internationale [n° PCT/…],

… *(nom)* déclare que l'objet revendiqué dans [la] [ladite] demande internationale a été divulgué comme suit :

i) nature de la divulgation *(préciser selon le cas)* :
   a) exposition internationale
   b) publication
   c) utilisation abusive
   d) autre : … *(préciser)*

ii) date de la divulgation : …

iii) intitulé de la divulgation *(s'il y a lieu)* : …

iv) lieu de la divulgation *(s'il y a lieu)* : …

v) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'un des éléments a), b), c) ou d) du point i) doit toujours être inclus dans la déclaration. Le point ii) doit aussi toujours être inclus dans la déclaration. L'un ou l'autre des éléments a) et b) du point v) doit toujours figurer dans la déclaration. Les points iii) et iv) peuvent être incorporés s'il y a lieu.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l'un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d'une ou de plusieurs *séquences de nucléotides ou d'acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme papier seulement*, auquel cas le nombre de feuilles doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu'une copie de la partie réservée au listage des séquences, sous forme déchiffrable par ordinateur, peut être remise avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13*ter*; dans ce cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièment, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme déchiffrable par ordinateur seulement*, en vertu de l'instruction 801.a)i), auquel cas la case b)i) doit être cochée mais l'endroit réservé au nombre de feuilles de ladite partie sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l'instruction 801.a)ii), auquel cas la case b)ii) doit être cochée et le nombre de feuilles de ladite partie, sous forme papier, doit être indiqué sous le point a) (bien que ce nombre de feuilles ne soit pas utilisé aux fins du calcul de la taxe de base); le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description ("partie de la description réservée au listage des séquences") conformément à la norme figurant dans l'annexe C des instructions administratives.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3*ter*(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3*ter*(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. X

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent, or the common representative, where a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

Case nº 4 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case nº 5 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre nº X).

Case nº 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case nº 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13*bis* et l'instruction 209).

Case nº 9 : lorsque la demande internationale contient une partie réservée au listage des séquences et qu'une copie de cette dernière, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cases nºs 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi la deuxième ou la troisième option mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires de la partie réservée au listage des séquences sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases nºs 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter*.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter*.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'attribution d'une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l'anglais.

CADRE Nº X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent signer); il peut toutefois s'agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case nº 5 du cadre nº IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

REMARQUES GÉNÉRALES

Langue de la correspondance (règle 92.2 et instruction 104) : toute lettre du déposant à l'office récepteur doit être rédigée dans la langue de dépôt de la demande internationale étant entendu que, lorsque la demande internationale doit être publiée dans la langue d'une traduction remise en vertu de la règle 12.3, cette lettre doit être rédigée dans la langue de cette traduction; l'office récepteur peut cependant autoriser l'emploi d'une autre langue.

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête, description (sauf la partie de la description réservée au listage des séquences, le cas échéant), revendication(s), abrégé, dessins (le cas échéant), partie de la description réservée au listage des séquences, le cas échéant.

Toutes les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f)) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

This sheet is not part of and does not count as a sheet of the international application.

NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where item (b) of Box No. IX of the request does not apply (that is, where the international application either does not contain a sequence listing part or where it contains such a part but not filed in computer readable form under Section 801(a)(i) or (ii)), in such a case, item "b3" must not be filled in.

Otherwise, where item (b) of Box No. IX of the request applies (that is, where the international application contains a

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT,* volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT,* volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT,* volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT,* volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n^{os} II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

sequence listing part which is filed in computer readable form only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listing part in computer readable form is considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other title of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of six designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is six times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is six times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque le point b) du cadre n° IX de la requête ne s'applique pas (c'est-à-dire, si la demande internationale ne contient pas une partie réservée au listage des séquences ou qu'elle contient une telle partie mais que cette dernière n'est pas déposée sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i) ou ii)), dans ce cas, le point "b3" ne doit pas être rempli.

Sinon, lorsque le point b) du cadre n° IX de la requête s'applique (c'est-à-dire, si la demande internationale contient une partie réservée au listage des séquences qui est déposée sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que la partie réservée au listage des séquences sous forme déchiffrable par ordinateur est considérée comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre des taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasien, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasien ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre titre de protection national demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de six désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de six fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasien, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de six fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour information, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera ou ne créditera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

The demand must be filed directly with the competent International Preliminary Examining Authority or, if two or more Authorities are competent, with the one chosen by the applicant. The full name or two-letter code of that Authority may be indicated by the applicant on the line below:

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed before the expiration of *19 months from the priority date* in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. *Warning*: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58): Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request . The Notes to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than

NOTES RELATIVES AU FORMULAIRE DE DEMANDE D'EXAMEN PRÉLIMINAIRE INTERNATIONAL (PCT/IPEA/401)

Ces notes sont destinées à faciliter l'utilisation du formulaire de demande d'examen préliminaire international et à donner certains renseignements concernant l'examen préliminaire international prévu au chapitre II du Traité de coopération en matière de brevets (PCT). On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.ompi.int/pct/fr/index.html. Les notes sont fondées sur les exigences du traité, du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de demande d'examen préliminaire international et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire. Les cases appropriées peuvent être cochées à la main, à l'encre foncée (règles 11.9.a) et b) et 11.14).

Le formulaire de demande d'examen préliminaire international et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2)a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6)a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi *le Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de *19 mois à compter de la date de priorité* pour que le délai d'ouverture de la phase nationale de la procédure selon le PCT puisse passer, en ce qui concerne les États élus, de 20 à 30 mois à compter de la date de priorité. *Important* : si la demande d'examen préliminaire international est présentée plus tard, la phase nationale ne sera pas différée et le déposant devra l'aborder avant l'expiration du délai applicable en vertu de l'article 22 (qui est habituellement de 20 mois à compter de la date de priorité).

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre nº IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre nº IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE Nº I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre nº I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant's registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent's registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne *a été désignée à une date antérieure* (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire international* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international* (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter *avec la demande d'examen* une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i)) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the "eligible States".

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words "wishes not to elect:".

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case nº 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii)).

Cocher la case nº 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre nº IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE Nº V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)i)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre nº V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire : ".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE Nº VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case nº 5 doit être cochée.

CADRE Nº VII

Signature (règles 53.8, 90.3.a) et 90.4.a)) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

(i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);

(ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);

ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation corespondante est signée et qu'elle indique le numéro du compte de dépôt.

THE PATENT COOPERATION TREATY (PCT) IN 2000*

The World Intellectual Property Organization (WIPO), Geneva, announces the main events which occurred in 2000 in relation to the Patent Cooperation Treaty (PCT) and the results of operations under the PCT for that year.

— * —

1. The PCT system offers inventors and industry an advantageous route for obtaining patent protection internationally. By filing one "international" patent application under the PCT, protection for an invention can be sought simultaneously in each of a large number of countries. Both applicants and patent Offices of PCT member States benefit from the uniform formality requirements, the international search and preliminary examination reports, and the centralized international publication provided by the PCT system.

2. ***Developments in 2000.*** The International Bureau of WIPO received 90,948 international applications filed worldwide,[1] which is 16,925 (22.9%) more than in 1999. The 90,948 international applications had the effect of 4,806,623 national applications, and of 262,793 regional applications which would be equivalent to 3,650,549 applications for patent protection in the member States of the regional patent systems, that is, a notional equivalent effect, in total, of 8,457,172 national applications. In March 2000, the PCT reached a milestone in its history with the filing of the 500,000th application. It is interesting to note that the 250,000th application was received in February 1996, 18 years after the start of PCT operations, and it took only four years to receive the next 250,000.

3. During 2000, four new Contracting States became bound by the PCT (on the dates shown in parentheses):

Algeria (March 8, 2000);

Antigua and Barbuda (March 17, 2000);

Mozambique (May 18, 2000);

Belize (June 17, 2000).

* Was published in the Information Note "The Patent Cooperation Treaty (PCT) in 2000" dated 13 February 2001.

1 Figures in this information note for international applications filed in 2000 are based on the number of record copies of international applications received, under PCT Article 12, by the International Bureau in 2000 from PCT receiving Offices (including the Receiving Office Section of the International Bureau).

LE TRAITÉ DE COOPÉRATION EN MATIÈRE DE BREVETS (PCT) EN 2000*

L'Organisation Mondiale de la Propriété Intellectuelle (OMPI), à Genève, communique les principaux faits survenus en 2000 en rapport avec le Traité de coopération en matière de brevets (PCT) ainsi que les résultats des opérations effectuées au titre de ce traité pendant l'année considérée.

— * —

1. Le PCT constitue pour les inventeurs et les industriels une voie intéressante d'obtention de la protection par brevet à l'échelon international. En effet, en déposant une seule demande "internationale" de brevet dans le cadre du PCT, il est possible d'obtenir simultanément la protection d'une invention dans un grand nombre de pays. Le système est avantageux tant pour les déposants que pour les offices de brevets des États contractants, puisqu'il prévoit des formalités uniformes, un rapport de recherche internationale et un rapport d'examen préliminaire international ainsi qu'une publication internationale centralisée.

2. ***Faits nouveaux survenus en 2000.*** Le Bureau international de l'OMPI a reçu 90 948 demandes internationales provenant du monde entier[1], soit 16 925 (22,9%) de plus qu'en 1999. Ces 90 948 demandes internationales ont produit les effets de 4 806 623 demandes nationales et de 262 793 demandes régionales, correspondant à leur tour aux effets de 3 650 549 demandes de protection par brevet dans les États parties à des systèmes de brevets régionaux, ce qui équivaut à l'effet total de 8 457 172 demandes nationales. Mars 2000 a constitué une étape dans l'histoire du PCT puisque c'est ce mois-là que la 500 000^{e} demande a été déposée. Il est à noter que la 250 000^{e} demande a été reçue en février 1996, soit 18 ans après le début du fonctionnement du PCT, et qu'il n'a fallu que quatre années pour recevoir la 250 000^{e} demande suivante.

3. Au cours de l'année 2000, quatre nouveaux États sont devenus liés par le PCT (aux dates indiquées entre parenthèses) :

Algérie (8 mars 2000);

Antigua-et-Barbuda (17 mars 2000);

Mozambique (18 mai 2000);

Belize (17 juin 2000).

* A été publié dans la Note d'information "Le Traité de coopération en matière de brevets (PCT) en 2000" du 13 février 2001.

1 Les chiffres relatifs aux demandes internationales déposées en 2000 ont été calculés à partir du nombre d'exemplaires originaux de demandes internationales transmis, en vertu de l'article 12 du PCT, au Bureau international en 2000 par les offices récepteurs du PCT (y compris par la Section "Office récepteur du PCT" du Bureau international).

4. Colombia deposited its instrument of accession to the PCT on November 29, 2000, bringing the number of States which had acceded to the PCT by December 31, 2000, to 109, as follows:

Albania
Algeria
Antigua and Barbuda

5. On May 8, 2000, Mozambique became bound by the Harare Protocol on Patents and Industrial Designs within the framework of the African Regional Industrial Property Organization (ARIPO). Consequently, as from May 18, 2000 (the date on which Mozambique became bound by the PCT), it became possible for PCT applicants to designate Mozambique for an ARIPO patent, as well as for a national patent. On November 1, 2000, Turkey became bound by the European Patent Convention, and thus, as from that date, it became possible for PCT applicants to designate Turkey for a European patent, as well as for a national patent.

6. ***Summary of the procedure under the PCT.*** The system of patent cooperation established by the PCT means that, by filing only one international application with one Office, an applicant can obtain the effect of regular national filings in any of the designated PCT Contracting States without initially having to furnish a translation of the application or pay national fees. The national patent granting procedure and the related high expenses are postponed, in the majority of cases, by up to 18 months (or even longer in the case of some Offices), as compared with the traditional patent system.

4. La Colombie a déposé son instrument d'adhésion au PCT le 29 novembre 2000; par conséquent, à la date du 31 décembre 2000, les 109 États ci-après avaient adhéré au PCT :

5. Le 8 mai 2000, le Mozambique est devenu lié par le Protocole de Harare sur les brevets et les dessins et modèles industriels dans le cadre de l'Organisation régionale africaine de la propriété industrielle (ARIPO). De ce fait, à compter du 18 mai 2000 (date à laquelle le Mozambique est devenu lié par le PCT), il est devenu possible pour les déposants utilisant le système du PCT de désigner cet État pour un brevet ARIPO, de même que pour un brevet national. Le 1er novembre 2000, la Turquie est devenue liée par la Convention sur le brevet européen, rendant ainsi possible pour les déposants utilisant le système du PCT de désigner, à compter de cette date, cet État pour un brevet européen, de même que pour un brevet national.

6. ***Résumé de la procédure selon le PCT.*** Grâce au système de coopération en matière de brevets instauré par le PCT, le déposant a la possibilité, en déposant une seule demande internationale auprès d'un seul office, d'obtenir l'effet de dépôts nationaux réguliers dans plusieurs ou la totalité des États contractants du traité qu'il a désignés sans devoir initialement remettre de traduction de la demande ni payer de taxes nationales. La procédure nationale de délivrance et le paiement des frais élevés qui s'y rapportent sont, dans la plupart des cas, différés d'une durée pouvant aller jusqu'à 18 mois (voire plus dans le cas de certains offices), si l'on compare avec le système traditionnel de brevets.

7. In addition to designations of PCT Contracting States for the purpose of obtaining national patents, an international application may include designations for regional patents: ARIPO (African Regional Industrial Property Organization) patents have effect in those States party to the Harare Protocol on Patents and Industrial Designs within the framework of ARIPO which are also Contracting States of the PCT; Eurasian patents have effect in States party to the Eurasian Patent Convention; European patents have effect in States party to the European Patent Convention; and OAPI (African Intellectual Property Organization) patents have effect in States party to the revised Bangui Agreement Relating to the Creation of an African Intellectual Property Organization.

8. Each international application is subjected to an international search carried out by one of the major patent Offices, acting as an International Searching Authority under the PCT, which establishes a report setting out the relevant prior art. That report is received by the applicant about 16 months after the priority date. Eighteen months after the priority date, the international application is published by the International Bureau, together with the international search report and any amendments of claims which may be made by the applicant, and is then transmitted to the applicant and the designated Offices.

9. If the applicant so requests (by filing a "demand" for international preliminary examination), and most do so (see paragraph 27), the international application is then subjected to international preliminary examination under PCT Chapter II by one of the Offices that act as International Preliminary Examining Authority. The entry into the national phase of the procedure is also postponed from 20 months after the priority date until 30 months after that date (later time limits apply in some cases) and the applicant is given an additional opportunity to amend the application. The examination results in a report that includes an opinion as to whether the claimed invention fulfills the criteria of novelty, inventive step and industrial applicability. The international preliminary examination report is usually received by the applicant about 28 months after the priority date, and is also sent to the designated Offices which were elected under Chapter II.

10. With the international search report and the international preliminary examination report, the applicant is in a much better position to decide whether to proceed with the national patent granting procedure before the various designated patent Offices. If the applicant considers, in the light of those reports, that it is worthwhile to continue seeking patent protection in several countries, he may then decide to pay the national fees and professional fees for patent agents abroad, and to incur the cost of preparing translations. This need not be done until 20 months or more after the priority date (that is, eight months later than under the traditional system), or, if the applicant has filed a demand for international preliminary examination in time, until 30 months or more after the priority date (that is, 18 months later than under the traditional patent system). At that later time the applicant is also in a much better position to decide about the need for patent protection having regard to increased knowledge of the technical value and commercial prospects of the invention.

11. ***Meetings.*** The Assembly of the PCT Union held its twenty-eighth (16th extraordinary) session in Geneva from March 13 to 17, 2000. The Assembly unanimously adopted a number of amendments to the PCT Regulations, which will enter into force on March 1, 2001. The amendments aim mainly at simplifying the national phase processing of PCT applications and aligning the PCT with the Patent Law Treaty (PLT) which was adopted on June 2, 2000. In particular, the amended Regulations will allow applicants to complete, when filing their international applications, declarations, containing standardized wording, concerning certain matters on which documents or evidence are required for the purposes of the national law in one or more designated States; such matters relate, in particular, to the identity of the inventor, the right to apply for a patent, the right to claim priority, inventorship, and non-prejudicial disclosures. Where declarations are submitted as provided, the circumstances under which further documents or evidence may be required by designated Offices will be restricted to cases where the Offices may reasonably doubt the veracity of the declarations. An amendment to the Regulations was also adopted allowing designated Offices to require that the applicant furnish a translation of the priority document, but only where the validity of the priority claim is relevant to the determination of whether the invention concerned is patentable. Another amendment to the Regulations was adopted with a view to limiting the cases in respect of which the International Preliminary Examining Authority is entitled to invite the applicant to furnish a translation of the priority document: the cases concerned would be those where the validity of a priority claim made in the international application is relevant for the formulation of the opinion as to the patentability of the invention.

7. Outre les désignations d'États contractants du PCT en vue de l'obtention de brevets nationaux, une demande internationale peut comporter des désignations pour des brevets régionaux : les brevets ARIPO (Organisation régionale africaine de la propriété industrielle) produisent leurs effets dans les États parties au Protocole de Harare relatif aux brevets et aux dessins et modèles industriels dans le cadre de l'ARIPO qui sont également des États contractants du PCT; les brevets eurasiens produisent leurs effets dans les États parties à la Convention sur le brevet eurasien; les brevets européens produisent leurs effets dans les États parties à la Convention sur le brevet européen; et les brevets OAPI (Organisation africaine de la propriété intellectuelle) produisent leurs effets dans les États parties à l'Accord portant révision de l'Accord de Bangui instituant une Organisation africaine de la propriété intellectuelle.

8. Chaque demande internationale fait l'objet d'une recherche internationale effectuée par l'un des grands offices de brevets, agissant en qualité d'administration chargée de la recherche internationale selon le PCT. Cet office établit un rapport de recherche internationale indiquant l'état de la technique pertinent. Le déposant reçoit ce rapport environ 16 mois à compter de la date de priorité. Dix-huit mois après la date de priorité, le Bureau international publie la demande internationale avec le rapport de recherche internationale et avec les éventuelles modifications que le déposant a pu apporter aux revendications. Il la transmet ensuite aux offices désignés et au déposant.

9. Si le déposant le demande (en présentant une demande d'examen préliminaire international), comme il le fait d'ailleurs dans la plupart des cas (voir le paragraphe 27), la demande internationale fait alors l'objet d'un examen préliminaire international conformément au chapitre II du PCT, effectué par l'un des offices agissant en qualité d'administrations chargées de l'examen préliminaire international, et l'ouverture de la phase nationale est retardée de 20 à 30 mois à compter de la date de priorité (les délais étant même plus longs dans certains cas), ce qui donne au déposant une occasion supplémentaire de modifier la demande. Cet examen aboutit à l'établissement d'un rapport dans lequel est formulée une opinion sur le point de savoir si l'invention revendiquée satisfait aux critères de nouveauté, d'activité inventive et de possibilité d'application industrielle. Le déposant reçoit le rapport d'examen préliminaire international environ 28 mois après la date de priorité et ce rapport est aussi adressé aux offices désignés qui ont été élus selon le chapitre II.

10. Une fois en possession du rapport de recherche internationale et du rapport d'examen préliminaire international, le déposant est bien mieux placé pour déterminer s'il convient d'entamer la procédure nationale de délivrance auprès des différents offices de brevets désignés. S'il estime, au vu de ces rapports, qu'il a intérêt à obtenir une protection par brevet dans différents pays, il peut décider d'acquitter les taxes nationales et les honoraires des mandataires étrangers et d'engager les frais afférents à l'établissement des traductions. Pour prendre cette décision, il dispose d'un délai de 20 mois au moins à compter de la date de priorité (soit huit mois de plus que dans le système traditionnel), ou même de 30 mois au moins à compter de la date de priorité (soit 18 mois de plus que dans le système traditionnel) s'il a déposé une demande d'examen préliminaire international en temps utile. À ce moment-là, le déposant sera également bien mieux à même de se prononcer sur la nécessité d'une protection par brevet, car il aura une meilleure connaissance des perspectives offertes par l'invention sur les plans technique et commercial.

11. ***Réunions.*** L'Assemblée de l'Union du PCT a tenu sa vingt-huitième session (16e session extraordinaire) à Genève, du 13 au 17 mars 2000. L'Assemblée a adopté à l'unanimité un certain nombre de modifications du règlement d'exécution du PCT, qui entreront en vigueur le 1er mars 2001. Ces modifications visent essentiellement à simplifier le traitement, dans la phase nationale, des demandes déposées en vertu du PCT et à harmoniser le PCT avec le Traité sur le droit des brevets (PLT), qui a été adopté le 2 juin 2000. Les règles telles que modifiées permettront notamment aux déposants, au moment où ils déposent leur demande internationale, de compléter des déclarations rédigées selon le libellé standard sur certains points pour lesquels des documents ou des preuves sont exigées conformément à la législation nationale d'un ou de plusieurs offices désignés; ces points portent en particulier sur l'identité de l'inventeur, le droit du déposant de demander un brevet, le droit du déposant de revendiquer la priorité d'une demande antérieure, la qualité d'inventeur et les divulgations non opposables. Lorsqu'une déclaration est remise conformément à ce qui est prescrit, l'office désigné ne pourra exiger d'autres documents ou preuves que lorsqu'il peut raisonnablement douter de la véracité de la déclaration. Une autre modification du règlement d'exécution a été adoptée pour permettre aux offices désignés d'exiger du déposant qu'il ne fournisse une traduction du document de priorité que lorsque la validité de la revendication de priorité faite dans la demande internationale a une incidence pour déterminer si l'invention en cause est brevetable. Une autre modification encore du règlement d'exécution vise à restreindre le droit de l'administration chargée de l'examen préliminaire international d'inviter le déposant à lui remettre une traduction du document de priorité aux cas où la validité de la revendication de priorité faite dans la demande internationale a une incidence sur la formulation de l'opinion sur la brevetabilité de l'invention.

12. From July 11 to 14, 2000, a PCT Informal Consultation Meeting on Electronic Filing was held in Geneva. Proposed modifications of the PCT Administrative Instructions (new Part 7) relating to the electronic filing, processing, storage and records management of international applications, as well as a proposed technical standard in new Annex F to the Administrative Instructions, were discussed. The Meeting made significant progress towards the establishment of a legal framework and technical standard for the electronic filing and processing of PCT applications. It discussed, in particular, a set of common procedures for use by PCT applicants who have access to a personal computer and the Internet, and by PCT receiving Offices, using WIPO-furnished software. (See also paragraph 16.)

13. The Assembly of the PCT Union held its twenty-ninth (17^{th} extraordinary) session in Geneva from September 25 to October 3, 2000. The Assembly decided to amend the Schedule of Fees to decrease the maximum number of designation fees payable, with effect from January 1, 2001, from eight to six (following the reduction from ten to eight as from January 1, 2000). Now, any designation made under PCT Rule 4.9(a) in excess of six does not require the payment of a designation fee. It was also announced at the Assembly that the Director General of WIPO had decided that, with effect from January 1, 2001, the transmittal fee charged by the International Bureau acting as receiving Office would be reduced from 300 Swiss francs to 100 Swiss francs, and that those applicants who presently qualify for a 75% reduction in the international fee would not pay any transmittal fee when filing international applications with that Office. The Assembly also discussed proposals for reform of the PCT, which had been made by the United States of America, and decided that a special body (consisting of Member States, the International Searching and Preliminary Authorities and observers, in particular, intergovernmental and non-governmental organizations, including the European Commission) would be set up to consider proposals for reform of the PCT.

14. ***Seminars.*** In 2000, officials of the International Bureau participated in 136 seminars and presentations that dealt with the use and advantages of the PCT and the promotion of accession to it. Those seminars and presentations were held in Antigua and Barbuda, Argentina, Bangladesh, Barbados, Belize, Bolivia, Brazil, Canada, China, Colombia, Costa Rica, Cuba, Denmark, Dominica, Ecuador, El Salvador, Finland, France, the Gambia, Germany, Guatemala, Honduras, India, Indonesia, Israel, Italy, Jamaica, Japan, Jordan, the Libyan Arab Jamahiriya, Madagascar, Mauritania, Morocco, Nicaragua, Niger, Panama, Paraguay, Peru, the Republic of Korea, Singapore, Slovakia, South Africa, Spain, Sri Lanka, Sudan, Suriname, Sweden, Switzerland, Thailand, Trinidad and Tobago, Turkey, the United Kingdom, the United Republic of Tanzania, the United States of America and Venezuela. They were given to about 8,900 users and potential users of the PCT system in the following languages: Arabic, Chinese, English, French, German, Japanese, Korean, Russian and Spanish. They included 13 specialized presentations that were given to some 540 people on the use of the PCT-EASY software.

15. ***PCT Information Line.*** The PCT Information Line answers general inquiries about the filing of international applications and the procedure during the international phase under the PCT. Where necessary, inquiries are referred to the authorized officer responsible for a particular application, or to the PCT Legal Division. The PCT Information Line can be contacted as follows:

by telephone: (41–22) 338 83 38
by fax: (41–22) 338 83 39
by e-mail: pct.infoline@wipo.int

12. Une réunion consultative informelle du PCT relative au dépôt électronique s'est tenue à Genève, du 11 au 14 juillet 2000. Les participants ont examiné les propositions de modification des Instructions administratives du PCT (nouvelle septième partie) relatives au dépôt, au traitement et à l'archivage électroniques des demandes internationales et à la gestion des dossiers électroniques relatifs à ces demandes ainsi que la norme technique qu'il était proposé d'incorporer dans la nouvelle annexe F de ces instructions. Les travaux sur la création d'un cadre juridique et d'une norme technique aux fins du dépôt et du traitement électroniques des demandes déposées en vertu du PCT ont considérablement progressé. Les participants ont notamment débattu d'un ensemble de procédures communes qui seraient suivies par les déposants dotés d'un ordinateur individuel et ayant accès à l'Internet et par les offices récepteurs du PCT utilisant le logiciel fourni par l'OMPI (voir aussi le paragraphe 16).

13. L'Assemblée de l'Union du PCT a tenu sa vingt-neuvième session (17e session extraordinaire) à Genève, du 25 septembre au 3 octobre 2000. Elle a décidé de modifier le barème de taxes en vue de ramener de huit à six le nombre maximum de taxes de désignation à payer à compter du 1er janvier 2001 (ce nombre ayant déjà été ramené de 10 à huit au 1er janvier 2000). Aujourd'hui, toute désignation faite en vertu de la règle 4.9.a) du PCT après paiement de six taxes de désignation n'entraîne le paiement d'aucune autre taxe de ce type. L'Assemblée a aussi été informée du fait que le directeur général de l'OMPI a décidé, avec effet au 1er janvier 2001, de réduire de 300 francs suisses à 100 francs suisses le montant de la taxe de transmission perçue par le Bureau international agissant en tant qu'office récepteur et que les déposants bénéficiant d'une réduction de 75% de la taxe internationale seraient entièrement exonérés de la taxe de transmission lorsqu'ils déposeront leur demande internationale auprès de cet office. L'Assemblée a aussi examiné une proposition de réforme du PCT émanant des États-Unis d'Amérique et a décidé qu'un organe spécial (composé d'États membres, d'administrations chargées de la recherche internationale ou de l'examen préliminaire international et d'observateurs, c'est-à-dire notamment des organisations intergouvernementales ou non gouvernementales y compris la Commission européenne) serait créé en vue d'examiner les propositions de réforme du PCT.

14. ***Séminaires.*** En 2000, des fonctionnaires du Bureau international ont participé à 136 séminaires et conférences sur l'utilisation et les avantages du PCT, visant également à favoriser les adhésions à ce traité. Ces séminaires et conférences ont eu lieu dans les pays suivants : Afrique du Sud, Allemagne, Antigua-et-Barbuda, Argentine, Bangladesh, Barbade, Belize, Bolivie, Brésil, Canada, Chine, Colombie, Costa Rica, Cuba, Danemark, Dominique, El Salvador, Équateur, Espagne, États-Unis d'Amérique, Finlande, France, Gambie, Guatemala, Honduras, Inde, Indonésie, Israël, Italie, Jamahiriya arabe libyenne, Jamaïque, Japon, Jordanie, Madagascar, Maroc, Mauritanie, Nicaragua, Niger, Panama, Paraguay, Pérou, République de Corée, République-Unie de Tanzanie, Royaume-Uni, Singapour, Slovaquie, Soudan, Sri Lanka, Suède, Suisse, Suriname, Thaïlande, Trinité-et-Tobago, Turquie et Venezuela. Environ 8900 utilisateurs effectifs ou potentiels du système du PCT ont ainsi pu suivre des exposés présentés dans les langues suivantes : français, allemand, anglais, arabe, chinois, coréen, espagnol, japonais et russe. Parmi ceux-ci, il faut citer 13 exposés consacrés spécialement à l'utilisation du logiciel PCT-EASY, auxquels ont assisté plus de 540 personnes.

15. ***Service d'information directe du PCT.*** Le service d'information directe du PCT est chargé de répondre aux questions d'ordre général concernant le dépôt des demandes internationales et la procédure de la phase internationale du PCT. Au besoin, les questions sont soumises au fonctionnaire autorisé responsable de la demande en cause, ou à la Division juridique du PCT. Les coordonnées du Service d'information directe du PCT sont les suivantes :

16. ***Developments in PCT Automation.***

– PCT-EASY: during 2000, four receiving Offices notified the International Bureau that they are prepared to accept the filing of international applications containing requests prepared using PCT-EASY together with PCT-EASY diskettes, bringing the number of receiving Offices which have made such notifications to 58 (out of the 81 PCT receiving Offices). Regular updates (five in 2000) of the PCT-EASY software are issued to take into account changes, such as new PCT Contracting States and changes in PCT fees. A new export/import functionality was also introduced to facilitate data exchange between EASY systems, to provide the possibility for creating a backup of essential PCT-EASY data and enable the transfer of PCT-EASY address book data to/from external programs. The software is available, together with supporting documentation, in Chinese, English, French, German, Japanese, Russian and Spanish, and can be downloaded from the Internet from the PCT-EASY home page (*http://pcteasy.wipo.int*) or the PCT home page (*http://www.wipo.int/pct/en/index.html*). It may also be obtained from the PCT-EASY Help Desk:

by fax: (41–22) 338 80 40
by e-mail: pcteasy.help@wipo.int

For statistics on the filing of international applications using the PCT-EASY software, see paragraph 20.

– PCT IMPACT (Information Management for the PAtent Cooperation Treaty): following the completion, in December 1999, of the tender process and the selection of a consortium of three companies led by Xerox Professional Services (XPS) (United Kingdom), work on the project continued in 2000. (The other companies are Cap Gemini Ernst & Young (France) and Hewlett Packard (Switzerland).) According to the IMPACT project plan, the project will be implemented in three phases: (i) the IMPACT Communication System phase; (ii) the IMPACT/IB (International Bureau) phase; and (iii) the IMPACT/RO/IB (receiving Office of the International Bureau) phase. The objective of the first phase of the IMPACT Project, the IMPACT Communication System, is to establish a new system for the communication of certain PCT-related documents (such as PCT pamphlets, copies of priority documents, various PCT Forms and, under Chapter II of the PCT, international preliminary examination reports and any English translations thereof) to designated/elected Offices, International Searching Authorities, International Preliminary Examining Authorities and/or national/regional Offices of PCT Contracting States. At the end of 2000, this first phase of the project entered the prototype stage. The objective of the second and third phases of the project, IMPACT/IB and IMPACT/RO/IB, on which the IMPACT project team will focus its activities in 2001, is to establish a new system for the processing (including automated publication) of international applications within the International Bureau, including its receiving Office section.

– PCT electronic filing project: the main objectives of this project are to adopt a standard for the electronic filing and processing of international applications and to develop a system for the electronic filing of international applications based on the present PCT-EASY software. Step one of this project includes the construction of a pilot system. It is expected that the International Bureau as receiving Office will, in November 2001, commence receipt of international applications prepared using extended PCT-EASY software, in paper form with parallel electronic submission, on a pilot basis. In December 2001, other receiving Offices with the necessary technical capacity are expected to have the possibility of receiving international applications in electronic form. Step two of the project will more fully implement electronic filing, including the provision of electronic filing software for other receiving Offices. (See also paragraph 12.)

17. ***Statistics.*** The following graph shows the number of international applications received by the International Bureau in each calendar year since the beginning of PCT operations:

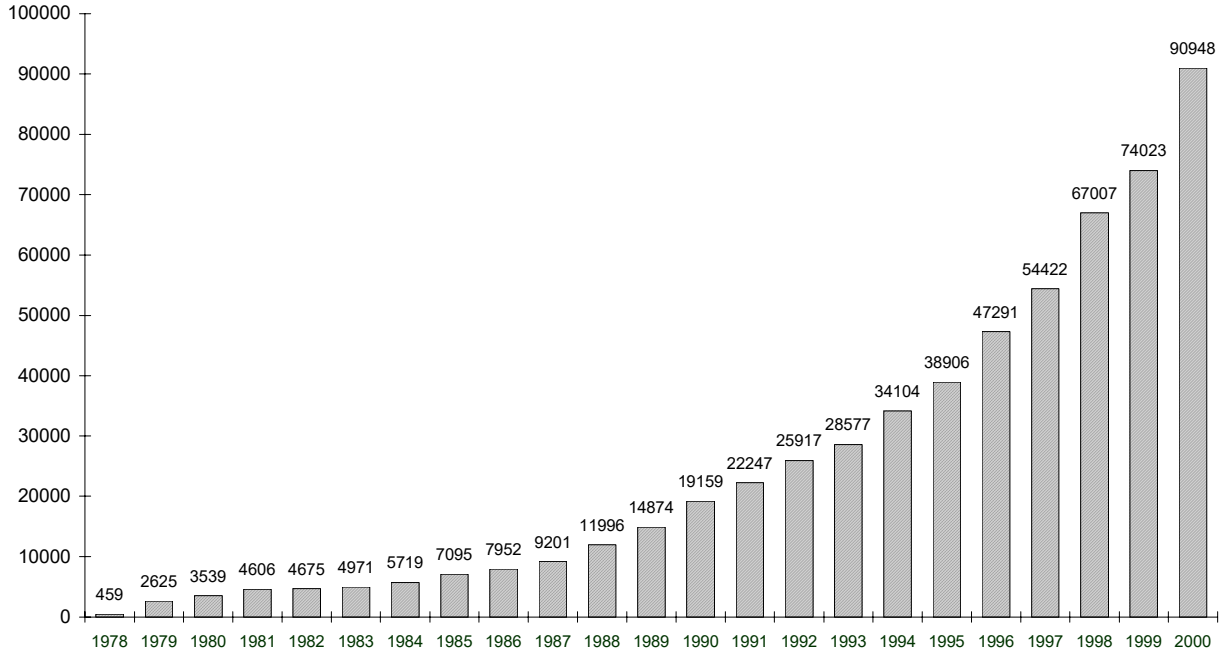
16. ***Faits nouveaux relatifs à l'automatisation du PCT.***

– PCT-EASY : en 2000, quatre office récepteurs ont informé le Bureau international qu'ils étaient prêts à accepter le dépôt de demandes internationales contenant des requêtes en mode de présentation PCT-EASY avec des disquettes PCT-EASY, portant ainsi à 58 (sur les 81) le nombre d'offices récepteurs ayant procédé à cette notification. Le logiciel PCT-EASY est régulièrement mis à jour (cinq mises à jour en 2000) pour tenir compte de modifications telles que l'adhésion de nouveaux États contractants ou la modification des taxes du PCT. Une nouvelle fonction d'exportation/importation a été incorporée en vue de faciliter les échanges de données entre systèmes utilisant le logiciel PCT-EASY ainsi que de permettre la création d'une copie de sauvegarde des données essentielles PCT-EASY et le transfert des données figurant dans le carnet d'adresses PCT-EASY vers des programmes extérieurs où l'incorporation de données provenant de programmes extérieurs dans le carnet d'adresses PCT-EASY. Le logiciel et sa documentation sont disponibles en français, en allemand, en anglais, en chinois, en espagnol, en japonais, et en russe, et peut être téléchargé sur l'Internet à partir de la page d'accueil PCT-EASY (*http://pcteasy.wipo.int*) ou de la page d'accueil du PCT (*http://www.wipo.int/pct/fr/index.html*). On peut aussi s'adresser au groupe d'assistance PCT-EASY :

Tél. : (41–22) 338 95 23
Tlcp. : (41–22) 338 80 40
Mél. : pcteasy.help@wipo.int

On trouvera au paragraphe 20 des statistiques sur le dépôt des demandes internationales au moyen du logiciel PCT-EASY.

– Projet IMPACT (Information Management for the PAtent Cooperation Treaty – Gestion de l'information concernant le Traité de coopération en matière de brevets) : à la suite de l'achèvement, en décembre 1999, du processus d'appel d'offres et du choix d'un consortium composé de trois sociétés et dirigé par Xerox Professional Services (XPS) (Royaume-Uni), les travaux relatifs au projet se sont poursuivis en 2000 (les autres sociétés membres du consortium sont Cap Gemini Ernst & Young (France) et Hewlett Packard (Suisse)). Selon le plan établi, le projet comprend les trois phases suivantes : i) IMPACT - système de communication; ii) IMPACT - Bureau international ("IB") et iii) IMPACT - Office récepteur du Bureau international ("RO/IB"). La première phase (IMPACT - système de communication) du projet doit permettre de créer un nouveau système pour la communication de certains documents en rapport avec le PCT (tels que brochures PCT, copies de documents de priorité, divers formulaires PCT et, dans le cadre du chapitre II du PCT, rapports d'examen préliminaire international et toute traduction en anglais de ces rapports) à destination des offices désignés ou élus, des administrations chargées de la recherche internationale, des administrations chargées de l'examen préliminaire international et des offices nationaux ou régionaux des États contractants du PCT. À la fin de 2000, cette première phase du projet en était au stade du prototype. L'objectif des deuxième et troisième phases (IMPACT-IB et IMPACT-RO/IB) du projet, sur lequel seront axées les activités de l'équipe chargée du projet IMPACT en 2001, est d'établir un nouveau système de traitement (y compris la publication automatisée) des demandes internationales au sein du Bureau international et de son office récepteur.



– Projet de dépôt électronique dans le cadre du PCT : les principaux objectifs de ce projet sont l'adoption d'une norme relative au dépôt et au traitement électroniques des demandes internationales et la mise en œuvre d'un système de dépôt électronique des demandes internationales s'appuyant sur le logiciel PCT-EASY actuel. Le premier stade de ce projet comprend la mise au point d'un système pilote. Il est prévu que le Bureau international, en sa qualité d'office récepteur, commence, en novembre 2001, à recevoir des demandes internationales préparées à l'aide du logiciel PCT-EASY, sur support papier avec dépôt électronique en parallèle, dans le cadre d'un essai. En décembre 2001, d'autres offices récepteurs dotés des moyens techniques nécessaires devraient pouvoir recevoir des demandes internationales sous forme électronique. Le second stade du projet, qui devrait permettre de renforcer la mise en place du dépôt électronique, comprend la fourniture d'un logiciel de dépôt électronique à d'autres offices récepteurs (voir aussi le paragraphe 12).

2 Figures relate to receiving Offices with which international applications were filed, except that applications filed with regional Offices or with the International Bureau as receiving Offices are included under the applicant's country of residence. Of the total, 12,666 (= 13.9%) were filed with the European Patent Office (EPO) as receiving Office and 1,975 (= 2.2%) were filed with the International Bureau as receiving Office.

3 The national Office of Switzerland also acts as receiving Office for nationals and residents of Liechtenstein.

19. Applicants from the United States of America filed the largest number of PCT applications in 2000, having filed 42.0% of all applications, followed by Germany (13.2%), Japan (10.3%), the United Kingdom (6.1%) and France (4.0%), thus repeating the trend of 1999. The filing of PCT applications in developing countries that are members of the PCT increased overall by 80.6% over 1999, with a particularly high increase in applications filed by applicants from India (155.8%), China (141.3%), the Republic of Korea (91.6%) and South Africa (37.4%). A total of 3,152 international applications originated from developing countries, the highest number originating from the Republic of Korea (1,514), China (579), South Africa (386), Singapore (225), Brazil (161) and India (156).

20. An increasing number of applicants are taking advantage of the benefits of filing international applications containing requests prepared using the PCT-EASY software. Of the 90,948 international applications filed in 2000, 24,882 (27.4%) were prepared using the PCT-EASY software (1999: 13%).

21. In 2000, the average number of designations made per international application was 56 (1999: 45). This figure is much higher than the number of States for which patent protection will eventually be sought, because the applicants in respect of 68.4% of international applications filed in 2000 (1999: 58.7%) used the possibility of paying the maximum of eight designation fees[6] while making as many as all possible designations. Such applicants extend the effects of their international applications to as many States as might later be of interest to them, deferring the decision as to which States they wish to proceed in. Most applicants make designations for regional patents, which designations themselves have effect in a number of States. For example, in 2000, a European patent was sought in 97.1% of all international applications.

---

5 Figures relate to receiving Offices with which international applications were filed, except that applications filed with regional Offices or with the International Bureau as receiving Offices are included under the applicant's country of residence. Of the total, 12,666 (= 13.9%) were filed with the European Patent Office (EPO) as receiving Office and 1,975 (= 2.2%) were filed with the International Bureau as receiving Office.

6 With effect from January 1, 2001, the maximum number of designation fees payable is six.

19. En 2000, ce sont les déposants des États-Unis d'Amérique qui ont le plus recouru au système du PCT (42% de toutes les demandes déposées), suivis des déposants de l'Allemagne (13,2%), du Japon (10,3%), du Royaume-Uni (6,1%) et de la France (4%), confirmant ainsi la tendance de 1999. Le nombre de demandes émanant de déposants de pays en développement ayant adhéré au PCT a augmenté globalement de 80,6% par rapport à 1999, cette augmentation étant particulièrement élevée pour l'Inde (155,8%), la Chine (141,3%), la République de Corée (91,6%) et l'Afrique du Sud (37,4%). Trois mille cent cinquante-deux (3152) demandes internationales émanaient de déposants de pays en développement, les chiffres les plus élevés concernant la République de Corée (1514), la Chine (579), l'Afrique du Sud (386), Singapour (225), le Brésil (161) et l'Inde (156).

20. Un nombre croissant de déposants profitent des avantages qu'offre le dépôt des demandes internationales contenant les requêtes établies à l'aide du logiciel PCT-EASY. Sur les 90 948 demandes internationales déposées en 2000, 24 882 (27,4%) ont été établies à l'aide du logiciel PCT-EASY (contre 13% en 1999).

21. En 2000, le nombre moyen de désignations par demande internationale a été de 56 (contre 45 en 1999). Ce chiffre est beaucoup plus élevé que le nombre d'États dans lesquels les déposants chercheront en fin de compte à obtenir une protection par brevet; en effet, pour 68,4% des demandes internationales déposées en 2000 (contre 58,7% en 1999), les déposants ont opté pour le paiement du maximum de huit taxes de désignation[6], ce qui leur permet de désigner autant d'États contractants du PCT qu'ils le souhaitent. Les déposants étendent ainsi les effets de la demande internationale à tous les États qui peuvent présenter un intérêt pour eux, tout en gardant la possibilité de ne décider qu'à un stade ultérieur dans quels États ils vont poursuivre la procédure. La plupart des déposants font des désignations en vue de l'obtention de brevets régionaux, qui produisent leurs effets dans plusieurs États; ainsi, en 2000, un brevet européen a été demandé dans 97,1% des demandes internationales.

6 À compter du 1er janvier 2001, le nombre maximum de taxes de désignation à payer est de six.

23. In 2000, the International Bureau as receiving Office received 2,045 international applications from applicants from 50 countries, and in July 2000, it received its 10,000th application since it began operations. The 2,045 applications include 654 (32% of applications received by that Office) which benefited from the safeguard procedure under which international applications are transmitted from another receiving Office to the International Bureau in its capacity as receiving Office while retaining their initial filing date (for example, where they have been filed with a "non-competent" receiving Office, for reasons of nationality or residence of the applicant or where the application was not filed in the prescribed language).

7 An international application filed in a language other than one of the languages of publication under the PCT are published as a translation into a language of publication; see paragraph 32.

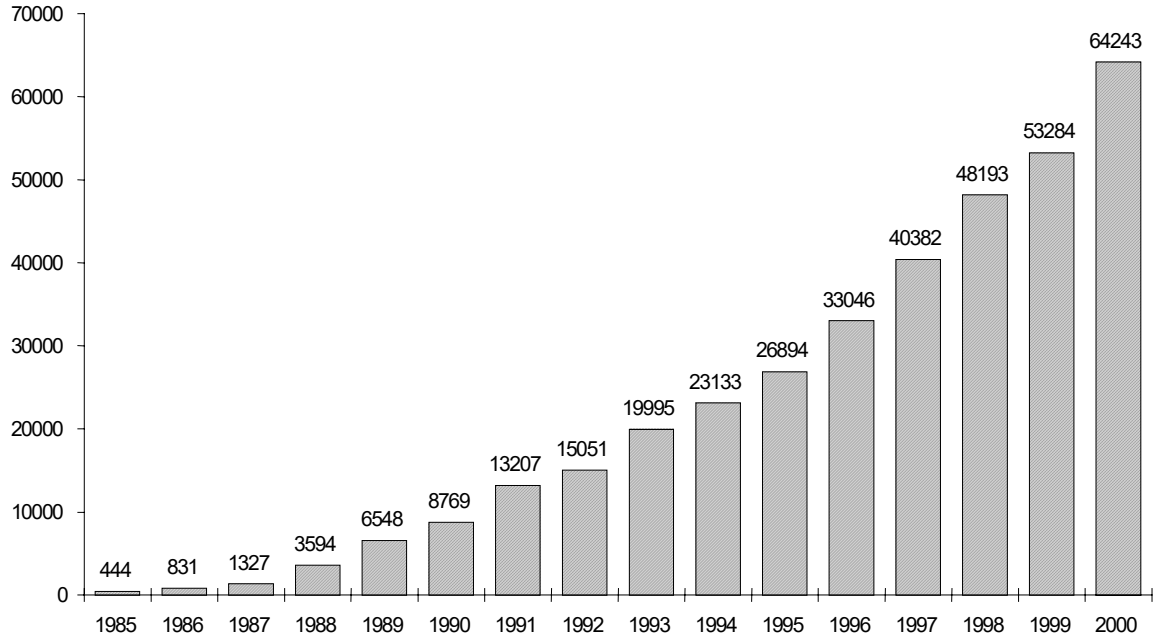
23. En 2000, le Bureau international de l'OMPI agissant en qualité d'office récepteur a reçu 2045 demandes internationales, qui provenaient de déposants de 50 pays et, en juillet 2000, il a reçu la 10 000e demande depuis que les opérations effectuées au titre de ce traité ont commencé. Parmi ces demandes, 654, soit 32% du total, ont bénéficié de la procédure de sauvegarde en vertu de laquelle une demande internationale déposée auprès d'un autre office récepteur est transmise au Bureau international agissant en qualité d'office récepteur tout en conservant sa date de dépôt initiale (par exemple, lorsqu'elle a été déposée auprès d'un office récepteur "non compétent", en raison de la nationalité ou du domicile du déposant, ou lorsqu'elle n'a pas été déposée dans la langue prescrite).



[7] Les demandes internationales déposées dans une langue ne faisant pas partie des langues de publication prévues par le PCT sont publiées et traduites dans une des langues de publication; voir le paragraphe 32.

24. A copy of the international application is sent to the International Searching Authority competent for carrying out the international search. Where more than one Authority is competent, the applicant chooses the one he would like to carry out the search. The number of international applications that were sent to each International Searching Authority in 2000 is indicated below:

25. The number of demands for international preliminary examination sent to the International Bureau by the International Preliminary Examining Authorities in 2000 amounted to 64,243, which represents an increase over 1999 of 20.6%. The number of demands received in each calendar year since 1985 is indicated below:

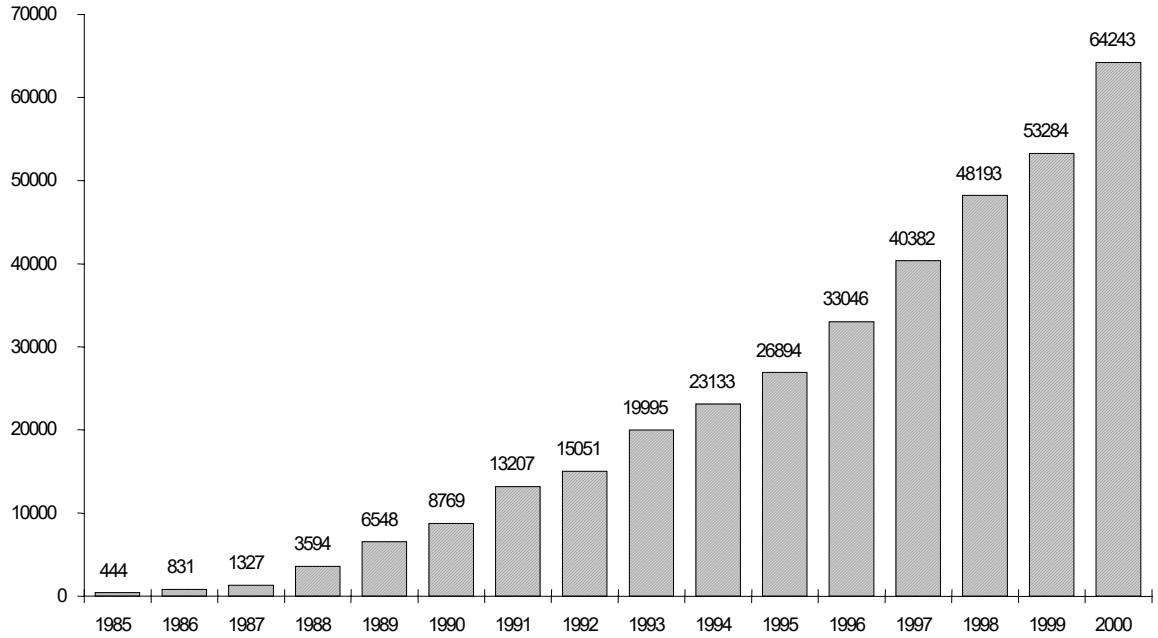
8 The Korean Intellectual Property Office started functioning as an International Searching Authority on December 1, 1999.

9 Two of the 90,948 international applications filed in 2000 are not included in this total because international processing had been discontinued.



10 Three of the 74,023 international applications filed in 1999 are not included in this total because international processing had been discontinued.

24. Une copie de chaque demande internationale est envoyée à l'administration chargée de la recherche internationale qui est compétente pour procéder à cette recherche. Lorsque plusieurs administrations sont compétentes, le déposant choisit celle à laquelle il préfère confier cette recherche. Le nombre de demandes internationales envoyées aux différentes administrations en question en 2000 s'établit comme suit :

27. The demands for international preliminary examination received in 2000 relate mainly to international applications filed in 1999. Demands are filed in respect of about 85% of all applications.

28. Where required, the International Bureau prepares translations of the international search report and the international preliminary examination report (into English), and of the abstract (into English and/or French). In 2000, the International Bureau translated 102,844 abstracts, 1,000 international search reports and 11,640 international preliminary examination reports.

29. ***Publications under the PCT.*** The *PCT Gazette* contains, in English and French, the following sections:

Section I: Published International Applications (the bibliographic data, the abstract and any drawing, for each international application published)

Section II: Notices and Information Relating to Published International Applications

Section III: Weekly Indexes

Section IV: Notices and Information of a General Character

The Internet version of the *PCT Gazette* is available, free-of-charge, via the WIPO home page (*http://ipdl.wipo.int*). In this version of the *Gazette*, Section I is fully searchable, with searches possible by single words, symbols or phrases and by a number of fields. Users of the electronic version of the *Gazette* can also link, via the "VIEW IMAGES" button at the top of the page of the *Gazette* entry concerned, to the European Patent Office's esp@cenet service and view the full text of published PCT applications (that is, the bibliographic data, description, claims, drawings and abstract) and corresponding international search reports. This service is available for all international applications published between January 1, 1997, and the last but two current publication weeks.

30. There are two series of CD-ROMs containing information from the *Gazette*, as follows:

– the monthly ESPACE-FIRST CD-ROMs that are produced by the European Patent Office, in cooperation with WIPO (see also paragraphs 36 and 40);

– the CD-ROMs produced by Bundesdruckerei GmbH, in cooperation with WIPO, issued every week on the day on which WIPO publishes the corresponding international applications (see also paragraph 41).

[11] The Korean Intellectual Property Office started functioning as an International Preliminary Examining Authority on December 1, 1999.

26. Le nombre de demandes d'examen préliminaire international envoyées au Bureau international par chaque administration chargée de l'examen préliminaire international s'établit comme suit :

Administration chargée de l'examen préliminaire international	*Nombre de demandes*		*Pourcentage*	
	2000	**(1999)**	**2000**	**(1999)**
Office européen des brevets	37 427	(30 801)	58,3	(57,8)
États-Unis d'Amérique	16 389	(14 218)	25,5	(26,7)
Japon	4 401	(3 283)	6,9	(6,2)
Suède	3 420	(3 007)	5,3	(5,6)
Australie	1 372	(1 126)	2,1	(2,1)

Chine	244	(186)	0,4	(0,3)
TOTAL	64 243	(53 284)	100,0	(100,0)

27. Les demandes d'examen préliminaire international reçues en 2000 concernent essentiellement des demandes internationales déposées en 1999. Des demandes d'examen préliminaire international sont déposées pour environ 85% des demandes internationales.

28. Lorsque cela est nécessaire, le Bureau international établit des traductions du rapport de recherche internationale et du rapport d'examen préliminaire international (en anglais) ainsi que de l'abrégé (en anglais ou en français). En 2000, le Bureau international a traduit 102 844 abrégés, 1000 rapports de recherche internationale et 11 640 rapports d'examen préliminaire international.

29. ***Publications du PCT.*** La *Gazette du PCT* contient, en français et en anglais, les sections suivantes :

Section I : Demandes internationales publiées (données bibliographiques, abrégé et éventuellement dessin pour chaque demande internationale publiée)

Section II : Notifications et informations relatives aux demandes internationales publiées

Section III : Index hebdomadaires

Section IV : Notifications et informations de caractère général.

La version Internet de la *Gazette du PCT* est disponible gratuitement via la page d'accueil de l'OMPI (*http://ipdl.wipo.int*). Dans cette version de la *Gazette*, la Section I permet une recherche sur tous les éléments par mots isolés, symboles ou groupes de mots et en fonction de différentes rubriques. Les utilisateurs de la version électronique de la *Gazette* peuvent accéder, grâce au bouton "VIEW IMAGES" situé en haut de la page de l'entrée correspondante de la *Gazette*, au service esp@cenet de l'Office européen des brevets et visionner le texte intégral des demandes PCT publiées (à savoir, données bibliographiques, description, revendications, dessins et abrégé) et des rapports de recherche internationale correspondants. Ce service comprend toutes les demandes internationales publiées entre le 1er janvier 1997 et l'antépénultième semaine de publication.

30. Il existe deux séries de disques compacts ROM contenant des renseignements tirés de la *Gazette du PCT* :

– le disque compact ROM mensuel ESPACE-FIRST qui est produit par l'Office européen des brevets en collaboration avec l'OMPI (voir aussi les paragraphes 36 et 40);

– les disques compacts ROM produits par Bundesdruckerei GmbH, en collaboration avec l'OMPI, publiés chaque semaine le jour où l'OMPI publie les demandes internationales correspondantes (voir aussi le paragraphe 41).

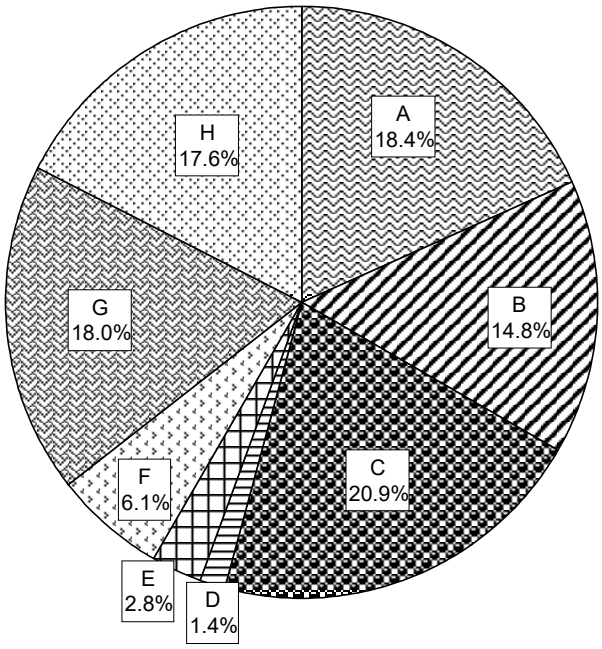
[11] L'Office coréen de la propriété intellectuelle agit en qualité d'administration chargée de l'examen préliminaire international depuis le 1er décembre 1999.



31. In 2000, the *Gazette* included entries relating to the 79,947 international applications (1999: 68,038) which were published in 2000 in the form of PCT pamphlets (in Chinese, English, French, German, Japanese, Russian or Spanish, depending on the language of filing and/or translation furnished) on the same day as the relevant issue of the *Gazette*. The *Gazette* also included, in Section IV, a substantial volume of information of a general character concerning new Contracting States and the requirements of the various Offices and International Authorities. In September, a bilingual (English/French) index to the 1999 *Gazette issues*, containing over 1,600 pages, was published. In January and July, special issues of the *Gazette* were published (Nos. S-01/2000 (E) and (F) (January) and S-02/2000 (E) and (F) (July)), in separate English and French versions, containing consolidated general information relating to PCT Contracting States, national and regional Offices and International Authorities under the PCT.

32. The number of international applications published in 2000 in each of the languages of publication was as follows:

Language of publication	*Number of applications*		*Percentage*	
	2000	**(1999)**	**2000**	**(1999)**
English	56,084	(47,389)	70.2	(69.6)

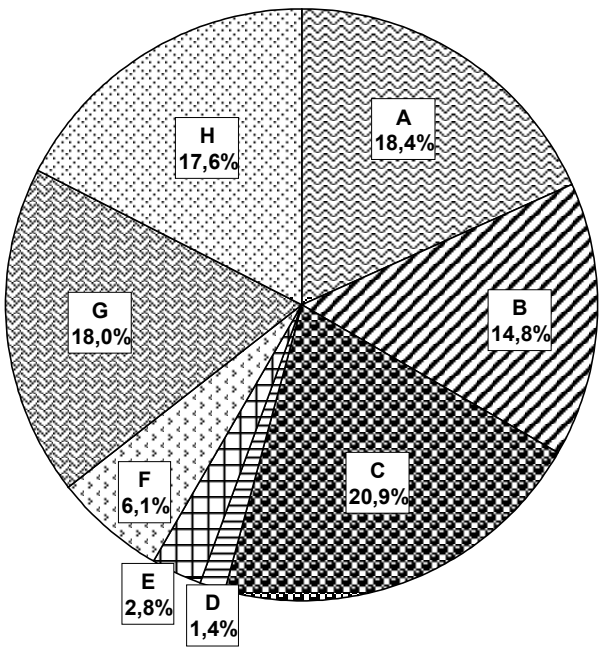
TOTAL	79,947	(68,038)	100.0	(100.0)

33. The main fields of technology to which those published international applications related were chemistry and metallurgy, human necessities and physics. The chart below shows the breakdown of PCT applications published in 2000 according to the eight main technical fields of the International Patent Classification (IPC) System.

PCT applications published in 2000: breakdown according to the main technical fields under the IPC



31. En 2000, la *Gazette du PCT* a comporté des rubriques relatives aux 79 947 demandes internationales (68 038 en 1999) qui ont été publiées en 2000 sous la forme de brochures PCT (en français, en allemand, en anglais, en chinois, en espagnol, en japonais ou en russe, selon la langue de dépôt et la traduction fournie) le même jour que les numéros correspondants de la *Gazette*. La *Gazette* a également comporté, dans sa section IV, de nombreuses informations de caractère général concernant les nouveaux États contractants et les exigences des divers offices et administrations internationales. En septembre, un index bilingue (français et anglais) des numéros publiés en 1999, contenant plus de 1600 pages, a été publié. En janvier et juillet, des numéros spéciaux de la *Gazette* ont été publiés (n^{os} S-01/2000 (F) et (E) (janvier) et S-02/2000 (F) et (E) (juillet)), dans des versions distinctes en français et en anglais. Ces numéros spéciaux contenaient une récapitulation des informations de caractère général relatives aux États contractants du PCT, aux offices nationaux et régionaux et aux administrations internationales du PCT.

32. Le nombre de demandes internationales publiées en 2000 dans chacune des langues de publication s'établit comme suit :

Langue de publication	*Nombre de demandes*		*Pourcentage*	
	2000	**(1999)**	**2000**	**(1999)**
anglais	56 084	(47 389)	70,2	(69,6)

TOTAL	79 947	(68 038)	100,0	(100,0)

33. Les principaux domaines techniques sur lesquels ont porté ces demandes internationales publiées ont été la chimie et la métallurgie, les nécessités courantes de la vie et la physique. Le graphique ci-après montre la répartition des demandes PCT publiées en 2000 en fonction des huit grands domaines techniques du système de la classification internationale des brevets (CIB).

Demandes PCT publiées en 2000 : répartition par grands domaines techniques de la CIB

Main technical fields (sections) under the IPC:

A	Human necessities	E	Fixed constructions
B	Performing operations; transporting	F	Mechanical engineering; lighting, heating, weapons, blasting
C	Chemistry; metallurgy	G	Physics
D	Textiles; paper	H	Electricity

34. The *PCT Applicant's Guide*, which contains information on the filing of international applications and the procedure during the international phase, as well as information on the national phase and the procedure before the designated (or elected) Offices, was updated twice in 2000 to include the many changes that had occurred during the year. About 455 updating sheets, per language, were sent to each subscriber in 2000.

35. Twelve issues of the *PCT Newsletter* were published in 2000. This monthly publication provides up-to-date news for users of the PCT. It contains information on the essential items included in Section IV of the *PCT Gazette* and supplements the *PCT Applicant's Guide* with practical advice for applicants and agents, lists of forthcoming PCT seminars, consolidated tables of PCT fees in various currencies, and other items of general interest. It also includes tear-out provisional sheets permitting easy inclusion of certain important changes in the *PCT Applicant's Guide* prior to the issuance of half-yearly updates.

36. In 2000, the International Bureau continued, in cooperation with the European Patent Office, the weekly production of ESPACE WORLD CD-ROMs, which contain, in facsimile form, the full text and the drawings of all international applications and international search reports published each week, as well as the corresponding bibliographic data in coded, searchable form. All international applications published since 1978 are available in CD-ROM format (a total of 1,221 CD-ROMs had been produced by the end of 2000).

37. In 2000, a new PCT Wheel, covering priority dates from January 2000 to December 2001, was produced and made available to PCT users via the January 2001 issue of the *PCT Newsletter*. The Wheel, which was created by a firm of patent attorneys in Australia (Davies Collison Cave), enables PCT users to quickly calculate the due date for international publication, and the time limits for submitting priority documents, filing a demand for international preliminary examination, and entering the national or regional phase under PCT Chapters I and II.

38. ***Ordering of PCT publications.*** PCT publications may be ordered from WIPO, Marketing and Distribution Section, P.O. Box 18, CH-1211 Geneva 20, Switzerland, fax: (41-22) 740 18 12 or 733 54 28, e-mail: publications.mail@wipo.int; electronic bookshop: *www.wipo.int/ebookshop*. Publications of particular interest include:

– the *PCT Applicant's Guide*, a five-binder loose-leaf publication of about 1,600 pages (available in English and French from WIPO, also available from other sources in Chinese, German and Japanese—contact WIPO for details);

– PCT pamphlets containing published international applications (in various languages—see paragraph 32—and containing the title, the abstract and the corresponding international search reports in both the language of publication and English);

– the *PCT Gazette* (available in bilingual (English and French) format) (for electronic version, see paragraph 29);

– the *PCT Newsletter* (available in English);

– booklets containing the text of the PCT and the PCT Regulations (in Arabic, Chinese, English, French, German, Italian, Portuguese, Russian and Spanish);

– special issues of the *PCT Gazette* (see paragraph 31) (in English and French);

– PCT Wheel (see paragraph 37) (priority dates January 2000 to December 2001).

Grands domaines techniques (sections) de la CIB :

A	Nécessités courantes de la vie	E	Constructions fixes
B	Techniques industrielles diverses; transports	F	Mécanique; éclairage; chauffage; armement; sautage
C	Chimie; métallurgie	G	Physique
D	Textiles; papier	H	Électricité

34. Le *Guide du déposant du PCT*, qui contient des informations sur le dépôt des demandes internationales et la procédure de la phase internationale ainsi que des informations sur la phase nationale et la procédure auprès des offices désignés (ou élus), a été mis à jour à deux reprises en 2000 afin d'y consigner les nombreux changements intervenus pendant l'année considérée. Environ 455 feuilles de mise à jour, établies dans chacune des langues, ont été envoyées à chaque abonné en 2000.

35. Douze numéros du bulletin *PCT Newsletter* ont été diffusés en 2000. Cette publication mensuelle contient, à l'intention des utilisateurs du PCT, des informations récentes sur les sujets essentiels traités dans la section IV de la *Gazette du PCT* et complète le *Guide du déposant du PCT* par des conseils pratiques aux déposants et aux mandataires, une liste des séminaires prévus sur le PCT, des tableaux récapitulatifs des taxes du PCT en diverses monnaies ainsi que d'autres informations générales. Ce bulletin comprend aussi des feuilles provisoires détachables qu'il est possible d'insérer aisément dans le *Guide du déposant du PCT* pour tenir compte de certains changements importants avant la diffusion des mises à jour semestrielles.

36. En 2000, le Bureau international a poursuivi, en collaboration avec l'Office européen des brevets, la production hebdomadaire des disques compacts ROM ESPACE WORLD, qui contiennent chacun, en fac-similé, le texte complet et les dessins de toutes les demandes internationales et de tous les rapports de recherche internationale publiés chaque semaine ainsi que, sous une forme codée se prêtant à la recherche, les données bibliographiques correspondantes. Toutes les demandes internationales publiées depuis 1978 sont disponibles sur disque compact ROM (au total, 1221 disques avaient été produits à la fin de 2000).

37. En 2000, est sorti un nouveau Chronodisque PCT, indiquant les dates de priorité de janvier 2000 à décembre 2001, qui a été distribué aux utilisateurs du PCT via le bulletin *PCT Newsletter* de janvier 2001. Ce disque, créé par un cabinet australien de conseils en brevets (Davies Collison Cave), permet aux utilisateurs du PCT de calculer rapidement le délai pour la publication internationale, ainsi que les délais pour la remise des documents de priorité, le dépôt de la demande d'examen préliminaire international et l'ouverture de la phase nationale ou régionale en vertu des chapitres I et II du PCT.

38. ***Commande de publications du PCT.*** Les publications du PCT peuvent être commandées auprès de l'OMPI, Section de la commercialisation et de la diffusion, case postale 18, CH-1211 Genève 20 (Suisse), télécopieur n° (41-22) 740 18 12 ou 733 54 28, mél. : publications.mail@wipo.int; voir la librairie électronique : *www.wipo.int/ebookshop*. Il convient de citer notamment :

– le *Guide du déposant du PCT*, publication sur feuilles mobiles de cinq classeurs et d'environ 1600 pages (disponible en français et en anglais auprès de l'OMPI; également disponible en allemand, en chinois et en japonais auprès d'autres sources – s'adresser à l'OMPI pour plus de précisions);

– les brochures PCT, contenant les demandes internationales publiées (en diverses langues – voir le paragraphe 32 – avec titre, abrégé et rapports de recherche internationale correspondants dans la langue de publication ainsi qu'en anglais);

– la *Gazette du PCT* (bilingue – français et anglais) (pour la version électronique, voir le paragraphe 29);

– le bulletin *PCT Newsletter* (disponible en anglais seulement);

– la brochure contenant le texte du traité (PCT) et de son règlement d'exécution (disponible en français, en allemand, en anglais, en arabe, en chinois, en espagnol, en italien, en portugais et en russe);

– les numéros spéciaux de la *Gazette du PCT* (voir le paragraphe 31) (disponibles en français et en anglais);

– le Chronodisque PCT (voir le paragraphe 37) (dates de priorité de janvier 2000 à décembre 2001).

39. A leaflet entitled *Basic Facts about the Patent Cooperation Treaty (PCT)* is published in English, French, German, Japanese, Portuguese and Spanish, and is available free of charge.

40. The ESPACE WORLD CD-ROMs containing published international applications may be ordered from the European Patent Office, P.O. Box 90, A-1031 Vienna, Austria, e-mail: infowien@epo.org. However, CD-ROMs containing the international applications published between 1978 and 1989 can be obtained only from WIPO, at the address indicated in paragraph 38.

41. CD-ROMs containing information from the *PCT Gazette*, which are produced by Bundesdruckerei GmbH, may be ordered from the following address: Bundesdruckerei GmbH, Sparte Elektronische Publikationen, Oranienstraße 91, D–10958 Berlin, Germany.

42. ***Internet.*** During 2000, the PCT website received 7.6 million hits and over this period, some 531,000 visits were made to the site. The following may be viewed, free of charge on the site (*http://www.wipo.int/pct/en/index.html*):

DEPOSITS OF MICROORGANISMS AND OTHER BIOLOGICAL MATERIAL REQUIREMENTS OF DESIGNATED AND ELECTED OFFICES

GB United Kingdom

The **United Kingdom Patent Office** has specified the removal of a requirement, as well as the introduction of changes to the special provisions applying to international applications filed on or after 6 July 2001, concerning the deposit of microorganisms and other biological material. The consolidated text of the entry "United Kingdom" in Annex L, as amended, is reproduced below:

Time (if any) earlier than 16 months from priority date by which applicant must furnish:		Additional indications (if any) which must be given besides those prescribed in Rule 13*bis*.3(a)(i) to (iii) pursuant to notifications from the Offices concerned
the indications prescribed in Rule 13*bis*.3(a)(i) to (iii)	any additional matter specified in the adjacent right-hand column	
[No change]	[No change]	None

Deposits may also be made for the purposes of patent procedure before the UK Patent Office with "any depositary institution anywhere in the world." It is the responsibility of the applicant to select the depositary institution with which he wishes to make his deposit and to ensure that samples of the culture deposited will be made available in accordance with Rule 17 and Schedule 2 of the UK Patents Rules 1995 as amended by the Patents (Amendment) Rules 2001. The applicant may give notice in writing to the International Bureau before technical preparations for publication of the international application are completed that a sample should be made available only to an expert.

WARNING: Where the invention involves the use of or concerns biological material which is not available to the public at the date of filing the application and which has been deposited by a person other than the applicant, the name and address of the depositor must be stated in the application and a document must be filed which will satisfy the comptroller that the depositor has authorized the applicant to refer to the deposited material in the application and has given his unreserved and irrevocable consent to the deposited material being made available to the public in accordance with Schedule 2 of the UK Patents Rules 1995 as amended by the Patents (Amendment) Rules 2001.

EXIGENCES DES OFFICES DÉSIGNÉS ET ÉLUS

GB Royaume-Uni

L'**Office des brevets du Royaume-Uni** a notifié la suppression d'une exigence ainsi que l'introduction de changements aux dispositions particulières s'appliquant aux demandes internationales déposées le 6 juillet 2001 ou ultérieurement, relatives au dépôt de micro-organismes et autre matériel biologique. Le texte récapitulatif de la rubrique "Royaume-Uni" de l'annexe L, telle que modifiée, est reproduit ci-dessous :

Délai (éventuel) inférieur à 16 mois à compter de la date de priorité, dans lequel le déposant doit fournir :		Indications (éventuelles) qui doivent figurer outre celles exigées dans la règle 13*bis*.3.a)i) à iii) selon les notifications des offices intéressés
les indications exigées dans la règle 13*bis*.3.a)i) à iii)	toute indication supplémentaire spécifiée dans la colonne adjacente de droite	
[Sans changement]	[Sans changement]	Aucune

Les dépôts aux fins de la procédure en matière de brevets devant l'Office des brevets du Royaume-Uni peuvent également être effectués auprès de toute institution de dépôt en tout lieu du monde. Il incombe au déposant de choisir l'institution de dépôt auprès de laquelle il désire effectuer son dépôt et de s'assurer que les échantillons de la culture déposée seront accessibles conformément à la règle 17 et au barème 2 du Règlement sur les brevets du Royaume-Uni de 1995, tel que modifié par le Règlement (modification) sur les brevets de 2001. Le déposant peut aviser le Bureau international par écrit, avant l'achèvement de la préparation technique de la publication de la demande internationale, qu'un échantillon ne peut être remis qu'à un expert en la matière.

ATTENTION : Lorsque l'invention comporte l'utilisation d'un matériel biologique ou qu'elle concerne un matériel biologique auquel le public n'a pas accès à la date du dépôt de la demande et qui a été déposé par une personne autre que le déposant de la demande, le nom et l'adresse du déposant du matériel biologique doivent figurer dans la demande et un document doit être remis qui établira à la satisfaction du *comptroller* que le déposant du matériel biologique a autorisé le déposant de la demande à se référer dans cette demande au matériel déposé, et a consenti sans réserve et de manière irrévocable à mettre le matériel déposé à la disposition du public, conformément au barème 2 du Règlement sur les brevets du Royaume-Uni de 1995, tel que modifié par le Règlement (modification) sur les brevets de 2001.

CONTRACTING STATES

States Party to the Patent Cooperation Treaty (PCT)

GQ Equatorial Guinea

On 17 April 2001, **Equatorial Guinea** deposited its instrument of accession to the PCT. Equatorial Guinea will become the 111th Contracting State of the PCT on 17 July 2001.

Consequently, as from 17 July 2001, nationals and residents of Equatorial Guinea may file international applications under the PCT. Also, in any international application filed on or after 17 July 2001, it will be possible to designate Equatorial Guinea (country code: GQ), and because it will be bound by Chapter II of the PCT, it will be possible to elect that State for the purposes of international preliminary examination. Since Equatorial Guinea is a member State of the African Intellectual Property Organization (OAPI), the designation (or election) of Equatorial Guinea will have the effect of a designation (or election) of that State for the purposes of a regional patent issued by OAPI. Any designation in an international application for an OAPI patent will, as from 17 July 2001, automatically include the designation of Equatorial Guinea for that purpose.

ÉTATS CONTRACTANTS

États parties au Traité de coopération en matière de brevets (PCT)

GQ Guinée équatoriale

Le 17 avril 2001, la **Guinée équatoriale** a déposé son instrument d'adhésion au PCT. La Guinée équatoriale deviendra le 111e État contractant du PCT le 17 juillet 2001.

En conséquence, à partir du 17 juillet 2001, les nationaux de la Guinée équatoriale et les personnes domiciliées dans ce pays pourront déposer des demandes internationales au titre du PCT. En outre, la Guinée équatoriale pourra être désignée (code pour le pays : GQ) dans toute demande internationale déposée le 17 juillet 2001 ou ultérieurement et, étant liée par le chapitre II du PCT, pourra aussi être élue. Puisque la Guinée équatoriale est État membre de l'Organisation africaine de la propriété intellectuelle (OAPI), la désignation (ou l'élection) de la Guinée équatoriale aura l'effet d'une désignation (ou d'une élection) de cet État en vue de l'obtention d'un brevet régional délivré par l'OAPI. Toute désignation faite dans une demande internationale en vue de l'obtention d'un brevet OAPI emportera automatiquement, dès le 17 juillet 2001, la désignation de la Guinée équatoriale à cet effet.

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT MODIFICATION OF ANNEX A—FORMS

Form PCT/RO/101 (Request)

The Request Form has been modified to take into account the entry into force of the PCT for **Ecuador** (as from 7 May 2001).

This modification concerns Box No. V of the Request Form and the Notes to the Fee Calculation Sheet. The Notes to the request form relating to Box No. V have also been modified to take into account that, in **Australia**, a petty patent can no longer be sought.

All the sheets of the Request Form, including the Notes to the request form, the Fee Calculation Sheet (annex to the Request Form) and the Notes thereto, are dated July 2001 (the date of issuance or of reprinting of the sheet) and are reproduced on the following pages (without pagination so as to enable convenient reproduction).

Only the updated version of the Request Form should be used for international applications filed as from 1 July 2001. Copies can be obtained free of charge from receiving Offices and the International Bureau, and will also be available on the Internet.

Form PCT/IPEA/401 (Demand)

The Demand Form itself and the Fee Calculation Sheet (annex to the Demand Form) have not been modified except for the date of reprinting on each sheet (July 2001).

The Notes to the Fee Calculation Sheet (annex to the Demand Form) relating to the reduction of the handling fee for qualifying applicants from certain States have been modified to take into account the entry into force of the PCT for **Ecuador**.

All the sheets of the Demand Form, including the Notes to the demand form, the Fee Calculation Sheet and the Notes thereto, are dated July 2001 (the date of issuance or of reprinting of the sheet) and are reproduced on the following pages (without pagination so as to enable convenient reproduction). Copies can be obtained free of charge from receiving Offices, International Preliminary Examining Authorities and the International Bureau, and will also be available on the Internet.

DÉPÔTS DE MICRO-ORGANISMES ET AUTRE MATÉRIEL BIOLOGIQUE
INSTITUTIONS AUPRÈS DESQUELLES DES DÉPÔTS PEUVENT ÊTRE EFFECTUÉS

JP Japon

Conformément à la règle 13*bis*.7.b) du PCT, **l'Office des brevets du Japon** a adressé au Bureau international une notification relative à un changement de nom et d'adresse du National Institute of Bioscience and Human-Technology (NIBH), institution de dépôt internationale reconnue en vertu du Traité de Budapest sur la reconnaissance internationale du dépôt des micro-organismes aux fins de la procédure en matière de brevets auprès de laquelle des dépôts de micro-organismes et autre matériel biologique peuvent être effectués, comme suit :

INSTRUCTIONS ADMINISTRATIVES DU PCT
MODIFICATION DE L'ANNEXE A – FORMULAIRES

Formulaire PCT/RO/101 (requête)

Le formulaire de requête a été modifié pour tenir compte de l'entrée en vigueur du PCT pour l'**Équateur** (à compter du 7 mai 2001).

Cette modification concerne le cadre n° V du formulaire de requête et les notes relatives à la feuille de calcul des taxes. Les notes du formulaire de requête relatives au cadre n° V ont également été modifiées pour tenir compte du fait que, en **Australie**, un petty patent ne peut plus être demandé.

Toutes les feuilles du formulaire de requête, y compris les notes y relatives, la feuille de calcul des taxes (annexe de la requête) et les notes y relatives, ont été datées de juillet 2001 (date d'émission ou de réimpression de la feuille) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément).

Seule la version mise à jour du formulaire de requête devrait être utilisée pour les demandes internationales déposées à partir du 1er juillet 2001. Des exemplaires peuvent être obtenus gratuitement auprès des offices récepteurs et du Bureau international et seront également disponibles sur l'Internet.

Formulaire PCT/IPEA/401 (demande d'examen préliminaire international)

Le formulaire de demande d'examen préliminaire international lui-même et la feuille de calcul des taxes (annexe du formulaire de demande d'examen préliminaire international) n'ont pas été modifiés, si ce n'est que la date de réimpression a été ajoutée sur chacune des feuilles (juillet 2001).

Les notes relatives à la feuille de calcul des taxes (annexe de la demande d'examen préliminaire international) concernant la réduction de la taxe de traitement pour les déposants de certains États qui y ont droit ont été modifiées pour tenir compte de l'entrée en vigueur du PCT pour l'**Équateur**.

Toutes les feuilles du formulaire de demande d'examen préliminaire international, y compris les notes y relatives, la feuille de calcul des taxes et les notes y relatives ont été datées de juillet 2001 (date d'émission ou de réimpression de la feuille) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément). Des exemplaires peuvent être obtenus gratuitement auprès des offices récepteurs, des administrations chargées de l'examen préliminaire international et du Bureau international et seront également disponibles sur l'Internet.

Le déposant déclare que ces désignations additionnelles sont faites sous réserve de confirmation et que toute désignation qui n'est pas confirmée avant l'expiration d'un délai de 15 mois à compter de la date de priorité doit être considérée comme retirée par le déposant à l'expiration de ce délai. *(La confirmation (y compris les taxes) doit parvenir à l'office récepteur dans le délai de 15 mois.)*

Supplemental Box *If the Supplemental Box is not used, this sheet should not be included in the request.*

1. *If, in any of the Boxes, except Boxes Nos. VIII(i) to (v) for which a special continuation box is provided,* ***the space is insufficient*** *to furnish all the information: in such case, write "Continuation of Box No...." (indicate the number of the Box) and furnish the information in the same manner as required according to the captions of the Box in which the space was insufficient, in particular:*

   (i) ***if more than two persons are to be indicated as applicants and/or inventors*** *and no "continuation sheet" is available: in such case, write "Continuation of Box No. III" and indicate for each additional person the same type of information as required in Box No. III. The country of the address indicated in this Box is the applicant's State (that is, country) of residence if no State of residence is indicated below;*

   (ii) *if, in Box No. II or in any of the sub-boxes of Box No. III, the indication* ***"the States indicated in the Supplemental Box"*** *is checked: in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the applicant(s) involved and, next to (each) such name, the State(s) (and/or, where applicable, ARIPO, Eurasian, European or OAPI patent) for the purposes of which the named person is applicant;*

   (iii) *if, in Box No. II or in any of the sub-boxes of Box No. III,* ***the inventor or the inventor/applicant is not inventor for the purposes of all designated States or for the purposes of the United States of America****: in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the inventor(s) and, next to (each) such name, the State(s) (and/or, where applicable, ARIPO, Eurasian, European or OAPI patent) for the purposes of which the named person is inventor;*

   (iv) *if, in addition to the agent(s) indicated in Box No. IV, there are* ***further agents****: in such case, write "Continuation of Box No. IV" and indicate for each further agent the same type of information as required in Box No. IV;*

   (v) *if, in Box No. V, the name of any State (or OAPI) is accompanied by the indication "****patent of addition****," or "****certificate of addition****," or if, in Box No. V, the name of the United States of America is accompanied by an indication "****continuation****" or "****continuation-in-part****": in such case, write "Continuation of Box No. V" and the name of each State involved (or OAPI), and after the name of each such State (or OAPI), the number of the parent title or parent application and the date of grant of the parent title or filing of the parent application;*

   (vi) *if, in Box No. VI, there are* ***more than five earlier applications whose priority is claimed****: in such case, write "Continuation of Box No. VI" and indicate for each additional earlier application the same type of information as required in Box No. VI.*

2. *If, with regard to the* ***precautionary designation statement*** *contained in Box No. V, the applicant wishes to exclude any State(s) from the scope of that statement: in such case, write "Designation(s) excluded from precautionary designation statement" and indicate the name or two-letter code of each State so excluded.*

Cadre supplémentaire *Si le cadre supplémentaire n'est pas utilisé, cette feuille ne doit pas être incluse dans la requête.*

1. *Si* ***l'un des cadres*** *du présent formulaire – à l'exception des cadres nºs VIII.i) à v) pour lesquels une feuille annexe spéciale est prévue –* ***ne suffit pas*** *à contenir tous les renseignements : dans ce cas, indiquer "Suite du cadre nº..." (préciser le numéro du cadre) et fournir les renseignements conformément aux instructions données dans le cadre dans lequel la place était insuffisante; en particulier :*

   i) ***si plus de deux personnes doivent être indiquées comme déposants ou inventeurs*** *et que l'on ne dispose d'aucune "feuille annexe" : dans ce cas, indiquer "Suite du cadre nº III" et fournir pour chaque personne supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº III. Le pays de l'adresse indiquée dans ce cadre est l'État où le déposant a son domicile si aucun domicile n'est indiqué ci-dessous;*

   ii) *si, dans le cadre nº II ou dans l'un des sous-cadres du cadre nº III, la case* ***"les États indiqués dans le cadre supplémentaire"*** *est cochée : dans ce cas, indiquer "Suite du cadre nº II" ou "Suite du cadre nº III" ou "Suite des cadres nºs II et III" (selon le cas), ainsi que le nom du ou des déposants en cause et, à côté de chaque nom, le ou les États pour lesquels la personne mentionnée a la qualité de déposant (ou, le cas échéant, la mention "brevet ARIPO", "brevet eurasien", "brevet européen" ou "brevet OAPI");*

   iii) *si, dans le cadre nº II ou dans l'un des sous-cadres du cadre nº III,* ***l'inventeur ou l'inventeur/déposant n'a pas la qualité d'inventeur pour tous les États désignés ou pour les États-Unis d'Amérique*** *: dans ce cas, indiquer "Suite du cadre nº II" ou "Suite du cadre nº III" ou "Suite des cadres nºs II et III" (selon le cas), ainsi que le nom du ou des inventeurs et, à côté de chaque nom, le ou les États pour lesquels la personne mentionnée a la qualité d'inventeur (ou, le cas échéant, la mention "brevet ARIPO", "brevet eurasien", "brevet européen" ou "brevet OAPI");*

   iv) *si, en plus du ou des mandataires indiqués dans le cadre nº IV, il y a* ***d'autres mandataires*** *: dans ce cas, indiquer "Suite du cadre nº IV" et fournir pour chaque mandataire supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº IV;*

   v) *si, dans le cadre nº V, le nom d'un État (ou de l'OAPI) est assorti de la mention "****brevet d'addition****" ou "****certificat d'addition****" ou si, dans le cadre nº V le nom des États-Unis d'Amérique est assorti de la mention "****continuation****" ou "****continuation-in-part****" : dans ce cas, indiquer "Suite du cadre nº V" ainsi que le nom de chaque État en cause (ou de l'OAPI) en précisant après chaque nom le numéro du titre principal ou de la demande principale ainsi que la date de délivrance du titre principal ou la date de dépôt de la demande principale;*

   vi) *si, dans le cadre nº VI,* ***la priorité de plus de cinq demandes antérieures est revendiquée*** *: dans ce cas, indiquer "Suite du cadre nº VI" et fournir pour chaque demande antérieure supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº VI.*

2. *Si, en ce qui concerne la* ***déclaration concernant les désignations de précaution*** *contenue dans le cadre nº V, le déposant souhaite exclure un ou plusieurs États de la portée de cette déclaration : dans ce cas, indiquer "Désignations exclues de la portée de la déclaration concernant les désignations de précaution" et fournir le nom ou le code à deux lettres de chaque État concerné.*

Declaration of inventorship (Rules 4.17(iv) and 51*bis*.1(a)(iv))
for the purposes of the designation of the United States of America:

I hereby declare that I believe I am the original, first and sole (if only one inventor is listed below) or joint (if more than one inventor is listed below) inventor of the subject matter which is claimed and for which a patent is sought.

This declaration is directed to the international application of which it forms a part (if filing declaration with application).

This declaration is directed to international application No. PCT/ . . . . . (if furnishing declaration pursuant to Rule 26*ter*).

I hereby declare that my residence, mailing address, and citizenship are as stated next to my name.

I hereby state that I have reviewed and understand the contents of the above-identified international application, including the claims of said application. I have identified in the request of said application, in compliance with PCT Rule 4.10, any claim to foreign priority, and I have identified below, under the heading "Prior Applications," by application number, country or Member of the World Trade Organization, day, month and year of filing, any application for a patent or inventor's certificate filed in a country other than the United States of America, including any PCT international application designating at least one country other than the United States of America, having a filing date before that of the application on which foreign priority is claimed.

Prior Applications: . . . . . .

Cadre n° VIII.iv) DÉCLARATION : QUALITÉ D'INVENTEUR
(seulement aux fins de la désignation des États-Unis d'Amérique)

La déclaration doit être conforme au libellé standard suivant prévu à l'instruction 214; voir les notes relatives aux cadres nos VIII, VIII.i) à v) (généralités) et les notes spécifiques au cadre nº VIII.iv). Si ce cadre n'est pas utilisé, cette feuille ne doit pas être incluse dans la requête.

Déclaration relative à la qualité d'inventeur (règles 4.17.iv) et 51*bis*.1.a)iv))
aux fins de la désignation des États-Unis d'Amérique :

Par la présente, je déclare que je crois être le premier inventeur original et unique (si un seul inventeur est mentionné ci-dessous) ou l'un des premiers coïnventeurs (si plusieurs inventeurs sont mentionnés ci-dessous) de l'objet revendiqué pour lequel un brevet est demandé.

La présente déclaration a trait à la demande internationale dont elle fait partie (si la déclaration est déposée avec la demande).

La présente déclaration a trait à la demande internationale n° PCT/ . . . . . (si la déclaration est remise en vertu de la règle 26*ter*).

Par la présente, je déclare que mon domicile, mon adresse postale et ma nationalité sont tels qu'indiqués près de mon nom.

Par la présente, je déclare avoir passé en revue et comprendre le contenu de la demande internationale à laquelle il est fait référence ci-dessus, y compris les revendications de ladite demande. J'ai indiqué dans la requête de ladite demande, conformément à la règle 4.10 du PCT, toute revendication de priorité d'une demande étrangère et j'ai identifié ci-dessous, sous l'intitulé "Demandes antérieures", au moyen du numéro de demande, du pays ou du membre de l'Organisation mondiale du commerce, du jour, du mois et de l'année du dépôt, toute demande de brevet ou de certificat d'auteur d'invention déposée dans un pays autre que les États-Unis d'Amérique, y compris toute demande internationale selon le PCT désignant au moins un pays autre que les États-Unis d'Amérique, dont la date de dépôt est antérieure à celle de la demande étrangère dont la priorité est revendiquée.

Demandes antérieures : . . . . . .

. . . . . .

Par la présente, je reconnais l'obligation qui m'est faite de divulguer les renseignements dont j'ai connaissance et qui sont pertinents quant à la brevetabilité de l'invention, tels qu'ils sont définis dans le Titre 37, § 1.56, du Code fédéral des réglementations, y compris, en ce qui concerne les demandes de continuation-in-part les renseignements pertinents qui sont devenus accessibles entre la date de dépôt de la demande antérieure et la date du dépôt international de la demande de continuation-in-part.

Je déclare par la présente que toute déclaration ci-incluse est, à ma connaissance, véridique et que toute déclaration formulée à partir de renseignements ou de suppositions est tenue pour véridique; et de plus, que toutes ces déclarations ont été formulées en sachant que toute fausse déclaration volontaire ou son équivalent est passible d'une amende ou d'une incarcération, ou des deux, en vertu de la Section 1001 du Titre 18 du Code des États-Unis, et que de telles déclarations volontairement fausses risquent de compromettre la validité de la demande de brevet ou du brevet délivré à partir de celle-ci.

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.ompi.int/pct/fr/index.html. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

Le formulaire de requête et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a)iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°S II ET III

Remarque générale : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés également comme déposants pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e)) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named also as applicants for the United States of America and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1*bis*): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy**, **MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Déposants différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des déposants différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochée.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1*bis*) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le "représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT* (*voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasien, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain ***both*** a designation of the State concerned for the purposes of a national patent and ***also*** a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a national title other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, "petty patent" (available in YU Yugoslavia), "provisional patent" (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), "utility model" (available in AL Albania, AM Armenia, AT Austria, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), "consensual patent" (available in HR Croatia), "utility certificate" (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or "inventor's certificate" (available in CU Cuba and KP Democratic People's Republic of Korea). Where, in AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model".

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part", write after the name of that country the appropriate words; that is, "patent of addition" (available in AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), "certificate of addition" (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), "inventor's certificate of addition" (available in CU Cuba), "continuation" or "continuation-in-part" (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant's *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16*bis*.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant's safeguard, the lower part of Box No. V contains a statement ("Precautionary Designation Statement") indicating the applicant's wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where six designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasien : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasien peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasien, soit à la fois aux fins d'un brevet national et d'un brevet eurasien. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasien et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasien sera traitée comme une désignation aux fins d'un brevet eurasien de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasien ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovénie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir **à la fois** la désignation de l'État concerné en vue de l'obtention d'un brevet national et la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander un titre de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi du nom du titre en question, c'est-à-dire "petty patent" (pour YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AL Albanie, AM Arménie, AT Autriche, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba, KP République populaire démocratique de Corée). Si, pour AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus du brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, SI Slovénie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant *l'ordre des désignations choisi* par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16*bis*.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)".

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 41.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

(i) declaration as to the identity of the inventor;

(ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;

(iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;

(iv) declaration of inventorship (only for the purposes of the designation of the United States of America);

(v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre nº VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque six taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE Nº VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, *l'office régional* concerné; et lorsque la demande antérieure est une demande internationale, *l'office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i)); cette indication n'est cependant pas obligatoire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii)).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii)). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE Nº VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE Nº VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

i) une déclaration relative à l'identité de l'inventeur;

ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;

iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;

PCT Applicant's Guide, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51*bis*.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26*ter*, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51*bis*.2(a) with National Laws (Rule 51*bis*.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51*bis*.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51*bis*.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51*bis*.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances. Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

"Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)):

in relation to [this] international application [No. PCT/…],

(i) ... *(name)* of … *(address)* is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
(ii) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations [except the designation of the United States of America]
  (b) the following designations for national and/or regional patents: …"

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);

v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres nos VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre no VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26*ter*, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standards ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer à leur sujet en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51*bis*.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à v) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26*ter*, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51*bis*.2.a) avec les législations nationales (règle 51*bis*.2.c)) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51*bis*.2.a)i).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)) : les législations nationales respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51*bis*.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51*bis*.2.a)iii).

CADRES Nos VIII i) à v) (GÉNÉRALITÉS)

Différent cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chaque type de déclaration prévue selon la règle 4.17 (du cadre no VIII.i) au cadre no VIII.v)) et une feuille annexe (Suite du cadre no VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre no VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre no VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre no VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres nos VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre no VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation, toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE No VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit:

BOX No. VIII (ii)

Declaration as to the Applicant's Entitlement to Apply for and Be Granted a Patent (Rule 4.17(ii) and Section 212): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

"Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)), in a case where the declaration under Rule 4.17(iv) is not appropriate:

in relation to [this] international application [No. PCT/…],

... *(name)* is entitled to apply for and be granted a patent by virtue of the following:

(i) ... *(name)* of … *(address)* is the inventor of the subject matter for which protection is sought by way of [the] [this] international application

(ii) ... *(name)* [is] [was] entitled as employer of the inventor, ... *(inventor's name)*

(iii) an agreement between … *(name)* and … *(name)*, dated …

(iv) an assignment from … *(name)* to … *(name)*, dated …

(v) consent from … *(name)* in favor of … *(name)*, dated …

(vi) a court order issued by … *(name of court)*, effecting a transfer from … *(name)* to … *(name)*, dated …

(vii) transfer of entitlement from … *(name)* to … *(name)* by way of … *(specify kind of transfer)*, dated …

(viii) the applicant's name changed from … *(name)* to … *(name)* on … *(date)*

(ix) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations [except the designation of the United States of America]
  (b) the following designations for national and/or regional patents: …"

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the inventor, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement. Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant's entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

"Combined declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:"

The remainder of the combined declaration must be worded as indicated in the preceeding paragraphs.

For details as to the declaration as to the identity of the inventor, see the Notes to Box No. VIII (i), above.

BOX No. VIII (iii)

Declaration as to the Applicant's Entitlement to Claim Priority of the Earlier Application (Rule 4.17(iii) and Section 213): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

"Declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application specified below, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)):

in relation to [this] international application [No. PCT/…],

… *(name)* is entitled to claim priority of earlier application No. … by virtue of the following:

(i) the applicant is the inventor of the subject matter for which protection was sought by way of the earlier application

(ii) … *(name)* [is] [was] entitled as employer of the inventor, … *(inventor's name)*

(iii) an agreement between … *(name)* and … *(name)*, dated …

(iv) an assignment from … *(name)* to … *(name)*, dated …

(v) consent from … *(name)* in favor of … *(name)*, dated …

(vi) a court order, issued by … *(name of court)*, effecting a transfer from … *(name)* to … *(name)*, dated …

(vii) transfer of entitlement from … *(name)* to … *(name)* by way of … *(specify kind of transfer)*, dated …

(viii) the applicant's name changed from … *(name)* to … *(name)* on … *(date)*

(ix) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations
  (b) the following designations for national and/or regional patents: …"

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of

"Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)) :

concernant la [présente] demande internationale [n° PCT/…],

i) … *(nom)*, … *(adresse)*, est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale

ii) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

Une déclaration de cette nature n'est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d'inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l'inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii)) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d'Amérique. Lorsque les indications concernant l'inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii)). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIIl.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d'inventeur aux fins de la désignation des États-Unis d'Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

"Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :

concernant la [présente] demande internationale [n° PCT/…],

… *(nom)* a le droit de demander et d'obtenir un brevet en vertu :

i) du fait que … *(nom)*, … *(adresse)*, est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale

ii) du fait que… *(nom)* [possède] [possédait] ce droit en qualité d'employeur de l'inventeur, … *(nom de l'inventeur)*

iii) d'un contrat conclu entre … *(nom)* et … *(nom)*, daté du …

iv) d'une cession de … *(nom)* à … *(nom)*, datée du …

v) d'une autorisation consentie par … *(nom)* à … *(nom)*, datée du …

vi) d'une décision de justice rendue par … *(nom du tribunal)*, ordonnant un transfert de … *(nom)* à … *(nom)*, datée du …

vii) d'un transfert de droits de … *(nom)* à … *(nom)*, sous la forme de … *(préciser le type de transfert)*, daté du …

viii) du changement de nom du déposant de … *(nom)* en … *(nom)*, le … *(date)*

ix) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. ***Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.*** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits de l'inventeur, l'ordre dans lequel les transferts sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant. Lorsque l'inventeur n'est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d'une déclaration combinée motivant le droit du déposant de demander et d'obtenir un brevet et permettant d'identifier l'inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

"Déclaration combinée relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)) et relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :"

Le reste de la déclaration combinée est libellé comme indiqué aux paragraphes précédents.

Pour des précisions concernant la déclaration permettant d'identifier l'inventeur, voir les notes relatives au cadre n° VIII.i), ci-dessus.

CADRE N° VIII.iii)

Déclaration relative au droit du déposant de revendiquer la priorité de la demande antérieure (règle 4.17.iii) et instruction 213) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaire aux fins de motiver le droit du déposant :

"Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n'est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) :

concernant la [présente] demande internationale [n° PCT/…],

… *(nom)* a le droit de revendiquer la priorité de la demande antérieure n° … en vertu :

i) du fait que le déposant est l'inventeur de ce pour quoi une protection a été demandée dans la demande antérieure

ii) du fait que … *(nom)* [possède] [possédait] ce droit en qualité d'employeur de l'inventeur, …*(nom de l'inventeur)*

iii) d'un contrat conclu entre … *(nom)* et … *(nom)*, daté du …

iv) d'une cession de … *(nom)* à … *(nom)*, datée du …

v) d'une autorisation consentie par … *(nom)* à … *(nom)*, datée du …

residence and citizenship, must be included for each inventor. Where the declaration is included in the request, the inventor(s) need not sign and date the declaration if they have signed in Box No. X of the request.

BOX No. VIII (v)

Declaration as to Non-prejudicial Disclosures or Exceptions to Lack of Novelty (Rule 4.17(v) and Section 215): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (iv) as is necessary:

"Declaration as to non-prejudicial disclosures or exceptions to lack of novelty (Rules 4.17(v) and 51*bis*.1(a)(v)):

in relation to [this] international application [No. PCT/…],

… *(name)* declares that the subject matter claimed in [the] [this] international application was disclosed as follows:

(i) kind of disclosure *(include as applicable)*:
  (a) international exhibition
  (b) publication
  (c) abuse
  (d) other: … *(specify)*

(ii) date of disclosure: …

(iii) title of disclosure *(if applicable)*: …

(iv) place of disclosure *(if applicable)*: …

(v) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations
  (b) the following designations for national and/or regional patents: …"

Either (a), (b), (c) or (d) of item (i) should always be included in the declaration. Item (ii) should also always be included in the declaration. Either (a) or (b) of item (v) should always be included in the declaration. Items (iii) and (iv) may be incorporated depending upon the circumstances.

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listing part *in paper form only*, in which case the number of sheets must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that, a copy of that sequence listing part, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter*; in such a case, check-boxes Nos. 9 and 9(i) and, where applicable, 9(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listing part *in computer readable form only*, under Section 801(a)(i), in which case check-box b(i) must be marked but the space for the number of sheets of the sequence listing part under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Third, the applicant may choose to file the sequence listing part *both in computer readable form and in paper form* under Section 801(a)(ii), in which case check-box b(ii) must be marked and the number of sheets of that part in paper form must be indicated under item (a) (although that number of sheets will not be taken into account for calculation of the basic fee); the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description ("sequence listing part of description") in accordance with the standard contained in Annex C of the Administrative Instructions.

Items Accompanying the International Application: Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains a sequence listing part and a copy thereof in computer readable form is required by the ISA, the applicant may furnish the listing in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen the second or third option mentioned above, and an additional copy or copies of the sequence listing part in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate in the left column the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

vi) d'une décision de justice rendue par … *(nom du tribunal)*, ordonnant un transfert de … *(nom)* à … *(nom)*, datée du …

vii) d'un transfert de droits de … *(nom)* à … *(nom)*, sous la forme de … *(préciser le type de transfert)*, daté du …

viii) du changement de nom du déposant de … *(nom)* en … *(nom)*, le … *(date)*

ix) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. ***Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.*** En outre, cette déclaration n'est applicable que si la personne du déposant est différente de celle du déposant qui a déposé la demande antérieure dont la priorité est revendiquée, ou si le nom du déposant a changé. Si par exemple un seul déposant sur cinq est différent de ceux qui étaient indiqués pour une demande antérieure, cette déclaration pourra être applicable. Les types possibles de transferts de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits du déposant sur la demande antérieure, l'ordre dans lequel les points sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant.

CADRE N° VIII.iv)

Déclaration relative à la qualité d'inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s'ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l'adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d'une déclaration incluse dans la requête, il n'est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s'ils ont signé eux-mêmes dans le cadre n° X de la requête.

CADRE N° VIII.v)

Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règle 4.17.v) et instruction 215) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à iv), qui s'avérerait nécessaire :

"Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règles 4.17.v) et 51*bis*.1.a)v)) :

concernant la [présente] demande internationale [n° PCT/…],

… *(nom)* déclare que l'objet revendiqué dans [la] [ladite] demande internationale a été divulgué comme suit :

i) nature de la divulgation *(préciser selon le cas)* :
   a) exposition internationale
   b) publication
   c) utilisation abusive
   d) autre : … *(préciser)*

ii) date de la divulgation : …

iii) intitulé de la divulgation *(s'il y a lieu)* : …

iv) lieu de la divulgation *(s'il y a lieu)* : …

v) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'un des éléments a), b), c) ou d) du point i) doit toujours être inclus dans la déclaration. Le point ii) doit aussi toujours être inclus dans la déclaration. L'un ou l'autre des éléments a) et b) du point v) doit toujours figurer dans la déclaration. Les points iii) et iv) peuvent être incorporés s'il y a lieu.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l'un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d'une ou de plusieurs *séquences de nucléotides ou d'acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme papier seulement*, auquel cas le nombre de feuilles doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu'une copie de la partie réservée au listage des séquences, sous forme déchiffrable par ordinateur, peut être remise avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13*ter*; dans ce cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièment, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme déchiffrable par ordinateur seulement*, en vertu de l'instruction 801.a)i), auquel cas la case b)i) doit être cochée mais l'endroit réservé au nombre de feuilles de ladite partie sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l'instruction 801.a)ii), auquel cas la case b)ii) doit être cochée et le nombre de feuilles de ladite partie, sous forme papier, doit être indiqué sous le point a) (bien que ce nombre de feuilles ne soit pas utilisé aux fins du calcul de la taxe de base); le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description ("partie de la description réservée au listage des séquences") conformément à la norme figurant dans l'annexe C des instructions administratives.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3*ter*(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3*ter*(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. X

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent, or the common representative, where a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

Case nº 4 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case nº 5 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre nº X).

Case nº 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case nº 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13*bis* et l'instruction 209).

Case nº 9 : lorsque la demande internationale contient une partie réservée au listage des séquences et qu'une copie de cette dernière, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cases nºs 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi la deuxième ou la troisième option mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires de la partie réservée au listage des séquences sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases nºs 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter*.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter*.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'attribution d'une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l'anglais.

CADRE Nº X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent signer); il peut toutefois s'agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case nº 5 du cadre nº IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

REMARQUES GÉNÉRALES

Langue de la correspondance (règle 92.2 et instruction 104) : toute lettre du déposant à l'office récepteur doit être rédigée dans la langue de dépôt de la demande internationale étant entendu que, lorsque la demande internationale doit être publiée dans la langue d'une traduction remise en vertu de la règle 12.3, cette lettre doit être rédigée dans la langue de cette traduction; l'office récepteur peut cependant autoriser l'emploi d'une autre langue.

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête, description (sauf la partie de la description réservée au listage des séquences, le cas échéant), revendication(s), abrégé, dessins (le cas échéant), partie de la description réservée au listage des séquences, le cas échéant.

Toutes les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f)) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

This sheet is not part of and does not count as a sheet of the international application.

NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan,TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where item (b) of Box No. IX of the request does not apply (that is, where the international application either does not contain a sequence listing part or where it contains such a part but not filed in computer readable form under Section 801(a)(i) or (ii)), in such a case, item "b3" must not be filled in.

Otherwise, where item (b) of Box No. IX of the request applies (that is, where the international application contains a

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT,* volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT,* volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT,* volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT,* volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n^{os} II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

sequence listing part which is filed in computer readable form only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listing part in computer readable form is considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other title of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of six designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is six times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is six times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque le point b) du cadre n° IX de la requête ne s'applique pas (c'est-à-dire, si la demande internationale ne contient pas une partie réservée au listage des séquences ou qu'elle contient une telle partie mais que cette dernière n'est pas déposée sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i) ou ii)), dans ce cas, le point "b3" ne doit pas être rempli.

Sinon, lorsque le point b) du cadre n° IX de la requête s'applique (c'est-à-dire, si la demande internationale contient une partie réservée au listage des séquences qui est déposée sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que la partie réservée au listage des séquences sous forme déchiffrable par ordinateur est considérée comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre des taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasien, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasien ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre titre de protection national demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de six désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de six fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasien, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de six fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour information, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera ou ne créditera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed before the expiration of *19 months from the priority date* in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. *Warning*: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58): Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request . The Notes to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than

NOTES RELATIVES AU FORMULAIRE DE DEMANDE D'EXAMEN PRÉLIMINAIRE INTERNATIONAL (PCT/IPEA/401)

Ces notes sont destinées à faciliter l'utilisation du formulaire de demande d'examen préliminaire international et à donner certains renseignements concernant l'examen préliminaire international prévu au chapitre II du Traité de coopération en matière de brevets (PCT). On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.ompi.int/pct/fr/index.html. Les notes sont fondées sur les exigences du traité, du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de demande d'examen préliminaire international et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire. Les cases appropriées peuvent être cochées à la main, à l'encre foncée (règles 11.9.a) et b) et 11.14).

Le formulaire de demande d'examen préliminaire international et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2)a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6)a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi *le Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de *19 mois à compter de la date de priorité* pour que le délai d'ouverture de la phase nationale de la procédure selon le PCT puisse passer, en ce qui concerne les États élus, de 20 à 30 mois à compter de la date de priorité. *Important* : si la demande d'examen préliminaire international est présentée plus tard, la phase nationale ne sera pas différée et le déposant devra l'aborder avant l'expiration du délai applicable en vertu de l'article 22 (qui est habituellement de 20 mois à compter de la date de priorité).

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant's registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent's registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne *a été désignée à une date antérieure* (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire international* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international* (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter *avec la demande d'examen* une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i)) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the "eligible States".

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words "wishes not to elect:".

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case nº 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii)).

Cocher la case nº 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre nº IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE Nº V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)i)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre nº V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire : ".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE Nº VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case nº 5 doit être cochée.

CADRE Nº VII

Signature (règles 53.8, 90.3.a) et 90.4.a)) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

(i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);

(ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);

ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation corespondante est signée et qu'elle indique le numéro du compte de dépôt.

ZM Zambia
AP African Regional Industrial Property Organization (ARIPO)

On 15 August 2001, **Zambia** deposited its instrument of accession to the PCT. Zambia will become the 114th Contracting State of the PCT on 15 November 2001.

Consequently, in any international application filed on or after 15 November 2001, Zambia (country code: ZM) may be designated and, because it will be bound by Chapter II of the PCT, may also be elected. Furthermore, nationals and residents of Zambia will be entitled from 15 November 2001 to file international applications under the PCT.

Since Zambia is party to the Harare Protocol within the framework of the African Regional Industrial Property Organization (ARIPO), it will also be possible to designate Zambia for the purposes of obtaining an ARIPO patent. Any designation for an ARIPO patent in an international application filed on or after 15 November 2001 will automatically include the designation of Zambia for that purpose.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION

ASSEMBLY

Thirtieth (13th Ordinary) Session
(Geneva, 24 September to 3 October 2001)

NOTE PREPARED BY THE INTERNATIONAL BUREAU

The Assembly of the International Patent Cooperation Union (PCT Union) held its thirtieth (13th ordinary) session in Geneva from 24 September to 3 October 2001, in conjunction with the thirty-sixth series of meetings of the Assemblies of the Member States of the World Intellectual Property Organization (WIPO). All documents discussed during the session (documents PCT/A/30/1, 2, 3, 4, 4 Add., 5 and 6) are available from WIPO free of charge and can also be found on WIPO's Internet site, at the following address: http://www.wipo.int/eng/document/govbody/wo_pct/index_30.htm. Note that the final report (document PCT/A/30/7) generally becomes available in the weeks following the closure of the meetings.

Change relating to the PCT fees for the benefit of the International Bureau

The Assembly decided that the maximum number of designation fees payable would be reduced, with effect from 1 January 2002, from 6 to 5.

The text of the amended Schedule of Fees annexed to the PCT Regulations, as in force from 1 January 2002, is reproduced on page 19930.

Reform of the PCT

The Assembly noted the report of the Committee on Reform of the PCT, which held its first session in Geneva from 21 to 25 May 2001, and approved the Committee's recommendations concerning the establishment of a working group, the matters to be referred to the working group and the work program of both the Committee and the working group between the September 2001 and September 2002 sessions of the Assembly. The working group will address, in particular, issues such as the concept and operation of the designation system, improved coordination of international search and international preliminary examination and the time limit for entering the national phase, conforming PCT filing date and "missing part"-type requirements to those in the Patent Law Treaty (PLT), as well as general simplification and streamlining of PCT procedures.

The first session of the Working Group on Reform of the PCT will be held from 12 to 16 November 2001, in Geneva. The documents for that session are available at:

http://www.wipo.int/pct/en/meetings/reform_wg/index_1.htm

IMPACT Project and PCT Electronic Filing Project Status Reports

The Assembly took note of status reports on the PCT automation project (IMPACT) and the PCT Electronic Filing Project. With the rapid expansion of the PCT system, these projects are of the highest priority for WIPO, which aims to complete the IMPACT Project by December 2002 and the PCT Electronic Filing Project by November 2003.

RÉUNIONS DE L'UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS

ASSEMBLÉE

Trentième session (13e session ordinaire) (Genève, 24 septembre – 3 octobre 2001)

NOTE DU BUREAU INTERNATIONAL

L'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT) a tenu sa trentième session (13e session ordinaire) à Genève, du 24 septembre au 3 octobre 2001, dans le cadre de la trente-sixième série de réunions des Assemblées des États membres de l'Organisation Mondiale de la Propriété Intellectuelle (OMPI). Tous les documents qui ont fait l'objet de discussions durant la session (documents PCT/A/30/1, 2, 3, 4, 4 Add., 5 et 6) sont disponibles gratuitement auprès de l'OMPI et peuvent être également consultés sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/fre/document/govbody/wo_pct/index_30.htm. Il convient de noter que le rapport final (document PCT/A/30/7) est, en règle générale, disponible dans les semaines qui suivent la clôture des réunions.

Changement relatif aux taxes du PCT perçues au profit du Bureau international

L'assemblée a décidé de réduire de 6 à 5 le nombre maximum de taxes de désignation exigibles, avec effet au 1er janvier 2002.

Le texte du barème révisé de taxes annexé au règlement d'exécution du PCT, tel qu'il entrera en vigueur le 1er janvier 2002, est reproduit à la page 19931.

Réforme du PCT

L'assemblée a pris note du rapport du Comité sur la réforme du PCT, qui a tenu sa première session à Genève du 21 au 25 mai 2001, et a approuvé les recommandations du Comité concernant la création d'un groupe de travail, les questions à soumettre à ce groupe de travail et le programme de travail du comité et du groupe de travail entre les sessions de septembre 2001 et de septembre 2002 de l'assemblée. Le groupe de travail examinera, en particulier, des questions telles que la notion de désignation et le fonctionnement du système des désignations, l'amélioration de la coordination pour ce qui concerne la recherche internationale et l'examen préliminaire international et le délai pour l'ouverture de la phase nationale, l'harmonisation des exigences du PCT relatives à la date de dépôt et aux parties "manquantes" avec les procédures prévues par le Traité sur le droit des brevets (PLT), ainsi que la simplification et la rationalisation de portée générale des procédures du PCT.

La première session du groupe de travail sur la réforme du PCT se tiendra à Genève du 12 au 16 novembre 2001. Les documents pour la session sont disponibles à l'adresse suivante:

http://www.wipo.int/pct/en/meetings/reform_wg/index_1.htm

Rapports de situation sur le projet IMPACT et sur le projet relatif au dépôt électronique selon le PCT

L'assemblée a pris note des rapports de situation sur le projet d'automatisation du PCT ("IMPACT") et sur le projet relatif au dépôt électronique selon le PCT. Avec l'expansion rapide du système du PCT, ces projets font partie des priorités de l'OMPI dont l'objectif est de mener à terme le projet IMPACT d'ici décembre 2002 et le projet relatif au dépôt électronique d'ici novembre 2003.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY (Cont'd)

Modification of the time limit fixed in Article 22(1); entry into force; transitional arrangements; consequential amendments to Rule 90*bis*

Modification of the time limit fixed in Article 22(1)

The Assembly unanimously adopted a modification of the time limit under Article 22(1) for performing the acts necessary to enter the national phase, extending the current time limit to 30 months from the priority date. As a result, the time limit for national phase entry under Article 22(1) will be the same as that which applies under Article 39(1)(a) (that is, the time limit which applies where the applicant files a demand for international preliminary examination within 19 months from the priority date).

Entry into force

The modification of the time limit fixed in Article 22(1) will, in general, enter into force on 1 April 2002. Offices may, however, introduce before that date the 30-month time limit since Article 22(3) enables any national law to fix time limits expiring later than those applicable under Article 22(1).

The modified (30-month) time limit will be applicable, so far as a particular designated Office is concerned, to any international application, in respect of which the 20-month time limit expires on or after the date of entry into force of the modifications of Article 22(1) for that Office, and in respect of which the acts referred to in Article 22(1) have not yet been performed by the applicant.

Transitional arrangements

Since a number of Contracting States will have to change their national laws in order to implement the modification, transitional arrangements will enable postponement of the entry into force of the modification in respect of the designated Offices concerned: see page 19934 for details of the transitional arrangements. Where a designated Office finds it necessary to make use of the transitional arrangements, an applicant wishing to benefit from the 30-month time limit in respect of national phase entry before that Office will therefore still need to file a demand before the expiration of 19 months from the priority date, even though the 30-month time limit may apply in respect of other designated Offices without the need to file a demand.

Consequential amendments to Rule 90bis

As a consequence of the modification of the time limit under Article 22(1), Rules 90*bis*.1, 90*bis*.2 and 90*bis*.3, which deal with the withdrawal of the international application, designations and priority claims, respectively, will, with effect from 1 April 2002, refer only to the time limit of 30 months from the priority date.

The modified texts of Article 22(1) and Rule 90*bis*, as well as the text concerning the transitional arrangements in respect of Article 22(1), are published on pages 19932 and 19934.

RÉUNIONS DE L'UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS – ASSEMBLÉE (suite)

Modification du délai fixé à l'article 22.1); entrée en vigueur; mesures transitoires; modifications apportées par voie de conséquence à la règle 90*bis*

Modification du délai fixé à l'article 22.1)

L'assemblée a adopté à l'unanimité une modification relative au délai fixé à l'article 22.1) pour l'accomplissement des actes nécessaires à l'ouverture de la phase nationale, en portant le délai actuel à 30 mois à compter de la date de priorité. En conséquence, le délai d'ouverture de la phase nationale selon l'article 22.1) sera le même que celui qui s'applique selon l'article 39.1)a) (c'est-à-dire, le délai qui s'applique lorsque le déposant présente une demande d'examen préliminaire international dans un délai de 19 mois à compter de la date de priorité).

Entrée en vigueur

La modification du délai fixé à l'article 22.1) entrera en vigueur, d'une façon générale, le 1er avril 2002. Toutefois, les offices peuvent introduire avant cette date le délai de 30 mois, étant donné que l'article 22.3) permet à toute législation nationale de fixer des délais expirant après ceux qui sont applicables selon l'article 22.1).

Le délai modifié (30 mois) sera applicable, en ce qui concerne un office désigné déterminé, pour toute demande internationale à l'égard de laquelle le délai de 20 mois expire à la date d'entrée en vigueur des modifications relatives à l'article 22.1) pour cet office, et à l'égard de laquelle le déposant n'a pas encore accompli les actes visés à l'article 22.1).

Mesures transitoires

Étant entendu qu'un certain nombre d'États contractants devront modifier leur législation nationale pour pouvoir mettre en œuvre la modification, des mesures transitoires permettront le report de l'entrée en vigueur de la modification en ce qui concerne les offices désignés concernés : voir la page 19935 pour plus de précisions sur les mesures transitoires. Lorsqu'un office désigné juge nécessaire de recourir aux mesures transitoires, un déposant qui souhaite profiter d'un délai de 30 mois pour l'ouverture de la phase nationale auprès de cet office devra donc encore présenter une demande d'examen préliminaire international avant l'expiration d'un délai de 19 mois à compter de la date de priorité, même si un délai de 30 mois peut s'appliquer à l'égard d'autres offices désignés sans qu'il soit nécessaire de présenter une demande d'examen préliminaire international.

Modifications apportées par voie de conséquence à la règle 90bis

La modification du délai visé à l'article 22.1) a pour conséquence que les règles 90*bis*.1, 90*bis*.2 et 90*bis*.3, qui traitent du retrait de la demande internationale, de désignations et de revendications de priorité, respectivement, se réfèreront seulement, avec effet au 1er avril 2002, au délai de 30 mois à compter de la date de priorité.

Le texte modifié de l'article 22.1) et de la règle 90*bis* ainsi que le texte concernant les mesures transitoires en ce qui concerne l'article 22.1) sont publiés aux pages 19933 et 19935.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY (Cont'd)

Appointment of the Spanish Patent and Trademark Office as an International Preliminary Examining Authority; Amendment of the Agreement Between the Spanish Patent and Trademark Office and the International Bureau of WIPO

The Assembly appointed the Spanish Patent and Trademark Office as an International Preliminary Examining Authority; that Office will thus become the 10th Office to function as an International Preliminary Examining Authority under the PCT. The Assembly approved a consequential amendment to the Agreement between the Spanish Patent and Trademark Office and the International Bureau of WIPO in relation to the functioning of the Spanish Patent and Trademark Office so as to cover the new functions of the latter as an International Preliminary Examining Authority under the PCT.

The appointment, and the Agreement as amended, will have effect one month after the date on which the Office notifies the Director General that it is ready to start functioning as an International Preliminary Examining Authority; this notification is expected sometime in 2002. Note that before that time, applicants will not be able to choose the Spanish Patent and Trademark Office as a competent International Preliminary Examining Authority.

The amended text of the Agreement is published on pages 19936, 19938, 19940, 19942, 19944 and 19946.

Amendment of the Agreement Between the European Patent Organisation and the International Bureau of WIPO in relation to the Functioning of the European Patent Office as an International Searching and Preliminary Examining Authority under the PCT

The Assembly approved an amendment to the Agreement between the European Patent Organisation and the International Bureau of WIPO in relation to the functioning of the European Patent Office as an International Searching and Preliminary Examining Authority under the PCT, which will enable the European Patent Office to restrict its competence as an International Searching and Preliminary Examining Authority whenever the workload of that Office reaches such a level that it cannot perform the tasks assumed by it under the Agreement without jeopardizing its proper functioning, both as a PCT Authority and as the Office responsible for granting European patents. Such restriction will be for a limited period and will depend on certain criteria (applicant's nationality and residence, given number of PCT applications per year, certain technical fields). The restriction will be effective from a date agreed upon between each receiving Office concerned and the European Patent Office. Any corresponding notifications from the European Patent Office to the International Bureau will be published in the Gazette.

The Agreement, as amended, will enter into force on 1 November 2001.

The modified text of the Agreement is published on pages 19948, 19950, 19952, 19954, 19956, 19958 and 19960.

RÉUNIONS DE L'UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS – ASSEMBLÉE (suite)

Nomination de l'Office espagnol des brevets et des marques en qualité d'administration chargée de l'examen préliminaire international; modification de l'accord conclu entre l'Office espagnol des brevets et des marques et le Bureau international de l'OMPI

L'assemblée a nommé l'Office espagnol des brevets et des marques en qualité d'administration chargée de l'examen préliminaire international; cet office sera ainsi le 10e office à fonctionner en qualité d'administration chargée de l'examen préliminaire international au titre du PCT. L'assemblée a approuvé par voie de conséquence une modification de l'accord conclu entre l'Office espagnol des brevets et des marques et le Bureau international de l'OMPI concernant les fonctions de l'Office espagnol des brevets et des marques afin de couvrir les nouvelles fonctions de ce dernier en qualité d'administration chargée de l'examen préliminaire international au titre du PCT.

La nomination et l'accord tel que modifié prendront effet un mois après la date à laquelle l'office notifiera au directeur général qu'il est prêt à fonctionner en qualité d'administration chargée de l'examen préliminaire international; cette notification est attendue pour 2002. Il convient de noter que, avant cette date, il ne sera pas possible pour les déposants de choisir l'Office espagnol des brevets et des marques en qualité d'administration compétente pour effectuer l'examen préliminaire international.

Le texte modifié de l'accord est publié aux pages 19937, 19939, 19941, 19943, 19945 et 19947.

Modification de l'accord entre l'Organisation européenne des brevets et le Bureau international de l'OMPI concernant les fonctions de l'Office européen des brevets en qualité d'administration chargée de la recherche internationale et de l'examen préliminaire international au titre du PCT

L'assemblée a approuvé une modification de l'accord entre l'Organisation européenne des brevets et le Bureau international de l'OMPI concernant les fonctions de l'Office européen des brevets en qualité d'administration chargée de la recherche internationale et de l'examen préliminaire international au titre du PCT. Cet accord permettra à l'Office européen des brevets de restreindre sa compétence en tant qu'administration chargée de la recherche internationale et de l'examen préliminaire international, si la charge de travail de cet office devient telle que ce dernier ne peut accomplir les tâches qu'il assume en vertu de l'accord, sans risques pour son bon fonctionnement à la fois en qualité d'administration au titre du PCT et d'office responsable de la délivrance de brevets européens. Une telle restriction s'exercera pour une période limitée et en fonction de certains critères (nationalité et domicile du déposant, nombre donné de demandes PCT par an, certains domaines techniques). La restriction prendra effet à la date convenue entre chaque office récepteur concerné et l'Office européen des brevets. Toute notification correspondante de l'Office européen des brevets au Bureau international sera publiée dans la gazette.

L'accord tel que modifié entrera en vigueur le 1er novembre 2001.

Le texte modifié de l'accord est publié aux pages 19949, 19951, 19953, 19955, 19957, 19959 et 19961.

MODIFICATIONS OF ARTICLE 22 OF THE PCT

Article 22
Copy, Translation, and Fee, to Designated Offices

(1) The applicant shall furnish a copy of the international application (unless the communication provided for in Article 20 has already taken place) and a translation thereof (as prescribed), and pay the national fee (if any), to each designated Office not later than at the expiration of 30 months from the priority date. Where the national law of the designated State requires the indication of the name of and other prescribed data concerning the inventor but allows that these indications be furnished at a time later than that of the filing of a national application, the applicant shall, unless they were contained in the request, furnish the said indications to the national Office of or acting for the State not later than at the expiration of 30 months from the priority date.

(2) Where the International Searching Authority makes a declaration, under Article 17(2)(a), that no international search report will be established, the time limit for performing the acts referred to in paragraph (1) of this Article shall be the same as that provided for in paragraph (1).

(3) Any national law may, for performing the acts referred to in paragraphs (1) or (2), fix time limits which expire later than the time limit provided for in those paragraphs.

AMENDMENTS OF RULE 90*bis*
OF THE REGULATIONS UNDER THE PCT

Rule 90*bis*
Withdrawals

90*bis*.1 *Withdrawal of the International Application*

(a) The applicant may withdraw the international application at any time prior to the expiration of 30 months from the priority date.

(b) and (c) [No change]

90*bis*.2 *Withdrawal of Designations*

(a) The applicant may withdraw the designation of any designated State at any time prior to the expiration of 30 months from the priority date. Withdrawal of the designation of a State which has been elected shall entail withdrawal of the corresponding election under Rule 90*bis*.4.

(b) to (e) [No change]

90*bis*.3 *Withdrawal of Priority Claims*

(a) The applicant may withdraw a priority claim, made in the international application under Article 8(1), at any time prior to the expiration of 30 months from the priority date.

MODIFICATION DE L'ARTICLE 22 DU PCT

Article 22
Copies, traductions et taxes pour les offices désignés

1) Le déposant remet à chaque office désigné une copie de la demande internationale (sauf si la communication visée à l'article 20 a déjà eu lieu) et une traduction (telle qu'elle est prescrite) de cette demande et lui paie (le cas échéant) la taxe nationale au plus tard à l'expiration d'un délai de trente mois à compter de la date de priorité. Dans le cas où le nom de l'inventeur et les autres renseignements, prescrits par la législation de l'État désigné, relatifs à l'inventeur ne sont pas exigés dès le dépôt d'une demande nationale, le déposant doit, s'ils ne figurent pas déjà dans la requête, les communiquer à l'office national de cet État ou à l'office agissant pour ce dernier au plus tard à l'expiration d'un délai de trente mois à compter de la date de priorité.

2) Lorsque l'administration chargée de la recherche internationale déclare, conformément à l'article 17.2)a), qu'un rapport de recherche internationale ne sera pas établi, le délai pour l'accomplissement des actes mentionnés à l'alinéa 1) du présent article est le même que celui que prévoit l'alinéa 1).

3) La législation de tout État contractant peut, pour l'accomplissement des actes visés aux alinéas 1) et 2), fixer des délais expirant après ceux qui figurent auxdits alinéas.

MODIFICATION DE LA RÈGLE 90*bis*
DU RÈGLEMENT D'EXÉCUTION DU PCT

Règle 90*bis*
Retraits

90*bis*.1 *Retrait de la demande internationale*

a) Le déposant peut retirer la demande internationale à tout moment avant l'expiration d'un délai de trente mois à compter de la date de priorité.

b) et c) [Sans changement]

90*bis*.2 *Retrait de désignations*

a) Le déposant peut retirer la désignation de tout État désigné à tout moment avant l'expiration d'un délai de trente mois à compter de la date de priorité. Le retrait de la désignation d'un État qui a été élu entraîne le retrait de l'élection correspondante selon la règle 90*bis*.4.

b) à e) [Sans changement]

90*bis*.3 *Retrait de revendications de priorité*

a) Le déposant peut retirer une revendication de priorité, faite dans la demande internationale en vertu de l'article 8.1), à tout moment avant l'expiration d'un délai de trente mois à compter de la date de priorité.

DECISIONS RELATING TO ENTRY INTO FORCE OF
THE MODIFICATIONS OF ARTICLE 22 AND TRANSITIONAL ARRANGEMENTS

(1) The modifications of the time limits fixed in Article 22(1)[1] shall, subject to paragraphs (2) and (3), enter into force on 1 April 2002. The modifications shall apply, so far as any designated Office is concerned, to any international application in respect of which the period of 20 months from the priority date expires on or after the date on which the modifications enter into force in respect of that Office and in respect of which the acts referred to in Article 22(1) have not yet been performed by the applicant.

(2) If, on 3 October 2001, any such modification is not compatible with the national law applied by a designated Office, it shall not apply in respect of that Office for as long as it continues not to be compatible with that law, provided that the said Office notifies the International Bureau accordingly by 31 January 2002. The notification shall be promptly published by the International Bureau in the Gazette.

(3) Any notification sent to the International Bureau under paragraph (2) may be withdrawn at any time. Such withdrawal shall be promptly published by the International Bureau in the Gazette and the modifications shall enter into force two months after the date of such publication or on such earlier or later date as may be indicated in the notice of withdrawal.

(4) It is recommended that any Contracting State whose national law is not compatible with the modifications take urgent action to amend its law to make it compatible so that a notification does not have to be given under paragraph (2) or, if such a notification must be given, so that it can be withdrawn under paragraph (3) as soon as possible thereafter.

(5) The amendments of Rule 90*bis*[1] shall enter into force on 1 April 2002.

DÉCISIONS EN CE QUI CONCERNE L'ENTRÉE EN VIGUEUR DE LA MODIFICATION DE L'ARTICLE 22 ET LES MESURES TRANSITOIRES

1) Les modifications relatives aux délais fixés dans l'article 22.1)[1] entreront en vigueur le 1er avril 2002, sous réserve des paragraphes 2) et 3). Les modifications seront applicables, pour tout office désigné concerné, à toute demande internationale en ce qui concerne laquelle le délai de 20 mois calculé à compter de la date de priorité expire à la date à laquelle les modifications entrent en vigueur à l'égard de cet office, ou après cette date, et en ce qui concerne laquelle le déposant n'a pas encore accompli les actes visés à l'article 22.1).

2) Si, le 3 octobre 2001, une telle modification n'est pas compatible avec la législation nationale appliquée par un office désigné, elle ne sera pas applicable à l'égard de cet office tant qu'elle ne sera pas compatible avec ladite législation, à condition que cet office notifie ce fait au Bureau international au plus tard le 31 janvier 2002. La notification sera publiée à bref délai dans la gazette par le Bureau international.

3) Toute notification envoyée au Bureau international en vertu du paragraphe 2) peut être retirée à tout moment. Le retrait de la notification sera publié à bref délai dans la gazette par le Bureau international et les modifications entreront en vigueur deux mois après la date de cette publication ou à toute date antérieure ou ultérieure indiquée dans l'avis de retrait.

4) Il est recommandé que tout État contractant dont la législation nationale n'est pas compatible avec les modifications prenne d'urgence les mesures voulues pour modifier sa législation pour la rendre compatible de sorte qu'il ne soit pas nécessaire d'effectuer une notification en vertu du paragraphe 2) ou, si une telle notification doit être effectuée, qu'elle puisse être retirée en vertu du paragraphe 3) dès que possible par la suite.

5) Les modifications relatives à la règle 90*bis*[1] entreront en vigueur le 1er avril 2002.

ACCORD MODIFIÉ ENTRE L'OFFICE ESPAGNOL DES BREVETS ET DES MARQUES ET LE BUREAU INTERNATIONAL DE L'ORGANISATION MONDIALE DE LA PROPRIÉTÉ INTELLECTUELLE

concernant les fonctions de l'Office espagnol des brevets et des marques en qualité d'administration chargée de la recherche internationale et d'administration chargée de l'examen préliminaire international au titre du Traité de coopération en matière de brevets

Préambule

L'Office espagnol des brevets et des marques et le Bureau international de l'Organisation Mondiale de la Propriété Intellectuelle,

Considérant que l'accord conclu le 1er octobre 1997, en vertu de l'article 16.3)b) du Traité de coopération en matière de brevets, en ce qui concerne les fonctions de l'Office espagnol des brevets et des marques en qualité d'administration chargée de la recherche internationale au titre du Traité de coopération en matière de brevets est entré en vigueur le 1er janvier 1998 et restera en vigueur jusqu'au 31 décembre 2007,

Considérant l'article 32.3) du Traité de coopération en matière de brevets, en ce qui concerne les fonctions des offices nationaux et des organisations intergouvernementales agissant en qualité d'administrations chargées de l'examen préliminaire international au titre du Traité de coopération en matière de brevets,

Souhaitant que l'Office espagnol des brevets et des marques continue d'agir en qualité d'administration chargée de la recherche internationale et commence d'agir en qualité d'administration chargée de l'examen préliminaire international, au titre du Traité de coopération en matière de brevets,

Sont convenus de ce qui suit :

Article premier
Termes et expressions

1) Aux fins du présent accord, on entend par

a) "traité" le Traité de coopération en matière de brevets;
b) "règlement d'exécution" le règlement d'exécution du traité;
c) "instructions administratives" les instructions administratives du traité;
d) "article" un article du traité (sauf quand il est fait expressément référence à un article du présent accord);
e) "règle" une règle du règlement d'exécution;
f) "État contractant" un État partie au traité;
g) "Administration" l'Office espagnol des brevets et des marques;
h) "Bureau international" le Bureau international de l'Organisation Mondiale de la Propriété Intellectuelle.

AMENDED AGREEMENT BETWEEN THE SPANISH PATENT AND TRADEMARK OFFICE AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION (Cont'd)

(2) All other terms and expressions used in this Agreement which are also used in the Treaty, the Regulations or the Administrative Instructions have, for the purposes of this Agreement, the same meaning as in the Treaty, the Regulations and the Administrative Instructions.

Article 2
Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching Authority and International Preliminary Examining Authority as are provided under, the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall apply and observe all the common rules of international search and of international preliminary examination and, in particular, shall be guided by the PCT Search Guidelines and the PCT Preliminary Examination Guidelines.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent considered to be appropriate by both the Authority and the International Bureau, mutual assistance in the performance of their functions thereunder.

Article 3
Competence of Authority

(1) The Authority shall act as International Searching Authority for any international application filed with the receiving Office of, or acting for, any Contracting State provided that the receiving Office specifies the Authority for that purpose, that such application, or a translation thereof furnished for the purposes of international search, is in the language or one of the languages specified in Annex A to this Agreement and, where applicable, that the Authority has been chosen by the applicant.

(2) The Authority shall act as International Preliminary Examining Authority for any international application filed with the receiving Office of, or acting for, any Contracting State provided that the receiving Office specifies the Authority for that purpose, that such application, or a translation thereof furnished for the purposes of international preliminary examination, is in the language or one of the languages specified in Annex A to this Agreement, that, where applicable, the Authority has been chosen by the applicant, and that any other requirements regarding such application as specified in Annex A to this Agreement have been met.

(3) Where an international application is filed with the International Bureau as receiving Office under Rule 19.1(a)(iii), paragraphs (1) and (2) apply as if that application had been filed with a receiving Office which would have been competent under Rule 19.1(a)(i) or (ii), (b) or (c) or Rule 19.2(i).

Article 4
Subject Matter Not Required to Be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that such application relates to subject matter set forth in Rule 39.1 or 67.1, as the case may be, with the exception of the subject matter specified in Annex B to this Agreement.

ACCORD MODIFIÉ ENTRE L'OFFICE ESPAGNOL DES BREVETS ET DES MARQUES ET LE BUREAU INTERNATIONAL DE L'ORGANISATION MONDIALE DE LA PROPRIÉTÉ INTELLECTUELLE (suite)

2) Aux fins du présent accord, tous les autres termes et expressions utilisés qui sont également employés dans le traité, le règlement d'exécution ou les instructions administratives, ont le même sens que dans le traité, le règlement d'exécution et les instructions administratives.

Article 2
Obligations fondamentales

1) L'Administration procède à la recherche internationale et à l'examen préliminaire international conformément aux dispositions du traité, du règlement d'exécution, des instructions administratives et du présent accord et assume toutes autres fonctions confiées aux administrations chargées de la recherche internationale et aux administrations chargées de l'examen préliminaire international en vertu de ces dispositions. Pour procéder à la recherche internationale et à l'examen préliminaire international, l'Administration applique et observe toutes les règles communes à la recherche internationale et à l'examen préliminaire international et se conforme notamment aux Directives concernant la recherche selon le PCT et aux Directives concernant l'examen préliminaire selon le PCT.

2) L'Administration et le Bureau international, eu égard à leurs tâches respectives telles que prévues par le traité, le règlement d'exécution, les instructions administratives et le présent accord, se prêtent mutuellement assistance, dans la mesure qu'ils jugent l'un et l'autre appropriée, pour l'exécution desdites tâches.

Article 3
Compétence de l'Administration

1) L'Administration agit en qualité d'administration chargée de la recherche internationale à l'égard de toute demande internationale déposée auprès de l'office récepteur de tout État contractant, ou agissant pour tout État contractant, pourvu que l'office récepteur l'ait désignée à cette fin, que la demande, ou une traduction de celle-ci remise aux fins de la recherche internationale, soit dans la langue ou dans l'une des langues spécifiées à l'annexe A du présent accord et, le cas échéant, que l'Administration ait été choisie par le déposant.

2) L'Administration agit en qualité d'administration chargée de l'examen préliminaire international à l'égard de toute demande internationale déposée auprès de l'office récepteur de tout État contractant, ou agissant pour tout État contractant, pourvu que l'office récepteur l'ait désignée à cette fin, que la demande, ou une traduction de celle-ci remise aux fins de l'examen préliminaire international, soit dans la langue ou dans l'une des langues spécifiées à l'annexe A du présent accord et, le cas échéant, que l'Administration ait été choisie par le déposant et que toute autre condition précisée dans l'annexe A du présent accord au sujet d'une telle demande soit remplie.

3) Lorsqu'une demande internationale est déposée auprès du Bureau international agissant en tant qu'office récepteur en vertu de la règle 19.1.a)iii), les alinéas 1) et 2) s'appliquent comme si la demande avait été déposée auprès d'un office récepteur compétent en vertu de la règle 19.1.a)i) ou ii), b) ou c) ou de la règle 19.2.i).

Article 4
Objets pour lesquels la recherche et l'examen ne sont pas obligatoires

En vertu respectivement de l'article 17.2)a)i) et de l'article 34.4)a)i), l'Administration n'est pas tenue d'effectuer la recherche internationale ou l'examen préliminaire international dans la mesure où elle considère que la demande internationale concerne un objet visé à la règle 39.1 ou à la règle 67.1, selon le cas, à l'exception des objets désignés à l'annexe B du présent accord.

Article 5
Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its function as an International Searching Authority and International Preliminary Examining Authority, is set out in Annex C to this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C to this Agreement:

(i) refund the whole or part of the search fee paid, or waive or reduce the search fee, where the international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1);

(ii) refund the search fee where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall, under the conditions and to the extent set out in Annex C to this Agreement, refund the whole or part of the preliminary examination fee paid where the demand is considered as if it had not been submitted (Rule 58.3) or where the demand or the international application is withdrawn by the applicant before the start of the international preliminary examination.

Article 6
Classification

For the purposes of Rules 43.3(a) and 70.5(b), the Authority shall indicate solely the International Patent Classification.

Article 7
Languages of Correspondence Used by the Authority

For the purposes of correspondence, including forms, other than with the International Bureau, the Authority shall use the language or one of the languages indicated, having regard to the language or languages indicated in Annex A and to the language or languages whose use is authorized by the Authority under Rule 92.2(b), in Annex D.

Article 8
International-Type Search

The Authority shall carry out international-type searches to the extent decided by it.

Article 9
Entry into Force

This Agreement, as amended, shall enter into force one month after the date on which the Authority notifies the Director General of the World Intellectual Property Organization that it is ready to start functioning as an International Preliminary Examining Authority.

Article 5
Taxes et droits

1) Un barème de toutes les taxes requises par l'Administration, ainsi que de tous les autres droits que l'Administration peut percevoir en qualité d'administration chargée de la recherche internationale et d'administration chargée de l'examen préliminaire international, figure à l'annexe C du présent accord.

2) Sous réserve des conditions et limites spécifiées à l'annexe C du présent accord, l'Administration

i) rembourse tout ou partie de la taxe de recherche acquittée, ou supprime ou réduit la taxe de recherche, lorsque le rapport de recherche internationale peut se baser entièrement ou partiellement sur les résultats d'une recherche effectuée antérieurement par l'Administration (règles 16.3 et 41.1);

ii) rembourse la taxe de recherche lorsque la demande internationale est retirée ou considérée comme retirée avant le début de la recherche internationale.

3) L'Administration rembourse, aux conditions et dans les limites spécifiées à l'annexe C du présent accord, tout ou partie de la taxe d'examen préliminaire acquittée lorsque la demande d'examen préliminaire international est considérée comme n'ayant pas été présentée (règle 58.3), ou bien lorsque la demande d'examen préliminaire international ou la demande internationale est retirée par le déposant avant le début de l'examen préliminaire international.

Article 6
Classification

Aux fins des règles 43.3.a) et 70.5.b), l'Administration utilise uniquement la classification internationale des brevets.

Article 7
Langues utilisées par l'Administration pour la correspondance

L'Administration utilise, aux fins de la correspondance (y compris les formulaires), à l'exclusion de la correspondance échangée avec le Bureau international, la langue ou l'une des langues indiquées à l'annexe D, compte tenu de la langue ou des langues indiquées à l'annexe A et de la langue ou des langues dont l'usage est autorisé par l'Administration conformément à la règle 92.2.b).

Article 8
Recherche de type international

L'Administration effectue des recherches de type international dans les limites qu'elle fixe.

Article 9
Entrée en vigueur

Le présent accord, tel que modifié, entre en vigueur un mois après la date à laquelle l'Administration a informé le Directeur général de l'Organisation Mondiale de la Propriété Intellectuelle qu'elle est prête à commencer d'agir en qualité d'administration chargée de l'examen préliminaire international.

(3) The Authority may, by a notification to the Director General of the World Intellectual Property Organization:

(i) add to the indications of languages contained in Annex A to this Agreement;

(ii) amend the schedule of fees and charges contained in Annex C to this Agreement;

(iii) amend the indications of languages of correspondence contained in Annex D to this Agreement.

(4) Any amendment notified under paragraph (3) shall take effect on the date specified in the notification, provided that, for any increase of fees or charges contained in Annex C, that date is at least one month later than the date on which the notification is received by the International Bureau.

Article 12
Termination

(1) This Agreement shall terminate before December 31, 2007:

(i) if the Authority gives the Director General of the World Intellectual Property Organization written notice to terminate this Agreement; or

(ii) if the Director General of the World Intellectual Property Organization gives the Authority written notice to terminate this Agreement.

(2) The termination of this Agreement under paragraph (1) shall take effect one year after receipt of the notice by the other party, unless a longer period is specified in such notice or unless both parties agree on a shorter period.

Article 10
Durée et renouvellement

Le présent accord restera en vigueur jusqu'au 31 décembre 2007. En janvier 2007 au plus tard, les parties au présent accord entameront des négociations en vue de le renouveler.

Article 11
Modification

1) Sans préjudice des alinéas 2) et 3), les parties peuvent convenir de modifications à apporter au présent accord, sous réserve d'approbation par l'Assemblée de l'Union internationale de coopération en matière de brevets; ces modifications prennent effet à la date convenue entre les parties.

2) Sans préjudice de l'alinéa 3), le Directeur général de l'Organisation Mondiale de la Propriété Intellectuelle et l'Administration peuvent convenir de modifications à apporter aux annexes du présent accord; ces modifications prennent effet à la date convenue entre eux.

3) L'Administration peut, par notification adressée au Directeur général de l'Organisation Mondiale de la Propriété Intellectuelle,

i) compléter les indications relatives aux langues figurant à l'annexe A du présent accord;

ii) modifier le barème de taxes et de droits figurant à l'annexe C du présent accord;

iii) modifier les indications relatives aux langues utilisées pour la correspondance figurant à l'annexe D du présent accord.

4) Toute modification notifiée conformément à l'alinéa 3) prend effet à la date indiquée dans la notification; toutefois, les augmentations des taxes et autres droits indiqués à l'annexe C ne prennent effet qu'un mois au moins après la date de réception de la notification par le Bureau international.

Article 12
Extinction

1) Le présent accord prend fin avant le 31 décembre 2007

i) si l'Administration notifie par écrit au Directeur général de l'Organisation Mondiale de la Propriété Intellectuelle son intention de mettre fin au présent accord; ou

ii) si le Directeur général de l'Organisation Mondiale de la Propriété Intellectuelle notifie par écrit à l'Administration son intention de mettre fin au présent accord.

2) L'extinction du présent accord conformément à l'alinéa 1) prend effet un an après réception de la notification par l'autre partie, sauf si un délai plus long est précisé dans la notification ou si les deux parties conviennent d'un délai plus court.

ACCORD MODIFIÉ ENTRE L'ORGANISATION EUROPÉENNE DES BREVETS ET LE BUREAU INTERNATIONAL DE L'ORGANISATION MONDIALE DE LA PROPRIÉTÉ INTELLECTUELLE

concernant les fonctions de l'Office européen des brevets en qualité d'administration chargée de la recherche internationale et d'administration chargée de l'examen préliminaire international au titre du Traité de coopération en matière de brevets

Préambule

L'Organisation européenne des brevets et le Bureau international de l'Organisation Mondiale de la Propriété Intellectuelle,

Considérant que l'accord conclu le 1er octobre 1997, en vertu des articles 16.3)b) et 32.3) du Traité de coopération en matière de brevets ainsi que des articles 154 et 155 de la Convention sur le brevet européen, en ce qui concerne les fonctions de l'Office européen des brevets en qualité d'administration chargée de la recherche internationale et d'administration chargée de l'examen préliminaire international au titre du Traité de coopération en matière de brevets avait été conclu pour une période de 10 années, du 1er janvier 1998 au 31 décembre 2007,

Souhaitant que l'Office européen des brevets continue d'agir en qualité d'administration chargée de la recherche internationale et d'administration chargée de l'examen préliminaire international au titre du Traité de coopération en matière de brevets,

Sont convenus de ce qui suit :

Article premier
Termes et expressions

1) Aux fins du présent accord, on entend par

a) "traité" le Traité de coopération en matière de brevets;
b) "règlement d'exécution" le règlement d'exécution du traité;
c) "instructions administratives" les instructions administratives du traité;
d) "article" un article du traité (sauf quand il est fait expressément référence à un article du présent accord);
e) "règle" une règle du règlement d'exécution;
f) "État contractant" un État partie au traité;
g) "Administration" l'Office européen des brevets;
h) "Bureau international" le Bureau international de l'Organisation Mondiale de la Propriété Intellectuelle;
i) "Convention" la Convention sur la délivrance de brevets européens (Convention sur le brevet européen).

2) Aux fins du présent accord, tous les autres termes et expressions utilisés qui sont également employés dans le traité, le règlement d'exécution ou les instructions administratives, ont le même sens que dans le traité, le règlement d'exécution et les instructions administratives.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY (Cont'd)

AMENDED AGREEMENT BETWEEN THE EUROPEAN PATENT ORGANISATION AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION (Cont'd)

Article 2
Basic Obligations

(1) The Authority shall carry out international search and international preliminary examination in accordance with, and perform such other functions of an International Searching Authority and International Preliminary Examining Authority as are provided under, the Treaty, the Regulations, the Administrative Instructions and this Agreement. In carrying out international search and international preliminary examination, the Authority shall apply and observe all the common rules of international search and of international preliminary examination and, in particular, shall be guided by the PCT Search Guidelines and the PCT Preliminary Examination Guidelines.

(2) The Authority and the International Bureau shall, having regard to their respective functions under the Treaty, the Regulations, the Administrative Instructions and this Agreement, render, to the extent considered to be appropriate by both the Authority and the International Bureau, mutual assistance in the performance of their functions thereunder.

Article 3
Competence of Authority

(1) The Authority shall act as International Searching Authority for any international application filed with the receiving Office of, or acting for, any Contracting State, provided that the receiving Office specifies the Authority for that purpose, that such application, or a translation thereof furnished for the purposes of international search, is in the language or one of the languages specified in Annex A to this Agreement and, where applicable, that the Authority has been chosen by the applicant.

(2) The Authority shall act as International Preliminary Examining Authority for any international application filed with the receiving Office of, or acting for, any Contracting State, provided that the receiving Office specifies the Authority for that purpose, that, for such application, the international search is or has been performed by the Authority or the industrial property Office of a State party to the Convention and, where applicable, that the Authority has been chosen by the applicant.

(3) Where an international application is filed with the International Bureau as receiving Office under Rule 19.1(a)(iii), paragraphs (1) and (2) apply as if that application had been filed with a receiving Office which would have been competent under Rule 19.1(a)(i) or (ii), (b) or (c) or Rule 19.2(i).

(4)(a) Notwithstanding paragraphs (1) and (2), if the work load of the Authority reaches such a level that, because of its then existing facilities, it cannot perform the tasks assumed by it under this Agreement without risks for its proper functioning under the Convention, the Authority may

(i) entrust any industrial property Office of a State party to the Convention with work in respect of international search or international preliminary examination to be carried out under the responsibility of the Authority;

ACCORD MODIFIÉ ENTRE L'ORGANISATION EUROPÉENNE DES BREVETS ET LE BUREAU INTERNATIONAL DE L'ORGANISATION MONDIALE DE LA PROPRIÉTÉ INTELLECTUELLE (suite)

Article 2
Obligations fondamentales

1) L'Administration procède à la recherche internationale et à l'examen préliminaire international conformément aux dispositions du traité, du règlement d'exécution, des instructions administratives et du présent accord et assume toutes autres fonctions confiées aux administrations chargées de la recherche internationale et aux administrations chargées de l'examen préliminaire international en vertu de ces dispositions. Pour procéder à la recherche internationale et à l'examen préliminaire international, l'Administration applique et observe toutes les règles communes à la recherche internationale et à l'examen préliminaire international et se conforme notamment aux Directives concernant la recherche selon le PCT et aux Directives concernant l'examen préliminaire selon le PCT.

2) L'Administration et le Bureau international, eu égard à leurs tâches respectives telles que prévues par le traité, le règlement d'exécution, les instructions administratives et le présent accord, se prêtent mutuellement assistance, dans la mesure qu'ils jugent tous deux appropriée, pour l'exécution desdites tâches.

Article 3
Compétence de l'Administration

1) L'Administration agit en qualité d'administration chargée de la recherche internationale à l'égard de toute demande internationale déposée auprès de l'office récepteur de tout État contractant, ou agissant pour tout État contractant, pourvu que l'office récepteur l'ait désignée à cette fin, que la demande, ou une traduction de celle-ci remise aux fins de la recherche internationale, soit dans la langue ou dans l'une des langues spécifiées à l'annexe A du présent accord et, le cas échéant, que l'Administration ait été choisie par le déposant.

2) L'Administration agit en qualité d'administration chargée de l'examen préliminaire international à l'égard de toute demande internationale déposée auprès de l'office récepteur de tout État contractant, ou agissant pour tout État contractant, pourvu que l'office récepteur l'ait désignée à cette fin, que la recherche internationale afférente à cette demande soit ou ait été effectuée par l'Administration ou par le service de la propriété industrielle d'un État partie à la Convention et, le cas échéant, que l'Administration ait été choisie par le déposant.

3) Lorsqu'une demande internationale est déposée auprès du Bureau international agissant en tant qu'office récepteur en vertu de la règle 19.1.a)iii), les alinéas 1) et 2) s'appliquent comme si la demande avait été déposée auprès d'un office récepteur compétent en vertu de la règle 19.1.a)i) ou ii), b) ou c) ou de la règle 19.2.i).

4)a) Nonobstant les alinéas 1) et 2), si la charge de travail de l'Administration devient telle que cette dernière, en raison des moyens dont elle dispose à ce moment-là, ne peut pas accomplir les tâches qu'elle assume en vertu du présent accord sans risques pour son bon fonctionnement dans le cadre de la Convention, l'Administration peut

i) charger le service de la propriété industrielle d'un État partie à la Convention d'effectuer, sous la responsabilité de l'Administration, des travaux relatifs à la recherche internationale ou à l'examen préliminaire international;

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION—ASSEMBLY (Cont'd)

AMENDED AGREEMENT BETWEEN THE EUROPEAN PATENT ORGANISATION AND THE INTERNATIONAL BUREAU OF THE WORLD INTELLECTUAL PROPERTY ORGANIZATION (Cont'd)

(ii) notify the International Bureau either that it will not carry out international search or international preliminary examination or both in respect of international applications filed with any receiving Office of or acting for a State whose nationals or residents may choose that Office acting as an International Searching and/or International Preliminary Examining Authority or that it will carry out international search or international preliminary examination or both in respect of such international applications but only for a given number of applications each year or only in respect of certain fields of technology.

(b) Any limitation under subparagraph (a)(ii) shall take effect on the date agreed upon between the receiving Office and the Authority and specified in the notification, provided that that date is at least one month later than the date on which the notification is received by the International Bureau. If such a date is not agreed upon by the receiving Office and the Authority, the limitation shall take effect three months from the date of receipt of the notification by the Authority to the International Bureau. The International Bureau shall promptly publish in the Gazette any notification under this subparagraph.

(c) The initial duration of any limitation under subparagraph (a)(ii) shall not exceed a period of three years and may be extended one or more times for a period not exceeding two years provided that notice of three months is given prior to the expiration of the preceding period.

Article 4
Subject Matter Not Required to Be Searched or Examined

The Authority shall not be obliged to search, by virtue of Article 17(2)(a)(i), or examine, by virtue of Article 34(4)(a)(i), any international application to the extent that it considers that such application relates to subject matter set forth in Rule 39.1 or 67.1, as the case may be, with the exception of the subject matter specified in Annex B to this Agreement.

Article 5
Fees and Charges

(1) A schedule of all fees of the Authority, and all other charges which the Authority is entitled to make, in relation to its functions as an International Searching Authority and International Preliminary Examining Authority, is set out in Annex C to this Agreement.

(2) The Authority shall, under the conditions and to the extent set out in Annex C to this Agreement:

(i) refund the whole or part of the search fee paid, or waive or reduce the search fee, where the international search report can be wholly or partly based on the results of an earlier search made by the Authority (Rules 16.3 and 41.1);

(ii) refund the search fee where the international application is withdrawn or considered withdrawn before the start of the international search.

(3) The Authority shall, under the conditions and to the extent set out in Annex C to this Agreement, refund the whole or part of the preliminary examination fee paid where the demand is considered as if it had not been submitted (Rule 58.3) or where the demand or the international application is withdrawn by the applicant before the start of the international preliminary examination.

ACCORD MODIFIÉ ENTRE L'ORGANISATION EUROPÉENNE DES BREVETS ET LE BUREAU INTERNATIONAL DE L'ORGANISATION MONDIALE DE LA PROPRIÉTÉ INTELLECTUELLE (suite)

ii) notifier au Bureau international soit qu'elle n'effectuera pas la recherche internationale ou l'examen préliminaire international, ou les deux, pour les demandes internationales déposées auprès de l'office récepteur d'un État contractant, ou agissant pour un État contractant, qui peut être choisi en qualité d'administration chargée de la recherche internationale ou de l'examen préliminaire international par les nationaux ou les résidents d'un tel État, soit qu'elle effectuera la recherche internationale ou l'examen préliminaire international, ou les deux, pour ces demandes internationales, mais seulement pour un nombre donné de demandes par an, ou seulement en ce qui concerne certains domaines techniques.

b) Toute limitation selon le sous-alinéa a)ii) prend effet à la date convenue entre l'office récepteur et l'Administration et indiquée dans la notification, sous réserve que cette date soit postérieure d'un mois au moins à la date de réception de la notification par le Bureau international. Si l'office récepteur et l'Administration ne conviennent pas d'une telle date, la limitation prend effet trois mois après la date à laquelle la notification de l'Administration est reçue par le Bureau international. Le Bureau international publie à bref délai dans la gazette toute notification faite conformément au présent sous-alinéa.

c) La durée initiale de toute limitation selon le sous-alinéa a)ii) ne doit pas dépasser trois ans et peut être prolongée une ou plusieurs fois pour une période ne dépassant pas deux ans, sous réserve d'un préavis de trois mois donné avant l'expiration de la période précédente.

Article 4
Objets pour lesquels la recherche et l'examen ne sont pas obligatoires

En vertu respectivement de l'article 17.2)a)i) et de l'article 34.4)a)i), l'Administration n'est pas tenue d'effectuer la recherche internationale ou l'examen préliminaire international dans la mesure où elle considère que la demande internationale concerne un objet visé à la règle 39.1 ou à la règle 67.1, selon le cas, à l'exception des objets désignés à l'annexe B du présent accord.

Article 5
Taxes et droits

1) Un barème de toutes les taxes requises par l'Administration, ainsi que de tous les autres droits que l'Administration peut percevoir en qualité d'administration chargée de la recherche internationale et d'administration chargée de l'examen préliminaire international, figure à l'annexe C du présent accord.

2) Sous réserve des conditions et limites spécifiées à l'annexe C du présent accord, l'Administration

i) rembourse tout ou partie de la taxe de recherche acquittée, ou supprime ou réduit la taxe de recherche, lorsque le rapport de recherche internationale peut se baser entièrement ou partiellement sur les résultats d'une recherche effectuée antérieurement par l'Administration (règles 16.3 et 41.1);

ii) rembourse la taxe de recherche lorsque la demande internationale est retirée ou considérée comme retirée avant le début de la recherche internationale.

3) L'Administration rembourse, aux conditions et dans les limites spécifiées à l'annexe C du présent accord, tout ou partie de la taxe d'examen préliminaire acquittée lorsque la demande d'examen préliminaire international est considérée comme n'ayant pas été présentée (règle 58.3), ou bien lorsque la demande d'examen préliminaire international ou la demande internationale est retirée par le déposant avant le début de l'examen préliminaire international.

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS—MODIFICATIONS OF WO PUBLICATION NUMBERING SYSTEM, OF PCT APPLICATION NUMBERING SYSTEM AND OF YEAR FORMAT

Note Prepared by the International Bureau

After consultation with the interested Offices and Authorities pursuant to PCT Rule 89.2(a), modifications of Sections 110, 307 and 404 of the Administrative Instructions are promulgated as indicated below. The present text of the Administrative Instructions is set out in PCT Gazette Special Issue No. S-03/2001 (E) (30 August 2001). The corresponding WIPO documents, PCT/AI/1 Rev.1 and PCT/AI/1 Rev.1 Add.1, may be viewed on the WIPO Internet site at the following address: http://www.wipo.int/pct/en/index.html.

Modifications of WO Publication Numbering System

Section 404 ("International Publication Number of International Application") has been modified with effect from 1 July 2002 so as to take into account the fact that more than 100,000 international applications will have to be published in 2002, therefore requiring that the serial number part of the WO publication number include 6 digits at some point in 2002. This date of entry into force will give Offices and Authorities, as well as subscribers to PCT data products, sufficient time to adapt their systems, noting that the first PCT publications to be affected will be those of Thursday, 4 July 2002. In addition to these modifications and following observations received from Offices, the word "designation" has been replaced by the word "indication".

From 1 July 2002, the serial number part of the WO publication numbers of all publications and republications (in the form of PCT pamphlets and/or entries in the PCT Gazette) will contain exclusively the 6-digit format. For all international applications published before 1 July 2002, the WO publication number will consist of 5 digits, except that, should such an application have to be republished after 1 July 2002, its WO publication number will be "converted" into the 6-digit format.

Modifications of Section 404 are being promulgated with effect from 1 July 2002. The text of modified Section 404 is reproduced on page 21586.

Modification of PCT Application Numbering System and of Year Format

Section 307 ("System of Numbering International Applications") has been modified with effect from 1 January 2004 so as to introduce a 6-digit format for the serial number part of the PCT application number (along the same lines as the 6-digit format introduced for the WO publication number; see above).

Sections 110 ("Dates"), 307 and 404 ("International Publication Number of International Application") have been modified with effect from 1 January 2004 so as to allow for a 4-digit indication of the year in dates appearing in international applications and in communications and notifications issued by PCT Offices and Authorities, in PCT application numbers and in WO publication numbers.

This date of entry into force will give Offices and Authorities, as well as subscribers to PCT data products, sufficient time to implement the modifications.

Modifications of Sections 110, 307 and 404 are being promulgated with effect from 1 January 2004. The text of modified Sections 110, 307 and 404 is reproduced on page 21586.

MODIFICATIONS DES INSTRUCTIONS ADMINISTRATIVES – MODIFICATION DU SYSTÈME DE NUMÉROTATION DES PUBLICATIONS WO, DU SYSTÈME DE NUMÉROTATION DES DEMANDES PCT ET DE L'INDICATION DE L'ANNÉE

Note du Bureau international

Après consultation des offices et des administrations intéressés conformément à la règle 89.2.a) du PCT, les modifications des instructions administratives 110, 307 et 404 sont promulguées comme indiqué ci-dessous. Le texte actuel des instructions administratives figure dans le numéro spécial de la Gazette du PCT n° S-03/2001 (F) (30 août 2001). Les documents de l'OMPI correspondants, PCT/AI/1 Rev.1 et PCT/AI/1 Rev.1 Add.1, peuvent être consultés sur le site Internet de l'OMPI à l'adresse suivante : http://www.wipo.int/pct/fr/index.html.

Modification du système de numérotation des publications WO

L'instruction 404 ("Numéro de publication internationale de la demande internationale") a été modifiée avec effet au 1er juillet 2002 pour tenir compte du fait que plus de 100 000 demandes internationales devront être publiées en 2002; la configuration à 6 chiffres pour le numéro d'ordre qui fait partie du numéro de publication WO est donc à prévoir pour le courant 2002. Cette date d'entrée en vigueur donnera aux offices et aux administrations, ainsi qu'aux abonnés aux produits du PCT, suffisamment de temps pour adapter leurs systèmes, étant entendu que les premières publications PCT touchées seront celles du jeudi 4 juillet 2002. Outre ces modifications et compte tenu des observations de plusieurs offices, le mot *"designation"* a été remplacé dans la version anglaise par le mot *"indication"*.

À compter du 1er juillet 2002, pour toutes les publications et republications (que ce soit sous forme de brochure du PCT ou d'avis inséré dans la Gazette du PCT) le numéro d'ordre de publication WO sera exclusivement donné dans la configuration à 6 chiffres. Pour toutes les demandes internationales publiées avant le 1er juillet 2002, le numéro de publication WO sera composé de 5 chiffres mais si une demande doit faire l'objet d'une republication après le 1er juillet 2002, son numéro de publication WO sera "converti" dans la configuration à 6 chiffres.

Les modifications de l'instruction 404 sont promulguées avec effet au 1er juillet 2002. Le texte de l'instruction 404 modifiée est reproduit à la page 21587.

Modification du système de numérotation des demandes PCT et de l'indication de l'année

L'instruction 307 ("Système de numérotation des demandes internationales") a été modifiée avec effet au 1er janvier 2004 pour introduire une configuration à 6 chiffres pour le numéro d'ordre qui fait partie du numéro de demande PCT (en accord avec la configuration à 6 chiffres introduite pour le numéro de publication WO; voir plus haut).

Les instructions 110 ("Dates"), 307 et 404 ("Numéro de publication internationale de la demande internationale") ont été modifiées avec effet au 1er janvier 2004 pour permettre une indication à 4 chiffres de l'année dans les dates portées sur les communications et les notifications émanant des offices et des administrations du PCT, dans les numéros de demandes PCT et dans les numéros de publication WO.

Cette date d'entrée en vigueur donnera aux offices et aux administrations, ainsi qu'aux abonnés aux produits du PCT, suffisamment de temps pour la mise en oeuvre des modifications.

Les modifications des instructions 110, 307 et 404 sont promulguées avec effet au 1er janvier 2004. Le texte des instructions modifiées 110, 307 et 404 est reproduit à la page 21587.

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS—MODIFICATIONS OF WO PUBLICATION NUMBERING SYSTEM, OF PCT APPLICATION NUMBERING SYSTEM AND OF YEAR FORMAT (Cont'd)

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS
(with effect from 1 July 2002)

Section 404
International Publication Number of International Application

The International Bureau shall assign to each published international application an international publication number which shall be different from the international application number. The international publication number shall be used on the pamphlet and in the Gazette entry. It shall consist of the two-letter code "WO" followed by a two-digit indication of the last two numbers of the year of publication, a slant, and a serial number consisting of six digits (e.g., "WO 02/123456").

MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS
(with effect from 1 January 2004)

Section 110
Dates

Any date in the international application, or used in any correspondence emanating from International Authorities relating to the international application, shall be indicated by the Arabic number of the day, by the name of the month, and by the Arabic number of the year. The receiving Office, where the applicant has not done so, or the International Bureau, where the applicant has not done so and the receiving Office fails to do so, shall, after, above, or below any date indicated by the applicant in the request, repeat the date, in parentheses, by indicating it by two-digit Arabic numerals each for the number of the day and for the number of the month followed by the number of the year in four digits, in that order and with a period, slant or hyphen after the digit pairs of the day and of the month (for example, "20 March 2004 (20.03.2004)," "20 March 2004 (20/03/2004)," or "20 March 2004 (20-03-2004)").

Section 307
System of Numbering International Applications

(a) Papers purporting to be an international application under Rule 20.1(a) shall be marked with the international application number, consisting of the letters "PCT," a slant, the two-letter code referred to in Section 115, indicating the receiving Office, a four-digit indication of the year in which such papers were first received, a slant and a six-digit number, allotted in sequential order corresponding to the order in which the international applications are received (e.g., "PCT/SE2004/000001"). Where the International Bureau acts as receiving Office, the two-letter code "IB" shall be used.

(b) [No change]

Section 404
International Publication Number of International Application

The International Bureau shall assign to each published international application an international publication number which shall be different from the international application number. The international publication number shall be used on the pamphlet and in the Gazette entry. It shall consist of the two-letter code "WO" followed by a four-digit indication of the year of publication, a slant, and a serial number consisting of six digits (e.g., "WO 2004/123456").

MODIFICATIONS DES INSTRUCTIONS ADMINISTRATIVES – MODIFICATION DU SYSTÈME DE NUMÉROTATION DES PUBLICATIONS WO, DU SYSTÈME DE NUMÉROTATION DES DEMANDES PCT ET DE L'INDICATION DE L'ANNÉE (suite)

MODIFICATIONS DES INSTRUCTIONS ADMINISTRATIVES
(texte en vigueur au 1er juillet 2002)

Instruction 404
Numéro de publication internationale de la demande internationale

Le Bureau international attribue à chaque demande internationale publiée un numéro de publication internationale qui est différent de celui de la demande internationale. Le numéro de publication internationale doit être utilisé sur la brochure et dans l'avis inséré dans la gazette. Ce numéro se compose du code à deux lettres "WO" suivi des deux derniers chiffres de l'année de publication, d'une barre oblique et d'un numéro d'ordre à six chiffres (par exemple, "WO 02/123456").

MODIFICATIONS DES INSTRUCTIONS ADMINISTRATIVES
(texte en vigueur au 1er janvier 2004)

Instruction 110
Dates

Toute date figurant dans la demande internationale ou utilisée dans la correspondance émanant des administrations internationales et relative à la demande internationale est indiquée au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes. A côté, au-dessus ou au-dessous de toute date mentionnée par le déposant dans la requête, l'office récepteur, à défaut du déposant, ou le Bureau international, à défaut du déposant et de l'office récepteur, indique de nouveau cette date, mais entre parenthèses et dans l'ordre suivant : quantième et mois en numéros à deux chiffres arabes, puis l'année en quatre chiffres, le quantième et le mois étant suivis d'un point, d'une barre oblique ou d'un tiret (par exemple, "20 mars 2004 (20.03.2004)", "20 mars 2004 (20/03/2004)", ou "20 mars 2004 (20-03-2004)").

Instruction 307
Système de numérotation des demandes internationales

a) Les documents supposés constituer une demande internationale selon la règle 20.1.a) reçoivent un numéro de demande internationale constitué par les lettres "PCT", suivies d'une barre oblique puis du code à deux lettres visé dans l'instruction 115 et permettant d'identifier l'office récepteur, de quatre chiffres indiquant l'année de réception des premiers de ces documents, d'une barre oblique et d'un numéro à six chiffres attribué dans l'ordre continu de réception des demandes internationales (par exemple, "PCT/SE2004/000001"). Lorsque le Bureau international agit en tant qu'office récepteur, le code à deux lettres "IB" est utilisé.

b) [Sans changement]

Instruction 404
Numéro de publication internationale de la demande internationale

Le Bureau international attribue à chaque demande internationale publiée un numéro de publication internationale qui est différent de celui de la demande internationale. Le numéro de publication internationale doit être utilisé sur la brochure et dans l'avis inséré dans la gazette. Ce numéro se compose du code à deux lettres "WO" suivi des quatre chiffres de l'année de publication, d'une barre oblique et d'un numéro d'ordre à six chiffres (par exemple, "WO 2004/123456").

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT
MODIFICATION OF ANNEX A—FORMS

Form PCT/RO/101 (Request)

The Request Form has been modified to take into account the entry into force of the PCT for **Equatorial Guinea** (as from 17 July 2001), the **Philippines** (as from 17 August 2001), **Oman** (as from 26 October 2001), **Zambia** (as from 15 November 2001) and **Tunisia** (as from 10 December 2001); the fact that utility models are available for **ARIPO**, in **Ecuador**, **Azerbaijan** and the **Philippines**; and the reduction (as from 1 January 2002) from 6 to 5 of the maximum number of designation fees payable.

These modifications concern Box No. V of the Request Form, the Notes to the request form relating to Box No. V, the Fee Calculation Sheet and the Notes thereto relating to the reduction of the international fee for qualifying applicants from certain States. The Notes to the request form relating to Box No. V have also been modified to take into account the fact that, as from 7 December 2001, the designation of Slovenia for a national patent has the effect, within the framework of the extension agreement between Slovenia and the European Patent Organisation, of a designation for a European patent.

All the sheets of the Request Form, including the Notes to the request form, the Fee Calculation Sheet (annex to the Request Form) and the Notes thereto, are dated January 2002 (the date of issuance or of reprinting of the sheet) and are reproduced on the following pages (without pagination so as to enable convenient reproduction).

Only the updated version of the Request Form should be used for international applications filed as from 1 January 2002. Copies can be obtained free of charge from receiving Offices and the International Bureau, and will also be available on the Internet as from the beginning of January 2002.

Form PCT/IPEA/401 (Demand)

The Demand Form itself and the Fee Calculation Sheet (annex to the Demand Form) have not been modified except for the date of reprinting on each sheet (January 2002).

The Notes to the Fee Calculation Sheet (annex to the Demand Form) relating to the reduction of the handling fee for qualifying applicants from certain States have been modified to take into account the entry into force of the PCT for **Equatorial Guinea,** the **Philippines, Zambia** and **Tunisia**.

All the sheets of the Demand Form, including the Notes to the demand form, the Fee Calculation Sheet and the Notes thereto, are dated January 2002 (the date of issuance or of reprinting of the sheet) and are reproduced on the following pages (without pagination so as to enable convenient reproduction). Copies can be obtained free of charge from receiving Offices, International Preliminary Examining Authorities and the International Bureau, and will also be available on the Internet as from the beginning of January 2002.

INSTRUCTIONS ADMINISTRATIVES DU PCT
MODIFICATION DE L'ANNEXE A – FORMULAIRES

Formulaire PCT/RO/101 (requête)

Le formulaire de requête a été modifié pour tenir compte de l'entrée en vigueur du PCT pour la **Guinée équatoriale** (à compter du 17 juillet 2001), les **Philippines** (à compter du 17 août 2001), **Oman** (à compter du 26 octobre 2001), la **Zambie** (à compter du 15 novembre 2001) et la **Tunisie** (à compter du 10 décembre 2001); du fait que des modèles d'utilité peuvent être obtenus pour l'**ARIPO**, en **Équateur**, en **Azerbaïdjan** et aux **Philippines**; et de la réduction (à compter du 1er janvier 2002) de 6 à 5 du nombre maximum de taxes de désignation payables.

Ces modifications concernent le cadre n° V du formulaire de requête, les notes du formulaire de requête relatives au cadre n° V, la feuille de calcul des taxes et les notes y relatives concernant la réduction de la taxe internationale pour les déposants de certains États qui y ont droit. Les notes du formulaire de requête relatives au cadre n° V ont été également modifiées pour tenir compte du fait que, à compter du 7 décembre 2001, la désignation de la Slovénie aux fins d'un brevet national a, dans le cadre de l'accord d'extension conclu entre la Slovénie et l'Organisation européenne des brevets, les effets d'une désignation aux fins d'un brevet européen. D'autres corrections de nature rédactionnelle ont été apportées dans ces notes sous les cadres nos II et III, V, VIII et VIII.i) à v) et dans les notes relatives à la feuille de calcul des taxes, sous les cadres I, D et P.

Toutes les feuilles du formulaire de requête, y compris les notes y relatives, la feuille de calcul des taxes (annexe de la requête) et les notes y relatives, ont été datées de janvier 2002 (date d'émission ou de réimpression de la feuille) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément).

Seule la version mise à jour du formulaire de requête devrait être utilisée pour les demandes internationales déposées à partir du 1er janvier 2002. Des exemplaires peuvent être obtenus gratuitement auprès des offices récepteurs et du Bureau international et seront également disponibles sur l'Internet au début de janvier 2002.

Formulaire PCT/IPEA/401 (demande d'examen préliminaire international)

Le formulaire de demande d'examen préliminaire international lui-même et la feuille de calcul des taxes (annexe du formulaire de demande d'examen préliminaire international) n'ont pas été modifiés, si ce n'est que la date de réimpression a été ajoutée sur chacune des feuilles (janvier 2002).

Les notes relatives à la feuille de calcul des taxes (annexe de la demande d'examen préliminaire international) concernant la réduction de la taxe de traitement pour les déposants de certains États qui y ont droit ont été modifiées pour tenir compte de l'entrée en vigueur du PCT pour la **Guinée équatoriale**, les **Philippines**, la **Zambie** et la **Tunisie**.

Toutes les feuilles du formulaire de demande d'examen préliminaire international, y compris les notes y relatives, la feuille de calcul des taxes et les notes y relatives ont été datées de janvier 2002 (date d'émission ou de réimpression de la feuille) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément). Des exemplaires peuvent être obtenus gratuitement auprès des offices récepteurs, des administrations chargées de l'examen préliminaire international et du Bureau international et seront également disponibles sur l'Internet au début de janvier 2002.

Déclaration concernant les désignations de précaution : outre les désignations faites ci-dessus, le déposant fait aussi conformément à la règle 4.9.b) toutes les désignations qui seraient autorisées en vertu du PCT, à l'exception de toute désignation indiquée dans le cadre supplémentaire comme étant exclue de la portée de cette déclaration. Le déposant déclare que ces désignations additionnelles sont faites sous réserve de confirmation et que toute désignation qui n'est pas confirmée avant l'expiration d'un délai de 15 mois à compter de la date de priorité doit être considérée comme retirée par le déposant à l'expiration de ce délai. *(La confirmation (y compris les taxes) doit parvenir à l'office récepteur dans le délai de 15 mois.)*

Supplemental Box *If the Supplemental Box is not used, this sheet should not be included in the request.*

1. *If, in any of the Boxes, except Boxes Nos. VIII(i) to (v) for which a special continuation box is provided,* ***the space is insufficient*** *to furnish all the information: in such case, write "Continuation of Box No...." (indicate the number of the Box) and furnish the information in the same manner as required according to the captions of the Box in which the space was insufficient, in particular:*

   (i) ***if more than two persons are to be indicated as applicants and/or inventors*** *and no "continuation sheet" is available: in such case, write "Continuation of Box No. III" and indicate for each additional person the same type of information as required in Box No. III. The country of the address indicated in this Box is the applicant's State (that is, country) of residence if no State of residence is indicated below;*

   (ii) *if, in Box No. II or in any of the sub-boxes of Box No. III, the indication* ***"the States indicated in the Supplemental Box"*** *is checked: in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the applicant(s) involved and, next to (each) such name, the State(s) (and/or, where applicable, ARIPO, Eurasian, European or OAPI patent) for the purposes of which the named person is applicant;*

   (iii) *if, in Box No. II or in any of the sub-boxes of Box No. III,* ***the inventor or the inventor/applicant is not inventor for the purposes of all designated States or for the purposes of the United States of America****: in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the inventor(s) and, next to (each) such name, the State(s) (and/or, where applicable, ARIPO, Eurasian, European or OAPI patent) for the purposes of which the named person is inventor;*

   (iv) *if, in addition to the agent(s) indicated in Box No. IV, there are* ***further agents****: in such case, write "Continuation of Box No. IV" and indicate for each further agent the same type of information as required in Box No. IV;*

   (v) *if, in Box No. V, the name of any State (or OAPI) is accompanied by the indication "****patent of addition****," or "****certificate of addition****," or if, in Box No. V, the name of the United States of America is accompanied by an indication "****continuation****" or "****continuation-in-part****": in such case, write "Continuation of Box No. V" and the name of each State involved (or OAPI), and after the name of each such State (or OAPI), the number of the parent title or parent application and the date of grant of the parent title or filing of the parent application;*

   (vi) *if, in Box No. VI, there are* ***more than five earlier applications whose priority is claimed****: in such case, write "Continuation of Box No. VI" and indicate for each additional earlier application the same type of information as required in Box No. VI.*

2. *If, with regard to the* ***precautionary designation statement*** *contained in Box No. V, the applicant wishes to exclude any State(s) from the scope of that statement: in such case, write "Designation(s) excluded from precautionary designation statement" and indicate the name or two-letter code of each State so excluded.*

Cadre supplémentaire *Si le cadre supplémentaire n'est pas utilisé, cette feuille ne doit pas être incluse dans la requête.*

*1. Si **l'un des cadres** du présent formulaire – à l'exception des cadres nºs VIII.i) à v) pour lesquels une feuille annexe spéciale est prévue – **ne suffit pas** à contenir tous les renseignements : dans ce cas, indiquer "Suite du cadre nº..." (préciser le numéro du cadre) et fournir les renseignements conformément aux instructions données dans le cadre dans lequel la place était insuffisante; en particulier :*

*i) **si plus de deux personnes doivent être indiquées comme déposants ou inventeurs** et que l'on ne dispose d'aucune "feuille annexe" : dans ce cas, indiquer "Suite du cadre nº III" et fournir pour chaque personne supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº III. Le pays de l'adresse indiquée dans ce cadre est l'État où le déposant a son domicile si aucun domicile n'est indiqué ci-dessous;*

*ii) si, dans le cadre nº II ou dans l'un des sous-cadres du cadre nº III, la case **"les États indiqués dans le cadre supplémentaire"** est cochée : dans ce cas, indiquer "Suite du cadre nº II" ou "Suite du cadre nº III" ou "Suite des cadres nºs II et III" (selon le cas), ainsi que le nom du ou des déposants en cause et, à côté de chaque nom, le ou les États pour lesquels la personne mentionnée a la qualité de déposant (ou, le cas échéant, la mention "brevet ARIPO", "brevet eurasien", "brevet européen" ou "brevet OAPI");*

*iii) si, dans le cadre nº II ou dans l'un des sous-cadres du cadre nº III, **l'inventeur ou l'inventeur/déposant n'a pas la qualité d'inventeur pour tous les États désignés ou pour les États-Unis d'Amérique** : dans ce cas, indiquer "Suite du cadre nº II" ou "Suite du cadre nº III" ou "Suite des cadres nºs II et III" (selon le cas), ainsi que le nom du ou des inventeurs et, à côté de chaque nom, le ou les États pour lesquels la personne mentionnée a la qualité d'inventeur (ou, le cas échéant, la mention "brevet ARIPO", "brevet eurasien", "brevet européen" ou "brevet OAPI");*

*iv) si, en plus du ou des mandataires indiqués dans le cadre nº IV, il y a **d'autres mandataires** : dans ce cas, indiquer "Suite du cadre nº IV" et fournir pour chaque mandataire supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº IV;*

*v) si, dans le cadre nº V, le nom d'un État (ou de l'OAPI) est assorti de la mention "**brevet d'addition**" ou "**certificat d'addition**" ou si, dans le cadre nº V le nom des États-Unis d'Amérique est assorti de la mention "**continuation**" ou "**continuation-in-part**" : dans ce cas, indiquer "Suite du cadre nº V" ainsi que le nom de chaque État en cause (ou de l'OAPI) en précisant après chaque nom le numéro du titre principal ou de la demande principale ainsi que la date de délivrance du titre principal ou la date de dépôt de la demande principale;*

*vi) si, dans le cadre nº VI, **la priorité de plus de cinq demandes antérieures est revendiquée** : dans ce cas, indiquer "Suite du cadre nº VI" et fournir pour chaque demande antérieure supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre nº VI.*

*2. Si, en ce qui concerne la **déclaration concernant les désignations de précaution** contenue dans le cadre nº V, le déposant souhaite exclure un ou plusieurs États de la portée de cette déclaration : dans ce cas, indiquer "Désignations exclues de la portée de la déclaration concernant les désignations de précaution" et fournir le nom ou le code à deux lettres de chaque État concerné.*

Declaration of inventorship (Rules 4.17(iv) and 51*bis*.1(a)(iv))
for the purposes of the designation of the United States of America:

I hereby declare that I believe I am the original, first and sole (if only one inventor is listed below) or joint (if more than one inventor is listed below) inventor of the subject matter which is claimed and for which a patent is sought.

This declaration is directed to the international application of which it forms a part (if filing declaration with application).

This declaration is directed to international application No. PCT/ . . . . . (if furnishing declaration pursuant to Rule 26*ter*).

I hereby declare that my residence, mailing address, and citizenship are as stated next to my name.

I hereby state that I have reviewed and understand the contents of the above-identified international application, including the claims of said application. I have identified in the request of said application, in compliance with PCT Rule 4.10, any claim to foreign priority, and I have identified below, under the heading "Prior Applications," by application number, country or Member of the World Trade Organization, day, month and year of filing, any application for a patent or inventor's certificate filed in a country other than the United States of America, including any PCT international application designating at least one country other than the United States of America, having a filing date before that of the application on which foreign priority is claimed.

Prior Applications: . . . . . .

Cadre n° VIII.iv) DÉCLARATION : QUALITÉ D'INVENTEUR
(seulement aux fins de la désignation des États-Unis d'Amérique)

La déclaration doit être conforme au libellé standard suivant prévu à l'instruction 214; voir les notes relatives aux cadres n°s VIII, VIII.i) à v) (généralités) et les notes spécifiques au cadre n° VIII.iv). Si ce cadre n'est pas utilisé, cette feuille ne doit pas être incluse dans la requête.

Déclaration relative à la qualité d'inventeur (règles 4.17.iv) et 51*bis*.1.a)iv))
aux fins de la désignation des États-Unis d'Amérique :

Par la présente, je déclare que je crois être le premier inventeur original et unique (si un seul inventeur est mentionné ci-dessous) ou l'un des premiers coïnventeurs (si plusieurs inventeurs sont mentionnés ci-dessous) de l'objet revendiqué pour lequel un brevet est demandé.

La présente déclaration a trait à la demande internationale dont elle fait partie (si la déclaration est déposée avec la demande).

La présente déclaration a trait à la demande internationale n° PCT/ . . . . . (si la déclaration est remise en vertu de la règle 26*ter*).

Par la présente, je déclare que mon domicile, mon adresse postale et ma nationalité sont tels qu'indiqués près de mon nom.

Par la présente, je déclare avoir passé en revue et comprendre le contenu de la demande internationale à laquelle il est fait référence ci-dessus, y compris les revendications de ladite demande. J'ai indiqué dans la requête de ladite demande, conformément à la règle 4.10 du PCT, toute revendication de priorité d'une demande étrangère et j'ai identifié ci-dessous, sous l'intitulé "Demandes antérieures", au moyen du numéro de demande, du pays ou du membre de l'Organisation mondiale du commerce, du jour, du mois et de l'année du dépôt, toute demande de brevet ou de certificat d'auteur d'invention déposée dans un pays autre que les États-Unis d'Amérique, y compris toute demande internationale selon le PCT désignant au moins un pays autre que les États-Unis d'Amérique, dont la date de dépôt est antérieure à celle de la demande étrangère dont la priorité est revendiquée.

Demandes antérieures : . . . . . .

. . . . . .

Par la présente, je reconnais l'obligation qui m'est faite de divulguer les renseignements dont j'ai connaissance et qui sont pertinents quant à la brevetabilité de l'invention, tels qu'ils sont définis dans le Titre 37, § 1.56, du Code fédéral des réglementations, y compris, en ce qui concerne les demandes de continuation-in-part les renseignements pertinents qui sont devenus accessibles entre la date de dépôt de la demande antérieure et la date du dépôt international de la demande de continuation-in-part.

Je déclare par la présente que toute déclaration ci-incluse est, à ma connaissance, véridique et que toute déclaration formulée à partir de renseignements ou de suppositions est tenue pour véridique; et de plus, que toutes ces déclarations ont été formulées en sachant que toute fausse déclaration volontaire ou son équivalent est passible d'une amende ou d'une incarcération, ou des deux, en vertu de la Section 1001 du Titre 18 du Code des États-Unis, et que de telles déclarations volontairement fausses risquent de compromettre la validité de la demande de brevet ou du brevet délivré à partir de celle-ci.

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

The request form and these Notes may be downloaded from WIPO's Website at the address given above.

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii) or (b)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded by the receiving Office or any International Authority (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named also as applicants for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Applicant's registration number with the Office (Rule 4.5(e)): Where the applicant is registered with the national or regional Office acting as receiving Office, the request may indicate the number or other indication under which the applicant is so registered.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name or two-letter code of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): For each applicant, the residence must be indicated by the name or two-letter code of the State (that is, country) of which the person is a resident. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI, qui est disponible, de même que d'autres documents relatifs au PCT, sur le site Internet de l'OMPI à l'adresse suivante : www.ompi.int/pct/fr/index.html. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des Instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

Le formulaire de requête et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii) ou b)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a)iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f) et instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°S II ET III

Remarques générales : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés également comme déposants pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 4.5.e)) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) dont l'intéressé

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named also as applicants for the United States of America and the check-boxes "This person is also inventor" (in Box No. II) and/or "applicant and inventor" (in Box No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1*bis*): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Agent's registration number with the Office (Rule 4.7(b)): Where the agent is registered with the national or regional Office that is acting as receiving Office, the request may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address must be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT (see "Precautionary Designation of States Subject to Confirmation", below).*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy**, **MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party

est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom ou du code à deux lettres de l'État (c'est-à-dire, pays) où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Déposants différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des déposants différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et les cases "Cette personne est aussi inventeur" (dans le cadre n° II) ou "déposant et inventeur" (dans le cadre n° III) doivent être cochées.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT*, volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE N° IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1*bis*) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le "représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres n°s II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 4.7.b)) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'office récepteur, la requête peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, cette adresse doit être indiquée dans le cadre n° IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre n° IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT* (*voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation").*

Lorsque des brevets régionaux (ARIPO, eurasien, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are also Contracting States of the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the Contracting States of the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain ***both*** a designation of the State concerned for the purposes of a national patent and ***also*** a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

SI Slovenia: The designation of Slovenia for a national patent has the effect, within the framework of the extension agreement between Slovenia and the European Patent Organisation (see preceding paragraph), of a designation for a European patent. The designation SI Slovenia without the designation EP European Patent will have no effect.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a kind of protection other than a patent is desired, write the name or two-letter code of that country followed by the name of the title; that is, "petty patent" (available in YU Yugoslavia), "provisional patent" (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), "utility model" (available in AL Albania, AM Armenia, AP ARIPO, AT Austria, AZ Azerbaijan, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EC Ecuador, EE Estonia, ES Spain, FI Finland, GE Georgia, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, PH Philippines, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), "consensual patent" (available in HR Croatia), "utility certificate" (available in GH Ghana, TT Trinidad and Tobago, UG Uganda) or "inventor's certificate" (available in CU Cuba and KP Democratic People's Republic of Korea). Where, in AP ARIPO, AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model".

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part", write after the name of that country the appropriate words; that is, "patent of addition" (available in AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), "certificate of addition" (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), "inventor's certificate of addition" (available in CU Cuba), "continuation" or "continuation-in-part" (both available in US United States of America). If any of these indications is used, also indicate in the Supplemental Box the State for which such treatment is desired, the number of the parent title or parent application, and the date of the grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant's *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16*bis*.1(c) and Section 321).

The check-boxes located towards the bottom of Box No. V are reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant's safeguard, the lower part of Box No. V contains a statement ("Precautionary Designation Statement") indicating the applicant's wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes in respect of the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasien : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasien peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasien, soit à la fois aux fins d'un brevet national et d'un brevet eurasien. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasien et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasien sera traitée comme une désignation aux fins d'un brevet eurasien de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasien ou à la Convention sur le brevet européen et au PCT sont désignés deux fois, une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovénie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir ***à la fois*** la désignation de l'État concerné en vue de l'obtention d'un brevet national ***et*** la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

SI Slovénie : la désignation de la Slovénie aux fins d'un brevet national a, dans le cadre de l'accord d'extension conclu entre la Slovénie et l'Organisation européenne des brevets (voir le paragraphe précédent), les effets d'une désignation aux fins d'un brevet européen. La désignation SI Slovénie sans la désignation EP brevet européen n'aura aucun effet.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander une forme de protection autre qu'un brevet, écrire le nom de ce pays, ou le code à deux lettres, suivi du nom du titre en question, c'est-à-dire "petty patent" (pour YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AL Albanie, AM Arménie, AP ARIPO, AT Autriche, AZ Azerbaïdjan, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EC Équateur, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, PH Philippines, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour GH Ghana, TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba et KP République populaire démocratique de Corée). Si, pour AP ARIPO, AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus d'un brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, SI Slovénie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également dans le cadre supplémentaire l'État pour lequel ce traitement est demandé, le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant *l'ordre des désignations choisi* par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16*bis*.1.c) et instruction 321).

Les cases situées en bas des colonnes sont réservées à la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant, le cas échéant, si une forme particulière de protection ou de traitement est souhaitée).

designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where five designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see Rule 26*bis* and the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau (Rule 4.1(c)(ii)). Such request may be made by marking the applicable check-boxes which identify the respective documents. *Attention:* where such a request is made, the applicant must, where applicable, pay to the receiving Office the *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)".

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 41.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

Declarations Containing Standardized Wording (Rules 4.1(c)(iii) and 4.17): At the option of the applicant, the request may, for the purposes of the national law applicable in one or more designated States, contain one or more of the following declarations:

(i) declaration as to the identity of the inventor;

(ii) declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent;

(iii) declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application;

(iv) declaration of inventorship (only for the purposes of the designation of the United States of America);

(v) declaration as to non-prejudicial disclosures or exceptions to lack of novelty;

which must conform to the standardized wording provided for in Sections 211 to 215, respectively, and which must be set forth in Boxes Nos. VIII (i) to (v), as detailed below. Where any such declarations are included, the appropriate check-boxes in Box No. VIII should be marked and the number of each type of declaration should be indicated in the right-hand column. As to the possibility of correcting or adding a declaration, see Rule 26*ter*, Section 216 and the *PCT Applicant's Guide*, Volume I/A, General Part.

If the circumstances of a particular case are such that the standardized wordings are not applicable, the applicant should not attempt to make use of the declarations provided for in Rule 4.17 but rather will have to comply with the national requirements concerned upon entry into the national phase.

The fact that a declaration is made under Rule 4.17 does not of itself establish the matters declared; the effect of those matters in the designated States concerned will be determined by the designated Offices in accordance with the applicable national law.

Even if the wording of a declaration does not conform to the standardized wording provided for in the Administrative

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre nº V comporte, en bas, une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions en ce qui concerne les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre nº VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi confirmée, une taxe de désignation (même lorsque cinq taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE Nº VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, *l'office régional* concerné; et lorsque la demande antérieure est une demande internationale, *l'office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i)); cette indication n'est cependant pas obligatoire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii)).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir la règle 26*bis* et le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international (règle 4.1.c)ii)). Pour effectuer une requête à cet effet, il faut cocher la case appropriée comportant les indications qui permettent d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit, le cas échéant, verser à l'office récepteur la *taxe afférente au document de priorité*; à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)".

CADRE Nº VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE Nº VIII

Déclarations comportant un libellé standard (règles 4.1.c)iii) et 4.17) : au choix du déposant, la requête peut, aux fins de la législation nationale applicable dans un ou plusieurs États désignés, contenir une ou plusieurs des déclarations suivantes :

Instructions pursuant to Rule 4.17, any designated Office may accept that declaration for the purposes of the applicable national law, but is not required to do so.

Details as to National Law Requirements: For information on the declarations required by each designated Office, see the *PCT Applicant's Guide*, Volume II, in the relevant National Chapter.

Effect in Designated Offices (Rule 51*bis*.2): Where the applicant submits any of the declarations provided for in Rule 4.17(i) to (iv) containing the required standardized wording (either with the international application, or to the International Bureau within the relevant time limit under Rule 26*ter*, or directly to the designated Office during the national phase), the designated Office may not, in the national phase, require further documents or evidence on the matter to which the declaration relates, unless that designated Office may reasonably doubt the veracity of the declaration concerned.

Incompatibility of Certain Items of Rule 51*bis*.2(a) with National Laws (Rule 51*bis*.2(c)): The designated Offices listed below have informed the International Bureau that the applicable national law is not compatible in respect of the following declarations provided in Rule 4.17(i), (ii) and (iii). Those designated Offices are therefore entitled to require further documents or evidence on the matters to which those declarations relate.

Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)): The respective national laws of CH Switzerland, DK Denmark and SE Sweden are not compatible with Rule 51*bis*.2(a)(i).

Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)): The respective national laws of CA Canada, CH Switzerland, DK Denmark, HU Hungary and SE Sweden are not compatible with Rule 51*bis*.2(a)(ii).

Declaration as to the applicant's entitlement as at the international filing date, to claim the priority of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)): The respective national laws of CH Switzerland and DK Denmark are not compatible with Rule 51*bis*.2(a)(iii).

BOXES Nos. VIII (i) to (v) (IN GENERAL)

Different Declaration Boxes: There are six different declaration boxes in the pre-printed request form—one box for each of the five different types of declarations provided for in Rule 4.17 (Box No. VIII (i) to Box No. VIII (v)) and a continuation sheet (Continuation of Box No. VIII (i) to (v)) to be used in case any single declaration does not fit in the corresponding box. The title of each type of declaration which is found in the standardized wording provided for in the Administrative Instructions is pre-printed on the appropriate sheet of the request.

Separate Sheet for Each Declaration: Each declaration must start on a separate sheet of the request form in the appropriate Declaration Box.

Titles, Items, Item Numbers, Dotted Lines, Words in Parentheses and Words in Brackets: The prescribed standardized wording of the declarations includes titles, various items, item numbers, dotted lines, words in parentheses and words in brackets. Except for Box No. VIII (iv) which contains the pre-printed standardized wording, only those items which are applicable should be included in a declaration where necessary to support the statements in that declaration (that is, omit those items which do not apply) and item numbers need not be included. Dotted lines indicate where information is required to be inserted. Words in parentheses are instructions to applicants as to the information which may be included in the declaration depending upon the factual circumstances. Words in brackets are optional and should appear in the declaration without the brackets if they apply; if they do not apply, they should be omitted together with the corresponding brackets.

Naming of Several Persons: More than one person may be named in a single declaration. In the alternative, with one exception, a separate declaration may be made for each person. With respect to the declaration of inventorship set forth in Box No. VIII (iv), which is applicable only for the purposes of the designation of the United States of America, all inventors must be indicated in a single declaration (see Notes to Box No. VIII (iv), below). The wording of declarations to be set forth in Boxes Nos. VIII (i), (ii), (iii) and (v) may be adapted from the singular to the plural as necessary.

Designated States to Which the Declarations Apply: Each declaration must indicate the designated States to which it applies. In this regard, the standardized wording of the declaration of inventorship (Box No. VIII (iv); see also Rule 4.17(iv) and Section 214) indicates in the title that it is for the purposes of the designation of the United States of America. The other declarations include prescribed wording to indicate whether the declaration is made for all designations or specific designations; one of these choices should always be included in the declaration. Where the declaration is for more than one person, the declaration may include separate statements indicating whether the declaration is made for all designations or specific designations with respect to each separate applicant. For example, this may be expected to occur where the request indicates different applicants for different States in accordance with Rule 4.5(d). However, in such a case, it is advisable to include a separate declaration for each person.

BOX No. VIII (i)

Declaration as to the Identity of the Inventor (Rule 4.17(i) and Section 211): The declaration must be worded as follows:

"Declaration as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)):

in relation to [this] international application [No. PCT/…],

(i) ... *(name)* of … *(address)* is the inventor of the subject matter for which protection is sought by way of [the] [this] international application
(ii) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations [except the designation of the United States of America]
  (b) the following designations for national and/or regional patents: …"

Such a declaration is not necessary in respect of any inventor who is indicated as such (either as inventor only or applicant and inventor) in Box No. II or No. III in accordance with Rule 4.5 or 4.6. However, where the inventor is indicated as applicant in Box No. II or No. III in accordance with Rule 4.5, a declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)) may be appropriate for the purposes of all designated States except the United States of America. Where indications regarding the inventor in accordance with Rule 4.5 or 4.6 are not included in Box No. II or No. III, this declaration may be combined with the prescribed wording of the declaration as to the applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii)). For details on such a combined declaration, see Notes to Box No. VIII (ii), below. For details as to the declaration of inventorship for the purposes of the designation of the United States of America, see Notes to Box No. VIII (iv), below.

i) une déclaration relative à l'identité de l'inventeur;

ii) une déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet;

iii) une déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure;

iv) une déclaration relative à la qualité d'inventeur (seulement aux fins de la désignation des États-Unis d'Amérique);

v) une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté;

qui doivent être conformes au libellé standard fixé dans les instructions 211 à 215, respectivement, et qui doivent être présentées dans les cadres n^os^ VIII.i) à v), comme précisé ci-après. Lorsque de telles déclarations sont incluses, il convient de cocher les cases appropriées dans le cadre n^o^ VIII et d'indiquer dans la colonne de droite le nombre de déclarations de chaque type. En ce qui concerne les possibilités de correction ou d'adjonction d'une déclaration, voir la règle 26*ter*, l'instruction 216 et le *Guide du déposant du PCT*, volume I/A, partie générale.

Si les circonstances d'un cas particulier sont telles que les libellés standard ne sont pas applicables, le déposant s'abstiendra de faire les déclarations prévues à la règle 4.17, mais il devra satisfaire aux exigences de la législation nationale concernée lors de l'entrée dans la phase nationale.

Le fait qu'une déclaration soit faite en vertu de la règle 4.17 ne suffit pas à prouver les points sur lesquels elle porte; il appartient aux offices désignés de statuer sur l'effet de ces points dans les États désignés en fonction de la législation nationale applicable.

Même si le texte d'une déclaration ne respecte pas le libellé standard fixé dans les instructions administratives en vertu de la règle 4.17, tout office désigné est libre d'accepter ou non cette déclaration aux fins de la législation nationale applicable.

Précisions quant aux exigences des législations nationales : pour des précisions concernant les déclarations qui sont exigées par chaque office désigné, voir les chapitres nationaux pertinents dans le volume II du *Guide du déposant du PCT*.

Effets dans les offices désignés (règle 51*bis*.2) : lorsqu'un déposant remet l'une des déclarations visées à la règle 4.17.i) à iv) comportant le libellé standard exigé (soit avec la demande internationale, soit au Bureau international dans le délai applicable en vertu de la règle 26*ter*, ou directement à l'office désigné durant la phase nationale), l'office désigné ne peut, pendant la phase nationale, exiger d'autres documents ou preuves relatifs à l'objet auquel se rapporte la déclaration, à moins qu'il puisse raisonnablement douter de la véracité de la déclaration en question.

Incompatibilité de certains points de la règle 51*bis*.2.a) avec les législations nationales (règle 51*bis*.2.c)) : les offices désignés dont la liste figure ci-après ont informé le Bureau international que la législation nationale qui leur est applicable n'est pas compatible en ce qui concerne les déclarations suivantes visées à la règle 4.17.i), ii) et iii). Ces offices désignés pourront donc exiger des documents ou des preuves supplémentaires relatifs aux objets auxquels se rapportent ces déclarations.

Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)) : les législations nationales respectives de CH Suisse, DK Danemark et SE Suède ne sont pas compatibles avec la règle 51*bis*.2.a)i).

Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)) : les législations nationales respectives de CA Canada, CH Suisse, DK Danemark, HU Hongrie et SE Suède ne sont pas compatibles avec la règle 51*bis*.2.a)ii).

Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) : les législations nationales respectives de CH Suisse et DK Danemark ne sont pas compatibles avec la règle 51*bis*.2.a)iii).

CADRES N^os^ VIII i) à v) (GÉNÉRALITÉS)

Différent cadres pour déclarations : le formulaire pré-imprimé contient six cadres différents pour déclarations, un pour chacun des cinq types de déclarations prévues selon la règle 4.17 (du cadre n^o^ VIII.i) au cadre n^o^ VIII.v)) et une feuille annexe (Suite du cadre n^o^ VIII.i) à v)) à utiliser dans le cas où une des déclarations ne tient pas dans le cadre approprié. Le titre de chaque déclaration qui figure dans le libellé standard prévu dans les instructions administratives est pré-imprimé sur la feuille correspondante de la requête.

Feuille distincte pour chaque déclaration : chaque déclaration doit commencer sur une feuille distincte de la requête et dans le cadre pour déclaration approprié.

Titres, éléments, numéros d'éléments, lignes pointillées, mots entre parenthèses et mots entre crochets : le libellé standard fixé pour les déclarations comporte un titre, différents éléments, des numéros d'éléments, des lignes pointillées, des mots entre parenthèses et des mots entre crochets. Sauf en ce qui concerne le cadre n^o^ VIII.iv) dans lequel le libellé standard est pré-imprimé, seuls les éléments pertinents doivent figurer dans une déclaration lorsque cela est nécessaire à l'énoncé des faits invoqués dans cette déclaration (en d'autres termes, il y a lieu d'omettre les éléments non pertinents) et il n'est pas nécessaire d'inclure les numéros d'éléments. Les lignes pointillées signalent les endroits où il y a lieu d'indiquer les renseignements demandés. Les mots entre parenthèses indiquent au déposant quels renseignements peuvent être inclus dans la déclaration selon la situation de fait. Les mots entre crochets sont facultatifs; s'ils sont applicables, ils doivent figurer dans la déclaration sans les crochets; s'ils ne sont pas applicables, il convient de les omettre ainsi que les crochets.

Mention de plusieurs personnes : plusieurs personnes peuvent être mentionnées dans une même déclaration. Il est aussi possible, sauf dans un cas, de faire une déclaration distincte par personne. Pour la déclaration relative à la qualité d'inventeur, figurant dans le cadre n^o^ VIII.iv), qui est applicable seulement aux fins de la désignation des États-Unis d'Amérique, tous les inventeurs doivent être indiqués dans une même déclaration (voir les notes du cadre n^o^ VIII.iv), ci-après). Dans les déclarations devant figurer dans les cadres n^os^ VIII.i), ii), iii) et v), le libellé au singulier peut être mis au pluriel si cela s'avère nécessaire.

États désignés auxquels les déclarations s'appliquent : chaque déclaration doit comporter l'indication des États désignés auxquels elle s'applique. À cet égard, le libellé standard pour la déclaration relative à la qualité d'inventeur (cadre n^o^ VIII.iv); voir également la règle 4.17.iv) et l'instruction 214) indique dans le titre que la déclaration est faite aux fins de la désignation des États-Unis d'Amérique. Les autres déclarations comportent des libellés prescrits pour indiquer si la déclaration est faite aux fins de toutes les désignations ou aux fins de désignations particulières. Une de ces options doit toujours figurer dans la déclaration. Lorsque la déclaration est faite en ce qui concerne plusieurs personnes, elle peut comporter des mentions distinctes indiquant si elle est faite aux fins de toutes les désignations ou aux fins de désignations particulières en ce qui concerne chacun des déposants. Le cas peut par exemple se présenter si la requête indique des déposants différents pour différents États, conformément à la règle 4.5.d). Dans une telle situation,

BOX No. VIII (ii)

Declaration as to the Applicant's Entitlement to Apply for and Be Granted a Patent (Rule 4.17(ii) and Section 212): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

"Declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)), in a case where the declaration under Rule 4.17(iv) is not appropriate:

in relation to [this] international application [No. PCT/…],

... *(name)* is entitled to apply for and be granted a patent by virtue of the following:

(i) ... *(name)* of … *(address)* is the inventor of the subject matter for which protection is sought by way of [the] [this] international application

(ii) ... *(name)* [is] [was] entitled as employer of the inventor, ... *(inventor's name)*

(iii) an agreement between … *(name)* and … *(name)*, dated …

(iv) an assignment from … *(name)* to … *(name)*, dated …

(v) consent from … *(name)* in favor of … *(name)*, dated …

(vi) a court order issued by … *(name of court)*, effecting a transfer from … *(name)* to … *(name)*, dated …

(vii) transfer of entitlement from … *(name)* to … *(name)* by way of … *(specify kind of transfer)*, dated …

(viii) the applicant's name changed from … *(name)* to … *(name)* on … *(date)*

(ix) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations [except the designation of the United States of America]
  (b) the following designations for national and/or regional patents: …"

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the inventor, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement. Where the inventor is not indicated in Box No. II or No. III, this declaration may be presented as a combined declaration explaining the applicant's entitlement to apply for and be granted a patent and identifying the inventor. In such a case, the introductory phrase of the declaration must be as follows:

"Combined declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (Rules 4.17(ii) and 51*bis*.1(a)(ii)) and as to the identity of the inventor (Rules 4.17(i) and 51*bis*.1(a)(i)), in a case where the declaration under Rule 4.17(iv) is not appropriate:"

The remainder of the combined declaration must be worded as indicated in the preceeding paragraphs.

For details as to the declaration as to the identity of the inventor, see the Notes to Box No. VIII (i), above.

BOX No. VIII (iii)

Declaration as to the Applicant's Entitlement to Claim Priority of the Earlier Application (Rule 4.17(iii) and Section 213): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (viii) as is necessary to explain the applicant's entitlement:

"Declaration as to the applicant's entitlement, as at the international filing date, to claim the priority of the earlier application specified below, where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the filing of the earlier application (Rules 4.17(iii) and 51*bis*.1(a)(iii)):

in relation to [this] international application [No. PCT/…],

… *(name)* is entitled to claim priority of earlier application No. … by virtue of the following:

(i) the applicant is the inventor of the subject matter for which protection was sought by way of the earlier application

(ii) … *(name)* [is] [was] entitled as employer of the inventor, … *(inventor's name)*

(iii) an agreement between … *(name)* and … *(name)*, dated …

(iv) an assignment from … *(name)* to … *(name)*, dated …

(v) consent from … *(name)* in favor of … *(name)*, dated …

(vi) a court order, issued by … *(name of court)*, effecting a transfer from … *(name)* to … *(name)*, dated …

(vii) transfer of entitlement from … *(name)* to … *(name)* by way of … *(specify kind of transfer)*, dated …

(viii) the applicant's name changed from … *(name)* to … *(name)* on … *(date)*

(ix) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations
  (b) the following designations for national and/or regional patents: …"

Either (a) or (b) of item (ix) should always be included in the declaration. The remainder of the items may be incorporated as is necessary to explain the applicant's entitlement. ***This declaration is only applicable to those events which have occurred prior to the international filing date.*** In addition, this declaration is only applicable where the person or name of the applicant is different from that of the applicant who filed the earlier application from which priority is claimed. For example, this declaration may be applicable where only one applicant out of five is different from the applicants indicated in respect of an earlier application. The possible kinds of transfer of entitlement in item (vii) include merger, acquisition, inheritance, donation, etc. Where there has been a succession of transfers from the applicant in respect of the earlier application, the order in which transfers are listed should follow the actual succession of transfers, and items may be included more than once, as necessary to explain the applicant's entitlement.

BOX No. VIII (iv)

Declaration of Inventorship (Rule 4.17(iv) and Section 214): The standardized wording for the declaration is pre-printed in Box No. VIII (iv).

All inventors must be named in the declaration, even if they do not all sign the same (copy of) the declaration (Section 214(b)). Bibliographic data, such as address of

toutefois, il est conseillé d'inclure une déclaration distincte par personne.

CADRE N° VIII.i)

Déclaration relative à l'identité de l'inventeur (règle 4.17.i) et instruction 211) : la déclaration doit être libellée comme suit:

"Déclaration relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)) :

concernant la [présente] demande internationale [n° PCT/…],

i) … *(nom)*, … *(adresse)*, est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale

ii) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

Une déclaration de cette nature n'est pas nécessaire en ce qui concerne tout inventeur qui est indiqué comme tel (que ce soit comme inventeur seulement ou en qualité à la fois de déposant et d'inventeur) dans le cadre n° II ou le cadre n° III en application de la règle 4.5 ou 4.6. Toutefois, lorsque l'inventeur est indiqué comme étant le déposant dans le cadre n° II ou n° III en application de la règle 4.5, une déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii)) peut être appropriée aux fins de tous les États désignés sauf des États-Unis d'Amérique. Lorsque les indications concernant l'inventeur qui sont à fournir en application de la règle 4.5 ou 4.6 ne sont pas portées dans le cadre n° II ou n° III, cette déclaration peut être combinée avec le libellé standard pour la déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii)). Pour des précisions concernant cette déclaration combinée, voir les notes du cadre n° VIIl.ii), ci-après. Pour des précisions quant à la déclaration relative à la qualité d'inventeur aux fins de la désignation des États-Unis d'Amérique, voir les notes du cadre n° VIII.iv), ci-après.

CADRE N° VIII.ii)

Déclaration relative au droit du déposant de demander et d'obtenir un brevet (règle 4.17.ii) et instruction 212) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaires aux fins de motiver le droit du déposant :

"Déclaration relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :

concernant la [présente] demande internationale [n° PCT/…],

… *(nom)* a le droit de demander et d'obtenir un brevet en vertu :

i) du fait que … *(nom)*, … *(adresse)*, est l'inventeur de ce pour quoi une protection est demandée dans [la] [ladite] demande internationale

ii) du fait que… *(nom)* [possède] [possédait] ce droit en qualité d'employeur de l'inventeur, … *(nom de l'inventeur)*

iii) d'un contrat conclu entre … *(nom)* et … *(nom)*, daté du …

iv) d'une cession de … *(nom)* à … *(nom)*, datée du …

v) d'une autorisation consentie par … *(nom)* à … *(nom)*, datée du …

vi) d'une décision de justice rendue par … *(nom du tribunal)*, ordonnant un transfert de … *(nom)* à … *(nom)*, datée du …

vii) d'un transfert de droits de … *(nom)* à … *(nom)*, sous la forme de … *(préciser le type de transfert)*, daté du …

viii) du changement de nom du déposant de … *(nom)* en … *(nom)*, le … *(date)*

ix) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations [sauf la désignation des États-Unis d'Amérique]
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. ***Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.*** Les types possibles de transfert de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits de l'inventeur, l'ordre dans lequel les transferts sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant. Lorsque l'inventeur n'est pas indiqué dans le cadre n° II ou le cadre n° III, cette déclaration peut être présentée sous la forme d'une déclaration combinée motivant le droit du déposant de demander et d'obtenir un brevet et permettant d'identifier l'inventeur. Dans un tel cas, la phrase introductive de la déclaration est libellée comme suit :

"Déclaration combinée relative au droit du déposant, à la date du dépôt international, de demander et d'obtenir un brevet (règles 4.17.ii) et 51*bis*.1.a)ii)) et relative à l'identité de l'inventeur (règles 4.17.i) et 51*bis*.1.a)i)), dans le cas où la déclaration selon la règle 4.17.iv) n'est pas appropriée :"

Le reste de la déclaration combinée est libellé comme indiqué aux paragraphes précédents.

Pour des précisions concernant la déclaration permettant d'identifier l'inventeur, voir les notes relatives au cadre n° VIII.i), ci-dessus.

CADRE N° VIII.iii)

Déclaration relative au droit du déposant de revendiquer la priorité de la demande antérieure (règle 4.17.iii) et instruction 213) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à viii) nécessaire aux fins de motiver le droit du déposant :

"Déclaration relative au droit du déposant, à la date du dépôt international, de revendiquer la priorité de la demande indiquée ci-dessous si le déposant n'est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis le dépôt de la demande antérieure (règles 4.17.iii) et 51*bis*.1.a)iii)) :

concernant la [présente] demande internationale [n° PCT/…],

… *(nom)* a le droit de revendiquer la priorité de la demande antérieure n° … en vertu :

i) du fait que le déposant est l'inventeur de ce pour quoi une protection a été demandée dans la demande antérieure

ii) du fait que … *(nom)* [possède] [possédait] ce droit en qualité d'employeur de l'inventeur, …*(nom de l'inventeur)*

iii) d'un contrat conclu entre … *(nom)* et … *(nom)*, daté du …

residence and citizenship, must be included for each inventor. Where the declaration is included in the request, the inventor(s) need not sign and date the declaration if they have signed in Box No. X of the request.

BOX No. VIII (v)

Declaration as to Non-prejudicial Disclosures or Exceptions to Lack of Novelty (Rule 4.17(v) and Section 215): The declaration must be worded as follows, with such inclusion, omission, repetition and re-ordering of the matters listed as items (i) to (iv) as is necessary:

"Declaration as to non-prejudicial disclosures or exceptions to lack of novelty (Rules 4.17(v) and 51*bis*.1(a)(v)):

in relation to [this] international application [No. PCT/…],

… *(name)* declares that the subject matter claimed in [the] [this] international application was disclosed as follows:

(i) kind of disclosure *(include as applicable)*:
  (a) international exhibition
  (b) publication
  (c) abuse
  (d) other: … *(specify)*

(ii) date of disclosure: …

(iii) title of disclosure *(if applicable)*: …

(iv) place of disclosure *(if applicable)*: …

(v) this declaration is made for the purposes of *(include as applicable)*:
  (a) all designations
  (b) the following designations for national and/or regional patents: …"

Either (a), (b), (c) or (d) of item (i) should always be included in the declaration. Item (ii) should also always be included in the declaration. Either (a) or (b) of item (v) should always be included in the declaration. Items (iii) and (iv) may be incorporated depending upon the circumstances.

BOX No. IX

Items Constituting the International Application: The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Sheets containing any of Boxes Nos. VIII (i) to (v) must be counted as part of the request.

Where the application contains disclosure of one or more *nucleotide and/or amino acid sequences*, the applicant has the following three options.

First, the applicant may choose to file the sequence listing part *in paper form only*, in which case the number of sheets must be indicated under item (a) in the left column of Box No. IX (and therefore included in the total number of sheets), noting that, a copy of that sequence listing part, in computer readable form, may accompany the international application but only for the purposes of international search under Rule 13*ter*; in such a case, check-boxes Nos. 9 and 9(i) and, where applicable, 9(iii) must be marked in the right column of Box No. IX.

Second, the applicant may choose to file the sequence listing part *in computer readable form only*, under Section 801(a)(i), in which case check-box b(i) must be marked but the space for the number of sheets of the sequence listing part under item (a) must be left blank; the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Third, the applicant may choose to file the sequence listing part *both in computer readable form and in paper form* under Section 801(a)(ii), in which case check-box b(ii) must be marked and the number of sheets of that part in paper form must be indicated under item (a) (although that number of sheets will not be taken into account for calculation of the basic fee); the type and number of carriers must also be indicated on the dotted line under item (b); in addition, check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked if additional copies of the sequence listing in computer readable form are furnished.

Under all three options described above, the sequence listings must be presented as a separate part of the description ("sequence listing part of description") in accordance with the standard contained in Annex C of the Administrative Instructions.

Items Accompanying the International Application: Where the international application is accompanied by certain items, the applicable check-boxes must be marked, any applicable indication must be made on the dotted line after the applicable item, and the number of such items should be indicated at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 4: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 5: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. X).

Check-box No. 7: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 8: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganisms and/or other biological material is filed with the international application. If Form PCT/RO/134 or any sheet containing the said indications is included as one of the sheets of the description (as required by certain designated States (see the *PCT Applicant's Guide*, Volume I/B, Annex L)), do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 9: Where the international application contains a sequence listing part and a copy thereof in computer readable form is required by the ISA, the applicant may furnish the listing in computer readable form (together with the required statement) to the receiving Office with the international application, in which case check-boxes Nos. 9, 9(i) and, where applicable, 9(iii) must be marked. Where the applicant has chosen the second or third option mentioned above, and an additional copy or copies of the sequence listing part in computer readable form are required under Section 804, the applicant may furnish such additional copies together with the international application, in which case check-boxes Nos. 9, 9(ii) and, where applicable, 9(iii) must be marked. In all cases mentioned above, the applicant should indicate in the left column the type and number of diskettes, CD-ROMs, CD-Rs, or other data carriers furnished.

iv) d'une cession de … *(nom)* à … *(nom)*, datée du …

v) d'une autorisation consentie par … *(nom)* à … *(nom)*, datée du …

vi) d'une décision de justice rendue par … *(nom du tribunal)*, ordonnant un transfert de … *(nom)* à … *(nom)*, datée du …

vii) d'un transfert de droits de … *(nom)* à … *(nom)*, sous la forme de … *(préciser le type de transfert)*, daté du …

viii) du changement de nom du déposant de … *(nom)* en … *(nom)*, le … *(date)*

ix) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'une ou l'autre des variantes a) et b) du point ix) doit toujours être incluse dans la déclaration. On ne retiendra parmi les autres éléments que ceux qui sont nécessaires pour motiver le droit du déposant. ***Cette déclaration est exclusivement applicable à des faits qui se sont produits avant la date du dépôt international.*** En outre, cette déclaration n'est applicable que si la personne du déposant est différente de celle du déposant qui a déposé la demande antérieure dont la priorité est revendiquée, ou si le nom du déposant a changé. Si par exemple un seul déposant sur cinq est différent de ceux qui étaient indiqués pour une demande antérieure, cette déclaration pourra être applicable. Les types possibles de transferts de droits visés au point vii) comprennent la fusion, l'acquisition, l'héritage, la donation, etc. Lorsqu'il y a eu succession de transferts des droits du déposant sur la demande antérieure, l'ordre dans lequel les points sont énumérés doit suivre l'ordre effectif de ces transferts successifs et certains points peuvent être cités plus d'une fois si cela s'avère nécessaire pour motiver le droit du déposant.

CADRE N° VIII.iv)

Déclaration relative à la qualité d'inventeur (règle 4.17.iv) et instruction 214) : le libellé standard pour la déclaration est pré-imprimé au cadre n° VIII.iv).

Tous les inventeurs doivent être mentionnés dans la déclaration même s'ils ne signent pas tous la même (copie de la) déclaration (instruction 214.b)). Les données bibliographiques, telles que l'adresse du domicile et la nationalité, doivent être fournies pour chaque inventeur. Dans le cas d'une déclaration incluse dans la requête, il n'est pas nécessaire que le ou les inventeurs signent ou datent la déclaration s'ils ont signé eux-mêmes dans le cadre n° X de la requête.

CADRE N° VIII.v)

Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règle 4.17.v) et instruction 215) : la déclaration doit être libellée comme suit, sous réserve de toute inclusion, omission, répétition ou réorganisation des éléments visés aux points i) à iv), qui s'avérerait nécessaire :

"Déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (règles 4.17.v) et 51*bis*.1.a)v)) :

concernant la [présente] demande internationale [n° PCT/…],

… *(nom)* déclare que l'objet revendiqué dans [la] [ladite] demande internationale a été divulgué comme suit :

i) nature de la divulgation *(préciser selon le cas)* :
   a) exposition internationale
   b) publication
   c) utilisation abusive
   d) autre : … *(préciser)*

ii) date de la divulgation : …

iii) intitulé de la divulgation *(s'il y a lieu)* : …

iv) lieu de la divulgation *(s'il y a lieu)* : …

v) la présente déclaration est faite aux fins *(préciser selon le cas)*
   a) de toutes les désignations
   b) des désignations suivantes pour des brevets nationaux ou régionaux : …"

L'un des éléments a), b), c) ou d) du point i) doit toujours être inclus dans la déclaration. Le point ii) doit aussi toujours être inclus dans la déclaration. L'un ou l'autre des éléments a) et b) du point v) doit toujours figurer dans la déclaration. Les points iii) et iv) peuvent être incorporés s'il y a lieu.

CADRE N° IX

Éléments constituant la demande internationale : Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des différentes parties de la demande internationale. Toute feuille sur laquelle figure l'un quelconque des cadres n°s VIII.i) à v) doit être comptée comme faisant partie de la requête.

Lorsque la demande internationale contient la divulgation d'une ou de plusieurs *séquences de nucléotides ou d'acides aminés*, le déposant dispose des trois options suivantes.

Premièrement, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme papier seulement*, auquel cas le nombre de feuilles doit être indiqué au point a) de la colonne de gauche du cadre n° IX (et par conséquent compris dans le nombre total de feuilles); on notera dans ce cas qu'une copie de la partie réservée au listage des séquences, sous forme déchiffrable par ordinateur, peut être remise avec la demande internationale mais seulement aux fins de la recherche internationale en vertu de la règle 13*ter*; dans ce cas, les cases n°s 9, 9.i) et, le cas échéant, 9.iii), doivent être cochées dans la colonne de droite du cadre n° IX.

Deuxièment, le déposant peut choisir de déposer la partie réservée au listage des séquences *sous forme déchiffrable par ordinateur seulement*, en vertu de l'instruction 801.a)i), auquel cas la case b)i) doit être cochée mais l'endroit réservé au nombre de feuilles de ladite partie sous le point a) doit être laissé en blanc; le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Troisièmement, le déposant peut choisir de déposer la partie réservée au listage des séquences *à la fois sous forme déchiffrable par ordinateur et sous forme papier*, en vertu de l'instruction 801.a)ii), auquel cas la case b)ii) doit être cochée et le nombre de feuilles de ladite partie, sous forme papier, doit être indiqué sous le point a) (bien que ce nombre de feuilles ne soit pas utilisé aux fins du calcul de la taxe de base); le type et le nombre de supports doivent également être indiqués sur la ligne pointillée sous le point b). De plus, les cases n°s 9, 9.ii) et, le cas échéant, 9.iii), doivent être cochées si on joint des exemplaires supplémentaires du listage des séquences sous forme déchiffrable par ordinateur.

Dans le cadre des trois options décrites ci-dessus, les listages des séquences doivent être présentés dans une partie distincte de la description ("partie de la description réservée au listage des séquences") conformément à la norme figurant dans l'annexe C des instructions administratives.

Éléments joints à la demande internationale : lorsque des éléments sont joints à la demande internationale, les cases

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d)): With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3*ter*(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3*ter*(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, all elements of the international application (request, description, claims, abstract, text matter of drawings) must, for the purposes of according an international filing date, be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. X

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent, or the common representative, where a separate power of attorney appointing the agent or the common representative, respectively, or a copy of a general power of attorney already in the possession of the receiving Office, is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 5 in Box No. IX should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained in the left column of that Box.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request, the description (excluding the sequence listing part, if any), the claim(s), the abstract, the drawings (if any), the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

appropriées doivent être cochées et toute indication pertinente doit être portée sur la ligne pointillée correspondante, le nombre de chacun de ces éléments devant être indiqué dans la colonne, en fin de ligne; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Case nº 4 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case nº 5 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre nº X).

Case nº 7 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case nº 8 : cocher cette case si, avec la demande internationale, est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Si le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question figurent en tant que feuilles de la description (comme le prescrivent certains États désignés (voir le *Guide du déposant du PCT*, volume I/B, annexe L), ne pas cocher cette case (pour de plus amples renseignements, voir la règle 13*bis* et l'instruction 209).

Case nº 9 : lorsque la demande internationale contient une partie réservée au listage des séquences et qu'une copie de cette dernière, sous forme déchiffrable par ordinateur, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous forme déchiffrable par ordinateur (ainsi que la déclaration requise) à l'office récepteur. Si tel est le cas, les cases nºs 9, 9.i) et, le cas échéant, 9.iii) doivent être cochées. Lorsque le déposant a choisi la deuxième ou la troisième option mentionnée ci-dessus, et qu'un ou plusieurs exemplaires supplémentaires de la partie réservée au listage des séquences sont requis en vertu de l'instruction 804, le déposant peut remettre de tels exemplaires supplémentaires, conjointement avec la demande internationale, auquel cas les cases nºs 9, 9.ii) et, le cas échéant, 9.iii) doivent être cochées. Dans tous les cas mentionnés ci-dessus, le déposant doit indiquer le type et le nombre de disquettes, CD-ROM, CD-R ou autres supports de données qu'il a remis.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue doit être indiquée dans cette case (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter*.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter*.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'attribution d'une date de dépôt international, être rédigés en anglais, hormis tout texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, qui peut être rédigé dans une langue autre que l'anglais.

CADRE Nº X

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent signer); il peut toutefois s'agir de la signature du mandataire ou du représentant commun, si un pouvoir distinct désignant le mandataire ou le représentant commun, respectivement, ou une copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case nº 5 du cadre nº IX.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la colonne de gauche de celui-ci.

REMARQUES GÉNÉRALES

Langue de la correspondance (règle 92.2 et instruction 104) : toute lettre du déposant à l'office récepteur doit être rédigée dans la langue de dépôt de la demande internationale étant entendu que, lorsque la demande internationale doit être publiée dans la langue d'une traduction remise en vertu de la règle 12.3, cette lettre doit être rédigée dans la langue de cette traduction; l'office récepteur peut cependant autoriser l'emploi d'une autre langue.

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête, description (sauf la partie de la description réservée au listage des séquences, le cas échéant), revendication(s), abrégé, dessins (le cas échéant), partie de la description réservée au listage des séquences, le cas échéant.

Toutes les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f)) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

This sheet is not part of and does not count as a sheet of the international application.

NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and Volume I/B, Annex C, as well as information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the number of sheets of the international application indicated under item (a) of Box No. IX of the request as explained below.

That number is the **Total number of sheets** where item (b) of Box No. IX of the request does not apply (that is, where the international application either does not contain a sequence listing part or where it contains such a part but not filed in computer readable form under Section 801(a)(i) or (ii)), in such a case, item "b3" must not be filled in.

Otherwise, where item (b) of Box No. IX of the request applies (that is, where the international application contains a sequence listing part which is filed in computer readable form

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale, ce qui permettra à l'office récepteur de vérifier les calculs et d'y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques précisions supplémentaires relatives à un éventuel paiement différé de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT*, volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration qu'il a choisie. Le *Guide du déposant du PCT*, volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT*, volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des précisions sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, et volume I/B, annexe C, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n^{os} II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il convient de s'adresser au Bureau international.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe

only, under Section 801(a)(i), or both in that form and in paper form under Section 801(a)(ii)), the number of sheets to be used for the purpose of calculating the amount of the basic fee is the **Sub-total number of sheets**. In such a case, item "b3" must be filled in on the basis that the sequence listing part in computer readable form is considered to be equal to 400 sheets (see Section 803).

The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA, irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other kind of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of five designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is five times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is five times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The receiving Office will not charge (or credit) fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre de feuilles de la demande internationale indiqué au point a) du cadre n° IX de la requête comme expliqué ci-dessous.

Ce nombre est le **nombre total de feuilles** lorsque le point b) du cadre n° IX de la requête ne s'applique pas (c'est-à-dire, si la demande internationale ne contient pas une partie réservée au listage des séquences ou qu'elle contient une telle partie mais que cette dernière n'est pas déposée sous forme déchiffrable par ordinateur en vertu de l'instruction 801.a)i) ou ii)), dans ce cas, le point "b3" ne doit pas être rempli.

Sinon, lorsque le point b) du cadre n° IX de la requête s'applique (c'est-à-dire, si la demande internationale contient une partie réservée au listage des séquences qui est déposée sous forme déchiffrable par ordinateur seulement, en vertu de l'instruction 801.a)i), ou à la fois sous cette forme et sous forme papier en vertu de l'instruction 801.a)ii), le nombre de feuilles à utiliser pour le calcul du montant de la taxe de base est le **sous-total des feuilles**. Dans un tel cas, le point "b3" doit être rempli étant entendu que la partie réservée au listage des séquences sous forme déchiffrable par ordinateur est considérée comporter 400 pages (voir l'instruction 803).

La taxe de base doit être payée dans un délai d'un mois à compter de la date de réception de la demande internationale par l'office récepteur.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre de taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasien, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasien ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre forme de protection nationale demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de cinq désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de cinq fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasien, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de cinq fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour plus de renseignements, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement différé des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

L'office récepteur ne débitera (ou ne créditera) un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

The demand must be filed directly with the competent International Preliminary Examining Authority or, if two or more Authorities are competent, with the one chosen by the applicant. The full name or two-letter code of that Authority may be indicated by the applicant on the line below:

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a WIPO publication, which is available, together with other PCT related documents, at WIPO's Website: www.wipo.int/pct/en/index.html. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

The demand form and these Notes may be downloaded from WIPO's Website at the address given above.

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed before the expiration of *19 months from the priority date* in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. *Warning*: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58): Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "20 March 2001 (20.03.01)", "20 March 2001 (20/03/01)" or "20 March 2001 (20-03-01)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request . The Notes to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than

Prière de remplir le formulaire à la machine à écrire. Les cases appropriées peuvent être cochées à la main, à l'encre foncée (règles 11.9.a) et b) et 11.14).

Le formulaire de demande d'examen préliminaire international et les présentes notes peuvent être téléchargés depuis le site Internet de l'OMPI à l'adresse donnée ci-dessus.

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2)a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents), au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6)a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi *le Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de *19 mois à compter de la date de priorité* pour que le délai d'ouverture de la phase nationale de la procédure selon le PCT puisse passer, en ce qui concerne les États élus, de 20 à 30 mois à compter de la date de priorité. *Important* : si la demande d'examen préliminaire international est présentée plus tard, la phase nationale ne sera pas différée et le déposant devra l'aborder avant l'expiration du délai applicable en vertu de l'article 22 (qui est habituellement de 20 mois à compter de la date de priorité).

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

Applicant's registration number with the Office (Rule 53.4): Where the applicant is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the applicant is so registered.

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Agent's registration number with the Office (Rule 53.5): Where the agent is registered with the national or regional Office that is acting as International Preliminary Examining Authority, the demand may indicate the number or other indication under which the agent is so registered.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "20 mars 2001 (20.03.01)", "20 mars 2001 (20/03/01)" ou "20 mars 2001 (20-03-01)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

Numéro sous lequel le déposant est inscrit auprès de l'office (règle 53.4) : lorsque le déposant est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne *a été désignée à une date antérieure* (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire international* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international* (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Numéro sous lequel le mandataire est inscrit auprès de l'office (règle 53.5) : lorsque le mandataire est inscrit auprès de l'office national ou régional agissant en tant qu'administration chargée de l'examen préliminaire international, la demande d'examen préliminaire international peut contenir le numéro ou une autre indication sous laquelle il est inscrit.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter *avec la demande d'examen* une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i)) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the "eligible States".

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words "wishes not to elect:".

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case nº 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii)).

Cocher la case nº 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre nº IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE Nº V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)i)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre nº V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire : ".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE Nº VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case nº 5 doit être cochée.

CADRE Nº VII

Signature (règles 53.8, 90.3.a) et 90.4.a)) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

(i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);

(ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box No. II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CO Colombia, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EC Ecuador, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GQ Equatorial Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PH Philippines, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TN Tunisia, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa, ZM Zambia and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE (OR CREDIT) DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES À LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);

ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre n° II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CO Colombie, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EC Équateur, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GQ Guinée équatoriale, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PH Philippines, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TN Tunisie, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud, ZM Zambie et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer dans le cadre H est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER (OU CRÉDITER) UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation corespondante est signée et qu'elle indique le numéro du compte de dépôt.

FEES PAYABLE UNDER THE PCT

AT Austria, BE Belgium, FI Finland, GR Greece, IE Ireland, IT Italy, LU Luxembourg, MC Monaco

As provided under PCT Rules 15.2(d) and 16.1(d), the Director General consulted all Offices concerned on the occasion of the thirtieth (13th ordinary) session of the Assembly of the PCT Union (September – October 2001) and established new equivalent amounts of the basic fee, the fee per sheet over 30, the designation fee and the search fee, together with the equivalent amounts of the PCT-EASY reductions in the relevant currencies (see PCT Gazette No. 48/2001, page 22140). The Director General has now established new equivalent amounts of those fees in Austrian schillings (ATS), Belgian francs (BEF), Finnish markkaa (FIM), French francs (FRF), Greek drachmas (GRD), Irish pounds (IEP), Italian lire (ITL) and Luxembourg francs (LUF), on the basis of the fixed exchange rates between the euro and those currencies (as published in the table in PCT Gazette No. 25/1999, page 7006) for the purposes of payments which may still be made to the receiving Offices in their respective national currency, in addition to the euro, after 1 January 2002, for a certain period of time specific to each Office. The new equivalent amounts are indicated in the table below (the amounts which are different from those currently applicable are shown in bold italics).

TAXES PAYABLES EN VERTU DU PCT

AT Autriche, BE Belgique, FI Finlande, GR Grèce, IE Irlande, IT Italie, LU Luxembourg, MC Monaco

Comme prévu par les règles 15.2.d) et 16.1.d) du PCT, le Directeur général a consulté tous les offices concernés à l'occasion de la trentième session (13e session ordinaire) de l'Assemblée de l'Union du PCT (septembre – octobre 2001) et établi de nouveaux montants équivalents de la taxe de base, la taxe par feuille à compter de la 31e, la taxe de désignation et la taxe de recherche, ainsi que les montants équivalents de la réduction PCT-EASY, dans les monnaies concernées (voir la Gazette du PCT no 48/2001, page 22141). Le Directeur général a maintenant établi de nouveaux montants équivalents de ces taxes, exprimés en drachmes grecques (GRD), en francs belges (BEF), en francs français (FRF), en francs luxembourgeois (LUF), en lires italiennes (ITL), en livres irlandaises (IEP), en markkaa finlandais (FIM) et en schillings autrichiens (ATS) sur la base des taux de change fixes entre l'euro et ces monnaies (comme publié dans le tableau figurant dans la Gazette du PCT no 25/1999, page 7007) aux fins des paiements qui pourront encore être effectués auprès des offices récepteurs dans leur monnaie nationale respective, en plus de l'euro, après le 1er janvier 2002, pendant une certaine période propre à chaque office. Les nouveaux montants équivalents sont indiqués dans le tableau figurant ci-après (les montants qui sont différents de ceux actuellement applicables sont indiqués en caractères gras italiques).

EP Agreement between the European Patent Organisation and the International Bureau of the World Intellectual Property Organization – Notification under Article 3(4)(a)(ii) of the Agreement

Pursuant to the approval by the Assembly of the International Patent Cooperation Union (PCT Union) during its thirtieth (13th ordinary) session (see PCT Gazette No. 44/2001, page 19928) of an amendment to the Agreement between the European Patent Organisation and the International Bureau of WIPO in relation to the functioning of the European Patent Office as an International Searching and Preliminary Examining Authority under the PCT, the International Bureau has received on 26 November 2001 a notification under Article 3(4)(a)(ii) from the President of the EPO restricting the competence of the EPO as an International Searching and Preliminary Examining Authority. The restriction is applicable to international applications filed on or after 1 March 2002 (see paragraph 1 below). Pursuant to the last sentence of Article 3(4)(b), the text of the notification is reproduced hereafter:

"1. The European Patent Office will not carry out international search in respect of any international application filed on or after 1 March 2002 by a national or resident of the United States of America with the United States Patent and Trademark Office or the International Bureau as receiving Office where such application contains one or more claims relating to the **fields of biotechnology or business methods**, as defined by the following units of the International Patent Classification:

Biotechnology

C 12 M	Apparatus for enzymology or microbiology
C 12 N	Micro-organisms or enzymes; compositions thereof
C 12 P	Fermentation or enzyme-using processes to synthesise a desired chemical compound or composition or to separate optical isomers from a racemic mixture
C 12 Q	Measuring or testing processes involving enzymes or micro-organisms; compositions or test papers therefor; processes of preparing such compositions; condition-responsive control in microbiological or enzymological processes.

EP Accord entre l'Organisation européenne des brevets et le Bureau international de l'Organisation Mondiale de la Propriété Intellectuelle – Notification selon l'article 3.4)a)ii) de l'accord

Suite à l'approbation par l'Assemblée de l'Union internationale de coopération en matière de brevets (Union du PCT), durant sa trentième session (13e session ordinaire) (voir la Gazette du PCT no 44/2001, page 19929) d'une modification apportée à l'accord conclu entre l'Organisation européenne des brevets et le Bureau international de l'OMPI concernant les fonctions de l'Office européen des brevets en qualité d'administration chargée de la recherche internationale et de l'examen préliminaire international au titre du PCT, le Bureau international a reçu, le 26 novembre 2001, une notification en vertu de l'article 3.4)a)ii) du Président de l'OEB restreignant la compétence de l'OEB en tant qu'administration chargée de la recherche et de l'examen préliminaire international. La restriction est applicable aux demandes internationales déposées le 1er mars 2002 ou à une date ultérieure (voir le paragraphe 1 ci-dessous). Conformément à la dernière phrase de l'article 3.4)b), le texte de la notification (en traduction française établie par le Bureau international) est reproduit ci-après :

"1. L'Office européen des brevets n'effectuera pas la recherche internationale pour une demande internationale déposée le 1er mars 2002 ou à une date ultérieure par un national ou un résident des États-Unis d'Amérique auprès de l'Office des brevets et des marques des États-Unis ou du Bureau international agissant en tant qu'office récepteur lorsque cette demande contient une ou plusieurs revendications relatives aux **domaines de la biotechnologie ou des méthodes commerciales**, tels qu'ils sont définis par les rubriques suivantes de la classification internationale des brevets :

Biotechnologie

C 12 M	Appareillage pour l'enzymologie ou la microbiologie
C 12 N	Micro-organismes ou enzymes; compositions les contenant
C 12 P	Procédés de fermentation ou procédés utilisant des enzymes pour la synthèse d'un composé chimique donné ou d'une composition donnée, ou pour la séparation d'isomères optiques à partir d'un mélange racémique
C 12 Q	Procédés de mesure, de recherche ou d'analyse faisant intervenir des enzymes ou des micro-organismes; compositions ou papiers réactifs à cet effet; procédés pour préparer ces compositions; procédés de commande sensibles aux conditions du milieu dans les procédés microbiologiques ou enzymologiques
C 07 K	Peptides
G 01 N 33/50	(y compris sous-divisions) Analyse chimique de matériau biologique, p.ex. de sang, d'urine; recherche ou analyse par des méthodes faisant intervenir la formation de liaisons biospécifiques par ligands; recherche ou analyse immunologique
A 61 K 39	Préparations médicinales contenant des antigènes ou des anticorps
A 61 K 48	Préparations médicinales contenant du matériel génétique qui est introduit dans des cellules du corps vivant pour traiter des maladies génétiques; thérapie génique
A 01 H	Nouveautés végétales ou procédés pour leur obtention; reproduction de plantes par des techniques de culture de tissus

3. These limitations strictly speaking would take effect on the date mentioned in Article 3(4)(b) 2nd sentence of the PCT Agreement, i.e. three months from the date on which this notification is received by the International Bureau. However, in order to allow for them to take effect on the first day of a month, I propose that the limitations become effective on 1 March 2002.

4. Pursuant to Article 3(4)(c) of the PCT Agreement, the initial duration of these limitations shall be three years. The issue of this notice is without prejudice to the right of the EPO to issue any further notice under Article 3(4) of the PCT Agreement which it may consider necessary."

THE PATENT COOPERATION TREATY (PCT) IN 1999*

The World Intellectual Property Organization (WIPO), Geneva, announces the main events which occurred in 1999 in relation to the Patent Cooperation Treaty (PCT) and the results of operations under the PCT for that year.

— * —

1. The PCT system offers inventors and industry an advantageous route for obtaining patent protection internationally. By filing one "international" patent application under the PCT, protection for an invention can be sought simultaneously in each of a large number of countries. Both applicants and Contracting States' patent offices benefit from the uniform formality requirements, the international search and preliminary examination reports, and the centralized international publication which are provided by the PCT system.

2. ***Developments in 1999.*** The International Bureau of WIPO received 74,023 international applications filed worldwide,[1] which is 7,016 (10.5%) more than in 1998. The 74,023 international applications had the effect of 3,158,204 national applications, and of 194,447 regional applications which would be equivalent to 2,671,069 applications for patent protection in the member States of the regional patent systems, that is, a notional equivalent effect, in total, of 5,829,273 national applications.

3. During 1999, six new Contracting States became bound by the PCT (on the dates shown in parentheses):

United Arab Emirates (March 10, 1999);

South Africa (March 16, 1999);

Costa Rica (August 3, 1999);

Dominica (August 7, 1999);

United Republic of Tanzania (September 14, 1999);

Morocco (October 8, 1999).

The fact that PCT membership had reached 100 States during 1999 was specially commemorated at the time of the thirty-fourth series of meetings of the Assemblies of the Member States of WIPO which took place in Geneva in September 1999.

* This is a reproduction of the text published in an Information Note on 4 February 2000.

[1] Figures in this information note for international applications filed in 1999 are based on the number of record copies of international applications received, under PCT Article 12, by the International Bureau in 1999 from PCT receiving Offices (including from the Receiving Office Section of the International Bureau).

LE TRAITÉ DE COOPÉRATION EN MATIÈRE DE BREVETS (PCT)
EN 1999*

L'Organisation Mondiale de la Propriété Intellectuelle (OMPI), à Genève, communique les principaux faits survenus en 1999 en rapport avec le Traité de coopération en matière de brevets (PCT) ainsi que les résultats des opérations effectuées au titre de ce traité pendant l'année considérée.

— * —

1. Le PCT constitue pour les inventeurs et les industriels une voie intéressante d'obtention de la protection par brevet à l'échelon international. En effet, en déposant une seule demande "internationale" de brevet dans le cadre du PCT, il est possible d'obtenir simultanément la protection d'une invention dans un grand nombre de pays. Le système est avantageux tant pour les déposants que pour les offices de brevets des États contractants, puisqu'il prévoit des formalités uniformes, un rapport de recherche internationale et un rapport d'examen préliminaire international ainsi qu'une publication internationale centralisée.

2. ***Faits nouveaux survenus en 1999.*** Le Bureau international de l'OMPI a reçu 74 023 demandes internationales provenant du monde entier[1], soit 7016 (10,5%) de plus qu'en 1998. Ces 74 023 demandes internationales ont produit les effets de 3 158 204 demandes nationales et de 194 447 demandes régionales, correspondant à leur tour aux effets de 2 671 069 demandes de protection par brevet dans les États parties à des systèmes de brevets régionaux, ce qui équivaut à l'effet total de 5 829 273 demandes nationales.

3. Au cours de l'année 1999, six nouveaux États sont devenus liés par le PCT (aux dates indiquées entre parenthèses) :

Émirats arabes unis (10 mars 1999);

Afrique du Sud (16 mars 1999);

Costa Rica (3 août 1999);

Dominique (7 août 1999);

République-Unie de Tanzanie (14 septembre 1999);

Maroc (8 octobre 1999).

Le nombre d'États contractants du PCT a atteint la centaine au cours de l'année 1999, ce qui a donné lieu à une célébration spéciale à l'occasion de la trente-quatrième série de réunions des assemblées des États membres de l'OMPI qui a eu lieu à Genève en septembre 1999.

* Il s'agit d'une reproduction du texte publié dans une Note d'information datée du 4 février 2000.

1 Les chiffres relatifs aux demandes internationales déposées en 1999 ont été calculés à partir du nombre d'exemplaires originaux de demandes internationales transmis, en vertu de l'article 12 du PCT, au Bureau international par les offices récepteurs du PCT (y compris par la Section « Office récepteur du PCT » du Bureau international).

4. Instruments of ratification of and accession to the PCT were deposited on December 8, 1999, by *Algeria* and on December 17, 1999, by *Antigua and Barbuda*, respectively, bringing the number of States which had acceded to the PCT by December 31, 1999, to 106, as follows:

5. During 1999, two States became bound by the Harare Protocol on Patents and Industrial Designs within the framework of the African Regional Industrial Property Organization (ARIPO): Sierra Leone, on February 25, 1999, and the United Republic of Tanzania, on August 3, 1999. Consequently, as from February 25, 1999, and September 14, 1999 (the date on which the United Republic of Tanzania became bound by the PCT), respectively, it became possible for PCT applicants to designate those States for an ARIPO patent, as well as for a national patent.

6. On December 1, 1999, the Agreement between the Korean Industrial Property Office and the International Bureau of WIPO in relation to the functioning of the former as International Searching Authority (ISA) and International Preliminary Examining Authority (IPEA) under the PCT entered into force and the Office's appointment as ISA and IPEA took effect.

4. Des instruments de ratification du PCT et d'adhésion à ce traité ont été déposés le 8 décembre 1999 par l'*Algérie* et le 17 décembre 1999 par *Antigua-et-Barbuda*; en conséquence, à la date du 31 décembre 1999, les 106 États suivants avaient adhéré au PCT :

5. En 1999, deux États sont devenus liés par le Protocole de Harare sur les brevets et les dessins et modèles industriels dans le cadre de l'Organisation régionale africaine de la propriété industrielle (ARIPO) : la Sierra Leone, le 25 février 1999, et la République-Unie de Tanzanie, le 3 août 1999. De ce fait, à compter du 25 février 1999 et du 14 septembre 1999 (date à laquelle la République-Unie de Tanzanie est devenue liée par le PCT), respectivement, il est devenu possible pour les déposants utilisant le système du PCT de désigner ces États pour un brevet ARIPO, de même que pour un brevet national.

6. Le 1er décembre 1999, l'accord entre le Bureau international de l'OMPI et l'Office coréen de la propriété industrielle concernant les fonctions de ce dernier en qualité d'administration chargée de la recherche internationale et de l'examen préliminaire international au titre du PCT est entré en vigueur, et la nomination de cet office en cette qualité a pris effet.

7. ***Meetings***. The Assembly of the PCT Union held its twenty-seventh (12th ordinary) session in Geneva during the period from September 20 to 29, 1999. The Assembly decided to amend the Schedule of Fees to decrease the designation fee, with effect from January 1, 2000, from 150 Swiss francs to 140 Swiss francs, and to decrease the maximum number of designation fees payable, with effect from January 1, 2000, from 10 to 8 (this follows the reduction from 11 to 10, which had already taken effect from January 1, 1999). This means that any designation made under PCT Rule 4.9(a) in excess of 8 does not require the payment of a designation fee. These reductions benefit all applicants since they represent a decrease in the amount of the international fee by up to about 17% (for applications containing eight or more designations).

8. The Assembly also adopted amendments to PCT Rule 4.10 concerning priority claims, in order to bring it into line with Article 2.1 of the Agreement on Trade-Related Aspects of Intellectual Property (TRIPS Agreement) administered by the World Trade Organization (WTO), with the result that, with effect from January 1, 2000, it became possible, according to amended PCT Rule 4.10(a) and (b), to claim the priority of an application filed in or for any Member of the WTO that is not party to the Paris Convention for the Protection of Industrial Property. As provided for in paragraph (d) of Rule 4.10, the European Patent Office and the Japanese Patent Office informed the International Bureau that amended paragraphs (a) and (b) of that Rule were not compatible with the law applied by those Offices, with the result that PCT Rule 4.10, as in force until December 31, 1999, will continue to apply after that date to those Offices for as long as the incompatibility exists.

9. The PCT Committee for Administrative and Legal Matters held its seventh session from November 29 to December 3, 1999. The Committee discussed proposed amendments of the PCT Regulations that relate to simplifying the requirements for entry into the national phase. The proposals had been discussed earlier at meetings of an ad hoc Advisory Group. A number of the proposals arose out of discussions at meetings of WIPO's Standing Committee on the Law of Patents relating to the draft Patent Law Treaty (PLT), which has been designed to streamline and harmonize the administrative and procedural aspects of filing and processing national patent applications. The proposals for amendments to the PCT Regulations are being prepared for submission to an extraordinary session of the Assembly of the PCT Union which is to be held in Geneva from March 13 to 17, 2000.

10. ***Seminars***. In 1999, officials of the International Bureau participated in 218 seminars and presentations which dealt with the use and advantages of the PCT and the promotion of accession to it. Those seminars and presentations were held in Austria, Belgium, Brazil, Canada, Chile, China, Colombia, Costa Rica, Cuba, Denmark, Ecuador, El Salvador, Finland, France, Gabon, Germany, Hungary, India, Japan, Kenya, Malaysia, Mexico, Monaco, the Netherlands, Nicaragua, Panama, Paraguay, the Republic of Korea, the Russian Federation, South Africa, Spain, Sri Lanka, Sweden, Switzerland, the former Yugoslav Republic of Macedonia, Uganda, the United Kingdom, the United States of America and Uruguay. They were given to about 8,750 users and potential users of the PCT system in the following languages: Chinese, English, French, German, Japanese, Korean and Spanish. They included 23 specialized presentations which were given to more than 800 people on the use of the PCT-EASY software. A special training course on the PCT was also given at the headquarters of WIPO for officials of the industrial property offices of those PCT Contracting States which are developing countries.

11. ***PCT Information Line.*** The PCT Information Line answers general inquiries about the filing of international applications and the procedure during the international phase under the PCT. Where necessary, inquiries are referred to the authorized officer responsible for the particular application, or to the PCT Legal Division. The PCT Information Line can be contacted as follows:

by telephone:	(41–22) 338 83 38
by fax:	(41–22) 338 83 39
by e-mail:	pct.infoline@wipo.int

7. ***Réunions***. L'Assemblée de l'Union du PCT a tenu sa vingt-septième session (12e session ordinaire) à Genève entre le 20 et le 29 septembre 1999. L'Assemblée a décidé de modifier le barème de taxes pour diminuer, à compter du 1er janvier 2000, la taxe de désignation, qui est donc ramenée de 150 à 140 francs suisses, et pour réduire, également à compter du 1er janvier 2000, le nombre maximum de taxes de désignation exigibles, lequel est ramené de 10 à 8 (après être passé de 11 à 10 au 1er janvier 1999). De ce fait, aucune taxe de désignation n'est exigible à compter de la neuvième désignation faite selon la règle 4.9.a) du règlement d'exécution du PCT. Ces réductions intéressent tous les déposants puisqu'elles correspondent à une diminution du montant de la taxe internationale pouvant aller jusqu'à environ 17% (pour les demandes contenant huit désignations ou plus).

8. L'Assemblée a aussi adopté des modifications de la règle 4.10 du PCT concernant les revendications de priorité, afin d'en harmoniser le texte avec celui de l'article 2.1 de l'Accord sur les aspects des droits de propriété intellectuelle qui touchent au commerce (Accord sur les ADPIC) administré par l'Organisation mondiale du commerce (OMC). Depuis le 1er janvier 2000, il est possible, en vertu de la règle 4.10.a) et b) modifiée du PCT, de revendiquer la priorité d'une demande déposée dans un membre de l'OMC ou pour un membre de l'OMC qui n'est pas partie à la Convention de Paris pour la protection de la propriété industrielle. Conformément à l'alinéa d) de la règle 4.10, l'Office européen des brevets et l'Office japonais des brevets ont informé le Bureau international que les alinéas a) et b) de cette règle dans leur version modifiée n'étaient pas compatibles avec la législation appliquée par ces offices, et la version de la règle 4.10 du PCT en vigueur le 31 décembre 1999 restera donc applicable après cette date à ces offices tant que cette incompatibilité subsistera.

9. Le Comité des questions administratives et juridiques du PCT a tenu sa septième session du 29 novembre au 3 décembre 1999. Il a examiné des propositions de modification du règlement d'exécution du PCT visant à simplifier les conditions d'ouverture de la phase nationale. Ces propositions avaient été examinées précédemment lors de réunions d'un groupe consultatif ad hoc. Plusieurs d'entre elles sont issues des travaux du Comité permanent du droit des brevets de l'OMPI concernant le projet de Traité sur le droit des brevets (PLT) visant à rationaliser et harmoniser les aspects administratifs et formels du dépôt et du traitement des demandes nationales de brevet. Les propositions de modification du règlement d'exécution du PCT sont en cours de préparation et devraient être présentées à une session extraordinaire de l'Assemblée de l'Union du PCT qui se tiendra à Genève du 13 au 17 mars 2000.

10. ***Séminaires***. En 1999, des fonctionnaires du Bureau international ont participé à 218 séminaires et conférences sur l'utilisation et les avantages du PCT, visant également à favoriser les adhésions à ce traité. Ces séminaires et conférences ont eu lieu dans les pays suivants : Afrique du Sud, Allemagne, Autriche, Belgique, Brésil, Canada, Chili, Chine, Colombie, Costa Rica, Cuba, Danemark, El Salvador, Équateur, Espagne, États-Unis d'Amérique, Ex-République yougoslave de Macédoine, Fédération de Russie, Finlande, France, Gabon, Hongrie, Inde, Japon, Kenya, Malaisie, Mexique, Monaco, Nicaragua, Ouganda, Panama, Paraguay, Pays-Bas, République de Corée, Royaume-Uni, Sri Lanka, Suède, Suisse et Uruguay. Environ 8750 utilisateurs effectifs ou potentiels du système du PCT ont ainsi pu suivre des exposés présentés dans les langues suivantes : français, allemand, anglais, chinois, coréen, espagnol et japonais. Parmi ceux-ci, il faut citer 23 exposés consacrés spécialement à l'utilisation du logiciel PCT-EASY, auxquels ont assisté plus de 800 personnes. Un cours spécial de formation sur le PCT a également eu lieu au siège de l'OMPI pour les fonctionnaires des offices de propriété intellectuelle des États contractants du PCT qui sont des pays en développement.

11. ***Service d'information directe du PCT***. Le service d'information directe du PCT est chargé de répondre aux questions d'ordre général concernant le dépôt des demandes internationales et la procédure de la phase internationale du PCT. Au besoin, les questions sont soumises au fonctionnaire autorisé responsable de la demande en cause, ou à la Division juridique du PCT. Les coordonnées du Service d'information directe du PCT sont les suivantes :

12. ***Developments in PCT Automation***. Following the general approval, in 1998, by the Assemblies of the Member States of WIPO of a 40-million Swiss franc project to fully automate the operations of the PCT, the project, known by the acronym IMPACT (Information Management for the PATent Cooperation Treaty), moved forward in 1999. After an extensive international tendering process, the first part of a contract to develop a comprehensive computer system for managing and administering PCT activities was awarded to a consortium of three companies. Work on the analysis and design component of the project began at the end of 1999. The award of the second part of the contract—the implementation phase—will hinge on the successful completion of system benchmarking tests to determine the viability of the design. The main objectives of the IMPACT Project include:

- to offer further improved services to PCT applicants, and prepare the ground for future fee reductions by lowering PCT operating costs at the International Bureau;
- to render PCT work procedures more efficient and cost effective through the implementation of an automated information and document management system;
- to create and make available to PCT applicants and national Offices electronic filing software;
- to establish generalized solutions for electronic data exchange between the International Bureau of WIPO and the national and regional Offices, as well as the PCT International Searching and Preliminary Examining Authorities, including electronic publishing and the dissemination of PCT information.

The overall project is expected to be completed in three to four years, with the first components of the new system being delivered towards the end of 2000. For further details, see Press Release PR/2000/203.

13. On January 1, 1999, the PCT-EASY software was generally released for the filing of international applications with those receiving Offices that are prepared to accept international applications containing requests in PCT-EASY format together with diskettes, prepared using the PCT-EASY software, containing a copy of the data included in the request in electronic form, and the abstract part of the international application. The PCT-EASY software facilitates the preparation of international applications and other related documents and enables applicants, through the use of about 200 validation checks, to avoid making mistakes at the filing stage. Out of the 80 receiving Offices under the PCT, 54 have so far notified the International Bureau that they are prepared to accept the filing of such international applications. In addition to regular updates of the PCT-EASY software to take into account changes, such as new PCT Contracting States and changes in PCT fees, a PCT-EASY discussion group was created on WIPO's PCT-EASY website during the course of the year, on which users' comments and questions can be posted and subsequently replied to (see http://pcteasy.wipo.int/discuss.htm). The software is available, together with supporting documentation, in Chinese, English, French, German, Japanese, Russian and Spanish, and can be downloaded from the Internet from the PCT-EASY home page (http://pcteasy.wipo.int) or the WIPO home page (http://www.wipo.int), or can be obtained from the PCT-EASY Help Desk:

For statistics on the filing of international applications using the PCT-EASY software, see paragraph 21.

12. ***Faits nouveaux relatifs à l'automatisation du PCT***. À la suite de son approbation en 1998 par les assemblées des États membres de l'OMPI, un projet d'un montant de 40 millions de francs suisses visant à automatiser entièrement les opérations du PCT et baptisé IMPACT (Information Management for the PAtent Cooperation Treaty – Gestion de l'information concernant le Traité de coopération en matière de brevets) a été lancé en 1999. Après une procédure d'appel d'offres international, la première tranche du contrat, consistant en la mise au point d'un système informatique complet pour la gestion et l'administration des activités du PCT, a été adjugée à un consortium composé de trois sociétés. Les travaux d'analyse et de conception du projet ont démarré fin 1999. L'adjudication de la deuxième tranche du contrat, concernant la phase de mise en œuvre, dépendra des résultats des tests d'évaluation du système visant à vérifier la viabilité de la conception. Les principaux objectifs du projet IMPACT sont les suivants :

- développer et améliorer les services offerts aux déposants du PCT, et ouvrir la voie à de futures réductions de taxes en faisant diminuer les coûts de fonctionnement du système du PCT au niveau du Bureau international;
- rendre les procédures de travail du PCT plus efficaces et plus économiques par la mise en place d'un système automatisé de gestion de l'information et des documents;
- créer et mettre à la disposition des déposants du PCT et des offices nationaux un logiciel de dépôt électronique;
- mettre en place des solutions globales pour les échanges de données électroniques entre le Bureau international de l'OMPI et les offices nationaux ou régionaux ainsi que les administrations chargées de la recherche internationale et de l'examen préliminaire international, y compris la publication électronique et la diffusion de l'information liée au PCT.

L'ensemble du projet devrait être réalisé en l'espace de trois à quatre ans, les premiers éléments du nouveau système étant livrés vers la fin de 2000. Pour plus de précisions, se reporter au communiqué de presse PR/2000/203.

13. Le 1er janvier 1999, le logiciel PCT-EASY a été mis à la disposition des utilisateurs pour le dépôt des demandes internationales auprès des offices récepteurs qui sont prêts à accepter des demandes internationales contenant des requêtes en format PCT-EASY ainsi que des disquettes, établies à l'aide du logiciel PCT-EASY, contenant une copie des données comprises dans la requête sous forme électronique, et l'abrégé figurant dans la demande internationale. Le logiciel PCT-EASY facilite l'établissement des demandes internationales et d'autres documents. Il permet aux déposants, grâce à environ 200 clés de validation, d'éviter de commettre des erreurs lors du dépôt. Sur les 80 offices récepteurs du PCT, 54 ont déjà indiqué au Bureau international qu'ils sont prêts à accepter le dépôt de demandes internationales par ce procédé. Le logiciel PCT-EASY est régulièrement mis à jour pour tenir compte de modifications telles que l'adhésion de nouveaux États contractants ou la modification des taxes du PCT. En outre, un groupe de discussion PCT-EASY a été créé sur le site Web PCT-EASY de l'OMPI dans le courant de l'année. Ce site accueille les observations et les questions des utilisateurs, auxquelles il est ensuite répondu (voir *http://pcteasy.wipo.int/discuss.htm*). Le logiciel et sa documentation sont disponibles en français, en allemand, en anglais, en chinois, en espagnol, en japonais et en russe et peut être téléchargé sur l'Internet à partir de la page d'accueil PCT-EASY (*http://pcteasy.wipo.int*) ou de la page d'accueil de l'OMPI (*http://www.wipo.int*); on peut aussi s'adresser au groupe d'assistance PCT-EASY :

On trouvera au paragraphe 21 des statistiques sur le dépôt des demandes internationales au moyen du logiciel PCT-EASY.

14. ***Summary of the procedure under the PCT***. The system of patent cooperation established by the PCT means that, by filing only one international application with one Office, the PCT applicant can obtain the effect of regular national filings in any of the PCT Contracting States being designated without initially having to furnish a translation of the application or pay national fees. The national patent granting procedure and the related high expenses are postponed, in the majority of cases, by up to 18 months (or even longer in the case of some Offices), as compared with the traditional patent system.

15. In addition to designations of PCT Contracting States for the purpose of obtaining national patents, an international application may include designations for regional patents: ARIPO patents having effect in those States party to the Harare Protocol on Patents and Industrial Designs within the framework of the African Regional Industrial Property Organization (ARIPO) which are also Contracting States of the PCT; Eurasian patents having effect in States party to the Eurasian Patent Convention; European patents having effect in States party to the European Patent Convention; and OAPI (African Intellectual Property Organization) patents having effect in States party to the revised Bangui Agreement Relating to the Creation of an African Intellectual Property Organization.

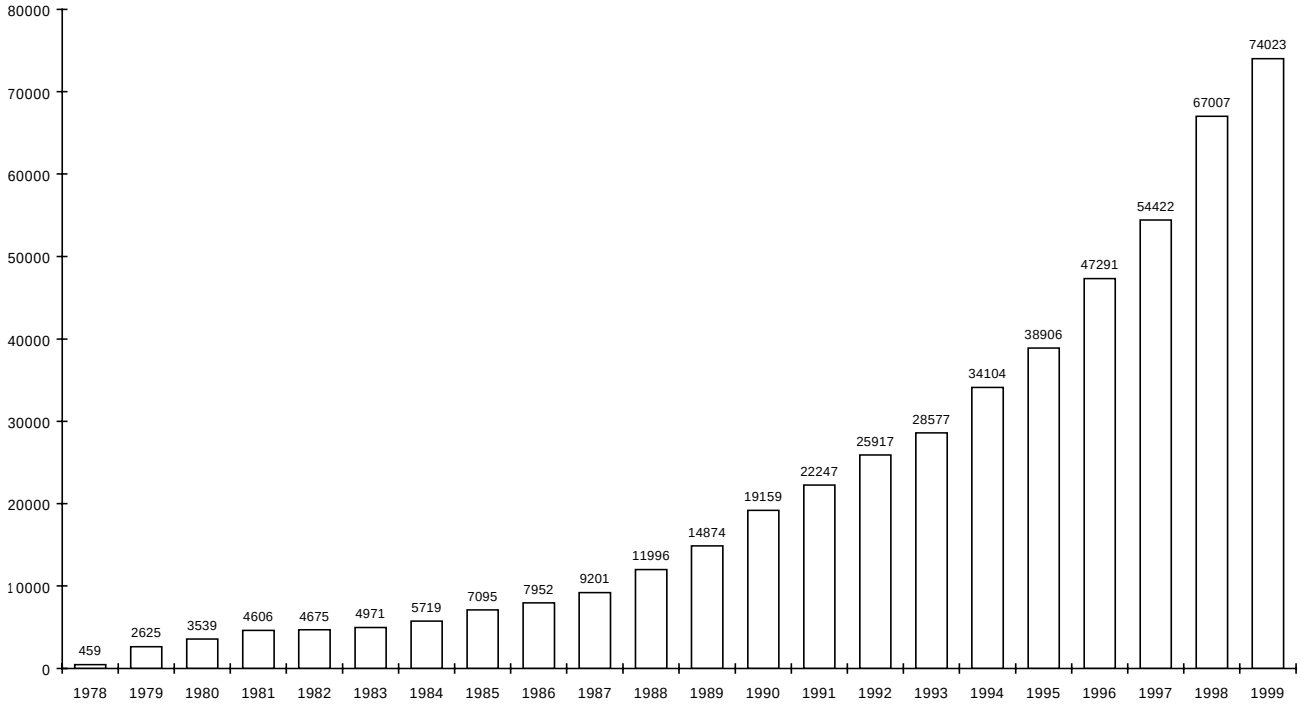
16. Each international application is subjected to an international search carried out by one of the major patent Offices of the world acting as an International Searching Authority under the PCT which establishes a report setting out the relevant prior art. That report is received by the applicant about 16 months after the priority date. The international application is published, together with the international search report, by the International Bureau 18 months after the priority date and is then transmitted to the applicant and the designated Offices.

17. If the applicant requests, and most do so (see paragraph 28), the international application is also subjected later to international preliminary examination under PCT Chapter II, carried out by one of the Offices which act as International Preliminary Examining Authorities, and the entry into the national phase of the procedure is postponed from 20 months after the priority date until 30 months after that date (later time limits apply in some cases). The examination results in a report which includes an opinion as to whether the claimed invention fulfills the criteria of novelty, inventive step and industrial applicability. The international preliminary examination report is usually received by the applicant about 28 months after the priority date, and is also sent to the designated Offices which were elected under Chapter II.

18. With the international search report and the international preliminary examination report, the applicant is in a much better position to decide whether to proceed with the national patent granting procedure before the various designated patent Offices. If the applicant considers, in the light of those reports, that it is worthwhile to continue seeking patent protection in several countries, he may then decide to pay national fees and professional fees for patent agents abroad, and to incur the cost of preparing translations. This need not be done until 20 months or more after the priority date (that is, eight months later than under the traditional system), or, if the applicant has filed a demand for international preliminary examination in time, until 30 months or more after the priority date (that is, 18 months later than under the traditional patent system). At that later time the applicant is also in a much better position to decide about the need for patent protection having regard to increased knowledge of the technical value and commercial prospects of the invention.

14. ***Résumé de la procédure selon le PCT.*** Grâce au système de coopération en matière de brevets instauré par le PCT, le déposant a la possibilité, en déposant une seule demande internationale auprès d'un seul office, d'obtenir l'effet de dépôts nationaux réguliers dans plusieurs ou la totalité des États contractants du traité sans devoir initialement remettre de traduction de la demande ni payer de taxes nationales. La procédure nationale de délivrance et le paiement des frais élevés qui s'y rapportent sont, dans la plupart des cas, différés d'une durée pouvant aller jusqu'à 18 mois (voire plus dans le cas de certains offices), si l'on compare avec le système traditionnel de brevets.

15. Outre les désignations d'États contractants du PCT en vue de l'obtention de brevets nationaux, une demande internationale peut comporter des désignations pour des brevets régionaux, à savoir les brevets ARIPO, qui produisent leurs effets dans les États parties au Protocole de Harare relatif aux brevets et aux dessins et modèles industriels dans le cadre de l'Organisation régionale africaine de la propriété industrielle (ARIPO) qui sont également des États contractants du PCT, les brevets eurasiens, qui produisent leurs effets dans les États parties à la Convention sur le brevet eurasien, les brevets européens, qui produisent leurs effets dans les États parties à la Convention sur le brevet européen, et les brevets OAPI (Organisation africaine de la propriété intellectuelle), qui produisent leurs effets dans les États parties à l'Accord portant révision de l'Accord de Bangui instituant une Organisation africaine de la propriété intellectuelle.



16. Chaque demande internationale fait l'objet d'une recherche internationale effectuée par l'un des grands offices de brevets du monde, agissant en qualité d'administration chargée de la recherche internationale selon le PCT. Cet office établit un rapport de recherche internationale indiquant l'état de la technique pertinent. Le déposant reçoit ce rapport environ 16 mois à compter de la date de priorité. Le Bureau international publie la demande internationale avec le rapport de recherche internationale 18 mois après la date de priorité. Il la transmet ensuite aux offices désignés et au déposant.

17. Si le déposant le demande, comme il le fait d'ailleurs dans la plupart des cas (voir le paragraphe 28), la demande internationale fait aussi l'objet d'un examen préliminaire international conformément au chapitre II du PCT, effectué par l'un des offices agissant en qualité d'administrations chargées de l'examen préliminaire international, et l'ouverture de la phase nationale est retardée de 20 à 30 mois à compter de la date de priorité (les délais étant même plus longs dans certains cas). Cet examen aboutit à l'établissement d'un rapport dans lequel est formulée une opinion sur le point de savoir si l'invention revendiquée satisfait aux critères de nouveauté, d'activité inventive et de possibilité d'application industrielle. Le déposant reçoit le rapport d'examen préliminaire international environ 28 mois après la date de priorité et ce rapport est aussi adressé aux offices désignés qui ont été élus selon le chapitre II.

18. Une fois en possession du rapport de recherche internationale et du rapport d'examen préliminaire international, le déposant est bien mieux placé pour déterminer s'il convient d'entamer la procédure nationale de délivrance auprès des différents offices de brevets désignés. S'il estime, au vu de ces rapports, qu'il a intérêt à obtenir une protection par brevet dans différents pays, il peut décider d'acquitter les taxes nationales et les honoraires des mandataires étrangers et d'engager les frais afférents à l'établissement des traductions. Pour prendre cette décision, il dispose d'un délai de 20 mois au moins à compter de la date de priorité (soit huit mois de plus que dans le système traditionnel), ou même de 30 mois au moins à compter de la date de priorité (soit 18 mois de plus que dans le système traditionnel) s'il a déposé une demande d'examen préliminaire international en temps utile. À ce moment-là, le déposant sera également bien mieux à même de se prononcer sur la nécessité d'une protection par brevet, car il aura une meilleure connaissance des perspectives offertes par l'invention sur les plans technique et commercial.

19. ***Statistics***. The following graph shows the number of international applications received by the International Bureau in each calendar year since the beginning of PCT operations:

21. Of the 74,023 international applications filed, 9,610 (13%) were prepared using the PCT-EASY software. As more and more PCT users became aware of the software, and of the benefits of using it, there was an increasing share of filings containing a PCT-EASY request as the year progressed, and in the second half of the year, such filings accounted for 18.8% of all PCT filings.

22. In 1999, the average number of designations made per international application was 45.3 (1998: 40.5). This figure is much higher than the number of States for which patent protection will eventually be sought, because the applicants in respect of 58.7% of international applications filed in 1999 (1998: 55.5%) used the possibility of paying the maximum of 10 designation fees[6] while making as many as all possible designations. Such applicants extend the effects of their international applications to as many States as might later be of interest to them, deferring a decision as to which States they wish to proceed in. Most applicants make designations for regional patents, which designations themselves have effect in a number of States. For example, in 1999, a European patent was sought in 96.6% of all international applications.

[5] Figures relate to receiving Offices with which international applications were filed, except that applications filed with regional Offices or with the International Bureau as receiving Offices are included under the applicant's country of residence. Of the total, 10,528 (= 14.2%) were filed with the European Patent Office (EPO) as receiving Office and 2,081 (= 2.8%) were filed with the International Bureau as receiving Office.

[6] With effect from January 1, 2000, the maximum number of designation fees payable is 8.

21. Sur les 74 023 demandes internationales déposées, 9610 (13%) ont été établies au moyen du logiciel PCT-EASY. La part des dépôts comportant une requête établie par PCT-EASY n'a cessé d'augmenter au fil de l'année, au fur et à mesure que les utilisateurs du PCT ayant connaissance de l'existence du système et des avantages de son utilisation devenaient plus nombreux; au cours du second semestre, ces dépôts ont représenté 18,8% de l'ensemble des dépôts.

22. En 1999, le nombre moyen de désignations par demande internationale a été de 45,3 (contre 40,5 en 1998). Ce chiffre est beaucoup plus élevé que le nombre d'États dans lesquels les déposants chercheront en fin de compte à obtenir une protection par brevet; en effet, pour 58,7% des demandes internationales déposées en 1999 (contre 55,5% en 1998), les déposants ont opté pour le paiement du maximum de 10 taxes de désignation[6], ce qui leur permet de désigner autant d'États contractants du PCT qu'ils le souhaitent. Les déposants étendent ainsi les effets de la demande internationale à tous les États qui peuvent présenter un intérêt pour eux, tout en gardant la possibilité de ne décider qu'à un stade ultérieur dans quels États ils vont poursuivre la procédure. La plupart des déposants font des désignations en vue de l'obtention de brevets régionaux, qui produisent leurs effets dans plusieurs États; ainsi, en 1999, un brevet européen a été demandé dans 96,6% des demandes internationales.

[5] Chiffres calculés sur la base des offices récepteurs auprès desquels les demandes internationales ont été déposées, excepté pour les demandes déposées auprès d'offices régionaux ou auprès du Bureau international agissant en qualité d'offices récepteurs, qui sont comptabilisées dans les chiffres relatifs au pays où le déposant est domicilié. Sur le nombre total de demandes, 10 528 (= 14,2%) ont été déposées auprès de l'Office européen des brevets (OEB) et 2081 (= 2,8%) auprès du Bureau international, tous deux agissant en qualité d'offices récepteurs.

[6] À compter du 1er janvier 2000, le nombre maximum de taxes de désignation à payer est de 8.

23. In 1999, international applications were filed in the following languages:

24. In 1999, the International Bureau as receiving Office received 2,097 international applications from applicants from 53 countries. Those applications included 448, that is, 21.4% of applications received by that Office, which benefited from the safeguard procedure under which international applications are transmitted from another receiving Office to the International Bureau in its capacity as receiving Office while retaining their initial filing date (for example, where they have been filed with a "non-competent" receiving Office, or where they have been filed in a language which is not accepted by the other Office).

25. A copy of the international application is sent to the International Searching Authority competent for carrying out the international search. Where more than one Authority is competent, the applicant chooses the one he would like to carry out the search. The number of international applications which were sent to each International Searching Authority in 1999 is indicated below:

[7] An international application filed in a language other than one of the languages of publication under the PCT will be published as a translation into a language of publication; see paragraph 32.

23. En 1999, des demandes internationales ont été déposées dans les langues suivantes :

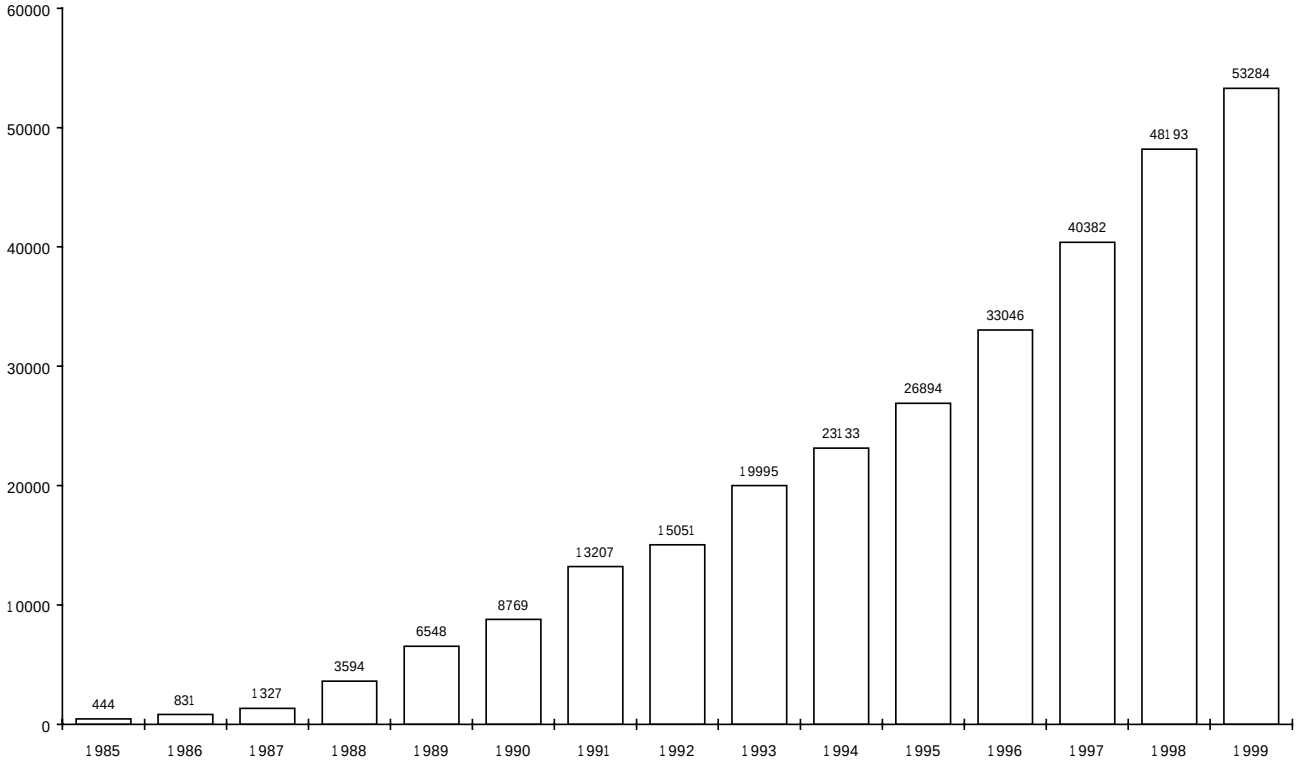
24. En 1999, le Bureau international de l'OMPI agissant en qualité d'office récepteur a reçu 2097 demandes internationales, qui provenaient de déposants de 53 pays. Parmi ces demandes, 448, soit 21,4% du total, ont bénéficié de la procédure de sauvegarde en vertu de laquelle une demande internationale déposée auprès d'un autre office récepteur est transmise au Bureau international agissant en qualité d'office récepteur tout en conservant sa date de dépôt initiale (par exemple, lorsqu'elle a été déposée auprès d'un office récepteur "non compétent", ou dans une langue qui n'est pas acceptée par l'autre office).



25. Une copie de chaque demande internationale est envoyée à l'administration chargée de la recherche internationale qui est compétente pour procéder à cette recherche. Lorsque plusieurs administrations sont compétentes, le déposant choisit celle à laquelle il préfère confier cette recherche. Le nombre de demandes internationales envoyées aux différentes administrations en question en 1999 s'établit comme suit :

[7] Les demandes internationales déposées dans une langue ne faisant pas partie des langues de publication prévues par le PCT sont publiées et traduites dans une des langues de publication; voir le paragraphe 32.

28. The demands for international preliminary examination received in 1999 relate mainly to international applications filed in 1998. Demands are filed in respect of about 80% of all applications.

29. ***Publications under the PCT***. The *PCT Gazette* contains, in English and French, the following sections:

Section I: Published International Applications (the bibliographic data, the abstract and any drawing, for each international application published)

Section II: Notices and Information Relating to Published International Applications

Section III: Weekly Indexes

Section IV: Notices and Information of a General Character

The Internet version of the *PCT Gazette* is available, free-of-charge, via the WIPO home page (http://pctgazette.wipo.int). In this version of the *Gazette*, Section I is fully searchable, with searches possible by single words, symbols or phrases and by a number of fields. During 1999, it became possible for users of the electronic version of the *Gazette* to link to the European Patent Office's esp@cenet service and view images of published PCT applications (that is, the bibliographic data, description, claims, drawings and abstract) and corresponding international search reports.

30. There are two series of CD-ROMs containing information from the *Gazette*, as follows:

– the monthly ESPACE-FIRST CD-ROMs which are produced by the European Patent Office, in cooperation with WIPO (see also paragraphs 36 and 40);

– the CD-ROMs produced by Bundesdruckerei GmbH, in cooperation with WIPO, issued every week on the day on which WIPO publishes the corresponding international applications (see also paragraph 41).

[10] The Korean Industrial Property Office started functioning as an International Preliminary Examining Authority on December 1, 1999.

27. Le nombre de demandes d'examen préliminaire international envoyées au Bureau international par chaque administration chargée de l'examen préliminaire international s'établit comme suit :

Administration chargée de l'examen préliminaire international	*Nombre de demandes*		*Pourcentage*	
	1999	**(1998)**	**1999**	**(1998)**

TOTAL	53 284	(48 193)	100,0	(100,0)

28. Les demandes d'examen préliminaire international reçues en 1999 concernent essentiellement des demandes internationales déposées en 1998. Des demandes d'examen préliminaire international sont déposées pour environ 80% des demandes internationales.

29. ***Publications du PCT.*** La version de la *Gazette du PCT* contient, en français et en anglais, les sections suivantes :

Section I : Demandes internationales publiées (données bibliographiques, abrégé et éventuellement dessin pour chaque demande internationale publiée)

Section II : Notifications et informations relatives aux demandes internationales publiées

Section III : Index hebdomadaires

Section IV : Notifications et informations de caractère général.

La version Internet de la *Gazette du PCT* est disponible gratuitement via la page d'accueil de l'OMPI (*http://pctgazette.wipo.int*). Dans cette version de la *gazette*, la Section I permet une recherche sur tous les éléments par mots isolés, symboles ou groupes de mots et en fonction de différentes rubriques. En 1999, il est devenu possible aux utilisateurs de la version électronique de la *gazette* d'accéder par un lien hypertexte au service esp@cenet de l'Office européen des brevets et de visionner les images des demandes PCT publiées (à savoir, données bibliographiques, description, revendications, dessins et abrégé) et des rapports de recherche internationale correspondants.

30. Il existe deux séries de disques compacts ROM contenant des renseignements tirés de la *Gazette du PCT* :

– le disque compact ROM mensuel ESPACE-FIRST qui est produit par l'Office européen des brevets en collaboration avec l'OMPI (voir aussi les paragraphes 36 et 40);

– les disques compacts ROM produits par Bundesdruckerei GmbH, en collaboration avec l'OMPI, publiés chaque semaine le jour où l'OMPI publie les demandes internationales correspondantes (voir aussi le paragraphe 41).

[10] L'Office coréen de la propriété industrielle agit en qualité d'administration chargée de l'examen préliminaire international depuis le 1er décembre 1999.

31. In 1999, the *Gazette* included entries relating to the 68,038 international applications (1998: 59,597) which were published in 1999 in the form of PCT pamphlets (in Chinese, English, French, German, Japanese, Russian or Spanish, depending on the language of filing and/or translation furnished for the purposes of the international search) on the same day as the relevant issue of the *Gazette*. The *Gazette* also included, in Section IV, a substantial volume of information of a general character concerning new Contracting States and the requirements of the various Offices and International Authorities. In August, a bilingual (English/French) index to the 1998 *Gazette issues*, containing over 1,400 pages, was published. In January and July, special issues of the *Gazette* were published (Nos. S-01/1999 (E) and (F) (January) and S-02/1999 (E) and (F) (July)), in separate English and French versions, containing consolidated general information relating to PCT Contracting States, national and regional Offices and International Authorities under the PCT.

32. The number of international applications published in 1999 in each of the languages of publication was as follows:

Language of publication	*Number of applications*		*Percentage*	
	1999	**(1998)**	**1999**	**(1998)**
English	47,389	(41,841)	69.6	(70.2)

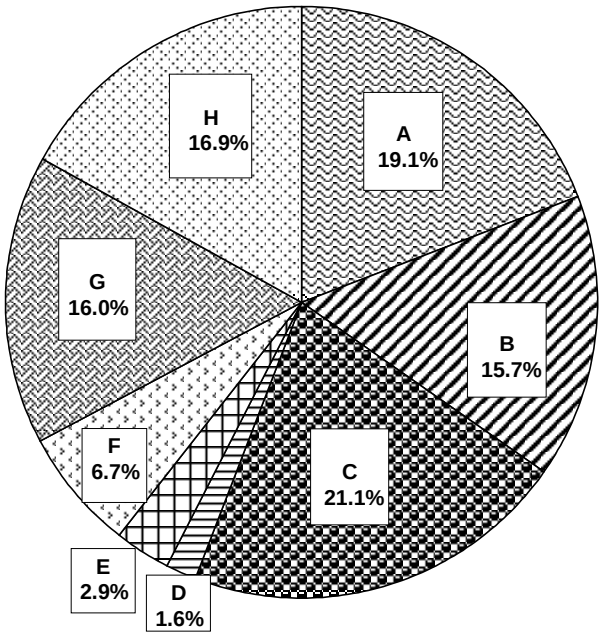
33. The main fields of technology to which those published international applications related were chemistry and metallurgy, and human necessities. The chart below shows the breakdown of PCT applications published in 1999 according to the eight main technical fields of the International Patent Classification (IPC) system.



31. En 1999, la *Gazette du PCT* a comporté des rubriques relatives aux 68 038 demandes internationales (59 597 en 1998) qui ont été publiées en 1999 sous la forme de brochures du PCT (en français, en allemand, en anglais, en chinois, en espagnol, en japonais ou en russe, selon la langue de dépôt et la traduction fournie aux fins de la recherche internationale) le même jour que les numéros correspondants de la *Gazette*. La *Gazette* a également comporté, dans sa section IV, de nombreuses informations de caractère général concernant les nouveaux États contractants et les exigences des divers offices et administrations internationales. En août, un index bilingue (français et anglais) des numéros publiés en 1998, contenant plus de 1400 pages, a été publié. En janvier et juillet, des numéros spéciaux de la *Gazette* ont été publiés (n^{os} S-01/1999 (F) et (E) (janvier) et S-02/1999 (F) et (E) (juillet)), dans des versions distinctes en français et en anglais. Ces numéros spéciaux contenaient une récapitulation des informations de caractère général relatives aux États contractants du PCT, aux offices nationaux et régionaux et aux administrations internationales.

32. Le nombre de demandes internationales publiées en 1999 dans chacune des langues de publication s'établit comme suit :

Langue of publication	*Nombre de demandes*		*Pourcentage*	
	1999	**(1998)**	**1999**	**(1998)**
Anglais	47 389	(41 841)	69,6	(70,2)

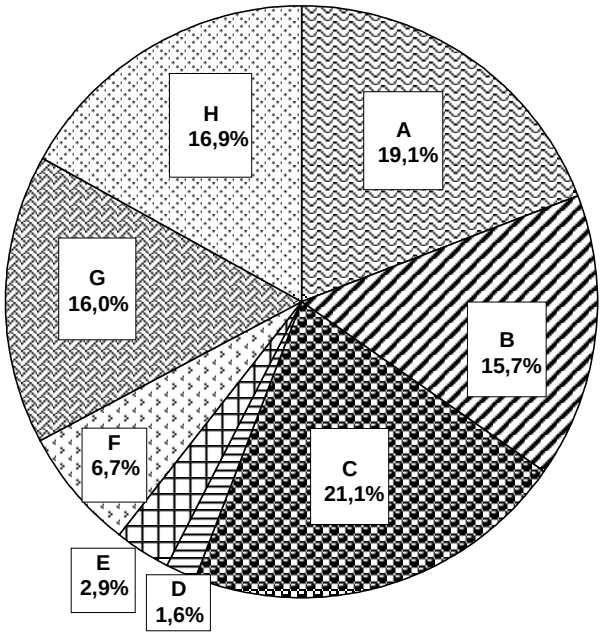
33. Les principaux domaines techniques sur lesquels ont porté ces demandes internationales publiées ont été la chimie et la métallurgie, ainsi que les nécessités courantes de la vie. Le graphique ci-après montre la répartition des demandes PCT publiées en 1999 en fonction des huit grands domaines techniques du système de la classification internationale des brevets (CIB).

PCT applications published in 1999: breakdown according to the main technical fields under the IPC

Main technical fields (sections) under the IPC:



A	Human necessities	E	Fixed constructions
B	Performing operations; transporting	F	Mechanical engineering; lighting; heating; weapons; blasting
C	Chemistry; metallurgy	G	Physics
D	Textiles; paper	H	Electricity

34. The *PCT Applicant's Guide*, which contains information on the filing of international applications and the procedure during the international phase, as well as information on the national phase and the procedure before the designated (or elected) Offices, was updated twice in 1999 to include the many changes that had occurred during the year. About 560 updating sheets, per language, were sent to each subscriber in 1999.

35. Twelve issues of the *PCT Newsletter* were published in 1999. This monthly publication provides up-to-date news for users of the PCT. It contains information on the essential items included in Section IV of the *PCT Gazette* and supplements the *PCT Applicant's Guide* with practical advice for applicants and agents, lists of forthcoming PCT seminars, consolidated tables of PCT fees in various currencies, and other items of general interest. It also includes tear-out provisional sheets permitting easy inclusion of certain important changes in the *PCT Applicant's Guide* prior to the issuance of six-monthly updates.

36. In 1999, the International Bureau continued, in cooperation with the European Patent Office, the weekly production of ESPACE WORLD CD-ROMs, which contain, in facsimile form, the full text and the drawings of all international applications and international search reports published each week, as well as the corresponding bibliographic data in coded, searchable form. All international applications published since 1978 are available in CD-ROM format (a total of 960 CD-ROMs had been produced by the end of 1999).

Demandes PCT publiées en 1999 : répartition par grands domaines techniques de la CIB

Grands domaines techniques (sections) de la CIB :

A	Nécessités courantes de la vie	E	Constructions fixes
B	Techniques industrielles diverses; transports	F	Mécanique; éclairage; chauffage; armement; sautage
C	Chimie; métallurgie	G	Physique
D	Textiles; papier	H	Électricité

34. Le *Guide du déposant du PCT*, qui contient des informations sur le dépôt des demandes internationales et la procédure de la phase internationale ainsi que des informations sur la phase nationale et la procédure auprès des offices désignés (ou élus), a été mis à jour à deux reprises en 1999 afin d'y consigner les nombreux changements intervenus pendant l'année considérée. Environ 560 feuilles de mise à jour, établies dans chacune des langues, ont été envoyées à chaque abonné en 1999.

35. Douze numéros du bulletin *PCT Newsletter* ont été diffusés en 1999. Cette publication mensuelle contient, à l'intention des utilisateurs du PCT, des informations récentes sur les sujets essentiels traités dans la section IV de la *Gazette du PCT* et complète le *Guide du déposant du PCT* par des conseils pratiques aux déposants et aux mandataires, une liste des séminaires prévus sur le PCT, des tableaux récapitulatifs des taxes du PCT en diverses monnaies ainsi que d'autres informations générales. Ce bulletin comprend aussi des feuilles provisoires détachables qu'il est possible d'insérer aisément dans le *Guide du déposant du PCT* pour tenir compte de certains changements importants avant la diffusion des mises à jour semestrielles.

36. En 1999, le Bureau international a poursuivi, en collaboration avec l'Office européen des brevets, la production hebdomadaire des disques compacts ROM ESPACE WORLD, qui contiennent chacun, en fac-similé, le texte complet et les dessins de toutes les demandes internationales et de tous les rapports de recherche internationale publiés chaque semaine ainsi que, sous une forme codée se prêtant à la recherche, les données bibliographiques correspondantes. Toutes les demandes internationales publiées depuis 1978 sont disponibles sur disque compact ROM (au total, 960 disques avaient été produits à la fin de 1999).

37. In 1999, a new PCT Wheel, covering priority dates from January 1998 to December 1999, was produced and made available to PCT users via the *PCT Newsletter*. The Wheel, which was created by a firm of patent attorneys in Australia (Davies Collison Cave), enables PCT users to quickly calculate the 18-month due date for international publication, as well as the time limits for submitting priority documents, filing a demand for international preliminary examination, and entering the national or regional phase under PCT Chapters I and II.

38. ***Ordering of PCT publications***. PCT publications may be ordered from WIPO, Marketing and Distribution Section, P.O. Box 18, CH-1211 Geneva 20, Switzerland, fax: (41-22) 740 18 12 or 733 54 28, e-mail: publications.mail@wipo.int; electronic bookshop: www.wipo.int/ebookshop. Publications of particular interest include:

- the *PCT Applicant's Guide*, a five-binder loose-leaf publication of more than 1,000 pages (available in English and French from WIPO, also available from other sources in Chinese, German and Japanese—contact WIPO for details);
- PCT pamphlets containing published international applications (in various languages—see paragraph 32—and containing the title, the abstract and the corresponding international search reports in both the language of publication and English);
- the *PCT Gazette* (available in bilingual (English and French) format) (for electronic version, see paragraph 29);
- the *PCT Newsletter* (available in English);
- booklets containing the text of the PCT and the PCT Regulations (in Arabic, Chinese, English, French, German, Italian, Portuguese, Russian and Spanish);
- special issues of the *PCT Gazette* (see paragraph 31) (in English and French);
- PCT Wheel (priority dates January 1998 to December 1999).

39. A leaflet entitled *Basic Facts about the Patent Cooperation Treaty (PCT)* is available free of charge in English, French, German, Japanese, Portuguese and Spanish.

40. The ESPACE WORLD CD-ROMs containing published international applications may be ordered from the European Patent Office, P.O. Box 90, A-1031 Vienna, Austria, e-mail: infowien@epo.org. However, CD-ROMs containing the international applications published between 1978 and 1989 can be obtained only from WIPO, at the address indicated in paragraph 38.

41. CD-ROMs containing information from the *PCT Gazette*, which are produced by Bundesdruckerei GmbH, may be ordered from the following address: Bundesdruckerei GmbH, Sparte Elektronische Publikationen, Oranienstraße 91, D–10958 Berlin, Germany.

42. ***Internet.*** In 1999, more PCT materials were made available on the Internet. The following may now be viewed, free of charge, on WIPO's Internet site (http://www.wipo.int):

- *PCT Gazette*
- Information on PCT Information Line
- *PCT Newsletter* (No. 01/1997 to current issue)
- Practical advice which was published in the *PCT Newsletter* between March 1994 and December 1996
- *PCT Applicant's Guide*
- PCT-EASY (software and supporting documentation)
- PCT-related updates
- PCT seminar calendar
- *Basic Facts about the PCT*
- The PCT in 1999

37. En 1999, est sorti le Chronodisque PCT, indiquant les dates de priorité de janvier 1998 à décembre 1999, qui a été distribué aux utilisateurs du PCT via le bulletin *PCT Newsletter*. Ce disque, créé par un cabinet australien de conseils en brevets (Davies Collison Cave), permet aux utilisateurs du PCT de calculer rapidement le délai de 18 mois pour la publication internationale, ainsi que les délais pour la remise des documents de priorité, le dépôt de la demande d'examen préliminaire international et l'ouverture de la phase nationale ou régionale en vertu des chapitres I et II du PCT.

38. ***Commande de publications du PCT***. Les publications du PCT peuvent être commandées auprès de l'OMPI (Section de la commercialisation et de la diffusion), case postale 18, CH-1211 Genève 20 (Suisse), télécopieur n° (41-22) 740 18 12 ou 733 54 28, mél. : publications.mail@wipo.int; voir la librairie électronique : *www.wipo.int/ebookshop*. Il convient de citer notamment :

- le *Guide du déposant du PCT*, publication sur feuilles mobiles de cinq classeurs et de plus de 1000 pages (disponible en français et en anglais auprès de l'OMPI; également disponible en allemand, en chinois et en japonais auprès d'autres sources – s'adresser à l'OMPI pour plus de précisions);
- les brochures du PCT, contenant les demandes internationales publiées (en diverses langues – voir le paragraphe 32 – avec titre, abrégé et rapports de recherche internationale correspondants dans la langue de publication ainsi qu'en anglais);
- la *Gazette du PCT* (bilingue – français et anglais) (pour la version électronique, voir le paragraphe 29);
- le bulletin *PCT Newsletter* (disponible en anglais seulement);
- la brochure contenant le texte du traité (PCT) et de son règlement d'exécution (disponible en français, en allemand, en anglais, en arabe, en chinois, en espagnol, en italien, en portugais et en russe);
- les numéros spéciaux de la *Gazette du PCT* (voir le paragraphe 31) (disponibles en français et en anglais);
- le Chronodisque PCT (dates de priorité de janvier 1998 à décembre 1999).

39. Un dépliant intitulé *Données essentielles concernant le Traité de coopération en matière de brevets (PCT)* (disponible en français, en allemand, en anglais, en espagnol, en japonais et en portugais) peut être obtenu gratuitement.

40. Les disques compacts ROM ESPACE WORLD, qui contiennent les demandes internationales publiées, peuvent être commandés auprès de l'Office européen des brevets, B.P. 90, A-1031 Vienne (Autriche), mél. : infowien@epo.org. Toutefois, les disques contenant les demandes internationales publiées entre 1978 et 1989 peuvent être obtenus uniquement auprès de l'OMPI, à l'adresse indiquée au paragraphe 38.

41. Les disques compacts ROM contenant les informations de la *Gazette du PCT*, qui sont produits par Bundesdruckerei GmbH, peuvent être commandés à l'adresse suivante : Bundesdruckerei GmbH, Sparte Elektronische Publikationen, Oranienstraße 91, D–10958 Berlin (Allemagne).

42. ***Internet.*** En 1999, le Bureau international a notablement progressé dans la mise à disposition de documents du PCT sur l'Internet. Les documents suivants peuvent maintenant être consultés, gratuitement, sur le site Internet de l'OMPI (*http://www.ompi.int*) :

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT
MODIFICATION OF ANNEX A–FORMS

Form PCT/RO/101 (Request)

The Request Form has been modified to take into account the entry into force of the PCT for **Algeria** (as from 8 March 2000), **Antigua and Barbuda** (as from 17 March 2000), **Mozambique** (as from 18 May 2000) and **Belize** (as from 17 June 2000); the fact that **Mozambique** can be designated also for an ARIPO patent, and that certificates of addition are available in **Algeria**.

These modifications concern Box No. V of the Request Form, the Notes to the request form relating to Box No. V, and the Notes to the fee calculation sheet relating to the reduction of the international fee for qualifying applicants from certain States.

All the sheets of the Request Form, including the Notes to the request form, the Fee Calculation Sheet (annex to the Request Form) and the Notes thereto, are dated July 2000 (the date of issuance or of reprinting of the sheet) and are reproduced on the following pages (without pagination so as to enable convenient reproduction).

Only the updated version of the Request Form should be used for international applications f iled as from 1 July 2000. Copies can be obtained free of charge from receiving Offices and the International Bureau, and will also be available on the Internet.

Form PCT/IPEA/401 (Demand)

The Demand Form itself and the Fee Calculation Sheet (annex to th e Demand Form) have not been modified except for the date of reprinting on each sheet (July 2000).

The Notes to the demand form relating to Box No. I have been modified to update the examples of indication of dates, and the Notes to the fee calculation sheet (annex to the Demand Form) relating to the reduction of the handling fee for qualifying applicants from certain States have also been modified to take into account the entry into force of the PCT for **Algeria**, **Mozambique** and **Belize**.

All sheets of the Demand Form, including the Notes to the demand form, the Fee Calculation Sheet and the Notes thereto, are dated July 2000 (the date of issuance or of reprinting of the sheet) and are reproduced on the following pages (without pagination so as to enable convenient reproduction). Copies can be obtained free of charge from receiving Offices, International Preliminary Examining Authorities and the International Bureau, and will also be available on the Internet.

INSTRUCTIONS ADMINISTRATIVES DU PCT
MODIFICATION DE L'ANNEXE A – FORMULAIRES

Formulaire PCT/RO/101 (requête)

Le formulaire de requête a été modifié pour tenir compte de l'entrée en vigueur du PCT pour l'**Algérie** (à compter du 8 mars 2000), pour **Antigua-et-Barbuda** (à compter du 17 mars 2000), pour le **Mozambique** (à compter du 18 mai 2000) et pour le **Belize** (à compter du 17 juin 2000), du fait que le **Mozambique** peut être désigné également aux fins d'un brevet ARIPO et que des certificats d'addition peuvent être obtenus en **Algérie**.

Ces modifications concernent le cadre n° V du formulaire de requête, les notes relatives au cadre n° V de ce même formulaire, les notes relatives à la feuille de calcul des taxes concernant la réduction de la taxe internationale pour les déposants de certains États qui y ont droit.

Toutes les feuilles du formulaire de requête, y compris les notes y relatives, la feuille de calcul des taxes (annexe de la requête) et les notes y relatives, ont été datées de juillet 2000 (date d'émission ou de réimpression de la feuille) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément).

Seule la version mise à jour du formulaire de requête devrait être utilisée pour les demandes internationales déposées à partir du 1er juillet 2000. Des exemplaires peuvent être obtenus gratuitement auprès des offices récepteurs et du Bureau international et seront également disponibles sur l'Internet.

Formulaire PCT/IPEA/401 (demande d'examen préliminaire international)

Le formulaire de demande d'examen préliminaire international lui-même et la feuille de calcul des taxes (annexe du formulaire de demande d'examen préliminaire international) n'ont pas été modifiés, si ce n'est que la date de réimpression a été ajoutée sur chacune des feuilles (juillet 2000).

Les notes du formulaire de demande d'examen préliminaire relatives au cadre n° I ont été modifiées afin de mettre à jour les exemples d'indication de dates, et les notes relatives à la feuille de calcul des taxes (annexe de la demande d'examen préliminaire international) concernant la réduction de la taxe de traitement pour les déposants de certains États qui y ont droit ont été également modifiées pour tenir compte de l'entrée en vigueur du PCT pour l'**Algérie**, le **Mozambique** et le **Belize**.

Toutes les feuilles du formulaire de demande d'examen préliminaire international, y compris les notes y relatives, la feuille de calcul des taxes et les notes y relatives ont été datées de juillet 2000 (date d'émission ou de réimpression de la feuille) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément). Des exemplaires peuvent être obtenus gratuitement auprès des offices récepteurs, des administrations chargées de l'examen préliminaire international et du Bureau international et seront également disponibles sur l'Internet.

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide,* a publication of WIPO. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named as applicants (as well as inventors) for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): Each applicant's State (that is, country) of residence must be indicated. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different

applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named as applicants for the United States of America and the check-box "This person is also inventor" (in Box No. II) or "applicant and inventor" (in Box. No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1*bis*): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. IV has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible and usual to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT—see below: Precautionary Designation of States Subject to Confirmation.*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy**, **MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are party to the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the States party to the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain ***both*** a designation of the State concerned for the purposes of a national patent and ***also*** a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a national title other than a patent is desired, write after the name of that country on the dotted line the name of the title; that is, "petty patent" (available in AU Australia and YU Yugoslavia), "provisional patent" (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), "utility model" (available in AL Albania, AM Armenia, AT Austria, BG Bulgaria, BR Brazil, BY Belarus, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, ES Spain, FI Finland, GE Georgia, GH Ghana, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), "consensual patent" (available in HR Croatia), "utility certificate" (available in TT Trinidad and Tobago, UG Uganda) or "inventor's certificate" (available in CU Cuba and KP Democratic People's Republic of Korea). Where, in AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland, KR Republic of Korea or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model".

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part", write after the name of that country the appropriate words; that is, "patent of addition" (available in AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), "certificate of addition" (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), "inventor's certificate of addition" (available in CU Cuba), "continuation" or "continuation-in-part" (both available in US United States of America). If any of these indications is used, also indicate in the "Supplemental Box" the State for which such treatment is desired, the number of the parent title or parent application, and the date of grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant's *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16*bis*.1(c) and Section 321).

The check-box located at the bottom of the right-hand column is reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant's safeguard, the lower part of Box No. V contains a statement ("Precautionary Designation Statement") indicating the applicant's wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes among the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where eight designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the *number* it was assigned. Note that that date must fall within the

period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Such indication(s), if made, should be made in the Supplemental Box. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated in the Supplemental Box (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau. Such request may be made by marking the applicable check-box and by identifying the document. *Attention:* where such a request is made, the applicant must pay to the receiving Office the applicable *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, "24 March 2000 (24.03.00)", "24 March 2000 (24/03/00)" or "24 March 2000 (24-03-00)".

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 41.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Note that, where the application contains disclosure of one or more nucleotide and/or amino acid sequences, such sequences must be presented as a separate part of the description ("sequence listing part of description") in accordance with the standard provided in Annex C of the Administrative Instructions.

Where the international application is accompanied by certain items, the applicable check-boxes must be marked and any applicable indication must be made at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 3: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 4: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. IX).

Check-box No. 6: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 7: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganism and/or other biological material is filed with the international application. For certain States (see the *PCT Applicant's Guide*, Volume I/B, Annex L), Form PCT/RO/134 or any other sheet containing the said indications must be included as one of the sheets of the description. If the relevant indications (which may be contained on a separate sheet or on Form PCT/RO/134) form part of the international application, do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 8: Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the ISA, the applicant may furnish the listing in computer readable form to the receiving Office with the international application. If this is the case, check-box No. 8 must be marked.

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d))**:** With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3*ter*(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3*ter*(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, for the purposes of according an international filing date, all elements of the international application (request, description, claims, abstract, text matter of drawings) must be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. IX

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent where a separate power of attorney appointing the agent, or a copy of a general power of attorney already in the possession of the receiving Office is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it subsequently.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 4 in Box No. VIII should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained at the top of that Box.

Statement Concerning Non-Prejudicial Disclosures or Exceptions to Lack of Novelty: Such a statement, unless contained in the description, may be given in this Box. It should comply with the national law applicable by the designated Office to which the statement is addressed.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request; the description (excluding the sequence listing part, if any); the claim(s); the abstract; the drawings (if any); the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

This sheet is not part of and does not count as a sheet of the international application.

NOTES TO THE FEE CALCULATION SHEET
(ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the total number of sheets of the international application, in Box No. VIII of the request. The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA,

irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other title of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of eight designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is eight times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is eight times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE DEPOSIT ACCOUNT

The receiving Office will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a.iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute autre administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f); instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°s II ET III

Remarque générale : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés comme déposants (et aussi comme inventeurs) pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom de l'État dont l'intéressé est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom de l'État où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Déposants différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des déposants différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et la case "Cette personne est aussi inventeur" (dans le cadre nº II) ou "déposant et inventeur" (dans le cadre nº III) doit être cochée.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT,* volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE Nº IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1*bis*) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le "représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres nºs II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre nº IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre nº II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre nº IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre nº IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE Nº V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible et courant d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT – voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation".*

Lorsque des brevets régionaux (ARIPO, eurasien, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasien : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasien peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasien, soit à la fois aux fins d'un brevet national et d'un brevet eurasien. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasien et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasien sera traitée comme une désignation aux fins d'un brevet eurasien de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national.

Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasien ou à la Convention sur le brevet européen et au PCT sont désignés *deux fois*, une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovénie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre nº V doit contenir ***à la fois*** la désignation de l'État concerné en vue de l'obtention d'un brevet national ***et*** la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander un titre de protection autre qu'un brevet, écrire après le nom de ce pays, sur la ligne pointillée, le nom du titre en question, c'est-à-dire "petty patent" (pour AU Australie et YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AL Albanie, AM Arménie, AT Autriche, BG Bulgarie, BR Brésil, BY Bélarus, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, GH Ghana, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba, KP République populaire démocratique de Corée). Si, pour AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande, KR République de Corée ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus du brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, SI Slovénie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également dans le cadre supplémentaire l'État pour lequel ce traitement est souhaité, le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre nº V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant *l'ordre des désignations choisi* par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16*bis*.1.c) et instruction 321).

La case située au bas de la colonne de droite est réservée pour la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant le cas échéant si une forme particulière de protection ou de traitement est souhaitée).

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre nº V comporte une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions dans les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre nº VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi

confirmée, une taxe de désignation (même lorsque huit taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i)); cette indication n'est cependant pas obligatoire. Si elle est faite, elle devrait l'être dans le cadre supplémentaire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii)).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international. Pour effectuer une requête à cet effet, il faut cocher la case appropriée et donner les indications permettant d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit verser à l'office récepteur la *taxe afférente au document de priorité;* à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "24 mars 2000 (24.03.00)", "24 mars 2000 (24/03/00)", "24 mars 2000 (24-03-00)".

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE N° VIII

Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des diverses parties de la demande internationale. Lorsque la demande internationale contient la divulgation d'une ou de plusieurs séquences de nucléotides ou d'acides aminés, ces séquences doivent être présentées dans une partie distincte de la description ("partie de la description réservée au listage des séquences") conformément à la norme prévue à l'annexe C des instructions administratives.

Lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée à la fin de la ligne correspondante; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Case n° 3 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 4 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° IX).

Case n° 6 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 7 : cocher cette case si, conjointement avec la demande internationale, il est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Pour certains États (voir le *Guide du déposant du PCT*, volume I/B, annexe L), le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question doit faire partie de la description. Ne pas cocher cette case si les indications (figurant soit sur une feuille séparée, soit sur le formulaire mentionné ci-dessus) sont contenues dans la demande internationale (pour de plus amples informations, voir la règle 13*bis* et l'instruction 209).

Case nº 8 : lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous une forme déchiffrable par ordinateur à l'office récepteur. S'il le fait, la case nº 8 doit être cochée.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue devrait être indiquée dans la case prévue (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter*.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter*.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'obtention d'une date de dépôt international, être rédigés en anglais, sauf que le texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, peut être rédigé dans une langue autre que l'anglais.

CADRE Nº IX

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent signer); il peut toutefois s'agir de la signature du mandataire si un pouvoir distinct désignant le mandataire, ou une copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre ultérieurement.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case nº 4 du cadre nº VIII.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la partie supérieure de celui-ci.

Déclaration concernant des divulgations non opposables ou des exceptions au défaut de nouveauté : une telle déclaration peut, si elle ne figure pas dans la description, être effectuée dans ce cadre. Elle doit être conforme à la législation nationale applicable par l'office désigné auquel elle est adressée.

REMARQUES GÉNÉRALES

Langue de la correspondance (règle 92.2 et instruction 104) : toute lettre du déposant à l'office récepteur doit être rédigée dans la langue de dépôt de la demande internationale étant entendu que, lorsque la demande internationale doit être publiée dans la langue d'une traduction remise en vertu de la règle 12.3, cette lettre doit être rédigée dans la langue de cette traduction; l'office récepteur peut cependant autoriser l'emploi d'une autre langue.

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête; description (sauf la partie de la description réservée au listage des séquences, le cas échéant); revendication(s); abrégé; dessins (le cas échéant); partie de la description réservée au listage des séquences, le cas échéant.

Toute les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f)) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

Cette feuille ne fait pas partie de la demande internationale ni ne compte comme une feuille de celle-ci.

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale. Cela aidera l'office récepteur à vérifier les calculs et à y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques indications supplémentaires au sujet d'un éventuel paiement ultérieur de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT,* volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT,* volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration choisie. Le *Guide du déposant du PCT,* volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT,* volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des renseignements sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n^{os} II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. Pour ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe

internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre total de feuilles de la demande internationale, qui figure dans le cadre nº VIII de la requête. La taxe de base doit être payée dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre des taxes de désignation dues correspond au nombre de cases cochées dans le cadre nº V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasien, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasien ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre titre de protection national demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de huit désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de huit fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasien, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de huit fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre nº VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour information, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement ultérieur des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER UN COMPTE DE DÉPÔT

L'office récepteur ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

The demand must be filed directly with the competent International Preliminary Examining Authority or, if two or more Authorities are competent, with the one chosen by the applicant. The full name or two-letter code of that Authority may be indicated by the applicant on the line below:

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a publication of WIPO. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed before the expiration of *19 months from the priority date* in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. *Warning*: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58): Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "24 March 2000 (24.03.00)", "24 March 2000 (24/03/00)" or "24 March 2000 (24-03-00)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request . The Notes to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than

three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the "eligible States".

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words "wishes not to elect:".

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

(i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);

(ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

La demande d'examen préliminaire international doit être présentée directement à l'administration chargée de l'examen préliminaire international qui est compétente ou, si plusieurs administrations sont compétentes, à l'une d'entre elles, au choix du déposant. NOTES RELATIVES AU FORMULAIRE DE DEMANDE D'EXAMEN PRÉLIMINAIRE INTERNATIONAL (PCT/IPEA/401)

Ces notes sont destinées à faciliter l'utilisation du formulaire de demande d'examen préliminaire international et à donner certains renseignements concernant l'examen préliminaire international prévu au chapitre II du Traité de coopération en matière de brevets (PCT). On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI. Les notes sont fondées sur les exigences du traité, du règlement d'exécution et des instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de demande d'examen préliminaire international et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire. Les cases appropriées peuvent être cochées à la main, à l'encre foncée (règles 11.9)a) et b) et 11.14).

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2)a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents) au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6)a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi *le Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de *19 mois à compter de la date de priorité* pour que le délai d'ouverture de la phase nationale de la procédure selon le PCT puisse passer, en ce qui concerne les États élus, de 20 à 30 mois à compter de la date de priorité. *Important* : si la demande d'examen préliminaire international est présentée plus tard, la phase nationale ne sera pas différée et le déposant devra l'aborder avant l'expiration du délai applicable en vertu de l'article 22 (qui est habituellement de 20 mois à compter de la date de priorité).

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "24 mars 2000 (24.03.00)", "24 mars 2000 (24/03/00)" ou "24 mars 2000 (24-03-00)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne *a été désignée à une date antérieure* (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire international* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international* (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter *avec la demande d'examen* une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i)) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii)).

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a

pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)i)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre n° V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire : ".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 5 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 90.3)a) et 90.4)a)) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);

ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MZ Mozambique, MX Mexique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer sous I est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation corespondante est signée et qu'elle indique le numéro du compte de dépôt.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION

ASSEMBLY

Twenty-Eighth (16th Extraordinary) Session
(Geneva, 13 to 17 March 2000)

Note prepared by the International Bureau

The Assembly of the International Patent Cooperation Union (PCT Union) held its twenty-eighth (sixteenth extraordinary) session in Geneva from 13 to 17 March 2000. For a detailed report on that session, see WIPO document PCT/A/28/5, which also contains certain matters noted by the Assembly, by various delegations and by the International Bureau in connection with the items considered by the Assembly, in particular the amendments of the PCT Regulations. That report is available, free of charge, from WIPO and may also be viewed on the WIPO Internet site at the following address: www.wipo.int/eng/document/govbody/wo_pct/index_28.htm.

Amendments of the PCT Regulations Relating to the Patent Law Treaty

The Assembly adopted a number of amendments of the PCT Regulations, aimed mainly at simplifying the national phase processing of PCT applications and aligning the PCT with the then draft Patent Law Treaty (PLT) [1]. The amendments adopted by the Assembly are outlined below. The text of the amended Rules, as in force from 1 March 2001, is reproduced as from page 15530.

By the time the amendments enter into force (on 1 March 2001), to the extent possible, pre-printed forms, the *PCT Applicant's Guide*, the Administrative Instructions Under the PCT, the PCT Receiving Office Guidelines and the PCT Preliminary Examination Guidelines will be updated to take the amendments into account. Booklets, in several languages, containing the text of the Treaty and the Regulations as amended (WIPO publication No. 274) will be published in the coming months. A future release of the PCT-EASY software taking the amendments into account will also be made available.

Various Rules, providing for the inclusion in the request and in the demand of indications relating to applicants and agents, have been amended so as to permit the indication of a number or other indication under which the applicant or the agent is registered with the national Office acting as receiving Office or International Preliminary Examining Authority, as the case may be (amended Rules 4.5(e), 4.7(b) and 53.5).

[1] The draft PLT was subsequently adopted by a diplomatic conference held in Geneva from 11 May to 2 June 2000. All documents for the diplomatic conference including the Final Act are available on WIPO's Internet site at www.wipo.int/eng/document/pt_dc/index.htm.

RÉUNIONS DE L' UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS

ASSEMBLÉE

Vingt-huitième session (16e session extraordinaire) (Genève, 13 - 17 mars 2000)

Note du Bureau international

L' Assemblée de l' Union internationale de coopération en matière de brevets (Union du PCT) a tenu sa vingt-huitième session (16e session extraordinaire) à Genève, du 13 au 17 mars 2000. Pour un rapport détaillé sur cette session, voir le document PCT/A/28/5 de l' OMPI, qui contient également des considérations de l' Assemblée, de diverses délégations et du Bureau international sur les points dont l' Assemblée était saisie, en particulier les modifications à apporter au règlement d' exécution du PCT. Ce rapport peut être obtenu gratuitement auprès de l' OMPI; il peut aussi être consulté sur le site Internet de l' OMPI à l' adresse suivante : www.wipo.int/fre/document/govbody/wo_pct/index_28.htm.

Modifications du règlement d' exécution du PCT, en relation avec le Traité sur le droit des brevets

L' Assemblée a adopté un certain nombre de modifications du règlement d' exécution du PCT, visant principalement à simplifier le traitement des demandes internationales selon le PCT durant la phase nationale et à aligner le PCT sur le Traité sur le droit des brevets (PLT), alors au stade de projet[1]. Les modifications adoptées par l' Assemblée sont résumées ci-après. Le texte des règles modifiées, telles qu' elles entreront en vigueur le 1er mars 2001, est reproduit à partir de la page 15531.

À la date d' entrée en vigueur de ces modifications (le 1er mars 2001), les formulaires préimprimés, le *Guide du déposant du PCT*, les Instructions administratives du PCT, les Directives à l' usage des offices récepteurs du PCT et les Directives concernant l' examen préliminaire international selon le PCT auront été, dans toute la mesure du possible, actualisés pour tenir compte de ces modifications. Des brochures, en plusieurs langues, contenant le texte du traité et du règlement d' exécution tel que modifié (publication de l' OMPI n° 274), seront publiées durant les prochains mois. Une nouvelle version du logiciel PCT-EASY tenant compte des modifications sera également disponible.

Diverses règles prévoyant l' inclusion dans la requête et dans la demande d' examen prélimin aire international d' indications relatives au déposant et au mandataire ont été modifiées pour permettre l' indication d' un numéro ou toute autre indication sous laquelle le déposant ou le mandataire est inscrit auprès de l' office national agissant en tant qu' office récepteur ou d' administration chargée de l' examen préliminaire international, selon le cas (règles 4.5.e), 4.7.b) et 53.5 modifiées).

[1] Le projet de PLT a été adopté ultérieurement par une conférence diplomatique qui s' est tenue à Genève du 11 mai au 2 juin 2000. Tous les documents relatifs à la conférence diplomatique (y compris l' Acte final) sont disponibles sur le site Internet de l' OMPI à l' adresse suivante : www.wipo.int/fre/document/pt_dc/index.htm.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION–ASSEMBLY (Cont'd)

Outline of the More Important Amendments of the PCT Regulations

New Rule 4.17 will allow applicants, when filing their international applications, to complete one or more declarations (listed below) containing standardized wording concerning certain matters on which documents or evidence are required for the purposes of the national law in one or more designated States:

— declaration as to the identity of the inventor (new Rule 4.17(i));

— declaration as to the applicant's entitlement, as at the international filing date, to apply for and be granted a patent (new Rule 4.17(ii));

— declaration as to the applicant's entitlement, as at the international filing date, to claim priority of an earlier application (new Rule 4.17(iii));

— declaration of inventorship (new Rule 4.17(iv));

— declaration as to non-prejudicial disclosures or exceptions to lack of novelty (new Rule 4.17(v)).

As a consequence of the introduction of new Rule 4.17, present Rule 4.17 was renumbered as Rule 4.18 and was amended to refer to (new) Rule 4.17.

The standardized wording of the declarations will be set out in the Administrative Instructions under the PCT, which will be promulgated by the Director General (new Rule 4.17, introductory phrase) in the near future.

There will be a possibility for applicants to correct or add any of the above-mentioned declarations to the request within 16 months from the priority date (or, at the latest, before completion of the technical preparations for international publication) (see new Rule 26 *ter*).

In respect of all declarations except that as to non-prejudicial disclosures or exceptions to lack of novelty, an indication that any such declarations were filed will be included in the corresponding entry in Section I of the PCT Gazette and on the front page of the published international application ("pamphlet") (new Rule 48.2(b)(iv)); in addition, the International Bureau will communicate, to each designated Office concerned, copies of any such declaration made for the purposes of the national phase processing of the international application before that Office (new Rule 47.1(a-*ter*)).

Any declaration as to non-prejudicial disclosures or exceptions to lack of novelty will be included in the body of the pamphlet (amended Rule 48.2(a)(x)).

Where declarations are submitted as provided, the circumstances under which further documents or evidence may be required by designated Offices will be restricted to cases where the Offices may reasonably doubt the veracity of the declarations (new Rule 51*bis*.2).

Present Rule 51*bis*.2, relating to the time limit within which applicants may comply with national requirements, has been amended (and renumbered as new Rule 51 *bis*.3) to provide that designated Offices will have to invite applicants to fulfill some of these requirements if they are still outstanding at the time when the application enters into the national phase; furthermore, it sets a minimum time limit of two months from the date of the invitation for applicants to comply with these requirements by furnishing any applicable declaration as provided under new Rule 4.17, or by furnishing further documents or evidence, as the case may be (the two-month time limit was introduced following the then proposed time limit in similar cases in the context of the PLT) (new Rule 51*bis*.3(a)). In respect of some other national requirements, new Rule 51*bis*.3(b) provides that designated Offices will have to give applicants an opportunity to fulfill them after the application has entered into the national phase.

RÉUNIONS DE L' UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS – ASSEMBLÉE (suite)

Résumé des principales modifications du règlement d' exécution du PCT

La nouvelle règle 4.17 permettra au déposant, au moment du dépôt de sa demande internationale, de remplir une ou plusieurs déclarations (énumérées ci-après) contenant un libellé standard concernant certains éléments pour lesquels des documents ou des preuves sont exigés aux fins de la législation nationale dans un ou plusieurs États désignés :

— une déclaration relative à l' identité de l' inventeur (nouvelle règle 4.17.i));

— une déclaration selon laquelle le déposant a, à la date du dépôt international, le droit de demander et d' obtenir un brevet (nouvelle règle 4.17.ii));

— une déclaration selon laquelle le déposant a, à la date du dépôt international, le droit de revendiquer la priorité de la demande antérieure (nouvelle règle 4.17.iii));

— une déclaration relative à la qualité d' inventeur (nouvelle règle 4.17.iv));

— une déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté (nouvelle règle 4.17.v)).

Suite à l' introduction de la nouvelle règle 4.17, la règle 4.17 actuelle a été renumérotée en tant que règle 4.18 et a été modifiée pour se référer à la (nouvelle) règle 4.17.

Le libellé standard des déclarations figurera dans les Instructions administratives du PCT, qui seront promulguées prochainement par le Directeur général (nouvelle règle 4.17, phrase d' introduction).

Le déposant aura la possibilité de corriger ou d' ajouter à la requête une ou plusieurs des déclarations mentionnées ci-dessus dans un délai de 16 mois à compter de la date de priorité (ou, au plus tard, avant l' achèvement de la préparation technique de la publication internationale) (voir la nouvelle règle 26 *ter*).

En ce qui concerne toutes les déclarations à l' exception de celle relative aux divulgations non opposables ou aux exceptions au défaut de nouveauté, une indication selon laquelle de telles déclarations ont été déposées sera incluse dans la rubrique correspondante de la Section I de la Gazette du PCT et sur la page de couverture de la demande internationale publiée ("brochure") (nouvelle règle 48.2.b)iv)); en outre, le Bureau international communiquera à chaque office désigné concerné une copie d' une ou de plusieurs déclarations de ce type faites aux fins du traitement de la demande internationale durant la phase nationale auprès de cet office (nouvelle règle 47.1.a-*ter*)).

Toute déclaration relative à des divulgations non opposables ou à des exceptions au défaut de nouveauté sera incluse dans le corps de la brochure (règle 48.2.a)x) modifiée).

Lorsque des déclarations seront remises comme prévu, les circonstances dans lesquelles des documents ou des preuves supplémentaires pourront être exigés par certains offices désignés seront limitées aux cas dans lesquels les offices pourront raisonnablement douter de la véracité des déclarations (nouvelle règle 51 *bis*.2).

La règle 51*bis*.2 actuelle relative au délai dans lequel le déposant peut satisfaire aux exigences nationales a été modifiée (et renumérotée en tant que nouvelle règle 51 *bis*.3) : les offices désignés seront désormais tenus d' inviter le déposant à remplir certaines de ces exigences si le déposant n' a pas fait le nécessaire au moment de l' ouverture de la phase nationale; en outre, elle fixe un délai minimum de deux mois à compter de la date de l' invitation pour permettre au déposant de satisfaire à ces exigences en fournissant une déclaration applicable comme prévu par la nouvelle règle 4.17, ou en fournissant des documents ou des preuves supplémentaires, selon le cas (on a introduit le délai de deux mois pour se calquer sur le délai proposé alors, dans des cas semblables, dans le cadre du PLT) (nouvelle règle 51*bis*.3.a)). En ce qui concerne certaines autres exigences nationales, la nouvelle règle 51 *bis*.3.b) prévoit que les offices désignés sont tenus de fournir l' occasion au déposant de satisfaire à celles-ci après l' ouverture de la phase nationale.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION–ASSEMBLY (Cont'd)

Designated Offices will be able to require from applicants a translation of the priority document, but only where the validity of the priority claim is relevant to the determination of whether the invention concerned is patentable (new Rule 51*bis*.1(e)).

The International Preliminary Examining Authorities will be able to invite applicants to furnish a translation of the priority document into the language of international preliminary examination, but only where the validity of the priority claim is relevant for the formulation of the opinion referred to in Article 33(1) (amended Rule 66.7(b)).

Other Amendments of the PCT Regulations

The amendments of the following Rules were of a mere editorial nature: Rules 4.1(c)(ii), 4.7(a) and 4.8.

Entry Into Force of the Amendments of the PCT Regulations

The Assembly decided that the amendments will enter into force on 1 March 2001 and noted the following consequences in connection with the applicability of the amendments:

(i) the Rules as amended will apply, as explained in and subject to the following items, to international applications irrespective of when they are filed (that is, whether they are filed before, on or after 1 March 2001);

(ii) the provisions providing for certain declarations under new Rule 4.17, and the related provisions of new or amended Rules 4.1(c)(iii), 4.5(e), 4.6(a), 4.7(b), 4.18, 26*ter*, 47.1(a-*ter*), 48.2(a)(x) and (b)(iv), and 51*bis*.2, will not apply, subject to items (iii) and (iv), to international applications filed before 1 March 2001;

(iii) new Rule 26*ter* will apply to international applications filed before 1 March 2001, to the extent that it will permit the applicant to add a declaration to the request, and new Rule 4.17 and the related provisions mentioned in item (ii) will apply in respect of such an added declaration;

(iv) amended Rule 51*bis*.2 will apply to international applications filed before 1 March 2001, which enter the national phase on or after 1 March 2001, in respect of which indications concerning the inventor are included in the request or a declaration is added to the request under Rule 26*ter* or submitted directly to the designated Office.

Developments Regarding the PLT; Interface Between the PLT and the PCT[2]

The International Bureau indicated to the Assembly that the following issues needed to be discussed at the Diplomatic Conference for the Adoption of the Patent Law Treaty:

(i) whether existing and future transitional reservations made under the PCT Regulations should have effect under the PLT;

[2] The draft PLT was subsequently adopted by a diplomatic conference held in Geneva from 11 May to 2 June 2000. All documents for the diplomatic conference including the Final Act are available on WIPO's Internet site at www.wipo.int/eng/document/pt_dc/index.htm.

RÉUNIONS DE L' UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS – ASSEMBLÉE (suite)

Les offices désignés pourront exiger que le déposant remette une traduction du document de priorité, mais seulement lorsque la validité de la revendication de priorité est pertinente pour ce qui est de déterminer si l' invention en cause est brevetable (nouvelle règle 51*bis*.1.e)).

Les administrations chargées de l' examen préliminaire international pourront inviter le déposant à remettre une traduction du document de priorité dans la langue de l' examen préliminaire international, mais seulement lorsque la validité de la revendication de priorité est pertinente pour la formulation de l' opinion visée à l' article 33.1) (règle 66.7.b) modifiée).

Autres modifications du règlement d' exécution du PCT

Les modifications apportées aux règles suivantes sont d' ordre purement rédactionnel : règles 4.1.c)ii), 4.7.a) et 4.8.

Entrée en vigueur des modifications du règlement d' exécution du PCT

L' Assemblée a décidé que les modifications entreront en vigueur le 1er mars 2001 et a pris note des conséquences suivantes quant à l' applicabilité des modifications :

i) les règles telles que modifiées s' appliqueront, comme cela est expliqué dans les points suivants et sous réserve de ces points, aux demandes internationales quelle que soit leur date de dépôt (c' est-à-dire qu' elles aient été déposées avant le 1er mars 2001, à cette date ou à une date ultérieure);

ii) les dispositions prévoyant certaines déclarations en vertu de la nouvelle règle 4.17 ainsi que l es dispositions s' y rattachant énoncées dans les règles nouvelles ou modifiées 4.1.c)iii), 4.5.e), 4.6.a), 4.7.b), 4.18, 26*ter*, 47.1.a-*ter*), 48.2.a)x) et b)iv) et 51*bis*.2), ne s' appliqueront pas, sous réserve des points iii) et iv), aux demandes internationales déposées avant le 1er mars 2001;

iii) la nouvelle règle 26*ter* s' appliquera aux demandes internationales déposées avant le 1er mars 2001, dans la mesure où elle permettra aux déposants d' ajouter une déclaration à la requête, et la nouvelle règle 4.17 ainsi que les dispositions s' y rattachant visées au point ii) s' appliqueront à l' égard de ladite déclaration;

iv) la règle 51*bis*.2 modifiée s' appliquera aux demandes internationales déposées avant le 1er mars 2001, pour lesquelles la phase nationale sera engagée à cette date ou à une date ultérieure, et en ce qui concerne lesquelles les indications relatives à l' inventeur figurent dans la requête ou une déclaration est ajoutée à la requête en vertu de la règle 26*ter* ou soumise directement à l' office désigné.

Éléments nouveaux relatifs au PLT; interface entre le PLT et le PCT[2]

Le Bureau international a indiqué à l' Assemblée que les points ci-après devront être examinés pendant la Conférence diplomatique pour l' adoption du Traité sur le droit des brevets :

i) application au PLT des réserves provisoires existantes et futures formulées en relation avec le règlement d' exécution du PCT;

[2] Le projet de PLT a été adopté ultérieurement par une conférence diplomatique qui s' est tenue à Genève du 11 mai au 2 juin 2000. Tous les documents relatifs à la conférence diplomatique (y compris l' Acte final) sont disponibles sur le site Internet de l' OMPI à l' adresse suivante : www.wipo.int/fre/document/pt_dc/index.htm.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION–ASSEMBLY (Cont'd)

(ii) the harmonization of the use of certain terms in the then draft PLT and in the PCT, in particular, the terms "form or contents," "form," "Form," "format" and "means";

(iii) the international law implications of the automatic incorporation into the PLT of future modifications of the PCT, the Regulations and the Administrative Instructions, in particular in respect of non-PCT Contracting States.

PCT Automation

The Assembly noted the International Bureau's progress report on the IMPACT Project contained in document PCT/A/28/4 and noted that the IMPACT Project plan was being further elaborated by the IMPACT Project team, as indicated in document PCT/A/28/4, paragraph 9.

Implementation of Electronic Filing and Processing of International Applications [3]

The Assembly agreed that: (i) a redraft of Part 7 of the Administrative Instructions Under the PCT and Annex F thereto should be made available by the International Bureau by 10 May 2000 on the PCT electronic forum and the SCIT area of WIPO's Internet site, (ii) the redraft would be discussed at a broadly-constituted informal consultation meeting to be convened during the same week as the next SCIT meeting, (iii) participants would include PCT Contracting States and Authorities, observer States, other observers and user representatives and (iv) the results of the consultation meeting would be reported [4] to the September 2000 session of the PCT Assembly.

[3] The PCT informal consultation meeting on electronic filing took place in Geneva from 11 to 14 July 2000; all documents considered at that meeting are available on WIPO's Internet site at www.wipo.int/eng/meetings/2000/pct-ef/index.htm.

[4] A note on the 29th session of the Assembly (held from 25 September to 3 October 2000) is under preparation and will be published in due course in the Gazette.

RÉUNIONS DE L' UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS – ASSEMBLÉE (suite)

ii) harmonisation de l' utilisation de certains termes dans le projet de PLT et dans le PCT, en particulier les termes "forme ou contenu", "forme", "formulaire", "format" et "moyens";

iii) incidences en droit international de l' incorporation automatique dans le PLT de modifications apportées ultérieurement au PCT, au règlement d' exécution et aux instructions administratives, en particulier en ce qui concerne les États contractants non parties au PCT.

Automatisation du PCT

L' Assemblée a pris note du rapport du Bureau international sur les progrès réalisés en ce qui concerne le projet IMPACT, qui figure dans le document PCT/A/28/4, et a noté que l' équipe du projet IMPACT poursuit l' élaboration du plan d' exécution du projet IMPACT, comme cela est indiqué au paragraphe 9 du document PCT/A/28/4.

Mise en œuvre du dépôt et du traitement électroniques des demandes internationales [3]

L' Assemblée a convenu i) que le nouveau projet de septième partie et d' annexe F des Instructions administratives du PCT devra être communiqué par le Bureau international, au plus tard le 10 mai 2000, sur le forum électronique du PCT et le secteur SCIT du site Internet de l' OMPI; ii) que ce nouveau projet sera examiné lors d' une réunion consultative informelle à large participation, qui se tiendra la même semaine que la réunion suivante du SCIT; iii) que participeront à cette réunion les États contractants et administrations du PCT, les États observateurs, d' autres observateurs et des représentants d' utilisateurs; et iv) que les résultats de la réunion consultative feront l' objet d' un rapport [4] qui sera soumis à la session de septembre 2000 de l' Assemblée de l' Union du PCT.

[3] La réunion consultative informelle du PCT relative au dépôt électronique s' est tenue à Genève du 11 au 14 juillet 2000; tous les documents pris en considération lors de cette réunion sont disponibles sur le site Internet de l' OMPI à l' adresse suivante : www.wipo.int/fre/meetings/2000/pct_ef/index.htm.

[4] Une note portant sur la 29e session de l' Assemblée (qui s' est tenue à Genève du 25 septembre au 3 octobre 2000) est en cours de préparation et sera publiée en temps voulu dans la Gazette.

AMENDMENTS OF THE PCT REGULATIONS:
TEXT OF THE AMENDED RULES (Cont'd)

Rule 26*ter*

Correction or Addition of Declarations Under Rule 4.17

26*ter*.1 *Correction or Addition of Declarations*

The applicant may correct or add to the request any declaration referred to in Rule 4.17 by a notice submitted to the International Bureau within a time limit of 16 months from the priority date, provided that any notice which is received by the International Bureau after the expiration of that time limit shall be considered to have been received on the last day of that time limit if it reaches it before the technical preparations for international publication have been completed.

26*ter*.2 *Processing of Declarations*

(a) Where the receiving Office or the International Bureau finds that any declaration referred to in Rule 4.17 is not worded as required or, in the case of the declaration of inventorship referred to in Rule 4.17(iv), is not signed as required, the receiving Office or the International Bureau, as the case may be, may invite the applicant to correct the declaration within a time limit of 16 months from the priority date.

(b) Where the International Bureau receives any declaration or correction under Rule 26*ter*.1 after the expiration of the time limit under Rule 26 *ter*.1, the International Bureau shall notify the applicant accordingly and shall proceed as provided for in the Administrative Instructions.

Rule 47

Communication to Designated Offices

47.1 *Procedure*

(a) and (a-*bis*) [No change]

(a-*ter*) The notification under paragraph (a-*bis*) shall include any declaration referred to in Rule 4.17(i) to (iv), and any correction thereof under Rule 26*ter*.1, which was received by the International Bureau before the expiration of the time limit under Rule 26 *ter*.1, provided that the designated Office has informed the International Bureau that the applicable national law requires the furnishing of documents or evidence relating to the matter to which the declaration relates.

Règle 26*ter*

Correction ou adjonction de déclarations selon la règle 4.17

26*ter*.1 *Correction ou adjonction de déclarations*

Le déposant peut corriger ou ajouter à la requête toute déclaration visée à la règle 4.17 par communication soumise au Bureau international dans un délai de 16 mois à compter de la date de priorité, étant entendu que toute communication qui parvient au Bureau international après l' expiration de ce délai est réputée avoir été reçue le dernier jour de ce délai si elle lui parvient avant l' achèvement de la préparation technique de la publication internationale.

26*ter*.2 *Traitement des déclarations*

a) Si l' office récepteur ou le Bureau international constate qu' une déclaration visée à la règle 4.17 n' est pas libellée de la manière requise ou, dans le cas de la déclaration relative à la qualité d' inventeur visée à la règle 4.17.iv), n' est pas signée de la manière requise, l' office récepteur ou le Bureau international, selon le cas, peut inviter le déposant à la corriger dans un délai de 16 mois à compter de la date de priorité.

b) Si le Bureau international reçoit une déclaration ou une correction, selon la règle 26*ter*.1, après l' expiration du délai visé à cette même règle, il notifie ce fait au déposant et procède de la manière prévue dans les instructions administratives.

Règle 47

Communication aux offices désignés

47.1 *Procédure*

a) et a-*bis*) [Sans changement]

a-*ter*) La notification visée à l' alinéa a-*bis*) comporte toute déclaration visée à la règle 4.17.i) à iv), et toute correction apportée à une telle déclaration selon la règle 26*ter*.1, qui a été reçue par le Bureau international avant l' expiration du délai prévu à la règle 26*ter*.1, à condition que l' office désigné ait informé le Bureau international que la législation nationale applicable exige la remise de documents ou de preuves relatifs à l' objet auquel se rapporte la déclaration.

AMENDMENTS OF THE PCT REGULATIONS:
TEXT OF THE AMENDED RULES (Cont'd)

Rule 51*bis*

Certain National Requirements Allowed Under Article 27

51*bis*.1 *Certain National Requirements Allowed*

(a) Subject to Rule 51*bis*.2, the national law applicable by the designated Office may, in accordance with Article 27, require the applicant to furnish, in particular:

(i) any document relating to the identity of the inventor,

(ii) any document relating to the applicant's entitlement to apply for or be granted a patent,

(iii) any document containing any proof of the applicant's entitlement to claim priority of an earlier application where the applicant is not the applicant who filed the earlier application or where the applicant's name has changed since the date on which the earlier application was filed,

(iv) where the international application designates a State whose national law requires that national applications be filed by the inventor, any document containing an oath or declaration of inventorship,

(v) any evidence concerning non-prejudicial disclosures or exceptions to lack of novelty, such as disclosures resulting from abuse, disclosures at certain exhibitions and disclosures by the applicant during a certain period of time.

(b) and (c) [No change]

(d) The national law applicable by the designated Office may, in accordance with Article 27(2)(ii), require that the translation of the international application furnished by the applicant under Article 22 be :

(i) verified by the applicant or the person having translated the international application in a statement to the effect that, to the best of his knowledge, the translation is complete and faithful;

(ii) certified by a public authority or sworn translator, but only where the designated Office may reasonably doubt the accuracy of the translation.

(e) The national law applicable by the designated Office may, in accordance with Article 27, require the applicant to furnish a translation of the priority document, provided that such a translation may only be required where the validity of the priority claim is relevant to the determination of whether the invention concerned is patentable.

(f) If, on March 17, 2000, the proviso in paragraph (e) is not compatible with the national law applied by the designated Office, that proviso shall not apply in respect of that Office for as long as that proviso continues not to be compatible with that law, provided that the said Office informs the International Bureau accordingly by November 30, 2000. The information received shall be promptly published by the International Bureau in the Gazette.

Règle 51*bis*

Certaines exigences nationales admises en vertu de l' article 27

51*bis*.1 *Certaines exigences nationales admises*

a) Sous réserve de la règle 51*bis*.2, la législation nationale applicable par l' office désigné peut, conformément à l' article 27, exiger que le déposant fournisse, en particulier :

i) tout document relatif à l' identité de l' inventeur,

ii) tout document relatif au droit du déposant de demander ou d' obtenir un brevet,

iii) tout document contenant une preuve du droit du déposant de revendiquer la priorité d' une demande antérieure si le déposant n' est pas celui qui a déposé la demande antérieure ou si son nom a changé depuis la date à laquelle la demande antérieure a été déposée,

iv) lorsque la demande internationale désigne un État dont la législa tion nationale exige que les demandes nationales soient déposées par l' inventeur, tout document contenant une attestation sous serment ou une déclaration relative à la qualité d' inventeur,

v) toute justification concernant des divulgations non opposables ou des exceptions au défaut de nouveauté, telles que des divulgations résultant d' abus, des divulgations lors de certaines expositions et des divulgations par le déposant qui sont intervenues au cours d' une certaine période.

b) et c) [Sans changement]

d) La législation nationale applicable par l' office désigné peut, conformément à l' article 27.2)ii), exiger que :

i) l' exactitude de la traduction de la demande internationale remise par le déposant en vertu de l' article 22 soit confirmée par le déposant ou par la personne qui a traduit la demande internationale dans une déclaration précisant qu' à sa connaissance la traduction est complète et fidèle;

ii) la traduction de la demande internationale remise par le déposant en vertu de l' article 22 soit certifiée par une autorité publique ou un traducteur juré, mais uniquement lorsque l' office désigné peut raisonnablement douter de l' exactitude de la traduction.

e) La législation nationale applicable par l' office désigné peut, conformément à l' article 27, exiger que le déposant remette une traduction du document de priorité, étant entendu que cette traduction ne peut être exigée que lorsque la validité de la revendication de priorité est pertinente pour ce qui est de déterminer si l' invention en cause est brevetable.

f) Si, le 17 mars 2000, la restriction énoncée à l' alinéa e) n' est pas compatible avec la législation nationale appliquée par l' office désigné, cette restriction ne s' applique pas à l' égard de cet office aussi longtemps qu' elle reste incompatible avec cette législation, à condition que l' office en informe le Bureau international au plus tard le 30 novembre 2000. ASSEMBLY

Twenty-Ninth (17th Extraordinary) Session
(Geneva, 25 September to 3 October 2000)

Note prepared by the International Bureau

The Assembly of the International Patent Cooperation Union (PCT Union) held its twenty-ninth (17th extraordinary) session in Geneva from 25 September to 3 October 2000, in conjunction with the thirty-fifth series of meetings of the Assemblies of the Member States of the World Intellectual Property Organization (WIPO). The texts of all documents discussed during the session and that of the report of the Assembly (document PCT/A/29/4) are available from WIPO free of charge and can also be found on WIPO's Internet site, at the following address: http://www.wipo.int/eng/document/govbody/wo_pct/index_29.htm.

Changes relating to the PCT fees for the benefit of the International Bureau

The Assembly decided that the maximum number of designation fees payable would be reduced, with effect from 1 January 2001, from 8 to 6.

The text of the amended Schedule of Fees annexed to the PCT Regulations, as in force from 1 January 2001, is reproduced on page 17224.

Changes relating to the transmittal fee payable to the International Bureau as receiving Office

On the occasion of the session of the Assembly, the Director General of WIPO announced (i) his decision to lower the amount of the transmittal fee charged by the International Bureau acting as receiving Office from 300 Swiss francs to 100 Swiss francs, as from 1 January 2001; and (ii) that, in respect of international applications filed with the International Bureau acting as receiving Office, applicants who presently qualify for a 75% reduction in the international fee would not, as from 1 January 2001, have to pay any transmittal fee.

Progress Report on the PCT Automation ("IMPACT") Project

In presenting its progress report on the IMPACT project, the International Bureau emphasized the approach, based on the best practices of the Project Management Institute, which was being used in the management of the IMPACT project; the International Bureau noted that a detailed plan had been prepared for the development and implementation of the first stage of the project (the IMPACT Communication System (COR) stage), that a plan for the project as a whole was being further refined, and that a high-level plan for the PCT Electronic Filing (E-filing) stage had been prepared. The Assembly took note of the progress report.

RÉUNIONS DE L' UNION INTERNATIONALE DE COOPÉRATION EN MATIÈRE DE BREVETS

ASSEMBLÉE

Vingt-neuvième session (17e session extraordinaire) (Genève, 25 septembre – 3 octobre 2000)

Note du Bureau international

L' Assemblée de l' Union internationale de coopération en matière de brevets (Union du PCT) a tenu sa vingt-neuvième session (17e session extraordinaire) à Genève, du 25 septembre au 3 octobre 2000, dans le cadre de la trente-cinquième série de réunions des Assemblées des États membres de l' Organisation Mondiale de la Propriété Intellectuelle (OMPI). Le texte de tous les documents qui ont fait l' objet de discussions durant la session et celui du rapport de l' Assemblée (document PCT/A/29/4) sont disponibles gratuitement auprès de l' OMPI et peuvent être également consultés sur le site Internet de l' OMPI à l' adresse suivante : http://www.wipo.int/fre/document/govbody/wo_pct/index_29.htm.

Changements relatifs aux taxes du PCT perçues au profit du Bureau international

L' Assemblée a décidé de réduire de 8 à 6 le nombre maximum de taxes de désignation exigibles, avec effet au 1er janvier 2001.

Le texte du barème révisé de taxes annexé au règlement d' exécution du PCT, tel qu' il entrera en vigueur le 1er janvier 2001, est reproduit à la page 17225.

Changements relatifs à la taxe de transmission payable au Bureau international agissant en qualité d' office récepteur

À l' occasion de la session de l' Assemblée, le directeur général de l' OMPI a annoncé i) sa décision d' abaisser de 300 francs suisses à 100 francs suisses le montant de la taxe de transmission perçue par le Bureau international agissant en qualité d' office récepteur, avec effet au 1er janvier 2001; et ii) que, pour les demandes internationales déposées auprès du Bureau international agissant en qualité d' office récepteur, les déposants qui bénéficient actuellement d' une réduction de 75% de la taxe internationale seront entièrement exonérés de la taxe de transmission, et ce également à compter du 1er janvier 2001.

Rapport de situation sur le projet d' automation du PCT ("IMPACT")

En présentant son rapport de situation sur le projet IMPACT, le Bureau international a insisté sur la méthodologie, fondée sur les recommandations du *Project Management Institute*, utilisée pour la gestion du projet IMPACT; le Bureau international a indiqué qu' un plan détaillé a été établi pour l' élaboration et la mise en œuvre de la première phase du projet IMPACT (la phase système de communication (COR)), qu' un plan d' ensemble est en cours de peaufinage et qu' un plan de projet de haut niveau a été préparé pour la phase relative au dépôt électronique selon le PCT ("phase ' dépôt électronique' "). L' Assemblée a pris note du rapport de situation.

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION–ASSEMBLY (Cont'd)

Reform of the PCT

The Assembly discussed proposals for reform of the PCT, made by the United States of America and contained in the Annex to document PCT/A/29/3, which is also available on the Internet, and decided:

"(i) that a special body would be set up to consider, as a first step, proposals for reform of the PCT that would pursue the same objectives as those defined under the title "The First Stage of Reform" of the Annex to document PCT/A/29/3. These proposals may be those contained in the Annex and/or in any other submission made to the International Bureau, if possible, before the end of January 2001;

"(ii) that the special body would consist of Member States, the International Searching and Preliminary Examining Authorities and observers, in particular, intergovernmental and non-governmental organizations, including the European Commission;

"(iii) that the Director General would designate the members of the special body in consultation with Member States, taking due consideration of the need for geographical balance;

"(iv) that the special body would report to the September 2001 session of the Assembly of the PCT Union, which would also include its recommendations to that Assembly for proposals to be considered as part of the first step;

"(v) that the special body would proceed with diligence in completing the first step and in addressing other key issues, subject to the same procedure as that agreed for the first step."

Réforme du PCT

L' Assemblée a discuté les propositions de réforme du PCT faites par les États-Unis d' Amérique et figurant à l' annexe du document PCT/A/29/3, qui est également disponible sur l' Internet, et a décidé :

"i) que serait constitué un organe spécial chargé d' examiner, dans une première phase, des propositions de réforme du PCT dont les objectifs seraient les mêmes que ceux qui ont été définis sous le titre "Première étape de la réforme" de l' annexe du document PCT/A/29/3. Ces propositions peuvent être celles qui figurent dans l' annexe et/ou dans toute autre communication remise au Bureau international, dans la mesure du possible, avant fin janvier 2001;

"ii) que l' organe spécial serait composé d' États membres, des administrations chargées de la recherche internationale et de l' examen préliminaire international et d' observateurs, en particulier d' organisations intergouvernementales et non gouvernementales, y compris la Commission européenne;

"iii) que le directeur général désignerait les membres de l' organe spécial en consultation avec les États membres, en tenant dûment compte de la nécessité d' un équilibre géographique;

"iv) que l' organe spécial rendrait compte à la session de septembre 2001 de l' Assemblée de l' Union du PCT, notamment en présentant à cette Assemblée des recommandations quant aux propositions qui devraient être examinées dans le cadre de la première phase;

"v) que l' organe spécial ferait preuve de diligence pour mener à bien cette première phase et considérer d' autres questions critiques, sous réserve de la même procédure que celle convenue pour la première phase."

ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT
MODIFICATION OF ANNEX A—FORMS

Form PCT/RO/101 (Request)

The Request Form has been modified to take into account the fact that **Turkey** can be designated also for a European patent, and that utility models are available in **Belize**; and the reduction from 8 to 6 of the maximum number of designation fees payable.

These modifications concern Box No. V of the Request Form, the Notes to the request form relating to Box No. V, the Fee Calculation Sheet and the Notes thereto. The Notes to the request form relating to Box No. V have also been modified to take into account that, in the **Republic of Korea**, a utility model can no longer be sought in addition to a patent.

All the sheets of the Request Form, including the Notes to the request form, the Fee Calculation Sheet (annex to the Request Form) and the Notes thereto, are dated January 2001 (the date of issuance or of reprinting of the sheet) and are reproduced on the following pages (without pagination so as to enable convenient reproduction).

Only the updated version of the Request Form should be used for international applications filed as from 1 January 2001. Copies can be obtained free of charge from receiving Offices and the International Bureau, and will also be available on the Internet.

INSTRUCTIONS ADMINISTRATIVES DU PCT
MODIFICATION DE L'ANNEXE A – FORMULAIRES

Formulaire PCT/RO/101 (requête)

Le formulaire de requête a été modifié pour tenir compte du fait que la **Turquie** peut être désignée également aux fins d'un brevet européen et que des modèles d'utilité peuvent être obtenus au **Bélize**; et de la réduction de 8 à 6 du nombre maximum de taxes de désignation payables.

Ces modifications concernent le cadre n° V du formulaire de requête, les notes relatives au cadre n° V de ce même formulaire, la feuille de calcul des taxes et les notes y relatives. Les notes du formulaire de requête relatives au cadre n° V ont également été modifiées pour tenir compte du fait qu'en **République de Corée**, un modèle d'utilité ne peut plus être demandé en plus d'un brevet.

Toutes les feuilles du formulaire de requête, y compris les notes y relatives, la feuille de calcul des taxes (annexe de la requête) et les notes y relatives, ont été datées de janvier 2001 (date d'émission ou de réimpression de la feuille) et sont reproduites sur les pages suivantes (sans pagination pour qu'il soit possible de les reproduire aisément).

Seule la version mise à jour du formulaire de requête devrait être utilisée pour les demandes internationales déposées à partir du 1er janvier 2001. Des exemplaires peuvent être obtenus gratuitement auprès des offices récepteurs et du Bureau international et seront également disponibles sur l'Internet.

Check-box reserved for designating States which have become party to the PCT after issuance of this sheet:

☐ . . . . . .

Precautionary Designation Statement: In addition to the designations made above, the applicant also makes under Rule 4.9(b) all other designations which would be permitted under the PCT except any designation(s) indicated in the Supplemental Box as being excluded from the scope of this statement. The applicant declares that those additional designations are subject to confirmation and that any designation which is not confirmed before the expiration of 15 months from the priority date is to be regarded as withdrawn by the applicant at the expiration of that time limit. *(Confirmation (including fees) must reach the receiving Office within the 15-month time limit.)*

Supplemental Box *If the Supplemental Box is not used, this sheet should not be included in the request.*

*1. If, in any of the Boxes, **the space is insufficient** to furnish all the information: in such case, write "Continuation of Box No. ..." [indicate the number of the Box] and furnish the information in the same manner as required according to the captions of the Box in which the space was insufficient, in particular:*

*(i) **if more than two persons are involved as applicants and/or inventors** and no "continuation sheet" is available: in such case, write "Continuation of Box No. III" and indicate for each additional person the same type of information as required in Box No. III. The country of the address indicated in this Box is the applicant's State (that is, country) of residence if no State of residence is indicated below;*

*(ii) if, in Box No. II or in any of the sub-boxes of Box No. III, the indication **"the States indicated in the Supplemental Box"** is checked: in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the applicant(s) involved and, next to (each) such name, the State(s) (and/or, where applicable, ARIPO, Eurasian, European or OAPI patent) for the purposes of which the named person is applicant;*

*(iii) if, in Box No. II or in any of the sub-boxes of Box No. III, **the inventor or the inventor/applicant is not inventor for the purposes of all designated States or for the purposes of the United States of America**: in such case, write "Continuation of Box No. II" or "Continuation of Box No. III" or "Continuation of Boxes No. II and No. III" (as the case may be), indicate the name of the inventor(s) and, next to (each) such name, the State(s) (and/or, where applicable, ARIPO, Eurasian, European or OAPI patent) for the purposes of which the named person is inventor;*

*(iv) if, in addition to the agent(s) indicated in Box No. IV, there are **further agents**: in such case, write "Continuation of Box No. IV" and indicate for each further agent the same type of information as required in Box No. IV;*

*(v) if, in Box No. V, the name of any State (or OAPI) is accompanied by the indication "**patent of addition**," or "**certificate of addition**," or if, in Box No. V, the name of the United States of America is accompanied by an indication "**continuation**" or "**continuation-in-part**": in such case, write "Continuation of Box No. V" and the name of each State involved (or OAPI), and after the name of each such State (or OAPI), the number of the parent title or parent application and the date of grant of the parent title or filing of the parent application;*

*(vi) if, in Box No. VI, there are **more than three earlier applications whose priority is claimed**: in such case, write "Continuation of Box No. VI" and indicate for each additional earlier application the same type of information as required in Box No. VI;*

*(vii) if, in Box No. VI, **the earlier application is an ARIPO application**: in such case, write "Continuation of Box No. VI", specify the number of the item corresponding to that earlier application and indicate at least one country party to the Paris Convention for the Protection of Industrial Property or one Member of the World Trade Organization for which that earlier application was filed.*

*2. If, with regard to the **precautionary designation statement** contained in Box No. V, the applicant wishes to exclude any State(s) from the scope of that statement: in such case, write "Designation(s) excluded from precautionary designation statement" and indicate the name or two-letter code of each State so excluded.*

*3. If the applicant claims, in respect of any designated Office, the benefits of provisions of the national law concerning **non-prejudicial disclosures or exceptions to lack of novelty**: in such case, write "Statement concerning non-prejudicial disclosures or exceptions to lack of novelty" and furnish that statement below.*

NOTES TO THE REQUEST FORM (PCT/RO/101)

These Notes are intended to facilitate the filling in of the request form. For more detailed information, see the *PCT Applicant's Guide,* a publication of WIPO. The Notes are based on the requirements of the Patent Cooperation Treaty (PCT), the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the request form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with black ink (Rule 11.9(a) and (b)).

WHERE TO FILE THE INTERNATIONAL APPLICATION

The international application (request, description, claims, abstract and drawings, if any) must be filed with a competent receiving Office (Article 11(1)(i))—that is, subject to any applicable prescriptions concerning national security, at the choice of the applicant, either:

(i) the receiving Office of, or acting for, a PCT Contracting State of which the applicant or, if there are two or more applicants, at least one of them, is a resident or national (Rule 19.1(a)(i) or (ii)), or

(ii) the International Bureau of WIPO in Geneva, Switzerland, if the applicant or, if there are two or more applicants, at least one of the applicants is a resident or national of any PCT Contracting State (Rule 19.1(a)(iii)).

APPLICANT'S OR AGENT'S FILE REFERENCE

A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Rule 11.6(f) and Section 109).

BOX No. I

Title of Invention (Rules 4.3 and 5.1(a)): The title must be short (preferably two to seven words when in English or translated into English) and precise. It must be identical with the title heading the description.

BOXES Nos. II AND III

General: At least one of the applicants named must be a resident or national of a PCT Contracting State for which the receiving Office acts (Articles 9 and 11(1)(i) and Rules 18 and 19). If the international application is filed with the International Bureau under Rule 19.1(a)(iii), at least one of the applicants must be a resident or national of any PCT Contracting State.

If the United States of America is designated, all of the inventors must be named as applicants (as well as inventors) for the purposes of that designation (see "Different Applicants for Different Designated States", below).

Indication Whether a Person is Applicant and/or Inventor (Rules 4.5(a) and 4.6(a) and (b)):

Check-box "This person is also inventor" (Box No. II): Mark this check-box if the applicant named is also the inventor or one of the inventors; do not mark this check-box if the applicant is a legal entity.

Check-box "applicant and inventor" (Box No. III): Mark this check-box if the person named is both applicant and inventor; do not mark this check-box if the person is a legal entity.

Check-box "applicant only" (Box No. III): Mark this check-box if the person named is a legal entity or if the person named is not also inventor.

Check-box "inventor only" (Box No. III): Mark this check-box if the person named is inventor but not also applicant; do not mark this check-box if the person is a legal entity.

In Box No. III, one of the three check-boxes must always be marked for each person named.

A person must not be named more than once in Boxes Nos. II and III, even where that person is both applicant and inventor.

Names and Addresses (Rule 4.4): The family name (preferably in capital letters) must be indicated before the given name(s). Titles and academic degrees must be omitted. Names of legal entities must be indicated by their full official designations.

The address must be indicated in such a way that it allows prompt postal delivery; it must consist of all the relevant administrative units (up to and including the indication of the house number, if any), the postal code (if any), and the name of the country.

Only one address may be indicated per person. For the indication of a special "address for correspondence", see the notes to Box No. IV.

Telephone, Facsimile and/or Teleprinter Numbers should be indicated for the person named in Box No. II in order to allow rapid communication with the applicant. Any such number should include the applicable country and area codes.

Nationality (Rules 4.5(a) and (b) and 18.1): For each applicant, the nationality must be indicated by the name of the State (that is, country) of which the person is a national. A legal entity constituted according to the national law of a State is considered a national of that State. The indication of the nationality is not required where a person is inventor only.

Residence (Rules 4.5(a) and (c) and 18.1): Each applicant's State (that is, country) of residence must be indicated. If the State of residence is not indicated, it will be assumed to be the same as the State indicated in the address. Possession of a real and effective industrial or commercial establishment in a State is considered residence in that State. The indication of the residence is not required where a person is inventor only.

Names of States (Section 115): For the indication of names of States, the two-letter codes appearing in WIPO Standard ST.3 and in the *PCT Applicant's Guide*, Volume I/B, Annex K, may be used.

Different Applicants for Different Designated States (Rules 4.5(d), 18.3 and 19.2): It is possible to indicate different

applicants for the purposes of different designated States. At least one of all the applicants named must be a national or resident of a PCT Contracting State for which the receiving Office acts, irrespective of the designated State(s) for the purposes of which that applicant is named. *Where the United States of America is one of the designated States, all of the inventors must be named as applicants for the United States of America and the check-box "This person is also inventor" (in Box No. II) or "applicant and inventor" (in Box. No. III) must be marked.*

For the indication of the designated States for which a person is applicant, mark the applicable check-box (only one for each person). The check-box "the States indicated in the Supplemental Box" must be marked where none of the other three check-boxes fits the circumstances; in such a case, the name of the person must be repeated in the Supplemental Box with an indication of the States for which that person is applicant (see item 1(ii) in that Box).

Naming of Inventor (Rule 4.1(a)(v) and (c)(i)): The inventor's name and address must be indicated where the national law of at least one of the designated States requires that the name of the inventor be furnished at the time of filing; for details, see the *PCT Applicant's Guide*, Volume I/A, Annexes B1 and B2. It is strongly recommended to always name the inventor.

Different Inventors for Different Designated States (Rule 4.6(c)): Different persons may be indicated as inventors for different designated States (for example, where, in this respect, the requirements of the national laws of the designated States are not the same); in such a case, the Supplemental Box must be used (see item 1(iii) in that Box). In the absence of any indication, it will be assumed that the inventor(s) named is (are) inventor(s) for all designated States.

BOX No. IV

Who Can Act as Agent (Article 49 and Rule 83.1*bis*): For each of the receiving Offices, information as to who can act as agent is given in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Agent or Common Representative (Rules 4.7, 4.8, 90.1 and 90.2 and Section 108): Mark the applicable check-box in order to indicate whether the person named is (or has been) appointed as "agent" or "common representative" (the "common representative" must be one of the applicants). For the manner in which name(s) and address(es) (including names of States) must be indicated, see the notes to Boxes Nos. II and III. Where several agents are listed, the agent to whom correspondence should be addressed is to be listed first. If there are two or more applicants but no common agent is appointed to represent all of them, one of the applicants who is a national or resident of a PCT Contracting State may be appointed by the other applicants as their common representative. If this is not done, the applicant first named in the request who is entitled to file an international application with the receiving Office concerned will automatically be considered to be the common representative.

Manner of Appointment of Agent or Common Representative (Rules 90.4 and 90.5 and Section 106): Any such appointment may be made by designating the agent(s) or the common representative in the request or in one or more separate powers of attorney. Each applicant must sign either the request or a separate power of attorney. Where the international application is filed with reference to a general power of attorney, a copy thereof must be attached to the request. Any applicant who did not sign the general power of attorney must sign either the request or a separate power of attorney.

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. IV will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II or III, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. IV instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. IV must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. IV has been marked).

BOX No. V

Designation of States (Rules 4.1(a)(iv) and 4.9(a)): The Contracting States in which protection is desired must be designated under Rule 4.9(a) in the request by marking the applicable check-boxes. At least one check-box effecting a specific designation must be marked. *While the general rule is that designations cannot be added after the filing of the international application, it is possible and usual to make a precautionary designation under Rule 4.9(b) covering all other designations which would, as at the international filing date, be permitted under the PCT—see below: Precautionary Designation of States Subject to Confirmation.*

Where regional (ARIPO, Eurasian, European and/or OAPI) patents are desired, only one PCT designation fee must be paid for each regional designation made, independently of how many States are covered by each such designation.

AP ARIPO Patent: Note that **SZ Swaziland** can only be designated for the purposes of an ARIPO patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the Harare Protocol can be designated either for a national or an ARIPO patent, or both a national and an ARIPO patent.

EA Eurasian Patent: All PCT Contracting States which are also party to the Eurasian Patent Convention can be designated either for a national or a Eurasian patent, or both a national and a Eurasian patent. Note, however, that it is not possible to designate only some of these States for a Eurasian patent and that any designation of one or more States for a Eurasian patent will be treated as a designation of all the States which are party to both the Convention and the PCT for a Eurasian patent.

EP European Patent: Note that **BE Belgium, CY Cyprus, FR France, GR Greece, IE Ireland, IT Italy**, **MC Monaco and NL Netherlands** can only be designated for the purposes of a European patent and not for the purposes of a national patent. All other PCT Contracting States which are also party to the European Patent Convention can be designated either for a national or a European patent, or both a national and a European patent.

If an ARIPO or a European patent is desired for only some of the Contracting States of the Harare Protocol or the European Patent Convention, respectively, the names of those States for which a regional patent is not desired may be deleted by striking them out. However, it is recommended that the applicant always designate for the purposes of a regional patent all PCT Contracting States which are party to the Protocol or the Convention, respectively. A decision to proceed with only some of those designations need not be made until entry into the regional phase, at which stage the corresponding regional designation fees must be paid.

Where any of the States party to the Harare Protocol, the Eurasian Patent Convention or the European Patent Convention and the PCT is designated twice, namely *both* for the purposes of an ARIPO, a Eurasian or a European patent *and* for the purposes of national protection, the applicant must pay one designation fee in respect of the regional patent and as many designation fees as there are national patents or other titles of protection sought (Rule 15.1(ii) and Section 210).

Extension of EP European Patent to Certain States: If it is intended, at the time of entry into the European regional phase, to request the extension of the subsequently granted European patent to AL Albania, LT Lithuania, LV Latvia, MK The former Yugoslav Republic of Macedonia, RO Romania and/or SI Slovenia (and/or to any other PCT Contracting State for which, on the date of filing of the international application, an extension agreement with the European Patent Organisation is in force), Box No. V must contain ***both*** a designation of the State concerned for the purposes of a national patent and ***also*** a designation, for the purposes of obtaining a European patent, of at least one PCT Contracting State party to the European Patent Convention.

OA OAPI Patent: The designation of States members of OAPI and party to the PCT can only be made for the purposes of an OAPI patent (no national protection is available); furthermore, it is not possible to designate only some of them.

Choice of Certain Kinds of Protection or Treatment (Rules 4.12 to 4.14 and Section 202): Where, in any country where it is possible, a national title other than a patent is desired, write after the name of that country on the dotted line the name of the title; that is, "petty patent" (available in AU Australia and YU Yugoslavia), "provisional patent" (available in AM Armenia, KG Kyrgyzstan, KZ Kazakhstan, TM Turkmenistan, UZ Uzbekistan), "utility model" (available in AL Albania, AM Armenia, AT Austria, BG Bulgaria, BR Brazil, BY Belarus, BZ Belize, CN China, CR Costa Rica, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, ES Spain, FI Finland, GE Georgia, GH Ghana, HU Hungary, JP Japan, KE Kenya, KG Kyrgyzstan, KR Republic of Korea, KZ Kazakhstan, LS Lesotho, MD Republic of Moldova, MX Mexico, PL Poland, PT Portugal, RU Russian Federation, SK Slovakia, SL Sierra Leone, TJ Tajikistan, TR Turkey, UA Ukraine, UZ Uzbekistan, VN Viet Nam, OA OAPI), "consensual patent" (available in HR Croatia), "utility certificate" (available in TT Trinidad and Tobago, UG Uganda) or "inventor's certificate" (available in CU Cuba and KP Democratic People's Republic of Korea). Where, in AT Austria, CZ Czech Republic, DE Germany, DK Denmark, EE Estonia, FI Finland or SK Slovakia (the only countries in which this possibility exists), in addition to a patent, a utility model is also desired, write after the name of that country "and utility model".

Where, in respect of any country where it is possible, it is desired that the international application be treated as an application for a certain title "of addition" or as an application for a "continuation" or a "continuation-in-part", write after the name of that country the appropriate words; that is, "patent of addition" (available in AT Austria, AU Australia, BA Bosnia and Herzegovina, CU Cuba, DE Germany, ES Spain, IL Israel, IN India, MK The former Yugoslav Republic of Macedonia, MW Malawi, NZ New Zealand, SI Slovenia, TR Turkey, YU Yugoslavia, ZA South Africa, ZW Zimbabwe), "certificate of addition" (available in BR Brazil, DZ Algeria, MA Morocco, MG Madagascar, OA OAPI), "inventor's certificate of addition" (available in CU Cuba), "continuation" or "continuation-in-part" (both available in US United States of America). If any of these indications is used, also indicate in the "Supplemental Box" the State for which such treatment is desired, the number of the parent title or parent application, and the date of grant of the parent title or the date of filing of the parent application, as the case may be (see item 1(v) in that Box).

If, in Box No. V, the check-boxes for making designations are marked with consecutive Arabic numerals, those indications will be taken to express the applicant's *choice of the order of the designations*; if another form of marking is used, the order will be taken as that in which the marked check-boxes appear on the form. This order will only have any significance if the amount received for the designation fees is insufficient to cover all the designations and remains insufficient after the applicant has been invited to pay the balance due; in that case, the amount received will be applied in payment of the fees for the designations following the said order (Rule 16*bis*.1(c) and Section 321).

The check-box located at the bottom of the right-hand column is reserved for designating, for the purposes of a national patent, States which have become party to the PCT after the date appearing at the bottom of the second sheet of the request form; in such a case, the name of the State, preferably preceded by the two-letter code, must be indicated on the dotted line and the corresponding check-box must be marked (together with an indication, where applicable, whether a special kind of protection or treatment is desired).

Precautionary Designation of States Subject to Confirmation (Rules 4.9(b) and (c) and 15.5): For the applicant's safeguard, the lower part of Box No. V contains a statement ("Precautionary Designation Statement") indicating the applicant's wish to make, as a matter of precaution, in addition to the specific designations made by marking the check-boxes in the upper part of Box No. V (at least one such designation must be made), a precautionary designation of all other PCT Contracting States which are not specifically designated.

If the applicant does not wish to avail himself of this safeguard and does not want to make any such precautionary designations, the statement must be crossed out.

If the applicant wishes to expressly exclude a certain State from such precautionary designation so that the international application does not have any effect in that State, the name or two-letter code of that State should be indicated in the Supplemental Box. In no other case is it necessary to make use of this possibility.

If, after filing the international application, the applicant notices that there are any omissions and/or mistakes among the specific designations made, it will be possible to rectify the situation by confirming the precautionary designations concerned. The confirmation of any precautionary designation is possible before the expiration of 15 months from the (earliest) priority date indicated in Box No. VI or, where no priority is claimed, the international filing date. To effect such confirmation, the applicant must file with the receiving Office a written notice specifying the name of each State the designation of which is confirmed (with, where applicable, an indication of the kind of treatment or protection desired) and pay to the receiving Office, for each such designation, a designation fee (even where six designation fees have already been paid) together with a confirmation fee corresponding to 50% of the designation fee.

The receiving Office will not send to the applicant any reminder or invitation to confirm precautionary designations.

If no precautionary designation is to be confirmed, no action is required by the applicant, and the precautionary designations will then be automatically regarded as withdrawn by the applicant at the expiration of 15 months from the priority date.

BOX No. VI

Priority Claim(s) (Rule 4.10): If the priority of an earlier application is claimed, the declaration containing the priority claim must be made in the request.

The request must indicate the *date* on which the earlier application from which priority is claimed was filed and the

number it was assigned. Note that that date must fall within the period of 12 months preceding the international filing date.

Where the earlier application is a national application, the *country* party to the Paris Convention for the Protection of Industrial Property, or the *Member* of the World Trade Organization that is not a party to that Convention, in which that earlier application was filed must be indicated. Where the earlier application is a regional application, the *regional Office* concerned must be indicated. Where the earlier application is an international application, the *receiving Office* with which that earlier application was filed must be indicated.

Where the earlier application is a regional application (other than an ARIPO application), or an international application, the priority claim may also, if the applicant so wishes, indicate one or more countries party to the Paris Convention for which that earlier application was filed (Rule 4.10(b)(i)); such an indication is not, however, mandatory. Such indication(s), if made, should be made in the Supplemental Box. Where the earlier application is an ARIPO application, at least one country party to the Paris Convention or one Member of the World Trade Organization for which that earlier application was filed must be indicated in the Supplemental Box (Rule 4.10(b)(ii)).

As to the possibility of correcting or adding a priority claim, see the *PCT Applicant's Guide*, Volume I/A, General Part.

Certified Copy of Earlier Application (Rule 17.1): A certified copy of each earlier application the priority of which is claimed (priority document) must be submitted by the applicant, irrespective of whether that earlier application is a national, regional or international application. The priority document must be submitted to the receiving Office or to the International Bureau before the expiration of 16 months from the (earliest) priority date or, where an early start of the national phase is requested, not later than at the time such request is made. Any priority document received by the International Bureau after the expiration of the 16-month time limit but before the date of international publication shall be considered to have been received on the last day of that time limit (Rule 17.1(a)).

Where the priority document is issued by the receiving Office, the applicant may, instead of submitting the priority document, request the receiving Office (not later than 16 months after the priority date) to prepare and transmit the priority document to the International Bureau. Such request may be made by marking the applicable check-box and by identifying the document. *Attention:* where such a request is made, the applicant must pay to the receiving Office the applicable *fee for priority document*, otherwise, the request will be considered not to have been made (see Rule 17.1(b)).

Dates (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for the number of the day, the number of the month and the last two digits of the year, in that order and separated by periods, slants or hyphens, for example, "24 March 2000 (24.03.00)", "24 March 2000 (24/03/00)" or "24 March 2000 (24-03-00)".

BOX No. VII

Choice of International Searching Authority (ISA) (Rules 4.1(b)(vi) and 4.14*bis*): If two or more International Searching Authorities are competent for carrying out the international search in relation to the international application—depending on the language in which that application is filed and the receiving Office with which it is filed—the name of the competent Authority chosen by the applicant must be indicated in the space provided, either by its full name or two-letter code.

Request to Use Results of Earlier Search; Reference to that Search (Rules 4.11 and 41.1): The earlier search, if any, must be identified in such a manner that the ISA can retrieve the results easily. Where those results can be used, the ISA may refund the international search fee or a portion thereof.

BOX No. VIII

The number of sheets of the various parts of the international application must be given in the check list in Arabic numerals. Note that, where the application contains disclosure of one or more nucleotide and/or amino acid sequences, such sequences must be presented as a separate part of the description ("sequence listing part of description") in accordance with the standard provided in Annex C of the Administrative Instructions.

Where the international application is accompanied by certain items, the applicable check-boxes must be marked and any applicable indication must be made at the end of the relevant line; detailed explanations are provided below only in respect of those items which so require.

Check-box No. 3: Mark this check-box where a copy of a general power of attorney is filed with the international application; where the general power of attorney has been deposited with the receiving Office, and that Office has accorded to it a reference number, that number may be indicated.

Check-box No. 4: Mark this check-box where a statement explaining the lack of signature of an inventor/applicant for the purposes of the United States of America is furnished together with the international application (see also Notes to Box No. IX).

Check-box No. 6: Mark this check-box where a translation of the international application for the purposes of international search (Rule 12.3) is filed together with the international application and indicate the language of that translation.

Check-box No. 7: Mark this check-box where a filled-in Form PCT/RO/134 or any separate sheet containing indications concerning deposited microorganism and/or other biological material is filed with the international application. For certain States (see the *PCT Applicant's Guide*, Volume I/B, Annex L), Form PCT/RO/134 or any other sheet containing the said indications must be included as one of the sheets of the description. If the relevant indications (which may be contained on a separate sheet or on Form PCT/RO/134) form part of the international application, do not mark this check-box (for further information, see Rule 13*bis* and Section 209).

Check-box No. 8: Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the ISA, the applicant may furnish the listing in computer readable form to the receiving Office with the international application. If this is the case, check-box No. 8 must be marked.

Language of Filing of the International Application (Rules 12.1(a) and 20.4(c) and (d))**:** With regard to the language in which the international application is filed, for the purposes of according an international filing date, it is, subject to the following sentence, sufficient that the description and the claims are in the language, or one of the languages, accepted by the receiving Office for the filing of international applications; that language should be indicated in that check-box (as regards the language of the abstract and any text matter in the drawings, see Rules 26.3*ter*(a) and (b); as regards the language of the request, see Rules 12.3(c) and 26.3*ter*(c) and (d)). Note that where the international application is filed with the United States Patent and Trademark Office as receiving Office, for the purposes of according an international filing date, all elements of the international application (request, description, claims, abstract, text matter of drawings) must be in English except that the free text in any sequence listing part of the description, complying with the standard set out in Annex C of the Administrative Instructions, may be in a language other than English.

BOX No. IX

Signature (Rules 4.1(d), 4.15 and 90): The signature must be that of the applicant (if there are several applicants, all must sign); however, the signature may be that of the agent where a separate power of attorney appointing the agent, or a copy of a general power of attorney already in the possession of the receiving Office is furnished. If the power is not filed with the request, the receiving Office will invite the applicant to furnish it subsequently.

If the United States of America is designated and an inventor/applicant for that State refused to sign the request or could not be found or reached after diligent effort, a statement explaining the lack of signature may be furnished. It should be noted that this applies only where there are two or more applicants and the international application has been signed by at least one other applicant. The statement must satisfy the receiving Office. If such a statement is furnished with the international application, check-box No. 4 in Box No. VIII should be marked.

SUPPLEMENTAL BOX

The cases in which the Supplemental Box may be used and the manner of making indications in it are explained at the top of that Box.

Statement Concerning Non-Prejudicial Disclosures or Exceptions to Lack of Novelty: Such a statement, unless contained in the description, may be given in this Box. It should comply with the national law applicable by the designated Office to which the statement is addressed.

GENERAL REMARKS

Language of Correspondence (Rule 92.2 and Section 104): Any letter from the applicant to the receiving Office must be in the language of filing of the international application provided that, where the international application is to be published in the language of a translation required under Rule 12.3, such letter should be in the language of that translation; however, the receiving Office may authorize the use of another language.

Any letter from the applicant to the International Bureau must be in the same language as the international application if that language is English or French; otherwise, it must be in English or French, at the choice of the applicant.

Any letter from the applicant to the ISA must be in the same language as the international application, provided that, where a translation of the international application for the purposes of international search has been transmitted under Rule 23.1(b), such letter is in the language of that translation. However, the ISA may authorize the use of another language.

Arrangement of Elements and Numbering of Sheets of the International Application (Rule 11.7 and Section 207): The elements of the international application must be placed in the following order: the request; the description (excluding the sequence listing part, if any); the claim(s); the abstract; the drawings (if any); the sequence listing part of the description (if any).

All sheets of the description (excluding the sequence listing part), claims and abstract must be numbered in consecutive Arabic numerals, which must be placed at the top or bottom of the sheet, in the middle, but not in the margin which must remain blank. The number of each sheet of the drawings must consist of two Arabic numerals separated by an oblique stroke, the first being the sheet number and the second being the total number of sheets of drawings (for example, 1/3, 2/3, 3/3). For numbering of the sheets of the sequence listing part of the description, see Section 207.

Indication of the Applicant's or Agent's File Reference on the sheets of the description (excluding the sequence listing part, if any), claim(s), abstract, drawings and sequence listing part of the description (Rule 11.6(f)): The file reference indicated on the request may also be indicated in the left-hand corner of the top margin, within 1.5 cm from the top of any sheet of the international application.

This sheet is not part of and does not count as a sheet of the international application.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/RO/101)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete the sheet by entering the appropriate amounts in the boxes provided and submit the fee calculation sheet at the time of filing the international application. This will help the receiving Office to verify the calculations and to identify any error in them.

Information about the applicable fees payable can be obtained from the receiving Office. The amounts of the international and search fees may change due to currency fluctuations. Applicants are advised to check what are the latest applicable amounts. All fees, except in some cases the designation fee, must be paid within one month from the date of receipt of the international application. See below for further details concerning the possibility of later payment of the designation fee.

CALCULATION OF PRESCRIBED FEES

Box T: Transmittal Fee for the benefit of the receiving Office (Rule 14.1): The amount of the transmittal fee, if any, is fixed by the receiving Office. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box S: Search Fee for the benefit of the International Searching Authority (ISA) (Rule 16.1): The amount of the search fee is fixed by the ISA. It must be paid within one month from the date of receipt of the international application by the receiving Office. Information about this fee is contained in the *PCT Applicant's Guide*, Volume I/B, Annex D.

Where two or more ISAs are competent, the applicant must indicate his choice in the space provided for this purpose and pay the amount of the international search fee fixed by the ISA chosen. Information on the competent ISA and whether the applicant has a choice between two or more ISAs is contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Box I: International Fee for the benefit of the International Bureau (Rule 15): The international fee consists of a basic fee and as many designation fees as there are specific designations under Rule 4.9(a) in Box No. V of the request. The amounts of the basic fee and of the designation fee are as set out in Swiss francs in the Schedule of Fees and the applicable amounts of those fees in other currencies are as published in the *PCT Gazette* (Rule 15.2). Information about those fees is also contained in the *PCT Applicant's Guide*, Volume I/B, Annex C.

Reduction of the International Fee Where PCT-EASY Software Is Used: A fee reduction of 200 Swiss francs (or the equivalent in the currency in which the international fee is paid to the receiving Office) is available in certain cases where the PCT-EASY software is used to prepare the request, provided that the necessary conditions are met. For further details, see the *PCT Applicant's Guide*, Volume I/A, General Part, and information published in the *PCT Gazette* and the *PCT Newsletter*. Since applicants using the PCT-EASY software will file the Request Form and Fee Calculation Sheet in the form of a printout prepared using that software, no provision is made for this fee reduction in the Fee Calculation Sheet annexed to Form PCT/RO/101.

Reduction of the International Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the international fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the international fee (basic fee and designation fees) is automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Boxes Nos. II and III of the request.

The fee reduction is available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the International Fee (Basic Fee and Designation Fees) in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the international fee, the total to be entered at box I is 25% of the sum of the amounts entered at boxes B and D (see below).

Box B: Basic Fee. The amount of the basic fee depends on the total number of sheets of the international application, in Box No. VIII of the request. The basic fee must be paid within one month from the date of receipt of the international application by the receiving Office.

Box D: Designation Fees. Subject to what is said below, the number of designation fees due corresponds to the number of check-boxes marked in Box No. V of the request.

The number of designation fees which are due is the same as the number of national patents and regional patents in respect of which specific designations under Rule 4.9(a) are made. Only one designation fee is due for the designation AP, the designation EA, the designation EP or the designation OA,

irrespective of the number of States for which an ARIPO patent, a Eurasian patent, a European patent or an OAPI patent, respectively, is sought.

Where any States are designated twice (once for the purposes of an ARIPO patent, a Eurasian patent or a European patent and once for the purposes of national protection), the applicant must pay one designation fee in respect of the ARIPO patent, the Eurasian patent or the European patent and a further designation fee in respect of each national patent or other title of protection sought (Rule 15.1(ii) and Section 210).

Any designation, in excess of six designations for which the fee is due, is free of charge. Therefore, the maximum amount to be indicated in box D is six times the amount of the designation fee. If, for example, 15 national patents and four regional patents (an ARIPO patent, a Eurasian patent, a European patent and an OAPI patent) are sought (totalling 19 designations), the figure to be indicated in box D is six times the amount of the designation fee.

The designation fees must be paid within one month from the date of receipt of the international application by the receiving Office or one year from the priority date, whichever time limit expires later.

Box P: Fee for Priority Document (Rule 17.1(b)): Where the applicant has requested, by marking the applicable check-box in Box No. VI of the request, that the receiving Office prepare and transmit to the International Bureau a certified copy of the earlier application the priority of which is claimed, the amount of the fee prescribed by the receiving Office for such service may be entered (for information, see the *PCT Applicant's Guide*, Volume I/B, Annex C).

If that fee is not paid at the latest before the expiration of 16 months from the priority date, the receiving Office may consider the request under Rule 17.1(b) as not having been made.

Total Box: The total of the amounts entered in boxes T, S, I and P should be entered in this box. If the applicant so wishes, the currency in which the fees are paid may be indicated next to or in the total box.

Later Payment of Designation Fees: Where the time limit of one year from the priority date expires later than one month from the date of receipt of the international application by the receiving Office, and the applicant wishes to delay the payment of the designation fees, it is recommended that the corresponding check-box be marked.

MODE OF PAYMENT

In order to help the receiving Office identify the mode of payment of the prescribed fees, it is recommended that the applicable check-box(es) be marked.

AUTHORIZATION TO CHARGE DEPOSIT ACCOUNT

The receiving Office will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

Déclaration concernant les désignations de précaution : outre les désignations faites ci-dessus, le déposant fait aussi conformément à la règle 4.9.b) toutes les désignations qui seraient autorisées en vertu du PCT, à l'exception de toute désignation indiquée dans le cadre supplémentaire comme étant exclue de la portée de cette déclaration. Le déposant déclare que ces désignations additionnelles sont faites sous réserve de confirmation et que toute désignation qui n'est pas confirmée avant l'expiration d'un délai de 15 mois à compter de la date de priorité doit être considérée comme retirée par le déposant à l'expiration de ce délai. *(La confirmation (y compris les taxes) doit parvenir à l'office récepteur dans le délai de 15 mois.)*

Cadre supplémentaire *Si le cadre supplémentaire n'est pas utilisé, cette feuille ne doit pas être incluse dans la requête.*

*1. Si **l'un des cadres** du présent formulaire **ne suffit pas** à contenir tous les renseignements : dans ce cas, indiquer "Suite du cadre n°..." [préciser le numéro du cadre] et fournir les renseignements conformément aux instructions données dans le cadre dans lequel la place était insuffisante; en particulier :*

*i) **si plus de deux personnes sont en cause comme déposants ou inventeurs** et que l'on ne dispose d'aucune "feuille annexe" : dans ce cas, indiquer "Suite du cadre n° III" et fournir pour chaque personne supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre n° III. Le pays de l'adresse indiquée dans ce cadre est l'État où le déposant a son domicile si aucun domicile n'est indiqué ci-dessous;*

*ii) si, dans le cadre n° II ou dans l'un des sous-cadres du cadre n° III, la case **"les États indiqués dans le cadre supplémentaire"** est cochée : dans ce cas, indiquer "Suite du cadre n° II" ou "Suite du cadre n° III" ou "Suite des cadres n° II et III" (selon le cas), ainsi que le nom du ou des déposants en cause et, à côté de chaque nom, le ou les États pour lesquels la personne mentionnée a la qualité de déposant (ou, le cas échéant, la mention "brevet ARIPO", "brevet eurasien", "brevet européen" ou "brevet OAPI");*

*iii) si, dans le cadre n° II ou dans l'un des sous-cadres du cadre n° III, **l'inventeur ou l'inventeur/déposant n'a pas la qualité d'inventeur pour tous les États désignés ou pour les États-Unis d'Amérique** : dans ce cas, indiquer "Suite du cadre n° II" ou "Suite du cadre n° III" ou "Suite des cadres n° II et III" (selon le cas), ainsi que le nom du ou des inventeurs et, à côté de chaque nom, le ou les États pour lesquels la personne mentionnée a la qualité d'inventeur (ou, le cas échéant, la mention "brevet ARIPO", "brevet eurasien", "brevet européen" ou "brevet OAPI");*

*iv) si, en plus du ou des mandataires indiqués dans le cadre n° IV, il y a **d'autres mandataires** : dans ce cas, indiquer "Suite du cadre n° IV" et fournir pour chaque mandataire supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre n° IV;*

*v) si, dans le cadre n° V, le nom d'un État (ou de l'OAPI) est assorti de la mention "**brevet d'addition**" ou "**certificat d'addition**" ou si, dans le cadre n° V le nom des États-Unis d'Amérique est assorti de la mention "**continuation**" ou "**continuation-in-part**" : dans ce cas, indiquer "Suite du cadre n° V" ainsi que le nom de chaque État en cause (ou de l'OAPI) en précisant après chaque nom le numéro du titre principal ou de la demande principale ainsi que la date de délivrance du titre principal ou la date de dépôt de la demande principale;*

*vi) si, dans le cadre n° VI, **la priorité de plus de trois demandes antérieures est revendiquée** : dans ce cas, indiquer "Suite du cadre n° VI" et fournir pour chaque demande antérieure supplémentaire le même type de renseignements que ceux qui sont demandés dans le cadre n° VI;*

*vii) si, dans le cadre n° VI, **la demande antérieure est une demande ARIPO** : dans ce cas, indiquer "Suite du cadre n° VI", préciser le point correspondant à cette demande antérieure et indiquer au moins un pays partie à la Convention de Paris pour la protection de la propriété industrielle ou un membre de l'Organisation mondiale du commerce pour lequel cette demande antérieure a été déposée.*

*2. Si, en ce qui concerne la **déclaration concernant les désignations de précaution** contenue dans le cadre n° V, le déposant souhaite exclure un ou plusieurs États de la portée de cette déclaration : dans ce cas, indiquer "Désignations exclues de la portée de la déclaration concernant les désignations de précaution" et fournir le nom ou le code à deux lettres de chaque État concerné.*

*3. Si le déposant revendique, à l'égard d'un office désigné, le bénéfice de dispositions de la législation nationale concernant des **divulgations non opposables ou des exceptions au défaut de nouveauté** : dans ce cas, indiquer "Déclaration concernant des divulgations non opposables ou des exceptions au défaut de nouveauté" et rédiger au dessous cette déclaration.*

NOTES RELATIVES AU FORMULAIRE DE REQUÊTE (PCT/RO/101)

Ces notes sont destinées à faciliter l'utilisation du formulaire de requête. On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI. Les notes sont fondées sur les exigences du Traité de coopération en matière de brevets (PCT), du règlement d'exécution et des Instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de requête et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire; les cases appropriées peuvent être cochées à la main, à l'encre noire (règle 11.9.a) et b)).

OÙ DÉPOSER LA DEMANDE INTERNATIONALE

Il faut que la demande internationale (requête, description, revendications, abrégé et, le cas échéant, dessins) soit déposée auprès d'un office récepteur compétent (article 11.1)i)), c'est-à-dire sous réserve des dispositions applicables en matière de défense nationale et au choix du déposant,

i) l'office récepteur d'un État contractant du PCT ou l'office agissant pour un tel État, dans lequel le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié ou dont il a la nationalité (règle 19.1.a)i) ou ii)), ou

ii) le Bureau international de l'OMPI à Genève (Suisse) si le déposant ou, s'il y a plusieurs déposants, l'un d'eux au moins, est domicilié dans l'un quelconque des États contractants du PCT ou a la nationalité d'un tel État (règle 19.1.a.iii)).

RÉFÉRENCE DU DOSSIER DU DÉPOSANT OU DU MANDATAIRE

Il est possible d'indiquer, à titre facultatif, une telle **référence de dossier**. Celle-ci ne devrait pas dépasser 12 caractères. L'office récepteur ou toute autre administration internationale peut ne pas tenir compte des caractères en sus du douzième (règle 11.6.f); instruction 109).

CADRE N° I

Titre de l'invention (règles 4.3 et 5.1.a)) : le titre doit être bref (de préférence de deux à sept mots lorsqu'il est établi ou traduit en anglais) et précis. Il doit être identique à celui qui figure en tête de la description.

CADRES N°s II ET III

Remarque générale : l'un au moins des déposants mentionnés doit être domicilié dans un État contractant du PCT pour lequel l'office récepteur agit, ou avoir la nationalité d'un tel État (articles 9 et 11.1)i) et règles 18 et 19). Si la demande internationale est déposée auprès du Bureau international en vertu de la règle 19.1.a)iii), l'un au moins des déposants doit être domicilié dans un État contractant du PCT ou avoir la nationalité d'un tel État.

Si les États-Unis d'Amérique sont désignés, tous les inventeurs doivent être mentionnés comme déposants (et aussi comme inventeurs) pour cette désignation (voir, ci-après, "Déposants différents pour différents États désignés").

Indication visant à établir si une personne est déposant ou inventeur, ou les deux à la fois (règles 4.5.a) et 4.6.a) et b)) :

Case "Cette personne est aussi inventeur" (cadre n° II) : cocher cette case si la personne mentionnée est aussi l'inventeur ou l'un des inventeurs; ne pas la cocher si le déposant est une personne morale.

Case "déposant et inventeur" (cadre n° III) : cocher cette case si la personne mentionnée a les deux qualités, celle de déposant et celle d'inventeur; ne pas la cocher si cette personne est une personne morale.

Case "déposant seulement" (cadre n° III) : cocher cette case si la personne mentionnée est une personne morale ou si elle n'a pas aussi la qualité d'inventeur.

Case "inventeur seulement" (cadre n° III) : cocher cette case si la personne mentionnée a la qualité d'inventeur mais pas celle de déposant; ne pas la cocher si cette personne est une personne morale.

Dans le cadre n° III, il faut que l'une des trois cases soit cochée pour chaque personne mentionnée.

Une personne ne doit être mentionnée qu'une seule fois dans les cadres n° II et III, même si elle est à la fois déposant et inventeur.

Noms et adresses (règle 4.4) : le nom de famille (de préférence en lettres majuscules) doit précéder le ou les prénoms. Les titres et les diplômes universitaires ne doivent pas être mentionnés. Les personnes morales doivent être nommées par leurs désignations officielles complètes.

L'adresse doit être indiquée de manière à permettre une distribution postale rapide; elle doit comprendre toutes les unités administratives pertinentes (jusques et y compris le numéro de la maison, s'il y en a un), le code postal, s'il y en a un, et le nom du pays.

Il ne peut être indiqué qu'une seule adresse par personne. En ce qui concerne l'indication d'une adresse spéciale pour la correspondance, voir les notes relatives au cadre n° IV.

Pour permettre une communication rapide avec le déposant, il y a lieu d'indiquer les **numéros de téléphone, de télécopieur ou de téléimprimeur** de la personne mentionnée dans le cadre n° II. Tout numéro de ce type doit comporter les indicatifs de pays et de zone en vigueur.

Nationalité (règles 4.5.a) et b) et 18.1) : la nationalité de chaque déposant doit être indiquée au moyen du nom de l'État dont l'intéressé est ressortissant. Une personne morale constituée conformément à la législation d'un État contractant est considérée comme ayant la nationalité de cet État. L'indication de la nationalité n'est pas exigée lorsqu'une personne est inventeur seulement.

Domicile (règles 4.5.a) et c) et 18.1) : le domicile de chaque déposant doit être indiqué au moyen du nom de l'État où l'intéressé a son domicile. Si, cependant, le domicile n'est pas indiqué, l'État du domicile sera présumé être le même que celui qui est indiqué dans l'adresse. La possession d'un établissement industriel ou commercial effectif et sérieux dans un État est considérée comme constituant domicile dans cet État. L'indication du domicile n'est pas exigée lorsqu'une personne est inventeur seulement.

Nom des États (instruction 115) : pour indiquer le nom des États, on peut utiliser le code à deux lettres qui figure dans la norme ST.3 de l'OMPI et dans le *Guide du déposant du PCT*, volume I/B, annexe K.

Déposants différents pour différents États désignés (règles 4.5.d), 18.3 et 19.2) : il est possible d'indiquer des déposants différents pour différents États désignés. L'un au moins des déposants indiqués – quels que soient l'État ou les États désignés pour lesquels il est indiqué – doit être ressortissant d'un État contractant du PCT pour lequel l'office récepteur agit ou avoir son domicile dans un tel État. *Lorsque les États-Unis d'Amérique sont l'un des États désignés, tous les inventeurs doivent être indiqués comme déposants pour les États-Unis d'Amérique et la case "Cette personne est aussi inventeur" (dans le cadre nº II) ou "déposant et inventeur" (dans le cadre nº III) doit être cochée.*

Afin d'indiquer les États désignés pour lesquels une personne est déposant, il y a lieu de cocher la case appropriée (une seule case par personne). La case "les États indiqués dans le cadre supplémentaire" doit être cochée lorsque aucune des trois autres cases ne convient; en pareil cas, le nom de la personne doit être repris dans le cadre supplémentaire et assorti de l'indication des États pour lesquels cette personne est déposant (voir le point 1.ii) de ce cadre).

Mention de l'inventeur (règle 4.1.a)v) et c)i)) : le nom et l'adresse de l'inventeur doivent être indiqués lorsque la législation nationale d'un État désigné au moins exige la communication du nom de celui-ci lors du dépôt; pour plus de précisions, voir le *Guide du déposant du PCT,* volume I/A, annexes B1 et B2. Il est vivement recommandé de toujours indiquer le nom de l'inventeur.

Inventeurs différents pour différents États désignés (règle 4.6.c)) : des personnes différentes peuvent être indiquées en tant qu'inventeurs pour différents États désignés (par exemple, lorsque, en la matière, les exigences des législations nationales des États désignés diffèrent); en pareil cas, il y a lieu d'utiliser le cadre supplémentaire (voir le point 1.iii) de ce cadre). En l'absence d'indication, il sera supposé que l'inventeur ou les inventeurs mentionnés ont la qualité d'inventeur pour tous les États désignés.

CADRE Nº IV

Qui peut agir en qualité de mandataire ? (article 49 et règle 83.1*bis*) : pour chacun des office récepteurs, on trouvera, dans le *Guide du déposant du PCT*, volume I/B, annexe C, des informations sur le point de savoir qui peut agir en qualité de mandataire.

Mandataire ou représentant commun (règles 4.7, 4.8, 90.1 et 90.2 et instruction 108) : cocher la case appropriée pour indiquer si la personne mentionnée est (ou a été) désignée comme "mandataire" ou "représentant commun" (le "représentant commun" doit être l'un des déposants). Pour ce qui est de la façon d'indiquer les noms et adresses (y compris le nom des États), il convient de se reporter aux notes relatives aux cadres nºs II et III. Lorsque plusieurs mandataires sont indiqués, il faut mentionner en premier lieu celui à qui la correspondance doit être adressée. S'il y a plusieurs déposants mais aucun mandataire commun désigné pour les représenter tous, l'un des déposants qui est ressortissant d'un État contractant du PCT ou qui a son domicile dans un tel État peut être désigné par les autres comme leur représentant commun. A défaut, le déposant nommé en premier lieu dans la requête qui est autorisé à déposer une demande internationale auprès de l'office récepteur en question sera automatiquement considéré comme le représentant commun.

Mode de désignation d'un mandataire ou d'un représentant commun (règles 90.4 et 90.5 et instruction 106) : la désignation du ou des mandataires ou du représentant commun peut être effectuée dans la requête ou dans un ou plusieurs pouvoirs distincts. Chaque déposant doit signer la requête ou un pouvoir distinct. Si la demande internationale déposée fait état d'un pouvoir général, une copie de celui-ci doit être jointe à la requête. Tout déposant n'ayant pas signé le pouvoir général doit signer soit la requête soit un pouvoir distinct.

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre nº IV sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre nº II ou III – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre nº IV, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas, et seulement dans ce cas, qu'il y a lieu de cocher la dernière case du cadre nº IV (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE Nº V

Désignation d'États (règles 4.1.a)iv) et 4.9.a)) : pour désigner conformément à la règle 4.9.a), dans la requête, les États contractants où la protection est demandée, il faut cocher les cases appropriées. Il faut qu'au moins une case, correspondant à une désignation expresse, soit cochée. *Bien que la règle générale soit qu'aucune désignation ne peut être ajoutée après le dépôt de la demande internationale, il est possible et courant d'effectuer une désignation de précaution conformément à la règle 4.9.b) pour couvrir toutes les autres désignations qui, à la date du dépôt international, seraient autorisées selon le PCT – voir ci-après la rubrique "Désignation d'États à titre de précaution sous réserve de confirmation".*

Lorsque des brevets régionaux (ARIPO, eurasien, européen ou OAPI) sont demandés, une seule taxe de désignation du PCT est due pour chaque désignation régionale effectuée, quel que soit le nombre d'États couverts par celle-ci.

AP brevet ARIPO : il est à noter que **SZ Swaziland** ne peut être désigné que pour un brevet ARIPO et non aux fins d'un brevet national. Tous les autres États contractants du PCT qui sont aussi parties au Protocole de Harare peuvent être désignés soit aux fins d'un brevet national ou d'un brevet ARIPO, soit à la fois aux fins d'un brevet national et d'un brevet ARIPO.

EA brevet eurasien : tous les États contractants du PCT qui sont aussi parties à la Convention sur le brevet eurasien peuvent être désignés soit aux fins d'un brevet national ou d'un brevet eurasien, soit à la fois aux fins d'un brevet national et d'un brevet eurasien. Cependant, il est à noter qu'il n'est pas possible de désigner seulement certains de ces États aux fins d'un brevet eurasien et que toute désignation d'un ou de plusieurs États aux fins d'un brevet eurasien sera traitée comme une désignation aux fins d'un brevet eurasien de tous les États qui sont parties à la fois à la Convention et au PCT.

EP brevet européen : il est à noter que **BE Belgique, CY Chypre, FR France, GR Grèce, IE Irlande, IT Italie, MC Monaco et NL Pays-Bas** ne peuvent être désignés que pour un brevet européen et non aux fins d'un brevet national.

Tous les autres États contractants du PCT qui sont aussi parties à la Convention sur le brevet européen peuvent être désignés soit aux fins d'un brevet national ou d'un brevet européen, soit à la fois aux fins d'un brevet national et d'un brevet européen.

Si un brevet ARIPO ou un brevet européen est demandé pour certains seulement des États contractants du Protocole de Harare ou de la Convention sur le brevet européen, respectivement, le nom des États pour lesquels un brevet régional n'est pas demandé peut être biffé. Il est cependant recommandé de toujours désigner aux fins d'un brevet régional tous les États contractants du Protocole ou de la Convention, respectivement. Ce n'est que lorsqu'il s'agira d'aborder la phase régionale et de payer les taxes de désignation régionales que la décision de ne poursuivre la procédure d'obtention de brevet que pour certaines des désignations devra être prise.

Lorsqu'un ou plusieurs États parties au Protocole de Harare, à la Convention sur le brevet eurasien ou à la Convention sur le brevet européen et au PCT sont désignés *deux fois*, une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une autre fois aux fins d'une protection nationale, le déposant doit acquitter une taxe de désignation pour le brevet régional et autant de taxes de désignation qu'il y a de brevets ou autres titres de protection nationaux demandés (règle 15.1.ii) et instruction 210).

Extension du brevet européen (EP) à certains États : s'il est envisagé de demander, au moment de l'ouverture de la phase régionale européenne, l'extension du brevet européen qui sera obtenu ultérieurement à AL Albanie, LT Lituanie, LV Lettonie, MK Ex-République yougoslave de Macédoine, RO Roumanie, ou SI Slovénie (ou à tout autre État contractant du PCT pour lequel, à la date du dépôt de la demande internationale, un accord d'extension conclu avec l'Organisation européenne des brevets est en vigueur), le cadre n° V doit contenir ***à la fois*** la désignation de l'État concerné en vue de l'obtention d'un brevet national ***et*** la désignation, en vue de l'obtention d'un brevet européen, d'au moins un État contractant du PCT partie à la Convention sur le brevet européen.

OA brevet OAPI : la désignation des États membres de l'OAPI qui sont parties au PCT ne peut être effectuée qu'aux fins d'un brevet OAPI (aucune protection nationale n'est offerte); de plus, il n'est pas possible de ne désigner que certains de ces États.

Choix de certaines formes de protection ou de traitement (règles 4.12 à 4.14 et instruction 202) : si, dans un pays, il est possible de demander un titre de protection autre qu'un brevet, écrire après le nom de ce pays, sur la ligne pointillée, le nom du titre en question, c'est-à-dire "petty patent" (pour AU Australie et YU Yougoslavie), "brevet provisoire" (pour AM Arménie, KG Kirghizistan, KZ Kazakhstan, TM Turkménistan, UZ Ouzbékistan), "modèle d'utilité" (pour AL Albanie, AM Arménie, AT Autriche, BG Bulgarie, BR Brésil, BY Bélarus, BZ Belize, CN Chine, CR Costa Rica, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, ES Espagne, FI Finlande, GE Géorgie, GH Ghana, HU Hongrie, JP Japon, KE Kenya, KG Kirghizistan, KR République de Corée, KZ Kazakhstan, LS Lesotho, MD République de Moldova, MX Mexique, PL Pologne, PT Portugal, RU Fédération de Russie, SK Slovaquie, SL Sierra Leone, TJ Tadjikistan, TR Turquie, UA Ukraine, UZ Ouzbékistan, VN Viet Nam, OA OAPI), "brevet consensuel" (pour HR Croatie), "certificat d'utilité" (pour TT Trinité-et-Tobago, UG Ouganda), ou "certificat d'auteur d'invention" (pour CU Cuba, KP République populaire démocratique de Corée). Si, pour AT Autriche, CZ République tchèque, DE Allemagne, DK Danemark, EE Estonie, FI Finlande ou SK Slovaquie (seuls pays où cela est possible), un modèle d'utilité est demandé en plus du brevet, écrire après le nom de ce pays "et modèle d'utilité".

Si, pour un pays où cela est possible, il est souhaité que la demande internationale soit traitée comme une demande d'obtention d'un certain titre "d'addition" ou comme une demande de "continuation" ou de "continuation-in-part", écrire après le nom de ce pays la mention appropriée, c'est-à-dire "brevet d'addition" (pour AT Autriche, AU Australie, BA Bosnie-Herzégovine, CU Cuba, DE Allemagne, ES Espagne, IL Israël, IN Inde, MK Ex-République yougoslave de Macédoine, MW Malawi, NZ Nouvelle-Zélande, SI Slovénie, TR Turquie, YU Yougoslavie, ZA Afrique du Sud, ZW Zimbabwe), "certificat d'addition" (pour BR Brésil, DZ Algérie, MA Maroc, MG Madagascar, OA OAPI), "certificat d'auteur d'invention additionnel" (pour CU Cuba), "continuation" ou "continuation-in-part" (pour US États-Unis d'Amérique). Si l'une de ces mentions est utilisée, indiquer également dans le cadre supplémentaire l'État pour lequel ce traitement est souhaité, le numéro du titre principal ou de la demande principale et la date de délivrance du titre principal ou du dépôt de la demande principale, selon le cas (voir le point 1.v) de ce cadre).

L'indication, dans les cases du cadre n° V correspondant aux désignations, de numéros d'ordre en chiffres arabes sera considérée comme reflétant *l'ordre des désignations choisi* par le déposant; si les cases sont cochées d'une autre manière, l'ordre considéré sera celui dans lequel les cases cochées apparaissent sur le formulaire. Cet ordre n'aura de signification que si le montant reçu pour les taxes de désignation n'est pas suffisant pour couvrir l'ensemble des désignations et reste insuffisant après que le déposant a été invité à acquitter le solde débiteur; dans ce cas, le montant reçu sera affecté au paiement des taxes pour les désignations dans l'ordre en question (règle 16*bis*.1.c) et instruction 321).

La case située au bas de la colonne de droite est réservée pour la désignation, aux fins d'un brevet national, d'États qui sont devenus partie au PCT après la date qui figure au bas de la deuxième feuille du formulaire de requête; dans ce cas, il faut mentionner sur la ligne pointillée le nom de l'État, précédé de préférence du code à deux lettres, et cocher la case correspondante (en indiquant le cas échéant si une forme particulière de protection ou de traitement est souhaitée).

Désignation d'États à titre de précaution sous réserve de confirmation (règles 4.9.b) et c) et 15.5) : dans l'intérêt du déposant, le cadre n° V comporte une déclaration ("Déclaration concernant les désignations de précaution") indiquant que le déposant souhaite, en sus des désignations expresses effectuées en cochant les cases de la première partie de ce cadre (il doit y avoir au moins une désignation de ce type), désigner à titre de précaution tous les autres États contractants du PCT qui n'ont pas été désignés expressément.

Si le déposant ne souhaite pas faire usage de cette mesure de sécurité ni ne veut faire de désignations de précaution, la déclaration doit être biffée.

Si le déposant souhaite expressément exclure tel ou tel État d'une telle désignation faite à titre de précaution afin que la demande internationale ne produise aucun effet dans cet État, il y aura lieu d'indiquer le nom ou le code à deux lettres de cet État dans le cadre supplémentaire. Cette mention n'est nécessaire dans aucun autre cas.

Si le déposant constate, après le dépôt de la demande internationale, qu'il y a des erreurs ou des omissions dans les désignations faites expressément, il pourra rectifier les erreurs ou corriger les omissions en confirmant les désignations de précaution en question. Il est possible de confirmer une désignation de précaution jusqu'à l'expiration d'un délai de 15 mois à compter de la date de priorité (la plus ancienne) indiquée dans le cadre n° VI ou, si aucune priorité n'est revendiquée, de la date du dépôt international. Pour confirmer une telle désignation, il faut déposer auprès de l'office récepteur une déclaration écrite contenant l'indication du nom de chaque État dont la désignation est confirmée (avec, le cas échéant, une indication de la forme de traitement ou de protection souhaitée) et payer à l'office récepteur, pour chaque désignation ainsi

confirmée, une taxe de désignation (même lorsque six taxes de désignation ont déjà été payées) ainsi qu'une taxe de confirmation correspondant à 50 % de la taxe de désignation.

L'office récepteur n'enverra au déposant aucun rappel ni invitation à confirmer des désignations de précaution.

Le déposant ne doit rien faire s'il ne veut confirmer aucune désignation de précaution; les désignations de précaution seront alors automatiquement considérées comme retirées par le déposant à l'expiration d'un délai de 15 mois à compter de la date de priorité.

CADRE N° VI

Revendication(s) de priorité (règle 4.10) : si la priorité d'une demande antérieure est revendiquée, la déclaration contenant la revendication de priorité doit figurer dans la requête.

La requête doit indiquer la *date* du dépôt de la demande antérieure dont la priorité est revendiquée et son *numéro*. Cette date doit tomber dans la période de 12 mois précédant la date du dépôt international.

Lorsque la demande antérieure est une demande nationale, il faut indiquer le *pays* partie à la Convention de Paris pour la protection de la propriété industrielle, ou le *membre* de l'Organisation mondiale du commerce qui n'est pas partie à ladite convention, où elle a été déposée; lorsque la demande antérieure est une demande régionale, l'*office régional* concerné; et lorsque la demande antérieure est une demande internationale, l'*office récepteur* auprès duquel elle a été déposée.

Lorsque la demande antérieure est une demande régionale (autre qu'une demande ARIPO) ou une demande internationale, la revendication de priorité peut aussi, si le déposant le souhaite, indiquer un ou plusieurs pays parties à la Convention de Paris pour lesquels cette demande a été déposée (règle 4.10.b)i)); cette indication n'est cependant pas obligatoire. Si elle est faite, elle devrait l'être dans le cadre supplémentaire. Lorsque la demande antérieure est une demande ARIPO, il faut indiquer au moins un pays partie à la Convention de Paris ou un membre de l'Organisation mondiale du commerce pour lequel cette demande a été déposée (règle 4.10.b)ii)).

En ce qui concerne les possibilités de correction ou d'adjonction d'une revendication de priorité, voir le *Guide du déposant du PCT*, volume I/A, partie générale.

Copie certifiée conforme de la demande antérieure (règle 17.1) : le déposant doit présenter une copie certifiée conforme de chaque demande antérieure dont la priorité est revendiquée (document de priorité), que la demande antérieure soit une demande nationale, régionale ou internationale. Le document de priorité doit être présenté à l'office récepteur ou au Bureau international avant l'expiration d'un délai de 16 mois à compter de la date de priorité (la plus ancienne) ou, lorsque l'ouverture anticipée de la phase nationale est demandée, au plus tard à la date à laquelle est faite cette demande. Tout document de priorité qui parvient au Bureau international après l'expiration du délai de 16 mois mais avant la date de publication internationale est réputé avoir été reçu le dernier jour de ce délai (règle 17.1.a)).

Lorsque le document de priorité est délivré par l'office récepteur, le déposant peut, au lieu de présenter ce document, demander à l'office récepteur (au plus tard dans le délai de 16 mois à compter de la date de priorité) de l'établir et de le transmettre au Bureau international. Pour effectuer une requête à cet effet, il faut cocher la case appropriée et donner les indications permettant d'identifier le document. *Important* : lorsqu'une telle requête est présentée, le déposant doit verser à l'office récepteur la *taxe afférente au document de priorité;* à défaut, cette requête sera considérée comme n'ayant pas été présentée (voir la règle 17.1.b)).

Dates (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples : "24 mars 2000 (24.03.00)", "24 mars 2000 (24/03/00)", "24 mars 2000 (24-03-00)".

CADRE N° VII

Choix de l'administration chargée de la recherche internationale (ISA) (règles 4.1.b)vi) et 4.14*bis*) : si plusieurs administrations chargées de la recherche internationale sont compétentes pour procéder à la recherche internationale concernant la demande internationale – en fonction de la langue dans laquelle cette demande est déposée et de l'office récepteur auprès duquel elle est déposée – le nom de l'administration compétente choisie par le déposant doit être indiqué dans l'espace prévu, soit en clair soit au moyen du code à deux lettres correspondant.

Demande d'utilisation des résultats d'une recherche antérieure; mention de cette recherche (règles 4.11 et 41.1) : la mention de la recherche antérieure éventuelle doit comporter des indications qui permettent à l'administration chargée de la recherche internationale d'en retrouver aisément les résultats. Si ces résultats sont utilisables, l'administration en question pourra rembourser la taxe de recherche internationale ou une fraction de celle-ci.

CADRE N° VIII

Il faut indiquer en chiffres arabes, dans le bordereau, le nombre de feuilles des diverses parties de la demande internationale. Lorsque la demande internationale contient la divulgation d'une ou de plusieurs séquences de nucléotides ou d'acides aminés, ces séquences doivent être présentées dans une partie distincte de la description ("partie de la description réservée au listage des séquences") conformément à la norme prévue à l'annexe C des instructions administratives.

Lorsque des éléments sont joints à la demande internationale, les cases appropriées doivent être cochées et toute indication pertinente doit être portée à la fin de la ligne correspondante; on trouvera ci-après des explications détaillées concernant uniquement les éléments qui le nécessitent.

Case n° 3 : cocher cette case si la copie d'un pouvoir général est déposée avec la demande internationale; lorsque le pouvoir général a été déposé auprès de l'office récepteur, et que celui-ci lui a attribué un numéro de référence, ce dernier peut être indiqué.

Case n° 4 : cocher cette case si une explication de l'absence de signature d'un inventeur/déposant pour les États-Unis d'Amérique est fournie conjointement avec la demande internationale (voir aussi les notes du cadre n° IX).

Case n° 6 : cocher cette case si une traduction de la demande internationale aux fins de la recherche internationale (règle 12.3) est fournie conjointement avec cette demande et indiquer la langue de la traduction.

Case n° 7 : cocher cette case si, conjointement avec la demande internationale, il est déposé un formulaire PCT/RO/134 rempli ou une ou plusieurs feuilles séparées comportant des indications relatives à des micro-organismes ou autre matériel biologique déposés. Pour certains États (voir le *Guide du déposant du PCT*, volume I/B, annexe L), le formulaire PCT/RO/134 ou toute autre feuille comportant les indications en question doit faire partie de la description. Ne pas cocher cette case si les indications (figurant soit sur une feuille séparée, soit sur le formulaire mentionné ci-dessus) sont contenues dans la demande internationale (pour de plus amples informations, voir la règle 13*bis* et l'instruction 209).

Case nº 8 : lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de la recherche internationale, le déposant peut fournir, conjointement avec la demande internationale, le listage en question sous une forme déchiffrable par ordinateur à l'office récepteur. S'il le fait, la case nº 8 doit être cochée.

Langue de dépôt de la demande internationale (règles 12.1.a) et 20.4.c) et d)) : en ce qui concerne la langue dans laquelle la demande internationale est déposée, il suffit, aux fins de l'attribution d'une date de dépôt international, et sous réserve de la phrase suivante, que la description et les revendications soient rédigées dans la langue ou l'une des langues acceptées par l'office récepteur pour le dépôt de demandes internationales; cette langue devrait être indiquée dans la case prévue (en ce qui concerne la langue de l'abrégé et de tout texte des dessins, voir la règle 26.3*ter*.a) et b); en ce qui concerne la langue de la requête, voir les règles 12.3.c) et 26.3*ter*.c) et d)). On notera que, lorsque la demande internationale est déposée auprès de l'Office des brevets et des marques des États-Unis d'Amérique en sa qualité d'office récepteur, tous les éléments de la demande internationale (requête, description, revendications, abrégé, texte des dessins) doivent, aux fins de l'obtention d'une date de dépôt international, être rédigés en anglais, sauf que le texte libre contenu dans la partie de la description réservée au listage des séquences conforme à la norme figurant dans l'annexe C des instructions administratives, peut être rédigé dans une langue autre que l'anglais.

CADRE Nº IX

Signature (règles 4.1.d), 4.15 et 90) : la signature doit être celle du déposant (s'il y a plusieurs déposants, tous doivent signer); il peut toutefois s'agir de la signature du mandataire si un pouvoir distinct désignant le mandataire, ou une copie du pouvoir général déjà détenu par l'office récepteur est fourni. Si la requête n'est pas déposée avec le pouvoir, l'office récepteur invitera le déposant à le remettre ultérieurement.

Si les États-Unis d'Amérique sont désignés et qu'un déposant pour cet État qui a la qualité d'inventeur a refusé de signer la requête ou que des efforts diligents n'ont pas permis de le trouver ou d'entrer en rapport avec lui, il est possible de fournir une explication de l'absence de signature. Cela vaut uniquement lorsqu'il y a plusieurs déposants et que la demande internationale a été signée par au moins un autre déposant. L'explication doit être jugée satisfaisante par l'office récepteur. Si cette explication est remise conjointement avec la demande internationale, il y a lieu de cocher la case nº 4 du cadre nº VIII.

CADRE SUPPLÉMENTAIRE

Les cas dans lesquels le cadre supplémentaire peut être utilisé et la manière de fournir les indications prévues dans ce cadre sont expliqués dans la partie supérieure de celui-ci.

Déclaration concernant des divulgations non opposables ou des exceptions au défaut de nouveauté : une telle déclaration peut, si elle ne figure pas dans la description, être effectuée dans ce cadre. Elle doit être conforme à la législation nationale applicable par l'office désigné auquel elle est adressée.

REMARQUES GÉNÉRALES

Langue de la correspondance (règle 92.2 et instruction 104) : toute lettre du déposant à l'office récepteur doit être rédigée dans la langue de dépôt de la demande internationale étant entendu que, lorsque la demande internationale doit être publiée dans la langue d'une traduction remise en vertu de la règle 12.3, cette lettre doit être rédigée dans la langue de cette traduction; l'office récepteur peut cependant autoriser l'emploi d'une autre langue.

Toute lettre du déposant au Bureau international doit être rédigée dans la même langue que la demande internationale si celle-ci est établie en français ou en anglais; sinon, elle doit être rédigée en français ou en anglais, au choix du déposant.

Toute lettre du déposant à l'administration chargée de la recherche internationale doit être rédigée dans la même langue que la demande internationale étant entendu que, lorsqu'une traduction de la demande internationale aux fins de la recherche internationale a été transmise en vertu de la règle 23.1.b), cette lettre doit être rédigée dans la langue de cette traduction. Cependant, l'administration chargée de la recherche internationale peut autoriser l'emploi d'une autre langue.

Disposition des éléments et numérotation des feuilles de la demande internationale (règle 11.7 et instruction 207) : les éléments de la demande internationale doivent être présentés dans l'ordre suivant : requête; description (sauf la partie de la description réservée au listage des séquences, le cas échéant); revendication(s); abrégé; dessins (le cas échéant); partie de la description réservée au listage des séquences, le cas échéant.

Toute les feuilles de la description (sauf la partie réservée au listage des séquences), les revendications et l'abrégé doivent être numérotés consécutivement, en chiffres arabes qui doivent être inscrits, en milieu de ligne, en haut ou en bas de la feuille mais non dans la marge, qui doit rester vierge. Le numéro de chaque feuille des dessins doit consister en deux nombres en chiffres arabes séparés par une barre oblique, le premier indiquant le numéro de la feuille et le second le nombre total des feuilles de dessins (par exemple : 1/3, 2/3, 3/3). Pour la numérotation des feuilles de la partie de la description réservée au listage des séquences, se référer à l'instruction 207.

Indication de la référence du dossier du déposant ou du mandataire sur les feuilles de la description (sauf la partie de la description réservée au listage des séquences, le cas échéant), de la ou des revendications, de l'abrégé, des dessins et de la partie de la description réservée au listage des séquences (règle 11.6.f)) : la référence de dossier indiquée sur la requête peut l'être également sur chaque feuille de la demande internationale, dans le coin gauche de la marge du haut, sans toutefois apparaître au-delà de 1,5 cm à partir du haut.

Cette feuille ne fait pas partie de la demande internationale ni ne compte comme une feuille de celle-ci.

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/RO/101)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre au moment du dépôt de la demande internationale. Cela aidera l'office récepteur à vérifier les calculs et à y déceler d'éventuelles erreurs.

Des renseignements sur le montant en vigueur des taxes à payer peuvent être obtenus auprès de l'office récepteur. Les montants de la taxe internationale et de la taxe de recherche peuvent varier en raison de fluctuations monétaires. Il est recommandé aux déposants de vérifier quels sont les tout derniers montants en vigueur. Toutes les taxes sauf, dans certains cas, la taxe de désignation doivent être payées dans un délai d'un mois à compter de la date de réception de la demande internationale. On trouvera ci-après quelques indications supplémentaires au sujet d'un éventuel paiement ultérieur de la taxe de désignation.

CALCUL DES TAXES PRESCRITES

Cadre T : Taxe de transmission au profit de l'office récepteur (règle 14.1) : l'office récepteur fixe le montant de la taxe de transmission, s'il y en a une. Celui-ci doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT,* volume I/B, annexe C.

Cadre S : Taxe de recherche au profit de l'administration chargée de la recherche internationale (règle 16.1) : le montant de la taxe de recherche est fixé par l'administration chargée de la recherche internationale. Il doit être payé dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale. On peut trouver des renseignements sur cette taxe dans le *Guide du déposant du PCT,* volume I/B, annexe D.

Lorsque plusieurs administrations chargées de la recherche internationale sont compétentes, le déposant doit indiquer son choix à l'emplacement prévu à cet effet et payer le montant de la taxe de recherche internationale fixé par l'administration choisie. Le *Guide du déposant du PCT,* volume I/B, annexe C, donne des renseignements sur l'administration chargée de la recherche internationale qui est compétente et sur la question de savoir si le déposant a le choix entre plusieurs administrations chargées de la recherche internationale.

Cadre I : Taxe internationale au profit du Bureau international (règle 15) : la taxe internationale comprend une taxe de base et autant de taxes de désignation qu'il y a de désignations faites expressément selon la règle 4.9.a) dans le cadre n° V de la requête. Les montants de la taxe de base et de la taxe de désignation sont fixés en francs suisses dans le barème des taxes et les montants correspondants de ces taxes dans d'autres monnaies sont publiés dans la *Gazette du PCT* (règle 15.2). On peut trouver des renseignements sur ces taxes dans le *Guide du déposant du PCT,* volume I/B, annexe C.

Réduction de la taxe internationale dans le cas de l'utilisation du logiciel PCT-EASY : une réduction de 200 francs suisses (ou l'équivalent dans la monnaie dans laquelle la taxe internationale est payée à l'office récepteur) peut être obtenue dans certains cas où le logiciel PCT-EASY est utilisé pour la préparation de la requête, à condition que les conditions nécessaires soient remplies. On peut trouver des renseignements sur cette réduction dans le *Guide du déposant du PCT*, volume I/A, partie générale, ainsi que dans les informations publiées dans la *Gazette du PCT* et le bulletin *PCT Newsletter*. Étant donné que les déposants qui utilisent le logiciel PCT-EASY déposeront le formulaire de requête et la feuille de calcul des taxes sous la forme d'un imprimé produit par ordinateur à l'aide de ce logiciel, la feuille de calcul des taxes annexée au formulaire PCT/RO/101 ne prévoit pas cette réduction de taxe.

Réduction de la taxe internationale pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75 % de certaines taxes du PCT, dont la taxe internationale. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe internationale (taxe de base et taxe de désignation) s'applique automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans les cadres n^{os} II et III de la requête.

La réduction de la taxe s'applique même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MX Mexique, MZ Mozambique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. Pour ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe internationale (taxe de base et taxes de désignation) en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe

internationale, la somme devant figurer sous I est égale à 25 % de la somme des montants figurant sous B et D (voir ci-dessous).

Cadre B : Taxe de base. Le montant de la taxe de base est fonction du nombre total de feuilles de la demande internationale, qui figure dans le cadre n° VIII de la requête. La taxe de base doit être payée dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale.

Cadre D : Taxes de désignation. Sous réserve de ce qui suit, le nombre des taxes de désignation dues correspond au nombre de cases cochées dans le cadre n° V de la requête.

Sont dues autant de taxes de désignation qu'il y a de brevets nationaux et de brevets régionaux pour lesquels une désignation expresse a été faite en vertu de la règle 4.9.a). Une seule taxe de désignation est due pour la désignation AP, la désignation EA, la désignation EP ou la désignation OA, quel que soit le nombre d'États pour lesquels un brevet ARIPO, un brevet eurasien, un brevet européen ou un brevet OAPI, respectivement, est demandé.

Si un ou plusieurs États sont désignés deux fois (une fois aux fins d'un brevet ARIPO, d'un brevet eurasien ou d'un brevet européen et une fois aux fins d'une protection nationale), le déposant doit payer une taxe de désignation pour le brevet ARIPO, le brevet eurasien ou le brevet européen et une autre taxe de désignation pour chaque brevet ou autre titre de protection national demandé (règle 15.1.ii) et instruction 210).

Toute désignation faite au-delà de six désignations soumises à la taxe est gratuite. Le montant maximum à indiquer dans le cadre D est donc de six fois le montant de la taxe de désignation. Si, par exemple, 15 brevets nationaux et quatre brevets régionaux (un brevet ARIPO, un brevet eurasien, un brevet européen et un brevet OAPI) sont demandés (soit un total de 19 désignations), la somme à indiquer dans le cadre D est de six fois le montant de la taxe de désignation.

Les taxes de désignation doivent être payées dans un délai d'un mois à compter de la date à laquelle l'office récepteur reçoit la demande internationale ou d'un an à compter de la date de priorité, le délai applicable étant celui des deux qui arrive à expiration le plus tard.

Cadre P : Taxe afférente au document de priorité (règle 17.1.b)) : si, en cochant la case appropriée dans le cadre n° VI de la requête, le déposant a demandé que l'office récepteur prépare et transmette au Bureau international une copie certifiée conforme de la demande antérieure dont la priorité est revendiquée, il peut indiquer le montant de la taxe prescrite par l'office récepteur pour ce service (pour information, voir le *Guide du déposant du PCT*, volume I/B, annexe C).

Si cette taxe n'est pas payée au plus tard avant l'expiration d'un délai de 16 mois à compter de la date de priorité, l'office récepteur peut considérer la requête selon la règle 17.1.b) comme n'ayant pas été présentée.

Total : le total des montants inscrits dans les cadres T, S, I et P doit être porté dans ce cadre. Le déposant peut, s'il le souhaite, indiquer à proximité ou à l'intérieur du cadre "Total" la monnaie dans laquelle il paie les taxes.

Paiement ultérieur des taxes de désignation : si le délai d'un an à compter de la date de priorité arrive à expiration plus d'un mois après la date à laquelle l'office récepteur reçoit la demande internationale, et que le déposant souhaite différer le paiement des taxes de désignation, il est recommandé de cocher la case appropriée.

MODE DE PAIEMENT

Pour aider l'office récepteur à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER UN COMPTE DE DÉPÔT

L'office récepteur ne débitera un compte de dépôt du montant des taxes que si l'autorisation correspondante est signée et qu'elle indique le numéro du compte de dépôt.

The demand must be filed directly with the competent International Preliminary Examining Authority or, if two or more Authorities are competent, with the one chosen by the applicant. The full name or two-letter code of that Authority may be indicated by the applicant on the line below:

NOTES TO THE DEMAND FORM (PCT/IPEA/401)

These Notes are intended to facilitate the filling in of the demand form and to give some information concerning international preliminary examination under Chapter II of the Patent Cooperation Treaty (PCT). For more detailed information, see the *PCT Applicant's Guide*, a publication of WIPO. The Notes are based on the requirements of the PCT, the Regulations and the Administrative Instructions under the PCT. In case of any discrepancy between these Notes and those requirements, the latter are applicable.

In the demand form and these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the Administrative Instructions, respectively.

Please use a typewriter; check-boxes may be marked by hand with dark ink (Rules 11.9(a) and (b) and 11.14).

IMPORTANT GENERAL INFORMATION

Who May File a Demand? (Article 31(2)(a) and Rule 54): A demand (for international preliminary examination) may only be filed by an applicant who is a national or resident of a PCT Contracting State which is bound by Chapter II of the PCT; furthermore, the international application must have been filed with a receiving Office of, or acting for, a State bound by Chapter II. Where there are two or more applicants (for the same or different elected States) at least one of them must qualify.

Where Must the Demand Be Filed? (Article 31(6)(a)): The demand must be filed with a competent International Preliminary Examining Authority (IPEA). The receiving Office with which the international application was filed will, upon request, give information about the competent IPEA (or see the *PCT Applicant's Guide*, Volume I/B, Annex C). If several IPEAs are competent, the applicant has the choice and the demand must be filed with (and the fees must be paid to) the IPEA chosen by the applicant. The IPEA chosen by the applicant may be identified, preferably by an indication of the name or two-letter code of the IPEA, at the top of the first sheet of the demand in the space provided for that purpose.

When Must the Demand Be Filed? (Article 39(1)): The demand must be filed before the expiration of *19 months from the priority date* in order to extend the time limit for entering the national phase of the PCT procedure from 20 to 30 months from the priority date. *Warning*: if the demand is filed later, the national phase will not be delayed in respect of the elected States and the applicant must enter the national phase before the expiration of the time limit applicable under Article 22 (which is usually 20 months from the priority date).

In Which Language Must the Demand Be Filed? (Rule 55.1): The demand must be filed in the language in which international preliminary examination will be carried out (see Notes to Box No. IV).

What is the Language of Correspondence? (Rules 66.9 and 92.2 and Section 104): Any letter from the applicant to the IPEA must be in the same language as the international application to which it relates. However, where the international preliminary examination will be carried out on the basis of a translation (see Notes to Box No. IV), any letter from the applicant to the IPEA must be in the language of the translation. The IPEA may authorize the use of other languages for letters which do not contain or relate to amendments of the international application. Any letter from the applicant to the International Bureau must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

Which Fees Must Be Paid and When? (Rules 57 and 58): Two fees are due in respect of the international preliminary examination: the preliminary examination fee and the handling fee. Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The Fee Calculation Sheet should be used for that purpose. For details concerning the payment of the fees, see the Notes to that Sheet.

BOX No. I

Applicant's or Agent's File Reference: A file reference may be indicated, if desired. It should not exceed 12 characters. Characters in excess of 12 may be disregarded (Section 109).

Identification of the International Application (Rule 53.6): The international application number must be indicated in Box No. I. Where the demand is filed at a time when the international application number has not yet been notified by the receiving Office, the name of that Office must be indicated instead of the international application number.

International Filing Date and (Earliest) Priority Date (Section 110): Dates must be indicated by the Arabic number of the day, the name of the month and the Arabic number of the year—in that order; after, below or above such indication, the date should be repeated in parentheses, using two-digit Arabic numerals for each of the number of the day, the number of the month and the last two digits of the year, in that order, and separated by periods, slants or hyphens, for example, "24 March 2000 (24.03.00)", "24 March 2000 (24/03/00)" or "24 March 2000 (24-03-00)". Where the international application claims the priority of several earlier applications, the filing date of the earliest application whose priority is claimed must be indicated as the priority date.

Title of the Invention: If a new title has been established by the International Searching Authority, that title must be indicated in Box No. I.

BOX No. II

Applicant(s) (Rule 53.4): All the applicants for the elected States must be indicated in the demand; an applicant named in the request (Form PCT/RO/101) for a State which is not elected need not be named in the demand. It should be noted that the persons named as "inventor only" in the request need not be named in the demand.

Make in Box No. II of the demand the required indications as appearing in Boxes Nos. II and III of the request . The Notes to the request apply *mutatis mutandis*. If there are two or more applicants for the States elected in the demand, give the required indications for each of them; if there are more than

three applicants, make the required indications on the "Continuation Sheet".

If different applicants are indicated in the request for different designated States, indicate in Box No. II of the demand only the applicants for the States elected in Box No. V (no indication of the States for which a person is applicant need be made, because those indications have been made in the request).

BOX No. III

Agent or Common Representative (Rules 53.5, 90.1 and 90.2): Mark the applicable check-boxes to indicate *first* whether the person named in this Box is agent or common representative, *then* whether that person *has been appointed earlier* (i.e., during the procedure under Chapter I), or *is appointed in the demand* and any earlier appointment of another person is revoked, or *is appointed specifically for the procedure before the IPEA* (without revocation of any earlier appointment), in addition to the person(s) appointed earlier.

Where an additional person is appointed specifically for the procedure before the IPEA, all notifications issued by the IPEA will be addressed only to that additional person.

A separate power of attorney must be filed with the IPEA, the International Bureau or the receiving Office, if the person appointed at the time the demand is filed (i.e., was not appointed earlier) signs the demand on behalf of the applicant (Rule 90.4).

Address for Correspondence (Rule 4.4(d) and Section 108): Where an agent is appointed, any correspondence intended for the applicant will be sent to the address indicated for that agent (or for the first-mentioned agent, if more than one is appointed). Where one of two or more applicants is appointed as common representative, the address indicated for that applicant in Box No. III will be used.

Where no agent or common representative is appointed, any correspondence will be sent to the address, indicated in Box No. II, of the applicant (if only one person is named as applicant) or of the applicant who is considered to be common representative (if there are two or more persons named as applicants). However, if the applicant wishes correspondence to be sent to a different address in such a case, that address may be indicated in Box No. III instead of the designation of an agent or common representative. In this case, and only in this case, the last check-box of Box No. III must be marked (that is, the last check-box must not be marked if either of the check-boxes "agent" or "common representative" in Box No. III has been marked).

BOX No. IV

Statement Concerning Amendments (Rules 53.2(a)(v), 53.9, 62, 66.1 and 69.1): The international preliminary examination will start on the basis of the international application as filed or, if amendments have been filed, as amended. Mark the appropriate check-box(es) to enable the IPEA to determine when and on what basis it can start international preliminary examination.

Mark the corresponding check-box(es) under No. 1 where the international preliminary examination should start on the basis of the international application as originally filed or where amendments are to be taken into account, as the case may be. Where amendments are to be taken into account, the applicant must submit *with the demand* a copy of amendments to the claims under Article 19 (Rule 53.9(a)(i)) and/or the amendments of the international application under Article 34 (Rule 53.9(c)), as the case may be. If a check-box is marked but the demand is not accompanied by the documents referred to, the start of international preliminary examination will be delayed until the IPEA receives them.

Mark check-box No. 2 if amendments of the claims under Article 19 have been filed with the International Bureau during the Chapter I procedure, but the applicant does not want these amendments to be taken into account for the purpose of international preliminary examination when the latter starts (Rule 53.9(a)(ii)).

Mark check-box No. 3 where the time limit for filing amendments of the claims under Article 19 has not expired at the time the demand is filed and the applicant wants to keep the option for the filing of such amendments open; the IPEA is thus requested to postpone the start of international preliminary examination (Rules 53.9(b) and 69.1(d)). It should be noted that the examination will start in any event after the expiration of 20 months from the priority date even where the time limit for filing amendments has not yet expired or no amendments have been received by the IPEA.

If no check-box is marked, refer to the footnote at the bottom of the Box.

Language for the Purposes of International Preliminary Examination (Rule 55.2): Where neither the language in which the international application is filed nor the language in which the international application is published is accepted by the IPEA that is to carry out the international preliminary examination, the applicant must furnish with the demand a translation of the international application into a language which is both a language accepted by that Authority and a language of publication.

Where such translation has already been furnished to the International Searching Authority for the purposes of carrying out international search and the IPEA is part of the same Office or intergovernmental organization as the International Searching Authority, the applicant need not furnish another translation. In such a case the international preliminary examination is carried out on the basis of the translation furnished for the purposes of international search.

The language for the purposes of international preliminary examination should be indicated in Box No. IV, on the dotted line, and the corresponding check-box should be marked.

Language of Amendments (Rules 55.3 and 66.9): Amendments and letters relating thereto must be in the same language as that in which the international preliminary examination is carried out, as explained in the preceding paragraphs.

Time Limit for Furnishing Translation of the International Application (Rule 55.2): Any required translation of the international application should be furnished (by the applicant) together with the demand. If it is not so furnished, the IPEA will invite the applicant to furnish it within a time limit which shall not be less than one month from the date of the invitation. That time limit may be extended by the IPEA.

BOX No. V

Election of States (Rule 53.7): Only States which are bound by Chapter II of the PCT *and* which have been designated in the international application (that is, States whose designations have been made under Rule 4.9(a), confirmed under Rule 4.9(c) or considered as having been made under Rule 32.2(a)(i)) can be elected. They are the "eligible States".

For the convenience and protection of applicants, Box No. V contains a statement to the effect that all eligible States are elected. It is only where the applicant does not wish to elect certain eligible States that the name(s) or two-letter code(s) of those States must be indicated after the words "wishes not to elect:".

The indication in the demand of the kind of protection or treatment desired for any elected State is not required since it follows the indication made when designating that State in the international application.

BOX No. VI

Check List: It is recommended that this Box be filled in carefully in order for the IPEA to determine as soon as possible whether it is in possession of the documents on the basis of which the applicant wishes international preliminary examination to start.

Where the international application contains disclosure of one or more nucleotide and/or amino acid sequences, and a copy of the sequence listing in computer readable form complying with the standard provided for in the Administrative Instructions is required by the IPEA, the applicant may furnish the listing in computer readable form to the IPEA with the demand. If this is the case, check-box No. 5 must be marked.

BOX No. VII

Signature (Rules 53.8, 90.3(a) and 90.4(a)): The demand must be signed by the applicant or by his agent; if there are two or more applicants, the common representative may sign the demand. If the demand is not signed by (all) the persons who are applicants for the elected States (a person who is applicant only for a State which is not elected need not sign the demand), a power of attorney signed by that (all those) applicant(s) must be filed with the IPEA, with the International Bureau or with the receiving Office unless the agent has previously been appointed.

NOTES TO THE FEE CALCULATION SHEET (ANNEX TO FORM PCT/IPEA/401)

The purpose of the fee calculation sheet is to help the applicant to identify the prescribed fees and to calculate the amounts to be paid. It is strongly recommended that the applicant complete, by entering the appropriate amounts in the boxes provided, and submit the fee calculation sheet at the time of filing of the demand. This will help the International Preliminary Examining Authority (IPEA) to verify the calculations and to identify any error in them.

CALCULATION OF PRESCRIBED FEES

Two fees must be paid for international preliminary examination:

(i) the preliminary examination fee for the benefit of the IPEA (Rule 58.1);

(ii) the handling fee for the benefit of the International Bureau (Rule 57).

Both fees must be paid to the IPEA within one month from the date on which the demand is submitted. The amount payable is the amount applicable on the date of submittal (Rules 57.3 and 58.1(b). The fees must be paid in a currency acceptable to the IPEA.

Information about the amount of those fees or about equivalent amounts in other currencies can be obtained from the IPEA or the receiving Office. This information is also published in the *PCT Applicant's Guide*, Volume I/B, Annex E, and from time to time in Section IV of the *PCT Gazette*.

Box P: The amount of the preliminary examination fee must be entered in Box P.

Box H: The amount of the handling fee must be entered in Box H.

Reduction of the Handling Fee for Applicants from Certain States: An applicant who is a natural person and who is a national of and resides in a State whose per capita national income is below 3,000 US dollars (according to the average per capita national income figures used by the United Nations for determining its scale of assessments for the contributions payable for the years 1995, 1996 and 1997) is entitled, in accordance with the Schedule of Fees, to a reduction of 75% of certain PCT fees including the handling fee. If there are several applicants, each must satisfy the above-mentioned criteria. The reduction of the handling fee will be automatically available to any applicant (or applicants) who is (or are) so entitled on the basis of the indications of name, nationality and residence given in Box II of the demand.

The fee reduction will be available even if one or more of the applicants are not from PCT Contracting States, provided that each of them is a national and resident of a State that meets the above-mentioned requirements and that at least one of the applicants is a national or resident of a PCT Contracting State and thus is entitled to file an international application.

Natural persons who are nationals of and reside in the following PCT Contracting States are eligible: AL Albania, AM Armenia, AZ Azerbaijan, BA Bosnia and Herzegovina, BF Burkina Faso, BG Bulgaria, BJ Benin, BR Brazil, BY Belarus, BZ Belize, CF Central African Republic, CG Congo, CI Côte d'Ivoire, CM Cameroon, CN China, CR Costa Rica, CU Cuba, CZ Czech Republic, DM Dominica, DZ Algeria, EE Estonia, GA Gabon, GD Grenada, GE Georgia, GH Ghana, GM Gambia, GN Guinea, GW Guinea-Bissau, HR Croatia, HU Hungary, ID Indonesia, IN India, KE Kenya, KG Kyrgyzstan, KP Democratic People's Republic of Korea, KZ Kazakhstan, LC Saint Lucia, LK Sri Lanka, LR Liberia, LS Lesotho, LT Lithuania, LV Latvia, MA Morocco, MD Republic of Moldova, MG Madagascar, MK The former Yugoslav Republic of Macedonia, ML Mali, MN Mongolia, MR Mauritania, MW Malawi, MX Mexico, MZ Mozambique, NE Niger, PL Poland, RO Romania, RU Russian Federation, SD Sudan, SK Slovakia, SL Sierra Leone, SN Senegal, SZ Swaziland, TD Chad, TG Togo, TJ Tajikistan, TM Turkmenistan, TR Turkey, TZ United Republic of Tanzania, UA Ukraine, UG Uganda, UZ Uzbekistan, VN Viet Nam, YU Yugoslavia, ZA South Africa and ZW Zimbabwe. As far as other States are concerned, inquiries should be addressed to the International Bureau.

Calculation of the Handling Fee in Case of Fee Reduction: Where the applicant is (or all applicants are) entitled to a reduction of the handling fee, the total to be entered at Box H is 25% of the handling fee.

Total Box: The total of the amounts inserted in Boxes P and H is the amount which must be paid to the IPEA.

MODE OF PAYMENT

In order to help the IPEA identify the mode of payment of the prescribed fees, it is recommended to mark the applicable check-box(es).

AUTHORIZATION TO CHARGE DEPOSIT ACCOUNT

The applicant should check whether the IPEA allows the use of deposit accounts for payment of PCT fees. In addition, it is recommended that the applicant check what are the specific conditions applicable to the use of deposit accounts with the IPEA since not all IPEAs provide the same services.

Finally, if the IPEA is not the same national Office or intergovernmental organization as that with which the international application was filed, the deposit account with the receiving Office cannot be charged for the purpose of paying the preliminary examination and handling fees due to the IPEA.

The IPEA will not charge fees to deposit accounts unless the deposit account authorization is signed and indicates the deposit account number.

NOTES RELATIVES AU FORMULAIRE DE DEMANDE D'EXAMEN PRÉLIMINAIRE INTERNATIONAL (PCT/IPEA/401)

Ces notes sont destinées à faciliter l'utilisation du formulaire de demande d'examen préliminaire international et à donner certains renseignements concernant l'examen préliminaire international prévu au chapitre II du Traité de coopération en matière de brevets (PCT). On peut aussi trouver de plus amples renseignements dans le *Guide du déposant du PCT*, publié par l'OMPI. Les notes sont fondées sur les exigences du traité, du règlement d'exécution et des instructions administratives du PCT. En cas de divergence entre les présentes notes et ces exigences, ce sont ces dernières qui priment.

Dans le formulaire de demande d'examen préliminaire international et dans les présentes notes, les termes "article", "règle" et "instruction" renvoient aux dispositions du traité, de son règlement d'exécution et des instructions administratives du PCT, respectivement.

Prière de remplir le formulaire à la machine à écrire. Les cases appropriées peuvent être cochées à la main, à l'encre foncée (règles 11.9)a) et b) et 11.14).

RENSEIGNEMENTS IMPORTANTS D'ORDRE GÉNÉRAL

Qui peut présenter une demande d'examen préliminaire international ? (article 31.2)a) et règle 54) : une demande d'examen préliminaire international ne peut être présentée que par un déposant qui est ressortissant d'un État contractant lié par le chapitre II du PCT ou qui a son domicile dans un tel État; en outre, la demande internationale doit avoir été déposée auprès de l'office récepteur d'un État lié par le chapitre II, ou agissant pour un tel État. S'il y a plusieurs déposants (pour les mêmes États élus ou pour des États élus différents) au moins l'un d'entre eux doit remplir les conditions requises.

Où la demande d'examen préliminaire international doit-elle être présentée ? (article 31.6)a)) : la demande d'examen préliminaire international doit être présentée à une administration chargée de l'examen préliminaire international (IPEA) compétente. L'office récepteur auprès duquel la demande internationale a été déposée donnera, sur demande, des renseignements au sujet de l'administration chargée de l'examen préliminaire international qui est compétente (voir aussi *le Guide du déposant du PCT*, volume I/B, annexe C). Si plusieurs administrations chargées de l'examen préliminaire international sont compétentes, le déposant doit présenter la demande d'examen préliminaire international à l'administration de son choix (et lui payer les taxes). Cette administration peut être indiquée, de préférence au moyen de son nom ou de son code à deux lettres, en haut de la première feuille de la demande d'examen préliminaire international, dans l'espace prévu à cet effet.

Quand la demande d'examen préliminaire international doit-elle être présentée ? (article 39.1)) : la demande d'examen préliminaire international doit être présentée avant l'expiration d'un délai de *19 mois à compter de la date de priorité* pour que le délai d'ouverture de la phase nationale de la procédure selon le PCT puisse passer, en ce qui concerne les États élus, de 20 à 30 mois à compter de la date de priorité. *Important* : si la demande d'examen préliminaire international est présentée plus tard, la phase nationale ne sera pas différée et le déposant devra l'aborder avant l'expiration du délai applicable en vertu de l'article 22 (qui est habituellement de 20 mois à compter de la date de priorité).

En quelle langue la demande d'examen préliminaire international doit-elle être présentée ? (règle 55.1) : la demande d'examen doit être présentée dans la langue dans laquelle l'examen préliminaire international sera effectué (voir les notes relatives au cadre n° IV).

Quelle est la langue à utiliser dans la correspondance ? (règles 66.9 et 92.2 et instruction 104) : toute lettre adressée par le déposant à l'administration chargée de l'examen préliminaire international doit être rédigée dans la même langue que la demande internationale qu'elle concerne. Cependant, lorsque l'examen préliminaire international doit être effectué sur la base d'une traduction (voir les notes relatives au cadre n° IV), toute lettre adressée par le déposant à l'administration chargée de cet examen doit être rédigée dans la langue de la traduction. L'administration chargée de l'examen peut autoriser l'utilisation d'autres langues pour des lettres qui ne contiennent pas de modifications de la demande internationale ou qui ne se rapportent pas à des modifications. Toute lettre adressée par le déposant au Bureau international doit être rédigée en anglais ou en français, au choix du déposant. Toutefois, si la langue de la demande internationale est l'anglais, la lettre doit être rédigée en anglais; si la langue de la demande internationale est le français, la lettre doit être rédigée en français.

Quelles taxes doivent être payées et quand ? (règles 57 et 58) : l'examen préliminaire international donne lieu au paiement de deux taxes : la taxe d'examen préliminaire et la taxe de traitement. Ces deux taxes doivent être acquittées auprès de l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date de présentation de la demande d'examen. La feuille de calcul des taxes devrait être utilisée à cette fin. Pour de plus amples renseignements concernant le paiement des taxes, voir les notes relatives à cette feuille.

CADRE N° I

Référence du dossier du déposant ou du mandataire : il est possible d'indiquer, à titre facultatif, une telle référence de dossier. Celle-ci ne devrait pas dépasser 12 caractères. L'administration chargée de l'examen préliminaire international peut ne pas tenir compte des caractères en sus du douzième (instruction 109).

Identification de la demande internationale (règle 53.6) : le numéro de la demande internationale doit être indiqué dans le cadre n° I. Si la demande d'examen préliminaire international est présentée alors même que le numéro de la demande internationale n'a pas encore été notifié par l'office récepteur, le nom de cet office doit être indiqué en lieu et place du numéro de la demande internationale.

Date du dépôt international et date de priorité (la plus ancienne) (instruction 110) : les dates doivent être indiquées au moyen du quantième, en chiffres arabes, suivi du nom du mois puis de l'année en chiffres arabes, dans cet ordre; à côté, au-dessous ou au-dessus de cette indication, il y a lieu de répéter la date, mais entre parenthèses, sous la forme de numéros à deux chiffres arabes, séparés par un point, une barre oblique ou un tiret, et dans l'ordre suivant : quantième, mois et année (celle-ci étant indiquée au moyen des deux derniers chiffres); exemples "24 mars 2000 (24.03.00)", "24 mars 2000 (24/03/00)" ou "24 mars 2000 (24-03-00)". Lorsque la demande internationale revendique la priorité de plusieurs demandes antérieures, la date de dépôt de la plus ancienne demande dont la priorité est revendiquée doit être indiquée en tant que date de priorité.

Titre de l'invention : si l'administration chargée de la recherche internationale a établi un nouveau titre, celui-ci doit être indiqué dans le cadre n° I.

CADRE N° II

Déposant(s) (règle 53.4) : tous les déposants qui ont cette qualité pour les États élus doivent être mentionnés dans la demande d'examen préliminaire international; un déposant mentionné dans la requête (formulaire PCT/RO/101) pour un État qui n'est pas élu n'a pas à être mentionné dans la demande d'examen préliminaire international. Il est à noter que les personnes mentionnées dans la requête comme "inventeur seulement" n'ont pas non plus à être mentionnées dans la demande d'examen préliminaire international.

Reprendre dans le cadre n° II de la demande d'examen préliminaire international les indications requises figurant dans les cadres n°s II et III de la requête. Les notes relatives à la requête s'appliquent *mutatis mutandis*. S'il y a pluralité de déposants pour les États élus dans la demande d'examen préliminaire international, fournir les indications requises sur chacun d'eux; si ces déposants sont plus de trois, porter les indications en question sur une "feuille annexe".

Si, dans la requête, des déposants différents sont indiqués pour différents États désignés, n'indiquer dans le cadre n° II de la demande d'examen préliminaire international que les déposants ayant cette qualité pour les États élus dans le cadre n° V (il n'y a pas lieu d'indiquer les États pour lesquels une personne est mentionnée comme déposant, car ces indications ont été fournies dans la requête).

CADRE N° III

Mandataire ou représentant commun (règles 53.5, 90.1 et 90.2) : cocher les cases appropriées afin d'indiquer, *premièrement*, si la personne indiquée dans le cadre n° III est mandataire ou représentant commun, *deuxièmement*, si cette personne *a été désignée à une date antérieure* (c'est-à-dire au cours de la procédure prévue au chapitre I), *est désignée dans la demande d'examen préliminaire international* (toute désignation antérieure d'une autre personne étant révoquée) ou *est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international* (sans qu'il y ait révocation d'une désignation antérieure) en sus de la ou des personnes désignées antérieurement.

Lorsqu'une personne supplémentaire est désignée spécialement pour la procédure devant l'administration chargée de l'examen préliminaire international, toute la correspondance émanant de cette administration sera adressée seulement à cette personne supplémentaire.

Un pouvoir distinct doit être déposé auprès de l'administration chargée de l'examen préliminaire international, du Bureau international ou de l'office récepteur si la personne qui est désignée au moment de la présentation de la demande d'examen préliminaire international (et qui n'a donc pas été désignée antérieurement) signe cette demande d'examen au nom du déposant (règle 90.4).

Adresse pour la correspondance (règle 4.4.d) et instruction 108) : si un mandataire est désigné, toute correspondance destinée au déposant sera envoyée à l'adresse indiquée pour ce mandataire (ou pour le mandataire mentionné en premier, si plusieurs mandataires ont été désignés). Lorsque, s'il y a plusieurs déposants, l'un d'eux est désigné comme représentant commun, l'adresse indiquée pour ce déposant dans le cadre n° III sera utilisée.

Si aucun mandataire ni représentant commun n'est désigné, la correspondance sera envoyée à l'adresse – indiquée dans le cadre n° II – du déposant (s'il n'y a qu'une seule personne indiquée comme déposant) ou du déposant considéré comme le représentant commun (s'il y a plusieurs personnes indiquées comme déposants). Cependant, si le ou les déposants souhaitent dans ce cas que la correspondance soit envoyée à une adresse différente, il est possible d'indiquer cette adresse dans le cadre n° III, en lieu et place de la désignation d'un mandataire ou d'un représentant commun. C'est dans ce cas et seulement dans ce cas qu'il y a lieu de cocher la dernière case du cadre n° III (c'est-à-dire que la dernière case ne doit pas être cochée si l'une des cases "mandataire" ou "représentant commun" a été cochée).

CADRE N° IV

Déclaration concernant les modifications (règles 53.2.a)v), 53.9, 62, 66.1 et 69.1) : l'examen préliminaire international commencera sur la base de la demande internationale telle qu'elle a été déposée ou, si des modifications ont été déposées, telle qu'elle a été modifiée. Cocher la ou les cases appropriées pour permettre à l'administration chargée de l'examen préliminaire international de déterminer si elle peut commencer l'examen préliminaire international et sur quelle base.

Cocher la ou les cases appropriées de la rubrique n° 1 pour indiquer si l'examen préliminaire international doit commencer sur la base de la demande internationale telle qu'elle a été déposée ou s'il doit être tenu compte de modifications, selon le cas. S'il y a des modifications à prendre en compte, le déposant doit présenter *avec la demande d'examen* une copie des modifications apportées aux revendications en vertu de l'article 19 (règle 53.9.a)i)) ou des modifications apportées à la demande internationale en vertu de l'article 34 (règle 53.9.c)), ou une copie des deux types de modifications, selon le cas. Si une case est cochée et que les documents correspondants ne sont pas joints à la demande d'examen préliminaire international, le commencement de cet examen sera différé jusqu'à ce que l'administration qui en est chargée les reçoive.

Cocher la case n° 2 si des modifications apportées aux revendications en vertu de l'article 19 ont été déposées auprès du Bureau international lors de la procédure prévue au chapitre I, et que le déposant ne veut pas qu'il en soit tenu compte aux fins de l'examen préliminaire international lorsque celui-ci commencera (règle 53.9.a)ii)).

Cocher la case n° 3 si le délai fixé pour le dépôt de modifications des revendications en vertu de l'article 19 n'a

pas expiré au moment où la demande d'examen préliminaire international est présentée et que le déposant veut conserver la possibilité de déposer de telles modifications; il est ainsi demandé à l'administration chargée de l'examen préliminaire international de différer le commencement de cet examen (règles 53.9.b) et 69.1.d)). Il est à noter que l'examen commencera, en tout état de cause, après l'expiration d'un délai de 20 mois à compter de la date de priorité, même si le délai pour déposer des modifications n'a pas expiré ou que l'administration chargée de l'examen préliminaire international n'a reçu aucune modification.

Si aucune case n'est cochée, la procédure décrite dans la note figurant au bas du cadre sera suivie.

Langue aux fins de l'examen préliminaire international (règle 55.2) : lorsque ni la langue dans laquelle la demande internationale est déposée ni la langue dans laquelle elle est publiée n'est acceptée par l'administration chargée de l'examen préliminaire international qui effectuera cet examen, le déposant doit remettre avec la demande d'examen préliminaire international une traduction de la demande internationale dans une langue qui est à la fois une langue acceptée par cette administration et une langue de publication.

Lorsqu'une traduction répondant à ces critères a déjà été remise à l'administration chargée de la recherche internationale pour les besoins de cette recherche et que l'administration chargée de l'examen préliminaire international fait partie du même office ou de la même organisation intergouvernementale que l'administration chargée de la recherche internationale, il n'est pas nécessaire pour le déposant de remettre une autre traduction. Dans ce cas, l'examen préliminaire international est effectué sur la base de la traduction remise aux fins de la recherche internationale.

La langue dans laquelle sera effectué l'examen préliminaire international doit être indiquée dans le cadre n° IV sur la ligne pointillée, et la case appropriée la concernant doit être cochée.

Langue des modifications (règles 55.3 et 66.9) : les modifications et les lettres qui s'y rapportent doivent être rédigées dans la langue dans laquelle l'examen préliminaire international sera effectué, comme il est expliqué aux paragraphes précédents.

Délai imparti pour remettre une traduction de la demande internationale (règle 55.2) : toute traduction de la demande internationale qui est exigée doit être remise (par le déposant) en même temps que la demande d'examen préliminaire international. Si la traduction n'est pas remise en même temps, l'administration chargée de l'examen préliminaire international invitera le déposant à remettre cette traduction dans un délai qui sera d'au moins un mois à compter de la date de l'invitation. Ce délai peut être prorogé par l'administration chargée de l'examen préliminaire international.

CADRE N° V

Élection d'États (règle 53.7) : seuls peuvent être élus les États qui sont liés par le chapitre II du PCT *et* qui ont été désignés dans la demande internationale (c'est-à-dire qui ont fait l'objet de désignations faites en vertu de la règle 4.9.a), confirmées en vertu de la règle 4.9.c) ou considérées comme ayant été faites, en vertu de la règle 32.2.a)i)). Ces États sont les "États éligibles".

Pour faciliter la tâche des déposants et les protéger, le cadre n° V contient une déclaration selon laquelle tous les États éligibles sont élus. Ce n'est que si le déposant ne souhaite pas élire certains États éligibles qu'il doit indiquer le nom ou le code à deux lettres de ces États après les mots "souhaite ne pas élire : ".

Il n'est pas nécessaire d'indiquer dans la demande d'examen préliminaire international quelle forme de protection ou de traitement est souhaitée pour tel ou tel État élu puisque les indications portées dans la demande internationale lors de la désignation de cet État restent valables.

CADRE N° VI

Bordereau : il est recommandé de remplir soigneusement ce cadre pour que l'administration chargée de l'examen préliminaire international puisse déterminer le plus rapidement possible si elle est en possession de la ou des modifications ou de la ou des lettres sur la base desquelles le déposant souhaite que l'examen préliminaire international commence.

Lorsque la demande internationale contient la divulgation d'une ou plusieurs séquences de nucléotides ou d'acides aminés, et qu'une copie du listage des séquences sous forme déchiffrable par ordinateur, conforme à la norme figurant dans les instructions administratives, est requise par l'administration chargée de l'examen préliminaire international, le déposant peut fournir à cette administration, conjointement avec la demande d'examen préliminaire international, le listage en question sous une forme déchiffrable par ordinateur. S'il le fait, la case n° 5 doit être cochée.

CADRE N° VII

Signature (règles 53.8, 90.3)a) et 90.4)a)) : la demande d'examen préliminaire international doit être signée par le déposant ou par son mandataire; s'il y a plusieurs déposants, elle peut l'être par le représentant commun. Si elle n'est pas signée par une ou plusieurs personnes qui ont la qualité de déposant pour les États élus (une personne qui est déposant seulement pour un État non élu n'a pas besoin de signer la demande d'examen préliminaire international), un pouvoir signé par ces personnes doit être déposé auprès du Bureau international, de l'office récepteur ou de l'administration chargée de l'examen préliminaire international, sauf si le mandataire a été désigné à une date antérieure.

NOTES RELATIVES A LA FEUILLE DE CALCUL DES TAXES (ANNEXE DU FORMULAIRE PCT/IPEA/401)

La feuille de calcul des taxes a pour objet d'aider le déposant à recenser les taxes prescrites et à calculer les montants à payer. Il lui est vivement recommandé de remplir cette feuille en portant les montants appropriés dans les cadres prévus et de la joindre à la demande d'examen préliminaire international. Cela aidera l'administration chargée de l'examen préliminaire international (IPEA) à vérifier les calculs et à y déceler d'éventuelles erreurs.

CALCUL DES TAXES PRESCRITES

L'examen préliminaire international donne lieu au paiement de deux taxes :

i) la taxe d'examen préliminaire, au profit de l'administration chargée de l'examen préliminaire international (règle 58.1);

ii) la taxe de traitement, au profit du Bureau international (règle 57).

Ces deux taxes doivent être payées à l'administration chargée de l'examen préliminaire international dans un délai d'un mois à compter de la date à laquelle la demande d'examen préliminaire international est présentée. Le montant dû est le montant applicable à la date de présentation de cette demande d'examen (règles 57.3 et 58.1.b)). Les taxes doivent être payées dans une monnaie que l'administration chargée de l'examen préliminaire international accepte.

Des renseignements au sujet du montant de ces taxes ou de leur contre-valeur en d'autres monnaies peuvent être obtenus auprès de l'administration chargée de l'examen préliminaire international ou de l'office récepteur. Ces renseignements figurent également dans le *Guide du déposant du PCT*, volume I/B, annexe E, et sont aussi publiés périodiquement dans la section IV de la *Gazette du PCT*.

Cadre P : le montant de la taxe d'examen préliminaire doit être inscrit dans le cadre P.

Cadre H : le montant de la taxe de traitement doit être inscrit dans le cadre H.

Réduction de la taxe de traitement pour les déposants de certains États : un déposant qui est une personne physique qui est ressortissante d'un État, et est domiciliée dans un État, où le revenu national par habitant (déterminé d'après le revenu national moyen par habitant retenu par l'Organisation des Nations Unies pour arrêter son barème des contributions au titre des années 1995, 1996 et 1997) est inférieur à 3 000 dollars des États-Unis a droit, conformément au barème de taxes, à une réduction de 75% de certaines taxes du PCT, dont la taxe de traitement. S'il y a plusieurs déposants, chacun d'eux doit satisfaire à ces critères. La réduction de la taxe de traitement s'appliquera automatiquement à tout déposant qui y a droit (ou à tous les déposants qui y ont droit) au vu des indications de nom, de nationalité et de domicile données dans le cadre II de la demande d'examen préliminaire international.

La réduction de la taxe s'appliquera même si l'un ou plusieurs des déposants ne viennent pas d'États contractants du PCT, à condition que chacun d'eux soit ressortissant d'un État, et domicilié dans un État, qui répond aux critères mentionnés ci-dessus et qu'au moins l'un d'eux soit ressortissant d'un État contractant du PCT, et domicilié dans un tel État, et ait donc le droit de déposer une demande internationale.

Les personnes physiques qui sont ressortissantes des États contractants du PCT suivants, et qui sont domiciliées dans ces États, peuvent bénéficier de cette réduction : AL Albanie, AM Arménie, AZ Azerbaïdjan, BA Bosnie-Herzégovine, BF Burkina Faso, BG Bulgarie, BJ Bénin, BR Brésil, BY Bélarus, BZ Belize, CF République centrafricaine, CG Congo, CI Côte d'Ivoire, CM Cameroun, CN Chine, CR Costa Rica, CU Cuba, CZ République tchèque, DM Dominique, DZ Algérie, EE Estonie, GA Gabon, GD Grenade, GE Géorgie, GH Ghana, GM Gambie, GN Guinée, GW Guinée-Bissau, HR Croatie, HU Hongrie, ID Indonésie, IN Inde, KE Kenya, KG Kirghizistan, KP République populaire démocratique de Corée, KZ Kazakhstan, LC Sainte-Lucie, LK Sri Lanka, LR Libéria, LS Lesotho, LT Lituanie, LV Lettonie, MA Maroc, MD République de Moldova, MG Madagascar, MK Ex-République yougoslave de Macédoine, ML Mali, MN Mongolie, MR Mauritanie, MW Malawi, MZ Mozambique, MX Mexique, NE Niger, PL Pologne, RO Roumanie, RU Fédération de Russie, SD Soudan, SK Slovaquie, SL Sierra Leone, SN Sénégal, SZ Swaziland, TD Tchad, TG Togo, TJ Tadjikistan, TM Turkménistan, TR Turquie, TZ République-Unie de Tanzanie, UA Ukraine, UG Ouganda, UZ Ouzbékistan, VN Viet Nam, YU Yougoslavie, ZA Afrique du Sud et ZW Zimbabwe. En ce qui concerne d'autres États, il conviendra de s'adresser au Bureau international.

Calcul de la taxe de traitement en cas de réduction : lorsque le déposant a (ou tous les déposants ont) droit à une réduction de la taxe de traitement, le montant devant figurer sous I est égal à 25% de la taxe de traitement.

Total : le total des montants inscrits dans les cadres P et H représente la somme à verser à l'administration chargée de l'examen préliminaire international.

MODE DE PAIEMENT

Pour aider l'administration chargée de l'examen préliminaire international à déterminer le mode de paiement des taxes prescrites qui a été utilisé, il est recommandé de cocher la ou les cases appropriées.

AUTORISATION DE DÉBITER UN COMPTE DE DÉPÔT

Le déposant devrait s'assurer que l'administration chargée de l'examen préliminaire international permet l'utilisation de comptes de dépôt pour le paiement des taxes du PCT. En outre, il est recommandé qu'il prenne connaissance des modalités particulières d'utilisation des comptes de dépôt auprès de cette administration étant donné que toutes les administrations chargées de l'examen préliminaire international n'offrent pas les mêmes services.

Enfin, si l'administration chargée de l'examen préliminaire international n'est pas l'office national auprès duquel, ou l'organisation intergouvernementale auprès de laquelle, la demande internationale a été déposée, le déposant ne peut pas utiliser le compte de dépôt auprès de l'office récepteur pour payer les taxes d'examen préliminaire et de traitement dues à l'administration chargée de l'examen préliminaire international.

L'administration chargée de l'examen préliminaire international ne débitera un compte de dépôt du montant des taxes que si l'autorisation corespondante est signée et qu'elle indique le numéro du compte de dépôt.
