SCP/38 JPAA Statement

Agenda 6. Quality of patents, including opposition systems

*− Proposal by the Delegation of China on information exchange concerning the protection of intellectual property in connection with outer space activities (Document **SCP/38/10**)*

JPAA Statement on SCP/38/10

JPAA expresses its appreciation to the Secretariat for preparing this document.

Activities in outer space by states and private entities have expanded rapidly in recent years and are no longer exceptional.

JPAA supports future exchanges of information and discussions in the SCP concerning the protection of intellectual property in connection with outer space activities, including innovations created or used in outer space.
