Statements by the Republic of Kazakhstan on the Agenda Items of SCP/38

Agenda Item 5. Exceptions and Limitations to Patent Rights

Mr. Chair,

The Republic of Kazakhstan expresses its appreciation to the WIPO Secretariat for preparing draft reference document SCP/38/3, concerning exceptions to patent rights for the use of protected subject matter for private and/or non-commercial purposes.

Kazakhstan recognizes the importance of ensuring a balanced approach between the protection of patent holders' exclusive rights and the legitimate interests of society.

We believe that examining different national approaches to regulating such exceptions, as well as exchanging experience on their practical application, contributes to a deeper understanding of existing legal mechanisms.

The Republic of Kazakhstan supports further discussion of this issue within the Committee, taking into account the specific features of national legal systems.

Thank you, Mr. Chair.
