i) Study on the determination of inventorship and conditions of foreign filing, with a view to identifying potential challenges for innovators in the cross-border collaborative environment

1. Which of the following does the applicable legal framework in your jurisdiction require before a patent application can be filed in another country or at a regional patent organization?

Any other mandatory authorization (Please specify): No requirements. Local applicants are free to file abroad

2. Please list the statutes or guidance documents that patent applicants in your country can consult to inform themselves of the foreign filing requirements and the procedure to follow.

As most of the interest would be to use the PCT to file abroad, local applicants usually consult the national office. They are also directed to the PCT Applicant's Guide.

4. What specific criteria will trigger the Foreign Filing Conditionality?

Any other criterion (Please specify): No trigger

5. Does your law allow for a deemed license or automatic approval, if the Office does not act or respond within a specific time period?

No

6. Does your jurisdiction's patent law provide for the imposition of a "Secrecy Order" (or other similar national security restrictions) that prohibits or restricts an applicant from filing for patent protection in other jurisdictions?

No
